

## Path to Immortality Begins With Marriage #Chapter 61: Julia's view of Sebastian - Read Path to Immortality Begins With Marriage Chapter 61: Julia's view of Sebastian

### *Chapter 61: Julia's view of Sebastian*

While walking over to Dave's house, which should most likely take them about 10 minutes to reach by foot, Julia could be seen talking non-stop to Miuna, telling Miuna all the good things about Sebastian, and also telling Miuna about all the benefits that would come with marrying Sebastian.

Evidently, Julia was trying her best to make Miuna's impression of Sebastian to become the best that it could be, and also convince Miuna even furthermore, that marrying Sebastian would be the best choice she could ever make.

In actuality, there wasn't any need for Julia to keep trying so hard to convince Miuna even furthermore than she already had.

In truth, a while ago, when Julia went to Miuna's house, then hurriedly showed Miuna her new cultivation level, which was that of level 4 energy refining realm, followed by telling Miuna that she was currently already pregnant with a child that will definitely be born with a spiritual root because of the special body, sperm strengthening body, that Sebastian had just awakened a while ago, Miuna had already decided that she was definitely going to marry Sebastian too.

And to be honest, before Julia had even told Miuna anything, Miuna herself was already prepared to marry Sebastian if Sebastian had been able to break through to becoming an official talisman craftsman within two or three years' time.

Thus, upon hearing that she would be able to gain cultivation level and have a 100% chance of getting pregnant with children who possess spiritual roots by marrying Sebastian and having sex with Sebastian, Miuna immediately decided that she was going to marry Sebastian no matter what.

Of course, Julia herself wasn't aware that Miuna had initially already been mentally prepared to marry Sebastian, she merely knew that her Uncle Dave was intending to marry Miuna to Sebastian once Sebastian had managed to break through to becoming an official talisman crafter and didn't know if Miuna herself was happy with Uncle Dave's decision or not.

Which was why Julia was trying so hard to make Miuna's impression toward Sebastian become the best that it could be and convince Miuna furthermore on how great it would be if she were to marry Sebastian, all so in the case that Miuna possessed bad

impression toward Sebastian due to their Uncle Dave intending to marry both of them to Sebastian.

"Miuna, let me tell you, Sebastian is a really nice person! He isn't like most of the other male cultivators who joined our family solely for the sake of cultivation resources and don't really care about their cultivation partners at all!"

"You know, earlier on today, right after I had woken up from bed..."

"After I was done showering and setting up the talisman crafting materials that he would need to craft fireball talismans..."

"Right when I was about to start preparing breakfast for him, he actually stopped me from doing so and urged me to head back to sleep!"

"And you know what's the reason that caused him to want me to head back to sleep? It's because he was afraid that my body would still be exhausted due to the fact that it hasn't been long since I had experienced my first sexual experience with him, and thus, he wanted me to head back to bed to rest and recuperate my body!"

"Isn't he so adorable and sweet?!"

"Also, also! He even cooked breakfast for me! And guess what he cooked for me? Ginseng chicken soup!"

"Furthermore, just for the sake of nourishing..."

While Julia was speaking excitedly, Julia's footsteps suddenly came to a pause, and looking at her face, she could be seen having a stunned look on her face.

Meanwhile, when Miuna sensed that Julia had stopped talking, Miuna stopped her footsteps too, then moved her head to the side and looked over to Julia.

Immediately, Miuna saw that Julia was currently a few steps behind her, and that Julia currently had a shocked look on her face.

Thus, a confused look appeared on Miuna's face as she asked, "Hmm...? Julia? What's wrong?"

Shortly after, seemingly to have finally come back to her senses, Julia clapped her hands together, then said while with a startled look on her face, "Ah!" I completely forgot about the ginseng chicken soup that Sebastian cooked for me! It most likely has already gone completely cold by now!"

Upon hearing what Julia said, the corner of Miuna's mouth couldn't help twitch as she looked at Julia while with a speechless look on her face.

After a short moment of staring silently at Julia, Miuna let out a sigh, then said speechlessly, "Sigh. I guess it is true that people become dumb when they are in love. What is there for you to be so shocked about. It's just ginseng chicken soup, isn't it? In any case, you can just heat it up when you returned home, right?"

Upon hearing what Miuna said, Julia rolled her eyes at Miuna as she clicked her tongue, then said proudly, "Tsk! Do you even know what kind of ginseng that Sebastian used to cook the ginseng chicken soup? A 100-year-old ginseng! Humph, humph, what do you think? Sebastian is really a good husband, isn't he? Just for the sake of nourishing my body, he spent 1 lower-quality energy stone on buying a 100-year-old ginseng!"

"Yeah, yeah, yeah. Even if that's the case, it's not like anything would happen to the ginseng chicken soup if you let it turn cold, right? You can just heat it up again later on when you want to eat it."

"Yeah... but there's currently a bowl that's sitting openly at the dinner table. I didn't cover it or anything as I didn't expect that I would spend such a long time with Sebastian. Sigh, I wonder how much of the spiritual energy that's within the bowl of ginseng chicken soup have been scattered into the open air... That's pretty much 1/5 of a spiritual stone wasted..."

"Alright, alright. It's just 1 lower-quality energy stone! Is there a need..."

#### *Chapter 62: Miuna's situation*

"Wait, no! It's even worse! It's not even 1 lower-quality energy stone, it's just less than 1/5 of a lower-quality energy stone that you have ended up wasting."

"So, is there even a need for you to be so shocked about wasting that single bowl of ginseng chicken soup?"

"Seriously, I don't even know if you are trying to show off to me or not!"

"Now that you are pregnant with a child that possesses a spiritual root, once the family is able to confirm that the baby within your stomach do indeed possess a spiritual root, you are going to be rewarded with 1 middle-quality energy stone! That's 100 worth of lower-quality energy stones!"

"Furthermore! If the quality of the spiritual root that your child possesses is higher than that of a lower-quality spiritual root, you will be rewarded with even more middle-quality spiritual stones!"

"And yet, here you are being so hang up about wasting 1/5 of a lower-energy spiritual stone."

"100 lower-quality energy stones... My god, how many sessions of talisman crafting do I have to go through to be able to earn that number of lower-quality energy stones!"

