Chapter 321: First encounter with other reincarnators, first confrontation! 2

However, the clan leader had to have a strong character and be able to understand the big picture.

Li Nanfeng's face was filled with disappointment.

Ninth Granduncle sighed, waved his hand, and left with a group of elders.

Obviously.

This time, they came in high spirits and returned in disappointment.

Not far away, Li Yueming was still crying.

Li Nanfeng slowly came back to his senses after a moment of hesitation. He looked at Li Yueming and said, "Son, don't cry... Actually, Father doesn't have that many wishes. As long as you grow up safely, it's fine. We're not greedy!"

Li Yueming rolled his eyes and ignored his stupid father.

She continued to cry, "Nainai, I want to drink Nainai!"

Li Yueming was still crying non-stop.

Li Nanfeng couldn't help but pat his forehead.

He quickly got up and looked at the nanny who had already gathered not far behind him. He widened his eyes and said, "What are you waiting for? Hurry up and feed Young Master!"

Hearing this.

Only then did the group of nannies and maidservants heave a sigh of relief.

She hurriedly ran over to take care of Li Yueming.

Looking at the dozens of guards of honor, Li Nanfeng was dumbfounded.

What was going on?

Did his son have so many followers?

Li Yueming was surrounded by a group of nannies and maids.

Li Nanfeng couldn't help but reveal a trace of envy on his face.

He looked around.

Seeing that the tigress at home was not around.

He coughed twice and left the backyard as if no one was around.

He had already decided.

Regardless of whether Li Yueming liked it or not, he had to find a few teachers for him first.

After all, even if his son could not inherit the family business in the future.

However, he still had to understand the most basic knowledge of reading and writing and controlling the body with qi!

.0.

After Li Nanfeng left.

Only then did Li Yueming raise his head from the nanny's softness.

He burped in satisfaction.

In his heart, he was calculating his future development path.

Learning and whatnot.

Learn my ass!

The Li family was already flourishing enough. Now, they only needed a powerful cultivator to become one of the strongest aristocratic families in the Great Zhou Dynasty.

The emperor might already be wary of the Li family.

If Li Yueming could still show his extraordinary talent in cultivation, it would make up for the last shortcoming of the Li family.

Then... In the deduction, the destruction of the entire family was the fate of the Li family.

Therefore, he had no choice.

Learning was impossible.

At least on the surface, he had displayed an astonishing aptitude.

Only by drinking some Nainai and being a rich playboy could he survive.

In fact...Of course, he would still secretly develop!

When he didn't have the strength, he would hold his butt between his legs. When he had the strength, he would kill him with a quick, accurate, and ruthless blow.

This was the truth that Li Yueming had concluded from his previous three reincarnations.

Especially in this fantasy world where a thousand-year-old monster would suddenly appear out of nowhere.

Keeping a low profile and developing was the simplest way to become stronger.

In addition.

From the books, Li Yueming had also gathered some useful information.

There were a total of 12 Cultivation states in this world.

They were Qi Transformation, Foundation Establishment, Spirit Pool, Origin Sea, True Form, Spirit Concentration, Void Refinement, Origin Returning, Divine Aperture, Heavenly Tribulation, Nirvana, and Ascension!

This was because in the end, the ultimate goal of all cultivators was to be like the Renhuang of the Tiandu Clan in the legends 10,000 years ago. He would take the gold and earth of the Nine

Prefectures and forge them into nine cauldrons. He would gather the fate of all the humans in the world and finally transcend the realm of Nirvana and Return to Void.

He had achieved the Eternal Indestructible Body.

Therefore, these twelve realms were also known as the Twelve Ascension Tribulations by cultivators.

The qi transforming stage in front.

As the name suggested, it was to absorb spiritual energy into the dantian.

When the spiritual energy in his dantian was sufficient, he could draw in qi to establish his foundation.

As for the foundation establishment realm, it was even simpler.

Drawing in the spiritual energy in the dantian to forge the foundation of the body was the foundation establishment.

Basically speaking.

The cultivation in this world was not much different from the 5-07312 martial arts world that Li Yueming had reincarnated into.

The only difference was that the foundation of the human body's strength in the martial arts world was obtained through tempering the body.

Whether it was a Martial Apprentice or a Martial Master, a Martial Saint or a Martial God, the fundamental source of their power was the energy refined in their bodies.

However, the fantasy world was a little different.

The world itself possessed a mysterious energy.

This type of energy was known as 'spiritual energy'.

Cultivators could achieve earth-shattering effects by absorbing spiritual energy to control their bodies.

It was hard to say which of these two paths was stronger.

It was just that the direction of the World Will's development was different.

Therefore, the experts in the fantasy world who had spiritual energy grew faster than those in the martial arts world.

Of course.

In fact, Li Yueming admired 5-07312's path of tempering his body in the martial arts world more.

Through tempering one's body, one would constantly develop the secrets of the human body.

This path might be more difficult to walk.

The initial combat system might also appear relatively low.

This was because he could not rely on external forces at all.

Every step had to rely on the will of the human body to continue moving forward.

It required a long period of time and unwavering perseverance, as well as a batch of sages who had gone forward one after another to overcome the difficulties.

Only then could humans fully develop their own strength.

However, once he reached a certain level of development, he would be able to use his full potential.

Li Yueming believed that the human body could also burst out with power that was not inferior to the power of the will of heaven and earth. It was definitely not inferior to any other creature.

For now.

This was because he had never seen the cultivators of this world fight..

Chapter 322: First encounter with other reincarnators, first confrontation!\_3

Li Yueming for the time being, Li Yueming had no way to compare the strength of the God of Martial Arts in 5-07312 Martial World to the cultivation realm of the cultivators in this fantasy world.

However, according to Li Yueming's own guesses and estimations.

Back then, the God of Martial Arts was at most equivalent to the Source Sea and True Form Realm of this world's cultivators.

Because according to the description in the book.

Among the cultivators, the Spirit Focus Realm experts already had the initial ability to destroy the world.

.0.

In the blink of an eye.

Two years had passed, and Li Yueming was already three years old.

In these two years.

Li Yueming read many books and obtained a lot of useful information.

However, overall speaking.

His greatest achievement in the past two years was to successfully possess a very strong body.

After all, this reincarnation was better. The Li family was a top-notch military family.

Therefore, Li Yueming's food and drink were the best since he was young.

Before the age of one, the nanny who fed his family would be able to form a reinforced company.

She could drink as much milk as she wanted.

Atter tne age ot two, ne nad Just been weaned.

All kinds of thousand-year-old spirit herbs that were beneficial to the growth of children were eaten by Li Yueming like carrots.

Under all kinds of nourishing conditions.

Li Yueming's innate essence was very firm.

When he was three years old, he was already fair and fat, and his entire person was extremely agile.

Many of the maids and maids in the Li family were very fond of this lively, cute, and intelligent young master.

