

Path to Immortality Begins With Marriage #Chapter 71: Coril's look of disgust - Read Path to Immortality Begins With Marriage Chapter 71: Coril's look of disgust

Chapter 71: Coril's look of disgust

"Why did he go through the trouble of helping Julia to level up her cultivation level, and why did..."

"Wait..."

While Dave was speaking, a slightly confused expression could be seen appearing on Coril's face as Coril listened to the words that came out from Dave's mouth, and when Coril finally cut off Dave from speaking, the veins that were on Coril's face and neck could be seen to be bulging out due to the inexplicable anger that was swelling up within Coril's heart.

With his veins bulging and his left eye twitching, Coril spoke as calmly as he possibly could while with a forced smile on his face and looking straight into Dave's eyes, "My dear grandson... Before you even continue on with whatever you are saying right now... Can you tell me... Where Sebastian is right now?"

Upon hearing Coril's question, Dave was honestly feeling a little confused as to why Coril would ask such a question instead of discussing about the issue at hand first.

However, he didn't think too much about it as he looked over to Julia, evidently wanting Julia to answer Coril's question as he himself did not know if Sebastian was currently outside or at home.

Upon seeing that both Coril and Dave were looking at her, Julia said timidly in a low voice, "Sebastian... Sebastian is most likely still at home... When I left the house, he was currently taking a bath..."

Upon speaking up to here, Julia then asked timidly, "Sebastian... he's not in any trouble, is he...?"

"Ancestor Coril, Uncle Dave... Please hear me out!"

"I'm sure that Sebastian must have his own reasons for lying about the fact that his sperm strengthening body is able to help increase his women's cultivation level and spiritual energy..."

After listening to the words that had come out from Dave's mouth, Julia was currently finally aware as to why Dave was being on guard against Sebastian.

Thus, after answering Coril's question, although she herself did not understand as to why Sebastian lied to her that her cultivation level level-ed up because of his sperm strengthening body, Julia personally felt that Sebastian definitely had his own reasons and meant neither her nor the Lisandris Family any harm...

And thus, despite feeling afraid of Coril, Julia somehow managed to muster her courage and help to put in some words to defend Sebastian's action.

In truth, Sebastian was actually wrongfully wronged.

Back then when Sebastian sensed that both his cultivation level and Julia's cultivation level were leveling up, especially while they were having sex with each other, Sebastian actually really thought that everything that happened was due to his special body and didn't know that it was instead actually due to his yang core's ability, the phoenix's blessing.

It was only when he had begun leisurely reading through his system's stats tab and text log tab while he was relaxing in the bathtub that Julia had prepared for him, then did he finally realized that the reason that Julia's cultivation level had level-ed up multiple times while he and Julia were having sex was actually due to the phoenix's blessing.

...

While Julia was trying to put in a word for Sebastian, Coril tried his best to put an amicable look on his face that looked as amicable as it possibly could, then said gently toward Julia, "Child, don't worry. Sebastian didn't do anything wrong at all. And since Sebastian didn't do anything wrong, why would he be in any sort of trouble at all?"

Upon hearing what Coril said, a pleasant look of surprise immediately appeared on Julia's face.

However, shortly after, seemingly to have some sort of doubts toward Coril's words, Julia asked timidly, "Re... really...? You aren't lying to me, are you...?"

Meanwhile, right as Julia finished speaking, before Coril even had time to respond to Julia, a frown immediately appeared on Dave's face as he chided at Julia, "Julia! This is the Lisandris Family's ancestor that you are speaking to! How dare you be so disrespectful and dare to doubt what Ancestor Coril had said to you?! Do you think a golden-core realm cultivator would even care about lying to you?! Julia, apologize to Ancestor Coril right now while you still can!"

Upon speaking up to here, before even giving time for Julia to register in her mind what had just happened, Dave hurriedly looked over to Coril, then lowered his head and cupped his hands at Coril as he said hurriedly, "Ancestor Coril! Julia didn't mean to be disrespectful to you at all, so please find it in your heart to forgive her this one time for her insolence!"

Listening to what Dave had said, and looking at how flustered Dave was, it was evident that Dave wasn't really angry at Julia when he chided at her, and instead, he was actually trying to prevent Julia from being punished by Coril for being disrespectful toward him and doubting his words.

Right after Dave finished speaking, the room was filled with complete silence for a full minute.

Upon sensing that Coril wasn't speaking, Dave decided to raise his head to take a peek at Coril's expression, and completely unexpected to what Dave had expected...

When Dave raised his head, instead of being met with an angry or cold expression on Coril's face, he actually met with Coril's look of disgust, and judging from Coril's line of sight, it was evident that Coril's look of disgust was targeted directly at him.

Immediately upon seeing Coril's expression, Dave's mind was filled with question marks.

"Ancestor Coril...?" Upon seeing that Coril was merely silently looking at him while with a look of disgust on his face as if he was looking at a disgusting insect, Dave couldn't help but call out to Coril in a low voice while feeling puzzled and uneasy.

And right as Coril heard Dave calling out to him, seemingly to be unable to contain the anger within him anymore, Coril slammed his left fist hard onto the table and shouted out angrily, "You unfilial little shit! Has your mind gone completely dumb from spending all of your time cultivating and concocting pills?!"

Chapter 72: Coril's sudden friendliness

Upon seeing Coril lashing out at him, an extremely confused look appeared on Dave's face as he asked, "Ancestor Coril, what did I..."

"Silence! I don't want to hear you speak another word unless I'm telling you to speak! Understand?!"

"Ye... yes..." Although Dave was still confused, and at the same time, feeling a little wronged as he felt that Coril was actually lashing out at him for no reason, Dave still obediently responded in a low voice to what Coril had just shouted out to him.

If Coril was someone who was within the foundation establishment realm, even if Coril was Dave's grandpa, Dave would have definitely dared to question Coril as to why he was lashing out at him despite the fact that he had done nothing wrong.

After all, within this Cultivation World, the thing that almost everyone viewed as being the most important was one's cultivation realm and level.

The higher the cultivation realm that one possesses, the more respect one would be able to gain from others.