Upon speaking up to here, Miuna suddenly began scratching onto her head with her hands, causing her hair to become messed up, while at the same time, shouting out loudly to vent her frustration, "Ah!!! Why is it so hard to break through from an apprentice talisman crafter to becoming an official talisman crafter?!"

"3 years! It has been 3 years since I have been able to craft ice shard talismans with a success rate of 50%, and yet, after 3 years, I have only barely pushed my success rate to what seems like 55% to 60%..."

"The bare minimum to break through to becoming an official talisman crafter is to be able to consistently successfully craft 4 out of 6 talismans in every talisman crafting session... And yet... I'm still stuck at 3 after all these years."

"Even more, I have to be lucky in order to be able to consistently successfully craft at least 3 talismans in every talisman crafting session..."

"Sigh... maybe I'm really not cut out to becoming a talisman crafter..."

There was a reason as to why Miuna didn't mind marrying Sebastian if Sebastian managed to successfully break through to becoming an official talisman crafter.

After all, as a talisman crafter herself, and especially as a talisman crafter who had been stuck in the apprentice level of talisman crafting for more than 5 years and had barely made any huge progress toward being able to break through to becoming an official talisman crafter...

She was completely aware as to just how hard it was for an apprentice crafter to break through to becoming an official talisman crafter.

Furthermore, unlike Sebastian who didn't possess a huge amount of spare resources that he could use to focus all of his attention on bettering his talisman crafting skills, she possess a huge amount of resources that had been left to her from her deceased parents, which allowed her to focus all of her attention onto bettering her talisman crafting skills.

Of course, to prevent her from overspending too much of the resources, those cultivation resources were currently being safeguarded by her uncle, Uncle Dave.

Nevertheless, she still basically pretty much had an unlimited amount of talisman crafting ingredients that were available for her to use.

Furthermore, she also had access to a fixed weekly amount of cultivation pills and fruits that she could use to help to recover her soul's fatigue, which thus enable her to do at least 6 sessions of talisman crafting every day, instead of just 3 sessions every day.

And yet, despite the difference in resources that she possessed when compared to Sebastian, she was still far from breaking through to becoming an official talisman crafter, and yet, Sebastian was already close to breaking through to becoming an official talisman crafter.

Thus, when she found out that Sebastian was already close to breaking through to becoming an official talisman crafter, despite not having access to an unlimited amount of talisman crafting ingredients that he could use to improve his talisman crafting skills, she couldn't help but have a great amount of respect toward Sebastian and also a slight feeling of envy toward Sebastian's talent at talisman crafting.

...

Upon seeing that her big sister, Miuna, was feeling dejected once again, Julia wanted to try consoling her, but after opening her mouth multiple times... In the end nothing came out from her mouth as she didn't know what to say in order to console her big sister.

In truth, in the past 2 years, and especially this past year, Julia had constantly seen Miuna being dejected about her progression regarding her talisman crafting, and there were even a few occasions that she had saw Miuna crying out loudly while drinking alcohol, evidently to be venting her frustration about not being able to make any huge progression toward breaking through to becoming an official talisman crafter.

However, shortly after, seemingly to realize a way to console Miuna, while at the same time make Miuna look even more forward to marrying Sebastian, Julia said to Miuna, "Miuna, don't worry! I'm sure that it won't take too long for you to break through to becoming an official talisman crafter!"

"Look, once you marry Sebastian, not only will you be able to level up your cultivation level without having the need to put you attention away from crafting talismans, but you will also soon be able to have an official tier 1 talisman crafter available to you 24/7!"

"After all, I'm sure it won't take Sebastian too long to break through to becoming an official talisman crafter!"

"And when he finally breaks through to becoming an official talisman crafter, it means that you will have a tier 1 talisman crafter to guide you and help you better your talisman crafting skills!"

"Furthermore, since this tier 1 talisman crafter is your husband..."

*Chapter 63: Number of special bodies within North Continent*

"Furthermore, since this tier 1 talisman crafter is your husband, it means that you will have a tier 1 talisman crafter who will be patient with you when teaching you on ways to improve your talisman crafting!"

"Additionally, it also means that he won't mind imparting all of his knowledge regarding talisman crafting to you, and thus, unlike those few talisman crafters who Uncle Dave had hired to try and help you improve your talisman crafting skills, he won't hold back and will do his best to help you to improve your talisman crafting!"

As Julia finished speaking, Miuna could be seen moving her eyes to the side and taking a quick meaningful glance at Julia, then said with a helpless look on her face and a helpless tone in her voice, "Alright, Julia, you can stop it already. I get what you are trying to tell me."

"I don't really understand why you are trying so hard to make me get excited and filled with anticipation on marrying Sebastian, but I'm assuming it's most likely because you are afraid that I'm not really interested in marrying Sebastian as I would much prefer to focus my attention on breaking through to an official talisman crafter...?"

"If that's the case, you don't have to worry, I have already made up my mind back when we are at my house that I will marry Sebastian no matter what!"

"Julia, let me give you a heads up on some things right now, since you probably don't understand just how alluring Sebastian is going to be in other female cultivators' eyes from now on."

"Let's not talk about the fact that Sebastian is close to breaking through to becoming an official talisman crafter despite the limited cultivation resources and talisman crafting ingredients that he possess..."

"Just talking about the fact that he possesses a special body is already enough to make other female cultivators throw themselves at him, and make most sects and powers want to recruit him as a direct disciple!"

"Heck, it doesn't even matter that he possesses the so-called sperm strengthening body, so long as others know that he possesses a special body, even without knowing about what his special body actually is, others' first thought would be to either recruit him, or kill him if they aren't able to recruit him, so that he won't have any chance to grow as a cultivator and become a threat to them!"

"Julia, do you know how many cultivators there are in the entire North Continent who possess special bodies?"

Before even waiting for Julia to answer her, Miuna raised her right hand and made a number 4 sign with her right hand, then continued on speaking, but this time, while with a solemn look on her face and a solemn tone to her voice, "4! There's only just 4 cultivators who possess special bodies within the entire North Continent!"