He would often play with Li Yueming secretly.

However, happy days were always short.

When he was three years old.

Li Nanfeng brought Li Yueming to meet his first teacher.

It was a refined middle-aged man.

His name was Wang Ziwei. It was said that he was born in a poor family, but with his extraordinary talent, he became one of the most knowledgeable scholars in the entire western frontier.

Moreover, he had successfully entered the path through literature, and his cultivation strength was also quite good.

It could be said that he was one of the few examples of a Humble Class student who was skilled in both literature and martial arts.

At Li Nanfeng's signal.

Li Yueming cupped his hands and gave a simple greeting.

Wang Ziwei glanced at Li Yueming and stroked his beard. He said proudly, ""The young duke's eyes are bright and full, he must be an intelligent and quick-witted person! Lord Marquis handed him over to me. In less than five years, he will definitely have great achievements! "

Hearing this.

Li Nanfeng was overjoyed.

After all, his biggest worry now was that Li Yueming would not be able to grow up well.

Now, Wang Ziwei's statement directly hit the nail on the head.

He hurriedly gave her a look.

The servants immediately brought out several large boxes from the warehouse, which were filled with spiritual herbs and gold and silver.

Li Nanfeng bowed respectfully to Wang Ziwei and said, ""Then I will leave my son to you. These are the gifts I have prepared for you." Seeing a box full of treasure, Prince Wei's beard is even higher.

The corners of his mouth were filled with joy.

"Lord Marquis, you're too polite! ""

"This one never looks at family background or the amount of gifts when taking in disciples. What I look at is only affinity." Li Nanfeng was even more delighted.

As a father.

She liked it when others praised her child.

Not to mention that Wang Ziwei was also famous for being a Humble Class Clear Stream.

At the side.

Li Yueming rolled his eyes.

This mister was quite interesting.

His saliva was almost flowing to the corner of his mouth!

Why didn't he look at family background and only looked at fate?

He would probably just fool his cheap father who had a missing strand of a string in his brain.

However, he did not say anything.

After all, even if he kept a low profile, he still had to cultivate.

Otherwise, other reincarnators would be thinking of ways to become stronger. If he pretended to be a pig, he would really become a pig.

Although this master didn't look very reliable, his reputation was just right.

It would not attract the attention of the outside world.

At the same time, he could study in peace.

Just like that.

Li Yueming began to learn martial arts from Wang Ziwei.

Wang Ziwei was born in a poor family and did not have enough resources. He could only accept disciples to earn some resources from the parents of the students.

Therefore, Li Yueming's private school had more than 20 students of his age.

Most of these children were from prestigious families in the northwest border.

Li Yueming observed them for a while, but he didn't notice anything unusual about them.

However, the biggest abnormality was that there was no abnormality.

One had to know that this public reincarnation dungeon was a super-large-scale dungeon.

It was estimated that there were at least 5,000 reincarnators who had entered this place.

As for the exact amount, it was still unknown for the time being. It was entirely possible that it would reach 10,000 to 20,000.

As for all the reincarnators who entered the dungeon, as long as they were not particularly lacking in the Reincarnation Hall, most of them should have bought a gold spoon.

In other words, a considerable number of reincarnators should have been reincarnated into the aristocratic families.

Under such circumstances.

There were more than 20 children around Li Yueming's age gathered in Wang Ziwei's private school.

How could there not be a single reincarnator?

Anyway, Li Yueming didn't believe it.

Of course.

Actually, it did not matter if there were reincarnators mixed in.

As long as the other party did not cause trouble for him.

Li Yueming wasn't interested in exposing himself.

After all, unlike other experienced reincarnators, this was Li Yueming's first time participating in such a public reincarnation dungeon..

Chapter 323: First encounter with other reincarnators, first confrontation!\_4

Under such circumstances, it was a big taboo to rashly expose himself to the eyes of other reincarnators.

Hiding and observing the situation was the wisest decision.

The so-called writing practice in this world was to recite and read some books and scriptures passed down from ancient times.

Through reciting and reading aloud, he could learn the truth of the sage's rule of the world and find the way to enrich the country and strengthen the army.

Of course, if one's studies reached a certain level.

To be able to truly understand the 'charm' of certain ancient books.

Even a weak scholar could become a cultivator after a moment of enlightenment.

As for the principle behind it, Li Yueming felt that it was a little strange.

However, what was so strange?

Li Yueming couldn't tell.

As for martial arts...

Other than the regular daily exercise.

The biggest difference from the other worlds was that there was an additional course to comprehend heaven and earth.

He tried to comprehend the illusory spiritual qi in the world and try to absorb it into his body through his dantian.

If he could succeed.

It meant that he had entered the threshold of a cultivator.

From then on, he only needed to absorb more spiritual energy and cultivate spontaneously to gradually become a true cultivator.

In other words.

Comprehending the illusory 'spiritual energy' in the world was actually the most difficult stage among cultivators.

Some people were born without this bone.

Therefore, he would never be able to sense the spiritual energy in the world even if he lived his entire life.

Not to mention becoming a cultivator.

In the blink of an eye, another two years had passed.

Li Yueming was five years old.

His body gradually grew, and his Connate Origin gradually stabilized.

In other words, he could already step into cultivation.

At the same time.

After two years of Wang Ziwei's guidance and cultivation.

More than half of the students who were about the same age as Li Yueming had already sensed the existence of Reiki.

This batch of children all received praise and commendation from Wang Ziwei.

Other than that, there were already children of heaven's mandate who had begun to display talent that was different from other ordinary people.

Amongst them were the two children from Marquis Anxi's Huang family and Guan Bei's Tian family.

The cultivation speed of these two people was very shocking.

He had just entered the first year of school.

The two of them had already sensed the spiritual qi of heaven and earth.

In the second year of the game, it was already possible to control Reiki. A month ago.

Wang Ziwei had even imparted the method of cultivation to them.

Now.

These two 'geniuses' had already become the golden signboard for Wang Ziwen to go down the mountain to take in disciples.

As for Li Yueming...

He was still hanging at the end of the line.

He did not have any intention of breaking through at all. He did not even sense the spiritual qi of heaven and earth.

For this reason.

As a teacher, Wang Ziwei was so anxious that his hair almost fell out.

After all, he had boasted to Li Nanfeng that he would be able to teach Li Yueming in less than five years.

He even received a whole carriage of gifts from Li Nanfeng.

Now, two years have passed by

In order to let Li Yueming keep up with his studies, he would even secretly give Li Yueming tuition classes from time to time.

However, it still couldn't save Li Yueming from being the last.

Li Yueming was still the same as two years ago.

He couldn't read, nor could he practice martial arts.

Every day, other than eating, he would sleep.

On this day, Li Yueming and dozens of other classmates were meditating on the peak of the Spirited Mountain to comprehend the spiritual energy of heaven and earth.

