

## Path to Immortality Begins With Marriage #Chapter 51: Veronica, weapon enchanter, Vye Family - Read Path to Immortality Begins With Marriage Chapter 51: Veronica, weapon enchanter, Vye Family

### *Chapter 51: Veronica, weapon enchanter, Vye Family*

Right as Veronica stood up from her seat, looking at Veronica's body that was standing up right, it could be seen that Veronica possessed a height of 177 cm.

And as she turned around and began walking toward the door, the way in which her butt and waist were swaying while walking, and paired with the size of her butt that was evidently as big as a melon, it was enough to make a man's blood began boiling.

However, none of the people that were within the conference room was looking at her with any slightest bit of lust within their eyes as they watched her walked over to the door and leave.

Furthermore, instead of lust within their eyes, most of the people that were within the conference room could be seen to have a look of detest within their eyes while their eyes were fixed onto Veronica, seemingly as if Veronica was actually an enemy of theirs or something, despite the fact that she was actually a member of the Lisandris Family, and that she was actually a golden core realm cultivator.

In truth, there were reasons as to why almost everyone within the conference room had a strong feeling of detest for Veronica.

One of the reasons was that, back when Veronica's husband, Dylan Lisandris, died in the incident that happened 20 years ago, Veronica didn't show a single trace of sorrow at all.

And during the Lisandris Family's huge funeral that was held to honor every Lisandris Family's family members that died during the incident, Veronica didn't even bother showing up, and later on, they even found out that, during the funeral, Veronica was actually tasting and shopping for wine in Bright Moon City's upper district, which evidently showed that Veronica did not have a single care for any of the Lisandris Family's family members.

However, to be honest, regarding this, all of the higher-ups within the Lisandris Family sort of understood why Veronica acted the way she did toward her husband death, and the funeral that was held.

After all, the marriage between Veronica and Dylan was an arranged marriage that was forced onto Veronica.

Initially, Veronica did try to resist against the marriage, but in the end, being born in a cultivational family, one's decision can't be decided on their own, especially when they do not possess the cultivation realm to be able to decide things for their own, nor the backing of a high realm cultivator.

Back then when Veronica was forced to marry into the Lisandris Family for the sake of her family, which was the Vye Family, a family that was ranked 6th in strength back then, while the Lisandris Family was ranked 2nd in strength...

Veronica was only a cultivator who was in the early levels of foundation establishment realm, and her parents, aside from her little sister, had long died while she was still in the energy refining realm, and thus, how could Veronica be able to go against the Vye Family's wishes even if she wanted to...?

Especially when the Vye Family even used her little sister to threaten her, telling her that they would cut off her little sister's cultivation resources and kick her little sister out of the Vye Family if she doesn't marry into the Lisandris Family.

So, in the end, against her wishes, for the sake of her little sister, Veronica begrudgingly married into the Lisandris Family.

In actuality, the above reason barely contributed to everyone's utmost detest toward Veronica, and the real reason that contributed to everyone's feeling of detest toward Veronica was because Veronica didn't bother doing anything to help out the Lisandris Family during the entire past 20 years when the Lisandris Family truly needed her help.

During the past 20 years, there were many instances where Veronica could extend out her hand to help out the Lisandris Family.

For example, helping the Lisandris Family to go against the various families that were trying to weaken the Lisandris Family, or helping the Lisandris Family's family members get stronger by giving them pointers.

However, the instance in which that made everyone's detest toward Veronica reached the peak was when Veronica refused to help out the Lisandris Family by using her profession as a weapon enchanter, especially when the fact that she was able to even become a weapon enchanter was thanks to one of Lisandris Family's ancestors, Mary Lisandris, the other weapon enchanter within the whole of Bright Moon City aside from Veronica herself.

It has to be known that, weapon enchanting was one of the hardest professions to learn, at the least, that was a fact for the people within the lower realm.

To become a weapon enchanter, one had to possess both the professions of weaponsmith and formation specialist, and furthermore, their proficiency of both of those professions had to be tier 3 or higher.

Within the entire North Continent, the number of weapon enchanters could be counted on less than 2 hands, and the size of the North Continent was many times bigger than the size of the planet that Sebastian belonged to in his past life.

Thus, from this, it could be seen just how rare weapon enchanters were.

And in truth, the Vye Family had greatly regretted their decision of marrying Veronica into the Lisandris Family when they found out that Veronica had somehow managed to successfully become an official weapon enchanter.

Of course, the fact that Veronica had managed to go from foundation establishment realm to golden core realm was already enough to make the Vye Family regret their decision of marrying her into the Lisandris Family, but the fact that she also ended up becoming a weapon enchanter just further made them regretted their decision even more.

With how rare weapon enchanters were, it was evident just how much spiritual stones a weapon enchanter was able to earn, and how many favors a weapon enchanter could obtain from other cultivators by helping cultivators enchant their weapons...

#### *Chapter 52: Veronica's pettiness*

With Veronica's profession as a weapon enchanter...

If she was willing to help out the Lisandris Family by helping to continue on the weapon enchantment shop that was previously managed by Mary Lisandris before she ended up dying during the incident that happened 20 years ago...

Lisandris Family's financial situation would be able to easily become stable without long due to the great amount of spiritual stones that the weapon enchantment shop would be able to bring in for the Lisandris Family.

And in truth, aside from the reason that Lisandris Family's founding ancestor possessed a peak-quality spiritual root and was level 10 of golden core realm, which was basically the highest cultivation realm one could possess within the North Continent...

Mary Lisandris's profession as a weapon enchanter was the other main reason that the Lisandris Family was able to even hold the position of being the 2nd strongest family within Bright Moon City's middle district, despite the fact that the Lisandris Family did not possess any single family member who possessed either a special body, or an element spiritual root.

Since Mary Lisandris and the Lisandris Family's founding ancestor were the two main factors that contributed to the Lisandris Family's ranking of being the 2nd strongest family within the Bright Moon City's middle district...

The moment that both Mary Lisandris and the Lisandris Family's founding ancestor died during the incident that happened 20 years ago...