"And all 4 of these cultivators who possess special bodies, they are treated just like an immeasurable treasure within the sects and powers that they belong to."

"It isn't even an exaggeration to say that they are practically the future sect masters and heads of the sects and powers that they belong to!"

"Within the upper north continent, where our sect, the Bright Moon Sect, is located at, there's one cultivator who possesses a special body. And I'm sure you know who this cultivator is."

"Feng Xue, the female cultivator who possesses the special body that is known as the phoenix rebirth body!"

Upon speaking up to here, Miuna took a glance at Julia's face, and upon seeing that Julia had a confused look on her face, seemingly to not know who Feng Xue is, the corner of Miuna's mouth couldn't help but twitch due to how speechless she was feeling right now.

Soon after, after letting out a sigh, Miuna then asked, "You have no idea who I'm talking about, do you?"

After letting out an awkward laugh, Julia said awkwardly in a low voice, "Heh, heh... Is she a well-known cultivator within the upper north continent...? Cause, I don't think I have heard of her..."

Upon hearing what Julia said, Miuna couldn't help but roll her eyes at her, then chided at Julia, "This is why I always told you that you shouldn't keep on cooping yourself alone at home! Julia, tell me, what do you even gain by spending most of your time cooking food, growing plants, and taking care of those pets of yours?! Do you even know how well-known the name 'Feng Xue' has become after the energy refining realm contest had come to an end? And yet, you actually have no idea about who Feng Xue is?! If father and mother were still alive, do you think..."

While Miuna was chiding at Julia, upon seeing that Julia was lowering her head and pouting her lips unhappily, Miuna suddenly felt her heartstrings being pulled, and in the end, she couldn't bring herself to continue on chiding at Julia.

After letting out a sigh, Miuna began explaining about who Feng Xue was to Julia.

"Sigh... In any case..."

"For your information, Feng Xue is a female cultivator who took 3rd place in the sect's energy refining realm martial tournament that was held just not too long ago!"

"With just the cultivation of level 7 energy refining realm, she managed to easily take down a bunch of level 10 energy refining realm cultivators, and even more, upon reaching the semi-final, she almost took down one of the two strongest level 10 energy refining realm cultivators within the sect!"

"And just so you know, that level 10 energy refining realm cultivator possesses an elemental spiritual root, a spiritual root that's a grade higher than peak-quality spiritual root!"

"For a level 7 energy refining realm cultivator to have almost defeat a level 10 energy refining realm cultivator who not only possesses an elemental spiritual, but is also close to breaking through to the foundation establishment realm..."

"It sounds like a fairytale, doesn't it...?"

"And yet..."

*Chapter 64: Miuna's thoughts*

"And yet, Feng Xue was able to do it mainly due to the special body, phoenix rebirth body, that she possesses!"

"Thus, looking at this feat that Feng Xue was able to achieve due to the phoenix rebirth body that she possesses..."

"Julia, I'm sure that you now have a relative understanding as to why Sebastian is going to soon become an alluring and juicy fruit that every female cultivator is going to want to take a bite from, right?"

"Sigh... If only Sebastian's sperm strengthening body has some sort of limitations to it, whereby he can only successfully impregnate a few number of women every year..."

"That way, we will be able to have Sebastian all to ourselves and not have to share him with so many other people!"

Right as Miuna spoke up to here, Julia finally opened her mouth to speak.

With a confused look on her face, Julia asked, "What's wrong with Sebastian's sperm strengthening body not having any limitations to it...? Since Sebastian is able to get stronger just by impregnating women and having sex with women, isn't it great that his sperm strengthening body does not have any limitations to it?"

"So long as Sebastian is able to stronger, to be honest, I don't mind how many other women I will have to share him with!"

"In any case, I know that Sebastian will still love me and treat me affectionately just as he had even if he ended up marrying with lots of other women!"

Meanwhile, upon hearing the words that came out from Julia's mouth, Miuna couldn't help but shake her head and let out a sigh due to how naïve Julia was.

"Look, Julia. Even if it's true that he will still love you and treat you affectionately because you are his first woman, and technically, his first true family member, as he is an orphan..."

"How can you be so sure that he wouldn't end up falling even more in love with the other women that he will marry to in the future?"

"After all, let's look at things with a clear-mind."

"Firstly, take a look at both of our cultivation aptitudes. Our cultivation aptitudes are merely lower-quality spiritual roots!"

"Secondly, our cultivation realms and levels? I'm currently at level 6 energy refining realm, and you are at level 4 energy refining realm. Furthermore, if it wasn't thanks to Sebastian, you would still be at level 1 energy refining realm, and who knows how long it would have taken you to even break through to level 2 energy refining realm without Sebastian's help."

"Thirdly, and lastly, the professions that we possess aren't able to contribute much help to Sebastian at all. After all, we are both apprentice talismans crafters that are far away from breaking through to becoming official talisman crafters, while Sebastian is already close to breaking through to becoming an official talisman crafter."

"Thus, once Sebastian ended up marrying women who possess stronger aptitudes and cultivation realms, and better professions than us, which I'm sure Sebastian will be able to do so easily due to his sperm strengthening body..."

"How long do you think it will take for those women to end up taking a higher position in Sebastian's heart and overtake our positions within Sebastian's heart?"

"Wait! Before you even open your mouth to speak for Sebastian, let me ask you, did you use those techniques that are shown within the book that I gave you to serve upon Sebastian?"

Upon hearing what Miuna said, a shy look immediately appeared on Julia's face, and after hesitating for a moment, Julia said shyly in a low voice, "I did..."

"What was Sebastian's reaction like when you served upon him with those techniques that you learned from the book? Was he happy? Ecstatic? Or did he not show any or much reaction to what you did for him?"

"Sebastian... Sebastian was really happy when I used a few of those techniques that I learned from the book to... to serve upon him..."

Upon seeing how shy Julia was when talking about sex related stuff, Miuna couldn't help but raise her brows, then said solemnly, "What are you being so shy about such things for? Do you know that, sex is one of the great daos toward immortality? Furthermore, sex is the manifestation of the harmonization of yin and yang. And yin and yang is another great dao toward immortality!"

