

## Path to Immortality Begins With Marriage #Chapter 91: Lingerie sets - Read Path to Immortality Begins With Marriage Chapter 91: Lingerie sets

### *Chapter 91: Lingerie sets*

"Tell me, Julia, has Sebastian seen you wearing this set of underwear?" Miuna asked with a solemn look on her face.

"Nope! So far, Sebastian had only seen me wearing the red bra and red panties." Julia answered hurriedly.

"Hmm... Good. If that's the case, it means you are fine. Just remember, from now on, do not ever show yourself wearing such boring and plain looking underwear if you don't want Sebastian's sexual attraction toward you to decrease, you understand?"

"Understood!" Julia nodded her head and responded hurriedly right as Miuna had finished speaking, and right after, Julia asked, "Miuna, which pair of lingerie do you think I should wear that will help me to make Sebastian become extremely aroused?"

While speaking, Julia opened the wardrobe, then began taking out a bunch of lingerie sets that were in the wardrobe, and when Miuna looked at the lingerie set after another lingerie set that Julia began taking out from the wardrobe and laying down on the bed, Miuna came to realize that some of the lingerie sets weren't given to Julia by her.

"Wait, Julia, where did you get these lingerie sets from? I don't remember giving you these lingerie sets. Aren't these lingerie sets way more alluring and seductive than the lingerie sets that I gave to you?"

Miuna asked with a confused expression as she picked up a pink color lingerie set from the bed, and looking at the pink color bra and panties, cuts could be seen to have been made on the bra and panties, which would allow the wearer's nipples and pussy to be shown through the cuts.

Compared to the lingerie sets that she gave to Julia, which were mostly lacy and slightly transparent in some parts, it was evident that the other lingerie sets that Julia possess was way more alluring and seductive.

"Heh... heh..." After letting out an awkward laugh, Julia said somewhat embarrassedly, "I bought these lingerie sets from the dual-cultivation department's lingerie store..."

Upon hearing Julia's answer, Miuna's brows couldn't help but raise as she let out a meaningful groan, then continued on asking, "Hmm...? Is that so? So, when did you bought these lingerie sets from the dual-cultivation department's lingerie store?"

"Well... a few days before you gave me those lingerie sets..." With an awkward look on her face, Julia pointed to the lingerie sets that Miuna had gave to her.

"You sneaky little thing! The lingerie sets that you bought are way more seductive and alluring than the lingerie sets that I gave to you, and yet, when I gave those lingerie sets to you, you still dared to act shy and embarrassed?!"

Right after Miuna finished speaking, Miuna gave a light knock onto Julia's head once again with her right fist.

"Ow... Can you stop hitting me like this? What are you going to do if I'm unable to grow tall because of you!"

"Also, it's not like I was pretending to be shy and embarrassed! I was really shy and embarrassed when you gave those lingerie sets to me!"

Upon speaking up to here, Julia pouted her lips and said in a low voice, "In any case... Even though I bought these lingerie sets from the dual-cultivation department's lingerie store, it's not like I was really intending to wear them... Those big sisters that were from the lingerie store were too passionate when I visited their lingerie store, and in the end, I just somehow ended up buying a few lingerie sets that they recommended to me..."

Upon hearing Julia's grumble, Miuna merely rolled her eyes at Julia, then began picking up and taking a close look at the remaining lingerie sets that Julia had bought by herself.

Shortly after, Miuna picked up the pink lingerie set that had holes cut onto them and passed the pink lingerie set over to Julia, "I think that this pink lingerie set suits you the best. After all, pink color fits with your gentle and graceful appearance."

Upon speaking up to here, Miuna picked up two sets of lingerie from the bed, with one of the lingerie set being a black color one, and the other lingerie set being a purple color one.

Looking at the two sets of lingerie, both of them had the same design as the pink lingerie set that Julia was currently holding onto.

Evidently, the two sets of lingerie that Miuna had just picked up from the bed were bought by Julia.

Right after picking up the two sets of lingerie and placing the two sets of lingerie on her left hand, Miuna grabbed onto the spatial pouch that was hanging by the right side of her waist, then stored the two sets of lingerie into the spatial pouch.

"As for me, the colors of black and purple are most suiting for my seductive appearance! Thus, I will be taking these two lingerie sets with me!"

After Miuna was done storing the two sets of lingerie into her spatial pouch, Miuna then looked over to Julia, who could be seen to be standing in front of the wardrobe's mirror and undressing herself, evidently intending to wear the pink lingerie that Miuna handed over to her.

Shortly after, Julia, who had changed into the pink lingerie set could be seen looking at herself in the mirror, and when Julia was done looking in the mirror, Julia looked over to Miuna and asked, "So, how is it, Miuna? Does the pink lingerie set look good on me?"

"Yep, as expected, pink color does indeed suit you the best." Miuna nodded her head with approval as she looked at how Julia's body looked like while wearing the pink lingerie set.

"However, if you are intending on wearing this pink lingerie set during the next time you are having sex with Sebastian, I would recommend you to not do it."

"Hmm? Why not? Wouldn't it be best if I'm able to make Sebastian become aroused to the best that I can?"

#### *Chapter 92: Surnames*

Upon hearing what Julia said, Miuna immediately shook her head while clicking her tongue, then said solemnly, "Tsk, tsk, tsk. If that's what you are thinking, you are extremely wrong, Julia!"

"From the book, 'how to grasp your man in the palm of your hand', this is one of the warnings that is written in the book!"

"Men are all fickle creatures, no matter how much they tell you that they love you, and how they only have eyes for you, if a woman isn't able to maintain her sexual attraction toward her man, it is but only time until the man ends up cheating on his woman with another woman!"

Right as Miuna finished speaking, a slight frown immediately appeared on Julia's face as she hurriedly opened her mouth to defend Sebastian, "You are wrong! The book is wrong! Sebastian's isn't a fickle creature at all! Sebastian is..."

Before Julia was able to begin telling Miuna just how good Sebastian was, Julia was cut off by Miuna.

"Alright, alright. I'm not saying that Sebastian is fickle, I'm just merely quoting what is written in the book!"

Miuna said while rolling her eyes at Julia, then continued on speaking.