Under normal circumstances.

As a teacher, Wang Ziwei would always watch over them from the side.

However, today, Wang Ziwei had coincidentally gone down the mountain to take in disciples.

Therefore, a group of children who were not disciplined by their teachers began to let themselves go and play around.

Wang Ziwei had personally set up an array at the peak of the Spirit Mountain, so there was no need to worry about the safety of the students.

Li Yueming sat cross-legged on a rock silently.

In fact, he could already sense the spiritual energy in the world.

After all, as the God of Martial Arts, the General

Li Yueming's previous reincarnations were not powerful enough to destroy the world.

However, he had a very thorough understanding of the various powers and paths of individual martial arts.

It was even more possible to cultivate qi into the body in minutes.

Naturally, it was not difficult for him.

The reason why he did not absorb spiritual energy to open his cultivation path was that he had not been able to do so.

It was because he felt that there seemed to be a problem at the end of the path of drawing qi into the body.

However, just as he was still pondering in his mind.

Not far away, a girl of five or six was watching him silently.

After watching for a long time.

The girl walked over and looked at Li Yueming. "What are you doing?"

Hearing this.

Li Yueming opened his eyes and looked at the girl in front of him. "Cultivation,

This girl was called Huang Li 'er, the second daughter of Marquis An Xi.

He was also one of the two most talented students in this batch of students.

The young girl's eyes rolled. After a moment, she nodded and said, "But you're so serious, yet you still can't sense the spiritual energy of heaven and earth!" Li Yueming became vigilant.

At the beginning of the first two years, Li Yueming had no way to recognize whether there were any reincarnators among this batch of students.

So, Li Yueming already had a guess in his heart.

Coincidentally, in his heart, there was an eighty to ninety percent chance that Huang Pear was a reincarnator.

However, he had been following the rules every day for the past two years.

Logically speaking, there shouldn't be any flaws.

Now that Huang Li 'er had suddenly come to talk to him, he did not know what she was up to.

Of course.

His heart was filled with doubt and vigilance.

However, Li Yueming's face did not reveal any excess emotions.

He replied calmly and methodically, "It is precisely because of this that Teacher wants me to work harder, isn't it?"

Huang Li 'er frowned when she heard that, and her petite body approached Li Yueming.

He said in a low voice, "How much effort you put in is a lie to a fool. I can let you feel the spiritual qi of heaven and earth. Do you want to know?" Li Yueming secretly cursed in his heart that this guy was really ruthless.

He didn't even let a child off and even used seduction.

However, his face revealed some excitement.

His face flushed red as he stood up and said loudly, "Really? Can you really make me feel the spiritual energy of heaven and earth?"

Seeing this, Huang Li 'er's expression changed.

She was so careful just now because she did not want others to notice her actions.

But now, Li Yueming suddenly shouted.

She was just short of installing a loudspeaker to tell everyone her purpose.

However, just as she was about to remind Li Yueming not to make a scene...

However, it was too late.

The young man from the Tian Family in the north of the pass, Tian Wang, had also noticed the abnormality here.

He walked over in two or three steps.

Tian Wang looked at Huang Li 'er and said with a smile, "Yo, isn't this Junior Sister Li 'er? What are you doing? Do you want to tutor the heir of the Duke of the State alone?"

Chapter 324: Teacher and Student, One Must Go Crazy First! 1

Li Yueming sat cross-legged on a rock alone, closing his eyes in deep thought.

Actually, if he wanted to.

He could absorb spiritual energy into his body at any time and become a cultivator.

However, as the God of Martial Arts, Li Yueming's experience in his previous lives told him that the choice of personal martial arts was actually very important and particular.

The reason why he did not absorb spiritual energy to open his cultivation path was that he had not been able to do so.

It was because he felt that there seemed to be a problem at the end of the path of drawing qi into the body.

After all, if a cultivator's ultimate goal was to ascend to the outside world and attain the Eternal Indestructible Body like the Human Emperor Tiandu Clan did tens of thousands of years ago, it would be impossible for him to achieve the Eternal Indestructible Body.

Then who could guarantee that after ascending, there would be spiritual energy in the other world that could support their own bodies?

Of course, it was possible that there was spiritual energy in the other world.

But at least until now, no one told Li Yueming that this was 100% accurate.

As long as there were exceptions, there was no way to make sense of it.

Without logic, there was no way to form a self-consistent theory.

Therefore, he had no choice.

Only then did Li Yueming become more cautious. He did not start cultivating rashly.

Apart from that, Li Yueming had another meaning.

That was to temporarily hide himself.

He would first hide and observe the strength and methods of the other people before deciding how to strike first. Now, it seemed that his plan had succeeded.

This was...

When they first entered Wang Ziwei's school, all the students looked normal.

Even Li Yueming had no way of knowing if there were any reincarnators among the more than 20 classmates. If there were, how many reincarnators were there?

And now, two years had passed.

The reincarnators hidden among the more than 20 students could no longer hide.

He had already begun to show his talents. In terms of cultivation and other aspects, he had pulled apart the gap between him and other ordinary students.

This way...

Li Yueming could also logically know that among this group of 'schoolmates', at least two were reincarnators.

However, when Huang Li 'er suddenly came forward to greet him, it still surprised Li Yueming a little.

He boasted that he did not reveal any flaws.

Huang Li 'er should not know his identity.

After getting closer, Li Yueming was vigilant, but Huang Li 'er's attitude was very interesting.

She actually took the initiative to say that she could help him sense the Heaven and Earth Spirit Energy. She even used a seductive technique on him, who was still a child.

Therefore, Li Yueming quickly realized that Huang Li 'er didn't seem to be coming for him.

Instead, he was interested in the Li family behind him.

He pondered for a moment.

Li Yueming soon understood the reason.

As a third-generation martial arts aristocratic family.

Li Yueming's great-grandfather was the Western Conquest General, his late grandfather was the Defender General, and his father was the current commander of the Southern Mountains Army. At the same time, he was also the Marquis of Southern Mountains.

When he was just one year old, he was promoted by the emperor.

It could be said that he had already stood at the end of countless civil and military officials since his birth.

To put it bluntly, in the northwest region, other than the emperor, the Li family was the absolute ruler.

The reason why Huang Li 'er came to Li Yueming's side was probably because she had her eyes on the Li family behind Li Yueming.

After all, Li Yueming was the current heir of the Li family.

If he could build a good relationship with Li Yue Ming.

In time, when Huang 'er grew up, she would be able to achieve twice the result with half the effort.

In addition, this also explained one thing.

That was, in the eyes of Huang Li 'er and the other reincarnators, Li Yueming should have been eliminated as a reincarnator'.

Otherwise, Huang Li 'er wouldn't have come up so rashly.

He must have observed and paid attention to Li Yueming for a long time before deciding to take action.