"If you are so shy about such things, even with the help of Sebastian's sperm strengthening body to help you in leveling your cultivation levels and realms, how far do you even think you will be able to get to within this Cultivation World?"

"Though, it is good news for both of us that Sebastian is one of those cultivators who are into sexual related stuff, and not just focused about having sex just for the sake of increasing cultivation levels and impregnating women!"

"After all, since this is the case, it means that both of us will be able to make Sebastian fall deeply in love and become completely infatuated with us by pleasing up and serving upon him to the best that we could whenever we are having sex with him."

"And in the near future, if Sebastian ever seems to start losing interest in having sex with us due to the fact that he possess so many other women who are also trying their best to please him in bed, we have to remember that we have an advantage that others most likely don't have..."

"Which is that, the both of us are blood-related sisters!"

"If we were to invite Sebastian to have sex with the both of us... I'm sure that Sebastian's interest toward us will definitely be reignited due to the fact that he's having a threesome with two blood-related sisters who look quite similar to each other!"

Upon speaking up to here, the both of them could be seen to have arrived at the entrance of Dave's house.

And thus, Miuna looked over to Julia and said, "We will continue on this discussion later on when it's just the two of us. For now, let's go and inform Uncle Dave about Sebastian's situation. I'm sure he's going to be thrilled when he finds out about Sebastian's situation."

*Chapter 65: Lisandris Family's next family head*

Lisandris Family Manor, Dave Lisandris's house.

Within a room that had a huge cauldron situated at the middle of it, Dave could be seen using his right hand to toss various medicinal herbs into the huge cauldron from time to time and waving his left hand around in the direction of the huge cauldron, seemingly to be using his left hand to control something that was within the huge cauldron.

If a cultivator was here, they would immediately be able to discern that Dave was currently concocting pills, and the huge cauldron was basically an alchemy furnace.

Furthermore, judging from how relaxed Dave was as he used his right hand to throw the various medicinal herbs into the alchemy furnace, and how leisurely he was controlling the contents that were within the alchemy furnace with his left hand, it was evident that he was rather well versed in concocting the pills that he was currently concocting...

Otherwise, all of his attention would be focused on the pills that he was currently concocting, and he wouldn't be able to afford to be absent-minded while he was concocting the pills that he was currently concocting.

Looking at Dave's face, he could be seen to have a slight frown on his face as he muttered in a low voice to himself, "Lisandris Family's next family head..."

"Sigh... Honestly, I do not have any interest in becoming the next family head of Lisandris Family..."

"Why did big brother have to put so much pressure onto me... All I want to do is to just cultivate and concoct pills..."

"Sigh, then again, if big brother were to leave for the main sect in a few years' time, it is indeed true that I am going to be the next foundation establishment realm cultivator who will be able to break through to becoming a golden core cultivator in the coming years, and thus possess the qualifications to take on the role as the next family head of Lisandris Family..."

"Otherwise, the remaining 2 options would be to either get father to reassume the role of Lisandris Family's family head, or to hand down the role of family head to Veronica..."

"And evidently, both of those 2 options aren't realistic."

"In father's case, there's no way he is going to be willing to reassume the role of Lisandris Family's family head due to the fact that the incident that happened 20 years ago happened while he was still the Lisandris Family's family head, and he most likely still thinks that him being the family head of Lisandris Family must have brought bad luck to the Lisandris Family..."

"And as for handing down the role of family head to Veronica... If Veronica were to actually become Lisandris Family's family head, with the way that she holds grudges against people who have talked badly about her, it is not hard to imagine that the Lisandris Family would get torn apart completely by her within just a few years' time..."

"Sigh... If only there is..."

"Ding! Ding! Ding!"

Right as Dave mumbled up to here, his mumbling was suddenly cut off by the sound of a bell ringing.

Upon hearing the sound of a bell ringing, Dave immediately understood that someone must be at the entrance of his house, and thus, he used his spiritual sense and extended his spiritual sense all the way out from his house, and toward the entrance.

Upon seeing that Julia and Miuna were the ones that were currently at the entrance, Dave took out a jade that had a formation embedded into it.

After activating the formation that was on the jade, Dave then spoke into the jade.

"Come on in, you can find me at the pill concocting room."

Meanwhile, at the entrance, below the doorbell button that Miuna had just pressed onto, a jade that looked similar to the jade that Dave had taken out and spoke into could be seen to be situated right below the doorbell button.

And while Dave was speaking into the jade that was in his hand, his voice could be heard coming out from the jade that was situated below the doorbell button.

Shortly after Dave's voice had finished coming out from the jade, the gate that was in front of Miuna and Julia could be seen opening by itself.

Upon seeing that the gate before them had opened, Miuna looked over to Julia, then said, "Come on, let's head on in."

...

"Knock, knock, knock!"

"Come on in, the door isn't locked."

"Creak..."

Right as the door was opened, Miuna could be seen walking into the room, followed by Julia, and right as Julia entered into the room, she closed the door behind her.

"I must say, it is rare to see the both of you to take the initiative to come and look for me. After all, the both of you are always cooped up in your own home."

"So, what is the big occasion that brought the two of you to come looking for me?"

Right upon seeing Julia and Miuna entered in the room, Dave could be seen speaking with a wide smile on his face to the both of them.

Meanwhile, right as Julia and Miuna had entered into the room, they immediately saw that Dave was currently concocting pills, and thus, Miuna said in response, "Well, Uncle Dave, we have some things that are pertaining to Sebastian that the both of us want to talk to you about.

However, Uncle Dave, if you are busy with concocting pills right now, should Julia and I go and wait outside at the living room for you instead?"

"It's fine, it's fine, it's not like I'm concocting some sort of high tier pills, I'm currently just concocting some energy replenishment pills. The two of you being present here won't affect me in any way while I'm concocting this batch of energy replenishment pills."

Upon speaking up to here, Dave asked with a rather curious look on his face, "So, what is it about Sebastian that the two of you want to talk about with me?"

#### *Chapter 66: Pill poison*

Faced with Dave's question, Miuna took a glance at Julia, then said to Dave, "Uncle Dave, before I surprise you with what I'm about to tell you, how about you first take a look at Julia's current cultivation level?"

"Hmm?"

