Chapter 161: Rare Item

“Phew, it’s finally over...”

Yi Tianyun was relieved, if he didn’t upgrade Crazy Mode and use his Crazy Points to upgrade something else he would’ve lost.

If a Second Level Core Transformation Cultivator could reach 2 million combat power, how about third level and above?

It’s true he did he solved the crisis, but there was no guarantee, same thing if not worse wouldn’t happen in the future.

Jade Palace had no choice but to become stronger if they didn’t want to be the prey of other faction. Because, even in this isolated place Profound Azure Mansion still pursued them, proving there was no stopping those with malice toward Jade Palace.

The best words to describe this world was ‘survival for the fittest’, gaining more strength was the only way to protect yourself and the one you held dear.

“Now let’s see what I got here.”

As usual after a battle Yi Tianyun checked his stats, inventory, sold unnecessary Martial Arts, Weapon, etc and sort his inventory afterwards.

Yi Tianyun couldn't stop grinning after seeing he got 1 million Crazy Point, thanks to the 3 Times crazy point card, he got a lot of Crazy Point after slaughtering Profound Azure Mansion's disciples. As for Sin Points, he didn't get that many from the disciples, the notable amount was only by killing Old Ancestor Blood Fiend.

What's more he got some rare items!

Heavens Devouring Divine Secret Art: High Grade Earth Level Martial Art, Not Upgradeable, could automatically absorb the surrounding Spiritual Energy.

Yi Tianyun was ecstatic, this meant he could absorb the surrounding Spiritual Energy to cultivate, it was like giving him free exp, no wonder it was called Rare Item.

Blood Jade: A rare Item which granted enormous amount of blood qi to the user, no usage limitation, but will disappear after granting a fixed amount of blood qi.

"Granting blood qi? Wow this is one hell of an item!" Yi Tianyun was shaken with excitement!

Coiling Dragon Treasure Map: Contain the information about the location of Dragon Vein.(Recommended cultivation level to enter : Fifth level Spirit Core or above)

Jade Pearl: Increasing cultivation speed by three fold when equipped.

Command Treasure Book: Increase charisma and leadership when equipped.

Yi Tianyun was beyond satisfied with all these rewards, it was worth activating Luck Aura, although if the one Yi Tianyun killed had no items to begin with, even activating Luck Aura wouldn't help!

“Tianyun, you’re too reckless...” Shi Xueyun was slightly wobbly while making her way toward Yi Tianyun.

Yi Tianyun quickly ran toward her and supported her: “are you all right aunt Shi?”

“No need to worry, I just need a little rest that’s all.” The Shi Xueyun was pale, her blood qi was unstable due to forceful integration to Cold Ice Soul Jade, Yi Tianyun could barely sense her aura.

“Don’t lie to me!” Yi Tianyun turned serious: “You don’t really think i’d believe that after seeing your pale face right?”

Yi Tianyun quickly took out that Blood Jade, just took, Old Ancestors of Jade Palace sensed enormous blood qi was emitted from an item Yi Tianyun took out.

“This amount of blood qi... what kind of treasure is that?” Their eyes was completely locked on to Yi Tianyun’s Blood Jade

These old coot thought that with that amount of blood qi they could stay alive for a little longer, and probably if they’re lucky during that time they could breakthrough to the next level of cultivation, and increase their life span.

However, they couldn’t bring themselves to ask Yi Tianyun to give it to them seeing how frightening Yi Tianyun was when he slaughtered Profound Azure Mansion earlier, they didn’t want to get on his bad side.

“Aunt, hold this Jade, it will help you recover your blood qi!” Yi Tianyun said while placing the Blood Jade on Shi Xueyun’s palm.

“No, no... you’ve done too much for us, for this faction, I can’t take this? I’ll be fine after a little rest trust me...”

“NO! you don’t look so well, if you’re still being stubborn, I won’t forgive you ever” Yi Tianyun was just as stubborn as Shi Xueyun.

Shi Xueyun noticed how worried Yi Tianyun was, she sighed gently, and held the Blood Jade in her hand. Blood qi flowed into Shi Xueyun's body, into every nook and cranny.

Old Ancestor just looked at Shi Xueyun enviously, but since they knew Shi Xueyun was in a critical condition, they decided to give up. At her current state, it would take years for Shi Xueyun's blood qi to fully recover under normal circumstances.

But as time passed, as long as Shi Xueyun's blood qi haven't fully recovered, there was a possibility that Shi Xueyun's cultivation would be reduced, and also reduced, and dulling her Innate Ability.

"I feel much better, I think that's enough..." Shi Xueyun quickly returned the Blood Jade to Yi Tianyun after just a few minutes.

"No, no, you can't fool my eyes, if you don't absorb all these blood qi until you fully recovered, i'd rather smash this thing to smithereen!" Yi Tianyun went as far as threatening Shi Xueyun so she continued absorbing the blood qi.

Shi Xueyun couldn't help but said: "Alright alright, you won..."

She had no choice but to do as Yi Tianyun said, and finally when the Blood Jade's color was starting to fade, Shi Xueyun finally recovered.

"This is such a mysterious feeling, i've never been better, I felt like i'm even stronger than ever!" Shi Xueyun said cheerfully.

"Of course, it's from your beloved nephew hehe." Yi Tianyun said looking a little bit relieved.

Yi Tianyun was finally convinced that Shi Xueyun was feeling better, in fact when he saw with his appraisal eye, Shi Xueyun leveled up into Peak Core Condensation, one more level and she'd be a Spirit Core as well.

Although technically she has already reached Spirit Core, although it was when she forcefully integrated the Cold Ice Soul Jade, and afterwards reverted back into Ninth level Core Condensation, and after absorbing Blood Jade, she became a Peak Core Condensation cultivator.

Cultivator was strange indeed, they could become stronger after recovering from a life or death situation, and Shi Xueyun was the perfect example of this, after each battle, she became stronger.

But of course she was totally no match compared to Yi Tianyun's Crazy Leveling System.

After receiving Blood Jade from Shi Xueyun, Yi Tianyun felt some eyes staring him, of course he realized it was those Old Ancestors ogling at his Blood Jade, but he would never hand it to them, it was such a rare item, there was no need to give it to them anyway, it would prolong their life span for a bit, but that was just like delaying the inevitable, it would be better to use it on someone else.

Chapter 162: Arrangement

Shi Xueyun has fully recovered thanks to the Blood Jade, this feat couldn't be accomplished if she merely consumed some blood qi pills to recover her blood qi, it could take years to fully recover.

