

Little Girl 75

Chapter 75: Xin Lin's Talent

Seeing the two little ones busily doing something, Gui Hu was about to close his eyes.

Just as he closed his eyes, a glimpse of motion from Xin Lin caught his attention from the corner of his eye.

Under the light of the fire, Xin Lin glanced at the recipe for the Ultimate Marrow Cleansing Powder and then picked up a piece of charcoal from the bonfire and began writing on the ground.

"Six taels of Coix Seed, three taels of reed root, five taels of Cassia Seed... four mace of water... first reed root, then Coix Seed..."

Xin Lin carefully wrote down the appropriate dosages and sequence of the herbs on the ground.

Gui Hu's eyes deepened.

"Sister, what are you doing?"

Little Xinzhuo, carrying a bundle of firewood, staggered over.

"I am preparing medicine. All medicine has a bit of poison, and the Bone Marrow Cleansing Powder is no exception. This prescription is not tidy, it needs to be re-prepared."

A serious expression appeared on Xin Lin's face.

"Sister, how do you know how to prepare medicine?"

Little Xinzhuo looked on curiously.

Sister was also refining medicine for the first time; how could she know the proportions of the Bone Marrow Cleansing Powder?

"You know, your sister just drank a bottle of Bone Marrow Cleansing Powder costing 500 taels; I remembered all the proportions of the medicines in that bottle. I used to follow an old traditional Chinese doctor who always had me taste and identify medicines. Just by pouring it into my mouth and comparing it with the materials, I could recognize the dosages and the heat needed."

Xin Lin shrugged her shoulders, speaking casually.

However, remembered as she might, the Ultimate Marrow Cleansing Powder recipe given by the Heaven-defying Book included an additional ingredient, the Red Toad Shell.

Xin Lin didn't know at which step to use the Red Toad Shell.

Gui Hu's eyelids twitched.

This Little Budian indeed had a special talent. Regardless of whether or not she had Alchemy Spiritual Roots, she already had a unique "Emperor's Tongue."

Late at night, bursts of medicine aroma occasionally drifted from an old temple.

In an old large iron pot, various herbs continuously gurgled and bubbled.

Xin Lin and Little Xinzhuo hovered around the iron pot, both sweating profusely.

By the time dawn approached, the herbs in the pot had turned a pale golden color.

"Only the Red Toad Shell left."

After using all the other ingredients, Xin Lin held the last one, the Red Toad Shell, which was not included in Alchemy Hall's Bone Marrow Cleansing Powder.

Thinking a bit, Xin Lin set aside part of the medicine juice, and to the remaining half-pot of Bone Marrow Cleansing Powder, she added Red Toad Powder.

The light blue Red Toad Powder caused the medicine in the iron pot to violently boil, and a sharp, spicy odor assaulted their senses.

When dawn approached again, the medicine was finally ready.

"Sister, are you sure this is Bone Marrow Cleansing Powder?"

Little Xinzhuo eyed the suspicious red substance stuck to the bottom of the iron pot, looking worriedly at his sister.

Xin Lin also looked hesitant.

"I will trust the Heaven-defying Book one more time, and just give it a try. It shouldn't kill anyone, at least."

Thinking of what the Heaven-defying Book wrote, "The hundredth reincarnation of Longteng Xinlin, dies at eighteen," she suddenly found her courage again.

She gritted her teeth and swallowed the red Ultimate Marrow Cleansing Powder.

As soon as she swallowed, Xin Lin felt a burning sensation in her throat and her stomach churned.

Her face instantly turned bright red.

Was this supposed to be Bone Marrow Cleansing Powder? This was clearly ultimate chili powder!

That day, Xin Lin vomited and had diarrhea, and eventually, she passed out.

While she was unconscious, her body expelled greasy, sticky dirt, causing Little Xinzhuo to keep his distance and nearly suffocate.

Inside the Sealing Spirit Talisman, witnessing this scene, Gui Hu's thick eyebrows furrowed—the Bone Marrow Cleansing Powder...