At the same time, it was normal to everyone that when speaking toward a family elder, especially a family elder who possessed the golden-core realm and was considered an "ancestor", one has to be extremely respectful to this specific family elder no matter what.

And if one were to be disrespectful in any way to this specific family elder... No one within the family would feel that it would be weird for the family elder to punish the disrespectful family member, even if the punishment that was ensued by the family elder onto the disrespectful family member was death.

This was why Dave was so anxious when he saw Julia being disrespectful toward Coril by doubting Coril's words.

Perhaps, if one who wasn't born within this Cultivation World, like Sebastian, for example...

They may feel that Dave was being overly worried for nothing.

After all, no matter what, Julia was still Coril's great granddaughter, thus, even if Julia was indeed being slightly disrespectful toward Coril, Coril wouldn't really be so cruel as to punish Julia for her action and even go so far as to punish Julia with death.

However, if anyone were to think that, they would soon come to learn that they were extremely wrong in their thinking.

Because of the way the Cultivation World works, where cultivation resources, aptitude, and a cultivator's cultivation strength were the top few most important things within a cultivator's eyes...

In Coril's eyes, although Julia was indeed his great granddaughter, and even more, was a daughter of his favorite grandson...

But because his grandson, Leo, had already died 19 years ago, and furthermore, Julia possesses merely the aptitude of lower-quality spiritual root, and was currently merely level 4 of energy refining realm...

Coril didn't view Julia as truly a great granddaughter of his at all, and instead, Julia was no different than an insect to him.

And perhaps, in Coril's eyes, Julia may have been even worse than an insect.

After all, in Coril's eyes, not only was Julia a cultivator who possessed a mere lower-quality spiritual root, which meant that she will most likely die as an energy refining

realm cultivator and pretty much be of no significant help to the Lisandris Family's growth or strength...

But since she was also still a family member of the Lisandris Family, it also meant that she will be leeching off and wasting an extremely small portion of the Lisandris Family's cultivation resources, all the way until she dies.

There was a reason as to why Coril reacted so indifferently toward Julia and Miuna when Julia and Miuna had greeted him, despite having been made aware by Dave that both Julia and Miuna were his great granddaughters.

Thus, in the end, Dave wasn't really being overexaggerated with his action when he saw that Julia was being disrespectful toward Coril.

Of course, had it not been for the fact that Julia was currently the wife of Sebastian, a cultivator who had awakened the special body, sperm strengthening body...

Dave's action might have been correct and he most likely would have saved Julia's life by doing what he had did.

But as of right now...

Immediately after Dave had responded to Coril's angry shouting toward him...

Coril could be seen putting on an amicable look on his face as he walked over to Julia, then placed his right palm onto Julia's right shoulder and began leading Julia over to the square table.

Upon arriving at the table, Coril said gently to Julia, "Come, Julia, take a seat."

And right as Julia had sat down on one of the chairs that were at the square table, Coril then looked over to Miuna and said gently as he gestured with his right hand for Miuna to come over to the table, "Miuna, you too, quit standing still there as if you are a stranger! Come over and have a seat with your great grandpa!"

Shortly after, within the cultivation room, Coril, Julia, and Miuna were currently seated down at the square table, while Dave was silently standing by the side of the table while with his head lowered.

"Julia, Miuna, here, have a cup of this tea!"

"Let me tell you, this tea was given to me personally by Bright Moon Sect's sect master, Euna Mooncrown! Just a cup of this tea is enough to restore the fatigue of one's spirit completely!"

After pouring the tea that he had just brewed a while ago onto two small teacups, Coril said with a smile on his face as he pushed the teacups to the front of Julia and Miuna.

However, faced with Coril's sudden over friendliness from out of nowhere, both Julia and Miuna could be seen to be obviously feeling apprehensive and at a loss on what to do.

Meanwhile, upon seeing that Julia and Miuna were at a loss on what to do, not knowing if they should accept and drink the tea that he had just offered to them or not...

Coril immediately reassured the both of them, "Relax, the both of you, there's no need to be feeling so nervous!"

Chapter 73: Miuna's affection

"Look, would I, your great grandpa, mean any harm to the both of you?"

"And in any case, if I really were to mean any harm to the both of you, would I, a golden core realm cultivator have to put on such pretenses just for the sake of harming the both of you?"

Upon speaking up to here, Coril pushed the teacups a little bit closer toward Julia and Miuna, then said with an amicable smile on his face.

"Go on, don't be shy! Let me tell the both of you, since the both of you are still currently only in the energy refining realm, not only will drinking this tea be able to help restore your body and spirit's fatigue completely, but it will also be able to help strengthen your body and spirit, albeit just by a little bit only!"

After hearing what Coril had said to them, Julia and Miuna could be seen taking a look at each other, and right after, seemingly to have taken Coril for his words, both Julia and Miuna picked up the teacups before them and drank the tea in one shot.

Immediately after drinking the tea that Coril had poured for them, both Julia and Miuna's eyes could be seen lighting up due to the soothing feeling that they felt sweeping through their entire body and spirit.

Just as Coril had said, Julia and Miuna could feel their fatigue disappearing completely, and right now, they were feeling completely energized, seemingly as if they had just woke up from a good night's sleep.

As for whether their body and spirit had gotten a bit stronger, in truth, the both of them couldn't really tell at all.

But since there wasn't any reason for Coril to lie to them about the effects of the tea, they didn't really doubt Coril at all, and instead, they merely just felt that the reason they

weren't able to tell if their body and spirit had gotten a bit stronger or not after drinking the tea was due to their cultivation realm being too low.

Amongst the two sisters, Julia was the one to cry out loudly in surprise after drinking the tea, "Ah! You are right, Ancestor Coril! After drinking the tea, I can feel that my fatigue has gone away completely, seemingly as if I had just woken up from a good night sleep!"

Meanwhile, compared to Julia, Miuna was sitting straight up while with a serious look on her face, evidently trying to conduct herself as properly as she possibly could while she was in the present of Ancestor Coril.

In truth, the reason that Julia had even dared to be "disrespectful" toward Coril was because this was actually Julia's first time meeting and speaking to an ancestor of Lisandris Family's.