The only alternatives would be Blood Qi Divine Pill, which was so expensive, and it couldn't be found in Earthly Borders Continent. And it would take decades to be shipped to Earthly Borders Continent even if one could afford it.

For a cultivator, blood qi was basically their life force, so unlike the young who could recover their blood qi in a relatively short time, those Old Ancestors couldn't afford to use their blood qi recklessly.

That was the reason why Blood Jade was such a rare item, considering it could fully recover one's blood qi in a matter of minutes.

Meanwhile, Jade Palace's disciple quickly rummaging through the enemy's corpses to find some spoils of war. They really looked up to Yi Tianyun, as if he was a god!

Yi Tianyun was surprised when he noticed a sudden increase in favorability of Jade Palace's disciple and Elders, and he didn't even complete any quest which granted favorability. And he finally realized this

was the most effective way to increase favorability through actions and interaction with others, not by completing the quest.

After collecting all spoils of war they could find, all disciples returned to Heavens Immersing Ancient Ruins. Suddenly the disaster which befell them just now seemed like a dream and considering they weren't injured and they got the spoil of war, they had no complaints. Heavens Immersing Ancient Ruins played an important role too, if they didn't evacuate here and stay at Jade Palace, there would be no Jade Palace right now.

The only casualties were Elders, but it was not life-threatening, the rest of the disciples didn't even partake in the defense. It was not that they were scared or anything, but because of the fact that even if they did participate, it was simply courting death, they couldn't even buy some time facing so many Experts.

At this time, Zhu Yuwei and the disciples Yi Tianyun rescued before coming here finally caught up. But much to their surprise, everything was settled, and Yi Tianyun single-handedly crushed Profound Azure Mansion.

"Miss Zhu, are you interested in joining Jade Palace?" Yi Tianyun suddenly asked.

"Join Jade Palace?" everyone was startled when Yi Tianyun said it, including Zhu Yuwei.

And instead of calling her Pavilion Lord Zi, this time Yi Tianyun called her Miss Zhu?

"Yes, I presume you have nowhere to return now." Yi Tianyun said with a light smile, "Might as well join us, how about it? And we could use someone like you as an Elder. With your talents, I believe you're fit to be the Elder of Jade Palace. Even Rain Pavilion thrive under your management. Rest assured, we'll provide everything you need to do whatever you deemed necessary."

"Me? Become an Elder of Jade Palace...that's..." Zhu Yuwei couldn't keep up with the conversation, after being invited to join Jade Palace, she was suddenly offered to become an Elder too.

The Elders were confused too. They thought Yi Tianyun was too hasty in making this decision, he didn't even ask Shi Xueyun, the Palace Lord's permission.

"If Tianyun evaluated her that highly, it just shows how trustworthy and talented Miss Zhu is. Furthermore, you aid us when we were in need without hesitation. And I thanked you for that. And despite what's said and done, you did manage to become Pavilion Lord of Rain Pavilion, that alone was a good enough reason, and I believe you'll excel in managing faction affair." Shi Xueyun said with a smile, "So what do you think? As for myself, I hope you accept this position."

"I agree. Back when we had a deal with Rain Pavilion. I saw with my own eyes her superb managerial ability, which I don't think there is anyone in Jade Palace could come close to her level." One of the Elder shouted voicing his opinion, she has grown fond of Zhu Yuwei, if it wasn't for her, she would've lost her life.

Zhu Yuwei blushed to receive such an offer from Yi Tianyun, and even the Palace Lord and one of the Elder acknowledge her ability. It became so hard to refuse this offer, especially now that she has nowhere else to go.

"I gratefully accept this honor, but I'll be especially strict with myself, if I can't bring betterment for Jade Palace, I'll resign as Jade Palace's Elder!" Zhu Yuwei looked very serious.

And with that sentence everyone, there was convinced, with that level of determination they couldn't help but acknowledge Zhu Yuwei's resolve

Yi Tianyun nodded with a smile, and he believed that Zhu Yuwei was indispensable for Jade Palace's growth. Her management ability was exceptional, Jade Palace wasn't a Pavilion which specialized in trading, but even so, Jade Palace could use some insight to the business aspect, for example, Zhu Yuwei would definitely be able to estimate how much budget would Jade Palace need buying Spirit Pill, Recovery Pill, materials, etc.

"And as an Elder, I have an additional suggestion, which is appointing two reserve Elder!" Yi Tianyun said.

The disciples were listening enthusiastically.

"Reserve Elder? Who do you have in mind specifically?" Elder wondered.

“The first one, Sister Xiao Lian, the second one is Sister Jiu!” Yi Tianyun pointed both of them.

Liu Menglian and Jiu Lingyun were surprised that their name suddenly came up, and becoming a reserve elder? Just like Zhu Yuwei earlier, they were too surprised.

“The reason I recommended them as Reserve Elder was because Sister Xiao Lian and Sister Jiu performed outstandingly in this war. Not only they helped to treat Elder Ma’s wound, but they also possessed extraordinary courage and leadership. I said this because I know both of them always nominated themselves to procure ingredients when Jade Palace stayed here, and in the war just now instead of panicking they showed an outstanding leadership ability to lead other disciples, their cultivation might not be the highest, but their bravery and leadership was exceptional!”

Yi Tianyun just came to the realization that cultivation wasn’t everything, leadership skill was definitely indispensable when it came to being an Elder.

All disciples nodded, showing their approval. The higher cultivation disciples couldn’t say anything because, despite the war just now, they just panicked and couldn’t do anything as a result.

“To be honest, this is my first proposal as Elder, the rest of the Elders along with Palace Lord could discuss whether this suggestion will be beneficial for Jade Palace or not,” said Yi Tianyun.

“There’s no need to discuss it, I approve your suggestion.” Shi Xueyun instantly agreed without any hesitation: “I’m well aware of what those two are capable of, if you didn’t suggest it earlier, I would’ve proposed the same thing.”

Yi Tianyun smiled, her aunt always took his sides no matter what happened, encouraging him to come up with more ideas.

Other Elders had nothing to say, they had no choice but to agree at this point. Through his strength, Yi Tianyun earned everyone’s respect, besides what Yi Tianyun said was reasonable, so it wouldn’t hurt to agree anyway.

“Perfect, then I will leave things here to you all now... I’ll go to Profound Azure Mansion and become the harbinger of their end!” Yi Tianyun said coldly and full of killing intent.

“You’re planning to have all the fun without me?” Shi Xueyun smiled lightly.

Yi Tianyun nodded, said with a smile, “If the Palace Lord wishes to tag along, how can I refuse?”

Several Elders also wanted to go, Yi Tianyun prevented them from going: “stay here, and leave the rest to us... From now on, there will be no Profound Azure Mansion!”

