

## Leveling Up 331

### Chapter 331 – So Many Bosses

“Heh heh...”

Luo Tian started chuckling in a gloomy manner. “Now the only ones left are going to be just you and me.”

Li Wenzong’s expression turned serious. He cried out “Your Majesty” a few more times but Tang Zhanlong didn’t even turn around. He now understood that Luo Tian had a more important position than him inside Tang Zhanlong’s heart. It couldn’t be changed even if he was an in-law to the monarch.

Can Tang Zhanlong even do anything to Luo Tian since he was someone favored by the old ancestor?

If we took a few steps back to analyze this...

The influence Luo Tian gave the Great Tang was much stronger than Li Wenzong.

Li Wenzong was merely a head supervisor of the civil ministers and any random person could be promoted in the Minister’s Court to replace him. This world was ruled by martial might and it wasn’t like he was some Profound Saint expert.

Li Wenzong had a very ugly look on his face while he slowly got up. He coldly glared at Luo Tian before angrily reprimanding: “What do you plan on doing?!”

Luo Tian shrugged and said: “Nothing much, it’s just to kill you.”

“Just based on you?!”

Li Wenzong’s body faintly shook.

The time it takes for a spark to ignite from a flint...

His robes started ruffling as his Profound King 7th rank powers exploded out. His figure was already moving while a small dagger containing dark energy was taken out from within his robe. The dagger stabbed towards Luo Tian as he shouted: "Go to hell!"

Luo Tian's figure moved.

The rage inside his heart was bursting out.

Li Wenzong had to die.

Otherwise, he will continue to hire assassins and may even make a move against the Luo family in Jade Mountain City. There's no way Luo Tian will allow someone like him to continue living in this world. Moreover, Luo Tian still hadn't killed any demonic beasts after gaining the 100 points of luck. Even though it was a human right now, Luo Tian was wondering how powerful the luck attribute will be.

Luo Tian's heart coldly chuckled: "I can precisely use you as a test subject!"

His right fist started moving and the strength of a Profound King 6th ranker exploded forth.

The strength of a Profound King 6th ranker was obviously weaker than a Profound King 7th ranker.

But...

The one in fear was Li Wenzong while Luo Tian had a very calm looking face. Luo Tian then stared at Li Wenzong before shouting inside his mind: "Level 4 Berserk!"

"Boom~!"

His might increased as 16 times his attributes exploded forth. The aura around Luo Tian drastically changed and the shockwave it caused made a ringing sound in the audience hall. Before Li Wenzong was

able to stab forth, Luo Tian's figure disappeared before appearing up in the air with a shout: "Li Wenzong, you damn old dog! Lie down for me!"

His right fist started moving...

Coming down from a high altitude, his fist directly smashed into Li Wenzong's head.

"Bang~!"

Li Wenzong instantly became a dead dog! He crumpled onto the ground while covering the ground with his own blood.

Instant kill!

At this moment, the system gave off an alert tone.

Luo Tian didn't have much hope since Li Wenzong only had the cultivation level of a Profound King. He wasn't even considered an elite monster so most likely nothing good will explode from his corpse.

"Ding!"

"Congratulations to player Luo Tian for killing Li Wenzong. You have gained 12,000 experience points, 2000 profound energy..."

"Congratulations to player Luo Tian for gaining the Nightshade Dagger."

"Congratulations to player Luo Tian for gaining Revelation's Blood."

"Congratulations to player Luo Tian for gaining the Extreme Yin Divine Pearl."

“Huh?”

Luo Tian was faintly stunned. “So much stuff exploded from this old guy? The Nightshade Dagger is actually an earth grade xuan weapon, and it also possesses a darkness attribute. This thing is really not bad!”

“Revelation’s Blood?”

“Wild Blade, do you know what this is? Is it connected with the Revelation’s Key? Could it be another item used to open up the ancient treasure?”

Wild Blade was surprised by this and immediately responded: “Indeed!”

“I haven’t been able to figure out how to open the ancient treasures all this time, so it was because I was missing an item. Now I can finally solve the secrets of the ancient scroll, hahaha...”

“Hold on!”

“Brat, I think I heard the words Extreme Yin Divine Pearl just then. Is this really true?”

Wild Blade’s voice sounded excited.

Extremely excited.

Luo Tian double checked the system inventory and nodded: “That’s right, the thing is indeed called that but I don’t see any descriptions on what it’s for. Do you know how to use it?”

“A divine item!”

“It’s definitely a divine item!”

“I naturally know what uses it has.”

“Its uses are extremely awesome! Do you know why my world of slaughter came to be like that?” Wild Blade’s countenance had become ecstatic. His face was glowing red and his voice trembling, just like he had encountered something inconceivable.

Being able to make Wild Blade this excited was definitely a huge matter.

Hearing Wild Blade say divine item, Luo Tian became serious and asked: “Your world of slaughter is related to this pearl?”

“Naturally!”

Wild Blade then said with excitement: “This divine pearl has been refined from a nether xuan stone in hell after hundreds of millions of years, and contains the power of darkness. It can absorb the energy from a dead person of whatever quantity. Once it is filled up, it can unleash a boundless amount of power. If you had this divine pearl on you during the time at the Dao Shang auction house, even Long Wang could be killed!”

“It can even kill an expert at the Profound Saint realm?!”

“This...”

In an instant...

Luo Tian became ecstatic as he never imagined a little pearl could kill an expert at the Profound Saint realm. What kind of existence was that?!

Could this be the benefit of having 100 luck points?

A divine item actually exploded out!

It has to be it!

Luo Tian became even more excited as he continued thinking. “Who would’ve imagined that killing Li Wenzong, someone that wasn’t even considered an elite mob would give me a divine item like this. A max luck value is simply too cool! Hahaha...”

Wild Blade continued saying: “You should carry the pearl on your somewhere so that it can absorb the energy of dead people. You can use it whenever you encounter a dangerous situation. But you must remember that the Extreme Yin Divine Pearl can only be used once so you need to be wary before acting. In the world of slaughter, I absorbed the energy from killing a million people with the Extreme Yin Divine Pearl and then used it to kill a Grand Golden Immortal!”

“Awesome!”

No wonder Wild Blade’s world of slaughter had a million corpses lying there... so this is what happened!

How strong would the power be when the Extreme Yin Divine Pearl had the energy of a million corpses?

Luo Tian was excited.

Excited to a complete mess!

Looking at the dead body of Li Wenzong, Luo Tian faintly smiled and said to himself: “It looks like I can no longer spare anyone who deserves to die. Who knows when another divine item would explode out, hahaha...”

“Wild Blade!”

“Since we’ve determined the ancient treasure’s location, shouldn’t it be time to go open it up?”

This was the true goal for Luo Tian coming to the Heavenly Sword City!

Ancient treasures hidden inside the ancient scroll!

Once he receives the ancient treasure, it should be sufficient for him to become much stronger. If he happens to gain some ancient weapon, then... How cool and awesome would it be to head to Shattered Sky City with it? What qualifications would Murong Wanjian have left to compete with him?

Wild Blade said with a faint smile: "Of course!"

Before he was able to finish his sentence...

Suddenly...

Southeast of Heavenly Sword City, the sounds of explosions came from an abandoned temple that was heard a million kilometers out. The heaven and earth started changing as the originally blue sky was now beginning to be enshrouded in darkness.

Countless deceased souls rushed into the sky with wailing cries.

At this moment...

It was similar to the gates of hell opening – demons, devils, and ghosts were all coming out.

Wild Blade's expression drastically changed as he immediately exclaimed: "Not good! The array that's been suppressing the ancient grounds has been destroyed by someone. Those terrifying creatures inside will all come out and Heavenly Sword City will be in the greatest danger. Many people in this world will plunge into a life of misery and suffering from now on!"

Luo Tian's eyes were glowing. Upon seeing the golden light shooting in all directions, he said with incomparable excitement: "So many bosses!"

Chapter 332 – Monsters Besieging The City

Golden lights!

The entire sky was covered in a golden glow!

It was like the blazing sun had suddenly released an all-encompassing blinding light!

At this moment...

Luo Tian was very excited.

He had never seen so many bosses bunched up together like that. They practically covered the entire sky and each of them with a blinding golden glow to denote how powerful they were. How could Luo Tian not be excited about this?

He was basically excited to the max!

He was getting a headache this past month on trying to figure out where to go kill monsters to level up. Wasn't this delivering experience points right to his doorsteps?

"Hahaha..."

"This daddy's good days have come." Luo Tian was laughing wildly and was just about to rush towards it when...

Blindman Liu rushed over and exclaimed: "Dragon head, something bad has happened! Outside Heavenly Sword City, a large group of powerful and unknown creatures have appeared. They are killing any people they see and will be arriving at Heavenly Sword City soon!"

"Huh?"

"Dragon head, why do you seem very excited?" Blindman Liu asked in confusion.

Luo Tian grinned and said: "Round up our brothers and let's kill our way over!"

"Waaaa!"

"No wonder you are so excited. Now I'm kind of excited too from your words. Fatty and the others are already outside the palace waiting." said Blindman Liu with excitement rising.

Luo Tian then said: "It looks like you guys can't hold back either. That's good; accompany me out there and we'll kill to our satisfaction!"

Just when Luo Tian planned to leave...

Tang Zhanlong rushed out and shouted: "Luo Tian, hold on!"

Tang Zhanlong had an anxious look and a belly full of fire. He then said in seriousness: "I have no idea which asshole with nothing better to do decided to open up the Devil Sealing Array. This has caused Heavenly Sword City to fall into precarious times."

"Your Majesty..."

"What are your plans?" Luo Tian directly asked.

