Leveling 441

Chapter 441

Spirit Race Old Ancestor was still in the middle of disabling the Netherworld Great Array. Yi Tianyun knew that it was an absolute necessity as he felt the immense pressure on this place! The Netherworld Emperor would surely break through to Spirit King Stage, and he would surely become more powerful than he was previously!

"I have to stop him quickly!" Yi Tianyun said as he immediately rushed towards the Netherworld Emperor! Yi Tianyun believed that even if the Netherworld Emperor successfully broke through to Spirit King Stage, he would still be able to deal with him, but Yi Tianyun didn't want that extra trouble right now!

Yi Tianyun quickly activated his Heavenly Eyes and equipped the Heavenly Dragon Divine Sword! This sword allowed Yi Tianyun to summon a Heavenly Dragon every time he attacked with it! Yi Tianyun realised that the Netherworld Empire was protected by a Defence Great Array after he activated his Heavenly Eyes. So, Yi Tianyun quickly searched for the Defence Great Array's core to break it!

"Found it!" Yi Tianyun said while smirking pleasantly, and he immediately slammed his Heavenly Dragon Divine Sword directly to the great array's core! The sword immediately shone in light blue colour and Heavenly Dragon was instantly summoned, assisting Yi Tianyun's attack!

With a bang, the entire Defence Great Array was destroyed! But the Netherworld Emperor wasn't injured! Complete to Yi Tianyun's annoyance, the Netherworld's Fire from around the room was drawn towards the Netherworld Emperor and started to cover him up like it was trying to protect him!

"Is this Netherworld's Fire your last defence? This would be easy!" Yi Tianyun said as he once again swung his sword to attack the Netherworld's Fire along with the Netherworld Emperor. He also covered the Heavenly Dragon Divine Sword with his Immortal Fire, since both the Netherworld Emperor and the Netherworld's Fire had a weakness against scorching fire!

But Yi Tianyun's sword never reached Netherworld Emperor. As Yi Tianyun took a swing, Netherworld Emperor quickly opened his eyes and immediately summoned several Dark Dragons from his surrounding Netherworld's Fire, pushing Yi Tianyun back several feet!

From the amount of Dark Dragon summoned, the Netherworld's Fire intensity grew stronger, defeating the Immortal Fire as Yi Tianyun only used a small bit of fire! Yi Tianyun immediately swung his sword that was covered with Immortal's Fire to burn off the incoming Dark Dragon! His attempt showed results as Yi Tianyun kept slashing and burning the Dark Dragon that came his way!

Yi Tianyun quickly used his Appraisal Eye and checked the Netherworld Emperor's status. Yi Tianyun knew that this was not the original power of the Emperor, which meant that the Emperor has successfully broken through to Spirit King Stage!

Sure enough, his guess was correct! Netherworld Emperor's status has changed! Netherworld Emperor was a 1st?Layer Spirit King Stage cultivator right now, beside that fact, Netherworld Emperor's Combat Power has also increased from 120 million to 170 million! But Yi Tianyun also knew that this much combat power was attained from the help of Netherworld Great Array! Which meant that after the Netherworld Great Array was successfully broken, the Emperor's Combat Power would be greatly reduced!

From the information he got from Appraisal Eye, Yi Tianyun knew that at least, one would attain 30 million combat power once successfully breaking through to Spirit King Stage! This amount was too high, as it usually increased around 5 to 10 million points in the Void Spirit Stage! But Yi Tianyun also knew that the Netherworld Emperor didn't have the time to stabilize his own cultivation, and without stabilizing it, the Netherworld Emperor wouldn't be able to use his newly obtained combat power efficiently!

This realization was a much-appreciated situation for Yi Tianyun as he knew that fighting against a Spirit King Cultivator could be troublesome!

"I finally did it! I finally attain the Spirit King Status! I have to thank you for this! if it was not for your pressure, I wouldn't be able to push myself to this realm!" Netherworld Emperor said as he laughed happily.

Yi Tianyun wasn't bothered by Netherworld Emperor's word. In fact, the fact that Netherworld Emperor successfully broke through was not bad either! Now, Yi Tianyun would be able to get his Elite Kill Bonus after killing Netherworld Emperor!

"Well, if you want to thank me that much, you could always give me some reward for it!" Yi Tianyun said indifferently. He never feared any enemies before, and now was not an exception!

"My reward for you is complete annihilation of your faction. Probably that at least would be necessary to teach you a lesson!" Netherworld Emperor said happily. Netherworld Emperor immediately absorbed the Netherworld's Fire from his surrounding to further enhance his power.

The Netherworld Emperor's body was immediately covered by the Netherworld's fire like armour, and every time he took a step, the Netherworld's Fire burst out from his feet!

Chapter 442

Netherworld Emperor looked at Yi Tianyun with contempt! This young man has culled his Netherworld Empire's power significantly, and now, he even dared to attack the Netherworld Imperial City! It was true that the Netherworld Emperor also thought of inviting this young man to join the Netherworld Empire, but now he couldn't let Yi Tianyun live!

"Is that it? If that's the only thing you can offer, then I will have to pass!" Yi Tianyun said indifferently.

"It seems that you still didn't realise the situation that you are in! it was a shame that you would have to die in such ignorance!" Netherworld Emperor said as his palm started to glow bright blue! Netherworld Emperor immediately raised his hands, and the Netherworld's Fire from his surrounding started to condense in his palm and a huge palm was formed, covering from corner to corner, which meant that there is no place to run from this attack!

This was the Netherworld Divine Palm that has been enhanced by the Netherworld's Fire! The Netherworld's Fire could burn everything in this attack as it was powered up by the Emperor's Spiritual Energy!

Yi Tianyun looked at the Divine Palm with his Appraisal Eye and noticed that this attack was at 180 million combat power! It seemed that the Emperor was eager to attack Yi Tianyun with everything he got!

"Equip Heavenly Dragon Set!" Yi Tianyun said to the system.

'DING!'

'Successfully equipped a Heavenly Dragon Armour.'

'DING!'

'Successfully equipped a Heavenly Dragon Boots.'

'DING!'

'Successfully equipped Heavenly Dragon Set, adding X15 Defensive Power, X15 Combat Power, X5 Speed!'

