Chapter 2181 - 2181 The Medicine Xie Xinyao Went to Get

Xie Tingyun frowned and got a headache when she saw her. She immediately said to Nan Tianyi, "I'm a little tired and want to rest."

"Okay." Xie Tingyun was already used to taking medicine. Ever since Qiao Nian came, the amount of medicine she took every day had decreased a lot.

Nan Tianyi was about to go in and get the medicine when Xie Xinyao seemed to have made up her mind. She tightened her grip on her cell phone and took a deep breath, then said firmly, "Uncle, accompany Aunt. I'll get it."

Nan Tianyi did not expect her to take the initiative to help, but he did not think too much about it. He was only stunned for a moment before telling her about the drawer with the medicine.

Without another word, Xie Xinyao went inside to get medicine for Xie Tingyun.

Seeing that she was especially diligent today, Xie Tingyun turned to her husband and said, "This child has been coming to our place every day. Her parents must have said something to her, right?"

However, Nan Tianyi did not take this matter to heart. He comforted his wife straightforwardly, "Don't worry about this. Anyway, we made it very clear that day. What they think is their business. It's fine as long as we don't change our minds."

Xie Tingyun responded in a low voice and lowered her watery eyes. She also felt that she was thinking too much.

However, she felt inexplicably uneasy, as if something was about to happen.

... magic

Xie Xinyao was very fast.

She brought the medicine over after a while.

Xie Tingyun's body was gradually recovering. During this period of time, she had been taking the small pills Qiao Nian gave her.

The packaging was in Qiao Nian's style.

A palm-sized transparent glass bottle contained the expensive medicine. There was no label on the bottle, and it looked especially like San Wu health supplements sold on the roadside.

"Aunt, is it this?" Not only did Xie Xinyao bring the medicine over, but she also brought water.

She poured out a small pill and handed it to Xie Tingyun, then handed over the cup. "Water."

Xie Tingyun took the medicine and cup from her and said softly, "Thank you."

Xie Xinyao did not dare to look into her eyes. She only shook her head and said that it was what she should do. A trace of nervousness and uneasiness could be seen in her expression.

However, she had grown up in a prestigious family, after all. She restrained herself and deliberately did not let them see her expression.

Xie Tingyun and Nan Tianyi did not notice the subtle change in her expression.

Xie Tingyun patted him reproachfully with a smile on her lips. She raised her head and took the medicine.

Coincidentally, her cell phone rang. She hurriedly grabbed it and accepted the call. "Hello? Now? I understand. I'll go back immediately."

Xie Tingyun and Nan Tianyi heard it.

Xie Xinyao put away her cell phone and stood up. "Aunt and Uncle, my mother said that she was looking for me for something. I won't accompany you today. I'll go back first."

She even especially reminded Xie Tingyun considerably, "Aunt, rest early after now that you took the medicine. Don't tire yourself out."

Seeing that she had not mentioned the notebook and family recognition in the few days she had been here, Xie Tingyun's impression of her changed a little. Feeling that she should not implicate her in the matters between the adults, she said with concern, "Drive slowly on the way back."

Chapter 2182 - 2182 She's in the Hospital, Come Over Quickly

Xie Xinyao did not expect this. Stunned for a moment, conflict and regret flashed across her eyes. However, in the end, she endured it, forced the corners of her mouth into a smile, and replied with a heavy heart, "Okay."

Then, she grabbed her bag and left in a hurry.

As soon as she left, the old butler of the Nan family came out with the brewed coffee. He saw that Xie Xinyao was no longer in the garden.

He put down the coffee and asked strangely, "Sir, where's Miss Xie? Why don't I see her?"

It was windy outside. Nan Tianyi was helping Xie Tingyun back to rest. Hearing this, he said indifferently, "She went back."

"Already?"

The old butler felt that something was wrong and muttered, "Didn't Miss Xie just come? Why did she suddenly leave?"

Usually, when people went to visit someone's house, they would chat for a while before leaving. It was abnormal for them to leave so quickly.

However, seeing that Nan Tianyi and Xie Tingyun did not care about this small detail, he did not dwell on the reason Xie Xinyao left so early.

* *

At around 10 o'clock that night.