Tang Zhanlong frowned in thought briefly before saying: "Close up Heavenly Sword City, guard the gates with our lives and wait for support!"

"Wait for support?"

Luo Tian was surprised by this since he couldn't understand the decision. Based on Tang Zhanlong's domineering personality, it was impossible for him to say such words as waiting for the support of reinforcements. He should be saying "open the city gates and lead the palace guards to kill their way out!" But he didn't actually say this.

He didn't have this intention at all.

He had called out to stop Luo Tian because he didn't want him to go out.

There was a faint trembling to Tang Zhanlong's voice as he said: "It's not enough if it's just based on my Heavenly Sword City's strength. You don't understand what kind of monsters these devil fiends are that have been sealed within the Devil Sealing Array. Even though they aren't of the devil race, they each possess some special heaven defying abilities that makes them incomparably tough. The Devil Sealing Array has existed over ten thousand years ago and even the strongest devil race back then didn't dare to open it. I thought that after ten thousand years, no one would be capable of opening the Devil Seal Array yet didn't imagine..."

"I never imagined someone could break the array!"

"Who knows if it was intentional or not? If this was intentional, then this person wants my Heavenly Sword City to perish and have my Great Tang destroyed."

"Reporting!"

"Your Majesty, 120,000 Imperial Palace Guards have assembled!"

"Reporting!"

"Your Majesty, 200,000 Black Dragon Legion soldiers have assembled!"

"Your Majesty; we are all ready and awaiting your orders!"

"Boom~!"

A loud sound was heard inside the depths of the imperial palace.

A beam of heavenly light shot into the sky before curving down to the ground in a powerful manner. Sounds of explosions were heard in the surrounding air as a 30 something year old man descended into Harmony Palace. The man then calmly asked: "What's going on?"

Tang Zhanlong had a respectful expression as he said: "Daoist Virtuous; someone broke the Devil Sealing Array and devil fiends have rushed into the skies. I'm afraid Heavenly Sword City..."

"Devil Sealing Array?"

The middle-aged man's countenance faintly turned gloomy. There was a hint of trembling to his voice as he said with a frown: "No matter what, your Great Tang has allowed me to cultivate imperial qi for several centuries. I will not leave you guys hanging but..."

The tone of his voice faintly changed.

Daoist Virtuous continued: "But I will only be responsible for the imperial palace's safety. Anything outside the city or even if they break into the city, I will not participate in it. Everything else will depend on you."

"F\*ck!"

"Why don't you just directly say you're f\*cking scared?! Speaking a bunch of crap at a time like this."

"From the way I see it, you will immediately run away the moment the city gates are broken through! Yet you still dare to spout of crap about protecting the imperial palace?!" shouted Luo Tian with disdain. He completely looked down on this so called Daoist Virtuous.

Daoist Virtuous widened his eyes and shouted: "Where did this dog thing come from?! You dare to act presumptuously in front of this seat? 1 Scram outside!"

A powerful force surged out...

Kicking up a large amount of wind.

Blindman Liu was directly forced to retreat outside.

Luo Tian roared internally: "Level 5 Berserk!"

"Boom~!"

His powers sank down.

Tang Zhanlong's expression turned to shock as he quickly blocked in front of Luo Tian. He then respectfully said: "Please cease your anger Daoist. He is my son-in-law so please don't get angry."

Daoist Virtuous widened his eyes and finally retrieved his powers. He then said in irritation: "If you dare to act presumptuously in front of me next time, I will directly shatter you into powder!"

Luo Tian was annoyed as well.

The Great Tang had provided this guy with imperial qi for several centuries. Now that the Great Tang was in trouble, he showed a "this has nothing to do with this daddy" expression and said he would only protect the imperial palace. Once Heavenly Sword City has been broken through, he will definitely be the first one to run away.

Luo Tian was especially annoyed with these types of people!

As they were conversing...

Another loud noise was heard coming from the depths of the imperial palace.

A beam of light shot into the air before disappearing off into the horizon.

Tang Zhanlong's expression sank as he unconsciously clenched his fists.

There was a slight change to Daoist Virtuous's face as he revealed a happy smile. "Humph! I originally planned on returning a favor to the Great Tang after coming out of closed-door seclusion. Who would've imagined that I would instead be ridiculed by a dog? Whatever, we'll just consider this a sign to the end of our relationship."

"F\*cking shameless!"

Luo Tian once again started scolding: "What kind of dog's fart Daoist are you?! From the way I see it, you're just nothing more than a timid mouse afraid of death! Just a Devil Sealing Array and you're scared to this degree? Are you still even an expert at the Profound Saint realm? You're a f\*cking shame to all experts!"

Their eyes of Daoist Virtuous glared in anger as a powerful force surged out of his palms.

"Boom~!"

"Boom~!"

At this moment, sounds of explosions rocked the skies from the southeastern direction. An exceptionally powerful stream of energy shot out and enshrouded the entire Heavenly Sword City.

Daoist Virtuous's expression changed. He retrieved the power condensing in his palm and coldly said: "Damn dog thing, there's no need for me to make a move since you won't live past today anyway."

After saying that...

It was like his mother gave birth to him with extra legs as he disappeared without a trace.

The higher the cultivation of those people, the more they feared death.

They had cultivated from a few centuries to over a thousand years. The longer they cultivated, the more they feared death because they all understood one single thing – dying meant everything would be over.

When facing the unparalleled devil fiends inside the Devil Sealing Array, Daoist Virtuous became incomparably scared and immediately escaped without a trace.

He wasn't the only one.

From the depths of the imperial palace, several beams of light shot into the air and disappeared into the horizon as well. Those so called enshrined experts for several centuries had all left without a single one staying behind.

Tang Zhanlong started smiling.

It was a very bitter smile. “Who would've imagined that the enshrined experts of my Great Tang would have this kind of virtue. Could the Great Tang really be destroyed in my hands? A ten thousand year dynasty is going to be destroyed in my hands – how am I going to face my ancestors like this?”

Profound Saint experts had run away, so one can easily imagine how powerful the devils and demons that were inside the Devil Sealing Array.

Luo Tian's heart sank but then shouted: “Let me command all the troops! Your granny, isn't it just monsters besieging the city? This daddy has countless tactics to deal with them!”

He was getting excited internally.

The potential for experience points would be huge if the monsters were really going to attack the city.

I'm rich! I'm rich!

This time, leveling up will be as fast as flying...

### Chapter 333 – Heavenly Sword City Is Finished

Within Heavenly Sword City, beams of light were shooting up into the sky before flying off into the distance.

Many of those so called hidden experts were running as fast as they could. They were all very clear on how powerful the devil fiends inside the Devil Sealing Array were, and the only outcome would be death if they waited any longer.

During this time...

The common citizens inside Heavenly Sword City started panicking.

Schools and Sects had shut their doors.

Several major trading organizations were deploying their people to find a chance to escape.

The entire Heavenly Sword City gradually entered a chaotic state.

However...

Those super experts with holier than thou attitudes were hiding in the folded voids of space observing everything without any intention of helping.

-----

Sea Cloud Sect.

Daoist Huang Yun had a smug look as he said: “The Great Tang Dynasty... Heavenly Sword City... No matter how strong you are Tang Zhanlong, your Great Tang Dynasty will still be finished this time. Hahaha...!”

Nangong Jue looked like he was in deep thought as he didn’t show any reactions.

Main halls of the Sea Cloud Sect.

There were many Elders suggesting that they send out reinforcements.

Nangong Jue didn’t give any reactions since his own son had his life root destroyed near the imperial palace. This resentment has been suppressed inside his heart all this time, so for him to send out reinforcements was basically impossible.

Daoist Huang Yun continued saying with a smug smile: “We shouldn’t send even a single person for reinforcement. Isn’t that Tang Zhanlong very awesome? Isn’t their Tang family’s old ancestor a Profound Saint expert? Isn’t their Imperial Palace Guards and Black Dragon Legion invincible? We should just let them deal with those devil fiends because it has nothing to do with us. It’ll be great if everyone died in Heavenly Sword City! The Great Tang Dynasty has been stable for ten thousand years now but it looks like they’ll be collapsing this time.”

“Huang Yun, when one’s lips are gone, the teeth will get cold. Our Sea Cloud Sect will be the next to bear the brunt of the force so do you think our forces are enough to resist those devil fiends?”

“You’re right!”

“Sect Leader, give the command! The junior sect leader was indeed injured inside Heavenly Sword City but we should consider the greater good!”

“Command your mother’s dog fart! You guys weren’t there when Tang Zhanlong scolded our Sea Cloud Sect! He practically didn’t put our Sect in his eyes! Those enshrined experts of theirs have all disappeared meaning no one was willing to stay behind. Why should we send ourselves to death? And we’re sending ourselves to death on behalf of that dog’s fart Tang Zhanlong. Just let them all die and let the Tang family become extinct. Our Sea Cloud Sect can use this opportunity to swallow up the Great

Tang's territories and strengthen ourselves. And you want us to go save them? Did shit somehow enter your brains?!" Daoist Huang Yun was angrily lecturing them. None of the Elders had a higher status than him so he could berate them in such an overbearing manner.

The hatred he had for Tang Zhanlong was especially strong.

His beloved disciple, the future sect leader was ruined just like that.

The disdain that Tang Zhanlong had shown him made him extremely angry and he wasn't able to show his temper in Heavenly Sword City. Now that he was within the Sea Cloud Sect, he will definitely try to stop anyone advocating in saving the Great Tang Dynasty.

Many of the Elders present showed grim expressions.

A lot of them were people of the Great Tang. They would naturally get anxious when seeing their own nation in trouble and want to have the Sea Cloud Sect send out reinforcements.

