

Last Days 901

Chapter 901: Teleportation Formation (2)

Ignoring Murin who was provoking them, Riya raised her hand and drew the runes in the air.

The others glanced in her direction and within three seconds, the runes were finished and a light shot down from their direction towards the sea.

Swoosh! Splash!

The water immediately surged up, large waves coming up and down. The sailors who were maintaining the ship had a look of horror on their faces as if they couldn't believe what they were seeing.

This group of returnees didn't pay attention to the sailors that much.

Swish!

A magic beast appeared from Murin's side and Murin gave it an order, "Stabilize the ship."

Roar

The other returnee watched as the magic beast moved to the side. The next moment, they saw the water around the ship stabilized forcefully, turning the previously shaking ship to be as stable as rock.

They didn't care that much, though.

Riya could also use runes to stabilize the ship and forced it to remain extremely stable, but she didn't do it.

The ship will not be overturned as long as these returnees were still onboard.

None of them were that easy to deal with and they would not let themselves die so easily. And it was nothing much for them to float and glide on the air.

They had already reached rank 7.

Even if flying would consume a lot of their mana, they could still do it.

Well, except for Peter.

But he will definitely try to swim across the ocean if it was necessary.

Of course, they would not let the ship sink since there were also other people who brought them here.

Swish!

Riya watched as the rank 7 magic beasts came up with rage and then stunned on the spot. They all could see that this rank 7 magic beast was a large Octopus with several tentacles moving forward. Behind the Octopus was a large shark that also looked stunned when they saw these people.

“It seems their instincts are not completely dull.” Riya nodded when she saw these magic beasts froze on their tracks. She was absolutely sure that they should have recognized that the strength of these returnees were not something they could contend with.

Splash!

These two rank 7 magic beasts wanted to go back, but how could they let them go so easily?

Swoosh! Jleb!

An arrow pierced through the Octopus and then a figure fell on top of the shark, punching it upwards.

Splash!

Peter fell down to the water and then laughed as he swam while kicking away these two rank 7 magic beasts.

He felt that it was really fun.

Slash!

Following the attack from Ruth, a sword slash came from Samuel, splitting the stormy seas into two and water surged. The split water rose and they could even see the sea floor for a short period of time.

Countless other magic beasts below were unfortunately killed by the large slash from Samuel.

Bam!

The shark that was thrown up were pierced through as magic element came to it and then the body exploded in gory sight.

Blood splatters all over, but they felt nothing and only watched indifferently.

“There might be other rank 7 magic beasts below, but they can’t be attracted so easily anymore,” Riya commented as she looked below.

On the side, Peter had already swam back to the ship and climbed up the railings. He looked like a mess but there was a big grin on his face.

Clearly, he enjoyed their short battle in the sea just now.

“Shall we divide the spoils?”

“You can take it, it’s just rank 7 magic beasts.”

In the past month, they have killed numerous rank 7 magic beasts that they could no longer count it anymore. Just thinking about their miserable days when being hunted by numerous rank 7 magic beasts...

They really didn’t think highly of these rank 7 magic beasts’ corpses anymore.

As long as they wanted to, they could kill numerous rank 7 magic beasts. All they needed is just a place with a lot of rank 7 magic beasts

But none of them were that diligent.

They were already tired from killing so many rank 7 magic beasts in their respective crack that if they were asked to do it again, they would not be willing to.

It would be better to say that they just wanted to rest.

Besides, there would be greater challenges waiting for them after they teleported to a completely different world.

“Nah, just leave it to the people here.” Peter waved his hand, not interested either. The Martial Arts Association had helped him to prepare enough food for a year’s time in his space storage scroll.

He just had to make sure that he would not lose it.

Otherwise, his life would be very miserable.

After all, his cooking skills were a bit...

It was definitely unpalatable.

While it would not affect his life that much, but his quality of life will definitely decrease because of this matter and Peter didn't want that.

He hated his own barbecue skills!

"Sure." Samuel shrugged.

Riya stretched her hand and then leaned against the railings, looking at the magic beast that Murin summoned with interest. She had to say that Murin was truly becoming an allrounder by gathering a lot of magic beasts on his own.

But with so many different magic beasts, she was absolutely sure that Murin had to pay a high price to be able to keep them all well fed and so on.

After all, it was not that easy to keep these magic beasts without sufficient strength and resources.

Forget it.

It was not her business.

Splash!

The sailors who watched the operation of these returnees were full of awe and silently looked away. They didn't dare to make trouble and they knew very well that each of them were extremely powerful.

At this moment, they hoped that they could arrive at the island as quickly as possible and send them all away.

Chapter 902: Teleportation Formation (3)

“We’re here.”

Seeing the island in front of them, the six of them jumped down the ship one by one through their own way.

The stone formation could be seen from here and it looked ordinary.

Well, aesthetically speaking, it was beautiful.

But if they were asked to say about the use of this thing...

None of them could answer.

Only Riya’s expression was a bit strange when she looked at the teleportation formation in front of her and seemed to see something that they couldn’t see.

...

Other place

The officials were basically having a meeting with each other because of these returnees. They had to say that having so many capable people around were really troublesome.

If it was not because they all knew that most of these returnees had no intention of destroying a country, they would have never let any of them roam freely out there.

It would be better to suppress them all!

And seeing how they treated the two rank 7 magic beasts with such ease, the officials sighed to themselves.

Their fighting power was still extremely strong.

“Is it the correct decision to send them all off the Green Planet like this?” One of them couldn’t help but ask.

The others looked at each other.

This was a video conference because it was impossible for them to travel such a long distance just to watch these returnees left the Green Planet.

“As long as the remaining returnees don’t make trouble, it would be fine.”