Qiao Nian had just finished explaining a small programming technique to the little guy. She had taken a shower and changed into her pajamas. Ji Nan called her just as she was about to go to bed.

At first, Qiao Nian did not plan to answer. After hesitating for a moment, she walked to the head of the bed and took her charging phone, placed it to her ear, and asked sleepily, "Why are you looking for me so late at night?"

"Sun, come to the hospital quickly." Ji Nan's voice was a little dry and anxious.

Qiao Nian frowned. A bad thought surfaced in her heart, but she calmed down and asked him, "What is it?"

She had already gone to the cloakroom, opened the closet door, and took out a change of clothes.

Ji Nan took a deep breath and calmed down a little. However, his blood was flowing against the current at a high speed. His voice was trembling. "My, my aunt. My aunt is critically ill. She's in the hospital."

Qiao Nian tightened her grip on her cell phone and did not react immediately. When she realized who Ji Nan's aunt was, she suddenly picked up the sweater on the bed and put it on in no time. Next, she grabbed her jacket and walked out. "Which hospital?"

Ji Nan gave her the name of a hospital.

Qiao Nian going downstairs. She immediately said, "I'll be right there."

Downstairs.

Qin Si and Gu San were chatting. Ye Wangchuan was still awake. His pajamas were loosely draped over his shoulders. His hair was wet, and a towel was around his neck. Obviously, he had just come out of the shower. He was extremely charming and sexy under the steam.

The man was sitting lazily on the sofa with his head lowered as he made a call.

"Keep an eye on that side."

As soon as Ye Wangchuan finished speaking, he saw the person coming downstairs from the corner of his eye. He casually said to the person on the other end of the call, "I have something on. I'll hang up first. We'll talk later."

Then, he got up and walked towards the staircase. Standing in front of the girl and seeing the girl's ugly expression, he narrowed his eyes, and his tone instantly became dangerous. "What happened?"

Qiao Nian did not delay. She picked up the car keys on the table and said to him, "I'm going to the hospital."

Qin Si and Gu San heard the commotion. The two of them stopped chatting and leaned over.

The corners of Ye Wangchuan's mouth curled up casually. A vague thought appeared in his mind, and his expression became solemn. "I'll go with you."

Magic

Chapter 2183 - 2183 Thank You for Bringing So Many People Here

"I'll drive faster."

Qiao Nian wanted to say, "You know that I can't drive as fast as you?"

However, she was not in the mood now. She threw the car key to him and said, "Change your clothes first. Hurry up. I'm in a hurry."

Ye Wangchuan returned to his room and changed his clothes before coming out quickly.

Qiao Nian took this opportunity to make another call to confirm the situation at the hospital.

Seeing that Ye Wangchuan had come out, she did not delay for a second. She took her things and left. "Let's go."

Qin Si and Gu San could tell that this matter was urgent. Neither of them said that they wanted to go with them. They tacitly agreed to ask when they returned.

* *

At the same time, in the hospital.

Xie Tingyun's situation was extremely complicated. Coupled with the patient's special identity, a few specialist doctors did not dare to operate easily.

From the moment Xie Tingyun was sent to their hospital, other than giving her a comprehensive checkup, they had been in a meeting to discuss.

No one dared to come up with a solution easily.

On the corridor outside.

Nan Tianyi had just finished communicating with the doctor. His eyes were red, and his strong face was tense. Anyone could tell that he was in a terrible mood.

The old butler was also accompanying him at the side, but he hesitated to comfort him.

Ji Nan and Xie Yun rushed to the hospital in no time.

Tears were already flowing down Xie Yun's face. She quickly walked over and asked Nan Tianyi, "Tianyi, Tingyun— What did the doctor say?"

Nan Tianyi did not want to speak due to his extremely bad mood. However, the other party was Xie Yun, so he still forced himself to say, "The doctor has already checked her blood and five internal organs. They're waiting for the results now. They'll use special channels, and the results will be out soon."

Ji Nan also walked over at this moment and patted the man's shoulder silently to comfort him. "Aunt will be fine."

Nan Tianyi forced a smile and tried to be more optimistic. "Yes, I know."

As they spoke, Mother Xie, Father Xie, Xie Xinyao, and the old madam arrived.

