Chapter 121: Worry

Inspector Fang has no means of escaping Yi Tianyun now, even the most powerful person tagging along as a bodyguard is already dead. Inspector Ge is also dead in one shot, how can someone with lower cultivator like Inspector Fang be an opponent to Yi Tianyun.

“We won’t say anything to anyone!” Inspector Fang says while still trembling from Yi Tianyun Killing aura.

“What are you talking about now? Could you please make sense for once? Stop wasting my time!” Yi Tianyun ignored their act for mercy, and start to walk in their directions. The two of them seeing Yi Tianyun doesn’t acknowledge them become more scared than ever, and start to run away from Jade Palace, but before they can leave the room, Yi Tianyun use his Absorbing Stars Great Technique sucking each of them into his palm.

In a matter of seconds, the two of them become an empty husk, but they are not dead yet. He got a rough total of 700.000 exp from the two of them. This is so much higher than killing them instantly.

“Profound Azure Mansion wouldn’t let you go!” Inspector Fang says while already looking like a mummy. Yi Tianyun sighed “I told you already, Profound Azure Mansion would not bother me if I don’t ask for trouble, in turn, if they did otherwise I would gladly come to them!” Yi Tianyun says coldly at the two near dead man. He activates his Lucky Aura and kills them immediately.

‘DING!’

‘Successfully killed Inspector Fang of Profound Azure Mansion’

‘Reward: 160.000 Experience Points, 3.600 Crazy Points, Transforming Heaven Palm Martial Art, Netherworld Step Technique.’

‘DING!’

‘Successfully killed Officer Zhang of Profound Azure Mansion’

‘Reward: 160.000 Experience Points, 3.600 Crazy Points, Transforming Heaven Palm Martial Art, Netherworld Step Technique, 1x Heaven Ancient Spear, 1x Dropping Clouds Boots.’

Yi Tianyun notices that they are dropping the same martial art, but nonetheless it is still Earth Level Martial Art so he can’t complain. He can always sell it for the Crazy Points. He also get disappointed as he also notices that even with the effect of Lucky Aura he still can’t get all of the probability item reward he could get for killing them.

Suddenly his attention is shifting to Shi Xueyun as she talks to him, “Yi Tianyun! Your already broke through into spirit core?” Shi Xueyun asks while sense of bewilderment is very visible on her face. She was still in shock from watching Yi Tianyun brought down Elder Wei with ease. In fact, everyone else besides Shi Xueyun have the same question, they are bewildered by Yi Tianyun’s inhuman cultivation speed.

They refrain themselves from asking Yi Tianyun this question because when Yi Tianyun shows his power, he’s already too far ahead of them, leaving them too embarrassed to ask such question.

“No, I am still in the Core Condensation Level.” Yi Tianyun answered light heartedly. This answer from Yi Tianyun makes them more bewildered than before.

If Yi Tianyun already able to fight of a Spirit Core Cultivator in only his Core Condensation Level, than what would happen when he reaches the Spirit Core Level? This kind of question fogs their mind as they look at Yi Tianyun. They find a new kind of respect from Yi Tianyun, a terrifying one.

But as soon as Yi Tianyun starts to relax, everyone snaps back to reality as one of the elder said: “What will we do now? Profound Azure Mansion surely will attack us after they hear about what happened here!” Yi Tianyun thought the elder’s words over, he has some ideas about what to do, but he’s still reluctant to break the information to all elder this fast.

But he clearly has no choice now, he can’t have the Jade Palace to be destroyed. Not only Shi Xueyun is fond of Jade Palace, but also Jade Palace was tied to his Main Quest.

The worries show themselves at the elders' and Shi Xueyun's face. They know if they fight the Profound Azure Mansion head on, the only weapons that can at the very least put a fight is only Yi Tianyun. This time, the level is so much bigger than the Three Great Factions Yi Tianyun fought before. There is no way Yi Tianyun would be able to fight a dozen of Spirit Core at once.

"I believe, I can do it, I can crush the Profound Azure Mansion, but this will undeniably be a difficult battle." Yi Tianyun says solemnly. The elders are understandable enough that Yi Tianyun needs time if he really will crush the Profound Azure Mansion.

"We believe that you are able to do it, sure. but we think that at the very least you need some time for it. Now is not the time."

Hearing the elders' reasoning for him to not head over to Profound Azure Mansion on his own, making Yi Tianyun sighs, as he knows they are right. Therefore, he had no choice as he needs to build advantages for Jade Palace.

"There is somewhere I need Jade Palace to see. I think several elders and Aunt Shi should come with me." Yi Tianyun says as he looks Shi Xueyun in the eyes. Xueyun immediately understood that Yi Tianyun would do something for the sake of Jade Palace.

Shi Xueyun immediately tells a disciple to go back inside and she also told Xiao Lian the same thing. After the elder that will accompany Yi Tianyun has been decided, Yi Tianyun quickly wave them over and took over one of the Profound Azure Dear giant eagle the Inspector use for coming over earlier.

As they began the ride with Yi Tianyun, they have no idea where Yi Tianyun would bring them to, this fact alone makes them confused. But, as they passed some familiar path, they immediately recognize that Yi Tianyun is bringing them to somewhere they are familiar with.

"This is the way to Heavens Immersing Ancient Ruins, is it not?" one of the elders says very confidently.

"Yes, you are right!" Yi Tianyun says with a light smile on his face. The fact that Yi Tianyun brings them to somewhere they couldn't enter makes them even more confused than before.

In Yi Tianyun's side, Shi Xueyun only smiles while looking at Yi Tianyun and didn't voice any question at all. She knows that Yi Tianyun have something very important to show them when they arrive.

Chapter 122: Calm

With the giant eagle as their means of transportation, they arrive at Heavens Immersing Ancient Ruins entrance rather quickly. With a wave of his hand, Yi Tianyun successfully opens the door of Heavens Immersing Ancient Ruins.

This scene makes the elders and Shi Xueyun a little bit stunned as they immediately realize that Yi Tianyun have a complete control of the ruins.

"Stop standing around, come in!" Yi Tianyun shouts as the elders are still in shock. Shi Xueyun only smiles and proceeds to enter the ruins following Yi Tianyun and not long after her, the three other elders come following up.

"We really can go in!" the three elder mutters to each other as they still can't believe that they really can enter this place again.

"How did you do this, Yi Tianyun?" Shi Xueyun asks.