It was only natural that the Lisandris Family would start going downhill, all the way to the pitiful state that the current Lisandris Family was in today.

...

Shortly after Veronica had left the conference room...

Everyone could be seen looking over to the person who possessed the lowest cultivation level within the conference room.

And the person that everyone was looking at was someone who possessed the lowest cultivation level amongst all of the foundation establishment realm cultivators that were within the conference room.

Upon seeing that everyone was looking at them, the corner of the person's mouth couldn't help but twitch, and after letting a helpless sigh, the person stood up from his seat, then walked out of the conference room.

Upon walking out of the conference room, the person began surveying around the area that was around the conference room, making sure that Veronica had truly left the area, and wasn't hiding nearby so that she would be able to eavesdrop on their conversation.

Ever since they had found out that Veronica had actually been eavesdropping onto their meetings, this was something that he had to do every time that the higher ups within the Lisandris Family were holding a meeting.

And as for how they managed to find that out...?

It was due to a certain day, when Veronica suddenly barged into their meeting, then drag out a few higher ups to an open field that was used by the Lisandris Family's family members to practice battling with each other...

Then while in front of everyone, Veronica began beating up those few higher ups to a pulp without any mercy, all the way until all of them had fainted and sustained grave injuries that would require months of healing in order to recover completely.

When the remaining higher ups that didn't get beaten up by Veronica confronted her about what she had just done, Veronica merely tossed over a bunch of recording jades to them, and within all of those recording jades were video recordings that showed her being cursed at and talked badly about by those few people that she had just beaten up...

And as for the locations that those people were at when they cursed at her and talked badly about her...

It wasn't difficult for everyone that had seen the video recordings to see that the locations of all the video recordings were of the same location, and the location was actually the conference room where their meetings were always held at...

...

Not long after...

After what seemed like 10 minutes had passed, the person who went out to survey the area could be seen finally returning back to the conference room.

"So? Is she still...?"

Right as the person who had went out to survey the area had sat down, someone could be seen immediately opening his mouth to ask.

"Nope, she's gone. I made sure to use a detection tool while I was surveying around the area, and the detection tool didn't go off at all. So, she's definitely not hiding somewhere to eavesdrop on us."

Upon hearing that, most of the people within the conference room immediately let out a sigh of relief, and quickly after, a few people could be seen immediately opening their mouths in successions and venting their frustrations.

"This ungrateful b... ungrateful woman is truly being too much! Did you all see the attitude that she had just shown to us?!"

"That's right, that's right! With the way that she acts, if one didn't know better, they would think that she's the one who's calling the shots within the Lisandris Family!"

"Family head, are you truly going to allow that woman to just take one of the slots to join the main sect as an outer-disciple just like this? In the past 20 years, what has she even done for the Lisandris Family? Nothing! Nothing at all! And yet, she somehow feels that she is entitled to obtaining one of the slots?!"

"That's right, family head! You have to do something about this!"

Meanwhile, faced with what everyone had said, both Henry and Damien could be seen to have a helpless look on their faces, while at the same time, the corner of their mouths could actually be seen to be twitching constantly.

And the reason for their reactions wasn't because of what those people were saying...

But instead, because...

Right by the door, both of them could sense that someone was standing right by the door, just that, the person was currently invisible, most likely due to a concealment magical tool that the person was using.

And if both of their guesses weren't wrong...

The invisible person who was currently standing right by the door was most likely Veronica...

*Chapter 53: Feng Xue, Elder Zhi*

As to both Henry and Damien's guesses, that the invisible person who was currently standing right by the door was most likely Veronica...

Their guesses were indeed right.

A while ago, right after Veronica had left the main conference room and flew a certain distance away from the area that the main conference room was located at...

After making sure that she was out of the range of almost everyone's spiritual sense, and that no one's spiritual sense was fixed onto her, she took out a tier 2 peak-quality concealment magic tool from her spiritual ring, which was known as the invisibility veil, then flew back toward the main conference room after concealing herself with the invisibility veil.

As of right now, Veronica was currently looking coldly at everyone within the conference room while using a recording jade to record them.

...

"Cough, cough."

After letting out an awkward cough, Damien began speaking after he had taken a quick glance at the empty space right by the door, "No matter what, Veronica is not only a golden core realm cultivator, but she is also an important family member of our Lisandris Family."

"Thus, if Veronica wants one of the slots for her daughter, then so be it."

"In any case, even if Veronica isn't really fond of the Lisandris Family and doesn't feel much attachment toward the Lisandris Family, at the least, her daughter, Vanessa Lisandris, is fond of the Lisandris Family and has a strong sense of attachment toward the Lisandris Family."

"For the sake of her daughter, I'm sure that Veronica wouldn't choose to stay put and do nothing if the Lisandris Family is really in a dire state and is in dire need of her help."

Upon speaking up to here, evidently to not really want to continue staying in the conference room anymore, especially when he was aware that Veronica was most likely present in the conference room and was currently recording the entire meeting with a recording jade, Damien said hurriedly as he stood up from his seat.

"Is there anything else that any of you want to discuss about with me? If not, I will be taking my leave first since I have some other things that I have to attend to."

Right as Damien finished speaking, everyone could be seen taking a look at each other to see if anyone has anything important that they wanted to discuss about.

Upon seeing that no one had opened their mouth to speak, Damien then continued on speaking, "Since this is the case, I should take my leave first then. The rest of you can continue with the meeting if you all still have anything to discuss about amongst yourselves."

And right before Damien began to walk over to the door and leave the conference room, Damien looked over to Dave and said, "Dave, there's something I want to talk to you about in private. So, if you don't mind, can you come along with me to my house right now?"

Upon hearing his name being called out, Dave immediately looked over to Damien, and right after Damien finished speaking, Dave immediately responded, "Family head, of course I won't mind."

And right after Dave finished speaking to Damien, he then stood up and cupped his hands at the remaining people within the conference room and said apologetically, "Everyone, I apologize, but I will be taking my leave first too."

Right as Dave and Damien had left the conference room, the few people that had opened their mouths to talk badly about Veronica could be seen immediately opening their mouths to speak.