It seemed that Li Yueming's disguise was beginning to work.

After all, no one would have thought that a person who had cultivated for two years, but was unable to even sense the spiritual energy of heaven and earth, was actually a reincarnator!

He glanced at Huang Li 'er's undeveloped flat chest.

Li Yueming secretly curled his lips.

Damn it, was this immature little girl looking down on him too much?

Are you using this to test the officers?

Which cadre could not withstand such a test?

Clearly, they were both reincarnators.

Li Yueming definitely wouldn't let Huang Li 'er achieve her goal easily.

Therefore, he stood up on purpose.

He looked extremely excited and said, "Really? Senior Sister Li 'er, can you let me sense the spiritual energy of heaven and earth?"

As expected.

This shout immediately attracted the attention of many students.

Tian Wang from the Tian Family of Guanbei also heard the commotion.

Seeing that the situation was not good.

He even walked over quickly.

"Junior Sister Li 'er, are you giving Young Master Li a private lesson?"

Seeing that she had failed to steal the chicken and was being roasted on the fire instead, Huang Li 'er's face turned a little ugly. She revealed a fake smile and said, "Master taught us that we should help each other. Why? Does senior brother have any objections?"

Hearing this.

Tian Wang also revealed a fake smile and said sarcastically, "Hehehe, how would I dare to have any objections to Master's teachings? However, as a senior brother, I have to take the lead and set an example for my junior brother, right?"

"After all, what Little Junior Sister said is very reasonable. We have to help each other!"

"

The two of them were smiling.

However, the smell of gunpowder in the air revealed the f \* Ck in his heart..

Chapter 325: Teacher and Student, One Must Go Crazy First! 2

Tian Wang's mark of reincarnation was of a higher level, and he was already seven years old this year.

In addition, he had displayed outstanding talent and was the eldest young master of the Marquis of Anxi clan.

Therefore, he was appointed as the eldest senior brother of the sect.

On the other hand, Huang Li 'er's mark of reincarnation was obviously inferior. She was only six years old this year.

Although he also displayed excellent cultivation talent.

However, Guanbei's Huang Family was a family of civil officials. In the current Zhou Dynasty, where martial arts reigned supreme, they were naturally inferior to the families of generals.

Therefore, he had no choice.

In the past few years, they had been testing each other.

Huang Li 'er was always suppressed by Tian Wang.

Because of this, Huang Li 'er decided to strike first.

She deliberately found an opportunity when no one was paying attention to see if she could rope Li Yueming into her camp.

After all, Li Yueming was just a good-for-nothing with no cultivation talent.

However, the Li family behind him was the number one family in the western border.

If he could rope in Li Yueming and pull him out to take the bullet.

If that was the case, he wouldn't be so passive in the fight against Tian Wang.

Unfortunately, things didn't go as he wished.

Huang Li 'er did not expect that after she finished talking to Li Yueming.

Li Yueming's reaction was so huge that it even attracted her arch-enemy, Tian Wang.

Tian Wang also came over.

Obviously, she wanted to ruin Li Yueming's plan to rope Li Yueming in.

Huang Li 'er gritted her teeth so hard that they almost shattered.

He gritted his teeth and said, "That's good. I just don't know how capable you are, Senior Brother. Can you help Young Master Li comprehend the power of heaven and earth?! ?

Tian Wang wasn't willing to be outdone.

He walked over and looked at Li Yueming with a smile. "Junior Brother Li, I can teach you the insights of comprehending the power of heaven and earth!" He saw the two of them face each other.

Although Li Yueming didn't show any expression on his face, he was secretly laughing so hard that he almost burst into laughter.

In these two years.

Naturally, he was aware of the friction between Tian Wang and Huang Li 'er.

As a reincarnator.

In fact, many times, the relationship between them was quite complicated, and it was not completely incompatible.

However, in the current environment, there was a strong conflict of interest between the two of them.

Therefore, their relationship naturally couldn't be good.

Don't underestimate the fact that the students here are just a group of children.

Those who could come here to study in private schools were mostly the descendants of civil officials, generals, and aristocratic families.

If nothing unexpected happened.

Ten or twenty years later, the entire Great Zhou would belong to this group of people.

If he could grasp these resources in advance.

Then, whether it was completing the main mission or completing other side missions, it would be extremely easy.

In summary.

To rope in and befriend this group of future rulers and pave the way for future hegemony as much as possible was undoubtedly one of the most important tasks for the reincarnators at this stage.

Under such circumstances.

Whether it was Tian Liang or Huang Li 'er, they naturally wanted to rope in and befriend more students.

In this way.

The contradiction between the two sides was very obvious.

Although this group of aristocratic children looked very young, they knew how to adapt to the situation.

After all, she had grown up in politics and scheming. She was born with more schemes than ordinary children.

Basically, anyone who was a little smarter.

They all chose to rely on Huang Li 'er or Tian Liang.

After all, Huang Li 'er and Tian Liang were the two most popular students in the school, and they had even displayed a talent in the path of cultivation that even Mr. Ling praised.

There were naturally many benefits to following behind them.

The two small groups fought openly and secretly.

Overall, as a girl, Huang Li 'er, who was younger, was obviously at a disadvantage.

Fortunately, there were also many bootlickers in the fantasy world.

A few of the scions were charmed by Huang Li 'er.

Of course.

Li Yueming was probably the only one among the two groups who had his own faction.

He had created the unique skill of lying flat.

On the surface, he seemed to be studying diligently.

In fact, he was either deducing the feasibility of using qi to control the body or deducing the feasibility of using qi to control the body every day.

He was not interested in cultivation.

He was also not interested in playing house with this group of children.

Fortunately, his background was big enough, so no one dared to make trouble for him for the time being.

In the boring daily deduction.

If Li Yueming had any other entertainment programs every day, watching Huang Li 'er and Tian Wang's amusement was definitely the first.

And now, Huang Li 'er actually dared to take the initiative to target him.

Li Yueming naturally wanted to use this opportunity to fan the flames.

Anyway, he was hiding in the dark and reaping the benefits. Of course, he was just watching the show.

Therefore, he had no choice.

Li Yueming raised his head and looked at Tian Liang. He also revealed a harmless smile and replied, "'Thank you for your kindness, Senior Brother. If you can let me sense the spiritual power of heaven and earth, I will be extremely grateful and follow your lead in the future!'"

Hearing this.

Tian Liang's eyes revealed a trace of surprise.

However, he kept his composure and thought that Li Yueming hadn't discovered him.

After a few fake coughs, he said, "Junior Brother Li, you're treating me as an outsider. Senior brothers should help each other!"

In fact, Tian Liang had been drooling over Li Yueming for a long time.

After all, he was the only young master of the Li family.

If nothing unexpected happened.

In the future, the entire Xilong Land would be under his control.

If they could win him over to their side, he would definitely be of great use in the future..

