Chapter 151: Using 300,000 Yuan to Do Good Things!

Fang Qiu smiled.

Last time when helping Wei Dong to ask his pay for work, Fang Qiu had been covering his face, so Wei Dong did not know that the person who helped him to get his money was Fang Qiu.

“Please, sit.”

Wei Dong hurriedly stood up and left the bed for Fang Qiu to sit down.

“Are you burning coal?”

Fang Qiu continued to ask.

“Yes, my landlord gave me.”

Wei Dong nodded with a smile and said, “I burn it now to warm the room, and I will get out at night.”

“Well, don’t be poisoned by gas.”

Fang Qiu reminded.

“I will not.”

Wei Dong smiled and said, “I should have thanked you. Since you gave me the treatment, my spine is perfect. Now I am working hard, and I have not felt as difficult as before.”

“Well, it’s good to see that you are well.”

Fang Qiu smiled and then took out 20,000 yuan from his pocket and said, “Actually, I came here to find you because I have a little money here. I hope to use your hand to help me do something good.”

“What?”

Wei Dong hurriedly shook his head and waved his hand, “No, it’s not going to work.”

“There is not much money, but it’s not little either.”

Fang Qiu continued, “Now I have 20,000 because I can’t withdraw more today. I will send you 280,000 tomorrow, a total of 300,000.”

“This is even worse!”

Upon hearing the figure of 300,000, Wei Dong trembled even more and said, “It’s fine that I make some money to do good things on my own. I don’t dare to take so much money from you.”

“You don’t have to think so much.”

Fang Qiu shook his head and smiled. He put the money on the bed and said, “Money is only useful when it’s been used in the right place. When being put in the bank, it is just a number. You can only see it. You can take the money for me. It’s better to do something good than to put it aside.”

Wei Dong hesitated.

“Look, I am a doctor now, but I am still a student. I am still busy with school, and I don’t have so much time to spend the money in the right place.”

Having said that, Fang Qiu hesitated and continued, "You take the money it to help me do something good. Take it as a payment for me treating you."

"No, no."

Wei Dong shook his head again and said, "Doctor Fang, I really appreciate you for curing my disease, but it's too much money, I can't take it!"

"Let's put it this way."

Fang Qiu kept silent for a while, and said, "I went to a local clinic today, which is a shanty town, that is, like the refugee areas in the West, where there are many lonely elderly people and many families with difficulties in living, and some children who have no chance to go to school."

"I have to go to school, I have to go to the hospital for a consultation, and I don't have time to help them."

"You take the money to help me help them, that is, to satisfy your desire to help others, but also to fulfill my wish for good deeds. One move can get two good results."

"As for the money you earn, do it what you want to do. How do you think of this?"

After he finished.

Fang Qiu looked at Wei Dong and waited for a reply.

"This..."

Wei Dong lingered for a while, still looking unbelievable. He asked, "You really want me to do it? You believe me so much that just relying on my words, you will give me so much money?"

Hearing that.

Fang Qiu knew that Wei Dong had accepted it.

Immediately he stood up, pointed the money on the bed, and said with a smile, "I believe in you."

"I will send you money tomorrow."

After he spoke.

Before Wei Dong could refuse, he left.

He went out of the basement.

Fang Qiu got a taxi. He finally rushed back to the dormitory before the lights went out.

The next day, Fang Qiu wanted to go to the bank to withdraw money, and the result was depressing.

The bank closed on Sundays.

"How can I forget this?"

He could only take 20,000 from the ATM machine, and then found an illegal credit card withdrawal dealer on the Internet. He was not using a credit card, but a debit card instead.

He withdrew 260,000 from them.

He paid some "handling fees".

Then he found Wei Dong again, and did not give him the opportunity to refuse. He directly gave Wei Dong 280,000 yuan.

He left the community.

Fang Qiu directly called He Gaoming's number.

"Hey, how did you hang up my phone last night? Was it polite?"

As soon as the phone was connected, He Gaoming's angry voice rang.

"I need your help."

Without responding to the anger of He Gaoming, Fang Qiu said directly, "I just sent Wei Dong 300,000 yuan to let him help me with some good things. You can help me pay attention to him."

"Three hundred thousand?"

He Gaoming was shocked and then said, "Okay, this thing is on me. Anyway, I promised you to help you for free. But why do you have money, and such much money, and why don't you go and do good things yourself? Why do you have to let Wei Dong do? Do you want to learn the great good people and do not leave a name for good things?"

"Good things are good things, so do you need to leave your name?"

Fang Qiu smiled and hung up.

The other end of the phone.

He Gaoming was even angrier.

However, he did not call Fang Qiu.

He wanted to wait for Fang Qiu to call him next time, and he would also hang up the phone to let this kid taste it!

Here.

Fang Qiu returned to school.

After reading a book for a while, he went to the hospital on time in the afternoon.

He found that there were more people who came to see the doctor this time. They all heard the news. They are all expecting Fang Qiu. They preferred to wait in line than to see other doctors.

Under these circumstances.

The orthopedics on the seventh floor undoubtedly caused significant congestion again.

Seeing so many patients, Fang Qiu did not dare to relax.

He started taking a consultation immediately.

As a result, because the patients were too many, he had not been able to finish when it's time to go back. Having no choice, Fang Qiu has to continue to work overtime.

After all, the patients came all the way, and they spent a long time in the queue. Fang Qiu couldn't just make them leave anyway.

Here.

Fang Qiu was still working overtime.

There.

On the smiling doctors list, Fang Qiu's ranking was going up like a rocket and directly rushed to the 12th place.

The horrifying speed has made other physicians in the entire hospital completely speechless.

This was too fast!

They didn't expect to be the original first place in the young generation now.

They could only sigh at the electronic screen and then leave.

He finished his work.

Fang Qiu returned to school to rest.

Soon, it was Monday morning.

The school issued a notice.

On the afternoon of Thursday, students of the other eight schools would arrive. It would be no class on that day. A receiving meeting would be held on Friday afternoon, and the knowledge competition for freshmen would officially start on Saturday morning.

This notice was spread.

The whole school was immediately full of excitement.

Not just freshmen, all the students of the entire School of Chinese Medicine were hotly discussing the Chinese Medicine Knowledge Competition of Freshmen.

“It will start so soon?”

“I hope that the freshmen of this session can perform better. The last session was really too bad.”

“Yeah, our school is one of the famous schools. In the last knowledge competition, we were ranked as the second lowest. I feel embarrassed thinking about it.”

“The strength of this new student was quite good. You see that in addition to our school, no schools could have three students tying for first place, and they all got full grades.”

“Fang Qiu, who ranked the first, seemed to be the one who proposed the Apprentice Plan. I hope he can perform well in the knowledge contest and gain honor for our school.”

...

At the same time as the whole school was in heated discussion.

After eating breakfast, Fang Qiu went directly to the teaching building and prepared for class.

Unexpectedly.

As soon as he entered the classroom, he saw Zhu Benzhen surrounded by a lot of classmates like a popular star.

“Old Zhu, you must definitely get a good result when you participate in the knowledge contest this time, not only to compete for the honor of the school but also to honor our class!”

“Yes! You must earn a good place!”

A group of people was surrounding Zhu Benzhen, talking nonstop.

Seeing this scene.

Fang Qiu tiptoed past the crowd, stopped in a quiet spot, and sat down to read a book.

Quickly.

The class began.

Everyone was puzzled and turned around to look for Fang Qiu.

When they saw Fang Qiu, everyone was very surprised.

“Holy shit, when did this guy come?”

“Did he walk without making a sound? Is he a ghost?”

“What ghost? He is a super badass!”

“I was going to cheer him up and let him work harder.”

“You don’t need to cheer him up, and he is still a badass.”

In the whispers of some classmates.

Qiao Mu went into the classroom.

“I won’t call the roll today.”

After sweeping the students in the classroom, Qiao Mu smiled and set his eyes on Zhu Benzhen.

“I believe that you have seen the ranking of the last test.”

Qiao Mu said.

The students nodded.

“Today, I want to praise Zhu Benzhen particularly.”

Qiao Mu looked at Zhu Benzhen and said, “I believe that all of you have seen Zhu Benzhen’s efforts. His test result has surprised me, and I am also very delighted.”

Zhu Benzhen smiled.

The eyes of the whole class were concentrated on him.

“Why praising Zhu Benzhen?”

Qiao Mu asked, and immediately added, “Because, he won a place to participate in the knowledge contest for our class, though the knowledge contest was only for freshmen, and the quota was limited. There are only nine places in our school. Any quota is very difficult to fight for.”

“Before this, I always thought that our class had one fixed quota, but I didn’t expect Zhu Benzhen to earn a second place for our class under the hard work. As your teacher, I am very pleased.”

The students clapped their hands and applauded.

“This is the honor of our class!”

Qiao Mu nodded, gesturing everyone to stop, and then said, “In the whole school, how many classes that can get two quotas? Only our class!”

Hearing what he said.

All people in the class felt honored.

At this time, Qiao Mu suddenly changed the topic and said, “However, although our class has got two places to participate in the knowledge contest, the real honor is getting good results in the knowledge contest, so that we can tell other classes, and even other schools, that our class is the best.”

His words were very passionate.

The students nodded and agreed.

“That’s enough talking.”

Qiao Mu glanced at Fang Qiu and Zhu Benzhen and said, “The knowledge competition is about to begin. I will not give you too much pressure. I hope that you can make more preparations for the last few days. Don’t forget to go through your books several times. I hope you can return with glory.”

Hearing those words, Zhu Benzhen and Fang Qiu both nodded.

“Come on.”

As he waved his hand, Qiao Mu said, "Everyone, applaud for Fang Qiu and Zhu Benzhen, and cheer for them!"

Right after he spoke.

All the students immediately applauded.

Upon seeing it, Fang Qiu and Zhu Benzhen quickly stood up and nodded to everyone.

Medical Master

Chapter 152: The Arrival of the Eight Universities!

But on the other side.

Fang Qiu still continued to read ancient books and did not even intend to read the textbook.

Anyway, all those knowledge points in the textbook had been deeply remembered in his mind.

Not only the knowledge points.

Even he was asked to recite the textbook backwards, he could do it without omitting a word.

To him.

Reading the textbook was simply meaningless.

During the break.

Everyone dared not to bother the two of them who were reading.

Only Zhou Xiaotian and Sun Hao, the closely-related units, dared to get close to them.

Of course.

Zhu Benzhen was the one that they dared not to disturb. The only one that they could disturb was Fang Qiu.

“The youngest, why don’t you read the textbook?”

Moving close to Fang Qiu, Zhou Xiaotian asked curiously, “Look at the oldest. He can’t wait to remember every knowledge point in the textbook as he looks through the textbook. And what you will participate in is the Knowledge Competition of Freshmen, which will only test the knowledge of freshmen. What do you read these ancient books for?”

“Are you stupid?”