"I really don't understand why the family head is being so lenient and magnanimous toward that ungrateful woman. Is it because of that woman's profession as a weapon enchanter? Or because that woman's daughter is a direct disciple of Elder Zhi?"

"Sigh... I guess, on the bright side, just as the family head had said, Vanessa is indeed fond of our Lisandris Family and has a strong sense of attachment toward our Lisandris Family."

"Tsk! So what if Vanessa is fond of our Lisandris Family and has a strong sense of attachment toward our Lisandris Family?!"

If Veronica uses the main sect's outer-disciple slot on Vanessa, it means that Vanessa will be leaving our family and heading toward the main sect within a few years' time! And once Vanessa leaves for the main sect, who knows if she would even want to come back to Bright Moon City anymore!"

"What Ragen just said is right. And with the state that our Lisandris Family is in right now, we cannot afford to lose someone like Vanessa. So long as Vanessa continues staying in Bright Moon Sect, it would mean that our Lisandris Family will be able to gain a new golden core realm cultivator in the future."

"That's right. And don't forget about the various other benefits Vanessa would be able to provide to our Lisandris Family. After all, not only is Vanessa the daughter of Veronica's, but Vanessa is also the direct disciple of Elder Zhi, who is the great elder of the talisman crafting department!"

Through Vanessa, not only will we be able to slowly try and get Vanessa to slowly convince Veronica into helping our Lisandris Family earn spiritual stones with that weapon enchantment skills of her, but our Lisandris Family will also be able to slowly start to form a good relationship with Elder Zhi!

However... most importantly, since Vanessa is the direct disciple of Elder Zhi, it means that she is also the senior sister of Feng Xue, the girl who possesses the special body that is known as the phoenix rebirth body, a special body that specializes in fighting!

As for why Vanessa being the senior sister of Feng Xue is very important to us... I'm sure most of you understand why, right?

With the phoenix rebirth body that Feng Xue possesses, once she breaks through to the golden core realm... It won't take long for her to end up becoming the strongest golden core realm cultivator within the North Continent."

#### *Chapter 54: Phoenix bloodline*

"This girl, Feng Xue... If I'm not mistaken, it has only been 4 years since she had joined Bright Moon Sect as a disciple, and in just 4 years' time, she went from being a mere mortal, all the way to becoming a level 7 energy refining cultivator..."

While at the same time, managing to cultivate the proficiency of all of her martial skills and cultivation techniques to the level of expert proficiency!

If not for the fact that she focused so much time on perfecting those martial skills and cultivation techniques of hers, I wouldn't be shocked if she had managed to go from level 1 of energy refining realm, to breaking through to foundation establishment realm in just 2 years of cultivating!

A cultivator who is only level 7 of energy refining realm being able to nearly defeat a level 10 energy refining realm cultivator who had been in level 10 of refining realm for years and also possesses a water-type spiritual root...

Does this sound normal to anyone of you...?

If she's able to do this when she currently only possesses 1 special ability of her phoenix rebirth body due to the fact that she is currently only at energy refining realm...

When she reaches golden core realm and unlocks more special abilities of her phoenix rebirth body...

Who the hell within the North Continent will be able to do anything toward her?

Furthermore... since she possesses the phoenix rebirth body, it is only natural to assume that she also possesses the bloodline of one of the mystical creatures in ancient times, which is the phoenix!

I'm sure that all of you are aware that cultivators who possess ancient bloodlines, especially that of phoenix or dragon, are able to have it much easier when undergoing the tests that are given out within the forbidden land, Dragons' Grave, right?

This means that... So long as Feng Xue doesn't end up being killed, once she breaks through to golden core realm, not only will she soon become the strongest cultivator within the North Continent, but she will also have a much higher chance of being able to successfully pass the Dragons' Grave's tests!

Thus, it is of the utmost importance for our Lisandris Family to form a strong relationship with Feng Xue!

And right now, Vanessa is the key to our Lisandris Family being able to form a strong relationship with Feng Xue!

In my humble opinion... You know what we should do right now? We should convince Ancestor Coril to not give Veronica any of the slots, so that she won't be able to use any of the slots on Vanessa!"

While this person was talking without stop, Henry could be seen constantly rubbing onto his forehead with his right hand, seemingly as if he was having a headache while listening to this person speak.

In truth, if not for being afraid that, right after he had left the conference meeting, with no golden core realm cultivator within the conference room to hold Veronica back, Veronica would stop holding herself back and go batshit insane within the conference room, Henry would have long left the conference room along with both Dave and Damien.

Right as the person had finished speaking, Henry immediately let out a cough to grab everyone's attention and get everyone's attention to focus onto him, then said while with a helpless look on his face, "Cough, cough."

"Look, Brum, I understand what you are saying... But since Veronica has already made it clear that she wants one of the slots to herself, and none of us had voiced any objection toward it when she told us about it just a while ago... I think it's best that we just let Veronica have the slot and not do anything that would end up making her upset."

"I'm sure that Veronica..."

While Henry was still continuing on speaking, the man who was called Ragen, who was one of the few men that had been beaten up by Veronica in the past, suddenly cut Henry off and began speaking while with a displeasure look on his face, "Wait, Uncle Henry, before you continue on speaking. There's something that I just recalled about when my father mentioned about ancient bloodlines. Specifically, the bloodlines of dragons and phoenixes.

Are you aware that your second son, Dave, recruited a half-draconic, half-human son-in-law into our Lisandris Family?"

"Yes, I'm aware about it. What of it?"

"So... Uncle Henry, you are saying that... despite being aware that your second son is actually trying to taint our Lisandris Family's bloodline with a lowly half-draconic being... You didn't do anything to try and prevent that lowly half-draconic from marrying one of our family's girls? Even more so, one of our family's girls that possesses a spiritual root! Am I right, Uncle Henry?"

With the corner of his mouth's twitching, and the veins on his hands slightly bulging, evidently due to feeling angered by how disrespectful Ragen's tone was when speaking to him, Henry responded coldly, "It is true that Dave recruited someone who possesses the bloodline of half-draconic and half-human into our family. But..."

While Henry was speaking, Henry was once again cut off by Ragen.

