

## Leveling Up 621

### Chapter 621 – I Need To Go Level Up

These ancient demonic beasts looked strong and fierce, but not many of them took the initiative to attack him.

Their cultivation realm was equivalent to someone at the peak of the Profound Emperor realm, so their senses allowed them to detect anyone within a radius of ten thousand kilometers. How can a foreign aura evade their detection? And there happened to be tons of T-rex's just a few hundred kilometers away.

Most of them were like docile sheep.

They didn't exude a ferocious aura.

Whether it was the Tarbosaurus' or the T-rexs', they coexisted peacefully and rarely fought with each other.

This was definitely an unusual situation.

Demonic beasts were born aggressive, and they would continuously fight and kill in order to survive. Some of them even ate their own children, yet those kinds of incidents were unseen here.

But...

Seven red waning moons appeared over the horizon and everything suddenly changed.

Their eyes gradually turned bloodshot and the blood eventually seeped into their pupils making them turn dark red. All the ancient demonic beasts were looking up at the sky like they were worshipping the waning moons. A faint red flame outline started appearing around their bodies.

The aura flame slowly rose up into the air and was absorbed by those waning moons.

Those waning red moons turned even more terrifying as if they were covered in blood.

After that...

The sky went dark and the whole place instantly changed.

The demonic beasts became agitated, more ferocious, and the scent of blood permeated the air. In a ten thousand kilometer radius, all the demonic beasts entered an enraged state.

“Roar~!”

“Roar~!”

“Awwuu~... awuuu~...”

The Tarbosaurus’ and the T-rex’s started howling and roaring.

The five battle pets behind Luo Tian started struggling like they were trying to break the hold that Magic Charm had over them.

Their natural violent aura kept getting stronger.

Level 5 battle pets reached the strength of a peak Profound Emperor 9th ranker. If they escape the control over their consciousness, Luo Tian and Eggy would most likely be instantly killed by them.

“Boss, they... what are they doing?”

“I don’t know!”

Luo Tian jumped away and stood at a relatively safer location with his brows furrowed. He wasn't sure if Magic Charm was capable of keeping the minds of his battle pets under control. Based on the Legend of Mir game, the charmed pets would never revert back to normal until the time is up.

But this place wasn't a video game.

Anything could happen here, so Luo Tian didn't dare to believe Magic Charm would continue to have absolute control over them.

At this time...

"Could it be that there are still people here in the ancient battlefield?"

"It can't be some overlord from the Ancient World, right?"

"Damn it!"

"If that's the case, how am I going to continue messing around here?" Luo Tian's mind darkened. Just the will of the Soul Sovereign from the Ancient World was so strong, wouldn't that mean the real body of such a deity would be an absolutely terrifying existence? The Soul Sovereign was an overlord of a territory, so if that person in the ancient battlefield had the same strength..."

"No way!"

"No matter what he or she is, I've come all the way here to level up!"

"My goal is to level up."

No matter how wild and arrogant Luo Tian was, he wasn't an idiot.

If it was really an overlord from the Ancient World, he would have no chance of surviving.

Even Eggy wouldn't be that person's opponent.

"Boss, boss, they've stopped."

"It looks like they can't break it." Eggy quickly said.

Luo Tian finally relaxed after staring at his battle pets. He could only mutter with lingering fear: "It looks like Magic Charm's mind control isn't too bad."

"Boom~!"

"Boom~!"

Sounds of collision were suddenly heard all over.

Then sounds of slaughter.

This place truly turned into a battlefield, one dominated by ancient demonic beasts! Luo Tian was like a speck of dust to them. Hearing those sounds, Luo Tian's mind tightened, "Them fighting each other is a huge opportunity for me!"

"I need to get out of this place as soon as possible!"

"I don't know if Han Hua and Zhao Chen are still alive or not, but Yun Ling and Yun Yi are definitely still alive. They might be all suffering from some kind of torture right now. I cannot let anything more happen to them."

Just imagine...

When two sides battle, there would naturally be countless injured and many who are at the edge of death.

They would only have a few hundred to a few thousand health points left. If Luo Tian appeared at such a time and helped out by giving them an extra stab, wouldn't his experience bar soar to the sky?

This was an ideal opportunity to make a fortune off the dead!

Immediately after...

Luo Tian sat down cross-legged, brought out the Green Dragon Cauldron, and started concocting the Triple Experience Pill.

The Triple Experience Pill was something extremely hard to concoct.

It used up a lot of one's mental energy.

Luo Tian failed the first time.

Luo Tian's heart ached when he wasted a large piece of the Rainbow Lotus. Seeing how there was only a bit left, he tried to calm himself down. He pushed all distractions out of his mind, took some deep breaths, and started the refinement process once more.

Even if he had Xiao Yan's alchemy skills...

Even if he had the passive success rate and his maxed out luck, the success rate still wasn't at a hundred percent. If he had that hundred percent success rate, then that would truly be a perverted cheat.

"Ding!"

"Concoction success!"

“Fuuu~...”

Luo Tian finally relaxed. He didn't stop and continued to concoct the regular Experience Pill.

Half an hour later.

Luo Tian changed to forging weapons.

The skeleton of these ancient demonic beasts was extremely tough, so the weapons he forges will definitely be super strong. And the ribs of the Tarbosaurus were especially suitable to forge a Tang Blade. With a huge Tang Blade in hand, the perfect skill to kill the Tarbosaurus was his Dragon Slayer skill.

When it came to weapons, large blades were definitely more domineering looking.

Apart from this, Luo Tian wanted to forge some rations for Eggy so he could break through the seal on his body. At least then, Eggy could move freely about and have the ability to protect himself.

In order to completely undo the seal on Eggy, they would have to deal with Daoist Tian Xu.

As long as Luo Tian can explode that old fogey and Heaven's Seal drops, he can completely release Eggy from the seal. When he goes back to Dark North City and undoes the seals of those old devils inside the Soul Refining Array, he would undoubtedly have a large force of troops backing him.

When Luo Tian leaves this place, he not only will be facing against Daoist Tian Xu.

He will have to deal with the ten great immortal sects as well!

Moreover...

The wedding day of Li Xue'er and Murong Wanjian was getting closer. Luo Tian had to make his own force stronger. It will definitely be extremely difficult for him to deal with the ten great immortal sects by himself, so he needed enough brothers to back him up!

“Ding!”

“Forging successful!”

“Ding!”

“Forging successful!”

“Ding!”

“Forging successful...”

Continuous successes.

His forging skill was rising like crazy and those large Tang Blades were accumulating next to Luo Tian's side. Eggy was drooling so much that “plop plop” sounds could be heard. He then said with an excited smile: “Boss is too handsome! Even though the grade of these profound weapons isn't high, they all still contain a very strong power inside them. That's already quite delicious to me, hahaha...”

“Ding!”

“Forging successful!”

Luo Tian finished his forging with the last piece of skeleton. His body was covered with sweat and his clothes were drenched. He randomly picked up one of them and played around with it. “This weapon feels quite nice when holding it. Eggy, the rest will all belong to you. Stay here and do your thing while I go level up!”

## Chapter 622 – Mount Hua’s Ancestor

A snow-white flat plain looked crimson red under the blood-colored moons.

Both to the left and right were two large hill peaks.

One side was a mass of Tarbosaurus’ and the other a mass of T-rexs’.

It was like two different military camps beating their drums to show off their might, except those two sides were roaring instead.

At this moment...

Those two camps didn’t look like demonic beasts and resemble humans.

Humans at war with each other!

Under such a formation, terrain, and such a tense atmosphere, it was as if a big battle was about to start.

At first, Luo Tian thought the demonic beasts here were just going to scuffle with each other. Demonic beasts fighting with each other was a very normal thing, but the endless plain filled with bones made him dumbstruck.

It was as if the endless plains were covered in nothing but bones!

Luo Tian glanced back over at those two hill peaks and they now looked like two spires jutting out of a mountain range.

Luo Tian’s mind sank, “Damn, this plain can’t really be created by bones, can it?”

Tens of thousands of years.

There would be slaughter every day and countless would be killed. Their flesh would be eaten and only their skeletal structure would be left behind. Over time, this deep bottomless gully was eventually filled up and turned into a flat plain with two hill peaks.

This place was thoroughly an ancient battlefield!

They reproduced for ten thousand plus years to only achieve a single goal – slaughter!

Since they were born, their sea of consciousness was instilled with a single idea – kill!

Unbridled and wanton killing!

Under the control of these seven waning moons, they have been planted with the path of slaughter. Every single ancient demonic beast was proficient in the path of slaughter. Their path of slaughter was to be brutal, violent, and to accomplish the deed by whatever means.

Their path of slaughter was to kill to form their dao!

When the night descends and the seven blood-red waning moons appear, their comprehension of the path of slaughter would then be absorbed by the seven moons. How powerful was it for a single person to absorb all this energy from the path of slaughter?

But...

Luo Tian didn't know anything about this.

He had no clue that the red flame aura coming from all the ancient demonic beasts was the energy from the path of slaughter.

At this time...

Luo Tian curled up in a corner and ceased his breathing. He was waiting patiently while the Tang Blade in his hands glimmered red under the seven blood-like moons. "Start fighting already! Can you guys just go ahead and start sometime soon?"

