

Leveling 421

Chapter 421

Many people discussed the flying palace as it crossed the Earthly Border Continent towards the Heavenly Border Continent.

However, the Netherworld Empire that has heard of the report stating that there was a huge palace flying toward the Heavenly Border Continent was having a tough time deciding whether to check on it or not.

It was all because they still needed to figure out what to do with the Heavenly Dragon Empire!

But the Netherworld Empire has thought of collaborating with this new Heavenly Clouds Mansion.

If they could destroy Prince Yi of Heavenly Dragon Empire, then it would be all worth it!

But sadly, they didn't know that Yi Tianyun himself was the one who led the Heavenly Clouds Mansion!

This information regarding Yi Tianyun as the Mansion Lord of the Heavenly Clouds Mansion was still confidential, that was thanks to everyone's loyalty to Yi Tianyun!

Heavens Immersing Ancient Ruins was finally closing in on the Heaven's Top Mansion's location, once it was close enough, Yi Tianyun then commanded that they must immediately land on the open spot.

The sound of the huge palace landing on the ground surprised everyone on Heaven's Top Mansion, and they immediately got out to check what just happened, and they were shocked once more as they saw a huge palace appeared near theirs.

However, the Great Elder has not come out as he was reported dead in the Dragon City incident.

But, Yi Tianyun didn't care about any of that anymore and came out from the Heavens Immersing Ancient Ruins confidently.

Everyone from Heaven's Top Mansion was shocked to see that Yi Tianyun was fine!

He Qianhan was even more confused as she didn't know whether to call him Mansion Lord or not!

Everyone began to relax as they thought that they were under attack at first, but as they saw Yi Tianyun's familiar face, the thought suddenly disappeared.

Yi Tianyun looked at He Qianhan and nodded at her, signaling that it was okay now and that the Great Elder should come out of hiding.

He Qianhan bowed and immediately returned to the main building to call the Great Elder.

Yi Tianyun turned his attention towards Shi Xueyun and said to her that this place would be the base of Heavenly Clouds Mansion starting that day.

"Is this Heaven's Top Mansion used to be the Old Ancestor's sect?" Shi Xueyun asked curiously as she looked around in wonder.

But as Yi Tianyun was about to answer, he was interrupted by the Great Elder and Mu Xian'er, who finally came out of hiding.

The arrival of Great Elder and Mu Xian'er shocked the disciple and some deacons of Heaven's Top Mansion because their survival was strictly confidential!

"I am very sorry for ever deceiving you, but the truth we are never really in danger, but after the Dragon City incident, we have to hide for the safety of the sect! The Mansion Lord himself was the one giving this order and also the one who dealt with the Netherworld Empire all along!" Great Elder said as he bowed to Yi Tianyun.

"Mansion Lord? Wasn't he sick after the second Elder's betrayal?" Some disciples asked the Great Elder.

“No, in fact, the Mansion Lord has changed to Lord Yi! The previous Mansion Lord was still helping Lord Yi as he dealt with the Netherworld Empire.” The Great Elder said with a smile on his face.

“Yes, I am the new Mansion Lord, I earned this position as the previous Mansion Lord gave it to me to improve the Heaven’s Top Mansion.” Yi Tianyun said as he stepped forward with a warm smile on his face.

“But before we go too far, I have an announcement to make! Heaven’s Top Mansion will officially merge with Heavenly Clouds Mansion, and because of that, Heaven’s Top Mansion would now become Heaven’s Top Sect, along with the Heavenly Jade Sect and Spirit Sect! The three sect will work side by side in the future, and I hope everyone will get along well!” Yi Tianyun said commandingly.

Heaven’s Top Mansion finally noticed the Spirit Race that was standing near the flying palace, after they noticed the Spirit Race’s presence, they couldn’t help but feel in awe!

“Now, everyone might be too surprised to understand what Lord Yi just said, and I would gladly explain to you how it gets to this!” the Great Elder said enthusiastically.

He began to tell Yi Tianyun’s story until the point of Yi Tianyun saving the Spirit Race from Army General Feng of the Netherworld Empire!

They still didn’t know about how Yi Tianyun’s relationship with the Heavenly Dragon Empire, so the Great Elder didn’t tell the story to the disciple of Heaven’s Top Sect!

‘DING!’

‘Successfully completed the main quest [Strong Sect!] by promoting Heavenly Jade Sect to Heavenly Jade Mansion and move to Heavenly Border Continent!’

‘Reward: 100.000.000 Exp, 1.000.000 Cps, 100.000 Mastery Value (Could be assigned accordingly), 100.000 Sps, and one life-up.’

‘DING!’

'Doubling the reward for successfully completed the Main Quest with the hidden objective.'

'Reward: 200.000.000 Exp, 2.000.000 Cps, 200.000 Mastery Point (Could be assigned accordingly), 200.000 Sps, and 2 Life-up.'

The reward from the Main Quest was exceeding Yi Tianyun's expectation!

Chapter 422

The rewards were doubled! This was not something that he ever expected, but nevertheless, he was very satisfied with the 2 million exp that he just got from the reward!

'DING!'

'Congratulation to the host for successfully breaking through to 1st Layer Void Spirit Stage.

'DING!'

'Successfully took a new Main Quest [For the Heavenly Path, Destroy the Netherworld Empire and kill the Netherworld Emperor!]

'Reward for succession: 500.000.000 Exp, 5.000.000 Cps, 500.000 Mastery Point (can be assigned), 500.000 SPs, Title [Punish the Wicked and Eliminate the Evil!]

Yi Tianyun was a little bit surprised to see that his next main quest would be eliminating the Netherworld Empire itself!

Not only that, but the reward was also huge!

