

# Leveling Up And Becoming Undefeatable

## Chapter 6 – The Quest That Was Forced Out

Chapter 6 – The Quest That Was Forced Out

“Pak!”

“F\*cker, do you have any tasks for me today?”

“No, no...”

“Pak!”

“How can there be none? Walking the horses, feeding them grass, cleaning the area, there’s so many things to do so how can you not have tasks for me?”

“This old servant will take care of them, how would I dare trouble you with it?”

“Pak!”

“Give them all to me.”

“I... I... don’t dare, just let this old servant do them.”

“Pak!”

“This daddy tells you to give it to me so just give it to me, cut the bullshit.”

Ma Tong’s cheeks were green and purple, and his two eyes were beaten until they looked like panda eyes. He had lost some teeth and his hair was in a mess. He was tortured by Luo Tian until the point he didn’t look human. He looked at Luo Tian with extreme fear before weakly saying: “Then... then... then I’ll, I’ll, give them to you to take care of.”

“Ding!”

“A quest has been gained, Clean the Stables. You will gain 30 experience points upon completing the quest.”

“A quest has been gained, Walk the Horses. You will gain 20 experience points upon completing the quest.”

“A quest has been gained, Feed Grass to Horses. You will gain 10 experience points upon completing the quest.”

Luo Tian smiled in satisfaction and slapped Ma Tong in the face again. With a laugh, “You are so cheap, I had to smack you half-dead before you were willing to give me the tasks.”

He was secretly glad in his heart that he hadn’t killed Ma Tong yesterday; otherwise he wouldn’t have gotten these quests.

Although the experience weren’t much, every point counted for the current Luo Tian. The early stages required these experience in order to level up.

“Young master, young master...”

Feng Lei was carrying a bag and panting as he ran to Luo Tian. With a silly smile, “Young master, I looked around every latrine pit and this is all I could find.”

After saying that, Feng Lei opened the bag and a stench drifted out. Inside was over 10 dung beetles.

Luo Tian patted Feng Lei’s shoulder and said: “Fatty Lei, you did quite well. Once young master has money, I will treat to eat some meat.”

Feng Lei scratched his head and showed a silly smile. After hearing that he could eat meat, his saliva almost dripped out of his mouth.

Eating meat had always been his dream.

It’s already been 3 years; he even forgot how meat tasted like.

Luo Tian tied the bag back up and threw it to the ground. He then furiously stomped on it.

Feng Lei watched Luo Tian’s strange actions and didn’t question it. He only stood to the side like an idiot and dreaming about Luo Tian taking him out to eat meat...

A crazy amount of System alerts sounded off in Luo Tian’s mind.

“Ding!”

“Congratulations to Player Luo Tian for killing a dung beetle. 1 experience point has been gained, 0 profound energy...”

“Ding!”

“Congratulations...”

It wasn't even a minute of actions when dozens of dung beetles suffered tragic deaths under Luo Tian's feet. He now had an extra dozen of experience in the bag. Luo Tian looked at his experience bar and lightly smiled, “Fatty Lei, go out and look for more dung beetles for me. Once you find 100 of them, young master will definitely take you out to eat meat!”

Feng Lei's eyes widened, “Eat meat? For real?”

“Of course, when has young master ever lied to you?” Luo Tian replied.

Feng Lei picked up the bag with a smile and ran off while panting.

Luo Tian didn't stay idle, and quickly completed his quests one at a time.

---

Three days later.

Early morning.

Luo Tian gave Ma Tong a beating, but unfortunately he couldn't force out any quests.

It wasn't that Ma Tong didn't give Luo Tian any tasks; it's just that he no longer gave them out as quests.

It was almost like the quests were all done.

This was the reason why Luo Tian was viciously beating Ma Tong!

“How come there are no more quests?”

He hadn't even leveled up to Profound Pupil 4th rank yet and there were already no more quests available. How can Luo Tian not be angry? Why would he not take it out on Ma Tong?

Not to mention this Ma Tong was the one that had beaten him up the most, so if he didn't take it out on him, then he wasn't Luo Tian.

Without the daily quests was equivalent to a big loss of experience, making his leveling much slower.

After ferociously beating Ma Tong, Luo Tian squatted in the corner of the stables and mumbled to himself: “Since I'm not getting any quests right now, I have to find another way to gain experience. I can't just keep on waiting and doing nothing.”

“Fatty Lei, are there any places nearby Jade Mountain City that has a lot of wild beasts?”

“It’s regular wild beasts and not demonic beasts.” Luo Tian reminded him.

Wild beasts and demonic beasts were on totally different levels. Killing wild beasts were possible while he wouldn’t even dare think of killing demonic beasts.

Feng Lei was sitting on the ground and scratched his head for a while. He then shook his head and said: “I don’t really know. Is young master thinking of killing wild beasts and giving me the meat to eat?”

Yesterday, Feng Lei had completed his task of finding 100 dung beetles so all he has been thinking about was eating meat.

“Eat, eat , eat, all you know is how to eat.” Luo Tian wasn’t really angry and continued: “Isn’t it just a meal filled with meat? I will definitely let you eat it.”

He didn’t even have a cent on him. Not to mention eating meat, finding 3 meals a day was a big problem already.

Around this time, four Luo family’s official disciples came around the stables.

“The hunting contest is about to start, this time I’ll definitely become a core disciple.”

“As long as we brothers kill together, I believe we’ll have a chance in being a core disciple.

“Did you guys hear? The rewards for this time’s hunting contest is very generous, in addition to last year’s rewards, there’s also a xuan stone.”

“A xuan stone? The same xuan stone that’s filled with profound energy? That’s like an ultimate treasure for cultivating! A single xuan stone could allow someone to breakthrough into the Profound Master realm!”

“If I were the one to get it, I will definitely be able to step into the Profound Master realm.”

“Stop dreaming, the reason our Patriarch is willing to increase the rewards this time is very simple: Luo Lin’s already at the Profound Pupil 8th rank so who’s going to challenge him? It’s very clear that under the guise of fairness, the Patriarch is going to give the xuan stone to his own son. Can’t you guys even see this?”