Thus, although Julia was already aware that Coril was a golden core realm cultivator, she didn't really know that serious consequences would arise if she were to act unmanneredly in front of Coril.

On the other hand, in Miuna's case, when her father, Leo, was still alive, her father had brought her to meet with Ancestor Coril for quite a number of times.

And every time before her father had brought her to meet with Ancestor Coril, her father would constantly remind her of how to act while she was in front of Coril, and the consequences that would arise if she were to act in any way disrespectful toward Coril, even if she was Coril's great granddaughter.

Thus, unlike Julia, Miuna was aware of how she should act while in front of Ancestor Coril.

Though, to tell the truth, Miuna was actually really surprised about how friendly Coril was currently acting toward her and her sister.

After all, in Miuna's past experiences, her interactions with Coril would merely be her greeting respectfully to Coril, and Coril would merely nod his head indifferently in response to her greetings.

Never had Coril bothered opening his mouth to speak to her, or even smiled at her, despite the fact that she was the daughter of his favorite grandson, Leo Lisandris...

And yet, today, just because her little sister's husband had awakened the special body, sperm strengthening body...

Coril was actually being so friendly and heartwarming toward her little sister!

Furthermore, it was evident that, because of her identity as Julia's big sister, Coril actually decided to be friendly and heartwarming toward her too!

"It is obvious that the reason that Ancestor Coril is treating both me and my sister so friendly and heartwarming is solely because of Sebastian!"

"To hell with spending my time with crafting talisman!"

"Even if I somehow managed to break through to becoming an official talisman crafter in the next few years, without Sebastian being a factor in my life, would I have been able to make Ancestor Coril treat me so kindly, as if I'm truly a great granddaughter of his?! The answer is definitely no!"

"I have decided! Once I get married to Sebastian, I will do my best to get Sebastian to fall completely in love with me and make him become unable to leave me and my sister's sides, even when he had ended up marrying countless other women in the future!"

"Ah!!! I wish tomorrow can quickly arrive so that I can get married to Sebastian already!!!"

These were the thoughts that were going on within Miuna's mind after she had drank the tea that Coril had poured for her.

And right now, if Sebastian were able to see Miuna's stats, he would find out that Miuna's affection for him had already reached over 60, despite the fact that he had actually done nothing personally to please Miuna.

In truth, it won't take Sebastian too long to come and realize that, increasing women's affection toward wasn't going to be a difficult task at all, especially due to the sperm strengthening body that he possesses, which will make countless people, even people who possess incredibly strong backgrounds, and people who possess high cultivation realms, to place great importance onto him.

Chapter 74: Coril's gifts

Upon hearing Julia's exclamation, Coril could be seen laughing heartily, "Hahaha! I told you so didn't I?"

"I'm glad that you like this tea!"

Upon speaking up to here, Coril suddenly took out a few jugs of tea leaves and a spatial pouch from his spatial ring.

Right as the few jugs of tea leaves and spatial pouch appeared on the round table, Coril picked up the spatial pouch and began placing the few jugs of tea leaves into the spatial

pouch, then placed the spatial pouch onto the table and pushed the spatial pouch to the front of Julia.

"Here, since you seem to like this tea a lot, you can have the rest of the tea leaves that I have! In any case, aside from tasting rather nice, these tea leaves aren't that beneficial toward strengthening either my spirit or body."

"Though, I have to warn you, you have to drink the tea in moderation, so that you don't end up overwhelming your spirit! After all, the spirit is a very fragile thing, especially when you are still in the energy refining realm!"

Upon seeing that Coril was actually giving her the remaining tea leaves that he possesses, and most importantly, also giving her the spatial pouch that he had used to store those jugs of tea leaves into...

An excited and joyful look immediately appeared on Julia's face as she asked with surprise in her tone, "Really?! Are you really giving me those tea leaves and this spatial pouch?!"

In truth, compared to the tea leaves, Julia was actually more excited about the fact of obtaining a spatial pouch.

After all, it has to be known that, spatial pouch and spatial rings were things that normally only cultivators that were within the foundation realm and above realms were able to possess due to how expensive they were.

Take a tier 1 spatial pouch for example...

A tier 1 spatial pouch that merely possesses the storage space of 0.5 cubic meter normally cost around 5 middle-quality energy stones.

5 middle-quality energy stones...

That was basically 500 lower-quality energy stones!

To put things in perspective...

A level 1 energy refining realm cultivator that belonged to a top sect like Bright Moon Sect was able to earn 1 to 3 lower-quality energy stones per month depending on the jobs and tasks they were to take on.

And when an energy refining realm cultivator reaches level 5 of energy refining realm and was finally allowed to take on group tasks such as killing beasts in a group of 5, or gathering medicinal herbs as a group of 3...

Despite having to face the risk of dying while trying to complete a group task...

The number of lower-quality energy stones a level 5 energy refining realm cultivator would be able to earn from completing each of such tasks was merely just around 15!

Thus, if an energy refining realm cultivator who possesses no background wants to buy a tier 1 spatial pouch, they would have to complete up to at least 50 of such group tasks!

After all, assuming that the level 5 energy refining cultivator would need 250 lower-quality energy stones for spending on various expenses...

By completing 50 of such group tasks, then would the level 5 energy refining realm cultivator be able to possess 750 lower-quality energy stones.

And after deducting the 250 lower-quality energy stones from the 750 lower-quality energy stones, then would the level 5 energy refining realm cultivator have enough to buy a tier 1 spatial pouch!

And this was just for buying a tier 1 spatial pouch.

If the level 5 energy refining realm cultivator wants to buy a tier 1 spatial ring, which usually costs a few times more than what a tier 1 spatial pouch costs...

It was evident that the level 5 energy refining realm cultivator was going to have to complete way, way, way much more than just 50 group tasks.

"Of course! Go on, take it!" Coril said heartily as he pushed the spatial pouch a bit closer toward Julia.

After taking a quick glance at her big sister and seeing that her big sister wasn't shaking her head or anything, Julia grabbed onto the spatial pouch with both of her hands, then quickly stood up and bowed to Coril, "Thank you very much, Ancestor Coril!"

"Hahaha!"

After letting out a hearty laugh, Coril put on an obviously fake stern look on his face, then said "sternly" while with a smile on his face.