It was five times the amount of reward he just got from completing the main quest earlier!

“It seems even the system agreed that Netherworld Empire should be eradicated from this world!” Yi Tianyun said as he nodded in satisfaction.

This main quest was in line with what he would do next anyway, so he felt happy that he could finish it sooner than he expected!

The people of Heaven’s Top Mansion were still in shock after learning the truth about their Mansion Lord and their sect, but among them, the person who was surprised the most was Yang Yu, because he had a good relationship with Yi Tianyun before, knowing that Yi Tianyun was in fact the Mansion Lord really was unexpected!

After the rest of the people finally snapped back to their senses, they began to discuss about the merge that Yi Tianyun had announced, at first there was some kind of rejection from the disciples, but eventually the Great Elder successfully defused the situation and made everyone accept the new Mansion Lord’s decision.

Yi Tianyun handed the management work over to Shi Xueyun because she was currently the best person for managing affairs in the sect. She also had Yi Yuwei to help her in this matter!

After settling that matter, Yi Tianyun headed inside the Heaven’s Top Mansion building and found an empty cultivation room, he immediately walked in and closed the door as he wanted to be alone for the moment. He began to sort his inventory and immediately thought of leveling up the Crazy Mode.

“No need to think twice about this, Level Up the Crazy Mode!” Yi Tianyun said to himself.

‘DING!’

‘Successfully Level Up the Crazy Mode! Deducting 10.000.000 Cps.’

‘Active effect increases to X16! Passive Effect: X4 Mastery Point, X2 Sin Point, X2 Medicinal Pill effect!’

Yi Tianyun has expected this kind of effect, but he also suspected that the next level would give him X32 Effect!

But he needed 50.000.000 CPs for that, which he didn't have yet at this moment!

However, X16 was already strong enough to get through right now.

"Great! Everything seems good!" Yi Tianyun said excitedly. He also can't wait to find some more Soul Accumulating Grass to make a few Soul Accumulating Pills, because of the Crazy Mode effect, pills would give him double the normal amount!

As for the Sin Points, he was happy that it would be doubled, but he didn't know how good it would be as the amount of Sin Points that he got from killing cultivator was relatively small.

He then opened his status to check if there was another thing that he thought was necessary to level up and affordable. He thought over for a moment and immediately decided to level up the Teleportation and Lucky Aura!

'DING!'

'Successfully Level Up Teleportation to level 2!'

'Effect: instantly teleport anywhere within 10 miles radius of the player. Cooldown time: 5 minutes!'

'DING!'

'Successfully Level Up Lucky Aura to level 3!'

'Effect: Increase the player luck X15, consumes 5.000 Cps per second!'

Yi Tianyun nodded his head as he found that the effect wasn't bad. He looked at the amount of Crazy Points left and felt that there was nothing else he could level up with only a million CPs, so he immediately decided to look for the Level 50 Gift Pack.

'DING!'

'Successfully opened Level 50 Gift Pack!'

'Get 1X Super Enhanced Version Lottery Ticket, 1X Enhanced Version Lottery Ticket, 50% Discount Coupon (limited time), X50 Exp Card, Level 60 Gift Pack!'

"Hmmm, what is this Super Enhanced Lottery Ticket? Is it better than the previous one?" Yi Tianyun said curiously as he got the Super Enhanced Version Lottery Ticket!

Chapter 423

"Let's just try it out!" Yi Tianyun said without hesitation as he immediately activated the Super Enhanced Version Lottery Ticket.

Suddenly, a huge Roulette appeared in front of him and quickly spun on its own.

However, Yi Tianyun decided not to use his Lucky Aura now, as he thought that the Lucky Aura wouldn't influence this roulette.

Sure enough, the roulette stopped at Cultivation Technique!

A wooden box immediately popped out of the roulette, and Yi Tianyun eagerly took it to check what he got.

Swallowing Heavens Divine Arts: Lower Grade Heavens Level Martial Art! A powerful absorption technique that could devour all types of energy and turn it into Exp! (the effect did not stack with the Dark North Divine Art.) Leveling up cost 1.000.000 Mastery Point.

Yi Tianyun checked his Dark North Divine Art and noticed that it also required 1.000.000 Mastery Points to level it up to Lower Heaven Grade, but this new Divine Art cost 1.000.000 Mastery Point to level it up to Middle Heaven Grade! He began to wonder which one was better between the two. But he immediately decided to try Swallowing Heavens Divine Art first before making his decision.

Yi Tianyun then reached out his arm forward and activated the Swallowing Heavens Divine Art, and suddenly he absorbed so much Spiritual Energy inside the room in an instant!

'Received 300 Exp, 320 Exp, ...'

This absorption rate was much faster than Dark North Divine Art. Furthermore, this Swallowing Heavens Divine Art also absorbed a considerable amount of Spiritual Energy from the object around him, which the Dark North Divine art couldn't do!

"It seems that this one was better! I will use this Swallowing Heavens Divine Art from now on!" Yi Tianyun said excitedly. He was also happy that the item that he got from his Gift Pack wasn't bad at all, the X50 Exp Card would be used effectively!

He took a look at the Super Enhanced Version Lottery Roulette and found out that he had to use 2.000.000 CPs for one draw without a ticket, which was too much for him at the moment!

He then checked his inventory and status and found out there was nothing more that he could do at the moment.

He also noticed that he didn't need that much Exp to level up to 2nd?Level Void Spirit Stage too!

Because of the amount of Exp that he got from his Main Quest earlier, he was halfway to leveling up, he only needed 150.000.000 Exp now!

That amount of Exp was a lot!

But with the X50 Exp Card, he knew that it would be a walk in the park!