"Wuuu~..."

"Wuuu~..."

Suddenly...

Without Luo Tian's knowledge, a single person appeared in each camp!

They were both dressed in a ceremonial-like costume and they were holding a scepter similar to ones for sacrificing ceremonies. It looked like a gnarled tree root with a small blood-colored skull on the top. The scepter started shaking and those two people suddenly pointed at each other and gave a savage roar.

Right after that...

The earth started shaking when it seemed like a multitude of thunders sounded out at the same time. The footsteps from the demonic beast charge almost ripped the sky apart!

Shocking!

Incomparable shock!

Luo Tian had never seen such a shocking scene before! This was a scene where he didn't have words to describe. This was an up close and personal live scene where primitive beasts were fighting with their lives, continuously hitting each other and crazily biting at whatever they can.

Fresh blood splattered everywhere and miserable screams echoed all over.

Luo Tian was stunned by what his eyes were seeing. “Such brutality... I think even a war involving a million soldiers cannot be compared to this. Now this is the true definition of a primitive war.”

While saying this...

Luo Tian silently crept forward.

As the saying goes...

Money comes from bracing danger – killing one at a time was too slow. Even though there was a lot of experience from each kill, it wasted too much time now that he was in a hurry to level up.

Luo Tian was running out of time.

He didn't have time to waste. Yun Ling and Yun Yi were waiting for him to be rescued. If he could, he would've leveled up to the Profound God realm right this instant and then charge out to beat the shit out of Daoist Tian Xu. He wouldn't delay it for a single second!

Every second counted!

“Whoosh~!”

“Whoosh~!”

With a few leaps and bounds, Luo Tian had arrived at the edge of the battlefield.

Compared to those huge demonic beasts, Luo Tian's figure was similar to a rabbit darting about in some overgrown grass.

Suddenly...

A T-rex fell down nearby.

“Oh?”

“Only 3000 health left?” Luo Tian grinned

His Tang Blade started to move as he leaped into the air and chopped down, “Dragon Slayer!”

“Bang~!”

“Ding!”

“Congratulations to player Luo Tian for killing an ancient T-rex. You have gained 5,000,000 experience points, 500,000 profound energy...”

“Congratulations to player...”

A one hit kill!

Easy to the max!

But...

Cold sweat appeared on Luo Tian’s back as he jumped away after chopping down.

His speed was extremely fast and because his figure was very small, the other demonic beast didn't notice him. It seems like these demonic beasts didn't care about Luo Tian and only had the other demonic beasts in their eyes.

"Whoosh~!"

"Whoosh~..."

Luo Tian landed next to another demonic beast that had fallen. He then ingested the Triple Experience Pill, "Now is the time to level up like crazy."

He lifted his arms up and chopped down, killing another demonic beast.

This time, it was 15 million experience points!

"This additional slash was too awesome, hahaha..."

Luo Tian was moving around the battlefield like crazy. Under a hundred times the gravity, he managed to continuously break his speed limit. He continuously jumped around, continuously made his move, and the system continuously gave off alert tones.

Half an hour later...

"Ding!"

"Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 3rd rank!"

"I leveled up!"

Luo Tian smiled in excitement before moving around once more.

Gradually...

Because he wasn't noticed by the demonic beasts, he relaxed his vigilance a tiny bit. It was due to this little tiny bit that the commander of the T-rexs noticed him.

Suddenly...

The aura coming from that T-rex instantly changed. The other T-rexs seem to have received an order so they instantly retreated outwards. Those from the Tarbosaurus camp wanted to chase after them but they also suddenly received an order and retreated outwards. The center of the battlefield was now left with a large swath of injured and half-dead demonic beasts.

At this moment...

Luo Tian's expression sank, "It looks like I've been discovered."

But...

He didn't stop his actions and leaped into the air with a roar: "Myriad Thunder Roar!"

"Boom~!"

"Boom~!"

"Boom~!"

Tens of thousands of lightning descended and covered the flat plains.

"1"

“1”

“1”

It was only able to do 1 point of damage but that wasn't an issue. Even if Luo Tian didn't make a move, those demonic beasts would eventually die from their injuries. Luo Tian only had to smack them once and when they died, Luo Tian would receive the experience points like he had killed them himself.

“Human?!” A person over at the T-rex group shouted.

Luo Tian dove down from the air and landed on the ground. When he looked over at the person and saw the clothing he was wearing, he felt like it was rather familiar looking. He couldn't help being stunned and blurted out: “Mount Hua's old ancestor???”

“Huh?!”

Suddenly...

That person's face instantly changed to a serious expression. His eyes tightened before he instantly appeared in front of Luo Tian. The staff in his hand shook while he glared at Luo Tian like he was trying to see through him. He then asked in a gruff voice: “Are you someone from Mount Hua Immortal Sect?”

“Yes!” Luo Tian replied without hesitation.

Luo Tian was shocked when he felt the aura coming from this person. “His aura is many times more powerful than Daoist Tian Xu! Could he be in the Profound God realm? Out of the ten Profound Emperor old ancestors of Mount Hua that entered the ancient battlefield, only one managed to escape from it. Could it be that the other nine hadn't died yet?”

“Oh shit!”

## Chapter 623 – Killing Until The Sky Breaks

Suddenly...

Luo Tian's mind seems to have short-circuited.

He wasn't too knowledgeable when it came to the history of Mount Hua Immortal Sect and he only learned some information on the ancient battlefield from Xu Shan.

Back then, ten Profound Emperor Elders entered the ancient battlefield but only one managed to escape from it. And shortly after, that Elder died as well while leaving instructions that no one was to enter the ancient battlefield. So after ten thousand years, the ancient battlefield was slowly forgotten by most people.

As for those nine Elders, they had been long forgotten.

Everyone thought they were dead already.

Luo Tian thought the same thing as well. But now that he found out that one of Mount Hua's ancestors was still alive, it would be false to say he wasn't shocked. He actually felt rather excited.

After hearing Luo Tian's reply...

That person's eyes were filled with doubt. He looked at Luo Tian's chest and asked: "You say you are a disciple of Mount Hua Immortal Sect but you aren't wearing the uniform of Mount Hua Immortal Sect. Within Mount Hua Immortal Sect, it doesn't matter if you're a disciple, an Elder, or the Sect Leader; there should be a symbol of Mount Hua Immortal Sect on the chest of your clothing. And you don't have it."

"Huh?"

Luo Tian smiled bitterly and replied: "I indeed don't have a uniform. Mount Hua Immortal Sect has never treated me as a disciple. I ran all the way to this place because the Prime Elder was trying to kill me. I'm not afraid to tell you the truth – Mount Hua Immortal Sect is no longer the original Mount Hua Immortal

Sect of the past. It has already become rotten to the point of being unable to get more rotten. It can't even protect its immortal sect status anymore. In my estimates, the current Mount Hua Immortal Sect will probably be divided up by other immortal sects in less than a year."

"What?!"

That person's expression became angry.

His body suddenly released an unbelievably strong aura.

Luo Tian's body couldn't endure it and was immediately forced backward. That aura wasn't focused on him but his sea of consciousness and his mind received a strong shock. He couldn't help hiddenly swallowing some saliva and saying internally: "What a strong aura! His aura is definitely stronger than Daoist Tian Xu so he might really be an expert at the Profound God realm, right?"

"Back then..."

"Mount Hua Immortal Sect was the strongest and the leader of all immortal sects. Even if all nine great immortal sects joined hands, they still wouldn't be our opponent. I never imagined Mount Hua would have fallen to such lows in just ten thousand years... sigh~..."

"The blame is on us..."

"We were the ones to blame..."

That person's eyes were wet while he revealed a look of heartache.

They were definitely apprentice-brothers.

They should be even more united inside the ancient battlefield, so why were they fighting each other?

That person's eyes sank as he looked up towards the blood-colored waning moons. His eyes contained a deep sense of hatred. He clenched his fists while saying in a low voice: "We were forced to do this because we no longer control our lives. We are being controlled by him."

While saying that...

He pointed at the waning moons up in the sky while his face turned depressed.

He had a helpless look in his eyes.

Luo Tian's mind sank, "Sure enough, something fishy is going on."

Luo Tian then asked: "Senior, have you and the others never thought of getting out of here?"

"Get out of here?"

"Hahaha..." The old man laughed in bitterness. His expression turned even more helpless as he said: "If we ten didn't join forces to fight back then for a little bit more time, there's no way the eldest senior brother would've been able to escape from here. All ten of us can forget about leaving here."

"Little brother, you can forget about leaving after coming into the ancient battlefield."

"The four regions' blood and the Sky Dragon's Bead you used has been absorbed by him. Within one month, his cultivation will have taken another step forward. Even if all the demonic beasts inside the ancient battlefield joined forces, they still aren't able to kill him."

The old man then looked at Luo Tian while asking: "After eldest senior brother escaped this place, didn't he leave behind a decree saying no one is allowed to come in here?"

It was quite difficult for them to gather the four regions' blood back in their era, so it should have gotten even more difficult ten thousand years later. Since Luo Tian obtained all those required items, he should

be clear on what's going on inside the ancient battlefield. The old man was puzzled why this kid would still run in here under such conditions.