At the side, Sun Hao gave a look at Zhou Xiaotian and said, “What is the youngest?”

“What?”

Zhou Xiaotian was dumbfounded.

“He’s a psycho!”

Sun Hao gave Zhou Xiaotian a look again and said, “The youngest has already been confident for a reason. Does he still need to read the textbook?”

“Does he?”

Zhou Xiaotian picked his brows and looked at Fang Qiu smilingly, saying, “Come on, the youngest. Show your chest and let me see your big bamboo.”

Sun Hao couldn't help laughing with a sound of "puff".

Fang Qiu was speechless.

...

The first class of Tuesday afternoon was a basketball class.

.

Just after the lunch break, Fang Qiu and his roommates came to the grassland.

As a result.

Just when the class began, Mr. Sun Li let everyone do their own business and called Fang Qiu over alone.

"Mr. Sun, the reason why you call me over is the same thing as last time, isn't it?"

Looking at Sun Li, Fang Qiu asked.

"Yes."

Sun Li did not deny it. He nodded directly and asked hopefully, "How are you thinking about it?"

"I didn't think about it."

Fang Qiu shook his head and said, "I have refused."

“Why don’t you think about it?”

Sun Li frowned and asked again.

“About the reason, I have told you very clearly last time.”

Said Fang Qiu with a smile.

“I heard about one thing.”

Sun Li also smiled and said, “I heard that after you won Gao Fei in running, you also brainwashed the players of the track team on the spot, saying that identities of sports special students were useless. Even if they got more honors for the university, the university wouldn’t give favors to them and it wouldn’t do any good to their futures. Did you?”

“Yes.”

Fang Qiu nodded.

But he didn’t think it was brainwashing but just pointed out something bluntly.

“Don’t you think that what you said is a little bigoted?”

Asked Sun Li as he looked at Fang Qiu.

“Bigoted?”

Fang Qiu shook his head and said, “I don’t think so.”

“What if I tell you that I was a sports special student at this university? When I graduated, I stayed at the university to be a teacher.”

Sun Li said, “Not only me but also all the teachers of the School of Sports were the sports special students who stayed at the university after graduation.”

Hearing that, Fang Qiu shook his head.

“Mr. Sun Li, how many students are there in a track team? In addition to the track team, how many different teams are there among the sports special students?”

Fang Qiu asked rhetorically, “How many sports special students are there totally? One hundred or a few hundreds?”

“Perhaps what you said is true, but is it necessary for hundreds of people to strive for a possible place? Since they have gone to college, would it be easier to learn knowledge well, get a degree that fits their abilities and go to find jobs directly after graduation? Why do they have to stake their own future on the few percent probabilities?”

Sun Li frowned as he heard that.

“And I don’t know why you must help Mr. Ma to persuade me, but I can give you and Mr. Ma a definitive reply. That is, I will not participate. So, I’m sorry.”

After that.

Fang Qiu directly turned around and left.

Without any hesitation.

Sun Li could only look at the back of Fang Qiu, smiling helplessly and bitterly.

“In the past, the old sports special students like me could naturally find jobs. Now, only a few of the students of the whole School of Sports engage in work related to sports after graduation.”

“But they have no choice. Since they are sports special students, they have to win glory for the university.”

After letting out a sigh.

He also turned around and went to see the students’ free activities.

At night.

Fang Qiu received a notice that a meeting about the knowledge competition would be held in the office building in the university.

After dinner.

He came to the meeting room of the office building together with Zhu Benzhen.

Soon.

The Vice President, Chen Yinsheng was seated.

In the meeting room, the nine people led by Fang Qiu plus two alternates attended the meeting.

According to the test results.

Fang Qiu stood in the first place. Zhao Yancheng and Jiang Miaoyu, who were tied for the first place with Fang Qiu, stood in the second and third places respectively.

The meeting began.

“First of all, congratulations to all of your eleven students for your good results in the test.”

Chen Yinsheng said with enthusiasm, “Everyone knows that the Knowledge Competition of Freshmen will be held this Saturday, which means you have three days to prepare.”

“You are the hope of the university. This time, nine universities will participate in the competition, which is not only related to personal honors but also related to the rankings of the nine universities. So, I hope that you can try your best and take good use of your strengths to let other universities see the strength of our University of Jiangjing Chinese Medicine!”

The eleven of them all nodded.

“As the Vice President of the university, I hope that all the students present can make good efforts in this Knowledge Competition of Freshmen and win glory for our university!”

What Chen Yinsheng said was forceful and lofty.

“All right!”

The eleven of them nodded and answered together.

But here.

Zhao Yancheng, who stood in the second place, did not focus on Chen Yinsheng. Instead, he set his sights on Fang Qiu. His eyes rolled full of contrast and arrogance.

After a while.

Chen Yinsheng finished his speech.

The eleven of them led by Fang Qiu left.

Chen Yinsheng continued to stay in the meeting room and discussed relevant issues about the knowledge competition with the leaders.

After leaving the meeting room.

When Fang Qiu and Zhu Benzhen were going to return to the dormitory, they met their class teacher Liu Feifei in the corridor of the office building.

The three of them talked for a while.

It turned out that Liu Feifei came here specially to ask Fang Qiu and Zhu Benzhen to work hard and not to lose the face of Class Three.

The two of them agreed and then returned to the dormitory, preparing for the competition officially.

In a moment.

On Thursday afternoon.

Under the expectation of all the students of the university, the people of the other eight universities finally came to the University of Jiangjing Chinese Medicine by coach from the pre-arranged hotel.

Many students were waiting at the school gate.

Everybody knew.

From the moment when the students of these eight universities stepped into the University of Jiangjing Chinese Medicine, the war was beginning officially.

The eight universities.

Eight coaches were parked in front of the gate of the University of Jiangjing Chinese Medicine neatly.

In addition to some students who joined in the fun, there were also several leaders of University of Jiangjing Chinese Medicine headed by Chen Yinsheng.

Soon.

The people of the eight universities all got off the coach.

At a glance.

The eight universities were all led by their vice presidents.

This scene was very awesome.

However.

Just as they got off the bus.

The students of the eight universities immediately observed each other. All of them had arrogance on their faces, which made the atmosphere a bit grave somehow. It seemed that the smell of gunpowder was very strong.

These people were all young talents in their respective universities.

Of course, they felt that they were not worse than others!

The competition hadn't yet begun, but the smell of gunpowder had already been strong.

However.

This slightly nervous atmosphere was broken because one person got out of the coach.

Jiang Mengjie.

When they saw Jiang Mengjie.

All the outstanding students of the universities instantly lit up their eyes.

They all threw their arrogance and the competition into the corner.

They all couldn't help marveling.

"My god. Who is this girl? She is so beautiful and well-built."

"So beautiful! If only she was at our university!"

"It's the first time I've seen such a clean-cut and beautiful girl from childhood. Such a beautiful girl is a student of University of Jingbei Chinese Medicine? The students of University of Jingbei Chinese Medicine are very lucky!"

"This competition will be fun. I hear that pretty girls like straight-A students, don't they?"

"She herself is a straight-A student, otherwise, how can she come to participate in the knowledge competition?"

“I like straight-A beautiful girls!”

In addition to the students of University of Jingbei Chinese Medicine, all the students of the other seven universities all whispered.

Jiang Mengjie turned a deaf ear to these comments.

And other students of University of Jingbei Chinese Medicine were very contemptuous as if they were looking at the people from the backcountry.

After a while.

All the relevant people gathered together.

The teachers of the eight universities came over to Chen Yinsheng with the students.

When they saw only a few leaders of the University of Jiangjing Chinese Medicine greeted them, the leaders of these eight universities could not help frowning.

“He is putting his foot down!”

The leaders of the eight universities were very dissatisfied.

“All the vice-presidents of the eight universities are here and this Knowledge Competition of Freshmen is a big event. Even if the president of the University of Jiangjing Chinese Medicine does not come to welcome us in person, at least it must be decent such as holding a welcome party.”

Then they looked around.

There were only several students who just joined in the fun, many of whom just stopped by.

How could the leaders of the eight universities accept it?

But.

Although they were dissatisfied.

These leaders were still laughing and joking on the surface.

“Welcome! Welcome!”

Chen Yinsheng walked forward as he clapped his hands with a smile. Looking around the students of the eight universities, he praised, “You really have a galaxy of talents this time!”

“You flatter me!”

The leader of one university immediately shook his head smilingly and said, “I heard that your university has also made a lot of effort this time and is going to make a blockbuster!”

“Yes. Vice President Chen, I heard that Fang Qiu, who proposed the apprentice plan, will also participate in this knowledge competition and his score is ranked first.”

The leader of another university echoed, “This student is a talent and we are all envious.”

“It seems that University of Jiangjing Chinese Medicine is going to rise this time!”

Another leader said with a smile.

At the side.

The students of the eight universities all pricked up their ears and listened carefully.

Without any doubt.

Fang Qiu was the most resounding name they had heard recently.

From the proposal of the apprentice plan to the first ranking.

No matter from which aspect, Fang Qiu was a very awesome guy and also the target they wanted to defeat.

After all.

Fang Qiu had developed a reputation.

About the reputation of Fang Qiu, it had spread out among the eight universities and even the leaders of the universities praised him a lot, which was enough to explain his reputation.

Medical Master

Chapter 153: Each of Them Is Awesome!

Just when the students of the universities listened attentively, faced with the praises from the leaders of the eight universities to University of Jiangjing Chinese Medicine, Chen Yinsheng just laughed and then reached out his hand, saying, "Please, the meeting room is ready."

After that.

The leaders and students of the eight universities, led by Chen Yinsheng and several leaders, came all the way to the super-large meeting room prepared in advance in the office building of the School of Chinese Medicine.

It was a rectangular meeting room.

In the center of the meeting room, there was a very large round table.

The leaders of the universities sat around the round table.

Behind every leader sat the students of their respective universities.

When the leaders and students of the eight universities were all seated.

The nine students of University of Jiangjing Chinese Medicine just appeared and walked into the meeting room.

In principle.

As the host, the students of University of Jiangjing Chinese Medicine should go to the meeting room and wait for the guests to arrive, which was a manner.

However.

The reason why they appeared so late was deliberately arranged by the university leaders.

.

“Appearing at last means they are the most important!”

“The purpose is to take most of the advantages as a host!”

“After all, it’s the territory of University of Jiangjing Chinese Medicine. The purpose of gathering together is to compete.”

“Since we will ultimately compete with each other.”

“Why don’t we put the foot down first?”

Here.

Nine people, led by Fang Qiu, walked into the meeting room.

For a time, it immediately attracted the attention of the leaders and students of the eight universities.

Jiang Mengjie, sitting in the first place in the area of University of Jingbei Chinese Medicine, immediately smiled at Fang Qiu while seeing him.

Fang Qiu also smiled back.

However, he did not notice that Jiang Miaoyu, behind him, darkened her eyes.