After that, Yi Tianyun immediately walked out of the cultivation room and looked at the situation outside.

He noticed that there was not much change since they arrived there.

The mansion was still divided into two parts, one was Heaven's Top Mansion, and the other was Heavens Immersing Ancient Ruins, which was still used by the Spirit Sect and Heavenly Jade Sect.

This was nothing strange, as they just met each other and still not familiar enough to do anything together.

Although the change inside the Heavenly Clouds Mansion wasn't much, the outside world begged to differ, the news of the merge was spread throughout the Heavenly Border Continent, including the Netherworld Empire!

They began to wonder why a mysterious sect like that wanted to merge with Heaven's Top Mansion of all sects!

But the next news really shocked everyone, especially the Netherworld Empire!

Because the news said that the Spirit Race was found among the Heavenly Clouds Mansion's disciple!

Everyone was surprised because they knew that the Netherworld Empire was chasing the Spirit Race, but they come out of their hiding with a bang like this was basically seeking death!

On the other hand, the Netherworld Empire was distraught by this news.

"That despicable Spirit Race! How dare they make a move like this! Did they think that the Netherworld Empire couldn't afford to chase them down again!" Imperial Preceptor said furiously.

The Netherworld Emperor also took the news with anger as everyone knew that the Spirit Race has taken out two of Netherworld Empire's Main Generals!

The Emperor immediately ordered the imperial Preceptor to plan an attack to eradicate them once and for all!

But while they were still planning an attack, Yi Tianyun had already made his decision!

He would be attacking the Netherworld Empire actively!

The people from the Heavenly Clouds Mansion thought that Yi Tianyun had gone insane, but Yi Tianyun only showed them his smirk as he already received a report from the Spirit Race's spy from the Netherworld Empire's border!

He could attack the Netherworld Empire right now!

Chapter 424

The Spirit Race's spies were quick on their foot, it didn't take long for them to inquire about the news that Yi Tianyun could attack the Netherworld Empire at any time!

The report from the spy also included the amount of Void Spirit Stage Experts currently within the Netherworld Empire's territory, which was only 4!

That expert consisted of Netherworld Emperor, Imperial Preceptor, and two other Army Generals.

As for the Core Transformation Expert, there were still quite many of them, at least 20 to 30 people, but that was not a concern for Yi Tianyun!

But Yi Tianyun still didn't tell the rest of the sect any of this as he wanted to catch the Netherworld Empire off guard.

The people inside Heavenly Clouds Mansion all thought that Yi Tianyun was making a bad decision because Spirit Race always relied on concealment for their safety.

Exposing them to the world to see like this wouldn't be good for the Spirit Race!

In fact, in Yi Tianyun's mind right now was focused at the reward that he would get from finishing the Main Quest after destroying the Netherworld Empire!

He knew that he would succeed. He was confident that there would be no casualties on his side!

He based it all with his previous confrontation with the Imperial Preceptor. With X8 Crazy Mode effect, he could win against Imperial Preceptor, meaning that since he has already upgraded Crazy Mode to X16, Imperial Preceptor wouldn't be a problem anymore!

Not only that, but the Heavenly Dragon Empire, under Ren Long would also help him out to destroy the Netherworld Empire, all he had to do was just wait for them to arrive here.

"Well, I am sure when the Heavenly Dragon Empire's forces arrive here, we will immediately march toward Netherworld Empire's imperial city!" Yi Tianyun said confidently.

Many people looked at him in horror!

They were not sure that they could win against a strong nation like the Netherworld Empire, even with the Heavenly Dragon Empire's help!

"Mansion Lord! That decision isn't wise! It is dangerous to take action against the Netherworld Empire like that! We could be destroyed if you didn't plan it thoroughly!" An elder from the Heaven's Top Mansion said, other disciples from Heaven's top Mansion also nodded, they agreed that Netherworld Empire wouldn't be easily defeated!

Yi Tianyun understood that he had the shortest time with the Heaven's Top Mansion's people.

As a result, their loyalty towards Yi Tianyun wasn't as high as the two other sects.

Yi Tianyun couldn't blame them as it was his own fault for not sparing any time to increase Heaven's Top Mansion's loyalty before.

"I didn't make an empty notion! I've already made plans to attack them! Did you think that I didn't think about the future of this Mansion? I already chipped off Netherworld Empire's strength before I arrive here!" Yi Tianyun said casually.

“Furthermore, the Spirit Race’s spy also reported that the Netherworld Empire is preparing something big, you know they can sense the turbulence on Spiritual Energy, and they said that whatever that is that Netherworld Empire had prepared this time would be huge!” Yi Tianyun said indifferently.

“We’ve been on defense this entire time. Now we have to take the initiative to launch an attack of our own! I believe in our power. Together we could destroy the Netherworld Empire once and for all!” Yi Tianyun said commandingly.

“I am sorry, Mansion Lord Yi. But I don’t know, I still don’t understand where does this confidence of yours come from?! I still didn’t believe that we can win against the Netherworld Empire!” An elder from Heaven’s Top Mansion said nervously.

“That is simple! His confidence comes from the support of the people around him!” Shi Xueyun said confidently as she showed her support for Yi Tianyun’s decision to attack the Netherworld Empire.

From the beginning of the discussion, Shi Xueyun and Heavenly Jade Sect never once questioned Yi Tianyun for his decision.

It may seem ridiculous for the people who only know Yi Tianyun for a short time, but all Yi Tianyun needed was the support from the people that he cared for.

With his power alone, he could defeat his enemy, but still, he needed reassurance that the people he cared for wouldn’t betray his trust!

Suddenly, a guard came barging in to give a report to Yi Tianyun.

