

Leveling Up And Becoming Undefeatable

Chapter 16 – An A-Ranked Quest

Chapter 16 – An A-Ranked Quest

Late at night, Luo Jianshan's bedroom.

Luo Jianshan had his hands clasped around his back while he looked out of the window at the darkness with a slight frown on his face.

He was very annoyed at what had happened today at the martial training grounds, especially when Luo Tian kept repeating "Acting Patriarch." This was like a sharp thorn that kept stabbing in his heart, making him have a hard time enduring.

He allowed Luo Tian to keep living all these years because he needed time to take over the Luo family, especially when it came to restricting the three Elders that were against him.

Even though he still hasn't completely grasped control of the entire Luo family, he has managed to control ? of the estates and properties of the Luo family.

He was originally planning on using another year to get the remaining ? of the estates, but he couldn't endure it anymore.

"Lin Er, in addition of gaining first place for this hunting contest, you have another task to accomplish." Luo Jianshan lightly said.

Luo Lin lightly smiled, "I know father, I'll get rid of that trash!"

Luo Lin had just heard what happened at the martial training grounds which annoyed the crap out of him. A mere piece of trash with a crippled dantian dared to be so arrogant?

If I was there, I would have viciously stomped Luo Tian to death!

Luo Jianshan's eyebrows twitched and reminded: "I had secretly observed Luo Tian with my profound energy and he should be at the Profound Pupil 5th rank. He must be gotten rid of during the hunting contest but it's best that you don't personally do it. You are the future young master of the Luo family so if you personally made a move, it will affect your image and my image. Do you understand?"

Being accused of assassinating the young master would be a huge deal. Since Luo Jianshan wanted to assume the title of the Luo family's Patriarch, he couldn't leave behind any evidence for people to use against him.

"I can't personally kill him?"

Luo Lin sneered with a bored expression, "Don't worry father, I have thousands of ways for a piece of trash to die without a corpse left in the Ghostly Mountain Range!"

Luo Jianshan nodded and smiled in satisfaction.

He was very satisfied with Luo Lin's performance. No matter if it was his talent in cultivation or his intellect, he had never been disappointed.

He believes that for this hunting contest, his son's performance will be perfect.

Immediately after...

Luo Jianshan brought out a thumb sized crystal that gave off a faint light. The light diffused into the environment and a thick profound energy filled the entire bedroom.

Luo Lin's eyes were filled with shock and excitedly asked: "Father, is this a xuan stone?"

Xuan stone, an item formed by nature. It contained thick profound energy and was a martial cultivator's ultimate treasure.

Xuan stones were separated into high, middle, and low grades. The higher the grade, the thicker the profound energy. The xuan stone that Luo Jianshan took out was low grade quality xuan stone. For such a low grade xuan stone, it had already cost the family 10,000 gold which was almost a fifth of the entire Luo family's net worth.

Apart from Luo Xiaoshan, the other four Elders opposed the decision of buying the xuan stone.

Luo Jianshan ignored their opposition and still purchased the xuan stone to supplement the first place winner's reward.

His goal was to give it to his son Luo Lin.

At the Profound Pupil 8th rank, he was the strongest person in the Luo family's youngest generation.

No one was his match in this hunting contest.

He will no doubt gain first place.

Luo Jianshan smiled and said: “Lin Er, no matter where you are and whatever move you need to make, you have to remember that in this world, strength dominates everything.”

“Hold onto this xuan stone. Apart from getting first place and getting rid of Luo Tian during this hunting contest at the Ghostly Mountain Range, you need to break through to the Profound Pupil 9th rank. As long as you break through, all those voices of opposition will be drowned out by you. And no one will dare bring up my act of purchasing this xuan stone anymore.”

A seventeen year old at the Profound Pupil 9th rank – just this alone and no one in the Luo family will have a reason to rebuke him.

Within Luo Jianshan’s plans, this wasn’t the only thing as his face revealed a proud look. “Seventeen years old... being at the Profound Pupil 9th rank will reach the standard of being an outer disciple at the Green Cloud Sect. As long as you can become a disciple of the Green Cloud Sect, the Luo family or even the entire Jade Mountain City would not dare to mess with you.”

Luo Jianshan was well intentioned.

He had planned everything around this.

The decline of the Luo family over these several years, the instability inside the Luo family, and the other major families of the Jade Mountain City eyeing their territories, Luo Jianshan had considered all of it.

All these issues will solve themselves once his son becomes a disciple of the Green Cloud Sect.

He had been planning all of this these past several years!

Luo Lin was secretly delighted after receiving the xuan stone, “Father, I won’t let you down!”

Early morning, the Luo family’s martial training grounds.

There were people everywhere and they were even more excited today than yesterday.

On a stage at the center of the training grounds, there sat Luo Jianshan, Luo Xiaoshan, and four other Luo family Elders.

Down below were rows of Luo family disciples in high spirits, energetic, and filled with anticipation.