Chapter 326: Teacher and Student, One Must Go Crazy First!—3

And the reason why Tian Liang didn't make a move earlier was because he had been in a bad mood.

It was just that he felt that he could not see through this young master of the Li family.

After all, he was an experienced veteran.

She had a natural instinct for certain things.

Only then did he suppress his desire to rope her in and decide to observe again.

Unexpectedly, he hesitated for a moment.

On the contrary, Huang Li 'er almost took the initiative.

Fortunately, it was not too late.

After their initial contact, this so-called heir of the Li family did not seem to be as difficult to deal with as he had imagined.

On the side, Huang Li 'er's cheeks puffed up when she saw this.

She gritted her teeth so hard that they were about to shatter.

She was clearly the one who came, but it was just a small oversight.

But now, Tian Liang had caught up from behind.

How could she be willing to be snatched away like this?

Therefore, he had no choice.

He also stood beside Li Yueming and said angrily, "Junior Brother Li, I can teach you how to cultivate, step by step As he spoke.

She even moved closer to Li Yueming.

She had a slightly young but still exquisite face that carried a hint of charm.

At this moment.

Huang Li 'er stood on Li Yueming's left.

Tian Liang stood on the right side of Li Yueming.

It was just like the scene of the damned White School.

Both of them thought that Li Yueming was a native of this world.

Therefore, they all showed their abilities and wanted to rope him into their camp.

However, he did not know that Li Yueming was actually a reincarnator.

However, as a reincarnator, he was more cautious and liked to plan before taking action.

He wondered how the two of them would react when they realized the truth.

Just like that.

Li Yueming, who usually cultivated alone, suddenly had two more protectors beside him.

Wang Ziwei, who had just returned from taking in a disciple, was shocked when he saw this scene.

One had to know that Huang Li 'er and Tian Liang never got along.

They were often sarcastic to each other.

Even Wang Ziwei, his master, had heard of this.

It was rare to see such a scene of 'living in harmony' nowadays.

After a moment of confusion.

Wang Ziwei thought that the three of them had come to their senses.

After all, it was normal for children to throw tantrums and not get along with each other.

Perhaps there was an opportunity to matchmake them, and they soon got back together.

In addition, Wang Ziwei himself had a headache because of Li Yueming.

After all, he had been teaching for so many years, and there were many disciples who were not enlightened. However, this was the first time he had seen a disciple who was harder than a rock like Li Yueming. He recalled how he had boasted to Li Nanfeng two years ago.

Moreover, he promised a five-year deadline.

Now, there were less than three years left to the five-year deadline.

Li Yueming had not improved at all.

Wang Ziwei was already as anxious as ants on a hot pan.

Therefore, he had no choice.

Huang Li 'er and Liang took the initiative to tutor Li Yueming Ming.

Wang Ziwei was naturally overjoyed.

He even took the initiative to let them interact and discuss more.

With his support and encouragement.

Huang Li 'er and the two of them began to teach Li Yueming how to sense the existence of the Heaven and Earth Spiritual Qi.

After all, in this world, imparting Dao to dispel doubts was a great favor.

As long as either of them could make Li Yueming feel the spiritual energy of heaven and earth, in a sense, they could be considered half a teacher to Li Yueming.

Naturally, they were not afraid that Li Yueming would not side with them.

However, their imaginations were very beautiful.

The reality was very messed up.

The two of them fought with each other and taught Li Yueming for two months with hope.

During this process.

They even temporarily put aside their own cultivation.

He was prepared to do his best to win Li Yueming over to his side.

Li Yueming was also very 'serious' in his studies and often asked them questions.

The same thing.

Sometimes, Li Yueming would even ask several times.

She had the spirit of a curious baby.

However, even though he was asking and listening, Li Yueming never made any progress.

What was Li Yueming like two months ago?

Two months later, Li Yueming was still the same.

This caused the left and right guardians to collapse.

He was clearly just comprehending the spiritual qi between heaven and earth.

To them, it was simply something that could be done easily.

Damn it.

Their mouths were dry from talking.

To put it bluntly, even a pig should be enlightened and understand some cultivation methods, right?

However, Li Yueming did not understand.

They couldn't imagine how Li Yueming had learned and listened to it 10,000 times, but still made no progress.

This could no longer be described as having no talent.

This was clearly a pig!

Finally, one day.

Tian Liang completely broke down and said with a choked voice, "Junior brother, that...I have something urgent to do today. I'll teach you next time!" Seeing this.

Li Yueming looked innocent and asked, "Then when will Senior Brother be free? I would like to ask Shixiong how he can achieve 'undistracted, perceptive and perceptive'!"

Hearing this question that sounded like a curse.

Tian Liang really wanted to curse.

F \* ck, if he remembered correctly.

Didn't he mention this a few days ago?

She finally resisted the urge to curse.

After all, Li Yueming had a special identity.

Even if they couldn't predict their relationship, it was best not to offend them.

However, Tian Liang's mentality could no longer be controlled.

He was practically fleeing.

In the blink of an eye, he disappeared from the Spirit Mountain.

He looked at the departing figure at dawn.

Li Yueming scratched his head in confusion.

He turned to Huang Li 'er and asked, ""Senior Sister, what happened to Senior Brother Tian?"

At this moment, Huang Li 'er's face was also somewhat numb..

Chapter 327: Teacher and Student, One Must Go Crazy

First!\_4

He looked up at Tian Liang, who was fleeing.

It was rare for her to have a trace of sympathy for this enemy who hated her so much that she gnashed her teeth.

After all, she was the only one who knew what they had experienced in the past two months.

However, her remaining consciousness calmed her down.

Tian Liang left.

It could be considered that he had given up on the idea of continuing to rope in Li Yueming in this competition.

This should have been a good thing for her.

However, he didn't know why.

However, Huang Li 'er didn't feel happy.

He finally put away the sympathy that should not exist. After a moment, he revealed a smile and said, "Ha... Haha... Hahaha, your senior brother is crazy. Don't bother about him!"

Seeing this situation.

Li Yueming waved his hand in front of her.

"Senior Sister, are you alright?"

Hearing this.

The smile on Huang Li 'er's face was a little stiff.

Actually, she was only one step away from being driven crazy.

"Ah?" Ha... Haha... Hahaha... Senior Sister is doing very well now."

No matter what, Huang Li 'er still believed that persistence was victory.

Moreover, he had already put in two months of hard work. He had already walked through such a bumpy 99 steps. It would be too unwilling to give up halfway.

Perhaps she just had to teach him more diligently.

Li Yueming suddenly realized that he could feel the spiritual energy of heaven and earth and become a cultivator.

This way...

She would be able to easily suppress Tian Liang!

Moreover, Li Yueming would still be loyal to her.

In the future, he might even become the war wolf among her many bootlickers!

He would help her charge into the public reincarnation instance dungeon.

