Chapter 1271: The Biochemical Base in the Tribe

“It’s done.”

The young man’s respectful voice came from the room. “We have covered all the tribes in the north.”

“Mmm, well done.”

The man in the room nodded with satisfaction and said, “You need to speed up and transfer all the jade stones before dawn!”

“I’ve already ordered them to do that.”

The young man nodded repeatedly, then bent down and asked, “Sixth Venerable, should we expand the scope to spread the Ebala virus? There seems to be a primitive tribe not far from here. Should we target them?”

“No need.”

The person called Sixth Venerable shook his head and explained, “This tribe has already learned to sell herbs for money. They are connected to the modern world and are no longer living in hellish conditions, so we don’t have to save them. Our purpose is to release the people who are in purgatory. For them, death is a merciful release, and we should help them!”

In the grass outside the house...

“Nirvana!”

Hearing that, Fang Qiu immediately knew they worked for Nirvana Organization.

Only Nirvana Organization would say that they released souls from purgatory.

“Sixth Venerable?”

Fang Qiu’s heart skipped a beat, for he suddenly thought of Seventh Venerable, whom he had killed.

“I just finished off Seventh Venerable. Then, here we have Sixth Venerable. Nirvana Organization is full of troublemakers!”

He complained in his heart.

But even though he knew their background...

Fang Qiu could only stay put and wait for an opportunity. Obviously, this was not a good time to make his presence felt.

Meanwhile...

Fang Qiu suddenly remembered the person who had been observing this area that day.

That man might be a Nirvana Organization member.

In the end, the man ran into an Egyptt military base. However, on second thought, Fang Qiu realized that the man had been sneaking around even when he entered the military base.

Perhaps the black shadow had entered the military base only to pull the wool over other people’s eyes.

Fang Qiu listened to the conversation between the two people in the room.

He couldn't help but think of the Hippo tribe, its dying members, and those who died such distressful deaths. The virus caused all these tragedies.

In his heart...

A wave of rage suddenly surged.

He even had an impulse to put the two to death right away!

But...

Fang Qiu held back his anger.

The two Nirvana Organization members before him were much less critical than the clues about Nirvana Organization that he could get through them.

From their talk, Fang Qiu learned that Nirvana must have also gained a deep understanding of the jade mine. Thus, they were anxious to dig up all the jade as soon as possible and even sent Sixth Venerable to supervise the mining process!

In this case...

Where would they transfer the jade after they were done excavating the mine?

This was what Fang Qiu should pay attention to.

Would the jade be delivered to Nirvana Organization's headquarters?

After all, this magical jade was not something ordinary, even for Nirvana Organization. So, they would regard the jade as an invaluable asset, wouldn't they?

No matter how they underestimated its value...

They would send the jade to at least one of their branches, right?

Undoubtedly, whether the jade would be transported to its headquarters or a branch, this discovery would be a vital clue for Fang Qiu to investigate Nirvana Organization.

By following the clues, he could track the organization down and get more information about Nirvana Organization, bit by bit!

There was no other way.

Nirvana Organization was so mysterious that even his country didn't know much about it. No matter how much the state wanted to find out about the organization, there was no chance, let alone any useful clues.

Therefore, Fang Qiu could not miss this rare opportunity!

Compared with investigating Nirvana Organization, it was much easier to kill its two members.

After weighing the gains and losses, Fang Qiu could only forcibly resist his impulse to rush out and strike them. He chose to wait in the dark and suppressed his mounting anger.

He had to wait until these people dug up all the jade stones and see where they would transport the jade to!

That was his final decision.

Fang Qiu had been waiting patiently the whole time.

After waiting for a few hours, those people dispatched by Nirvana Organization finally finished digging up the jade mine.

After that...

A few trucks came. After these Nirvana members loaded all the jade, they withdrew from this place.

A few minutes after the few vehicles left...

Fang Qiu trailed after them.

Fang Qiu carefully hid his aura while he followed them and did not even reveal the slightest energy aura. Whenever he needed to speed up to catch up with them, he would let the trucks move a certain distance ahead before he activated his internal Qi to rush forward and shorten the distance between himself and the Nirvana Organization members.

And over there...

Sixth Venerable escorted these jade stones on these trucks. However, he didn't discover anything unusual or sense that someone was following them.

Before long...

By tailing after the trucks, Fang Qiu arrived at a site where there was a small tribe.

The large trucks loaded with jade stopped at the periphery of the tribe's site.

Then...

All these people in the trucks jumped out.

Except for Sixth Venerable, all the people who had participated in the mining process came out of the truck as they followed Sixth Venerable. They walked to the center of the tribe and entered a room that looked like a small tower.

“Is there a tribe here?”

Fang Qiu was puzzled.

Worried about the tribe who had initially lived here, he immediately took out his mobile phone to check.

It turned out that...

There was no tribe at all in this place.

Then, what was going on with the tribe in front of him?

A question came into his mind.

On the sly, Fang Qiu walked around this area and began to observe his surroundings thoroughly.

“Hm?”

After making a circuit of the tribal grounds, Fang Qiu found seven rooms, which formed the pattern of a six-pointed star.

“The six rooms outside are all for guarding against outsiders?”

“The room inside that looks like a tower is so small. How can it hold so many people?”

Fang Qiu had his suspicions.

He found that...

The six rooms on the periphery looked quite spacious, but only one person was in each room. Moreover, all these people stood at the windows and gazed outside.

The monitored area from the six rooms could cover the whole space around them.

In the center...

The room, similar to a tower, was only the size of a normal small tower. It could accommodate four to five people at most.

“Could it be a branch of the Nirvana Organization?”

Fang Qiu thought to himself.

Judging from the scene he saw, this place might have been an important site of the Nirvana Organization. Otherwise, they would not have bothered to build a place like this and take such stringent protective measures!

At this time...

“Snap.”

A crisp sound of the door being pushed open was heard.

Fang Qiu followed the voice.

There...

The door in the middle of the room, which was like a small tower, suddenly opened.

Then, three people came out of the room and started moving the jade stones from the big trucks into the room.

“What the hell?”

Fang Qiu’s eyebrows shot up.

The three men had been mining before, and the room should be crowded with several other people. How could there be any space for the jade?

“There seems to be a hidden world inside.”

Fang Qiu murmured to himself, but he didn’t move for the time being. Instead, he released his Divine Consciousness and began his careful detective work.

The outcome of this investigation was incredible.

Fang Qiu sensed that a huge space existed in the small tower-like room. The Qi of Heaven and Earth surged violently inside, and he could detect the auras of many people.

In particular...

To his surprise, Fang Qiu detected the aura of the Ebola virus.

“Is this a biological base?”

At the thought of this...

Fang Qiu moved aside to try and look for a suitable place around him. The moment one guard was distracted, he rushed inside.

He moved like a gust of wind and didn't alert anyone.

In an instant, he flashed inside the tribe and came to the truck loaded with the jade. He immediately hid from the others and looked into the room next to the truck that looked like a small tower.

What he saw...

Fang Qiu saw clearly that this small tower-like room was not a room but a passageway.

To be exact...

There was a spiral staircase in the room.

The internal space that could hold so many people and the jade was underground!

“Clatter, clatter, clatter...”

The people transporting the jade came up.

Fang Qiu stayed hidden in his corner. When the group of people went down, he followed them underground.

As soon as he entered...

Fang Qiu immediately found a corner and hid.

He turned his head to look around and was immediately dumbfounded!

He had guessed correctly.

It was indeed a biological base!

This underground area was very spacious. He could even see the rooms where the six guards were. They were all connected to the underground area. When each guard entered the room, they seemed to climb up a watchtower. They were not standing guard on the ground but were on a high platform.

Notably...

In this spacious underground space, Fang Qiu was astonished to spot a biological laboratory isolated by floor-to-ceiling windows!

At this moment...

These people carrying the jade stones poured them onto the lab entrance.

Some people were there, the ones responsible for moving the jade into the lab.

There were windows all around the lab.

Fang Qiu saw a team garbed in biochemical suits in the lab. They kept stimulating the Ebola virus with the jade to mutate it!

When Fang Qiu saw this scene...

He immediately understood something.

It was no wonder that his internal Qi couldn't eliminate the Ebola virus.

It turned out that they stimulated the virus with the jade which contained the Qi of Heaven and Earth. Under this stimulation, the virus must have gained something like antibodies. In this way, even martial arts practitioners couldn't defend themselves against this horrible virus!

"I'd like to see what other secrets are hidden here."

Fang Qiu suddenly had an idea.

When the people who transported the jade came over, he found a chance and quietly killed three of them. Then he searched around the area boldly.

Except for the three dead people, the others were busy with all their activities and had no time to observe their surroundings.

After all, with those guards on the watchtowers, no one expected anyone to sneak in. Thus, no one paid much attention to their surroundings.

And with this opportunity...

Fang Qiu prowled around to search for clues about Nirvana Organization hidden in this place besides the biological lab.

In the end...

After searching around, he found nothing.

It was as if this place was simply a biological base!

“How could there be nothing else here?”

Confused, Fang Qiu went to a room with a closed door not far from the biological laboratory.

He listened carefully.

Although their voices were very low, Fang Qiu could hear two people talking inside.

Medical Master

Chapter 1272: Metahumans and Civilians

Fang Qiu leaned against the door and eavesdropped on their conversation very cautiously.

“Sixth Venerable, how is the situation?”

A voice came from the room.

“Very good.”

Sixth Venerable’s voice rang out, “Everything is going well according to our plan.”

“Sixth Venerable, you are indeed worthy of your name. You are amazing.”

“Haha!”

“This plan is perfect. These people coveted the ancient relic in Egyptt, so we successfully attracted all of them here. Afterward, we guided these people into the relic and helped them go through the maze. Then, when they were led into the black substance, they were infected with it.”

“Snicker, snicker... Those people won’t have any idea how they lost their lives!”

“They were all destined to die, but we want much more than their deaths. We hope they can infect a few more martial arts practitioners before they die. Even if that doesn’t work out, they will infect other martial arts practitioners after they die. Just like that, through the person-to-person transmission, a large number of martial arts practitioners from all over the world will die or get injured.”

“These self-righteous metahumans think too highly of themselves and view this world as their amusement ground. They all deserve to die!”

“You’re right.”

“The existence of these metahumans has caused countless turmoil in this world and brought countless hardship to more people. To pull the world out of this turbulence and relieve more people from pain, we must save these metahumans and let them know how harmful they are!”

“We have to kill!”

“To bring peace back to the world and reduce people’s pain, these metahumans must die!”

“Then, the second step will be...”

“Through the second step, we can also achieve perfection!”

“Yes, the variant virus has been released, and there will be more next.”

“When the time comes... Hee hee.”

Outside the door...

Fang Qiu heard the conversation.

His countenance changed abruptly.

He knew Nirvana Organization was behind this, but he had never imagined their plans were so terrifying!

They were not only targeting ordinary people but even martial arts practitioners.

Moreover...

The most shocking and unbelievable thing in Fang Qiu's eyes was...

They were jeopardizing the world, but as the source of the plague, they thought they were good people carrying out merciful deeds.

This was utterly unacceptable to Fang Qiu.

Such thinking was overboard and shameless!

The more Fang Qiu thought about it...

The more disturbed and furious he became!

In a fit of resentment and anger, Fang Qiu became so agitated that his aura fluctuated and in turn, a slight trace of it was released.

This wisp of aura spread out.

In the next second...

The conversation in the room suddenly came to a halt.

Soon after...

“Crack.”

The door opened.

A grey-haired elder and a middle-aged man in a red robe walked up to the door.

Their eyes fell on Fang Qiu.

At the same time...

Fang Qiu also saw them.

He knew that the man in the red robe was Nirvana Organization’s Sixth Venerable. And according to the conversation that he had overheard, the other one should be Nirvana Organization’s Eighth Venerable!

“You?”

At the sight of Fang Qiu, Sixth Venerable’s face changed.

Near him, Eighth Venerable’s eyes widened and glared at Fang Qiu. In an instant, a ray of ruthless killing intention shot out from his eyes!

“You are John Doe!”

Sixth Venerable narrowed his eyes and said, “Since you’ve come, die here!”

After that...

He took up his position and an overwhelmingly powerful aura erupted from him. With a flick of his wrist, a long machete immediately flew over from a distance and dropped into his hand.