"However, I must say, Julia, if you really want to thank me, you should stop addressing me as Ancestor Coril already!"

"If a stranger was here and didn't know better, they would think that we aren't closely related at all just from the way you are continuously addressing me!"

Upon hearing what Coril said, Julia subconsciously took a quick glance at both Dave and Miuna, and upon seeing that both of them weren't saying anything...

Julia then looked toward Coril and said in a low voice with an unsure tone to her voice, "Great Grandpa Coril...?"

"Hahahaha! That's right, that's right! Great Grandpa Coril sounds much better than Ancestor Coril!

This reminds me! Since this is the first time that us great grandpa and great granddaughter have met with each other, it is only right that I have to prepare a first meeting gift for my dear great granddaughter Julia!

Wait a second... Let me see what I have in my spatial ring..."

"Ah! Great Grandpa Coril, it's fine! The spatial pouch and those tea leaves that you just gave to me are more than..."

"Shh...! There's no need to be so courteous with your great grandpa!" While speaking, Coril could be seen taking out various cultivation resources from his spatial ring.

Meanwhile, Julia and Miuna could be seen to have an extremely shocked look on their faces as they looked at the bunch of top-quality energy stones, and various cultivation resources that they were unable to name appearing on the square table in quick successions.

Chapter 75: Cultivation resources, acquired

Lower-quality energy stones...

Middle-quality energy stones...

Top-quality energy stones...

Peak-quality energy stones...

Within the North Continent, because golden core realm cultivators were practically the peak of cultivation...

Mainly due to the fact that there was a "curse" or "heavenly restriction" within the north, south, east, and west continents that prevented cultivators that possess the cultivation realms of nascent soul realm and higher to appear within the continents...

It was only natural that cultivation resources such as top-quality energy stones, peak-quality energy stones, and so on many other high tier cultivation resources would be monopolized and owned by mainly golden core cultivators.

Within the various markets and cities scattered throughout the north, south, east, and west continents, pretty much every store uses only lower-quality energy stones and middle-quality energy stones as payment methods...

There wasn't really any store that uses either top-quality energy stones or peak-quality energy stones as payment methods due to how scarce top-quality energy stones and peak-quality energy stones were...

Except for the stores that were known as "Fairness Trade".

Fairness Trade was the name of a company that resides within the upper middle continent, and it was rumored that the creator of Fairness Trade was a tribulation transcendence cultivator!

Of course, whether this rumor was true or not, no one really knew for sure.

However, what every cultivator within the north, south, east, and west continents knew was that, no matter what you do, do not ever try to cause trouble in Fairness Trade's stores, unless you are trying to seek a quick death.

...

"10 top-quality energy stones, 100 middle-quality energy stones, and 200 lower-quality stones... This amount of energy stones should be enough to last both you and your husband, Sebastian, for quite a while!"

"Now... It is an important thing to pay close attention to one's diet... So, let's see..."

"10 kg of a foundation establishment realm beast's meat... tier 2 medicinal herbs... tier 2 honey..."

"And lastly, those bunch of tier 1 and tier 2 cultivation pills should be more than enough to last both you and your husband till the both of you reach foundation establishment realm!"

Upon speaking up to here, Coril took out a Chinese compass that evidently had a formation attached on the top of it, then said to Julia, "Oh, that's right! I almost forgot. Julia, this thing here is a tier 3 energy congregation magic tool. Later on when you returned home, place this somewhere at the middle of your house, then insert a top-quality energy stone and 10 middle-quality energy stones onto the middle of the magic tool."

"Once this energy congregation magic tool has been activated, after a few days have passed, the spiritual energy within your house will basically become close to that of a tier 3 cultivation cave!"

"The 10 top-quality energy stones and 100 middle-quality energy stones that I am giving to you should be enough to keep this tier 3 energy congregation magic tool activated for up to a year or two."

Upon speaking up to here, Coril then took out a tier 2 spatial ring from his spatial ring and stored everything that he had taken out from his own spatial ring into the tier 2 spatial ring.

Soon after he was done, he then handed the tier 2 spatial ring over to Julia, "Here. Make sure to make good use of these things that I have just given to you, understand?"

"Great Grandpa Coril, I appreciate your thoughts, but... The things that you are giving to me are too much for me to accept. Thus, I'm afraid that I'm going to have to reject your..."

Right before Julia was able to finish speaking, Coril cut her off then said solemnly, "Alright, I don't want to hear any word of rejection coming out from your mouth. Look, Julia, didn't you hear me say that those things that I'm giving to you are meant for both you and your husband, Sebastian?"

"Don't you want your husband to not have to worry about cultivation resources, so that he could focus all of his attention on cultivating and crafting talismans?"

"From the information jade that your Uncle Dave passed over to me, I can see that the reason Sebastian had chosen to join our Lisandris Family was so that he could not have to worry about cultivation resources and focus all of his attention on breaking through to becoming an official talisman craftsman."

"And the reason that he's so desperate to break through to becoming an official talisman craftsman is because he only has 2 years remaining to either reach level 3 of energy refining realm, or become an official talisman craftsman, or else, he will be kicked out from Bright Moon Sect."

"Though... since Sebastian had somehow managed to awaken the special body, sperm strengthening body, he honestly doesn't have to worry about the 2 years countdown anymore."

"After all, with this sperm strengthening body of his, he is basically a shining treasure that everyone wants to have for themselves."

"But even so... even if it is true that Sebastian doesn't have to worry about the 2 years countdown anymore... I'm sure Sebastian would still want to focus his attention on crafting talismans and be able to break through to becoming an official talisman crafter as soon as possible, right?"

"So, are you sure you still want to reject this first-meeting gift that I'm giving to you, my dear great granddaughter?"

Upon listening up to here, the hesitation that was on Julia's face had already disappeared completely, and without any hesitation, Julia could be seen taking over the tier 2 ring that was resting on the palm of Coril's right palm, then stood up and bowed at Coril as she said with her tone filled with gratitude, "Thank you, Great Grandpa Coril! I swear that I will put this gift of yours to great use!"