As the old saying goes.

When God is about to give such a person a great responsibility, he must first suffer his mind, work hard on his bones and muscles, starve his body and skin, empty his body, and disturb his behavior. This is to arouse his mind, endure his nature, and do what he cannot do!

This difficulty was just a small stumbling block on the path of becoming an ultimate reincarnator.

If he couldn't even overcome this difficulty...

In that case, there would be even more difficult challenges on the road to becoming the strongest. What should she use to overcome them? That's right, only those who suffer hardship can be superior.

As long as he could endure a little longer.

The heavens would definitely take care of her, Huang Li 'er!

He 100Ked at Huang Li 'er, who was crying and laughing, laughing and crying.

This girl's mental state...

It looked a little unstable!

However, before Li Yueming could ask again...

Huang Li 'er finally came back to her senses.

The girl took a deep breath and looked at Li Yueming with determination. She said solemnly, "Junior brother, start today's training. Don't worry, senior sister won't give up on you!"

Li Yueming nodded.

He sat down cross-legged according to her request.

He closed his eyes and began to 'comprehend' the Heaven and Earth Spirit Qi.

Of course.

Li Yueming said that he was cultivating.

However, in reality, he was continuing to use his talent to deduce a path that was suitable for him.

And talent deduction was a very exhausting act.

At Li Yueming's age.

He had yet to reach the stage where he could deduce as he pleased.

Therefore, he had no choice.

After deducing for half a day,

Li Yueming opened his eyes, revealing a trace of tiredness that was difficult to hide.

Beside him, Huang Li 'er, who had been observing carefully, had a hopeful look on her face. She carefully asked, "Junior Brother, how do you feel?"

Li Yueming's eyes lit up.

Seeing this situation, Huang Li 'er thought that he had gained something this time.

However, before she could cheer up.

"Senior Sister, I feel a little hungry!" Li Yueming said."

Huang Li 'er was speechless.

Before the joy on her face could bloom, it quickly withered in an instant.

Along with it, Huang Li 'er's spirit withered.

A moment later, Huang Li 'er, whose eyes had lost their luster, burst into tears.

Only by suffering in the midst of hardship can one be superior...

My ass!

Hard work pays off...

My ass!

Liar, it was all a lie. The ancestor was a liar!

Wuuuuuuuuuu...

Huang Li 'er broke down.

She cried.

He was even running his nose.

In the blink of an eye, a few snot bubbles appeared.

The image of a charming young lady that she had originally maintained collapsed in an instant.

Seeing this situation.

Li Yueming was dumbfounded.

He didn't seem to have done anything overboard just now, right?

Wasn't it just that he had deduced too many times, causing him to feel dizzy and hungry? He wanted to eat something before continuing to learn?

Was there a need to be so fragile?

After observing for a moment, Li Yueming finally confirmed that Huang Li 'er had completely collapsed.

He could not help but sigh softly.

Oh no, another one went crazy!

Hurry up and send him to the mental hospital!

Chapter 328: When I Type a Question Mark, Maybe It's Not

Me

In the beginning.

Huang Li 'er and Tian Liang were both full of confidence.

He wanted to help Li Yueming feel the spiritual energy of heaven and earth to gain Li Yueming's favor.

Thus, he could win over this young master of the Defender Duke's Public House to his side.

However, it had not even been two months.

Li Yueming had already figured it out.

As a veteran reincarnator, Tian Liang clearly knew when to advance and when to retreat.

After teaching for more than a month, he realized that there was no effect and chose to retreat decisively.

Huang Li 'er was more pitiful.

Because he felt that he had invested too much, he had not been willing to let go.

In the end, he was completely defeated by Li Yueming.

Even his eyes lost their glow.

Regarding this.

Li Yueming didn't feel too much.

Actually, it was fine if Tian Liang and Huang Li 'er didn't provoke him.

After all, Li Yueming wasn't too interested in roping in the children of the rich and powerful in the school.

As long as they didn't come looking for him, Li Yueming had no interest in them.

Under such circumstances.

The best way for both parties to get along was to mind their own business.

However, things did not go as he wished.

Li Yueming was already independent.

In the end, these two people took the initiative to come up and drag him down.

Since that was the case, Li Yueming definitely wouldn't let Tian Liang and Huang Li 'er be too comfortable.

And now.

After torturing the two of them.

Tian Liang and Huang Li 'er had already fled.

Li Yueming's ears finally regained the peace that he had not felt for a long time.

After countless deductions during this period of time.

Li Yueming could already feel the limitations of this world.

Moreover, he smelled a very strange feeling inside.

Withnllt dnllht

Spirit Qi was a good thing.

In theory, using qi to control the body could allow cultivators to possess extremely high combat strength at the fastest speed.

However, the problem was that if a cultivator relied too much on reiki.

Finally, when he reached the extreme of this path, he passed through the 12th tribulation of the Fairy Realm and ascended to the outside world.

Would it guarantee that the cultivators themselves would still have sufficient combat strength?

One had to know that Li Yueming had personally traveled in space in his previous life.

At that time, the feeling that space gave him was other than the extreme cold and hot environment.

The most eye-catching thing was the deathly stillness.

In such a vacuum environment where even sound could not be transmitted, how could cultivators absorb and control spiritual energy?

For the time being, Li Yueming was unable to explain this contradiction.

If it was an ordinary person.

Even if he had doubts, there was nothing he could do.

After all, the world's will was like this. The path it pointed out to ordinary people was to use qi to control the body to become the strongest.

Even reincarnators.

Basically, he wouldn't ask for trouble.

After all, for most ordinary reincarnators, the most important thing in entering the public reincarnation dungeon was to complete the mission.

On the basis of completing the main mission, a very small number of reincarnators would look for any side missions to try to obtain more resources.

As for whether there was a problem with the path of personal power in this world.

What did it matter to them?

In any case, the public reincarnation instance was just a stop in their long journey.

Even if he knew there was a problem.

They didn't have the time to care about this mess.

But Li Yueming was different.

First of all, he was more cautious by nature.

Under normal circumstances, he would not easily step into a trap if there was something obviously wrong before he investigated it thoroughly.

In addition to the previous three reincarnations.

He had also gradually come up with a set of cultivation techniques and experiences that belonged solely to him.

The Star Moon Art was combined with the infinite deduction talent.

He also recently obtained a perfect genetic body.

It was his strongest backing when he dominated the various reincarnation worlds.

Therefore, Li Yueming had already made up his mind. He was not prepared to follow the proven path of this world and cultivate step by step.

Instead, he would become independent and open up another path.

Of course, this didn't mean that he completely denied the path of using qi to control the body in this world.

Spirit Qi could still be absorbed into his body.

However, Li Yueming himself was still prepared to do what he did in the martial arts world. He focused on tempering his body to develop the treasures of the human body.

