Pablo's poisonous pill was indeed formidable. It took Kai nearly half a day to help Feenix expel the poison from her body.

Fortunately, Catina was guarding outside, providing some relief for Kai. As a Seventh Level Tribulator cultivator, Catina could easily handle any ordinary cultivator.

"Where do we go now? The Celestial Battlefield might close in a few days," Catina asked when Kai emerged with Feenix.

"Let's take it step by step. While the Celestial Battlefield offers many opportunities, it also poses significant dangers. Let's rely on luck," Kai replied.

Kai's optimism about discovering treasures in the Celestial Battlefield had dwindled. The vastness of the battlefield made searching for magical items akin to finding a needle in a haystack.

Moreover, he already had the spirit beast egg in his possession. Though unaware of the creature within, Kai was confident it wasn't an ordinary beast.

"Sure. Let's just walk around." Catina nodded.

This time, entering the Celestial Battlefield had allowed her to merge her bloodline with Kai's, significantly boosting her bloodline. It was a benefit she considered well worth it. Whether they found magical items or not was no longer a top priority.

To Catina, Kai represented the most precious treasure. If she could persist in fusing her bloodline with Kai's and give birth to his child, her lineage would thrive.

Yet, she acknowledged this as mere wishful thinking. Once they departed from the Celestial Battlefield, Kai would have no reason to keep her around or succumb to any threats.

Catina understood that Kai didn't lack women and wouldn't invest emotions or efforts in her. The three of them wandered around aimlessly. Meanwhile, not far from their location, the members of the Nesser family were exploring a mountain range.

"Elder Nesser, how can you tell that there might be magical items here?" Cameron asked, puzzled.

"It's just a feeling," Skylar replied with a serious expression. Not daring to probe further, Cameron silently followed behind him.

Suddenly, a massive underground crack appeared in front of them, resembling a fissure created by an immortal using a sword.

The crack extended for hundreds of miles. It was shrouded in an ominous black mist as if it were a gaping mouth waiting to devour everything.

Facing this immense crevice, the members of the Nesser family felt a chill run down their spines. On the other hand, Skylar gazed at the seemingly bottomless abyss with a hint of excitement in his eyes.

“Send a few people down to explore. There must be treasures within this crevice,” he ordered.

“Elder Nesser, this place exudes a sinister aura. It might be filled with Demonic Cultivators. Entering could be dangerous,” Cameron said softly, sensing the eerie vibes emanating from the crack.

“Whatever it may be, our purpose here is to seek treasures. This is the Celestial Battlefield. Even if this is the Demonic Cultivators’ domain, should we withdraw just because of that?” Skylar spoke, his expression turning dark.

Unable to refute, Cameron reluctantly dispatched two individuals to venture into the crevice. Skylar and the rest followed closely, jumping into the abyss.

It was dark, making it impossible to see anything.

As they descended, the only sound they heard was the whistling wind. In such an environment, endurance became a critical factor. Cameron continuously extended his spiritual sense, maintaining contact with the two explorers ahead.

If something were to happen to them, he could take action at once.

Suddenly, two clear sounds reverberated in the distance. Upon hearing them, Cameron was momentarily surprised, but he quickly discerned their origin. Hastily, he cautioned, “Everyone, stay vigilant. We’ve reached the bottom.”

## **The Mans Decree - The Mans Decree Chapter 3433**

Hearing Cameron’s reminder, everyone quickly prepared themselves and descended to the ground cautiously. Once they landed, the once mist-shrouded crack in the earth emitted a faint green glow.

Cameron observed the two Norton family disciples who had been dispatched for exploration lying lifelessly on the ground.

If not for their scouting efforts, many would've died from the fall. The eerie atmosphere surrounding them and the emergence of the eerie green light left both Cameron and the Nesser family disciples with a sense of dread. Only Skylar seemed strangely delighted.

"Elder Nesser, this place is full of negative energy. It feels like we're in the netherworld. It's terrifying. Should we leave?" Cameron suggested nervously.

"Rest assured. There's no danger here," Skylar said before walking ahead. As the Nesser family members explored the bottom of the crack, Kai, Catina, and Feenix arrived at the same location above them.

Observing the deep crevice, Feenix asked, "How did a big crack suddenly appear in this place? It looks like it was forcefully split open by someone."

"This place seems to exude a sense of impending danger. I suggest we leave," said Catina after scrutinizing the crevice.