"Look, even if the book may not be completely correct regarding its warning, but there are still some truth toward the warning!"

"If we aren't able to maintain Sebastian's sexual attraction toward us... In the future, when Sebastian has plenty other wives aside from us, even if Sebastian still truly loves the both of us, do you think Sebastian would still be keen to constantly spend nights having sex with either of us?"

"Julia, you wouldn't want the both of us to end up having to constantly spend nights alone in our bedrooms because Sebastian is bored of the both of us and doesn't have any more sexual attraction toward us, right?"

While Julia was listening to Miuna speak, a worried look could be seen appearing onto Julia's face, evidently that Julia herself felt that what Miuna had said made sense.

Thus, right as Miuna had finished speaking, Julia immediately walked over to the bed, then sat onto the bed and hugged onto Miuna's left arm, then asked hurriedly while with a worried and hopeful look on her face, "Of course not, why would I want that to happen! Miuna, you must have something in your mind to prevent this from happening, right?!"

With a smug look on her face, Miuna answered, "Naturally! Do you think I read all of those books for nothing?"

"Look, as Sebastian's women, I'm not saying that we shouldn't do our best to make Sebastian become as aroused as he possibly could..."

"What I want to say is that, we should take things slowly, so that we don't end up exhausting our means of surprising Sebastian when we are having sex with Sebastian in the future!"

"Take this pink lingerie set for example. If you were to wear this pink lingerie set during the next time that you have sex with Sebastian, it would mean that you would be destroying your future chances of surprising Sebastian by wearing other sexy lingerie!"

"After all, once you have worn this pink lingerie set, I'm sure there won't be much more lingerie that possess designs that could surpass the sexiness of this pink lingerie set's design!"

"This is why I am recommending you to not wear this pink lingerie set during the next time that you have sex with Sebastian."

Upon speaking up to here, Miuna picked up a white color lingerie set, and looking at the white color lingerie set, the bra and panties were made with white lace, which allowed the skin of the wearer's breasts and pussy to be seen through the gaps of the white lace, but at the same time, since the most important parts, the nipples and pussy were

completely covered by pieces of fabrics, it allowed the wearer to not look as vulgar as when wearing the pink lingerie set that had cuts on the bra and panties, which caused the wearer's nipples and pussy to be shown completely.

"Instead, you should wear this white color lingerie set instead! Since this white color lingerie set is evidently sexier than the bra and panties that you wore previously when you had sex with Sebastian, this white color lingerie set should be more than enough to arouse and surprise Sebastian during the next time you have sex with Sebastian."

"And when you feel like Sebastian may be getting bored of this white color lingerie set, you should start switching to this..."

"Followed by this..."

While speaking, Miuna began handing over the various other lingerie sets that had different designs and color on them, but at the same time, none of those lingerie sets were as alluring when compared to the pink lingerie set that had holes in it.

"After you had worn all of those, then should you wear the pink lingerie set, you understand?"

"En!" Julia nodded her head while with a serious look on her face.

"Lastly, regarding things like threesome and..."

...

While Sebastian, Dave, and Coril were waiting at the gate for Miuna...

Because Miuna was taking much longer than they had expected, Coril decided to just go over some of the main things that he was intending to do for Sebastian.

And right before Miuna had finally come out from the house and was ready to leave...

These were the few things that Sebastian had learned from Coril.

Firstly, Sebastian was no longer a married-in son-in-law anymore, and instead, was now just a son-in-law.

Which means, the children that Sebastian would reproduce from mating with women that were from the Lisandris Family would no longer have to take after Lisandris Family's surname, and instead, could take after Sebastian's surname.

Of course, while telling Sebastian about this, since Coril wanted Sebastian's future children that were reproduced with the women from the Lisandris Family to possess the

surname, Lisandris, so that those children would have a strong sense of belonging to the Lisandris Family...

*Chapter 93: Piece of land*

And thus...

Coril proposed to Sebastian, if Sebastian was willing to allow his future children that were reproduced with the women from the Lisandris Family to take on the surname, Lisandris...

The cultivation resources that the children who possess the surname, Lisandris, will require in order to cultivate...

Such as things like energy stones, cultivation pills, weapons, armors, magic tools, and so on...

Everything will be handled by the Lisandris Family.

Furthermore, although those children will be taking on the surname, Lisandris, it's not like they weren't allowed to take on Sebastian's surname.

So, basically, if Sebastian agreed to the proposal, his future children will possess the surnames of both Force and Lisandris.

In the end, after Sebastian was done listening to Coril's proposal, without any hesitation, Sebastian agreed to Coril's proposal.

After all, there wasn't really any downside for him to accept Coril's proposal.

As for the second thing that Sebastian had learned from Coril...

It was regarding the 3 women that Coril was intending to marry him to...

And from what he had learned about those 3 women...

The first woman was called Veronica Lisandris, a woman who was a golden core realm cultivator, and also, a woman who was a widow.

The second woman was called Vanessa Lisandris, a woman who was a level 10 energy refining realm cultivator, and also, a woman who was a tier 1 level 3 talisman crafter.

However, in Sebastian's mind, the most important point regarding this woman was that, this woman was actually Veronica Lisandris's daughter.

And as for the third woman, the woman was called Liss Lisandris, a woman who was a foundation establishment realm cultivator, and most importantly... was actually Coril's daughter...

Initially, when Sebastian was done listening to the short introductions of the women that Coril was intending to marry him to, Sebastian couldn't help but ask Coril while with an awkward look on his face, "Erm... Great Grandpa Coril, is it really fine for me to marry those 3 women...?"

"Hmm? Why would it not be fine?"

"Well... you said that Veronica is Vanessa's mother, right...? If others learn that the both of them married me despite the fact they are mother and daughter, wouldn't they end up being looked at weirdly and talked badly about by others...?"

And as for Liss... Since she's your daughter, wouldn't it become awkward for us if I were to marry her? After all, I'm already married to your great granddaughter. So, if I were to marry your daughter, wouldn't you end up being both my great grandpa and father-in-law...?"