Upon hearing what Miuna said, Dave couldn't help but raise his brows and let out a groan, then listened to what Miuna told him to do and took a look at Julia's current cultivation level by using his spiritual sense.

"Hmm...?" However, unexpected to what Miuna had expected to happen, whereby Dave would have a pleasantly surprised look on his face upon finding out about Julia's current cultivation level, Dave could be seen having a huge frown appearing on his face right as he sensed that Julia's cultivation level was actually at level 4 of energy refining realm.

Shortly after, Dave looked over to Julia and said with a grave tone to his voice as he gestured with his right hand for Julia to walk over to him, "Julia, come over here."

Although both Julia and Miuna didn't understand why Dave suddenly become so solemn, despite the fact that it was evidently a good thing that Julia had managed to

level up her cultivation level all the way from level 1 of energy refining realm to level 4 of energy refining realm...

Upon seeing that Dave was beckoning Julia to walk over to him and stand in front of him, Miuna hurriedly pat onto Julia's back and said hurriedly, "What are you being in a daze for! Go on, Uncle Dave is calling out for you!"

"Ah...! Sor... sorry!" Upon coming back to her senses, Julia hurriedly walked over to the front of Dave.

"Stay still and don't move, understand?"

And right as Julia arrived in front of Dave, Dave immediately placed his right hand on top of Julia's head and began revolving his spiritual energy into Julia's body, so that he could thoroughly sense what was actually going on within Julia's body.

As time passed by, Dave's expression could be seen turning from a deep frown to a slightly confused look, and in the end, an extremely confused yet surprised look.

"There isn't any pill poison within your body at all...? Julia, how did you manage to level your cultivation level without using any cultivation pills?"

Shortly after removing his right hand away from Julia's head, Dave asked with an extremely curious and confused look on his face.

Initially, when Dave sensed that Julia's cultivation level was actually at level 4 of energy refining realm, he immediately thought that the reason that Julia had managed to break through multiple levels of her cultivation realm was due to using a huge number of cultivation pills and bottleneck breakthrough pills.

However, when he did a thorough check onto Julia's meridians and spiritual energy, he found out that there actually wasn't any pill poison within Julia's meridians and spiritual energy, which meant that Julia evidently didn't use any cultivation pills or bottleneck breakthrough pills to breakthrough multiple levels of her cultivation level.

...

In this Cultivation World, it didn't matter what kind of medicinal herb it was, there was a certain amount of poison in every medicinal herb.

It was an alchemist's job to remove as much poison as they possibly could from the medicinal herbs during their pill concoction sessions.

Steps from heating up the medicinal herbs, liquifying the medicinal herbs, to congregating the liquid forms into pills...

All those steps were crucial in removing the medicinal herbs' poison as much as one possibly could.

The poison that was contained within a pill was usually called "pill poison" by the cultivators of this world.

After taking in a pill that contained pill poison within it, to prevent their foundation from being damaged, a cultivator would later on have to spend time to dispel the pill poison out of their body.

After all, when pill poison was accumulated to a certain point within a cultivator's body, the pill poison would begin to severely damage the cultivator's foundation.

However, most of the time, even after a cultivator had dispelled all of the pill poison out from their body, the pill poison would still have already did a bit of damage to their foundation.

Thus, take a cultivator who possesses the worst aptitude possible for example...

If a cultivator who possesses a lower-quality spiritual root were to take a huge amount of cultivation pills and bottleneck breakthrough pills for the sake of breaking through their cultivation levels...

It was definite that the cultivator's aptitude would become severely damaged by the pill poison, and in the future, it was very unlikely that the cultivator would be able to have any sort of chance to break through to foundation establishment realm.

This was why Dave had such a grave look on his face upon finding out that Julia's cultivation level had level-ed from level 1 to level 4.

After all, he thought that Julia didn't listen to his advice to not use cultivation pills or bottleneck breakthrough pills, and had actually used a huge amount of cultivation pills and bottleneck breakthrough pills to go from level 1 of energy refining realm to level 4 of energy refining realm.

However, the fact that there wasn't any pill poison within Julia's body, and Julia's foundation didn't seem to be damaged... It was evident that Julia didn't use any cultivation pills.

...

Faced with Dave's question, a proud look immediately appeared on Julia's face as she said proudly, "Uncle Dave, it's all thanks to Sebastian that I was able to level up from level 1 to level 4 of energy refining realm!"

"Sebastian...? What could he have possibly done to..."

Before Dave was even able to finish his sentence, Julia who was evidently very excited to show off her husband to Dave immediately opened her mouth and said excitedly, "Uncle Dave! You know, Sebastian actually awakened a special body that is known as the sperm strengthening body!"

Shortly after Julia had finished speaking, a stupefied look could be seen appearing on Dave's face, and after a few seconds of being stunned, Dave's eyes could be seen opening extremely wide, followed by him asking loudly while with his voice trembling, "What... what did you just say?!"

*Chapter 67: Top resource-type special body*

Upon seeing the extremely surprised look that her Uncle Dave had on his face upon hearing that her husband had actually awakened the special body, sperm strengthening body...

The proud look that was on Julia's face immediately became even prouder as she said extremely smugly, seemingly as if she was the one who had awakened the special body.

"I said, Sebastian actually awakened a special body that is known as the sperm strengthening body!"

"It's all thanks to the sperm strengthening body that Sebastian had awakened during our wedding night that my cultivation level ended up leveling from level 1 of energy refining realm to level 4 of energy refining realm!"

"Oh, that's right, that's right! Uncle Dave, if you don't know what the sperm strengthening body that Sebastian had awakened is able to do..."

"With the sperm strengthening body, not only is Sebastian able to help increase his women's spiritual energy and level up his women's cultivation levels while he is... is dual-cultivating with his women, but he is also able to successfully impregnate his women with just one round of dual-cultivation!"

"Furthermore, the sperm strengthening body is also able to help ensure that all of his children are born with spiritual roots!"

"Thus, as of right now, I'm already pregnant with Sebastian's child, and this child that is currently within my stomach is definitely going to be born with a spiritual root!"

While Dave was listening to Julia speak, Dave could be seen to have a stunned look on his face as he began registering in his mind the words that were coming out from Julia's mouth.