"Cannot leave this place?" Luo Tian's expression suddenly froze.

The old man chuckled bitterly and said: "Not only can you not leave, but that person will also come looking for you after he refines the four regions' blood and the Sky Dragon's Bead. You will become his slave. At that time, you will be in command of a group of demonic beasts to provide killing intent for him. Sigh~..."

The ancient battlefield...

A place dominated by a single person.

You can forget about leaving after coming in here. You will either become his slave or you will die!

Luo Tian already assumed there would be a strong boss inside but he was thinking it would be some type of strong demonic beast boss. What he didn't expect was that there would still be people inside the ancient battlefield. And what he never imagined was that the boss here would be called the Seven Moon Devil Sovereign!

Luo Tian refused to believe what he heard and asked: "Is there really no other way?"

The old man replied: "Over ten thousand plus years, we have explored every corner of the ancient battlefield but haven't found anything. The aura, power, demonic beasts, even the trees and grass are all from the Ancient World. We are unable to break through the hundred times gravity spatial field and we've tried every possible way."

"There's only one thing we haven't tried."

Luo Tian looked over and immediately asked: "What?"

“To kill him!”

A thick killing intent appeared when the old person said those three words. But the killing intent evaporated before the sound of his voice had faded. They were all absorbed by the seven waning moons up in the sky, not even a single trace was left behind!

The old person then smiled bitterly before saying: “You saw it, right? We are unable to use any killing intent because that type of power has been sealed by him. We aren’t unable to break through into the Profound God realm either. Even if all of us apprentice-brothers joined hands, we aren’t his opponent at all.

They would have attempted it already if they could kill him by joining forces.

All these years, they couldn’t even kill themselves!

They were like puppets being controlled to command demonic beasts to slaughter each other every day. All they did was farm killing intent for him. All these years, they constantly dreamed of killing the Seven Moon Devil Sovereign but their powers were too weak when pitted against him.

They can forget about it without a Profound God cultivation!

The old man became silent in thought.

Luo Tian also stopped talking and was in thought.

Even these old ancestors weren’t that guy’s opponent, which meant there’s no way he was that guy’s opponent.

But...

Luo Tian had to get out!

Yun Ling and Yun Yi were waiting for him.

Fatty, Xuan Yuanyi, Blindman Liu, An Chunchun, and the others were waiting for him.

Li Xue'er was waiting for him.

No matter what, Luo Tian had to leave this place!

Suddenly...

Luo Tian thought of a very important skill, "Teleport!"

Inside Legend of Mir, the skill can be used in any map or any dungeon. The user will directly fly out and appear outside somewhere. Would the skill's function work the same way here?

Luo Tian immediately opened the system interface. He was planning on using his Teleport skill that was at the great perfection level when he found out...

"Ding!"

"The map is not available!"

"Damn it!"

"You guys are forcing me!" Luo Tian's eyes turned fierce as the last glimpse of hope was shattered. Now, he only had one option left.

At this moment...

Those half-dead demonic beasts on the battlefield had finally died, and all the experience points went to Luo Tian.

“Ding!”

“Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 4th rank!”

Luo Tian’s mouth turned into a sneer. He looked up with an evil expression and said: “Then let’s kill until we break the sky open!”

Chapter 624 – Dare To Bet?

Luo Tian had a stubborn personality.

As long as he made a decision, he would walk down that path without hesitation no matter what the consequences. Even death would not deter him!

Inside this place...

Everything was possible for Luo Tian.

This place was his heaven.

But...

His time was limited! He couldn’t put Yun Ling and Yun Yi down in his heart. It was also unknown whether Han Hua and Zhao Chen were alive or not. No matter what, Luo Tian didn’t want his women to suffer so he had to leave this place as soon as possible.

It would be very difficult for him alone if he wanted to leave this place.

He needed help!

These Mount Hua ancestors looked like beastmasters.

They were able to freely control these ancient demonic beasts. As long as they cooperated with him, it wouldn't be difficult if he killed these ancient demonic beasts to allow him to level up all the way to the Profound God realm.

The most important point is whether they were going to cooperate with him or not.

Luo Tian asked without hesitation: "Senior, do you all wish to leave here?"

The old person looked at Luo Tian and chuckled bitterly. He then replied: "There's no way to leave. Little brother, go find a place to commit suicide before that guy starts paying attention to you. You can also choose to hide somewhere and never reveal yourself for the rest of your life."

Before the old person could continue speaking more, Luo Tian interrupted him: "Senior, I'm just asking you a single question – do you all wish to leave this place?"

Interrupting someone's speech was very impolite.

But...

Luo Tian didn't have time to care about it.

After ten thousand years, this had already removed the sharp edge these old ancestors used to possess. They had lost their fighting spirit after so many years. Luo Tian could understand this aspect but he needed their cooperation if he wanted to make more breakthroughs quickly.

As the old man said...

While the Seven Moon Devil Sovereign was refining the four regions' blood and the Sky Dragon's Bead, he didn't have time to pay attention to Luo Tian. This was the perfect opportunity for him to act.

Once that guy focuses on Luo Tian, he wouldn't have a chance anymore.

When that old man was asked such a question by Luo Tian, his face clearly showed he was unhappy. No matter what, he was considered an old ancestor of Mount Hua. Of course, he would be a bit angry when a kid that wasn't even qualified to wear the uniform of Mount Hua Immortal Sect would interrupt him and ask such a question. His voice clearly turned gruff as he said: "Don't..."

Before he could finish speaking...

The old man was truly angry by now and shouted: "I do want to leave!"

"Kid, I really want to see what method you have to leave here. The Seven Moon Devil Sovereign is the overlord in this place and everything is under his control. I already observed your body and noticed your dantian has been shattered so cultivating is a huge problem for you. It is impossible if you wish to make further breakthroughs here."

"But I really don't understand how you reached the Profound Emperor realm under such conditions. No matter how strong you are, it's impossible for you to have the strength to kill the Seven Moon Devil Sovereign. My advice is that you give up such thoughts."

Luo Tian faintly smiled and didn't give any further explanations. He then asked: "Senior, do you want to make a bet with me?"

The old person asked: "Bet what?"

Luo Tian replied: "Bet whether I can breakthrough into the Profound Emperor 5th rank within three hours?"

The old man's eyes widened before he couldn't help but burst out laughing.

Before he could respond...

The old man from the Tarbosaurus camp came over, "Who the hell is uttering such boastful words here?! You dare to say you can breakthrough into the Profound Emperor 5th rank within three hours? Do you think the Profound Emperor realm is similar to cabbage being sold on the streets?"

"Even if they are cabbages from the streets, you can forget about buying them inside this place."

"This place is the ancient battlefield where everything is under the control of the Seven Moon Devil Sovereign. You wish to make breakthroughs here? It looks like you're dreaming with your eyes wide open!"

"Senior brother, why are you talking nonsense with this guy? Let's go back to slaughtering. If we don't finish our mission today, we will surely suffer tomorrow."

The old Tarbosaurus person coldly glanced at Luo Tian with eyes full of disdain.

Even if a person had the best talent ever, it was impossible for them to make a breakthrough in the Profound Emperor realm within three hours. This was an impossible matter that was comparable to a fantasy.

No one would believe it.

The old T-rex man was the same, "Kid, what intentions do you have by lying to us? Do you think we don't understand how cultivation works in the Profound Emperor realm? No matter how good one's talent is, you can forget about making a breakthrough without a decade or two. It's even more impossible to do that here. This place is basically the same as the Ancient World, us warriors of the Tianxuan Continent cannot control the ancient aura. If we absorb the ancient aura into ourselves, it will only cause endless damage to our fleshly bodies."

Luo Tian coldly sneered. He glanced at the old Tarbosaurus man and then at the old T-rex man before commenting: "I'm going to ask you again, do you dare to make a bet?"

“Presumptuous!”

“Kid, who do you think you are?!”

“Even Mount Hua’s progenitor wouldn’t dare to speak to us in such a tone!”

“Don’t think by saying you’re a Mount Hua Immortal Sect disciple and we won’t kill you. Even if you’re the current Sect Leader of Mount Hua Immortal Sect, this old man will still kill you if you piss me off!” The old Tarbosaurus man had a fiery temper so he just outright yelled at Luo Tian.

Luo Tian couldn’t help start mocking: “Senior, I’m going to ask again – do you dare to make the bet? If I happen to win, you guys will have to listen to my words and I will promise to bring you guys out of here. If I lose, I will never speak about leaving this place anymore and not utter a single sentence of nonsense with you guys.”

“You...” The old Tarbosaurus man’s rage had reached the maximum.

The old T-rex man was a bit calmer. He actually wanted to see how Luo Tian with a shattered dantian could make a breakthrough. He then asked: “Little brother, I will go along with it. How do you want to bet? I don’t mind whatever conditions you have.”

“Senior brother, why are you still talking nonsense with this kid?”

“His dantian has been shattered and he doesn’t look like he has inherited any bloodlines. He is practically a piece of trash. I really wonder how a person like him managed to pass the assessment to become a disciple of Mount Hua Immortal Sect. Did Mount Hua Immortal Sect fall to such a degree? They would accept anyone now?” said the old Tarbosaurus man unhappily.