Nangong Jue looked up and said coldly: "We shall observe longer before we come to a decision. The Great Tang Dynasty has been sailing too smoothly lately so it's time for them suffer some setbacks. Don't ever think that our Sea Cloud Sect is a toothless tiger!"

"Humph!"

Nangong Jue heavily harrumphed after saying that.

-----

All the alliance forces of the Great Tang...

Had similar attitude like the Sea Cloud Sect – they only continued to observe and didn't send out any reinforcements.

The Great Tang had been established for ten thousand years so they were a rather large cake to be sliced up.

Those forces had coveted this for a long time.

If by chance Heavenly Sword City gets broken through, then their opportunity will have arrived.

-----

Soul Hall.

At the edge of the Sun and Moon Altar.

Leng Hanshuang was frowning as she said: "Young miss, I'm afraid Heavenly Sword City will be finished this time and Luo Tian..."

Li Xue'er's brows were locked together as she walked onto the altar. Her figure transformed into starlight before disappearing. In the time it takes to ignite a spark on a flint, she had landed in the Soul Hall's star main hall. She had a determined look on her face as she said: "Soul King, can you send out some reinforcements to Heavenly Sword City?"

At the front of the main hall sat a man.

With an appearance of someone around fifty to sixty years old, the man's brows faintly quivered as he said: "Give me a good reason."

Li Xue'er didn't hide anything and said: "The man I love is at Heavenly Sword City. I am hoping that the Soul Hall can send out reinforcements to save Heavenly Sword City because of that."

"Presumptuous!"

Suddenly...

There was a cold shout from outside the Star main hall. "You will be marrying Murong Wanjian in two more years! Your current identity is Murong Wanjian's fiancée! How do you think people will look at you if your outlandish words reached Shattered Sky City?!"

An elderly person walked into the main hall.

There was some anger to his expression as he continued saying: "Soul King, the Devil Sealing Array has been opened and those devil fiends that have been trapped inside for ten thousand years have all rushed out. The Great Tang Dynasty and our Soul Hall have no relationship so there's no need to send out reinforcements."

Li Xue'er didn't even look at the elderly person.

Even though...

That elderly person was her biological uncle.

It was without her consent that this uncle of hers went and agreed on the marriage with Shattered Sky City.

If it wasn't for her mother, Li Xue'er would have never agreed to the arrangement. In the depths of her heart, Li Xue'er absolutely hated this uncle of hers!

Li Xue'er then said: "If Soul King doesn't agree to it, I will personally head there myself."

"You damn fool!"

"You're at the critical point of breaking through the Starlight stage. If you head to Heavenly Sword City now, all the work you've done previously will be in vain!" The elderly person said in anger.

Without waiting for him to finish, Li Xue'er continued to ignore his existence and treated his words like air. "Soul King, please agree to it."

"Not allowed!"

"Xue'er, I am not allowing you to do that."

A beautiful mature woman hurriedly walked into the main hall.

Li Xue'er's expression changed before respectfully saying: "Greetings madam mother."

The beautiful mature woman was called Zi Luolan.

When she saw her daughter acting in such a manner, her heart ached as she said: "You can use any reason you want except for that one. You are now someone with a marriage engagement so I forbid you to have any further relationships with that Jade Mountain City kid from the countryside. Back then when his father saved you, I have already repaid him back. And you have seen him already so don't forget the matter you promised me."

"Mother..."

"Big brother Luo Tian is really in danger."

"Please let me go."

"I promise you that I, I, I, will definitely see the marriage with Murong Wanjian to the end, as long as you let me save big brother Luo Tian." Li Xue'er was very determined and strong, but traces of tears were appearing in her eyes.

"No!"

“When I say no, I mean no!” shouted Zi Luolan. She didn’t change her mind even though there were tears in Li Xue’er’s eyes. In her own eyes, she couldn’t allow her daughter to have an unclear relationship with some country bumpkin.

She was completely regretting allowing Li Xue’er to go to Jade Mountain City back then.

Even if Li Xue’er could reason her way through the heavens this time, she still wouldn’t agree to it.

Li Xue’er’s expression changed as starlight started rising from her body. “I really cannot go?”

There was a hint of anger in her voice.

The elderly person’s expression became shocked as he angrily admonished: “What do you think you’re doing?! Hurry up and pull back your powers! You cannot even fully control the starlight powers so are you planning on destroying the Star main hall?!”

Li Xue’er’s gaze turned cold as she said: “So what if I destroy it?”

The so called Soul King who hadn’t spoken much immediately made a move. A powerful might descended and immediately restrained the starlight powers coming from Li Xue’er’s body. Once Li Xue’er was completely restrained, he walked down and said softly: “The Great Tang Dynasty is destined to be destroyed, and Heavenly Sword City is destined to become a dead city. You still won’t be able to change anything if you go there.”

Li Xue’er couldn’t hold back anymore as tears streamed down her face. She was crying completely full of heartache...

Chapter 334 – Completely Crazy

When disaster strikes, help shall come from all directions.

These were some of the words of the alliance when the Great Tang signed the agreement.

But now...

It had all become a joke; the world's biggest joke!

"Reporting!"

"Sea Cloud Sect sent a voice transmission saying something major has happened to their Sect and they cannot come."

"Reporting!"

"Quartet City cannot come!"

"Northern Dipper Sect cannot come!"

A series of voices made their reports.

Those major Sects and organizations that had set up branches inside Heavenly Sword City all made various excuses. None of them were able to come to provide assistance, making the entire Heavenly Sword City feel like it had been isolated.

Tang Zhanlong started laughing.

It was a laughter filled with bitterness and helplessness. "I have now seen the true faces of these Sects. When disaster strikes, help shall come from all directions – those words are basically used to mock me! Hahaha..."

He was laughing into the air while his body started releasing a terrifying aura.

Suddenly...

Tang Zhanlong's countenance turned serious as he shouted: "Send out my commands: Imperial Palace Guards and Black Dragon Legion, assemble and head out of the city for a battle!"

"Don't!"

Luo Tian immediately tried stopping him and said: "Your Majesty, the morale of those devil fiends is too strong right now. Each one of them exists that can fight off 10,000 soldiers by themselves. If you have the soldiers rush out just like that, the only outcome for them will be death. I request that your majesty hand over the military power over to me. I will definitely not let Heavenly Sword City fall!"

Monsters besieging the city?!

Luo Tian was too familiar with these scenarios.

Ten thousand year old devils are so awesome huh?

With ten thousand attacks all concentrated at one point, they will still end up being crippled no matter how strong they were!

When one laid siege to a city, it was all about strategy and tactics. You couldn't just rush out and blindly attack. This was similar to throwing an egg at a rock, courting your own death.

"No!"

"Prince Consort, your personal strength is indeed extraordinary and very strong but your knowledge in leading soldiers into battles is still quite far from us. If over a hundred thousand soldiers are handed over to you, I'm afraid they would be all wiped out in less than half a day. We definitely cannot allow this."

"That's right; fighting wars is not a game."

"Your Majesty, you cannot agree to his request."

The several Generals present all strongly stood out against it.

Luo Tian frowned before anxiously looking at Tang Zhanlong and saying: “Your Majesty, please believe in me. I can do it.”

Tang Zhanlong faintly smiled: “You haven’t disappointed us; the old ancestor and I haven’t misread you. Fighting wars is something I’m proficient at so all you need to do is take good care of Tang Tang and don’t leave the imperial palace.”

After saying that...

Tang Zhanlong’s peak Profound Venerate realm aura surged out. The imperial qi around his body was incomparably majestic as he shouted: “Send out my commands: All armies gather together and prepare for battle outside the city!”

“Don’t!”

“You need to believe in me!”

Luo Tian was so anxious that even a fire could be started in his heart.

But...

Tang Zhanlong was completely indifferent to it.

He understood that Luo Tian’s personal prowess was very special but this was a war they were talking about. A battle that involved over a hundred thousand soldiers and the lives of over ten million citizens of Heavenly Sword City. He couldn’t be careless with his decisions.

Luo Tian was just a child that hadn’t even reached twenty years of age.

No matter how powerful he was, there's no way he can do a good job of commanding and guiding an army of over a hundred thousand.

This was impossible!

This was something everyone would agree on. No matter how strong a child not even twenty years old yet was, there's no way they could have developed an ability to lead a hundred thousand strong army. When facing an army of devil fiends, most likely they would be scared silly before the fight even starts.

It wasn't that he didn't believe in Luo Tian but because it was basically an impossible matter.

Tang Zhanlong was wearing a golden robe with a golden sword by his side. He then looked at Luo Tian with a tenacious gaze and said: "Take good care of Tang Tang. If I don't make it back alive, give your support to Tang Jiu because he will be the next monarch."

Luo Tian was so anxious that he just directly said: "Damn it! Can't you just believe in me? You guys are practically courting your own deaths by rushing out there. Just consider it as me begging you to believe in me! Do not rush out there; use the strategic advantage of the city walls..."

"What did you just say?!"

"You say our actions are courting our own deaths?"

"The army hasn't even gathered yet and you're ruining the morale! If I wasn't giving you some face because you're the Prince Consort, this General would have directly killed you already for saying that!"

One of the Generals angrily scolded Luo Tian.

Luo Tian directly glared at him once before pretending he didn't exist. He then continued: "Your Majesty, our city's walls are several hundred meters tall and is a natural barrier that can be used to our advantage. If you opened the city gates, most likely the devil army will take advantage of that. By that time, I'm afraid..."

“You dare to continue talking?!”

A surge of Profound Venerate realm powers surged out of that General as it instantly crushed towards Luo Tian.