"Alright, that is all that I need to hear from you, Uncle Henry."

"Everyone, the fact that Uncle Henry actually allowed such a thing to happen, letting a half-draconic into our family, allowing the half-draconic to taint our Lisandris Family's bloodline... I'm sure it could be seen from this as to how bad Uncle Henry's decision-making is, right?"

"Thus, let us stay focused on the topic of preventing Veronica from obtaining one of the slots from Ancestor Coril."

"In my opinion, we should first..."

Upon being cut off and disrespected by Ragen once again, Henry decided to just let Ragen and the others continue on courting death and leave them to their own.

Meanwhile, on the other hand, Sebastian, who was oblivious to the fact that quite a number of Lisandris Family's family members were dissatisfied with him marrying into the Lisandris Family was currently relaxing in a hot bathtub that Julia prepared for him while looking at his system screen with a shocked look on his face.

*Chapter 55: Julia, level 4 energy refining realm*

Within the bathroom of Sebastian's house, Sebastian could currently be seen relaxing while sitting in a bathtub and enjoying the hot water that Julia had prepared for him.

Looking at the bathroom that Sebastian was currently in right now, the bathroom could be seen to look pretty much the same as the modern bathrooms in Sebastian's past life.

Bidet, bathtub, shower, faucet, and a glass that separated the shower from the other half of the bathroom, all of those things were present within the bathroom.

Previously, Sebastian and Julia had begun going for another round of sex with each other due to the energy that had been replenished within their bodies after they had broken through a couple levels of their cultivation realms.

And a while ago, after Sebastian and Julia had finished having their 4th round of sex with each other, then did they finally managed to use up most of their freshly replenished energy.

Interestingly enough, after having their 4th round of sex with each other...

Right as Sebastian had cummed into Julia's pussy once again, Julia actually managed to break through to level 4 of energy refining realm!

Honestly, if not for the fact that Sebastian had a slightly exhausted look on his face and evidently seemed to have been about to be sucked completely dry by Julia, Julia would have most likely been unable to hold herself back from continuing having sex with Sebastian.

After all, just by having sex with Sebastian, which in Julia's opinion, was something extremely enjoyable for her to do...

She would be able to break through levels of her cultivation realm without having the need to cultivate...

And even more, when breaking through the levels of her cultivation realm by having sex with Sebastian, there wasn't even any need for her to have to spend time breaking through the bottlenecks that almost every cultivator had to go through when they were breaking through to the next level of their cultivation realm!

If it was possible, Julia wished that she could just spend the whole day having sex with Sebastian, so that she could keep on breaking through the upcoming levels of her current cultivation realm, all the way until she manages to break through to the foundation establishment realm!

Of course, Julia herself was aware that such thoughts were impractical.

Right now, Julia's affection toward Sebastian was at an all-time high, and when Julia looked at Sebastian, all Julia could think about was to pamper and treat Sebastian to the best that she could as a wife.

Thus, right after the both of them were done with their 4th round of sex, Julia immediately began serving upon Sebastian while constantly looking at Sebastian with a face full of affection and gentleness.

From cleaning up, wearing clothes, undressing, to things like washing up and preparing the bathtub...

Julia did it all without giving any chance for Sebastian to do any work.

At first, when Julia took the initiative to clean his body by wiping away his sweat with a towel, Sebastian didn't think too much about it.

But when Julia began helping him wear his clothes, followed by her undressing his clothes for him when they arrived at the bathroom, then helping him wash every part of his body without allowing him to do anything else...

He realized that Julia may have felt the need to repay him for helping her level up multiple levels of her cultivation realm by pampering him to the best that she could, and thus, while Julia was helping him wash every cranny of his body, Sebastian told her that she didn't have to do so and she could just treat him normally.

And right upon Sebastian told her that, Sebastian moved his hands, intending to start washing his body by himself.

However, right as he was about to start washing himself up, Julia suddenly stopped him from doing so, then glared angrily at him and said while with her lips pouted, "Darling! I'm doing this willingly on my own wishes! You don't have to think too much about it! If you don't allow me to serve upon you, I am going to start getting angry, you got it?!"

"But..."

"No buts! What's wrong with allowing your wife to serve upon you?! Just stay still and let me wash you up!

From now on, things such as cooking food, washing up, dressing up, and so on, you can just leave it to me and your future wives!

As for you... All you have to do is to focus on making the best use of this sperm strengthening body that you had just awakened, by... by having as much sex with me and your other future wives!"

Thus, in the end, Sebastian decided to just give in and allowed Julia to serve upon him like he was a young master who belongs to an aristocracy family in the ancient times.

Though, if Sebastian was being honest, he rather enjoyed being pampered and served upon like this, not having to do anything, while everything was done for him by someone else.

After Julia was done washing up Sebastian's body, she held onto Sebastian's hand and brought him over to the bathtub that was almost filled with hot water, then turned off the bathtub's faucet and told Sebastian to get into the bathtub.

Right as Sebastian entered the bathtub, Julia lowered her upper body and said gently, "Darling, I am going to head out and look for Miuna first. I will be back soon, okay? Mwah!"

...

"Ah... This must be what the peak of life feels like..." While relaxing within the bathtub that was filled with hot water, Sebastian couldn't help but let out a groan and muttered in a low voice.

"Though, It would have been great if Julia didn't left the bathroom in such a rush. If possible, I honestly wanted to experience how it would feel like to share a bathtub with Julia, and how it would feel like to hug onto Julia while I'm relaxing within the bathtub."

*Chapter 56: Four Divinity Beasts Reconstruction Technique*

"I guess, I can take this time to take a look at the system's new text logs."

"System, move the system screen to the front and enlarge the system screen."

Right as the system screen was enlarged before him, Sebastian began looking at the new text logs that had appeared within the system's text log tab.

[Julia Lisandris's affection has reached 40]

[Julia Lisandris's affection has reached 50]

[New achievement has been made!]

[Achievement: Successfully undergo an ancestral blessing]

[Achievement reward obtained!]

[Achievement reward: Four Divinity Beasts Reconstruction Technique]

[Julia Lisandris's affection has reached 60]

[New function has been unlocked!]