Upon hearing Sebastian's misgivings regarding marrying Veronica, Vanessa, and Liss, Coril let out a hearty laugh, then said leisurely while waving his right hand at Sebastian.

"Hahaha! Sebastian, there's no need for you to worry about such trifling matters!"

"Sebastian, do you know what's the most important thing within this world?"

"It is one's cultivation realm!"

"With Veronica's cultivation realm as a golden core realm cultivator, who would even dare to look weirdly at her or talk badly about her and her daughter? And even if some people dare to do so, they wouldn't dare to do it openly in front of the both of them, so there's no need for you to worry about Veronica and Vanessa!"

"As for your worries about things becoming awkward for us once you have married my daughter, there's really nothing for you to worry about at all!"

"If I don't feel that it's awkward at all, why should you feel awkward?"

"Also, rather than being just your great grandpa, wouldn't me being both your great grandpa and your father-in-law help to bring the both of us closer as a family? Don't you agree? Hahaha!"

Thus, in the end, after listening to what Coril said, Sebastian immediately let go of the misgivings he had regarding marrying Veronica, Vanessa, and Liss.

"I guess, in some ways, the Cultivation World is actually much more open-minded compared to my previous world, huh..."

This was what Sebastian thought to himself after listening to what Coril had said to him.

As for the third and last thing that Sebastian had learned from Coril...

It was that Coril was not only intending to give him a piece of land to build his own cultivation family on but was also intending to provide all of the various resources and manpower for building the various buildings that he intends to build on his land.

Of course, since Bright Moon City possesses strict rules regarding the creation of cultivation families within the Inner District and Middle District, the piece of land that Coril was intending to give to Sebastian was a piece of land that was located at the Outer District.

If Sebastian wants to possess the rights to build his cultivation family in the Middle District...

One of the requirements was for the cultivation family's family head to possess the cultivation realm of golden core realm, and evidently, it wasn't going to be any time soon for that to happen.

Thus, the Outer District was going to be where Sebastian was going to have to begin building his cultivation family.

Of course, Sebastian didn't really care about the fact that he will have to build his cultivation family in the Outer District, and even more, he was feeling overjoyed when he heard that Coril was not only intending to give him a piece of land to build his cultivation family, but was also intending on providing resources and manpower that will be needed for building the various buildings.

After all, before this moment, Sebastian still didn't have a clue on where he was going to build his cultivation family on, and how to go around with even getting a piece of land to build his own cultivation family on.

...

"Sorry to keep you all waiting!"

After what seemed like 10 to 15 minutes had passed since they have arrived at the gate...

Miuna had finally left the house, and right as Miuna walked out of the house, she could be seen running toward them while with an apologetic look on her face.

*Chapter 94: Butcher shop*

"Sorry, Great Grandpa Coril, I had some important things to talk about with Julia, which is why I ended up taking so long!"

Upon arriving at the gate, Miuna apologized once again as she bowed toward Coril.

"It's fine. In any case, it's not like we were doing nothing and wasting time while waiting for you."

Upon speaking up to here, Coril looked over to Sebastian, then said amicably, "Alright, Sebastian, since Miuna is here, I will be taking my leave now. I will see you tomorrow afternoon during your wedding with Miuna."

"Got it. See you tomorrow, Great Grandpa Coril." Sebastian said while cupping his hands at Coril.

After nodding his head in satisfaction toward Sebastian's response, Coril took out a magic flying disc from his spatial ring, then tossed the magic flying disc into the sky.

Right after, Coril used his spiritual sense to carry both Dave and Miuna onto his magic flying disc, then began flying away at high speed into the distance.

"Hmm... So, I will be marrying Miuna tomorrow afternoon..."

"This means that, I am going to be able to break through to becoming an official talisman crafter tomorrow!"

"After all, since Miuna is the same as Julia, whereby she is also an apprentice talisman crafter..."

"Once I had sex with Miuna tomorrow and successfully impregnated her, just as I did after impregnating Julia, I will most likely be able to obtain 100 experience points of talisman crafting..."

"And with the 100 experience points of talisman crafting, my talisman crafting's experience points will go from 450.25/500 to 550.25/500!"

"Of course, that is if the additional 50.25 experience points won't be eaten up by the system."

Sebastian thought to himself as he looked into the distance where Coril had flew toward, then turned around and began heading back to his house once he was done with his thoughts.

...

Right as Sebastian had returned back home, as Sebastian arrived at the living room and saw that Julia wasn't at the living room, nor the kitchen, Sebastian began calling out for Julia as he walked over to the bedroom to check if Julia was in the bedroom or not.

"Julia, where are you?"

Right as Sebastian arrived in front of the bedroom, he noticed that the bedroom door was closed, and as he turned onto the doorknob, he came to find out that the door was locked.

Immediately, Sebastian knew that Julia was currently inside the bedroom.

"Julia, it's me, open the door." Sebastian shouted out as he knocked onto the door.

And right as Sebastian did that, Julia's slightly flustered voice could be heard ringing out from within the bedroom.

"Ah! Wait! Give me a moment!"

"I'm... I'm changing right now!"

Upon hearing Julia's voice that was evidently slightly flustered, although Sebastian didn't know what there was for Julia to be flustered about, and even go so far as to lock the door, after all, he had already seen her naked body...

However, Sebastian didn't think too much of it and shouted out to Julia.

"It's fine, there's no need for you to rush yourself, you can take your time! When you are done changing, you can find me at the kitchen!"

Unbeknownst to Sebastian, the reason as to why Julia was so flustered was because she was still dressed in the pink color lingerie that she had changed into a while ago, and also because Sebastian's loud voice ended up surprising her and giving her a startle, as right before Sebastian's loud voice had rang out, she was completely immersed in reading an erotic picture book that Miuna had given to her a while ago.

...

After what seemed like 10 minutes had passed since Sebastian had arrived at the kitchen and was done heating up the pot of chicken ginseng soup, Julia was finally done changing and has arrived at the kitchen.

Upon seeing that Sebastian was once again inspecting closely onto the plate of chicken that had various chicken parts on it, Julia walked over to Sebastian's back and placed her hands onto Sebastian's shoulders, then looked over Sebastian's right shoulder and

asked with a curious look on her face, "Darling, what are you doing inspecting so closely onto those chicken parts?"