Although she had some inexplicable emotions in her heart.

Jiang Miaoyu did not reveal it. She also smiled at Jiang Mengjie.

After all, the two of them knew each other.

But on the other side.

The other students were different.

Because everyone knew that Fang Qiu ranked first, everyone focused their eyes on Fang Qiu first to see who Fang Qiu was.

But as a result.

All of them were instantly attracted by the beauty of Jiang Miaoyu.

They stared at Jiang Miaoyu with their eyes wide open.

Then they turned to look at Jiang Mengjie.

“The two of them are actually on a par.”

“What the hell! How come there is also such a beautiful girl in University of Jiangjing Chinese Medicine? Why doesn’t our university have any?”

“This time, we have come to the right place. It’s only the first day and we have seen two beautiful girls.”

“Wow, we are so lucky.”

The students of all the universities couldn’t help discussing in low voices.

Here.

The students of University of Jingbei Chinese Medicine, where Jiang Mengjie was in, did not expect that there was actually a student of University of Jiangjing Chinese Medicine who could compare with the campus belle of their university.

They originally thought.

In this knowledge competition, they could completely win University of Jiangjing Chinese Medicine in appearance only.

They did not expect it to be on a tie.

“Since the appearance doesn’t work, it seems that we can only win them by IQ!”

Everyone knew that it was a meeting, so after a short comparison, they all controlled their mind and sat up straight.

Chen Yinsheng also beckoned the nine of them to be seated. The alternates didn’t come.

As far as the current situation was concerned, the alternates didn’t need to come because the official nine students had no problems.

When everyone was seated.

Chen Yinsheng just stood up.

He looked around the leaders of the universities and all the students present with a smile, saying, “As the Vice President of University of Jiangjing Chinese Medicine, I, on behalf of University of Jiangjing Chinese Medicine, welcome everyone!”

After that, he applauded.

Everyone also applauded.

“I hope that all the leaders and students will have a good time at our University of Jiangjing Chinese Medicine.”

When the applause stopped slightly, Chen Yinsheng nodded with a smile and presided, “Next, the meeting will officially begin. According to the convention, each university introduces itself. First, let the leader of University of Huizhou Chinese Medicine introduce the students of his university.”

As he said, he smilingly beckoned the Vice President of University of Huizhou Chinese Medicine on his left.

The Vice President of University of Huizhou Chinese Medicine, a middle-aged man in his forties, who was dressed in a suit with slicked-back hair and a square face, stood up with a smile.

“Hello, everyone. I am the Vice President of University of Huizhou Chinese Medicine, Zhang Guodong.”

Zhang Guodong first introduced himself and then said, “Next, let me introduce the students of our university who participate in the competition.”

“The first one is Tao Yiran.”

“He is a descendant of the Chinese Medicine family—Tao’s family.”

At the sound of this.

Everyone immediately looked at the student.

Their eyes were full of shock.

“A descendant of the Chinese Medicine family!”

“If the people of this world are classified by rich second generations and ordinary people, then Tao Yiran is just the rich second generation of the Chinese Medicine industry.”

“Born in a Chinese Medicine family, he must have been exposed to Chinese Medicine from childhood. His understanding of Chinese Medicine is definitely much stronger than that of other students of the same age.”

“Tao Yiran is No.1 in our university and he has got full marks in the test.”

Seeing everyone surprised, Zhang Guodong said again as he smiled slightly proudly.

Hearing that, all the students began to examine Tao Yiran.

“This Tao Yiran is a vigorous opponent!”

.

At the same time.

Under the instruction of Zhang Guodong, Tao Yiran stood up and nodded at the other people smilingly.

At this time.

Everyone just noticed the student who was thin and looked a little gentle and frail-looking.

They saw that.

He was dressed in a neat school uniform with his hair neither long nor short. He divided his hair at the side and had a standard oval face. It was a pity that he was wearing a pair of glasses, otherwise, it was easy to attract everyone's attention by his appearance.

“The second one is Wang Zhixing.”

As Zhang Guodong said.

Another student stood up.

When they took a closer look.

The student was a little fat with a round face. He was not tall and very delightful at first glance.

“Wang Zhixing, although he was not born in a Chinese Medicine family, he has also read all kinds of medical books since childhood and has studied all kinds of medical books circulating on the market. Among them, he can recite ‘Treatise on Cold Pathogenic and Miscellaneous Diseases’ verbatim.”

Zhang Guodong introduced with a smile.

Everyone was shocked again.

“So awesome?”

“No way. I even feel it difficult to recite classical Chinese in middle school. This guy can actually recite ‘Treatise on Cold Pathogenic and Miscellaneous Diseases’ all?”

“Good boy. They are all monsters this time.”

A lot of whispers were heard.

But they didn’t let the people of the other universities hear it but only talked with their own schoolmates.

After all, they couldn’t puff up the enemy and lower their own morale.

But all the discussions were heard by Fang Qiu.

Here.

Under the introduction of Zhang Guodong, Wang Zhixing nodded to everyone and then sat down again.

Right after that.

Zhang Guodong continued to introduce No.3 to No.9.

Every student he introduced had an awesome strength, which made the students from the other universities amazed.

The introduction of University of Huizhou Chinese Medicine ended.

The Vice President of University of Zhongzhou Chinese Medicine on their left stood up after that and began to introduce his students.

“The No.1 of our university is also a descendant of a Chinese Medicine family...”

“Another descendant of a Chinese Medicine family?”

“Are they gathering together to make trouble?”

“A Knowledge Competition of Freshmen has actually attracted so many awesome people? Each of them is very awesome!”

“Who?”

When the students talked in low voices in their respective areas with stunned looks.

The Vice President of University of Zhongzhou Chinese Medicine stretched his finger to point at the first student sitting behind him and said, "Su Zimo."

Everyone turned their eyes to take a look.

They saw that although this person was wearing a school uniform, he had an extremely trendy haircut. The hair in front of his forehead was pushed up, which made his whole face completely show up.

A pair of bright eyes and a tall nose.

This person was very handsome.

"How come the descendants of Chinese Medicine families all have good skin?"

"Isn't it obvious? They are the descendants of Chinese Medicine families. They have been taken care of their skin since childhood. How can it be bad?"

"I am so envious. If only I were born in a Chinese Medicine family."

The unobtrusive whispers of several girls of a university were also heard by Fang Qiu instantly.

At the same time.

Su Zimo stood up and nodded to the others, which immediately shocked the other students again.

.

"He is too tall."

“He is almost 1.9m?”

“By the way.”

Just when everyone stared at Su Zimo jealously, the Vice President of University of Zhongzhou Chinese Medicine suddenly said, “I was busy introducing the students of our university. I even forgot to introduce myself.”

“Hello everyone, I am the Vice President of University of Zhongzhou Chinese Medicine, Song Wenhua.”

Hearing that.

The students applauded immediately.

“Okay, next one.”

After introducing himself, Song Wenhua stretched out his finger to point to a girl next to Su Zimo and said, “Ruan Sijing.”

Everyone turned their eyes to take a look.

The one who stood up was a very quiet girl.

She looked good with short hair. Although she was wearing a school uniform, she looked like a strong competent woman.

“Ruan Sijing used to receive the guidance of a highly-skilled doctor and her performance in any aspect is almost perfect.”

As Song Wenhua introduced.

“My god!”

“A highly-skilled doctor!”

Everyone felt awe.

Ruan Sijing nodded to others with a smile.

“The next one.”

Song Wenhua continued to introduce.

Maybe he did it deliberately or for other reasons. Every time he introduced a student, Song Wenhua would polish the student’s advantages with words so that others couldn’t help marveling.

In the meeting room, the exclamations arose one after another, incessantly lingering on.

Here.

Chen Yinsheng and other leaders of University of Jiangjing Chinese Medicine were more and more depressed while listening to the introduction from the leaders of the other eight universities.

“My god, why are they all so awesome?”

Chen Yinsheng felt very bad.

He was a little worried inwardly.

“After all, from the introductions, the strength of the eight universities is too strong, especially those descendants from the family of Chinese Medicine. They are just innate doctors of Chinese Medicine who have won at the starting line early. We won’t necessarily defeat them in the competition.”

The introduction was fast.

As Song Wenhua finished his introduction, the leader of Jingbei University of Chinese Medicine immediately stood up.

“Hello, everyone. I am the Vice President of University of Jingbei Chinese Medicine, Jiang Hai.”

This person was thin and tall. He was wearing a smile, which made people feel amiable at first glance.

Everyone applauded to welcome him.

“Next, let me introduce the students of our university to you.”

Jiang Hai said with a smile, “The first one is Jiang Mengjie.”

“She is the college entrance examination champion in the city, ranked in the third place in the provincial college entrance examination. She has got full marks in this test.”

Jiang Mengjie stood up at the sound of Jiang Hai.

“Sure enough, a beautiful girl is eye-catching!”

“A beautiful straight-A girl is more eye-catching!”

“Don’t be taken in by her appearance. Although she is not a descendant of a Chinese Medicine family, it’s highly commendable that she can get full marks. Maybe in this competition, we will lose to her.”

“How come someone is beautiful and also studies well? This isn’t in accordance with the conservation law of talents and appearance. However, although she is really very beautiful, we are competitors for her. We must be more careful!”

Along with the exclamation that was heard by Fang Qiu, many people had listed Jiang Mengjie as a key person.

Medical Master

Chapter 154: It Is a Real Slap in the Face!

Jiang Hai continued to introduce.

“Next, Han Yuxuan.”

“He is a descendant of the highly-skilled doctor in bonesetting, Wei Qi!”

Only one sentence made everyone present shock.

Wei Qi.

One of the only 50 highly-skilled doctors in China.

And he was one of the few highly-skilled doctors in bonesetting among the 50 highly-skilled doctors.

“This man named Han Yuxuan can actually be apprenticed to Master Wei Qi. How can we not be shocked and envious?”

“The truth is that.”

“He is just a freshman!”

In the exclamation of everyone, Jiang Hai pointed to a young man next to Jiang Mengjie.

Everyone turned their eyes and took a look.

They saw that this person looked calm and his eyebrows were full of pride.

When other students were introduced, they would take the initiative to stand up, but Han Yuxuan just stood up until Jiang Hai finished introducing him and pointed to him.

It could be seen that this person was extremely arrogant.

Soon afterwards.

Jiang Hai continued to introduce.

As before, in order not to be at a disadvantage, Jiang Hai also tried his best to introduce every student to extreme perfection.

Soon.

University of Jingbei Chinese Medicine ended the introduction.

The leader of the next university continued to stand up and introduce.

Perhaps it was because there were too many students with identities and strength, in the latter part of the introduction, they were too lazy to marvel. Anyway, from the school leaders, they were all God's children and outstanding talents.

In the end, the people in the meeting room were not stunned.

Half an hour later.

All the eight universities had ended the introduction.

