

Leveling Up 451

Chapter 451 – Encountering A Group Of Tiger Sharks

“Despicable!”

“Truly despicable!”

“We were actually tricked by that kid!”

“Who would’ve imagined those devil sect experts had their strength sealed. I should’ve tested them back then...”

In the depths of the Dark North Sea.

In the main hall of the Ghost Merman Sect, Ma Sheng’s face was filled with anger.

Inside the main hall, there was also an elderly person wearing attire with a star pattern on it. His gaze was cold as he said: “Sect Leader Ma, it’s not too late in knowing now. Our Grand Elder is very unhappy with you and has given you ten days to capture Princess Dark North. If he gets angry... you should know the consequences.”

Ma Sheng’s expression turned gloomy and immediately replied: “I will definitely capture Princess Dark North. I hope that Mr. Envoy will say some good words on my behalf with the Grand Elder. I am someone his elderly self groomed, so I will help him capture Princess Dark North even if it means I have to die trying.”

The elderly person faintly smiled and said: “That’s more like it.”

Immediately after...

The elderly person flipped his hand and two inner cores appeared on his palm. He circulated his energy and the cores floated over in front of Ma Sheng. “These are the inner cores that Grand Elder has

prepared for you. I believe that your cultivation should rise up by a small realm after consuming these two inner cores. By that time, no one in Dark North City will be capable of stopping you.”

“Thank you!”

“Thank you, Grand Elder and Mr. Envoy. I will definitely not let you both down.” Ma Sheng was excited to the extreme. Inner cores were extremely precious items where even immortal sects treated them as such.

Last time, it was a single inner core that allowed him to kill Qiu Tianji who was at the same cultivation realm as him!

The usefulness of inner cores was simply too strong!

Seeing the smug smile on Ma Sheng, the elderly envoy revealed an evil smile. That smile passed by in a flash and no one noticed it. He then said: “Once you complete the mission, there will be many more inner cores waiting for you.”

“I will definitely capture Princess Dark North as soon as possible.”

“The day after tomorrow...”

“No, tomorrow. Tomorrow, I will bring my disciples and kill our way over to Dark North City. This time, we won’t be scared by those devil sect experts and will definitely bring Princess Dark North back,” said Ma Sheng in a hurried manner.

Hearing that he would be rewarded with additional inner cores, he wished he could capture Princess Dark North right this instant!

The elderly envoy smiled faintly and said: “Then I won’t leave for now and wait here for your good news. As for the inner cores you want, I will hold them for the time being. Once you hand Princess Dark North over to me, I will give you the rest of the inner cores.”

“Good, good.”

“Arrange the best accommodations for the Envoy!” Ma Sheng immediately ordered.

“I obey!”

One of the Elders of the Ghost Merman Sect brought the Envoy away.

The other Elders started discussing with each other in the main hall with big smiles on their faces.

“Congratulations Sect Leader.”

“Congratulations Sect Leader. With these inner cores in hand, Sect Leader’s cultivation will rise to a new realm.”

“By that time, you will be the real Dark North King.”

Ma Sheng started smiling in a proud and smug manner before saying: “We will set off for Dark North City tomorrow. This time, we definitely have to capture Princess Dark North. Whoever gets their hands on her first, I will reward them with an inner core. Don’t say that I never give you guys any chances.”

As his voice faded...

The eyes from all the Elders seem to be glowing.

They almost couldn’t hold in their drool!

Inner cores!

They contained the purest form of immortal force. A typical inner core requires thousands to tens of thousands of years before an immortal beast could refine one. Its power was unmatched, and a single inner core could allow a martial artist to quickly make a breakthrough.

Ma Sheng started laughing out loud. His mouth unconsciously curved into an evil smile that disappeared in a flash, just the same as the Envoy previously.

The edge of the Dark North Sea.

Yang Lin said: "Brother Luo, these four people have followed me through thick and thin. They are guards that have encountered thousands of battles and each of them is at the peak of the Profound Ancestor realm. The most important part is that they are people who have cultivated water attributed martial skills. Within the Dark North Sea, they will definitely be able to help you out greatly."

While saying that...

The four of them cupped their hands and one of them said: "My name is Wang Fu!"

"Wang Lu!"

"Wang Hai!"

"Wang Dong!"

The names of these four were later changed when they became sworn brothers.

Luo Tian was startled by this and said: "General Yang; I feel there's no need for this. Going to the Ghost Merman Sect is extremely dangerous and it's hard to say whether I'll be coming back alive or not. For you to have them follow me, isn't this practically sending them to their deaths?"

Yang Lin replied with a smile: “Sigh~, I wanted them to follow you exactly because it’s so dangerous. They could at least help you out in times of need.”

Luo Tian smiled once before saying: “It looks like you want them to monitor me, huh? Are you afraid that I will run away or are you afraid I will tell all your secrets to the Ghost Merman Sect? Was this your decision or the Princess’s?”

Yang Lin smiled with embarrassment.

Indeed...

These four people were deliberately placed with Luo Tian.

Even though Princess Dark North strongly opposed it, Yang Lin still proceeded to anyway.

He wasn’t afraid Luo Tian would run away but was actually afraid Luo Tian would take refuge and join the Ghost Merman Sect. Luo Tian knew about the current defenses of Dark North City so if he told the Ghost Merman Sect about it, Dark North City would be defeated in an instant.

The task of these four was very simple.

As long as Luo Tian showed any intentions of joining the Ghost Merman Sect, the four will immediately join hands and kill him together!

Yang Lin then said: “Why would I have them monitor you? This is the first time you’ve come to Dark North City so do you even know how to get to the Ghost Merman Sect? In such a vast sea, how are you going to find the Ghost Merman Sect if you don’t have someone leading the way?”

“Don’t worry.”

“They have all been to the Ghost Merman Sect before. With them around you, you will definitely save a lot of time.”

Luo Tian smiled coldly while looking at the four. He then said: “Do whatever you want then, but I’m going to be frank and honest with you guys. I will not save any of you; your deaths will not have anything to do with me. You guys should be clear on how strong the Ghost Merman Sect is. Going there this time will most likely lead to death than coming back alive. I will not stop you all from sending yourselves to your death but there is one thing you must remember – no one can oppose my decisions!”

“We will naturally not oppose any correct decisions.”

“But if you make any random casual decisions, we will not be listening to it.”

Two of them said blandly.

Yang Lin immediately said: “What are you two saying? Didn’t I tell you guys to listen to whatever brother Luo says?”

The two of them didn’t respond.

Luo Tian was too lazy to speak any further about this topic and ordered: “Enter the sea!”

They were carrying a Water Repelling Bead so it was just like walking on land while they were underwater.

But...

If they took away the Water Repelling Bead, most likely they would instantly explode by the thousand-meter water pressure.

“How long will it take to get to the Ghost Merman Sect from here?” Luo Tian asked.

“The fastest will be five days,” replied Wang Fu. He was the oldest and the boss amongst the four.

Luo Tian’s brows furrowed before he grumbled: “Five days... five days... I have to level up five small realms within these five days. I’m afraid this is going to be rather difficult. And I don’t even know if there are any demonic beasts for me to kill under the sea. How am I going to make breakthroughs if there are no demonic beasts?!”

Ma Sheng had a powerful cultivation.

Besides, he might have more inner cores in his possession.

Luo Tian was only at the Profound Ancestor 5th rank right now. So even if he became a devil, he still wasn’t that guy’s opponent. The only way right now was for him to level up!

Suddenly...

Wang Dong’s gaze tightened and his expression drastically changed. “Big brother, there’s a large herd of Tiger Sharks up ahead. They’re approaching us at a ferocious pace so we have to avoid them.”

“A herd of Tiger Sharks?”

“How many are there?”

“Several thousands of them.”

“So awesome! Since we can’t avoid it, let’s charge right into them instead!” Luo Tian started smiling excitedly.

Chapter 452 – So Awesome!

Over a thousand Tiger Sharks.

And they happen to look like those prehistoric tiger sharks. Within the waters, they were practically an invincible existence!

Anyone sensible would think of avoiding them at all costs.

But...

Luo Tian started preparing to charge right at them.

Wang Fu's expression sank. He immediately tugged at Luo Tian's sleeve and said: "You can't do that. These Tiger Sharks' are extremely tough and the only outcome will be death if you charged into them. We are here to accompany you to the Ghost Merman Sect, not here to accompany you to death."

"That's right."

Wang Lu then said: "It's fine if you die but don't drag us into it."

"If you charge out like this, you will definitely expose our current location. By that time, we would definitely be implicated. Luo Tian; if you wish to die, wait until the Tiger Sharks pass by and then you can find a spot to throw away the Water Repelling Bead. Please don't drag us down with you at a time like this." Wang Dong added.

Wang Hai also commented: "Princess said you could save Dark North City but I would rather die than believe that. If it wasn't for General Yang's sake, we would have never followed you on such a dangerous mission. There's no way you can destroy the Ghost Merman Sect. Don't think just because you can kill Chai Lin, who's at the Profound Venerate realm, and you think you're all that. The Ghost Merman Sect is much stronger than your imagination."

The four of them each said their line.

Inside their hearts, they were looking down on Luo Tian.

If it wasn't for Yang Lin's insistence, it would be impossible for them to have come to the Dark North Sea to brave such dangers with Luo Tian.

Just him alone can destroy the Ghost Merman Sect?

That was a complete joke!

Luo Tian's gaze turned gloomy as he glared at Wang Fu. He then said coldly: "What a bunch of cowards. Wang Fu is it? Let go of me. Since the Tiger Sharks haven't noticed you guys yet, scam as far as you can."