On the other side...

Eighth Venerable dressed in white with gray hair also waved his hand and summoned forth a long machete. An ear-splitting sound came through the air as he charged fiercely at Fang Qiu together with Sixth Venerable.

In a flash...

In this underground space, soaring beams of sword Qi whizzed around madly.

“What a coincidence!”

Fang Qiu couldn’t help groaning inwardly.

He had roughly scanned the place and confirmed that there was no information related to Nirvana Organization, but he hadn’t done a more detailed investigation.

If he had checked everything more closely., he might have found some clues.

“Eighth Brother, slay him with all your strength!”

Rushing up to Fang Qiu, Sixth Venerable shouted out loud.

“Got it.”

Eighth Venerable replied.

Over here...

“You want a fight? Come at me then!”

With a cold snort, Fang Qiu moved and zipped out.

Sixth Venerable and Eighth Venerable followed him and rushed out of the underground biological base.

“Good-for-nothings!”

Sixth Venerable darted out.

In a towering rage, he roared furiously at the guards in the six rooms. After that, he waved his right hand, and a strand of formidable energy Qi swept out. The guards in the six rooms didn't even know what had happened before they blacked out and died!

“He's truly heartless.”

Seeing this, Fang Qiu couldn't help but shake his head.

They wiped out their people without any hesitation.

Was this Nirvana Organization's style of handling things?

Before this...

Fang Qiu had encountered some Nirvana Organization members. The cruelest thing they had done was to trick their teammates at a critical moment to find an opportunity to survive.

But what he had witnessed at this moment...

This was no trick and he slaughtered all of them decisively.

“I’ll bury you along with them!”

Hearing Fang Qiu’s words, Sixth Venerable, who was in hot pursuit, threatened in an icy voice.

“If you want to kill me, you’ll have to catch me first!”

Fang Qiu sneered and sped up wildly.

Judging from the long machetes in their hands and the overbearing auras they emitted, Fang Qiu was sure that they were the masked men who had helped the forces of the various countries escape.

Back then...

Fang Qiu had already fought with them, so he had some knowledge of their strength.

Sixth Venerable was stronger than Seventh Venerable, whom he had met before. As for Eighth Venerable, he was slightly weaker than Seventh Venerable.

In this case...

The two of them together were as potent as two Seventh Venerables!

Although Fang Qiu was confident that he could fight against the two of them, he knew that he would be seriously injured even if he eventually defeated them.

Besides, even after the deaths of Sixth Venerable and Eighth Venerable, Nirvana Organization would send other Venerables over. At that time, it would be too late to bring the Ebala virus under control.

Therefore...

Fang Qiu didn't intend to fight with Sixth Venerable and Eighth Venerable. The most urgent thing for him was to tackle the Ebala virus and the truck full of jade stones!

"Whoosh, whoosh, whoosh..."*

Fang Qiu flew at full speed and instantly threw Sixth Venerable and Eighth Venerable dozens of meters behind.

Behind him...

Sixth Venerable and Eighth Venerable stared fixedly at Fang Qiu's fleeing figure. In their opinion, they could not let Fang Qiu leave, no matter what. Otherwise, their secret plan would soon be leaked out.

To ensure the integrity of the plan, they had to silence Fang Qiu forever!

But to their great dismay...

Fang Qiu was as swift as the wind.

Though they strove to catch up with Fang Qiu, they could not do so. Gradually, they even lost sight of Fang Qiu. Nevertheless, they had no choice but to go on chasing after him frantically.

After they rushed ahead wildly for four or five minutes, Fang Qiu was nowhere to be found.

“Something’s not right!”

Sixth Venerable came to an abrupt stop.

When Eighth Venerable saw this, he also stopped.

Then they looked around and finally looked into each other’s eyes.

In that instant...

They turned gloomy in unison.

“He lured us away from our base!”

Suddenly, their faces changed dramatically!

Over there...

After getting rid of Sixth Venerable and Eighth Venerable, Fang Qiu quietly changed his direction. He sprinted at full speed and soon returned to the biological base.

Because Sixth Venerable had killed all the guards, no one noticed Fang Qiu’s arrival.

As he plunged rapidly into the biological base, Fang Qiu took out his mobile phone, turned on the video recording app, and began recording videos of those people in biochemical suits who were cultivating the virus in the biological base.

In the meantime...

He quickly released his Divine Consciousness to detect the auras of Sixth Venerable and Eighth Venerable at any time.

Fang Qiu took a video.

Then, he rushed straight into the biological laboratory, stopped these people, and collected all the remaining jade stones.

Then, he brought all of them before him.

“Why would you help the wicked? Why would you help them cultivate the virus? Do you know what you are doing?”

Looking at these people, Fang Qiu questioned them heatedly.

He thought that these people had been terrorized into doing these evil things. They had no other choice but to accept their tasks.

But unexpectedly...

The answer from this group of people petrified him.

“We are not helping the wicked but saving people who are living in great misery. We are saving them and releasing them from their pain.”

These people said this with an unwavering look in their eyes!

When Fang Qiu heard their reply...

He was startled before scoffing at himself for his meaningless sympathy. Then he stopped recording and put away his mobile phone.

“Swish!”

His sword light flashed.

He butchered all the people in the underground biological base who had contributed to the virus cultivation!

After the slaughter...

Fang Qiu made use of the available materials there.

After packing the viruses cultivated by these people, Fang Qiu directly released powerful internal Qi and destroyed the entire base. When he made sure that everything there was destroyed, he left the biological base.

He walked out.

After throwing the jade pieces onto the truck and stowing the packed viruses in a safe place, Fang Qiu quickly rushed into the driver’s cab of the truck.

He pressed down hard on the gas pedal and drove the truck out at full speed.

At this time...

“Swish! Swish!”

The sound of something breaking through the air could be heard.

Through the rearview mirror, Fang Qiu could see Sixth Venerable and Eighth Venerable approaching.

Over there...

Sixth Venerable and Eighth Venerable watched as Fang Qiu drove away. Then, when they saw flames leaping from the burning entrance of the biological base, they were angry beyond all control.

“Stop right there!”

“You’re already a corpse!”

In a rage, they desperately chased after him.

This time...

Their speed was the same as before, but Fang Qiu was slower. After all, he was driving. Although the big truck could reach 120 kilometers per hour, its speed couldn’t compare with that of a guru.

They went in hot pursuit after him.

After more than half an hour...

Finally, after Fang Qiu drove the truck into a rainforest for a few minutes, they narrowed the distance between them.

“They’re unwilling to give up, aren’t they?”

Fang Qiu laughed scornfully and estimated the distance between them and the truck. Suddenly, he stopped the truck and readied himself for a fight. Without hesitation, he sprang to his feet and jumped onto a huge breadfruit tree before him, as he directly confronted the two gurus!

Medical Master

Chapter 1273: Fight Against Sixth Venerable and Eighth Venerable

On the canopy of the large breadfruit tree...

Fang Qiu stood against the wind and stared coldly at Sixth Venerable and Eighth Venerable who had chased after him at lightning speed!

Some distance away...

When Sixth Venerable and Eighth Venerable saw John Doe jump out of the truck and stand on the breadfruit tree, sharp killing intent erupted from their bloodshot eyes.

They didn't mean to stop at all. Instead, they went all out and rushed madly toward Fang Qiu like a meteorite headed toward the Earth. They violently brandished the long machetes and slashed at Fang Qiu's head, which brought about beams of exceedingly fierce sword Qi.

They were more than ten meters away.

Yet, terrifying energy Qi erupted from their machetes. One was red, and the other was black. With two claps of muffled thunder, the two huge blades formed by energy slashed down from two directions!

The two frenzied enemies dashed toward Fang Qiu.

"Woosh."

Fang Qiu flashed aside to dodge their attacks.

Sixth Venerable and Eighth Venerable's strikes missed their target, and they couldn't help but dash behind Fang Qiu in an instant because they could not stop in time.

"Why did you do that?"

Fang Qiu turned around, his eyes riveted on the two figures ready to launch another horrific attack, and asked, "Why did you deliberately create the Ebala virus? Why did you spread the virus?"

They heard Fang Qiu's question...

"Humph."

Sixth Venerable snorted indifferently. He ignored Fang Qiu's inquiry, waved his machete and resumed his attack.

"Why?"

Unlike Sixth Venerable, Eighth Venerable was slightly stunned after he heard Fang Qiu's question. Then, he chuckled viciously and said, "Isn't the answer clear enough? These people are living in purgatory. Their lives are completely cut off from the modern world. They worry about food and have to endure hunger. They do not even have clean water to drink. Living in the depths of the grassland, they can't even see any other people. This kind of life is a living hell for them. They've sunk deep into the abyss of suffering!"

"Can't you feel it?"

At this point...

Eighth Venerable shifted and also plunged into their battle against Fang Qiu.

Right now...

Sixth Venerable had already rushed up to Fang Qiu. Once again, he brought down the long machete and slashed furiously at Fang Qiu's head.

This time, Fang Qiu no longer evaded the attack.

"Swish."

He clenched his right hand, and the moment the Divine Sword formed, he waved it to block the blow.

"Pow!"

A crisp sound was heard.

The machete and the sword collided head-on. In the clash, the immense energy of their weapons instantly activated a layer of intense energy Qi, which rippled rapidly in all directions.

In the face of the explosive wave of energy Qi, Eighth Venerable stopped before he struck out.

The second he stopped...

"Whoosh."

Fang Qiu took advantage of the power and quickly withdrew.

With a sword in his right hand and his left hand behind his back, he secretly activated the Great Hand of Destruction to attract the Qi of Heaven and Earth within 50 kilometers!

"A living hell?"

After Fang Qiu retreated, he observed his two enemies with great vigilance and continued, "But that is the life they want. They can live at will and enjoy full freedom. I can't deny that some of them may be dissatisfied with their lives. But even so, you can also help them live a better life. With your strength, you can grant them a better standard of living. But why did you not do that?"

Fang Qiu tossed out another question.

Sixth Venerable and Eighth Venerable, who were about to attack, were both stunned.

When they heard Fang Qiu's question, their minds just went blank for a moment.

"Why don't we help them?"

"Why don't we use our power to help them live better lives? Why don't we give them more promising lives?"

The two of them paused.

"What do you know?"

Sixth Venerable eyed Fang Qiu coldly and said in a matter-of-fact voice, "There are too many people who are in pain in the world. How many can we support? There are too many people suffering in this world, so we can only help them get rid of their pain!"

"To support them one by one?"

"We don't have that much time!"

When Sixth Venerable mentioned this...

"That's right,"

Eighth Venerable chimed in, "They are suffering dreadfully, and we can end their painful lives in advance so that they can be re-incarnated as soon as possible. That way, each of them will have a brand new life. Who knows, they might be re-born into better circumstances and need not experience any pain!"

When Fang Qiu heard all of this...

He could no longer suppress the anger in his heart.

"You're giving yourselves up to evil without restraint!"

Fang Qiu indignantly denounced them, "How do you know they're in pain? Where have you seen their pain? Even if they live in misery, they have the right to manage their own lives. What right do you have to intervene? If they can't bear the suffering, they have a hundred, a thousand, or even ten thousand ways to free themselves. Since they don't choose to do that, they still have hope for their lives. So, you're not helping them by doing this. On the contrary, you're ruthlessly extinguishing their last hope!"

"Bullshit!"

Sixth Venerable in a red robe cursed in disdain. With his eyes fixed on Fang Qiu, he said, "They choose to live because they are afraid of death, and they have no guts to kill themselves. So, we had never taken away their lives nor shattered their hopes. We're releasing these souls from purgatory!"

Upon hearing his explanation...

Fang Qiu's face became increasingly gloomy.

"These people are being totally unreasonable about it, and each behaves like someone possessed!"

"Shame on you!"

With a roar, Fang Qiu released his unique, unparalleled aura of energy.

He wielded the long sword in his hand.

With an overwhelming stream of Qi power, Fang Qiu turned from passive to active and pounced on Sixth Venerable and Eighth Venerable!

“It seems that you are also living in pain. I’ll set you free today!”

Sixth Venerable sneered.

He lifted the long machete in his hand and immediately rushed straight toward Fang Qiu.

Behind him...