After equipping the full set of Heavenly Dragon Set, Yi Tianyun's power increased exponentially! This was far better than the effect of the Evil Dragon Suit as the Evil Dragon Suit was only a level 30 equipment!

Yi Tianyun held the Heavenly Dragon Divine Sword tightly, and his body started to glow in a golden light, and a Heavenly Dragon Phantom Shadow also started to appear behind him!

"Heavenly Dragon Slash!" Yi Tianyun said as he swung his sword towards the Netherworld Divine Palm! A sword wave appeared from the tip of Yi Tianyun's sword that also glowed in brilliance aura that looked so beautiful!

Yi Tianyun's attack cut the Netherworld Divine Palm into two pieces and destroyed it immediately into countless sparkles and still headed straight toward the Netherworld Emperor as it has overpowered the Netherworld Divine Palm at 200 million combat power!

Netherworld Emperor was shocked, and at the same time amazed by Yi Tianyun's brilliant attack, leading to him failing to react in time to defend himself properly! He quickly gathered the Netherworld's Fire in front of him, and thus the Netherworld's Fire acted as his shield! But Yi Tianyun's attack was too powerful. The Netherworld Emperor was still hit, despite the Netherworld's Fire was shielding him! Netherworld Emperor was immediately slammed into a wall after being pushed hard by the Sword Wave!

The Emperor coughed some blood as the attack has severely injured him! Netherworld Emperor immediately looked at Yi Tianyun with horror in his eyes, he used his most powerful attack plus his

power was amplified thanks to the Netherworld Great Array! He began to wonder whether Yi Tianyun was also at Spirit King Stage!

"How is this possible? Are you also at Spirit King Stage?" Netherworld Emperor asked curiously.

"Is this question would be any use for someone who's about to die?" Yi Tianyun said as he stepped forward toward the Netherworld Emperor and smirked with a satisfied look on his face. "Now, you will answer for all the innocents that you have killed up until now in the underworld!" Yi Tianyun said solemnly.

"Killing innocent? Did I hear it right? Aren't you also covered with blood yourself? What is this bullshit?" The Netherworld Emperor said annoyedly.

"I don't deny that my hand was also covered with blood, but I only kill people who have already fallen in grace! People who no longer could receive any repentance! I will never kill an innocent person, for I know that I would receive nothing from it!" Yi Tianyun said as he started to rush forwards, swinging his heavenly Dragon Divine Sword!

"The people that I killed were all weak! The weak should cower on my feet, and I should be using them as my stepping stone!" Netherworld Emperor said as he equipped a high-grade sacred tool long sword. The Netherworld's Fire immediately shrouded the blade, and the power of the Netherworld Emperor rose once again.

Netherworld Emperor immediately tried to parry Yi Tianyun's sword to no avail! The Heavenly Dragon Divine Sword was much more powerful compared to the sacred tool Long Sword that he pulled out in the last moment. Besides, Yi Tianyun's combat power has far surpassed Netherworld Emperor's combat power! Yi Tianyun's sword pierced Netherworld Emperor's body, making him stiffen as the pain was unbearable!

Netherworld Emperor never believed anyone if they told him that he would be losing a fight against a teenager, and now, he couldn't believe his eyes that he loses to a teenager!

Yi Tianyun smirked as he realised that he has succesfully killed the Netherworld Emperor! With the heavenly Dragon Set, plus his cultivation technique and the Crazy Mode, his power has exploded to 200 million! A value that he never thought was possible before, at least not at this level!

Chapter 443

"How… can… you…!" Netherworld Emperor stammered as the light in his eyes became dimmer by the second! Yi Tianyun knew that the Netherworld Emperor's life wouldn't be long anymore! Yi Tianyun quickly pulled out the sword that was penetrating the heart of Netherworld Emperor to quicken the Netherworld Emperor's death!

The Netherworld Emperor couldn't believe that he would be dying in a teenager's hand right after obtaining the Spirit King Status! Now that the Netherworld Empire would die out as his life left his body, he certainly came to regret every choice that he had done until now, for he knew that he wouldn't be dying like this if he was more compassionate!

"Now, I have to cut your head as a totem that your wrongdoings were finally over!" Yi Tianyun said as he held his sword above the Netherworld Emperor's neck! As Yi Tianyun swung his sword down, a light blue colour suddenly blinded his eyes and Yi Tianyun was suddenly pushed back by a Netherworld Dragon that suddenly appeared from within the Netherworld Emperor's Body!

Yi Tianyun's body was covered by the Netherworld's Fire, but he immediately burned it with his Immortal Fire. But Yi Tianyun still felt the burn during the Netherworld's Fire was sticking to him!

"What is this power? Who are you?" Yi Tianyun said as he felt a new power circulating in the room. This new power was different than Netherworld Emperor's power. This one was much more powerful!

"I didn't expect for the Netherworld Emperor would die like this! But it happens and now, I have to possess this body!" Netherworld Emperor said, but Yi Tianyun noticed that the Netherworld Emperor's eyes were dark, like a body without its soul!

The blue light that blinded Yi Tianyun earlier started to cover the wound on Netherworld Emperor's chest that was a result of Yi Tianyun's attack earlier. The blue light was healing the wound up at an amazing speed!

Yi Tianyun began to wonder if Netherworld Emperor hid another soul on his body so that if he died, he could come back to life again once again? Yi Tianyun quickly used the Appraisal Eye to check on this reborn Netherworld Emperor, but all he could see was the status of the former Netherworld Emperor. Still, Yi Tianyun was certain that this reborn Netherworld Emperor was more powerful than the status that he was currently seeing.

"What is happening right now!" Yi Tianyun said to himself as he was confused about the current situation. Yi Tianyun immediately rushed forward and tried to slash the Netherworld Emperor once more! But the Netherworld Emperor immediately reacted to Yi Tianyun's attack. A thick Dragon Scale immediately covered Netherworld Emperor's arm, and he used it to block Yi Tianyun's Heavenly Dragon Divine Sword!