"I feel revolted just from looking at you guys."

"Scram!"

Luo Tian used some strength and directly pulled his right arm away. He then activated Shadewind Steps and charged forward while leaving a line of bubbles in the deep sea.

He didn't bother looking at them anymore.

Yang Lin's distrust in him already made Luo Tian a bit angry, but he didn't make any outbursts.

Now, these subordinates of his were trying to stop him from killing a herd of Tiger Sharks? How could he take it anymore?

How was he supposed to level up if he didn't kill these monsters?

Luo Tian wasn't going to bother about it anymore, and just do whatever he wants! Those four will then go back to Dark North City and will no longer hinder him.

“That kid... damn it!”

“Big brother, what should we do now?”

“I’m afraid that even experts at the peak of the Profound Venerate realm wouldn’t be able to deal with this herd of Tiger Sharks. And these Tiger Sharks will go crazy once they smell blood. The only outcome for him charging into them is death.”

“Let’s not bother with him. It’ll be best if he dies since we can end our mission earlier. We might as well return to the city as soon as possible and prepare to fight it out with the Ghost Merman Sect.”

The four of them stared at Luo Tian’s back with cold expressions.

Wang Fu was frowning as he was in thought for a few seconds. He eventually said: “We shall hide for now and not bother with anything else. Our mission is to monitor him and not to protect him. He wanted to court death and that’s the path he chose himself and has nothing to do with us. Moreover, we already tried to persuade him out of it.”

“That’s right!”

Immediately after...

The four of them carefully hid themselves. Then, four pairs of eyes stared off into the distance at Luo Tian’s location.

Luo Tian swallowed over a dozen medicinal pills and his profound energy started rising at crazy speeds. He started clenching his fists as he stared at the herd of Prehistoric Tiger Sharks, each one about the size of submarines. His eyes showed a trace of nervousness, which was the psychological impact created from the image he had of these sharks from his previous life.

These guys were all existences that ate people and didn’t bother spitting out their bones!

The front-most Tiger Shark noticed Luo Tian. Its eyes widened and then shot forward like an arrow.

Luo Tian grinned and shouted: "You've come at the right time!"

"Level 5 Berserk!"

Luo Tian's body started moving as he pulled out his Seven Star Sword. He then turned illusory as he charged ahead in a straight line.

"That kid is about to die."

"Sigh~, I really don't understand why Princess put her trust in such a person."

"It's good that he dies since we get to head back earlier."

The four of them were chatting with each other at a hidden location.

"Deathgod's Domain!"

Suddenly...

A dark line stretched out from Luo Tian's body. Within this dark line, Luo Tian's speed and strength had increased greatly.

In an instant...

His sword slashed out and a powerful sword intent exploded forward.

"Boom~!"

The sword stabbed right between the eyes of the Tiger Shark and blood shot out.

That Tiger Shark didn't immediately die and started to struggle in pain. Its immensely huge jaws opened up wide, revealing its large teeth similar to a metal jagged saw. It then sucked in, and the suction caused Luo Tian's center of balance to become unstable.

Luo Tian was stunned by this. He never expected such a powerful attack of his couldn't instantly kill a Tiger Shark. Behind this thing was over a thousand more, so was this going to be the part where the music starts playing before his death?

No way!

The physical defense of these Tiger Sharks was too strong, so he had to change his strategy.

Luo Tian pulled back and got out of the Tiger Shark's suction force area. His eyes widened as he shouted: "Myriad Thunder Roar!"

"Boom~!"

Above the surface of the sea, storm clouds had started gathering. And within the storm clouds, the sound of lightning could clearly be heard.

"Destroy them for me!"

As Luo Tian commanded, the storm clouds started booming. Then, countless lightning strikes penetrated through thousands of meters of water before touching down.

Directly striking that injured Tiger Shark!

The lightning started connecting with each other like a chain and coursed through thousands of Tiger Sharks.

The scene was similar to League of Legends Volibear's Thunder Claws skill. It was connecting with each other like crazy! As long as a Tiger Shark entered the area of the lightning field, it would be electrocuted. They kept struggling and started crying in pain!

Luo Tian was speechless with this scene!

He was ecstatic as he mumbled to himself: "Salt in the seawater can conduct electricity... So Myriad Thunder Roar is practically an invincible skill within the seas!"

"It's fortunate that I'm the caster or else I'll be burnt black from it."

The health bar above the Tiger Sharks was continuously decreasing. The speed wasn't fast but this was an area of effect attack (AOE). If the amount of damage was clustered together, at least a dozen Tiger Sharks would be dead by now.

Right after...

Luo Tian's expression became especially excited as he shouted: "Myriad Thunder Roar! Blast them for me!"

"Boom~!"

"Boom~!"

"Boom~!"

He had no intention of stopping.

Luo Tian didn't dare to stop either. Once these Tiger Sharks leave this lightning field, the one dying will end up being him.

The Tiger Sharks within the lightning field were struggling like crazy.

Their health bar kept decreasing!

“Boom~!”

“Boom~!”

“What kind of martial skill did this kid train in?”

“A lightning attributed martial skill?”

“How can it be used in the water? And it even has an area of effect. Isn't this a bit too strong? Those ferocious Tiger Sharks can't even get close to him.”

“What's so strong about it? I think he's just lucky.”

“Heh heh...”

“It's almost time for the harvesting.”

Over ten casts of Myriad Thunder Roar descended. Luo Tian's profound energy was almost depleted but the lightning field had caused the health bars of these Prehistoric Tiger Sharks to bottom out. A few more times of this and he could receive his harvest in a relaxed manner.

“Myriad Thunder Roar!”

“Blast them for me!”

“Boom~!”

Within the lightning field, there would be Tiger Sharks continuously sinking to the bottom.

“Ding!”

“Ding!”

“Ding!”

The system alert tones were sounding off like firecrackers.

Luo Tian hadn't experienced such feelings for a long time!

“Ding!”

“Congratulations to player Luo Tian for killing a Prehistoric Tiger Shark. You have gained 50,000 experience points, 5000 profound energy...”

“Congratulations to player Luo Tian for gaining a demon core.”

“Ding!”

“Congratulations to player Luo Tian for leveling up. Your current level is Profound Ancestor 6th rank!”

Luo Tian was grinning in excitement, "So awesome!"

Chapter 453 – Profound Ancestor 7th Rank

In less than an hour.

Over a thousand Prehistoric Tiger Sharks were killed.

Luo Tian wasn't injured in the slightest bit!

This kind of scene was extremely shocking. Wang Fu and the others almost pissed their pants from this!

When Luo Tian killed the last Tiger Shark, he didn't bother with those four and continued flying forward.

"What is he trying to do now?"

"This kid is a bit too fierce."

"Big brother, did you notice his aura seemed to have undergone a slight transformation like he had broken through?"

"He did breakthrough, to the Profound Ancestor 5th rank. He relied on killing those Prehistoric Tiger Sharks to breakthrough. This is basically breaking through while in the midst of battle, which means his abilities are very unusual."

The four of them were discussing this in low voices.

Seeing how Luo Tian's figure was about to disappear from their line of sight, Wang Fu immediately woke up from his thoughts and shouted: "Quickly follow! He might be trying to run away!"

"We cannot let him escape."

“How are we going to fulfill our duty if he manages to escape?”

“It’s fine if he dies, but escaping will not be tolerated.”

The expressions of the four changed before they raised their speed to the maximum to chase after Luo Tian.

Running away?

Luo Tian never had such a thought.

Killing over a thousand Prehistoric Tiger Sharks allowed him to level up, so why would he try to run away from such a good place?

You can beat him to death and he would still refuse to run away.

His goal in coming here from Mount Hua Immortal Sect was precisely to level up and to replenish his profound energy. He would then have to attend the inner sect assessment once he goes back. Even though the assessment wasn’t considered too difficult, he was still afraid of someone deliberately causing trouble for him.

Moreover...

Only when he becomes stronger can he protect those around him.

Mount Hua Immortal Sect requires reform. In order to reform the sect, one needs to be stronger than others to be qualified to accomplish it.

“A herd of Prehistoric Tiger Sharks...”

“According to my knowledge, they would never come together to form such a large group. Could it be that the habits of this world’s animals are different from Earth?”

“It shouldn’t be...”

“Seeing how fast and frantic they are swimming, most likely there’s an even more ferocious monster behind them.” Luo Tian kept charging quickly because he wanted to know what kind of demonic beast was chasing those Tiger Sharks.

“Blob~, blob~...”

Sounds of bubbles in the water were heard.

A powerful air wave then blasted through the waters. Luo Tian’s mind sank as he said to himself: “Sure enough, there really is something chasing after them!”

Right after that...

Luo Tian stopped.

He looked up how much profound energy he had and noticed it still wasn’t full after killing over a thousand Prehistoric Tiger Sharks. But he could sustain his usage for the time being without the use of medicinal pills.

“The kid has stopped!”

“Something’s wrong!”

“There’s something in front with a powerful aura charging over at terrifying speeds.”

“What’s the kid planning on doing now?”

“A deep-sea demonic beast that can hunt Tiger Sharks will definitely be extremely powerful. That kid can’t be thinking of taking it on as well, right? Does he really think he’s a God?”

Wang Fu’s brows furrowed before shouting: “Luo Tian, quickly run away!”

Luo Tian didn’t turn around and coldly harrumphed: “Just keep acting like the turtles you guys are.”

In an instant...

The violent aura had arrived!

A large school of... Piranhas!

