

Cultivator in the Last Days #Chapter 91: Buying - Read

Cultivator in the Last Days Chapter 91: Buying

Chapter 91: Buying

Everyone had their own way to manage their points.

They were basically trying to save more points for the sake of their future, but Yu Shi Lan didn't care much about the so called future.

"This is it." Yu Shi Lan saw the mall and entered.

There were a lot of resources placed on the shelves, but there was a glass blocking them. So they could only see it but couldn't touch it.

Yu Shi Lan was not surprised.

With how chaotic the outside world is, people would have to set some precaution to prevent them from stealing the base resources.

These glasses could be said to be the defense prepared by the base.

Yu Shi Lan glanced at it and then moved to the counter and listed out the things that she wanted to buy.

Meat, grains, dried fish, milk, and vegetables of various variety.

Seeing the fresh vegetables, Yu Shi Lan knew that these should have been grown in the base. Even though the demonic Qi will naturally seep into the ground and ruining the food in the future, but it would still take a few months.

Right now, the soils were still good and as long as they cultivated the plants, they could still produce more than enough food.

So Yu Shi Lan took this chance to buy things.

In this way, she used up 16 points.

Leaving only 2 points.

"Meow." <It's not enough, Miss.>

Xiao Mao looked at the dried fish that Yu Shi Lan bought and felt that it was far from enough. She wanted more!

"I have to exchange points first, so let's go out of the base. At the same time, we have to collect firewood," Yu Shi Lan said.

"Meow?" <But you can use your spells, right?>

If Yu Shi Lan were to use her spell, there would not be a problem to start fire. And the fuel for the fire was naturally her own Qi, so Yu Shi Lan didn't really need any firewood.

"It's to pretend," Yu Shi Lan said and sighed. "Xiao Mao, if I don't prepare anything, I'll be too eye catching and there might be more people who want to target me. You know the principle of having treasure but no strength in the cultivation world, right?"

At this moment, Yu Shi Lan felt that she was educating a foolish child... no, cat.

This cat knew many things in the cultivation world and very smart because she could survive for a long time and even toy around the humans.

But once in the modern world...

Some things still need to be corrected.

"Meow." <I know that principle.>

Xiao Mao nodded and then frowned.

"Meow?" <Are you being watched to such an extent, Miss?>

Xiao Mao felt that it was really outrageous.

"It shouldn't be that much, but I have bought more than what a person can normally eat in a single day," Yu Shi Lan replied. "So if I want to buy more, I have to wait until tomorrow or two days later so that the purchase list wouldn't look so suspicious."

"Meow..." <I see...>

Even though Xiao Mao understood Yu Shi Lan's choice, but she still felt a bit unwilling.

It would have been much easier for them to just strode forward and buy all the resources that they needed.

Xiao Mao looked at the relaxed Yu Shi Lan.

Forget it.

If her master wanted to stay low key and didn't attract attention, then let her be.

Yu Shi Lan went back to the apartment and then put her belongings before she left the base. Now that she had obtained the base card, she could easily come in and out of the base.

Once she was outside, Yu Shi Lan headed to the water factory.

The soldiers had been here before and took the gallons of water away, but there were still a lot of empty gallons left. She took a large number of gallons into her space and then washed four of them before filling it with water.

Seeing the Qi turned into water, Xiao Mao wailed once again.

"Meowww!" <Miss, it's really such a waste! Water made from Qi directly is good for consumption and those people are not worthy of such a good water!>

Xiao Mao really felt that her Master was wasting her Qi.

Even though it was easy for Yu Shi Lan to replenish her Qi through meditation, but Xiao Mao didn't really want other people to take so much advantage of Yu Shi Lan.

"This will be the last time," Yu Shi Lan said with amusement.

While water is basically resources that she could make at all times, but Yu Shi Lan didn't want to waste her time in this either. She just wanted to exchange with enough fresh vegetables and dried fish for them.

The vegetables were for her to get the seeds and grew for more while the dried fish was for Xiao Mao.

City A was not that far from the beach.

But if she wanted to hunt for fish, she might need to go further into the sea. Yu Shi Lan didn't like fish, so she didn't want to go there anytime soon.

When she was stronger and could use her Qi freely, she will bring Xiao Mao there.

But for now... let her just buy more dried fish.

"Meow?" <What do you plan to exchange next?>

Yu Shi Lan smiled and then walked towards the stalls along the way and collected a large amount of cigarettes. These small stalls were buried under the buildings, but for Yu Shi Lan, it was not a big problem.

Moving a few big stones and reveal the stalls, she collected the resources from these stalls.

Candies, cigarettes, teas, and many other things.

These things could be exchanged for contribution points as Yu Shi Lan didn't really want to use it. What used to be cheap and easy to buy had become extremely valuable.

"Let's go back."

Yu Shi Lan went back with a huge backpack behind her.

And when she saw a few people who blocked the road, her expression turned cold.

Chapter 92: Former Classmates

"Will she come this way?" One of Yu Shi Lan's former classmate asked, not entirely sure that Yu Shi Lan will come here.

Even though they have already made the arrangement, it was still uncertain whether Yu Shi Lan would come through this way or not.

After all, Yu Shi Lan never told them anything.

"Trust me, I saw her going out in the afternoon and she's going through this way. If she want to come back, she had to go through this way." One of them waved his hand carelessly while leaning against the car.

A female student pointed at the side with a nonchalant look. "The other ruins hadn't been cleared out yet and it's impossible for her to clean it up just for the sake of going back to the base, right?"

"But she sure is taking her time." The other male student crouched down while holding a metal pipe. He was tired of waiting and hoped that they could finish this work as soon as possible.

"If we fail this time, we just have to pick other routes next time."

"Young Master Liam paid a lot of money for this woman. I don't understand why he's so preoccupied with this woman. It couldn't be that he really love her, right?"

Yu Shi Lan almost vomited when she heard the last man's comment.

Lian Lei Xu loves her?

Heh, he was only using her as nothing more than a shield for his real lover.

