

Maxing MT 451

Chapter 451: Little Fox Reappears, Qj Fan's Face Turns Green!_3

He then looked at the general, Li Yueming.

After confirming that this group of people was not a figment of his imagination, he swallowed and shook his head."No... No, no... It's okay, General. You guys go ahead. I... I'll go back and take a look!"

The herald felt that his mind was unprecedentedly clear.

Since the general and the higher-ups in front of him were not hallucinating.

Then, it could only be that he had hallucinated when he used the binoculars to look at the spirit beast tide.

Anyway, no matter what.

One of them must be an illusion, right?

Otherwise, if there were millions of spirit beasts rushing over from the front line, how could a group of generals have the leisure to barbecue here?

However, when he returned to the watchtower.

The thousands of Starmoon Troop members seemed to have been immobilized, all of them lying on the ground, not daring to move.

The herald was about to speak.

However, what he saw next made him shut his mouth in an instant.

Outside of Northern Ice River Town, hundreds of thousands of spirit beasts had already surrounded the place.

The aggressive retail workers were surprisingly docile and understanding at this moment.

They did not attack the humans or leave. They just quietly stayed in the open space, as if they were waiting and guarding something.

.0.

In the courtyard, Li Yueming and the other twelve reincarnators were slaughtering pigs and sheep.

As for Qi Fan, who was a captive, it was more difficult.

He could only be forced to brush the secret sauce on the sizzling meat.

To be honest...

At first, Qi Fan refused.

However, after Tian Liang promised to reward him with ten mutton skewers for selling 100 skewers of sauce, he was shocked.

Qi Fan immediately felt that it was really fragrant.

After all, he had been living a miserable life these past few years...

As a beast tamer, he was caught before he could bind his spirit beast.

He had directly fallen from an advantageous class to a younger brother.

It had been a few years since he had been able to get out of the water.

However, in order to have a chance to sneak out and deal with the beautiful Arctic Spiritual Fox in the northern snow mountain...

He could only choose to endure hardships and taste gall.

At this moment, it was not a loss to be able to mix a few mutton skewers.

He just didn't know how Li Yueming's so-called 'ancient secret recipe' worked.

Otherwise, after this world ended, he could return to the main world and taste it himself.

Just as Qi Fan skillfully brushed the sauce on the mutton.

The group of reincarnators looked not far from the door.

Qi Fan didn't stop scattering cumin in his hand. He took the opportunity to raise his head and glance outside the door. He was instantly stunned.

The Arctic Spiritual Fox that he had been thinking about for years had actually appeared outside the door!

At this moment, it was wagging its tail at Li Yueming!

Instantly, Qi Fan felt as if his entire body had exploded!

What the hell was this?

The little fox's fur is fluffy.

His every move was filled with laziness.

In addition, her eyes were as deep and elegant as rubies.

Even if it was a wild beast, its posture was extremely enchanting.

However, when he saw Li Yueming, his mood was obviously more cheerful.

One of them ran over and jumped onto Li Yueming's shoulder.

Li Yueming patted the little fox's head and smiled. "Long time no see, Lord Snow Fox!"

The little fox snorted lightly, looking very proud.

However, Tsundere had already become obsolete in this era, so Li Yueming increased the intensity of his ruru a few times. Not far away, Qi Fan's face turned green.

F * Ck...

This was the supreme-grade tamed beast that he had taken a fancy to!

In order to win the Snow Fox's favor, he had put in a lot of effort.

But now, why did he run to Li Yueming's shoulder?

However, before he could speak.

The snow fox recognized Qi Fan first and asked in confusion, "Why is this guy here?"

When Li Yueming heard this, he smiled and said, "I got it from the Ninth Prince back then. I don't have anything for him to do for the time being, so I helped him wash the dipping sauce!"

As he spoke, Li Yueming took a piece of roasted meat from Qi Fan and handed it to Little Fox, "Try it. This is cumin!"

Little Fox frowned and glanced at Qi Fan, then looked at the mutton skewers in Li Yueming's hands. She shook her head seriously and said, "He's too ugly. I don't want to eat his roasted meat."

In the past few years, Li Yueming had sent something to the little fox every year according to the agreement.

After all, the little fox was a beast king on the outskirts of the snow mountain. She was an amazing big leg.

The reason why he was able to contend between the Qin army and the Great Zhou was because of the support of the little fox.

Otherwise, with his current small arms and legs, it was impossible for him to stir up such a large amount of energy.

Therefore, Li Yueming naturally had to get to know her better.

If there were any treasures, he would give them to the little fox first.

Now that his investment was beginning to show results, at least the little fox was no longer wary of him.

In addition, the little fox had already talked to him about the spirit beast tide two years ago.

The so-called spirit beast tide was not actually the spirit beasts who wanted to run out of the Hundred Thousand Mountains to wreak havoc on the human world.

In fact, it was because even spirit beasts could not handle such abnormal weather that suddenly appeared in the Hundred Thousand Mountains.

According to the little fox, the abnormal weather in the extremely cold snow mountain was cold.

Every ten years or so, there would be a few days of extremely cold weather in the extremely cold snow mountain.

Under the extremely cold weather, even the spirit beasts living in the extremely cold snow mountain could not withstand it.

When the innermost spirit beasts sensed the arrival of abnormal weather, they would run to the periphery to take refuge.

As for the spirit beasts in the periphery, they had nowhere to run, so they could only run to the outskirts of the Hundred Thousand Mountains.

Upon hearing the little fox's words, the mussel was completely stunned.

At this moment, he just wanted to dive into the furnace.

This was probably the biggest blow he had suffered since he became a beast tamer.

So what if she was ugly?

Why would he discriminate against an honest person who could read and write?

He felt a deep sense of malice.

At the side, Ding Yi, Tian Liang, and the other reincarnators silently turned their heads when they saw this situation.

Although it was very unkind, they really wanted to laugh!

Puhahahahahaha...

This Qi Fan was simply too embarrassing!

When this public dungeon was released, they would have to write this joke on the reincarnator forum overnight.

They had even thought of the title.

As a Beast Tamer, What Should I Do If My Beast Tamer Looks Ugly and Is Being discriminated Against?"

He took advantage of the time when the public reincarnation dungeon was the most discussed to release it.

It was estimated that it would be a huge explosion.

However, speaking of which...

It didn't seem like there was anything embarrassing about being intercepted by Li Yueming.

After all, he was the super chosen one of this world!

It was reasonable for his initial charm and cultivation talent to be higher than a reincarnator by 100 million points, right?

Chapter 452: The Tide of Spirit Beasts, An Ancient Legend!_1

As a veteran Beast Tamer, Qi Fan's mentality was completely broken.

Li Yueming and the other reincarnators had a delicious barbecue, followed by a discussion about the spirit beast tide.

According to Little Fox.

The spirit beast tide did not only affect the Great Zhou Dynasty. As long as the borders of the other six countries were adjacent to the Hundred Thousand Mountains, they would also be affected by the spirit beast tide.