The long machete under the control of Eighth Venerable abruptly shone with a brilliant glow. Like a poisonous snake lurking in the dark for its prey, it aimed at Fang Qiu’s head and cooperated with Sixth Venerable to attack him.

In a short moment...

The three of them collided hard against each other.

In the next second...

“Clap, clap, clap...”

The sounds of swords clashing rang out continuously,

Fang Qiu fought against two people simultaneously and wildly fended off the blows from them.

He had to admit that...

Both his opponents had superior strength. Although Fang Qiu had thrown in his whole might, he couldn't suppress them in a short time.

Obviously, the two on the other side were also aware of John Doe's formidable power, so they cooperated well with each other and launched fierce attacks from different angles, as they tried to crush John Doe with their powerful and frequent strikes!

But it turned out that...

Fang Qiu didn't panic at all.

He still put his left hand behind his back and performed the art of the ancient Swordsmanship to deal with the two.

Fang Qiu could proficiently use Flexibility Secret, Defense Secret, and Combat Secret, which were a set of ancient Swordsmanship moves. While handling the two, Fang Qiu could deftly shift between the three secretive methods.

This way...

No matter how the two assaulted Fang Qiu, he always maintained a relatively stable status. Once he found an opportunity to attack, he would immediately change his sword moves and launch a fierce attack!

Over there...

Sixth Venerable and Eighth Venerable's faces were grim.

Before this, they had already fought with John Doe once. Because of that battle, they learned how threatening John Doe could be.

However, what they did not expect was...

When they confronted John Doe, they found that he seemed much more potent than they had imagined!

Therefore, they fought with a growing sense of anxiety.

They were fully aware that...

Once they failed to subdue John Doe, killing him would be very difficult.

Fang Qiu had the same idea as they did.

He wanted to finish them off!

He was eager to slaughter these people who couldn't distinguish right from wrong!

"Buzz, buzz..."

In the fierce battle...

Fang Qiu's left hand behind his back suddenly began to tremble.

At the same time...

The surrounding Qi of Heaven and Earth suddenly began to churn furiously.

"Hm?"

Feeling the unusual movement of the Qi of Heaven and Earth, Sixth Venerable and Eighth Venerable were startled. Then they quickly looked around to see if there were any other people around them and to find out who had caused the abnormal movement of the Qi of Heaven and Earth.

However, after searching for a long time, they did not find anyone.

Then, they looked at John Doe.

He had been fighting fiercely with them and had no time to play other tricks.

Then, what on earth was going on?

They were secretly worried.

Sixth Venerable and Eighth Venerable were a little flustered, and their attention was diverted by the Qi of Heaven and Earth that suddenly fluctuated in an unusual manner.

Under these circumstances.

In the fierce battle with Fang Qiu, the suppressive abilities of Sixth Venerable and Eighth Venerable had been greatly reduced.

Over at the side...

A faint sneer of satisfaction appeared on Fang Qiu's face.

That was the effect he wanted!

He believed that he could soon find the flaws of the two absent-minded people. He just needed to grasp the chance after he located their weak points!

As expected...

Because their attention was diverted, small gaps emerged in their continuous suppression of Fang Qiu. After the gaps appeared for dozens of moves, Fang Qiu finally found an opportunity!

“Great Hand of Formlessness!”

When Sixth Venerable executed his attack, Eighth Venerable sent his blow one second later because of his lack of concentration. Fang Qiu’s left hand behind his back abruptly delivered a snap attack. In that second, his palm attack smashed fiercely into Sixth Venerable’s chest.

“Boom!”

A huge impact force suddenly erupted.

As the palm fell, the enormous amount of Qi of Heaven and Earth gathered around Fang Qiu poured into his body, surged wildly through Fang Qiu’s meridians, and erupted from his palm.

This incomparably tremendous stream of Qi of Heaven and Earth swept out instantly like a flash flood breaking through a dam. It ruthlessly charged into Sixth Venerable’s body.

Even Eighth Venerable, who stood by the side, was sent flying by the Qi of Heaven and Earth.

“Ah...”

Sixth Venerable cried out in fear and felt both appalled and astonished.

Under the towering onslaught of the flow of Qi of Heaven and Earth, Sixth Venerable's body seemed to have been sucked dry instantly, and his chest and abdomen rose and fell a few times.

When the last thread of the Qi of Heaven and Earth penetrated his body, he trembled all over.

After that...

He fell backward to the ground powerlessly with a horrified look on his face!

Medical Master

Chapter 1274: Chase!

In the distance...

Eighth Venerable was struck dumb with fear.

Just now, Sixth Venerable had been right beside him. However, he saw with his own eyes how Fang Qiu knocked him into the distance with his palm.

The mighty force far exceeded his expectations. Before Sixth Venerable was sent flying by the enormous airflow, he had felt the massive stream of Qi of Heaven and Earth that pierced deeply into Sixth Venerable like a sharp thorn and shot out from his back.

That was not all.

Eighth Venerable was close to Sixth Venerable and saw what happened.

So, he also heard a smashing sound and felt a stir.

When Sixth Venerable was hit...

The terrifying and enormous flow of Qi of Heaven and Earth shattered his Dantian. With the destruction of his Dantian, the internal Qi in Sixth Venerable quickly dissipated.

Without the protection of his internal Qi, the horrifying Qi of Heaven and Earth rushed into his body, dashed around wildly, and smashed all his internal organs!

When he heard the sound, Eighth Venerable panicked and was scared.

His eyes which had been trained on Fang Qiu narrowed all of a sudden.

He was overwhelmed by a kind of unconcealed horror!

He was a guru, and as the Eighth Venerable of Nirvana Organization, his strength was much more powerful than that of ordinary gurus.

Eighth Venerable had a clear understanding of Sixth Venerable's strength!

How impressive was Sixth Venerable?

How formidable was the one who ranked sixth in Nirvana Organization?

Just because Eighth Venerable understood all the key points, he found it difficult to believe everything that had taken place before his eyes.

How challenging would it be to kill a guru?

How difficult would it be to kill a guru as mighty as Sixth Venerable?

In the eyes of those masters in Wulin, it was impossible to kill such a formidable guru, who never needed to worry about his life in any case!

Before this...

Eighth Venerable thought that Seventh Venerable died because his plan had been exposed. Finally, those Wulin experts besieged and slaughtered him.

But now it seemed...

That was not what happened!

John Doe...

John Doe, who had killed many people from their organization, had the strength to kill Sixth Venerable with one blow!

This was truly too terrifying!

A thought suddenly appeared in Eighth Venerable's mind.

"Did John Doe also kill Seventh Venerable?"

With this in mind...

Eighth Venerable's heart trembled.

As soon as he stood up, he immediately turned around and fled frantically without a backward glance.

He did not want to die.

He knew that if he stayed any longer, he would die in John Doe's hands, so he didn't dare to hesitate. He could only turn around and flee for his life!

There...

Fang Qiu locked onto Eighth Venerable with his Divine Consciousness. When he found that Eighth Venerable had fled, he didn't chase after him immediately. Instead, he stared at the middle-aged man in a red robe, who was lying motionless on the ground, as his life drained away, little by little.

"Woo, woo..."

As Sixth Venerable collapsed limply on the ground, the corners of his mouth trembled, and traces of blood trickled from his mouth. However, he did not even have the strength to spit out the blood. He could only tilt his head and let the blood flow out of his mouth.

"Do you... regret it?"

Fang Qiu looked at Sixth Venerable and asked, "Now, can you feel the real pain of those you think are living in misery?"

"Hee, hee hee..."

Sixth Venerable burst out laughing.

He grinned, and Fang Qiu saw his blood-stained mouth and teeth. Although he couldn't conceal the pain in his eyes, he still said stubbornly and insanely, "If someone has to take the tough stuff, let me do it."

Upon hearing that...

Fang Qiu shook his head and waved his right hand.

“Whizz!”

A beam of Sword Qi flashed and penetrated Sixth Venerable’s heart.

Fang Qiu didn’t bother to talk with this kind of person anymore.

At first...

Fang Qiu was curious if this person would regret his actions before he died. Perhaps, he could get a clear understanding of himself and Nirvana Organization. But he didn’t expect Sixth Venerable to have no regrets at all.

In that case, there was no need for such a person to live in this world.

Fang Qiu didn’t like torturing people, so he chose to kill them without hesitation.

Otherwise, he could have just left. Anyway, Sixth Venerable would not have been able to live for much longer.

“Sizzle!”

After slaying him, Fang Qiu moved to chase after Eighth Venerable in the opposite direction that he fled to.

Eighth Venerable was very cunning.

Initially, he escaped to the west, but after running wildly for more than ten kilometers, he changed his direction, took a very roundabout way, and began to run in the opposite direction.

If it had been a normal guru chasing after him, he might have managed to escape successfully in this way.

Unlucky for him...

It was Fang Qiu who was running after him!

Fang Qiu could always sense his precise position as long as Eighth Venerable, who was locked by his Divine Consciousness, was within a 50- kilometer radius around him.

Initially...

With Eighth Venerable's fast speed, he could have run out of Fang Qiu's detection range during this period, but he didn't do that.

Smart people could inadvertently turn out to be victims of their own cleverness. He thought he was sharp enough to change his direction of escape, but by doing so, he delivered himself into Fang Qiu's hands!

Fang Qiu activated his fighting capacity to the fullest.

Fang Qiu accelerated to the extreme and quickly caught up with him.

Here...

"Phew, phew..."

Eighth Venerable was still frantically fleeing.

He could have fled into the rainforest, but he didn't do so. As he changed his direction constantly, he came to a place where the rainforest, desert, and grassland met.

This was the paradise of wild animals.

“I’m safe.”

When he arrived at the site and saw the large herds of bison, lions, and other animals in front of him, Eighth Venerable stopped and turned to look back. After making sure that John Doe wasn’t behind him, he breathed a long sigh of relief.

He had been running for a long time.

With John Doe’s rapid pace, he would have caught up with him if he had chased him from the beginning.

Otherwise, he would never find him!

Following an impulse...

Eighth Venerable panted heavily, rushed forward and squatted beside a stream to drink water. He completely ignored the lions lurking in the grass nearby to hunt!

“Swish.”

As soon as Eighth Venerable landed, the lions in the grass lurched to their feet.

However...

Eighth Venerable turned his head and cast a stern glance at them.

As a result, the whole pack of lions was scared off.

“If I weren’t in a hurry, I would eat you all!”

Staring at these lions, Eighth Venerable coldly threatened.

At this time...

“You will never have that chance.”

Suddenly, a voice sounded.

When he heard this, Eighth Venerable trembled violently and turned around as his eyes went blank.

Over there...

A figure had quietly walked up to him.

John Doe!

“You, you...”

Eighth Venerable pointed at Fang Qiu and said incoherently with a panic-stricken face.

“Swish.”

Fang Qiu didn’t want to talk with him. He waved the long sword in his hand and it shot forward like a sharp arrow and slashed at Eighth Venerable.

“Whoosh.”

Eighth Venerable moved hurriedly as he swerved to avoid the attack.

As he retreated...

A red glow suddenly emerged in Eighth Venerable's panic-stricken eyes. Then he stared at the group of lions that had been scared away by him earlier.

His eyes swept over them.

All the eyes of the lions had also turned red.

"Roar..."

Suddenly...

The lions that had been waiting for the prey suddenly opened their mouths wide and roared angrily.

As they let out furious growls...

Fang Qiu saw all those lions turning to look at him.

"Eh?"

Seeing that the lions' eyes glowed red, Fang Qiu was slightly stunned.

Then, he looked at Eighth Venerable.

He fled frantically. There were traces of red energy that surged from his eyes. Like spider silk, these threads of red energy connected him to those lions from a distance.

“Driving lions to fight?”

Fang Qiu was shocked.

He didn’t expect that Eighth Venerable’s most vital skill wasn’t his machete technique but his ability to control animals!

This was the first time Fang Qiu had encountered such a metahuman.

“It seems that he is also using Spiritual Force?”

He was puzzled.

Fang Qiu was ready to check it out.

But before he could carefully observe, those incomparably furious lions pounced on him crazily.

If they were guardian beasts, they might pose a threat to Fang Qiu. However, they were ordinary lions, though a guru was controlling them.

Fang Qiu flashed aside.