He has always had a hot temper.

He was given the name Daoist Lie Yan (Flames) in Mount Hua Immortal Sect because his temper was like a blazing fire.

He would say whatever came to his mind.

The old T-rex man was called Daoist Tian Mu.

Luo Tian didn't care and said: "You guys can continue what you were doing before, let the Tarbosaurus and the T-rex slaughter each other. If you can, I want you guys to make them not attack me. It's fine as well if you cannot do that."

"Huh?"

"Kid, what are you planning?" Daoist Lie Yan raised his voice.

Old man Tian Mu then said: "Fine, we'll do as you say. Junior brother, use your senses to control the demonic beasts so that they don't attack this little brother."

He too wanted to know what Luo Tian was going to do.

No matter how down-and-out Mount Hua Immortal Sect has become, there's no way they would accept a disciple with a shattered dantian and who didn't have an innate bloodline.

Moreover...

He was clearly not ordinary if he was able to gather the four regions' blood and the Sky Dragon's Bead. In addition to that, it should be impossible for someone with a shattered dantian to enter the Profound Emperor realm. What's even more impossible is for a kid that hadn't even reached 20 years old yet to have such a high cultivation realm.

All of these things were impossible matters.

Perhaps this kid can really save them!

The idea suddenly appeared in Daoist Tian Mu's mind, but he laughed at himself and quickly retracted it. No one could save them because the Seven Moon Devil Sovereign was just too strong. He possessed seven moons, seven types of killing force – no one was able to kill him!

Chapter 625 – All The Monsters Are Mine

That kind of power was so strong that he had never seen such a thing before.

Out of his nine apprentice-brothers, only five of them remained. The other four were instantly killed by Seven Moon Devil Sovereign's seven killing forces.

They only saw it once.

But they didn't want to see it a second time for the rest of their lives. That kind of power had thoroughly horrified them!

He was betting with Luo Tian not because he thought Luo Tian could kill the Seven Moon Devil Sovereign, but because he was simply curious how Luo Tian would make a breakthrough. Breaking through in just three hours? This was basically a fantasy within a fantasy, an impossible task.

Daoist Lie Yan's two sword-like brows were raised as he said: "Senior brother, why are you betting with him? Do you really think it's possible to make a breakthrough in three hours? It's absolutely impossible! I'm suspecting this kid is just playing with us for his own entertainment."

Daoist Tian Mu faintly smiled and said: "It doesn't matter whether he's a Mount Hua Immortal Sect disciple or not, we should treat him well just on the fact that he's the first person in ten thousand plus years to dare come in here. We can also get to know what kind of changes the outside world has experienced."

"The Seven Moon Devil Sovereign is ignoring him, which means this kid isn't a threat to him at all. Let's just watch and see what happens."

"Junior brother, go get prepared."

“Just like before, we’ll continuously have them kill each other in order to derive killing intent. Even though the Seven Moon Devil Sovereign is refining the four regions’ blood and the Sky Dragon’s Bead, his seven blood-colored waning moons still need to be satisfied. We can’t afford to handle the consequences of not accomplishing the task.”

After saying that...

Daoist Lie Yan’s face was full of anger as he instantly landed on another mountain. He then shouted back: “Kid, if you dare to fool this daddy, this daddy will make you pay a heavy price!”

Luo Tian didn’t want to waste any more time and swallowed a Triple Experience Pill. Time was experience points for him! He then said: “My two seniors, can we hurry it up? Let’s not waste any more time. Once I break through to the Profound Emperor 5th rank in three hours, you guys will have to listen to me. I will definitely find a way to get everyone out of here.”

Three hours!

It was very little time.

In order for Luo Tian to level up once, the experience he needed had a long string of zeros behind. The amount of numbers was enough for him to sweep his head from left to right!

But...

This way...

His leveling speed would reach unimaginable speeds!

The cultivation realm of all those old ancestors here had been sealed to stay below the Profound God realm. In other words, Luo Tian will have the strength to fight this Seven Moon Devil Sovereign as long as he steps into the Profound God realm.

Luo Tian was missing 6 levels from the Profound God realm!

He had to make more breakthroughs!

“Humph~!”

“Kid, I really want to see how you’re going to break through into the Profound Emperor 5th rank.” Daoist Lie Yan harrumphed in anger. He really didn’t like Luo Tian but since he promised his senior brother Tian Mu to cooperate, he thrust out the staff in his hands and made it give off a strange sound.

The eyes of all the Tarbosaurus behind him suddenly turned blood red.

A brutal aura surged out from their bodies and sounds of explosions kept going off around them. Under the command of Daoist Lie Yan’s shout, the army of Tarbosaurus started rushing down the slope of the mountain.

The other camp was doing the same thing.

Those T-rex started charging over without caring about their life or death.

At the same time while all this was happening...

Luo Tian was standing at the edge of the battlefield not in a hurry to make a move. He made a thought and summoned his five battle pets over to his side. They were all at level 5 already so one against eight shouldn’t be a problem. Now was the perfect time for them to level up some more.

They will naturally be more fiercer once they rise to level 7.

Daoist Tian Mu’s expression faintly changed when he saw the five demonic beasts beside Luo Tian. He then muttered to himself: “This kid knows beast taming skills?”

Daoist Lie Yan hid his startlement, "I didn't expect the kid to cultivate beast taming skills, so that means he's a person from the Taming Hall. His cultivation in beast taming isn't too bad or else he wouldn't be able to tame five ancient demonic beasts at the same time."

Back to the battlefield...

There were continuous collisions of demonic beasts and continuous explosions all over.

After the first wave of attacks, Luo Tian instantly charged over to make his kills.

Under the control of his spiritual senses, the five battle pets of his would target the seriously injured demonic beasts. No effort was spared to kill them in the most vicious manner possible.

Under the blood-colored moons, the Tang Blade in Luo Tian's hand became a blur of red blade strikes. He was moving about like he was dancing to a song about death. Each move he made would be an instant kill, and the system would give him the corresponding alert tone.

"Ding!"

"Congratulations to player Luo Tian for killing a Tarbosaurus. You have gained 15,000,000 experience points, 500,000 profound energy..."

"Congratulations to player Luo Tian for gaining the blood essence of a Tarbosaurus."

"Congratulations to player Luo Tian for gaining a Tarbosaurus skeleton."

Nothing else exploded other than the blood essence and the skeletal structure.

But...

This was already more than enough.

The blood essence was reserved for Fatty and the skeletons were going to be forged into weapons for Egg to eat. In order to make breakthroughs, those two were a bit perverted like Luo Tian where they didn't absorb the energy around them. One only had to swallow blood essence while the other swallowed artifacts.

"What is that kid doing?"

"Trying to break through during battle?"

"If he wants to break through while in battle, why is he killing demonic beasts that are half dead? Can one breakthrough picking on soft persimmons? What a joke!" Daoist Lie Yan couldn't tell what Luo Tian was doing but he was certain Luo Tian couldn't make any breakthroughs like that.

If this continued the way it is, not to mention three hours, one can forget about breaking through after thirty years!

It was the same with Daoist Tian Mu as he couldn't tell what Luo Tian was doing.

Cultivation!

In the Tianxuan Continent, there was only one way and that was to absorb profound energy from heaven and earth. This tempered one's fleshly body and stimulated the hidden powers from within. One's body, sea of consciousness, and mind would be constantly nurtured by destroying the old to establish the new. Only then can they push their bodies towards new territories.

Each breakthrough required a long amount of time.

It took even longer if one encountered a bottleneck. Sometimes, it might even require a stroke of luck or else one may never make a breakthrough their entire lives.

In the Tianxuan Continent, all martial artists cultivated like that.

It was naturally the same for Daoist Tian Mu and Daoist Lie Yan. Seeing how Luo Tian kept killing demonic beasts at the edge of death, they were completely dumbstruck by it. If someone can make breakthroughs doing this, then they must have met a ghost! Even experts of the devil sect who kill others to make breakthroughs couldn't do it!

They really couldn't understand what was going on!

Seeing Luo Tian's serious expression, Daoist Tian Mu didn't want to interrupt him.

Daoist Lie Yan's face was filled with disdain. He thought that Luo Tian had played him so he was rather pissed off. "Kid, you dare to fool me? This daddy will give you a good show!"

Suddenly...

Daoist Lie Yan made a thought and a group of Tarbosaurus went to attack Luo Tian.

Luo Tian was prepared early on. He made a thought and his five battle pets came forward to take the brunt of the attacks. They managed to directly force the group of charging Tarbosaurus backward. Now that his battle pets were at level 7, they were more than enough to protect Luo Tian in this battlefield.

Luo Tian was too lazy to bother with Daoist Lie Yan.

The more people looked down on him, the more he wanted to slap their faces with his actions.

"Kill!"

As the Tang Blade chopped down, it blurred into a mirage of images while the blade aura looked like crescent moons.

"Ding!"

“Ding!”

“Ding!”

The system exploded with alerts and Luo Tian watched his experience bar increase one point at a time.