"Hmm... Alright, alright, no need to be so courteous with me." After nodding his head in satisfaction to Julia's reaction, Coril then gestured with his right hand for Julia to sit back down on her chair.

And right as Julia had sat back down on her chair...

Coril finally touched on the main topic, "So, Julia... What do you think of Sebastian?"

Chapter 76: Sebastian didn't lie

"What do I think of Sebastian...?"

"Well... I think that Sebastian is a really nice, lovely, romantic, and caring guy! He doesn't behave like the other married-in sons-in-law at all!"

"Not only does Sebastian treats me as if I was truly a wife of his by showering me with care and affection, and not just a woman who he is mating with just for the sake of obtaining cultivation resources from the dual-cultivation hall and our Lisandris Family..."

"But he is also..."

Before Julia was able to continue mumbling on, Coril cut her off, as evidently, what Julia was talking about wasn't something that Coril really cared about.

Instead, what Coril truly cared about was if Sebastian was someone he could trust to gamble the Lisandris Family's entire future onto.

With his right palm raised directly at Julia, Coril cut off Julia from speaking, then said with a solemn look on his face as he looked directly into Julia's eyes, "Julia, what I'm really curious about is that..."

"Do you think that Sebastian is someone who is trustable? Do you think that he is someone who our Lisandris Family can safely put our trust onto?"

Upon hearing what Coril said, Julia immediately recalled of her Uncle Dave's doubts toward Sebastian due to the fact that Sebastian had lied to her about his sperm

strengthening body's abilities, and thus, the first thought that came into her mind was that Coril was also having some issues trusting Sebastian.

"Great grandpa, Sebastian is definitely someone who the Lisandris Family can safely trust!"

"Look, great grandpa, I know that you and Uncle Dave definitely have some doubts toward Sebastian because of the fact that he lied to me about his sperm strengthening body's abilities..."

"But I'm sure that he must have his own reasons for lying to me about his sperm strengthening body's abilities!"

"That's right! Perhaps..."

Right before Julia had even began trying to make up reasons to defend Sebastian for his action of lying to her...

Coril cut her off once again.

"Julia, calm down. Like I said before, Sebastian is not in any trouble at all."

"I'm just merely curious as to whether Sebastian is a trustworthy person or not. And since I have your word that Sebastian is a person who our Lisandris Family can put our trust on, I am now able to feel completely reassured about investing a huge amount of resources onto Sebastian."

Of course, Coril wasn't being truthful to Julia when he told her that he was currently able to feel completely reassured about investing onto Sebastian.

Though, it was still a fact that hearing Julia told him that Sebastian was a trustable person did indeed make him feel a bit more reassured about his decision on investing onto Sebastian.

But in any case, even if Sebastian possessed a rotten personality, or was someone who was extremely selfish...

In truth, Coril was still going to gamble the Lisandris Family's entire future on Sebastian no matter what.

After all, Coril was completely aware that, Sebastian's sperm strengthening body was currently the only hope for the Lisandris Family to ever return back to its glory days, and even more, raise to a position that was even higher than Lisandris Family's glory days.

Within the cultivation room, Julia, Miuna, and even Dave, weren't fully clear about just what the sperm strengthening body truly means toward building a cultivation family...

But as a golden core realm cultivator, Coril possesses access to Bright Moon Sect's highest floor library, and thus, he was aware about what the sperm strengthening body was able to truly do, especially once the wielder reaches golden core realm and above!

Thus, no matter what, Coril was going to gamble everything onto Sebastian.

Upon hearing what Coril had said, a surprised look of joy immediately appeared on Julias' face as she exclaimed loudly, "Re... really?! Thank you, great grandpa! For trusting in Sebastian!"

"Great grandpa, don't you worry! When I have returned home, I will try and get Sebastian to confess to me the reason that he chose to lie to me about his sperm strengthening body's abilities!"

"With how much Sebastian adores me, I'm sure that he will be willing to tell me his reasons for lying to me!"

Faced with what Julia said, Coril merely shook his head, then said leisurely, "Julia, there's no need for you to do that."

"Hmm...?" Julia let out a confused mutter upon hearing what Coril said.

"Didn't I said earlier? That Sebastian isn't in any trouble since he didn't do anything wrong."

Upon seeing that both Julia and Miuna were confused as to what he was saying, Coril took a glance at Dave, then explained to both of them, "Sebastian didn't lie about his sperm strengthening body's abilities."

"This Uncle Dave of yours... His brain has been rotted to the point of no return. He actually thinks that, those higher beings within the middle continents and celestial realm would actually willingly share complete information regarding special bodies to everyone."

"All known abilities of the special bodies have already been recorded within the special bodies book..."

Upon speaking up to here, Coril looked over to Dave and asked with a deep and stern voice, "Please tell me that I'm wrong, but did those words actually really came out from your mouth, Dave?!"

Faced with Coril's spiritual pressure and stern voice, it was evident that Dave was nervous as sweat could be seen actually dripping down from his forehead as he stuttered, "Ancestor Coril, I... I..."

Meanwhile, upon hearing Dave's stutter, Coril couldn't help but feel his anger from before that had already subsided returning quickly back to him, and immediately, Coril slammed his left fist onto the table once again.

"Bang!"

"What?! You can't even speak properly now?!"

"What have I always told you, Dave?! Don't simply look at things on the outside, you have to look at things on the inside too!"

"You...!"

"Forget it! I will deal with you later on!"

Chapter 77: Previous sperm strengthening body wielder

After Coril had finished speaking, he began breathing heavily, evidently having been greatly angered by Dave.

And shortly after catching his breath, Coril then said to Julia, "Julia. I know that it hasn't even been a full day since you have marry Sebastian..."

"But, would you mind if I pick a few number of women from our Lisandris Family to marry Sebastian in the near coming days?"

Upon hearing what Coril said, Julia's eyes immediately lighted up as she said hurriedly, "Of course not! I don't mind it at all!"

"In actuality, I was already intending on looking for a few more women to become Sebastian's wives!"

"After all, not only are Sebastian's women able to become stronger by having sex with him, but Sebastian himself is also able to get stronger by having sex with his women."

"Thus, I was thinking that, the more women Sebastian have, the faster he would be able to become stronger!"