Absorbing spiritual energy to control the body could be used as an auxiliary cultivation method.

Under the combination of the two.

Their combat strength should not be too different.

However, the actual path of cultivation was completely different.

The cultivation path that focused on developing the treasures of the human body could break free from the control of reiki at any time.

As long as the treasure of the human body was developed properly.

A human body could also unleash powerful combat power.

Using qi to control the body wasn't too good.

Once he left the support of this world's spiritual energy.

Li Yueming seriously suspected that the combat strength of the cultivators would be reduced by 70 – 80%.

After determining his own development path, everything was very simple.

First, he would integrate the Star Moon Art and the cultivation methods of the martial arts world through the infinite deduction talent. Then, he would sew the cultivation method of using qi to control the body into the new cultivation system.

After more than two months of continuous deduction and modification.

Finally, a brand new cultivation path appeared in Li Yueming's mind.

What was worth mentioning here was...

Tian Liang and Huang Li 'er had been nagging at him for more than two months.

In fact, it was quite useful for Li Yueming.

At least, Li Yueming didn't need to spend so much effort to understand the cultivation methods of this world.

This was because Tian Liang and Huang Lie 'er would patiently explain to him every day.

As for the realm name of this suturing path..

Li Yueming did not make any changes..

Chapter 329: When I Type a Question Mark, Maybe It's Not Me

It was still the 12th tribulation of the Flying Immortal that this world was familiar with.

Another half a month passed.

When Wang Ziwei returned from accepting a disciple and gave a lecture to his students, he realized that Li Yueming had become alone again.

After being stunned for a moment.

Wang Ziwei quickly understood that his plan to send Huang Li 'er and Tian Liang to tutor Li Yueming had failed.

Moreover, judging from Huang Li 'er and Tian Liang's state of doubting their lives, the effect of this two-month tutoring session was definitely unsatisfactory.

After confirming this.

He could not help but feel dizzy again.

To be honest.

Right now, among this group of noble children, the one who gave him the biggest headache was Li Yueming.

Even if the other disciples were unable to comprehend the spiritual energy of heaven and earth.

However, if he studied here for three to five years, he would at least be able to read through some scriptures.

At the very least, he had made some progress in his studies.

But only Li Yueming is still a nobody.

In the past two years, he hadn't read many books, and he hadn't sensed the spiritual energy of heaven and earth.

He clearly felt that Li Yueming was working hard every day.

However, he was still in the same spot every day.

If this continued...

He didn't know how he would answer to Li Nanfeng and his wife in five years.

When he first saw Li Yueming, it would be a lie to say that they had some affinity.

But no matter how he looked at it, this little prince of the Duke's Public House did not seem to be such a stupid person!

What exactly went wrong?

Wang Ziwei felt a little puzzled.

He thought about it.

In the end, he decided to give Li Yueming another year to study.

If you still can't see the results of the words.

Then, he could only use a spoon-feeding method.

No matter what.

He had to give Li Nanfeng an explanation.

The Marquis of Southpeak was polite most of the time, as if he had no temper.

However, he had a proper military background.

Moreover, he was the kind of person who would chop off his head on the battlefield without even blinking.

If the other party knew that Li Yueming had been learning from him for a few years, but in the end, he did not make any progress.

Marquis Southpeak was determined to skin him alive.

He thought about it.

After Wang Ziwei distributed all the notes for today's study.

There was a moment of silence.

He sighed and walked to Li Yueming.

In the surroundings.

Although the group of students looked like they were studying on the surface.

However, in reality, he was looking at them from the corner of his eyes.

All along.

Li Yueming was a freak among this group of students.

Not only was he a loner who never made friends, but he also rarely spoke to others.

If you can't write, you can't write.

He was also so quiet and unsociable.

He spent his days alone in an inconspicuous corner, doing some inconspicuous things.

If it wasn't for the fact that he knew he was the heir of the Marquis of South Peak.

If he didn't dare to provoke them.

They had probably been bullied and boycotted by this group of arrogant and unruly aristocratic family disciples.

Even so.

Although the children didn't dare to provoke Li Yueming, it didn't stop them from watching Li Yueming make a fool of himself.

After all, the fact that the heir of the Marquis of Southern Mountains was a fool was already a fact that was publicly acknowledged by all the students in the academy.

At present, at least 80% of the students had comprehended the spiritual energy of heaven and earth.

The other 20% of the students were not as talented and did not have the foundation to cultivate, but they were still diligently memorizing the anthology and practicing calligraphy.

He hoped that one day, he would be able to comprehend the Dao of the Sage and become a cultivator like Wang Ziwei who entered the Dao through literature.

In this kind of environment, we can be a total victor.

Li Yueming's 'Variant' hat had long been famous.

Even the outside world had already heard some rumors.

And now.

Wang Ziwei walked towards Li Yueming.

Many students were naturally curious about what would happen next.

In reality.

Wang Ziwei only wanted to see how Li Yueming's cultivation had progressed during this period of time.

After all, Tian Liang and Huang Li'er had worked hard for two months.

Even if he knew that the effect wouldn't be too good.

However, Wang Ziwei still had some hope.

What if there was progress?

In this kind of nervous mentality.

Wang Ziwei stood in front of Li Yueming and tried his best to show a friendly smile. “Yueming, have you felt any spiritual energy recently?”

Li Yueming was currently meditating. He was using his Perfect Genetic Body and infinite deductions to train his body.

Hearing this, he opened his eyes and replied, “Master, I haven’t sensed the spiritual energy of heaven and earth yet. However, I have a feeling that I should be close to enlightenment!”

Ziwei.

But now, Wang Ziwei was obviously a little impatient because he was unable to break through.

Therefore, in order to avoid trouble.

Li Yueming comforted Wang Ziwei.

Of course, Li Yueming wasn’t lying.

After all, after deducing the path, he was indeed going to start cultivating officially.

However, these words sounded harsh to Wang Ziwei.

He knew Tian Liang and Huang Li ‘er’s talent better than anyone else.

The two of them were only six or seven years old, but they had already comprehended and mastered the Spiritual Qi of Heaven and Earth, becoming official cultivators.

Such an achievement, it could be said that it was not an exaggeration to say that it was a rare occurrence in a hundred years.

Under such circumstances.

The two young geniuses had been tutoring Li Yueming for more than two months, but Li Yueming still hadn’t felt any spiritual energy.

The so-called ‘epiphany’ that Li Yueming mentioned didn’t sound too real.

Could it be that he had really made a mistake back then?

Did this child from the Li family really not have any talent for cultivation?

Chapter 330: When I Type a Question Mark, Maybe It’s Not Me

He thought about it.

Wang Ziwei sighed.

In fact, he was originally planning to persuade Li Yueming to give up on cultivation and switch to literature.

However, he didn’t say anything.