He zipped aside and smashed the heads of these lions and knocked them out in an instant.

Obviously...

Fang Qiu didn’t want to kill these lions. After all, they were protected animals and hardly a threat to Fang Qiu. Thus, there was no need to slaughter them at all!

On the other side...

Eighth Venerable had already fled far away by using the lions to hold Fang Qiu back.

As a guru, he knew these lions couldn't stall Fang Qiu, and he had never imagined he would drive them to fight with Fang Qiu head-on. He only needed these lions to buy him some time to escape.

He was incredibly fast.

In the blink of an eye, Eighth Venerable dashed into the distance.

By the time Fang Qiu had knocked out the few lions, Eighth Venerable had already disappeared in his sight.

"He's gone?"

Looking ahead, Fang Qiu's eyebrows rose and he immediately mobilized his Divine Consciousness to investigate. He found no aura of Eighth Venerable within a radius of 50 kilometers.

This situation made Fang Qiu frown.

"Was there water over there?"

At this thought, Fang Qiu immediately chased in the direction that Eighth Venerable had slipped away to.

In the end...

After running for a short distance, Fang Qiu saw a very wide river with rapidly flowing water.

Fang Qiu squatted beside the river.

He dipped his hand into the river.

Immediately, he emitted his Divine Consciousness, which spread fast to the upper and lower reaches of the river.

With this probe...

He immediately found Eighth Venerable's position.

He had jumped into the deepest part of the river to hide after he hid his aura.

Because he had concealed his aura and was covered by the water flow, his aura disappeared quickly from Fang Qiu's perception.

However...

Whatever measures he took, it was impossible to escape the detection of Fang Qiu's Divine Consciousness!

"Swish."

With a wave of his right hand, Fang Qiu powered his way and stopped above Eighth Venerable's hiding place. Then, he brandished his sword down to the water, and a beam of sword Qi immediately shot out.

The sword Qi entered the water but did not cause any stir!

"Humph."

Fang Qiu snorted coldly, jumped directly into the river, and rushed toward Eighth Venerable underwater.

But as soon as he was in the water...

He saw Eighth Venerable sitting cross-legged at the bottom of the river, with a red glow in his eyes.

Meanwhile, many pairs of glowing red eyes suddenly appeared around him.

Upon closer inspection...

They were all crocodiles!

“Humph.”

Fang Qiu gave a cold grunt and brandished the long sword in his right hand. With one sword strike, he slashed the few crocodiles before him in half!

How could any ordinary crocodile withstand the strike from a recultivated guru?

But right at this moment...

“Boom!”

All of a sudden, there was a loud noise.

Fang Qiu turned his head to have a look.

Eighth Venerable swung his long machete wrapped in red-colored energy as he made a mad rush to slash him with all his might!

Medical Master

Chapter 1275: The Hardest Battle

“Crash...”

The long machete, tightly wrapped in the brilliant rays of red energy, swept across with a tremendous current of energy Qi. At that moment, it triggered an underwater current which caused the calm river to overflow.

With his Divine Consciousness, Fang Qiu could capture its range of attacking moves as the long machete slashed at him. He moved aside, evading the attack easily.

But right at this moment...

“Plop...”

Several crocodiles pounced on him from all sides.

They instantly disrupted Fang Qiu’s plan to fight back.

“Swish!”

He swung the Divine Sword in his hand.

Fang Qiu brandished his sword and it whipped up blinding flashes of light in the water, and slashed at everything in its way.

All the crocodiles were wiped out.

Then, Fang Qiu waved his sword and pointed it at Eighth Venerable.

There he saw...

A huge shadow erupted from the long machete in Eighth Venerable's hand. As he swung his arm, the gigantic shadow of the machete from the water and slashed at Fang Qiu's head.

The terrifying machete Qi cleaved through the water flow in the big river and separated it into two halves!

"Sword Lotus!"

When the huge machete shadow was about to hit him, Fang Qiu flicked his wrist and pinched his fingers to invoke the Defense Secret of the ancient Swordsmanship. In an instant, a Sword Lotus formed before him.

"Bang!"

There was a thump.

The huge machete shadow dived sharply and bumped against Fang Qiu's right hand which held the Divine Sword, which made it drop a little way.

However...

Since this strike was launched in haste, it was not powerful enough.

Fang Qiu blocked it.

Without wasting any time, he looked toward Eighth Venerable, only to find that he had sailed quickly downward with the underwater current.

“Do you think you can run away?”

Fang Qiu snorted coldly.

He wouldn't lose the opportunity and let Eighth Venerable escape.

He knew full well that...

Once Eighth Venerable got away, Nirvana Organization would continue with its plan for the Ebala virus. It would be challenging to catch him when they were on the alert.

Therefore, Eighth Venerable had to die this time!

“Swoosh.”

With a swift movement, Fang Qiu urged his internal Qi to break out of his body and formed a streak of Sword Qi. Engulfed in the Sword Qi, he sped up and dashed toward Eighth Venerable like a sharp blade. Wherever he went, he split the river water in half.

Eighth Venerable was swimming frantically.

But Fang Qiu was flying!

The gap between them instantly narrowed.

Almost in the blink of an eye...

Fang Qiu caught up with Eighth Venerable.

Eighth Venerable looked back, and his expression changed drastically.

However, Fang Qiu had no intention of stopping. He controlled the sword Qi around him and slashed at Eighth Venerable.

“Ah!!!”

As the sword Qi came rapidly toward him, Eighth Venerable was so furious that his eyes turned red. Though he was still in the water, he turned around and roared angrily. Then he glared at Fang Qiu with wide-open eyes. His gaze was unflinching as if he was prepared to face death calmly. Then, he rushed toward at full speed at Fang Qiu, who was in hot pursuit of him.

In the next moment...

“Boom!”

Their weapons smashed into each other. A scarlet blade instantly shot up and collided violently with the sharp sword Qi before Fang Qiu. The two types of energy Qi blew up.

In a split second, the blast pushed the river water high into the sky!

After they delivered their blows...

Their two figures fiercely bumped against each other. Under the crazy impact of the water flow, they began a pitched battle!

“Boom, boom, boom...”

Each time they knocked against one another, booming sounds would erupt from the river. Devastating waves of energy Qi spread wildly in all directions like ripples on the water.

And even...

The ground on both sides of the river collapsed due to the impact of the energy Qi. As a result, the river expanded more than one meter on both sides!

In the water...

Eighth Venerable walked further into the depths of the water while fighting.

On one side...

Fang Qiu had been secretly gathering the surrounding Qi of Heaven and Earth with his Spiritual Force!

Eighth Venerable was greatly frightened.

He was so afraid of being slapped to death by John Doe, like what had happened to Sixth Venerable, so he chose to hide as deep as possible in the water. Although he didn't know how John Doe attracted and controlled the Qi of Heaven and Earth, he knew John Doe couldn't absorb the Qi of Heaven and earth as long as he dived deep into the water because the water flow would block it outside.

The water contained a large amount of water-type Qi of Heaven and Earth, but John Doe couldn't use it because it was integrated with the water and was spread out thinly. Therefore, even a guru would find it very challenging to extract the Qi of Heaven and Earth in the water!

Unfortunately...

Fang Qiu thought differently.

Was the current of the river an unbreakable barrier?

It looked so on the surface, but that was not necessarily the case!

At the bottom of the river...

There were glints and flashes of their weapons.

They fought wildly, making all-out efforts to deliver knockout blows at each other.

Just then...

“Hm?”

Eighth Venerable suddenly felt waves of turbulence caused by the Qi of Heaven and Earth above the river.

“You can’t kill me. You just can’t!”

Eighth Venerable burst into laughter.

In his opinion...

It was true that the Qi of Heaven and Earth outside was in turmoil.

But the Qi of Heaven and Earth couldn’t get in at all. Even if John Doe could forcibly drive the Qi of Heaven and Earth into the water, he had to break through the water flow before it could reach him.

When John Doe parted the water flow...

More than half of the Qi of Heaven and Earth would have been consumed. Then, it would be much easier for him to fight against it!

As such...

He was not afraid of John Doe at all.

On the contrary, Eighth Venerable launched wilder attacks as soon as he noticed the movement of the Qi of Heaven and Earth. In his mind, when John Doe was controlling the Qi of Heaven and Earth outside, he could not use his full strength to deal with him. This would be his best chance!

Here...

“Sword Lotus!”

Fang Qiu summoned his Sword Lotus again!

It blocked all blows from Eighth Venerable.

When Eighth Venerable saw Fang Qiu change from the offensive to the defensive, he thought that Fang Qiu was unable to attack and fought even more fiercely.

Strangely, his onslaught lasted for a long time...

But Fang Qiu had been defending himself with his Sword Lotus and didn't intend to attack at all.

He was puzzled.

Abruptly...

Eighth Venerable saw the water flow above Fang Qiu's head start to spin rapidly. Driven by the Sword Lotus, it rotated wildly and soon formed a whirlpool at the bottom of the river.

With the injection of internal Qi, the swirling vortex instantly expanded.

At the sight of this scene...

Eighth Venerable's face drastically changed in shock.

“Great Hand of Destruction-Sword Becoming!”

Eighth Venerable felt something was seriously wrong and was about to turn around and run away. Just then, Fang Qiu roared loudly and wielded his left hand. The massive Qi of Heaven and Earth, which had long been pulled together, suddenly gushed downward wildly along the vortex. The water flow did not get in the way. Instead, the rotating power of the vortex quickened its advance.

Its speed...

The process was faster than Fang Qiu had expected.

Endless Qi of Heaven and Earth poured into the vortex and rushed into Fang Qiu's palm. Under the control of his almighty Spiritual Force, the Qi of Heaven and Earth condensed into a palm-sized sword tip!

He compressed the Qi of Heaven and Earth within his touch to the extreme.

Fang Qiu unleashed his palm attack without warning.

Behind him, the remaining huge amount of Qi of Heaven and Earth pushed the palm-sized sword point, which then shot out like an arrow off the bow.

“Whiz!”

It broke through to the surface.

In that instant, it glittered coldly.

The sword tip of energy moved rapidly toward Eighth Venerable. Before he could think and react, it mercilessly pierced through his heart!

Eighth Venerable did not have a chance to protect himself in time!

When a hole appeared on his chest and blood gushed out, Eighth Venerable lowered his head and looked at the tear in his chest in disbelief. Then, he looked at Fang Qiu, his mouth moving as if he wanted to say something. But as soon as he opened his mouth, the water mixed with blood kept pouring into his mouth.

With a series of bubbles floating out of his mouth, Eighth Venerable became powerless and floated up.

“Splash!”

Fang Qiu came to the surface of the water.

He dragged Eighth Venerable’s corpse and flew to the river bank.

He threw Eighth Venerable to the ground.

River water and blood kept coming out of Eighth Venerable’s mouth.

He puked without stopping.

Then he shook violently and died.

“Alas...”

Fang Qiu let out a soft sigh.

Finally, this man died.

Even his last-ditch struggle was long and full of tricks.

In fact...

With his strength, Eighth Venerable could have put up a hell of a fight with him. It was a pity that he had been so frightened by the Sixth Venerable's death that he didn't exert all his strength.

However...

Fang Qiu benefited a lot through this battle!

For him, this battle was almost the toughest he had ever fought against a guru. It was because this guy was so cunning. He could control animals to attack. In addition, he never fought Fang Qiu head-on and only relied on sneak attacks.

If he had found out earlier that Fang Qiu was using water to create a vortex, he would have run away long ago.

"He slipped up in spite of his careful deliberations while I was lucky."

Fang Qiu secretly sighed with emotion.

When he thought of the scene of him killing Sixth Venerable with a single palm strike, he felt he was extremely lucky.

Sixth Venerable's strength was much more powerful than the Eighth Venerable's. If these two people had a deeper understanding of him in advance and knew that he could mobilize the Qi of Heaven and Earth, the result would probably be different!

"Whew..."

With a wave of his right hand, Fang Qiu built up the Qi of Heaven and Earth and turned it into flames and reduced Eighth Venerable's body into ashes.

After he finished doing all of this...

He took out his mobile phone, sent the video he had just recorded in the biological base to Li Ji, and added, "It's Nirvana Organization's conspiracy. They created the variant Ebala virus on purpose. Make this video public to all the countries as soon as possible so that everyone can be on guard against it. At the same time, all the countries should pay serious attention to Nirvana Organization.