“Mansion Lord Yi, Experts from Heavenly Dragon Empire was waiting outside for you!” The guard reported politely.

“Bring them in!” Yi Tianyun said as he dismissed the guard.

Yi Tianyun was excited as finally, Ren Long has come!

A moment later, Ren Long's familiar figure appeared, followed by a group of experts from the Heavenly Dragon Empire.

Yi Tianyun noticed that Ren Zhirou wasn't among them, which meant that she was left behind to defend the Heavenly Dragon Imperial City in case the Netherworld Empire decided to attack again.

"Big Brother Ren! You are finally here!" Yi Tianyun welcomed Ren Long excitedly.

"Well, you told me to come to yourself, didn't you?" Ren Long said teasingly with a smile on his face.

"Well, are you ready to destroy the Netherworld Empire?" Yi Tianyun said excitedly.

Chapter 425

As the people from Heavenly Dragon Empire came, Yi Tianyun had nothing left to wait for, Yi Tianyun then prepared for their departure towards the Netherworld Empire immediately!

"Are you ready to destroy the Netherworld Empire?" Yi Tianyun asked Heavenly Dragon Empire's Army.

"Yes, my prince!" The soldier all said at the same time.

The people from the Heavenly Cloud Mansion was surprised at their answer, they never knew Yi Tianyun was a prince before, on top of that Heavenly Dragon Empire's prince?

But even if he noticed the confused look on his people's face, Yi Tianyun didn't explain why he was called a prince to them.

Furthermore, the people from the Heavenly Clouds Mansion began to notice that the leader of the Heavenly Dragon Empire's army was the Heavenly Dragon Emperor himself!

This revelation made some of them felt chill as Yi Tianyun's progress was far too quick for their understanding!

“Did you really become the Heavenly Dragon Empire’s Prince? You sure didn’t take your time, did you?” Shi Xueyun said teasingly.

“Well, I always tried my best for the Heavenly Clouds Mansion’s betterment!” Yi Tianyun said confidently to Shi Xueyun.

After a small briefing of what they would do on the battle, Yi Tianyun immediately announced their departure towards the Netherworld Empire.

Ye Qingxuan nodded and immediately activated the Great Array of flight to transport all the people that would join the battle.

But even though they were up in the air, the Netherworld Empire still had many cultivators at Core Transformation stage or higher, so they could intercept the flying palace anytime.

“Brother Yi, why are you so confident that we need to attack this fast?” Ren Long asked Yi Tianyun curiously.

“We need to do this quick! We can catch them off guard if we attack now. After all, we are always on the defensive side against them!” Yi Tianyun said confidently.

“Well said. I will trust your judgment. I know that you did this with our victory in mind!” Ren Long said honestly.

Heavenly Dragon Empire had never attacked Netherworld Imperial City before as they have always been in the losing side of the battle, if it wasn’t because of the Heavenly Dragon Secret Treasure, the Heavenly Dragon Imperial City would have fallen to Netherworld Empire a long time ago.

“I can’t wait to destroy the Netherworld Empire, for this would be a big feat for us!” Yi Tianyun said confidently.

“That is true! Other empires would hold our name in respect after all this!” Ren Long said confidently.

The Heavens Immersing Ancient Ruins, which was called Heavenly Clouds Palace at the moment, was flying towards the Netherworld Empire's imperial City steadily.

The people inside were preparing themselves for the battle in excitement.

The Heavenly Clouds Palace's speed wasn't fast, but it wasn't slow either, thus making the news of the flying palace advancing towards Netherworld Empire was heard by the Imperial Preceptor and the Netherworld Emperor.

The Emperor and the Imperial Preceptor were undoubtedly shocked to hear this news as they never expected the other side to take the initiative.

This act was very different than the usual situation, this Heavenly Clouds Mansion sure was bold to attack Netherworld Empire like this!

"Is this Heavenly Clouds Mansion for real? Why are they attacking us this soon? I am sure the decision maker inside the Spirit Race was an idiot!" Imperial Preceptor said annoyedly.

"Send the Flying Hawk army! You will personally lead them! I don't want to hear your failure once more!" Netherworld Emperor said toward Imperial Preceptor coldly.

"Take the rest of the Army General with you, but remember, no more failure!" Netherworld Emperor added coldly.

"Yes, your majesty! I will not fail again!" Imperial Preceptor said solemnly.

Imperial Preceptor immediately walked out of the palace to prepare the Flying Hawk army to intercept the flying palace, he was determined to redeem himself this time, but unfortunately for him, he lacked the critical information regarding the enemy's power!

He didn't know that the Heavenly Clouds Mansion was led by Yi Tianyun himself!

Not long after, as many as thousands Flying Hawk assembled, this was a massive army!

With the Flying Hawk's speed and flexibility, they were an absolute powerhouse in the air!

"Mansion Lord! I receive news that the Imperial preceptor would personally intercept us soon, he comes with a thousand Flying Hawk Army and two other Army Generals!" A guard said toward Yi Tianyun.

"Nice, our plan works sooner than expected!" Yi Tianyun said as he smirked to himself, he couldn't wait to finally beat the Imperial Preceptor to a pulp!

Chapter 426

The Netherworld Empire was cautious, and this time the Netherworld Emperor mustered all the Empire's strength to defend against this new enemy. He ordered the Imperial Preceptor and two Army Generals to fend off the new enemy with the Flying Hawk Army at their disposal. It was no wonder that no enemy could ever reach the Netherworld Imperial City!

"Mansion Lord, what would we do now?" An elder asked Yi Tianyun worriedly. But Yi Tianyun only smiled and stood from his chair.