All the eyes were concentrated on the University of Jiangjing Chinese Medicine.

Now, only they were left.

Chen Yinsheng did not hesitate.

He directly stood up and said, "Hello, everyone. I am the Vice President of University of Jiangjing Chinese Medicine, Chen Yinsheng."

"Next, let me introduce our University of Jiangjing Chinese Medicine and the nine students that will participate in the Knowledge Competition of Freshmen."

"The first one is Fang Qiu."

Chen Yinsheng looked at Fang Qiu.

Fang Qiu stood up.

For a moment, all the eyes were also concentrated on Fang Qiu.

"This is the adviser of the apprentice plan!"

"I'm sure that all of you know about this thing, so I won't make too many introductions."

“What needs to be introduced is that Fang Qiu has got full marks in this test.”

Having said that, Chen Yinsheng paused for a while and said, “Besides...”

He prolonged his voice.

All of a sudden, it aroused everyone’s curiosity.

“What else?”

“I have an impression that this person shouldn’t have any other identity?”

“Yes. It seems that in addition to proposing the apprentice plan, he has nothing else to pay attention to.”

The students and leaders began to talk about it.

They were also curious about what other identities of Fang Qiu that could be introduced.

Under the curious gaze of everyone.

Chen Yinsheng suddenly smiled and said, “In addition, he is also an orthopedics physician specially recruited by the First Affiliated Hospital of our university.”

Wow!

At the sound of this.

All those present were stunned!

“Are you kidding?”

“Mr. Chen, you must be kidding.”

“Yes, he is just a student and he is just a freshman. How can he be a physician?”

The students were shocked and the leaders also questioned.

“It’s absolutely true.”

In the face of doubts, Chen Yinsheng said, “Fang Qiu is not only a specially hired orthopedic physician but also got a silk banner specially made by a patient when he was seeing patients in the hospital!”

All the people present were stunned.

None of them hadn’t come to sense.

“A silk banner?”

“He has not only become a physician but also has got a silk banner from a patient?”

For some students present, this didn’t seem to be a big deal, but in the eyes of the descendants of the Chinese Medicine families as well as the highly-skilled doctors and the school leaders, this was simply a wonder.

“A freshman has not only become a physician but also has received a silk banner from a patient.

“If this news is spread out, among 100 people, there will be ninety-nine people who don’t believe it.”

“How come I didn’t find that Fang Qiu can do bonesetting?”

Jiang Mengjie was also a little shocked.

The boy named Han Yuxuan who was sitting next to Jiang Mengjie immediately stared at Fang Qiu after hearing the introduction about Fang Qiu.

He was apprenticed to a highly-skilled doctor in bonesetting, Wei Qi.

Naturally, he was good at bonesetting.

When he heard that Fang Qiu, a freshman, was specially hired as an orthopedic physician and also got a banner, he naturally felt unbalanced in his heart.

He also secretly compared who was more outstanding between Fang Qiu and him.

“The second one is Jiang Miaoyu.”

Chen Yinsheng continued to introduce, “This is a descendant of the Acupuncture Family—Jiang’s family. She has got full marks in this test and has been apprenticed to the Acupuncture Master—Zheng Guoqing in the apprentice plan.”

The leaders of all the universities were amazed.

They had heard about the names of Acupuncture Family and Jiang’s family. The name of Acupuncture Master—Zheng Guoqing made them even more surprised.

They did not expect.

In the University of Jiangjing Chinese Medicine, there was actually such a student with a background and strength.

“The third one is Zhao Yancheng.”

Chen Yinsheng pointed to Zhao Yancheng and said, “This is a descendant of the family of Chinese Medicine, Zhao’s family. He has also got full marks in this test.”

For a time.

Everyone’s eyes were rolling around the three of them.

“All of them have got full marks!”

It sounded a lot, but among all the students participating in the knowledge competition, the proportion of students who could get full marks was very small.

Full marks meant strength.

Without a doubt.

In the eyes of the students, Fang Qiu, Jiang Miaoyu, and Zhao Yancheng were the vigorous opponents in their hearts.

Chen Yinsheng continued to introduce.

Soon.

After introducing Zhu Benzhen.

The introductions of the nine students were officially completed.

However, Chen Yinsheng did not sit down but continued to say, “That’s all for the meet-and-greet. Since we have known each other, then let me, as a host, introduce the competition process the day after tomorrow to you .”

Just after that.

Suddenly.

Jiang Hai, the Vice President of University of Jingbei Chinese Medicine, suddenly stood up and said, “Wait a minute.”

Chen Yinsheng was dumbfounded.

The leaders and students of other universities were also dumbfounded.

“President Chen, since we have come to your university this time, we have specially prepared a talent show for entertainment in this meet-and-greet.”

Jiang Hai said with a smile.

Hearing that.

The students of University of Jiangjing Chinese Medicine immediately smiled, all looking at Fang Qiu.

“Talent?

“Compare talents with us?

“Fang Qiu is really something in talents. Be careful not to be scared.”

Here.

Hearing the sudden request from Jiang Hai, Chen Yinsheng couldn't help frowning. After hesitating for a while, he just nodded his head slightly and said, “Okay.”

Just after that.

In the meeting room, all of them applauded together.

They were waiting for the talent show of University of Jingbei Chinese Medicine.

At this time, all the students of University of Jingbei Chinese Medicine stood up.

Under the command of Jiang Hai, they began to sing the chorus.

“The great Chinese Medicine has a long history.”

“We are on the way to seek.”

“Distant ancient winds brush our chest. The infinite traditional Chinese medicine is as brilliant as a star.”

“Today, we seek diligently and collect widely. Tomorrow, we will work for the world and continue to write new chapters.”

“Ah... Look, look. Green hills are praying for us.”

“Listen, listen. The Yangtze River is singing for us.”

“To continue lost teachings for past sages, to help the perfect health, and to respond the call of the times, we have a long way to go and we must have a broad and strong mind.”

...

The singing was loud and clear.

The students of University of Jingbei Chinese Medicine were singing with great momentum.

But here.

Chen Yinsheng had got a long face.

Because this song was the school song of University of Jingbei Chinese Medicine. “Singing your school song at my university is completely a provocation.”

At the side.

The leaders of the other universities were all dumbfounded and then couldn’t help laughing.

“It is a real slap in the face!”

“No wonder they advised that they wanted to put on a performance.”

“It turned out to be here!”

“Moreover, can a school song be considered a talent?”

A school song ended.

The students of University of Jingbei Chinese Medicine struck a pose together, which was extremely eye-catching.

“Good!”

The students from the other universities all applauded and cheered for them.

They looked at the people of University of Jiangjing Chinese Medicine while cheering.

The leaders of the other universities also stood up and smiled while staring at the people of University of Jiangjing Chinese Medicine.

Seeing that.

Chen Yinsheng’s face was graver.

He didn’t expect that University of Jingbei Chinese Medicine would do this.

“Aren’t they embarrassing me on purpose?”

“But.”

“They have a reason.”

“It is a matter, of course, to put on a performance for entertainment at the meet-and-greet before the official start of the Knowledge Competition of Freshmen.”

“What’s wrong if they have sung their school song?”

“They are the students of University of Jingbei Chinese Medicine. If they didn’t sing their school song, could they sing the school song of University of Jiangjing Chinese Medicine?”

Chen Yinsheng was anxious!

He knew that everyone was waiting for his statement.

“If I drift with the current and applaud together with others, it will mean I’m a wuss.”

“It’s unforgivable to be a wuss in my territory!”

Chen Yinsheng would naturally neither applaud nor praise the students of University of Jingbei Chinese Medicine for their singing. But in the absence of praise or applause, there must be a reason.

“At least, we have to show that we are better than them!”

As he was anxious.

Chen Yinsheng looked at the students in his university.

Here.

On the students’ area.

The other seven students of University of Jiangjing Chinese Medicine were all looking at Fang Qiu and Jiang Miaoyu together.

Although this meet-and-greet looked very peaceful and very festive.

Everyone knew that.

The secret contest had begun.

“Since University of Jingbei Chinese Medicine has made a move, let’s see if we can take it.”

“Singing?”

In the eyes of the seven of them, this talent competition was just too simple.

“Why?”

“Because of Fang Qiu and Jiang Miaoyu.”

“Apart from anything else for the time being.”

“When it comes to singing, these two people are undoubtedly the best singers.”

They believed that as long as Fang Qiu and Jiang Miaoyu stood out, they would definitely be able to completely break the current embarrassing situation.

“That’s right!”

Seeing his students staring on Fang Qiu and Jiang Miaoyu, Chen Yinsheng suddenly lit up his eyes.

He thought in his heart.

“Why didn’t I think of Fang Qiu and Jiang Miaoyu were very talented in singing? In the previous Start-of-Term Ceremony, both of them went on stage and sang. With their singing skills, they can definitely defeat University of Jingbei Chinese Medicine.”

“And they can naturally sing the school song because it was the task of each class when the new term started!”

As he thought of it.

Chen Yinsheng smiled slightly and said directly, “President Jiang, these students of your university sang well, but compared with the students in our university, I am afraid that they will dwarf your students.”

Jiang Hai was dumbfounded.

The leaders of the other universities were also stunned.

“Could these students of University of Jiangjing Chinese Medicine have also prepared a show and it happens to be singing also?”

Of course.

The most important thing was the last sentence of Chen Yinsheng.

Medical Master

Chapter 155: Cooperate Again

However, Chen Yinsheng said that compared with his students, they were not good enough, which meant that students from University of Jiangjing Chinese Medicine could sing better. Really?

They couldn’t believe it.

Not to mention the leaders.

Even the students of those universities did not believe it.

Except for Jiang Mengjie.

After all.

Jiang Mengjie had heard Fang Qiu singing in person, so she deeply knew how nice Fang Qiu sang.

“If this is the case, then the students of University of Jiangjing Chinese Medicine, how about coming and performing a song?”

Jiang Hai smiled heedlessly.

Hearing this.

Chen Yinsheng looked at Fang Qiu.

Fang Qiu smiled.

He had already seen the situation clearly, so he immediately stood up when Chen Yinsheng looked over.

As a student at his school, he could not hesitate.

“Dear leaders and students, since everyone wants to see, I will perform.”

Standing up straight, Fang Qiu modestly nodded to the leaders and students of the surrounding schools, and then said, “Because I was not prepared before, I will also sing the school song of our school.”

Everyone was confused in their hearts.

Not prepared before?

How could Chen Yinsheng dare to say such a big talk without preparation?

Didn't he worry that Fang Qiu would fail him?

What was most shocking to everyone was that in this case, Fang Qiu actually dared to take the initiative to sing the school song. If he sang well, then it would be fine. If he sang badly, he would bring great shame to the University of Jiangjing Chinese Medicine.

In that moment.

Everyone's attention was concentrated on Fang Qiu.

They were all anticipating his singing.

But at the moment.