The extremely cold snow mountain was a cold wave that froze everything.

Under the cover of such an inconceivable cold wave, even the 11th tribulation Nirvana realm spiritual beasts could not withstand it.

In other words, the power that erupted from the depths of the Hundred Thousand Mountains was beyond ascension.

Furthermore, the extreme weather in the Hundred Thousand Mountains was different.

The Endless Volcano in the northeast of the Qin Dynasty was extremely hot.

Thousands of degrees underground lava erupted, and billowing smoke and dust spread to a radius of nearly ten thousand miles. The volcanic clouds that covered the sky devoured everything, and the entire area around the volcano would temporarily become the hottest hell in the world. No living thing could survive.

The spirit beasts had lived in the depths of the Hundred Thousand Mountains for generations. According to some ancient legends, the entire Hundred

Thousand Mountains had been transformed from the death of the Supreme Insect Race that had been killed by the Tiandu Clan during the Great Divine-Devil War.

The flesh and blood of the dead Supreme Being of the Bug Tribe turned into thick soil, his blood turned into a gurgling stream, his bones turned into 206 famous mountains and rivers, and his heart turned into an endless volcano that was erupting continuously.

The reason why there would be a terrifying natural disaster that shook the entire Hundred Thousand Mountains every ten years or so was that the entire Hundred Thousand Mountains would be destroyed.

It was because the evil energy in the Supreme Martial Artist's body was not extinguished after his death.

If it was an ordinary person, they would have laughed it off when they heard such an unverified legend.

However, as a group of experienced reincarnators, everyone present had some wild thoughts.

After all, years of reincarnation had taught them how to recognize all kinds of information.

Li Yueming and the others were mostly aware of this.

Legends like this that were passed down by word of mouth and could not be verified were actually not groundless most of the time.

At most, there might be some difference between the truth and the legend.

But no matter what.

There must be a shocking secret buried deep in the Hundred Thousand Mountains.

It might even involve the Human Emperor of the Tiandu Clan and the legendary Supreme Being of the Insect Race from tens of thousands of years ago.

If he could find some clues.

Perhaps he could receive one of the biggest hidden missions in this public reincarnation dungeon.

Therefore, the group of reincarnators could not help but become excited.

If not for the fact that their current strength was limited, they would not be able to touch such a hidden mission.

They probably couldn't wait to investigate.

Li Yueming wasn't interested at the moment.

After all, from the few words revealed by the little fox, he could already confirm that the phenomenon in the Hundred Thousand Mountains was an ultimate secret that could only be touched by those in the Ascension realm. At this moment, he had not even broken through to the Void Refinement realm. He should first obtain the rewards he could get.

The little fox brought hundreds of thousands of spirit beasts from the outskirts of the snow mountain and stayed in Northern Ice River Town for a few days. The monkey king of the snow mountain and the other tribal leaders also came over.

In the past few days, Li Yueming had treated the group of beast brothers from the snow mountain well.

The Monkey King Brothers who were guests also brought several jars of Monkey Wine for Li Yueming.

Eating barbecue and drinking fine wine, it was a delightful scene.

Until the cold air in the snow mountain subsided.

The group of spirit beasts reluctantly prepared to return.

To be honest, if it wasn't for the fact that the spirit beasts didn't want to stay too long in the human settlement.

Li Yueming wanted to keep them and not go back.

Of course, Li Yueming didn't stand on ceremony before he left.

He directly asked a group of spirit beast brothers to do some street demolition work.

They destroyed the houses left behind by the old and dilapidated natives who were reluctant to move away.

After all, the beast tide had already come. If they did not destroy something before leaving, it would be difficult to explain to the outside world.

He would help Northern Glacier Town build a harmonious society faster.

And it was during these few days of eating and drinking.

The Northern Lands and the Great Zhou Dynasty, thousands of miles away, were in an uproar.

This was because many people realized that according to the news sent back by You Aotian and a group of fleeing residents, the Star Moon Army stationed in Northern Glacier Town had not evacuated.

They chose to continue guarding Northern Glacier Town when the spirit beast tide approached.

When they heard the news, everyone's first reaction was to wonder what the Star Moon Army was up to.

Was he crazy?

However, the group of people who had recovered from their shock immediately sensed something different from this message.

In the past few years, the Star Moon Army had made great contributions in the battle against the Qin army.

He had once created a shocking record of defeating nearly ten thousand Qin soldiers with five thousand elite troops.

The world was shocked by this battle.

In the eyes of the people and the great clans of the Zhou Dynasty.

The Star Moon Army, which had not been established for long, had quietly become an elite force that was not inferior to the Great Zhou Dragon Tiger Army.

It was one of the strongest armies of the Great Zhou.

However, this time, the spirit beast tide broke out in the Hundred Thousand Mountains. The Star Moon Army, which had been pinned with high hopes by countless people, did not retreat in the tide. Why?

If the imperial court or the emperor ordered a retreat.

There was no reason for the Star-Moon Army not to retreat!

Even if Li Yueming had more guts, he would never dare to disobey the decree.

But now, the truth was clear before everyone's eyes..

Chapter 453: The Tide of Spirit Beasts, An Ancient Legend!_2

A few days before the arrival of the spirit beast tide, the Star-Moon Army evacuated all the residents of Northern Ice River Town. However, they did not retreat themselves and chose to stay in Northern Ice River Town to guard the encampment.

On the surface, the Star Moon Army's General Li Yueming said that he would stay behind to guard North Ice River Town.

However, Northern Ice River Town was originally a mobile city. Since ancient times, there were not many permanent residents. If the Star Moon Army moved the people away, what would they stay to guard?

Could it be that he was guarding a lonely place?

With such an abnormal phenomenon, it was hard not to think deeply.

Did this mean that the Star Moon Army had not received the order to retreat?

Thinking of this, many people immediately thought of the strange silence in the court recently.

Suddenly, they all felt enlightened.

It was most likely because Li Yueming, the son of the Marquis of the South, and the Star Moon Army were growing too quickly, causing the emperor to be suspicious and wary.

Therefore, the imperial court wanted to take advantage of this spirit beast tide to deliberately suppress and wear down the power of the Star Moon Army, so as to achieve the effect of balancing and restricting the development of the Li family.

After all, the previous generation of the Li family was Duke Zhenguo, and their influence in the court was already very great.

The current leader of the Li family, the Marquis of Southern Mountains, Li Nanfeng, was still leading troops to fight in the western border. He also had quite a high prestige.

Now, as the younger generation of the Li family, Li Yueming's growth momentum was so rapid.

He was only in his twenties, but he had already commanded an army. He was only a general in name.

It was no wonder the emperor was suspicious and wary of such a cruel family of three!

If not for the fact that the Qin army was pressuring the Zhou Dynasty, the emperor might have attacked the Li family.

After thinking about it, this was the only explanation for why the Star-Moon Army did not retreat from Northern Ice River Town.

But no matter what, this method was a little too cold.