"When Great Grandpa Coril and the others came to visit you just now, we saw you doing the same thing as you are doing right now."

"Is there something wrong with the chicken...?"

The moment Julia voice rang out behind him, Sebastian immediately stopped examining onto the chicken parts and looked over to Julia, and right as Julia finished speaking, Sebastian gave a short answer to Julia, then hurriedly asked her where she got the chicken from.

"No, there's nothing wrong with the chicken."

"Julia, where did you get this chicken from?"

Upon seeing the look of expectant that Sebastian had on his face as he asked her where she got the chicken from, although Julia didn't know why Sebastian was so eager to learn about where she got the chicken from, Julia didn't think too much about it and answered nonchalantly as she moved to the side and sat onto Sebastian's legs, then hugged onto Sebastian's neck.

"This chicken? I bought it from a butcher store that's located at the market district."

Upon hearing Julia's answer, Sebastian's eyes immediately lighted up as he hurriedly continued on asking, "Do the butcher store sell a lot of the same kind of chicken that you bought from them?!"

"Of course they do. Why do you ask that? Did you like how their chicken tastes? If you want, I can wake up early tomorrow to go and buy a few of their chicken for you."

Upon speaking up to here, Julia said with a proud look on her face, "For tomorrow's meal, it should be my turn to cook! Let me tell you, you are definitely going to be surprised by my cooking!"

"Haha, is that right? I should look forward to the meal that you are going to prepare for me then."

*Chapter 95: Spatial item's ownership*

"Oh, that's right! Here, this is what Great Grandpa Coril gave to me when Uncle Dave brought me and Miuna over to visit Great Grandpa Coril."

While speaking, Julia pulled out the ring that she was wearing on her right middle finger, then handed the ring over to Sebastian.

After passing the ring over to Sebastian and seeing that Sebastian was inspecting onto the ring with a curious look on his face, Julia continued speaking.

"This is a tier 2 spatial ring, and within the ring are various cultivation resources."

"Great Grandpa Coril said that the tier 2 spatial ring and various cultivation resources that are within the ring are his first-time meeting gift for me since it was the first time that he and I have met with each other."

"When Great Grandpa Coril gave the tier 2 ring to me, he said that the cultivation resources are meant for both me and you to use. However, I know that the reason main reason that Great Grandpa Coril had even bothered preparing a gift for me was because of you."

"Thus, remember to give your thanks to Great Grandpa Coril tomorrow when you see him again."

Right after Julia finished speaking, Sebastian muttered in a low voice as he fiddled around with the ring, evidently to seem to be trying to use the ring, "Is that so? I will remember to do so when I see Great Grandpa Coril again tomorrow."

Right after Sebastian finished speaking, Julia positioned her body so that she could rest her body more comfortably onto Sebastian's body, then remained still as she silently watched Sebastian fiddled with the ring.

After what seemed like a minute or two had passed, upon seeing that Sebastian was still fiddling around with the ring while with a slight frown on his face, Julia seemed to finally understand that Sebastian actually did not know how to use the spatial ring, and immediately, she couldn't help but let out a laugh as she poked her right index finger onto Sebastian's left cheek and said teasingly while with a grin on her face.

"Pfft! Darling, are you trying to figure out how to use the spatial ring? Do you need me to teach you how to use the spatial ring? Of course, if you want to try figuring it by yourself, I don't mind accompanying with you and wait for you to finally figure out how to use the spatial ring."

Upon hearing what Julia said, Sebastian let out an awkward laugh to hide his awkwardness, "Cough, cough. I think it's better if you just teach me how to use the spatial ring."

"Hehe. Why are you so adorable, darling? Mwah!" Upon seeing Sebastian's reaction, Julia couldn't help but let out a giggle, then kissed onto Sebastian's cheek.

As expected of a woman who was in her honeymoon phase with her husband. In Julia's eyes, no matter what Sebastian did, Julia felt that Sebastian looked extremely adorable and handsome.

Right after giving a kiss onto Sebastian's cheek, Julia began teaching Sebastian how to use the spatial ring.

"It's very easy to use the spatial ring. Darling, control your spiritual energy and inject your spiritual energy into the spatial ring."

Upon hearing what Julia said, a confused look appeared on Sebastian's face as he said, "That's all? But I did just that a while ago, and nothing happened to the ring."

"Did you make sure to fill the spatial ring full of spiritual energy when you injected your spiritual energy into the spatial ring?"

You have to fill the spatial ring with your spiritual energy so that the spatial ring will be able to recognize you as its owner.

After you are done filling your spiritual energy within the spatial ring, the next time you use the spatial ring, all you have to do is to connect your spiritual energy to the spatial ring and you would be able to access the spatial ring's spatial space.

I have already retracted all of my spiritual energy from the spatial ring, so, the spatial ring currently doesn't have an owner. And since the spatial ring doesn't have an owner, you won't have to spend time overwriting your spiritual energy over the existing spiritual energy that is within the spatial ring to gain ownership of the ring."

In the Cultivation World, because of how spatial rings and spatial pouches work, if a lower realm cultivator were to steal a high realm cultivator's spatial item, the lower realm cultivator wouldn't be able to even open the spatial item due to not possessing the cultivation strength to overwrite the spatial item's spiritual energy and gaining ownership of the spatial item.

This situation sometimes makes cultivators who make their money by robbing graves, houses, and stores to be put in a difficult situation when they come across spatial items that belonged to cultivators who possess higher cultivation realms than them.

Of course, there were various stores that provide services for opening spatial rings and spatial pouches, but those stores would normally ask for a huge price, and even worse...

After opening the spatial ring...

When the contents that were within the spatial item were found to possess an incredibly high value, if a cultivator didn't possess any background, some stores would even go so far as to killing the cultivator and keeping the spatial item for themselves.

"Ah... That explains why nothing happened just now. I merely inserted a bit of my spiritual energy into the ring, then retracted back my spiritual energy when I saw that nothing was happening to the ring. Give me a second, let me give it another try."

After Sebastian finished speaking, he began doing what Julia had told him to do, and without long, Sebastian managed to gain ownership of the tier 2 spatial ring.