Shortly after, Luo Jianshan walked up and quieted everyone. "Today is a big day... a big day for the Luo family and a big day for you. I believe that in three days time, a large portion of you will become the elite disciples of the Luo family who will gain the comprehensive nurturing of the Luo family and gain many cultivation resources. In the future, you will become the support pillars of the Luo family and the entire family will be proud of your name."

"What a great speech!"

"Clap, clap, clap..."

A large round of applause was heard below the stage, and all the Luo family disciples were getting even more excited.

Luo Jianshan lowered his hands a few times and waited for the noise to abate before continuing to say: "There's no need for me to repeat the rules of the hunting contest since I believe everyone is clear on it. As long as you are able to kill a 1st ranked demonic beast, you will become a core disciple. If everyone were to cooperate with each other, I believe a 1st ranked demonic beast will not be difficult to handle. There is one thing I would like to reiterate, and that is you are all disciples of the Luo family. When you enter the Ghostly Mountain Range, you must cooperate with each other and are prohibited from killing one and another. If you are found to be disregarding the rules, you will be severely punished!"

"Lastly..."

Luo Jianshan lightly smiled and said: "In order to increase everyone's enthusiasm for this year's hunting contest, we have deliberately increased the rewards."

"Apart from getting medicinal pills and chances to train in Grade 1 martial skills, a xuan stone has been added as an extra reward."

Sounds of discussion were heard beneath the stage once the words ended.

"So it's actually true."

"A xuan stone as a reward... this is unprecedented."

"This is too exciting."

"What the hell are you excited about? The xuan stone will not even get to you, it's definitely reserved for young master Luo Lin."

"Right. Young master Luo Lin is so handsome and so powerful, he will definitely get first place. I really like him... if only he would marry me."

“Stop dreaming and wake up, take a look at who’s standing next to young master Luo Lin.”

“Who is she? She’s very pretty, so much that my heart can’t even handle it anymore.”

Li Xue’er was standing coldly to the side as if she didn’t hear all the discussions around her. She didn’t have the slightest interest towards the xuan stone as a reward. When Luo Jianshan mentioned the xuan stone as a reward, she didn’t even blink. She just stood there motionless staring off at a particular direction of the crowd in a daze.

At this time...

Luo Tian was stunned.

Luo Tian was already bored of Luo Jianshan’s blabbering since the beginning, but he could only silently curse for him to hurry it up.

But when Luo Jianshan mentioned the xuan stone, an alert sounded off in his mind.

“Ding!”

“A quest has been received: Compete for the first place in the hunting contest. This is an A ranked quest and rewards include 20,000 experience points, 1000 profound energy points, and a Grade 3 supportive martial skill!”

“Oh crap!”

“An A-ranked quest that gives out a Grade 3 martial skill?”

Luo Tian was secretly ecstatic as he rubbed his hands together, “Motherf*cker, this daddy will definitely succeed in this quest!”

Chapter 17 – Another Kiss

Chapter 17 – Another Kiss

Ghostly Mountain Range – it took up a vast amount of land with demonic beasts roaming about. In the Tianxuan Continent, it’s known as one of the ten most ominous locations.

Demonic beasts were the same as humans; they can cultivate and make breakthroughs.

There was only one way for them to cultivate – hunting. They would then devour the blood essence of their prey.

They would extract profound energy from the blood essence, and then meld it into their own body. This will strengthen their power and their physical body.

In order to survive, there would be endless fighting between demonic beasts. This caused their skins to be as hard as steel, making them extremely difficult for humans to deal with.

Midday...

Over a hundred Luo family disciples arrived at the hunting grounds.

This particular area of the hunting grounds had been prepared three days prior. In order to ensure the safety of their disciples, the Luo family had started driving out some demonic beasts in this particular 100km area half a month ago. This was also to ensure that there wouldn't be some super strong demonic beast suddenly appearing during the contest.

The disciples participating were all at the Profound Pupil realm, so any 2nd ranked demonic beasts will be like wolves while their disciples would be similar to sheep. There's no way the Luo family disciples can handle them.

But...

The grounds of the hunting contest had been cleared out, but no one can guarantee that nothing would go wrong.

"Okay, you guy guys can now enter the grounds."

"Remember, you can choose to forfeit anytime during these three days of the contest. After killing a single demonic beast, you may also choose to leave the contest grounds since it will automatically qualify you to become a core disciple."

"One very important thing you must all remember is that three days later, you must come out here or else your results will be invalidated. Do you all understand?"

All the Luo family disciples were rubbing their hands together with an eager expression before shouting out in unison: "Understood!"

"Go forth!"

The Luo family's housekeeper waved his right hand and over a hundred Luo family disciples rushed into the Ghostly Mountain Range like wild beasts.

Luo Tian was standing at the entrance while looking at the dark and gloomy forest. He narrowed his eyes before saying to himself: "Let the game begin."

He brought Feng Lei along as they stepped onto the Ghostly Mountain Range...

“What?”