After all, the Star Moon Army had just repelled the Qin army for the Great Zhou.

How long had it been?

The officials in the royal court began to hit him when he was down, deliberately suppressing and harming the Star Moon Army.

The Star Moon Army had never suffered a loss from the Qin army and had never lost on the battlefield. However, in the end, they were ruthlessly stabbed by their teammates who were protecting them from behind...

It could only be said that the human heart was truly sinister and unpredictable!

Therefore, after seeing the ins and outs of this matter clearly.

The group of people did not dare to make a sound. After all, the emperor was behind this.

Even the officials in the royal court were tight-lipped about this, so how could a group of idle personnel like them dare to comment?

After lamenting the evils of the human heart.

He could only hope that the Starmoon Troop's losses would not be too severe.

Otherwise, if the Northern Lands were to fall because of this, many of them would suffer together with them.

Hundreds of millions of people watched nervously.

Four days later, the spirit beast tide in the north finally receded.

Everyone held their breaths nervously.

You Aotian, who was in Ding Bei City, was naturally the most concerned about his disciple.

Therefore, as soon as the spirit beast tide receded, he personally requested for a spirit horse and rushed to Northern Ice River Town, wanting to see if his disciple was alright.

The outside world's guess was correct. The order to withdraw Li Yueming from North Glacier Town was actually issued by You Aotian in private.

Before the Star Moon Army was officially established, You Aotian could still give orders when it belonged to the Northern Battlefront Army's scout camp.

However, ever since Li Yueming led his team out of Zhenbei City...

In fact, it was equivalent to breaking away from You Aotian's control.

After all, the Star Moon Army and the Northern Battlefront Army were of the same rank in name.

Although Li Yueming was only a fourth-grade general, his actual power was almost the same as You Aotian's general.

Under such circumstances, only the emperor could give orders to the Star Moon Army.

But this time, the imperial court did not issue any specific documents.

As a general who had experienced hundreds of battles, You Aotian naturally knew what this meant.

The imperial court did not order a retreat.

If Li Yueming retreated hastily, he would be leaving his post without permission.

The imperial court would probably teach Li Yueming a lesson.

However, if Li Yueming didn't retreat...

In the face of the mighty spirit beasts, even if the Starmoon Troop didn't die, they would still be skinned, and they would also be repaired.

In any case, the top wanted to play the whole person in the moment, and the bottom no matter what they did, they were all wrong.

Because of this, You Aotian hated politics the most.

Because in the eyes of those damn politicians.

The people and the army were not living people at all. They were chips that could be added or deducted at any time on the balance of interests.

He didn't want Li Yueming to suffer such a blow.

Therefore, he privately gave Li Yueming an order to retreat.

If the imperial court were to blame him, he, as his master, would block it.

However, he did not expect that Li Yueming would do this so as not to implicate him.

He actually chose to fight the spirit beast tide to the end.

You Aotian's heart was filled with complex emotions as he rode his horse toward Glacier Town. Along the way, You Aotian had also met people who were returning home with their families. After asking, he found out that they were both heading to the same destination, Northern Glacier Town.

You Aotian couldn't help but be filled with questions.

If he remembered correctly, a few years ago, when Li Yueming said that he was going to Northern Glacier Town, he had read through the files of Northern Glacier Town.

If the scroll records were correct, there should be at most 8,000 to 10,000 households in Northern Ice River Town, right?

Chapter 454: The Tide of Spirit Beasts, An Ancient Legend!_3

Even if there were people who could no longer survive and joined Northern Ice River Town in the chaos of war these years, there should not be more than 50,000 households.

However, he was still halfway there, and the number of people he saw had already exceeded 50,000.

How many people were there in Northern Ice River Town?

You Aotian could not help but feel very puzzled.

Due to some sensitive reasons, he rarely sent people to investigate Li Yueming's situation.

After all, they were in the same boat.

It would be awkward if they investigated Li Yueming's situation rashly and found out something.

Other than sending some rations and supplies regularly, You Aotian basically ignored Li Yueming.

The source of the information was limited to Li Yueming's own reports every few months.

From the limited information, You Aotian only knew that Li Yueming was expanding the city and population.

However, the exact number and scale were unknown.

Now, the situation seemed to have exceeded his expectations.

You Aotian took out a steamed bun and handed it to an old man who was walking with him on the road. He asked curiously, "Hello, Sir System. Are you returning to Northern Ice River Town?"

First Master even brought along two granddaughters with withered faces.

When he saw the white steamed bun that You Aotian handed over, he could not help but swallow his saliva.

These days, every family had a hard time.

The fact that he could take out two steamed buns under such circumstances meant that he was definitely not an ordinary person. Therefore, Sir System immediately said respectfully, "Sir, I am from the Northern Ice River Town. Are you also going to the Northern Ice River Town?"

You Aotian nodded.” Yes, I want to ask how many people there are in Northern Ice River Town now. “”“

First Master stared at him for a moment. For the sake of the steamed bun in his hand, he said,”Aiya, there are many people. These few years, life has been hard everywhere. If we don’t have a way to survive, we will come to Northern Glacier Town to make a living. Only Great General Li doesn’t despise us bunch of mud legs...”

You Aotian still hadn’t found out the exact number of people in Northern Ice River Town.

However, looking at Sir System’s excited appearance, he probably could not even write big words, let alone count.

Therefore, he did not say anything else after casually agreeing with her.

He turned around and left.

In any case, Northern Glacier Town was right there, and there was no way to escape. Any doubts would be resolved there.

Now, he only hoped that nothing had happened to his precious disciple!

Dingyuan City was tens of thousands of miles away from Northern Ice River Town.

Even if You Aotian was riding a high-grade spiritual horse.

However, by the time he arrived at Northern Ice River Town, it was already three days later.

In the evening, there were only a few lights in Northern Glacier Town.

With his personal guards following him, Aotian dismounted his horse and prepared to enter the town on foot.

But at this moment, a small group of soldiers rushed out from both sides of the road.

He stopped You Aotian and asked, “Who are you?”

You Aotian did not say anything. The guard beside him took out an identity token and handed it over.

The enemy soldier glanced at his identity card with the help of the fire in his hand.

Seeing the bright ‘You’ character, he realized that it was You Aotian.

All of them couldn’t help but say,” So it’s General You. This subordinate has been rude. Please don’t blame me, General You! “”“

You Aotian waved his hand to indicate that there was nothing wrong before saying, “”Where is your General Li? Are you hurt?”

The soldiers looked at each other. A moment later, one of them knelt down and said,””General Li... General Li was injured in the battle and is currently recuperating in the camp!”

You Aotian’s expression changed when he heard this.

“Hurry up and bring me there!””

Under the leadership of a few soldiers.

You Aotian quickly walked down the street.

Not long after entering Northern Glacier Town, You Aotian saw houses destroyed by wild beasts everywhere.

However, he did not know if it was an illusion.

You Aotian felt that there was something fishy about the damage of these houses.

Why were the old houses destroyed by the beasts? And the new house that was built next to it was completely intact?