Chapter 163 Attack

After taking care of things in the ruins, Yi Tianyun and Shi Xueyun flew to Profound Azure Mansion HQ with the Black Dragon to save time. In the trip, Yi Tianyun found it strange as Shi Xueyun never asked him anything.

“Aunt, aren’t you going to ask me why am I able to cultivate so quickly?” Yi Tianyun asked as he thought that Shi Xueyun just didn’t want to be rude to ask such a question.

“Why should I? as long as you are still the sweet Yi Tianyun that I adore, I will always support you no matter what.” Shi Xueyun said while smiling brightly.

“Even though you are doing something taboo or forbidden cultivation, I will always be by your side until you don’t want me anymore!” Shi Xueyun added while still smiling.

Yi Tianyun was utterly startled, hearing Shi Xueyun’s word. He never thought to have unconditional support from her, he never thought Shi Xueyun’s love toward him was absolute. But because of the confession, the atmosphere became heavy and sad.

“I will give my life to save you, but then again, if I die, who else will support you? Until the time comes that there is someone else I could entrust you to, I will gladly watch over you.” Shi Xueyun said lovingly.

This caught Yi Tianyun off guard, he never expected Shi Xueyun to say this kind of thing so casually, but he felt all warm and fuzzy inside. He breathed hard to stop himself from shedding any tears.

As Shi Xueyun noticed that Yi Tianyun became silent, she said, "I don't know what happens to you, you used to not have any blood qi, and now you can cultivate so quickly. But still, you are my cute little nephew who I can rely on."

"Now, now, aunt, any more would be bad for my heart. Come here." Yi Tianyun said, didn't know what to say anymore. Shi Xueyun did what Yi Tianyun told her to do, she rested her head on Yi Tianyun's chest, and they silently rode the Black Dragon to their destination.

People on the ground could see the Black Dragon. Clearly, they were shocked to see that a divine beast become mount that some man and woman could ride on. They came to wonder, which emperor has come to visit the borders continent this time. The cultivators who saw the Black Dragon was no exception, they all looked at the Black Dragon in wonders and amazement.

At this moment, at Profound Azure Mansion.

"What is Mansion Lord doing now? I am sure that Jade Palace is already destroyed! I heard that Jade Palace is a woman sect. I hope that the Mansion Lord brought many of them back as a souvenir!" One of the deacons of Profound Azure Mansion said lustfully.

"Did they really? I hope the Mansion Lord brings back many little girls. Little girls have soft and tender skin. Toying with them is my personal favorite! After we are done with them, we can sell them to the brothel outside. Female cultivator is all exaggerated anyway, hahaha." Another deacon said while laughing. This deacon's word followed by many laughter from many disciples of Profound Azure Mansion that gathered around there.

"They deserved this! They use a cheap underhanded trick to kill one of our elders, at the very least they can do is be our slave!" A disciple said proudly.

"Hey, we deacon will not just take any person for our slave! At least we must get one of those core disciples, and your disciple could get the rest of them. Hahaha!" Another deacon said menacingly.

“Hahaha, serves them right! A garbage sect, dare to mess with us, Profound Azure Mansion. No wonder they get thrashed like they’re supposed to be!” Another disciple said proudly.

In the middle of all these laughter filling the room, a Black Dragon suddenly landed in the middle of the field, making a quite loud noise and flashy entrance. Shocking everyone in the vicinity. They’ve never seen any Black Dragon up close before, but they sure recognized one from the description going around.

“Who are you!” One of the deacons approached cautiously.

“Me? Aren’t I the garbage of Jade Palace that you so proudly looked down upon? Why so cautious?” Yi Tianyun said indifferently while summoning the Snow Wolf.

“Your Mansion Lord and all his men are already dead, now I will destroy all of you, so there is nothing left!” Yi Tianyun waved his hands to gesture to the Black Dragon and Snow Wolf to attack the enemy in front of them. And they quickly do so!

After giving the signal, Yi Tianyun looked at Shi Xueyun and say, “This is our spoils of war, we will take all of the martial arts and treasure that they have!” Shi Xueyun only nodded as she didn’t have to do anything.

The Black Dragon and Snow Wolf killed the rest of Profound Azure Mansion very quickly, many tried to escape them by running around like headless chicken or hiding, thinking that they should be safe. Little do they know that the Snow Wolf could smell them, and the Black Dragon could sense their presence!

They killed everyone in the vicinity, while Yi Tianyun and Shi Xueyun were resting nearby. Yi Tianyun couldn’t help but think that this is very DOPE! He could laze around and let his pets do the hard work. He wished that in the future, he could have some more pets for himself!

Chapter 164: Determination

Yi Tianyun and Shi Xueyun walked around to find the collection of books or treasure Profound Azure Mansion kept hidden. They soon stumbled upon an array that seemed to be protecting a room, but this array was nothing to Yi Tianyun, he broke it easily! Once he enters the room, he quickly saw a man that was clearly startled to encounter strangers.

“Who are you!” he asked.

“We are the one you want to destroy! But it seems that our position is reversed now.” Yi Tianyun said while also slammed the guy into the book rack in the corner. Instantly killing him!

‘Ding’

‘Successfully killed Profound Azure Mansion Deacon!’

‘Reward: ...’

Yi Tianyun and Shi Xueyun began to explore the room and took everything that worth their while. They got a lot of Human and Earth level martial arts from this room. After they got what they deemed valuable in this room, they began exploring another place. Anyone trying to get in their way will be slain by Yi Tianyun immediately! Shi Xueyun tagged along just to accompany Yi Tianyun. She didn’t need to do any fighting so far.

In another room, they found many medicinal pill and cultivation pills. They even stumbled across an armory. They stuffed every single thing they found there into the storage ring without exception, this would be a great help to strengthen Jade Palace! As they progressed through the chains of room Yi Tianyun saw a hidden pathway toward the underground.

“Aunt, look here! it seems that there is a path to the basement here.” Yi Tianyun said to Shi Xueyun, “I am sure there is some secret treasure there!” Yi Tianyun added excitedly.

They both quickly went down to see what was waiting for them down there. After some time walking through the path, they sensed disgusting smell and aura from the opening at the end of the tunnel. They quickly ran toward it and were utterly shocked by what they saw.

In front of them was a pool full of blood!

With this much blood, there must be a ton of dead people here. After they walked around the pool of blood, Yi Tianyun vaguely heard a sound of crying in the distance. He quickly looked around the room and finally saw a cage hanging in the ceiling of the cave.