When this was said, the representative from Continent Y had a black face.

The three returnees in his own place had just made trouble not long ago. The soldiers blocked one of the cracks while there were still many magic beasts pouring out from the other two cracks.

It was very chaotic.

And the three returnees were deeply unwilling to help them and had been moving back again and again.

This made them felt that these people were really unreliable.

How come all the returnees in his continent was like this?

The representative from Continent Y had long doubted his life.

“Once they left, we’ll focus on improving the soldiers’ strength. The threat in a year’s time is still hanging on our heads.”

When the topic came back, everyone’s expression turned solemn.

Samuel and the others left the Green Planet because they wanted to explore the other world, possibly obtaining more resources for themselves. And when there was a chance, they will definitely come forward and advance through their ranks.

It would not be easy.

Because there was no clear instruction to help them to advance through ranks like before.

...

Samuel and the others’ side.

After they arrived near the teleportation array, everyone stopped. Only Riya stepped forward and stopped beside the lines, reading through it and her eyes flickered slightly.

“How is it?” Samuel asked.

They were not very good at runes and formation, so they could only wait until Riya said that it was fine.

After all, this would be a teleportation that brought them to a completely different world. If they were not careful enough, they might end up heading to their own death.

No one wanted such a thing to happen.

Riya’s eyes flickered as she looked at the runes and formation lines in front of her.

To be honest, she felt a bit strange when she saw it.

But now...

“There’s no problem with the formation itself, but the destination has different time flow compared to this world.” Riya glanced at the others. “It’s three times faster, which meant that three years in that world is equivalent to one year in this world.”

Peter arched his eyebrows. “Isn’t it a good thing?”

“No, if the time flow is not the same, how can you ensure that we’ll return at the right time?” Samuel frowned.

If they stayed there for a long time, it would be impossible for them to return in time. And if the passage and invasion had already happened before their return...

What awaited them would be a devastated world instead of the Green Planet that they wanted to protect.

This was not what they wanted.

“You can only use this teleportation formation once.” Riya ignored their questions. “Once you head over to the other world, you can come back through coming back to the gate where you arrived, but there will only be one chance.”

“...How did you know so much just from reading these?” Dina looked at the lines in front of them and felt confused.

Are there any information there?

“There are lines written in ancient language here,” Riya replied.

“...I can’t speak ancient language.”

The others also looked at each other and only Samuel stepped forward to read the contents. Because of his family’s heritage, he had the chance to come into contact with the ancient language.

Many of his family’s secret techniques were still written in ancient language, so Samuel had to learn them.

Now that he read the passage...

“You will know when it’s the time to return because when the moon turns red, it meant that there’s less than one month’s left for the passage to be opened in this world. This is the warning given to all of you,” Samuel read the passage and then arched his eyebrows.

Then this is good.

They would not miss the appointment.

“Ready?” Riya asked.

“Yes.”

“Stand inside the formation and it’ll activate.”

The instruction was extremely clear and they all walked into the formation while looking at each other.

It was obvious that they were waiting for the formation activation, but Riya was silent and closed her eyes.

The next moment, they felt a faint connection in their mind, asking them whether they wanted to go and whether they were ready.

“This voice...” Ruth’s expression changes slightly.

They all recognized this voice.

It was the same voice that send them the message before.

“Ready?”

“Yes.”

Swish!

Energy surged and with a flash of bright light, the six people disappeared.

When Riya opened her eyes again, she swiftly moved away with her hand raised.

Bang!

This is the end of Volume 8. I hope you like the story so far! ^v^

Chapter 903: FIGHT!

Slash!

Without hesitation, Samuel swung his sword towards the magic beast that appeared in front of them.

roar

What greeted them was the fierce attack of several other magic beasts nearby.

Bang!

The attack was met with the block from the magic beast and the contemptuous look from the magic beast.

“How?” Peter was shocked as he kicked over the magic beast that almost pressed him down. He was stunned when he saw that Samuel’s attack was blocked perfectly by the magic beast in front of them.

Dina was frowning and holding onto her staff as mana gathered violently.

Ruth had already shot a few arrows towards the few flying magic beasts that rushed over when they heard the commotion.

Lastly, Murin had already summoned his magic beasts, surrounding him tightly from all direction. It was obvious that he didn’t bother saving his mana because his life is definitely the most important thing right now.

The information didn’t say that they would be attacked by the magic beasts upon their arrival.

Thinking about this, he wanted to curse out loud.

Whoever wrote that message should revise it!

Boom!

Mana surged and all of them moved to different locations as these magic beasts were attacking crazily.

Riya turned around as she drew the Protective Rune Circle around herself. The gate mentioned by the message was right behind them, remained sturdy even under the fierce attack of these magic beasts.

But the areas in front of the gate had long turned into a crater.

It seemed that the magic beasts had long noticed the uniqueness of this place and were working hard to destroy it.

Unfortunately, they didn't have enough ability to do so.

Bang! Bang! Bang!

Series of attacks were launched once more, killing the lower ranked magic beasts. It was obvious that these magic beasts never truly cooperated together and killed each other in the way that would make them feel odd.

There was truly no concept of comrades between magic beasts.

All they knew is to kill their enemies in front of them.

Clang!

Samuel stood in front of Riya, buying the precious time for Riya to finish the Protective Rune Circle. Even though he knew that her clothes had been engraved with runes and so on, Samuel would not take the risk.

Their opponent this time is a proper rank 8 magic beast.

There hadn't been any powerful magic beasts as their opponent for a long time and the magic beasts that they faced on the Green Planet were only rank 7 at most.

Right now, they were still at rank 7.

“Tsk.” Ruth fired several arrows in succession and explosion sounded as it hit the large rank 8 magic beast in front of them.