“Hearing you say this, now it sounds most likely.”

“Amongst all the youngest Luo family’s generation of disciples, only young master Luo Lin is qualified to get that xuan stone. If it’s anyone else, I won’t accept it.”

“That’s right, there’s no one in the Luo family that can compete with young master Luo Lin.”

“If it were Luo Tian before he was crippled...”

“That freaking huge piece of trash lost all face for our Luo family, so what qualifications does he have to compete with young master Luo Lin? I get pissed off whenever I think of him. If it weren’t for him, how would our Luo family end up like this?”

“Enough enough, don’t mention that trash. We are here to pick out horses to test train in the mountains. This training is very important to us so we must carefully grasp...”

The four of them entered the stables and the one leading them loudly yelled out: “Steward Ma, Steward Ma, pick four of your best horses for us. We have to head to the mountains for training.”

Ma Tong clutched his face and limped out of his office and showed a pleasing smile, “Those stalls over there are all good horses, you guys can select on your own.”

“Steward Ma, your face...”

“Hahaha...”

“Hahaha...”

His nose was green, his face puffy, he had panda eyes, and his two front teeth were missing. Add on his weird limp, the four all started laughing upon seeing him.

Tears glistened in Ma Tong’s eyes as it contained a sense of hatred in them.

Just when he was about to say something, Luo Tian came up to them. One hand patted Ma Tong’s shoulder before he smiled, “These young masters, is there something we can be of service to you?”

Ma Tong felt pain on his shoulder and his whole body started shaking. The words that had reached his throat were swallowed back down.

Upon seeing Luo Tian, the expression of the four turned into contempt.

One of them coldly said: “Humph, you piece of trash haven’t died yet? Didn’t we hear that young master Luo Yue beat him to death?”

“Your dog life is truly tough.”

“You’re wasting Luo family’s food by staying alive and losing face for all the people of the Luo family. Why not just die a little earlier and call it a day?”

Anger appeared on Feng Lei’s face as he clenched his fists off to the side. If it weren’t for Luo Tian blocking him, he would have rushed at them already.

There was only one outcome from Feng Lei rushing forth – he would be miserably beaten.

The official disciples of the Luo family were at or above the Profound Pupil 3rd rank. Two out of the four were already at the Profound Pupil 4th rank so if there was really a fight, Luo Tian wouldn’t be able to deal with those two.

Luo Tian’s lips curved into a smile and bowed, “These four young masters should go select a horse.”

Seeing how complimentary Luo Tian was acting while having a superior expression on his face, one of them mocked, “Trash will always be trash.”

The four went towards the stalls and quickly selected four horses.

Luo Tian and Feng Lei brought the horses out of the stalls and handed the reins to the four. Originally thinking this would be over...

The one leading the group glanced at Luo Tian and coldly smiled, “It might take us several days to train in the mountains, you two will help us look after the horses.”

“What?”

“We are only responsible for the horses inside the stables. Outside of the stables, is not any of our business. If you want someone to look after your horses, go look for someone else.” Feng Lei unhappily said.

“F\*ck!”

“Having you two pieces of trash look after our horses is your fortune. I give you f\*cking face and you guys don’t appreciate it. When it comes to you pieces of trash, this daddy can beat you to death and no one would care about it.”

“You’ve gone too far!” Feng Lei originally had a bad temper. He started rolling up his sleeves and was about to rush forward...

Luo Tian grinned and blocked the enraged Feng Lei. He then laughed and said: “Being able to take care of four young master’s horses is definitely our fortune. We will go, we will definitely go.”

When that disciple mentioned taking care of horses, an alert sounded off in Luo Tian's mind.

"Ding!"

"A quest has been obtained, Taking care of the horses. You will be rewarded with 80 experience points upon quest completion."

He'll definitely do it if there's a quest involved!

Furthermore, from the dialogue between the four, Luo Tian noted they were going to the mountains for training. Based on their current strength, they certainly wouldn't dare to enter the Ghostly Mountain Range and must be another mountain. What other places would have beasts for them to hunt?

"Young master..."

"These four are only the extensions of the Luo family, what qualifications do they have to act so arrogantly in front of you? Back then, they were like dogs in front of you..." Feng Lei indignantly said.

"You damn fatso, what did you say?"

"Motherf\*cker, this daddy thinks you must be tired of living."

"What young master? Dog fart young master more like it! Do you guys think it was still like back then? You should wake up!"

Luo Tian gave Feng Lei an eye signal but the big lug head completely ignored it. Luo Tian could only step forward and apologetically smile, "Please don't get angry these four young masters. My brother has something wrong with his brains so please don't take offense. We've agreed to take care of your horses and we'll definitely do it."

"Humph, it's good you know how to behave!"

Luo Tian dryly laughed, and went into stables intending to get two more horses...

"What are you doing?"

"You mere stable hands wanted to ride horses along with us? You should look at yourselves and see what status you have."

Luo Tian turned around and asked helplessly: "If we don't ride a horse, how are we to catch up to you all?"

"Use your legs to run; are they just there for decoration?"

“Luo family’s biggest piece of trash wants to ride a horse? Aren’t you afraid riding out in public will cause people to laugh until their teeth fall out?”

The expression of Luo Tian’s eyes changed as he walked out of the stables. With a crafty smile, “These young masters will have to lead the way.”

“Hahaha...”

“So obedient. The once mighty Luo family’s ultimate genius has now become like this. Hahaha...”

The four climbed onto their horses, flicked their horse whips and galloped out of the stables.

“Big piece of trash, quickly catch up with us. If you can’t catch up, don’t blame this daddy for not being polite.”

Feng Lei was burning in fury and heavily said: “Young master...”

Luo Tian narrowed his eyes, killing intent flashed in them as he stared at the backs of those four. He then said to himself: “Wait until this daddy completes the quest, then your doomsday will arrive...”