Netherworld Emperor was still being pushed back from the impact of Yi Tianyun's attack. However no injuries could be seen from it, clearly different from the previous Netherworld Emperor that Yi Tianyun easily overpowered! But even so, Yi Tianyun noticed that the Dragon Scale from Netherworld Emperor's arm was shattered by his attack, meaning that Yi Tianyun's attack was better than Netherworld Emperor's defence!

"Die already, old man!" Yi Tianyun said as he put more strength to his arm power and attacked the Netherworld Emperor once more!

However, Netherworld Emperor quickly reached for Yi Tianyun's Heavenly Dragon Divine Sword's blade and held it down so that Yi Tianyun couldn't attack! Yi Tianyun was surprised that his 200 million combat power could be held down by the Netherworld Emperor like this!

After Yi Tianyun shook the blades from Netherworld Emperor's hold, he noticed that Netherworld Emperor's hand that held the swords was bleeding. However, the Netherworld Emperor was still showing no expression at all! The blue light appeared once again, and this time, it healed the arm that was injured while holding Yi Tianyun's blade!

"Even after I finally take over his body completely, it appears that he was still weak! I have carefully trained him, but he was still losing against a teenager! Forget it! at least he was already at Spirit King Stage, but it's all thanks to you, isn't it?" Netherworld Emperor smiled at Yi Tianyun, and his expression was sincere, but his eyes were utterly evil!

Yi Tianyun's appraisal Eye was finally showing some change!

Unknown Soul: 3rd Layer Spirit King Stage, Powerful soul can occupy any human bodies as its own!

Martial Art: Netherworld Divine Palm, Netherworld Divine Art, Netherworld Burning Body Secret Art, Dark Dragon Secret Art!

Weakness: Extremely Hot Fire!

Combat Power: 250.000.000 Points. (Netherworld Great Array's Effect)

Drops on kill: Netherworld Divine Palm, Netherworld Divine Art, Dark Dragon Possession, Netherworld Treasure Pearl (Rare Lower Grade Divine Tool).

……………………

Netherworld Treasure Pearl: Lower Grade Divine Tool that can control the Netherworld's Fire and allowed the user to store a large amount of Netherworld's fire for later use. Perfect Divine Tool for Netherworld's Fire Cultivation technique! This Pearl can also store the soul of the user, so that the user can live as long as the Pearl still exists!

……………………

The Netherworld Emperor was possessed by some unknown soul, and he had the Netherworld Treasure Pearl all along! This Pearl was the same category as Heavenly Dragon Secret Treasure, but clearly, the effect of the Heavenly Dragon Secret Treasure was far above this Netherworld Treasure Pearl!

Yi Tianyun noticed that the soul that was controlling the Netherworld Emperor's body was cheerfully gathering the Netherworld's Fire around his body. He also summoned a Dark Dragon phantom shadow behind him that looked even more powerful than any Dark Dragon that he has fought until now!

Chapter 444

Yi Tianyun never expected to find a situation where his opponent held another soul in their body, and worst of all, the unknown soul was far more powerful than the original enemy, and he also held a strong Divine Tool in his possession! Furthermore, this unknown soul also benefited by the Netherworld Great Array, and now its Combat Power has reached 250 million power! Yi Tianyun realized that he was way weaker than his opponent now!

Yi Tianyun gritted his teeth after knowing that the real boss of the Netherworld Empire was none other than this Unknown soul, while the Netherworld Emperor was only a host! Nobody ever had this kind of information regarding this unknown soul, Yi Tianyun would even bet that the real Netherworld Emperor didn't even know this unknown soul would take his body!

"Who are you?" Yi Tianyun asked as he stared at the possessed Netherworld Emperor!

"Who am I? hmm, you are qualified to know my name! my name is Ming Chen, a name that probably no one in this area ever known, I appreciate your power so much as you able to draw power from this weak Netherworld Emperor. I will make a deal with you, as long as you vowed to serve under me, I will train you and invite you to join my Divine Nation!" Ming Chen said proudly.

"Ming Chen? What is your faction? Why would I join your faction without knowing whether your faction is worth joining or not!" Yi Tianyun said indifferently.

"Does Divine Nation sound like a joke to you? This is just a small fragment of my soul, and I want to build many more segments of it to increase the influence of the Divine Nation that I am currently in!" Ming Chen said proudly.

"Hmmm, a Divine Nation huh?" Yi Tianyun said as he squinted his eyes to look at the Ming Chen. This whole time, he only believed that a Divine Nation was only a part of a legend, no one really knew any Divine Nation as there was no one claiming that they were a part of a Divine Nation nor did anyone know any area that belonged to any Divine Nation!

Divine Nation was strong! Yi Tianyun knew that much as the Divine Nation was a 5th Grade faction, it meant that the Divine Nation was far more powerful than an Empire that was a 4th Grade Faction!

"Why did you choose to separate your soul and take the initiative to occupy this side of the world?" Yi Tianyun asked the question that he needed answer the most!

"You don't need to know my reason for doing things! Either you obey me or die! So, what is your choice?" Ming Chen asked Yi Tianyun annoyedly.

"I choose not to obey you, but you are the one who's going to die!" Yi Tianyun said confidently as he activated the Dragon god Bloodline and the Crazy Damage Mode! After he activated both of these abilities, his combat power reached 240 million, just a little bit short from Ming Chen!

Yi Tianyun immediately burned his blood essence, and once again, his combat power rose significantly to 265 million points! Yi Tianyun immediately rushed towards Ming Chen and used his Heavenly Dragon Slash once more!

Yi Tianyun's eyes were filled with determination as he used everything; he must defeat Ming Chen in one blow!

"Wow, you are the first ever to defy me, someone who belonged in a Divine Nation! This means that your only way is death!" Ming Chen said as he defended against Yi Tianyun's attack with a long sword that was far different from the previous sword that the real Netherworld Emperor used. This sword was black with a hint of Netherworld's Fire in it, that meant this sword was the Netherworld Divine sword!

"Dark Dragon Possession!" Ming Chen said annoyedly. He felt that Yi Tianyun's power was far more powerful than before, and he had to get serious now! Dark Dragon Phantom Shadow immediately appeared near Ming Chen while his body was immediately covered by a thick dragon scale! The most horrible thing that happened was Ming Chen's head has turned into that of a dragon!