"It's a rather simple story, when I was looking for martial art in front of Smelting Trial Stone Tablet, I solved the puzzle inside it and with it I receive the inheritance of the entire place. In a way, everything in here is mine, and there is one other person that has control over the place, and he is the old man Xuan." With a wave of his hand, Yi Tianyun summons Old Xuan and the old man appeared in front of them with a smile.

The sudden appearance shocks everyone else, they notice that the old man in front of them is not a real person, but rather an illusion.

"Young master brought some people this time, I welcome you all to Heaven Immersing Ancient Ruins." Old Xuan said in welcoming manner.

They all nod at Old Xuan, doesn't know how too properly respond, and Old Xuan also give off intense presence causing them having a hard time to relax.

"Heaven Immersing Ancient Ruin doesn't have any treasure anymore, as you may know. But, as a cultivation place or as a sanctuary, this place is perfect. We need to immediately move the disciples here, as Jade Palace is not safe enough for them to cultivate, and this place is a much better cultivation environment. There is absolute no way that Profound Azure Mansion can enter this place even if they happen to get information about us evacuating here." Yi Tianyun said with a smile covering his face.

"Just like that, we abandon Jade Palace? This is a tough choice, we have to think very clearly for making the decision." Shi Xueyun said, breaking the silence. After a while, all elders seems to arrive at the conclusion they need, they all agreed to use this place as a fortress against Profound Azure Mansion, rather this than being annihilated.

They would never agree to surrender to Profound Azure Mansion, if they do, Jade Palace is the same as gone. Compromising this kind of thing is nothing more than giving up!

For Yi Tianyun, the one reason he will not let Profound Azure Mansion wins is that he doesn't want all the female disciple of Jade Palace to be bounded to Profound Azure Mansion's disciple. Furthermore, he doesn't want to give up his beloved aunt to Profound Azure Mansion Lord!

"There is absolutely nothing to worry in here, there is no other way to enter this place other than with my permission. And with this place's environment, the disciple can cultivate with better efficiency." Yi Tianyun said, and Shi Xueyun quickly added: "After our strength is good enough, we will surely come out and at that time, there is no way they can look down on us anymore."

This time, there is no way for them to fight Profound Azure Mansion, Yi Tianyun wouldn't be able to defend everyone by himself. The elders surely understand this too, they need to be stronger for their own sake and for Jade Palace.

"Now, it's best for us to accommodate the Jade Palace disciple to move here, and make sure that all we need is enough for a couple weeks." Shi Xueyun said confidently. All the elders quickly nod and prepare themselves to accommodate the entire disciple before it's too late.

“Aunt, I need to go somewhere for a while.” Yi Tianyun said to Shi Xueyun as he already said what he needs to say to the others.

“Go where?” Shi Xueyun was startled, with Profound Azure Mansion ready to attack anytime, Yi Tianyun still risk going outside.

“I still don’t know, but I can’t stay here. I can’t breakthrough in here.”

Yi Tianyun said very confidently. Heavens Immersing Ancient Ruins is good, but he can’t absorb experience in this place, or this place wouldn’t hold. The last time he uses his Absorbing Stars Great Technique, this place is shaken like an old house on the verge of collapsing.

The Great Array of Heavens Immersing Ancient Ruins has been somewhat broken, in his current level there is no way that he can fix it. He needs to be at least in Divine Rune Master level to even consider fixing it.

“Yi Tianyun...” Shi Xueyun is very much reluctant to let Yi Tianyun go, but she can’t find the word to say her feelings.

“Aunt, don’t worry. I will be back soon enough.” Yi Tianyun said while knowing Shi Xueyun’s concern. He quickly pulls out his Hundred Transformations Mask and wears it on his face. His face instantly changes into someone else.

“Look, do you still recognize me?” Yi Tianyun said cheerfully.

“How? I never saw this kind of treasure before. This is truly amazing!” Shi Xueyun said with awe. Her previously solemn attitude suddenly brighten seeing Yi Tianyun’s item.

“With this item, you don’t need to worry about me. There is no way they could recognize me.” Yi Tianyun said cheerfully. The Hundred Transformations Mask is the perfect item to use when there is a lot of enemies searching for you!

After Yi Tianyun showed the Hundred Transformations Mask to Shi Xueyun, She's a bit relaxed. After he calmed Shi Xueyun down, Yi Tianyun proceed to go back to Jade Palace and immediately throw himself into forging and refining tools and pills. Which later he sells for Crazy Points. He really needs all Crazy Points he can get to make sure he can level up his martial arts again.

'Peak Grade Spirit Tool, selling price of 5,000 Crazy Point, confirm?'

"Sell!"

'Third Grade Pill, price 3,000 Crazy Point, confirm?'

"Sell!"

'Peak Grade Spirit Tool...'

"Crazy Points, I need a lot of Crazy Point!" Yi Tianyun says as he sells everything. At least he needs to level up Dragon God Bloodline, as he knows that leveling up Crazy Mode would be asking too much. After all that fiasco he opens up his status windows to see his own progress.

Host: Yi Tianyun

Level: 30 (Peak Core Condensation)

Experience: 1887532/8500000

Crazy Point: 298728

All items: Recovery Pill 18, Gift Pack Level 31, Life*1, Bad Luck Divine Pill, 5 Times Experience Card, Blast Divine Pill

Treasure: Purple Fire Divine Furnace

Title: Guardian

Fire: Immortal Fire

He realizes that he still has a long way to go to breakthrough to Spirit Core, he sighs as he feels so powerless right now.

There is nothing he could do, as of now, killing monsters is not going to cover the exp required to level up in such a short amount of time, and he has limited amount of resources for forging and refining.

The material he used before already depleted, he needs a new batch of materials but he knows that it's gonna take a while before the new batch from Rain Pavilion is delivered.

He thought of the Exp card, but the it's just too expensive, is it worth it if he chooses to buy it? He thinks to himself.

As of now, he looks over to Dragon God Bloodline and sees that he has enough Crazy Points to level it up. He immediately choose to do so.

"Level Up, Dragon God Bloodline!"

'DING'

'Successfully Levels Up Dragon God Bloodline into Level 3!'

'Next Level Up Cost: 500.000 Crazy Points'

The level up process costs 100.000 Crazy Points, which is still an absurd amount of points in Yi Tianyun's perspective.

"I still have 200.000 Crazy Points left, and there is nothing else i can level up with this amount." He sighed again, feeling defeated. He thought over his earlier plan and immediately makes up his mind.