[The stats of the host's women can now be viewed within the stats tab!]

[Note: Only women that had been impregnated by the host are viewed as the host's women by the system]

[Julia Lisandris's affection has reached 70]

[Julia Lisandris's affection has reached 80]

While reading through the new text logs, Sebastian couldn't help but mutter to himself, "Ancestral blessing...? What's that...?"

"Four Divinity Beasts Reconstruction Technique...? Interesting, I wonder what this technique is going to be able to do..."

"New function, huh...?"

"Though, I'm rather surprised that Julia's affection toward me actually increased so much in such a short span of time, all the way to the point that her affection toward me actually reached 80."

"Then again, since cultivation was something that most cultivators within this world viewed extremely highly, it only makes sense that Julia's affection toward me would reach all the way to 80 after I had helped her leveled her cultivation level all the way from level 1 to level 4."

Upon thinking up to here, Sebastian switched to the achievement tab.

[Achievements that have been unlocked]

[Achievement: Impregnate your first woman – Reward: First child is guaranteed to possess a spiritual root]

[Achievement: Successfully undergo an ancestral blessing – Reward: Four Divinity Beasts Reconstruction Technique (To be claimed)]

Upon seeing the words "To be claimed", without any hesitation, Sebastian muttered to himself in his own mind, "System, claim the Four Divinity Beasts Reconstruction Technique."

Immediately after, various information regarding the Four Divinity Beasts Reconstruction Technique began flooding into Sebastian's mind.

Four Divinity Beasts Reconstruction Technique, a cultivation technique that was created by a human cultivator from the True Ancient Era.

The main goal of the Four Divinity Beasts Reconstruction Technique was to reconstruct one's body and form a special cultivation body that possesses a high percentage bloodline of all four of the four divinity beasts...

By absorbing the essences of beasts that possessed the bloodlines of at least one of the four divinity beasts, which were the Azure Dragon, Vermilion Bird, White Tiger, and Black Tortoise.

While reconstructing one's body, with the essence of the Azure Dragon, a new spine was to be formed.

With the essence of the Vermilion Bird, the mind was to be strengthened.

With the essence of the White Tiger, new flesh was to be formed.

With the essence of the Black Tortoise, new bones were to be formed.

When the mind has been strengthened, the new flesh, new spine, and new bones had been formed, a cultivation body that would overpower the four divinity beasts should be born anew.

Shortly after, various scenes began playing through Sebastian's mind.

In the first scene, Sebastian saw a Black Tortoise that was currently hiding in its shell, and surrounding the Black Tortoise was a bunch of human cultivators.

The moment Sebastian laid eyes on those cultivators, he somehow obtained the information that those human cultivators were all cultivators within the immortal realm.

Looking at the immortal realm human cultivators, they could be seen constantly bombarding the Black Tortoise with elemental attacks, but not a scratch was made onto the Black Tortoise's shell.

And right when a cultivator decided to throw his sword into one of the open spaces of the Black Tortoise's shell, specifically the open space that led to the Black Tortoise's head, the moment the cultivator's sword was about to enter into the open space, a black color barrier could be seen appearing on the open space, and immediately after, the black sword could be seen shattering into pieces.

Shortly after, the next scene appeared before Sebastian's eyes.

Within the sky that was filled with black clouds and lightning, an Azure Dragon could be seen flying around the sky freely and taking in the lightning into its mouth.

And the moment the lightning entered the Azure Dragon's mouth, the lightning were immediately absorbed and refined by the Azure Dragon's long serpent-like body.

The third scene...

"White Tiger, go back to your forest! Our sect has nothing to do with whatever happened to your domain!"

Right before the White Tiger was an extremely huge gate that was about 50m tall, and atop the huge gate, there were a bunch of immortal realm cultivators floating within the sky and looking down at the White Tiger.

However, faced with what one of the immortal realm cultivators said, the White Tiger ignored the immortal realm cultivator and slammed its right paw onto the gate before it.

And immediately, despite the extremely durable materials that the gate was built with, and the various defensive formations that had been added to the gate, the gate was shattered into pieces as if it was made with mere glass.

Lastly, the fourth scene...

A Vermilion Bird could be seen flying over a forest that had been covered in flames.

Looking down at the forest from the sky, the ends of the forest couldn't be seen at all.

And as the Vermilion Bird continued flying forward, all that was ahead of the Vermilion Bird's view was still nothing but forest.

From this, it could be seen just how vast and wide the forest was.

And yet, as the Vermilion Bird let out a screech and began using its mind to move all of the flames toward itself, it merely took less than 30 seconds for all of the flames to fly toward the Vermilion Bird's body and get completely absorbed by the Vermilion Bird's body.

"Urgh..."

*Chapter 57: Yin and yang cores' abilities*

"Urgh...!"

Right after the information stopped flooding into his mind, Sebastian couldn't help but let out a painful groan and held onto his forehead with his right hand due to his mind feeling like it was about to explode.

After all, it was not only information regarding the Four Divinity Beasts Reconstruction Technique that flooded into his mind, but also information regarding how to properly revolve the Four Divinity Beasts Reconstruction Technique that flooded into his mind.

After what seemed like 10 minutes had passed, then did the pain that was coming from his head began to subside.

And right as the pain has subsided completely, Sebastian finally opened his eyes, then muttered to himself in his own mind, "System, open the stats tab on the system screen."

[Note: Focus mind onto texts to open up more information regarding the specific texts]

[Host: Sebastian Force]

[Race: Half-draconic, half-human]

[Age: 22/125]

[Aptitude: Middle-quality spiritual root (Exp 2400/50000)]

[Special body: Sperm strengthening body]

[Talent: Yin and yang cores]

[Yin and yang cores' ability: Yin-yang breath]

[Yin core's ability: Darkness envelopment]

[Yang core's ability: Phoenix's blessing]

[Cultivation: level 5 energy refining realm (Exp 1200/1500)]

[Cultivation techniques (2)]

[Sun energy refining technique, proficiency – beginner (Exp 40/100)]

[Four Divinity Beasts Reconstruction Technique, proficiency – perfect (10000/10000)]

[Professions: Talisman crafter, alchemist]

[Talisman crafter: Apprentice (Exp 450.25/500)]

[Alchemist: Beginner (Exp 30/100)]

Right after looking through his stats, Sebastian looked back onto his talent, which was the yin and yang cores, then focused his mind onto the texts.