But when the dust settled, they were dumbfounded to see that none of the attack could cause even a scratch on the rank 8 magic beast.

‘Is this the real strength of a rank 8 magic beast?’ Ruth frowned as she held her bow tightly.

She had long heard about these magic beasts’ capabilities, but she didn’t have the chance to fight against them in the past.

Because not long after she advanced to rank 7, she directly faced the grand magic beasts’ tide. The higher ranked magic beasts were naturally handled by others and only the weaker ones were handed over to them.

But it was more than enough to kill everyone.

When their ability was not good enough, these magic beasts simply used their great advantage in number to kill them all.

roar

BOOM!

The rank 8 magic beast opened its mouth and shot fire out, burning everyone on the scene.

“Damn it!” Murin yelled as he jumped on top of his magic beast and directly gave it order to fly as far away as possible.

He didn't sign up for this!

Even if they had been warned that their journey to this world would be dangerous, who could tell him why he had face against a rank 8 magic beast right after he enter?

bulls***!

Murin was yelling and screaming as he left with the magic beasts under his command covering up his retreat.

The large rank 8 magic beast didn't pay attention to Murin, but there were other flying magic beasts chasing after him.

Peng! Peng!

Peter moved closer to the rank 8 magic beast, launching fierce punches and attack. The aura surged around his body, protecting himself from the scorching fire.

But it was useless.

He could tell that this damn rank 8 magic beast was too strong.

"We have to get away from here." Dina's expression was not very good as she forcefully used dark element to suppress the rank 8 magic beast. But she could sense that when her magic came into contact with this rank 8 magic beast, it disappeared mysteriously.

They were not the opponent of a rank 8 magic beast.

The power of law that a rank 8 magic beast mastered was by no means any less than that of humans who had reached rank 8.

If they continued to stay here, they would die.

Samuel's expression was solemn as he was prepared to block the next attack if it came to them.

Swish!

The moment the Protective Rune Circle was drawn, the attack of the magic beasts were repelled against them and Riya breathed a sigh of relief.

Samuel also saw this and knew that he could stop protecting Riya and focused on his battle.

But...

"Watch out!"

"It's elemental explosion."

Elemental explosion... it should have been the unique skills of the elemental magicians, especially those who had learned in the tower.

But this move was actually inspired by the magic beasts.

Because when some magic beasts were desperate... they would do everything possible to destroy themselves and their enemies. For magic beasts with more than three elements, they would trigger an elemental explosion, effectively killing themselves and many others around them.

Swish!

"Get out of here!"

Riya's expression turned solemn as she grabbed Samuel and enhanced her speed using runes to grab Peter before jumping back.

"Hold your hands together!"

Swoosh!

BOOM!

Chapter 904: Rank 8 Magic Beasts

BOOM!

The radius of a few kilometers were enveloped in explosion and the rank 8 magic beast was roaring angrily. It was obviously affected by the attack of the other stupid magic beast that was not far away from it.

Thud!

They all appeared not far from the rank 8 magic beasts and were affected by the explosion more or less.

"Can't you transport us further away?" Dina cursed out loud when she saw the large number of rank 7 magic beasts around them.

They were still in the middle of the battle!

"Not enough mana." Riya's expression was not very good.

This was the first time she did a group teleportation after advancing to rank 7. Moreover, this was a teleportation without fixed point, which meant that it was a random teleportation.

Random teleportation was a very dangerous skill that no rune master would dare to use easily.

Even though many rune master could learn teleportation formation ever since they were rank 5, they would not dare to use it before they could master it. Moreover, they would only dare to use it if they had already mastered the necessary formation and runes used for the teleportation formation.

Otherwise...

Forget it.

They might be torn apart in the space without any corpse left.

After all, teleportation is basically jumping through the space to their destination and if their skills were not good enough, they couldn't do it.

Riya didn't have time to go further away, so she could only use a random teleportation formation.

The random teleportation formation was basically teleporting them to a random location without knowing where it is exactly. This kind of teleportation formation has great risk because they could be teleported to a dangerous place instead.

But in an emergency, who could care so much?

If they didn't teleport away, they would have been washed away by the explosion from the group of rank 7 magic beasts in front of them.

The other drawback was the large amount of mana needed to activate the random teleportation formation. Unlike the fixed formation where the amount of formation would just depend on how many people would be teleported over, the random teleportation formation had to 'create' a destination with mana.

In this way, if the user mana's were not enough...

They couldn't go far away.

This was the case for Riya because she was teleporting five rank 7 magician, magic warrior, and warrior.

The mana needed to ensure their safety was too huge.

It was basically impossible for them to go far away.

roar!

At this moment, the large rank 8 magic beasts had already noticed them and roared over once more. It was obvious that it was extremely displeased.

After being hit by the self destruction of some lower ranked magic beasts, its target also tried to run away.

It was angry.

"Get away from here!"

Boom!

The magic beast flicked its large tail on the ground, cracking it over and they swiftly escaped to five different direction. Even though they had never cooperated before, they all knew that it would be safer for them to separate than to stay in one place.

Moreover, their enemy was not only this one rank 8 magic beast but also a large number of rank 7 magic beasts around.

This is suffocating.

“Damn it!”

Peter dashed forward and didn't hesitate to attack the body of the rank 7 magic beast. The moment the attack connected, he could feel pain on his legs and Peter felt bitter.

Even with his high defense, he could still feel pain.

How about the others?

It was only at this moment Peter understood the real gap between those at rank 7 and the rank 8.

They never truly had the chance to understand the strength of the rank 8 magic beasts before their inevitable death in their 'previous life.'

“I'll be the channel of thunder, transmitting the power of lightning and projecting it towards my enemy... the great lightning spear!”

