

Chapter 519 Wayne's Love Story

Kiley knew that Celia was currently working on a dress design for Vida. She would find a way to steal the drawing as soon as it was complete and present it to Livia.

Livia could then wear the dress before Vida and Vida would think that Celia didn't abide by work ethics and sold the drawing to several people. Knowing Vida's personality, she wouldn't spare Celia easily.

Celia would attempt to set the situation straight but no one would believe her.

Kiley felt overjoyed imagining Celia's miserable state.

She took out her phone and sent a message to Derek.

"Mr. Watson, Celia's design for Brea's dress for the party is finished. I'm reporting it to you, so you can arrange new tasks for her."

Derek replied after a while, "I see. You don't need to worry about it. I'll deal with these things. You'd better focus on your own work."

Kiley felt a little disgruntled. She didn't like being told off.

Derek still treated Celia with particular attention. He was aware of the fact that she was married but he couldn't help his soft spot for her.

If he was consumed by thoughts about a married woman, maybe he deserved to be single forever, Kiley thought bitterly.

She replied to Derek promptly, "You misunderstand me. I'm worried that it might not be beneficial to Celia's advancement if she doesn't have enough practice. I'm her friend so of course I care about her."

Derek retorted, "If you have that amount of time to care about others, maybe you should use it to improve yourself first and keep out of others' business."

Kiley's was cut off just like that.

Derek had never treated her like this before.

It must be Celia. That bitch must have said something to him, twisted his opinion and changed his attitude towards her.

Kiley cursed Celia in her head countless times.

She promised herself that as long as she remained at Semshy Group, she would make Celia's life a misery.

Before long, it was break time. Celia put aside her work, and started to chat with Tyson on the phone. She asked him about Wayne's love history for Brea.

"Honey, since you are so familiar with Wayne, you must know him very well, right? Brea was asking me about him. She wondered mostly about Wayne's love life. Has he dated many women before? What's his type?"

Tyson replied, "Wayne's love life is quite simple. He has only dated a few girls but they all had a motivation for wanting to be his girlfriend and that was the Evans family's money. He saw through this but he acted along and spent money on them. They always got what they wanted. He hasn't been truly in love for a long time."

After a while, he sent another message. "As for what kind

of woman he likes, Brea is his ideal type."

Celia was both delighted and excited by Tyson's message.

She kept giggling and her hands trembled as they typed.

"What do you think of Wayne and Brea? Do you think they could end up a couple?"

Tyson was genuine as always. "I think they would be perfect for each other. I can see that Wayne is really serious about being with Brea. It's the first time I've seen him treat a girl like this. And I've known him for a while!"

Celia almost laughed out loud. An idea just struck her. She asked Tyson, "Well... What if we do something to matchmake them?"