Time disappeared bit by bit...

Chapter 626 – Ancestors Of The Five Elements

“Kid, looks like you’re going to lose.”

Daoist Lie Yan coldly harrumphed as he felt strongly that Luo Tian was playing them for a fool.

Before he could finish speaking...

Suddenly...

The Tang Blade in Luo Tian’s hand chopped down as he shouted: “Break for me!”

“Ommm~!”

“Ding!”

“Congratulations to player Luo Tian for killing a T-rex. You have gained 5,000,000 experience points, 500,000 profound energy...”

“Congratulations to player...”

“Ding!”

“Congratulations to player Luo Tian for leveling up. You are currently at Profound Emperor 5th rank.”

Leveled up!

There were only a dozen or so minutes left.

At this moment...

Daoist Lie Yan’s expression froze, then slowly became distorted until he looked like he had just swallowed a fly. His face was unsightly to the extreme! His eyes were bulging out, staring at Luo Tian while muttering to himself: “How, how, how can he suddenly breakthrough just like that?”

“There’s no logical explanation for this.”

Daoist Tian Mu’s brows furrowed as observed how Luo Tian’s aura had become much stronger than before. This kind of aura couldn’t be imitated, showing that Luo Tian had indeed made a breakthrough!

Breaking through in less than three hours?

This...

For a brief moment, two old monsters that had lived for several tens of thousands of years were dumbstruck.

Have they truly become outdated?

Or could it be that the outside world was no longer the same, people could just kill demonic beasts to make breakthroughs?

The devil sect experts can only rely on killing people to make breakthroughs!

They couldn't explain what they were seeing.

At the same time, the two old guys eagerly wanted to know so the two camps of demonic beasts under their control quickly withdrew backward. Two different voices instantly arrived at Luo Tian's left and right sides. Daoist Lie Yan hurriedly asked: "Kid, how did you break through like that?"

His gaze no longer had disdain or mockery, and actually had a trace of admiration.

Daoist Lie Yan was that kind of person.

He liked what he liked, and hated what he hated. All those emotions were shown on his face and he would never deliberately try to hide them.

Daoist Tian Mu also asked anxiously: "Did you cultivate some special secret skill? And it allows you to make breakthroughs from killing demonic beasts? Otherwise, there's no way I couldn't sense any changes in your aura or your fleshly body for the past three hours. Whether it's your body, your sea of consciousness, or your mind, they all instantly broke through in an instance. There's no way a sudden enlightenment would work that way."

From the very beginning, he had been observing everything Luo Tian did.

"Huh?"

"I believe. How can I not believe in you when you really broke through within three hours?" Daoist Lie Yan actually took the lead to speak. He now felt that Luo Tian was a very interesting guy. He grinned happily and put his arm around Luo Tian's shoulder and said: "Brother, just tell us whatever you want to say."

Daoist Tian Mu nodded and said: "I believe you, so just speak your mind."

Luo Tian clenched his fists briefly and asked: “How many demonic beasts are inside the ancient battlefield?”

He really wanted to know!

Luo Tian can keep leveling up as long as there are sufficient demonic beasts.

After breaking into the Profound Emperor 5th rank, the experience from the Tarbosaurus and T-rex had sharply reduced to three million points. That was a drop of two million experience points due to Luo Tian having leveled up. This meant Luo Tian would have to kill even more demonic beasts the higher he leveled up.

Daoist Tian Mu didn’t expect Luo Tian to ask such a question so he was stunned briefly by it.

Daoist Lie Yan chuckled and replied: “Apart from us five old undying monsters and the seven waning moons in the sky, there’s basically only demonic beasts in the ancient battlefield. You’re asking how many of them there are? Then I really don’t know how to answer you except for saying there’s probably at least billions?”

The ancient battlefield was extremely large.

Even they cannot give an accurate calculation.

“Billions?”

“Then that should be enough.”

Luo Tian felt a lot more relaxed as he originally thought there won’t be that many demonic beasts for him to kill. He then said with an excited smile: “Two seniors, I will not hide it from you. I can kill demonic beasts to make breakthroughs. The more I kill, the faster I breakthrough. I was forced beyond any other options to enter the ancient battlefield. I have to leave this place as soon as possible because my

brothers and my friends are waiting for me to rescue them. I also wish to rebuild Mount Hua Immortal Sect and let it rise up once more. Everything I want to do actually requires the cooperation of all of you.”

The key to the problem had arrived!

Luo Tian became very serious while asking: “Two seniors, can you two cooperate with me?”

“I want to kill the Seven Moon Devil Sovereign!”

“Boom~!”

A series of muffled thunderous sounds were heard from the sky and the dark red sky turned even more bloody looking. Luo Tian’s words seem to have angered the Gods or something as the killing intent in the atmosphere turned into an ocean of killing intent that suppressed the entire place.

The expressions of both Daoist Tian Mu and Lie Yan changed at the same time.

The aura of those two exploded out instantly and they used it to cover Luo Tian’s body. Their brows formed a frown as cold sweat appeared in their palms. Luo Tian’s mind tightened as he could sense the nervousness coming from the two elders.

Luo Tian didn’t move even a single tiny bit.

Half a minute passed by.

The thunderous sounds gradually disappeared and the bloody red sky became dark red once more.

“Fuuu~...”

“Fuuu~...”

The two elders started gasping for air. Daoist Lie Yan's eyes became enraged as he viciously stared at the waning moons in the sky. "Your granny! Sooner or later, this daddy will personally slaughter you!"

Daoist Tian Mu looked at Luo Tian and said: "Just then, that was the spiritual sense of the Seven Moon Devil Sovereign. If he were to find out you were around us, Seven Moon Devil Sovereign will definitely not let you go. This place is too dangerous, let's head back before we talk more."

Daoist Lie Yan followed up by saying: "That's right, let's discuss this with the other senior brothers."

"But..."

"Kid, what did you say just then?"

Luo Tian said once more: "I want to kill the Seven Moon Devil Sovereign. I want to leave this place."

"Hahaha..."

"What a wild and arrogant statement! But I like it! I'm sorry for looking down on you before but you're now the brother of I, Daoist Lie Yan! Hahaha... "Daoist Lie Yan was like those old men who were still young at heart, patting Luo Tian's shoulder and truly treated him as a brother.

Luo Tian started chuckling along with him.

The three of them flew for about half an hour.

And then arrived at a cave residence.

The cave residence was very simple with just a stone table and five stone chairs. The three people inside were startled when they saw Daoist Tian Mu and Daoist Lie Yan return. They all came out and the one in lead asked: "Aren't you two supposed to be controlling those demonic beasts to slaughter each other and condense killing intent?"

“Huh?”

“He’s the person that entered the ancient battlefield today?”

“Coming here just to die.”

“Sigh~...”

“Kid, seeing how young you are, most likely the Seven Moon Devil Sovereign won’t be bothered using you so you won’t be able to live for more than a few more days.”

The three of them made some casual remarks while looking at Luo Tian.

Daoist Tian Mu then started introducing, “This is Daoist Ling Tu, Daoist Ling Shui, and this is Daoist Ling Jin. You’ve previously met Daoist Ling Huo already. We are called Mount Hua Immortal Sect’s Ancestors of the Five Elements. The three that you are newly meeting are in control of the Stegosaurus legion, the Pterodactyl legion, and the Velociraptor legion. There are a total of five different types of demonic beasts inside the ancient battlefield.”

“My three apprentice-brothers...”

Daoist Tian Mu then continued saying in all seriousness: “He can bring us out of here.”

Chapter 627 – Eggy, You Can Be Saved

They were the direct disciples of Mount Hua’s progenitor.

After the progenitor’s ascension, they were in charge of the ten plus halls of Mount Hua Immortal Sect.

The Ancestors of the Five Elements entered the Profound Emperor realm when they were about a hundred years old. Mount Hua's progenitor once said that they would soon break into the Profound God Sovereign realm and ascend to a higher plane to continue their adventures.

But unexpectedly...

They were trapped inside the ancient battlefield for over ten thousand years.

Between the five of them, Daoist Jin Ling was the eldest senior brother.

Daoist Jin Ling's eyes widened in shock as he thought he had heard the wrong words. He then asked: "Junior brother, what did you just say? He can bring us out of here?"

Daoist Lie Yan said in excitement: "This little brother said that he can bring us out of here! Eldest senior brother, you didn't see it just now. He..."

"Bring us out of here?"

"Just based on him?"

Daoist Jin Ling immediately interrupted Daoist Lie Yan and said: "You guys have seen the strength of the Seven Moon Devil Sovereign. Based on what you've seen, we aren't his opponent even if we all joined hands together. He even sealed up some of our powers. Now that tens of thousands of years have passed by, one can easily imagine how much more powerful he has gotten. Just based on his Profound Emperor 5th rank strength and he can bring us out of here? It looks like you two wish to leave this place so badly that you have now lost your minds."

"That's right!"

"Second senior brother, there's only one way if you want to leave this place – kill the Seven Moon Devil Sovereign. All of us combined aren't his opponent yet you're saying he is? Stop joking around. The Seven Moon Devil Sovereign hasn't bothered with him since the moment he stepped into the ancient

battlefield. That means he isn't putting this kid in his eyes, a form of complete disregard. There's no way he is an opponent for the devil sovereign." Daoist Tu Ling said in all seriousness.