Just thinking about how Lian Lei Xu was performing drama in front of her and acting affectionate when he was actually thinking about his real lover, Yu Shi Lan felt extremely disgusted.

So why did this Lian Lei Xu looks for her?

Yu Shi Lan had completely forgot about this person since she was too busy with other things in the past month. But she still remembered that Mu Ting Ye seemed to have tell her that Lian Lei Xu was someone with certain influence...

Wait, not Lian Lei Xu himself.

But the Lian Family behind him.

How annoying.

'It couldn't be because of the recording, right?'

Yu Shi Lan knew that Lian Lei Xu wanted the recording that she has in her hand before. But since she had already given the copy of the recording to Mu Ting Ye, Yu Shi Lan basically never cared too much about this matter anymore.

There was no point in caring either.

But now that the other party was looking for her...

Murderous intents spread out from Yu Shi Lan once again and Xiao Mao had already silently hid deeper inside Yu Shi Lan's pocket.

Xiao Mao wanted to complain.

She had the feeling that with the large number of people who kept on offending Yu Shi Lan, this girl's killing intent will definitely advance again.

For a moment, Xiao Mao didn't even know whether it was a good thing that a lot of people provoked Yu Shi Lan or it was such a troublesome matter to be provoked by so many people.

The female student suddenly asked, "How about the Wang Family, then?"

The second male student arched his eyebrows. "Wang Family? Let that Wang Tan Lin paid for it. Anyway, it's not like they wouldn't know the fact that Yu Shi Lan had come to the base."

"Where did this woman live anyway? Can't we make a move in the base instead?" The other male student yawned. Rather than waiting in the 'wilderness' like this, isn't it better to go back and wait in the base to hunt her down?

It's more cost effective and they didn't have to waste their time like this.

"She's living in the East area, so you know...."

The classmates were grinning with each other, each of their expression was clearly imagining a good life they could have after capturing Yu Shi Lan.

Yu Shi Lan calmly walked out of her hiding place.

She did think about assassinating them secretly.

But in the end, she chose not to.

Isn't it better to take a look at their expression when the person whom they used to bully crushed them all with force?

There was a sinister look on Yu Shi Lan's eyes as she looked at her former classmates.

"There she is."

"Hey, Yu Shi Lan! Come over here, you b*tch!"

"A poor girl who want to curry favor with the rich." Another female student spat out and laughed with sneer. "Come here, the young master is seeking your presence."

"Don't let him wait for long."

Yu Shi Lan heard the mocking laughter of this group of student and her expression remained impassive.

This is not the first time.

In her first life, being mocked has become the norm and there has never been a day without everyone's harassment and mockery.

"Meow." <Miss, let me kill them all.>

Inside Yu Shi Lan's pocket, Xiao Mao's eyes turned red when she saw this group of people mocked Yu Shi Lan like this.

How dare they?

Even if she had already seen Yu Shi Lan's memory of being bullied in the school and saw the humiliation that these students forced onto Yu Shi Lan, this was the first time Xiao Mao saw this happening right in front of her eyes.

She couldn't believe it.

What right does these students have to look down on Yu Shi Lan?

Just because they were richer and born in a better family?

Just because the words of that b*stard Lian Lei Xu?

Just because they think that they were better than Yu Shi Lan?

Xiao Mao officially declared here that this b*stard Lian Lei Xu better wash of his neck because she wanted to cut it off with her claws!

These so called classmates were not worthy of it and should have died a thousand times over. They only thought that it was fun to bully others, never once realizing that their words could easily crush someone with weak heart to their death.

And once that happen, nothing would happen to them.

Because someone is protecting them.

Chapter 93: Former Classmates (2)

Yu Shi Lan looked at the group of classmates indifferently.

Unlike Xiao Mao who was in the state of rage, Yu Shi Lan was instead extremely calm. She never have any expectation of these so called classmates and had long known the power of the Lian Family.

It was also because of this that she never fought back in her previous life.

She was being forced back again and again for she never had the chance to fight back nor had the qualification to do so.

And these classmates...

Relying on their favor to the Lian Family, bullied her as if it was a matter of course.

No matter whether Lian Lei Xu still remembered her or it was because of their other selfish reasons, these people kept on making things difficult for Yu Shi Lan.

It was as if they could gain extreme satisfaction through bullying her.

How pathetic.

Herself in the past and these classmates were really pathetic.

"Why should I listen to you?" Yu Shi Lan said coldly and then turned to the side. It was not like this is the only road for her to take to get back to the base.

At the same time she reached out her hand to push Xiao Mao back into the pocket.

She didn't need Xiao Mao's help.

But she's glad for Xiao Mao's presence as he's helping her to keep her composure.

When someone is angrier than her, it seemed that her emotions could calm down faster.

Or it was more like, she was no longer as angry as she used to be.

"What? Trying to show your backbone now, Yu Shi Lan?" The female students sneered maliciously. "No longer cowering up in fear and crouch down like an idiot?"

"What? Do you think that you can do anything you want just because the world has changed?" Another male student laughed at Yu Shi Lan. "That's not going to happen, Yu Shi Lan."

"You're so stupid?"

"The Lian Family is still very powerful even now and now the young master has taken a fancy on you, so follow us while we're still polite." Another female student spread her hands and looked at Yu Shi Lan as if she was looking at some kind of objects.

These students hadn't started going on the society yet.

But they all knew that they had to rely on the Lian Family's mercy if they wanted to get ahead.

Even in this base, the Lian Family has some influence and definitely could affect their family's future. Even if it was for the sake of their family or themselves, they would devote themselves to help the Lian Family achieve their goal.

Anyway, they were only taking a girl who have no one to the Lian Family.

Yu Shi Lan looked at the group of classmates coldly.

This thing had never happened in her previous life. After all, she came to this base one year later and at that time, Lian Lei Xu might have already caught up with his goddess

and no longer needed anyone to shield her. Even if he wanted to use Yu Shi Lan as his shield, she was in a completely different base and basically had no chance to appear.