"It seems that the only thing I can do with this amount of points is to buy the Experience x 10 Card. I believe it costs 50.000 Crazy Points for one card, with this amount of Crazy points I have now, I can buy 4! It has to be worth something." He immediately opens up the Crazy Points Shop and immediately proceed to buy 3 cards.

'DING'

'Not enough Crazy Points to buy the exact amount of items'

Yi Tianyun was a bit shocked by the system message, He was very sure of his math! He changed the amount of card he will buy into 2.

The purchase is successful, but once again he is baffled by Crazy Point Shop's ridiculous system. At first it costed 50.000 for Ten Times Experience Card, but now it costed 150.000 Crazy Points!

"What the hell is this! This is a rip off! This is not fair!" Yi Tianyun keeps on cursing the system, he feels cheated! He continue to check the system for explanation, and he immediately finds it in the cards detailed information.

'Consumables, Purchase will double the product prices. No limit prices.'

"This is an absolute bullshit!" He curses out loud, as he feels very annoyed at the system of his Crazy Points Shop.

He choose to go back to Heaven Immersing Ancient Ruins for now. He wants to at least be there for his aunt, and see what else do they need, and then he will go out again to level up. As he arrives at the ruins, he can see that the disciple face is adorned with awe and surprises, they always dreamed to cultivate in the ruins.

They all already heard about the Heavens Immersing Ancient Ruins to be blessed with abundance of cultivation energy. So they expect to at least enter one time for them to speed up their own cultivations. Now, the fact that they could enter sp easily makes them shocked!

After he sees that he's no longer needed in the area, it is time for him to leave.

"Aunt Xueyun, it is time for me to leave. I will be back soon, and the control of this place is already shared with you, so you could control who can enter and leave the ruins as you please. You are basically the second owner, if you need anything I believe Old Xuan would be glad to help you." Yi Tianyun says as he walks toward the gate.

"You be careful out there, you hear!" Shi Xueyun says sternly. Yi Tianyun looks at his aunt and smiles at her and than he walks out of the gate to go levels up on his own.

After leaving the vicinity of the ruins, Yi Tianyun proceeds his plans on leveling up in Heavenly Border Continent. This continent is a different continent as he is on right now.

This continent he is currently resides is called Earthly Borders Continent, and this place didn't have any faction above Second Level Faction. The Heavenly Border Continent is much different as the continent houses a large number of Third Level Faction and Profound Azure Mansion is there too.

He chooses the Heavenly border Continent for his level up purpose because the continent houses a stronger Demon Beast than the one in this current continent he is on. He needs a higher level demon beast to level up quickly!

Chapter 124: Heavenly New City

Yi Tianyun took a ride in the black dragon's back, so that he can arrive at the Heavenly Borders Continent quickly. Once he came across the oceans he could see the Heavenly Borders Continent in the horizon. he could sense the strong spirit in the atmosphere even though he hasn't entered the Continent.

He finally understood why the continent is so much powerful than the Earthly Borders Continent. In a way, normally ones would go to the Heavenly Borders Continent using the boat, as flying mount is so rare, and flying with skill in general has gotten far in higher cultivations level.

Many sects from the Heavenly Borders Continent is migrating to Earthly Borders Continent in the past, Jade Palace being one of them. This occurred because the high competitive environment in the Heavenly Borders Continent.

There is too much skirmish happening there so that there is no other choice but to go away from the heat if you want to survive. For this reason too, Heavenly Borders Continent didn't have any First Level Faction, the minimum here is Second Level Faction. Although that being the case, Second Level Faction also must have many spirit core cultivator for them to survive.

Since Yi Tianyun have Black Dragon in his arsenal, he uses the black dragon to cross the sea. The black dragon draws many onlookers' attention on the ground because a dragon is one of the most powerful creature in the cultivation world, not only that, but nobody ever heard of mountable dragon before. A

commotion begins to arise down there, as they began to murmur while looking at the dragons above them in awe.

“Look, that, that’s a Black Dragon!”.

“Yes, it’s really a Black Dragon. I didn’t expect anyone to take Dragon Clan as mount!”.

“This is incredible. How did it happen? The person riding it seems to be very young?” They said to each other.

Yi Tianyun who rides the Black Dragon in question completely ignore them. he knows that the dragon would attract onlookers but he didn’t care, he needs to arrive at the Heavenly Borders Continent quickly. He doesn’t have time to think about others at this point.

Based on his calculations, the Profound Azure Mansion would attack in 2 or 3 months. That is if they could pinpoint that Jade Palace already relocated into Heavens Immersing Ancient Ruins. But he needs to think for the worse, bringing him time to cultivate in this continent for maximum of 3 months.

With the current conditions of the Heavens Immersing Ancient Ruins, there is no doubt that Profound Azure Mansion would be able to break through the gate if they get the information about Jade Palace’s evacuation.

Since he wears Hundred Transformations Mask, he doesn’t need to be afraid of blowing his real identity. When he lands in the continent he felt the abundance of spirit power in the area, at the very least there are 3 times more spirit here than Earthly Borders Continent.

“It’s no wonder that so many people chose to come to this continent for cultivations. The cultivation environment is much better here.” Yi Tianyun said as assurance to himself.

But, because of so many cultivators reside here in the Heavenly Borders Continent, it is common for conflicts to happen among the cultivators here.

Earthly Borders Continent in comparison is more peaceful than here. Before he lands he already look over as to where he would go next, and he sees a city not far away from the shore. He needs to get to the city first, as it is important to obtain informations, and plus that he didnt know where the Demon Beast would be. So all he needs to do for the start is to have information about the place in general.

Although, he can always just fight others to meet the exp requirement faster, but he doesnt want to do this. although he alredy killed many people in Earthly Borders Continent he is not a murderer. he doesn't want to kill if the other person didn't provoke him.

Soon he reaches the city gate and read the name of the city for the first time.

"Heavenly New City..." The name of the city is engraved boldly on the top of the gate. It is to state the fact that the city is controlled by a strong person or faction, at the very least the leader would be the Spirit Core if not more.

After that, Yi Tianyun stroll down into a queue in front of the gate. He sees that the guard asking for some gold as a toll to the city. After waiting for a while, he's finally close enough to hear the guard speak from his position.

"Are you new here? you need to pay 10 gold for you to get in!" the person in front of him look at the guard with confusion. The guards sighed and points his finger to the sign near them.

"You can't read? this is stated here that you need to pay 10 gold to get in!" The cultivator only frowns looking at the sign, and unwillingly gives 10 gold into the guard's hand.