Upon seeing such cruelty, Yi Tianyun quickly pulled down the cage safely to the ground and unlocked the cage immediately. As if this wasn't shocking enough, it turned out the cage was full of children! They were crying and begging Yi Tianyun to spare them, but all Yi Tianyun could do was froze on his spot, shocked from the cruelty of this place.

“There, there we wouldn't harm any of you. So please don't cry.” Shi Xueyun said gently toward the children.

“Really? You wouldn't? But you are clearly different from that guy earlier.” One of the kids said to Shi Xueyun. Upon hearing this, the rest of the children ran toward Shi Xueyun for protection.

Yi Tianyun quickly snapped out of his shocked state once Shi Xueyun held on to the children. He promptly unlocked another cage and led all the children toward Shi Xueyun.

“Aunt, bring them all outside and wait for me!”

Shi Xueyun quickly nodded and led all the children outside. Once all the children were no longer seen, Yi Tianyun completely let his anger out.

“This must be the work of that old ancestor blood fiend! What a monster! Fuck!” He quickly pulled out the Immortal Fire and burn the room thoroughly. He didn’t even care to search for treasure at this point. He burned everything in the room without exception!

Once everything is on fire, Yi Tianyun quickly ran out of the basement. When he got out, he was still suffocated inside. ‘How can a human be this cruel?’ he thought, ‘he even went so far as doing something this despicable just to prolong his life!’ Yi Tianyun really didn’t understand this monster’s way of thinking!

After he shook his head for a while to clear his mind, he ordered the black dragon and snow wolf to destroy everything! He noticed that some disciples successfully escaped Black Dragon and Snow Wolf. But he didn’t go after them, as he was not one who thirst for the blood of his enemies. He let them escape to spread the news about Jade Palace. So there would be no more sect dare to disturb them in the future!

“Are you done yet? If you are, come on! Let’s take these children back to Jade Palace!” Shi Xueyun said thoughtfully.

She couldn’t bring herself to ask the children about their parents, there was no doubt that their parents already dead!

No parent gave up their children to a monster willingly!

“You sure?” Yi Tianyun asked to Shi Xueyun. She only nodded her head confidently.

“Well then wait a minute, I need to do something first!” Yi Tianyun said while immediately ran toward the large stone tablet of Profound Azure Mansion in the middle of the field. He took out his Blood Dragon Skeleton Blade. This blade has a menacing aura around it. However, it didn’t have any unique properties. It was just a powerful blade at High-Grade Soul Tool level.

Yi Tianyun immediately carved the Huge Stone Tablet as to make a statement and also a warning on it.

'There is no more Profound Azure Mansion, it is already destroyed! Whoever dares to rebuilds it would encounter the same fate!'

This is the length he went for to completely destroy Profound Azure Mansion once and for all!

Chapter 165: Decline

Profound Azure Mansion has successfully evoked anger in Yi Tianyun's emotions. Never did he think that the Old Ancestor Blood Fiend would go as far as using children's blood qi to prolong his own life. There were just so many people who could do before stepping into a monster!

'DING'

'Successfully completed the hidden quest [Rescue the trapped children from the devil's lair]'

'Reward: 100.000 Crazy Points, 100 Prestige Point.'

Yi Tianyun noticed the system's notification, but not the slightest hint of happiness on his face. No! all he felt was anger toward such cruelty towards children. He couldn't think of what other old ancestors did to sustain their own life. After Blood Fiend and Black Soul, it became hard for him to see old ancestors in a different light other than disgust!

Sure, he was not a saint, either. He has his own share of sin, but never did he do it for his own entertainment! It was just in his nature to destroy anyone who wronged his loved ones and tried to harm him.

"Yi Tianyun! Stop thinking unnecessary stuff, there are things that we couldn't stop, and there are things that somehow flies to our shoes. And fortunately, this is one of those that we could change for the better. So come on, let's go home and take care of these children." Shi Xueyun said while smiling warmly to Yi Tianyun.

“You are right, better think of the future than pondering the past! Let’s go!” Yi Tianyun signaled the Black Dragon to lower his body and let the children mount climb onto its back.

At first, all the children were scared of the dragon in front of them. But because Shi Xueyun’s kind and soothing words, they finally calmed down and climb onto the Black Dragon back.

After all the children safely rested on the Black Dragon back, Yi Tianyun signaled the Black Dragon to fly off towards Jade Palace, not knowing that there was a pair of eyes watching over them for a while now.

“Profound Azure Mansion is decimated! Who is this brat? He even has a Black Dragon under his control! I need to report this to the emperor, there is unrest on this continent!” Said the middle-aged man as he stared at the Black Dragon flew into the horizon. He immediately left, leaving no trace behind.

Soon enough, Yi Tianyun arrived at Heavens Immersing Ancient Ruins, where there have been no changes whatsoever in the place.

Due to the spoils of war from Profound Azure Mansion, Jade Palace was in a good financial state right now.

It became Zhu Yuwei’s responsibility to manage it, as well as Yi Tianyun suggested her.

However, when Yi Tianyun landed and finished taking the children inside the ruins. He noticed that Zhu Yuwei was currently having a conversation with people from the Rain Pavilion.

“Pavilion Lord Zi, we beg of you to return to the pavilion. You are indispensable for Rain Pavilion!” one person said.

“Yeah! Elder Yu didn’t know what he is doing, and clearly, we didn’t have anything to do with him! He did everything on his own accord!” another said.

“Yeah! If it is up to us, we surely will help you and Jade Palace! There is no reason throwing out a good relation aside!” the final person said.

Zhu Yuwei just sighed and said, "But I'm pretty sure that Elder Yu followed me around, not only to monitor me but also to correct my actions deemed unfit was all an order from you Pavilion Lord Wang, am I wrong?" With a cold tone. She wasn't a fool, she knew when she has been undermined and betrayed! There may be a second chance, but the third one was out of the question!

Now, after she finally decided to leave the pavilion to support Jade Palace, they finally realized their mistake!

With her gone, the Rain Pavilion would have a hard time to make a good deal with Jade Palace again. Seeing that Jade Palace even successfully destroyed a powerful sect like Profound Azure Mansion, not having a trade deal with Jade Palace now was the worst-case scenario for them.

Hearing Zhu Yuwei's word, the middle-aged man known as Pavilion Lord Wang of the Rain Pavilion was stunned. With the cultivation of Eighth Level of Core Condensation, he was clearly powerful, but he had to beg for Zhu Yuwei to return.

"We don't mean any of that! There is clearly a misunderstanding about elder Yu. Now, if you want, I will make you the General Vice Pavilion Lord of Rain Pavilion, I can offer you this at best..."