“You lost sight of her? You guys grow up eating shit or something? You have so many people yet lost sight of a single girl? I really don’t know why we are supporting all you pieces of trash!” Luo Lin’s face looked annoyed as he berated them.

There were a lot of people entering the mountains at the same time and Li Xue’er’s figure disappeared from behind him. This completely pissed Luo Lin off!

“Where’s that trash Luo Tian?” Asked Luo Lin.

“He went in a southeastern direction.”

Luo Lin turned to the southeast and mumbled with a grim expression: “Dog bastard, I’ll let you live an extra day.”

Immediately after...

Luo Lin’s gaze changed and lightly said: “You two continue to keep an eye on Luo Tian while the rest of you find Li Xue’er for me.”

“We obey your command!”

Everyone yelled out before quickly separating.

In another area.

Luo Tian led Feng Lei in a southeastern direction at fast speeds. Even though they had met several 1st ranked demonic beasts, he had no intention of killing them.

Half an hour later...

It was dark and gloomy in the surrounding area and there were no signs of any other Luo family disciples.

Feng Lei dropped onto a boulder while panting before asking in confusion: “Young master, why did we run so far away?”

Luo Tian glanced cautiously around, “We offended an Elder and messed with Luo Jianshan, do you think they wouldn’t do something to us? They will definitely mess with me during the hunting contest and might even use this opportunity to get rid of me once and for all. We have to find a safe place.”

Luo Tian had already thought of this issue early on.

But...

The hunting grounds were filled with demonic beasts. As long as he could make breakthroughs all the way to the Profound Pupil 8th rank, who would be his opponent here?

This was an opportunity for him.

A very good opportunity.

Feng Lei's eyes widened and roared out: "I want to see who dares to! Just watch me play him to death!"

As Feng Lei said that, the layers of fat on his stomach were jiggling. Luo Tian smiled, "You should first play the fat on your body to death first."

Feng Lei laughed in a silly manner and was just about to say something...

Luo Tian eyes were alerted and made a gesture for silence, "Someone's here."

He hiddenly cursed to himself: "Motherf*cker, this daddy has already run so far yet you still followed. Do you really want to force this daddy out of the contest grounds?"

"Whoosh..."

"Whoosh..."

A white figure was flying through the trees of the forest. The white dress was fluttering behind and the long hair along with the body was swaying back and forth. The scene was so beautiful that it looked like a movie in his previous life where a Fox Fairy made its appearance.

Feng Lei looked in surprise as he pointed at the white figure and mumbled: "Look young master, it's a fairy."

Luo Tian was secretly surprised and immediately thought of the white clothed sister he met at the back mountains.

The white clothed girl heard their voice and looked down. Upon seeing Luo Tian, she lightly smiled and was just about to say something....

Luo Tian immediately yelled out: "Hey sister, watch out."

Because she was flying too fast and couldn't hear clearly, Li Xue'er lowered her head and asked: "What did you say?"

Luo Tian pointed at something in front of Li Xue'er and quickly said: "In front of you, the front, look in front!"

"The front?"

"What's in the front?"

Li Xue'er muttered before raising her head to look up and noticed a towering tree less than 2 meters in front of her. She panicked and the flow of her profound energy was disrupted. Without the support of profound energy, she was like a wingless bird and started falling down.

"What the hell?!"

"Again?"

Luo Tian had a surprised expression on his face and immediately recalled the scene at the back mountains. After pursing his lips, he then said to himself: "Do I really need to catch her? She should be fine falling from such a height right?"

He didn't want to be called a stinking rogue again.

Therefore, he decided to stand still and have a good look at what's called free fall.

"Ahhhh..."

"I'm falling, I'm falling..."

"Save me, save me big brother Luo Tian, quickly save me..."

Li Xue'er cried out and also recalled the scene in the back mountains. Her cheeks started turning pink as she reprimanded herself: "I always embarrass myself each time I meet big brother Luo Tian, this damn flying profound skill always stops working when I panic."

"Big brother Luo Tian?"

"Is she calling me?"

"The greeting seems a bit familiar in my memories."

Upon seeing Li Xue'er about to crash down, Luo Tian's heart tightened and didn't bother to think any further. He stepped forth like an arrow and gently caught Li Xue'er.

“Eh?”

“Why is it so soft and filled with elasticity? What did I grab onto?”

As he was saying this, Luo Tian’s hands squeezed a bit and felt it was very comfortable. His palms also felt a well supportive pointy feel to it.

“Could it be...?”

Luo Tian took a closer look and realized one of his hand was holding onto Li Xue’er’s chest. His eyes widened and a “gulp” was heard in his throat.

In just an instant...

An evil fire from his body rushed into his head before rushing back down and almost flowing out of his nose.

Endure!

Luo Tian endured with his life on the line.

He had been an otaku for many years, one that didn’t even know what women smelled like. He had now suddenly clawed onto an extremely beautiful sister that could suffocate any guy, and it was even her chest! This soft and bouncy feel that even had a little point on his palms...