Unfortunately, it was night time, and You Aotian could not see the whole town clearly. He just thought it was his illusion.

When he ran to the camp, he saw that Li Yueming's hands and feet were wrapped in white cloth.

However, at this moment, he was actually cultivating.

You Aotian heaved a sigh of relief when he saw this. After all, Li Yueming could still cultivate, which meant that his injuries were not serious.

Hearing the commotion, Li Yueming, who was cultivating, opened his eyes.

When he saw You Aotian, his first reaction was to get up and bow.

Seeing that his hands and feet seemed to be inconvenient, You Aotian's face could not help but reveal a somewhat distressed expression. He hurriedly said, "Sit properly and don't move!"

Li Yueming didn't stand on ceremony. He sat back down without getting up.

Li Yueming asked someone to send a chair over to You Aotian, who was travel-worn. Only then did Li Yueming say, "Master, why are you here?" You Aotian sat down.

After the other unrelated personnel left, he replied, "I naturally came to see you guys. Are your injuries okay?"

Li Yueming smiled. "My injuries are very serious. If not for my good luck, I would have died!"

Hearing this, You Aotian's relaxed expression suddenly became serious. He sized up Li Yueming and said anxiously, "What went wrong? Let me take a look, maybe I can cure him!"

Li Yueming waved his hand, indicating that there was no need to be anxious. "Master, my heart disease is caused by excessive sadness!" He winked at her.

You Aotian was stunned for a moment before he came to his senses.

"You're really getting smarter and smarter now. You actually dare to lie to your own master?" Tell me, what bad things are you hiding this time?"

In the past few years, it was impossible for You Aotian to not know what Li Yueming was doing.

However, You Aotian had been turning a blind eye.

Therefore, at this moment, Li Yue Ming also trusted his master.

Li Yueming thought for a while and said, "The imperial court doesn't trust our Li family. They also don't trust me and my father. So, I have no choice!"

You Aotian didn't say anything.

If it was before this, he might have refuted Li Yueming's words.

But this time, the imperial court did not issue a decree for the Star Moon Army to withdraw.

His goal was to attack Li Yueming and the Li family.

In the face of such mountain-like evidence, You Aotian could only keep his mouth shut.

Li Yueming knew that his cheap master was a soldier in the traditional sense.

Ever since he was young, he had been loyal to the country and its people.

Therefore, most of the time, he would deliberately ignore his cheap master.

But now, You Aotian had already moved here.

Li Yueming only revealed a portion of the information.

The master and disciple chatted for a long time in the big tent. It was not until dawn that You Aotian got up and left.

Last night, because the sky was dark, he couldn't see the appearance of Northern Glacier Town clearly.

This was a good opportunity.

You Aotian flew into the air in a few leaps and looked down at the entire Northern Ice River Town from above.

Only then did he realize that other than the old houses that had been maliciously destroyed, this place had actually been built by his students into a place like a paradise on earth in just a few years.

He recalled what Li Yueming had said to him last night.

Then, he looked at the neatly arranged town in front of him, which was like a fairyland in a dream.

You Aotian's face revealed a blank expression.

Chapter 455: The Shocked People, The Soul of the Army Was Formed! 1

Looking at the place in front of him that was like a fairyland in the legends, he could not help but feel a little embarrassed.

You Aotian was stunned for a few minutes.

Although he had never been to North Glacier Town, he was no stranger to a Tidal Town like North Glacier Town.

In order to warn of the spirit beast tide that might appear at any time, the Northern Battlefront Army had also sent sentries to the similar tidal towns.

Every winter, You Aotian would occasionally go to such towns to patrol.

Therefore, You Aotian believed that he had a good understanding of this small town on the border.

They also knew that most of the people living in such Tidal Towns were hunters and herbalists.

However, the current situation in Northern Glacier Town had greatly broadened his horizons.

Putting aside the size of the town, the orderly arrangement of the villages and towns, as well as the clean and tidy courtyards and roads.

You Aotian had the illusion that he was in Haojing, the capital of the Great Zhou Dynasty.

No, no, no. That was not right.

If one were to compare the cleanliness of the streets.

North Glacier Town was probably even more powerful than Haojing.

It was as if Northern Ice River Town was no longer the dirty and messy village in his memories.

Now, he was no longer in the desolate land near the extremely cold snow mountain.

If the houses were renovated properly and there was a sufficient population.

You Aotian would probably choose to believe that this was a super metropolis in the Central Plains.

This was ridiculous.

Due to the destruction caused by the spirit beast tide, many places in Northern Ice River Town were in a mess.

However, it still could not reduce the shock in You Aotian's heart. At this moment, the bird that was standing in the sky bent down.

How was this a remote town?!

This was clearly the youthful version of a future metropolis!

Even if he had confirmed it countless times.

You Aotian still could not believe his eyes.

This disciple of his was simply incredible.

The houses in Northern Glacier Town were like rice in a field.

At a glance, all the buildings were neatly built on the same central axis!

Judging from the number of newly built houses and temporary houses. There were probably tens of thousands of households living in Northern Ice

River Town.

Even if each household only had two people, tens of thousands of households would have tens of thousands of people, or even hundreds of thousands of people.

What kind of concept was this?

Even the most prosperous city in the North, Zhenbei City, had less than a million residents.

At this moment, a Tidal Town like Northern Glacier Town actually accounted for one-tenth of the population of Zhenbei City.

One could imagine how terrifying it was with just a little thought.

Simply put, Li Yueming had spent less than five years to develop Tidal Town, which had a population of less than 10,000, into a large town with nearly 100,000 households!!!

Such a ridiculous operation was simply ridiculous.

This alone was enough to prove that Li Yueming was a rare talent in the world.

Even in this era where prodigies rose together and heroes rose in Zhuolu.

This disciple of his was also a dazzling existence like a pearl.

After all, the others might not be very clear about Li Yueming's cultivation, but You Aotian, his master, was very clear.

Those geniuses who were the same age as Li Yueming had just broken through to the truth realisation state two years ago.

This was already considered a genius that was hard to come by in a hundred years or even a thousand years.

However, Li Yueming was two years ahead of them. Four years ago, Li Yueming had already broken through to the True Form Realm.

In terms of cultivation aptitude, this disciple of his was a genius among geniuses.

If he wasn't lucky enough to receive a talented disciple like Li Yueming...

You AoAotian probably wouldn't believe it even if he heard it now.

Under such circumstances.

You Aotian was silent for a long time.

Thinking of what Li Yueming had said to him yesterday, he seemed to be in a daze and hesitant.

It flew in the air for a long time.

In the end, You Aotian came back to his senses.

He slowly descended back to the ground and could not help but sigh softly.

He suddenly regretted coming to Northern Glacier Town today.

Perhaps, sometimes, the best state of a person was actually not knowing anything.

Knowing too much and thinking too much, his thoughts were in a mess.

.0.

It was said that Li Yueming was seriously injured in the spirit beast tide.