It was impossible for Lian Lei Xu to pretend to be affectionate to a target that was so far away.

So he should have picked other girls.

But now that Yu Shi Lan is here, he might have some ideas again.

Heh.

"You're just the dogs of the Lian Family, but I don't want to have anything to do with him," Yu Shi Lan said calmly and then continued walking.

"You dare!"

Seeing them being ignored so blatantly by Yu Shi Lan, their expression turned ugly.

They looked at each other and once someone nodded, several of them rushed forward. They planned to use violence directly and restrained Yu Shi Lan.

Anyway, their impression of Yu Shi Lan remained on the time when she was still in high school.

She's a weak girl who didn't have much strength.

They didn't even need to use much energy to restrain and humiliate her.

Swish!

But reality was different from their imagination.

Yu Shi Lan moved swiftly and a knife had appeared in her hand. When she saw these classmates started attacking her, a glint flashed within her eyes and a smile formed on the corner of her lips.

Finally.

Slash! Slash! Slash!

All the classmates who came closer had their neck cut off cleanly.

Blood gushed out and their eyes were filled with shock and disbelief for they couldn't even follow Yu Shi Lan's movements.

Before they knew it, all of them felt pain on their neck and they could no longer speak.

gurgle

One of them tried to speak, but blood had rushed up to his throat and he couldn't even speak properly. His hand reached out towards Yu Shi Lan as if he wanted to attack her, but it fell short and he fell to the ground.

Until the very end, he might not be able to understand what he had done wrong.

Xiao Mao glanced at this scene from Yu Shi Lan's pocket and shook her head lightly. These students might be still minor, but Yu Shi Lan would never care about such a thing.

Everyone had to be responsible for what they did.

In the cultivation world, a child who's disrespectful to a cultivator can be cut off and killed without mercy.

Because the strong has to be respected.

Even if they didn't know that Yu Shi Lan is a cultivator, their way of treating her not like a human being alone was enough to make Xiao Mao angry.

"No..." the last student who was still standing looked at Yu Shi Lan with fear. He was standing at the very back and was clearly the leader. "You can't kill me! I'm from the Ping Family that served the Lian Family for a long time."

Swish! Slash!

"Ping Family? So what?" Yu Shi Lan spat out coldly. "If you want to scheme against me, you have to be prepared to die."

Chapter 94: Ruthless

Several corpses fell on the ground.

All of them were killed cleanly by cutting off their necks and Yu Shi Lan hadn't shown any mercy whatsoever.

Blood pooled the ground and Yu Shi Lan walked calmly.

"Meow~." <They deserve it.>

Xiao Mao didn't care too much about the law on the Green Planet. Since she herself came from the cultivation world and had been raised there, she was more used on the law where the strong takes all and the weak will follow their orders.

No exception.

"I know," Yu Shi Lan said calmly.

Xiao Mao glanced at Yu Shi Lan and then looked at the last student who fell.

He remembered what the last student said, but she didn't care too much about it. How many families had Yu Shi Lan offended back in the cultivation world?

Too many to count.

For her to be able to raise her killing intent to the point of materializing, it was obvious that Yu Shi Lan had gone on killing spree countless times. The path of a cultivators are bound to be filled with many obstacles.

But since Yu Shi Lan had chosen this path, then she will continue to tread on it until the very end.

But...

"Meow." <Also, Miss, do you have to say the last sentence? They all already died anyway and there's no use pretending like that.>

Yu Shi Lan froze and she lowered her head. "I'm not pretending."

Xiao Mao had a disgusted look and meowed again, "Meow." <Not pretending? You're basically showing off in front of me! Don't think that I don't know you're still weak and if that family is really a family with strong martial arts, you wouldn't be their opponent. In the end, you will run away and then...ouch ouch.>

Before Xiao Mao could finish speaking, she was already kneaded like a dough by the resentful Yu Shi Lan.

There was no need to open up these black histories, alright!

It was true that Yu Shi Lan used to be weak but she fought hard to get countless resources in order to advance quickly. After all, many mediation techniques were controlled by various forces. Many resources were also limited in quantity and would not be released in the market.

So how could ordinary cultivator without backing or the lone cultivator or they were also called wandering cultivators could obtain resources?

Naturally through fighting!

They had to fight to their fullest and seize the chance whenever it was possible.

Otherwise, it would be impossible for them to advance.

Yu Shi Lan didn't join any cultivation sects in the beginning because no one would want such an old disciples.

She had to fight hard.

And in the process, she naturally blocked the path of many other cultivators. This resulted in various battles and if she offended one, she will end up offending the entire family and thus, Yu Shi Lan were being chased off a lot.

If she wanted to survive, she had to be stronger or join stronger forces.

"Meow! Meow! Meow!" <Stop kneading me! Bad master! AHhh stop it!>

Yu Shi Lan kneaded Xiao Mao and snorted.

She only stopped when Xiao Mao promised that she would no longer speak nonsense and then tossed her back to her pocket.

The current Xiao Mao was really a small cat.

It was more convenient to bring her around inside the pocket instead of letting her roam free.

"Don't speak nonsense next time."

"Meow!" <I won't, I won't!>

Xiao Mao looked at Yu Shi Lan resentfully.

When she become bigger and regained her strength, she will beat up Yu Shi Lan in turn!

Hmph!

The master and pet ignored each other until Yu Shi Lan went back to the base. She thought that it was already enough that a group of people blocked her way. But when she arrived at the base, she saw that her step brother, Wang Tan Lin was there.

Yu Shi Lan: "..."

How come they moved so fast?

She hadn't even taken the initiative to look for them, but they were already looking for her.

"Sister! You're here!" Wang Tan Lin yelled so loudly as if he wanted the entire world to know that Yu Shi Lan is his sister.

Yu Shi Lan's eyes narrowed. "Who's your sister? I don't know you."

"Yu Shi Lan! Don't be an ungrateful white eyed wolf! You're my sister and you know that very well!" Wang Tan Lin yelled back righteously.