This feeling made him want to scream out in joy as if he had died and gone to heaven.

Li Xue’er’s pink cheeks turned completely red as if juice could soon be squeezed out of it. That expression of hers made people want to stop yet cannot. She angrily glared at Luo Tian and pouted: “Stinky rogue, big brother Luo Tian is a stinky rogue!”

As she was saying this, Li Xue’er struggled intensely.

Luo Tian finally recovered after suppressing his evil desires. Since Li Xue’er was struggling so much, he quickly let go. Upon letting go, he felt like he had lost something in his life and couldn’t help stretch forth his hand a bit.

Because Luo Tian suddenly let go, Li Xue’er’s center of gravity was off causing her to cry out. She then came crashing down facing Luo Tian.

Luo Tian didn’t even have time to reach when his mouth was firmly planted on small pouty lips. A tongue was then slipped in... it was soft and slippery and tasted sweet. Add the fact that two soft mounds were pressing against his chest, that feeling...

Wow, this was too amazing!

Off to the side, Feng Lei was staring at the two with a dumbfounded expression. He then praised deep from his heart, "Young master, you are too awesome!"

Chapter 18 – Very Silly And Very Cute

Chapter 18 – Very Silly And Very Cute

When something like this happens to a girl, their first reaction should be:

"Ahhhh..."

That's right, a piercing shrill scream that would scare off all the flying creatures. The girl would then retreat off to a side in panic as she clutched her chest trembling with fear.

Apart from clutching her chest, Li Xue'er wasn't shaking or scared and was only pouting at Luo Tian. She then emphasized: "Nothing happened just now, nothing happened at all, understand?"

Feng Lei looked at Li Xue'er with a silly expression before saying: "Just now, you..."

Li Xue'er's eyes changed and angrily glared at Feng Lei, "What just now? Nothing happened just now, nothing at all."

Seeing Li Xue'er's eyes that looked like she was going to eat him alive, Feng Lei started backing away.

Luo Tian crawled up from the ground and patted off the dust on his butt, "Understood. It's the same as last time when you kissed me, nothing happened."

"That's more like it."

Li Xue'er nodded in satisfaction but still frowned while muttering to herself before loudly saying: "You bastard, I didn't kiss you."

After saying that, her cheeks once again became faintly red.

Recalling what had happened just then, Li Xue'er's heart started beating faster. The more she thought about it, the faster it was beating and the redder her face became. This made her look even cuter and impossible for someone not to be attracted to her.

Her faintly red cheeks, a slightly angry look coupled with her delicate face made Luo Tian dumbfounded. He then deliberately said: "I wonder whose tongue was just going around in circles in my mouth?"

"You..."

Li Xue'er's faint red cheeks once again became completely red. She stomped her foot and pouted in anger as she glared at Luo Tian, her tears almost coming out.

At the side, Feng Lei was blinking and blinking before asking in a serious manner: "Young master, what does it taste like to have someone's tongue in your mouth going around in circles?"

Luo Tian smiled, "You ask her, it wasn't my tongue going around in her mouth."

Feng Lei turned towards Li Xue'er and before he could even ask, her stare at forced him to look away. He then scratched his head and looked off into a random direction like a mouse had just seen a cat.

"Okay, I'll stop messing with you."

"You should quickly leave, I'm about to start working." Luo Tian's expression became serious; he didn't participate in this contest to hit on girls.

He didn't have any mood to hit on girls right now.

He had to quickly level up and make some more breakthroughs. This A-ranked quest had to be completed. Not only was the experience a lot from completing the quest, just that Grade 3 supportive martial skill alone was something he couldn't miss out on. The entire Luo family or even the entire Jade Mountain City, there was no such thing a book of Grade 3 martial skill. If he was to possess one, how awesome would his existence be?

Moreover...

He was currently in a dangerous situation since Luo Lin could be bringing people over to hunt him down at anytime.

He had exhausted his profound energy and unable to activate Berserk. If he doesn't quickly level up soon, he would definitely not be Luo Lin's opponent if they find him. Also, Luo Tian wasn't sure if Luo Jianshan was going to send out an even more powerful killer to take care of him or not.

Everything was an unknown.

The only thing Luo Tian could do was kill demonic beasts to level up.

As long as he made more breakthroughs, his strength will increase and no matter who comes, he could kill with a single punch!

“I’m not leaving.” Li Xue’er pouted with a grin and silently said to herself: “Big brother Luo Tian, I’m here to protect you. Luo Lin wants to deal with you so don’t drive me away.”

Luo Tian started frowning and seriously said: “Sister, there are demonic beasts everywhere in the Ghostly Mountain Range. Based on Feng Lei’s and my strength, we can only protect ourselves and don’t have the ability to look after you. Not to mention staying together with us is very dangerous!”

“I know it’s dangerous.”

“And I don’t need you guys to look after me.” Li Xue’er’s expression also turned serious as she silently said to herself: “I’m here to protect YOU, you big dummy.”