And upon forming a connection with the spatial ring, despite not possessing spiritual sense, he was able to see within the spatial ring's spatial space just by connecting his spiritual energy to the spatial ring.

#### *Chapter 96: Slabs of meat*

Right as Sebastian looked into the spatial ring's spatial space, he discovered that the spatial space was about 3 cubic meter square large, and within the spatial space, there was a pouch, a huge stack of energy stones, 5 huge slabs of meat that seemed to be about 10 kg in total, various medicinal herbs, various bottles of cultivation pills, a few bottles of honey, and a Chinese compass looking thing that seemed to be a magical tool of sorts.

After taking a look at everything that was within the spatial ring, without any hesitation, Sebastian began taking out everything from the spatial ring.

Interestingly, when Sebastian was about to take out the first item from the spatial ring, he was able to sense that the distance in which he was able to make the item appear onto mustn't be more than 30 centimeters away from him.

And thus, Sebastian extended out his right hand toward the table before him, then began taking out one item after another from the spatial ring.

Without long, everything that was within the spatial ring appeared on the table.

"Hmm?!"

For some reason, the 5 slabs of meat ended up being the last item that Sebastian took out from the spatial ring, and right as the 5 slabs of meat appeared on the table, Sebastian immediately let out a surprised groan as he looked at the 5 slabs of meat.

After all, right when the 5 slabs of meat appeared on the table, not only could Sebastian sense that his four divinity beasts reconstruction technique was revolving at high speed, but Sebastian also suddenly had an urge to devour the 5 slabs of meat before him.

Or to be more precise, he suddenly had an urge to absorb the dragon essences that were contained within the 5 slabs of meat.

"Dragon essence?! Again?!"

After Sebastian thought to himself in his own mind, Sebastian looked over to Julia and asked curiously, "Julia, do you know what these 5 slabs of meat are?"

"Hmm, let me think for a moment... Ah! That's right! I remember Great Grandpa Coril saying '10 kg of a foundation establishment realm beast's meat' when he took out those 5 slabs of meat. Therefore, those 5 slabs of meat should be the meat of a foundation establishment realm beast."

"Is that so? Foundation establishment realm beast, huh..."

Right after Sebastian muttered in a low voice, Sebastian stretched his right hand forward and picked up one of the 5 slabs of meat.

Right after, Sebastian began inspecting closely onto the slab of meat, trying to see just what was different about the meat of a foundation establishment realm beast.

Shortly after, upon seeing that the slab of meat looked no different than a slab of cow meat in his previous world, Sebastian stopped inspecting onto the slab of meat.

After Sebastian placed the slab of meat back onto the table, Julia stood up from Sebastian's lap and began introducing Sebastian to the various items that were on the table.

The first item that Julia introduced to Sebastian were the energy stones.

"These are the energy stones that Great Grandpa Coril gave to us. Within this pile of energy stones, there are 10 top-quality energy stones, 100 middle-quality energy stones, and 200 lower-quality energy stones."

Upon speaking up to here, Julia picked up the Chinese compass looking magic tool, then continued speaking.

"However, the top-quality energy stones and middle-quality energy stones are meant for using on this energy congregation magical tool."

"Great Grandpa Coril said that once we have activated this energy congregation magic tool, once a few days have passed, the spiritual energy within our house will basically become close to that of a tier 3 cultivation cave!"

"A tier 3 cultivation cave! That's something that usually only golden core realm cultivators possess!"

"With the help of this energy congregation magical tool, our family's cultivation speed will be increased by a lot compared to normal!"

"Since we are on this topic, how about we take this chance to activate this energy congregation magical tool? Here, darling, you hold onto this first."

After passing over the energy congregation magical tool to Sebastian, Julia picked up a piece of top-quality energy stones and 10 middle-quality energy stones from the stack of energy stones, then said to Sebastian before walking over to the large foyer, which was connected to the living room, cultivation room, talisman crafting room, bedrooms, the house door, and the staircase that led to the second floor of the house.

"Come, follow me."

Upon arriving at the large foyer, Julia began sizing up the surroundings, and after a short moment, Julia walked over to the outside of the cultivation room.

Upon arriving at the outside of the cultivation room, Julia nodded her head as she muttered in a low voice, "Hmm... This spot should be good enough to place the energy congregation magical tool."

Julia then pointed over to the cabinet that was situated right by the staircase and said to Sebastian, "Darling, can you go and move that cabinet that is by the staircase over here, so we can place the energy congregation magical tool on top of the cabinet."

"Sure thing."

Upon arriving at the cabinet, Sebastian placed the energy congregation magical tool on top of the cabinet, then began dragging the cabinet over to Julia.

"Bring the cabinet over here..."

"That's right, this spot right here..."

"Good job darling, mwah!"

"Now... Since we have placed this energy congregation magical tool in the middle of our house, all there is left to do is to place 1 top-quality energy stone and 10 middle-quality energy stones onto this energy congregation magical tool."

Right as Julia placed the energy stones onto the energy congregation magical tool, the formation that was attached to the energy congregation magical tool immediately become activated, and right in the next moment, both Julia and Sebastian could sense that the amount of spiritual energy that was around them was increasing at a considerable speed.

*Chapter 97: Honeymoon phase*

"As expected of an energy congregation magical tool that is able to help mimic a tier 3 cultivation cave! We have only just activated the energy congregation magical tool, and yet, I can already sense that the spiritual energy that is within the air is increasing at a considerable speed."

"Alright, we can leave this energy congregation magical tool by itself for now, all the way until the energy stones' spiritual energy had been depleted by the energy congregation magical tool."

"Come Sebastian, let's head back to the kitchen, I will introduce you to the rest of the items that Great Grandpa Coril had gave to us."

Shortly after Sebastian and Julia arrived back at the kitchen, Julia began introducing the rest of the items to Sebastian.

After Julia was done introducing pretty much everything on the table to Sebastian, Julia then picked up onto the last item, which was the spatial pouch.

"This is a tier 1 spatial pouch, and within the spatial pouch are a few jugs of tea leaves."