Slash!

“I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!”

“I'm the embodiment of wind. Let the sharp wind materialize into my arrow and strike the enemy in front of me, arrow wind strike!”

Boom! Boom!

Three different attacks were heading towards the large rank 8 magic beast, attacking from different direction.

Even if they knew that they might not win, they will not give up easily and still tried their best to attack again.

Riya saw this and didn't join in the attack.

What a joke.

Her own attack power was definitely not that high. At least, compared to this group of people with strong attack power, it would be better for her not to make trouble and just do other things.

Swish!

Several mana stones appeared and Riya crushed them, increasing the mana around her and forcefully absorbing it into her body.

If they wanted to leave using the random teleportation formation, she had to use a large amount of mana. And the mana of a rank 7 magician... rune master alone was not enough.

Riya looked at the large number of rank 7 magic beasts around and her eyes narrowed.

That explosion had killed many magic beasts.

Their corpses were almost completely destroyed, but their mana core remained. After all, the mana core is basically the manifestation of mana and it couldn't be destroyed through conventional means so easily.

Riya did have a lot of rank 7 magic core in her space.

But considering their elements...

She had to filter through and find the non elemental magic core.

Otherwise, the magic formation would be unstable and they might end up being thrown in the space.

Swish!

Seeing the rank 8 magic beast suddenly turned his attention over, Riya swiftly ran away once again.

Bam! Bang!

“Riya!”

Chapter 905: Desperate Battle

“I’m fine!” Riya yelled as she rushed to the pack of the rank 7 magic beasts in front of them.

“What are you doing?” Peter was confused when he saw Riya’s move.

These rank 7 magic beasts were stronger than the weakened rank 7 magic beasts that they had faced before. Even if they were already rank 7 and could still deal with ordinary rank 7 magic beasts, it would still take them some time.

They were already facing a rank 8 magic beasts and Riya still wanted to attract more troubles?

Peter didn’t understand.

“Did you go the wrong way?” Dina was confused, but she saw that the rank 8 magic beasts was about to attack, so she immediately chanted once again, “I am the lord of the dark. May the darkness come and

envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!”

Swoosh!

The dark element covered up the entire area almost instantly, but it was barely effective against the rank 8 magic beast.

“Don’t you know any other magic spell?” Peter, who was almost swept over once again, yelled in anger.

“This is the most cost efficient!”

“Don’t think about the cost, damn it! We have to kill that magic beast at the fastest speed possible!”

“Do you really think it’s possible to defeat it?”

Seeing that Peter and Dina had already started quarreling once again, Ruth looked like she had gotten used to this kind of scene. Anyway, she had already seen it several times when they were in City J Base back then.

To be honest, she didn’t understand how these two people could still quarrel when they were in the middle of the battle.

She simply condensed her mana into an arrow once more and her eyes narrowed as she stared at the rank 8 magic beast in front of her.

Swish! Peng!

The arrow couldn’t even penetrate through the skin of the rank 8 magic beast and it was dissipating into the air.

After all, the arrow was formed of mana and when it failed to do its job, it would only dissipate.

“Peter, get away.” Samuel could guess what Riya wanted to do, but he couldn’t help her right now. They had to focus on this rank 8 magic beast in front of them.

Mana gathered once more and this time it was not the lightning element but the fire element.

“I’m the ember of fire, emitting the fire that burn through everything that stand on my way. Everything will perish on the path of flames. Come forward and burn, destroy everything in front of me. Oh fire of destruction!”

BOOM!

Explosion sounded once again and the rank 8 magic beast roared in anger.

ROAR

Countless other magic beasts were running away from the scene, but they were still affected by the aftermath. The magic that Dina and Samuel used were both large scale magic spells, so many magic beasts were killed even if they were not the main target.

Tep.

Riya swiftly moved between these magic beasts, grabbing their magic beasts’ core and inspected it quickly. If it was elemental magic core, she would throw it into her world but if it was non elemental, she will put it in a small pouch that she carried with her.

She had to move quickly and gather enough mana to teleport them miles away before the rank 8 magic beast could kill them.

For this, she had to kill these magic beasts.

Bang!

While they were fighting against the rank 8 magic beast, Murin's expression was not very good either.

He used his flying magic beast to get away from the explosion range and with the other returnees around, the rank 8 magic beast's attention would only fall on them instead of him.

But the aftershock was extremely strong.

He nearly fell down.

To make the matters worse, there were also many other flying magic beasts around, surrounding him and his magic beasts.

It was obvious that if he wanted to get away from here, he had to fight.

"Damn it!" Murin cursed out loud.

He could only summon the other flying magic beast and then took out his flute of beast.

The flute of beast was basically a world treasure that many people coveted back in that world. His master entrusted it to him because he was the only one who wanted to create peace between humans and magic beasts.

Unfortunately, there were many people who disagreed with his move.

So he had to fight.

And he eventually lost his life in that battle.

In this world, Murin knew very well that the flute of beast might be attractive, but other returnees didn't need it and didn't want to take it. He guessed that each of them should have a world treasure that suited themselves the best.

Since that was the case, why would they covet other people's world treasure?

Their own was already enough.

It was also because of this that Murin dared to take it out openly now.

'Can the flute of beast affect the rank 8 magic beast?'

The strength of the flute of beast would depend on the user's strength. Murin himself had only reached rank 7 after a few of his magic beasts advanced to rank 7. But even if he was rank 7, his mana and body was actually weaker than other returnees.

After all, he's a beast masters.

His strength depended on the magic beasts around him and his own strength was actually not that important. The feedback given by the magic beasts were quite a lot, but it was far from enough to make the beast master able to stand on the same height as other professions.

Murin's situation was better.