“No way!”

“It’s too dangerous.” Luo Tian’s expression turned serious. The Ghostly Mountain Range wasn’t an amusement park, not to mention the vicious demonic beasts; just Luo Lin alone had made his situation extremely dangerous. There’s no way he would allow an unfamiliar girl encounter danger with him.

Li Xue’er stubbornly said: “No matter what, I’m still staying together with you two.”

She wanted to say she was here to protect Luo Tian, but was afraid by saying that since it would hurt Luo Tian’s self-esteem. After all, for a man to need a woman to protect them would cause them to completely lose their face. At least that’s what Li Xue’er was thinking.

There’s another thing.

Luo Tian didn’t recognize or remember her. Li Xue’er was a bit disappointed by that but also felt this was kind of fun.

“You...”

Luo Tian’s eyes suddenly tensed up before roaring out: “Watch out Feng Lei!”

“Awoooo...”

A vicious wolf with red eyes and a red body had pounced towards the large burly Feng Lei.

It was a 1st rank demonic beast – Scarlet Flamed Wolf!

It was a common demonic beast in the Ghostly Mountain Range. It was extremely savage with a very strong attack power, making it very difficult to deal with.

Feng Lei had also detected the danger. His fat body rolled out of the way and ingeniously dodged the Scarlet Flamed Wolf's sneak attack. He was then planning to pounce on top of the wolf to hold it down and create an opportunity for Luo Tian to kill it.

But!

Within an instant...

A white figure flashed by and a sword light was seen.

"Swish!"

"Owwww... Owwww..."

The Scarlet Flamed Wolf cried before dying as its body twitched on the ground. Its two eyes glared at the beautiful yet fierce girl as if it died filled with regrets.

"Holy crap."

"So violent, so steadfast... a 1st rank demonic beast killed in seconds. You..." Luo Tian was awed, completely and utterly in awe.

A 1st rank demon beast was similar to someone at the Profound Pupil 8th rank. Even if it was Luo Lin, there's no way he could kill it with a single sword strike. Yet this sister...

Li Xue'er retracted her sword. Upon seeing Luo Tian and Feng Lei's shocked expression, she smiled smugly. "How was it, do I still need you guys to look after me?"

Feng Lei's head was shaking like a rattle drum. When the sword strike passed by in front of his eyes, he almost died from fright. His fear towards Li Xue'er had been increased even more at this point.

Luo Tian chuckled and suddenly pretended to be filled with deep profoundness: "No need, no need at all. You can follow us if you want, but I have a condition."

"What condition? As long as I can go with you guys, I will agree to any condition." Said Li Xue'er.

As long as I'm around, no one will be able to bully big brother Luo Tian.

Therefore whatever condition Luo Tian proposes, she would agree to it.

Luo Tian didn't know what Li Xue'er was thinking or else he would propose another condition.

“In the future, don’t directly kill the demonic beasts with one strike; leave them on their last breath so that I can kill it.” Luo Tian’s heart ached while staring at the Scarlet Flamed Wolf in its own pool of blood.

This was experience points!

This damn System, if he didn’t kill it himself, then he wouldn’t get any experience out of it.

Since Li Xue’er was so awesome, a strike here and there would get rid of each demonic beast. Getting first place and completing the quest would be easy, but he wouldn’t get any experience points.

How can he level up without experience points?

Luo Tian’s goal in participating in the hunting contest was to level up. Why bother monkeying around here if he wasn’t going to level up?

Li Xue’er didn’t really understand why but readily agreed, “Fine.”

In the end, her heart was secretly relieved since she was afraid Luo Tian would propose some sort of perverted request. Yet in her heart, she was willing to agree to anything Luo Tian proposes.

This girl was just so silly that she was extremely cute!

Chapter 19 – This Sister Is Too Amazing

Chapter 19 – This Sister Is Too Amazing

“Fatty Lei, you’re in charge of looting the corpses.”

“White clothed sister, you’re the damage dealer. You have to remember to leave them on their last breath for me to kill!”

“I will be in charge of drawing the demonic beasts and maintaining aggro.”

“You guys understand?” Asked Luo Tian as he swept his gaze past them.

This was the most basic language of online RPG’s and it was also the most common strategy.

But...

Feng Lei stared at Li Xue’er and she stared back at him. They both then shook their heads like a rattle drum and said in unison: “Don’t understand.”

“Young master, what is looting? What’s dealer? What’s aggro? How come I can’t understand a single thing?”

“Can you say it in a way we can understand it?”

Luo Tian helplessly sighed, “Sister, you will be in charge of attacking the demonic beasts. Fatty Lei, you will be in charge of taking the demonic beasts’ blood essence. I will be in charge of luring the demonic beasts over, so do you guys understand now?”

“Young master, if you had said that the first time, we definitely would have understood you.” Feng Lei grinned in a silly manner.

Li Xue’er suppressed a giggle and said: “That’s right.”