His combat power also spiked to 270 million points! A little bit higher than Yi Tianyun! Yi Tianyun began to wonder, was this the extent of a 3rd Layer Spirit King Stage Cultivator's power? Yi Tianyun became excited as he also thought how powerful he would become as soon as he attained that level!

Ming Chen immediately rushed forward, and Yi Tianyun immediately held him down as he blocked Ming Chen's attack with his Heavenly Dragon Divine Sword! The Dark Dragon Phantom Shadow also collided with the Heavenly Dragon Phantom Shadow that Yi Tianyun summoned as he swung the Heavenly Dragon Divine Sword!

An earthquake suddenly broke out with them both as the centre of it all! Ming Chen's attack was not over just yet! He kept slashing, while Yi Tianyun gritted his teeth and kept blocking Ming Chen's attack!

"Hmmm, you've already burned your essence, no? let us see how long you will be able to keep that up!" Ming Chen said as he sneered at Yi Tianyun.

"At least longer than you would be able to keep up!" Yi Tianyun said as he pushed Ming Chen back! Yi Tianyun wasn't afraid of depleting his Blood Essence as he had the Enhanced Blood Jade that he got earlier.

After a while, Ming Chen's combat power suddenly dropped to around 200 million point, far behind Yi Tianyun's combat power! Yi Tianyun immediately realised that the Old Ancestor of Spirit Race has successfully destroyed the Netherworld Great Array upstairs! Yi Tianyun smirked as he remembered that he wasn't fighting alone all this time, people that he trusted and trusted him back was also fighting with him!

Chapter 445

After the Netherworld Great Array was destroyed, the Netherworld's fire in the room that Yi Tianyun was currently in could no longer gather in one spot like before. Ming Chen's combat power was dropping to a level that was much weaker than Yi Tianyun!

"My Netherworld Great Array! What have you done?" Ming Chen said with so much venom. Yi Tianyun didn't really care about what Ming Chen was about to say, and he rushed forward once again, ready to strike Ming Chen with his killing blow!

Ming Chen quickly dodged and agilely leaped backward to make some distance between him and Yi Tianyun. After all, Ming Chen was still at 3rd?Layer Spirit King stage! But it didn't matter right now, even though Ming Chen was fast, Yi Tianyun was much faster!

Yi Tianyun chased after Ming Chen and quickly lopped off Ming Chen's left arm that he used to defend against Yi Tianyun's slash!

"Damn it! damn you!" Ming Chen said as his face gradually paled as he was losing blood! Even though he was possessing the Netherworld Emperor's body, he still could feel the pain or the injuries that the body sustained!

Ming Chen immediately used the Netherworld Treasure Pearl in his head to cure his wound. The blue light from earlier appeared once again, and his bleeding stopped, but the blue light couldn't regenerate his missing arm straight away!

"Don't relax just yet!" Yi Tianyun said as he used his after-Image technique, and three clones of himself appeared! These clones were weaker than him as it only had a third of his combat power, but Yi Tianyun only used this technique to block Ming Chen's escape route, not to kill him!

"Don't you underestimate me more than this, Kid!" Ming Chen said as he roared, and the Netherworld Treasure Pearl in his head flashed wildly! Then, a Netherworld's Fire flooded the place as it burst out from inside the Netherworld Treasure Pearl!

The three clones that Yi Tianyun summoned earlier were immediately burned to ashes as it didn't have as high resistance as the real Yi Tianyun!

Yi Tianyun himself was burned a little bit from the fire that spread so quickly! He immediately knew that this Netherworld's Fire was more powerful than the Netherworld's Fire that he came in contact with earlier!

Yi Tianyun immediately took out a bunch of Medicinal Pills and swallowed them to regenerate the burns he sustained from the Netherworld's Fire. Yi Tianyun looked at the Netherworld's Fire with his appraisal eye to quickly assess the danger that he was in, and saw that this Netherworld's Fire was indeed stronger than the previous one. This one was a High-Grade Earth Level Netherworld's Fire while the previous one was a Low-Grade Earth level Netherworld's Fire!

No wonder why the Netherworld's Fire this time could burn Yi Tianyun while the previous one was only a tickle! Yi Tianyun knew that the Netherworld's Fire this time was still not as good as his Immortal Fire, but the amount of Netherworld's Fire is too much for the Immortal Fire to burn!

"I didn't expect you would have this kind of power! Dared to push me to my limit! If my deity is here, he will crush you to pieces with one finger, but as of now, can you become stronger than my Netherworld Treasure Pearl?" Ming Chen said coldly.

Netherworld Treasure Pearl floated in front of Ming Chen while constantly releasing Netherworld's Fire. Yi Tianyun knew that if the Netherworld's Fire was still flooding the place, it would be difficult to kill Ming Chen!

Yi Tianyun quickly adjusted his spiritual power as he knows he had to prepare his best to beat Ming Chen.

"You don't have anything to say? Oh well, your life would end soon anyway! And so, does the life of all your companion!" Ming Chen said coldly.

As he finished talking, three Dark Dragons appeared behind Ming Chen. This Dark Dragon was much different from the other Dark Dragons that Yi Tianyun has encountered, this Dark Dragon was full of the Netherworld's Fire that the Netherworld Treasure Pearl released, making it far stronger!

Yi Tianyun immediately knew that even if he used the Heavens Swallowing Secret Art, he wouldn't be able to absorb all the Netherworld's Fire that the Dark Dragon would throw at him. After all, The Netherworld's Fire this time was already out of his level!

So, Yi Tianyun stood on the spot, motionless, waiting for the Dark Dragon to make it move. For Ming Chen, it looked like Yi Tianyun has given up already!

"Are you giving up? Did you finally understand that your struggle is futile?" Ming Chen said while smirking victoriously.

But, as Ming Chen ordered the Dark Dragon to attack Yi Tianyun, Yi Tianyun disappeared from the spot, making the Dark Dragon lost its target! "What? Where did he go?" Ming Chen said with a surprised look on his face, but immediately he felt danger from his back. Ming Chen immediately ran forward to escape whatever it was that appeared on his back, but he was already too late!

A sword slashed his waist from the back, and the Sword Wave successfully split his body in two!