Luo Tian was already angered as he clenched his fists and activated his level 5 Berserk skill. He then scolded out: “You damn motherf\*cker, scram to the side for this daddy! You don’t know shit! You’re just someone with a head full of straws and don’t know how to fight wars!”

“I don’t know how to fight wars?”

“I, Heilong Wang don’t know how to fight wars? Kid, the amount of wars I’ve fought in is more than the time you’ve been alive and you say I don’t know how to fight wars? If the Emperor wasn’t here right now, I would’ve slaughtered you already” said Heilong Wang with a face full of anger.

Tang Zhanlong then shouted: “Enough with the argument! Luo Tian, you will protect the imperial palace.”

“Heilong Wang.”

“Li Yu.”

“You two Generals will accompany me as we fight our way out and demonstrate our Great Tang’s prestige!”

Tang Zhanlong had no other choice.

Absolutely no other choices.

Even if he gave Luo Tian the military power, those insufferably arrogant Generals wouldn’t listen to him at all. And at that time, the consequences would just be even more disastrous. He could only personally

lead them out to battle, which will show the commoners of Heavenly Sword City that he was fighting on their behalf.

He could only do this to stabilize the situation in Heavenly Sword City so that it wouldn't get worse.

Except...

Tang Zhanlong didn't think what would happen to Heavenly Sword City if he lost the battle.

He had no time to consider this issue.

Luo Tian's heart felt like it had turned to ashes. He didn't say anything further and turned around to stride out of the audience hall.

Blindman Liu quickly followed along.

Tang Zhanlong watched Luo Tian's back disappearing into the distance and sighed inside. "Luo Tian, maybe I should have believed in you but I have no other choices. I can only do it this way. The safety of the imperial palace will be handed to you from now on!"

After calming his mind, Tang Zhanlong discarded all the chaos going on inside him. Tang Zhanlong then mounted a large Fire Cloud Unicorn that had flown over. He pulled out his glittering golden sword and shouted: "Open the city gates! Kill them all for me!"

-----

"It's over."

"It's really going to be finished this time."

Blindman Liu grumbled out loud as he could sense the anger coming from Luo Tian.

Luo Tian felt Tang Zhanlong was too much of a purist that adhered to traditional rules and structures. But in reality, Luo Tian's two lifetimes could still not be matched up to ten percent of Tang Zhanlong's experience and knowledge. The number of considerations in play was something Luo Tian wasn't yet capable of realizing.

"Dragon head!"

"Where are we going?"

"Fatty and the others are waiting outside the imperial palace, so where are you going right now? It looks like you're going the wrong way." Blindman Liu anxiously asked while trying to catch up to Luo Tian.

Luo Tian was really angry inside.

Tang Zhanlong was destined to lose this battle yet he couldn't persuade him.

There's no other choice.

Since he lost the assistance of the army, then he could only count on himself.

A crazy thought had suddenly appeared in Luo Tian's mind. It was so crazy that even he was a bit scared of it.

He didn't leave the imperial palace but was actually going towards the national treasury!

"Blindman Liu, have Feng Lei and the others return and wait here for my commands," said Luo Tian. He then looked up at the sky, clenching his fists and saying to himself: "Let's go completely crazy this time!"

Chapter 335 – We Shall Head Out Of The City!

The entrance to the national treasury.

Two guards were blocking Luo Tian.

The reason was very simple – without the order of the Emperor, no one was allowed inside. The last time they had received orders so Luo Tian was able to enter without any restrictions.

Just when Luo Tian started getting anxious...

Tang Qingtian's voice was heard from inside, making the two guards shiver in fear and immediately moving aside.

Luo Tian entered the national treasury. It was just like before, an awe-inspiring sight greeted him but he didn't have time to be captivated by it. He directly said: "Old Senior Tang, I need all the treasures from the national treasury and all the items that contain profound energy."

Tang Qingtian didn't appear and only said: "Granted!"

The Great Tang was in a crisis, so what use was there if they had so many treasures?

Luo Tian didn't bother with any nonsense and responded: "Thank you. Don't worry old senior, I will definitely get Heavenly Sword City through this crisis!"

He owed the Great Tang Dynasty a lot.

He owed Tang Zhanlong, Tang Qingtian, and Tang Jiu.

Luo Tian didn't like owing people favors so he was planning on repaying them all at once.

Luo Tian was cleaning out all the treasures as he didn't let go of any items containing profound energy. He was similar to those homeless trash collectors and was grabbing everything within reach. The incomparably huge national treasury was thus cleared out in just a few hours.

It was practically bare now!

After wiping out the place, Luo Tian still hadn't seen a glimpse of Tang Qingtian. He then walked into the most inner parts of the treasury and saw a wall carving of dragons soaring through the clouds. His right hand gently touched the mural as he said: "I will definitely protect the Great Tang."

On the other side of the wall.

Tang Qingtian had a pale expression.

He had suffered a serious injury after burning his life force, and wouldn't recuperate for at least several decades.

Otherwise, he would've exited his seclusion already.

Hearing Luo Tian's words, his heart felt a bit relieved. He wasn't like Tang Zhanlong because he fully believed in Luo Tian. It was the same faith as to how he believes Luo Tian will step into the supreme stage of the Profound Saint realm in ten years time. It was technically an impossible thing but he still believed in it.

He too was unable to understand why he held such a belief that was similar to pure trust.

"Go forth!" Tang Qingtian softly said.

There was no hesitation in Luo Tian as he turned around and left.

-----

Outside Heavenly Sword City.

Sounds of slaughter were everywhere. The devil fiends surging out from the Devil Sealing Array were like an unstoppable force. They killed everyone in sight and not even birds were spared.

Devilish flames reached the skies!

The heaven and the earth had changed, causing upheaval in the entire Tianxuan Continent.

All those high and mighty super experts only watched from the void and didn't have any intentions of helping.

It was the same with those Sects supposedly in alliance with the Great Tang, and some were even smugly smiling behind closed doors.

Apart from this...

Many forces were lurking in the background with covetous gazes since this was a huge opportunity for them. The Great Tang was a wealthy dynasty, and only when those Sects grab a piece of the pie will their strengths increase greatly. That's why many people were secretly hoping for the demise of the Great Tang.

They were looking forward to the destruction of Heavenly Sword City!

"His Majesty the Emperor has arrived!"

"Imperial Palace Guards, Black Dragon Legion, kill your way out!"

"There's no need for any worry!"

"Our Emperor will definitely save Heavenly Sword City from this crisis. Several millenniums ago, the devil race tried to invade us but they were beaten back. General Heilong Wang and General Li Yu are both divine and mighty Generals. They will definitely be able to resist those devil fiends!"

Inside the city, many civil servants were trying to placate the commoners from causing a disturbance.

The situation had somewhat stabilized a bit.

Outside the city, thunderous sounds of explosions were constantly heard. Fiery lights and blood mists surged into the skies. Sounds of slaughter made the listeners feel palpitating fear. Many people hid inside their homes while holding onto each other and praying in their hearts.

Inside the imperial palace.

Luo Tian returned to his residence where everyone was waiting for him in the courtyard.

“Boss!”

“Dragon head!”

“Boss, what kind of plans do you have?”

“My father won’t be in danger, right?”

“Bastard, quickly say something. This time, we will definitely all listen to you and not act recklessly.”

“En! Big brother Luo Tian, I can fight as well.”

“This one can too!”

Everyone was staring at Luo Tian.

At this moment...

Luo Tian was their support pillar and their only hope.

Luo Tian heavily exhaled before saying: "I'm afraid that the Imperial Palace Guards and the Black Dragon Legion will be completely annihilated and Heavenly Sword City might fall as a result. Tang Tang, Ninth brother, you two need to be mentally prepared. If the army had been handed over to me, there might be a trace of hope. But now it looks like..."

Luo Tian clenched his fists.

Tears started streaming down Tang Tang's face.

Tang Jiu's face immediately changed before saying: "Before my imperial father departed, he left 50,000 palace guards behind and gave me the military power. If these troops aren't enough, we can recruit more people inside Heavenly Sword City. There aren't any Profound Saint experts left but I believe we can still recruit some Profound Ancestor experts. After all, they are citizens of the Great Tang so when their country is in trouble, they will definitely extend a helping hand."

Qin Yue'er then said: "There are still some branch schools of those Sects around. They cannot leave so they might even help us out."

"You're right!"

"Eastern city, southern city, western city, and the northern city; we can definitely recruit quite a bit of people. I believe many people are waiting for our call since everyone should have the mentality of contributing to their own country."

"En."

When Luo Tian heard all of this, his heart started beating faster. He then said: "If we can recruit at least 100,000 people, perhaps we will have a chance at surviving this."

"From the looks of it..."

“My plans only need to have some slight changes.”

Luo Tian made up his mind and said: “Good! Ninth brother, sister Yue’er, Blindman Liu, you three split up and gather those experts. Aren’t we about to do that something Sky ranking competition? Just say whoever kills the most devil fiends, that person will be number one in the Sky rankings and have his name recorded into the historic annals of the Great Tang.”

There must be incentives involved in order to stimulate a human’s enthusiasm.

Many people should have come for the Sky ranking competition so their strength shouldn’t be too bad.

Xuan Yuanyi suddenly clenched his fists.

Tang Jiu immediately said: “I will take care of it right now!”

“Dragon head, I will be off as well.”

“I will go to persuade those Deans of the Sect branch schools.”

Right after...

The three of them quickly left the group.

Tang Tang immediately walked up and said: “What can I do? I can do anything and I promise not to mess it up.”

“Big brother Luo Tian, there’s also me.” An Chunchun quickly added in.

Luo Tian faintly smiled and said: “You three will go to the larger businesses to get spiritual herbs. The more the better and it doesn’t matter what types of herbs they are. Just get as much as you can. Here’s the money, and make sure you be careful while doing this.”