"Your surname is Wang and my surname is Yu, how could I be your sister?" Yu Shi Lan sneered and then moved away from Wang Tan Lin.

It seemed that she should just stay in the East area to avoid Wang Tan Lin and the others.

Without her father's pension, these people wouldn't be able to enter the military region and given by how stingy Su Wan Rou was, it was easy to imagine that they would be staying in the South area.

As for why it was not the free one...

It was because the place would have been so bad and Su Wan Rou couldn't stand it at all.

"You're my parents adopted daughter, so of course your surname is different!" Wang Tan Lin quibbled.

"Show the evidence that you're my brother and stop spreading false information. I can tell the guards to kick you out now," Yu Shi Lan replied calmly as she strode towards the east area.

Seeing that there were patrol guards, Wang Tan Lin started to hesitate.

No matter what, Wang Tang Lin was only a 17 years old boy and he was not as sophisticated as his parents. He was definitely afraid of the authorities and didn't dare to do anything much.

But the next second, he looked at Yu Shi Lan and shouted, "You did it on purpose! You separated the household residence on purpose!"

Yu Shi Lan didn't answer and thought in her heart that sometimes, Wang Tan Lin's head was really useful.

At least, he was not confused all the time.

Chapter 95: Target

"Ahh, enter our household residence again! You're the adopted daughter of my parents! You did it on purpose....!" Wang Tan Lin still wanted to scream and yell, but the guards have already arrived at this time.

"I don't know him," Yu Shi Lan said without hesitation and then added, "He kept on harassing me and he's definitely not my family member."

She proceeded to show her base card, which also registered the fact that she was living in the east areas.

People who lived in this area were usually richer than more influential than others.

At the very least, the base would ensure their safety.

"We'll deal with him." The guards nodded.

And after that, they dragged Wang Tan Lin away.

"Meow?" <You're not planning to deal with him directly, Miss?>

Xiao Mao had seen Yu Shi Lan killing those so called classmates cleanly without any mercy whatsoever. So seeing Yu Shi Lan acting so soft towards Wang Tan Lin came off as strange for her.

"It's not the time yet," Yu Shi Lan said lightly.

Besides, she didn't want to kill people so blatantly in the base when there's the rule of not killing. When there's a better chance, she will finish him off.

All she needed is one chance.

Yu Shi Lan's eyes flashed with killing intent.

When Xiao Mao saw this, she looked away again and understood that Yu Shi Lan was only waiting for the best chance.

What kind of chance?

The chance to kill the other party without affecting her much.

...

Bang!

The guards tossed Wang Tan Lin out of the east area without much hesitation. This residential areas were much cleaner and there were many people who had clean appearance.

Unlike the west and south areas were many people couldn't care too much about their appearance.

After all, it was more important for them to fill their stomach than anything else.

"She's my sister! You don't understand!" Wang Tan Lin yelled in anger.

The guards were unmoved.

"Produce the evidence and settle it in the office."

They were only doing their task and between someone who were staying in the East area and someone from other areas, they would listen to their employers first.

After all, their role was to patrol and guard the East street areas.

This is to improve the safety level by a few notches so that the people here would think that the points were worthwhile their spending. For any other conflicts, they would let the other officials take care of it.

Anyway, as long as they did their work, they were not wrong.

"You \$%^&*h \$%^&*ONb \$%^&*(K \$%^&*km!"

Wang Tan Lin cursed out loud but seeing the guard reached out towards his gun, he immediately turned around and ran.

What a joke.

It was one thing for him to curse out loud to vent his anger and another matter for him to truly provoke the law enforcement officers. If he was too slow and then got rounded up, then he wouldn't be able to explain to his parents.

But...

'How should I explain that I see Yu Shi Lan but I failed to let her return the household residence?'

Wang Tan Lin failed to notice that Yu Shi Lan was actually staying in the East area instead of the north area. She didn't use her father's status in the slightest bit because she didn't want to.

Her father had passed away and trying to keep the special status would only provoke other people. Yu Shi Lan didn't want to receive special treatment because of her father's sacrifice either.

Drap! Drap!

"Mom, Dad!"

Wang Tan Lin headed to the shared apartment in the south area.

The Wang Family could be said to be quite lucky because they have a lot of belongings with them. They were originally going on a trip, but an earthquake interrupted their journey and they had to evacuate with the others.

Thankfully, they were all save and sound and their belongings were still with them.

Since they were still at the hotel when the earthquake happened, they also looted the resources in the hotel along with the other people who were staying in the hotel.

It was an emergency.

Besides, if they didn't bring those resources, it would have been impossible for them to survive.

After taking enough supplies to allow them to survive, they found the military and joined with the convoy. Along the way, they ran out of food and almost starved to death if it was not because the convoy stopped in various ways.

Fighting for food had become the norm.

Even though Wang Kai Tan and Su Wan Rou didn't really like these things before, they now fought fiercely for the sake of their survival.

Every day was difficult.

When they finally reached the base, who knows how glad they were in their heart.

Because they knew very well that if they had to continue fighting for resources, they wouldn't be able to last long.

But upon hearing the strict rules in the base and the fact that money almost worth nothing here, they felt as if they had been struck by lightning. With no other choice, they

exchanged all the money they have in their hands and then exchanged some other resources for some points to buy food.

Even though they were greedy for delicious food, they had to save their points and could only buy the porridge from the canteen.

It was cheap.

But everyone was limited to five bowls per day.

After all, the resources in the base was limited and it was impossible for them to let people hoard the resources.

The five of them bought almost to the limit.

After that, they also bought water to drink.

The water was actually also limited, but the base was quite relaxed and gave them 2 liters per person. Most of them wouldn't be able to afford it and there was no point in buying so much water.

Unless they planned to resell it.

Chapter 96: Anger

But the amount was too small for reselling.

Not to mention that for most of them, they couldn't even drink enough with the water that they could trade from the base.

So no one would be stupid enough to waste their contribution points.