They were so densely packed together that it made one’s hair stand on its end. Luo Tian’s body turned numb before he shivered from having goosebumps. “Damn! How many are there? At least over a million, right? I could level up even if each of them is only at 100 experience points apiece.”

When he thought of leveling up...

Luo Tian unconsciously started smiling with excitement.

He was only a few levels from the Profound Venerate realm, and then he would be rewarded with a new martial skill.

He also had to find some time to refine all his martial skills with the Melting Heaven Divine Cauldron and see if he can create something more powerful. It was getting too troublesome to work with so many different skills now.

Others tried everything possible to gain martial skills.

Yet he had too many of them!

Taking a closer look, the martial skills he cultivated was at least over twenty. He hadn't used a lot of them lately because they weren't very useful any longer. So, he might as well fuse them together and grasp a chance of getting a new and better skill.

"Who are you scolding as turtles?!"

"Luo Tian, don't keep thinking you are all that."

"Who do you think you are?"

"I would like to see how you're going to deal with these Piranhas. It's going to be interesting to see them devour you until you don't even have any skeletal remains."

Wang Fu and the others were pissed off.

If they didn't know Luo Tian, they wouldn't bother to advise him to hide.

When those Prehistoric Tiger Sharks were killed by Luo Tian, they indeed felt a large amount of shock.

But they refuse to believe Luo Tian was capable of killing this large school of Piranhas. One needs to understand that the speed of Piranhas is much faster than the Tiger Sharks. They relied on their high speed to dominate the depths of this sea.

Luo Tian coldly scoffed and didn't bother with Wang Fu and the others.

His figure started moving already.

Luo Tian started using up those demon cores that exploded from the Tiger Sharks he had just killed. Running around at the speed of lightning, Luo Tian started engraving different types of mysterious runes

on the ground. With his Engraving Array skill at level 8, his comprehension of arrays had already reached an extremely high realm.

“What is he doing?”

“Going left and right and all over the place... has he lost his mind?”

“It looks like he’s setting up an array!”

“Hahaha... Old Three, you’re over thinking things. Do you think an egomaniac like him would know how to engrave arrays? He’s not bad at concocting pills, but I think it’s impossible for him to know how to engrave arrays as well.”

Wang Fu’s brows furrowed as he muttered: “He is really engraving an array, but I have never seen this kind of array before.”

“Big brother, a garbage array like this is naturally something that won’t stand out.”

“That’s right! Even if he does know some basic skills in engraving arrays, it’s impossible for him to kill so many Piranhas with it. Big brother, we should go find a place and hide first.”

Everything went along at a crazy rate.

It was extremely fast when engraving arrays at level 8.

Even for the large scale Ancient Dragon Execution Array, Luo Tian used less than one minute to set it up. And he made it extremely accurately without a bit of mistake. Luo Tian wasn’t going to allow himself to make the slightest error even though he was at a critical juncture.

The time it takes a spark to fall off a splint!

A million Piranhas were swarming over!

Luo Tian smiled excitedly, “Heh heh... I’m definitely leveling up to the Profound Ancestor 7th rank!”

“Ancient Dragon Execution Array!”

“Activate for me!”

“Boom~...”

Over a thousand Tiger Shark demon cores connected together. They started forming starry lights within the dim-lighted depths of the sea. A powerful energy started condensing right above the starry lights, and right behind it was a thick and heavy-looking stone door.

“Clunk~, clunk~, clunk~...”

The stone door started opening and the ancient powers poured out!

Luo Tian instantly jumped away. His mouth curved upwards as he smiled excitedly. “Explode!”

“Boom~!”

“Boom~!”

The might of the Ancient Dragon Execution Array exploded out!

The Piranhas within the array were being instantly killed at a crazy rate!

Luo Tian's experience bar was rising up like crazy!

"Awesome!"

"This is way too awesome! The feeling of having your experience bar flying up is truly amazing! Hahaha..." Luo Tian was ecstatic and started laughing like an idiot.

"Humph!"

"Go back and report to your Prince that if he does send Princess Dark North over, I will make him the next King of Dark North City."

"As for that kid..."

"Heh heh... I'm going to twist his head off!"

Chapter 454 – Sudden Changes

The Ghost Merman Sect didn't send out any more soldiers.

Ma Sheng was waiting.

He was waiting for Luo Tian to come.

He wanted to see if this kid had three heads, six arms, or had ten lives. But no matter what, the kid had to die.

As for Dark North City...

Ma Sheng wasn't in a hurry. It was at times much better when matters didn't require him to make a move personally.

"Sect Leader; that Qiu Tianlun is quite vicious."

"He actually sent people over to divulge their secrets and even wanted to hand Princess Dark North over on a silver platter. Could this be some sort of trap?"

"Sect Leader, that's a possibility!"

Ma Sheng then coldly scoffed before saying: "A trap? That would be impossible. They should know that there's an immortal sect supporting us in the background. And they should also know that we're now aware those old devils inside the Soul Refining Dungeon have had their powers sealed up. Ever since Qiu Tianji died, the hearts of the people have become divided. If Qiu Tianlun wants to use this opportunity to rise up, he will have to rely on our strength. Cooperating with me is his only choice. Right now, he is currently the strongest person in Dark North City. That old fogey Yang Lin has been injured and is definitely not Qiu Tianlun's opponent."

"This being the case..."

Ma Sheng started laughing in smugness and said: "There's no longer any need for me to make a move on Princess Dark North. In order to protect Dark North City, Qiu Tianlun will definitely send her over to our Ghost Merman Sect on a platter. That way, we don't have to spend a single soldier and will still be able to complete the mission given to us by the Starsea Envoy. Hahaha..."

After thinking about those words, several Elders started smiling smugly as well.

One of the Elders then asked: "Sect Leader, are we still going to take over Dark North City?"

"Of course!"

“Once Qiu Tianlun delivers Princess Dark North to us, that time will be the date of his death! Hahaha... if we don’t take over Dark North City, how can I become the Dark North King?” Ma Sheng’s mouth curved up and revealed an evil smile.

“Killing two birds with one stone.”

“Brilliant! What a brilliant plan!”

“Once Dark North City’s royal Qiu family is destroyed, who else would be the opponent of our Ghost Merman Sect? Who in the entire Dark North Sea is our opponent? Sect Leader, you will become the Dark North King in a few more days; the overlord of a territory that spans millions of kilometers.”

“Hahaha...”

Everyone started laughing crazily.

“Sect Leader, what should we do with that kid called Luo Tian?”

“He’s just a piece of trash with a crippled dantian and not worth our attention. Even though he did reveal his strength in Dark North City, do you think trash like him can deal with us head-on? Princess Dark North is really stupid this time.” Ma Sheng didn’t put Luo Tian in his eyes at all. He treated Luo Tian as an ant-like existence, so why would he be bothered?

Everything was in the control of his palms.

He could already see himself sitting on top of the Dark North King’s throne.

He became extremely excited.

Dark North City.

Princess Dark North put on her appropriate clothes and rushed over to the Yang Manor. She quickly found Yang Lin and said: "Uncle Yang, Qiu Tianlun wants to rebel! Quickly leave this place because he'll be here soon!"

Yang Lin was currently looking at a Strategic Deployment Map.

He was changing their soldier deployments because he was afraid the plans would be known by the Ghost Merman Sect. If this was to happen, Dark North City would fall without even putting up a fight.

Yang Lin shook as his brows were locked up. "Impossible. Dark North City's military powers are in my hands. Where is he going to get people to help him to rebel? Princess, do you have any evidence?"

Xin Er frowned and replied: "I saw it in the future. You will die in the hands of Qiu Tianlun..."

"Hahaha..."

"Princess, you're over thinking things. No matter how unhappy he is with me, it shouldn't reach the point of wanting to kill me, right? Since there's a formidable enemy right at our doorsteps, he's still a member of the royal clan so wouldn't he be courting his own death by rebelling? Does he really think him alone is capable of blocking the Ghost Merman Sect's army?"

Yang Lin didn't believe her words.

He felt that he understood what kind of person Qiu Tianlun was.

A few days ago, Luo Tian made him completely lose all face by killing Chai Lin. He had added words of ridicule but it shouldn't have reached the point where Qiu Tianlun would kill him for it. Moreover, if the main General died at this time, wouldn't all the soldiers' morale get disrupted?

This matter was absolutely impossible!

He knew Xin Er had some sort of special ability.

He hadn't seen it personally.

He had heard some things about it from the mouth of Qiu Tianji, but it was very difficult for him to listen to her words just based on her ability.

Princess Dark North had an anxious expression as she didn't know how to explain her ability to Yang Lin. With her current abilities, she was only able to see some brief image fragments. As for why Qiu Tianlun was planning to rebel, she had no explanation.

She also couldn't understand why he would rebel at such a critical time. Was he not afraid of the Ghost Merman Sect?

There was another unknown point.

Her mysterious ability can only see the future of others while she cannot see her own.

For a brief moment...

Princess Dark North was so anxious that she didn't know how to explain everything. She then said: "Uncle Yang, you have to listen to me. Quickly leave this place; the further the better. It will really be too late if you delay this any further."

She was trying her best to change things.

Even though she understood that the gears of fate were constantly turning, it felt like it was impossible for her to make any changes even after seeing a glimpse of the future.

Yang Lin said with a faint smile: "Don't worry so much, Princess. Even if he dares to come here, I, Yang Lin, am not vegetarian. Moreover, I have over a thousand Dark North City Guards here so he won't dare to come."

Princess Dark North really didn't know how to explain herself.

Around this time...

Several dark figures were shuttling through the sky before landing.