Upon speaking up to here, Julia took out the few jugs of tea leaves that were stored within the spatial pouch's spatial space, then introduced the tea leaves to Sebastian.

"Great Grandpa Coril said that those tea leaves are beneficial for strengthening our spirit and body, but to prevent our spirit from being overwhelmed by the tea, we shouldn't drink too much of the tea in one go and should drink in moderation."

"As for this spatial pouch... Since you already have the spatial ring, I will keep this spatial pouch for myself to use!"

Upon speaking up to here, Julia sat onto Sebastian's lap once again, then said playfully while with a grin on her face, "You wouldn't mind it, would you, darling?"

"Of course not." After shaking his head helplessly, Sebastian took out the spatial ring from his right index finger and placed the spatial ring onto his left palm, then continued on speaking as he extended out his left palm to the front of Julia's eyes, "Though, are you sure you want the spatial pouch? Don't you want this spatial ring instead? Cause, if you want it, I don't mind exchanging the spatial ring for your spatial pouch."

"In any case, it's not like I have anything much to store into the tier 2 spatial ring. Therefore, a tier 1 spatial pouch is more than enough for me to use."

While Sebastian was speaking, the gentle smile that was on Julia's face could be seen turning wider, and after Sebastian finished speaking, Julia shook her head as she

picked up the spatial ring from Sebastian's left palm, then inserted the spatial ring back into Sebastian's right index finger.

"It's fine, the spatial pouch is more than enough for me to use too. You can keep the spatial ring for yourself to use."

Upon speaking up to here, Julia then kissed her lips onto Sebastian's lips.

And shortly after Julia pressed her lips onto Sebastian's lips, Julia embraced onto Sebastian's neck, then inserted her tongue into Sebastian and began French kissing ardently with Sebastian.

"Hmm..."

While Julia coiled her tongue around Sebastian's tongue and sucked onto Sebastian's tongue from time to time, Julia continuously let out muffled moans from her mouth, evidently to be completely absorbed and thoroughly enjoying her French kissing with Sebastian.

After what seemed like a few minutes had passed, then did the two separate from each other, and as the two separated from each other, Julia began panting heavily for breath as she looked passionately and affectionately into Sebastian's eyes.

"Hah... hah..."

After Julia was done catching her breath, she began moving her head forward, evidently intending to continue on French kissing with Sebastian.

However, right before Julia was able to do so, Sebastian pressed his right index finger onto Julia's forehead and stopped her from moving her head forward.

With a helpless look on his face, Sebastian said helplessly, "Julia, if you continue on French kissing with me, I don't think I will be able to hold myself back from having sex with you."

Upon hearing what Sebastian said, Julia pouted her lips adorably and said lovably, "If you can't hold yourself back, then don't bother holding yourself back. In any case, it's not like I mind it at all. I'm completely fine with having another round of sex with you. So, let me continue on kissing with you already."

Right as Julia finished speaking, Julia grabbed onto Sebastian's right index finger with her right hand and moved the right index finger away from her forehead, then began moving her head forward once again.

However, once again, right as Julia had moved her head forward by a tiny bit, Sebastian stopped Julia from continuing moving her head forward by grabbing onto her forehead with his left hand.

"Alright, alright. Let's save this for when night arrives, okay? In any case, didn't we already have so much sex with each other just a while ago?"

"Humph! It's not enough at all! I want to spend even more time having sex with you! Especially while you are still only just mine and mine alone!"

Julia let out a snort, then said while with her lips pouted up high.

"Fine, fine, but at the least, can we do it after we are done eating first? You still haven't eaten much since this morning, haven't you? Don't you feel hungry at all?"

"I don't feel hungry at..."

"Growl..."

Right before Julia was able to finish speaking, Julia's stomach suddenly let out a huge growl, and immediately after, an awkward yet embarrassed look appeared on Julia's face as she muttered in a low voice, then quickly got off from Sebastian's lap and went over to the stove to pour herself a bowl of ginseng chicken soup.

"Fine, fine. I will eat first..."

Upon seeing Julia's reaction, Sebastian couldn't help but shake with his head while with a smile on his face, then stood up from his seat.

*Chapter 98: More dragon essence*

Right as Sebastian stood up from his seat, Sebastian stored everything that was on the table into his spatial ring, except for 1 slab of meat.

In actuality, the real reason as to why Sebastian stopped Julia's advances onto him was because he wanted to test and see just how much progress he would be able to make toward his thoracic spine after he was done absorbing the dragon essence that was within the slab of meat.

After picking up the slab of meat, Sebastian walked over to the kitchen, then began slicing the slab of meat into steaks and cubes so that it would be easier to cook in a pan.

From the slab of meat, Sebastian ended up obtaining 12 pieces of steaks and a bunch of meat cubes.

After Sebastian was done with cutting the slab of meat, Sebastian took out a pan from the kitchen cabinet, then began heating up the pan.

Right as the pan was heating up, Sebastian looked over to Julia, who could be seen sitting on the table and slowly drinking onto her bowl of ginseng chicken soup, then asked Julia while pointing toward the steaks and meat cubes.

"Julia, what do you want, steak or cubes?"

"Cubes for me, I don't think I will be able to finish an entire steak. Also, just a few small cubes of meat will be enough for me. Darling, don't forget, this is the meat of a foundation establishment realm beast. It will be bad if you eat too much of it and end up not being able to completely refine the energy that is within the meat. So, make sure that you don't cook too much of the meat. I think that a few cubes should be more than enough for you too."

"Don't worry, your husband's body is much stronger than you think, even if this meat is the meat of a foundation establishment realm beast, it's not going to be much of a deal for my body to refine! Therefore, instead of just a few cubes of meat, your husband is going to have a few pieces of steaks!"

"Hmm...? Darling, are you sure you will be able to finish a few pieces of steaks by yourself? You know that you will feel extremely uncomfortable if you are unable to refine the energy that's contained within those few piece of steaks, right?"

Upon hearing what Sebastian said, a slight frown appeared on Julia's forehead as she asked with a worried tone to her voice.

"Don't worry, don't worry! Did you forget? Your husband is someone who has awakened a special body! In any case, if I do feel full, I won't force myself to eat more than I'm able to, so you don't have to worry about me at all!"