In the next moment, more information regarding the yin and yang cores appeared below the texts of his yin and yang cores.

[Talent: Yin and yang cores (Current lines: 4)]

[Information of yin and yang cores: A unique innate talent that The Banished was born with, which has now been successfully awakened by the host by undergoing through an ancestral blessing. When the time to break through from foundation establishment realm to the golden core realm arises, the yin and yang cores will melt and give rise to a unique golden core.]

"Ancestral blessing...? These two words again..."

"From the looks of things, it seems that I didn't manage to awaken the yin and yang cores because of my sperm strengthening body, but instead because of this so called 'ancestral blessing'."

"Though, I must say, the fact that the yin and yang cores are able to gain lines to them... Aren't they basically just like the golden cores that golden core realm cultivators possess?!"

"If that's the case... The fact that I possess the yin and yang cores is basically as if I possess two golden cores, despite the fact that I'm only in the energy refining realm!"

"Now... I truly wonder just what those abilities that I have gained from the yin and yang cores are able to do!"

Upon thinking up to here, Sebastian quickly began focusing his mind on the abilities' texts.

And as expected, in the next moment, more information regarding the abilities of the yin and yang cores appeared below the various texts.

[Yin and yang cores' ability: Yin-yang breath]

[Yin-yang breath: A breath attack that contains the elements of ice and fire.

With the element of ice, before the yin-yang breath has even landed onto the target, the target that the yin-yang breath is aimed at will not only have their body become frozen, but their soul and mind will also become frozen, causing them to be unable to dodge or do anything to defend themselves against the yin-yang breath.

With the element of fire, when the yin-yang breath lands on the target, both the target's body and soul will get disintegrate.]

[Yin core's ability: Darkness envelopment]

[Darkness envelopment: Enables the user to envelop the target's vision and spiritual sense with complete darkness.]

[Yang core's ability: Phoenix's blessing]

[Phoenix's blessing: Allows the user's partner to gain various cultivation benefits when mating with the user. The various cultivation benefits that the user's partner is able to gain depends on the user's cultivation realm.]

While reading through the information of the abilities, Sebastian's eyes could be seen to be opened wide, evidently due to the feeling of shock.

And right as Sebastian had finished reading through the entirety of his abilities, he immediately couldn't help but mumble to himself in a low voice while staring blankly at the system screen before him.

"Yin-yang breath, darkness envelopment, and phoenix's blessing..."

"This yin-yang breath... Isn't this the attack that The Banished used onto that eagle who possessed the cultivation realm of nascent soul realm?!"

"If I remember correctly, although the yin-yang breath didn't manage to destroy the eagle's nascent soul when the yin-yang breath landed onto the eagle's body... It is still a fact that, by using the yin-yang breath, The Banished managed to defeat a nascent soul realm cultivator with just the cultivation strength of foundation establishment realm!"

"And now! The fact that I possess this same attack ability... doesn't it mean that... just like The Banished, I will be able to defeat cultivators who are at least two realms higher than my cultivation realm?!"

Upon mumbling up to here... a wide grin began appearing on Sebastian's face.

And shortly after the wide grin appeared on Sebastian's face, Sebastian couldn't help but let out a hearty and unrestrained laugh.

"Haha...! Hahaha!"

After Sebastian was done venting his excitement by laughing unrestrainedly for a full minute, Sebastian finally managed to calm himself down.

Upon feeling that he had calmed down, Sebastian continued on mumbling to himself.

"Calm down, calm down... Don't get complacent..."

"Even if this yin-yang breath will most likely be able to allow me to defeat a golden core realm cultivator, this yin-yang breath should only be used when I'm at my last resort..."

"After all, if I remember correctly, when The Banished used the yin-yang breath on the nascent soul realm eagle, he ended up using 2 lines of each of his yin and yang cores."

"And as of right now, I only possess 4 lines on each of my yin and yang cores..."

*Chapter 58: Julia's stats*

"If I used the yin-yang breath without using a single line of each of my yin and yang cores..."

"I wonder if it would even be able to deal any serious damage onto a golden core realm cultivator..."

"Thus, in the end, the yin-yang breath is basically just a safety net for me to rely on if I somehow ended up offending a golden core realm cultivator."

"The most important thing that I should focus on right now is to marry as many women as I possibly can and get as many women pregnant as I possibly can!"

"The system is what that will make me become stronger, and once I managed to break through to the golden core realm... With the yin-yang breath, I would be basically formidable within the North Continent!"

"As for the darkness envelopment and phoenix's blessing..."

"Darkness envelopment seems to be pretty good, especially for catching an enemy off guard. Though, I'm going to have to test it out first to determine just how strong this ability actually is."

"And for the phoenix's blessing... It seems that the reason Julia managed to gain those levels and break through those levels of her cultivation realm without any bottlenecks was because of this phoenix's blessing, and not because of my sperm strengthening body..."

"Though, I must say, the phoenix's blessing is basically a perfect pairing to my system!"

"Previously, with the help of the system, although it is true that I will be able to get stronger by impregnating women, it was a fact that the women who I impregnated won't end up getting stronger."

"But now, with the phoenix's blessing, not only will I be able to get stronger by impregnating women, but my women will also be able to get stronger just by having sex with me!"

"More importantly... with this phoenix's blessing that I possesses... I will be able to entice women who possess high cultivation realms to marry me and become pregnant with my children!"

"And by getting women who possess high cultivation realms pregnant with my children, the rewards that I will be able to obtain from the system would be much better too!"

"Now that I think about everything through thoroughly... From the looks of things, this phoenix's blessing ability that I have gained from the yin and yang cores is actually the best ability amongst all of the abilities that I have gained!"

Upon mumbling to himself up to here, Sebastian decided to finally take a look at Julia's stats.

As Sebastian used his mind to swipe onto the system page, Julia's stats immediately appeared onto the system screen.