## **Chapter 7 – Making A Move**

Chapter 7 – Making A Move

Dark Spirit Mountain, to the side of the Ghostly Mountain Range.

The surface area compared to the towering Ghostly Mountain Range was like comparing it to a hill.

But...

It was seemingly small but was still very dangerous there.

Even though it was difficult for one to encounter a demonic beast, the regular wild beasts there were still extremely cruel. People typically wouldn’t dare to enter that area.

Luo Yan, Luo Ming, Luo Xiu, and Luo Wan those four were training here in hopes to make a breakthrough while in battle. They were making their final preparations for the Luo family’s hunting contest.

Noon time, the sun was blazing in the sky.

The four of them got off their horses. Luo Yan, who was leading the group glanced at the gloomy Dark Spirit Mountain and said: "Three days, we must make some type of breakthrough within 3 days."

"The hunting contest is our only chance. Whether we can become core disciples of the Luo family will all depend on this training!"

"Don't worry, this year we'll definitely become core disciples!"

All the disciples of the Luo family yearned to become core disciples.

Once one becomes a core disciple, they will receive even more cultivating resources, and gain the clan's attention and grooming.

Becoming a core disciple was also a status symbol.

The Luo family's hunting contest would be held once a year. For all those Luo family's disciples under the age of 18 can participate. As long as they are able to kill a demonic beast in the Ghostly Mountain Range within a time limit, they will be eligible to become a core disciple. From then on, their path to brilliance would be inevitable.

During the contest, whoever hunted the most demonic beasts would come in first place.

The prize for the first place this year was very generous.

Entering the family's Library Pavilion to select a martial skill, and three Spirit Condensation Pills. And this year, there was an additional xuan stone as a reward.

The previous year's competition was very fierce, but there was basically no suspense for this year's.

For those under 18 years of age, Luo Lin had the highest cultivation at the Profound Pupil 8th rank. With his strength, the prize was already in his bag.

Passing through a small path in the Dark Spirit Mountains, two figures were getting closer.

Their throats parched, their lips cracked from being too dry, their whole body drenched, and sweat was dripping from their hair. Those two who had been running all along almost died on the way here.

"Look at you two pieces of trash, you've only ran a bit and you're already this tired. Truly shameful."

"It's good that there are no outsiders here or else you'd disgrace us once again."

“Forget it; stop fussing over these pieces of trash. You two better take good care of our horses. If there’s any problem, you guys will be responsible for the outcome!”

After saying that, the four tossed the reins at them. After a final glance of disdain, they then went towards an area with dense foliage.

Luo Tian was gasping for his breath while trying to swallow to wet his dry throat. His eyes narrowed as he silently cursed the eighteen generations of those four’s ancestors. If it weren’t for the quest, he would have already made a move against them.

However, when Luo Yan finished his words, an alert sounded off in his mind already.

“Congratulations to Player Luo Tian for completing the quest. You have gained 80 experience points as a reward.”

His heart couldn’t help feeling a gush of joy.

“F\*cking hell, the quest has been completed so this daddy no longer has to hold back.”

In his previous life and this current life, Luo Tian had never run so much. This was even f\*cking longer than a marathon. He couldn’t believe he was actually able to run this far.

What pissed him off the most was that from time to time, Luo Yan and them would stop and start taunting and insulting him. The rage in Luo Tian’s heart was continuously increasing, and there were several times he almost lost it. It was fortunate his sensible self kept telling him that he couldn’t make a move, he cannot make a move. Before the quest is completed, he cannot raise a hand. He had to at least give face to the experience points and endure everything.

“I’ve f\*cking suffered too much. If it weren’t for the quest, I really would’ve made a move already!”

This was because he didn’t have the strength!

With strength, one can enter the mountains and kill demonic beasts for experience instead of relying on these little quests. He couldn’t say a word after being picked on and he was almost dead from being overly tired.

Looking at the gloomy forest, Luo Tian started rubbing his hands together with an excited look before mumbling to himself: “A glance at this place tells me it’s a sacred ground for leveling up.”

Immediately after...

Luo Tian kicked Feng Lei who was lying on the ground like a dead pig and said: “Fatty Lei, stay here and watch the horses. I’m going to find some food for us to eat.”

Feng Lei's eyes opened and said: "Be careful young master, Luo Yan and the others are inside there so don't let them find you."

"En, don't worry."

Luo Tian scoffed and said silently to himself: "This daddy is going in just to find them!"

After leaving some instructions, Luo Tian entered into the gloomy forest.

The Dark Spirit Mountain was similar to any other forests in his previous life. The tree roots crisscrossed each other and the foliage covered the skies. It was quite dark inside the forest and difficult to distinguish one's direction.

It's unknown if Luo Yan and the others were afraid that they couldn't leave this place or if they'd separate from each other.

Along the way, these four would mark the trunks of trees by hacking at them. It was as if they were afraid of encountering a demonic beast and would be too scared and lose their way back home.

Relying on these markings, Luo Tian quickly caught up to their figures.

Luo Tian carefully followed them waiting for an opportunity.

"Why do I feel like someone's following us?" Luo Yan who was at the Profound Pupil 4th rank, turned around and surveyed the area but didn't notice anything.

"Big brother, aren't you just overly worried?"

"That's right, there's not even a ghost in sight so who's going to follow us? Unless it's Luo Tian and Feng Lei those two pieces of trash following us?"

"If it were those two pieces of trash, I could beat the shit out of them with just one hand."

"Hahaha..."

Suddenly...

Luo Yan's eyes narrowed, and immediately made a gesture for silence. He lowered his voice and said: "There's a black panther up that large tree in front of us."

The four looked over in unison.

Sure enough, a black panther was hiding in the midst of the thick leaves, its eyes that shone a green light was staring at the four unblinkingly.

While hiding in the dark, Luo Tian was surprised and said to himself: “My opportunity has arrived!”

“Secretly condense your profound energy and we’ll pretend we didn’t notice it. The moment it attacks us, we’ll make our move together.” Luo Yan instructed them.