Some important elders of the Xie family came with them. There was a large group of people. As so many people came, the originally small corridor was immediately packed.

Ji Nan was furious when he saw that Xie Xinyao and the others had brought so many people and looked like they were mourning.

He glanced at Xie Xinyao with mockery. "It's really been hard on you, bringing so many people over. Those who don't know the situation might think that you knew long ago!"

Xie Xinyao seemed to have been hit in the sore spot. She immediately gritted her teeth and retorted, "What do you mean? We're all worried about Aunt's safety. Do you have to make things sound so ugly?"

Ji Nan could not be bothered to argue with her.

Old Madam Xie also quickly walked to Nan Tianyi's side and asked in a choked voice, "Wasn't Tingyun fine previously? What's going on?"

"I sat with her outside for a while in the afternoon. In the evening, she said that she was tired and went back to her room to rest. At night, I called her for dinner and realized that she had already lost consciousness." Nan Tianyi's voice was hoarse, which showed how bad his mood was.

The old madam scolded and reprimanded him for not taking good care of her daughter. She turned around and asked, "Didn't you find a Miracle Doctor for Tingyun? Where's that doctor?"

She thought for a moment and asked, "Why did Tingyun faint? What else did she do before she fainted?" magic

Chapter 2184 - 2184 Poisoned, Maybe There's Something Wrong With the Medicine That Miracle Doctor Prescribed

Nan Tianyi was in extreme self-reproach. He thought for a moment and subconsciously replied, "She took the medicine and went to rest."

Old Madam Xie caught the word. "Medicine? What medicine?"

At this moment, a doctor in a white coat hurried in their direction with a test report.

"Mr. Nan." The doctor handed him a blood test report and said with a serious expression, "The test results are out."

Nan Tianyi took the examination report and read it.

Mother Xie asked gently, "Doctor, what are the results of the examination?"

The doctor hesitated for a moment. Seeing that Nan Tianyi was focused on the results of the examination and did not seem to have any intention of stopping him from saying it, he said concisely, "We found signs of poisoning in Madam Xie's blood."

“What, poisoned?!”

“How did my sister get poisoned?”

“Poisoned...”

Everyone in the corridor was in an uproar. They did not expect Xie Tingyun to be sent to the hospital in the middle of the night because of poisoning.

The old madam was so angry that her shoulders trembled and she almost lost her balance. She immediately asked Nan Tianyi to give her an explanation. “Aren’t you accompanying Tingyun every day? How did Tingyun get poisoned?!” magic

Ji Nan instinctively looked in Xie Xinyao’s direction when the doctor said that Xie Tingyun was poisoned.

Xie Xinyao appeared extremely calm, and there was nothing unusual about her expression.

Ji Nan frowned and already had a bad idea.

Xie Xinyao was too calm!

Instead, it went against common sense!

Because everyone was very surprised.

Including Nan Tianyi, his mother, the old madam, and even Father and Mother Xie, everyone looked surprised when the doctor said that Xie Tingyun had been poisoned. They had not expected this outcome at all.

Among so many people, Xie Xinyao did not show any surprise, as if she had long known this outcome.

Moreover, Ji Nan realized that when the doctor said that Xie Tingyun was critically ill, Xie Xinyao avoided his gaze, looking guilty and shocked.

She wasn't shocked that Xie Tingyun was poisoned, but she did not expect Xie Tingyun's condition to be so serious.

Ji Nan's eyes darkened and his expression was a little ugly. He was about to observe if Xie Xinyao had any abnormal behavior.

Just as everyone was in a mess, Xie Xinyao suddenly said, "Grandma, could there be a problem with the medicine prescribed by that Miracle Doctor?"

Whoosh—

Everyone's eyes landed on her.

Xie Xinyao's beautiful face looked calm, but she could not hide her nervousness. She said casually, "I'm thinking of that because Aunt's schedule is the same as usual and she just took the medicine prescribed by that Miracle Doctor. Perhaps... there's something wrong with that medicine?"

She made sense.

Most of the relatives of the Xie family were convinced by her. They all asked Nan Tianyi, "Yes, what Xinyao said makes sense."

"Should we check that medicine?"