The emperor ordered his personal eunuch to bring the imperial edict and some gold, silver, and jewelry to Li Yueming.

The meaning was obvious:

If you were obedient, you would get candy. If you were disobedient, you would get beaten up.

It was a typical slap before a sweet date.

If it was an ordinary person, they would probably be submissive after a slap and a sweet date.

However, Li Yueming was obviously not in the group.

After Li Yueming saw everything clearly, he deliberately made this scene. As for whether he was injured or how badly he was injured, only he knew.

After the spirit beast tide subsided.

The residents of Northern Glacier Town began to return to the town one after another.

At the same time, the imperial court also sent officials to bring the emperor's greetings and rewards.

As an elite army of the northern lands, the emperor had given the Starmoon Army a generous reward.

At the very least, no one could find any fault with it.

The eunuch who came to announce the imperial edict was surprised by the scale of the town after entering North Ice River Town.

However, as a eunuch who came from the depths of the palace, the eunuch had never been to the bitter cold land on the border many times, so he did not know what the scale of Northern Ice River Town was.

After seeing the neat and orderly streets..

Chapter 456: The Shocked People, The Soul of the Army Was Formed! 2

He only sighed that the Northlands was not as barren and dirty as he had imagined. Then, he was led into the camp by a few soldiers.

The dozen or so people in the tent were all wrapped in bandages.

All of them looked like they had been hollowed out after a few days of partying.

Li Yueming was even more exaggerated. He was directly carried in by a few soldiers. He lay on the stretcher with a half-dead look. If it wasn't for his calm expression, the eunuch would probably think that he was about to die. He looked at Li Yueming, who was trembling as he stood up to receive the edict.

The eunuch was a little flustered and hurriedly let Li Yueming lie down to rest.

Of course, although Li Yueming was lying down, he did things very appropriately.

After all, life was like a play, and it all depended on acting skills...

When the eunuch went out to patrol the Northern Battlefield and Northern Glacier Town.

Li Yueming asked Tian Liang to secretly send him more than ten boxes of gold and silver jewelry overnight.

The eunuch who issued the decree was overwhelmed by the unexpected favor.

After pushing and shoving, he reluctantly accepted a few boxes. Then, he hurriedly walked around and brought his men back to the capital to report.

Li Yueming was simply giving her a gift.

He didn't ask the eunuch to speak up for him.

After all, eunuchs who could issue decrees on behalf of the emperor were all people who were deeply trusted.

Even if he accepted bribes, he might not be able to get things done.

Corrupting the spies around Tian Zi had always been an extremely sensitive matter.

If he was not careful, he might end up harming himself.

The Star Moon Army had survived the spirit beast tide, and General Li Yueming was heavily injured.

These two pieces of news quickly spread.

It could be said to be a stone that caused a thousand ripples.

The entire Great Zhou was discussing this.

At the same time, the emperor also released the news.

He announced that from now on, Northern Glacier Town would become the 19th city in the northern regions of the Great Zhou Dynasty.

The Star-Moon Army would be stationed in North Glacier Town to maintain its long-term stability.

Obviously, this was a reasonable explanation for why the Star-Moon Troop was not allowed to retreat.

Although the noble families and commoners in the world did not quite believe it, having an excuse and not having an excuse were two completely different concepts.

If there was no excuse, this was the court and the emperor deliberately destroying loyal officials, which would make the world feel disappointed.

Especially the great clans.

After all, Li Yueming was born in an aristocratic family. He could even be considered the top silkpants among the aristocratic children.

With an excuse, the great clans were still very dissatisfied.

But at least he wouldn't say anything more. This matter could be considered as an explanation.

However, everyone knew that the imperial court and the emperor were clearly wary of the Li family.

After all, the two generals were generals who guarded the border.

This was extremely rare in the entire history of the Zhou Dynasty.

If the Li family were to gain a foothold, they might threaten Tian Zi's position in the future.

If it wasn't for the fact that Great Qin was still eyeing them covetously, the emperor wouldn't have dared to use such extreme methods.

It was estimated that the Li family had already been labeled as plotting a rebellion.

The emperor had finally stabilized Haojing.

Li Yueming knew that he had barely passed the first stage.

Although he seemed to be living a comfortable life now, in reality, he was purely dancing on the tip of a knife.

If anything really happened, it would be a fatal disaster.

Of course, Li Yueming would definitely find a chance to return the emperor's disgusting schemes.

After all, he was a loyal believer who was always on the move.

Don't worry, let it run for a while.

After the old eunuch left, the residents who had fled Northern Ice River Town also began to return home one after another.

Of course, there were also quite a few who chose to leave completely.

This was unavoidable.

The refugees returned to Northern Ice River Town with their families, thinking that their houses would be trampled to pieces by the spirit beasts.

However, he never expected that most of his houses were still intact when he returned!

This really shocked the residents.

One had to know that although they were both Tidal Cities, the difference between Northern Glacier Town and the other towns was like the difference between heaven and earth!

The other villages and towns were slightly more severely affected.

Basically, the entire village had been flattened by the massive spirit beast tide.

Even if the disaster wasn't serious, there were only a few broken bricks left. Unlike the Northern Ice River Town in front of him, the buildings were still standing under the impact of the spirit beast tide'.

When they finally came back to their senses, a group of residents entered the town with a look of disbelief. Only then did they realize that the actual situation in the city was much better than what they saw outside.

More than half of the houses in the town were still intact!

At this moment, the belated residents finally saw the solemn faces of the Star Moon Army and the generals of the Star Moon Army wrapped in blood-stained cloth.

Half a month ago, when they left, the residents of North Glacier Town still didn't know why the Star-Moon Army was stationed here and didn't retreat.

Now that he looked at his intact house, he suddenly understood.

It turned out that General Li's promise was not fake.

The Starmoon Troop had really fulfilled their promise to protect Northern Ice River Town and its safety!

At this moment.

He looked at the Starmoon Troops who were still patrolling as usual.

A few rays of light flashed in the eyes of the group of numb residents! They had once harbored fantasies about the country and the emperor..

Chapter 457: The Shocked People, The Soul of the Army Was Formed!_3

After all, the first rule written in all the saint books was that the people were important and the monarch was light.

However, after experiencing countless beatings in life, the commoners finally understood that the principles in the Sage Book were all lies.

The Six Nations had existed since the era of the Renhuang of the Tiandu Clan. The rulers of the Six Nations had changed from generation to generation, but they had always been the same.

The Six Nations that were not their commoners.

The stage was the stage for nobles and aristocratic families. The ones who waved their sleeves and recited poems were the young masters and young ladies of the aristocratic families.

It was also not a stage for the commoners.

Legend of Heroes was written for heroes, and Legend of Heroes was written for heroes.

Nobles and generals, cultivation families...

All of this had nothing to do with the people who grew up like weeds.

But now.

The Star Moon Army was the first to be willing to sacrifice their lives to protect them.

With his own flesh and blood, he opened a path for them in the terrifying retail tide.