If someone was able to sense Dave's heartbeat right now, they would be able to sense that Dave's heartbeat was actually beating at an incredibly high speed.

If it were not for the fact that Dave was a foundation establishment realm cultivator, one would really have to wonder if Dave would end up having a heart attack or not if his heartbeat were to continue on beating at the speed that it was currently beating at.

"Wait... give me a moment to think some things through..."

Shortly after Julia had finished speaking, Dave said to Julia as he held his right palm up at Julia, then closed his eyes, seemingly to be trying to calm himself down, while at the same time think about some things through within his own mind.

"This... this is a godsend opportunity that our Lisandris Family has to hold tightly on!"

"Someone who possesses a special body has finally appeared within our Lisandris Family!!! And further yet, a resource-type special body!!!"

"Wait! No... it's not just simply a resource-type special body... it's one of the top resource-type special body!!!"

"Most importantly, the person who possesses the special body, Sebastian Force, is an orphan who doesn't belong to any cultivation family or have any family members!"

"This means that, as long as our Lisandris Family doesn't mess up or do anything to sour our relationship with Sebastian, it means that Sebastian's special body, which is the sperm strengthening body, will basically be all for our Lisandris Family to use!!!"

"What was it that was said about the sperm strengthening body within the special bodies book that I read about a month ago...?"

"I can't really remember it clearly since I glossed through most of the special bodies and merely focused on reading about the phoenix rebirth body..."

"But I think I remember seeing that, for the sperm strengthening body, when the wielder is at energy refining realm, the wielder possesses the abilities of being able to impregnate his women with a 100% success rate, and all of the children that are reproduced by the wielder are guaranteed to possess spiritual roots!"

"And when the wielder is at foundation establishment realm, the wielder would gain another ability, which is that all of the children that are reproduced by the wielder are guaranteed to possess spiritual roots that are higher grade than their parents!"

"This means that, when Sebastian finally managed to break through to foundation establishment realm, if he were to reproduce a child with a woman who possesses a

top-quality spiritual root... The bare minimum grade of the spiritual root that the child will be born with will be at least that of a peak-quality spiritual root!"

"50 years... No... If the Lisandris Family is able to make use of Sebastian's sperm strengthening body and secretly grow strong... I'm sure that, in just 30 years' time, the Lisandris Family will be able to grow back to its former glory!"

"No... Even better! With the number of high-quality spiritual roots cultivators that the Lisandris Family will be able to possess just by making good use of Sebastian's sperm strengthening body..."

"The Lisandris Family will even have the chance to squeeze into the ranks of the 3 cultivation families that are situated within the inner district of Bright Moon City!"

Upon thinking up to here, the image whereby the Lisandris Family was actually the first cultivation family within the middle district to break into the inner district's hundreds of years of power dynamics began to slowly appear in Dave's mind, and right as this image appeared within Dave's mind, a wide grin also began to slowly appear on the corners of Dave's mouth.

However, shortly after the wide grin appeared on Dave's mouth, Dave seemed to recall about something, and immediately, a frown began appearing on Dave's forehead as he thought to himself.

"Wait a minute... It isn't recorded within the special bodies book that the sperm strengthening body is able to help increase a woman's spiritual energy or level a woman's cultivation level..."

"This means that, the reason that Julia is able to level up multiple levels of her cultivation level isn't because of Sebastian's sperm strengthening body... If so, why did Julia told me that it was because of Sebastian's sperm strengthening body that she was able to level up from level 1 to level 4 of energy refining realm...?"

Upon thinking up to here, Dave placed his right hand onto Julia's head once again and began doing another check onto Julia's meridians and spiritual energy.

### *Chapter 68: Misgivings*

Right as Dave placed his right hand onto Julia's head, he immediately began seeping his spiritual energy into Julia's body, then began doing a thorough check onto both Julia's meridians and spiritual energy.

Meanwhile, although both Julia and Miuna were confused as to why a grave-looking expression suddenly appeared on Dave's face so quickly, when just a moment ago, Dave had an extremely wide grin on his face, both of them just remained silent and waited for Dave to finish doing whatever that he was doing.

After what seemed like 5 minutes had passed, Dave finally took his right hand off of Julia's head.

However, the frown could be seen to still be on Dave's face as he thought to himself.

"Strange... there's actually nothing wrong at all with Julia's meridians or spiritual energy..."

"If there's anything that is a bit odd... It's that Julia's spiritual energy is actually refined rather well, as if she had been stuck at level 4 of energy refining realm and have been refining her spiritual energy for years..."

"But the truth is that she had just level-ed from level 1 of energy refining realm to level 4 energy refining realm just a while ago..."

"Strange... this is really strange..."

Upon thinking up to here, Dave looked straight into Julia's eyes, then asked solemnly, "Julia, was Sebastian the one who told you that his sperm strengthening body is able to increase your spiritual energy and level up your cultivation level?"

Upon seeing how solemn Dave was, it would be a lie to say that Julia wasn't feeling a bit nervous right now, and thus, in response to Dave's question, Julia responded timidly in a low voice, "Erm... I... I don't really remember... I think... there is a chance that... I may have come to that conclusion by myself...?"

In truth, Julia was aware that Sebastian was the one who personally told her that her cultivation level was able to level up thanks to his sperm strengthening body, but because of how solemn Dave was acting, Julia felt that she may get Sebastian into trouble if she were to say yes, and thus, she decided to give Dave a vague answer.

However, with the way Julia was stuttering when she gave her answer, it was clear as day to both Miuna and Dave that Julia wasn't telling the truth.

Upon hearing Julia's answer, Dave merely gave a meaningful look at Julia, then said to both Julia and Miuna, "Come, the two of you, follow me, I will bring the both of you to meet with Ancestor Coril."

Shortly after, right as the 3 of them arrived outside of the house, Dave took out a magical flying tool from his spatial ring and tossed it into the sky.

As the magical flying tool, which was a circular disc, grew from a small disc that was the size of a palm to the size whereby 3 people were able to stand on it while with plenty of space to spare, Dave immediately grabbed onto Julia and Miuna's necks with his hands, then jumped onto the flying disc.

