

Little Girl 154

Chapter 154: The First Transaction

I've seen sky-high prices, but never like this.

The clerk nearly burst with anger because of Xin Lin.

The Shiba Inu licked Xin Lin's hand, even the beast knows to return the favor, what a pity that humans don't understand.

Xin Lin patted the Shiba Inu's head, it wagged its tail and ran out.

"One thousand taels of silver per bottle, Xin, this is already a sky-high price. If you don't believe it, feel free to ask around in the market. Moreover, no one dares to offer a higher price than what Pingan Refining Hall has appraised."

Jiang Qing's face still wore a faint smile, an appearance of amity breeds wealth, but his words were veiled in strength.

Alchemy Hall has establishments throughout the entirety of Longteng, even neighboring countries have witnessed its influence. Its power was definitely not as simple as Xin Lin thought.

Other than the Imperial Palace and Imperial Hospital, Alchemy Hall is the most authoritative presence among the commoners.

Jiang Qing's words held no exaggeration.

"Exactly, if Purple Cloud Alchemy Hall refuses to buy your medicine, who would dare to?"

The clerks of the Alchemy Hall also showed faces full of arrogance, glaring at Xin Lin, thinking this little ghost must submit now.

Snap—

A crisp sound, one of the porcelain bottles in Xin Lin's hand fell to the ground.

"Ah! My hand slipped."

Xin Lin stuck out her rosy tongue, her face full of apology.

The medicine bottle shattered into pieces, the Bone Marrow Cleansing Powder inside scattered on the ground, undoubtedly ruined.

The smile at the corners of Jiang Qing's lips trembled slightly, a trace of surprise flashed in his eyes.

This little guy definitely did it on purpose!

"Only one bottle left, let's make it three thousand taels."

Xin Lin's face showed regret, but the price she called out was shockingly high.

"Three thousand taels, why don't you just go rob someone!"

The clerks of the Alchemy Hall were furious.

"Shut up, go get three thousand silver notes for Xin."

This time, Jiang Qing was straightforward, waving his hand, signaling the clerk to get the money.

The clerk was completely confused.

What exactly is the Shopkeeper selling in his gourd?

Earlier, not buying at one thousand taels per bottle, not even for one thousand five hundred taels, and now buying at three thousand taels?

As the saying goes, rarity adds value. Purple Cloud Alchemy Hall only needs one bottle of Upper Stage Soul-washing Powder, it's indispensable, otherwise, it will be hard to explain to the Imperial Doctor Mansion.

Xin Lin took the silver note from Jiang Qing's hand.

"Thank you, Manager Jiang. I have another question, does Purple Cloud Alchemy Hall have the medicinal herbs listed on this recipe?"

Xin Lin's face was full of smiles, that smile appearing somewhat flattering to Jiang Qing.

Could it be, everything just now, was already planned by this little one, how could it be... Xin is so young.

Jiang Qing shook his head, dismissing this absurd thought.

He glanced at the medicine recipe in Xin Lin's hand.

Just a glance, and his eyes suddenly stirred like tumultuous waves.

Jade Marrow Pill!

This is an almost perfectly balanced Jade Marrow Pill Recipe, unlike the common recipes circulating among Pharmacists, this one is improved.

Xin Lin didn't miss the surprise in Jiang Qing's eyes.

It seems there's no problem with the Jade Marrow Pill recipe.

The recipe came from a Dan Wood Furnace, but Xin Lin didn't fully trust that furnace, after all, the Elixir Pills produced were meant for Silly Chu.

That's why she purposely showed it to Jiang Qing.

Jiang Qing is still Jiang Qing, he quickly concealed his astonishment.

"Among these ingredients listed, Alchemy Hall has some, but it lacks two of them."