He didn't get the chance to finish his sentences as Zhu Yuwei stopped him from talking by waving them off. She refused the offer without any hesitation! Seeing her this determined to not getting back to people who betrayed her, Yi Tianyun applauded while laughing loudly.

"Well said! Many thanks to you guys for keep throwing her aside, it really gave her the final push to join us. But I am very sorry, we still have many things to do here in ruins, so that's all for now, you can drop by again later, okay!" Yi Tianyun said, smiling sarcastically.

"Elder Yi! No, Great Lord Yi! We are sorry for troubling you at this time of day, we are hoping that we can pave our relations once more. I am willing to give you a fifty percent discount every time you purchase materials from our pavilion!" Pavilion Lord Wang said while bowing a little to Yi Tianyun, showing his respect.

This deal is far from profit, but he is prepared to have the deficit as long as Yi Tianyun and Jade Palace became their ally once again. But sadly, Yi Tianyun didn't see the necessity to accept their offer.

“We need nothing for a while, so please leave immediately!” Yi Tianyun said indifferently.

Pavilion Lord Wang sighed and turned to leave immediately. He was clearly upset and disappointed that they couldn't get a strong faction like Jade Palace as their partner, but there was nothing he can do now as it was clearly his mistake in the past.

“Well then, this is where we bid farewell. Nice meeting you, Elder Yi.” Pavilion Lord Wang said while disappointment still lingered in his eyes.

Chapter 166?Decision

After the Rain Pavilion Lord Wang and his men left the Heaven Immersing Ancient Ruin, Yi Tianyun smiled to Zhu Yuwei, “Elder Zhu, isn't it better for you to accept their proposal? It's not a bad offer.” He asked.

“Elder Yi, you are joking, right? There is no way I would come back there again. They already undermined me and betrayed me a couple of times. I am sure they won't think twice to do it again! Since I became an elder of Jade Palace thanks to you, I will devote myself for Jade Palace pledge my loyalty to Jade Palace and die for Jade Palace if necessary!” Zhu Yuwei said boldly.

Everyone who heard her words was astonished for a second, they never expected Zhu Yuwei to be this resolved and loyal.

Yi Tianyun, however, was a little embarrassed to have questioned Zhu Yuwei's choice when he himself was the one who gave her the elder position for Jade Palace.

“If you say so, then Jade Palace would give you the support you needed. I assure you that no one will betray you in this sect as long as I can help it.” Yi Tianyun said solemnly. He knows that Zhu Yuwei had the talent to become a great cultivator in the future. Zhu Yuwei just smiled meaningfully after hearing Yi Tianyun's word.

“Miss, where are we?” said one child, breaking the silence.

Everyone's attention shifted toward the group of children that Yi Tianyun and Shi Xueyun brought back from their journey to Profound Azure Mansion Headquarter. They became curious about why they brought back this many children to Jade Palace.

After seeing everyone's curious face, Shi Xueyun sighed and told them about the children's circumstances. She told them everything that happened in Profound Azure Mansion HQ from the start to where they found the children and the condition they were in, this story brought everyone to tears and fury in their heart. Their anger to Profound Azure Mansion intensified as the story ended.

Immediately, Shi Xueyun took out every treasure that she and Yi Tianyun found on the Profound Azure Mansion HQ and distributed it to the elders of Jade Palace. The Elders were surprised when they noticed that the treasure they brought back were rare and valuable.

"This much treasure and all of them are absolutely magnificent in terms of quality as well. So many Earth Level Martial Arts too, we even got High-Grade Spirit Tools and Soul Tools! This is unbelievable, Lord Shi!" one of the elders said enthusiastically.

"That's not all we also got our hands on Cultivation and Medicinal Pills to help everyone to cultivate!" another elder said.

Everyone became excited about the finding. They were overwhelmed by the sheer amount of useful items they got, first was from the spoils of war in Heavens Immersing Ancient Ruins and now this.

"This is great! With this, we can become a Second Level Faction easily!" an elder said excitedly.

"Yeah, this is so great! Now, when should we return to the palace?" another elder asked with excitement.

"Go back? Do we need to go back? Why don't we just stay here and fix this place to accommodate us and use it as our new HQ?" Yi Tianyun said seriously. Everyone became speechless after hearing Yi Tianyun's suggestion, there was shock on several elder's faces and contemplating look on another.

"I know that we have many good memories in that place and thus have a hard time to abandon it. But if we look from another perspective, this place has a greater spirit reserve and better defensive

capabilities. That way, the disciple can cultivate without worry, but this is just my opinion. In the end, if majorities decided to go back, that is fine too. We can use this place as the cultivation base if that is the case.” Yi Tianyun said, proposing his idea.

All the elders became hesitant, they didn’t know what to do. There is truth in Yi Tianyun’s word, they knew that this place is so much better than the previous HQ, but on the other hand, they can’t abandon the memories of the ancestor that easily.

“I agree with Yi Tianyun. This is not because I have a soft spot for Yi Tianyun, it’s because what he said is unmistakably the truth. Our ancestors themselves migrated from Heavenly Borders Continent. They too left their home because of the reason that was already forgotten, that too can happen to us! All I am saying is, this place is much better, and isn’t it better for us to pursue the greater power if we have the chance and means for it?” Shi Xueyun said solemnly.

After hearing Shi Xueyun’s word, they came to accept the idea to move permanently here.

“Old ancestor, how about this idea? Are you okay with it?” asked one of the elders to the Old Ancestor of Jade Palace.

The old ancestor looked at them with smile, “This is your time, if that’s what you want, have some confidence, and believe in your own decision. I personally wanted to relocate Jade Palace back to Heavenly Borders Continent before my life burns out. But that is just my dream. If we couldn’t pull it off, then so be it.” The old ancestor said with a warm smile.

Everyone acknowledged the old ancestor’s wish and nodded their head in response. They didn’t say anything else and dispersed to make some preparation to turn Heavens Immersing Ancient Ruins to their new headquarter.

In the following day, the Heaven Immersing Ancient Ruins sounded more lively than usual, many elders were busy to plan this relocation. Zhu Yuwei began buying and bringing things they need to make the place suitable for becoming an HQ.

Yi Tianyun left on his own with nothing to do. Sure, he could cultivate while things are proceeding smoothly, but however, the amount of exp he could get was too little for his liking.

As of his Crazy Points, he felt that he shouldn't use it carelessly. If, by any chance, he encountered an opponent more powerful than the Old Ancestor Blood Fiend, he had no choice but to level up his Crazy Mode. But as for now, he needed to save it to see what the future brought to him next.