The other three glanced at each other and lightly smiled.

The profound energy inside their dantian was secretly circulating. They clenched their fists and prepared to attack.

The black panther didn’t notice anything out of the ordinary and slowly moved under the cover of the leaves. It watched as the four got closer before it revealed its fangs.

The black panther was not even considered a 0 ranked demonic beast, so it definitely wasn’t Luo Yan and the other three’s opponent.

But...

Luo Tian wanted to borrow the black panther’s strength. He alone against four people was too difficult, so it had to have the black panther create an opportunity for him. And this opportunity was for him to instant kill!

Immediately...

Luo Tian picked up a small stone and gently flicked it out.

“Whoosh!”

The small stone accurately landed on the side of the black panther. The black panther was startled and opened its bloody mouth. Using its four limbs as support, it rapidly pounced forth.

At the same time...

Luo Tian issued forth an evil ghostly laugh, “Muahaha... muahaha...”

To suddenly hear a strange laugh in the midst of a dark forest, anyone would jump in fright.

Luo Yan and the other 3 were already very tense, so with the addition of the sudden laughter, they were frightened quite severely. Their facial expression clearly showed panic as the four turned around to look back.

It was also at this time that the black panther pounced down.

Luo Yan's face changed and yelled out: "Watch out Luo Xiu!"

Luo Xiu looked up and only saw the black panther aiming to bite his neck. Shock appeared on his face as he shivered in fear. The originally condensed profound energy collapsed because of this. Luo Xiu didn't care about anything and turned around to make a run for it.

"Heehee..."

"Here's my chance!"

Within the darkness, the corner of Luo Tian's lips curved up as he revealed his cold laughter. When Luo Xiu was only a few steps away from him, Luo Tian roared out: "Thunder Tiger Fists!"

His two fists were filled with power as it punched out similar to two artillery shells.

Luo Xiu's face paled in fright and didn't have time to react to it.

"Bang, bang!"

The pair of fists bombarded Luo Xiu's chest, and his whole body flew off several meters before crashing against a big tree and coming to a stop. Luo Xiu's eyes were protruded and dark blood sprayed out of his mouth. His body slid down the tree and showed no signs of life.

He died!

In that moment, a pleasant alert tone sounded off in Luo Tian's mind...

## **Chapter 8 – A Small Fortune**

Chapter 8 – A Small Fortune

"Huh?"

Hearing that "ding" sound, Luo Tian was inwardly surprised.

"Ding!"

"Player Luo Tian killed Luo Xiu. You have gained 100 experience points, 10 profound energy points..."

"Congratulations to Player Luo Tian for obtaining one Foundation Building Pill."

"Congratulations to Player Luo Tian for +1 to the Undefeatable value."

A series of three alert tones sounded off. Luo Tian was so shocked that he couldn't even respond. He then said to himself: "Ki...ki... killing people will give me experience points as well?"

He never expected this!

Even in his dreams, Luo Tian never thought that killing people would give him experience points. It was even higher than those daily quests, and it even gave profound energy as a reward.

This...

He had played over a hundred online games yet has never seen that killing people would net him experience points.

At this point, Luo Tian only wanted to say one thing: "F\*cking hell, who else? Wait, that's not right, it should be that this is too f\*cking awesome!"

Luo Tian was so happy that he almost felt like a crazy fan seeing their favorite superstar. Looking at the dazed Luo Yan and the other two, Luo Tian's eyes flashed a gold light as if he was looking at three experience treasure chests. One step at a time, he walked forward and laughed, "Hello, how are you guys?"

"Luo Tian!"

"Was it you that killed Luo Xiu?"

"How is that possible? Hasn't your dantian been crippled and you can no longer cultivate?"

For a short time, the three couldn't accept that Luo Xiu was killed by Luo Tian in one move.

Luo Yan's right hand stretched out and grabbed onto the black panther's head. He then forcefully threw the black panther several meters away. Luo Yan didn't even glance at the black panther after throwing it away before quickly rushing towards Luo Tian. With thick killing intent, he yelled: "You killed Luo Xiu, you actually killed Luo Xiu, you actually killed my little brother!"

Luo Tian grinned and started laughing out loud from seeing Luo Yan's expression. "I killed him, you gonna bite me?"

"Courting death!"

Luo Yan's eyes shifted and threw a palm strike at Luo Tian while roaring: "You will be buried with my little brother!"

Luo Tian shifted his feet; he wasn't retreating but fighting back with Luo Yan who was at the Profound Pupil 4th rank. With a low voice: "Your little brother is waiting for you in hell!"

I've endured you guys for a long time and now I can finally take action!

"Kill!"

His pair of fists thrust out and all the power of his Profound Pupil's 3rd rank exploded forth.

Each time he struck out, Luo Tian wouldn't save any energy.

Why throw a second strike when a single strike can kill? Since he has already determined this person will die, there was no need to hold back.

If one strike could kill, wouldn't using a second strike be finding trouble for one's self?

This wasn't a video game. Luo Tian clearly felt this world he transmigrated to was a real world. This was a cruel world where survival of the fittest reigned. Being merciful to one's enemy meant being cruel to one's self!

Profound Pupil 4th rank, the strength was one level higher than the current Luo Tian.

His strength was clearly below his opponent, so Luo Tian could only rely on his Thunder Tiger Fists!

"Big brother, kill him!"

"Kill this trash and avenge Luo Xiu!"

"Kill him!"

Luo Yan's eyes widened in rage. Upon facing the fists of Luo Tian, he roared out: "Break for me!"

With his empty palms, profound energy gushed out from it as he grabbed onto Luo Tian's right hand.

"Haha... being caught by big brother's Dragon Subduing Claws, his whole arm would be twisted off its joint."

"Break his right arm first, then his left arm. This piece of trash is finished!"

Luo Tian was inwardly shocked; he never expected that Luo Yan had cultivated a martial skill. And it happened to be a skill that directly restrains his Thunder Tiger Fists.

But...

Luo Tian didn't panic; his lips still showed a cold smile.