After all, the number of magic beasts he could have each rank was twice the other beast masters.

So his strength was still extremely strong.

But it's not enough.

Merry Christmas 2025 to those who celebrate it.

By the way, the mini mass release is on 30 December, so there's none today

Chapter 906: Desperate Battle (2)

roar!

The battle on the back made Murin's expression grim. These magic beasts were surrounding him and he didn't dare to turn around and entered the rank 8 magic beast's attack range again.

Even if the other returnees were already having difficulties facing it.

He had seen that none of their attack was effective.

If he went back... given by the fact that he had abandoned them before, the other returnees will definitely let him take the attack from the rank 8 magic beast if it was possible.

Murin is really good at attracting hatred.

At least, almost no returnee would feel good about him and probably wanted to kill him when they had the chance. The only reason they didn't was probably because he had some live saving methods and killing him would also hurt them.

Every single one of them were selfish.

At the very least, none of them were willing to take action for things that might cost them their own lives.

Because they all knew that they have methods that could definitely save their lives in danger.

And who would want to fight to death?

They could finally go back to the Green Planet and have the life that they thought they had lost before.

No one wanted to lose it inexplicably.

So while they disliked Murin, no one actually hated him to death.

The battle in that world was mostly caused because of the difference in their views and also because of Murin's action of wanting to fulfill his teacher's wishes. The others decided to take action when their own interest was threatened, but none of them were truly willing to fight until their death.

It was also because of this that Murin survived for a long time in that world.

He went from one place to another, avoiding the pursuit while trying to fulfill his dream of creating a world where humans and magic beasts could coexist with each other.

Unfortunately, it didn't seem like his actions could do much.

The magic beasts were too unruly and many of them were not willing to coexist with humans. They just wanted to kill the humans, especially those that had been persecuted before.

Murin was confused.

What he wanted seemed to be impossible to achieve.

With more and more people chasing after him, including those annoying people who also joined as the geniuses of the era, they killed his magic beasts one after another, making his fighting strength depleted.

That's how Murin died.

At least, the short version of how he died.

Each of the battle was extremely brutal and when Murin found out that they were all from the Green Planet... he really disliked them.

Asking him to cooperate with these people were definitely impossible and Murin didn't want to be used by the government instead.

He had already failed to fulfill his dream once.

Perhaps he could do it on the Green Planet?

So he started to try it out and the other returnees also ignored him. Their main reason was simply because of the various methods they have learned in their lives that could possibly save their lives in desperate situation.

Later on...

It was because they all came from the Green Planet and had been 'selected specifically' by whoever it is.

They were sent to a completely different world and were trained there for the sake of the Green Planet.

So the other returnees were not willing to attack each other.

Because this would weaken the Green Planet's overall power and they might not be able to survive when the real magic beasts' invasion came.

But Murin felt that it was nothing more than hypocrisy.

Would those people really care about the Green Planet so much?

For Murin, it would not be a problem at all even if the entire Green Planet were to be destroyed in the hands of the magic beasts.

There was nothing much he wanted to do on the Green Planet either.

Since he had no one he truly cared for nor did he care about other people since he was not so noble, Murin chose to live for himself and made a lot of trouble on his own whenever it was possible.

Of course, whether the others were sincere or not was not something Murin cared for.

Instead, he appreciated the returnee from Continent Y more.

They were definitely warriors for daring to go against their government openly and even making use of them. Murin was still maintaining the cooperative relationship in the beginning because he was too weak and needed more of their support and resources.

Only when he managed to grow up did he start to take action on his own.

Bang!

Explosion sounded once again and Murin had to gather his thoughts.

He knew that he didn't have much time to waste, so he could only focus his attention and started playing the flute of beast. This was the second time he used the flute of beast in a large scale battle after coming back to this life.

After all, the previous usage of the flute of beast had already told Murin that it was not very useful.

The magic beasts that were attracted by the flute of beasts were not very strong.

His goal of surrounding people were extremely useless.

On the Green Planet, the number of powerful magic beasts was not large and even the rank 7 magic beasts were restricted in their growth. Since Murin had faced with the real rank 7 magic beasts, he could sense it very clearly.

These rank 7 magic beasts were weak.

So Murin also refrained from using them too much.

Other returnees would be able to deal with these rank 7 magic beasts quickly and only some of them were relatively useful.

But the rank 7 magic beasts that were more powerful couldn't be controlled by the flute of beasts easily.

He would have to focus on them.

In this way, Murin understood that his own base rank was too weak to use the flute of beasts to control a large number of rank 7 magic beasts at the same time. If he had been more powerful, it might succeed.

Chapter 907: Desperate Battle (3)

But the problem is, Murin knew very well that it would take him a long time to reach the stage where he could command a large number of rank 7 magic beasts.

So...

Murin never used it again.

He only used it to attract some specific magic beast when there were not many other magic beasts around. After that, he would sign contract with the powerful magic beast, further strengthening his strength.

It would have been better to use infants or young magic beasts to make the bond stronger.

But Murin didn't have that much time.

He couldn't possibly find weak and ignorant magic beast to be his contract magic beast.

So he could only take the risk and signed contract with stronger magic beast. Relying on the force control from the flute of beast, Murin was able to establish the contract and become a powerful magic beast.

Afterwards, he would nurture the bond slowly but surely.

But this method was too time consuming and Murin had to spend a long time in the early stage to find more useful magic beasts. While he really wanted to pick a rank 7 magic beast to be his contract magic beast, he knew very well that it would be impossible.

Whoever sent them to this world and released these magic beasts on the Green Planet made sure that the rank 7 magic beasts that appeared were all weak enough to be handled by humans on the Green Planet and other returnees.