Luo Tian took out ten gold cards containing over a few hundred million gold. This was the money he gained from his auctioned items.

Even though he basically destroyed the auction venue, they still gave Luo Tian all the money he deserved without a cent less.

When Tang Tang received those cards, she brought An Chunchun and Da Ji out of the imperial palace.

“Boss!”

“Now there’s only the three of us left.”

“What do you need us to do?”

“I already can’t wait any longer.” grinned Feng Lei. His body had fully recovered after recuperating for a whole month and he felt his strength had improved to another level. The power of the Ten Thousand Beast blood essence inside him could also be released much more easily now as well.

It was the same with Xuan Yuanyi as he looked at Luo Tian with excitement.

Luo Tian grinned before shouting: “We shall head out of the city!”

Chapter 336 – Combining All Forces

The figure of three people shuttled off at high speeds!

They instantly arrived at the city gates.

The city gates were closed. Only when Luo Tian brought out a jade plate that Tang Jiu had given him previously was he allowed out.

“There cannot be any mistakes and has to be precisely the positions I’ve mentioned. Drop off all the items I gave you and don’t save any of them on your person. Do you guys understand?” Luo Tian once again advised them.

Xuan Yuanyi and Feng Lei nodded and said: “Understood!”

In fact...

They both had no clue what Luo Tian was trying to do.

They both thought they were exiting the city to slaughter devil fiends to their heart’s content and never imagined they were going out to do labor work.

What made them completely lost was all these good stuff like earth grade and spirit grade xuan weapons had to be all thrown away. This... They both had grown up in poverty so seeing all these good things being thrown out made their hearts ache like crazy.

“Good!”

“We will split up and take action. Once you’ve finished according to my instructions, immediately return to the city and don’t stay out here. And you definitely aren’t allowed to head to the battlefield, do you both understand?” Luo Tian’s tone was very serious since he was worried fatty couldn’t stand being so bored and would rush out there.

Feng Lei faintly smiled and said: “Don’t worry boss. I know what we’re encountering right now so I won’t give you any extra trouble.”

Xuan Yuanyi also faintly smiled and said: “Don’t worry boss, we will keep the big picture in mind above all else.”

Luo Tian then said: "Good! We'll take action now!"

"Whoosh~!"

"Whoosh~!"

Two figures darted off from Luo Tian's left and right sides. Luo Tian then looked into the distance at the dark pressure permeating the southeastern direction, clearly depicting the aura of the devilish flames had surged into the sky. He then said to himself: "You guys need to hold on. Tang Zhanlong, you're my father-in-law so you cannot die!"

Luo Tian was worried.

Extremely worried.

But he currently had no time to care about the battlefield situation where Tang Zhanlong was at.

The only thing he could do right now was to protect Heavenly Sword City. As long as Heavenly Sword City stands, then the Great Tang will exist. Once Heavenly Sword City is gone, then that will spell the end of the dynasty. And wars would certainly erupt all over the territories of the Great Tang as a result.

By that time, the common citizen will truly be plunged into a life of misery and suffering.

Luo Tian became serious as he too took action.

If he was able to succeed...

Who knows what kind of realm would he level up to?

Luo Tian descended to a certain location and dropped off a bunch of magical artifacts and xuan weapons. Energy started condensing at the palm of his hand before he slammed down onto the ground,

smashing all those treasures deep into the earth. After burying those items, he quickly left and arrived at another location.

Feng Lei, Xuan Yuanyi were both doing the same thing.

The three of them got busy doing their task.

Inside the city.

A flurry of actions was undergoing in an orderly manner.

Blindman Liu drummed up support and many people started standing up to join him. When one's country was in trouble, those experts that originally put on airs had shelved it to help out.

"Count me in!"

"Isn't it just the Devil Sealing Array? My Great Tang had stood for ten thousand years so what is a mere Devil Sealing Array considered?"

"Count me in! Even though my cultivation is only at the Profound Ancestor 1st rank, I need to play my part when my country is in crisis."

"There's also me!"

One joined after another.

Northern city, southern city, eastern city, western city; continuous experts joined up. They were typically figures with inflated egos yet they dropped that facade and followed behind Blindman Liu. Everyone's expression was especially determined.

When one's country was in trouble, the citizens share a common responsibility to assist.

Over to those schools set up by Sects.

There was not a single person seen at the Sea Cloud Sect. Qin Yue'er went to drum up support with the other schools and finally persuaded some people.

Gradually, the number of people in those schools joining up started getting larger.

Their Sects weren't sending reinforcements and they had no ability to change that. They too had a stomach full of anger because they felt that they had been abandoned. Qin Yue'er used this point on them and managed to have those strong instructors join their cause.

An Chunchun, Tang Tang, Da Ji; those three in their only little group were even more successful.

They barely encountered any obstacles.

"Uncle, please just sell it to us."

"Grandpa, we really need those spiritual herbs."

"This beautiful elder sister..."

Everyone encountering An Chunchun had their defenses melted by her cute and adorable looks.

Not only were they selling the spiritual herbs at low prices, they were even giving quite a bit of them to the girls for free.

It wasn't just the herbal stores...

Those xuan weapon stores, big trading partners and various associations were all stepping up in support. Everyone's hearts were united when facing such a crisis. This was one of the reasons why the Great Tang was able to stand strong for the past ten thousand years.

Gradually...

More and more people gathered in the city's main square and items were stacked up like a mountain.

The people here were all filled with battle intent.

Their hearts were in unrest as they heard the sounds of slaughtering and dying outside the city.

Everyone was able to successfully finish the task that Luo Tian assigned to them, except for Tang Jiu.

The sky slowly turned dark.

Luo Tian, Feng Lei, and Xuan Yuanyi returned to the city center where over a hundred thousand martial artists congregated. These martial artists were all at or above the Profound Spirit realm and there was also a hundred thousand cultivators below the Profound Spirit realm on standby.

Looking at so many people, Luo Tian felt a huge rush inside his heart.

"We have a chance!"

"There's definitely a chance!"

Luo Tian's heart tightened as he unconsciously clenched his fists.

Standing at an elevated place, Luo Tian shouted: "Everyone in Heavenly Sword City doesn't need to worry. I, Luo Tian, will definitely protect this place and not let those damn devil fiends invade the city. This, I promise with my life!"

Luo Tian's voice contained the power of the Lion Tiger Gold Shattering Roar skill so it was transmitted to every corner of Heavenly Sword City.

Everyone heard Luo Tian's voice.

All the people in the square were staring at him.

Many people recognized Luo Tian and shouted in excitement: "I recognize him! He's the one that suppressed the Sea Cloud Sect's junior sect leader Nangong Hao! He is really strong and the power he possesses is simply too fierce!"

"Hahaha... what is suppressing Nangong Hao considered? He's the man that even the huge ancient devil bowed down to! He was way too cool when he was in northern city!"

"Those things don't count for shit! When I was in the Dao Shang's auction house, I personally saw him kill an expert at the peak Profound Venerate realm! It was actually one of the Protectors of the Dao Shang Alliance – Long Tian! How powerful do you think he is if he can even kill an expert at the peak Profound Venerate realm?"

"Those things you have all mentioned are truly not considered much."

"Princess Lasting Peace, Sea Cloud Sect's sexy fairy, that lolita cute enough to send people to their deaths, and that demon fox clan woman so beautiful that she could make one suffocate; they are all following him by their own free will! Now that's what a real man is all about. Prince Consort, from today onwards, this one called Zhu Laosan will start worshipping you."

Countless voices of discussion was heard.

Luo Tian's deeds were quickly being spread about. When those people that only knew about the incidents but don't recognize Luo Tian's face were all staring at him and seeing a youth that was less than twenty years old, they couldn't help start feeling a sense of worship towards him as well.

Luo Tian's ability to summon supporters had upgraded to an unprecedented level!

At this time...

A little eunuch from the imperial palace anxiously rushed over and said: "Prince Consort, you need to quickly respond. Ninth Prince and the other Princes have started to fight amongst themselves."

Luo Tian swept his gaze about and found that Tang Jiu wasn't in position and his 50,000 palace guards hadn't appeared yet. He couldn't help become anxious since those 50,000 palace guards were the elites he was counting on and were the key to this battle's victory. Nothing can happen to them!

He instantly rushed out.

Chapter 337 – Killing A Prince?

"Old Nine, what qualifications do you have to take away the palace guards?"

"Why don't you take a look at your own identity? The palace guards are an army specifically for the imperial palace. If you take them all away, who's going to protect the palace? From the way I see it, has shit entered your brain or something?"

"That's right!"

"Don't think by attaching yourself to a foreign dog and you're all that. He's just a bumpkin from a tiny little place! I really don't understand what imperial father sees in him and actually betrothed thirteenth sister to him. And thirteenth sister is such a cheap harlot for accepting such a man! Ptui~!"

Inside the imperial palace.

Tang Jiu had a really ugly look on his face. The corner of his eyes was swollen, there was blood at the side of his mouth, and his body was covered in dirt.

It was very clear...

He was just in a fight and was being ganged up on.

Tang Jiu coldly swept his eyes past them. Looking at his own biological brothers, he started coldly sneering in his heart: “Brothers? They’re basically all dogs’ fart!”

Immediately after...

Tang Jiu coldly said: “Elder brother...”

“Humph!”

“Is elder brother something for you to call? Call me Crown Prince, you damn unruly thing!” A man dressed in luxurious clothing shouted.