The three Wang Family were also restricting their purchase as they didn't have much contribution point.

This made them distressed.

That was when they remembered that Yu Shi Lan's father is a martyr and if they make a good use of this, they might be able to get special status. So they applied and asked the official there.

And what they heard basically shattered all of their hopes.

Yu Shi Lan is not in their household residence.

Because she's not their family members, they were not qualified to accept her father's pension reward.

Wang Kai Tan and Su Wan Rou couldn't accept this and made a lot of fuss to the point that they were almost got kicked out of the office. It was only then they realized that Yu Shi Lan had already applied to separate her household residence from them.

"But she's a minor!"

"Normally, the laws would not agree, but based on the testimony of the officer in charge, Yu Shi Lan has been abused and there are various marks of injuries on her body." The man sneered at the three Wang Family.

The family of three were stunned.

It was then they remembered that Su Wan Rou often hit Yu Shi Lan when she didn't do the household work well.

"She's fighting with others and it's not our family fault..."

"We can't do anything without the consent of the person who should have received it," the man said calmly.

In other words, if Yu Shi Lan didn't come and applied to enter their household residence again, then there was nothing that they could do.

Another thunder strike on a clear day.

After that, no matter what the three Wang Family said, the soldiers didn't bother to listen to them.

This made them annoyed.

Everything has been going well and Yu Shi Lan never fought back seriously against them before. Who would have thought that they would face a wall every time they wanted something now?

It would have been better for them to find Yu Shi Lan and let that damn girl return her name back to their household residence.

"When I find that girl, I'll beat her up!" Wang Kai Tan was furious.

He had been living well all these years and the pension money received from Yu Shi Lan's father accounted to most of them.

The country was really generous.

Wang Kai Tan and Su Wan Rou have been enjoying a lot of good things thanks to the large amount of pension money that they received from Yu Shi Lan's father. But the real recipient suffered in their hands instead.

And they never thought that they had done something wrong.

Because in their eyes, it was theirs!

"Yes, I'll definitely teach that girl a lesson!" Su Wan Rou said viciously.

But since Yu Shi Lan was not present, the two of them couldn't really do anything.

Wang Tan Lin kept this matter in his mind and when he found his father's adopted daughter, he will definitely drag her back!

The expectation is high, but the reality was painful.

Because Yu Shi Lan didn't want to go back in the slightest bit and instead looked at Wang Tan Lin coldly.

And she even ordered the guards to kick him out.

So Wang Tan Lin directly ran to his parents and complained about what Yu Shi Lan had done.

"Yu Shi Lan is in this base?" Su Wan Rou's eyes lit up when she heard that Yu Shi Lan is here. They have been suffering for more than a month and she already started to feel unbearable.

Now that Yu Shi Lan is here, they could just let that girl go back in their household residence.

"But she's not even willing to listen to me! She even kicked me out! Mom, you have to teach her a lesson!" Wang Tan Lin said in anger.

"Of course, I will!" Su Wan Rou looked at her baby boy and felt distressed. She didn't want to treat her son harshly and now that Wang Tan Lin suffered in Yu Shi Lan's hand, she will make that dead girl paid the price!

"Wait, how could she order the guards?" Wang Kai Tan was the most sober one.

Even though he was also eager to go to Yu Shi Lan and let her improve their lives as soon as possible, he knew that it would be impossible to force Yu Shi Lan in the base.

After all, there were rules and regulation here.

If he wanted to do something to her, he had to find a place where there were no one else as much as possible.

Being sanctioned by law was another thing that he wanted to avoid.

"She's living in the east area," Wang Tan Lin said in a low voice.

East area?

Thinking about the minimum of spending 1 contribution point per day for living, Su Wan Rou was enraged.

"That spendthrift! It should have all belong to me!"

She wanted to smash thing, but they couldn't afford the compensation if they break things in this shared house.

Wang Kai Tan was frowning as he thought about this.

Has Yu Shi Lan received the compensation.

His eyes flickered as he thought about how to handle this matter.

Clearly, it would be impossible to come to Yu Shi Lan directly.

If she wanted to be so stubborn until the very end...

...

Yu Shi Lan didn't know that the Wang Family was thinking about calculating her.

But even if she knew, she would not care too much.

She's waiting for them to come.

Otherwise, she would not have any legal reason to beat them up.

Of course, it would be better if she could see them outside the base and then kill them without anyone knowing.

Chapter 97: This is Her Cultivation Path

Yu Shi Lan has a lot of murderous intent.

She knew that it's wrong.

For people of the modern society and so on, killing people is wrong and should be punished by laws. But as someone who had lived in the cultivation world for so many years, she really couldn't adapt back to the modern society's rules.

Because in her eyes, many things could be solved by murder.

Yes, it also brought more problems afterwards.

But at the same time, Yu Shi Lan would just deal with it as usual and not let anyone stand on her path.

This is her cultivation path.

One carved by sword and blood.

She just hid her edge for the time being as it was not suitable for this world.

Because Yu Shi Lan knew that she's not strong enough yet to sweep the world with strong posture.

"Let's get the points first."

Yu Shi Lan was interrupted by Wang Tan Lin, so she turned around and sold many things to the base. After obtaining the point, she simply went shopping for more dried fish and other things for herself.

Only after nearly emptying her card did she stop and then went back to her room to rest.

One day passed by quietly.

Yu Shi Lan originally thought that Wang Tan Lin will bring his parents to pay a visit to her and then cause a big scene.

But she was wrong.

"It seems that I underestimate their patience," Yu Shi Lan murmured.

"Meow?" <What patience?>

Xiao Mao was playing with the ball and rolling around on Yu Shi Lan's bed.

Who made this apartment so narrow?

There were not many things here and Xiao Mao could only play around on Yu Shi Lan's bed. Otherwise, there was really no place for her to move around.

"My step parents," Yu Shi Lan replied. "I thought that they'll come to find me last night or even this morning, but I can't even see their shadow."

But for them to be able to deceive the young Yu Shi Lan for so many years... it would make sense that they have some brains.