"Old Xuan, can you fix the Spirit Gathering Array in here? Please tell me everything about the materials you need. I will try my best to procure more Divine Runes needed for it." Yi Tianyun said as he shifted his attention to the great array that protected the Heavens Immersing Ancient Ruins.

If the Great Array were in peak condition, it would be easier to cultivate in Heavens Immersing Ancient Ruins, thus make everyone's cultivation easier.

Chapter 167 Heavenly Eyes Might

Yi Tianyun tried to fix the great array scattered around the Heavenly Immersing Ancient Ruins on his own, might as well try since he didn't have any plan for now anyway, even though he didn't know whether he would be able to fix it or not.

"You need to be at least reach Fifth Grade Rune Mastery to be able to fix most of it." Old Xuan said nonchalantly.

"Fifth Grade? Are you serious?" Yi Tianyun said as he was startled by the fact. He, in fact, was at Fifth Grade of Blacksmith Mastery as well, but he spent a lot of time to achieve that level in Blacksmith. There was no way he could achieve that in Rune Mastery soon, which was deemed harder than Blacksmith.

"Yes, with Fifth Grade Rune Mastery, you would be able to fix almost all of it, but some of them require a Divine Rune Master to be fixed." Old Xuan explained to Yi Tianyun.

Yi Tianyun just took a deep breath from hearing Old Xuan's word, just how much amount of time that he needed to be able to cultivate the Rune Mastery to reach Divine Rune Master? There was just no way that he would be able to fix it all in anytime soon!

On top of that, he wouldn't be able to find any Divine Rune Master anywhere nearby. He remembered that Ye Qingxuan said that Divine Rune Master was so scarce even in Heavenly Border Continent. Plus, he didn't have the status nor any acquaintance who was able to invite someone from that degree to

help fix the place. And Even if he got the chance to meet one somehow, he surely wouldn't be able to pay them as the cost to fix that level of an array must be really high!

Nonetheless, unless that Ye Qingxuan can reunite the Spirit Race, he doubted that he could find any Divine Rune Master anytime soon.

"Take me to the easiest one to fix, for now, let's see what can I do for now." Yi Tianyun said to Old Xuan commandingly. Old Xuan just nodded and led the way to the easiest array to fix.

"This is a Third Grade Array, it is just a simple and small spirit converging array. As far as I know, the damage is not that severe." Old Xuan said solemnly.

Yi Tianyun just nodded and checked the array immediately, as far as his knowledge goes, the array was working just fine even though that it was slightly broken as Old Xuan suggested. The knowledge he got from Ye Qingxuan is the only knowledge that he had for now, and it seems that fixing this was supposed to be easy, but since he didn't have any skill to do so at the moment.

He immediately reached for Divine Wood and Divine Rune Stroke that he had.

Divine Wood was the basic material for any Divine Rune works, either it to fix or to create any new array.

Divine Rune Stroke was the tool needed to engrave the divine runes on the Divine Wood, you could also use your fingers to engrave the rune to the Divine Wood, but only those with the advanced level of Rune Mastery could master this. As for now, he needed all he could to increase the chance of success to fix the array!

When he started to examine the array, he quickly searched for the vital spot to place the rune. He immediately remembered that Ye Qingxuan left him some gift for this exact purpose. She has given Heavenly Eyes Innate Ability as a token of gratitude.

"Heavenly Eyes, activates!" Yi Tianyun's eyes flashed immediately with a blue hue light. His vision changed slightly, now he could see a color play around him. This color that he could see indicating the

existence of an array, now he could see the array clearly and could see which part of the array was damaged so that he didn't have to examine every part frantically.

Now, he finally really understood the meaning behind why Lei Yun didn't kill Ye Qingxuan immediately. This Innate Ability was very useful!

Innate Ability couldn't be stolen. It is, however, could be transferred to another person. So, Lei Yun, who had his eyes on that Innate Ability, would do anything to obtain it, even torturing Ye Qingxuan until she gave up and transfer the Innate Ability to Lei Yun. But a slight headache immediately hit him when he activated the Heavenly Eyes. He realized that Heavenly Eyes consumed a lot of energy to be activated. In his case, the Heavenly Eyes drained his Spiritual Power!

He proceeded to fix the array immediately as he didn't want to use Heavenly Eyes for too long. He stood at the place that the array splintered and broke apart a little of the Divine Woods and began to engrave the woods with runes using the Divine Rune Stroke. The woods immediately glowed in golden color, and the array's splinter connected again, indicating the array was fixed.

'DING!'

'Successfully repaired Third Grade Spirit Gathering Array.'

'Reward: 2.000 Exp, 50 Basic Level Divine Rune Mastery Points.'

His hunch was right! He could get Divine Rune Mastery from actually fixing one, now he could increase his Mastery by repetitively fixing the array with low requirement around the ruins!

The array began to glow with a slightly blue hue, and the spiritual energy around the ruins was slightly enhanced, which meant everyone in Jade Palace now could cultivate faster than before! It was perfect for his ambition to make the Jade Palace not only a Third Level Faction but a Fourth Level Faction or even Fifth Level Faction!

Chapter 168 Restores Large-Scale Spirit Gathering Array!

Yi Tianyun goes on fixing spree for the Spirit Gathering Array around the ruins, Old Xuan seeing this was a little bit dumbfounded by the fact that his current master was capable of fixing the array.

‘Ding’

‘Successfully repaired Spirit Gathering Array!’

‘Reward: 2.000 Exp, 50 Mastery Points... .’

‘Ding’

‘Successfully . . . ’

He finally finished fixing the Spirit Gathering Array that is easy to fix according to Old Xuan, and now the spiritual energy inside the Heavens Immersing Ancient Ruins has gotten denser and more concentrated than before.

Only Large Spirit Gathering Array was left damaged, which, according to Old Xuan, needed a Divine Rune Master to be fixed, but he will never know if he didn’t see it for himself.

“Yi Tianyun! Are you the one repairing all this Spirit Gathering Array?” Shi Xueyun suddenly came.

“Yes, did you feel the difference in the quality of spiritual energy?” Yi Tianyun said with a smile.

“Of course, I feel it, the quality is so much stronger, and even the disciples already feel it themselves. I never thought that you are capable of fixing the array.” Shi Xueyun said she was impressed yet again on Yi Tianyun’s skills.

“This is just a skill that I newly discovered myself, aunt. It’s good that the disciple can utilize the effect of the newly fixed array, now all that is left is the Large Spirit Gathering Array, and I am done. But then again, with my current ability, I think that the ruins would only recover around 80% at the most. There is still so much skill that I need to learn to be able to fix all of these.” Yi Tianyun said with a smile.