"Initially, I was still a bit at a loss on how I should go about on getting more women to become Sebastian's wives."

"After all, since I'm not going to leak any information about Sebastian's sperm strengthening body to anyone before they become married to Sebastian..."

"I felt that it was going to be a bit hard to convince other women to become willing to marry Sebastian and become one of many Sebastian's wives, especially when

Sebastian is someone who at first glance, is but someone who possesses a lower-quality spiritual root and is only a cultivator within the energy refining realm."

"I was originally thinking of paying the dual-cultivation department and get the dual-cultivation department to help me look for women who are willing to marry Sebastian in exchange for cultivation resources, while at the same time, also get Uncle Dave to help me to look for women within the Lisandris Family who will be interested in marrying Sebastian before they had even found out about Sebastian's sperm strengthening body."

Upon speaking up to here, seemingly to feel a bit embarrassed and awkward about what she was about to say, Julia's voice turned soft and low as she said with an embarrassed and awkward look on her face, "Of course... I know that most women within the Lisandris Family that are of and close to my age would be willing to marry Sebastian so long as I just told them about Sebastian's sperm strengthening body..."

"And it's not that I don't trust my own family members..."

"But I just felt that, since I don't really know much of the other women within the Lisandris Family, whether if they are truly the sincere type of person, or whether if they are the selfish type of person... It would be best for me to just look for women who aren't trying to marry Sebastian solely because of Sebastian's sperm strengthening body..."

Meanwhile, while Julia was speaking, when Coril heard Juril said that Sebastian's sperm strengthening body was not only able make his women become stronger, but was also able to make Sebastian himself become stronger...

Coril couldn't help but think to himself.

"Sebastian is actually able to get stronger by having sex with his women...?"

"Let me think..."

"Hmm... I do recall that the sperm strengthening body do indeed possesses an ability that allows the sperm strengthening body to become stronger... But isn't that ability an ability that is unlocked when the sperm strengthening body wielder reaches golden core realm...?"

"Then again... I guess, with the way that the heavenly daos are ever changing and adapting to new changes... It makes sense that this ability is now already unlocked for Sebastian even though he is only within the energy refining realm right now."

"After all, it was precisely because the previous known sperm strengthening body wielder didn't possess any ability that was able to help him get stronger while he was within the energy refining realm and foundation establishment realm, that he ended up

being captured by a demon clan that was known as the Aera Clan and was turned into a mere breeding tool for the Aera Clan..."

"To prevent such a scenario from happening, a few aspects of the sperm strengthening body must have been changed by the heavenly daos!"

"Though, I must say... If it was not for the fact that the Aera Clan who captured the wielder of the sperm strengthening body wasn't willing to share the sperm strengthening body wielder with the other demon clans despite the fact that news of Aera Clan possessing a sperm strengthening body wielder had already been leaked to the other demon clans..."

"The Aera Clan may have been able to become the strongest demon clan within the Middle-Right Continent!"

"After all, from what I have heard, by making use of the sperm strengthening body to reproduce as many descendants who possessed spiritual roots as they could... Right before the Aera Clan had been annihilated completely by the other demon clans, the Aera Clan actually possessed over 1000 descendants who possessed spiritual roots that are of middle-quality and above!"

"If the Aera Clan was somehow able to have another 100 or 200 years to grow... The Aera Clan may have actually been able to conquer the entire Middle-Right Continent!"

"And if the Aera Clan had been able to conquer the entire Middle-Right Continent... When the demon race began setting their sight onto the human race's territories... Without any interference from the Celestial Realm, I wonder if the entire Lower Realm would have ended up being conquered by the demon race or not..."

"Urgh... Just the thought of the demon race being the race to have conquered the Lower Realm is enough to make me sick to my stomach!"

"In any case! The fact that Sebastian's sperm strengthening body is actually already able to help him get stronger despite the fact that he is currently only in the energy refining realm... It just basically helps to further confirm that my decision of gambling the Lisandris Family's entire future onto Sebastian is indeed the correct decision to do so!"

Chapter 78: A golden core realm cultivator's knowledge

While Coril was mumbling to himself in his own mind as he listened half-heartedly to the words that were coming out from Julia's mouth...

Julia herself wasn't aware that Coril didn't really care much about most of the words that were coming out from her mouth...

And thus, upon seeing that Coril didn't have any kind of upset look on his face when she told him her reason for not willing to let other women within the Lisandris Family know about Sebastian's sperm strengthening body before they had been married to Sebastian...

Which, no matter how she phrased it, it was evident that she didn't have complete trust in the Lisandris Family's women...

Julia couldn't help but let out a breath of relief in her own mind, then said hurriedly, "Of course! Great Grandpa Coril, since you are willing to get a few number of women from our Lisandris Family to marry Sebastian in the near coming days, what I intended to do previously doesn't matter at all anymore!"

"In any case, since those women will be picked by great grandpa yourself, I'm sure that those women will definitely be of great wives when they have become married to Sebastian!"

Upon seeing that Julia was done speaking, Coril stopped his thoughts from wandering around as he opened his mouth to speak.

With a nod of satisfaction, Coril said while with a pleased look on his face, "I'm glad that you are able to think this way, Julia!"

"I must say, Julia, you have surprised me. I initially expected that you would be against the idea of Sebastian becoming married to more women, especially since it hasn't even been a full day since you have married Sebastian!"

"Any woman who had been put in your position would have most definitely felt indignant about having to share their treasure-like husband with so many other women, especially when they themselves haven't even been married to their husband for more than a day."

"I'm truly proud of you, Julia! You have not let down on the surname, Lisandris!"

"As Sebastian's main wife, this is exactly the magnanimous that you have to possess!"

"Julia, I will give you my word. So long as I'm still alive, no one within the Lisandris Family will dare to have any thoughts about replacing your position as Sebastian's main wife."

"I'm sure that this is one of the things that you were worried about, weren't you, Julia?"

"Which is why you wanted to try your best to look for women who don't possess much ambition to become Sebastian's wives. After all, if a woman had wanted to marry Sebastian after finding out that Sebastian possesses a spiritual root, it was definite that this woman would possess some amount of ambition."