Just this alone was enough to make them shed tears of gratitude.

At this moment.

Li Yueming stood silently in the tent and watched everything.

He felt a little emotional in his heart.

Although this was a world of individual strength, individual strength was not the only component of the world's great power.

The army had an army spirit, and this army spirit was not fake. It truly existed.

Those troops whose willpower was still as hard as iron after hundreds of battles would be able to obtain the favor of heaven and earth.

An aura called the Army Spirit was born.

For example, the Dragon Tiger Army of the Great Zhou, the Iron Guards of the Great Qin, and the Divine Might Camp of the Great Ming...

The strength of an army's spirit was linked to the will of the army and the fate of the country.

The stronger the will of the army, the stronger the effect of the condensed army spirit. The more luck the country had, the more effective the army spirit would be.

This kind of army with a military spirit was very rare. There could only be a few in an entire country.

Most of them were short-lived.

As time passed, the soul of the army dissipated, and the soul of the army would soon dissipate.

However, once it appeared, its effects were enormous.

As long as the country's fate was not extinguished, the soul buried when the army was born would not collapse.

The spirit of this army could be passed down from generation to generation.

Thousands of troops with military souls could contend against Spirit Focus Realm experts.

Tens of thousands of them could even contend with experts at the Origin Returning Divine Aperture realm.

Hundreds of thousands of troops with military souls could even easily fight against Nirvana realm cultivators.

As long as there were enough people and their willpower was firm enough, the army spirit could theoretically even contend with super cultivators in the ascension realm.

This was also the reason why Li Yueming had always wanted to train an army.

After all, Li Yueming didn't care about those main missions that weren't challenging. Even if he completed them, he would at most give some standard rewards. Therefore, not long after entering this world, he changed his goal to completing hidden missions.

In other words, the first mission was to help his master Wang Ziwei destroy the Great Zhou.

However, Li Yueming alone would not be able to destroy such a huge country.

Putting aside the mysterious fate and the foundation of the Great Zhou that had lasted for tens of thousands of years.

The Great Zhou's Dragon Tiger Army was an insurmountable threshold.

Therefore, Li Yueming had to cultivate an army that could give birth to a military spirit. When the time was ripe, he would have enough strength to overturn everything!

He looked at the grateful citizens not far away.

Li Yueming finally saw some returns from his efforts.

What he wanted to build was a powerful army that was compatible with his flesh and blood, and a super army soul that could never be easily destroyed.

To achieve this goal.

Borrowing the experience of a great figure in his previous life, the basic condition was that he could not be separated from the masses.

Therefore, he had to lay the foundation first.

Then, he followed up step by step.

The military spirit was something unique in this world. It could really make a small bug become great!

This kind of weird setting was not something that Li Yue had heard of in other worlds.

According to Li Yueming's observations, even Huang Li'er, Tian Liang, and the other reincarnators did not seem to understand.

Its existence seemed to be a kind of contradiction in the personal power side.

After all, if there were too many ants that could kill an elephant, then what was the meaning of the existence of the elephant world?

Of course, this had nothing to do with Li Yueming.

It was useless to be so conflicted, other than asking for trouble.

He shook his head and retracted his thoughts.

The birth of the army spirit was also ranked first.

However, the improvement of his own strength could not be delayed either.

It was easy to stumble when walking with one leg crippled. Only by tidying up both legs could one be invincible.

Therefore, Li Yueming prepared to enter seclusion again.

A few years ago, Li Yueming had already broken through to the True Form Realm, and his body treasure had also been developed to the Return to God Realm.

Now that so many years have passed,

Although Li Yueming's human body had yet to develop a new level, his cultivation level had already reached the perfected True Form Realm, and he was only one step away from the Spirit Focus Realm.

If he could pass this stage, Li Yueming could be considered a famous expert on this continent.

It should be known that even the teachers of the Cultivation Academy, if they were not powerful existences who specialized in cultivation, most of the other ordinary teachers were around the Void Refinement Realm. Even You Aotian, the general of the Northern Army, was only at the peak of the Void Refinement Realm.

At the Spirit Focus Realm, one could already look down on all the heroes.

Such a speed of advancement.

Fortunately, Li Yueming was currently in the remote northern border.

If it was in a town in the Central Plains, news of his breakthrough would probably spread all over the world.

Of course, this stage was easy to step on.

Even though Li Yueming had a lot of cultivation experience, he could not match the Spirit Focus Realm.

As such, the Qin army took advantage of the fact that the spirit beast tide had just subsided and retreated from the north to Hangu Pass.

Li Yueming was prepared to cultivate in seclusion for a year or two.

He used his infinite deduction talent to think about how to break through to the Spirit Focus realm.

Therefore, after the residents returned to Northern Ice River Town, Li Yueming had people carry them around.

Xue Zhiqian and his son had been busy for half a month to figure it out and report to Li Yueming the number of people left in Northern Ice River Town after the spirit beast tide.

Before the spirit beast tide broke out, the peak population of Northern Ice River Town exceeded 110,000.

After the spirit beast tide broke out, the population of Northern Ice River Town fell like a cliff, dropping by 50,000, leaving only a little over 60,000. This shocking number made many soldiers of the Star Moon Army speechless.

Li Yueming was expressionless.

After all, this was the first time there was a spirit beast wave. Many people did not trust the Star Moon Army at all, so it was normal for them to run so many times.

It would be better if they ran away. They could just confiscate their houses and redistribute them to the people who came later.

This time, the Star-Moon Troop successfully defended Northern Ice River Town under the chaotic charge of the spirit beasts.

The next time, the people would naturally have confidence.

Those who ran away would naturally return.

It was possible that the population of Northern Ice River Town would explode in the future.

After dealing with the trivial matters in the camp.

Li Yueming used the excuse of recuperating to start his closed-door cultivation. He was prepared to take down the Spirit Coagulate Realm expert pass in one fell swoop!

Just as Li Yueming was cultivating in peace.

On the other side.

A group of uninvited guests also arrived in the distant Zhenbei City.

Chapter 458: Arrogant Reincarnators! 1

In the distant Zhenbei City.

A group of young people with tender faces were curiously sizing up the town in front of them.

In front of them stood You AoTian, who had just returned from Northern Glacier Town.

In recent years, the number of geniuses in the Cultivation Colleges had increased significantly.

He was already at the True Form Realm and even the Spirit Focus Realm when he was in his teens.

In the past, he would have been famous all over the world.

In the past few years, it had not even caused a stir.

The young people who were highly regarded by the imperial court and the emperor and sent to the north for training could be considered geniuses among geniuses.

After all, if they weren't so talented, the emperor wouldn't have gone through the trouble of sending them to the Northern Lands to temper himself.

If nothing unexpected happened.

In a few years, this group of young people in front of him would become the pillars of the entire Great Zhou.

In the past, You Aotian would definitely take a good look at this batch of future rookies.

It was just that You Aotian was feeling uneasy at this moment. In addition, there was Li Yueming, the monster among monsters, the genius among geniuses.