Soon it was Yi Tianyun's turn, and he immediately turns in the entry gold into the guard's table. That amount of gold is doesn't worth that much for him, because he knows that the gold is supposed to be his own safety and protection fee.

There is a rule in the city, there is no fighting allowed, the protection fee also make sure that everyone on the city didn't come across any demon beast, also the protection from robbery and such.

As this Heavenly New City located so close to the sea, there is no doubt that this place is meant for the beginner that come from Earthly Borders Continent. This city is supposed to be the city where the new

cultivator can cultivate safely, and then with this place as a base, they could always venture deeper to the continent as they see fit.

Chapter 125: Star Pavilion

After entering Heavenly New City, Yi Tianyun found himself in the middle of bustling streets. Most of them are cultivators, although their cultivation is not that high.

Relatively speaking, it is much safer here, but without money, it's impossible to stick around here. Becoming Heavenly New City's resident is the simplest way if you want to leave and enter the city at will.

Becoming Heavenly New City's resident is actually pretty simple, all one need to do is assist with the Quest at Heavenly New City. For example, picking Spirit Herb, slaying a demon beast, or even a wanted criminal, and earned contribution point upon completion.

After accumulating a certain amount of contribution point, one can exchange it for lifetime residency, and other things. It's basically the second currency in this city. With sufficient contribution points, one can even exchange it for Earth Level Martial Art, but of course an abundant amount of contribution point is necessary.

However, Yi Tianyun does not care about this. What he needs right now is information.

He went straight to a shop and took out a piece of gold, and casually said: "Give me the details of Heavenly Borders Continent."

When the shopkeeper saw the gold, his eyes sparkled: "OK, a moment!"

He immediately turned brings out several miscellaneous books, containing the most detailed information of Heavenly Borders Continent.

Yi Tianyun took it and have a quick skim, and there is quite a lot of information inside. The most important things are marked, for example, the power balance, topography. The price is quite cheap too.

After skimming it for a while, Yi Tianyun frowned. The information about Dangerous Zones is included in the book but, it's not detailed.

It's like saying that a knife is very sharp, but not mentioning who made it, what it's made of, etc. He can't just go to Dangerous Zones with this amount of information.

"Is there any detailed information about Dangerous Zones?" Yi Tianyun asked to the shopkeeper.

"About that, that kind of information is only available at Star Pavilion, you can obtain more information there." The shopkeeper locks his palms and look apologetic because Yi Tianyun gave him one gold while the book only costs 2 silver.

"Star Pavilion, seems like no choice but to go there."

After hearing what the shopkeeper said Yi Tianyun finally realizes that Star Pavilion has a similar status here to Rain Pavilion. It has a variety of things to sell, including information. Here you can buy everything and even deliver a message to cultivator.

But of course nothing is free, everything has its price, given the right price cultivator can obtain almost anything there.

The Star Pavilion has branches throughout the Heavenly Borders Continent. And it's quite influential in this continent, equal to a Third Level Faction, so no one dares to mess with them.

With such influence they decided to open pavilion branches and treasure houses, and thanks to their reputation the business runs smoothly.

Immediately, he turned to the front of the Star Pavilion and looked at the towering pagoda in front of him. He was amazed upon seeing it, the reason is because of its material. Profound Iron!

A material used to forge High Grade Spirit Tool is used to create a pagoda. Not only in Heavenly New City, but also in other cities, as a symbol of the Star Pavilion.

This pagoda is almost like a fortress. Average cultivator won't be able to break through the door.

"Star Pavilion? why not Star Tower?"

Yi Tianyun chuckled and walked inside. When he entered, the guards stared at him. Their cultivation base was Eighth Level Spirit Refinement. But that's all, they just stared.

After entering, he can see Core Condensation Expert walking around, probably another guards. Yi Tianyun couldn't help but sigh, and in this area, the cultivation's average level is higher, and the cultivation is easier to notice.

"What can i help you with?" The female Cultivator next to him greeted him, smiling, any guests coming here will be welcomed with the best smile.

Her cultivation is not high, only Second Level Spirit Refinement, in the First Level Faction, she would've become a promising disciple, but only as a poster girl here. This is the gap between the regions.

Yi Tianyun glanced at the good material in first floor, but he none of them piqued his interest.

"I want information." Yi Tianyun said all of a sudden.

"Yes, please come with me." The female Cultivator took him upstairs, to third floor and took him to the innermost room, an old man with his eyes closed inside, even when the door is opened he's still not waking up.

"Deacon Huang, there's a guest." The female Cultivator whispered.

This Deacon Huang woke up, the moment he opened his eyes he immediately turn his eyes at Yi Tianyun, and smiled after a good look: "Good brat, young and calm, is this your first time coming to Star Pavilion?"

“What is this?” Yi Tianyun squinted.

This Deacon Huang cultivation is at Fifth Level of Core Condensation, which is relatively high.

“I can’t see your exact cultivation is, but i know you’re not some average cultivator. You contain your aura, and i’ve never seen you around here,so i’m sure you’re not a resident here.” Deacon Huang smiled: “Am i wrong?”

In just a short while, this old man seems to figure out a lot about Yi Tianyun already.

“How about both?” Yi Tianyun smiled lightly while evading the question: “I want to buy information, where is the Dangerous Zone populated with many Demon Beast with Core Condensation level!”

He casually asked without hiding anything, that’s how Yi Tianyun approach this case, how the old man responds is none of his business.

Chapter 126: Devil Sea Dangerous Zone

Yi Tianyun doesn’t care what the other thinks. Anyway, now that he’s outside Earthly Borders Continent he doesn’t have to use Hundred Transformation Mask anymore.

Deacon Huang looked at him, he’s having a hard time believing what he just heard, which was very straightforward.

“It seems that our friend here is going to hunt demon beast.” Deacon Huang’s eyes sparkles, what Yi Tianyun said really piques his interest: “I can give you the information you need, but first, i have 2 choices. The first one, i’ll give you this information for free as long as you sell the demon beasts you slain to us, of course for a reasonable price; the second choice is you can buy this information from me for one thousand gold. I personally prefer the first choice, both of us gains benefit from this, because we need some demon beast for material and you can earn more gold.”

“No problem, but instead of gold, can you pay me with your material instead?” Yi Tianyun is excited, this trade is pretty beneficial for him.

“Deal!”

For Yi Tianyun this is like killing two birds with one stone, because extra quest related to this popped up and he instantly accepted it.