"And if a woman who possesses a great amount of ambition were to marry Sebastian, you felt that it was inevitable that there would come a time where this particular woman would start eyeing over your position as Sebastian's main wife."

"Aren't I right, Julia?"

When Julia heard Coril praising her, a proud and happy look could be seen appearing on her face.

However, when she heard what Coril said in the end, an awkward look immediately appeared on her face as she opened her mouth and tried to say something to defend herself, "I... I..."

However, seemingly to be feeling nervous and embarrassed that one of her insecurities was exposed by Coril, Julia wasn't able to come up with anything in such a short time to defend herself with, and in the end, Julia just merely lowered her head and looked silently at the table while with an embarrassed look on her face.

"It would seem that I am right with my guess."

After letting out a mutter, Coril then said with a slightly stern tone to his voice, "Julia, raise your head and look at me."

Upon hearing Coril's slightly stern voice, Julia immediately raised her head and looked toward Coril's face while still with a slightly embarrassed look on her face.

And upon seeing that Julia had raised her head and was looking at him, Coril then said solemnly to Julia.

"Julia, there's no need to feel embarrassed. Even though we are indeed cultivators, but at the end of the day, we are still but mere humans."

"And as humans, it is normal for us to feel emotions such as insecurity, jealousy, anger, and so on other emotions."

"But, what is important is that we are able to control those emotions and not let those emotions overwhelm us."

"I know that you may feel insecure that you won't be able to protect your position as Sebastian's main wife, probably due to your cultivation and aptitude."

"But it is great that you were able to not let this insecurity be what that will make you not do what would have been the best for Sebastian, which is to allow him to marry more women, so that he could make the best use of his sperm strengthening body!"

"Remember, Julia, cultivation isn't solely about increasing one's spiritual energy. The mind is an important aspect of cultivation too."

"This feeling of insecurity that you have in your heart regarding your cultivation and aptitude not being comparable to Sebastian's future women is something you will have to tackle on while you still can."

"Do not let this feeling of insecurity bottle up within your heart and allow it to overwhelm you."

"Otherwise, when it's time for you to break through to golden core realm, you will come to find that this feeling of insecurity will be a great disaster for you when you have to face the 'Inner Demon Trial', a trial that every foundation establishment realm have to go through when breaking through to golden core realm."

Right as Coril finished speaking, Julia could be seen having dazed look on her face.

And while Julia was in a daze, a small amount of spiritual energy that was within the cultivation room could be seen surging toward Julia's body.

Evidently, Julia had managed to gain cultivation enlightenment thanks to what Coril had said to her, albeit the cultivation enlightenment was just a miniscule one.

Chapter 79: Phoenix's blessing's overpowered effect, bestowing luck

Not long after the small amount of spiritual energy had surged into Julia's body...

Due to the cultivation enlightenment state that Julia was in, despite the fact that she merely possessed a lower-quality spiritual root, which meant that this small amount of spiritual energy would usually take up to a week or two for Julia to completely refine...

The time that it took Julia to refine the small amount of spiritual energy actually ended up being just a few minutes!

Of course, although Julia merely absorbed a small amount of spiritual energy that was within the cultivation room...

But don't forget, this was the cultivation room of a golden core realm cultivator! And furthermore, that of a level 7 golden core realm cultivator who possesses a 5 lines golden core!

Naturally, it was evident that despite the spiritual energy that Julia had absorbed into her body was merely a small amount of spiritual energy that was within the cultivation room, this amount of spiritual energy was still a relatively huge amount of spiritual energy to Julia.

Thus, shortly after Julia was done refining up to a third of the spiritual energy that had entered into her body...

Without even having the need to attempt at breaking through her level's bottleneck in order to break through to the next level of her cultivation level...

Julia's cultivation level actually managed to smoothly break through from level 4 of energy refining realm to level 5 of energy refining realm!

Furthermore, right after arriving at level 5 of energy refining realm, the quick refining of spiritual energy that was happening within her body didn't come to a stop!

Within the cultivation room, Miuna could be seen having an extremely surprise look on her face as she watched her little sister, Julia, break through from level 4 of energy refining realm to level 5 of energy refining realm.

And as she saw that her little sister's spiritual energy was still increasing despite having already broke through to level 5 of energy refining realm...

Miuna couldn't help but feel a slight bit of jealousy toward her little sister, and the slight bit of jealousy was targeted at the fact that her little sister was so extremely lucky to be able to find such a good husband. After all, in Miuna's eyes, the reason that everything was going well for Julia was because Julia had become married to Sebastian.

But of course, the slight bit of jealousy was a mere emotion that most humans couldn't hold back from feeling when seeing someone close to them being way more successful than them, and in the end, the main feeling that Miuna felt for her little sister was still happiness.

As for Dave and Coril's reaction...

Dave didn't show much expression as he thought that Julia being able to break through her cultivation level was mainly due to Coril's help.

However, Coril, on the other hand... Although Coril also didn't show much expression on his face, Coril was actually rather surprised that Julia was able to go into cultivation enlightenment just because of what he had said to Julia.

"This great granddaughter of mine actually managed to go into cultivation enlightenment just from hearing me give her a short bit of lecturing...?"

"Perhaps, although she may possess a poor aptitude, her comprehension toward cultivation may be rather high... Which explains as to why she was able to go into cultivation enlightenment so easily just from a short bit of lecturing!"

"If this is the case... Perhaps I could consider spending a bit of cultivation resources on increasing her cultivation aptitude..."

"At the least, I should strive to increase her cultivation aptitude from lower-quality spiritual root to middle-quality spiritual root. This way, her golden core wouldn't end up being a mere 1 line golden core when she manages to break through to golden core realm."

Coril couldn't help but thought to himself as he looked silently at Julia while nodding his head with a look of approval on his face.

However, unbeknownst to Coril, and everyone within the room, the main reason as to why Julia managed to go into cultivation enlightenment wasn't because Julia possessed a high comprehension toward cultivation, or because of Coril's lecturing.

In truth, the main reason that Julia was able to go into cultivation enlightenment was thanks to the yang spiritual energy within her body, which was bestowed to Julia thanks to the yang core's ability, phoenix's blessing.