Therefore, You Aotian did not put all his attention on this group of young people.

Clearly, someone had also sensed it.

After all, this group of young people were not real young people.

Instead, they were a group of experienced reincarnators who could not be any older.

Therefore, seeing that You Aotian was absent-minded, someone stood up and said, "Great General, do you have any questions?"

At this moment, the group of reincarnators did not have any real power.

However, with the support of the imperial court and the forces behind them, even if You Aotian was the general of the Northern Battlefront Army, they were not afraid at all.

You Aotian only came back to his senses after hearing this.

After revealing an expression as if he had just woken up from a dream, he immediately realized that something was wrong. He coughed twice and said, "I've already received His Majesty's secret letter. Since you're all geniuses from the Central Plains and have come to our Northlands to gain experience, then start from the basic position of centurion!"

"I have arranged positions for you in Zhenbei City and Dingbei City. You can start working after you are ready!"

This was the rule that You Aotian had drafted beforehand.

He treated Li Yueming, Huang Li 'er, and the rest of his disciples.

As his master, You Aotian's requirements were obviously stricter.

Back then, Li Yueming and the others had started as soldiers. If they wanted to return to the Cultivation College, they had to personally chop off a few heads of the Qin army.

However, this group of geniuses was different. Not only were they rising stars in the royal court, but they were also the most important people to the emperor.

Thus, even You didn't dare to offend him.

A young man in his twenties was an age that could create miracles.

If they were given a little more time, the world would be controlled by them unknowingly.

Even if it was purely for the sake of his family and future generations, You Aotian had to be prepared to arrange a higher starting point for them.

In any case, he just had to wait for this group of people to make contributions and rise up.

Most of the young people who graduated from the Cultivation Academy would choose to come to the border to gain experience for three to five years. After they had made some achievements and the old officials retired, they would immediately take the rocket to rise. In a few years, they would be directly recalled to Haojing by the imperial court and become the rulers of the Great Zhou.

Every few years, You Aotian would also accept some cultivators from the Cultivation Academy to train in the Northern Lands.

Therefore, You Aotian was quite familiar with this process.

He had been doing this for decades.

They did not fawn over him, nor did they have any conflicts.

In short, it could be considered as taking what they needed.

However, this group of cultivators from the Cultivator Academy seemed to be a little different.

When they heard You Aotian say that he would arrange a centurion position for them, the first reaction of this group of cultivators was not to nod.

Instead, they widened their eyes and revealed a somewhat angry look.

A young man in his twenties took the lead and said, "A centurion wants to send us away? We are all True Form Realm cultivators in the Source Ocean, so our strength is sufficient. If we want to fight against the Qin army, our positions should be at least that of a chiliarch!?"

After hearing the other party's words clearly, You Aotian's first reaction was to frown.

He had carefully calculated the starting positions of these cultivators.

After all, although a centurion was not a very high position, it was still acceptable to arrange for a group of cultivators who had just come out of the academy.

But now, these cultivators were not satisfied.

He actually wanted to start from a chiliarch.

This was very difficult.

A chiliarch could manage a thousand soldiers in the army.

If he were to rise another rank, he would be able to command 10,000 people and would be close to the rank of a fourth-grade general.

Wasn't he asking for too much?

You Aotian didn't react.

The voice of the young man who had taken the lead to stand up could not help but raise a few degrees again. He said with a hint of anger, "What? Does the Great General look down on us? I heard that the Star-Moon Army in the north is made up of your scouts. If the son of the Northern Marquis can build one Star-Moon Army, we can build ten!"

The other young men were not afraid at all. They echoed, "You're right.. The Starmoon Troops are very famous now, but that was before we arrived! After we arrive here, in the next few years, there will be hundreds and thousands of armies that are even more powerful than the Starmoon Army!"

Chapter 459: Arrogant Reincarnators!_2

You Aotian glanced at the group of young people in front of him.

I can't help but feel confused.

However, when she carefully sensed the aura on the young man's body, she could not help but feel a chill rise in her heart.

Just now, these few young people looked arrogant, as if they did not know what modesty was.

However, he was a true True Form Realm cultivator!

Although they didn't want to admit it, this group of young people seemed to have the confidence to say such words.

Fortunately, he had been to North Glacier Town in the past two days and knew how capable his disciple was. Otherwise, You Aotian would have doubted whether the Star-Moon Army could withstand the test.

As expected, the prodigies who had emerged from the Cultivator Academy in the past few years were all hidden dragons and crouching tigers!

Any one of them was at the True Form Realm.

Since when was it so easy to break through to the True Form Realm?

After thinking about it, You Aotian didn't say anything in the end. After all, Li Yueming was at the center of the storm. What he wanted was to keep a low profile.

At this moment, You Aotian naturally wouldn't expose any information and cause trouble for Li Yueming.

Therefore, he said calmly, "The Starmoon Troop is my disciple and a new troop established by Li Yueming, the son of the Marquis of South Peak. The achievements they have made over the years have been personally praised by the current emperor. Are you saying that the current emperor is blind?"

At this point, You Aotian's voice paused. Seeing that no one dared to step forward to continue this topic, he continued calmly, "If you think that it's really easy to create an army, the Northlands isn't big, but it's not small either. No matter what, it's enough for a dozen of you to show off your skills... You can all try!"

"Of course, if you are not satisfied with the position of centurion, you can also start as a chiliarch. However, for the sake of the generals of the entire army, you will need to pass some basic tests...I'll get the general in front of the carriage to explain the specific assessment process to you. Those who pass can become a chiliarch, and those who are eliminated can only become a centurion...Well, that's it!"

After saying that, You Aotian immediately shut his mouth.

He made a gesture to the back, and the general in front of the carriage, who was good at observing people's expressions, immediately jogged over.

You Aotian was old, and he was already the general of Northern Ice River Town.

They were waiting in line to retire.

He basically had no desire for power.

Therefore, he did not need to pay too much attention to these rising stars.

However, the general in front of the carriage was different.

Not only was he relatively young, but he also had the heart to improve.

Therefore, it was not easy for him to find an opportunity to perform. He could be said to be extremely fawning over the group of reincarnators.

You Aotian pretended that he did not see anything. In any case, what the eyes did not see, the heart did not feel annoyed.

After waving his hand to signal him to work hard, he flicked his sleeves and left.

Only the general in front of the carriage and the reincarnators looked at each other with a fawning expression.

He finally came back to his senses.

The group of reincarnators felt terrible.

This seemed...It was a little different from what they had imagined!

However, he was able to become a centurion or even a chiliarch as soon as he started.

Their mission completion efficiency would be many times higher than those reincarnators in the wild.

After all, ordinary soldiers who graduated from the Cultivation Academy did not want to be promoted. They had to go through the internal channels of the army.

The internal passage of the army not only required outstanding battle achievements, but also experience. Moreover, it was easy to touch the ceiling.

After all, the authority within the army was only so high. At most, he could only be promoted to a chiliarch.