So even if a large number of rank 7 magic beasts gathered around... it would not work.

Murin felt that it was truly a pity.

Unfortunately, there was nothing that he could do about it.

Since he couldn't pick the rank 7 magic beasts, he would just pick other more useful magic beasts.

'Focus on the flute of beasts!' Murin told himself.

These rank 8 magic beasts would not retreat on their own.

do re mi

Melodious sound started to spread.

The rank 8 magic beast in the distance was not affected in the slightest bit.

Even if they could still hear the faint sound of music, the influence was relatively lower. And the rank 8 magic beast has strong mental strength, so it would not be affected by Murin's flute of beast.

But the same couldn't be said to the magic beasts around Murin.

The flute of beast was basically a magic weapon that forced control on these magic beasts. Unless they couldn't hear anything, they would be forcefully controlled by whoever wield the flute of beast.

Whoever created this thing is definitely a genius.

But there was only one flute of beast in the entire world and it was not so easy to make.

The mana and the sound waves affected these magic beasts' mind.

Roar

The flying magic beasts under Murin directly attacked these flying magic beasts, killing them while they were still affected by Murin's flute of beast. They all knew that this was what their master wanted.

Because they had to go as far away as possible before the rank 8 magic beast could free its hand and feet to deal with them.

Would the other returnees die?

Murin didn't know, but he could guess that they should have some methods that they could use to escape.

For example, teleportation formation.

That rune master would definitely be able to escape and given her relationship with Samuel, she will definitely take him away. At that time, there would only be three returnees facing the rank 8 magic beast.

If they have other escape method, they could run away one way or another.

If not, they would die.

Murin was not familiar with the other returnees either.

The demonic magician might have some forbidden skills that could help her to survive from the rank 8 magic beasts. As for the magic warrior hunter type... Murin could not remember, but her agility was also quite strong.

The last one...

Well, Peter should just go and be a proper meat shield.

Perhaps they would be able to survive if they sacrificed one person?

After all, with Peter as the sacrifice, he might be able to buy enough time for the others to escape from the rank 8 magic beasts.

The problem is...

Are they really that selfless?

Murin was sure that none of them would be willing to sacrifice their lives for the others unless they have special relationship.

And forget it.

It's not his business.

Murin would not care about their lives and death and he focused his attention on these flying magic beasts around him.

As many of them died, his flying magic beast started to move once again, trying to fly as far away as possible from the scene.

'Come on...'

Murin continued to play the flute of beast while beads of sweat started to fall on his forehead. These magic beasts were of various ranks and some of them were at the same rank as him.

So controlling these magic beasts were really difficult and Murin felt his brain almost fell apart.

The most important thing for the magician who used the flute of beast was to have strong mental strength and a lot of mana. Murin's mental strength was extremely strong, which was manifested in his ability to contract twice the number of magic beasts compared to ordinary beast masters.

But his mana was not enough!

The few rank 7 magic beasts mixed within the other flying magic beasts were more than enough to drain his mana.

roar!

And at this moment, more explosion came from behind, the shockwave was more than enough to push Murin further away.

He nearly fell down once again.

'Who the hell is keep making explosion behind?'

Murin cursed in his heart.

If he knew who did it, he would greet the other parry's family kindly from eight generation above!

Boom!

Samuel looked at the intact rank 8 magic beast in front of him and frowned. He had already attacked with all of his power, but the result was far from ideal.

This made him wonder whether he should stop or not.

Chapter 908: Desperate Battle (4)

But...

Samuel looked at Riya, who was still moving around the magic beasts' corpses on the back. She was erasing her presence, making the rank 8 magic beast unable to target her because it couldn't even sense her.

The rank 8 magic beast's attention was all on them.

But it was not enough.

If Riya didn't finish her work soon enough, what awaited them would be nothing more than death.

"What is she doing exactly?" Peter jumped back to avoid being hit by the fire element's attack from Samuel. He didn't understand why they liked to use large scale magic spell so much.

Isn't it better to use a more cost effective magic spell?

Then again, Peter is not a magician nor a magic warrior.

He almost couldn't sense the mana in the air if it was not because he had already advanced to rank 7. So he wouldn't be able to understand their mentality.

"Getting enough mana," Samuel replied and he looked at the rank 8 magic beast. "Can you still move to attack?"

"Well, yeah, but it's not effective." Peter frowned.

Relying on his strength alone, he couldn't hurt this rank 8 magic beast. In fact, none of their attacks could cause a scratch on the rank 8 magic beast's body. Not even Samuel who had the strongest attack power among them.

This made Peter feel that they should just run away.

The problem is...

Would the rank 8 magic beast willingly let them run away?

It was unlikely.

“Keep it busy and let it kill as many magic beasts as possible,” Samuel said without hesitation.

Anyway, Peter’s greatest strength is his strong defense and fast speed. As long as Peter kept on making the rank 8 magic beast busy, it would be possible for them to buy enough time for Riya.

“Buying time?” Peter asked and then his mind turned.

Looking at Riya who was digging the magic beasts cores, an idea appeared in his mind and he swiftly moved towards the rank 8 magic beast.

Using his brain has never been his strong point.

When working together with others, Peter was more used to execute orders given to him rather than thinking too much.

Anyway, as long as the result is good, there would not be any problem.

Boom! Boom! Boom!

Punches and kicks were delivered by Peter and his aura basically fully enveloped his body as he moved around the rank 8 magic beast’s body. Looking at the intact skin, Peter kept on moving around, trying to find a relatively weaker spot from the rank 8 magic beast in front of him.

Stomach, belly, neck... too far away.

“Ruth, attack the eyes. Dina, can you use other magic spell?” Samuel quickly made the arrangement to the other two.