Jiang Miaoyu, who had been sitting next to Fang Qiu, also stood up.

"I will sing along with Fang Qiu."

Jiang Miaoyu took the initiative to speak.

Hearing that.

Everyone was shocked.

How come another one stood up?

And she was a beauty!

Here.

The other seven students from University of Jiangjing Chinese Medicine were somewhat excited about it.

Two people who sang the best in their school would like to sing together.

Not to mention Jingbei University of Chinese Medicine.

Even if all the students in the school were added, they would definitely not match them.

Fang Qiu and Jiang Miaoyu exchanged a glance.

And they nodded at the same time.

After adjusting the breathing slightly, they two looked at each other and nodded lightly, then began to sing to the beat.

“The virtue of medicine was so great that the whole world is moved for it.

“The three legs of our tripod are energy, vigor, and spirit.”

As they began singing.

A desolation and quaint feeling was sweeping everyone's mind in an instant.

Like hearing the call from ancient times.

Everyone was stunned.

They were shocked by the ancient desolation and simplicity.

And here.

Fang Qiu and Jiang Miaoyu continued to sing.

“Thousands of chasing come from one will. Our medicine is inherited from Qibo and Huangdi.

“The blessing spread down in centuries and protect millions of people, prospering our country.

“Rising along with the tide from the west is the rich east of the Yangtze River.

“The towering Arctic Pavilion is standing in the magnificent city of Jiangjing.”

Singing these words.

The leaders and students of all the schools present were all immersed in the quaint Chinese medicine atmosphere, and they were all enjoying as if they were not listening to a song, but a piece of melodious music.

“Heaven has opened the grace of education, and our cause will never end.

“Hearty wishes for an endless career like the rising sun shining in the sky.”

The song ended perfectly.

In the absence of any accompaniment, the voices of the two people were like musical instruments. Fang Qiu deliberately sang the songs steadily and melodiously. The sound of Jiang Miaoyu was like the gorgeous flowers and a few bird chirping in the antique world.

People were addicted to it and could not extricate themselves.

The song ended.

Everyone needed a long time to relish.

From the voices of the two people, they heard the voices of Chinese medicine practitioners and heard what the real Chinese doctor should do for the family, the country, the earth, and everything.

That was a fraternity that belonged only to Chinese Medicine.

That was the great good that belonged to the world.

It was a shock that could not be expressed in words.

And here.

Because he had been caring about the two people, although Chen Yinsheng was shocked, he did not fall into it.

Seeing the leaders and students of the schools lost in their performance.

Chen Yinsheng laughed so happily.

“You want to compete with your talents?”

“Haha.”

“Compared talents with our school is simply asking for trouble.”

“You just thought that I was going to talk big, huh? Now I want to see who dares to say that I bragged.”

At the same time as he was feeling proud.

Chen Yinsheng looked at the leaders of other schools with his proud face, and then glanced up at the students of all the schools, posing with a smug face, and say nothing.

And here.

All the people also came back from the singing of Fang Qiu and Jiang Miaoyu.

“Listen up!”

“Yeah, this is the second time I am shocked when I hear a song!”

“When is the first time?”

“It was played on TV before. When an old artist sang ancient war songs, I heard him sing as if I were on the battlefield, surrounded by murderous scenes, and thousands of iron rides and rushing scenes and I also felt the brave momentum of going forward.”

“What about today?”

“I can’t explain that kind of feeling. Listening to their song, I feel like I have returned to the past. When Chinese medicine rose, a physician went to everywhere to cure people by himself. I saw the life of Chinese medicine. I felt the fraternity of Chinese medicine. I also feel the power and magic of Chinese medicine.”

“I felt it too!”

“Me too!”

“They are so good! In the absence of accompaniment, they can still sing so well!”

“Is this a violation?”

“Yeah, with their voices, they can be singers and hold concerts. If they sing to compete with us, who can beat them?”

“Especially Fang Qiu. His voice is too in line with the mood of the lyrics.”

“I think Jiang Miaoyu sings better. Although Fang Qiu sang the mood of the song, the completion of this song is not likely to be so high without the sound of Jiang Miaoyu.”

“Both of them were amazing.”

When they got back on their feet.

Everyone’s eyes were once again concentrated on Fang Qiu and Jiang Miaoyu.

Two students who got full grades in the test.

One of them was the student of a famous teacher, and the other not only proposed a very constructive suggestion that had great help to TCM college, but he was also specially hired as a doctor when he was a freshman and received a pennant sent by a patient in his consultation.

Both of their shining points were constantly echoing in the mind of everyone.

Now.

After having so many dazzling flashing points, the two of them still had this kind of extraordinary voices and techniques of singing.

In that moment.

Everyone had no idea what adjectives to use to describe them.

If there was a word to describe them, then it should only be: perfect.

In the crowd.

“I didn’t expect that Jiang Miaoyu sings so good.”

Jiang Mengjie looked at Fang Qiu and Jiang Miaoyu. There was a strange emotion in her eyes. It seemed that it was a pity that why it was not her, but Jiang Miaoyu.

“Thank you all.”

Fang Qiu and Jiang Miaoyu looked at each other and smiled, and then thanked everyone again.

See you.

The crowd remembered that they just forgot to applaud.

The next moment.

“Clap...”

The class immediately burst into a round of warm applause.

Fang Qiu and Jiang Miaoyu smiled and sat down.

There.

Students and leaders of Jingbei University of Chinese Medicine did not speak.

They knew.

They lost this battle.

However.

This was just a little episode for them. This time it's not a singing contest but a medical competition!

Since they didn't get beat them in singing, they could only rely on their real strength.

“All right!”

Chen Yinsheng smiled at Fang Qiu and Jiang Miaoyu and nodded to them. He was about to say something.

Song Wenhua, the vice president of Zhongzhou University of Traditional Chinese Medicine, suddenly stood up and said, "Since everyone has prepared a talent show, then University of Zhongzhou Chinese Medicine will perform, too."

Hearing that.

Chen Yinsheng was shocked.

He did not want to make any more mistakes.

He quickly said, "President Song, it's just a sideshow, so don't be so serious. Let's talk about the rules of knowledge competition. After all, the knowledge competition is the main event. As for the performances, we will perform again when we have dinner."

Chen Yinsheng's reaction was flawless.

As he said.

The purpose of the eight schools gathered at University of Jiangjing Chinese Medicine was to compete for the new knowledge competition, not the talent show.

If they continued to perform in such a turn, wasn't it like getting the cat while losing the cow?

Hearing that.

Song Wenhua, who had stood up and was ready to lead the students to perform, only had to accept his words. He just nodded and gave up the idea of performing talents.

Anyway, the talent show of University of Jiangjing Chinese Medicine had performed so well, and it was hard to exceed their performance. It was better not to play.

“Well, University of Jiangjing Chinese Medicine is the host of this knowledge contest for freshmen. Then, President Chen, please tell us the rules of this new knowledge competition.”

Jiang Hai made a sound and broke the awkward atmosphere in the conference room.

“All right!”

Chen Yinsheng nodded with a smile, then turned and looked at all the students in the conference room, “Today is Thursday. Because the knowledge competition is scheduled for Saturday, you’ll have a day for rest and preparation.”

“At 9 am on Saturday, the knowledge competition will officially begin.”

Speaking of it.

Chen Yinsheng smiled and continued, “Everyone knows the basic rules of the knowledge competition, so I will not emphasize it.”

“But I still have to reiterate.”

“The knowledge competition is divided into three rounds.

“The first round is based on a test, and the maximum score is 100.

“The test papers will be selected by the schools we have jointly selected, and the questions will be delivered tomorrow.”

Hearing that.

The leaders of the schools all nodded.

As for the new knowledge contest, they have already begun their preparations. The school that issued the test questions was a Chinese medicine university other than the nine schools. Because this was the reason for the joint deliberation decision of the schools, and everyone agreed.

In the first place, the test questions could be kept secret.

Secondly, the eight schools did not know that the questions of this test would fall on which category. It was not clear how difficult the test questions were.

Relatively.

It's fair.

Like the leaders, the students nodded with satisfaction.

After all, this was a competition.

Everyone wanted fairness and justice.

“In Saturday afternoon, we will hold the second round of the competition.”

Chen Yinsheng continued, “The second round of competition is a team knowledge competition.”

“In the second round, there are three modes.

“The first mode: team competition.

“The second mode: answer race.

“The third mode: the risk question.”

Speaking of it.

Chen Yinsheng paused and said, “For these modes, everyone must know them very clearly, so I will not go into detailed explanations.”

The leaders and students of the schools nodded.

Medical Master

Chapter 156: So Amazing?!

Chen Yinsheng said again, “the third round, is single-person knowledge contest.”

“First of all, it is a hand-lifting competition.”

“Then there is an answer race.”

“The last is a one-on-one ace match.”

“The final winner of the third round is the champion of this knowledge competition.”

“In the afternoon of the end of the knowledge contest, we will hold a grand award ceremony.”

Chen Yinsheng looked at the room and smiled at the audience. He finally set his sights on the leaders of the eight schools and asked, “Are you satisfied with the arrangement of the knowledge competition in our school?”

“It’s good.”

Jiang Hai took the lead in applauding and said, “The process is well arranged.”

“Well, this process is very well arranged, although the rules are still similar to the previous ones, it changed a bit. It’s so much better.”

Zhang Guodong, the vice president of the Huizhou University of Chinese Medicine, also nodded.

Other leaders also nodded and agreed.

Although this knowledge competition was still following the usual practice, University of Jiangjing Chinese Medicine had divided the knowledge competition that should have ended in one day into two days, leaving enough time for all participating students. It realized a combination of work and rest.

The leaders of the schools naturally had nothing else to say.

“Well.”

Chen Yinsheng nodded with a smile and said, “Today’s meeting will end here. Let me take you on a tour together of the campus of University of Jiangjing Chinese Medicine, alright?”

The school leaders and students all nodded and stood up.

Everybody knew.

This was the convention.

In the first place, the leaders and students of each school could familiarize themselves with the environment of the University of Jiangjing Chinese Medicine. Secondly, they could also feel the learning atmosphere of the University of Jiangjing Chinese Medicine.

Slightly.

After everyone left the meeting room.

Under the leadership of Chen Yinsheng, a large group of people began to explore on campus.

“This is the teaching building of our school.”

Just going out of the conference room, Chen Yinsheng pointed to the teaching building not far away and said, “Students are here for class, and occasionally old professors will start classes.”

“The other side is the male dormitory of our school.”

“That is a female dormitory.”

...

Chen Yinsheng introduced all the way.

Every time they walked to a building, he would introduce with a smile.

From the teaching building, the office building to the dormitory, and the dining hall to the stadium, the Central Lake and Yaowang Mountain, all of them were introduced.

And here.

Because of the school day, there were many students on campus.

Wherever the people of the eight schools went, the students of University of Jiangjing Chinese Medicine looked far from them and pointed at them.