"That's right. Since it's poisoning, there must be a reason. A person can't be poisoned for no reason."

“That doctor...”

Nan Tianyi had never thought that this fire would burn Qiao Nian. He hugged his head and had a splitting headache. He was about to explain that this matter definitely had nothing to do with Qiao Nian.

At this moment, a man and a woman appeared at the end of the corridor.

“Uncle Nan.”

Nan Tianyi looked over.

The girl was dressed in black, her style cold and solemn. She seemed to have come in a hurry. It was rare for her not to wear a baseball cap, revealing an exquisite face. She was very young and beautiful.

Qiao Nian did not even look at the others standing in the corridor. She walked past them straight to Nan Tianyi, asking, “Uncle Nan, where is she?”

Chapter 2185 - 2185 Could It Be That You Studied Medicine?

Nan Tianyi subconsciously stood up and blocked Qiao Nian’s way upon seeing her. “Nian Nian, why are you here?”

“Ji Nan called me and said that Auntie Xie was in the hospital.” Qiao Nian did not say much and asked him, “What did the doctor say?”

Nan Tianyi’s hair was a little messy, and his eyes were bloodshot. He only said, “Nian Nian, go back first. I’ll tell you later.”

His actions were very abnormal.

Qiao Nian immediately frowned. Her temples were tense as she subconsciously tried to grab her baseball cap. However, she realized that she had left in a hurry and had forgotten to take it.

She put her hand down and avoided Nan Tianyi's hand pushing her away. She asked him solemnly, "What's wrong with Aunt Xie?"

The commotion on their side had already attracted the attention of most of the Xie family in the corridor. Many people noticed them.

Someone was already asking, "Who is this person? Why haven't I seen her before? Who is she?"

Xie Yun and Ji Nan leaned towards Qiao Nian, unable to hide the worry in their eyes.

Ji Nan was most worried about Qiao Nian.

After all, he was the one who called her over.

However, he had not expected the situation to become so complicated.

"Sun." Ji Nan was worried about Qiao Nian, so he did not care about the occasion. He subconsciously called her the same way he did in private. He lowered his voice and said to the girl, "The doctor just came. He said that poison was found in Aunt's blood test report.

"Aunt was poisoned." magic

Ji Nan was 80% sure that this matter was definitely related to Xie Xinyao!

Xie Xinyao clearly wanted to drag Qiao Nian down.

In the current situation, the further Qiao Nian was from here, the safer she would be.

"Listen to my uncle-in-law." Ji Nan and Nan Tianyi had the same thought. He took a deep breath and exhaled. He lowered his eyes and looked at the girl in front of him. His eyebrows were slightly raised,

like deep pools. However, he did not know how to persuade the girl. He patted her elbow and said in a low voice, "...Go back and wait for the news. I'll tell you immediately when there's a result here."

No matter how stupid Qiao Nian was, she understood what was going on.

Someone did not hesitate to poison Xie Tingyun in order to frame her!

"Heh." A faint smile appeared on her lips, but it did not reach her eyes. Her eyes were dark and deep, and there was an obedient hostility that she could not suppress.

Qiao Nian pulled Ji Nan's hand away, took a step forward, and said indifferently, "There's no need. I also want to know why Aunt Xie was poisoned at home."

Her gaze swept around the hospital corridor. Her aura was extremely powerful, completely suppressing all those from the Xie family!

The girl's voice was faint, low, and hoarse.

It was as if she was nonchalant.

"...Who poisoned her and who wanted her life?"

Among the 20 to 30 people in the corridor, Xie Xinyao seemed to have been nailed down. Her teeth chattered. Her hidden hands by her sides pinched the palms of her hands hard, and her expression was still calm.

She knew that she had no way out.

Hence, when everyone was silent, Xie Xinyao smiled and said half-jokingly, "Qiao Nian, you asked so clearly. Could it be that you studied medicine?"

Swoosh—

Everyone's eyes were fixed on her again.

Ji Nan turned around and saw that it was her again. His expression darkened as he warned in a low voice, "Xie Xinyao, that's enough."

Chapter 2186 - 2186 You're Not Welcome Here, Leave!