However, Kai remained silent as he gazed at the crack. Suddenly, he leaped into it. Seeing this, Feenix hurriedly exclaimed, "Master, wait for me!"

She jumped into the crevice after him, leaving Catina no choice but to go after them. Kai expanded his spiritual sense thoroughly and furrowed his brows slightly. Although he didn't sense immediate danger, an oppressive feeling enveloped him.

The reason Kai had jumped into this crevice was because there was a lot of lethal intent within. It might not be useful for other cultivators, but it would be highly beneficial for him.

The marked aura wasn't just ordinary lethal intent. Kai needed the marked aura the most to use the Divine Bow.

The reason Skylar had entered the crevice was also because of the marked aura. He was familiar with it.

"This lethal intent is quite strange. It seems different from other lethal intents I've encountered before," Catina said, sounding confused.

Soon, the three of them landed on the ground. Kai observed the eerie green glow around them. His expression turned progressively solemn.

"Master, look!" Feenix suddenly exclaimed. Kai and Catina hurriedly looked over. They noticed two individuals nearby who had already turned into a bloody mess from the impact of their fall.

"Somebody's been here?" Catina frowned as she looked at the two cultivators who had already turned into a pulp.

"They are from the Nesser family."

Kai immediately recognized them despite their heavily damaged appearance. Even though their faces were unrecognizable, their clothes still confirmed their identity.

“You know them?” Catina asked.

Kai bobbed his head. “Yes. It appears that someone from the Nesser family is well-versed enough to discover this location and venture into the crevice.”

Kai had entered the crevice for the marked aura as it was beneficial for him. Ordinary cultivators would hesitate due to the seemingly bottomless crevice and the lethal intent.

As the members of the Nesser family were inside, they should be aware of the presence of magical items within the crevice.

“Master, let’s catch up. If there are treasures, the Nesser family might have already obtained them,” Feenix said urgently. Kai nodded. He then led Feenix and Catina forward.

Meanwhile, Cameron and two Nesser family disciples were exploring ahead. Skylar and the rest tagged behind. Soon, Cameron noticed a gleam of spiritual light in front, a welcome change from the eerie green glow.

An excited member of the Nesser family shouted, “Mr. Nesser, there is a magical item ahead!”

Cameron looked over and saw a golden light emanating from a huge rock. There was an arcane array surrounding the rock, and on top of it was a technique book.

Mist floated above the book, indicating their extraordinary quality.

“Go inform Elder Nesser that we have discovered a magical item!” Cameron ordered excitedly. The Nesser family member hurried to deliver the news, and Skylar soon arrived.

Facing the giant rock and the book on top, Skylar grew increasingly elated. He stepped forward, intending to destroy the arcane array to get it, but Cameron stopped him.

“Elder Nesser, let us handle this. You can rest at the side,” Cameron said, concerned about any potential accidents. He understood that Skylar played a crucial role in the future prosperity of the Nesser family.

Cameron sent two members, who cautiously approached the arcane array. Soon, they reached the arcane array. One of them cautiously extended his hand, penetrating the arcane array effortlessly.

Stunned, they both entered the arcane array, which didn’t react at all. An unexpected turn of events occurred when they reached out eagerly to get the book.

The arcane array suddenly emitted a bright light, and a black hole appeared behind the giant rock.

Roar!

A roar echoed from the black hole, sending both Nesser family disciples flying with its ferocious aura.

A huge beast with a lion's head and a tiger's stripes on its body, emerged from the black hole, its eyes glinting dangerously.

"A lion-tiger beast? Aren't they extinct?"

Cameron could barely hide his surprise when the beast emerged. He had barely finished talking when a black mist sprayed from the beast's mouth. It carried a captivating and chilling power.

Everyone from the Nesser family was blown away, and some members were instantly killed, bleeding profusely. Cameron, too, had blood trickling from the corners of his mouth. He was wounded from the impact.

Skylar, however, remained indifferent as if the casualties were inconsequential.

"Elder Nesser, this lion-tiger beast..." Cameron looked at Skylar in astonishment, but the latter remained calm. Skylar stared at the lion-tiger beast intently as it was his first time seeing such a demon beast.

The lion-tiger beast boasted a coat of black scales adorned with intricate patterns. Its appearance, a hybrid of lion and tiger, was truly intimidating.

The creature lifted its gaze, locking eyes with Skylar in a fierce stare. It roared again, and this time, the black mist from its mouth thickened, carrying an intense coldness.