Chapter 446

Heavenly Dragon Divine Sword cut open Ming Chen's body! The extremely sharp sword cut through the Netherworld's Fire that shrouded Ming Chen's body like butter. Ming Chen's body wasn't spared either. His body was cut into two, leaving his upper body spurting an extreme amount of blood!

Ming Chen knew that this Netherworld Emperor's body was done for. There was nothing he could do to save it as it was already impossible to move!

"Let's die together!" Ming Chen said as he smiled evilly while the Dark Dragon roared, and the Netherworld Treasure Pearl spewed a lot more Netherworld's fire! Yi Tianyun immediately realised that

Ming Chen was releasing everything he could to bombard the place with an ungodly amount of Netherworld's Fire!

Yi Tianyun didn't have anywhere to escape now as his teleport ability was still in cooldown! Yi Tianyun has firstly thought to use Teleport for escaping if something dangerous happened, but he used it to attack Ming Chen instead! Now Yi Tianyun realized that his decision was a mistake!

'DING!'

'Situation where player [Yi Tianyun] currently stands is dangerous, advised to escape immediately!'

The system suddenly notified to warn Yi Tianyun from the danger he was currently in. Yi Tianyun realised that if even the system warned him, then it meant that he could die here!

"Shit! I didn't want to use this, but it seems I have no other choice!" Yi Tianyun said as he revealed a Divine Rune that was carved on his arms. That was the World Divine Rune that Ye Qingxuan gave him before, using this Divine Rune has the same side effect as burning blood essence, if not greater! He knew it after looking at the side effect that Ye Qingxuan felt after using this World Divine Rune herself!

But the current situation was too urgent to think about the side effect! He could die here if he didn't try his best to escape! He still had the extra life on his inventory, but he didn't want to use it now! After all, even if he used the extra life, the amount of fire after the explosion would kill him once more!

Yi Tianyun quickly activated the World Divine Rune with his blood essence, the combination of Blood Essence and World Divine Rune exploded his Combat Power immensely, reaching 315 million! This was only from the effect of the World Divine Rune and his Crazy Mode, not counting the bonus that he may get from weapons, ability, and other stuff!

Yi Tianyun then activated his Dragon God Bloodline and Heavenly Dragon Set, exploding his Combat Power further to 360 million points! But Yi Tianyun wasn't finished just yet! He clasped his hands around the Heavenly Dragon Divine Sword, and a new Phantom Shadow slowly emerged, Yi Tianyun wanted to use his awakening power!

Every cultivator who successfully broke through to Void Spirit Stage could awaken their latent power, and that latent power was unique for each individual!

The Phantom Shadow that appeared behind Yi Tianyun was his own phantom shadow! It copied Yi Tianyun's every move while also having Yi Tianyun's combat power!

"One Sword Crushes Heaven's Door!" Yi Tianyun shouted as he slammed his sword forward to create a sword wave, the Phantom Shadow also copied Yi Tianyun move and did the same thing, creating two sword waves that spiralled all around the room, cutting off the Netherworld's fire that shrouded the room!

Yi Tianyun's combat power reached a new terrifying height at 400 million points!

The sword waves destroyed the Dark Dragon and neutralized the Netherworld's Fire! Ming Chen looked at the scene with horror on his eyes. He finally realised that there was no chance for him ever winning against the teenager, whether he used everything from the beginning or not!

"How can this be? Who are you!" Ming Chen asked with horror still clear on his eyes. Yi Tianyun just stood there while waiting for the swords wave to reach Ming Chen. He didn't want to talk to the dead! After the sword waves ravaged the Netherworld Emperor's body, it spun towards the wall and hit it harshly.

The Heavenly Clouds People at the top felt the violent earthquake that happened below their legs. Shi Xueyun and the others became worried about Yi Tianyun's safety and thus hoped that nothing happened to Yi Tianyun!

Many people's eyes were full of worries while the other was still cleaning the Imperial City from any trace of Netherworld Empire!

Shi Xueyun couldn't help it anymore and turned her attention towards the Old Ancestor of the Spirit Race.

"Old Ancestor …!" Shi Xueyun said as she didn't know how to ask Old Ancestor's help to check on Yi Tianyun since that may endanger the Old Ancestor's life too.

"It's okay. I get it if you couldn't ask me directly. I, too, want to check on the Mansion Lord's situation. But, if I don't come back soon, please evacuate the place!" Old Ancestor said with a smile on his face.

Chapter 447

Old Ancestor of the Spirit Race had a cultivation base at Void Spirit Stage, and that was why he was the only one who could check on Yi Tianyun's situation safely! But as the Old Ancestor was about to go down, Ren Long immediately said that he would go as well!

Old Ancestor of the Spirit Race wanted to decline at first, but after seeing the determination on Ren Long's face, he knew that he didn't have any choice but to bring him along.

"Old Ancestor! We also want to check on the Mansion Lord with you!" a disciple shouted as he saw that Ren Long could also go down with the Old Ancestor.

"No! I can't guarantee your safety down there! Ren Long is different. He could protect himself if danger still lurks down there, as for the others, you will only become a burden!" Old Ancestor said solemnly.

The others realised that what the Old Ancestor said was true, Yi Tianyun's enemy right now was the Netherworld Emperor. Anything could happen down there, and if in any case, the Mansion Lord lost, it meant that the Netherworld Emperor could strike them down when he saw them entering the room that he was currently in!

This also applied to Shi Xueyun, she also wanted to follow Old Ancestor of the Spirit Race down there, but she knew that her cultivation was too low to enter the place! She felt that her status as the Sect Lord was for nothing, as she couldn't even check on Yi Tianyun's status! But even so, she didn't say anything to the Old Ancestor as she was afraid of becoming a burden.

As everyone has calmed down after hearing Spirit Race Old Ancestor's word, Old Ancestor and Ren Long nodded at each other and descended into where Yi Tianyun headed earlier. They noticed that the path was lit up by the Netherworld's Fire, making it hard for them both! Although the Netherworld Great Array has been destroyed, there was still a lot of Netherworld's Fire at the place!

"We've only descended for a few steps, but it's already hard to go on!" Old Ancestor said with a sad tone.