‘DING’

‘Successfully accept ‘Hunting Demon Beast Mission’, hunt a hundred Core Condensation Level Demon Beasts, earned 500,000 experience, a thousand gold, 10,000 Crazy Point, Ten Free Lottery Draw, one hundred favorability for Star Pavilion!’

Whenever favorability or prestige is involved, Yi Tianyun will always accept the quest without any hesitation, especially if it’s Star Pavilion favorability, of course he wants to have a better relationship with Star Pavilion, it’s the most influential Pavilion in this continent.

“To be honest, there are a few places where many demon beasts gathered, especially those above Core Condensation level. Because the higher their level of cultivation is, the less possible they will live in a group. Based on recent information, one of these places is Devil Sea Dangerous Zone!” said Deacon Huang.

“Devil Sea Dangerous Zone?”

Yi Tianyun frowned, Heavenly Borders Continent has a total of five Dangerous Zones, one of which is the Devil Sea Dangerous Zone, just as the name says it’s really dangerous there, but mainly because the area mostly consists of water, movement is very restricted of course, even with good cultivation level, it would still be difficult to hunt in this area.

“Those demon beasts are in the sea? That’s bad news.” Even Yi Tianyun can’t figure out how to kill the demon beast residing in sea, even with Black Dragon, it won’t be easy.

“It’s impossible. Even I can’t do that, I’m not at Core Transformation level yet.”

Deacon Huang said solemnly: “The one i’m talking about is Devil Cloud Island, it is located in Devil Sea Dangerous Zone. I don’t know what happened, suddenly there was a group of demon beasts gathered there. A large number of demon beasts climbed up from the seabed, their cultivation varies from Spirit Refinement to the Core Condensation. That’s all the information we manage to gather and we do not rule out the existence of demon beasts with stronger cultivation!”

Yi Tianyun is excited, as long as there are a bunch of them, using 10 Times Experience Card will greatly boost his exp gain.

Deacon Huang said solemnly: “But the Devil Sea Dangerous Zone is very dangerous, and most people can’t fly, and it’s even more dangerous to use a boat there. Basically the most challenging task at hand is reaching the island. As far as i know for now that’s the only area with the matching criteria as what you requested.”

“That’s a lot, I really need this information.” Yi Tianyun is very satisfied, he can’t obtain this information from average informant.

Because the Devil Sea Dangerous Zone is extremely dangerous, average Cultivators can’t even go there, let alone obtain information about it.

“I’m thankful if you’re satisfied with this information, but still this is very dangerous. Are you sure you want to go? If you just wanted to hunt demon beast, i have other places, their cultivation base is higher but they’re scattered around the place.” Deacon Huang offered, but Yi Tianyun has no need of such information.

“No, thanks, i’ll stick to the first one.” Yi Tianyun said with a light smile: “I’m going to Devil Cloud Island to hunt demon beast. You Star Pavilion doesn’t plan to gather more information there? or hunt those demon beasts?”

“Our Star Pavilion is very powerful, but not everyone is willing to go, especially this Dangerous Zone, We need some Deacon or Elder to go there, that’s not worthwhile.” Deacon Huang said with a smile : “We will simply provide information.”

“That Information, by the way who else buy it?” Yi Tianyun asked with a wink.

"I'm afraid i can't tell you." Deacon Huang smiled.

Yi Tianyun also smiled and ask about that matter any further.

"So, do we need to sign something?" Yi Tianyun asked.

"No, that matter is already concluded when u made a deal with me earlier. The demon beasts you slain will be sold to us. You can keep a part of it, but the rest must be sold to us. If you violate our agreement, you'll be completely banned to conduct any business with Star Pavilion." Deacon Huang said with a light smile, and his tone is full of confidence..

However, Star Pavilion will not eliminate Yi Tianyun, it's just he will be blacklisted by Star Pavilion and if he is, it would be troublesome since Star Pavilion is the most resourceful treasure house in this continent.

"Rest assured, i'll keep my promise." Yi Tianyun said with a smile.

"I believe in you," Deacon Huang said. "What else do you need? maybe a ship, or something?"

"This won't be necessary, just provide me with the route to the island" Yi Tianyun said.

"Of course. I will give you the exact information now. You can take a closer look." Deacon Huang got up and walked in the room behind him looking for something. He quickly came out holding a star plate.

After taking the star plate, Yi Tianyun read the information inside, it is a very detailed map of the entire Heavenly Borders Continent, among which there is a bright spot outside the Heavenly Borders Continent, that is where Devil Cloud Island lies.

"This is Devil Cloud Island, just follow this route." Deacon Huang points out and smiles.

"Okay, then I will gladly accept this." Yi Tianyun put away the star plate and turned and prepared to leave.

“Young Master, wait a minute, how many companions are you planning to go with?” Deacon Huang asked.

“I am going by myself.”

Yi Tianyun smiled lightly, leaving Deacon Huang, who was speechless as he watched Yi Tianyun’s back.

Chapter 127: Heaven’s Top Mansion Disciple

After Yi Tianyun left Star Pavilion, he heads straight to Devil Cloud Island without wasting any time. After Yi Tianyun left, a figure is watching him from the crowds, and tail him.

When he reached City gate, Yi Tianyun is nowhere to be found!

“How can he disappear just like that!? Did he notice me?” He is responsible for tailing Yi Tianyun. The moment he blinks, Yi Tianyun is gone. He doesn’t know where Yi Tianyun go. With a dissapointed look he said: “I’m definitely gonna be punished for this...”

Deacon Huang wanted to make sure whether he’s really going alone or not, whether he’s bluffing or not.

“Deacon Huang, I lost him all of a sudden he’s just gone...” The guard who came back shook his head looking guilty.

“It’s alright, i pretty much guess this is gonna happen. His cultivation is unfathomable. I can’t accurately sense how strong his cultivation is. Considering he intended to go to Devil Cloud Island alone, he must be quite strong.” Deacon Huang dismissed the guard and said, “I don’t blame you for this, you may go now.”

The guard is relieved, he thought he’s going to receive some sort of punishment.

Deacon Huang is wondering “I don’t know what’s the deal with him, is he really planning to go to Devil Cloud Island alone...”

Although the Star Pavilion is in need of demon beasts, they can’t afford to send their force to hunt, because it requires a lot of human resources, like Core Condensation Cultivator, or Spirit Core Expert. If they assembled such force simply to hunt demon beasts, it will cause deficit instead of profit.

Demon beasts’ body part can be utilized to produce Alchemy Material or Blacksmith material. Some people even buy it as it is. However, Star Pavilion don’t specifically hunt them, as long as they manage to procure these demon beasts their business is going to be stable.