He patted Li Ming’s shoulder and said, “Sigh, I’ll do my best. If I’m still unable to comprehend the Spiritual Energy of the world in these two months... You can transfer to the literature class!

The class Wang Ziwei mentioned was also known as the Xiwen Hall.

It was the place where the students who Wang Ziwei deemed to have no aptitude for cultivation stayed.

After all, Li Yueming's martial arts class taught students how to sense and control the spiritual energy of heaven and earth.

For Li Yueming, who couldn't sense the spiritual energy of heaven and earth, listening to it was a waste of time.

It might be a better way to go to Xiwen Hall to study eulogizing books.

After saying that, Wang Ziwei ignored Li Yueming's expression.

She turned around and left.

After he left.

The surrounding students started whispering.

Although the muttering wasn't loud, it was still heard.

Li Yueming could hear it.

"Heh, I told you that this idiot would be chased away by the teacher soon, right?"

"In my opinion, Teacher is still too generous. In any case, with his talent, it is estimated that it is impossible for him to comprehend the spiritual energy of heaven and earth in another ten years."

"We're all 'cultivators' who use spiritual energy to control our bodies. This kind of idiot who doesn't even know what spiritual energy is doesn't want to cooperate with us in the same school!"

"That's right. Does he really think that he can do whatever he wants just because he has an awesome father?"

"Shh...Keep your voice down, he is the heir of the Constabulary!"

"Hahahaha, he's indeed a prince, but he's just a foolish prince who can't inherit the family business!"

The group of students chattered on and on, sounding very ear-piercing.

Even Tian Liang and Huang Li 'er, who were cultivating, heard the commotion.

Waking up from cultivation

He opened his eyes and glanced at Li Yueming.

Both of them had complicated expressions.

In the beginning, Tian Liang and Huang Li 'er tried every means to rope Li Yueming in.

He even stopped his cultivation progress for this.

But now.

Other than regret, the two of them only felt extreme regret.

The reason was simple.

With Li Yue's current state, it was estimated that she might not even be able to inherit the Li family's business in the future.

An idiot who couldn't inherit the family business.

It was not worth them wasting two months of cultivation time.

One had to know that there might be thousands of other reincarnators who were thinking of ways to hurry up and strengthen their bodies.

Every minute and every second was precious.

However, since things had already come to this, there was no point in continuing to talk.

It would be more effective if he could absorb and control more spiritual energy.

Through this.

The relationship between Huang Li 'er and Tian Liang had eased up quite a bit.

At the very least, it wasn't as sharp as it used to be.

Towards the strange discussions outside.

Li Yueming didn't have much of a reaction.

In the past few lifetimes, Li Yueming had been hated by countless people and forces.

The number of enemies who scolded him and stepped on him was even more numerous.

Nowadays, a group of children who were big and big were mumbling a few words. To Li Yueming, it was not even a drizzle.

He continued to train his body in an orderly manner.

Through the modification of his perfect genetic body, he would adjust his body to the most suitable state for cultivation.

Just like that.

Another month passed in the blink of an eye.

Li Yueming was already six years old.

This was because most of the students had already started to get on the right track.

Recently, the frequency of Wang Ziwei's lectures had decreased significantly.

Most of the time, they would only give out some lecture notes and cultivation rules.

Li Yueming knew that this guy had accepted a new batch of disciples.

In order to earn more resources, this scholar from a poor family was obviously working very hard.

Finally.

At the end of the month, Wang Ziwei returned to school.

After standing on the podium and coughing twice, he said solemnly, ””Disciples, it has been more than two and a half years since you followed me up the mountain. After more than two years of hard work, most of you have already made some progress. Therefore, in the next half a year, I will teach you how to control spiritual energy to fight!”

“At the beginning of next year, you will descend the mountain and have a brief exchange with some students from the Great Zhou Cultivator Academy!”

“If you can stand out in the exchange of the Great Zhou Cultivator Academy, you will have the opportunity to enter the highest academy for the Great Zhou cultivators!”

“Entering the Great Zhou Cultivator Academy to study is great news for you and the families behind you!”

“Therefore, everyone, remember not to slack off in your cultivation in the next six months!”

After Wang Ziwei finished speaking.

The entire classroom was silent for a moment.

The Great Zhou Cultivator Academy was a top-notch academy that all cultivators in the Great Zhou Dynasty yearned for.

There were very few exceptions.

Children who wanted to enter the Great Zhou Cultivator Academy had to pass an extremely strict examination.

The Great Zhou Cultivation College would recruit students once every three years.

When recruiting students, regardless of background or family background, as long as they were not older than ten years old and were citizens of the Great Zhou, their ancestors had not committed any crimes or engaged in spy activities.

They could then head to the academy to take the exam.

It didn’t sound like anything special.

However, in reality, a child would only have three chances to enter the Great Zhou Cultivator Academy in their lifetime.

He did not pass the test within three times.

He would never have the chance to enter again in this lifetime.

Of course.

If his power and influence reached the level of the Li family’s State Duke’s time, he would be able to survive.

With a little operation, it might be possible for the Great Zhou Cultivator Academy to make an exception.

However, this probability was basically negligible.

And now.

Wang Ziwei was clearly prepared to send the descendants of the aristocratic families to the Great Zhou Cultivator Academy to try their luck.

At this moment, when he heard this news.

All the students present had different feelings.

Someone was nervous.

Someone was excited.

There were even people who were extremely excited...

Of course.

Actually, Wang Ziwei still had something to say.

This trip was just a consolation prize for most students.

Only Huang Li 'er and Tian Liang had a slight chance of being selected.

Thinking of this, Wang Ziwei sighed.

His gaze swept across the classroom and finally landed on Li Yueming, who was in the corner by the window. He slowly said, "Yueming, how's your comprehension of the Heaven and Earth spiritual energy?"

Hearing this.

The surrounding students quickly turned their attention back to him.

After all, the Great Zhou Cultivation School was still half a year away.

In comparison, they were more interested in Li Yueming's matter.

Hence, they all turned to look at Li Yueming who was not far away.

All of them looked like they were watching a good show.

At this moment, Li Yueming was drawing in Qi into his body.

Wang Ziwei looked over.

"Teacher, please wait a moment. I'm almost done with my breakthrough!" Li Yueming said casually."

As he spoke.

Li Yueming closed his eyes again.

A moment later, a faint aura suddenly rose from his body.

It was the countless spiritual energy that was swirling around the body of.

From afar, it looked like a flood dragon meeting a monarch. Its aura was very majestic.

Seeing this, everyone was stunned.

For a moment, he couldn't believe his eyes.

Was this still the 'idiot' in their minds?

It seemed a little strange!

Wang Ziwei was speechless.

Tian Liang/Huang Pear: .

All the aristocratic family disciples were speechless.?" At this moment.

There was a saying that could describe their good mood.

Just as I was typing out question marks.

Maybe it's not me who has a problem, but you!