The instant his right fist was caught, Luo Tian roared out: "Tiger Charge!"

A power exploded forth from the fist and directly impacted onto Luo Yan's palm.

Pain was felt on his palm and he slightly pulled back a bit. This time, Luo Yan was inwardly shocked as his eyes narrowed. Profound energy was once again condensed before he roared out: "Break!"

At the same time...

Luo Tian pulled back his right arm before thrusting out his left fist, "Thunder Strike!"

The Thunder Tiger Fists was a combination skill, separated into Tiger Charge and Thunder Strike, an attack on both sides!

"Hiss..."

On the surface of the fist, a trace of lightning spark flashed and heavily landed on Luo Yan's abdomen.

"Bang!"

"Puff..."

A mouthful of blood sprayed from his mouth as Luo Yan took several steps back before he could stabilize his body. His face paled as he stared at Luo Tian. One could see the muscle twitching on his face before saying: "You... you..."

Not letting him finish, Luo Tian's body started moving and charged with all his might. Within a blink of an eye, he was already in front of Luo Yan with a grin, "Go to hell!"

When they're down, take their life!

Seizing the moment that Luo Yan was injured, Luo Tian made a dash for it. There were still two others on the side so if he allowed the three to combine forces, Luo Tian would be the one to die. His pair of fists was like hail as it smashed down!

Luo Yan had no strength to respond after being seriously injured. In less than a minute, his internal organs were shattered by Luo Tian. His mouth continuously sprayed out blood before finally dying.

"Ding!"

“Congratulations to Player Luo Tian for killing Luo Yan. You have gained 150 experience points, 15 profound energy.”

“Congratulations to Player Luo Tian for obtaining 1 Foundation Building Pill, and 25 pieces of silver.

“Congratulations to Player Luo Tian for +1 to the Undefeatable value.”

“Congratulations to Player Luo Tian for leveling up. Your current level is a Profound Pupil 4th Rank!”

Level up!

This is too f\*cking quick!

Luo Tian excitedly laughed out loud. He then raised his head to look at Luo Wan and Luo Ming. He curled his finger and coldly smiled, “Are you coming one at a time or together?”

Being at the Profound Pupil 4th rank and having the Thunder Tiger Fists, dealing with two people was definitely not a problem.

“Plop!”

Luo Wan who was at the Profound Pupil 3rd rank kneeled on the ground as his body trembled. He then begged while crying, “Big brother Luo Tian, spare my life; please spare this dog’s life.”

The eyes of Luo Ming to the side shifted, and he kicked at Luo Wan’s body and cursed: “He’s only one person, why do the two of us have to fear him?”

He hadn’t even finished speaking...

Luo Ming also kneeled on the ground, “Spare my life hero, Grandpa Luo Tian spare my life! Just consider us as fart and please let us go.”

Luo Ming who was at the Profound Pupil 4th rank was acting like this as well, made Luo Wan panic even more and started kowtowing. “Grandpa Luo Tian, spare my life, please spare my life.”

Luo Tian carefully walked towards them and secretly circulated his energy. He then softly said: “Spare you guys? Did you guys have fun insulting me? Didn’t you want to play me to death? Why are you guys currently kneeling and begging me? I’m only a piece of trash. Won’t begging a piece of trash make you guys lose all your face?”

The moment Luo Tian got closer...

Luo Ming's eyes changed, his right hand grabbed the dirt on the ground and flung it at Luo Tian's eyes. With an evil smile on his face, "Go and die for me!"

As swift as thunder, he exploded forth.

Luo Ming released all his power and punched out just as Luo Tian raised his arm to block the dirt.

"I already knew you'd be like this!"

Luo Tian flicked his sleeves before fiercely retreating several meters back. Right after the sneak attack, Luo Tian's body shot forth like an arrow and utilized both fists by punching forth together, smashing against Luo Ming's chest.

"Bang!"

Luo Ming's chest split open and blood started gushing out before his body stiffened.

The System once again sounded an alert.

When pulling out weeds, one must take care of the roots as well. After dealing with Luo Ming, Luo Tian didn't hesitate and threw out a punch to send Luo Wan to heaven. There was no need for mercy towards such people as them. Letting him live will definitely bring him endless problems in the future. Furthermore, killing him will net him experience so why not kill?

Luo Tian didn't like killing people.

But he will never show mercy when it comes to people that deserved to be killed.

This was his principle!

Seeing the four corpses around him, Luo Tian faintly smiled. "You guys enjoy your reunion in hell."

Not to mention gaining 500 experience points from killing four people, Luo Tian also gained 4 Foundation Building Pills. This was considered making a small fortune. These Foundation Building Pills were a monthly stipend for the Luo family disciples. And for the martial cultivators in the Profound Pupil realm, it provided a lot of help to their cultivation.

According to Luo Tian...

Item: Foundation Building Pill

Grade: 1st grade

Effect: 50 points of profound energy

After glancing at the Foundation Building Pill's properties, Luo Tian said to himself: "This medicinal pill is similar to mana potions?"

Presently, none of his abilities depleted his profound energy which included the Thunder Tiger Fists. Instead, he thought of Feng Lei and helplessly said: "I'll save this for Fatty Lei; his strength should be enhanced from now on."

"Owww.... owww..."

That black panther witnessed everything that had happened. Looking at Luo Tian made it cry out in fear; its body was shaking as it slowly crept backwards.

"Damn, I almost forgot about you."

Luo Tian flew forth like an arrow and a single punch ended the black panther. He wasn't going to let any experience point escape.

"Ding!"

"Congratulations to Player Luo Tian for killing a Black Panther. You have gained 20 experience points, 1 profound energy.

"So little experience!"

Luo Tian couldn't help complain a bit after hearing the System message. He then opened the system's Status screen and excitedly said: "Just one more level and I will be rewarded with the martial skill reward. Berserk... divine skill Berserk, I'm coming! Muahaha..."

## **Chapter 9 – Undefeatable Bloodline**

### Chapter 9 – Undefeatable Bloodline

Profound Pupil 5th rank was considered a great divide.