The video was sent over.

After that, Fang Qiu returned to the breadfruit tree, cremated Sixth Venerable's corpse, and drove hurriedly to the Hippo tribe.

Fang Qiu didn't move fast along the way.

On his way back to the tribe...

He collected all the herbs that he had decided to use.

Far away from Fang Qiu...

Li Ji didn't dare to hesitate a second and immediately submitted the video from Fang Qiu.

Not long after...

Huaxia people sent this video to leaders of all the other countries.

As soon as the video was sent out, it caused a great international sensation!

“Nirvana Organization?”

“The variant Ebala virus of Africo was artificially created?”

“What’s Nirvana Organization? What exactly does this organization do?”

“This organization is excessively evil. They’re slaughtering people but disguise themselves as kind-hearted saviors.”

“Save those in a living hell? They themselves should go to hell!”

Medical Master

Chapter 1276: They Attach Great Importance to It!

People from all the countries in the world...

They were all shocked by the video sent by Huaxia!

The news of the variant Ebala virus had already spread worldwide. For a time, all countries worldwide had been on high alert and had taken a series of precautions to avoid being infected by the virus, such as strictly preventing Africo people from entering their countries, conducting various health checks, and so on.

All the countries attached great importance to the mutant virus.

As a result...

The leaders of all the countries were utterly shocked when they learned that a “crazy” organization deliberately created the virus and then spread it widely in Africo!

Especially the five major countries...

Of course, from the very beginning, the high-level officials of Huaxia knew the matter in Africo likely had something to do with Nirvana Organization. Therefore, they were not overly shocked upon receiving the news, though they handled this matter seriously without delay!

Unlike leaders in Huaxia...

When the state leaders worldwide got the video, senior officials of five great countries were instantly shocked. Immediately, they gathered all the important figures to hold an emergency meeting!

In Murica...

In a small conference room in the Presidential Palace that could accommodate dozens of people...

At the conference table, a middle-aged blonde haired man in his forties sat at the head of the table. He was dressed in a formal suit and had a serious expression. The conference table was very large, with more than a dozen seats on both sides, which were all taken.

There was a screen hanging on the innermost wall of the conference room opposite the man’s seat.

The projector in the corner of the conference table showed clips of the video!

“You’ve finished watching it?”

After he watched the video, the middle-aged man in the main seat said in a serious tone, “Now, give me your opinions!”

All the high-level officials sitting on both sides of the conference table turned around and looked at the middle-aged man at the head of the table, their expressions serious.

“I think we should strengthen the control of the variant Ebala virus and impose more strict investigations on the main roads!”

One of them said.

“These measures are necessary.”

At the head of the table, the middle-aged man glanced at the person who spoke and added, “I want to hear your opinions about this matter and your views of this crazy organization!”

As soon as he said that...

Everyone in the conference room turned grave.

“Nirvana Organization? I’ve never heard of this organization before.”

“Yes, this organization is a mystery to us. We don’t know what this organization is, how many people there are, how capable it is, what its business scope is, and so on!”

“According to the video provided by Huaxia, Nirvana Organization has always been very mysterious. Even those people in Huaxia haven’t figured out its background, so we can only start from the beginning to investigate it.”

“According to the information from Huaxia, Nirvana Organization has a great many members who have been highly secretive. They usually hide in the crowd, so it’s tough to hunt them down. Anyway, it won’t be easy for us to investigate this organization.”

“We must cooperate with the military and special abilities departments to deal with this matter. Target investigations should be done step by step!”

Everyone was anxious to put in a word.

At the head of the table, the middle-aged man kept nodding. Finally, he announced his decision, “From today on, we should be highly vigilant of Nirvana Organization. List it as a top-threatening organization. Meanwhile, we should start digging up detailed information about Nirvana Organization from all aspects. We must find out the true face of this organization in whatever way we can!”

...

In Rashk...

“An organization made the variant Ebala virus in Africo?”

“How could there be such an organization in the world?”

“The people of this organization are overly sinister. They treat people like dirt!”

“If I come across anyone from this organization, I’ll smash his head!”

“I believe there is no such a person in our country. If there is, he will be killed.”

In the conference room of the Presidential Palace, the high-level Rashk officials were in a heated discussion. The atmosphere in the whole conference room was much better than that in Murica.

Everyone scrambled to make comments to show their hatred and anger for Nirvana Organization!

The Rashk decision-maker decisively ordered, “Thoroughly search the whole country and catch all the Nirvana Organization members in our country. Be sure not to leave out any one of them. At the same time, begin a detailed investigation into the Nirvana Organization. If you need any information, you can submit your application to get support from Huaxia!”

In Anglan...

“These people should go to hell.”

“The paradise in their eyes is the hell of the injured!”

“A pack of wolves in sheep’s clothing!”

“They are proud of slaughtering people. The people of this organization are horrifying.”

Similarly...

In the intense meeting...

The higher-ups in Anglan issued an order to start investigating Nirvana Organization immediately!

In L’hexagone...

Unlike the other three countries...

Representatives from the special ability department also joined in the meeting.

“Judging from the video, Nirvana Organization should be huge, and its members should all be very powerful. Their people claim to be saviors and take pleasure in killing people, so we must treat this matter seriously!”

A person in a long robe stood in the conference room. No one knew whether the person was a man or a woman, for the person's face was covered and only revealed a pair of eyes. While watching the video, the person walked back and forth and said, "I hope members of this organization haven't infiltrated into our country yet. Otherwise, we would be in big trouble."

"This organization's way of doing things is secretive to the extreme. According to the information from Huaxia, it has existed for a long time and has been recruiting members from all over the world. It is an international criminal gang that can threaten the world's security!"

"It appears that we must appoint them to handle this matter."

In the conference room, all the high-level officials spoke, one after another.

At the end of the table...

A middle-aged man, who looked young and good-looking, nodded slightly and said, "Huaxia has already sent this video to all the major countries, but this kind of thing mustn't be made public. Once the information becomes widely known, it will inevitably cause worldwide panic. So, we can only investigate it in secret. From today on, all the news about Nirvana Organization must be reported to the higher-ups. We must try our best to locate and destroy this organization in the shortest time!"

...

Sure enough...

In addition to the four great countries...

All the other countries in the world were on high alert.

Among them...

Beyond doubt, countries in Africo were the ones who were highly vigilant.

As they received the video...

Leaders of all countries in Africo exploded with rage.

What was different in this instance from other countries was that...

Nirvana Organization was causing trouble in their territory.

Fang Qiu's appearance had ushered in a new life for Africo. Once Africo managed to wipe out the malaria epidemic, it would get a brand-new environment for survival and development.

When the variant Ebala virus appeared...

The people of various countries in Africo were very distressed. They blamed the mutation of the virus on their hot weather and filthy environment. To deal with the variant Ebala virus as soon as possible, all countries allocated a lot of research funds to study it.

And now...

When they heard that Nirvana Organization was behind all this...

Leaders of various countries in Africo felt as if they had been fooled. It was as if they were forced to swallow a fishbone, which then got stuck in their throats.

Among them...

These senior figures of Egyptt were most furious.

The battle for the relic had just ended, and one of their gurus was still unconscious. This result had already made them furious. When they learned about Nirvana Organization, the high-level officials of Egyptt couldn't accept the truth. They even linked the infection of the virus with the failure of the competition for the relic. They couldn't wait to vent all the piled-up anger on Nirvana Organization!

Undoubtedly...

In a towering rage...

The Egyptt government immediately gave the order to investigate all the people in the country thoroughly. Anyone suspected of being a Nirvana Organization member would be arrested on the spot.

They would rather catch ten thousand people by mistake than let any of them go.

Meanwhile...

Several troops were dispatched to patrol the country in search of traces of Nirvana Organization.

At last...

All the countries in Africo joined forces and formed an army. They began to thoroughly search for Nirvana Organization members in Africo and vowed to drive the organization out of Africo!

And over here...

Just as the high-level officials worldwide were shocked by the video provided by Huaxia, Fang Qiu, who shot the video, had already driven the big truck filled with jade stones to the Hippo tribe.

Two days had passed...

Fang Qiu had given the medicine made according to the counter-toxin prescription to these people in the Hippo tribe. At this time, the effects of the drug had already worn off.

Because of the loss of the effect, those who had recovered some of their strength fell into despair, as they awaited for death again.

Fang Qiu returned to the tribe...

At the sight of everyone's miserable situation...

He didn't dare to hesitate. Instantly, he took out the herbs he picked along the way and began to process these herbs.

It took him more than an hour to do that.

After he finished stewing the medicine, Fang Qiu gave it to the patients infected with the virus in the tribe and waited aside to see the effect of the medicine.

It turned out that...

Although this medicine was better than that made according to his counter-toxin prescription, it couldn't cure people. The drug couldn't kill the variant virus. It could only delay the occurrence of these symptoms caused by the virus!

"It seems that I'll have to find another way."

Fang Qiu shook his head and sighed softly after he examined the patients.

At this time...

"Beep, beep, beep."

His phone suddenly rang.

He took it out and found that it was Li Ji.

“Hello?”

Fang Qiu immediately answered the phone.

“The video you sent has been delivered to leaders worldwide. It has attracted a whole of attention.”

Li Ji’s voice was heard.

“Great.”

Fang Qiu nodded and heaved a sigh of relief in his heart.

Nirvana Organization was exceedingly mysterious and powerful. The video aroused the high vigilance and attention of all countries, which was good news for all the people who were or would be persecuted by Nirvana Organization.

It would not be so difficult when all the countries in the world started a battle against Nirvana Organization together.

“Do you have a way to treat the variant Ebala virus?”

Li Ji asked.

“Not yet.”

Fang Qiu shook his head and said, “No. But I will try my best!

Medical Master

Chapter 1277: Hunt Down John Doe!

“Now, all the people at home and abroad trust only you.”

Li Ji’s voice came from the phone. “Countries worldwide have sent many medical experts to study the variant Ebala virus. However, it’s said that they don’t have any good method to deal with this virus either. Moreover, they’ve encountered a big bottleneck during their studies. In a short time, they can’t find a solution!”

“Nirvana Organization stimulated and mutated the virus using the Qi of Heaven and Earth. Therefore, ordinary people can’t find a cure.”

Fang Qiu nodded.

“No wonder.”

Li Ji nodded knowingly and said, “Several countries in Africo have contacted us. They hope you can help us deal with the virus. After all, it’s a devil of a tricky problem.”

“Once I find the method, I will announce it immediately.”

Fang Qiu nodded.

He had shot the video in the biological base. At that time, Nirvana Organization members were trying to mutate the virus with the energy from the jade stones. However, he didn’t take any shots of this scene or the jade stones.

Fang Qiu was well aware...

Once the jade appeared in the video, all the countries would focus on the jade instead.

In this case, they would not care too much about Nirvana Organization. Besides, it would make it more difficult for Fang Qiu to excavate the jade mine in the future!

Therefore, Fang Qiu didn't record the image of the jade.

Until now, people from all the countries in the world, including Li Ji and the big shots above him, still didn't know about the existence of such jade stones.

Only Nirvana Organization knew about it!

"By the way," Fang Qiu suddenly thought of a question and immediately asked, "Martial arts practitioners are infected with the strange black matter. Have you told it to any other countries?"

"No," Li Ji replied.

He shook his head and said, "We don't know the current situation very well. As for the tricky problem of the mysterious black substance, we've been trying our best to solve it. But we chose not to share the news with other countries. For one thing, only people above the guru level can see it through inner sight. For another, it seems that only by using Huaxia techniques can people observe it. Even if we tell it to people in other countries, they would not believe it. Thus, the higher-ups have decided not to tell them for the time being!"

"Mmm."

Fang Qiu nodded because he could understand why.

Fang Qiu was not surprised when Li Ji mentioned Huaxia techniques. After all, in the world, only Huaxia techniques could enable people to use inner sight. People could observe their bodies from different angles by using cultivation methods from other countries, but they couldn't inspect things in detail as Huaxia people could do with their techniques.

Moreover, the black substance was extremely weird. Without careful inspection, one could hardly see it.

“You must be more careful in Africo.”