“It’s really difficult at times to communicate with someone not of my world.” Luo Tian said to himself. Right after that, his gaze tensed up and he pointed in a certain direction crying out: “There’s a demonic beast approaching us from there, we’ll act in accordance to what I’ve said.”

As his voice faded...

Luo Tian leapt out and landed in front of a Metal Skinned Pig. He then bent his finger beckoning, “Little kid, grandpa is right here.”

It looked like the Metal Skinned Pig knew what Luo Tian was saying. It humphed twice before its forelegs pawed the ground and madly charged at him.

He had gained aggro!

Luo Tian panicked and started running once he saw those sharp fangs protruding from the pig’s mouth. If he was rammed by its large nose, he will definitely be smashed flying into the air. As he was running, Luo Tian loudly reminded: “It’s coming, it’s coming! Get ready to attack sister!”

Seeing the Metal Skinned Pig chasing Luo Tian like mad, Li Xue’er’s gaze tightened. She glared at the green colored pig and viciously said to herself: “Stinking pig, you want to hurt my big brother Luo Tian? Watch me take your life!”

A white light flashed.

“Move away; let me take care of it.”

Before she even finished speaking, Li Xue’er had already struck with her sword.

Luo Tian immediately changed directions, allowing Li Xue’er’s lightning fast sword to stab into the head of the Metal Skinned Pig.

“Puchi~!”

Fresh blood sprayed out and a painful “ow” noise came out of the Metal Skinned Pig’s mouth.

“Oh crap, this sister is truly a bit too powerful.”

Amongst all the 1st rank demonic beasts, the Metal Skinned Pig’s defense was probably one of the best yet a single stab was able to penetrate into its head. Her attack power was simply too powerful.

Luo Tian was inwardly shocked and when he saw the angry looking Li Xue’er, he immediately said: “Sister, leave it with its last breath so that I can make the killing blow.”

If she were to kill another one, his experience will disappear again!

It absolutely cannot be so wasteful.

Luo Tian rushed forth like a loose arrow and roared out: “Let me do it!”

Li Xue’er stuck out her tongue and leapt off to the side, “Okay, I got it.”

The Metal Skinned Pig was growling and howling in pain. Its life was already near the end and didn’t have the strength to dodge. Luo Tian’s punch then came crashing down.

“Break!”

“Ding!”

“Congratulations to Player Luo Tian for killing a Metal Skinned Pig. You have gained 200 experience points, 20 profound energy...”

“Congratulations to Player Luo Tian for gaining 1 point of Metal Skinned Pig’s essence.”

“200 experience points... a 1st rank demonic beast truly deserves their name, the rewards are so plentiful! Leveling up to the Profound Pupil 6th rank requires 30,000 experience points, which means killing 150 of them will allow me to level up.” Luo Tian said to himself.

Apart from experience, he gained the most important thing – profound energy.

Berserk consumed too much profound energy so within these three days, he had to accumulate as much profound energy as possible. There’s most likely a tough battle waiting for him at the Luo family confines. As long as he has enough profound energy, then he wouldn’t be scared even if he had to face Luo Xiaoshan again.

“Fatty, this demonic beast will be passed to you now.”

“Sister, give Fatty Lei the wooden space plaque that the Luo family gave to you. We’ll first fill up yours before we fill ours.” Said Luo Tian.

The sister was the main damage dealer so the head of the demonic beasts should first belong to her.

The wooden space plaque was one of the most mysterious dimensional storage objects in the Tianxuan Continent. The space inside was about the size of a small room.

All participating disciples were given one to be used to store the heads of the demonic beasts.

Killing a demonic beast and then cutting off its head, it was the only way to prove the kill. As long as one killed a 1st rank demonic beast, they could leave the contest right away and become a core disciple of the Luo family.

But if one wanted to compete for the first place, then they had to continue killing more demonic beasts.

The rules of the hunting contest – a 1st rank demonic beast was worth 1 point, a 2nd rank demonic beast was worth 5 points, a 3rd rank demonic beast was worth 10 points, 4th rank demonic beast was worth 100 points, and a 5th rank demonic beast was worth 1000 points...

A 1st rank demonic beast was very common while a 2nd rank demonic beast was hard to come by within the contest grounds. If one encountered a 3rd rank demonic beast, that was equal to death. As for those super strong 4th and 5th rank demonic beasts, they will only appear in the depths of the Ghostly Mountain Range and it was impossible for them to appear in the outskirts.

Those demonic beasts at the 4th rank or above had demon cores in them.

The demon cores contained rich profound energy since this was basically their cultivation essence that had been formed for over a thousand years. The price of demon cores were at least 10 times the amount of xuan stones.

This was an ultimate treasure in the eyes of cultivators, an item that was near impossible to find.

The demonic beasts that had demon cores were all tyrannical existences. A single 5th rank demonic beast could flatten the entire Jade Mountain City in a day’s time.