A pity that Yu Shi Lan couldn't solve them directly.

There were also her classmates parents.

She still remembered that one of them mentioned that they were the 'licking dog' of the Lian Family. So if that person was really valued by the Lian Family, they should come looking for her.

Forget it.

Yu Shi Lan chose to come out of the apartment to walk around after she had finished her meditation session. Meditating all day long was impossible. Her meridian was not strong enough to withstand such a thing.

There's a limit to how many rounds can she meditate each day.

Too much would only harm her body.

Too little would make her training less effective.

"Now, where do you think we should go, Xiao Mao?" Yu Shi Lan asked as she scooped Xiao Mao up.

"Meow!" <Hey, don't touch me so carelessly>

But while Xiao Mao was complaining, she was also thinking about Yu Shi Lan's question and then said, "Meow?" <How about if you take a look if there's any medicinal herbs for sale? You've been looking for it, right?>

"Would it be so easy to find medicinal herbs for sale?" Yu Shi Lan murmured.

The medicine used were usually in the form of tablet or syrup now. While there were still some people practicing traditional medicine, but Yu Shi Lan didn't think that she would be able to see them so easily.

The base should be lacking in medicine and their circulation would be strictly controlled.

"Meow?" <Just try?>

Xiao Mao didn't care too much.

In her opinion, Yu Shi Lan only looked for those because she wanted to advance quickly. But these herbs were only ordinary herbs and their effect on cultivators were limited.

Even if Yu Shi Lan were to find them, she wouldn't be able to use them for long.

Yu Shi Lan is already a rank 3 Qi Refining Cultivator.

At this stage, her body had been strengthened and her use of Qi had become more stable. The medicine could still affect her, but it was not as much as when she was still an ordinary person.

"Yeah, just try." Yu Shi Lan rubbed the cat's head and walked out of the apartment. She had seen the general map of the base but there were many things that were not mentioned. After all, it was impossible to release the entire details of the base map in the Internet.

What if it was seen by someone with ulterior motives?

Then it would be dangerous.

The world is no longer as safe as it used to be and there were many people who wanted to take advantage of the situation.

While Yu Shi Lan didn't know much, she still has enough common sense.

So it's better to walk around the area by herself and see if there's any interesting place to pay a visit to.

"Meow." <How about finding a place to train too, Miss? The apartment is too small.>

After all, Yu Shi Lan didn't only need to meditate but also practice a set of martial arts technique. If it was only meditating, the apartment was indeed enough, but other things were not very suitable.

That apartment was too small.

"...I'll just get out of the base." Yu Shi Lan rolled her eyes.

She was only here to take her revenge and make trouble to her foster parents and the Lian Family.

Hmm, speaking about the Lian Family.

Yu Shi Lan really wanted to see them, but they were staying at the north area and there was no chance for her to go there. Only people with special identity could go there.

So unless she used her father's identity, Yu Shi Lan wouldn't be able to go there.

It was just...

Yu Shi Lan was a bit resistant to it.

"Yu Shi Lan?" A voice called her from the side as Yu Shi Lan walked along the street.

Seeing the familiar young man, Yu Shi Lan blinked her eyes.

So he's also in this base?

Chapter 98: Master, Be Careful of This Scheming Man!

"It's been a while." Mu Ting Ye smiled and waved energetically when he saw Yu Shi Lan.

The last time they met each other was at the port where Yu Shi Lan was planning to find some jade but ended up stopping herself. It was also the time when Yu Shi Lan found the demonic mantis and realized that she was really outdated in receiving information.

Though she hadn't seen more demonic beasts when she was staying in the villa, she encountered a lot of them after going out.

It was not that hard to find.

While the number was not overwhelming, it was still possible to find some demonic beasts from time to time.

Uh wait, that was not the point.

Yu Shi Lan was only thinking about how to find the Lian Family, but seeing Mu Ting Ye in front of her, a plan formed in Yu Shi Lan's mind.

Mu Ting Ye came from the military family.

If she wanted to find Lian Lei Xu, couldn't she ask him?

It was much faster and she didn't have to think hard about using her father's special status again.

"Yu Shi Lan?" Mu Ting Ye saw that Yu Shi Lan was silent and there was confusion in his tone.

"I didn't expect to see you here," Yu Shi Lan gave excuse.

"Huh? My family is involved in the base construction or something. Anyway, I don't really care about what the Mu Family is doing." Mu Ting Ye spread his hand with nonchalant look.

As the young master of the Mu Family, it was obvious that he didn't really pay much attention to his family's development.

Besides, it was not necessary.

With his two older siblings were in the line to be the next head, Mu Ting Ye could easily become the careless young master and not get involved in this mess.

"I see." Yu Shi Lan nodded thoughtfully, not very surprised.

After all, it seemed to be coherent to how he had shown himself in front of her.

"Why are you here by the way?" Mu Ting Ye asked curiously and then his smile brightened. "Eh, it doesn't matter. Do you like the base? How about if I bring you around to take a look?"

"Huh?" Yu Shi Lan was stunned.

Does Mu Ting Ye have to act so familiar with her?

They have only met for a short while, right?

"Don't you want to?" Mu Ting Ye tilted his head. "I don't think you're very familiar with the base yet and oh, the Lian Family are also here and they all moved here. Hahaha, you should see Lian Lei Xu's expression when he's being beaten up last month. It's so hilarious!"

When thinking about Lian Lei Xu's affair, Mu Ting Ye really wanted to laugh out loud.

He was the one who sent the videos to the Lian Family and naturally he followed them to see Lian Lei Xu's face when he saw that his elders had already knew about his affairs. The Lian Family was not afraid of committing crimes.

But the premise is that this had to be done behind the closed door.

Who would reveal their dirtiness so blatantly in front of the entire world?

That's crazy.

So when they found out that Lian Lei Xu had his handle taken by others, that young man was naturally cleaned up by the Lian Family.

