

Little Girl 33

Chapter 33: Fu Tian Pill

Activate the Fu Tian Pill within her body.

This thought lingered in Xin Lin's mind.

Just like a drowning person grasping at the last straw, Xin Lin united her mind and spirit as she did before when using the Ghost Escape Technique.

Soon, she felt a cool sensation from her lower abdomen transforming into a warm and pleasant heat.

The heat cheerily flowed within her, a gas emerged within her body, and her already exhausted limbs pulsed with this robust current, even her tendons were filled with this mysterious power.

"True Qi!"

Xin Lin's eyes deepened as she suddenly realized what this flowing qi in her body was—it was the True Qi she had longed for in her dreams.

Deemed by Sikong Ran as someone whose Five Meridians were completely ruined and thought to never be able to condense True Qi in this lifetime, she unexpectedly acquired it all at once.

"Ghost God Three Forms, the first form, Ghost God Breakthrough."

At the moment the powerful True Qi sprouted inside Xin Lin, that voice appeared again.

In Xin Lin's mind, a set of boxing techniques emerged, she leapt into the air, swung her right fist, and struck towards the Infinite Jade Bi.

"What a rip-off!"

Xin Lin almost spat blood as her limbs simply wouldn't obey, and then she finally knew what was inside her body—the Fu Tian Pill!

She must have had the worst luck in her past eight lifetimes to have fallen down, kissed a Rascal Corpse, and swallowed that broken thing.

That thing was taking effect, forcing her to throw a punch.

Her arms and legs, barely stronger than chicken claws, better not snap upon touching the Infinite Jade Bi.

As the punch was thrown, Xin Lin was slightly moved.

In her previous life, she was the Female Soldier King, with extraordinary eyesight; as her punch was thrown, the air was forcefully distorted, a terrifying gust of wind abruptly arose.

The punch hit the Protective Barrier formed by Heavenly Gang Qi, causing a slight tremble, yet it remained utterly unmoved.

Xin Lin's mouth twitched, could it be that this pompously named Ghost God Three Forms was actually just a showy but ineffective technique?

On the golden Protective Barrier, fine lines appeared, initially only an inch long, but they rapidly covered the entire barrier and with a loud 'bang,' the barrier cracked on cue.

The moment the Protective Barrier shattered, fear filled the eyes of Elder Bai Xu and Bai You.

They stared at Xin Lin as if they had seen a ghost.

The Horned Jiao soared into the air, and in the instant before Elder Bai Xu and Bai You could disappear, it bit down on Elder Bai Xu's right arm, tearing it off forcefully as his face turned deathly pale.

A flash of Spirit Light, and both Bai You and Elder Bai Xu disappeared.

Boom—a deafening noise.

The Infinite Jade Bi was shattered, and the entire Luoyin Ghost Cave trembled as the earth moved and mountains shook, large rocks tumbled, and the entrance to the Ghost Cave was blocked.

"Ah Piao, let's hurry up and leave."

Xin Lin quickly regained her composure, activated the Spiritual Formulas, and intended to leave the Ghost Cave before it completely collapsed.

"Coffin, coffin..."

Headless Ah Piao stuttered, pointing behind Xin Lin.

"Get a grip, it's just a coffin. It's not like it can eat us..."

Xin Lin rolled her eyes; headless Ah Piao was the most cowardly ghost she ever met. Bai You and others had been driven away, and the Ghost Cave was about to collapse, so she and Ah Piao had to escape amidst the chaos.

But before Xin Lin could finish speaking, she saw a hand extend from the coffin on the ground, a true pair of hands with pale skin, long and powerful fingers, clearly defined joints, belonging to a man.