The difference in power between a Profound Pupil 4th rank and a 5th rank was huge.

When Luo Tian opened the System to see how much experience he needed to level up, his facial expression changed and started cursing: "Damn your sister, System!"

From the Profound Pupil 3rd rank to the 4th rank only required a few hundred experience points. But from the 4th rank to the 5th rank required 10,000 experience points.

All of a sudden, it was increased by a few hundred times. This...

Anger burst out of Luo Tian as he cursed non-stop, cursing the System's full 108 generations of ancestors.

He had originally thought he would level up again soon, and would quickly get the divine skill "Berserk." But now... Luo Tian was now hard pressed.

He could curse all he wanted, but still had to face reality.

The broken Luo Tian read it over a few seconds longer before checking his other stats.

Martial Skill: Thunder Tiger Fists

Grade: 1st grade

Proficiency: 10/100

"The power behind this combination fist skill is not bad. It can attack and defend. If I had the 'Berserk' skill to double its strength, I believe it would be even much more powerful." Luo Tian spoke to himself while suddenly feeling resentment again: "Berserk, my Berserk ahhh."

When Luo Tian was about to close the System's Character Profile, he noticed there was an extra row of information.

Undefeated Value: 4 points

"What is undefeated value?"

"It looks like everyone I kill would it increase it by 1 point. Could this be a player kill system?" Luo Tian then started theorizing... In online video games, killing other players will cause one's name to turn red. Would the system's undefeated value and the red name be the same concept?

Luo Tian was too lazy to think more about it and went straight to see the description of the undefeated value.

Description 1: After killing a person, you will gain 1 point in the undefeated value. Once the undefeated value reaches a certain point, you may exchange it for a comparable undefeatable bloodline.

Description 2: The undefeated value may not decrease and cannot be reset, or else the undefeatable system will activate the host's pain receptors to double.

"Undefeatable bloodline?"

“Are you trying to bluff me? Let’s see what bloodlines you have.” Luo Tian opened the undefeated value’s exchange system. It was fine if he didn’t know but with one glance... he became completely dumbfounded.

Undefeatable Azure Dragon bloodline...

Undefeatable Black Tortoise bloodline...

Undefeatable Vermillion Bird bloodline...

Undefeatable White Tiger bloodline...

The bloodline of the Four Divine Beasts? These were super powerful peerless existences!

If you thought that was all to it, then you are completely wrong. The bloodline of the Four Divine Beasts was just scratching the surface, the next part that Luo Tian read nearly scared the shit and piss out of him.

The next part was even more terrifying, something that people wouldn’t even dare to imagine!

Unbeatable Tathagata (Buddha) bloodline, Undefeatable Pangu bloodline, Undefeatable Martial God bloodline, Undefeatable Lord Hongmeng’s bloodline 1, Undefeatable... the craziest thing was the bloodline of Undefeatable Lord God himself.

“My @\$^#\$% lady gaga, this is scaring the crap out of me.” Luo Tian had become so excited he went into a daze. Never, ever, had he ever expected there would be this many awesome to infinity bloodlines. If he obtained any of the bloodlines, he could probably walk sideways in the Tianxuan Continent. He would become a super awesome existence that whenever he saw someone he didn’t like, he would play them to death.

Luo Tian started drooling.

This is too crazy!

A bloodline was Tianxuan Continent’s most mysterious force, and it was also the most powerful force.

There were two ways of transferring a bloodline.

The first was a naturally through one’ heritage – this happened when someone extremely powerful appeared in your ancestry. His or her powers will be passed down through the generations and some will get a portion of their powers. Whether it is their cultivation or their physical body, everything will become much more powerful.

The second was fusing with a demonic beast's bloodline – a successful fusion would mean one acquires the power of the demonic beast. The stronger the demonic beast, the higher chances of a successful fusion and the more powerful you would become. But who would dare to provoke those powerful demonic beasts?

No matter if it's a bloodline from one's heritage or fusing with a demonic beast's, these bloodlines couldn't compare to the Undefeatable bloodlines of his System at all.

Any of those Undefeatable bloodlines in the Tianxuan Continent would be a peerless existence.

"If I were to exchange for one of the bloodlines..."

Luo Tian's heart trembled at the thought, but upon seeing the exchange ratio, his eyes changed and he started cursing out loud: "Your sister you damn System, are you playing with me? You just threw these things out just for the hell of enticing this daddy!"

Undefeated value of 2000 points can be exchanged for the Azure Dragon bloodline...

20,000 point exchange ratio...

200,000,000 point exchange ratio...

Luo Tian was cursing but he was still a bit happy in secret since the Undefeated value brought him more happiness than worry. But looking at the points needed for the Azure Dragon's bloodline, he couldn't help grumbling to himself again. One person's head equals to one point, which meant he had to kill 2000 people in order to get the Azure Dragon's bloodline. Wouldn't that turn him into a crazed serial killer?

Looking at his pitiful and lonely 4 points of Undefeated value, it was way too far from the required 2000 points.

Luo Tian was too lazy to keep caring since the Undefeated value wasn't going to disappear or something. In this man eat man world, the value would eventually increase by itself.

Immediately after...

Luo Tian picked up the corpse of that black panther and went back down to the foot of the mountain.

---

"Meat, meat, I can finally eat meat." A golden light flashed in Feng Lei's eyes and drool started dripping down his chin as he saw Luo Tian carrying a black panther with him.

Luo Tian lightly smiled and said: "Fatty Lei, from today onwards, I will let you eat meat every day."

He didn't even get to finish the rest of his sentence...

Feng Lei rushed to Luo Tian's side and threw the black panther over his own shoulder. With a silly smile, he affectionately said: "Young master, you treat this one so nice."

Those eyes and that gaze made Luo Tian shudder before he quickly said: "Damn fatty, if you ever look at me with that expression again, don't even think of eating this slab of meat."

No meat for him?