"It's okay, it is time for me to make my move as well!" Yi Tianyun said confidently.

The people who heard Yi Tianyun's word just now were startled as if they heard it wrong, Yi Tianyun wanted to deal with a thousand enemies alone!

However, as it was Yi Tianyun's decision, they chose to remain silent and did not question Yi Tianyun's decision, they had faith that Yi Tianyun would actually pull it off somehow!

Yi Tianyun walked toward the palace's door and looked over to the incoming enemies coldly. He then opened the Sin Shop and quickly bought the Sword Master Suit!

Sword Master Suit: Required level 30 to wear.

Effect: the wearer could use and control the sword array, all swords within the High-Grade Spirit Tool rank in ten miles radius could be controlled by the wearer, can control up to 10.000 Swords at a time!

Price: 100.000 Sin Points.

“Exchange the Sword Master Suit!” Yi Tianyun said casually.

‘DING!’

‘Successfully bought the Sword Master Suit, deducting 100.000 Sin Points!’

“Equip the Sword Master Suit!” Yi Tianyun said casually.

In an instant, his clothes have changed into a thin white coat, the coat fluttered as the wind blew, Yi Tianyun looked super elegant!

The people standing near him couldn’t take their eyes off from Yi Tianyun’s figure that suddenly became much more confident.

Yi Tianyun then raised his hands and closed his eyes, he could feel a large amount of weapon in the city below the palace, he immediately tried to control all of them to fly towards the palace as his weapons.

At the same time, Imperial Preceptor and his army were closing in, the people inside the Heavenly Clouds Palace became anxious as they didn’t see Yi Tianyun did anything to defend the palace, they were sitting duck there, as there was no place to escape if the Imperial Preceptor arrived and started to attack them!

“We are close enough! Shoot them down from the air!” Imperial Preceptor commanded the Flying Hawk Soldier to Attack!

“Sir, yes sir!” the Soldiers said at the same time.

The flying hawk army began to bombard the Heavenly Clouds Palace with their longbow from afar relentlessly.

There was no doubt that they were the best army that the Netherworld Empire had!

Furthermore, the huge palace in the sky was a foolish move in the soldier's eye.

Everyone knew that the bigger the target was, the easier for them to aim and shoot.

So, the Flying Hawk Army was more than happy to attack Heavenly Clouds Palace while they thought that there would be no consequence for them to attack the palace.

At the same time, Yi Tianyun has connected with almost 10.000 Spirit Tool rank swords from 10 miles radius, he also got the weapons from the Flying Hawk Army in front of him!

He immediately controlled the 10.000 Spirit tool rank swords in front of the Heavenly Clouds Palace, shocking everyone who saw the scene enveloping in front of their eyes.

"Ten Thousand Sword Barrage!" Yi Tianyun shouted as the swords began to fly toward the flying hawk army at a great speed.

Yi Tianyun opened his eyes, and his eyes glowed brightly as he controlled the swords precisely.

The Sword Master Suit, unfortunately, didn't enhance any of his statuses, but it was not a problem as the sword was thrown from a Void Spirit Stage Expert!

So, the swords under Yi Tianyun's control traveled with a speed that most cultivators couldn't see, making them too late to react!

"Fall back!" Imperial Preceptor shouted as he watched in horror that his army was being annihilated!

The soldiers began to fall from the sky as their hawks died from the swords barrage that Yi Tianyun hurled.

In a short time, Yi Tianyun had successfully killed half of the Flying Hawk Army!

Yi Tianyun smirked as he received quite a lot of Exp, but those cultivators were too weak for him, so the amount of Exp that he got failed to satisfy him!

The rest of the people from the Heavenly Clouds Mansion stared at Yi Tianyun in awe!

This technique was too powerful!

Chapter 427

10.000 swords of Spirit Grades were low in terms of power, but it could swarm the enemy and pierce through their defense consistently!

It was only because of the two Army Generals and Imperial Preceptor that some of the Flying Hawk Army could survive Yi Tianyun's attack.

But even though they could defend against Yi Tianyun's attack, it was still proven difficult for the three of them to consistently defend against 10.000 swords at the same time!

They began to destroy the swords within their attack range because that was the only way to stop it from attacking again!

"This has no end! This martial art does not make any sense!" Imperial Preceptor said while panting from fatigue.

"Damn it! At this rate, the Flying Hawk Army would be annihilated!" One of the Army General said nervously.

They began to lose the Flying Hawk Army that was under their protection as the swords were too much for them to handle!

“Yeah, they are fragile, but they are preventing us from saving the army!” The other Army General said annoyedly.

This is the reason that Yi Tianyun didn't use the Sword Master Suit up until this moment, it didn't work against a small amount of enemy, it was better to use it against a massive amount of enemies with low cultivation like this!

Yi Tianyun believed that a more advanced suit that was better than Sword Master Suit would appear in his Sin Points later, but he guessed that probably he wouldn't have enough Sin Points to buy it!

Fortunately for Yi Tianyun, Sword Master Suit doesn't require him to use his own weapons, the current 10.000 Swords that he controlled belonged to the enemies and the city nearby, unless the swords were destroyed completely, it could still be controlled by the Suit's effect.

Yi Tianyun then equipped the Ice-Cold Divine Bow and quickly used Ice Cold Fury while aiming his attack at the Army General, who was located the farthest from Imperial Preceptor.

Once he was sure that his shot would hit, Yi Tianyun smirked and released his attack!

This Ice-Cold Fury held 60 Million Combat Power in it, if the opponent did not see this attack coming, they surely would suffer a grievous injury!

But as he shot the powerful arrow, the Ice-Cold Divine Bow cracked once again!