Especially when they saw Jiang Mengjie.

The boys in the school were crazy.

Even the girls were extremely envious and jealous.

“So beautiful!”

“Which school does that girl come from? She looks so beautiful!”

“I didn’t expect that other schools actually have such a beautiful female student. She might match up to Jiang Miaoyu, right?”

“I think she is much more beautiful than Jiang Miaoyu!”

“I think they all look good.”

...

Jiang Mengjie didn’t know that her pure and incomparably beautiful face caused a sensation in University of Jiangjing Chinese Medicine.

She even attracted a group of people to keep on shooting.

They were going to tell the students about the news that a peerless beauty came to the school.

Soon, a hot post appeared on the forum of the school.

“Gorgeous! The most beautiful girl of Jingbei University of Chinese Medicine, Jiang Mengjie!”

Students clicked on the post to see it.

“Name: Jiang Mengjie.”

“School: Jingbei University of Chinese Medicine (New campus belle).”

“Attribute: Straight A student (in the test before the knowledge contest, she obtained the first score.)”

“Other information: Not available.”

The people who posted the message had got the information from nowhere, and directly told Jiang Mengjie’s message.

The followings were dense pictures.

There were no traces of retouching, complete without make-up photos.

Among them, there was Jiang Mengjie wearing a school uniform. Because the weather was too hot, she tied her top to the waist, pretty like a fairy.

There were even big headshots at close range.

The photos, one by one, filled the entire thread.

This post was immediately detonated on the campus forum.

“Holy crap, a goddess!”

“She’s so beautiful! Who is she?”

“Is she at our school? Where is she now? I am going to find her!!!”

“How good-looking she is!”

“Why looking at her face? Look at her figure! This waist, this hip, this long leg... She is simply the perfect goddess in my heart.”

“She’s so tall! She’s more than 170 centimeters, right? How do we live as short guys?”

“Shit, what’s wrong with being short? I am 168 cm, but I just like her. Sincerity can make metal and stone crack. I believe that as long as I work hard, I will definitely let her like me. No one can take over my place! Tell me where she is now, I want to tell her I like her!”

“The previous poster is crazy.”

“I agree.”

Soon, the topic changed to whether Jiang Mengjie is more beautiful than Jiang Miaoyu.

“You said that she is more beautiful than Jiang Miaoyu?”

“They are both beautiful!”

“I think Jiang Mengjie is more beautiful than Jiang Miaoyu. She is my type.”

“My goddess Jiang Miaoyu is very beautiful!”

“Are you guys crazy? Why comparing two campus belles? Who asks this question must want to find troubles!”

“I don’t care. Anyway, I support Jiang Mengjie.”

“I support Jiang Mengjie.”

“I support Jiang Mengjie too.”

“I support Jiang Miaoyu.”

“I do too.”

...

Unconsciously, the forum turned out to be in chaos.

It could be seen how idle adolescent college students were.

And here.

Chen Yinsheng was still guiding the leaders and students of the eight schools to tour the campus.

They went all the way to 6 pm.

Chen Yinsheng took the crowd and went to a canteen specially prepared for the knowledge competition to entertain the leaders and students of the school.

“I am sorry if not being considerate. Leaders and classmates, please feel free to ask whatever you want.”

Before eating, Chen Yinsheng said with a smile.

People exchanged their greetings, and Chen Yinsheng went to arrange the meal.

In fact.

Although it was not the same as the real canteen, the food was ordered from the second floor of the cafeteria. It tasted better than that of the hotels and restaurants outside the school.

Not long after.

Several staff members quickly set up a projector in this temporary canteen.

As the light on the projector flashed.

A video played out.

It turned out to be a video of the opening ceremony of the University of Jiangjing Chinese Medicine.

Anyway, the food was not served yet.

Everyone could only watch the video when they had nothing to do, and they were stunned.

“Jiang Miaoyu?”

“It’s Jiang Miaoyu!”

In the video, when Jiang Miaoyu was the first to appear, everyone turned to look at Jiang Miaoyu, and then focused on the video.

After Jiang Miaoyu finished singing.

Everyone felt it's beautiful. They nodded with a smile and secretly admired.

The video then continued.

Everyone watched while talking and laughing.

However, when Fang Qiu appeared, all the people stopped and were staring at the video without looking at Fang Qiu.

And then.

Fang Qiu finished his song.

The leaders and students of the schools were all shocked.

“Holy crap! That's impressive.”

In the beginning.

They thought that when Fang Qiu sang in the conference room, it was already supernormal.

As soon as they saw the video of the opening ceremony, they understood that they were wrong.

They were so wrong.

In the case of accompaniment, Fang Qiu's singing skill had completely exceeded their imagination.

He could match up to a singer!

The leaders of the schools that had already prepared for the performance had exchanged glances quickly.

Then.

They ordered their students altogether.

“Cancel the performance!”

What’s the point of performing!

Originally, they all wanted to suppress the students of University of Jiangjing Chinese Medicine from the aspect of talent before the start of the knowledge competition.

These leaders were very clear that before the official start of the knowledge competition, the emotional moods of the participants were very important. Once they were suppressed, they would be very upset. If they were unhappy, they would be emotional, and being emotional would lead to mistakes.

A small mistake could often determine the direction of the entire knowledge competition.

“If you give me a hard time, I will give you a stumbling block.”

It was all normal.

But this was a situation that’s evenly matched.

However, now it hit the muzzle!

The show they wanted to perform in front of Fang Qiu's performance was simply shameful.

It's better to cancel it directly than go performing and be humiliated.

The leaders were experienced and astute.

While the students of each school were very depressed.

In order to compete for talents this time, they had been preparing for a long time.

But now.

It was all in vain.

And they didn't even stand up. They were directly smashed by Fang Qiu's performance.

Depressed!

As the video of the Start-of-Term Ceremony finished.

Meals were also officially served.

At this time, Chen Yinsheng returned to the temporary canteen, sitting at the same table with the leaders of all the schools, chatting with each other with a smile, and eating it.

The students sat at the tables with their schoolmates.

They all eat well.

Half an hour later.

Seeing that everyone was almost finished, Chen Yinsheng stood up and toasted to the leaders of the school. Then he smiled and said, "There is a talent show, right? After having food and drink, let us appreciate it!"

After saying that.

The leaders of the other eight schools were sitting at the same table and despising Chen Yinsheng.

Why speaking only of their shortcomings!

"Yes, President Song, University of Zhongzhou Chinese Medicine is ready for a talent show, right?"

Jiang Hai, the vice president of the Jingbei University of Chinese Medicine, immediately said.

This kind of excellent opportunity to fight against opponents was something Jiang Hai could not miss.

He wanted to be distinguished by taking the initiative to present a talent show, but was suppressed by University of Jiangjing Chinese Medicine at the meeting?

His own students were suppressed.

He also had to pull a few down with him!

Song Wenhua, who was named by Jiang Hai, almost squirted out some blood in his heart. He quickly said, "My students have not been rehearsed. As for the talent show which is mentioned before, I just hoped that the students would come to warm up the atmosphere. So we will not show it now."

“Yes, yes.”

Zhang Guodong, the vice president of the Huizhou University of Chinese Medicine, also said quickly, “We are here for the knowledge competition. We didn’t really get ready for talent show.”

“We are all full, and doing sports will hurt our body now. We doctors can’t hurt the children!”

“Yes, yes. We have just arrived today, and the students are still somewhat uncomfortable. This talent show is okay to be canceled.”

“The day after tomorrow, we will have a knowledge contest, so let the children rest more, and the performance is tiring!”

...

In addition to Jiang Hai, the leaders of other schools had quickly expressed their views.

They strived to destroy the talent show in the bud.

Medical Master

Chapter 157: The Competition Began!

Chen Yinsheng shook his head. It was a pity on the surface, but he was secretly laughing.

The video of the Start-of-Term Ceremony was his idea.

Although he was not present when the video of the Start-of-Term Ceremony was broadcast, when he returned, some people immediately reported the information to him.

He knew.

The reason why the leaders of the school refused to perform the talent show was that they saw the performance of Fang Qiu, and they gave up!

“As long as they gave up!”

“Otherwise, I will let Fang Qiu perform!

“Let’s keep talking.”

Chen Yinsheng sat down and said, turning his head and looking at Fang Qiu.

He was a treasure of our school!

They ate for more than half an hour.

This simple dinner was over.

The students of each school, returned to the hotel to rest under the leadership of their leaders.

They were already familiar with the environment of the University of Jiangjing Chinese Medicine, and they knew the process of knowledge competition, so everyone had nothing else to look into.

They would take a day off tomorrow.

It’s better to say that it was a day of review.

The day after tomorrow, at 9:00, the game would officially start. Tomorrow was the last day before the test, no one was willing to waste time on other things besides the knowledge competition.

Expectedly.

The next day.

Although the entire University of Jiangjing Chinese Medicine was enveloped by an intense atmosphere of tension and anticipation, throughout the day, the people of the eight schools did not appear, as if they suddenly disappeared.

The third day.

On Saturday.

At eight o'clock in the morning.

Eight large buses appeared on time in front of University of Jiangjing Chinese Medicine.

The leaders of the schools were taking their respective students and entered the school. Under the greet and leading of Chen Yinsheng, they came to the open space in front of the teaching building.

Just when they arrived.

School leaders and students were stunned.

They saw.

Outside the examination room, students from University of Jiangjing Chinese Medicine, from bachelor to doctoral, across all grades, all gathered around the room.

When the students of the eight schools got off the bus.

A burst of exclamation sounded.

Among the group of idle students who surrounded there, half of the students had set their sights on Jiang Mengjie, who has just stepped out of the car door. They were all fascinated.

Sure enough, as the rumors had it!

So pretty!

A goddess!

They didn't expect it.

The game had not yet begun, and the appearance of Jiang Mengjie had caused a sensation in advance.

Almost all of the young and middle-aged people of University of Jiangjing Chinese Medicine had betrayed!

With all the students getting off, the leaders of University of Jiangjing Chinese Medicine came to pick them up.

The audience immediately shouted!

“The rise of Chinese medicine! University of Jiangjing Chinese Medicine up!”

Upon hearing the first half of the sentence, every student and leader present was quite happy. They felt that the students of University of Jiangjing Chinese Medicine were motivated.

When they heard the latter half of the sentence, their faces were green.

What?

“Bullying us since you had many people?”

But they had no choice.

After all, this was the University of Jiangjing Chinese Medicine!

Home advantage.

Aside.

Seeing that the faces of the leaders of the schools were a little mad, Chen Yinsheng quickly stood up and said, “Game is the second and friendship first! Pay attention to your manners!”

Hearing that.

The cheering students immediately burst into laughter.

Then changed their slogan.

They unified their words and continued to shout.

“The rise of Chinese medicine! The rise of Chinese medicine!...”

Aside.

The faces of the school leaders and students finally got better.