Mu Ting Ye also specifically set up some time to watch the farce personally and recorded the incident in his phone. He felt that such a spectacular scene should be kept for Yu Shi Lan to see.

In this way, Lian Lei Xu's black history was immortalized.

Of course, the fact that Mu Ting Ye and Lian Lei Xu fought afterwards was not something that Mu Ting Ye would mention.

It was not necessary.

Yu Shi Lan's eyes lit up when she heard about this. This Lian Lei Xu had shamelessly sent people to pick her up and even treated it as some kind of charity. He made it sound as if getting his favor was something so noble and rare.

Heh.

Did he think of himself as some kind of emperor in the ancient age?

Anyway, Yu Shi Lan didn't want to care about Lian Lei Xu in the slightest bit.

But the other party had offended her again and if she didn't teach him a lesson, then Yu Shi Lan wouldn't feel comfortable.

When she was thinking how to do it, Mu Ting Ye came and give her a pillow.

Yu Shi Lan is happy now.

"That's great!"

Mu Ting Ye was also smiling happily when he saw Yu Shi Lan so happy. He added, "I also recorded a video of him being beaten up in his courtyard. Unfortunately, I can't record the video when he's still inside the main hall because only Lian Family members could enter."

Even though the Su Family had a marriage agreement the Mu Family, but Mu Ting Ye was not a family member of the Lian Family.

As for the fact that Lian Lei Xu's mother is related to his brother's fiancée...

That was another matter altogether.

"I want to see," Yu Shi Lan immediately said.

"Of course, I recorded this specifically for you. Let's find a place to sit down and watch together." Mu Ting Ye grinned.

If it was about to watch Lian Lei Xu's embarrassment, Mu Ting Ye didn't mind repeating over and over again.

Anyway, he will never get bored about this.

"Ok."

This time Yu Shi Lan readily agreed and followed Mu Ting Ye's lead.

Inside her pocket, Xiao Mao had a complicated expression and her look when looking at Mu Ting Ye was filled with both approval and hostility. The approval was because Mu Ting Ye also hated Lian Lei Xu so much and even recorded his embarrassment for her master. The hostility was because Xiao Mao felt that her master would be kidnapped by Mu Ting Ye.

Master, be careful of this scheming man!

Chapter 99: Watch~

No matter how much Xiao Mao screamed in her mind, she couldn't remind Yu Shi Lan at this time.

Because she knew that her master will not listen.

Who made her want to watch the video more than anything?

Then again... Xiao Mao was also curious.

Mu Ting Ye brought her to the park. While it was called park, it was nothing more than a simple street intersection with one tree planted in the middle and circular road build around it. There were also tables and chairs prepared for those who wanted to sit down.

Right now, there were no one there.

After all, it was really cold outside and most people wouldn't dare to come out.

'Speaking about cold, does Mu Ting Ye not feel cold at all?' Yu Shi Lan couldn't help but ponder about it as she turned to look at Mu Ting Ye not far from her.

She didn't pay much attention to it in the beginning, but now that she took a closer look, Yu Shi Lan could see that Mu Ting Ye was dressing up lightly. He wore shirt and jacket that was hung loosely, long black pants, and a small backpack behind him.

If placed in normal situation, his attire would not stand out at all.

But when Yu Shi Lan turned to look at other people who were wearing thick jackets and probably looked like a ball because of how many layer of clothes they wore, Mu Ting Ye look a bit eye catching.

Then again, Yu Shi Lan herself was the same.

She was wearing sport shirt and female blouse on the surface. Aside from that, she was even wearing long skirt instead of pants.

It couldn't be helped.

Yu Shi Lan actually wanted to wear robes like she did when she was in the cultivation world, but if she wore that kind of robes... she was absolutely sure that she would stand out even more. Moreover, that kind of clothes were not very common on the Green Planet.

As much as Yu Shi Lan wanted to, she could only regretfully put the thoughts back.

When there's a chance, she will find a way to find some robes to wear.

But now, fashion shouldn't be her priority.

"Would here be fine?" Mu Ting Ye asked as he sat down and looked up at Yu Shi Lan.

"Yes, but are you not cold?" Yu Shi Lan couldn't help but ask.

After all, she was able to wear thin clothing because she has Qi to protect her body. There wouldn't be any problem for her to walk in extreme heat or extreme cold as long as it didn't reach an outrageous level.

For example, she still wouldn't be able to protect herself if she were to swim in lava...

Her cultivation level was not enough.

But if it was just a few dozens degrees of temperature difference, Yu Shi Lan didn't feel much.

"Ah?" Mu Ting Ye tilted his head and then chuckled. "Haven't I told you before that people with martial arts are stronger? I'm considered to be relatively strong among my peers, so I don't feel much even in this weather."

"Really?" Yu Shi Lan blinked her eyes.

She had to admit that she was not familiar with the martial arts' society that Mu Ting Ye mentioned from time to time.

Should she use the standard of cultivators to calculate their strength?

Yu Shi Lan was not entirely sure.

Mu Ting Ye took out his phone in casual gesture. "Don't worry too much. If you're really interested, I'll let you see how powerful the real martial artist could be."

"Ok then."

Even though Mu Ting Ye said that, he could actually guess that Yu Shi Lan definitely had practiced. The difference between the Yu Shi Lan he saw in the beginning and the current her was extremely huge.

Even a fool would be able to notice.

Oh wait, since Wang Family didn't seem to notice and her classmates also failed to notice... then they were simply worse than the fool.

Mu Ting Ye could guess that Yu Shi Lan should know some martial arts.

Otherwise, he would not suggest for them to stay outdoors to watch the video but would rather pick a relatively quiet place indoors.

At this hour, many places would be crowded, but it wouldn't be a problem to find some empty areas.

It was just...

Mu Ting Ye didn't.

He knew that Yu Shi Lan has some secret, but he would not pry to her secret until she was willing to tell him. Even friends would have things that they didn't want to tell each other and Mu Ting Ye also respected the other party.

"Come here and watch."

"Um~."