In the history of the Luo family’s hunting contest, one had never appeared before because once it did, it would become a devastating blow to the family.

Li Xue'er didn't take out her space plaque and said in a serious manner: "I definitely don't want any bloody heads. I can help you kill but I don't want any, you guys can have it all."

Luo Tian looked at Li Xue'er and could tell she was being very serious. He then said: "Fatty, we'll first fill your space plaque then."

"Got it!"

Feng Lei picked up the Metal Skinned Pig and took out his machete before slashing down. The moment the head of the Metal Skinned Pig came off, he started sucking all the blood essence from it.

As the blood essence entered his mouth, Feng Lei's face started turning red before becoming normal again in a few seconds.

Luo Tian couldn't help wonder how powerful Fatty Lei's mouth was. Seeing the thirst in his eyes, Luo Tian guessed that it wasn't as simple as enjoying the blood essence. It was almost like it was a carnal desire, just as Luo Tian would desire this sister if she were to be naked before him.

Li Xue'er felt like throwing up from watching but she didn't say anything.

Time was precious so Luo Tian didn't bother asking questions either. "I'll go scout ahead, you guys follow in a bit."

Luo Tian rapidly dashed into the gloomy forest.

Li Xue'er was afraid Luo Tian would be attacked by demonic beasts so she quickly followed after him.

Feng Lei wiped his bloody mouth with a smile as a brief flash of red light was seen on top of his bald head. The pattern of a demonic beast appeared on his head giving off a ferocious aura of an ancient beast before disappearing.

"Get back sister, let me do it!"

"Break!"

"Ding, Congratulations Player..."

"Break!"

"Break!"

The demonic beasts were always at the edge of dying before being finished off. Li Xue'er would strike with her sword while Luo Tian followed with a punch. Demonic beasts kept dying and experience points continued racking up.

The cooperation between the two became more in sync.

After two hours of killing, they had already eliminated over a dozen demonic beasts. Not mentioning the abundance of experience points, Luo Tian's profound energy were almost at a thousand points! This was too awesome!

If this continued on, he would level up within five hours!

Luo Tian couldn't help sigh in his heart, "This sister is simply too amazing!"

Chapter 20 – Arrival Of Ominous Times

Chapter 20 – Arrival Of Ominous Times

There were demonic beast corpses everywhere, and Feng Lei's mouth was filled with blood as he busily gorged himself!

Luo Tian was sitting to the side resting, "Fatty, can you move faster? Do you really have to absorb every blood essence? Time is precious; we don't want to keep waiting for you here while you're sucking out blood."

On the other side, Li Xue'er was gasping for breath while her face was slightly red.

Each time she made a move, it would deplete her profound energy. And after several hours, the consumption amount was too great so her body couldn't handle it.

"Owwwww..."

A Green Eyed Tiger with yellow and white stripes suddenly leapt out of a tree.

Li Xue'er's eyes changed as she struck with her sword. She then pouted and angrily muttered: "You dare to sneak attack big brother Luo Tian? It looks like you're tired of living."

"Whoosh!"

The white clothes flashed by and her sword created a mirage.

Compared to before, it was clear her speed had slowed by a lot and the strength of her sword had also weakened.

Profound energy was very important. Once the consumption was too much, one's strength and speed will significantly decrease. Li Xue'er was just too tired now.

This was a common problem to all martial cultivators!

It was like a mage without any mana, they were completely useless even if they were powerful.

Even though Li Xue'er was the first to detect the Green Eyed Tiger's sneak attack, her speed couldn't catch up to her reaction and her strength seemed to have gone down a level; her sword struck nothing but air.

Immediately after...

Li Xue'er cried out: "Big brother Luo Tian, watch out!"

Luo Tian frowned as a burst of chill was felt on his back. His heart tightened as he clenched his fists before spinning around. He then roared out: "Thunder Tiger Charge!"

His body was like a bow while his fists were like the arrow as it shot forward.

"Break!"

His pair of fists accurately landed on the Green Eyed Tiger's forehead. Its head cracked apart while fresh blood gushed out.

Instant kill!

At that moment, a system alert was heard in his mind.

"Ding!"

"Congratulations to Player Luo Tian for killing a Green Eyed Tiger. You have gained 210 experience points, 20 profound energy..."

"Congratulations Player Luo Tian for gaining 1 blood essence from the Green Eyed Tiger..."

"I got blood essence again... every time I kill a demonic beast, I'd get their blood essence. What can I do with them?"

Each time he killed a new demonic beast species, he would gain a blood essence. This was extremely strange to Luo Tian.

Luo Tian felt a sudden urge and unconsciously opened up the system's information to search for the usage for blood essence. There were more than 30 types of blood essence floating in his mind as he opened up the system interface to search.

“Eh?”

“Ten thousand Beast Lineage?”

“After acquiring 10,000 different demonic beast's blood, one can gain the Ten Thousand Beast Lineage and possess the strength of 10,000 beasts!”