Outside the City gate, Yi Tianyun obviously realized that someone is following him the moment he left Star Pavilion. He didn’t really care who it is. He just used his Stealth ability and hide from plain sight. After leaving the City gate, he found a remote place and summoned the Black Dragon. He flew to Devil Cloud Island riding his Black Dragon with unbelievable speed.

Soaring higher into the sky, and increasing its speed, like an arrow, from afar the Black Dragon is like a shadow flashing through the cloud!

“Let’s keep going at this pace...”

Yi Tianyun flew for two days, while paying attention to the star plate, he’s almost halfway there. If he happened to go using a boat, it would probably take a month or even longer, assuming there’s no problem on the way. He’ll never even consider taking this quest if he didn’t have this Black Dragon.

In fact, he’d rather wreak havoc at Profound Azure Mansion, but since he’s not strong enough for now, he changed his mind.

Along the way, he saw a beach. There was a big ship surrounded by more than a dozen boats there, but these boats are pulled by flying sharks!

Taming these flying sharks isn’t as easy as slaying a demon beast.

“Hey, Boss, there are a several charming girls aboard. We can have much more fun this time, my mouth is all watery!” The pirate next to him grinned and drooling as he watched one of the female cultivator turned pale.

“Indeed, they certainly look much more appealing, they’re definitely from a good sect.” Bi Yuntao looked at the Cultivators on the boat, his eyes are full of insidious and lust, approach one of the cultivators and said “I advise you to surrender, don’t ever think of fighting us on the sea, this is our turf!”

They’re not bluffing, with their flying sharks they have total advantage on the sea.

All these cultivators on the ship turned pale, their cultivation base is not high, most of them is in Spirit Refinement, the highest is at early stage of Core Condensation. Meanwhile the pirates have three Core Condensation Cultivators! And they can control these flying sharks, which is clearly an advantage for them.

“I, we are all from Heaven’s Top Mansion, I advise you to leave us if you don’t want to incur our Sect Lord’s wrath!” One of the male disciple shouted loudly, but the sound was not enough.

“Heaven’s Top Mansion?” Bi Yuntao said with a sneer: “You mean that puny sect? Even Second Level Faction is much stronger than that puny sect!”

“Deacon Qian, what should we do?” One of the beautiful women in yellow clothes was scared shitless.

They can imagine what would happen to them if they were taken away.

They’re all thinking of the same thing, and all they can do is looking at Deacon Qian, with highest cultivation among them, hoping he can do something to deal with this they came here thinking it would be safe, and just their luck, they’re suddenly ambushed by pirates!

Cases involving pirates are pretty much rarely happened, but when it happened to you, you know that you’re screwed.

Deacon Qian didn't panic, instead he said with a casual expression, "We should surrender, we don't stand a chance."

"What!?"

The female disciples on the ship is speechless, and they thought they will have an all out battle, but suddenly Deacon Qian told them to surrender.

"Deacon Qian, what are you talking about!" One of the male disciples stood up and yelled: "Deacon Qian, we must fight together even if it's futile! I don't care if i die trying, i won't let these scums do whatever they want!"

Only this male disciple voices his concern, other female disciples can't say anything even if they wanted to, although it's almost impossible wouldn't it be better if they fight together, that's what the male disciple.

Deacon Qian suddenly rushed toward the male disciple and kicked him toward the sea. "Bang~", the male disciple was sent flying, and sank into the seabed.

"If you want to die that bad, i'll let you die first." Deacon Qian looked at the other female cultivators coldly and said, "Who else refuse to surrender?"

"Old Qian, you don't really have to make a move, i haven't had enough fun." Bi Yuntao smiled and just laugh.

The cultivators on the ship are all shocked, they did not expect their deacon is in cahoot with these pirates!

Chapter 128: Rescue

"Deacon Qian, you... You betrayed us!" They glared at Deacon Qian, pale and powerless, they never thought it would turn this way!

Deacon Qian looked at their shocked expression and immediately he said with a sly and cold smile: "Heaven's Top Mansion will perish soon, without resources, influence and power. Can I reach Spirit Core if I stay there? Of course not, it's much better to follow Brother Bi! In this sea, even Profound Azure Mansion won't dare to come here, it's totally safe!"

Deacon Qian himself admitted that he colluded with the pirates, which obviously shocked all Heaven's Top Mansion's disciple. But what he said is an undeniable truth, Heaven's Top Mansion has been declining these past few years, it isn't even comparable to Second Level Faction, and the resources have depleted. Definitely not a good environment for a Core Condensation cultivators who wanted to breakthrough.

"No wonder you proposed to have a journey with us out of the blue, you've planned this all along!" The women dressed in yellow, named Yang Xixue, who has the highest status and cultivation among them finally realizes what's going on.

"Indeed, as expected of Miss Yang Xixue, seems like you're not the best innate among other disciples for nothing." Deacon Qian stares at Yang Xixue from the top of her hair to the bottom of her toe and said with a smile: "Little Lass, I like you, as long as you obey me, I promise no one will touch you."

Yang Xixue bites her teeth saying: "get out of my sight you fucking traitor! I'd rather die than become your plaything!"

Right after saying that, she takes the sword aiming the tip to the neck, some other female disciples also follow Yang Xixue, Deacon Qian knew what they are planning and swiftly snatches the long sword from Yang Xixue's hands.

"Like I'll let you!" Deacon Qian looked cold.

And suddenly, several male disciples rushed toward the female disciples and snatch their swords as well.

"Senior Sister, what are you doing? Aren't you satisfied with us..." They sneered, turned out Deacon Qian is not the only traitor, a few male disciples also defected to the pirates' side.

“Wise move. Come with us, we’ll satisfy your needs. And rest assured, we will treat you well, after all you’ll give birth to our child!” Bi Yuntao chuckled, the female disciples become even more panic, they’d rather die than becoming these scums’ slaves.

“Huang Xiong, you, could you!” The rest of the male disciples who did not defect is fuming while trembling.

There are a total of 20 people boarding the ship including Deacon Qian. And several male disciples along with Deacon Qian already defected.

“Hey, didn’t Deacon Qian mention it earlier. Joining them is more promising. There is no future at Heaven’s Top Mansion. Why bother remaining loyal?”

“Yes! And with the lack of resources, maybe it will last for another month, then it’ll perish, Heaven’s Top Mansion? More like Heaven’s Top Palace, hahahaha.”