Li Ji reminded him, “This time, Nirvana Organization has made such a big plan, but you saw through it. Besides, you’ve made Nirvana Organization the enemy of all the countries in the world. I’m worried that they will vent their anger on you. They will very likely come after you in Africo!”

“I see.”

Fang Qiu nodded to show he understood it and said, “I will be on my guard.”

After that...

He hung up.

Staying in the chief’s room, Fang Qiu closed his eyes, turned his head, and thought carefully throughout the whole night.

Until the next morning...

Fang Qiu could not find any good solution. So, once again he could only try to use his internal Qi to help with the treatment.

In the end...

It didn’t work out.

The internal Qi still failed to take effect on the mutated Ebala virus.

“The inside-out approach is not feasible, and there isn’t any outside-in method. I guess I can only try to fight it by myself.”

Fang Qiu had a sudden inspiration

He went up to the chief’s bed.

“I want to try a treatment on you,” Fang Qiu said.

The chief was lying on the bed in a stupor due to a high fever. Looking at him, Fang Qiu said, “This method may not work, but I have to try it. If you can’t hold on, I can find other patients.”

“I, I can do it!”

The chief spoke up.

Fang Qiu didn’t hesitate.

He immediately got to work.

With needles transformed by his internal Qi, Fang Qiu stimulated one of his Mingmen acupuncture points!

Mingmen, an acupuncture point, was a person’s gate of vitality. Stimulating it could increase people’s vital Qi and thus enhance their constitution. According to modern medicine, this method helped people boost their immunity. Then, people could fight against the mutated virus with their immune systems!

After this insertion...

Fang Qiu felt that the vital Qi in the chief's body increased a lot. However, after he observed for a while, he found the increase in vital Qi still posed no threat to the mutant virus.

The human immunity system seemed unable to handle the mutant virus either.

"How could this be?"

Fang Qiu hurriedly examined the patient with his inner sight.

Soon...

He figured it out.

The vital Qi could be regarded as the guard in the human body. It would be more or less effective even without Fang Qiu's deliberate stimulation if it was of help.

However, the vital Qi didn't help. After being stimulated by the jade, the mutant Ebala virus could absorb internal Qi. The vital Qi in ordinary people was equivalent to the internal Qi of martial arts practitioners. When more vital Qi was released through specific stimulation, it couldn't resist the mutant Ebala virus. Instead, the virus would gobble up it.

Therefore, the Chinese Medicine methods of replenishing and mobilizing vital Qi were not useful at all!

"I can only look for a new prescription."

The continuous failures did not crack Fang Qiu's confidence. On the contrary, it spurred him on, to try even harder to find solutions to eradicate the mutant virus.

He pondered for a long time.

Eventually, Fang Qiu located an ancient book of prescriptions that he had memorized. In it, he found a prescription that could kill insects and detoxify poisons. After quickly noting down all the herbs he needed, Fang Qiu told the chief about it. Then he fed the villagers medicine, water, and food before leaving the village to look for the necessary herbs.

At another site...

In an unknown place, the pounding of waves could be heard.

“Lord Virtuous!”

A voice from the darkness called out.

“Um?”

In the dark, a glimmer of light emerged.

Upon a closer look, it turned out to be a pair of eyes. There were faint ripples of light in them. The utter darkness set off this brilliant light in the pair of eyes.

“It’s John Doe.”

A voice sounded in the darkness, “John Doe defeated and killed Sixth Venerable and Eighth Venerable. Worse still, he spared no effort in disclosing our plan in Africo: all the countries in the world are aware of our secret.”

“John Doe?”

In the darkness, the pair of eyes suddenly narrowed, and the voice came, “Is that guy from Huaxia? Haha... We underestimated him!

“Lord Virtuous, please issue an order.”

A firm voice rang out from the darkness.

“Mmm.”

The eyes suddenly narrowed to slits as if its owner was smiling. Then, Lord Virtuous said, “Kill this guy before the higher-ups find out about this matter. Don’t let him leave Africo alive. Only in this way can I carry out the fulfillment of my duty and report it to the higher-ups. Otherwise, it will make me look very incompetent!”

“Yes!”

A crisp and firm response came from the dark.

“Wait a minute.”

The eyes closed, and a voice sounded with a chuckle, “Don’t forget our plan in Africo. Those tribesmen should have died a long time ago. If the virus prepared by Sixth Venerable and Eighth Venerable can’t work, let’s finish off them and release them from the sea of bitterness.”

A burst of low laughter followed, which sounded like it came from a woman or perhaps a man.

Africo...

It was destined to be a turbulent place.

Fang Qiu looked for herbs everywhere. Meanwhile, all Nirvana Organization members in Africo set out to hunt John Doe upon receiving the order!

This mission was different from the previous ones.

No one dared to disobey the order from Lord Virtuous!

As such...

The order threw Africo into chaos.

Various countries in Africo were looking for Nirvana Organization members using every possible means; in turn, Nirvana members had turned out to search for John Doe. Meanwhile, John Doe was looking for all kinds of herbs to treat the mutant Ebala virus.

Of course...

Fang Qiu, in the depths of Africon Savannah, had no idea about this situation.

A whole day passed by.

Fang Qiu finally collected all the herbs he needed for the ancient prescription.

When Fang Qiu returned to the Hippo tribe, he didn't go straight to decoct medicinal herbs for the patients like the last few times.

Instead, he gathered all the herbs that he had collected.

After that...

He took out sufficient jade stones from the big truck and set up a small terrain at the site of the tribe. After gathering all the herbs in it, he strengthened them with the Qi of Heaven and Earth.

In Fang Qiu's opinion...

All the ordinary methods had proved ineffective.

He procured all these herbs according to an ancient prescription. Since the prescription was recorded hundreds of years ago, it might not have much effect on the variant Ebola virus. Therefore, Fang Qiu wondered if herbs infused with the Qi of Heaven and Earth from the jade could fight against these viruses. After all, the virus had also been simulated and changed by the jade.

When he thought of this...

Fang Qiu began his experiment right away.

After several hours, it was dark, and these herbs in the terrain had been infused with the Qi of Heaven and Earth. It was time for the patients to take medicine.

Soon after...

Fang Qiu removed the herbs from the terrain and took them out to observe them — they had been soaked with enough Qi of Heaven and Earth. Then, he began to process the herbs.

After the processing, he started brewing them.

Fang Qiu even built up a small terrain when he decocted the medicine.

Forty minutes later...

The medicinal potion was made, and Fang Qiu quickly poured it out. After it cooled down, he promptly let the patients drink the potion.

The patients drank it.

After a careful examination, Fang Qiu found that the potion was effective.

“Finally, I have the disease under control for the time being.”

Fang Qiu nodded, but he couldn't help but smile wryly. “I can only control it temporarily?”

“Judging from the previous outbreaks of the virus in the patients, I can only restrain it for ten days at most. I can't reverse the hopeless situation if there is no new and effective solution in ten days.”

Fang Qiu found that...

This ancient prescription exerted an effect, but not much. It could only temporarily suppress the division and growth of the virus. Once the drug lost its potency, the virus would become resistant to this medicine. Then the potion's effect would be minimal when used again.

“There are other tribes attacked by mosquitoes. In ten days, the incubation period of the virus may have passed. There would then be an outbreak!”

“Ten days... ”

Fang Qiu's brows furrowed.

He had so limited time!

Medical Master

Chapter 1278: Using Animals!

“Beep, beep, beep.”

Fang Qiu was pressed for time. At this moment, his phone suddenly rang in his trouser pocket.

He took it out to see who was calling.

To his surprise, it was Jiang Miaoyu.

“Hello?”

Fang Qiu answered quickly.

“What are you doing?”

Her voice came, “Why haven’t I heard anything about you recently?”

“I’m trying to find a solution.”

Fang Qiu said, “The mutant Ebala virus is tenacious. It’s almost impossible to kill the virus in a normal way, so I’ve been looking for an effective method.”

“Have you found it?”

Jiang Miaoyu nodded knowingly. Then she said anxiously, “Some of us are also infected with the mutant Ebala virus. We’ve taken the best precautions against the virus, but a student with the medical assistance team was infected. The sick student is now running a fever. I feel there will be a large outbreak of this virus!”

“The virus has already spread there?”

Fang Qiu was shocked.

He didn’t expect that the virus would travel to Comores.

But Comores was an island country. Although it belonged to Africo, it was far away from the other countries in Africo. Besides, the virus broke out in the Africo continent. In this case, the virus must have been brought there either by mosquitoes or those people carrying the virus.

Thinking of this, Fang Qiu became anxious, fearing that Jiang Miaoyu would also be infected.

“You must take proper precautions.”

Fang Qiu hurriedly reminded her, “When handling patients with the virus, you must wear biochemical protective clothing. You must wear long-sleeved clothes every day and never expose your skin to the air. Please pay special attention to the mosquitoes. According to my observation, most viral infections are usually caused by mosquito bites. You must remember these and don’t be careless!

“I know.”

Hearing Fang Qiu’s anxious voice, Jiang Miaoyu was deeply touched and hurriedly assured him, “We’ve done a good job in protecting ourselves. Don’t worry. I’ll be very cautious.”

“Mmm.”

Fang Qiu nodded and continued, “Yes. I haven’t yet found a way to destroy this virus, but I got an ancient prescription from an ancient book. It can stave off the death of infected people for about seven days. So, keeping them alive for seven days won’t be a problem.”

“Isn’t there any better way?”

Jiang Miaoyu asked seriously.

“I’m with a group of infected people in Africo and I am studying the mutated virus in their bodies. If I can find a better solution, I’ll tell you as soon as possible.”

Fang Qiu said.

“You’re in Africo?”

Hearing this, Jiang Miaoyu suddenly became anxious and hurriedly said, “How can you stay with those infected people? Are you alone? Do you wear a protective suit? You must be careful!”

“Trust me. I’m fine.”

Fang Qiu smiled and said, “That’s all. After this call, I’ll send you a text message with the detailed prescription.”

Then they chatted for a while.

Fang Qiu ended the call.

After that, he immediately typed out a text message and sent it to Jiang Miaoyu.

“Whew...”

After sending the message, Fang Qiu took a long breath.

To his great surprise...

The virus had spread to Comores.

Of course, to Jiang Miaoyu, Fang Qiu only mentioned the normal channels where people might be infected with the virus. But in his heart, he knew Nirvana Organization caused the disaster.

“Nirvana Organization seems to have gone ahead with its second plan in Africo.”

“It’s not limited to the grassland!”

Fang Qiu frowned, and his face turned grave.

From the situation in Comores...

Fang Qiu only had seven days left. Apart from the time spent sending the medicine, he only had five days at most. It meant he must find a way to eliminate the virus in five days. Even if he couldn’t do it, he had to find a new way to alleviate the symptoms. Otherwise, he couldn’t bear to think of the tragic consequences!

At the same time...

Upon receiving the order from Lord Virtuous, all Nirvana Organization members in Africo came to Africon Savannah, and carried out an intense manhunt for Fang Qiu.

Nirvana Organization had learned about the death of Sixth Venerable and Eighth Venerable. Of course, they also knew John Doe robbed them of the jade from the Egyptt relic.

They were very all clear about the situation.

Since John Doe took the jade, he couldn’t leave quickly. Moreover, according to the reports from their spies in various Africo countries, there was no sign of John Doe and the truck with the jade.

In this case, people in Nirvana Organization believed that John Doe was still in Africon Savannah.

That was why they would conduct a thorough search in Africon Savannah.

Deep in the grassland...

After the call with Jiang Miaoyu, Fang Qiu was once again lost in thought as he racked his brains for ways to tackle the mutant Ebola virus!

As he pondered over it...

A day and a night passed.

During this period, Fang Qiu combined countless ways to treat the disease caused by the virus in his mind. In addition, he simulated every single one of them.

But in the end, he thought all these methods wouldn't work!

Based on the countdown...

Several days had passed.

In the past few days, Fang Qiu had come up with various methods and made all the possible attempts, but he gained nothing. The result distressed him greatly.

He had never encountered such a tricky virus before.

Fang Qiu believed...

Given enough time, he would find a way to eradicate this virus and save all the patients in Africo.

But the key was...

The outbreak of this virus was very rapid. As time went by, Fang Qiu realized he was running out of time.