"I'm just curious." Xie Xinyao smiled. She didn't dare to look at Qiao Nian and the others. Instead, she looked at her family and said with a smile, "She talked to the doctor as soon as she arrived. She asked especially clearly. I'm just curious. Could she be a doctor?"

The Xie family people all looked in the girl's direction.

Qiao Nian's personal aura was too strong.

Moreover, her surly and imposing aura could not be associated with the typical image of an angel in white. It did not match at all.

Therefore, the Xie family only sized Qiao Nian up. No one believed that she was really a doctor.

Firstly, from her temperament, she was not a doctor.

Secondly, she was too young.

Few people at Qiao Nian's age could become a doctor. Moreover, some people knew that Qiao Nian was a member of the Level 8 laboratory of the research institute.

Research and treating illnesses and saving people were two different things.

Unless a person was an absolute genius, how could they learn two extremely difficult skills at the same time?

Father and Mother Xie revealed disapproving expressions. "Xinyao, you're thinking too much. It shouldn't be possible, right?"

At this point, Xie Xinyao could only grit her teeth and pretend not to hear them.

Her eyes were bright as she locked onto the girl and said, "I heard that Aunt has a personal doctor. She has been treating Aunt recently. As she wants to examine Aunt's body, she often comes and goes in the manor.

"You seem to often go to the manor to look for my aunt... Qiao Nian, could that legendary Miracle Doctor be you?"

At first, Xie Xinyao was still afraid and did not make things clear.

Now, she was practically saying that Qiao Nian was the hidden Miracle Doctor!

"Are you saying that she's the doctor who poisoned your aunt?" Mother Xie covered her mouth and looked at Qiao Nian in shock.

Father Xie and Old Madam Xie were also stunned. It was obvious that the two of them had just learned this secret from Xie Xinyao.

If they didn't know, the relatives of the Xie family didn't know either.

At this moment, hearing that Qiao Nian was that doctor, everyone looked shocked. They all stared at the girl.

Their gazes were filled with disgust and seemed to be saying, "How dare you come here!"

Nan Tianyi had been tolerating her until this moment. He could no longer hold it in. He stared fixedly at Xie Xinyao with his tiger eyes. The veins on his neck bulged as he said in a low voice, "Enough! Your aunt is lying in the operating theater. Her life and death are unknown. But you're still making a fuss here and

insist on blowing things up. You don't even want her to be quiet when she enters the operating theater! Is this how you're showing concern for her? Why did you come to the hospital?magic

"If this is why you rushed here, you're not welcome!" Nan Tianyi's eyes were red. It was obvious how angry he was. He pointed at the elevator. "Leave! Your aunt and I can't afford your concern."

Nan Tianyi was not a gentle person. Otherwise, he would not have gone to the Ji family alone to ask them for an explanation.

However, he had been extremely gentle to Xie Xinyao all these years and rarely lost his temper. Or rather, he had never lost his temper with Xie Xinyao.

This was the first time he had flared up at her.

Moreover, anyone with a discerning eye could tell that he was angered by Xie Xinyao's actions this time. Other than being angry, he also looked at Xie Xinyao with deep disappointment.

Xie Xinyao shut her mouth now. Her beautiful face was snow-white. She bit her lip with a humiliated expression and tears welled up in her eyes.

Chapter 2187 - 2187 Sister Nian Is Already Prepared, Zhong Yiliu Is on His Way

"It's fine, it's fine." Mother Xie patted her back to comfort her.

Father Xie also said disapprovingly, "Xinyao doesn't have any ill intentions. She's just worried about Tingyun and said a few more words. If you don't want to hear it, just talk to her nicely. She's not the kind of person who won't listen. We're family. Why do you have to be like this?"

Old Madam Xie was more concerned about what Xie Xinyao had said. She pulled a long face and looked at Qiao Nian with an unfriendly gaze. Then, she turned to Nan Tianyi and asked in a low voice, "Tianyi, is what Xinyao said true? Is she really Tingyun's doctor? Did she prescribe that medicine?"

Nan Tianyi could sternly ask Xie Xinyao to leave, but he could not speak to Old Madam Xie like this.

He frowned and subconsciously opened his mouth. He was about to tell them not to harp on this matter at a time like this.

Could this be more important than Xie Tingyun's life?