The man in lead looked at Princess Dark North within the main hall and chuckled coldly. He pulled off the black cloth covering his face and said with a smile: "I was wondering why I couldn't find you in the palace. So you were actually hiding here."

"That's good too since I no longer have to search all over for you."

The man in the lead was Qiu Tianlun!

Yang Lin's expression changed before shouting: "Your Highness, what are you doing?! Are you really planning on rebelling? With just a few of you here and you wish to act wildly in my Yang family's manor? Why don't you take a good look and see what kind of place you're in!"

"Hahaha..."

"Yang Lin, I will only be giving you one chance due to all the contributions you've made by protecting Dark North City. Submit to me, and you shall still be the Great General of Dark North City. Otherwise... heh heh..." Qiu Tianlun chuckled in an evil manner.

"Are there any guards left in the Yang Manor?"

"They have all been sent off by you to hold down critical positions. Apart from some servants, there's most likely not many capable people left in the Yang family."

Qiu Tianlun had made arrangements for everything.

He would never make any rash moves unless he had a 100% chance of victory.

Yang Lin's expression drastically changed as he clenched his fists secretly. "Qiu Tianlun! As the young brother of the Dark North King, I am feeling ashamed on your behalf!"

"Humph!"

"It looks like you've already made your choice!"

"Kill him. Kill that old fogey for me."

Qiu Tianlun ordered.

The six men in black clothing and swords behind him immediately charged forward.

Yang Lin's eyes widened, "You're courting death!"

Immediately after...

Yang Lin turned his head around while charging forward and shouted: "Your Highness, quickly run and find the guard commander!"

"Hahaha..."

"Too late!"

Qiu Tianlun laughed playfully. He raised his speed to the extreme before instantly blocking Princess Dark North and saying: "After sending you to the Ghost Merman Sect, Dark North City will be at peace once again. Xin Er, please don't blame your uncle for being cruel. I am really out of options, hahaha..."

Yang Lin's expression changed and scolded: "You actually colluded with the Ghost Merman Sect?!"

"Humph!"

Qiu Tianlun's figure suddenly disappeared. While exuding a powerful force, he charged towards Yang Lin with a shout: "Old fogey, go die for me!"

Chapter 455 – Four Days, Four Levels

Dark North Sea.

Over to Luo Tian's location.

"Big brother, is he still human?"

"What number of Piranha schools is this now?"

"Piranhas are weak to the max for him now. Did you see one of those Piranhas that was even bigger than the lanterns in the royal palace? He actually killed it with a single blow. What kind of background does this guy have? Even if he is really a disciple of Mount Hua Immortal Sect, there's no way he can be strong to this degree, right?"

"It's not just those things."

"He started off at the Profound Ancestor 5th rank. Go look at him now and see what cultivation realm he has reached. With our current strength, we can't even see it anymore."

Wang Fu and his brothers had always been following behind Luo Tian.

In these short four days...

These guys felt like they had entered another world. They were watching Luo Tian dumbly like idiots throughout the ordeal. It was as if they were staring at a God, and it was difficult to not have a sense of worship well up in their hearts.

Luo Tian was killing like crazy.

Leveling up like crazy.

Luo Tian couldn't stop himself.

He never expected the Dark North Sea would be such a good place for leveling. In a short four days, he had broken through to the Profound Ancestor 9th rank. Four levels in four days – who can compare with such speeds?

Can Murong Wanjian with his true dragon's bloodline compare with him?

Absolutely impossible!

This kind of speed was heaven-defying!

If they didn't personally witness this, Wang Fu and the others would never have believed it.

This was completely impossible in their world's standards.

"There's more coming!"

"They're coming again! Another large group of prehistoric demonic beasts."

“Luo Tian is going to set up some type of ancient-looking array to kill them again.”

“Boom~...”

“Boom~...”

A series of explosions were heard again.

Countless demonic beasts inside the array dropped dead. The corpses piled on top of each other were higher than a mountain, where one couldn't even see the top! This was too cruel, too violent! Every time Luo Tian finished setting up an array, he would gain several tens of millions of experience points.

This kind of leveling speed was basically awesome to the max!

“Ancient Dragon Execution Array, activate for me!”

“Boom~!”

Right now, Luo Tian could practically engrave an Ancient Dragon Execution Array with a wave of his hands. And his Engraving Array skill kept going up because of it. He gradually started comprehending stronger arrays but he didn't give them a try yet. There cannot be a single trace of error when engraving arrays or else the strength of the array would be greatly reduced or even fail.

Luo Tian was only working on leveling up and not on gaining more powerful arrays.

“Ding!”

“Ding!”

“Ding!”

During these four days, the system alert tones didn't stop at all. This kind of feeling was simply too awesome for Luo Tian.

“Grand Elder Venerate Hun Yuan, huh?”

“Prime Elder, huh?”

“Mount Hua Immortal Sect, huh?”

“Murong Wanjian, Imperial God Immortal Sect, Starsea Immortal Sect, Violet Organization and their Soul Hall, huh? You all just wait for this daddy!” Luo Tian shouted inside his mind. Whenever he thought of them, he would get pissed. And the more pissed he got, the crazier he would become.

Currently, it is getting closer and closer to Li Xue'er's wedding date.

Luo Tian's strength wasn't enough to change anything.

Not to mention others, just Murong Wanjian's backing of the Imperial God Immortal Sect already made him unable to breathe.

Murong Wanjian's wedding.

Imperial God Immortal sect will definitely send people over to congratulate him. Same with the Starsea Immortal Sect. So how was he going to fight against these behemoth-like existences?

Without sufficient strength, how was he going to stop this wedding that the entire continent was paying attention to?

This kind of pressure was really heavy!

His current cultivation was only at the Profound Ancestor Realm. It was far from enough if he wished to shake the status quo.

Luo Tian's gaze tightened. He basically became a madman as he made a greater effort in his slaughter. The killing intent coming from his body kept condensing and becoming stronger. Hundreds of kilometers around him were enshrouded by his killing intent.

"What the hell?"

"Big brother, should we go remind him what our goal is for this trip?"

"He's here to destroy the Ghost Merman Sect and not here to kill these sea demonic beasts. If it continues like this, what should we do if the Ghost Merman Sect army charges towards Dark North City?"

"I believe he's overestimating himself. Even if his cultivation is rising very fast, the strength of someone at the Profound Ancestor realm is still not an opponent of over a thousand Ghost Merman Sect disciples."

"This kid is truly not ordinary, but his cultivation is too weak and cannot go against the Ghost Merman Sect. We should just let him do his own thing for now. If he can maintain his fast speeds of breaking through, maybe he might have a chance in destroying the Ghost Merman Sect in another half a year."

"Half a year? I'm afraid Dark North City will be gone in half a year."

The four of them were discussing this in soft voices.

Luo Tian killed another large group of demonic beasts. When he looked at his experience bar, his brows furrowed before saying to himself: "I'm still missing a little bit."

"The experience points coming from these demonic beasts have gone down greatly."

“It makes no sense for me to keep killing them.”

“I need to change to another area with stronger demonic beasts.”

It was just like the video games – a certain map or territory would limit the levels of the monsters.

Luo Tian’s cultivation went up very fast but that meant his experience from the demonic beasts would go down. The demonic beasts from this area could no longer satisfy him. If the experience points didn’t decrease, Luo Tian would’ve broken through to the Profound Venerate realm already in these four days.

Seeing how Wang Fu and the others were discussing something in whispers...

Luo Tian’s figure instantly moved and appeared next to Wang Fu in a blink of an eye.

Profound Ancestor 9th rank!

No matter if it was strength, speed, or one’s sea of consciousness, everything was raised up substantially. Luo Tian was able to completely master the Profound Ancestor powers.

Wang Fu jumped in fright and unconsciously took half a step back.

Luo Tian then asked: “How far away are we from the Ghost Merman Sect?”

Wang Fu replied: “If we don’t wait around and hustle, we can be there in around half a day. But Luo Tian... your current cultivation realm is not the opponent of the experts at the Ghost Merman Sect. Their strength increases while they are in the water, so how about...”

Being in contact with each other through these few brief days...

Wang Fu understood that Luo Tian was a very powerful person.

He has always admired those that are strong.

Luo Tian understood these brothers weren't bad people. Throughout their travels, they had always tried to warn him whenever the demonic beasts wanted to sneak attack him. He then said with a faint smile: "These demonic beasts can no longer satisfy my requirements. We should go to the Ghost Merman Sect since it's about time to deal with them."

There was a time limit for his quest.

There was still over twenty days for Princess Dark North's quest.

But the Titan Ruin quest only had about ten days left, so that had to be completed.

Not for nothing, Luo Tian had to do this for the blood essence of the Titan race to make up the Four Region's blood.

He really needed to open up the ancient battlefield within Mount Hua Immortal Sect.

There were fewer and fewer areas within Tianxuan Continent for him to train at. The demonic beasts in many of the areas gave too little experience points, so it couldn't satisfy his leveling requirements. The only way was to open up some secret realms. He had to make some preparations for the final sprint towards Shattered Sky City!

"But with your current cultivation realm, I'm afraid..."

"Ma Sheng is too strong and he might have more inner cores on him. Your breakthrough speed is so fast that I believe it wouldn't take too long for you to catch up to Ma Sheng. By that time, we can..."

He was actually saying this for the sake of Luo Tian.

Luo Tian interrupted: "We don't have enough time because there's no way that the Ghost Merman Sect will keep waiting. I'm pretty sure they already know that the strength of those old devils confined to the Soul Refining Dungeon has been sealed. If we don't go looking for them soon, they will go straight for Dark North City. We all know that the current Dark North City is not capable of blocking Ma Sheng's army."