This was the sign that the Bow was reaching its limit, Yi Tianyun must upgrade it in order to fix it!

After all, the Ice-Cold Divine Bow's level was already too far behind his own level!

The Ice-Cold Fury traveled through the air towards the unsuspecting Army General, but as it got close, the Army General sensed incoming danger, and once he looked around, he finally noticed a powerful Ice-Cold Arrow was aimed towards him. He quickly blocked the incoming arrow with his big hammer, but it was too late! It wasn't an attack that he could block!

As the Ice-Cold Fury hit the hammer, the cold immediately spread in the air, freezing the Army General, dozens of Flying Hawk Army, and the swords that Yi Tianyun controlled!

Every single thing that was frozen on the air immediately fell to the ground and broke into million pieces as soon as it hit the ground!

Yi Tianyun successfully killed one of Netherworld Empire's Army Generals effortlessly!

In the distance, Imperial Preceptor instantly turned pale!

He recognized the attack that killed the Army General just now!

It was the same kind of attack that he blocked while fighting against the Heavenly Dragon Empire recently!

Prince Yi of the Heavenly Dragon Empire!

"It's him!"

Why was he here?

Imperial Preceptor immediately realized that he would have no chance of winning if it was truly Prince Yi of the Heavenly Dragon Empire!

He tried to look at the person in the doorway of the flying palace, but the man he saw wasn't the same as Prince Yi of the Heavenly Dragon Empire, but he felt the same kind of aura and the same kind of attack bothered him!

Imperial Preceptor immediately suspected that Prince Yi must be the one behind all this, and thus he immediately shouted for all the Flying Hawk Army to retreat to the Imperial City!

Imperial Preceptor didn't have any intention to wait and save the Flying Hawk Army, and so he burned his Blood Essence and flew away as fast as he could, escaping from the powerful enemy!

The Army General, who saw that the Imperial Preceptor has already fled the battle, decided to quickly flee as well!

Although the Flying Hawk Army was the strongest army that the Netherworld Empire had, he didn't have any intention to save them either!

As soon as the two highest cultivators left the Flying Hawk Army, Yi Tianyun easily killed the Flying Hawk Army, who has lost their leader!

Yi Tianyun completely annihilated 1.000 Flying Hawk Army ruthlessly, not leaving even one of them alive!

Chapter 428

Seeing that the Imperial Preceptor and the last Army General was running away, Yi Tianyun put away his Ice-Cold Divine Bow and let them get away for the moment.

After all, he was going to destroy the Imperial City of Netherworld Empire!

"Let them run for now! We will get them at their own base next time!" Yi Tianyun said coldly.

Everyone inside Heavenly Clouds Palace was shocked to see the scene developed outside, they didn't know that Yi Tianyun was this strong, killing a thousand soldiers all by himself!

Even some of the Heaven's Top Sect's elders began to wonder whether Yi Tianyun really he was the Prince of Heavenly Dragon Empire.

Yi Tianyun didn't say anything to confirm their wonderment, as he found nothing good in bragging.

But one thing for sure was that all people inside the Heavenly Clouds Palace were convinced that they would win this war!

However, Ren Long wanted to brag a little.

“I am the current Emperor of the Heavenly Dragon Empire here to announce that Yi Tianyun was indeed the one and only Prince of the Heavenly Dragon Empire!” He said excitedly.

With Ren Long’s confirmation, the look of shock in everyone’s face returned, they never expected to have a Mansion Lord who could shake an empire like this!

All of a sudden, the prestige point for Heavenly Clouds Mansion exploded!

This was all because they finally believed that Yi Tianyun was truly powerful!

They began to look at Yi Tianyun in awe and utmost respect!

After all, their Mansion Lord has repelled the Netherworld Empire’s army twice in a row!

“This is truly the time for the young to shine! I believe Spirit King would certainly bring us to glory and destroy the Netherworld Empire once and for all!” Spirit Race Old Ancestor said confidently.

“Yes! Long live Spirit King Yi Tianyun!” The rest of the Spirit Race people started to chant Yi Tianyun’s name in excitement.

They all knew that the first step to glory has already been fulfilled!

With every chant of his name, Yi Tianyun also noticed that his Prestige Point kept increasing!

Shi Xueyun, who was standing near Yi Tianyun, showed a slight hint of a smile at Yi Tianyun’s achievement, she looked at Yi Tianyun with eyes full of praise.

Yi Tianyun, who was once a boy without any Blood Qi, yet now Yi Tianyun has transformed into an expert that she couldn't even fathom how powerful he was!

"Thank you very much for everyone's trust in me, but we must not be blinded by confidence and negligence! This time, we wouldn't fight them within our own comfort zone. This time, we will attack them within their own territory! It means that there would be many things that could not fall within our plan! Our first plan was to disable as many Great Arrays as we can as soon as we enter the Imperial City, so keep your heads up! Don't fall for their trap!" Yi Tianyun said commandingly.

Even though Yi Tianyun had the power, he wasn't someone who would get something like this over his head, he knew that a lot of things could go wrong if he underestimated the enemy, so he couldn't relax while he was within enemy border like this!

Everyone nodded and quickly calmed down and became serious, but they still struggled to hold their own excitement.

There was no wonder left in their heart about why Yi Tianyun was so bold as to wage war against the Netherworld Empire, it was all because he had the power to do so!

When the morale inside Heavenly Clouds Mansion increased, the situation inside the Netherworld Empire Imperial City was the opposite of Yi Tianyun's current situation.

The people inside the Netherworld Empire Imperial City have heard the news about the Imperial Preceptor's lost, and they were shocked to hear that the enemy had destroyed all Flying Hawk Army without leaving any!

