

## Maxing MT 23

Chapter 23

New Command, March to the Surface World!

In the current Surface World.

Humans were no longer the top predators in the food chain.

The mutated creatures that could resist the strange corrosion and evolved intelligence were the true masters of this planet.

After their homes were occupied.

The remaining Humans could only retreat again and again.

In the end, they barely managed to survive.

These people who had lost their homes and fled gathered together to form the Human Survivors Alliance.

Gu Tianye was the youngest son of the current leader of the Survivor Alliance.

It was worth mentioning.

He had never been loved by his father since he was young, so he was ostracized by his brothers.

During this period of time, the leader of the Survivors Alliance fell seriously ill.

He probably did not have many years left to live.

Therefore.

Gu Tianye's brothers joined hands and found a lame excuse to send him away.

They said that they wanted him to patrol the territory.

But in actual fact, he was disinherited.

But politics is tough when you have no backer.

With no one to support him, no matter how unwilling Gu Tianye was, he could only keep his head down and leave.

It was precisely because of this.

That was why he was captured by Li Yueming so easily.

After all, the guards beside him were all his brother's trusted aides.

They were not meant to protect him at all.

...

After asking many questions.

Li Yueming stroked his chin thoughtfully.

He muttered to himself, "Humans have actually fallen to the point of having to differentiate animals by naming them Real Humans'. How interesting!"

Now, he finally had a thorough understanding of this world.

But the more he understood,

The harder it was to change one's fate.

If not for the talent of Infinite Deduction,

It should be the limit for ordinary Simulators to reach his current level.

“But for me, everything has just begun!”

Li Yueming's eyes were filled with excitement.

Only when there was a challenge of difficulty would there be motivation.

After asking all the questions,

Li Yueming prepared to leave.

Seeing him turn around, Gu Tianye asked anxiously, “Big Brother, how are you going to deal with me?”

Li Yueming looked back at him.

He thought for a moment and said, “I haven't thought it through yet!”

Gu Tianye was a little anxious.

After all, he had said everything just now.

He was really afraid that the person in front of him would burn the bridge after crossing it and kill him.

Was there any way to save his life?

He opened his mouth.

Gu Tianye suddenly had an idea and quickly asked, “Boss, what's your name? How old are you? Anyway, I can't go back to the Surface World. Can I join you?”

Li Yueming turned around and sized him up.

Seeing how cooperative this guy was, \*

He did not put himself in a difficult position and said truthfully, “My name is Li Yueming. I'm 16 years old this year. Whether to join me or not... I'll consider it first!”

At first.

Gu Tianye was still smiling.

However, when he heard Li Yueming say that he was 16 years old,

For a moment, Gu Tianye thought that he was hallucinating.

He said in disbelief, “What did you just say? How old are you?”

Li Yueming ignored him.

He turned around and left.

...

After returning.

Li Yueming locked himself in his room.

It was worth mentioning.

According to the information he had now,

The Underground World was undoubtedly a place of captivity.

But since it was a breeding ground,

What about the Keepers and Regulators of the Underground World?

The Keepers should be Rats scattered all over the sewer exits.

What about the Regulators?

The Underground World had caused such a huge commotion.

If mutated creatures were really as intelligent as Humans,

It was impossible for him to know nothing about this.

But in reality.

Until now, Li Yueming had not noticed anything unusual.

This was a mine buried in the Underground World.

However, Li Yueming did not have that much time to investigate this minefield for the time being.

Never mind.

Let's take it one step at a time.

In any case, a scheme would always reveal its flaws.

He could deduce indefinitely. All he had to do was deal with whatever came his way.

Next.

Li Yueming spent about three days deducing the path he would take next.

Three days later.

Only then did Li Yueming appear in the Star Moon Alliance's meeting hall.

At this moment.

Including the Exploration Team.

Every member of the Star Moon Alliance was summoned.

In the meeting.