[Name: Julia Lisandris]

[Race: Human]

[Age: 18/120]

[Aptitude: Lower-quality spiritual root (Exp 700/10000)]

[Cultivation: level 4 energy refining realm (Exp 50/1000)]

[Cultivation technique: Moon energy refining technique, proficiency – beginner (Exp 20/100)]

[Profession: Talisman crafter]

[Talisman crafter: Apprentice (Exp 20/500)]

[Affection toward the host: 82/100]

[Currently family territory's construction points that the host can gain from Julia daily: 3 points per day]

[Current talisman crafting's experience points that the host can gain from Julia daily: 3 experience points per day]

[Notes for host!]

[Note 1: Only when a woman's affection toward the host reaches 60, then would the host be able to start gaining daily family territory's construction points and experience points from the woman]

[Note 2: The higher a woman's affection toward the host is, the more construction points and experience points the host would be able to gain daily from the woman]

[Note 3: Family territory's construction points can be used by the host to upgrade various buildings that are located within the host's family territory]

[Note 4: The option to start using the family territory's construction points will be available to the host once the host has managed to designate a plot of land as the host's family territory and planted the base seedling into the family territory (Hint: In order to get a base seedling, complete main mission 1)]

[Note 5: Since the host has already managed to unlock the feature of being able to view a woman's stats by getting a woman's affection to reach 60... From now on, even if other women's affection toward the host is below 60, their stats will still be viewable for the host to see right after the host has impregnated them]

While reading through Julia's stats, and the various notes that were located below Julia's stats, Sebastian could be seen tapping onto the side of the bathtub with his right index finger as he mumbled to himself.

"So, Julia's affection toward me is currently at 82..."

"And the fact that the maximum affection is 100, Julia's current affection toward me can actually be considered to be extremely high, especially when factoring in the point that it hasn't even been a full day since I have known Julia."

"I guess, this is the benefit that comes with possessing the ability to reproduce children who have a 100% chance of possessing spiritual roots, and the ability to rise my partners' cultivation levels due to the phoenix's blessing ability that I now possess."

"Family territory's construction points...?"

"Talisman crafting's experience points...?"

"3 of each per day...?"

"Wait... 3 experience points of talisman crafting per day... Isn't that way more than the experience points I am able to gain by doing 3 sessions of talisman crafting per day?!"

"Let me think... how many experience points was I able to gain from each successful craft of a fireball talisman again...?"

"Ah, that's right! It was 0.05 experience points per successful craft!"

"Let's say that I am able to successfully craft 5 fireball talismans during every talisman crafting session, that's 0.25 exp per session, and with 3 sessions per day, which is the maximum number of sessions I can do per day..."

"That's 0.75 exp per day that I will be able to gain from working hard to craft talismans..."

"..."

Upon thinking up to here, Sebastian could be seen to have a stunned look on his face as he seemed to understand something.

"I... I understand now... I completely understand now!!!"

#### *Chapter 59: Thoughts for the future (1)*

With a look on his face as if he were a primitive being who had just discovered fire for the first time, Sebastian clapped his hands together, causing a loud clapping sound to ring out, then said loudly with excitement, "I completely understand everything now!"

"With the system, it is evident that there isn't a need for me to focus too much on gaining experience points for my talisman crafting by working hard to craft talismans every day..."

"Therefore, my plans of doing 3 sessions of talisman crafting every day, so that I can gain as much talisman crafting's experience points as possible and accumulate enough experience points to break through to becoming an official talisman crafter can already be wipe off from my future plans."

"The fact that the system is not only rewarding me with various rewards by completing missions, impregnating women, obtaining achievements, but is now also rewarding me with experience points and this so-called 'family territory's construction points'..."

"It is evident that the system is trying to get me to focus all of my attention on building my own cultivation family and work toward creating the strongest cultivation family in this cultivation world!"

Upon talking to himself loudly with excitement up to here, Sebastian continued on reading the texts before him, which were the notes that were situated below Julia's stats.

And while reading through the texts, Sebastian began mumbling to himself again.

"Ah... So, I'm only able to start gaining daily family territory's construction points and experience points from a woman only when a woman's affection toward me has reached 60..."

"And the higher the woman's affection toward me is, the more daily family territory's construction points and experience points I will be able to gain from the woman!"

"As expected, the system is indeed trying to get me to focus on building my own cultivation family. Well, it makes sense as to why the system is trying to get me to raise my women's affection toward me to 60 and above..."

"After all, harmony within a family is one of the main factors that will help contribute to a family's healthy growth and prosperity."

"I see... so, the family territory's construction points are to be used for upgrading my family territory's buildings, and I have to designate a plot of land as my family territory and plant a so-called 'base seedling' into my family territory before I can start using the construction points..."

"In order to get a base seedling, I have to complete main mission 1...?"

"Hmm, I will take a look at the mission tab again after I'm done reading through all of the remaining notes."

Upon mumbling up to here, Sebastian began reading through the last note, which was note 5, and upon seeing that there wasn't anymore notes after he was done reading through note 5, Sebastian mumbled to himself in his mind, "System, open the mission tab on the system screen."

Immediately after, the system screen changed from the stats tab to the mission tab.

[Main mission 1: Create your own cultivation family (No deadline)]

[Main mission 2: Reach foundation establishment realm (No deadline)]

[Side mission 1: Reproduce a child who possesses a spiritual root (No deadline)]

Because Sebastian had already completed side mission 2, which was to impregnate a woman who possesses a spiritual root within 7 days, side mission 2 had been removed from the mission tab...

And currently there were only 3 missions on the mission tab, which were main mission 1, main mission 2, and side mission 1, and all of these missions didn't have any deadline to them.

After taking a look through the 3 missions that were on the mission tab, Sebastian began mumbling to himself, "So... I have to create my own cultivation family in order to obtain the so-called 'base-seeding.'"

"I wonder, what does the system count as me successfully creating my own cultivation family? Does it count so long as I detached myself from the Lisandris Family as a son-in-law, then make an announcement to everyone that I am starting my own cultivation family...?"