The prestige of the Netherworld Empire has fallen to the lowest point, many citizens and cultivators had decided to leave the Imperial City and evacuate as they knew that they would be killed if they stayed inside the Imperial City!

There was no doubt on their mind that the Heavenly Dragon Empire would take the Heavenly Border Continent, and there was also no doubt on their mind that the Heavenly Dragon Empire would cleanse the continent from any Netherworld Empire's follower.

In the meantime, Imperial Preceptor rushed back to the Netherworld Imperial City, but he didn't dare to face the Netherworld Emperor, there was no doubt on his mind that the Netherworld Emperor would kill him if he showed up without any result once again!

"I know now that the enemy could control thousands of swords, that martial art is definitely out of this world! I have never seen any martial arts like that before! Such nonsense makes things harder for me!" Imperial Preceptor said furiously.

At the same time, Netherworld Emperor had heard the news of Imperial Preceptor's defeat, and now he was watching the Imperial Preceptor in anger.

"I never expected the Imperial Preceptor would actually lose the prior battle, but now as I heard it twice, I want to face this enemy myself! They have achieved what none could achieve in a long time! I can't wait to see what they will do once they arrived at this imperial city!" Netherworld Emperor said coldly.

Imperial Preceptor began to activate many Great Arrays that the Netherworld Imperial City had, he was a Divine Rune Grandmaster, making it easy for him to activate and control many Great Array at once.

"Now, come! Let us see what you can do against these many traps!" Imperial Preceptor said with a smirk on his face.

Chapter 429

After the Flying Hawk Army was annihilated, Heavenly Clouds Palace continued to fly towards the Netherworld Empire Imperial City without having any blockade.

No one dared to block Yi Tianyun's path after seeing him destroying 1.000 unit Flying Hawk Army single-handedly.

Yi Tianyun then called back all the Spirit Sword that he controlled and sighed in relief, the Sword Master Suit was indeed powerful, but he needed to conserve his Crazy Points.

Yi Tianyun then looked at the pile of Spirit Swords in the Hall and couldn't help but think to upgrade all of them later!

He didn't care that the weapons were in fact stolen weapons, as it was from the enemy's territory!

But it was a shame that the suit was only capable of controlling swords, but it was understandable since the suit was called Sword Master Suit!

He quickly checked his Sin Points, and as he predicted, on top of the Sword Master Suit, there was another suit that was correlated with the Sword Master Suit!

'Sword Saint Suit: Level 50 Equipment.

Can use the Sword Saint Array! Controlling all the Long Sword within High Grade Sacred Tool Rank in 10 miles radius. Can control up to 10.000 Long Sword. Sword Saint Array consume 100.000 Cps.

Price: 1.000.000 Sin Points.'

His guess was correct, the new Suit in Sin Shop will only appear after buying the available one!

With that in mind, Yi Tianyun wondered how strong the equipment after buying the Evil God Suit and the Sword Saint Suit would be!

"It seems the reason for buying out this suit keeps appearing!" Yi Tianyun said excitedly.

"Prince Yi! How did you control that many Spirit Swords?" Ren Long asked as he came closer towards Yi Tianyun.

Ren Long question attracted many curious eyes from the Heavenly Clouds Mansion's side.

"I couldn't really explain it myself, but it requires a large amount of Spiritual Energy, it also requires a certain Martial Arts!" Yi Tianyun said as he rubbed his chin awkwardly. He couldn't say that it was all because of the suit that he wore!

“Can you teach the disciple this Martial Art? If you can, they would become so much stronger!” Ren Long said in anticipation!

Other people in the vicinity also nodded their heads as they agree with Ren Long’s words.

“Uh, I hate to say this but, I can’t teach this Martial Art! In fact, I think I am the only one who can use this Martial Art!” Yi Tianyun said with a slight smile.

What he said was the truth!

If it was not because of the Sword Master Suit, he wouldn’t be able to use the Sword Master Array either!

Ren Long nodded and smiled at Yi Tianyun, he didn’t pester Yi Tianyun to share his knowledge, after all, people have their own secrets!

But some people didn’t believe what Yi Tianyun had said, but they didn’t voice their disbelief as it wasn’t their place to say anything, after all the people inside the Heavenly Clouds Palace right now has the utmost loyalty toward Yi Tianyun!

But no matter what happened, they knew that Yi Tianyun was overwhelmingly strong!

They felt that if Yi Tianyun was here with them, they wouldn’t lose any battle!

Even if the Netherworld Empire was strong enough to hold Yi Tianyun’s attack, they knew that at the end of the day, the Netherworld Empire would lose something greatly!

Yi Tianyun then quickly commanded them to get ready as the flying palace was nearly reaching Netherworld Empire Imperial City, a place that was being said to be unbreachable!

Sure enough, after all of them prepared for battle, they looked outside, and there it was, the Netherworld Empire Imperial City and all its glory!

The people inside Heavenly Clouds Palace could sense that the city was intimidating, even though it was no different from all other cities!

“Ready for battle in Netherworld Empire Imperial City?” Yi Tianyun asked loudly.

He was excited about this battle, for he hoped to level up once or twice!

But Yi Tianyun received many nods as his answer as the people on his side were too unnerved to speak!

The people on Yi Tianyun’s side knew that they weren’t as powerful as Yi Tianyun and so they knew that one little careless move could cost them their lives!

On the other side of the battle, the Imperial Preceptor was holding onto a Demon Staff. He was staring at the flying palace with a smirk on his face, “Come to the city if you dare! If you could deal with all of my traps, then I really would kill myself!” He said evilly.

The next moment, he slammed the ground, and the Netherworld Empire Imperial City’s wall began to rumble, and suddenly, a huge black great array appeared with a bang!