Daoist Lie Yan immediately retorted: "Eldest senior brother, junior brother, don't be in such a rush to jump to conclusions. We haven't finished speaking yet. He... right, little brother, what's your name?"

Luo Tian replied: "Luo Tian."

Daoist Lie Yan then continued saying: "You guys don't understand how powerful little brother Luo is. In order to break through, the Seven Moon Devil Sovereign needs us to help him refine killing intent from the demonic beasts. His cultivation realm would rise through the absorption of the killing intent. But do you know what little brother Luo relies on to make his breakthroughs?"

"Killing demonic beasts!"

"He can make breakthroughs just by killing demonic beasts!"

"Three hours!"

"Breaking through to the Profound Emperor 5th rank in just three hours?"

"Junior brother, are you joking with us?"

"That's impossible."

"I refused to believe it even if you beat me to death. Even though we've been stuck in the ancient battlefield for over ten thousand years, we still haven't become muddle-headed to that extent. In order to break through from the Profound Emperor 4th rank to the 5th rank, it needs at least several years of cultivation."

They refused to believe it!

No one would believe it unless they witnessed it themselves.

Daoist Lie Yan didn't believe it originally either, and he was still a bit stupefied about it right now while his brains couldn't fully process the situation. But he believed in Luo Tian. The more he looked at Luo Tian, the more he felt he was unusually calm and wasn't someone who would speak random nonsense.

Daoist Jin Ling looked over at Daoist Tian Mu.

Daoist Tian Mu nodded and said: "It's all true. He indeed used less than three hours to step into the Profound Emperor 5th rank from the 4th rank. Senior brother, this might be our last chance. Our lifespan has already reached its limit."

"If we cannot make a breakthrough, our lifespan will be over in less than a year."

"Instead of waiting for our deaths here, why don't we..."

Daoist Jin Ling didn't really believe in Daoist Lie Yan's words, but he was convinced by Daoist Tian Mu's words. Amongst the five of them, Daoist Tian Mu was the most steady and calm. Daoist Jin Ling became silent in thought after hearing his words.

Daoist Tian Mu only looked at him.

The other three were staring at him as well.

Luo Tian was also looking at Daoist Jin Ling. From beginning to end, he only said his name and then stayed silent off to the side.

Luo Tian was feeling rather nervous.

If Daoist Jin Ling isn't willing to risk helping him, there's no way he can accomplish what he planned on!

Whether he could leave this place or not required the cooperation of these five people.

They can control the five types of demonic beasts inside the ancient battlefield. If all these demonic beasts were gathered together, Luo Tian could kill them all more easily. The experience points and his leveling would be similar to sitting on a rocket. He would be able to break through into the Profound God realm in a very short time!

Luo Tian was feeling very anxious.

If anything happened to the twin sisters Yun Ling and Yun Yi, he really wouldn't be able to forgive himself. Luo Tian's heart would ache every time he thought back to the scene of them crying.

He had to go back as soon as possible.

The interior of the cave turned quiet.

A single second felt like a year.

Eventually...

Daoist Lie Yan couldn't bear it anymore and asked anxiously: "Eldest senior brother, we are running out of time. Let's just fight it out since there's no way for us to escape death. Instead of dying of old age, why not fight it out with the Seven Moon Devil Sovereign once more? I refuse to believe we can't take him on."

Daoist Tian Mu added: "Senior brother, this might be our only chance."

One's lifespan would increase as their cultivation realm rises, but they hadn't made any breakthroughs for over ten thousand years. The lifespan of a person at the peak of the Profound Emperor realm was coming to an end, and they most likely will die within a year's time.

Daoist Jin Ling glanced over at Luo Tian and asked: "Did you really use three hours to break through into the Profound Emperor 5th rank?"

Luo Tian nodded and was feeling very excited, but his expression remained calm as he replied: "Yes."

Daoist Jin Ling clenched his fists once before relaxing and saying: "If you're given enough demonic beasts, how long will it take for you to break into the Profound God realm? Our time is limited. Once the Seven Moon Devil Sovereign finishes refining the four regions' blood and the Sky Dragon's Bead, he will come looking for you. If you haven't broken through into the Profound God realm by then, you will definitely end up dying."

Luo Tian asked: "How long do we have before he comes out looking for me?"

Daoist Jin Ling replied: "Half a month at most."

Luo Tian's brows furrowed as he felt half a month was too short.

Leveling up from the Profound Emperor 4th rank to the 5th needed three hours, but the experience needed from the 5th rank to the 6th rank was four times as much. And the experience from the demonic beasts was two million less, so it will need a lot of time before he can breakthrough into the Profound God realm.

If there was someone that could assist him with the workload...

Luo Tian's gaze swept past the five of them as he asked: "Five seniors, do you have any divine artifacts in your possession? The more the better."

"What do you need those for?"

Suddenly...

Luo Tian's expression changed as he laughed at himself, "I'm really an idiot! Mount Hua's ancestors are right before me so why would I need divine artifacts for?"

He wanted to use their divine artifacts so that Eggy could break the seal over himself, but he forgot that these old ancestors before him were the disciples of the progenitor. There's a high chance that they've cultivated the secret skill Heaven's Seal! Luo Tian immediately asked: "Five seniors, have you guys ever cultivated the God Skill created by the progenitor called Heaven's Seal?"

"Heaven's Seal?"

"That's a God Skill created by our master so we've naturally cultivated it."

"And here I was thinking what difficult matters could it be."

"We five have cultivated it before. Back then, we participated in sealing up the devil sect experts."

Luo Tian smiled and said in excitement: "Eggy, you can be saved!"

## Chapter 628 – The Plan To Level Up

"Eggy, there's a cure for your illness!" Luo Tian almost shouted this out loud.

Far away, Eggy was munching on the profound weapons that Luo Tian had forged for him. He suddenly sneezed several times, "Achoo~, achoo~, achoo~..." He was sneezing so hard that saliva splattered everywhere. He then muttered: "Damn it, who the hell is cursing me? It definitely can't be anything good."

Five great ancestors of Mount Hua.

They controlled the five types of demonic beasts inside the ancient battlefield. Those beasts will be gathered together to allow them to kill each other.

Luo Tian will sit around and reap the benefits of a fisherman.

If he was alone by himself, his leveling speed would definitely be quite slow. But if Eggy was added to the equation, then the whole thing will be completely different.

The cultivation realm of these demonic beasts was all below the peak of the Profound Emperor realm.

It is very easy for Eggy to kill them.

Leveling would be much more relaxing if he had a sharp weapon like Eggy.

Immediately after...

Luo Tian asked: "Seniors, can one of you help me save someone?"

Daoist Jin Ling then asked: "Aren't you the only person that came in? There's actually someone else as well?"

Luo Tian then replied: "Accurately speaking, he's not really a person but a dragon."

"A dragon?!"

The five of them instantly became dumbstruck.

Half an hour later.

The five ancestors were standing before Eggy.

They were all rubbing their hands with a little too much excitement. Their expression looked kind of wretched while they drooled. "A dragon... it's really a dragon! It's not a lizard from the Sky Palace but a

true descendant of the Dragon God. Who would've imagined the Tianxuan Continent would have a Dragon God descendant appear here? This is really inconceivable!"

"Back then, master traveled to many planes just so that he could meet a true dragon. He never managed to meet one but we happen to see one here now. Hahaha..."

"Look at the scales on his body. They are all golden in color and he has eight claws. Even amongst the Dragon God clan, he is definitely a high-ranked Dragon God. An eight-clawed golden dragon is simply too amazing! A divine beast that only existed in legends has actually appeared before us."

"Look at his adorable face, hahaha..."

Eggy was staring at the five old lunatics.

He couldn't help start trembling, "B, b, b, boss, who are these people? They're not going to eat me, right?"

"Hey!"

"You five old fogies, you're not planning on eating this lord right?!"

"Do you believe that I can dismantle your old bones anytime I want? I'll have you know that I am extremely strong!"

Luo Tian faintly smiled and said: "Stop trying to act strong. I've already told them about the seal on your body."

"Damn it!"

"Boss, you've sold me out!"

“You are too vicious!” Eggy was like a wilted piece of cabbage before his expression instantly changed to a fawning expression. “Old grandpas, how do you do? My meat doesn’t taste good and my blood is more disgusting to drink than piss. How can you guys bear to eat such a cute and adorable dragon like me?”

“Hahaha...”

“Hahaha...”

The five of them started laughing.

Daoist Jin Ling was the first to speak: “Let’s not waste any more time. The Seven Moon Devil Sovereign might appear at any time. Little brother Luo, the lives of the five of us will be handed to you. Whether you can bring us out of here or not will be all on you.”

The five of them all stared at Luo Tian at the same time.

The eyes were filled with heat!

This was really their last hope. If they couldn’t leave this place, they were really going to die very soon.

Luo Tian nodded in all seriousness and said: “I will definitely do my best to bring you all out of here.”

Since he had said such words, then he had to accomplish it.

Luo Tian had always been like that.