Upon hearing what Sebastian said, Julia felt that what Sebastian said made sense, and thus, she stopped worrying and continue on with drinking her ginseng chicken soup.

"Sizz..."

Not long after, Sebastian began cooking a few small cubes of meat for Julia first, and as the few small cubes of meat landed onto the pan, sizzling sound and a strong aromatic aroma began filling the entire kitchen.

"As expected of the meat of a foundation establishment realm beast, just the smell of it while it is being cooked is more than enough to make me salivate! This is making me look even more forward to tasting how this meat actually tastes like!"

Upon smelling the strong aromatic aroma that was being emitted out by the few small cubes of meat, Sebastian couldn't help but think to himself.

Not long after Sebastian was done cooking the few small cubes of meat, he placed the few small cubes of meat onto the chopping board that was not far away from him and allowed the few small cubes of meat to rest.

Meanwhile, while the few small cubes of meat were resting, Sebastian began cooking the few pieces of steaks that he was going to eat by himself.

"Sizz..."

"Sizz..."

Since there were a few pieces of steaks, Sebastian used 2 pans to cook the steaks, so that he could cut short the amount of time that was needed to finish cooking all of the steaks.

Not long after, Sebastian who was done with cooking everything could be seen sitting at the table with Julia, and on the table, there were two plates of meat.

On one of the plates, there were a total of 4 steaks on it, and on the other plate, there were a few small cubes of meat on it.

Since Julia was still trying to finish her bowl of ginseng chicken soup, Sebastian was the first one to test how the meat that belonged to a foundation establishment realm beast tasted like.

As Sebastian cut a huge piece of meat from one of the steaks and put the huge piece of meat into his mouth, a blissful look immediately appeared on Sebastian as he closed his eyes and let out a groan.

"Hmm..."

Right as the meat had entered into Sebastian's stomach, the four divinity beasts reconstruction technique revolved a single cycle, and immediately after, the meat was turned into dragon essence, followed by being absorbed into Sebastian's spine.

Shortly after tasting how the meat of a foundation establishment realm beast tasted like, Sebastian couldn't help but let out a sigh.

"Sigh..."

"Hmm...? What's the matter, darling? Why are you sighing? Is there something wrong with the meat?" Upon seeing that Sebastian let out a sigh while with a dejected look on his face, Julia asked curiously.

"No... there's nothing wrong with the meat at all. In fact, this meat is practically the tastiest thing I have ever tasted in my whole life."

"If that's so, why did you let out a sigh and look so dejected?"

Upon hearing Julia's question, Sebastian couldn't help but let out another sigh, "It's because... after tasting this meat, I don't think I will be able to enjoy dishes such as this ginseng chicken soup anymore..."

*Chapter 99: An entire slab of meat*

Upon hearing what Sebastian said, Julia couldn't help but roll her eyes at him, then ignored him and focused her attention back on continuing on finishing her bowl of ginseng chicken soup.

Unbeknownst to Julia, the real reason that Sebastian had a dejected look on his face after tasting the meat was because he felt that he could no longer imagine himself eating over ten thousand, and even more, hundreds of thousands of chicken, just for the sake of adding close to 0.1% of mere progress toward the completion of his thoracic spine.

After all... after tasting such heavenly food like the meat that he had just tasted, how could he possibly be able to stomach eating over 30 chickens in a single day?!

As for how Sebastian came to the conclusion of eating over 30 chickens in a single day, it was because that was the amount of chicken he felt that he could consume every day without feeling too sick of the taste of chicken.

Fortunately for Sebastian, so long as he managed to reach foundation establishment realm, he will no longer need to take in food into his stomach in order to be able to refine the food with his four divinity beasts reconstruction technique.

After all, once he reached foundation establishment realm, he will be able to refine essences just by using his hands.

And when he reaches golden core realm, he would be able to refine essences just by wrapping his spiritual sense around the thing that he was going to refine into essence.

But for now, while he was in the energy refining realm, he was going to have to swallow whatever that he was going to refine into his stomach first before he would be able to start refining whatever that he had swallowed into his stomach with his four divinity beasts reconstruction technique.

Not long after, Sebastian tossed aside his thoughts about what he was originally planning on doing daily with the chickens that he was going to buy from the butcher shop that Julia had bought a chicken from...

Then began focusing his attention onto finishing all of the steaks that was on his plate.

After what seemed like 6 minutes had passed, Sebastian was finally done with eating all of the steaks that were on his plate, and to tell the truth, Sebastian felt that he was completely able to finish all of the 5 slabs of meat in one go if he wanted to.

However, for now, Sebastian intends to finish cooking the rest of the steaks and cubes, followed by eating and refining everything in one go, so that he could gauge just how much 1 slab of meat would be able to contribute to the progress of his thoracic spine.

Without any hesitation, Sebastian stood up from his seat and walked over to the kitchen, then began cooking the rest of the steaks and cubes that he had cut up from a slab of meat just a while ago.

"Hmm...? Were those 4 steaks not enough for you? Are you intending to cook more of the steaks to eat...?"

Upon seeing that Sebastian was actually intending on cooking more steaks, a surprised look appeared on Julia as she asked with concern.

"That's right."

"How many more steaks are you intending to cook...?"

"Hmm... I'm intending on cooking everything that I have cut up a while ago."

"Everything...? Are you sure about doing that? Are you even done refining the meat that you have just eaten?"

Upon hearing Julia's voice that was evidently filled with concern, Sebastian looked over to Julia, then playfully flexed his right arm's muscle to Julia, so that he could get Julia to relax.

"Look at your husband's muscle! Do your husband look like someone who isn't able to refine a few steaks?"

"Pfft. Alright, don't mess around, I'm being serious with you!"

"Alright, alright. Julia, there's no need to worry. I'm not dumb enough to put my life at risk just for the sake of satisfying my gluttony. Also, those few steaks that I had just eaten have already been completely refined by me."

"You have already completely refined those few steaks...? Are you sure about that? How did you even manage to do that as an energy refining realm cultivator?" Upon hearing what Sebastian said, the concern that was on Julia's face immediately disappeared completely, and instead, right now, Julia's face was filled with curiosity.