Mu Ting Ye's phone was not that small, but it was definitely still difficult for Yu Shi Lan to see clearly. So she leaned closer and her head almost touched Mu Ting Ye's shoulder.

He sensed it and moved the phone closer so that Yu Shi Lan could see clearly.

Sensing the sweet herbs smell from Yu Shi Lan, Mu Ting Ye's eyes flickered slightly as he thought that this girl has a really unique smell. Most people who worked with herbs had a mixed smell that was hard to describe and Mu Ting Ye usually didn't like it.

But Yu Shi Lan's fragrance... it felt a bit special.

His mind wandered for a moment until he focused back to the video in front of him.

Mu Ting Ye recorded it in front of Lian Family's residence and after some waiting, the two of them could see Lian Lei Xu being dragged out. The young man was half crying and his expressions looked like he had endured bitter pain.

Seeing him like this, a sense of satisfaction rose in Yu Shi Lan's heart.

There was no need to doubt.

She liked seeing her enemies suffer.

She had never been a kind person and right now, Yu Shi Lan just hoped that Lian Lei Xu suffered even more.

Chapter 100: Watch~ (2)

And the video didn't disappoint her.

It showed the scene of Lian Lei Xu begging for mercy to his own father, who was so angry and enraged. There was also a middle aged woman who still looked extremely beautiful and Yu Shi Lan could guess that she should be Lian Lei Xu's mother.

She still remembered that Mu Ting Ye told her that Lian Lei Xu's mother came from the Su Family.

This should be one of the reasons why Mu Ting Ye didn't like Lian Lei Xu.

"You b*stard! If you know that you're wrong, clean up the mess! I have told you to get closer to the Du Family, but what did you do? Even if you want to find a shield, pick a better one!"

Yu Shi Lan could hear Lian Lei Xu's father scolding.

Hearing his words, a trace of coldness flashed within her eyes.

No wonder Lian Lei Xu grew up so crookedly.

With such a parent teaching him this kind of thing, it would be a miracle for Lian Lei Xu to grow up normally.

Yu Shi Lan's eye were cold.

She felt that Lian Lei Xu's parents were really not worthy to be parents. He even let his children grow so crooked like that and felt that even if he did something wrong, he should have covered better instead of correcting this mistake.

How disgusting.

Mu Ting Ye also sneered. "They made me want to throw up."

Even though this was not the first time for Mu Ting Ye to see this scene, he still felt that he wanted to throw up when he thought about the way Lian Lei Xu's parents taught their children.

Especially when he saw Lian Lei Xu's mother was also nodding beside them.

He felt that with such a woman as the elder of his older brother's fiancée, what good could that woman be?

She was just someone full of hypocritical lies.

"Indeed," Yu Shi Lan murmured in a low voice.

Even with a somewhat distorted view because of the cultivation world's struggle, Yu Shi Lan still didn't like this parent's way of educating their children.

Then again, she herself will also kill someone secretly if it was inconvenient for her to show up.

Because no matter what, Yu Shi Lan had to take her revenge.

Heh, it seems she's also a double standard person.

The two watched as Lian Lei Xu was being beaten up and through the edge of the door behind these people, they could see that there were people watching from the Lian Family.

Yu Shi Lan's expression was a bit thoughtful.

"Is this a show?" She turned her head to look at Mu Ting Ye.

"Yes." Mu Ting Ye sneered. "For a big family like theirs, if their younger generation were to make a mistake, they would definitely punish them in front of others to give examples. But at the same time, their punishment is really nothing at all."

Would such a beating teach Lian Lei Xu?

Mu Ting Ye could see that Lian Lei Xu's father was holding back when hitting his son. Otherwise, Lian Lei Xu would not be able to yell so loudly and looked like he had been bullied.

As a martial artist, Mu Ting Ye knew various methods to hurt someone to the point that they couldn't even scream in pain.

So this scene was indeed nothing more than a joke.

Lian Lei Xu was indeed in pain, but it was not much.

Yu Shi Lan nodded. She herself also noticed that Lian Lei Xu's father definitely hold back hitting his son seriously. Otherwise, the consequences would be even more severe and might even result in broken bones.

Then again, it was really useless to hope for them to hurt each other this way.

It was obvious that the Lian Family really treasured Lian Lei Xu.

"Does Lian Lei Xu really knows any martial arts?" Yu Shi Lan asked. While Lian Lei Xu didn't look like he practiced, some of his movements in the video still showed that he knew how to avoid getting hit at the vital point.

But that's all.

His movements were extremely slow and clumsy.

"He's the failure of the family, otherwise he would not be sent to that mediocre high school," Mu Ting Ye said with a sneer and then he thought for a moment. "But the Du Family also sent their daughter there because she's stupid and couldn't pass the assessment."

"Huh?" There's another melon?

Mu Ting Ye saw Yu Shi Lan's eyes moved over in interest and he couldn't help but smile as he said, "The Du Family here is Lian Lei Xu's fiancée family. The Du Family felt that the Lian Family is not worthy and vice versa, so they picked the useless younger generation of the two families to stay together."

The young master of the Lian Family who only knew how to make trouble and the stupid young miss of the Du Family.

Yu Shi Lan: "... " what a pair.

"But the outside world never knows the truth and the two of them both have high reputation. After all, they come from influential family and there are still many people

who want to curry favor with them. Young Miss Du and Young Master Lian didn't want anyone to interfere with their relationship and made gossip, so Lian Lei Xu arranged to make a shield."

When talking about this, Mu Ting Ye's tone became unconsciously lower and there was a faint killing intent in his eyes.

Unlike Yu Shi Lan who has been baptized by blood and fought for years, Mu Ting Ye was clearly just a young master in his teenage years. He didn't have much experience in the world, yet the hint of ruthlessness had already started to sprout out from him.

This made Yu Shi Lan couldn't help but look in his direction.

She was very sensitive to killing intent.

While it was not directed towards her, Yu Shi Lan could still sense that Mu Ting Ye was definitely thinking of killing someone.
