Chapter 91: Pirated Secret Book??

"The words 'One Vein Scripture' forcefully slammed into Xin Lin's field of vision.

Even if it's a knockoff of Yijin Scripture, should it not have a little more standard?

Heaven-defying Book oh Heaven-defying Book, you took the Yijin Scripture and randomly turned it into 'One Vein Scripture', did you even consider how Shaolin Temple would feel?

After dealing with the failed Sealing Spirit Talisman and the Ultimate Marrow Cleansing Powder, Xin Lin felt that the Heaven-defying Book producing some extraordinary item again wouldn't be strange at all.

Xin Lin opened the 'One Vein Scripture', glanced over it a few times, and couldn't help but be enlightened by what she saw.

This 'One Vein Scripture', like the previous 'Martial Arts Extreme Scripture', is also a beginner Cultivation Technique for Martial Arts Apprentices.

However, unlike the Martial Arts Extreme Scripture, which divides the human body into Five Meridians, the 'One Vein Scripture' seemed to be tailor-made for Xin Lin.

It succinctly explained the method of cultivating a single vein.

Because it lacked the Five Meridians, the 'One Vein Scripture' didn't emphasize using True Qi to strike at the Five Meridians to eventually form a Xuan Root; instead, it emphasized cultivating one's veins, skin, limbs, internal organs, and even the seven orifices with True Qi.

"Condense True Qi in the Dantian, circulate it from the Dantian, and let it flow throughout the body to strengthen various parts, achieving different effects."

Xin Lin quickly flipped through the 'One Vein Scripture'.

After finishing, Xin Lin was both astonished and amazed.

Could it be that the Life Book created this One Vein Scripture specifically for her after discovering the uniqueness of her constitution?

The 'One Vein Scripture' mentioned that True Qi could be condensed in different parts of the body to enhance its strength.

The True Qi inside Xin Lin was the very rare Fu Xi's Energy.

Earlier, Gui Hu had taught her the first move of Ghost God Fist, which was to condense True Qi in the hand; however, due to the scarcity of Fu Xi's Energy inside Xin Lin, she could only condense it in her right hand.

Could it be that Fu Xi's Energy could also be concentrated in other parts of the body?

Xin Lin pondered and, as mentioned in the 'One Vein Scripture', silently recited the mnemonic and engaged in Breathing Control.

This time, the True Qi inside Xin Lin quickly condensed.

Strangely enough, although there was only a tiny vein inside Xin Lin's body, when this vein gathered Fu Xi's Energy, it did so incredibly swiftly.

The Fu Xi's Energy inside her swiftly settled in the Dantian, creating a warm and fiery sensation, as if a flame was burning.

This feeling was not unfamiliar—it was Fu Xi's Energy!

The Fu Xi's Energy inside Xin Lin became even more concentrated.

Xin Lin quickly controlled her breathing, converging that surge of Fu Xi's Energy in her eyes.

But before she could open her eyes, she heard a panicked voice beside her.

"Sister, Sister wake up quickly."

Little Xinzhuo's anxious voice appeared in her ear.

Xin Lin opened her eyes to find complete darkness all around.

Little Xinzhuo was looking at her with a panic-stricken face.

And looking over at not too far away, the Sealing Spirit Talisman was still lying there properly; that fellow Gui Hu didn't appear?

This was really unprecedented.

Xin Lin was puzzled.

Little Xinzhuo stammered.

"Sister, there's a ghost... no, a person..."

As he spoke, he pointed to somewhere in the distance.

"Are they people or ghosts?"

Xin Lin couldn't help but laugh and cry at the same time; Little Xinzhuo's courage was just too small.

After night fell, the burial mound was dead silent, the phosphorescent lights wavering around, creating quite a terrifying sight.

"I don't know if it's a person or a ghost, but they went that way."

Little Xinzhuo said softly.

The night was too dark, and with the help of the phosphorescent lights, it was impossible to see far.

In the distance, only two or three silhouettes could vaguely be seen swaying suspiciously, making it difficult to distinguish if they were people or ghosts.

Xin Lin thought of the 'One Vein Scripture', her eyes flashed, and she concentrated Fu Xi's Energy in her eyes."