Feng Lei panicked and his expression looked like he felt wronged. He then pitifully said: "Young master, this one was wrong okay?"

Luo Tian couldn't stand him anymore and quickly said: "Go clean up the panther meat and roast it, I'm freaking starving."

"I obey your command!"

Feng Lei picked up the black panther and rushed over to a small stream in an eager manner.

Half an hour later.

A fire was lit and the pieces of meat were roasting. It wasn't long before oil started dripping down onto the flames.

Luo Tian took a piece of well roasted meat and gave it to Feng Lei with a smile, "You eat first."

Feng Lei shook his head and grabbed a piece of meat that was still uncooked and bloody. He bit down and started chewing, revealing a mixture of satisfaction and happiness. "Young master, this one likes to eat raw meat."

Luo Tian was stunned as he watched Feng Lei enjoying it greatly and couldn't praise: "What a talent!"

In Luo Tian's memories, Feng Lei had always enjoyed eating raw meat since he was little, the kind that was still dripping with blood. He was just like a wild beast.

Luo Tian was too lazy to bother with him and grabbed some roasted meat and started eating himself.

While eating the raw meat, Feng Lei was glancing at Luo Tian with a look of hesitation.

Luo Tian gave him a blank stare and said: "If you have something to say, just say it."

Feng Lei scratched the back of his head and asked with a goofy look, "Young master, your strength..."

Luo Tian knew Feng Lei would eventually ask, but regarding the Level Up System, he didn't want anyone to know about it. Even if he explained it, Feng Lei probably wouldn't even understand so he just said: "That day when I was beaten unconscious by Luo Yue, I dreamt of an old grandpa. He healed all my injuries, and then gave me a mysterious power where I could still cultivate with a crippled dantian. These past few days, you can also see that my strength has been gradually recovering."

Feng Lei's mouth was in an O shape but was listening seriously. He didn't doubt a single word of Luo Tian and excitedly said: "Young master, does that mean we can get our revenge in the future?"

"Back then when you were injured by a mysterious person and then mistakenly ingested the Dispersing Spirit Pill, this was all planned by Luo Jianshan. I believe the old master's death could be related to him as well. He coveted the position of being the family's Patriarch so with the joint effort by several Elders; they forced him to accept the duel which resulted in his tragic death."

"There's also that Luo Lin, he took over everything that was supposed to be yours."

"And there's that Luo Yue, he even took your fiancée..."

After saying these things, a hint of tears reflected in the eyes of Feng Lei before he lowered his head and blamed himself. "It's all my fault for having crappy talent; it's all my fault for being useless. I've been cultivating all this time yet I'm still a trash at the Profound Pupil 1st rank. Before your mother died, she told me to take care of you yet I..."

Feng Lei was filled with self blame.

Every time Luo Tian was ridiculed, insulted, or beaten, he would blame himself for it.

When Luo Tian's dantian was crippled and couldn't cultivate anymore, Feng Lei wanted to increase his own cultivation in order to protect Luo Tian. But after spending several years of hard work, his cultivation was still at the Profound Pupil 1st rank and hadn't improved a single bit.

Luo Tian's heart couldn't help feeling depressed. He placed his hand on Feng Lei's shoulder and said very seriously: "Don't worry, what the Luo family did to me, I will pay

them back a hundred or even a thousand times. I will not let a single one of them go. I will make each and every single one regret being born in this world.

“I, Luo Tian, swear to the heavens!!!”

---

1 – Known as the Creator, also mentioned in the last chapter of Coiling Dragon.

## **Chapter 10 – Divine Skill Berserk**

Chapter 10 – Divine Skill Berserk

Out of the whole black panther, Luo Tian only ate half the hind leg while the rest was completely eaten by Feng Lei while raw.

Feng Lei was eating the raw panther meat like a savage. The more blood that dripped, the more he would savor the taste. Goose bumps involuntarily rose up on Luo Tian as he watched him eat.

After a full meal...

They rested for a bit and Luo Tian took out 3 Foundation Building pills for Feng Lei and said: “Hold onto these 3 Foundation Building pills for now.”

Feng Lei’s eyes were filled with shock and rejected it without hesitation. “Young master, you should use it yourself. I can’t make any breakthroughs anyway so it’s a waste for me to use it.”

Over ten years time and he was still at the Profound Pupil 1st rank. No matter how hard he worked, he still couldn’t improve a single bit so that’s why Feng Lei had completely given up on cultivation.

Luo Tian widened his eyes and stared, “I told you to hold onto it so just hold onto it, why are you spouting so much bullshit?”

Luo Tian also couldn’t figure out why Feng Lei couldn’t make any breakthroughs.

But some things required a lucky break, and cultivation was the same.

Feng Lei was grateful and carefully put it away. He then thought to himself: “These pills are useless for me so I’ll just save them for young master.”

Whenever he gained anything good, the first person he would think of was Luo Tian. Feng Lei had always been like this since he was young.

Luo Tian naturally knew what Feng Lei was thinking and then said: “Now eat one of the pills for me.”

Feng Lei weakly looked at Luo Tian. He brought out a Foundation Building pill and said: “Young master, you should save it for yourself since there’s no use in me eating them...”

Not letting Feng Lei finish, Luo Tian widened his eyes and pretended to be angry, “Am I still the young master or not?”

“Of course you are.”

“Then are you going to listen to the words I say?”

“I will listen!”

“Eat one of the pills for me or else I’m no longer your young master.” Luo Tian said in a commanding tone.

Feng Lei was his brother!

A brother that had never abandoned him during life or death. Luo Tian will never be stingy to his own brother.

Foundation Building pills can relax the muscles and help blood circulation; it can also strengthen one’s body. It is useful to any martial cultivators and Feng Lei was no exception.

Having no other choices, Feng Lei swallowed a Foundation Building pill.

Luo Tian showed a satisfied smile and said: “That’s good. In a bit, follow me up the mountain to kill some wild beasts.”

“En!” Feng Lei nodded. Although he didn’t know why they were killing wild beasts, he would still unconditionally listen to Luo Tian’s words.