They sneered and continuously insult Heaven’s Top Mansion. They think this Heaven’s Top Mansion is a garbage and they don’t deserve to be part of that sect.

“Stop!” Yang Xixue angered: “Although we don’t have that much resources, but many experts already went out of their way to train us, the least we can do is appreciate them. Although our sect is declining right now, I believe one day, we will achieve more glory than ever!” she said proudly, other female disciples think so as well, they just nod their heads.

“I don’t care if one day Heaven’s Top Mansion achieve glory again, I only care about now, and the current Heaven’s Top Mansion better perish for all I care!” Deacon Qian coldly snorted and said: “Take them into custody, release them when they finally understand what I mean when I said Heaven’s Top Mansion is trash!”

“Heaven’s Top Mansion is quite blessed having disciples who still believed in them.” At this time, a black shadow descend and landed on the ship. A mere thought of pirates plundering a ship already infuriates him, now even a deacon along with several disciples are in cahoot with those pirates, he can’t sit idle much longer.

He thought because it's already in a level of Mansion, a reinforcement is definitely coming to help them. Turns out, let alone help, even their own deacon and disciples are traitors.

Greed really is fearsome, it can corrupt people's mind this easily.

"Who is it??" Deacon Qian and all these pirates are alerted. All of a sudden an unknown figure appear among them, without them realizing it, besides where on earth did he come from.

Everyone's eyes are focused on Yi Tianyun, who's standing on the ship and stare everyone indifferently.

"An ally of Heaven's Top Mansion."

Immediately after Yi Tianyun quickly used Absorbing Stars Great Technique, targeting Deacon Qian. Deacon Qian screamed due to surprise, but he's already too late, his spiritual power is continuously absorbed by Yi Tianyun, in a matter of minutes, half of his spiritual power is already absorbed by Yi Tianyun!

"This, what is this wicked arts!"

Deacon Qian tried to break free out of Yi Tianyun's clutch, but his body can no longer move at all. All he could do is watch as Yi Tianyun keeps absorbing his spiritual power!

Everyone else was shocked. The moment he appeared he already managed to immobilize Deacon Qian all by himself.

"You're an easy prey." Yi Tianyun lightly said with a smile.

"Save me! Quick! What are you doing!" Deacon Qian realized at this rate all his spiritual power will be gone in no time and quickly asked Bi Yuntao for help.

Bi Yuntao quickly come to Deacon Qian's aid using the flying sharks to come over here, but the when he's about to reach the ship. A huge Black Dragon flatten them from the sky, they didn't have time to react and was sent flying.

"Bang!"

When they were sent flying, the Black Dragon breathes intensely hot flame to their direction, the pirates, which were ignited by the flame jumped to the water to extinguish the flame, but turns out that the flame was not extinguishable by the ordinary sea water. As a result, their bodies are burnt to ashes!

Facing this sudden disaster, Bi Yuntao, the rest of the crew and the traitors are all shaking, what is happening?! How come there is a Black Dragon here!

Chapter 129: Mass Kill

"Black... Black Dragon!?"

Bi Yuntao was shocked by the scene enveloped in front of him. They never expect to confront a Divine Beast, let alone a dragon.

"Do you like it?" Yi Tianyun said with a smirk.

"Get rid of these trash!" Yi Tianyun said to the Black Dragon. Making them wonder is Yi Tianyun is the owner of the Black Dragon? But they can't prove it because the black dragon immediately roared and swiftly slashes his claws into the pirates' directions.

"Retreat!" Bi Yuntao screams out in horror. He quickly jumps into the water, as he thought that the water is the only safe place from the dragon.

But this move by Bi Yuntao was proven to be a fatal mistake. The Black Dragon roared so loud and its mouth was immediately full of flame. As soon as they see the dragon's mouth full of flame, the flame is quickly aimed into Bi Yuntao's direction. The dragon shoots black flame at the water! After the black dragon finishes his breath attack, at that exact location, a burst of bubbles can be seen, and not long

after that, bodies of the pirates hit by dragon's attack float to the surface, completely charred and lifeless.

'DING'

'Successfully killed Bi Yuntao!'

'Rewards: 48.000 Exp, 2.200 Crazy Points, Flying Shark control, Earth Level Martial Art.'

'DING'

'Successfully killed Liu Yucheng!'

'Rewards: . . .'

'DING'

'Successfully leveled up Black Dragon to Second Level Core Condensation!'

The Black Dragon is successfully leveled up! The rest of the pirates died one after another at the hands of the black dragon, but some of them successfully escapes, but Yi Tianyun doesn't care about the small fries that escaped.

He is more concerned about killing all the leader of the pirates. The disciples of Heaven's Top Mansion who defected were so stunned they're shaking, they're beginning to regret their betrayal now. They didn't know that Yi Tianyun is this strong!

They immediately jump overboard realizing they stand no chance against Yi Tianyun! But the Black Dragon is so much faster than them, the Black Dragon immediately throws them back on the ship, and suddenly there is a voice said: "Not even asking your deacon here before escaping? How cold" said Yi Tianyun mocking their futile struggle.

“Okay, now it is all over, what do you think about their punishment? Should we just execute them here? Or leave the decision to Mansion Lord?” Yi Tianyun asked about what to do with these traitors.

He doesn't mind to spare Deacon Qian for now, this is all a form of respect he could give to Heaven's Top Mansion, Xuan Tian Spirit King already gave him a lot, even Heavens Immersing Ancient Ruins helped him sheltering Jade Palace as he speaks.

Yang Xixue was the only one who stood bravely and walk toward Yi Tianyun and his Black Dragon. All the traitors is not immediately killed by Yi Tianyun, they're lying on the floor, losing all the will to struggle.

Yang Xixue look at Yi Tianyun and asked: “Are you Heaven's Top Mansion's ally?” She asked with a slight tremble on her voice, clearly still a little afraid of Yi Tianyun.

“In short, yes! I am Heaven's Top Mansion's ally.” Yi Tianyun doesn't know how to explain his side of story right now, he choose to agreed with them for now. He still has a couple of things to do first, but he makes up his mind to visit them later on.

“If I may, would you come with us to Heaven's Top Mansion? I am sure that your help with dealing with the traitor just now would be greatly rewarded by the Mansion Lord.” Yang Xixue said while hoping that Yi Tianyun would agree to her invitation.

“I can't do that now, I still have something to do. You all need to go back quickly now, there is no telling what you will encounter if you remain in this place any longer. Now there should be no more pirates hanging around this area, so you can make your way back fairly safe. Go back, and send my regards to your Mansion Lord. With your determination, Heaven's Top Mansion surely would regain its glory.