If he wanted to leave this place, it would be impossible without the help of these five.

Daoist Jin Ling faintly smiled and said: “Good!”

Immediately after...

His brows furrowed and a strange power appeared in his palm. This power contained an aura of a Profound God Sovereign. A small droplet of the power then flew out and landed at the center of Eggy's brows.

Eggy's body slightly shrunk.

At this instance, the power of the seal on his body quickly disappeared. His powers recovered and the aura coming from him instantly became fierce. His dragon's aura slowly spread out bit by bit before eventually encompassing a hundred kilometer radius. Anyone in this area would instantly feel an oppressive pressure!

"Hahaha..."

Eggy started roaring in laughter and caused explosions in the sky.

The seven blood-colored waning moons shook.

At this moment, Luo Tian covered Eggy's mouth with his hand. He then started shaking him violently, "What the hell is up with your arrogance?! We will all die if you keep laughing like that!"

Eggy scratched his head with a grievance, "Okay, I won't laugh anymore! It hurts! Stop shaking me!"

Daoist Jin Ling and the others received a big scare.

The seven waning moons were controlled by the Seven Moon Devil Sovereign's spiritual wills. Apart from using them to absorb killing intent, he used them to monitor every move inside the ancient battlefield.

Luo Tian let go of his hands.

Eggy stretched himself and then said with excitement: "Boss, I have fully recovered. Once we get out of here, I will directly smash that old undying Tian Xu to death with a single pole strike. His granny's cha-cha, daring to seal this daddy? This daddy will not let him off!"

Right after...

Eggy's rage soared into the sky and wished he could get out this instant and hang Daoist Tian Xu up for a beating.

Luo Tian rolled his eyes at him and said: "Why aren't you thanking them? They are the ancestors of Mount Hua Immortal Sect. If you go out right now and get sealed up once more, it won't be you killing him and will be him pulling out your tendons and peeling off your skin."

"Huh?"

Eggy was startled by this and said to himself: "That sounds right. I'll be finished if I get sealed up once more."

He started smiling while looking at Daoist Jin Ling, "Thank you, old grandpa! Old grandpa, can you pass Heaven's Seal to me? As long as I cultivate it, once that old bandit Tian Xu tries to seal me up, I can beat the shit out of him and make him eat it off the ground!"

Apart from Eggy, Luo Tian wanted to learn the skill too.

But...

Luo Tian was different from the martial artists of this world. All his skills had to come from loot explosions or be rewarded to him by the system, so there's no way he can learn a new cultivation through books and such. This was one of the majorly screwed up things for him.

Daoist Jin Ling faintly smiled and replied: "I don't have the ability even if I wanted to. This is a God Skill that my master comprehended in order to fight against the devil sect. It can only be cultivated by the

human race. The devil race, demon race, and other races cannot cultivate it. So naturally, your Dragon race cannot either.”

Eggy felt a bit depressed.

Luo Tian then said: “Don’t worry, just hand old bandit Tian Xu to me. I will definitely play him to death once we get out of here.”

“The most important thing right now is to breakthrough!”

Soon after...

Luo Tian discussed his leveling plan in detail and the five nodded their heads. Even though they didn’t know how Luo Tian could raise his cultivation realm by killing demonic beasts, they still had the desire to fight it out once more. This was most likely their last chance ever.

Luo Tian looked up at the blood-colored waning moons. “Yun Ling, Yun Yi; I will come rescue you two very soon.”

Chapter 629 Still Missing One Level

“Boom~!”

“Boom~!”

In a large flat plain, most of the demonic beasts inside the ancient battlefield were gathered here. They were fighting each other and constant roaring and sounds of smashing could be heard. Their brutal speed and powers caused the earth to shake non-stop!

This was a large-scale battlefield!

The scene was too tragic to watch.

When the demonic beasts were slaughtering each other, a human, a dragon, and five level 7 battle pets with dark blue names above their heads were steamrolling over the seriously injured demonic beasts.

“Ding!”

“Ding!”

“Ding!”

Alert tones kept going off inside Luo Tian’s mind.

Off to a distance...

Five people were standing on top of a small mountain.

Ancestors of the Five Elements.

Daoist Jin Ling was watching Luo Tian who was amidst the large gathering of demonic beasts. He started muttering: “Second brother, can he really bring us out of here?”

He still didn’t believe it.

It wasn’t just him because the other four also had doubts.

The Seven Moon Devil Sovereign was simply too strong. More than ten thousand years ago, he alone was able to suppress all ten of them. After ten thousand plus years later, how strong was his cultivation realm now? No one knew the answer, but they understood that it must have reached a terrifying realm.

Daoist Tian Mu only faintly smiled and didn't reply to the question. He then said: "It's good to be young. Apprentice-brothers, I can actually see in him the image of when we were still young. I'm really envious to see how impulsive, arrogant, and wildly overbearing he is."

Daoist Jin Ling chuckled and said: "Yeah..."

Daoist Lie Yan also grinned foolishly, "Senior brother, this one believes in him. This kid is not ordinary, he's a martial artist with the most potential out of everyone I've ever seen. I feel like even our master cannot compare with the talent he has. Little brother Luo, this one believes in you! Heh heh..."

"It looks like we can soon get out of here and take a look around."

"Even if I have to die right away, it would be great if I could take a glance at the outside world one last time."

"After ten thousand plus years, I wonder what Mount Hua Immortal Sect looks like now? Master flew out of the Tianxuan Continent to travel the outside worlds. Who knows how he's doing right now? Back then, we said that we would break into the Profound God Sovereign realm within a thousand years and then go look for his elderly self. But now..."

Five old men were reminiscing about the past.

They would at times laugh and at times have tears brimming in their eyes.

All their hopes and ambitions had slowly been forgotten after ten thousand plus years. But their hearts started beating once more because they saw their younger selves in Luo Tian.

It didn't take a long time before Daoist Jin Ling made a decision. "My fellow apprentice-brothers; even if we cannot get out of here, we still have to send him out. Our master established Mount Hua Immortal Sect so we can't let it be destroyed just like that."

"This kid is not ordinary. He also has the same aura and the same unyielding heart as our master."

Daoist Tian Mu immediately said: "I agree."

"We ultimately bear responsibility for Mount Hua Immortal Sect to have fallen to such a degree. If we hadn't arbitrarily entered the ancient battlefield on a whim, Mount Hua Immortal Sect wouldn't have turned out like this. No matter what, we cannot allow Mount Hua Immortal Sect to be destroyed. We can't save it but I believe this kid has the ability to do so."

The five of them nodded in seriousness.

-----

"Kill!"

"Eggy, use all the strength you've been using to eat my treasures!" Luo Tian roared out while he started chopping with the Tang Blade in his hand. After several hours, he had broken a few Tang Blades already. His arms were numb and his body was drenched in blood.

Running about in the ancient battlefield with a hundred times the gravity was already quite difficult. And since he was killing like crazy, his energy consumption was depleting at a higher speed than normal.

Luo Tian's stamina was also being overdrawn.

At this moment...

The hidden potential inside his fleshly body was being stimulated one drop at a time.

This might be the last time he could level up like crazy.

If he can smoothly get out of the ancient battlefield, he will be immediately facing the task of reorganizing Mount Hua Immortal Sect. This was the key to allowing Mount Hua Immortal Sect to rise up once more. He will definitely accomplish what he promised Venerable Wu Nian.

A few months after that will be Li Xue'er's wedding day.

He will have to face off against Murong Wanjian!

The ten great immortal sects, Shattered Sky City, and the extremely mysterious Soul Hall whose strength wasn't any weaker than the ten great immortal sects. Luo Tian was feeling immense pressure from all of this!

For Li Xue'er!

Luo Tian was risking his life for his woman!

All these things made it so he didn't have time to take a break. He could only constantly kill, constantly level up, and improve himself so that he would become much stronger. He had to become strong enough to the point that no one would dare move against him!

Eggy gave a grunt of acknowledgment. He released his dragon's might in a vicious manner and the pressure directly crushed the seriously injured demonic beasts. He then said: "Boss, I even used up the strength I reserved for taking a shit!"

"Faster!"

"Faster!"

"We don't have much time left."

"If we don't get out of here quickly, I'm afraid Yun Ling and Yun Yi's lives will be lost." Luo Tian was the most worried about the twin sisters. If Daoist Tian Xu somehow realizes Luo Tian can't leave the ancient battlefield, Yun Ling and Yun Yi will no longer have any value. Their lives will instantly shift to a precarious situation.

Therefore...

Luo Tian had to get out of here as soon as possible.

Eggy's eyes shifted before chuckling: "Boss, are you talking about those two beautiful sisters? Wow boss, you are too fierce! You can make two big sisters cry for you! Boss, when will you get me a pair of dragon sisters as well?"

"Scram!"

Luo Tian glared at Eggy before saying: "It almost took my life to have you hatch and you want me to give you some dragon sisters? Do you want me to give you a third little sister, fourth little sister, and a fifth little sister as well?"

Eggy's eyes glowed and he immediately replied: "Yes! Yes! The more, the better! We males of the Dragon God clan should naturally have a lot of wives!"

"I..."