Wang Fu no longer insisted.

The four of them were feeling ashamed at what they had said a few days ago.

Luo Tian patted Wang Fu's shoulder and said: "Don't think too much, we're going to rush ahead now. I will definitely f*ck the Ghost Merman Sect up!"

He then said secretly in his heart: "How am I going to level up if I don't f*ck them up? How am I going to raise my undefeated points? I'm only missing two more bloodlines before I can fuse all four divine beast blood together. I need to hurry up a bit!"

Chapter 456 – Not A Single Person That Can Fight

"Reporting!"

"That kid has arrived!"

"Sect Leader, do we need to activate our sect's protective array?"

"Hahaha..."

"Who would've imagined the kid would really rush over here? He must've eaten a bear's heart or a leopard's gall! Does he really think our Ghost Merman Sect is a soft persimmon and anyone can pinch it?" Ma Sheng was laughing arrogantly while his body exuded a domineering aura. He then said: "There's no need to activate the sect's protective array. If we activated the sect's protective array for a piece of trash like him, wouldn't we become a laughing stock?"

There was no need to fear a mere human.

Activating the sect's protective array will actually make it look like the Ghost Merman Sect was afraid of Luo Tian.

Inside the main hall.

The several Elders present didn't object to it.

In their opinion, they were in agreement that the sect's protective array was unnecessary for a human.

Ma Sheng then said with a smile: "Elders, who is willing to accept the challenge of twisting that kid's head off?"

"Me!"

"I am willing to take up that challenge."

"Any disciple in our Ghost Merman Sect can take the life of a human with a crippled dantian. I'm afraid before we even make it out there, that kid's life will be gone already."

"Hahaha..."

"What you've said is correct."

Ma Sheng loudly chuckled before saying: "Someone come!"

A merman hurried in from outside the main hall. He cupped his hands and asked: "What orders does the Sect Leader have?"

Ma Sheng replied: "Go select ten disciples from the Elite Hall and have them take care of that piece of trash. Tell them that whoever can kill that kid, this Sect Leader will heavily reward them."

"Order received!"

"Disciple will immediately take care of this."

Outside the Ghost Merman Sect.

Luo Tian stood outside the gates of the Ghost Merman Sect and shouted: "Is there anyone alive here? Quickly scam out here for this daddy!"

This was an unbridled and reckless shout.

There was no fear.

Wang Fu's face turned pale as he quickly tried to advise: "Brother Luo Tian, are you trying to call everyone in the Ghost Merman Sect out at the same time? Don't you have some sort of genius plan? How are you going to deal with them if you call them all out here together?"

It was the same with the other three brothers.

They all thought Luo Tian had a perfect plan prepared.

One that can quickly destroy the Ghost Merman Sect.

They never expected Luo Tian was planning on destroying the Ghost Merman Sect by going head-on with them. This matter was absolutely impossible.

When Luo Tian yelled this out, their gallbladders started shaking in fear. This was practically the actions of one courting their own death! The Ghost Merman Sect disciples were all unparalleled existences. Yelling for them to all come out together was definitely the equivalent of courting death, right?

Luo Tian furrowed his brows and said: "A plan? Of course I have a plan."

Wang Fu's expression turned to joy before asking: "What plan do you have?"

Luo Tian smiled and replied: "My plan is to kill my way over and f*ck them all up. The more the merrier!"

Wang Fu's face immediately darkened. His forehead looked like there were black lines on it as he couldn't understand Luo Tian at all. "Is this even called a plan? Do you know how many disciples the Ghost Merman Sect has? This is the depths of the Dark North Sea, so they've become much stronger than when they are on land. If you rush in just like that, I'm afraid..."

"Hey... hey...!"

"Are you listening to me?"

"I said..."

"Shit, this kid..."

When Wang Fu was in the middle of talking, Luo Tian had already kicked open the gate into the Ghost Merman Sect. Luo Tian then shouted: "Your granny! You guys aren't coming out, huh? If you don't come out, this daddy will kill his way in then!"

"Boom~!"

The entire gate's structure was destroyed by another kick of Luo Tian.

There used to be a huge plaque hanging above the gate entrance with the words Ghost Merman Sect. Luo Tian was now standing on top of it while his body was releasing an aura of dominance.

Wang Fu's eyes almost popped out of its sockets.

The other three were now shaking.

"He's dead."

"He's definitely going to die."

"The people of the Ghost Merman Sect are going to be enraged."

"He even dares to step on top of their plaque. Most likely no one will be able to save him now. Why is this kid so arrogant? This kind of arrogance will definitely drag others to death as well."

"Big brother, what should we do?"

Wang Fu showed a bitter smile before saying: "Just let them come since there's nothing else we can do. Even if Luo Tian continues acting crazy, we can only accompany him in the process."

Wang Lu's expression hiddenly changed as he said: "But big brother, he's completely insane. If this continues on, we're just courting our own deaths. I'm afraid we'll be dead already before we even catch a glimpse of Ma Sheng. I really don't want to accompany him to my death like this."

Wang Fu replied: "No matter what, he is doing this on the behalf of Dark North City. Second brother, we're technically only here to observe him but we're guards of Dark North City. Now that we've arrived at the Ghost Merman Sect, we will only lose face for Dark North City if we don't kill some people and give them hell."

"What big brother said is correct."

“What are we afraid of?”

The four glanced at each other before making big strides to follow.

Luo Tian saw the actions of the four and smiled. He then said to himself: “It’s good that you guys still have some sense in you, or else I would really look down on you all.”

Immediately after...

Luo Tian said: “You four only need to quietly follow behind me. Before I die, you guys don’t need to take any actions.”

“Presumptuous!”

“You actually dare to act wildly in our Ghost Merman Sect? It looks like you feel you’ve lived for too long!”

Suddenly...

Ten human-shaped figures descended.

They were all burly Mermans, each with bulging muscles containing explosive power. Their eyes were like torches as they held onto their tridents. The ten of them were glaring at Luo Tian with a trace of disdain.

“I thought everyone in the Ghost Merman Sect had died already.”

“So there’s still some alive.” Luo Tian chuckled coldly.

His right foot stepped down with force, immediately cracking the Ghost Merman Sect plaque beneath him. His hand made a grabbing motion to pick up the pieces before flinging them away.

“You dare to destroy our Ghost Merman Sect’s plaque?!”

“Kid, go die for me!”

The ten were all enraged.

The moment the plaque was thrown away, Luo Tian’s figure disappeared.

Wang Fu’s gaze turned gloomy as he said: “These ten Merman are most likely disciples of Ghost Merman Sect’s Elite Hall. Their cultivation realm is all at the Profound Ancestor 9th rank.”

“We’re screwed then.”

“No matter how strong he is, there’s no way he can be the opponent of ten people.”

“Big brother, we should take action too.”

The expression of the four quickly changed.

“Boom~!”

A piece of the plaque was caught by one of the mermen. His hand turned numb and his body took several heavy steps backward.

Also at this moment...

Luo Tian’s ghost-like figure suddenly appeared. His mouth was curved into a signature grim reaper smile. He then shouted with his fists clenched: “Level 5 Berserk!”

“Boom~!”

Thirty-two times his base attributes were released.

The powers inside Luo Tian swelled up. His fists turned to the form of the Skysoul Palms before he smashed out ten palm strikes.

“Bang~!”

“Bang~!”

“Bang~!”

As each palm smashed out, a merman would keel over.

Each palm strike resulted in instant kills!

In less than a second, ten elite disciples were killed to the point that they didn’t even have time to react.

Same level?

Profound Ancestor 9th rank?

Even if a hundred more came, they would all be instantly killed. There was no one that was Luo Tian’s opponent in the same cultivation realm. To him, those in the same cultivation realm were equivalent to ants that he could easily pinch to death.

Wang Fu and the others were dumbstruck.

They were all standing there and didn’t know how to react.

They were looking at Luo Tian like he was some sort of freak.

Luo Tian coldly smiled and said: “Not a single person that can fight!”

Chapter 457 – Meteorite Array

If it were a few days ago, most likely these elite disciples would still be able to exchange a few moves with him.

But they were not Luo Tian’s opponent now.

Profound Ancestor 9th rank – one completely controls the powers of the Ancestor realm. Coordinated with his powerful fleshly body, Luo Tian could still instantly kill them even if these mermen and strong bodies.

“Ding!”

“Ding!”

“...”

Ten alert tones sounded off.

Luo Tian took a brief glance and said with joy: “Not bad, they’re worth about 30,000 experience points each. It’s much better than killing those sea demons. It looks like it won’t be too difficult for me to level up to the Profound Venerate realm.”

Rich in experience points.

Profound energy wasn’t too bad.

The most important part was that killing these mermen gave him Undefeated points.

This was the key point!

Luo Tian currently had two bloodlines and was missing two. He had to gather them all within two years.

Once he fuses the bloodlines of the four divine beasts, he can explode Murong Wanjian!

This was what he truly wanted.

Immediately after...

Luo Tian roared in the air: "Ma Sheng, you damn dog thing! Can you send out more people in the next round?! Is this all the people you have in the Ghost Merman Sect? There's not a single person that can fight well! How about you come out personally?!"

His voice was extremely loud.

It covered the entire Ghost Merman Sect.

Inside the main hall.

Ma Sheng was so angry that his face turned red. He slapped the stone chair he was sitting on and turned it into powder before shouting: "Garbage! Ten people couldn't even beat a piece of trash with a crippled dantian! And they lost in such a pathetic way too! It's good that they're dead since living will only shame my Ghost Merman Sect!"