Half an hour later.

“Ooooww... Oooowww...”

“Arooooooo...”

“Grrrrrrr...”

Four to five beasts that towered over humans – a nearly 2 meter long striped cheetah along with several wild beasts were all trying to claim the corpses of Luo Yan and company.

“I knew this would happen.”

There were wild beasts everywhere in the Dark Spirit Mountain. Add the scent of fresh blood as stimulation and this will guarantee to attract many beasts from all over the place.

Luo Tian didn't bury the corpses of Luo Yan and company was solely because of this point.

The more these wild beasts chew up their corpses, the better it was for him. Even if the Luo family investigates this matter, the cause would not fall on his head.

Seeing this many wild beasts, Luo Tian laughed excitedly and said: “Fatty Lei, block their path of retreat and don't let a single one of them get away.”

Feng Lei grinned and flexed his arms. He then stood to the side like a giant.

Luo Tian stomped down with his right foot and leapt into the air before landing in the midst of the wild beasts. With a hideous smile, “Come, and become my experience points.”

A human being?

It was a living human being; its flesh must taste sweeter than a dead corpse.

Suddenly...

Five wolves were the first to attack.

One at a time, they pounced at Luo Tian filled with menace. A green light flashed in their eyes and a chilling gleam reflected in their fangs as they intended on biting Luo Tian to death.

“Humph!”

Luo Tian calmly humphed and flipped his sleeves, pretending to be those old Sect Masters he had watched in the movies from his previous life. He continued imitating by gesturing his right hand and faintly said: “Go to hell.”

His pair of fists was like the wind as he punched out five times continuously.

“Bang, bang...”

The heads of the five wolves' shattered and fresh blood sprayed out. Their bodies fell to the ground and twitched a bit before not a sound came from them anymore.

"Ding!"

"Congratulations to Player Luo Tian for killing a Wolf. You have gained 20 experience points, 1 profound energy..."

"Congratulations..."

Five continuous alerts sounded off making Luo Tian silently overjoyed. "I got 100 experience points in a brief moment, so it makes getting to 10,000 experience points to level up not seem that much now. I should make a breakthrough after killing for a few days."

Breaking through to the Profound Pupil 5th rank in a few days?

If anyone were to hear Luo Tian's words, they would definitely think he was crazy.

It would take at least a year or two for someone to break through the Profound Pupil 4th rank to the Profound Pupil 5th rank. Even when it came to the Luo family's super genius Luo Lin, he took a full ten months to breakthrough, and that was with the support of countless medicinal pills.

The meaning of cultivation for everyone was to sense the profound energy of the heaven and earth, temper one's body, and to continuously breakthrough one's shackles. But when it came to Luo Tian, it was the simple act of killing beasts and gaining experience points.

After taking care of the five wolves, Luo Tian's body became illusory as he rushed towards the cheetah that had been eyeing him all along.

"Thunder Tiger Fists!"

"Thunder Strike..."

"Tiger Charge..."

Two beautiful punches struck out. The first punch knocked the leopard into the air, and the second punch heavily smashed down.

"Bang!"

The leopard didn't even have time to react when two large holes appeared on its body. Its eyes popped out and it was already dead!

The System made an alert sound.

Seeing that the situation didn't look good, those other wild beasts made a run for it.

It was at this time that Feng Lei roared into the air. An aura of a fierce beast burst out from him, directly forcing those fleeing wild beasts to backtrack.

"Our coordination isn't too bad!"

Praised Luo Tian. His speed didn't decrease as his body fell on those wild beasts. He struck out with his Thunder Tiger Fists again and within a few moves, those wild beasts were all taken care of."

"Let's go!"

"We continue moving forward!"

Luo Tian patted his hands.

Feng Lei looked at all the wild beast corpses and smacked his lips, revealing a starving look.

Luo Tian waved his hand and said: "You damn fatty, look how much fat is on your body, will you die if you eat a little bit less?"

Feng Lei scratched his head and said with a silly look: "We've already killed them so it'll be such a waste if we don't eat them."

"I give up."

"I'll wait for you up ahead so take care of them quickly." Luo Tian wondered why when Feng Lei sees bloody raw meat, it's like he becomes a beast and cannot control himself.

Soon afterwards...

Biting and chewing, Feng Lei devoured the still warm wild beast corpses. He was ripping the meat off their bodies with his teeth, just like how a wild beast would eat.

He didn't understand himself.

When he saw things like this, he just couldn't control his mouth.

---

The first day, Luo Tian killed about a hundred wild beasts and experience rose by 20%. He had almost cleared out all the beasts in the outer region of the Dark Spirit Mountain.

Feng Lei devoured all the blood essence of those beasts and his stomach now looked like a round watermelon.

The third day, the two of them were killing in the depths of the Dark Spirit Mountain, and Luo Tian's experience was skyrocketing. The Thunder Tiger Fists also leveled up while Feng Lei continued devouring the blood essence of those beasts.

The fifth day, it was difficult to find a wild beast strolling around the Dark Spirit Mountain. As long as it gave experience, Luo Tian didn't even spare an ant.

The entire Dark Spirit Mountain was filled with the thick smell of blood.

“Bang!”

The fist was like a hammer as it smashed down.

A fiery ant that had lost its way was smashed into paste.

The System in his mind made an alert sound.

“Ding!”

“Congratulations to Player Luo Tian for killing the Fiery Ant. You've gained 1 experience point, 0 profound points...”

“Ding!”

“Congratulations to Player Luo Tian for leveling up. You are currently at the Profound Pupil 5th rank...”

“Ding!”

“Congratulations to Player Luo Tian for leveling up and gaining the second martial skill from novels as a reward. The reward will be the <

>!”

“It's here, it's here, Berserk is here, hahaha...”

Luo Tian laughed into the air like mad; he finally broke through after five days of bloody battles. The instant he gained the divine skill Berserk, the expression of his eyes immediately changed to a cold look as he said to himself in a low tone: “Luo family, I'm coming for you!”