Before he could respond, a doctor quickly ran out of the operating room and said anxiously, "Oh no, the patient's vital signs are rapidly decreasing! She has to undergo surgery immediately."

Xie Tingyun had been adjusting her body and had yet to undergo cancer removal surgery.

Therefore, the surgery that the hospital was talking about at this time was a large-scale surgery that would involve gastric lavage and cancer cell removal.

It was very difficult.

Not many people in the independent continent dared to do it.

At first, Qiao Nian was still listening to Nan Tianyi and the others talk about Xie Tingyun's situation. Seeing the sudden situation, she was not in a mess like them.

Instead, she calmly took out her phone and walked to the side to make a call.magic

The call was picked up instantly.

Qiao Nian's voice was low and hoarse as if she was not in a hurry. However, anyone who knew her personality knew that she was already very anxious. "Are you here yet?"

"I'm here."

"How long will it take for you to come up?"

"I'm waiting for the elevator. One minute."

"I'll wait for you." Before hanging up, the girl emphasized, "The situation has changed. Hurry up."

At this moment, in the elevator.

Zhong Yiliu was asking, "What's wrong? What's the situation on your side?"

As soon as he finished speaking, he realized that the other party had already hung up.

Zhong Yiliu looked depressed. He slowly put down his phone and said to his assistant, "Let's take the stairs."

"The stairs?" The assistant was shocked. He looked at the floor number displayed on the panel and then said, "Elder Zhong, the elevator is about to come down. Should we wait?"

Zhong Yiliu waved his hand and said indifferently, "We're not waiting anymore. Let's take the stairs. Anyway, it's only the third floor. We'll get there soon. Too many people are using the elevator. I don't know how long we'll have to wait."

The assistant could only follow him.

As she climbed the stairs with him, she was still thinking hard about who could make the old President of their Pharmacy Association climb the stairs to see them regardless of his age.

How much weight did this person have in Elder Zhong's heart to make him do this?

...

The doctors came out.

However, it was still the same situation as before. No one dared to take responsibility for Xie Tingyun's health, so no one was willing to step forward to do this surgery.

Everyone was arguing fiercely and saying nonsense like "the patient's condition is critical", "this surgery is too risky", and "does the patient need to undergo surgery immediately?"

In fact, Xie Tingyun could not afford to wait.

By the time they came to a conclusion, the patient would have passed away.

Chapter 2188 - 2188 Let's Hurry Up and Start the Surgery

Nan Tianyi was burning with anxiety. He wished he could force a doctor in and threaten him to do the surgery, but he was afraid that the other party would be frightened and not be able to perform well.

He grabbed his hair, his face ashen. He watched as the doctors argued, but no one came forward to resolve the problem.

"I'll do the surgery."

Qiao Nian's voice calmly sounded.

Nan Tianyi instinctively looked at her.

Nan Tianyi was slightly stunned. He suddenly thought of something. As if he had grabbed onto a life-saving straw, his eyes lit up, but he was immediately suppressed by the last trace of rationality. The light in his eyes extinguished.

He could not let Qiao Nian get involved again.

This operation was very difficult to succeed.

Qiao Nian would take on this surgery for them.

If she failed to successfully save her, the Xie family would only be even more unwilling to let her off. This was not the outcome Xie Tingyun wanted.

Nan Tianyi took a deep breath and his expression darkened.

He did not speak and shook his head at Qiao Nian, indicating for her to stop speaking.

However, Qiao Nian took a step forward, lowered her eyes, and said to him, "My helper will be here soon."

Nan Tianyi looked at her again. He still rationally did not agree. "No, you can't interfere anymore."

He scratched his head hard. His eyes were red and filled with pain, but he still insisted. "Nian Nian, listen to me. This isn't just my wish. If she were awake, she would have the same intention. At the very least, I have to protect you if she passes on. If she finds out, she'll definitely be angry with me."

At this point, Nan Tianyi's eyes were a little hot. He took a deep breath and looked at the girl in front of him with his tiger eyes, trying his best to be gentle. "Just listen to me and don't worry."

How could he not know Qiao Nian's medical skills?

Although he didn't know if Qiao Nian could operate on someone, in Xie Tingyun's current situation, Qiao Nian was already his best choice.