Li Yueming read out the new guidelines.

From the day the order was given, all the men in the Underground World began to practice martial arts.

The majority of production and chores are performed by women.

Announcement of this regulation.

It undoubtedly caused another uproar in the Underground World.

Just by using their brains a little.

Everyone could guess that Li Yueming was preparing to enter the Surface World.

But this time.

Including women.

90% of the people in the Underground World supported and obeyed this order.

One had to know that in the past, when the refugees of the Underground World were mentioned,

Everyone thought of the words “fierce, cunning, and mercenary”.

But now...

They actually trusted an outsider so much.

This was undoubtedly a very rare scene.

No choice.

In the past few days, the information about the Surface World had spread to all the sewers.

After knowing the beauty of the Surface World,

The inhabitants of the Underground World showed great interest in this.

Death might be terrifying.

But compared to his own children, wives, and the children who had lived in this barren sewer for generations,

Everyone was more inclined to try their best.

What if they really could return to the Surface World?

At that time, their children and wives would be able to enjoy the sunlight and air that normal humans should enjoy.

They no longer had to be like him.

Tortured by all kinds of strange illnesses.

Of course.

Most importantly, as the current ruler of the Underground World,

Li Yueming really gave the residents of the Underground World hope to pursue a better life.

That was the only way.

Only this group of vicious, cunning, and mercenary fellows could give him such a high level of trust!

After the plan to make everyone a soldier was launched.

The pressure on the food supply of the entire Underground World increased.

For this.

Li Yueming pondered for a long time.

In the end, it was decided to create a new military unit.

It was called the Hunter Team.

He also sent out another team of explorers.

However, they had a different mission.

This time, the mission of the Exploration Team was to lead the newly established Hunter Team to the Surface World to hunt for food.

Gu Tianye was also released by Li Yueming.

With a wave of his hand, he arranged for him to be the captain of the Hunter Team.

After all, as a native of the Surface World,

Only Gu Tianye knew what mutated creatures could be provoked.

He could not afford to provoke any mutated creatures.

Gu Tianye, who felt like he had just saved his life, was overjoyed.

Although he was the son of a leader.

However, in Fallout Shelter 0911, it was no different from being adopted.

He did not expect to be able to get a small official position after being captured by Li Yueming.

It was just that the refugees under him were more annoying.

Every time they looked at him, it was as if he was looking at an alien.

...

Three years passed in a flash.

Li Yueming was nineteen years old.

Under the efforts of the Star Moon Alliance, the entire underground civilization had made a qualitative leap.

In the process of rapid development.

There were new changes in the Underground World almost every day. The birth rate of infants and children was breaking the previous year's record every year.

Now, the headquarters of the Alliance was no longer in the middle of the sewers.

Instead, they moved to the entrance near the Surface World.

The energy of everyone in the Underground World slowly shifted toward the migration to the Surface World.

Because of Gu Tianye's participation.

The hunting plan of the Hunter Team was progressing smoothly.

Apart from flipping the car a few times when they first started hunting,

They had already gained something from the subsequent hunts.

In addition,

In order to increase the combat power of the army as soon as possible,

Li Yueming updated the breathing technique several times and made even more detailed changes according to the different physiques of different people.

Furthermore,

He also promoted various methods to strengthen the body.

For a moment.

The entire Star Moon Alliance was energetic.

After three years of perseverance.

The national martial arts training plan was already slightly effective.

Nowadays, any adult man in the Underground World could reach the level of tearing apart ferocious beasts.

Finally.

On one fateful day, three years later.

Li Yueming once again gathered all the members of the Alliance.

He looked at Gu Tianye, who had already married and had children.

Li Yueming patted his shoulder and said happily, "Do you want to be the leader?"

Hearing this,

Gu Tianye froze on the spot.

He almost knelt down.

He trembled and said, "B-Boss, even if you give me the guts of ten thousand men, I won't dare to rebel against you!"

...