"It's because of a cultivation technique that I'm cultivating. This cultivation technique allows me to refine various things that go into my stomach, and this meat that belongs to a foundation establishment realm beast is precisely one of those various things that I'm able to refine with my cultivation technique."

"What cultivation technique is that? Is this cultivation technique that you are cultivating a cultivation technique that can be learned from Bright Moon Sect?"

Upon hearing Julia's question, Sebastian turned around and began cooking his steaks onto the two pans that were pretty much done heating up, then explained to Julia about this cultivation technique.

"Nope, it's a cultivation technique that I obtained from a sort of inheritance. The cultivation technique is called four divinity beasts reconstruction technique."

Upon speaking up to here, Sebastian put on a grin on his face as he turned his head over and said jokingly, "You are the only one who knows about this, so, make sure not to tell anyone about this cultivation technique that I'm cultivating, okay? I don't want others to end up coveting this cultivation technique of mine when they learned about it."

Right as Sebastian finished speaking, he turned his head back toward the pans and focused his attention on cooking the steaks.

Meanwhile, Julia took Sebastian's word seriously as she said seriously, "Don't worry, I will take this secret of yours to my deathbed! No one will learn about this cultivation technique of yours from me!"

"Haha. Is that so? You have my thanks then." Upon hearing what Julia said, Sebastian merely let out a laugh, then said leisurely.

*Chapter 100: 0.05% progression*

In truth, Sebastian didn't really care if others found out that he possesses the four divinity beasts reconstruction technique.

After all, even if Julia ended up telling others about it, those people that Julia would have ended up telling would merely be people like Coril, Dave, and Miuna.

And if Coril and Dave were curious about this technique of his and wanted him to teach them about this technique, Sebastian's didn't really mind trying to teach them.

In any case, the four divinity beasts reconstruction technique was an incredibly difficult cultivation technique to learn and master.

From what Sebastian knew, back in the True Ancient Era, despite how many immortal realm cultivators there were during then, only a handful of cultivators managed to learn and master the four divinity beasts reconstruction technique.

And it has to be noted, there were plenty of immortal realm cultivators that tried to learn the four divinity beasts reconstruction technique but ended up failing to do so.

If this was the case for those immortal realm cultivators, who evidently possessed incredibly high aptitudes and cultivation comprehensions since they were able to climb all the way to the immortal realm...

What were even the odds that Coril and Dave would be able to successfully learn the four divinity beasts reconstruction technique even if Sebastian had tried to teach them about the technique step by step?

If one had to guess, the odds were probably less than 0.1%.

For Sebastian's case, the reason that he was even able to learn the four divinity beasts reconstruction technique and even possesses perfect proficiency of the four divinity beasts reconstruction technique was all thanks to the system.

If it were not for the system, and Sebastian had to learn the four divinity beasts reconstruction technique by himself, Sebastian was sure that he would have end up failing to learn the technique even if he was given multiple years to learn the technique.

Therefore, Sebastian became even more sure that he has to complete the missions that were given by the system as long as he was able to do so, and also try his best to obtain various achievements, so that he could obtain the rewards that came with obtaining the various achievements.

Not long after, Sebastian was finally done with cooking all of the remaining steaks and cubes of meat, and as he brought the few plates of food over to the table, he could see that Julia was finally close to finishing her ginseng chicken soup.

Right now, there was only a little bit of soup, few pieces of chicken meat, and a drumstick left in her bowl.

Upon seeing that, Sebastian couldn't help but think to himself, "Seems like girls are the same no matter if it was in my previous world, or in this world. Most of them take very long to finish their meal..."

As Sebastian placed the few plates down on the table, looking at the number of plates, there were a total of 4 plates, whereby 3 plates were used to place the steaks onto, while 1 plate was used to place the cubes of meat onto.

As Sebastian sat down on his seat, without any hesitation, Sebastian began eating and refining the steaks and cubes of meat.

Without long, after what seemed like 15 minutes had passed, all of the steaks and cubes of meat had been completely devoured by Sebastian.

Meanwhile, Julia could be seen having a fascinated look on her face as she finished her last small cube of meat while her gaze was fixed onto Sebastian.

Evidently, Julia found it fascinating that Sebastian was really able to eat and refine all of those meat with the help of the so-called "four divinity beasts reconstruction technique" that he had just told her about.

On the other hand, while Julia was fascinated by Sebastian's feat, Sebastian was currently looking at his stats tab.

[Current spine part that is being reconstructed – Thoracic spine (0.05001%)]

"So... a slab of foundation establishment realm beast's meat is actually able to provide 0.05% progress toward my thoracic spine!"

"This actually isn't too bad!"

Of course, Sebastian was aware that a few small pieces of meat that were cut out from the entire slab of meat was cooked and given over to Julia to eat, but since the few small pieces of meat was just an extremely small portion of the entire slab of meat, Sebastian just chose to assume that he had eaten the portion of an entire slab of meat.

"This means that, if I were to finish refining all of those 4 remaining slabs of meat that I have, I will be able to bring my thoracic spine's progress to 0.25%!"

"And if I were to calculate properly... assuming that a foundation establishment realm beast is able to provide at least a total of 25 slabs of meat... It means that the body of an entire foundation establishment realm beast would be able to provide me with at least a total of 1.25% progress toward my thoracic spine's progress!"

"Now, the only questions are... what was the level of this foundation establishment realm beast... and if I'm going to be able to find a way to obtain a steady supply source of foundation establishment realm beast's meat."

"I should ask Great Grandpa Coril about this foundation establishment realm beast's meat after I am done eating and refining the remaining 4 slabs of meat."

"Though, I must say, I should probably..."

"Hmm?!"

While Sebastian was lost in his own thoughts, Sebastian suddenly let out a surprise groan as he looked downward his crotch area, and the moment Sebastian looked downward, he immediately saw that Julia was currently kneeling down under the table and in front of him, and looking at what Julia was doing right now, her left and right hand were pulling down onto Sebastian's pants.

"Julia, what are you doing?" Right after being startled by Julia, Sebastian asked while with a speechless look on his face.