"So, I could only watch helplessly as those patients are tortured to death by the mutant virus?"

Fang Qiu felt very depressed and powerless.

By dusk...

Fang Qiu was at the end of his tether. Helplessly, he walked out of the room of the chief of the Hippo tribe and stared into the vast grassland that stretched before him.

He wanted to go out for some fresh air and clear his mind. When he strolled out to the open grassland, deep in thought...

A slight sound came from a distance.

He looked over.

Fang Qiu was surprised to see a hyena bounding out of the grass not far away. Its eyes were trained on him and its mouth was half-open with drool coming out!

It seemed that...

The hyena was set to attack Fang Qiu!

When it came into Fang Qiu's view...

"A hyena?"

Fang Qiu suddenly had an idea.

That was right!

In addition to human beings, there were countless animals in the Africon Savannah.

“Then, since people have been infected, why didn’t these animals get infected with the variant Ebala virus?”

Fang Qiu murmured.

His eyes suddenly lit up as if he had caught a glimmer of hope.

Indeed.

In the past few days, he had been running back and forth around the grassland several times to collect herbs. Especially when he chased after Eighth Venerable, he had entered the area where it was densely populated by wild animals.

He thought back on it carefully.

It was true that he barely saw any animal carcasses.

In his memory, he only caught sight of one or two carcasses in the area full of wild beasts, but they had been hunted down and died.

Not a single animal had died from the virus.

“Right!”

Fang Qiu suddenly smiled.

With a smile, he slapped his forehead hard.

“Why did I not think of this before?”

He found that...

Under normal circumstances, the viruses were transmitted to the infected people through the air, mosquitoes, saliva, body fluids, etc.

All other countries could easily control the diseases caused by viruses spread through these normal ways, but it was difficult for countries in Africo.

What was the reason for that?

It was because of the poor air quality, lousy living environment, and mosquitoes in Africo!

Why were there so many mosquitoes?

Rotting corpses!

“No wonder Nirvana Organization sent people to spread the virus among the tribes, one after another, using mosquitoes. It was for this reason.”

Fang Qiu had figured it out.

He had thought it over. If Nirvana Organization wanted to spread the virus, the simplest way was to use a few rotten animal carcasses. They could add viruses and mosquitoes to them. Then, these mosquitoes could spread the virus. In this way, they no longer needed to release mosquitoes carrying the virus to these tribes, one at a time.

But...

Nirvana Organization didn't use this simple method.

That was to say...

They had already tried it but found that this virus couldn't kill animals!

As long as an animal infected with the virus was still alive, it would not pass on the virus. Nirvana Organization didn't choose to infect animals, most likely because these wild animals were able to kill this mutant Ebola virus!

"Wild beasts have multiplied in an endless succession for thousands of years to the present. Why?"

"It's not because they do not get sick, but because each kind of wild animal has intelligence and they have an inborn healing instinct. Though they are less brilliant than human beings, they can look for herbs to heal themselves!"

As he murmured...

Fang Qiu felt like he had finally found a breakthrough.

Immediately...

He turned to look at the hyena.

Sure enough.

Animals have the instinct to look for healing herbs. Fang Qiu was not sure if wild animals were resistant to this virus. Besides, it might be because of other reasons that Nirvana Organization didn't choose to infect these wild animals. Nevertheless, this was the only breakthrough that Fang Qiu could find at this time.

This time, he had to blaze a new trail.

He did it as soon as he came to this realization.

Fang Qiu jumped out. Before the hyena could launch a sneak attack, he pounced on it and his incredibly powerful internal Qi erupted. The hyena was pinned to the ground, unable to move.

He carried the hyena back to the tribe.

After directly transferring the virus to it, he injected internal Qi into the hyena, which allowed the virus to absorb the internal Qi rapidly, which in turn would make the hyena sick.

A large number of viruses reproduced rapidly.

Fang Qiu scrutinized the hyena. After ensuring it was infected with the virus, he walked out of the tribe with the hyena, threw it on the grassland, and released it.

As soon as it landed...

The hyena ran away frantically. It was so afraid of Fang Qiu that it kept turning back to check Fang Qiu's location.

Fang Qiu didn't chase after it immediately. Instead, he locked the hyena's position with his Divine Consciousness. When the hyena was no longer running away in a panic, he secretly followed its trail.

Medical Master

Chapter 1279: It Found the Herb!

Fang Qiu quietly followed the hyena that had been infected with the mutant Ebola virus. Because he didn't dare to show himself openly, he could only hide and observe in the dark.

Of course...

Hyenas have the instinct to sniff out danger, but their abilities were far inferior to that of martial arts practitioners and gurus. As a result, even though Fang Qiu stalked it for a whole night, it didn't notice his presence.

But...

Fang Qiu had been keeping a close watch on it.

The hyena had suffered symptoms of severe infection, such as a raging fever and bleeding in the gums and mouth, etc.

"It still hasn't been found any herbs?"

Fang Qiu was surprised.

The hyena had been seriously ill for several hours. Although it had been looking around all the time, it never stopped moving.

Even when it found some herbs, it just put its nose close to smell them and left.

It hadn't eaten even one blade of herb.

He followed it until dawn.

Then, Fang Qiu saw the hyena stop by a pool, locate a herb, and started chewing on it.

"It found the cure!"

This scene made Fang Qiu's heart race.

But he didn't go out immediately.

Instead, he continued observing it in secret.

After it ate the herb, the hyena immediately lay on its stomach and rested.

Many animals that came to get water subconsciously avoided going near the hyena when they saw it from a distance. They seemed to know that the hyena was infected with the virus.

Even lions lost their interest in the hyena.

He waited for some time.

After several groups of animals bypassed it, Fang Qiu finally saw the hyena stand up again.

"Whoosh."

He did not hesitate at all.

As soon as the hyena got up, Fang Qiu rushed up and caught it again.

When he got closer, he saw that its condition was much better than before.

This time...

Because of the virus outbreak, the hyena had become so faint and weak that it couldn't even make a sound when it encountered an enemy. But now, as soon as Fang Qiu appeared, it immediately growled and no longer appeared powerless. Instead, Fang Qiu felt it was full of vim and vigor.

“As expected, this herb works!”

Fang Qiu was overjoyed when he saw this.

Ignoring its snarls, Fang Qiu suppressed the hyena again — the hyena was rooted to the spot by his overwhelming internal Qi.

After that, Fang Qiu started to examine the hyena.

Through this inspection...

He found that more than half of the viruses in the hyena’s body had disappeared!

Fang Qiu had a good grasp of the amount of virus in the hyena because he was the one who activated the outbreak of these viruses.

And now...

The amount of virus in it was significantly lower than before.

That was to say...

More than half of the mutant Ebala viruses had been killed!

This discovery was a pleasant surprise for Fang Qiu.

Without delay...

Fang Qiu immediately picked the herb the hyena had eaten and examined it closely. Then, he started to look for similar herbs around.

He wouldn't let go of a single one.

He picked all the herbs within sight.

After a while, Fang Qiu collected a large bunch of herbs.

After that...

Fang Qiu looked at the hyena and waved to it as he intended to take it with him.

At first...

It growled furiously at Fang Qiu and was even ready to pounce on him. But right after he released his internal Qi, the hyena obediently pressed itself to the ground.

Fang Qiu dispersed the internal Qi...

The hyena rose to its feet and again growled, but showed no signs of wanting to escape.

"Little fellow, you're quite resilient, aren't you?"

Fang Qiu sneered.

When the hyena was about to pounce on him for the second time, he unleashed his internal Qi again and forced it to lie on the ground.

The hyena, pushed onto the ground once again, immediately stopped its growling.

Then, Fang Qiu withdrew his internal Qi, and the hyena rose and growled at Fang Qiu for the third time.

However, this time, it was not as fierce as the previous two times. It only snarled at Fang Qiu but had no intention to attack him.

When Fang Qiu saw this...

He left it alone.

Anyway, the hyena could not escape from his control.

In fact...

Fang Qiu wanted to let the hyena go, but it still had the virus in its body. He feared it would infect other wild animals if he set it free, although they could always find suitable herbs. Anyway, it would be best if these animals could avoid being infected.

Most importantly, Fang Qiu needed to continue with his observation of the viruses in the hyena's body. He needed to see if this herb could temporarily hold back the virus or eradicate it.

He continued to pick the herbs.

Fang Qiu got all the herbs that grew within a range of five kilometers. After that, he was ready to return to the Hippo tribe.

At the next moment...

On his way back...

The hyena suddenly came up behind him and snarled.

Each time Fang Qiu walked ahead, it would move a step forward, but it had no intention to attack.

Its strange behavior aroused Fang Qiu's curiosity.

"How could a hyena that lived in the wild do this?"

Even though he was suspicious...

Fang Qiu left it alone and walked on his own. Gradually, he sped up.

To his surprise, after he accelerated, the hyena started running to keep up with him.

In the end...

Fang Qiu maintained a steady speed and went back to the Hippo tribe.

The hyena followed him back.

It seemed to be exhausted.

It no longer snarled at Fang Qiu. After it came back, it moved to the side watched the situation around it and stayed within the tribe.

At the sight of this scene...

Fang Qiu was a little stunned.

He had no idea what the hyena meant.

However...

He did not pay any attention to it and began to process the herbs.

After that, he began to decoct the medicinal potion!

The hyena smelled the medicine.

It even ran over to stand guard and was not bothered by the smell at all.

Of course...

Fang Qiu was there.

So, the hyena didn't dare to create any trouble and just laid quietly aside.

Before Fang Qiu brewed the medicine...

He tasted the herbs personally. After confirming its special effect, he took out the other herbs he had collected and picked up some. By decocting these different herbs together, he could maximize their effects.

The medicinal potion was ready.

Fang Qiu got a big bowl and poured all the medicinal potion into it. After it cooled down a little, he fed it to the chief of the Hippo tribe.

Then he distributed bowls of the potion to the other patients in the tribe.

After they finished drinking...

Fang Qiu stayed with them.

While he waited for the drug to take effect, Fang Qiu examined the hyena again. To his surprise, he found that all the viruses in its body were gone.

The hyena was all right now!

Fang Qiu was overjoyed when he saw this.

He had never imagined this result: the hyena recovered fully after merely eating one blade of the herb.

The effect of this medicine was exceedingly good, right?

He waited for an hour.

First, he confirmed that these patients had absorbed the medicinal potion. Then, Fang Qiu quickly checked on everyone and found the potion's potency was pretty good. More than half of the viruses in them had been destroyed. Although their condition was better, the viruses had not been totally eradicated.

Upon closer inspection...

He believed the efficacy of the medicine had been brought into full play.

That was to say...

Though this medicine was effective, the result showed that not all viruses that could infect people were killed. Even if only one virus remained active, this one would divide and produce more viruses that would spread again. Eventually, another outbreak would occur.

Therefore...

To cure the patient, he had to kill all the viruses!

“So, compared with wild animals, people need drugs with stronger efficacy.”

Fang Qiu murmured, thought of the compatibility of the different herbs, and said, “Maybe something is not right with the combination of herbs I chose. I’m not familiar with Africo herbs, which are different from those in Huaxia. If I want to make a prescription to maximize this herb’s efficacy, I’ll have to learn about all the herbs in Africo first. Moreover, it’s difficult to find detailed information about Africo herbs. Even if I get all the necessary information, I can’t match them with the five elements of Huaxia within a day or two.”

With this in mind...

Fang Qiu turned his eyes to the jade stones in the big truck outside the room.

“To enhance the efficacy, I can only use the jade stones to strengthen these herbs first.”

That was right.

This was the easiest and most direct method that Fang Qiu could think of now.

These evildoers had taken advantage of the jade stones to harm people, but now Fang Qiu used them to save people. Everything that happened, vice or virtue, seemed to be predestined!

He took out the jade stones from the truck.

Fang Qiu instantly set up a small terrain with jade stones.

Then, he put all the herbs into it and used the terrain to strengthen them.

When this enhancement process was almost complete...

Fang Qiu began to decoct the medicinal herbs again.

This time...

He didn't set up the terrain at the site where he brewed the medicine, for he felt it was unnecessary. After he finished the infusion of the herbs, they had been saturated with the Qi of Heaven and Earth. Thus, even if he built the terrain here, the herbs couldn't take in more Qi of Heaven and Earth.

