

Little Girl 186

Chapter 186: Master Among Masters

Eight...

What does that mean?

Members of the Water Wraith Gang were completely dumbfounded.

What kind of play was this?

Their Vice Gang Leader had been defeated, and in an inexplicably baffling manner.

It wasn't until a deafening explosion rang through the streets that the gang members finally snapped back to reality, wailing and rushing into the streets, where the figure of their Vice Leader Ma was nowhere to be found.

After searching around, they discovered their Vice Leader Ma lying face down, planted headfirst into the street, creating a large crater.

With great difficulty, the gang members lifted Ma Jingtian from the ground, their faces mournful, and asked in a trembling voice.

"What does eight mean?"

Ma Jingtian was barely breathing, he struggled for a while before he could gather his senses.

"Eight... little white-faced."

That little white-faced is simply a madman, and petty too, how could he pin all eight sentences on him.

He was innocent.

Whine—

Ma Jingtian felt like dying.

"Murder!"

Just as Ma Jingtian was being helped up by the gang members, a scream like that of a pig being slaughtered came from the Taoyao Pavilion.

Several local ruffians knelt on the ground, shaking like they were having a seizure.

When Ma Jingtian was helped up, he saw this scene.

"Brother-in-law, save me."

As soon as the lead local ruffian saw Ma Jingtian, he cried out for his parents.

"Shut up!"

Ma Jingtian freed himself from the support of several gang members and staggered up to Gui Hu.

"Little... master, my skills are inferior to yours, I, Ma Jingtian, admit defeat wholeheartedly. But, first tell me, why does my Water Element Skill have no effect on you?"

Ma Jingtian had been through trials and tribulations in the martial world for more than a decade, his Water Element Skill had never failed before.

"You only understand the superficial aspects, it's laughable."

Gui Hu said coldly.

He thought that after a severe beating, the other party would panic and flee, but instead, he came back.

Respecting his courage, he decided to give him some pointers.

Only superficial?

After hearing this, Ma Jingtian was stunned for a moment, then suddenly understood.

Although the opponent had only eight words, it helped him solve his confusion of many years.

His Water Element Skill could refine his body to be as flexible as water, capable of dissolving the opponent's attacks.

But that was only superficial, his internal organs were no different from an ordinary person.

The opponent's strikes each targeted the vital organs precisely.

The opponent's accuracy in striking the human body's vital points was astonishing to Ma Jingtian.

"Brother-in-law, save me quickly, this little white-faced is going to kill..."

The lead local ruffian hadn't finished speaking.

Ma Jingtian lashed out with a palm, hitting the opponent's crown, causing his body to tremble and collapse to the ground, lifeless.

Before the remaining few local ruffians could even beg for mercy, gang members from the Water Wraith Gang had already acted, killing them.

"I, Ma Jingtian, was too blind to recognize your greatness and offended you, noble warrior. Please grant me a quick resolution. My brothers here all come from poor backgrounds and don't understand right from wrong, please don't blame them."

Ma Jingtian didn't say much more, knelt on the ground, and kowtowed repeatedly until blood seeped from his forehead.

The person before him had not a trace of True Qi in his body, yet his kung fu was incredibly advanced, comparable to a ghost or apparition. Ma Jingtian knew well that he was unlikely to escape death today.

"Vice Gang Leader, we are willing to live and die with you."

Those gang members also realized the great trouble they'd caused and knelt together.

Live and die together...

"Lord, your brothers are willing to live and die with You."

Gui Hu faltered for a moment.