“This is the place of the first round of examinations.”

Chen Yinsheng took the opportunity to point out and introduce the teaching building.

Everyone turned around.

They saw.

On the first floor of the teaching building, a total of three examination rooms were prepared: room number one, room number two, and room number three.

Name cards were placed on the doors of each examination room.

At this time.

“Boom...”

A roar of the engine suddenly came, attracting everyone’s attention.

A car was coming.

Seeing this car.

The leaders of the schools immediately greeted them.

“The papers are coming.”

In the crowd, Fang Qiu secretly thought.

As predicted.

Under the welcoming of the leaders of the schools, a tall man, about forty years old, middle-aged man in a gray suit, got off with a smile and carried a big bag in his hand.

In the bag, the test papers and test questions were packaged.

No doubt.

He was the leader of another Chinese medicine school besides the nine schools.

This school was absolutely neutral.

The test paper would never be seen by anyone.

It was precisely because of this that the school could get the approval of the nine schools.

“Leaders, here are the papers you need, and all the topics of the whole knowledge competition.”

The middle-aged man handed the bag to Chen Yinsheng.

Chen Yinsheng quickly caught it.

“Good job!”

The leaders of the schools had come forward to thank him.

“It’s our job.”

The middle-aged man laughed and said, "Fortunately, the test papers and test questions have caught up, and I wish you all a good result. But there is a rule, and you have to change it."

The leaders of each school were confused.

Changing the rules?

"What rule?"

Chen Yinsheng asked.

"I suggest changing the time of the written test in the morning to 90 minutes."

The middle-aged man said.

"There are many questions in the test paper."

The leaders of all the schools were surprised.

However, since the people who made the questions said so, they had to obey.

Ninety minutes?

In the crowd, Fang Qiu smiled.

The original written test time was one hour.

Now, the person who made the question extended the time by thirty minutes.

It seemed that this time, the test was not so easy!

Other students thought so, but everyone had a hint of arrogance on their faces.

They were not afraid if it's difficult. They were afraid if it's not!

In order to do confidential work.

Next. Each school sent one person to watch the test paper.

The papers would be officially unsealed at nine.

At 8:50.

Students were ready to enter.

All the students were gathered together.

“Everyone, let's cheer up together.”

Fang Qiu looked at the eight comrades of his school, reached out his hand and said.

The other eight people nodded solemnly and reached out. They used the palm of Fang Qiu as the base and eight hands stacked together.

“UJCM!”

Fang Qiu shouted out.

Everyone immediately put their hands down and then slammed them up.

“Fighting!”

With the spread of the palms, everyone shouted in a loud voice.

After that.

Fang Qiu, Jiang Miaoyu, and Zhu Benzhen exchanged a glance and a smile.

Then, they stepped into the examination room.

Aside.

The students of other schools originally wanted to go directly to the examination room and saw that UJCM did this, and they all gathered together to cheer for themselves.

After that, all of them were confidently entering the examination room.

Three examination rooms.

The candidates for each examination room were composed of three students from each school, for a total of twenty-seven.

Besides that.

In order to prevent cheating, students from the same school in each examination room were disrupted, and there were also nine teams of proctors from each school.

This powerful serious situation.

Let all the students who participated in the exam felt incredible.

All students, including Fang Qiu, were the first to feel this horrific test.

The college entrance examination was even not so strict.

However.

It was related to the honor of nine schools.

So, it was reasonable to be so strict.

Removing these external conditions.

The test papers for each candidate were different.

Although the title and the order of the questions were exactly the same, the order of the questions in each question type was all randomly disordered.

Thus.

It also avoids the sneak peek between students.

It's just a matter of guarding it to the extreme.

When they learned about this news.

Candidates were not too burdened.

After all, they were all high-caliber students in the nine universities, so even if they were not good enough, they would not be cheating.

Their pride also did not allow them to cheat!

It was 8:55 am.

All students entered the examination room, waiting for the exam.

It was now 8:57 am.

The proctors entered the venue, and in front of all the students, he opened the sealed test paper and began to distribute the papers.

It was 9:00 am.

A soft sound was heard.

Everyone immediately started writing questions.

The examination room became hushed. Besides the sound of steps of the proctor, only the writing voices on the test papers were heard.

Although it seemed that the atmosphere was very dull.

However, if one took a closer look at the students who were doing the test, it was not difficult to find that many students who were originally confident, frowning when doing the questions.

The test was difficult.

This was something that no one expected.

If it was like the last test before the knowledge contest, they could easily finish the test paper, but the difficulty of this test paper was completely beyond their expectations.

What made everyone depressed the most was.

There were some test questions in the test paper which were particularly biased and could not be regarded as the basic knowledge of Chinese medicine.

Therefore.

Although in the beginning, everyone's questions were speedy, as time went by, many people could only slow down. They had to study, analyze and answer each question.

Outside the examination room.

At the first floor of the office building, which was not far from the teaching building.

The leaders of the schools, including Chen Yinsheng, gathered in a conference room equipped with monitoring to have tea and talk.

"I didn't expect that this time the test will be so difficult."

Jiang Hai, the vice president of the Jingbei University of Chinese Medicine, looked at the papers that had just been opened, and then looked at the students in the surveillance video. He couldn't help but frown and said, "According to the difficulty of this level of the problem, in this exam, the probability of a full score is almost zero, and getting high scores are also difficult."

"It's not just that."

Zhang Guodong, the vice president of the Huizhou University of Chinese Medicine, smiled and shook his head and said, "This test is a metamorphosis. Let alone a freshman, even if it is a top student in a sophomore year, it may not be good."

"Isn't this just right?"

The vice president of University of Zhongzhou Chinese Medicine said with a soft smile, "The most difficult questions can be used to test out the best students. Although this topic is even more terrible than the previous year's devil test, it is just right for these top students. Look, let's use the greatness of Chinese medicine to suppress their arrogance, and we can also compare our strength."

"No wonder the test time is extended by half an hour."

Chen Yinsheng shook his head and said with a smile, "The students who design the questions are jointly elected by our nine schools, and the exams have already begun, and the difficulty of discussing the questions here is not as good as praying for a good result for our students."

The leaders of the schools nodded.

They seemed to be praying.

Everyone knew that praying was useless, and what counted was the basic knowledge of the students.

Medical Master

Chapter 158: What? Handing the Paper???

In the examination room.

After the invigilators saw the test papers, they were all the same as the students who answered the questions. They frowned as they could not help themselves.

Their thoughts were the same as those of the school leaders.

The test was just too hard.

“Can these students finish?”

“This should not be a test for freshmen at all!”

“It’s already something to pass this kind of exam.”

“Who made such horrible questions?”

The proctor in each examination room all looked at these questions, feeling speechless.

They were such hard problems.

It was not like being used to test students, but as if it’s used to test them.

Not to mention students, even they had a headache seeing them.

As predicted.

Many students were beginning to scratch their heads.

But when everyone was feeling difficult to solve problems and were trapped in them.

In the examination room Number One.

Everyone found out that there was one person who was writing at a fast speed.

Moreover, he had not stopped since the beginning, and the speed of answering questions was extremely fast.

This person was Fang Qiu.

Watching Fang Qiu answering the questions so quickly, the students in the Number One test room were very surprised.

In the room.

They naturally knew to what extent the difficulty of this test had reached. In their eyes, it was impossible for anyone to finish the test paper.

However, in front of them.

Fang Qiu showed this sign.

In amazement.

Everyone was secretly whispering.

“This guy is writing so fast, so he must have skipped the tough problem, and just writes some simple, simple questions, right?”

They knew Fang Qiu.

He also knew that he was the best student of University of Jiangjing Chinese Medicine, and he has gained full score in the previous test.

However, this test was not the same as the previous test. The difficulty of the question was many times higher. Even if his strength was strong, it was impossible for him to answer the questions so quickly.

The students in the first test room secretly questioned.

Even Zhu Benzhen and another classmate, who were in the same test room as Fang Qiu, felt it also unbelievable.

In the conference room.

The school leaders sat around the three monitors and watched the students' exams.

"The speed has slowed down."

Jiang Hai said, "These students have finished simple questions. While the next questions should be difficult."

"Yes, yes."

Zhang Guodong nodded gently and added, "The eighty-one students are the top students selected from our nine schools. Although they are freshmen, they all have real talents, but the difficulty of this topic has been beyond their knowledge, especially some of the questions."

"We have to trust them."

Chen Yinsheng said with a smile, "They are all hopes for the future of Chinese medicine industry. Although the questions are tough, under the tempering of these problems, they will all get the growth."

"What?"

Suddenly, a surprised voice came.

A foreign school leader pointed at the second monitor display, in which a student who was quickly answering questions, completely ignorant of other students who were scratching their heads, and said, "It seems that this student is very powerful."

As they were talking.

The leader of another school also came over and looked at Chen Yinsheng in a complicated way. He said, "This person seems to be the student named Fang Qiu in your school?"

Looking at the monitor display, and confirming it was Fang Qiu who was solving problems quickly, Chen Yinsheng immediately nodded with a smile.

The leaders of other schools also noticed Fang Qiu at this time.

"This student is very powerful. You see that other students were stumped by the test, but he has never stopped, and it feels like he can do them all."

Jiang Hai said while admiring Chen Yinsheng, "Old Chen, your student is great!"

Song Wenhua looked at the monitor screen with a slight surprise. "I didn't expect that this student was quite comprehensive. Not only did he have a high opinion in school management, but he also played so well in the exam."

"I have been watching him from the beginning."

The leader of another school also said, "I found that this kid did not stop his hand from the start of the exam. It seems that even thinking is not needed. The test paper is directly answered from the beginning. Not to mention the perfect score, if he can test 80 from this test paper, then he is a well-deserved genius."

In the praise of everyone.

Chen Yinsheng shook his hand with a smile and said, "It may be that his mastery of Chinese medicine knowledge is relatively solid."

Hearing that.

The leaders of the schools all seemed to smile.

There were also some concerns in their heart.

After all.

Fang Qiu's speed was so fast, so if he knew all the answers to the test, then University of Jiangjing Chinese Medicine would be one step ahead in this knowledge contest.

However, it seemed that this was their subjective conjecture and surface compliment.

What if this kid was doing poorly?

The faster he was, the more mistakes he would make.

Compared with Fang Qiu's fast speed, they hoped that their students could slow down and answer each question carefully, and at least not to make avoidable mistakes.

In the examination room Number One.

Fang Qiu quickly answered the problem without omitting each of them.

It took him only half an hour to the last subjective question.

“Emm?”

Seeing the last subjective question, Fang Qiu squinted a little and then smiled.

This question.

It was to dictate the second part of the “Inner Canon of the Yellow Emperor”, “The Great Theory of ‘Four Qis Regulating Spirit’”.

“No wonder.”

Seeing this question, Fang Qiu understood why, before the exam, the one-hour examination time set before was extended to one and half an hour.