While saying this...

Ma Sheng's gaze faintly changed as he said to himself: "I haven't seen the kid for only a few days yet the kid managed to raise his cultivation so quickly? He actually reached the Profound Ancestor 9th rank... how did he train to become like this?"

Suddenly...

An Elder stepped forward and said: "Sect Leader, I will go!"

Ma Sheng faintly smiled and replied: "Good! Third Elder, go select a hundred elite disciples from the Elite Hall. Don't kill the kid too quickly though. You need to torture him viciously first. I want to see his expression when he can neither live nor die."

"I will definitely not let the Sect Leader down."

Around this time.

Luo Tian was scolding the Ghost Merman Sect but didn't enter further.

He was actually jumping all over the place.

Every time he landed on the ground, he would squat down and start engraving something. Sometimes he would suddenly make a loud noise and sometimes he would act like he was enlightened by something.

This made Wang Fu and the others completely lost.

"What is he doing?"

"Engraving an array? This array seems to be different from the previous ones."

"Could he be engraving a new type of array?"

“Is this how normal people engrave an array?”

Luo Tian was indeed engraving a new array.

He was already a rank 8 Array Master so his comprehension of arrays had already reached a very high level. With his understanding of arrays, he was adding onto it with his unrestricted imagination.

If the process went without a hitch, perhaps he could create a new type of an array. He would then be a new creator for an array and break the gnome race’s history of dominating this subject.

“This should work, right?”

“In theory, it should work.”

In a few short minutes, Luo Tian had set up a new array. Glittering light was flashing around as the array’s energy fused together. Luo Tian looked at the array’s power on the ground and wondered how strong it was.

At this time...

The Third Elder, Liu Kun, charged over with a hundred ferocious-looking Elite Hall disciples.

Wang Fu’s expression drastically changed.

But...

The four brothers didn’t move away and stood to the left and right sides of Luo Tian.

Wang Fu pointed at Liu Kun and said: "He is the Ghost Merman Sect's Third Elder. His cultivation is at the Profound Venerate 5th rank and he knows how to control immortal force very efficiently. You need to be careful of him."

"The disciples behind him are all from the Elite Hall, so you cannot underestimate their strength."

The gaze of those four turned gloomy as they released the highest amount of powers they had.

Luo Tian's mouth curved up before saying: "Wang Fu, have your brothers back up. I can handle these people all by myself."

Wang Fu's expression changed as he said: "Brother Luo, we did previously look down on you a bit and thought you wouldn't be able to destroy the Ghost Merman Sect with your strength. I won't hide it from you now but we still refuse to believe that. But you came here for Dark North City and Her Highness, so no matter how we feel, there's no way we would let you fight by yourself. We aren't afraid of death."

The other three nodded their heads.

Luo Tian's heart warmed up and didn't continue rejecting them. "Fine, what you've said is correct. There's no need to fear death, so let us enjoy ourselves and go crazy!"

"Damn dog thing!"

"Just a few mere lowly humans dare to act presumptuously at my Ghost Merman Sect?!" Liu Kun shouted with disdain.

Luo Tian coldly scoffed and said with disdain as well: "Stop blabbing so much nonsense. Liu Kun, is it? Come at me, and watch how this daddy plays you to death."

Liu Kun didn't want to continue talking nonsense with Luo Tian either and immediately ordered: "Elite Hall disciples listen to my command! Attack them together! I want that kid to experience the pain of being unable to live nor die!"

“Hah~!”

They all grunted loudly in acknowledgment.

In an instant...

A hundred mermen flew up into the air in unison.

Luo Tian blocked Wang Fu who was about to charge forward as well. He then said: “Just wait and enjoy the show.”

A hundred mermen then descended close by.

They directly landed within the array Luo Tian had setup.

Luo Tian smiled excitedly and shouted: “Meteorite Array, descend for me!”

The array activated.

The power inside the array connected together and gave off an intensely bright light. The mysterious looking runes then exploded with a powerful energy.

This was the array that Luo Tian came up with on his own.

Meteorite Array!

If this array was to succeed, countless meteorites would start falling down and instantly kill everything within it.

Liu Kun's expression turned to shock as he shouted: "Everyone, be careful! We are currently inside an array so don't make any reckless movements."

Immediately after...

Liu Kun pointed at Luo Tian's nose and scolded: "Damn dog thing! What a despicable and sinister individual! You actually dared to create an array inside our Ghost Merman Sect?!"

Who would've imagined that someone would engrave an array inside their Ghost Merman Sect?

Only a crazy person like Luo Tian would do something like this!

"Boom~!"

"Boom~!"

Explosive sounds that seem to pierce through all nine heavens were heard above the array.

Those disciples trapped inside the array became anxious to the extreme. They wanted to escape from the area but the array's energy was blocking them in. No matter how hard they tried, they were unable to break through the barrier.

Luo Tian's mouth curved into a cold smile before saying: "This daddy is a rank 8 Array Master, so do you think you can charge out of it that easily?"

Sounds of thunder were rumbling in the sky.

There were constant changes happening up in the sky.

A short while later...

A rock about half the size of one's fist fell down.

"Hahaha..."

"Hahaha..."

"Hahaha..."

Laughter!

Loud laughter filled with ridicule! Liu Kun was rolling on the floor laughing. He was laughing so hard that he could barely speak! "Is this the array you engraved? It's too strong! This daddy almost peed his pants from fear! Hahaha..."

Did it fail?

Only a little rock fell down on the Meteorite Array.

Luo Tian's face turned gloomy as he mumbled to himself: "Damn it! I've lost all my face this time!"

Also at this moment...

The power of the array gradually receded. Those Ghost Merman Sect disciples didn't attack and just stood there staring at Luo Tian.

Suddenly...

Wang Fu raised his head up while muttering: "What a large rock!"

Chapter 458 – Death!

This was the first time Luo Tian engraved the Meteorite Array.

He didn't have that much hope.

But...

What he didn't expect was a piece of rock the size of half a fist to come down. This made him unsure if he should laugh or cry about it.

He was not discouraged by failure though.

Since this was his first attempt, Luo Tian wasn't too depressed about it.

But...

Liu Kun was laughing so hard that he couldn't even close his mouth if he wanted to! The one hundred elite disciples were the same as they mocked Luo Tian.

"This is too funny!"

"I thought the Meteorite Array was going to be something super powerful and almost pee'd my pants from fear. So it was actually just a pebble. Luo Tian, who are you trying to smash with such a large rock?"

"Trash."

"It's really too hard not to laugh. I have never seen such a trashy person in my life."

Sounds of insult and mockery started up.

The energy of the array was weakening.

At this time...

The sky gradually darkened. Even though they were in the depths of the sea, they were still able to see the sunlight above. Yet at this instance, the sky had darkened.

“Huh?”

“It’s not night time yet, so is it going to rain soon?”

“It doesn’t look like rain clouds.”

“It’s getting darker. What’s going on? See how the other areas aren’t affected?”

Everyone was looking up.

They found a mass of darkness had covered them like a large ship had floated above their heads.

Wang Fu muttered: “What a large rock!”

Suddenly...

There was an extremely loud sound on the surface of the water, very similar to a nuclear explosion.

“BOOM~!”

Water splashed up and towered into the sky.

A violent shockwave shot outwards over ten thousand kilometers. The waves became bigger and taller and eventually formed a huge tsunami. It surged outwards like crazy and even swallowed up some smaller islands nearby.

Liu Kun still had a smile of ridicule on his face. When he looked up, his expression suddenly changed as he shouted in shock: "Run!"

His face immediately paled in shock!

A rock! A humongous rock that contained the energy to break through the void was barreling towards them!

Luo Tian had frightened himself, "Damn, this is a bit too strong! I was hoping a few rocks would descend and didn't expect a single huge rock like that. This is going to be quite deadly!"

He was genuinely surprised.

He didn't imagine that the first array he created would bring in such a large meteorite from beyond the atmosphere and make it descend smack dab on target.

At this time...

Those elite disciples who were previously smug to the extreme had become like frightened birds. They were trying to escape like that had lost their minds, but the array's energy barrier was still up and hadn't fully disappeared yet. With the addition of their emotional panicking state, only several disciples managed to escape from certain weak areas.

"Hong~!"

"BOOM~!"

The huge rock smashed down heavily!

The explosion seemed to rock the nine heavens and the netherworld!

The impact caused shockwaves to surge out continuously.

The powerful force of impact surged out like a tsunami and triggered a volcano a hundred thousand kilometers away. Lava shot out and overflowed, causing the entire Dark North Sea to violently shake to no ends.

Somewhere known as the Dark North Abyss...

A pair of huge eyes faintly opened.

“Ding!”

“Ding!”

“Ding!”

System alert tones kept ringing. Luo Tian almost couldn't stand properly amongst the sand and dust blowing everywhere. Wang Fu and the others were directly forced tumbling backward since they were unable to resist such a powerful impact force.

“Congratulations to player Luo Tian...”

“Congratulations to player Luo Tian...”

“Ding!”

“Undefeated value +1.”

“Undefeated value +1.”

The congratulatory alerts by the system were ear-deafening.

As the huge rock descended, it covered the entire surface area of the array. Everyone had turned into meat paste underneath the huge rock.

The few that managed to escape were struck by the shockwave and could barely stand up.

Liu Kun was gasping for breath while leaning up against a boulder. When he looked at the humongous meteorite, his face paled like ash while his eyes clearly showed his thoughts and fear – this array is too powerful!