Right as Dave landed onto the flying disc, the flying disc could be seen flying at high speed toward the inner area of the Lisandris Family Manor.

After what seemed like just a minute had passed, due to how fast the flying speed of the flying disc was, and the fact that the Lisandris Family Manor wasn't really that huge, Dave had already arrived at Ancestor Coril's house.

Upon arriving at Ancestor Coril's house, while still with his hands grabbing onto Julia and Miuna's necks, Dave jumped off the flying disc and landed onto the ground with ease.

Upon landing onto the ground, then did Dave finally let go of Julia and Miuna's necks, then retrieved the flying disc and kept the flying disc back into his spatial ring.

"Come, the both of you, follow along with me. Remember to greet the person that you two are about to meet as Ancestor Coril, understand?"

"Yes!"

"Yes!"

Shortly after, right as Dave arrived at the front of the house's door, a voice could be heard ringing out from within the house, "Come on..."

And before the voice even began finished speaking, Dave had already hurriedly opened the door, which wasn't locked at all, then hurriedly entered into the house.

Meanwhile, Coril Lisandris, who was sitting down cross-legged in his cultivation room, could be seen having a slight frown on his face when he saw how Dave barged into his house before he had even finished speaking.

"Sigh... The Lisandris Family is indeed doom... Look at how unruly this brat is! No manners at all! Barging into my house just like this without even knocking first! If this brat were to become the Lisandris Family's next family head, I'm certain that there's going to be no chance at all for the Lisandris Family to ever revive back to its former glory!"

Right as Coril thought up to here, the door to his cultivation room could be seen being pushed open by Dave, and shortly after Dave entered into the cultivation room, Miuna and Julia could be seen entering into the cultivation room hurriedly.

Upon seeing Dave enter into the cultivation room, to be honest, Coril wanted to berate Dave for how unruly he was acting.

However, because Miuna and Julia were present, Coril decided to hold back his temper for now and wait for until Miuna and Julia had left before he start berating Dave.

With a cold look on his face, Coril asked coldly, "Dave, what brought you to pay me a visit? And those two girls are...?"

"Ancestor Coril, these two girls are Julia and Miuna. Juliana and Leo's daughters.

Julia, Miuna, come, greet Ancestor Coril."

"Ancestor Coril!"

"Ancestor Coril!"

Upon hearing what Dave said, Miuna and Julia immediately took a few steps forward, then bowed at Coril.

Faced with Miuna and Julia's greetings, Coril merely nodded his head at both of them while with an indifferent expression, then looked back toward Dave and asked, "So, what is it that brought you here today?"

"Julia's husband had just awakened a special body."

Faced with Coril's question, Dave went straight to the point.

"So, for such a trivial family matter as this, you actually acted so un..."

"...?"

"...?!"

#### *Chapter 69: Dave's misunderstanding*

Right upon finally registering into his mind what Dave had just said, Coril's eyes could be seen opening wide, then soon after...

Coril, who was originally sitting cross-legged on a floor mat, suddenly appeared standing in front of Dave.

Right as Coril appeared in front of Dave, Coril grabbed onto Dave's left shoulder with his right hand and asked with a deep and solemn voice, "You said... Julia's husband had just awakened a special body?!"

Although Dave felt that his left shoulder hurt quite a bit due to how hard Coril was grabbing onto his left shoulder...

Dave understood why Coril would be so agitated.

Thus, he ignored the pain and said solemnly, "That's right. Julia told me that her husband, Sebastian, had managed to awaken a special body not too long ago."

Upon speaking up to here, the frown that was on Dave's face became even deeper as he said with an even more serious tone to his voice, "However, there seems to be an issue... Which is why I brought Julia with me to come and pay you a visit."

Upon hearing what Dave said, and seeing the frown that was on Dave's face, Coril couldn't help but frown too as he felt that Dave was here to bring bad news to him instead of good news.

After all, for Dave to have such a grave expression on his face despite the fact that someone within the Lisandris Family had actually awakened a special body, it was evident that something bad must have happened.

And in Coril's mind, Coril felt that whatever that had happened definitely has something to do with the so-called Sebastian who had awakened his special body.

"Sigh... I knew it, there was no way that the Lisandris Family would be able to be so lucky to possess a cultivator who possesses a special body..."

"If I have to guess, this so-called Sebastian who had awakened his special body must have defected to another cultivation family not long after he had successfully awakened his special body, and the cultivation family he had defected to is most likely one of the 3 families within the inner district..."

"Though, it do make sense for this so-called Sebastian to choose to defect to another family..."

"After all, with the state that the Lisandris Family is in right now, the benefits that the Lisandris Family will be able to provide to him are miniscule compared to the benefits that the 3 families within the inner district would be able to provide to him..."

"Furthermore... even if the benefits are out of the picture and this so-called Sebastian is somehow willing to continue staying in the Lisandris Family, it is a question if the Lisandris Family will even be able to protect him from the dangers to come once news of him possessing a special body is discovered by others and become made known to everyone..."

Upon thinking up to here, Coril couldn't help but let out an audible sigh as he let his right hand off from Dave's left shoulder, then walked over to the square table that was situated by the window and sat down at the square table.

Meanwhile, Dave was remaining silent during all this time because he was waiting for Coril to speak first.

However, because Coril didn't say anything and seemed to be lost in his own thoughts, Dave continued remaining silent even when Coril had sat down at the table.

Right as Coril sat down at the table, Coril could be seen taking out tea leaves and a tea brewing set from his spatial ring, followed by focusing his attention on brewing tea.

Just like this, everyone that was within the cultivation room remained silent, and only the sound of tea being brewed could be heard ringing out within the cultivation room.

Not long after...

After what seemed like 10 minutes had passed...

Right after Coril poured himself a cup of tea and took a sip of the tea, Coril finally opened his mouth to speak, "So, what is the issue that you are here to talk to me about?"

"Sigh... Ancestor Coril, rather than me telling you about the issue straightforward... I think it's best that you take a look at the issue yourself."

Upon speaking up to here, Dave looked over to Julia, then gestured with his eyes and right hand for Julia to walk over to the front of Coril.