If you want to continue to rise up, you must report to the imperial court.

If one didn't have great contributions, it was basically very difficult to advance.

As top students who had graduated from the Great Zhou's Practitioner College, they had taken the imperial court's landing route. In the early stages, they would rise very quickly, and in the later stages, their ceiling would be many times higher than that of ordinary cultivators.

Therefore, after a short pause.

The group of reincarnators did not delve into You Aotian's abnormality and turned to study the so-called assessment matters.

Their purpose in coming to the North was simple.

Other than completing the main mission, the most important thing was to create an army of his own.

There were all sorts of books and records in the Cultivator Academy for them to refer to.

Therefore, after understanding the various magical aspects of the army spirit, they could not wait to try it out.

If the army spirit was really that magical.

They might be able to use this opportunity to accomplish something that they had never thought of before!

Under such circumstances, the Star Moon Army, which was regarded as the model of the new army, naturally became the first target that many reincarnators wanted to surpass.

On the surface, the Star Moon Army was established by Li Yueming.

However, they didn't think that this army was really under Li Yueming's control.

After all, they knew everything.

Although the leader of the Star Moon Army was Li Yueming, the generals Huang Li 'er, Ding Yi, Tian Liang, and the others were all reincarnators. Back when they were still in the Cultivation Academy, they had already known each other.

Therefore, in the eyes of many of the Great Zhou's reincarnators, the biggest reason why the Star Moon Army was invincible was actually due to the reincarnators in the Star Moon Army.

Li Yueming, the son of the Marquis of South Peak, was just a shield that Huang Li 'er, Ding Yi, and the others pushed to the surface. As senior reincarnators, they had no reason to lose.

Hence, under such circumstances.

An internal competition and battle between reincarnators was about to begin..

Chapter 460: Arrogant Reincarnators!_3

Ever since the spirit beast tide had subsided, the Northern Lands had welcomed a rare period of peace.

After all, when the spirit beast tide arrived, the Qin army of more than 100,000 had fled back to Hangu Pass. They would not be able to return so quickly in a short period of time.

Thus, during this period of time, the Starmoon Army and Northern Glacier Town had developed for three years.

After the last spirit beast tide.

The Starmoon Troop had successfully proven their reliability to all the residents of Northern Ice River Town.

It must be known that in the entire Northern Lands, Tidal Towns like Northern Glacier Town had basically been flattened by countless spirit beasts.

Looking around, only Northern Ice River Town, which was guarded by the Star Moon Army, stood out.

It only destroyed hundreds of dilapidated houses.

The other new houses were not even damaged.

In other words, the Star-Moon Army had successfully protected the lives and property of the people of Northern Ice River Town during the spirit beast tide.

In addition, the emperor wanted to trick Li Yueming.

He directly issued a decree to announce that Northern Glacier Town would become a permanent city from now on.

The population of Northern Glacier Town had almost experienced an explosive growth.

In a short three years.

The original 60,000 residents of Northern Glacier Town had risen to nearly 200,000.

It had successfully evolved from a small town in the middle of nowhere to a human settlement that stretched for dozens of miles.

People fished in the Northern Ice River and planted potatoes on the black soil.

He was surprised to find that the harvest was not bad.

They could even obtain a relatively high yield without needing to apply fertilizer.

It greatly boosted the enthusiasm of many people for production.

Although Northern Ice River Town was still short of food and needed to be supplied by the imperial court, it was still not enough.

However, it was already possible for them to be self-sufficient.

After all, in order to prevent the emperor from paying attention to Li Yueming, the most fertile soil on both sides of the river had yet to be known.

If he really wanted to develop the fertile soil on both sides of the river...

It would probably take less than a few decades for the Northlands, which was publicly acknowledged as a barren land, to create a super metropolis with a population of nearly a million out of thin air.

The so-called poverty of the Northern Lands was only limited to the desert around Dingyuan City, Zhenbei City, and other cities.

The soil near the Hundred Thousand Mountains was actually extremely fertile.

At the same time.

The Starmoon Troop had also been expanding rapidly in the past few years. The original five thousand cavalry had already become the elite of the elite.

He began to train the new infantry and artillery battalions.

During the recruitment, the Star Moon Army's slogan was not to protect the country, but to defend Northern Glacier Town and the Northlands.

Although there were only a few differences in the words, the meaning contained in them was enough to make people think deeply.

This was because the Star-Moon Army had been protecting Northern Ice River Town.

There were quite a number of people in Northern Glacier Town who responded to the call to join the army.

After three years, the Starmoon Army had expanded from 15,000 to 50,000. This was even after considering the provisions and the combat effectiveness of the army.

If they didn't take the initiative to control it, their numbers would probably have doubled.

He had no choice...

No matter what year it was, other things might be lacking.

However, there was no shortage of people with two legs and one head.

It was like a never-ending harvest of leeks in a farmland. A new crop would grow when it fell.

As for Li Yueming himself, he rarely paid attention to the messy matters of the outside world.

He had already drawn up the general direction of the regulations, so he did not have the time to ask about the specific matters one by one.

For the past three years, Li Yueming spent most of his time cultivating behind the scenes.

He wasn't afraid that the reincarnators would do something when he wasn't around.

As long as he was strong enough, he could simply turn his hand and suppress it.

In fact, it was very difficult for anything to happen.

This was because Li Yueming was bound to the Star Moon Army. Even if the group of generals under him were all reincarnators, it would be difficult to shake Li Yueming's position in the Star Moon Army.

Three years later, Li Yueming's cultivation was nearing its end.

Through constant deduction and resolution.

Li Yueming had finally entered the Spirit Concentration Realm.

However, the Spirit Concentration Realm was a little special. When breaking through, one's soul and body would be separated for a long time. The entire person would enter a state of being one with the world. Only when everything was done would they wake up.

Therefore, it delayed Li Yueming for some time.

By the time he woke up, he had already been in seclusion for nearly four years.

During this period of time, the Qin army that had originally returned to Hangu Pass returned to the northern regions of the Great Zhou.

But this time, the Qin army was ruthless.

The army that came was divided into two groups. One group continued to burn, kill, and plunder, consuming the food that the Northlanders had painstakingly accumulated.

The other group began a carpet search in the North.

He seemed to be looking for something.

The first batch did not have any questions.

However, the last batch did make everyone feel that something was wrong.

The entire Great Zhou was discussing this.

After a few days of discussion, someone quickly came to the conclusion that this batch of Qin soldiers seemed to have specially come to find the Star Moon Army.

The reason why they were searching in the north was to figure out the location of Northern Glacier Town.

Last year, because the Ninth Prince had been a spy, the First Prince had suffered quite a bit at the hands of the Star Moon Army.

The First Prince had probably recovered from his setback after three years of chewing.

Thus, the First Prince had managed to shake off the Ninth Prince with great difficulty.

He had led his elite troops to teach the Star Moon Army a lesson. He wanted to regain the face he had lost in the Northlands a few years ago.