Suddenly...

Luo Tian’s figure leaped over and landed next to Liu Kun. His mouth curved into a cold smile as he said: “Third Elder; weren’t you just laughing with such gusto? Come, come, come, laugh again for me to see.”

“Luo Tian!”

“Stop acting so arrogant! This place is the Ghost Merman Sect! What do you think you can do here?!”

“What can trash with a crippled dantian do here?!”

“Humph!”

“You probably don’t know but the Dark North City you know of doesn’t exist anymore. The Princess Dark North you guys are trying so hard to protect has already been captured. She is inside our Ghost Merman Sect right now. Just relying on a piece of trash like you and you wish to destroy my Ghost Merman Sect?!”

“You’re basically dreaming!”

“If you know what’s good for you, you better scam far away from the Dark North Sea. Otherwise...” Liu Kun was glaring at Luo Tian and speaking in an over-the-top arrogant manner.

Luo Tian’s gaze turned ferocious.

He didn’t expect there would be such a sudden change to Dark North City.

Even Princess Dark North was captured!

One can imagine that Yang Lin was most likely dead then.

Even though Luo Tian didn’t really like Yang Lin, everything he did was for the good of Dark North City.

Luo Tian’s brows furrowed. He didn’t let Liu Kun finish his words and just directly stepped onto his face. This was a heavy and fierce stomp while he shouted: “You guys are all courting death!”

“Level 5 Berserk!”

“Boom~!”

Immortal force was released right afterward.

The energy exploded forth from his right leg.

“Bang~!”

Liu Kun’s head had burst from being stepped on! Fresh blood and brain matter splattered all over the ground!

Luo Tian looked back up in a certain direction before shouting: “Ma Sheng, you damn dog thing! You are absolutely courting death!”

Rage!

Extreme rage!

Who would’ve imagined these Mermans were that despicable!

He didn’t know what had exactly happened inside Dark North City, but he was placing all the blame onto Ma Sheng.

Wang Fu rushed up in a hurry as they had all heard what Liu Kun had said. Rage was coursing through them as he asked: “What should we do now?”

“What else is there to do?”

“Kill our way over!”

“If those beasts dare to do anything untoward to the Princess, we shall f*ck up all eighteen generations of their ancestors!”

These four had received some forms of kindness from the Princess before.

It was time to repay that kindness.

Luo Tian smiled in a gloomy manner and said: "Your words are correct. We just need to directly kill our way over."

Ghost Merman Sect's main hall.

"Garbage!"

"Garbage! They are all garbage!"

"That dumb idiot Liu Kun actually told them everything!"

"Did shit somehow enter his brains?!"

Ma Sheng was yelling to vent his anger. He clenched his fists while his gaze turned cold before shouting: "Kid, I want to see what other abilities you have!"

"Ma Cheng, listen up for your orders!"

Grand Elder Ma Cheng was Ma Sheng's biological younger brother. He walked forward and cupped his hands, "Please relay your orders, Sect Leader!"

Ma Sheng said with a smile: "Have all the disciples of the Elite Hall set out. That kid loves to play around with arrays, right? Let's display our Merfolk race's Dark Sea Ghost Array. Remember, I want him to die a horrible death!"

"Order received!"

Another area of the Ghost Merman Sect.

“Your ability can see the future and contains the power of fate. This kind of ability is really quite special.”

The black robed elder looked at Princess Dark North with a smile and asked: “So can you see my fate?”

He really wanted to know!

Princess Dark North replied with a calm expression: “Death!”

Chapter 459 – Strong To The Point Of Being Outrageous

“Death?”

The black robed elder’s expression turned serious as he coldly sneered: “Is there a way to change my fate?”

“No!”

Princess Dark North’s reply was simple and direct.

The black robed elder’s expression didn’t have any drastic changes. He showed a faint smile and said in neither fast nor slow manner: “Grand Elder said you had the abilities to predict the future. We would classify it as a power of fate, a power that does not belong to this continent but something from beyond. I really don’t understand why I would die. Who actually has the capability of killing me?”

While speaking to this point...

The black robed elder's tone changed at the end of his sentence. His expression turned fierce as he coldly said: "Just relying on a kid that knows a bit about arrays?"

"Princess, I think you're over thinking things."

"That kid does have qualities that make him different from others, but not to mention me, he might not even make it through the Ghost Merman Sect."

Profound Ancestor 9th rank.

That kind of cultivation realm was way too weak.

It really wasn't considered much in the Ghost Merman Sect.

Even though Luo Tian's cultivation had surpassed a portion of the Ghost Merman Sect disciples, Ma Sheng's cultivation realm could absolutely suppress him.

And his own cultivation was above Ma Sheng, so there was no need for him to make a move personally!

Princess Dark North didn't say anything else.

Her expression was very calm and showed no intention to argue about it.

"Boom~!"

"Boom~!"

Footsteps like thunder while their killing intent surged high into the sky!

Not long after...

Seven to eight hundred Elite Hall disciples rushed out like a surging tide.

Luo Tian was somewhat startled by this before coldly smiling. "Oh? Looks like there are quite a bit of mermen this time. I'm going to get a bunch of experience points again."

Immediately after...

Luo Tian said: "Wang Fu, you and the rest should back up. With your current strength, you guys won't be able to resist for more than a minute. You will only distract me if you stay, so it's best if you withdraw for now."

Wang Fu and the others glanced at each other.

Immediately after...

Wang Fu replied with seriousness: "Brother Luo, please be extra careful then."

After saying that, the four of them quickly retreated backward.

Luo Tian finally felt some relief when they retreated for quite a distance. Only when there was no one around him could he go crazy and not hold back anything.

Ma Cheng stepped forward and pulled out his sword. He then pointed it at Luo Tian and shouted: "Kill him for me!"

"Kill!"

“Kill!”

“Kill!”

Their voices shook the sky!

Those elite disciples were like a flood of ferocious beasts as they charged towards Luo Tian. Every one of them was releasing their most powerful attacks towards him!

Luo Tian was clenching his fists. His gaze was locked onto Ma Cheng as he said to himself: “Capture the ringleader first before getting rid of the followers. Once I kill you, the emotions of those disciples will definitely become chaotic. At that time, I could easily kill them one by one.”

Watching those mermen charge over...

Luo Tian calmed his breathing and forced out all unnecessary thoughts. He seemed to have achieved a state similar to heaven and man as one.

His eyes were motionless, similar to a falcon that had locked onto its prey!

Inside the main hall.

Ma Sheng suddenly shouted: “Be careful little brother!”

“Damn dog thing!”

“If you dare to injure my little brother, I’m going to rip you up into tens of thousands of pieces!” Ma Sheng shouted in shock.

His figure then transformed into a beam of light and shot out.

Also around this time...

Ma Sheng's voice finally arrived, but Luo Tian's figure had already disappeared as he shouted: "Shadow Clone, Shadow Shift!"

"Boom~!"

His physical body became an incorporeal body that seemed to be made up of darkness.

Within an instant...

Luo Tian arrived in front of Ma Cheng and grinned. He had already condensed his powers before heavily smashing out with a devastating attack: "Skysoul Palms!"

"Bang~!"

Everything happened too quickly.

No one imagined Luo Tian would make Ma Cheng his first target. His movement was like a ghost so no one was able to see what happened.

When Ma Cheng heard his big brother Ma Sheng shout out in warning, he started focusing on his surroundings. But it was too late already. Even though he was an expert at the Profound Venerate realm, he wasn't able to react in time so he could only resist Luo Tian's attack with his physical body.

Two palm strikes landed on his chest.

His chest felt like it was about to split apart!

It was extremely uncomfortable! His body was like a piece of damaged thread as it was smashed flying.

Luo Tian frowned as he said to himself: "He's not dead yet?"

The system would naturally sound an alert if his opponent dies. If there weren't any alerts, that clearly meant they were not dead yet.

This was the most effective way to determine if someone was dead or not.

Right after that...

Luo Tian shouted: "Shadewind Steps, level 6!"

"Whoosh~!"

Without letting Ma Cheng's figure fall down, Luo Tian had already arrived at his target location. His right leg stomped down and launched his body up into the air. An uppercut then accurately landed on Ma Cheng's back.

Ma Cheng's body was once again smashed into the air.

Luo Tian's figure instantly appeared above Ma Cheng before clenching his hands into fists. He then sneered ferociously and said: "Let's see if you're going to die now!"

"Bang~, bang~, bang~...!"

Punches started raining down!

When Ma Cheng was first struck by Luo Tian, he was already dizzy from the attack. He was thinking that Luo Tian wouldn't chase after him after being smashed flying. Who would've imagined that Luo Tian was

a madman and had already calculated a backup plan? His speed and combat analytical skills were too strong!

No matter how strong Ma Cheng's fleshly body was, he wasn't able to change the outcome.

"Boom~!"

Ma Cheng's body fell down from high in the air.

A huge pit appeared on the ground, and the sand and gravel from the seabed splashed out all over the place.

"Ding!"

"Congratulations to player Luo Tian for killing Ma Cheng. You have gained 80,000 experience points, 8000 profound energy..."

"Congratulations to player Luo Tian for gaining..."

"Congratulations to player Luo Tian for gaining..."

Luo Tian glanced at the loot explosion and his expression turned into disdain. "Shit, what a letdown. Everything that exploded out is garbage."

The seven to eight hundred Elite Hall disciples were dumbstruck.

Their Grand Elder was killed just like that.

Accurately speaking – he was basically played to death and didn't have any strength to fight back.