The medicine was done.

One by one, Fang Qiu ensured that all the patients drank the medicinal potion.

This time...

He observed them nervously.

Before this time, they had just taken some medicine, so the effects of the medicine were slower now. Fang Qiu had to wait for some time.

Three hours later...

"He is fine now!"

When the potion was fully digested, Fang Qiu found that the chief of the Hippo tribe, who had been lying languidly till now, had regained his usual healthy color. He even stood up and kowtowed repeatedly to Fang Qiu with gratitude on his face.

Fang Qiu nodded to show that he acknowledged his appreciation.

When Fang Qiu examined them just now...

He noticed that the viruses in the patients' bodies were all gone.

All of the viruses had been eradicated!

He walked out of the chief's room.

Fang Qiu looked up into the sky and laughed in relief.

He did it.

At last, he found the solution!

He succeeded because of a hyena. What a surprise!

Fang Qiu looked around but could not find the hyena. It must have left after its recovery.

"I've finally solved the tricky problem. But there's not much time left. I have to hurry up and process more potion!"

Fang Qiu hit upon an idea.

He informed the chief of the Hippo tribe that he had to go out. Then, Fang Qiu tirelessly drove to the depths of the grassland and began to collect herbs crazily.

In the end...

Fang Qiu even filled the big truck before returning to the Hippo tribe.

He returned to the tribe.

Fang Qiu unloaded all the herbs from the truck immediately and using the jade stones, he reinforced all the herbs he had picked.

Afterward, all the people in the Hippo tribe joined him. Together, they processed the herbs and mixed them with other herbs. Finally, they began to make the medicine.

However...

This time, Fang Qiu didn't produce the medicinal potion. Instead, he directly made the raw materials into medicinal pills!

Medical Master

Chapter 1280: Nirvana Organization Attacked!

Making pills was different from decocting the medicinal potion.

Fang Qiu roasted all the herbs strengthened by the jade stones and other selected herbs, according to the proportion in his prescription. Afterward, with his sword Qi, he ground all the herbs into fine powder.

Then, he got a certain amount of honey from the Hippo tribe. After that, he asked them to contact other nearby tribes in order to buy some honey.

When the people of the Hippo tribe went out to buy honey...

Fang Qiu had already begun to make the first batch of pills.

The first step was to refine the honey.

He removed all the impurities in the honey, destroyed the enzymes, and killed the bacterium. Then, he focused on enhancing the thickness of the honey.

After that, Fang Qiu mixed the refined honey and the powder he had prepared in a ratio of 1:1.2. In a disinfected basin, he put together the powder and honey and kneaded them into a mass.

After this procedure was almost done...

Using his internal Qi, Fang Qiu prodded the mass, which automatically turned into many pills.

These pills looked as small as the Liuwei Dihuang Pill, which was generally known for its tonic properties. One hundred pills weighed merely twenty grams.

The first batch was done.

The people who went out to buy honey returned.

They came back with a lot of honey and handed it to him

Fang Qiu had saved their lives, so all the people of the Hippo tribe were particularly respectful to Fang Qiu. They would do whatever Fang Qiu wanted them to do.

With enough honey...

Fang Qiu planned to use up all the herbs in one go.

Of course...

Ordinary people couldn't produce such a large number of pills at one time. After all, there were different kinds of powders made from many herbs. It was challenging for them to mix all the ingredients well.

However, it was no big deal for Fang Qiu.

With his internal Qi...

He whisked the ingredients thoroughly and effortlessly. Then, he refined the honey and made a batch of pills in one go.

Before long, the job was done.

Fang Qiu made a rough estimate and figured out that he had produced at least hundreds of thousands of pills this time!

The pills were ready.

Fang Qiu quickly visited a nearby tribe infected with the mutant Ebala virus, fed the pills he brought to the patients, and stayed to observe the effect.

As a result...

In just half an hour, the patients who had taken the pills were all cured!

Fang Qiu carefully examined the patients and concluded that no mutant Ebala virus remained in their bodies.

Seeing the remarkable effect of the pills, Fang Qiu felt greatly relieved.

Back to the Hippo tribe...

Fang Qiu nodded with satisfaction when he saw the hundreds of thousands of pills. After a more careful estimate, he knew these pills should be enough. After all, Nirvana Organization only spread the virus in their chosen places. For example, in Kairo, a big city, few people were infected with the virus. If one or two infected people appeared occasionally, they would be immediately kept in quarantine.

Hundreds of thousands of medicinal pellets could save hundreds of thousands of people!

These pills were of great significance.

Fang Qiu didn't dare to hesitate any longer.

After he chatted briefly with the chief of the Hippo tribe, he took the packed pills and left the tribe.

Hundreds of thousands of pills sounded like a vast pile, but a backpack could hold all of them. Fang Qiu carried two bags, one for the pills and one for the treasures he had obtained from the ancient ruin.

As for the jade...

All these jade stones had turned into useless ordinary stones after Fang Qiu used them to boost the efficacy of the whole truckload of herbs. Thus, Fang Qiu didn't drive the truck away. Instead, he left it to the Hippo tribe.

"I still have five days."

"It's not too late to go to Miaoyu's place now!"

On the way...

Fang Qiu zoomed forward while he silently estimated the time.

Unexpectedly...

When he had just moved about ten kilometers...

Fang Qiu heard a burst of energy Qi coming from the front.

He gazed into the distance.

Over there...

A gust of mighty energy Qi suddenly emerged before him, and charged directly at Fang Qiu.

“Um?”

Fang Qiu waved his right hand.

A beam of energy Qi shot out instantly and blocked the oncoming energy Qi!

Right at this moment...

“Whoosh, whoosh, whoosh...”

He heard the sound of something whizzing through the air.

Three figures from afar appeared and rushed toward Fang Qiu instantly.

He took a closer look.

The three of them were all dressed in neat fighting uniforms. The leading person in the middle was thin and tall with snow-white hair.

The two people with him looked burly. One of them had a long braid, and the other was bald.

Each of the three only revealed a pair of eyes.

All of them were wearing masks!

Right now...

The three people who stood in Fang Qiu's way stared at him coldly!

"Gurus?"

Fang Qiu's eyes narrowed.

He could sense that they were three gurus.

The man in the middle held a dagger, and the stout men on both sides wore boxing gloves made of black iron. The Qi power from the three people was overwhelmingly aggressive.

"Nirvana!"

Fang Qiu looked at the three people and asked.

"Kill!"

The man with white hair let out a bloodcurdling roar. Without any intention of talking to Fang Qiu, he positioned himself and took the lead to rush headlong toward Fang Qiu. As he waved the dagger in his

hand, streaks of sharp energy Qi erupted from the blade of his dagger. They moved at a dizzying speed as they bombarded Fang Qiu like raindrops.

At the same time...

In an instant, the two strong men dashed to either side of Fang Qiu. Then they brandished their bulky boxing gloves and threw powerful punches at Fang Qiu with all their might.

Fang Qiu's eyes narrowed.

Beyond doubt...

He was sure that the three people were Nirvana Organization members.

In Africo, he only had some connections with Egypttians and Nirvana Organization members. There were only two gurus in Egyptt, and one of them probably hadn't woken up yet, so the three gurus were not from Egyptt.

In this case, Nirvana Organization was the only possibility!

Obviously...

Because John Doe ruined and exposed their plan, Nirvana Organization had a ferocious hatred for him. Otherwise, it wouldn't have sent people to make trouble for him so soon!

However...

This wasn't a bad thing for Fang Qiu.

He had become the major target of the Nirvana Organization, while the members of this organization were also not Fang Qiu's targets. Even though Fang Qiu had finished off three of their Venerables, it

wouldn't send over another three Venerables, would it? If there were three Venerables, Fang Qiu was confident that he had at least a sixty percent chance of killing them!

So, were the three people before him three Venerables?

"Swish."

Fang Qiu clenched his right hand and his Divine Sword took shape.

When he repeatedly wielded his long sword, beams of sword Qi shot out and collided with the sword Qi from the white-haired man, which cancelled out his force.

Meanwhile...

He pinched his fingers and activated the Flexibility Secret of ancient Swordsmanship. Flashing nimbly aside, he charged rapidly at the white-haired man while dodging the attacks from the two muscular men on both sides.

In the blink of an eye, he was very close to the white-haired man.

"Huh?"

Fang Qiu became suspicious.

He had a bad feeling about this.

Venerables would never allow him to get so close to them, even if their strength were inferior to his.

"Maybe, they are not Venerables?"

Fang Qiu's mind raced feverishly.

Immediately, he took action.

"Clap!"

The long sword in his hand and the dagger in the white-haired man's hand collided fiercely together.

Just then...

The other two brawny men also rushed over and joined the white-haired man. They formed a triangle encirclement around Fang Qiu and mounted a series of violent assaults!

"Clap, clap, clap..."

Fang Qiu responded quickly with a dazzling display of sword strikes as he fought fiercely with the three.

As the combat began...

Fang Qiu's face suddenly changed.

"How could I withstand the combined attack of three gurus?"

The weirdest thing was that...

During this fierce fighting, he noticed that the strength of the three gurus seemed to be a little weak. In fact, they were far less powerful than the patriarchs of the four great families in Huaxia Wulin.

They appeared to be formidable Venerables in Nirvana Organization, but they were much weaker than Fang Qiu had imagined.

It was as though they had been forcibly promoted!

In fact...

Last time, when Fang Qiu confronted a Nirvana guru in Zangjiang, he already had this feeling, but it was less obvious.

This time, he had a strong feeling.

“Could it be because I’ve made a breakthrough and become a Half-step Guru?”

Fang Qiu wondered.

The battle with Qingshan occurred after he left the ancient relic in Zangjiang. Back then, Fang Qiu couldn’t suppress the urge to break through and became a Half-step Guru. At the same time, his strength greatly improved.

And now...

Although he was still a Half-step Guru, he was much stronger than he was when he fought for the relic in Zangjiang, both in strength and state.

“Would this feeling turn more intense when I become stronger?”

He was puzzled.

Fang Qiu didn’t want to waste any more time on these people. Instantly, he erupted with the power of a guru. Though at a disadvantage, he began to look for a chance to fight back.

The unqualified gurus didn't expect that John Doe was also a guru. Worse still, he was a guru mightier than them.

Under these circumstances...

The three felt it an increasing chore to ward off Fang Qiu's blows!

Meanwhile, Fang Qiu was frantically looking for an opportunity to subdue his enemies and slay them on the spot!

He would never show mercy to Nirvana Organization members.

Ten moves...

Fifty moves...

After a hundred moves, Fang Qiu had already gained the upper hand. The three gurus could hardly withstand his continuous strikes.

However, just as Fang Qiu was about to find an opportunity to slaughter them.

"Swish, swish, swish..."

Another wave of ear-piercing sounds came from a distance through the air.

"Um?"

Fang Qiu arched his eyebrows and immediately looked toward the sound.

Over there...

From afar, three more people zipped over at lightning speed.

“Gurus again!”

When Fang Qiu felt the auras the three people exuded, his face instantly became severe.

The three people rushing over obviously didn’t intend to stop at all. As they flashed over, they even took out their weapons, ready to attack Fang Qiu.

“How many gurus does Nirvana Organization have?”

Fang Qiu was shocked and simultaneously felt a sense of crisis.

Although he had used the guru-level strength, he had not yet become a guru. Since the recultivation, his power hadn’t yet reached his previous level. As a result, he couldn’t realize his full potential.

Therefore, he was stronger than an ordinary guru, but the difference wasn’t significant.

In this situation...

It was amazing that Fang Qiu could fight against three gurus alone. Even if he was pushed to the limit, he could only keep himself safe when he fought against four gurus at most.

But before him...

There were six gurus!

Even if the strength of these six gurus was a little weaker than that of ordinary gurus, they were real gurus. It was impossible for Fang Qiu to defeat the six gurus on his own.

In this case...

Fang Qiu could only run away!

With this in mind...

Fang Qiu turned around and was ready to escape.

However, before he could leave, he heard a voice.

“Five of us can kill him. You go and wipe out those tribesmen. Since they are not willing to actively get rid of the pain, we will have to release them!”

When he heard all of this...

Fang Qiu, who was ready to run away, trembled and froze on the spot!