But he couldn't do that.

He could not be so selfish.

If Xie Tingyun knew what had happened, she wouldn't have agreed to implicate Qiao Nian.

He would definitely get someone to investigate the medicine scandal after the matter here was over. He would not let anyone slander Qiao Nian for no reason.

However, he could not involve Qiao Nian anymore.

"You..." magic

As Nan Tianyi tried to persuade her, Ye Wangchuan saw Zhong Yiliu and another person coming from the staircase. He interrupted in a low voice, "The person you're looking for is here."

"Yes." Qiao Nian turned around and saw Zhong Yiliu.

Zhong Yiliu walked over quickly and did not look at the large group of people in the corridor at all. He walked straight to the girl and asked in a familiar tone, "How's your relative?"

"There's time." Qiao Nian explained the situation simply and then said, "You came at the right time. The surgery is about to begin."

Zhong Yiliu heaved a sigh of relief. "You hung up halfway through the call. You scared me so much that I thought I was late and delayed your relative's surgery."

"I didn't even dare to breathe as I climbed the stairs. Fortunately, I made it in time." He was still smiling.

Qiao Nian looked at him as he spoke breathlessly. There was a hint of warmth in her eyes as she said in a low voice, "Thank you."

Zhong Yiliu was used to her usually sloppy and unconvinced appearance. At first, he was not used to it. He turned around and took his things from his assistant. He nodded slightly and regained his serious expression, then said to the girl, "Alright, let's not delay any longer. Hurry up and start the surgery."

Chapter 2189 - 2189 Sister Nian: She's Just a Fool

The specialists were originally unwilling to take responsibility.

Until someone saw Zhong Yiliu coming over with Qiao Nian.

“Elder Zhong!”

“Elder Zhong is here.”

Someone asked, “Elder Zhong is here. That’s impossible, right? Where’s Elder Zhong?”

“Over there, walking towards us with... someone we don’t know.” Someone kindly pointed the way for him.

“... It’s really Elder Zhong.”

A commotion ensued among the specialists.

They were already considered authorities in their domain. Otherwise, they wouldn’t have been able to come to a place like the independent continent. However, they could look up to a medical big boss like Zhong Yiliu.

The name “Zhong Yiliu” and the words “Pharmacy Association” were enough to win over anyone who studied medicine.

No one expected Zhong Yiliu to come today.

Ever since Zhong Yiliu focused on pharmaceutical research, he rarely came into contact with surgery. It was as difficult as Mars crashing into Earth to invite him out of retirement.

The expression on Xie Xinyao's beautiful face changed. She clenched her fists tightly, and her expression did not look good.

Qiao Nian... why was she always so lucky!

However, Ji Nan seemed to have seized a chance to save a life. His tense lips subconsciously relaxed a little. He turned to his mother and said, "Sun has found Elder Zhong. Aunt might be saved!"

Xie Yun was also shocked. She nodded and immediately said, "I'll tell the doctors."

She immediately went to look for the doctors and asked them to change the plan. She asked Qiao Nian and Zhong Yiliu to lead this surgery while they assisted them.

Old Madam Xie, Father Xie, and Mother Xie fell silent as she discussed with the doctors.

Mother Xie was still holding Xie Xinyao's hand. From the corner of her eye, she saw the flustered and uneasy expression on Xie Xinyao's face and already had a bad feeling.

At this moment, she turned around and whispered to Old Madam Xie, "Mom, are we really going to hand Tingyun's surgery to an inexperienced girl?"

Old Madam Xie was a little hesitant. "Don't you see Zhong Yiliu? It should be fine with him around."

Mother Xie's eyes flashed and she said persistently, "But... Mom, have you forgotten? She hasn't explained the matter to us clearly. If she wants to harm Tingyun, won't we be giving her a chance?"

What she said made sense.

Xie Xinyao's heart skipped a beat.

Coincidentally, Qiao Nian and Zhong Yiliu walked over after changing their clothes and prepared to enter the operating theater.

She suddenly blocked the girl. Her beautiful face was a little proud as she said coldly, "You can't go in! Qiao Nian, you're that doctor who caused my aunt to be poisoned and critically ill because she took your medicine. If you don't explain this matter clearly, I won't allow you in!"