Everyone was clenching their jaws so tightly that cracking sounds could be heard. Several disciples in the lead shouted: "Kill him!"

They then turned around to charge straight for Luo Tian.

Luo Tian grinned. The instant they arrived, his figure disappeared and arrived back at his original position. He pulled back his arm and used his leg to support his arch. His figure produced a bright light before he charged forward.

His right hand then smashed forward!

"Die!"

"Ding!"

He attacked again and caused another death!

Those Elite Hall disciples didn't know that Luo Tian had already appeared to their rear.

Luo Tian was killing them like he was cutting up cabbage.

"Whoosh~, crack~!"

People kept keeling over and alert tones kept sounding off.

When the group finally realized what was going on, there were already dozens of corpses behind them. First, the Grand Elder was smashed to his death. And now, there were so many disciples being killed. Their momentum instantly became chaotic and their will to fight had disappeared. The only thought they had now was to escape!

"Big brother, is he still human?"

“Instant kill! It has always been instant kills! How come his Profound Ancestor 9th rank strength is completely different from the Ghost Merman Sect disciples who are also at the Profound Ancestor 9th rank?”

“First was the Meteorite Array. Then it was a powerful shadow shifting skill that directly killed the Grand Elder. What kind of powers is Luo Tian hiding? He is way too strong, to the point of it being outrageous.”

“What should I do? I’m starting to feel a sense of worship towards him.”

Wang Fu’s brows were furrowed. His expression became serious as he muttered: “The earlier he exposes his strength, the more dangerous the situation becomes. Ma Sheng will most likely be here soon.”

Chapter 460 – Desperately Trying To Level Up

“Luo Tian, hand your life over!”

His figure hadn’t arrived yet but his voice was already heard.

A powerful oppressive pressure crashed over like a huge wave!

Luo Tian’s body was instantly suppressed.

What an uncomfortable feeling!

Also at this time, Ma Sheng appeared with a great show of strength. His two fish-like palms were moving, creating two powerful columns of water that shot towards Luo Tian.

“Watch out, brother Luo!”

“Be careful!”

Wang Fu and the others were wracked with anxiety!

Luo Tian's expression darkened. His sea of consciousness was being suppressed so his body couldn't move. When facing against those two water shock waves, his mind turned grim as he clenched his fists. He then roared into the air: "Agggghhh...~!"

A roar filled with rage!

He didn't dodge, nor could he dodge even if he wanted to.

Flames of rage were burning inside his heart.

It was suppression again! They think they're all that just because their cultivation level is higher!

"Bang~!"

"Bang~!"

The two water columns collided into Luo Tian's chest and abdominal area. His body was smashed flying for over a thousand meters. His U-shaped body smashed into a coral mountain and toppled it over!

Uncomfortable!

Extremely uncomfortable!

His chest bones were fractured.

His internal organs were shaking like a ferocious beast was going crazy inside

“Puff~!”

“Puff~!”

Luo Tian threw up several mouthfuls of blood. His brows were furrowed as he said to himself: “So strong!”

Amidst the rubble...

Luo Tian clenched his fists and opened up the system interface to check his experience bar. “I’m still missing a bit more!”

Right after that...

Luo Tian climbed through the rubble before pulling himself out onto his feet.

“Humph!”

“You haven’t died yet?”

Ma Sheng’s expression turned fierce as he never expected Luo Tian would survive. He didn’t use his full powers on the previous attack, but it should still be sufficient to turn a peak Profound Ancestor cultivator into powder. Yet this guy only threw up two mouthfuls of blood!

Of course...

Ma Sheng didn’t know Luo Tian possessed an immortal body, something that was one step higher than their merman bodies.

Otherwise, it would be impossible for Luo Tian to resist that strike.

Ma Sheng's cultivation was much stronger than Luo Tian.

Luo Tian grinned and exposed his teeth that were stained with blood. He then said: "Is that all the strength you have? Too weak, hahaha..."

While saying that...

Luo Tian's brows furrowed as he roared internally: "Level 5 Berserk!"

"Boom~!"

His powers burst out.

Luo Tian's gaze was locked onto Ma Sheng. He braced his legs against the ground before shooting off like an arrow.

Ma Sheng coldly scoffed in disdain. "Overestimating your own abilities! A piece of trash like you wishes to fight with me? You're courting your own death!"

He didn't move.

He was waiting for Luo Tian's attack so that he could pinch Luo Tian's head and make it burst apart!

Wang Fu and the others were shocked when one of them said: "Did he lose his mind? Why is he charging forward? The difference between his cultivation and Ma Sheng's is too great, so it's impossible for him to be Ma Sheng's opponent."

"What should we do?"

“Big brother, what should we do?”

Wang Fu became dejected while clenching his jaws. He then said: “There’s nothing we can do since we’re too weak. In Ma Sheng’s eyes, we aren’t even comparable to ants. Even those Ghost Merman Sect disciples didn’t bother giving us a glance.”

“We are basically sending ourselves to death if we go over there.”

“Besides, Luo Tian should be clear about the gap between himself and Ma Sheng. There has to be a reason for him to charge towards Ma Sheng at a time like this. We aren’t able to help him so we can only just watch.”

“If whatever he’s planning doesn’t work, we will rush over to protect Luo Tian even if we have to die. As long as he is given more time, he might really be able to save Dark North City!”

The four of them nodded in seriousness.

Ma Sheng was smiling in a playful manner. When he watched Luo Tian getting closer, his right hand started moving.

Also at this time...

Luo Tian’s direction suddenly changed as he charged into the crowd of elite disciples. His fists turned scarlet red and into magma before a fierce killing intent surged out. In just a few short seconds, he smashed out over a dozen fists! Each fist managed to instantly kill an elite disciple!

“Bang~!”

“Bang~!”

“Bang~!”

“Ding! Ding! Ding!”

Alert tones rang out.

His experience bar and profound energy started soaring.

Ma Sheng’s expression turned ferocious as he shouted: “You dare to hurt my disciples? You’re courting death!”

He was so angry that his metaphorical flames of fury rose thirty feet high!

No one would’ve guessed that Luo Tian would dare to make a move against the Ghost Merman Sect disciples at a time like this. He had actually killed over a dozen of Ma Sheng’s disciples right in front of his face!

What use was there to kill these people?

A ferocious aura exploded from Ma Sheng’s body. His fin-like hands once again created two powerful forces as it barreled out towards Luo Tian.

Luo Tian didn’t dodge.

He had no way to dodge.

He protected his mind, his sea of consciousness, and clenched his teeth while relying on his fleshly body to take the brunt of it.

“Boom~!”

“Boom~!”

“Boom~!”

A series of explosions were heard around Luo Tian’s location as his body was smashed flying like a discarded thread. This time, he flew even further, smashing a coral mountain ten thousand meters away into a pile of rubble. He looked like he was dead!

Uncomfortable!

This was even more uncomfortable than the last time!

Luo Tian could barely move his body.

After taking two of Ma Sheng’s attacks, his fleshly body had already reached its limit. If there was one more round of attack, his body would most likely be done for.

This place isn’t a video game!

One can be reborn inside a video game while dying here will only result in disappearing forever!

Luo Tian opened up his system interface to look up his experience bar. He clenched his teeth, and his gaze tightened before he crawled back up with all his strength. After casting a series of Healing Art on himself, the pain racking his body receded a little.

The contorting internal pain he was feeling was still the same though.

Luo Tian’s face was pale white while walking forward one step at a time.

He was like a madman!

Wang Fu couldn't understand what was going on.

None of the people present could understand what was going on.

He wasn't an opponent so why keep standing up?

Ma Sheng couldn't help start laughing madly. His laughter was incomparably fierce and smug. "Who would've known that not only are you a piece of trash, you even have shit that's entered your brains. You still haven't died after two of my attacks, so I can't deny that I'm not angry about it. But this next attack of mine will be with my full strength, smashing you straight up into the heavens!"

Ma Sheng was angry.

Extremely angry!

He was pissed because he couldn't kill Luo Tian even after two attacks.

Wang Fu and the others quickly rushed over and blocked Luo Tian. "Brother Luo, stop walking forward. You will really die."

"You need to quickly escape; we can delay them for you."

"As long as you live, our Dark North City will have hope."

"Quickly run!"

The four of them were blocking in front of Luo Tian.

Luo Tian didn't move because just walking for him was a difficult task. He was really tired; very tired. He almost fainted from pain twice, yet he clenched his teeth to force himself to stay awake. He hadn't rested for a single second ever since he entered the Dark North Sea.

Two heavy attacks were extremely difficult to endure!

But...

He cannot stop.

At least not stop at this place.

Luo Tian's heart felt some warmth when he looked at them. Just when he was about to say something...

Out of several disciples next to Ma Sheng, one of them said: "Sect Leader, just hand these four pieces of trash over to us."

Ma Sheng faintly smiled and replied: "I will let you guys perform, but don't disappoint me."

The four disciples smiled in response.

The four of them then charged out.

Wang Fu and the others glanced at each other before charging out themselves. One of them shouted: "Luo Tian, quickly run now!"

At this time...

Luo Tian's mouth slightly curved up. The instant Wang Fu and the others charged out...

He used the last ounce of strength he had left and charged forward at speeds even greater than the rest. He instantly arrived ahead of Wang Fu and the others. His hands started moving as he exploded with the greatest leftover strength and punched out four times, "Bang~, bang~, bang~, bang~!"

Ma Sheng was beyond enraged! He then shouted: “Kid, you dare?!”

Also at this time...

A crisp system alert tone was heard inside Luo Tian’s mind.

“Ding!”