He temporarily took the leader position, but these two women didn't think that there was anything wrong with his arrangement. Anyway, they were only thinking about whether they should run away directly or fight the rank 8 magic beast and buy time for Riya.

Unlike Peter who didn't understand what Riya was doing, the two of them naturally noticed it from the very beginning.

They knew that Riya wanted to use the random teleportation formation again.

But if she wanted to teleport all of them directly, then she would need a large amount of mana.

During this period of time, they had to buy enough time.

Buying time as in fighting against the rank 8 magic beast.

From the fact that none of their attacks were effective against the rank 8 magic beast, this was almost the same as suicidal move.

So they were a bit hesitant.

If they ran away like Murin, they would be able to let the rank 8 magic beast's attention be attracted to those who were left behind. In this way, they would be able to escape safely as long as they ran fast enough.

Ruth would not have any trouble with this.

She's a magic warrior with stronger body.

Coupled with her wind element, she could easily boost her speed so that she could run far away from this scene.

But Ruth didn't want to leave everyone behind and she believed that Riya will definitely be able to gather enough magic cores to operate the teleportation formation once again.

As for Dina...

She actually wanted to run away.

But she's a demonic magician and her physical strength was the same as those other magicians.

Even if she wanted to run away, it seemed that her own body will be the first obstacle that she had to face.

Just thinking about it, Dina's face darkened.

"Dark elemental magic... what do you want me to use?" Dina asked.

On the other hand, Ruth had already gathered her mana to form another arrow and get ready to target the rank 8 magic beast's eyes. The rank 8 magic beast's movements were extremely fast despite its large body.

It wouldn't be easy for her to target it.

Moreover, there were still other magic beasts around...

"Forget it, you clear up other magic beasts," Samuel said when he saw the few other magic beasts approaching them.

If Dina dealt with these magic beasts, Riya might be able to get their magic beasts' cores. After that, her speed of collecting the magic beasts' cores will definitely increase rapidly.

This will be a good thing for them.

"With pleasure." Dina smirked and she turned around to look at these magic beasts.

She was pissed off by the rank 8 magic beast.

But since she couldn't defeat the rank 8 magic beast, she could just target the small fry around her first.

"I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

Swoosh!

Samuel ignored Dina, who was having a great fun killing the small fry and took out his sword.

Slash!

Chapter 909: Desperate Battle (5)

"I'll be the channel of thunder, transmitting the power of lightning and projecting it towards my enemy... the great lightning spear!"

Boom!

Three people were attacking the rank 8 magic beast and this time, none of them used area of effect magic spell.

All of them were focused magic spell.

In this way, they might be able to hurt the rank 8 magic beast...

Boom!

As the dust receded, Samuel frowned when he saw the intact rank 8 magic beast.

'Just how strong is this magic beast's attack power?'

Samuel felt that the rank 8 magic beast's strength was simply off the chart. He saw the rank 8 magic beast moved around and then opened its mouth.

"Get away from there!"

BOOOOM!

The rank 8 magic beast caused another large explosion and Peter was running away and rolled on the muddy ground. He felt that his image must have been lost, but there was no time to care about it.

This damn rank 8 magic beast was simply too strong!

Peter felt that they really have no chance of defeating the rank 8 magic beast in the slightest bit.

"Does all rank 8 magic beast so strong?" Peter asked doubtfully.

"How should I know?" Dina was still firing magic spells to the other weaker magic beasts when she saw Peter appearing near her. If it was not because of her familiarity with his presence, she would have long attacked him for coming so close with her.

"I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

The dark element truly worked wonders in Dina's hands.

roar!

These magic beasts were roaring in anger as many of them fell under Dina's hand and then Dina saw Riya appeared and checked the corpses to find their magic cores.

Dina saw it and didn't make a move again.

She knew that she had to buy enough time for Riya to get enough mana to transport them all at once.

Besides...

While the situation seemed dangerous, just the fact that they were still able to chat meant that their lives were actually not in immediate danger.

They still have enough time.

Fighting against the rank 8 magic beast was also a valuable experience.

This would help them to understand how they could survive better in this dangerous world. Otherwise, if they couldn't even handle their first challenge, they should pack up and go back to the Green Planet instead.

No one would pity them nor help them.

They were at the forefront.

No one on the Green Planet were more powerful than them and being the pioneer meant that they would have to bear the corresponding pressure and responsibility.

It's definitely not something that one could handle easily.

Bang!

Once Riya had finished taking the magic cores, Dina saw that more magic beasts had gathered and quickly chanted again.

"I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

"Perhaps this one is special?" Ruth frowned.

She had fired towards the rank 8 magic beast's eyes, but it sensed the trajectory of her attack and tilted its head slightly.

The arrow hit the temple and it dissipated once again.

This rank 8 magic beast's battle awareness was extremely strong!

So strong that they didn't know whether they could possibly deal with it or not.

"Attack it again!" Dina yelled at Ruth.

Ruth clicked her tongue when she saw the rank 8 magic beast suddenly turning its head in their direction and swiftly applied wind magic on her feet, running to the side to avoid getting on the way.

Dina saw this and her face turned dark, but before she could respond, she felt her body was lifted up and brought to the side.

Boom!

She barely avoided the attack and Dina quickly turned to look at the person carrying her.

"You okay?" Peter asked and put Dina down.

"I'm fine." Dina pushed Peter away and looked at the rank 8 magic beast with hatred. One of the largest weakness of magician was the fact that their bodies were weak and could be easily targeted.

"I'm going again." Peter looked at Dina up and down before running towards the rank 8 magic beast once again.

"I'll be the channel of thunder, transmitting the power of lightning and projecting it towards my enemy... the great lightning spear!"