"Yeah, these Netherworld's Fire is surely amazing. I believe none below the Core Transformation Stage can enter this place!" Ren Long said solemnly.

They walked down, but as they were close to the bottom, another explosion happened at the bottom, where Yi Tianyun was supposed to be. Both clenched their fist and steeled their determination, for they need to check and help Yi Tianyun if needed!

After the Explosion subsided, both continued down the path, while doing so, they noticed that the Netherworld's Fire has become much more violent and stronger! As they reached the bottom, they looked inside the room and saw Yi Tianyun's figure standing on the side, holding a long sword while looking intently at the front! Ren Long noticed that Yi Tianyun's body was burned and sustained a lot of small injuries. But overall, Ren Long couldn't see any life-threatening condition!

Both couldn't find any more figure beside Yi Tianyun, but they saw that there was blood splattered everywhere, while many pieces of human body scattered on the ground, making the room looked disgusting!

"Spirit King!" Spirit Race Old Ancestor shouted!

But as soon as they was about to walk towards Yi Tianyun, Yi Tianyun stopped them both.

"Don't come any closer! The Netherworld's Fire around me would hurt you badly! I am okay, just let me finish it here first!" Yi Tianyun said solemnly.

At the same time, a system notification sound was heard by Yi Tianyun.

'DING'

'Successfully killed the Netherworld Great Emperor!'

'Reward: 90.000.000 Exp, 10.000 Cps, 10.000 Sps, Netherworld Divine Art, Netherworld Divine Palm, Netherworld Burning Body Secret Art. Dark Dragon Secret Technique, Netherworld Soul (Rare),

Netherworld Divine Sword (High-Grade Sacred Tool), Netherworld Armour (High-Grade Sacred Tool), Netherworld Boots (High-Grade Sacred Tool), Netherworld's Fire (Middle-Grade Earth Level Fire).'

'DING'

'Congratulation on killing an Elite Enemy!'

'Reward: 100.000.000 Exp, 100.000 Cps, 10.000 Sps, 1 Super Enhanced Lottery Roulette.'

The reward was amazing, but Yi Tianyun felt a little bit disappointed that the effect of the Exp Card has already expired. Otherwise, he could've levelled up once more here for sure! But Yi Tianyun was a little bit curious as he didn't receive any reward from killing Ming Chen's soul! He tried to locate the Netherworld Treasure Pearl, but instead, he saw a flickering shadow crawling towards a Netherworld's Fire that he suspected was holding the Netherworld Treasure Pearl!

Yi Tianyun tried to look at it with his Appraisal Eye, and he smirked after knowing what it was.

Ming Chen's soul: Cultivation Base 8th Layer Core Transformation Stage.

Yi Tianyun has suspected that Ming Chen wasn't dead yet, and so he rushed towards the shadow and trapped him inside his palm.

"Hmm, where do you think you are going!" Yi Tianyun said coldly while reaching towards the Netherworld Treasure Pearl with his other hand.

"Let me go! Let's make a deal! Let me go, and I would make sure that my deity doesn't attack your faction!" Ming Chen said nervously.

"Let you go? Did you ever think I would believe your words?" Yi Tianyun said indifferently.

"You will only return and bring more people that's probably a lot stronger than you and started wreaking havoc in my place! A word from a criminal could never be trusted!" Yi Tianyun said as he squeezed Ming Chen's soul!

"I swear in my soul that I will bring many people here to crush you!" Ming Chen said as he was squeezed to death!

"I will wait for it!" Yi Tianyun said indifferently.

Chapter 448

'DING!'

'Successfully killed Ming Chen's Soul!'

'Reward: 120.000.000 Exp, 12.000 Cps, 15.000 Sps, Netherworld Divine Art, Netherworld Divine Palm, Netherworld Burning Body Secret Art, Dark Dragon Secret Art, Ghost World Treasure Map (Rare), Ghost World Secret Order (Rare), Ghost World Star Plate (Rare).'

A lot of new items appeared as Yi Tianyun's reward as soon as he killed Ming Chen's soul, from the name of the item Yi Tianyun thought that it might be more important than any equipment would! But it was still a shame that Ming Chen didn't drop any Divine Treasure as he died!

"This is why you need to give up as soon as you saw me coming!" Yi Tianyun said as he smirked at the Netherworld's fire in front of him. Yi Tianyun knew that he didn't have any means to prove Ming Chen's word that said he would bring a Divine Nation to attack Yi Tianyun, but he knew that he had to prepare anyway as he didn't want to underestimate his enemy.

Yi Tianyun knew that he needed more power to oppose the Divine Nation in the future, or he would be destroyed! But for sure, he didn't regret his decision to kill Ming Chen, for he knew Ming Chen would attack him again anyway.

After that, Yi Tianyun heard a clicking sound on the corner of the room and found that the Netherworld Treasure Pearl fell on the corner. He walked up to the Netherworld Treasure Pearl and took it from the ground. Because of Ming Chen's death, this Netherworld Treasure Pearl should have no master!

Yi Tianyun immediately dripped a drop of his blood to the pearl, the Netherworld Treasure Pearl immediately absorbed Yi Tianyun's blood, and the blood rippled around the pearl's surface. Ren Long and the Spirit Race Old Ancestor just observed Yi Tianyun from the door as they knew that the Netherworld's fire at the room that Yi Tianyun was currently in could easily burn them to ashes!

But both were shocked as they heard Yi Tianyun shouted 'Gather!' and suddenly the Netherworld's Fire in the room surrounded Yi Tianyun and covered his whole body! Yi Tianyun knew that this was the process for the Divine Treasure to recognize him as its master, so he stayed calm. After a while, the Netherworld's Fire immediately returned inside the Netherworld Treasure Pearl, leaving the room with many scorch marks on the wall.

Yi Tianyun was a little bit surprised as it seemed the Netherworld Treasure Pearl rejected Yi Tianyun as its new master! But Yi Tianyun realised that he must have Netherworld's Fire on his arsenal first before he could become the new master for the Netherworld Treasure Pearl!

He checked his inventory and immediately activated the Netherworld's Fire that he got from killing the Netherworld Emperor earlier, and he immediately shifted his focus back to the pearl!