There was a reason as to why the phoenix's blessing was something that was coveted by many...

And why during the past eras, many high-realm female cultivators were willing to marry phoenixes, and even more, some high-realm female cultivators would even go so far to capture and enslave phoenixes, not afraid in the slightest of the consequences that would come from offending the phoenix race.

Aside from the fact that the phoenix's blessing ability was able to help increase the spiritual energy of the user's partners...

One of the other effects of the phoenix's blessing that was not known to many was that the yang spiritual energy that was passed over from the user's body to the user's partners was able to increase the luck of the user's partners!

Luck, one of the few most important factors toward cultivating, and was also one of the hardest factor to attain!

And yet, the phoenix's blessing was actually able to help increase the luck of the user's partners!

Right now, if Coril were to use his spiritual sense to look into Julia's body, he would be able to see that the yang energy that he had previously saw to be scattered around Julia's spiritual energy was already about to be completely depleted.

And this was basically the sign that Julia was using up the yang energy's luck in order to go into this cultivation enlightenment that she was experiencing right now.

Without long, after what seemed like a few minutes had passed since Julia had broken through to level 5 energy refining realm...

Chapter 80: Julia, level 6!

Julia actually managed to break through her cultivation level again, and this time, going from level 5 of energy refining realm to level 6 of energy refining realm!

And just like before, after reaching level 6 of energy refining realm, the spiritual energy that was within Julia's body was still being refined at an astonishing speed.

This time, because there wasn't much spiritual energy left within Julia's body, it merely took a minute for Julia to finish refining the spiritual energy, and when the remaining spiritual energy refined was refined, Julia could sense that her energy core was currently about 15% filled with refined spiritual energy!

Fortunately for Miuna, Julia didn't end up breaking through another cultivation level after having already broke through 2 cultivation levels and arrived at level 6 of energy refining realm.

Otherwise, if Julia somehow managed to end up becoming the same cultivation level as her, which was level 7 of energy refining realm...

It was unsure if Miuna's slight feeling of jealousy won't end up turning into a huge feeling of jealousy, especially when considering the fact that Julia was only 18 years old and Julia was currently already at level 6 of energy refining realm, while Miuna was already 27 years old, and she was currently only at level 7 of energy refining realm.

Right after Julia was done refining all of the spiritual energy that had entered into her body, the profound aura that was surrounding Julia's body could be seen dissipating at a rather fast speed.

Evidently, the dissipating of the profound aura was a sign that Julia's cultivation enlightenment state was coming to an end.

Shortly after what seemed like a minute had passed... Due to the fact that the cultivation enlightenment state had ended, Julia could be seen slowly opening her eyes and slowly regaining consciousness.

In truth, during cultivation enlightenment, for the cultivator who was experiencing the cultivation enlightenment, it would feel as if they were lost in a trance, all the way until the cultivation enlightenment was over.

Of course, during the cultivation enlightenment, it was possible for the cultivation enlightenment to get interrupted and come to an end quickly.

Fortunately for Julia, everyone who was within the cultivation room was her family member and didn't have any reason to purposely wake her up from her cultivation enlightenment state.

Shortly after Julia had regained her consciousness and realized what had happened, Julia hurriedly stood up and cupped her hands at Coril, then gave her thanks to Coril with her voice filled with sincerity, "Thank you, great grandpa! If it wasn't for your enlightening, I wouldn't have been able to go into the cultivation enlightenment state and end up breaking through from level 4 to level 6 of energy refining realm!"

Evidently, by listening to the words that came out from Julia's mouth, just like everyone within the cultivation room, Julia also thought that the reason she had managed to go into cultivation enlightenment was all thanks to Coril's enlightening.

Meanwhile, upon hearing Julia's voice that was filled with sincerity while she was thanking him, a bright smile immediately appeared on Coril's face as he laughed heartily, then said to Julia after shaking his head at Julia.

"Hahaha!"

"Julia, you don't have to put all the contribution of you being able to go into cultivation enlightenment onto me!"

"If it were not for the fact that you yourself possess a rather high level of comprehension toward cultivation, even if I had indeed tried to enlighten you, you wouldn't have been able to go into cultivation enlightenment solely just from my enlightening."

"The fact that you are able to go into a cultivation enlightenment is proof that you possess the capability of reaching the realm of golden core realm!"

"Therefore, Julia, there's no need for you to belittle yourself just because of your aptitude, you can feel proud of yourself!"

Upon hearing Coril's praise, it would be a lie for Julia to say that she didn't feel like tearing up, however, she somehow managed to hold herself back from tearing up.

"En!" Instead, Julia merely nodded her head and let out a loud groan in response to Coril's praise.

On the other hand, Coril couldn't wait to quickly leave his house and go to meet with Sebastian, so that he could quickly start confirming some things that were within his mind before he start planning things and doing things that were pertaining to the Lisandris Family's future.

Thus, after Julia let out a groan, to prevent further meaningless conversations from happening, Coril quickly stood up from his seat, then said to everyone within the cultivation room as he began walking toward the cultivation room's door.

"Alright, since Julia has just broken through her cultivation levels, it would be best if Julia quickly return back home so that she could go focus on stabilizing her new cultivation level."

"Thus, let's put the chattering to a stop for now. We can continue this chattering any other day, whenever we want."

"Come, follow me out of the house. Since I'm currently free, I will see all of you back to your house."

"For now, let's send Julia back home first, and while we are at Julia's house, I want to take this chance to meet with Sebastian."

Soon after, everyone arrived outside of Coril's house, and Coril could be seen tossing a magic flying tool into the sky.

Looking at the magic flying tool, it was basically the same as Dave's magic flying tool, which was a flying disc.

However, different from Dave who had to grab onto Julia and Miuna's necks in order to carry them, all Coril had to do was to envelop his spiritual sense over everyone, and in the next moment, everyone could be seen flying and landing onto the flying disc.

Flying by using spiritual sense and controlling things or people by using spiritual sense were things that most high-level golden core realm cultivators were able to do.

Shortly after, within just less than a minute, everyone had landed at the front gate of Julia and Sebastian's house.

But right before Julia had opened the gate, Julia looked over to Coril and said with a somewhat nervous tone to her voice...