This was the first time Zhong Yiliu had been stopped by the patient's family. He did not take Xie Xinyao seriously. He turned his head and asked in confusion, "Who is she?"

Q was a veteran member of the Pharmacy Association.

It was difficult for the Pharmacy Association to convince Qiao Nian to treat their illnesses. Was this person stupid? Why won't she let Qiao Nian in?

"A fool." Qiao Nian glanced at the self-righteous Xie Xinyao and said to Zhong Yiliu.

The girl's voice was neither loud nor soft, but it was enough for everyone present to hear.

A fool...magic

Casually.

With a hint of mockery.

Xie Xinyao was obviously a fool in her eyes.

Chapter 2190 - 2190 Who Do You Think You Are? I'll Explain It to You

Xie Xinyao's face instantly turned red. She stopped breathing and suddenly looked at the girl. "Qiao Nian, you..."

Before she could finish speaking.

“A good dog doesn’t block the way!” Qiao Nian had already pushed aside. Her aura was not to be trifled with.

Then, she stopped in her tracks, looked at her, unruly, then said coldly, “Even if I want to explain, I’ll explain it to Aunt Xie after she wakes up. Who do you think you are?”

“...”

Xie Xinyao had never suffered such treatment.

Her mind buzzed, but before she could react, Qiao Nian had already told Zhong Yiliu, “Let’s go.” The two of them had already entered the operating theater with a group of specialist doctors.

The door of the operating theater closed ruthlessly in front of her!

...

Outside the operating theater.

Mother Xie was so angry that smoke came out of her seven orifices. Not caring about her image, she quickly walked up to Nan Tianyi and questioned angrily, “Xinyao only casually said a few words to her. What kind of attitude was that? You’re leaving Tingyun’s safety in her hands. If anything happens to Tingyun...”

Nan Tianyi didn’t want to implicate Qiao Nian.

He did not expect her to have already arranged everything before coming to the hospital. She even invited Zhong Yiliu.

Now they owed her a huge favor, but Mother Xie was still criticizing Qiao Nian here and there...

How could Nan Tianyi tolerate this?

“Do you really want something to happen to her?” Nan Tianyi looked at her indifferently.

Mother Xie immediately felt as if her acupuncture points had been tapped. Her expression became uneasy. “That’s not what I meant.”

Her sharp eyes could tell that Nan Tianyi was in an especially bad mood today.

Normally, she would have let it go long ago.

At this moment, Mother Xie was extremely indignant. She said when Nan Tianyi was no longer looking at her directly, “But she’s just an outsider. Even if our family acknowledges her as our goddaughter, she’s not related to the Xie family. What right does she have to speak to Xinyao like that? She’s too unruly!”

With that, Mother Xie turned to look at the old madam, clearly asking her to say something.

Old Madam Xie hesitated for a moment, but still pulled a long face and said perfunctorily, “It’s indeed too unruly.”

Father Xie also chimed in. “That’s right, Tianyi. You should discipline her. With her personality, it’s best if she doesn’t cause trouble for the family.”

Nan Tianyi had always tolerated them.

This was because they were Xie Tingyun’s relatives, and they were all blood-related.

At this moment, Nan Tianyi could not take it anymore.

The veins on his forehead bulged, and his heart was beating rapidly because of blood congestion. His hands were clenched into fists the size of sandbags, and his bloodshot eyes glared at them.

A hand landed on his shoulder just as he was about to flare up.

Nan Tianyi turned around and saw Ye Wangchuan stepping forward. He walked past him and looked at the Xie family. "Qiao Nian acknowledges Aunt Xie as her relative, not you. You have nothing to do with her, so don't be in a hurry to flatter yourself." magic

Some people were born with a noble laziness, but their auras were enough to intimidate everyone.

Unfortunately, Ye Wangchuan was such a person.

"In addition, I'll be responsible if she causes trouble." The man's voice was light but powerful.

Xie Xinyao looked at the extraordinary aura of the man who had come with Qiao Nian, and the hatred in her eyes deepened. She deliberately curled her lips and said in a low voice, "Who do you think you are? What right do you have to be responsible for this matter? This is the independent continent!"