The corner of Tang Jiu’s eye twitched a few times before he said: “Imperial father is outside the city fighting with all his effort. The army of devil fiends from the Devil Sealing Array might invade us at any given moment so we need to be even more united at a time like this. Heavenly Sword City needs those 50,000 palace guards. Luo Tian also needs them, so...”

“Needs your own fart!”

“If you keep mentioning that damn dog thing, do you believe we’ll give you another beating?”

The Crown Prince coldly glared at Tang Jiu. He then held the military seal and said in ridicule: “What qualifications does an outsider like him have to control the Imperial Palace Guards? What if by chance that he uses them to rebel? Imperial father may have given you the military power but it doesn’t mean you can use it however you want. Now that the military seal is in my hands, the 50,000 palace guards need to listen to me. They need to protect the imperial palace with all their effort and they aren’t allowed to take even a single step out!”

“We absolutely support elder brother’s decision.”

“The palace guards are here to protect the imperial palace so we cannot let him bring them out. If that damn mongrel takes them away, there’s a high chance that he’s going to use them to rebel!”

“I am actually suspecting that it was him that destroyed the Devil Sealing Array and let the devil fiends out. He wants to snatch our Great Tang during the chaos! What vicious intentions!”

“If it weren’t for him, we wouldn’t have offended the Sea Cloud Sect, the Southern Mountain Sect, Heavenly Plume City, and the Dao Shang Alliance. It was all because of him! He is definitely here to create chaos in our Great Tang! Someone like him should be hacked into pieces!”

For a brief moment...

Many of the Princes started scolding.

Tang Jiu’s face was turning uglier and uglier. He was clenching his fists while glaring at the Crown Prince.

The Crown Prince then said in ridicule: “What? You’re unhappy about it? Come snatch the military seal from me if you have the guts, hahaha...”

“Without the protection of General Chen and Wang, you are nothing more than a pathetic dog. Hahaha...”

“Hahaha...”

Another round of ridiculing and laughing was heard.

Those Princes didn’t know how stupid they really were.

After enjoying a life of luxury and peace, they had no clue the immensity of the heavens and earth.

Tang Jiu's eyes started turning bloodshot and killing intent started surging out from his heart. He then shouted: "It doesn't matter if you ridicule me but you bunch of useless crap aren't qualified to mock Luo Tian! You guys aren't even qualified to say his name!"

"Oh oh?"

"Getting angry?"

"Are you turning into a dog and biting people now? Hahaha..."

"After hanging around that dog Luo Tian, you've also become a crazy dog too." The Crown Prince Tang Qin mocked.

Tang Jiu couldn't endure anymore.

He raised his head and consumed a pill.

"Boom~!"

The aura on his body drastically changed into one at the Profound King realm. His gaze locked onto Tang Qin before scolding: "I already said that you aren't qualified to say the name Luo Tian!"

Tang Qin's expression faintly changed. His body hiddenly shivered but he still said with disdain: "What? You want to make a move?"

"So what if I'm going to make a move?"

Tang Jiu became enraged as his figure rushed forth.

Tang Qin's mouth revealed a smug and cold sneer. He didn't move but said: "Bodyguard Jin, kill him for me."

As his voice faded...

A figure suddenly appeared next to Tang Qin. A pair of fists then struck forth smashing towards Tang Jiu.

“Bang~!”

A dull impact sound was heard.

Tang Jiu’s original strength was only at the Profound Spirit 8th rank. After consuming the Profound Burst Pill, his cultivation was raised to the early Profound King realm and wasn’t an opponent to Jin Kun who was at the Profound King 7th rank.

Tang Jiu’s body flew off like a kite with its string cut.

He landed heavily onto the ground and sprayed out a mouthful of dark colored blood.

Tang Qin brought the other Princes forward before stepping on Tang Jiu’s head. He then forcefully stepped down before saying in ridicule: “You want to fight with me? You aren’t qualified to! Do you really think you’re all that when imperial father kind of favors you? Do you know who the Crown Prince is? It’s this daddy! An old nine like you wants to piss and shit all over my head? You’re practically courting your own death!”

After saying that...

Tang Qin’s gaze swept out before killing intent was seen in his eyes. His right foot fiercely stepped down onto Tang Jiu’s face before lowering himself and saying: “You can go to hell for me now. It won’t be long before I send that damn mongrel down there to accompany you.”

“Bodyguard Jin, kill him for me!”

Jin Kun's eyes turned gloomy. He didn't hesitate and pulled out a sword by his waist before directly stabbing right at Tang Jiu's heart.

Tang Jiu bitterly chuckled before saying: "I'm sorry idol; once again I cannot accomplish the matter you had me do."

After saying that, he closed his eyes.

He was unwilling to accept this!

When facing his own biological brothers, he would still be unable to take any fatal actions when moving against them.

But now...

He was at the brink of death.

The sword in Jin Kun's was about to stab down when a figure suddenly descended. A pair of fists smashed out like hammers, the power creating a dull thunderous roar.

"Boom~!"

Jin Kun's body directly flew out for several hundred meters. His chest had become a bloody mess mixed with chunks of flesh and bones. His eyes were bulged out as he didn't even know how he had died.

Instant kill!

"Ding!"

"Congratulations to player Luo Tian for killing..."

The system gave off an alert tone.

Luo Tian stretched his hand out towards Tang Jiu as he said with a smile: "Ninth brother, it won't be fun anymore once you die. There's still a lot of exciting things in this world, so why are you in such a rush to die?"

Tang Jiu opened his eyes and saw Luo Tian. He started smiling in excitement, and there was even a hint of tears at the corner of his eye. He grabbed onto Luo Tian's hand and got up while saying: "You've saved me once again."

He was feeling incomparably touched.

"Let's go."

"They have all arrived and we're only waiting for you." Luo Tian didn't even give Tang Qin a single glance.

Without waiting for Tang Jiu to say anything...

Tang Qin's expression greatly changed. Seeing how Jin Kun was deader than a doornail off at a distance, his rage surged into the sky! "You damn dog thing! You dare to kill my bodyguard?! This is considered rebelling and an attempt at killing the Crown Prince! Someone come! Capture him for me and execute him on the spot!"

Luo Tian's eyes turned icy as he glared at Tang Qin while waves of killing intent were surging from him.

Tang Jiu's gaze turned to Tang Qin as he said in seriousness: "Elder brother; hand over the military seal. The Imperial Palace Guards is related to the safety of Heavenly Sword City so I hope that you will focus on the bigger picture."

"Humph!"

“Old Nine, you can forget about me handing over the military seal!”

“You and that damn mongrel can go to hell for this daddy!” shouted Tang Qin. He then pulled out the military seal and directly gave out a command: “All Imperial Palace Guards present; kill them for me!”

Power inside Tang Jiu started circulating.

Luo Tian looked at the undefeated value inside the system interface and blocked in front of Tang Jiu. He then coldly smiled and said: “Since he needs to die, then you might as well let me do the killing!”

Chapter 338 – Never Give Up

Since he had to die...

Then he might as well be the bad person to do it.

Fratricide was very common in the imperial family. But once Tang Jiu becomes the Great Tang’s Emperor, it would be rather hard for him to escape being criticized for it.

That’s why Luo Tian was blocking Tang Jiu.

He wasn’t someone who cared for the other’s identity or would give him a chance to continue living. Since this guy wasn’t cherishing his own life, then he cannot blame Luo Tian.

Moreover...

What Luo Tian enjoyed the most was killing despicable people!

Luo Tian stepped forward with a grin. He didn’t give Tang Qin any chance to speak as he fists were already in motion. His body dashed forward and his pair of fists were like cannons smashing into Tang Qin’s chest. A stream of force directly shot out with a “bang,” and Tang Qin was sent flying!

Instant kill!

The military seal in Tang Qin's hand was thrown into the air before directly landing in Luo Tian's hand.

Also at this moment...

"Ding!"

"Congratulations to player Luo Tian for killing Tang Qin. You have gained 1000 experience points, 200 profound energy..."

"Congratulations to player Luo Tian for gaining +1 to the undefeated value."

"Ding!"

"Your undefeated value has reached 2000 points. Do you wish to exchange it for a bloodline?"

"Heh heh..."

Luo Tian was in joy as another 2000 undefeated points were in his hands. He never expected that after arriving in Heavenly Sword City, he had managed to kill so many people that deserved their deaths. He instantly made a thought and said internally: "Exchange it for the Vermillion Bird Bloodline."

"Ding!"

"Congratulations to player Luo Tian for successfully exchanging the Vermillion Bird Bloodline."

Luo Tian looked at the drop of intensely vigorous blood essence inside him and said happily to himself: "This is the second bloodline I've attained now. I'm only missing two more before I can fuse all four

divine beast bloodlines together. By that time... heh heh... Murong Wanjian, don't you have that true dragon's bloodline? Just watch how badly this daddy's four divine beast bloodline is going to suppress you!"

At this moment...

Luo Tian stopped thinking about it. While holding the military seal, he tilted his head to look at all the other Princes who didn't dare to breathe loudly. He then coldly harrumphed: "Who else wants to act cheap and despicable here? I really don't mind killing a few more."

The Princes lowered their heads; their faces slightly pale and their bodies shivering a bit.

No one dared to say a thing.

Luo Tian swept his eyes coldly once more before he was too lazy to continue looking at them. "Let's go Ninth brother; we're all just waiting on you!"

Tang Jiu nodded: "Okay!"

-----

Outside the city.

Tang Zhanlong was covered in blood. The imperial qi around him was flickering like a lamp wick that was about to out of oil. His eyes were staring at the large army of devil fiends in front of him while his right hand was holding his golden sword. His expression changed as he roared out: "Kill them for me!"

The surrounding area was filled with corpses.

This is when one would use the saying "a field littered with corpses."