Luo Tian was completely speechless for a short time before saying: "Just go crazy with your killing and maybe I will get you a dragon goddess. Heh heh..." Luo Tian immediately thought of the figure of Ai Xi from the Sky Palace. He then muttered to himself: "I think it will be pretty awesome to give someone like that to Eggy, hahaha..."

Eight hours later...

"Ding!"

"Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 6th rank."

The experience points from the demonic beasts dropped once more.

Two days later.

“Ding!”

“Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 7th rank.”

The experience points from killing them dropped again.

Five days after that.

“Ding!”

“Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 8th rank.”

The thirteenth day.

“Ding!”

“Congratulations to player Luo Tian for leveling up. You are currently at the Profound Emperor 9th rank.”

At this time...

The demonic beasts only gave him tens of thousands of experience points and couldn't support his requirement for leveling up. The Triple Experience Pill was also useless at this point. Luo Tian had several normal Experience Pills that were full but a hundred million experience points barely amounted to anything.

He was missing one level to step into the Profound God realm!

But this one single level became extremely difficult because the experience he was gaining was too little. If he continued at this rate, he wouldn't be able to level up even after killing for an entire month.

What Luo Tian feared had finally happened. "Senior, these demonic beasts no longer allow me to advance my cultivation. Is there any place in the ancient battlefield that has higher ranking demonic beasts?"

The five of them looked at each other.

They then looked at the sky and nodded, "There is!"

#### Chapter 630 A Pile Of Divine Artifacts

Due to his level getting higher, the experience points from the ancient demonic beasts no longer satisfied Luo Tian's requirement to level up.

If they were outside...

Perhaps Luo Tian could keep killing away.

But since he was stuck here, he didn't have enough time to waste.

It required a huge amount of experience to rise from the Profound Emperor 9th rank to the Profound God 1st rank. He might not level up even after killing these demonic beasts for a month or two, so he had to find something to kill that gave him more experience points.

Daoist Jin Ling and the other four looked at each other.

Thirteen days had passed by.

They personally witnessed Luo Tian's breakthrough continuously. The first time they saw it, they thought it was just a coincidental enlightenment.

They couldn't say a thing when it happened the second time.

They started getting excited on the third time.

They had a dumb smile on their faces on the fourth time.

They saw a glimpse of hope, thinking perhaps Luo Tian might truly be able to bring them out.

This was something they had been dreaming of for ten thousand plus years.

Getting out!

That's why when Luo Tian asked where there were stronger demonic beasts, Daoist Jin Ling immediately replied: "Yes! Up in the sky!"

"Up in the sky?"

Luo Tian was stunned briefly before looking up and not seeing any demonic beasts. Apart from the seven blood-colored waning moons, there was nothing else up in the sky. There weren't any health bars above the moons so they were obviously not demonic beasts and couldn't be killed.

Daoist Tian Mu's face turned serious. He looked at Daoist Jin Ling and said: "Senior brother, there's no retreat once we step on this path."

Daoist Lie Yan revealed a rough smile, "We were already on a path of no retreat. After being a slave for that bastard Seven Moon Devil Sovereign, this daddy had already had enough. Little brother Luo, the demonic beasts' senior brother is talking about, are exactly those seven moons."

Immediately after...

Daoist Lie Yan pointed at the seven waning moons in the sky and said: "During the night, they would transform into seven waning moons to absorb killing intent. During the day, they will revert back to a place known as the Seven Moon Valley. That place is a forbidden area for us. But based on the observation of us brothers for the past ten thousand plus years, those seven waning moons are the seven strands of wills from the Seven Moon Devil Sovereign. He uses them to control us and to nourish his true body. Those moons are basically considered the lackeys of the Seven Moon Devil Sovereign."

"The Seven Moon Valley is where the ancestors of the Tarbosaurus', T-rex's, Stegosaurus', and the Pterodactyls stay. They reside there to mainly spawn eggs and can create over a million demonic beasts per day. It's also due to this that the demonic beasts in the ancient battlefield can slaughter each other every day and still not die out." Daoist Lie Yan spoke out without reservation.

Luo Tian felt enlightened after hearing his words.

No matter how large the ancient battlefield was and how many demonic beasts it had, they would eventually be killed clean one day. Luo Tian already felt this was kind of strange early on. Now that he knew there were ancestors spawning these demonic beasts, he wondered how generous their experience points would be?

And there were also the seven moons!

Seven strands of wills from the Seven Moon Devil Sovereign! That guy had cultivated for several tens of thousands of years so his will should be much stronger than the Soul Sovereign. Most likely a single strand of will would give at least a hundred million experience points, right? If it was much more than that, then...

Luo Tian's gaze turned serious as he looked at Daoist Jin Ling to ask: "Senior, can you bring me there?"

"Or you can just tell me the exact location of the Seven Moon Valley."

Before Luo Tian could keep speaking, Daoist Lie Yan sneered: "What? You think we're afraid? Little brother Luo, the Seven Moon Valley is an extremely dangerous place. It's even more dangerous than any

forbidden grounds in the Tianxuan Continent. Back then, we ten disciple brothers had four of us killed off at the entrance to the Seven Moon Valley. Your granny, this daddy is getting pissed off just from recalling it!”

“If my senior brother doesn’t take you there, I will do it.”

His expression clearly depicted his anger.

It seemed like the death of four of his senior brothers happened yesterday.

Daoist Lie Yan had always been like that. His happiness and his anger were revealed on his face, and he wasn’t a person who would try to hide anything.

Daoist Jin Ling gave a low shout: “Junior brother, did I say I wasn’t going to bring Luo Tian there?! We don’t even know what’s hidden inside the Seven Moon Valley. We should first make some plans before we go there. If we randomly rush into that place, what do we do if the Seven Moon Devil Sovereign is standing inside waiting for us?”

Daoist Lie Yan then said: “Eldest senior brother, what do you think we should do then?”

Daoist Jin Ling replied with a single word: “Wait!”

“Wait?”

“Wait until when? Thirteen days have passed already. Most likely, the Seven Moon Devil Sovereign has already refined the energy from the four regions’ blood and the Sky Dragon’s Bead. He could come out any time. If that guy finds out about Luo Tian’s current condition, there’s definitely no way he would spare him.” Daoist Lie Yan said in a somewhat anxious tone.

Thirteen days of time!

The Seven Moon Devil Sovereign could appear beside them at any minute now. They were too tight on time!

Daoist Tian Mu raised his voice: "Junior brother, let senior brother finish all his words first!"

Daoist Jin Ling glanced at the blood-colored night sky and said: "When dawn breaks, the seven waning moons will instantly return to the Seven Moon Valley. Why would they not appear during the day? Based on my observations, the power seems to be restrained by a certain force so it isn't as strong as during the nighttime. Daytime is the ideal time for us, and it just so happens that the Seven Moon Devil Sovereign only appears during nighttime. That's why I feel he is similar to the seven moons, where his powers during the day aren't as strong as they are during the night. When I say to wait, my meaning is to wait for the break of dawn before we kill our way to the Seven Moon Valley!"

"Hahaha..."

"Senior brother, you should've said that sooner! I thought you wanted us to wait for a few more months!" Daoist Lie Yan laughed out loud.

Luo Tian had no objections.

At this time...

Eggy walked over while picking his teeth and the golden glow around him was still dazzling as ever. He walked over to Luo Tian's side and burped before saying: "Boss, those bones were quite delicious. I've broken through again, heh heh..."

He had broken through twice.

The immature look on him had receded quite a bit. If he was considered a three year old child back then, Eggy now looked like a kid about seven or eight years old.

Daoist Lie Yan's eyes shook before he asked: "You broke through again? Could it be that you eat these trashy profound weapons in order to break through?"

Eggy replied slightly unhappy: "Old man, don't think you can insult my boss just because you saved me. The weapons my boss forges are not trash. If you dare to continue saying bad stuff about my boss, do you believe that I will beat the crap out of you?"

People weren't allowed to talk badly of Luo Tian.

This was Eggy's bottom line.

It was fine to insult him but one cannot insult Luo Tian!

"Huh?"

Daoist Lie Yan started laughing before saying: "I said the wrong words. What I wanted to ask was can you make breakthroughs just by eating magical artifacts? From the way I see it, you seem to be still quite far away from becoming an adult Dragon God, right?"

Eggy nodded his head, "That's right!"

Daoist Lie Yan chuckled before flipping his right hand. A long sword with a purple glow instantly appeared in the palm of his hand.

Eggy's eyeballs almost popped out of their sockets. Drool started dripping down while he tried to suck it back into his mouth. His expression instantly turned to one where he tried to please others.

Luo Tian's eyes shook as he blurted out: "Top grade divine artifact!"

Daoist Jin Ling faintly smiled and said: "Since that's the case, then everyone should take them out."

"Clunk~, clang~"

“Clang~, thump~”

“Thud~, clang~”

There was suddenly a large pile of divine artifacts on the ground!

Luo Tian’s eyeballs almost popped out onto the ground. “Why do you guys have so many top grade divine artifacts? Gulp~!”

Luo Tian’s eyes were glowing green with greed as he swallowed down his saliva.

Before anyone could speak, Eggy immediately pounced over.