A dark column of light rose through the skies and slammed the underside of the Heavenly Clouds Palace!

Chapter 430

A dark Great Array suddenly emerged from the ground beneath the flying palace, bombarding the Heavenly Clouds Palace from below with a black energy ball!

The huge flying palace was easily hit!

The dark Great Array kept following the flying palace movement, and eventually stopped the Heavenly Clouds Palace’s advance!

“You are too reckless, how could you think that big palace could enter the city without any resistance! I will shoot you down myself!” Imperial Preceptor said to himself with his evil smirk became more apparent as he saw that his plan was working.

The Imperial Preceptor constantly controlled the Great Array around the city and relentlessly shot the flying palace in order to knock it down!

At the same time, Yi Tianyun understood that he was trapped in the vicinity of the Imperial City to a tee!

Yi Tianyun also realized that if he forced his way in stubbornly like this, the palace wouldn't be able to hold on for long!

“The Imperial Preceptor really is cunning! He escaped earlier just to prepare a trap like this!” Yi Tianyun said as he looked at the Netherworld Imperial City in annoyance.

“Spirit King! I know that these attacks that the Netherworld Empire has thrown towards us are not that powerful, but I am afraid it already chipped away 50% of our defensive walls!” Old Ancestor said nervously.

This time it wasn't the Jade Spirit Stone that became the problem, but the great array itself!

It couldn't withstand the constant attack from the Netherworld Empire, Yi Tianyun also knew that if the Great Array was broken, then it would be hard to fix!

Everyone looked at Yi Tianyun in anticipation, they hoped Yi Tianyun would have a way to overcome the current situation!

“Rest assured! I have already expected this outcome. Otherwise, the Imperial Preceptor will not choose to escape considering he was humiliated in the previous battle!” Yi Tianyun said confidently.

He then raised his hands, and a huge stone tablet releasing a circle of light suddenly appeared, at the same time, the circle of light suppressed the Dark Great Array.

As a result, it could no longer shoot dark energy ball to the flying palace.

This is the Tyrant Stone Tablet that he got from the Spirit Sanctuary!

Everyone looked at the Tyrant Stone Tablet in awe, especially the Spirit Race!

The Spirit Race knew that the Tyrant Stone Tablet was able to nullify the effect of any Great Array within Master Level Divine Rune Grade!

Even though the Imperial Preceptor was a Divine Rune Grand Master, that didn't mean that every Great Array that he made would be of the Grand Master Grade!

Grand Master Grade Great Array was hard to make, and the risk was too high if he somehow messed the Divine Rune up!

"I almost forgot that the Tyrant Stone Tablet was in the Spirit King's possession! No wonder you look so calm!" Spirit Race Old Ancestor said with a smile on his face.

"Well, they were well prepared, but so was I!" Yi Tianyun said confidently.

"I will not let you guys die under my watch!" Yi Tianyun added warmly.

Everyone became excited as they heard Yi Tianyun's words!

They began to exert confidence as they knew that Yi Tianyun would always have their back!

"What the hell! This is the Tyrant Stone Tablet's effect! Don't tell me someone among them can control it?!" Imperial Preceptor said confusedly, he was surprised to see all his Dark Great Array was suddenly nullified by a circle of light that came from the flying palace.

He gritted his teeth as the Tyrant Stone Tablet was the only thing that he wanted from the Spirit Race!

When he was inside their sanctuary, he wasted a full day just to search for the stone, but he couldn't find it!

He never expected that it has fallen into someone else's hands!

"Imperial Preceptor! What should we do now? Did we have to order the archer squad to shoot them down?" The last Army General said curiously.

"Did you really think that we could win against them if they already got that close to us?" Imperial Preceptor said annoyedly.

The Last Army General began to think of other options, he knew that he couldn't mobilize the remaining army because the enemy could control 10.000 Spirit Swords earlier!

He knew that it would only be a waste of manpower!

"Did you have any other idea, Imperial Preceptor? We couldn't just sit idly as they get closer!" The Last Army General said nervously.

"The Tyrant Stone Tablet only affects the Great Array within the Master Grade Great Array! If we use a Grand Master Grade Great Array, it wouldn't be a problem! Let them be for now. I will activate the Grand Master Grade Great Array as they got close enough to it!" Imperial Preceptor said calculatedly.

Heavenly Clouds Palace continued flying towards the Netherworld Empire Imperial City while nullifying the rest of the traps that the Imperial Preceptor has laid out for them.

When they got close enough to the Imperial City, Imperial Preceptor smirked, but he was suddenly confused as he saw that the flying palace began to descend and land right in front of the Imperial City's front gate!

Yi Tianyun raised his hands, and 10.000 Spirit Swords suddenly floated in the air and with his hand sign, Yi Tianyun immediately send the swords towards the soldiers on the city wall, because the distance he

was in, the soldier was immediately massacred by the huge amount of Spirit Swords that was coming towards them in a great speed!

“This is not good!” Imperial Preceptor said, he then released a black light, and he slammed it to the ground, and suddenly, a huge great array and a black aura appeared in the city limit!

Suddenly, the aura from the great array began to condense and form a giant dragon.

Yi Tianyun immediately tried to attack the dragon with his Spirit Swords but, the scale was too tough!

The Spirit Swords began to shatter one after another as it hit the hard scale of the dragon!

Yi Tianyun immediately recalled the Spirit Sword, only claiming the life of the City Guards within the wall area.

“This is a great array on a Grand Master Level! The famous Dark Dragon Great Array!” Yi Tianyun said as he observed the Dark Dragon, he suddenly remembered something, and he got an idea on how to block this Dark Dragon!