"You already know this much, take it easy!" Shi Xueyun said with a beautiful smile.

"That's the thing, the more you know, the more you realize that you're lacking." Yi Tianyun said solemnly.

"Don't be too stubborn, rest yourself and take it easy! You have done enough." Shi Xueyun said, assuring.

"Yes, aunt, I will rest in due time. now that you are here, I have a proposal to make." Yi Tianyun said, changing the topic.

"What do you have in mind?" Shi Xueyun said, smiling.

"I have an idea to divide the disciple into different categories so that they can focus their cultivation in a more directed and applicable area from their innate ability. Like blacksmithing, divine rune, alchemy, and such. This will develop Jade Palace much faster!" Yi Tianyun said devoutly.

He was convinced that his idea would make Jade Palace more powerful, this idea couldn't be used before because it would consume too many resources, and they couldn't afford it at that time. In this new environment, the disciples would have to consume many pills to cultivate as effective as possible. This could be said the same for the blacksmithing and pill refining, as they need more material to forge to progress their mastery.

To put it bluntly, a sect must have a considerable amount of resources for this to be applicable. However, after the attack of Profound Azure Mansion, they got a lot of resources, enough to actually pull this off!

"I kind of have a similar idea as you, we have the resources needed for this. there is really nothing that stops us from doing so anyway." Shi Xueyun said, smiling, "With that in mind, I will assign Elder Zhu to be in charge of this plan." She was amicable with assigning the disciple in order.

Yi Tianyun nodded and smiled at Shi Xueyun as he agreed with her. With nothing more to say, Yi Tianyun proceeded to the Fourth Grade Spirit Gathering Array that Old Xuan said, requiring Divine Rune Master

level to be fixed. He checked it with his appraisal eye, and sure enough, the success probability is only at 30%!

He rechecked it this time using his Heavenly Eyes, his eyes immediately flashed in a blue hue, and shockingly the success rate improved significantly! It improved staggeringly to 80%, leaving Yi Tianyun speechless when he saw the significant improvement. He immediately took out his Divine Rune Stroke and Divine Wood to begin fixing the array.

“Master, are you really gonna fix the array yourself?” Old Xuan asked, not sure that Yi Tianyun would be able to fix the large array.

“Yes, there should be no problem. Even if I fail, the repercussion wouldn’t be that severe. Besides, I think the success rate isn’t that bad, so I have to try at the very least.” Yi Tianyun said boldly.

He didn’t just say this out of optimism. The amount of damage on this array was quite big, so if he somehow failed the reparation, the damage to the array wouldn’t be more severe than it currently has. With that in mind, Yi Tianyun proceeded to fix the array like he said he would.

With a great concentration and Heavenly Eyes constantly activated, he finally fixed the Fourth Grade Spirit Gathering Array perfectly.

‘Ding’

‘Successfully repaired the Large Spirit Gathering Array!’

‘Reward: 15.000 Exp, 500 Divine Rune Mastery Points.’

‘Ding’

‘Congratulations to host, Basic Level Divine Rune Mastery leveled up to Middle-Level Divine Rune Mastery!’

He finally leveled up his Divine Rune Mastery just enough for him to not use his Heavenly Eyes anymore to fix the remaining Spirit Gathering Array in ruins. After all the Spirit Gathering Array was finally fixed, the Heavens Immersing Ancient Ruins was filled with a divine breeze, and everyone inside could sense the spiritual power has risen dramatically!

“Perfect! With this, the main quest should be completed in half a month!” Yi Tianyun said excitedly. In addition, Jade Palace would be stronger, his own main quest would be completed!

Chapter 169: Complete Main Quest

After Yi TArrayn fixed the Large Spirit Gathering Array, he continued to fix other Array that he could fix for now. This time he had a great advantage where he didn't have to activate the heavenly eyes to fix an array anymore.

Old Xuan, who accompanied Yi Tianyun where ever he goes to show the way, was surprised seeing Yi Tianyun's capabilities. After all, he didn't know Yi Tianyun had a talent for Divine Rune.

After fixing every Fourth Level Array and below, the spiritual power around the ruins became stronger than before.

This time the spiritual power inside Heaven Immersing Ancient Ruins was denser than those from the Heavenly Border Continent. This is the real capabilities of a holy land! He was pleased with this fact. With this, surely Jade Palace could become Jade Sect soon, maybe even Jade Mansion!

“Now, let me see higher level Array than those that I already fixed!” Yi Tianyun said to Old Xuan casually.

“Are you really gonna fix a Fifth Level Array by yourself?” Old Xuan asked disbelievingly.

“I will try to gauge the difficulties first, then make plans for it later if I think I couldn't do it right then.” Yi Tianyun said calculatingly.

“If that's what you want, I would only serve! The Array that you seek is right here.” Old Xuan said while directing Yi Tianyun to the Fifth Level array's whereabouts.

As Yi Tianyun examined the Array with the Appraisal Eye, he could see that his chance of successfully fixing the Array was as low as 10%! He was quite a bit startled by this number. He didn't lose hope as he activated his Heavenly Eyes once more to check the difference, and once again, he was disappointed and shocked.

The success rate certainly improved, but sadly, it was nowhere near his expectation, it only improved to 30%! Yi Tianyun just sighed and progress to analyze the pros and cons for forcefully fixing the Array.

After some thought, Yi Tianyun came to the conclusion that the demerit was too much. He didn't know when an enemy will strike, and he couldn't risk just being a sitting duck inside the ruins

"Elder Yi! Elder Yi!" suddenly, Yi Tianyun heard someone shouting his name to catch his attention. It turned out to be several elders who were looking bright from amazement.

"Elder Yi, the concentration of the Spiritual Power here was suddenly improved! What is going on?" one elder said gleamingly.

"Oh, that's because I just fixed it. Now the disciples should be able to cultivate faster." Yi Tianyun said boldly.

"This is your doing? You can fix an array?" one of the elders asked disbelievingly. 'This is too much, how can someone has it all! He can Forge a weapon, Refining Pill, and now fixing Array? It is just too much!' the elder thinks to himself, amazed by Yi Tianyun's talent.

"Yes, but I still can't fix some of them." Yi Tianyun said humbly.

"Now that this place can gather more spiritual power and we have quite an amount of pills at our disposal, I hope that you guys can help the disciples to cultivate faster so that our Jade Palace could become a Second Level Faction soon!" Yi Tianyun added dismissively with a smile on his face.

The elders that came seeking him are all nodded immediately with a light smile, they immediately dispersed to do their own stuff to boost Jade Palace's power!