"Come!" Yi Tianyun said as he reactivated the Netherworld Treasure Pearl. The Netherworld's Fire inside the pearl immediately burst out and covered Yi Tianyun's body like before. This time was a success! Yi Tianyun could feel the Divine Treasure bonding with the Netherworld's Fire in his body and that the Netherworld Treasure Pearl itself was shining in light blue colour.

"Good, now I have my own Divine Treasure!" Yi Tianyun as he smirked in accomplishment. Now he could control any Netherworld's Fire in this world! Yi Tianyun immediately turned his attention towards the remaining Netherworld's Fire on the entrance wall and tested the Divine Treasure's power right away! He reached his hands forward and shouted, 'Come here!' and the Netherworld's Fire on the wall immediately gathered on his hands!

Yi Tianyun smirked and immediately put the Netherworld's Fire inside the Netherworld Treasure Pearl! This pearl could produce its own Netherworld's Fire, but it was in a small amount, it was better to gather and acquire the Netherworld's Fire on the outside world to charge the Netherworld's Fire and thus increased the Divine Treasure's ability!

But the thing was Netherworld's Fire was rare, that was why not many people have their own Heavenly Flames! Yi Tianyun then successfully absorbed all the lingering Netherworld's Fire inside the Netherworld Treasure Pearl, and then he walked towards Ren Long and the Old Ancestor.

"This is great! I got one more fire to use in the future! This fight has a nice ending!" Yi Tianyun said as he smirked happily. After all, Netherworld's Fire wasn't evil in nature. It was the same as any other Heavenly Flames, the only thing that was evil was the people that used it!

"Spirit King, how could you absorb that many Netherworld's Fire?" Old Ancestor asked curiously.

"This is thanks to a divine tool that I just got from killing the Netherworld Emperor earlier! Now I can control the Netherworld's Fire that I can see!" Yi Tianyun said to Old Ancestor honestly, he trusted the people around him. Thus he didn't need to lie about his achievement.

"You really killed the Netherworld Emperor? You even procure his Divine Tools! You are amazing, Spirit King!" Old Ancestor said excitedly. "Let's get out first, I believe the people upstairs were worried about your safety!" Old Ancestor said as he smiled toward Yi Tianyun.

"You are truly amazing, Brother Yi! Heavenly Dragon Empire was very lucky to have a prince as powerful as you are! Now, as soon as we get out from here, I will immediately order the soldiers of Heavenly Dragon Empire to wipe the Netherworld Empire's influence on this continent! There would be no more Netherworld's Empire after this day!" Ren Long said solemnly.

"Yes, I agree with you, brother! there is no more Netherworld's Empire after this day!" Yi Tianyun said as he smiled happily towards Ren Long!

Chapter 449

Ren Long and the Old Ancestor walked up the stairs cheerfully as they thought that the battle was over, but Yi Tianyun immediately looked solemn and shook his head.

"What's wrong, Spirit King?" Old Ancestor asked as he saw Yi Tianyun's solemn look.

"Things ain't over yet! The Netherworld's Empire sure is done for, but I am afraid we got ourselves a new enemy! the Netherworld Empire has allied themselves with a Divine Nation messenger, and I am afraid, the Divine Nation would come after us soon!" Yi Tianyun said solemnly.

"A Divine Nation?" Ren Long and the Old Ancestor was shocked, they knew that the Divine Nation was the next step after an Empire, but they've never heard of the Divine Nation faction, so they thought the Divine Nation only existed on fairy tales and myths.

If it really existed, then it meant that the faction would be swarmed with so many Void Spirit cultivators as it was said that Divine Nation place was a paradise for cultivators on earth! They had abundant resources and so many Divine Tools to help them grow!

"I know that this is a serious matter, so with that thought, we have to let the others know what we're going to deal with in the future! But to avoid causing chaos on our rank, we have to tell the Elder rank and above first!" Yi Tianyun said solemnly.

"I agree with Spirit King's decision. We have to keep the disciple in the dark for the time being." Old Ancestor said while nodding his head.

"But, let's go up from now!" Yi Tianyun said as he made his way upstairs. But as he walked upstairs, Yi Tianyun looked back for a while, and he knew that he would be back here soon to empower the Netherworld Treasure Pearl further! After all, the hole in the centre of the room earlier was a natural Netherworld's Fire reservoir.

As soon as Yi Tianyun reached the throne room, everybody immediately shouted and cheered for Yi Tianyun as they felt relieved that Yi Tianyun was safe and sound! But that was not all! They also knew that Yi Tianyun must have won against the Netherworld Emperor. Otherwise, he wouldn't be coming out this fast!

"I knew that you would return safely!" Shi Xueyun said as she hugged Yi Tianyun and smiled at him warmly.

Yi Tianyun also smiled at her, and everyone who loyally waited for him to return.

Things soon came to an end, and the Heavenly Clouds Mansion disciple and Heaven Dragon Empire's soldier cooperated to clean up the mess in Netherworld's Imperial City by burning all the corpses. Yi Tianyun then tasked the Spirit Sect to seek and destroy the remnant of the Netherworld Empire that may still exist in the Netherworld Continent to reduce Heavenly Dragon Empire's workload.

Yi Tianyun also provided help for the Spirit Sect by sending the Black Dragon and the Red Dragon along to help them if, by any chance, they encountered a difficult opponent. But before all that, Yi Tianyun gathered the Elder Ranks and above to talk about the imminent problem. The result of that gathering was positive as it was true that everyone felt a little afraid as they weren't prepared to fight against an opponent that they thought was just a myth!

"How can we fight against a Divine Nation, if it wasn't for Mansion Lord's power, we don't even stand a chance against Netherworld Empire!" an Elder said nervously.

"This isn't the case! We still didn't know when the Divine Nation would attack, they may not even come! But one thing is clear. We still must prepare for their attack, whether they truly come or not! And don't worry too much, from the looks of things, it is impossible for Divine Nation to attack on a large scale as it would hurt their pride! I believe we would see the incoming of a small-scale expert from them!" Yi Tianyun said, trying to keep everyone calm.

Yi Tianyun checked everyone's expression, and he noticed that everyone wasn't thoroughly convinced and so he reassured everyone once again.