The majority of them were corpses from the Imperial Palace Guards and the Black Dragon Legion.

When facing such ferocious devils, they were unable to resist them at all.

“Your Majesty, you need to quickly leave! It’s enough for us to block them here!”

“Your Majesty, quickly go!”

“Quickly go!”

Heilong Wang and Li Yu were desperately guarding Tang Zhanlong’s side while several personal guards were blocking the front.

Utter defeat!

Defeat to the point of a complete mess!

They practically had no strength to resist! When facing those devil fiends pouncing at them like starving tigers, their defensive and offensive powers were completely useless. They couldn’t withstand a single blow and the entire front line collapsed!

At this moment...

Tang Zhanlong didn’t retreat and instead shouted: “Kill them for me! Give the common citizens inside the city a little more time! Having one extra person escape means one more life saved! I hope that...”

He then said in his heart: “Luo Tian, please protect Tang Tang and the others.”

His intention was to die right here!

Tang Zhanlong's gaze changed as the golden sword in his hand made him release imperial qi at his maximum power. The battle intent on his body was similar to flames being sprayed out. He once again rushed into the midst of the devil fiend army and roared out: "Kill them!"

Heilong Wang and Li Yu were both covered in wounds from top to bottom.

They too rushed into the midst of the devil fiend army.

The moment these two had joined the army, they have always had the intention of dying for their country. It had never happened even after fighting in wars for several centuries. Now, these two were smiling very calmly. One of them shouted excitedly: "Imperial Palace Guards!"

"Black Dragon Legion!"

"Kill these bastards for me!"

For a brief moment...

The soldiers formed an offensive formation before rushing into the devil fiend army that was similar to a tsunami of bodies.

"Human race!"

"Lowly creatures!"

"How can a bunch of lowly ants block my army? I am going to kill all the humans on this continent! I want this world to be completely ruled by me! Wahahaha..."

A figure with a gigantic body, blood red glowing eyes, and devilish flames raging around his body was seen.

Devil Monarch Skysoul!

A devil fiend that had been sealed up for several tens of thousands of years.

He was once this continent's most vicious devil fiend.

After being sealed up for tens of thousands of years, the hatred in his heart had reached a terrifying level. He had promised himself inside the Devil Sealing Array that if he were ever to leave this place, he would turn Tianxuan Continent into a living hell!

His voice was heard over a million kilometers out!

This made many people's mind tremble, and fear rising from deep within their hearts.

Inside Heavenly Sword City...

People were panic-stricken. When those people in the main square heard the Devil Monarch Skysoul's voice, their faces had turned a shade paler.

Luo Tian's voice shook as his Lion Tiger Gold Shattering Roar exploded out. "My fellow brothers and fellow citizens of the Great Tang, foreign forces are invading us! Everyone has a responsibility when one's country is in trouble... motherf\*cker, this daddy isn't good with speeches."

Luo Tian was hiddenly annoyed.

He really didn't know what to say under such circumstances to incite morale in people.

Back in his previous life, there was no need for him to say such words. All he had to do was shout some random slogans, turn on some upbeat music, and people's fighting will would be ignited easily.

And now...

Luo Tian was in thought for a while before his eyes changed. He then shouted: “The only thing I want to say is that we’ll just deal with whatever problem comes our way! Whoever dares to come at us, we’ll just beat those motherf\*ckers to death!”

Feng Lei and Xuan Yuanyi stood out and shouted in unison: “Beat those motherf\*ckers to death!”

“Beat those motherf\*ckers to death!”

“Beat them to death!”

“Beat them to their graves!”

The sounds of those shouts started off sparse but eventually spread throughout the entire city.

Luo Tian started smiling in excitement.

This was exactly the effect he wanted.

But...

They were still missing one thing – an upbeat battle song!

Luo Tian then shouted: “Fellow brothers! The moment whether we live or die has come! Citizens of Great Tang! Never give up! Everyone get up onto the city walls for me!”

“Get up onto the city wall?”

“Aren’t we killing out of here?”

“Why are we getting up onto the city walls?”

“Stop worrying about it and just do what Prince Consorts tells you! He definitely must have some sort of reason for this!”

“Everyone get up onto the city walls!”

For a brief moment, those assembled martial artists all rushed up to the top of the city walls in an orderly fashion.

Also at this time...

A system alert tone suddenly sounded off in Luo Tian’s mind.

“Ding!”

“Congratulations to player Luo Tian for triggering the War Leader’s System. You have gained the authority to give commands!”

“War Leader’s System – activating it can increase the group’s mental energy and their will to fight.”

“Damn!”

“This is good stuff!”

“I’ve actually become the commander... then will all the experience points from killing devil fiends belong to me?”

“If that was the case...”

Luo Tian started laughing with excitement inside his heart.

Immediately after...

Upon watching everyone lining up along the top of the wall, Luo Tian called Blindman Liu over. "Blindman Liu, since you are good with music, the imperial palace's band will be handed over to you. Within one hour, you better rehearse this song with them and give me a satisfactory outcome."

"A song?"

"Dragon head, you can write songs?"

Blindman Liu was stunned as he continued asking: "What kind of song is it?"

Luo Tian said with an excited smile: "It's called Never give up!"

Chapter 339 – It's Time For Me To Make An Appearance

All the warriors were on top of the city walls.

Looking at the swath of enemies outside the eastern gate, everyone's gaze was trembling.

Those sounds of slaughter felt like they were coming from the depths of hell, making everyone's fear increase multiple times. The ones present with lower cultivations immediately started trembling.

Fear!

Incomparable fear!

The sky looked like it was being suppressed by devilish flames.

The devilish flames that covered the sky looked like it was trying to devour everything in heaven and earth. And it was getting closer and closer to Heavenly Sword City!

Luo Tian leaped into the air and descended onto the top of the city wall. He watched how the devil fiend army was getting closer and some lonely figures fighting desperately to resist their advancement.

Suddenly...

Someone cried out.

“It’s his majesty!”

“It’s the Imperial Palace Guards!”

“It’s General Heilong Wang!”

“They... out of 200,000 elite troops, they’re the only ones left? These devil fiends are too powerful! We... we... are we even their opponents?”

“Gulp~!”

Everyone was in fear.

Everyone was trembling, and that included Luo Tian as well.

He too was trembling in fear.

But what he was clear on was that someone needed to stand out at this moment. No matter how strong the opponent was, once you started getting scared, you wouldn’t be able to display your strength however powerful it may be. Luo Tian’s voice turned heavy as he shouted: “Fellow brothers!”

“I know everyone is scared right now because I am scared as well!”

“But everyone needs to think about your own family and your fellow brothers and sisters. If we become scared and our final line of defense collapses, what would happen to them? They will die by the hands of these devil fiends in the most miserable way!”

“For our family and for our country, what do you think we should do?!”

For a moment...

Luo Tian’s question caused a brief silence.

A soft sounding voice was then heard. It wasn’t very loud but it was extremely crisp and clear so that everyone could hear it.

“Kill them all!”

Once that was said, Luo Tian roared out in excitement: “Spoken correctly! We shall kill them all!”

“Boom~!”

Luo Tian’s word was similar to a fuse that instantly ignited the entire city.

Everyone was clenching their fists as the fear in their hearts was forced out. They all shouted in unison: “Kill them all! Kill them all! Kill them all!”

Their voices were louder than the next.

Feng Lei flew up to the top and said: “Boss, the bow and arrows have been delivered and have all been issued. The bow and arrows are all normal items, so are they really going to be of use?”

“Of course they’re going to be useful!”

Luo Tian faintly smiled in thought. If a single arrow can cause 1 point of health point loss, then 100,000 arrows can cause 100,000 points of damage. It’s basically the ideal weapon for ranged health depletion.

Also at this time...

Xuan Yuanyi also came over and said: “Boss, the catapults are ready.”

“All the forgers in Heavenly Sword City are all concentrated here.”

“All the alchemists in Heavenly Sword City have come.”

“...”

“Good, good, good!”

“Everyone is united in fighting against the devil fiends. This daddy refuses to believe that we won’t succeed!” The blood in Luo Tian was boiling as he immediately gave a command: “Legion of forgers – use all your effort to forge xuan arrows and xuan metal rocks!”

“Alchemists – as long as they are medicinal pills with curing effects, it doesn’t matter what grade they are, just concoct as much as you can!”

After making these arrangements, Luo Tian’s expression changed as he shouted: “Listen up all personnel in the army! The Sky Ranking competition will be starting right now! Whoever kills the most devil fiends will have the highest rankings! The top ranker shall receive ten improved Profound Burst Pills and one earth grade xuan weapon!”

“The top ten Sky rankers will also have rewards!”

As his voice faded...

People were glancing at each other before excited expressions were revealed on their faces.

Just by being in the Sky Rankings gave a person a certain identity. It was also considered a springboard for that person to enter a high ranking Sect or large force. As long as one appeared in the Sky Rankings, then there was an opportunity for them to succeed in life!

And with the addition of ten special Profound Burst Pills, this made everyone even more excited.

“Hahaha...”

“Interesting!”

“I can’t wait anymore!”

“My large blade is already thirsty for sustenance!”

“Quickly come, you damn devil fiends! This daddy needs to rise up in the Sky Ranking competition!”

-----

Xuan Yuanyi flicked his sword with an extremely calm look on his face. The Great Fault Sword was releasing an extremely strong sword intent as his aura merged together with it. In just a brief moment, they had already achieved the strongest realm of man and sword as one.

“Boom~!”

“Boom~!”

“Boom~!”

The devil fiend army approached closer and closer.

They continuously gave off sounds of thunderous explosions, but this time no one on the city walls was afraid.

Their faces were filled with excitement.

Also at this time...