The Nesser family were prepared for the encounter, but the freezing mist still caught them off guard. Almost half of them were frozen by the mist. Skylar's pupils contracted. He was surprised by the creature's ability to use Frost Technique underground.

In this environment, where the temperature was exceptionally high, employing the Frost Technique was a challenging feat.

However, the beast had effortlessly unleashed a freezing effect with a simple breath, showcasing its formidable power.

"Run quickly!" Skylar finally remembered to remind the rest to escape.

As he spoke, he waved his hand to create a massive shield in front of him.

As he spoke, he waved his hand to create a massive shield in front of him.

Boom! The frost mist expelled from the mouth of the lion-tiger beast hit the barrier, creating a tremendous noise!

The barrier shattered upon impact, and the immense recoil forced Skylar to continuously retreat!

The remnants of the frost mist rushed toward them, and in an instant, several members of the Norton family were transformed into ice sculptures!

Skylar furrowed his brows tightly, but at that moment, he dared not use his demonic technique!

Skylar was familiar with the marked aura. Back when he was cast into the demon cave, transitioning from an ordinary man to a demon cultivator, he had experienced the corrosion of the marked aura!

However, Skylar was unable to act at the moment. If he did, Cameron and the others would undoubtedly suspect his identity!

“Run!” All Skylar could do was shout loudly, leading Cameron and the others in a relentless run!

The lion-tiger beast was hot on their heels. Those few Norton family members who had been frozen were reduced to nothing more than dust under the beast’s paws!

After covering some distance, the lion-tiger beast halted its pursuit and no longer chased them!

It seemed that the lion-tiger beast couldn't stray too far from the technique book. Upon seeing the lion-tiger beast halt, Skylar and the others finally breathed a sigh of relief! At that point, only five people were left in the Norton family!

They watched helplessly as the treasure was right before their eyes, yet they couldn't reach it at all!

"This lion-tiger beast is utterly monstrous. It's unimaginable that such a grotesque creature can exist in a place like this." Cameron, panting heavily, spoke with a face full of lingering fear!

Skylar gazed at the oppressive, dark patterns overhead, emanating a marked aura. Then, he glanced at the beast not far away. He was torn and struggling internally!

If he were to utilize the marked aura, perhaps he could have a fight with the lion-tiger beast!

However, if he used it, he would be completely exposed.

At that moment, three figures were rapidly approaching from not too far away. These were none other than Kai and his companions!

"It's not far ahead. There's still a hint of a fight just a moment ago..." Kai was running swiftly!

Catina and Feenix closely followed behind!

"Someone's coming..." Skylar's brow furrowed. Cameron and the others quickly assumed their positions, waiting in silence!

As Kai's figure drew closer, Cameron relaxed his stance and quickly spoke out, "Mr. Chance, it's you..."

Upon catching up with Cameron and the others, Kai halted his steps!

"What just happened?" Kai turned to Cameron and asked!

"Just now..." Cameron was about to speak but suddenly stopped. He then shook his head and said, "Nothing!"

Cameron didn't want Kai to know about the technique book, fearing that Kai might seize it!

Although they couldn't obtain the technique for the time being, Cameron didn't want others to take it away either. After all, they were the ones who discovered it, and they had even lost several people in the process!

Kai glanced at Cameron, knowing for certain that the latter was definitely not telling the truth!

However, Kai did not continue to inquire further. Instead, he glanced at Feenix and followed Catina, saying, “Let’s go...”

Seeing Kai intending to continue forward, Skylar suddenly spoke up. “You can’t go any further. There’s a lion-tiger beast ahead...”

“A lion-tiger beast?” Kai was taken aback!

“Hadn’t those already disappeared? How could they appear in this place?” Catina exclaimed in surprise.

“Up ahead, there’s a technique book, likely a remnant from the Celestial Battle. Next to this technique, a lion-tiger beast stood guard. We just had a skirmish, but we were no match for that lion-tiger beast. I urge you all to leave as quickly as possible!” Skylar spoke to Kai!

“Technique book?” Upon hearing that, Kai instantly became interested. After all, he had never seen what an ancient technique looked like!

Catina cast a cold glance at Skylar, then turned to Kai, warning, “Kai, don’t be fooled. That lion-tiger beast is extremely dangerous. You might not get the book you’re after and instead lose your life here!”