At this moment, Samuel had already attracted its attention by attacking with another lightning spear.

Ruth herself also positioned herself in a suitable position to aim at the rank 8 magic beast.

"Elemental arrow!"

Dzing! Bang!

The rank 8 magic beast reacted fast enough, avoiding getting hit at the eyes once more.

"Damn it! It's not working!" Ruth couldn't help but curse. It has been a long time since she felt the frustration of having her attack not working at all.

Her accuracy was extremely high.

Coupled with her own attack speed, Ruth was usually confident in her attack.

But this rank 8 magic beast taught them all a lesson that they should not be so overconfident in their abilities.

Powerful magic beasts could still overcome their attacks one way or another.

“I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!”

roar

Even with the attack from these returnees one by one, the rank 8 magic beast was barely injured.

It seemed that this would be an extremely long battle.

Chapter 910: Tacit Cooperation

“If this continued, we’ll run out of mana first before the rank 8 magic beast can be defeated,” Dina said with a dark face.

The dark element magic that she used also consumed a lot of mana. If this continued, Dina felt that she would have to forcefully absorb mana from the magic cores, which will affect her mental state once more.

Even though the meditation she used could help to counter the side effect to a certain degree, Dina didn’t really want to suffer again.

“It couldn’t be helped.” Peter rushed towards the rank 8 magic beast once again and punched it on the stomach.

roar!

“Damn! Is the stomach made of steel?” Peter also cursed as he rubbed his hand and avoided the rank 8 magic beasts’ attack once again.

“Get away! I’ll be the channel of thunder, transmitting the power of lightning and projecting it towards my enemy... the great lightning spear!”

BOOM!

Lightning spread out and many weaker magic beasts were eliminated in the aftermath of the attack but the rank 8 magic beast still remained strong.

Seeing this, all of them felt that they were being sent to this world not to train but to face their own demise.

How were they supposed to deal with the magic beast this strong right after coming here?

Most of them were only rank 7!

“Anyway, is she done?”

Peter looked over in Riya’s direction and saw that she was busy picking the magic cores from the magic beasts that Dina killed.

He had to say that the dark elemental magic spell was really efficient, though.

These magic beasts were killed instantly, leaving only their magic cores on the ground. Riya only needed to swept through the battlefield and select the necessary magic cores for the teleportation formation and the rest would be kept away.

But even with Dina's efficiency and Riya's quick movement, it would still take some time to gather all the necessary magic cores.

Because not all magic cores were suitable for the teleportation formation.

Since they all tacitly agreed to leave together, they naturally chose to cooperate together and waited like this.

It was honestly a bit strange.

None of them communicated before, but they seemed to agree that they would get away from this rank 8 magic beast using Riya's teleportation formation.

Swish!

"It's coming again!"

"Tsk."

roar!

The rank 8 magic beast was angry at these ants.

They were weak, but they were very slippery and managed to run away again and again.

Samuel glided through the air using his wind element and avoided the rank 8 magic beast's attack. His sword moved and attacked once again, but he could sense that he couldn't break through the rank 8 magic beast's defense.

'Is your attack power so weak?' Samuel asked his sword mentally.

Buzz!

The sword immediately protested.

There was only some intermittent words that could be transmitted, but Samuel could still hear the point clearly.

'...Defense... enchanted... mana... metal...'

"Metal elemental magic beast with stronger defense and it's at rank 8..." Samuel frowned.

The element with the strongest defense is either the earth or the metal elements. These two elements were the most difficult ones that Samuel had ever faced.

If it was those at the same rank, he could still have the confidence to deal with them.

But if it was one rank above him....

There was a great chance that his attack would not work.

This rank 8 magic beast was included among them.

'It seems that we still have to grow stronger.' Samuel chuckled but his eyes grew even colder when he stared at the rank 8 magic beast in the distance. He knew very well that if they couldn't deal with this

rank 8 magic beast today, they wouldn't be able to do the same when those magic beasts came to the Green Planet.

One year...

No, three years.

In the next three years, they would have to train like crazy so that they could reach rank 8 and possibly reach rank 9.

Because there might be rank 9 magic beasts coming through the passage into their world.

If they couldn't deal with rank 8 magic beast when they were at rank 8, could they deal with rank 9 magic beast when they were at rank 8?

The gap between these ranks would only become bigger for higher ranks.

Swish!

As Samuel was still thinking about it, he saw Riya rushed over. Her speed was extremely fast for a magician... or well, rune master.

"Hold your hands together!"

The rank 8 magic beast seemed to sense what they were about to do and instantly attacked in their direction.

Swoosh! Boom!

...

The large explosion killed countless magic beasts.

Murin, who was still fighting against the magic beasts in the distance using the flute of beast, nearly fell down once again.

He cursed in his heart.

These returnees were simply crazy.

They caused the rank 8 magic beast to become berserk and fought so desperately like that.

Murin was absolutely sure that there would be a lot of destruction left on the place where the rank 8 magic beast was staying.

roar

The loud roar came from behind, disrupting the airflow and also effectively stopped the flute of beasts' effect.

Murin's heart turned cold.

Screech!

These magic beasts that had been affected by the flute of beast immediately turned their attention towards Murin and attacked rapidly.

"Hurry and leave! At the fastest speed possible! AHHHHH!"

Screaming in the air, Murin directed his magic beast to bring him as far away as possible. These magic beasts would become crazy when the flute of beast's effects were interrupted and Murin's mana was not enough to support more.

"Damn it!"

He wanted to curse whoever made the rank 8 magic beast so crazy behind him.

Now, he had no other choice but to fly away crookedly with his magic beasts.

Taking out the magic beasts' meat he had prepared, Murin ate quickly and whenever his mana recovered, he would use the flute of beast.