After they all left the vicinity, Yi Tianyun immediately returned to his room and tried to cultivate his mastery. He forged and refined every single material he found at Profound Azure Mansion's Headquarter, setting aside the Divine rune at the moment.

As the divine rune crafting requires a special requirement, Yi Tianyun couldn't cultivate his Divine Rune Mastery right now, so he opts to do the mastery of the other developing skills.

Without Yi Tianyun realizing it, about half a month has passed. When he was in the middle of forging another Soul Tool, a system notification suddenly rang, surprising him a little bit.

'DING'

'Congratulations to host for completing the main quest [The Jade Palace Promotion], Successfully promote Jade Palace into a Jade Sect!'

'Reward: 1.000.000 Exp, 1 Standard Lottery Ticket, 1 Improved Lottery Ticket, 100.000 Crazy Points.'

'DING'

'New Main Quest Update! [Strong Sect]'

'Promote Jade Sect into Jade Mansion and relocate it to Heavenly Borders Continent!'

'Completion Reward: 100.000.000 Exp, 1.000.000 Crazy Points, 100.000 Mastery Points (can be assigned to the host's liking), 100.000 Sin Points, 1x Life.'

'Note: every Core Disciple of the faction must reach 200 favorability points.'

'DING'

‘Main Quest Step Update’

‘First Step: Fix all Heavens Immersing Ancient Ruins’ Array.’

‘Completion Reward: 1.000.000 Exp, 10.000 Divine Rune Mastery Mastery.’

‘Note: The repair must be done by the host alone!’

Yi Tianyun was shocked as he didn’t expect to receive this notification this soon. The one that really got him was the reward for completing the main quest, it will give him 100 million Exp!

On top of that, 100.000 Sin Points was just ridiculous! To this point, he never got 4 digits Sin Points at once, so to be able to get his hand to such amount of Sin Points was really intriguing.

After reading the details for a while, Yi Tianyun was filled with excitement once more! Because of the little word that he dismissed earlier. He got another extra life! He didn’t expect this at all, an ultra-rare item at a high price!

But this was a given, the quest itself was really in great difficulty.

Not only to promote the Jade Sect into Jade Mansion but also to relocate the faction to Heavenly Borders Continent! He couldn’t even recruit a high-level cultivator to achieve this, because the requirement stated that the Core Disciple must have 200 Favorability Points. There was no way a new recruit could have that amount of favorability, even if Yi Tianyun gave a lot of gifts to increase the favorability, he doubted that it would rise that high!

But it was better this way, to have a core disciple at that high favorability points surely would secure the disciple’s loyalty to Jade Sect!

Chapter 170: Improved Lottery

The little note in the notification was really disappointing. There was no way a new recruit would have 200 favorability!

To force his way to recruit new members with high cultivation, he had to somehow increase their favorability to 200, which will take a long time. There really was no shortcut on this one! Moreover, the first step of Main Quest was challenging enough, to begin with. There was no easy way to increase the Rune Proficiency to fix all the Array in a short time.

He rechecked the quest, and the completion of the first step of the Main Quest was only at 70%. There are still 30% more arrays on the ruins waiting to be fixed, which meant the 30% of Array in ruins was higher than Fourth Grade Array!

“I’ll set this aside, for now, I guess I will check this improved lottery ticket. What is this all about?” Yi Tianyun said while opening the improved lottery wheel.

“hmmm, it uses almost the same wheel as the old one.” Yi Tianyun said as the wheel appeared.

The wheel looked the same, but the several categories have somewhat changed, now there was Consumables, Abilities, Cultivation Technique, Weapons, Defensive Equipment, Special Item, and Divine Ability category. He activated his Lucky Aura to maximize his chance to get the divine ability category, as it was still the best of the bunch.

“Lucky Aura, Activate!” he shouted.

After activating his lucky aura, he immediately spun the wheel and hoped out loud to get Divine Ability. As the wheel began to slow down and stop, the arrow stopped on Consumable Category, which irritated Yi Tianyun a little bit. Even though he was using Lucky Aura, the luck wasn’t on his side!

After a while, a box rolled out from the wheel, and Yi Tianyun immediately opens it.

‘DING’

‘Successfully obtained 20x Exp Card!’

“Well, this is surprising, this is good! Now I didn’t have to buy one.” Yi Tianyun said excitedly. He spun the wheel once again and hoped for it to stop at the Divine Ability Category once again.

Sure enough, the wheel stopped, and the arrow points at Divine Ability! A box immediately fell from the wheel like the last one, and Yi Tianyun immediately opened it in excitement.

‘DING’

‘Successfully obtain Divine Ability: Teleportation!’

‘Teleportation: Instantly moved to anywhere within 1 KM radius from the player. Cooldown: 10 Minutes. Level up requires 1.000.000 Crazy Points.

“This is incredible! A teleportation Divine Ability! But this distance and cooldown are bad, though. I can move easily and fast enough for just one kilometer, there is no need to teleport for that distance! But maybe it will be better in terms of distance and cooldown as I level it up.” Yi Tianyun said excitedly.

After he used all his tickets for the improved lottery, he checked for the price of one spin. He got startled after seeing the price he had to pay to spin one time. It needed 500.000 Crazy points! Now he didn’t feel so good about winning the 20x exp card as it was cheaper in the shop.

“Oh well. There is no need for me to get upset, I get this for free!” Yi Tianyun said, reassuring himself.

“There is no way I would spin this using the crazy points! The amount is just not worth it, better I level up the Crazy Mode or any other Divine Ability than this one.” Yi Tianyun said spitefully.

Yi Tianyun had the number of crazy points to use the lottery for two more times, but he chose not to as he didn’t want the risk of losing his crazy points wastefully.

“Ah, I’ll eventually get another ticket sometime later, maybe after some quest or after killing some enemies! There is no need for me to use my crazy points now.” Yi Tianyun said confidently.

When he was about to leave, several Heavens Immersing Ancient Ruin's Guard comes to his side, informing that there were several unknown people outside the ruins searching for Zhu Yuwei, and they didn't know any person with that name.

"They are looking for Zhu Yuwei?" Yi Tianyun asked frowningly, he never expected them to find out this fast, he thought that maybe there was a mole somewhere.

But the chance where they knew about Zhu Yuwei from the little clues Yi Tianyun left behind when he talked to them before.

"Okay, let me handle them." Yi Tianyun said, dismissing the guard to go back to their post. He immediately walked to the front gate, and sure enough, they were exactly who he thought was searching for Zhu Yuwei. But sadly, there was no Zhu Yuxuan anywhere.