"Nah... it wouldn't be that easy... right...? Before I announce to everyone that I am starting my own cultivation family, there is most likely some prerequisites that I have to fulfill..."

"Like having a certain number of people who are cultivators within my family, certain number of children that I have within my family, and my cultivation realm has to be in the foundation establishment realm or something..."

"Though... Contrary to what I thought previously, which is that it would probably take me quite a while before I will be able to reach foundation establishment realm..."

"The fact that I am currently already level 5 of energy refining realm, and I'm only 300 experience point away from reaching 1500 experience points and breaking through to level 6 of refining realm..."

"It is evident that it most likely won't take too long for me to reach foundation establishment realm!"

"This means that... in about 10 months' time, I will be able to complete side mission 1..."

"And in about a few years' time, I should be able to complete main mission 2..."

"This means that, I can already start looking forward to completing these 2 missions and obtaining the special rewards from these 2 missions!"

"From the special reward that I obtained from completing side mission 2, which is the special body, sperm strengthening body, it can be seen just how important it is for me to make sure that I complete these missions as soon as possible."

"And if a side mission has a dateline to it, I have to do my utmost best to complete the side mission before the dateline arrives."

"After all, special rewards are only obtainable from completing missions!"

"Thinking back on it... if I had failed to complete side mission 2 and didn't obtain the sperm strengthening body... who knows how long it would have taken me to rise a woman's affection toward me to reach over 60..."

*Chapter 60: Thoughts for the future (2)*

Sebastian himself was aware that the main reason he was able to increase Julia's affection toward him so quickly, all the way to a total of 82 affection points out of 100 affection points, was because of his sperm strengthening body.

Sure, he was able to get Julia's affection toward him to reach all the way to the number between 30 to 40 just by being affectionate and caring to Julia, and he was sure that he could slowly get Julia's affection toward him to reach 60 as the days go on.

But who even knows how long that would take? And as for being able to get Julia's affection toward him to reach 82...? Whether if he would be able to do that with just affection and care alone... even Sebastian was unsure if he would be able to do it or not.

And personally, Sebastian felt that he most likely won't be able to do it.

After all, even in his previous world, just affection and care alone weren't enough to maintain and allow a relationship to flourish.

More often than not, materialistic things such as money, house, and gifts... These were the main factors that contributed to a flourishing relationship. Only when these materialistic things were present in a relationship, then would affection and care help to maintain and further flourish the relationship.

If this was the case for Sebastian's previous world, in this Cultivation World, where the term "the strong eats the weak" was the epitome of how the Cultivation World works, it was evident that just care and affection won't be enough to allow Sebastian to get his women affection toward him to reach over 70, and just reaching 60 would already be counted as being very hard to reach.

Thus, it could be seen just how important the sperm strengthening body that he had obtained from completing side mission 2 was.

After all, without this special body, the sperm strengthening body, he wouldn't have been able to get Julia's affection toward him to increase greatly due to making Julia aware that he had awakened the sperm strengthening body and was able to guarantee that all of their children will be born with spiritual roots.

Additionally, without his sperm strengthening body, he felt that he wouldn't have been able to experience the so-called "ancestral blessing", and ended up obtaining the ability, phoenix's blessing, which was the sole reason that caused Julia's cultivation level to

rise from level 1 to level 4, which in thus caused Julia's affection toward him to increase greatly once again, all the way to the point that Julia's affection toward him was currently at 82/100.

In actuality, Sebastian was actually correct with his guess, in which that, he wouldn't have been able to experience the ancestral blessing without his sperm strengthening body.

However, the sperm strengthening body was only one of the factors that contributed to him being able to experience the ancestral blessing.

The 4 factors that contributed to him being able to experience an ancestral blessing were the sperm strengthening body, his extremely thin bloodline of being a descendant of The Banished, being in a continent that is covered within the Dragons' Grave's domain, and most importantly, luck!

That's right! Luck was actually the most important factor that contributed to Sebastian experiencing an ancestral blessing.

Within the Cultivation World, there were 3 things that all of the cultivators viewed as being the 3 most important factors toward one being able to rise to the peak of the cultivation world, and those 3 things were, cultivation resources, aptitude, and luck!

Cultivation resources and aptitude were pretty straightforward to everyone.

But, when it came to luck... It was considered as an incredibly profound topic to everyone.

After all, for luck to be able to be formed as one of the dao path toward immortality...

How could luck not be considered as an incredibly profound topic?!

...

"Also, if I didn't possess the sperm strengthening body because I didn't complete side mission 2 and wasn't able to get Julia's affection toward me to reach 82... I'm sure that Julia wouldn't be so enthusiastic and passionate about getting more women to marry me, and she also wouldn't have been so eager and hurried about going out to look for Miuna, so that she could get Miuna to marry me as quickly as possible."

Upon mumbling to himself up to here, Sebastian closed his eyes, then began tapping his right index finger onto the edge of the bathtub once again.

Shortly after, upon feeling that his thoughts were clear, Sebastian began mumbling to himself while with his eyes still closed, and his right index finger still tapping onto the edge of the bathtub.

"Now that I know what I should really do in order to make full use of my system..."

"First, right after I marry Miuna, which I should be able to do so tomorrow... I should try my best to raise Miuna's affection toward me and get her affection toward me to reach over 60 affection points as soon as possible!"

"Secondly, when looking for more women to marry, if possible, I should marry women who I feel that I will be able to easily increase their affection toward me."

"After all, aside from just the experience points, I should start stocking up as much construction points as I possibly can."

"I have a strong feeling that the buildings that I will be able to upgrade are going to be very beneficial to not only me, but my entire cultivation family too. And I wouldn't want to find myself in a situation where I don't have enough construction points to be able to upgrade the buildings that I would urgently want to upgrade."

"Hmm... for now, those 2 are the main things that I should keep in mind..."

"Now, what other things are there that I have to do..."

"..."

...

While Sebastian was mapping out things to do in his mind, on the other hand, Julia and Miuna were currently heading over to Dave's house.

Looking at the excited look that Miuna currently had on her face... It was evident that Julia had already told her everything about Sebastian's capabilities.