"I know that we have no chance against them now, but I also know that if we are given enough time, we would be stronger than any Divine Nation! We defeated the Netherworld Empire that everyone said was undefeatable! We could do anything we want if we got the time to prepare for it!" Yi Tianyun said wholeheartedly.

Yi Tianyun's word was reassuring! The people that Yi Tianyun gathered began to ponder and they felt that Yi Tianyun's word was indeed correct, they have achieved many feats together that was almost impossible in ordinary cultivator's eyes. In fact, they realised that their progression through their cultivation was faster than normal.

"Mansion Lord is right! We must be confident in our self! We have our Mansion Lord that would help us get through the enemy! We have to try and brave our self for the future is yet to come!" an elder said confidently.

Everyone began to nod their head as they also thought the same thing as the Elder. Their feelings began to unite as their trust in Yi Tianyun was unwavering, so they will support Yi Tianyun's every decision from now on.

"Don't worry, no matter how powerful the enemy is, we will be able to overcome anything!" Yi Tianyun said confidently.

Everyone began to cheer and chant Yi Tianyun's name as they felt the powerful word from Yi Tianyun.

After making it clear, Yi Tianyun let them continue with their task to eliminate the rest of the Netherworld Empire. Everyone quickly left to deal with their own task while Yi Tianyun was left behind with Shi Xueyun.

"Aunt, I am sorry, it seems troubles never leave me alone." Yi Tianyun said shyly.

"That is okay. It only shows that you are not a person that could be dictated by anyone, making you more trustworthy and more capable of leading us to glory. But you must know that whatever path you take, I will be there to support you always!" Shi Xueyun said warmly with confidence on her face.

Chapter 450

Shi Xueyun's expression suddenly became sad as she remembered that she wasn't that much of a help. Yi Tianyun saw Shi Xueyun's expression changed and thus immediately embraced her.

"What are you thinking now, Aunt? Why are you sad?" Yi Tianyun said endearingly.

"Tianyun, I feel like I couldn't keep up with you anymore. When you go down there to fight against the Netherworld Emperor, I didn't even have any qualifications to check your safety! You know that all I want is to be close to you!" Shi Xueyun said, still with a sad expression.

Yi Tianyun clasped her hands and looked at her in the eyes.

"Don't you remember that as every time I came back, you are the first one that I tried to find?" Yi Tianyun smiled faintly. He knew that he could neither help Shi Xueyun that much about her feeling; neither could he help her with her cultivation.

But he knew that he could give her all medicinal pills that she needed, or the martial arts that she took an interest in, or any weapons that she could use to perfection.

Shi Xueyun's cultivation was already good enough, but she still had a hard time breaking through to the advanced level.

Shi Xueyun was a little bit startled as she remembered that Yi Tianyun always went straight to find her as soon as he returned to the sect.

"There are only a select few who could work side by side with me, but you are the only person that I would come back to, the person I could say I am home to!" Yi Tianyun said softly with a warm smile.

Shi Xueyun then leaned on Yi Tianyun's shoulder as she didn't want to talk about it anymore, and she just wanted to be with Yi Tianyun for a while. Yi Tianyun let Shi Xueyun lean on him; he even made himself float to support their weight.

Yi Tianyun didn't know how to appease Shi Xueyun, but he knew that Shi Xueyun wouldn't give up cultivating, and she would one day stand beside Yi Tianyun equally! But for now, she didn't mind with this peaceful day either.

That also applied to Yi Yuwei and Jiu Lingyun! But as for now, they would help around the mansion by managing the Heavenly Clouds Mansion. Yi Tianyun didn't need to push them to cultivate as he knew that they would do it themselves!

After that, Yi Tianyun left to find a thing that he could do while Shi Xueyun was busy with various stuff that she had to take care of inside the Heavenly Jade Sect.

Yi Tianyun wanted to help with eliminating the rest of the Netherworld Empire, but he couldn't let anyone think that he didn't trust them, and so he only appeared when the enemy was a little bit tough to deal with.

But he also made sure that anyone who has surrendered themselves would be spared! Those who surrendered wouldn't become a slave either, as Yi Tianyun would simply let them leave the Netherworld Continent.

Yi Tianyun didn't want to be cruel like Netherworld Empire once was. He knew that those people didn't have any choice as they lived under the Netherworld Empire's influences, so Yi Tianyun only gave them the option to find another life somewhere else.

Finally, after a few weeks, only one city was left that was still under the influences of the Netherworld Empire, this city also housed the elite general and minister of the Netherworld Empire, and they were not willing to surrender!

"We will never surrender! If you want to occupy this city, you must get it over our dead body!" the minister shouted from inside the city wall determinedly.

The rest of the Netherworld Empire's people inside also shouted the same thing from inside, successfully annoying Yi Tianyun to no end.

"It seems you are determined to have this final fight, aren't you? Did you know that there's no expert left who would save you? The Netherworld Emperor and the Imperial Preceptor are all dead!" Yi Tianyun said indifferently.

Yi Tianyun's word silenced everyone inside. They've already known that the Netherworld Empire has fallen. But as they didn't saw the death of the Netherworld Emperor themselves, they didn't believe the news that has been spreading around the world!

"Since you are still so stubborn about fighting my army, then I will give it to you now!" Yi Tianyun said as he reached his hands forward as a sign to push forward.

The Red Dragon and the Black Dragon immediately rushed towards the City Gate and busted it while also spewing hot fire to the cultivators inside the city.

These two dragons have already broken through to Void Spirit Stage. Thus, if the enemy didn't have anyone on the same level as Imperial Preceptor, these two dragons would be unstoppable!

After a while, the city was in flames as the dragons burned every house that the enemy cultivators tried to run into. But the sound that Yi Tianyun was waiting for finally came!

"We are wrong! Please, we surrender!" The cultivator from inside the city shouted nervously.

The enemy's morale is already dropped to the ground, Yi Tianyun knew that those people would never fight against him anymore, but he still must give some sort of punishment to these people.

"Okay, I would give you one more chance, but if you make a wrong choice, you will die immediately." Yi Tianyun said confidently.

This was Yi Tianyun's way of showing mercy and salvation. It could be said that he didn't want to go on a path like the atrocities that the Netherworld Empire has done this whole time.