Two figures flew over and heavily smashed into the city walls.

“It’s General Li and General Heilong!”

“They...”

“They’re dead!”

For a brief moment, everyone’s expression drastically changed.

Those two Generals were Profound Venerate experts! They have made countless contributions to the Great Tang and showcased their outstanding battle accomplishments. But now they have both died, and died in an extremely miserable fashion. Their entire bodies were smashed to pulp, and the devilish flames latched onto them were still devouring their blood essence.

In just a short moment...

Their flesh had disappeared leaving only a blackened skeleton. Even their souls weren't spared!

"This is too cruel."

"This daddy can't hold back anymore! I'm going to rush out and rip them into pieces!"

"Prince Consort! We should just fight with them head on!"

"Count me in! General Li and General Heilong are like two guardian gods to our Great Tang. If it weren't for their deterrence, I'm afraid the Great Tang would have been lost in the flame of wars already. We cannot let them sacrifice their lives in vain!"

Anger!

Incomparable rage!

At this moment, no one here felt fear from the deaths of the two Generals but had their rage ignited.

Luo Tian's mind tightened. Even though those two had looked down on him previously, they had still lost their lives for their country. Just this point alone deserved Luo Tian's full admiration. He made a thought and immediately activated the War Leader System.

"Ommm~!"

A bright light that only Luo Tian could see shot out.

The light had enshrouded every single martial artist on top of the city walls.

At this moment, a golden ring of light floated above their heads. The light was increasing their mental energy and their fighting will!

They didn't sense the light and only felt their will to fight had become even firmer.

Also at this moment...

Luo Tian sent a voice transmission over to Blindman Liu and asked: "How's the preparation going?"

Blindman Liu was incomparably excited as he replied: "Dragon head, you are simply too awesome! My blood started boiling when I heard the song. It's just too powerful! I just finished playing it once and felt like killing my way out of the city gates. I had a feeling that I was capable of ripping Devil Monarch Skysoul into tiny little pieces!"

Luo Tian really liked the song Never Give Up.

Especially when one was in the midst of a siege warfare, the song was capable of elevating your will to fight and increase your combat power.

The most important point was the cohesiveness of the group!

It will become very strong!

Everyone's heart will be tied together.

Luo Tian looked off into the distance and noticed the remaining light being devoured by the devilish flames. His mind turned grim as he clenched his fists. He then said to himself: "It's time for me to make an appearance!"

Chapter 340 – Thousands Of Arrows Soaring Through The Sky

"Hahaha..."

"Tang Zhanlong is finished!"

“Damn dog thing, weren’t you very arrogant in Heavenly Sword City? Why don’t you continue being arrogant in front of the devil friend army? Now you’ve ended up dead, hahaha...”

In the Sea Cloud Sect.

Daoist Huang Yun was extremely happy. The anger that had been accumulating for over a month inside him was finally released today, and this feeling was simply too great!

When he saw the last bit of golden light on Tang Zhanlong being devoured, he started laughing. He was laughing loudly and crazily in extreme joy. The expression on his face looked like he wanted to light up some fireworks in celebration.

“The Great Tang’s Emperor has died.”

“Heavenly Sword City will soon be broken through.”

“Sect Leader, our time has come. Now’s the time for us to carve up the territories of the Great Tang. According to my sources, there are already many Sects that are leering at the territories so we should start preparing as well.” Daoist Huang Yun said to Nangong Jue in an excited manner.

Nangong Jue’s mouth also curved into a gloomy smile.

Recalling that his only son’s life root was destroyed near the imperial palace and their Nangong family’s incense-bearing predecessors had been cut off, the rage inside him and erupted like a volcano.

Immediately after...

Nangong Jue’s expression turned serious as he said: “Notify all the disciples of the Battle Hall to assemble. They’ll be setting off immediately!”

Sea Cloud Sect’s Battle Hall was where their strongest and most elite disciples gathered.

Daoist Huang Yun smiled excitedly and said: "Good, I will go make preparations now."

Nangong Jue flew into the air and looked towards Heavenly Sword City. He then harrumphed in disdain: "A ragtag army like that wishes to resist the devil fiend army? Hahaha... Heavenly Sword City will soon be annihilated. But it is a bit unfortunate that this ten thousand year old ancient city will be gone just like that."

-----

"Tang Zhanlong has died!"

"Tang Zhanlong has died!"

"Our opportunity has arrived! After being suppressed by the Great Tang for a few thousand years, it's time for us to vent this frustration."

"Ready the army! We will be heading to the territories of the Great Tang!"

-----

"Hahaha... Heavenly Sword City is finished! Our opportunity is here! This is the time where warlords will be vying for hegemony, so my Ardent Sun Sect will use this chance to rise up. Hahaha... the heavens have sent me such a great opportunity so I cannot miss out on it."

-----

Many Sects and thousand year old families were revealing their hidden wild ambitions!

They were planning on rising up during the chaos!

Once Heavenly Sword City is done for, this will be the declaration of the Great Tang's destruction.

At this time, rivaling warlords will start dividing up the country and vying for dominance. This was precisely the perfect time for those forces that the Great Tang had been bullying for all these years to rise up!

-----

Soul Hall.

Inside the Dark Cage.

Li Xue'er was constantly releasing her powers and smashing against the cage.

"Bang~!"

"Bang~!"

"Bang~!"

She looked like she had gone insane as she disregarded everything while attacking the cage. She bounced off from the powers around the Dark Cage yet continued smashing herself against it. She repeatedly did this and was now pale white from the vibration powers of the Dark Cage. Fresh blood could be clearly seen on the corner of her mouth.

Extremely painful!

But Li Xue'er had no intent to stop.

Her throat had become hoarse from screaming.

She had cried to the point of having no more tears left.

She had begged everyone she could think of and made all the promises she could keep. But everything was useless!

She was like a little girl that had been forced into isolation.

It was like she had been thrown into an endless abyss called the Dark Cage.

The only thing she could do was smash against the cage, using her powers to break through this restraint.

But the Soul King was too powerful.

Powerful to the point that she couldn't even imagine. No matter how much she attacked it, the Dark Cage's energy didn't weaken and actually became stronger.

Li Xue'er's heart was dead silent. She clearly knew that she wouldn't be able to break out of the cage yet was desperately striking it. She was silently praying inside her heart: "Big brother Luo Tian, you must stay alive, you have to continue living. Xue'er is still waiting for you to marry her. Xue'er is still waiting to be your bride..."

Suddenly...

A voice was transmitted over.

Zi Luolan faintly sighed before saying: "Why do you torture yourself like that? Is it really worth it to do this for him?"

Li Xue'er didn't reply. When dealing with the people of the Soul Hall, including her mother, she didn't want to speak a single word to them.

“Bang~!”

“Bang~!”

Zi Luolan heavily exhaled and said: “Stop hitting it. Mother promises you that I will have the Hall Master send out reinforcements as long as you stop throwing yourself against the cage. Mother’s heart is in a lot of pain when seeing you like this.”

“Is he really that good?”

“Does he really deserve you treating him so well? You are someone with the Phoenix bloodline... can a poor backwater hick like him be worthy of you?”

Li Xue’er stopped her attacks and softly said: “In this entire world, he is the only person that truly treats me well.”

She somewhat regretted it when she said those words.

After all, these words were said to her own mother.

Her heart felt a bit apologetic but the regret wasn’t too strong.

Zi Luolan’s heart fell as her brows scrunched up. She then said: “I will have the Hall Master send out reinforcements while you just obediently cultivate in the Dark Cage. When you can fully control your starlight powers, the Hall Master will automatically release you.”

After saying that...

Zi Luolan disappeared.

Li Xue'er stopped smashing the cage and smiled happily. Her happiness made her look like a little ordinary woman. She looked up at the dark sky and softly said: "Big brother Luo Tian, you will definitely survive. My mother has promised to send out reinforcements."

However...

What she didn't know was that...

The Soul Hall didn't send out a single person as reinforcement.

Zi Luolan never mentioned this to anyone!

As a mother, she will definitely not allow her daughter to walk the wrong path. Li Xue'er was supposed to form a family with Murong Wanjian and to become the Saintess of the Heaven's Gate Immortal Sect, and not to hang around with a country bumpkin. She will absolutely not allow this!

At this time...

Zi Luolan was hoping the devil fiend army would quickly destroy Heavenly Sword City and kill everyone there!

-----

"Achoo~!"

"Achoo~!"

Luo Tian sneezed twice as he heart turned cold. He then cursed to himself: "Damn it! Who the f\*ck is cursing this daddy?!"

On top of the city walls.

They were watching the devil fiend army approach one step at a time.

Their footsteps were as loud as thunder.

The devilish flames around their bodies were like black raging flames.

Feng Lei was quickly running over with a forehead full of sweat. He then said with excitement: "Boss, I've secretly done what you've told me to do and distributed those xuan arrows to everyone. Are they really going to be useful?"

This was the doubt in everyone's mind.

Will the xuan arrows really be of use?

Many people held onto a skeptical attitude. Luo Tian faintly smiled and said: "You guys will see in a bit."

Devil fiend army!

Not all of those in the devil fiend army were powerful and peerless existences. They too had low leveled devils with low cultivations and there wasn't that much left of their health bars. After the battle with the Imperial Palace Guards and the Black Dragon Legion, the health bars of many devil fiends were already reaching the bottom.

It's just that Luo Tian was the only one that could see this!

"Reporting!"

"They have entered the shooting range!"

Luo Tian started grinning in excitement. With his fists clenched, he then roared into the sky: "Archers get ready! Draw your bows at full arch!"

"Creak~..."

"Creak~..."

"Shoot those motherf\*ckers to death!"