"Hmm...?" After taking a glance at Julia who was standing in front of him while with an apprehensive look on her face, Coril raised his brows, then looked over to Dave, evidently that he was confused as to what Dave was trying to tell him.

Upon seeing the confused look on Coril, Dave nonchalantly walked over and stood behind Julia, seemingly to be trying to block Julia's escape path.

"Ancestor Coril, if you don't mind, please help me to do a thorough check onto Julia's cultivation."

Right after Dave had stood behind Julia, Dave then said to Coril as he gave a meaningful look at Julia, evidently trying to tell Coril that the issue was standing right before him.

Upon hearing what Dave said, without any hesitation and without even giving Julia a heads up, Coril immediately used his spiritual sense to envelop all around Julia's entire body, then began using his spiritual sense to check onto Julia's spirit, mind, cultivation energy, energy core, and meridians.

However, after a minute or two of doing a thorough check onto Julia, Coril found out that there was nothing abnormal with Julia, aside from the fact that her spiritual energy seems to be refined rather well when considering the fact that she possesses a lower-quality spiritual root.

Thus, a frown immediately appeared on Coril's face as he looked over to Dave and asked with an annoyed tone, "Alright, just what is the issue that you are here to talk to me about? Out with it already!"

Meanwhile, upon seeing Coril's reaction, Dave could be seen to have a confused look on his face as he asked, "There's nothing wrong with Julia...?"

*Chapter 70: Special bodies, embodiments of heavenly daos*

Within the cultivation room, both Julia and Miuna could be seen having an apprehensive look on their faces, mainly due to what Dave had just said and how Dave was acting.

However, the both of them didn't dare to speak right now due to the spiritual pressure that was currently being emitted out from Coril.

Julia herself was worried that she may have made a mistake and got Sebastian into trouble due to her mistake, while Miuna was worried that something bad may have happened to Julia.

As to why Julia felt that she may have made a mistake and got Sebastian into trouble...

The reason was that, not long ago, Julia suddenly recalled that, when she and Sebastian were eating at the dinner table, Sebastian had told her that he didn't intend on telling the Lisandris Family about his sperm strengthening body until he had either broken through to becoming an official talisman crafter, or when their first child had been born.

And yet, she completely forgot about it due to her excitement and ended up telling Dave about it.

Upon hearing that Dave answered his question with another question, Coril immediately became even more annoyed as he shouted out angrily, "Julia is perfectly fine!"

"You brat, are you trying to piss me off or something?!"

"Just tell me what is it that you are here to talk to me about already! What is the issue with the guy that awakened his special body?!"

Meanwhile, seemingly to be worried that Coril may not have done a thorough check onto Julia as he had previously merely asked Coril to do a thorough check onto Julia's cultivation...

Dave ignored Coril's question once again and asked Coril with another question, "Did you check onto her spirit and mind...?"

"Are you trying to test my patience or something?! Do I seem like I'm stupid or something?! You think I didn't know what you were trying to tell me to do?!"

I will repeat this for the last time. Julia is perfectly fine!

So, now, are you going to tell me what's going on with that so-called Sebastian who had awakened a special body?!"

Upon hearing what Coril had said, although Dave was still rather confused as to the way Julia was acting, and as to why Sebastian had lied to Julia about what his sperm strengthening was able to do...

Dave couldn't help but let out a breath of relief when he learned that Julia was actually fine and hasn't been struck with a bewitching spell of sorts.

Shortly after letting out a breath of relief, Dave then began telling Coril about Sebastian.

"Ancestor Coril, this is the situation. Sebastian is a son-in-law that I had recruited into the Lisandris Family a day ago, and Julia is the woman who I had assigned to marry Sebastian."

"This is the background check that I did on Sebastian before I had decided to get Julia to marry Sebastian."

Upon speaking up to here, Dave took out an information storing jade from his spatial ring, which had all of Sebastian's information stored within it, then tossed the jade over to Coril.

Upon grabbing onto the jade, Coril began looking through the information within the jade while continuing on listening to Dave speak.

"Sebastian's rather great talent in talisman crafting, and the fact that he is an orphan are the two main reasons that I decided to get him to marry Julia, and once he manages to break through to becoming an official talisman crafter, I intended to get him to marry Miuna next."

"By letting him marry Miuna, another woman who not only possesses a spiritual root, but also belongs to the Lisandris Family's main family branch, I felt that it would make Sebastian become more attached and loyal to our Lisandris Family, and as time passed on, Sebastian would basically become a fixed loyal family member of our main family branch!"

"However... it seems that there is going to be a huge change of plans right now..."

"After all, not too long ago, Sebastian managed to awaken the special body, sperm strengthening body!"

Upon hearing that the special body Sebastian had awakened was actually the sperm strengthening body, Coril's body could be seen coming to a froze for a moment.

However, right before Coril was about to get excited, Coril suddenly remembered that there was bad news pertaining to Sebastian, and thus, his feeling of excitement was immediately extinguished.

"Initially, Sebastian having awakened the sperm strengthening body should be basically as if a heaven-sent fortune had fallen on our Lisandris Family..."

"But, there seems to be two huge issues..."

"Well, actually... There seems to be just one huge issue right now as the other huge issue has already been resolved."

"The current huge issue is that, Sebastian had lied to Julia about the abilities of his sperm strengthening body."

"I had read within the special bodies book that, during the energy refining realm, the wielder of the sperm strengthening body only possesses two abilities, and those two abilities are, being able to impregnate women at a 100% success rate and guaranteed of all children being born with spiritual roots!"

"However, after Sebastian had help Julia level-ed up her cultivation level from level 1 of energy refining realm to level 4 of energy refining realm..."

"Sebastian told Julia that the reason Julia was able to level up multiple levels of her cultivation level was thanks to his sperm strengthening body, which is evidently a lie!"

"Ancestor Coril, if you have read the special bodies book, you should know that, the special bodies are the embodiments of the heavenly daos, and all known abilities of the special bodies have already been recorded within the special bodies book!"

"And yet, Sebastian is trying to tell us that the sperm strengthening body that he awakened actually possesses an unknown ability that hasn't been recorded in the special bodies book...?"

"I truly wonder what his motive is for doing so..."