“The more powerful the blood essence of the demonic beasts collected, the more powerful your strength will become after merging the 10,000 blood essences together. Also...”

This seemed very normal so far.

The Ten Thousand Beast Lineage was very powerful since it was a lineage made up of 10,000 different demonic beast species; there was no doubt about its power. But when Luo Tian continued reading down, his sphincter tightened and mumbled in shock: “The Ten Thousand Beast Lineage actually has a fusion ability; it can actually coexist with other blood lines. This... this... this is too f*cking awesome!”

Once one fuses with a blood lineage, there's no way for it to fuse with another one.

In the Tianyuan Continent, there's no blood lineage that can fuse with others. The Ten Thousand Beast Lineage was a fusion bloodline that can coexist with other blood lines, that means one could have two bloodlines inside them.

How strong was a single bloodline? What about two bloodlines?

Luo Tian was so excited that he was speechless.

The Undefeatable points could be exchanged for the Undefeatable bloodlines. Each and every one of them was extremely powerful and their power was no less than the Ten Thousand Beast Lineage. Upon completing the requirements, would the Ten Thousand Beast Lineage immediately fuse into him?

Luo Tian wasn't worried about that since the Undefeatable bloodline can be added later.

“Young master is so powerful, young master is so domineering, haha...” Feng Lei was dazed at the side because it was simply too awesome for a single strike to kill a 1st rank demonic beast.

Li Xue'er looked with surprise. Half a second later, a light smile appeared on her face as she said to herself: "Big brother Luo Tian is too skillful. That bunch of Luo family people keep saying big brother Luo Tian is trash, I think they're the real trash, humph!"

Luo Tian stored his thoughts with a smile. He then looked up at the sky and recalled Li Xue'er's condition. "It's getting late and demonic beasts are more abundant and active at night. We should find a safe place somewhere to spend the night."

Nighttime was the time most favorable for demonic beasts.

This was the time for them to find a place and hide or else it would be extremely dangerous for them.

Li Xue'er glanced at Luo Tian and noticed he said this because of her. She couldn't help feel her heart warm up and filled with emotions.

Not far away...

Two dark shadows were lurking behind a bush. Only after Luo Tian and company ran off in a certain direction did they reveal themselves.

Wang Cheng and Luo Qing were two outer disciples of the Luo family who were considered one of the stronger ones. Those two were both at the Profound Pupil 6th rank.

"Wang Cheng, you go notify young master Luo Lin while I continue following them." Luo Qing whispered as he stared at the direction Luo Tian went off to.

Wang Cheng turned around and was just about to leave when his eyebrows went up and a sneer appeared on his lips. He then sinisterly said: "If we were to personally capture Luo Tian, I believe young master Luo Lin will reward us lavishly."

"Did you see the sword skills of the girl in white? We are definitely not her opponent." Luo Qing frankly said.

A single sword strike was able to kill a demonic beast. Add Luo Tian who was at the Profound Pupil 5th rank, those two were definitely not their opponents.

Wang Cheng lightly smiled before saying: "Didn't you notice that the girl in white clothes had pretty much depleted all her profound energy? She needs at least an entire night before she can recover, so no matter how powerful she is, it's of no use. Do the two of us still don't stand a chance dealing with that trash Luo Tian?"

It was very easy for someone at the Profound Pupil 6th rank to deal with someone on the 5th rank. Especially when there were two of them, so success was definitely assured.

Luo Qing narrowed his eyes because his heart was moved by those words.

He clearly knew what Luo Lin's goal was, so if he were to really capture Luo Tian, he will definitely receive a big reward.

Even if there weren't any rewards, being able to do stuff for the future Luo family's young master, there'll definitely be benefits in the future.

Apart from this, they were eyeing the space plaque that Feng Lei had. There were over a dozen demonic beast heads inside, so if it all belonged to them...

A "gulp" was heard as Luo Qing heavily swallowed his saliva. A look of greed appeared on his face, "Okay, we will continue following them and find an opportunity to capture Luo Tian."

The sky gradually darkened and one couldn't even see their own fingers inside the forest. There were constant roars by demonic beasts that would startle one's heart, giving this entire place a scary feeling. The constant roaring was similar to a warning by the demonic beasts, saying that this was now their world.

Halfway up a hill was a hidden cave.

Li Xue'er was sitting inside the cave cross-legged while absorbing profound energy. Each breath and exhale was in a rhythm as the surrounding traces of profound energy were drawn into her body. The profound energy in her dantian was gradually being recovered...

At the mouth of the cave.

Feng Lei was standing there like King Kong, his eyes lit like a torch as he surveyed the area.

"Fatty Lei, you have to protect her because she could be your future mistress." Smiled Luo Tian. Upon thinking of Li Xue'er's cute expressions, his heart started warming up.

Feng Lei nodded in a serious manner, "Don't worry young master, even if this one was to die, he won't let anyone harm a single hair on her."

Luo Tian gave a satisfied smile and dashed into the night.