Catina saw through Skylar’s intentions. The reason the latter mentioned the presence of a technique was undoubtedly to lure Kai into seizing it, and the lion-tiger beast would surely intervene!

Catina saw through Skylar's intentions. The reason the latter mentioned the presence of a technique was undoubtedly to lure Kai into seizing it, and the lion-tiger beast would surely intervene!

When the time came, they engaged in battle with the lion-tiger beast, allowing Skylar and his companions to reap the benefits!

"We won't know unless we try," Kai dismissed Catina's words and continued on his way inward. Seeing the situation, Catina and Feenix had no choice but to follow Kai deeper into the depths.

"Elder, why did you reveal the ancient technique?" Cameron was utterly perplexed, wondering why Skylar had to disclose it.

After all, they were the first to discover that technique.

“If I hadn’t spoken up, would we have been able to obtain it?” Skylar retorted with a question.

Cameron shook his head.

“Since I couldn’t obtain it, it was better to tell him. Even if I didn’t say anything, I believe Kai would have discovered it himself. As long as he goes to get the technique, he will surely engage in a fierce battle with that lion-tiger beast. When that time comes, we can just sit back and reap the benefits of their conflict. Stay close to me, all of you. As soon as Kai and his group start fighting the lion-tiger beast, we’ll seize the opportunity to snatch the technique!” Skylar had already made up his mind.

While the lion-tiger beast was busy fighting with Kai, he would seize the opportunity to snatch the technique.

Shortly after Skylar and his companions had traveled a certain distance, they immediately heard the sounds of intense battle.

Skylar smirked, knowing that Kai and the others had started to fight with the lion-tiger beast.

At that moment, Kai, with the Dragonslayer Sword in hand, was engaged in a fierce battle with the lion-tiger beast.

Feenix and Catina were also assisting on both sides. Kai saw the lion-tiger beast let out a furious roar, and a stream of white frost mist surged toward him.

Kai, on the other hand, flipped his palm, and bursts of flames emerged from the center of his hand.

Then, with a single strike of his palm, a surge of demonic fire shot straight toward the frost mist. However, when Kai’s demonic fire came into contact with the frost mist, it was instantly frozen and continued to spread.

A jolt of surprise shot through Kai’s heart as the fire nascence spark within him flickered incessantly. Streams of demonic fire were rapidly unleashed.

Even as Kai launched a series of demonic fire attacks, they could only slow down the speed of the frost mist but not stop it.

Each and every flame was encased in ice, yet they remained in a state of burning.

“This is too bizarre. What on earth is this thing?” Kai was somewhat taken aback. He hadn’t expected the frost mist of the lion-tiger beast to be so formidable that it could freeze demonic fire.

Feenix and Catina were somewhat taken aback when they saw the frost mist heading toward Kai.

With a resonating cry, Feenix revealed her true form. Her wings shimmered as she sent wave after wave of fiery feathers toward the frost mist, intending to shield Kai from the encroaching frost.

Catina also furrowed her brows, and immediately, nine tails appeared behind her. One by one, fireballs shot out toward the lion- tiger beast.

However, the attacks from Feenix and Catina seemed to have no effect on the lion-tiger beast.

At that point, Skylar and his men had already sensed it. Upon seeing Feenix and Catina, they were all taken aback.

“Could it be that the two girls beside Kai were actually female demons?” Cameron exclaimed in surprise. Meanwhile, Skylar’s face twisted in a grimace, filled with envy, jealousy, and resentment.

From the mundane world to the Ethereal Realm, Kai was always accompanied by beautiful women. Moreover, each of these women was more beautiful and formidable than the last.

In his quest for revenge, he endured countless hardships, yet he could never catch up to Kai’s pace.

Even at that point, he didn’t have a single woman by his side. Cameron felt a sense of hatred emanating from Skylar, causing him to involuntarily take a second look.

He couldn’t understand. From his perspective, Skylar and Kai didn’t know each other, so he didn’t understand why Skylar suddenly looked at Kai with such a terrifying gaze.

Skylar noticed Cameron looking at him, so he suppressed his inner emotions and became calm.

At that moment, Kai was already drenched in sweat. The frost mist sprayed out by the lion- tiger beast alone had left him somewhat at a loss.

As the frost mist continued to spread, the entire crevice soon took on a chilling and ominous atmosphere.

“Go quickly, don’t worry about me, just go...” Kai knew they had no way to resist the frost mist.

His only option was to let Feenix retreat with Catina.