“Many thanks Senior!” Yang Xixue said to Yi Tianyun excitedly, she is happy that there is still someone who believes in Heaven's Top Mansion.

“When You come to Heaven's Top Mansion, we would surely repay our debt to you!” she adds immediately before Yi Tianyun rides his Black Dragon.

“Sure, I will come around later.” Yi Tianyun said while waving his hand. Once he's already at the back of the Black Dragon he adds “i'm looking forward to see you again, i'm sure when we see each other again,

i can expect a lot of great things from you.” after he say that, he immediately takes off with his Black Dragon to Devil Cloud Island.

“Senior Sister Yang, you said that man is still young. How can he reach that level of cultivation at his age? Plus that Black Dragon as a Mount? He is so amazing! How can he be an acquaintance with our Heaven’s Top Mansion?” One of the Junior Disciple said to Yang Xixue with awe.

“ I don’t know him myself, but if there is anyone who can help our Heaven’s Top Mansion, I believe that the person is him.” Yang Xixue replies with confident. She immediately snapped from her longing look at the horizon and turn her attention into the traitors that’s already bound together.

“Take them all into the Mansion Lord Palace! Let the lord judge them for their crime!” She ordered all the disciple standing around her. They all immediately shout their confirmation. Their voice latched with anger, if it is not their sworn loyalty to the Mansion Lord, they would be executing all this traitor themselves right here, right now!

Chapter 130: Slaughters Crazily

Yi Tianyun never expects to encounter Heaven’s Top Mansion on his way to Devil Cloud Island. He sure didn’t expect to save them in the middle of the sea, but even if the one down there was not from Heaven’s Top Mansion, he would still try to help them out. At least he knew who was right and wrong in that situation.

‘DING’

‘Successfully complete achievement [Saving a life is more prestigious than building a seven-floor pagoda]’

‘Reward: [Savior] title – Permanently increase 200 Prestige Points’

A System message popped up, letting him know that he completed a hidden achievement. This title’s effect was great, there was no need to equip other armor and stuff, he gets a permanent buff just like that.

"I never thought I would become a savior that easy! It must have been an accumulation of all people I helped up until now!" Yi Tianyun thought to himself.

He had this smug on his face, after he checked the title thoroughly, he saw that this title is different than the [Guardian] title. This title can be developed, which means that if he keeps saving people from their predicament, this title can rank up too. If it can be ranked up, this title would reach a terrifying degree at some point! Adding a permanent Prestige Point was not a child's play. Prestige Point can improve his luck, whether it's a forging success rate or an attacking rate.

He proceed to check his forging success rate and see that forging a soul tool has increased from 10% to 20%, and if he uses his Lucky Aura, he will have a whooping chance of 50%! this information stuns Yi Tianyun a little bit. With this success rate, it would be easy to level up his martial arts if he ever get his hand on the material needed to forge a Soul Tool.

After a while, he finally had his eyes on an island, there was no mistaken that this island is the Devil Cloud Island. As the name implies, the island have a dark cloud looming above the island, and the cloud seems to remain in one place.

The dark clouds constantly shooting thunder to the island, making it one of the most terrifying scene a person could see in their live. The thunder could kill a core condensation cultivator in one hit! Once he set his vision to the shore line of the island he noticed something strange.

There is a bunch of demon beast lying around that was usually found on the sea bed of the ocean. There were giant octopuses, giant sea shark, and giant manatees among many others.

"This Devil Cloud Island is so strange!" Yi Tianyun thought to himself. There is no clear explanation about these demon beasts' behavior, they varied from the level of fifth level spirit refinement to eighth level core condensation, these beasts' habitat is underwater under normal circumstances, in land their power is surely weakened. Even with their weakness exposed, Yi Tianyun doesn't seem to find any cultivator trying to hunt them anywhere.

Yi Tianyun was satisfied with no other cultivator nearby, now he could kill a bunch of these demon beasts without competing with others.

"This is great, I have to start now!" Yi Tianyun said to himself. He immediately activates all his buff.

“Dragon God Bloodline activates!”

“Crazy Mode, activates!”

“5 Times Experience Card, activates!”

“10 Times Experience Card, activates!”

“Double Crazy Point Card, activates!”

He activates all exp and crazy points buff he got, and proceed to jump off the Black Dragon to catch these demon beasts off guard.

The demon beast sense a great power looming above them, and they immediately looked up. But its already too late for them to dodge Yi Tianyun’s surprise attack.

“BOOM!”

Yi Tianyun lands with a bang! Splitting apart the demon beast he lands on with his Chaotic Heaven Sacred Axe! The same situation happened with the Black Dragon, it swooped in from above and teared a demon beast apart with its huge claws.

‘DING’

‘Successfully Kills [Giant Octopus]’

‘Rewards: 200.000 Exp, 4.000 Crazy Points, 1x Octopus Feeler (Doubles the power for short period of times).’

‘DING’

‘Successfully Kills [Giant Manatee]’

‘Rewards: 350.000 Exp, 6.000 Crazy Points, 1x Sea Cow Horn (Material).’

‘Ding’

‘Successfully Kills [Giant Walrus]’

‘Rewards: 400.000 Exp, 6.500 Crazy Points, 1x Walrus Skin (Material).’

With so many Exp and Crazy Point buff he is using, he gets a lot of exp and crazy points from these demon beasts! And with his prestige point from the [Savior] title, he got so many items drop from the ‘increase item drop chances’ effect.

The best thing is these demon beast wasn’t afraid of Yi Tianyun. They keep rushing at Yi Tianyun with the intention to kill! Yi Tianyun doesn’t have to make extra effort to hunt them one by one, they approached at their own will, and his exp card lasted for an hour, which was great! He didn’t have to waste any time running around.

‘DING’

‘Pet [Black Dragon] Successfully levels up to Third Level Core Condensation!’

‘DING’

‘Pet [Black Dragon] Successfully levels up to Fourth Level Core Condensation!’

The Black Dragon leveled up quickly, due to the Black Dragon’s level is lower than Yi Tianyun, whereas Yi Tianyun needed a lot of Exp to breakthrough to Spirit Core.

“I just need to keep doing this for a while longer. COME AT ME, BEASTS!” Yi Tianyun shouted at the Demon Beast to aggro them faster. Yi Tianyun keeps on slamming his axe at the demon beast that come close, with this intense power Yi Tianyun exerting no demon beast was able to stop him!