It did not only take a lot of writing time.

Also, it required them to dictate ancient books.

It was not something that ordinary people could do.

Even if someone remembered, then they had to think carefully, and then wrote it down word by word.

However.

This was a sub-question for him.

He didn’t read one hundred times of “Inner Canon of the Yellow Emperor” and get no result!

Not to mention one of them, even if Fang Qiu needed to write all the “Inner Canon of the Yellow Emperor”, it was not a problem for him.

Fang Qiu did not stop and immediately dictated.

“Spring March, this is about growing. Everything is born, everything is proud...”

The whole article contained nearly eight hundred words.

Fang Qiu wrote it for half an hour, and he wrote it all word by word.

The main reason was that he was afraid if his writing were not neat, and they would make a mistake, thinking that he had written a wrong answer.

Therefore, he was very careful to write every stroke.

After carefully reviewing the entire test paper, and confirming that there was no problem, he stood up directly.

“Teacher, I’m handing in my paper.”

“What?”

The words of Fang Qiu just spread.

All the other students in the entire examination room were all dumbfounded.

Holy crap!

It was after just one hour.

He handed his answer sheet when there were still 30 minutes left before the end of the exam???

Before.

Seeing Fang Qiu's answering questions madly without stopping, everyone thought that this guy gave up and kept writing indiscriminately.

Unexpectedly, now he was handing in his sheet!

This guy really finished it without giving up?

Everyone started to feel upset.

"This damn weirdo!"

At the corner of the examination room.

Zhu Benzhen, who was far away from Fang Qiu, looked up and took a look at Fang Qiu, and swore in his heart.

He speeded up immediately and answered questions quickly.

Another student from University of Jiangjing Chinese Medicine who was in the same room with Fang Qiu felt very happy though.

Because since Fang Qiu was doing this, the pressure of other students in the school would be great.

If there was a lot of pressure, there was a possibility of error.

Then University of Jiangjing Chinese Medicine would naturally continue to gain the upper hand.

Handing in the paper?

In the examination room, nine proctors heard the words and turned to look at Fang Qiu.

Seeing that Fang Qiu really stood up and wanted to hand over the sheet.

All nine people were surprised, with their eyes and their mouths wide open, looking in a huge shock.

Having proctored the exam for an hour.

They all read the questions on the test papers.

They were very clear how hard this test paper was.

It was also because of this.

They did not think of it at all, that actually someone was doing it so fast.

He only used one hour to finish the test paper?

How could it be possible?

This was impossible!

Based on this idea.

Among the proctors, a teacher from University of Jiangjing Chinese Medicine quickly reminded him.
“Student, you really don’t want to check the test papers before you hand over the papers?”

“I have reviewed my answers.”

Fang Qiu answered.

“Well... okay then.”

The proctor sighed secretly.

In the conference room.

Perhaps it was because the time of the exam was too long, or probably because the candidates were not too outstanding, the attention of the leaders had been diverted from the monitor display early, laughing and talking to each other, not paying attention to the examination room.

At this time.

A leader whose smile did not fall from his face yet, lifted his cup and drank tea, and then glanced at the monitor between the conversation.

“Ah? Someone has handed it over!”

Seeing the footage on the monitor, the leader was startled. While leaning his body leaned forward, he gulped the tea in his mouth, and then reached out and shouted.

After saying that.

Other leaders suddenly became shocked.

Two of the leaders who were drinking tea were even shocked so hard that they couldn't help but spit their tea.

What?

Had someone handed in the paper?

All leaders quickly looked at the monitor display.

They just saw Fang Qiu holding the test paper to the podium.

Of course, it was him!

When hearing the news of someone handing over the paper, the first person in their minds was Fang Qiu.

Now.

Seeing the Fang Qiu handing in his paper on the monitor display.

They couldn't believe it either. They looked at each other.

The performance of Fang Qiu's quick answer before did make them very surprised, but everyone thought that since the difficulty of the test was so high, even if his speed was fast, this kid couldn't hand in the paper in advance. Surely, some questions would give him a headache.

However, in front of them.

The performance of Fang Qiu once again surprised their expectations.

He actually handed it in!

Silence.

All the leaders were silent.

After a long time.

“It has been only an hour, right?”

Jiang Hai said.

Everyone looked at the time.

As expected.

It was precisely after one hour.

This time, everyone was even more shocked.

He took one hour to complete the difficult test papers.

In other words.

Apart from the last subjective question that took 30 minutes to dictate, Fang Qiu only spent half an hour to solve the rest questions?

This speed was like a rocket!

When they were silent in shock.

All the leaders of the schools turned their heads to look at Chen Yinsheng.

“Old Chen, seriously?”

Zhang Guodong looked at Chen Yinsheng with suspicion and said, “You didn’t find someone to ghostwrite the test, did you?”

“Yeah, how can an ordinary freshman be so powerful?”

Song Wenhua also asked.

“How can it be?”

Recovering from the shock, Chen Yinsheng quickly shook his head and said, “I am also very surprised. How did this kid have been handed over so early? Lao Qi, what is going on?”

As the dean of the School of Chinese Medicine, Qi Kaiwen was also in the conference room, paying attention to the examination room.

“Hehe.”

Upon hearing Chen’s inquiry, Qi Kaiwen smiled and said, “Fang Qiu is a freshman. It is beyond doubt. If the leaders want to check, they can thoroughly check his resume from elementary school to university.”

“However, I can give a message to the leaders.”

Speaking of this, Qi Kaiwen was trying to make them guess.

“What message?”

“What is it?”

“Did this kid has also study Chinese medicine before entering the university or has he been treated in a Chinese medicine family?”

Everyone asked questions.

Medical Master

Chapter 159: Who Is the First One?

Chen Yinsheng urged him with a smile.

“OK!”

Qi Kaiwen nodded and said, “Do you still remember the terrifying test paper of the previous year? Earlier, I took the test paper to Fang Qiu and he scored 86.5 points. What’s more, he only spent 45 minutes on the examination!”

“What?”

All of them were shocked as they heard that.

They remembered very clearly that the bleakness of the results in that year was unprecedented.

A passing score was counted as a high score.

The highest score that one student got seemed to be just over 80 points.

And it took most of them a full hour to finish.

“Fang Qiu actually only spent forty-five minutes and got 86.5 points?”

They were completely dumbfounded.

“He is actually excellent like that?”

The leaders of each university were too shocked to believe.

Hearing what Qi Kaiwen said, Chen Yinsheng finally felt reassured.

Seeing Fang Qiu hand in his test paper so fast, he was very anxious. After all, this examination was related to the honor of University of Jiangjing Chinese Medicine. In his opinion, Fang Qiu handing in the test paper so easily was really frivolous.

However.

“Since he could get a high score in the terrifying test paper of the previous year. Seems that he should be confident to hand in the test paper so fast.”

The worry in his heart decreased by more than half.

But Chen Yinsheng was still a little worried.

He was afraid that Fang Qiu was so hurried that he made mistakes when answering questions.

In the examination room.

After handing in the test paper, Fang Qiu directly stepped out of the examination room.

Just when he appeared.

The students of University of Jiangjing Chinese Medicine, who were standing outside the examination room, were immediately dumbfounded.

Everyone's eyes were focused on Fang Qiu.

“Fang Qiu?”

A curious girl shouted.

Fang Qiu turned his head and took a look.

“Are you done?”

The girl asked curiously.

“Yes.”

Fang Qiu nodded his head.

Seeing that.

All the onlookers present were stunned.

“No way?”

“So fast?”

“Doesn’t it take one and half hour to finish the test? But it has only been an hour.”

The onlookers all discussed in disbelief.

Some busybodies lost no time spreading the news that Fang Qiu had walked out of the examination room.

Without a doubt.

At this critical moment, what all the students of the university most concerned was the Knowledge Competition of Freshmen. And just because of everyone’s concern, the news was quickly spread throughout the campus.

New postings immediately appeared on the BBS.

“The first round of written examination of the knowledge competition, Fang Qiu from our university walked out of the examination room first. It only took him 60 minutes!”

For a time.

All the people in the university who saw the posting were extremely surprised.

But what’s more, they were doubtful.

“Screwed. Couldn’t Fang Qiu give up?”

“I have heard that the difficulty of this examination is unprecedented. Even the sophomores and juniors may not be able to finish it. How could Fang Qiu come out so soon?”

“Could it be because the examination is too difficult, he didn’t want to answer? But it is related to the honor of the university. How can he be so casual?”

“Don’t rush to deny it. Maybe Fang Qiu has finished the test paper?”

“How is it possible?”

“Yes, the questions are so difficult. Even if Fang Qiu got full marks in the previous examination and took the first place, it is impossible to finish it all?”

“Will our university lose again? Alas. For the last knowledge competition, the results of our university were so bad. If we rank last again this time, how can I have the nerve to say that I am a student of University of Jiangjing Chinese Medicine afterwards?”

“We can’t do anything about it. He has already come out. Even if he wants to go back now, he just can’t.”

“Yes. I hope that the other students will try their best and make up the scores that Fang Qiu has lost.”

...

The students were not optimistic about Fang Qiu at all, who should have drawn cheers.

However.

He had no choice.

After all, Fang Qiu’s speed was so amazing that people couldn’t believe it. “How could he finish the test paper in such a short period of time? Let alone a high score.”

“It’s true that things will develop in the opposite direction when they become extreme.”

Soon.

The news was known by the president of the student union—Li Qingshi.

“Humph, it’s really a shame!”

Upon hearing the news, Li Qingshi immediately snorted coldly and swore secretly, “When the knowledge competition ends, if you can’t get a good result, I will diss you!”

Originally.

Li Qingshi planned to figure out a way to get Fang Qiu some purgative to suppress his spirit so that he would fail the examination and become a public enemy of the university.

However, he thought this method was too insidious after that.

It was a little unconscionable.

So, he didn’t do it.

“Now it seems.”

“It was better to let him eat purgative!”

“Otherwise, we won’t lose face!”

There.

The examination continued.

Fifteen minutes after Fang Qiu walked out of the examination room.

In the second examination room.

Han Yuxuan, from University of Jingbei Chinese Medicine, who was apprenticed to Wei Qi, the highly-skilled doctor in bonesetting, stood up proudly to hand in the test paper under the others' gaze.

It caused a lot of amazement and envy from the students of the same examination room.

He handed in the test paper in seventy-five minutes.

In the view of the students in the second examination room, it was really amazing.

He enjoyed the envious eyes of everyone.

Han Yuxuan, who had handed in his test paper, walked to the platform with a smile, handed in his test paper, and walked out of the examination room.

He came to the cabinet where the school bags were placed at the corner of the corridor outside the examination room. When he was going to take the bag and leave, he suddenly thought of something seemingly. He lifted the bag as he turned around to look at the teacher who had been watching the bags. He asked confidently, "Ms, am I the first one to hand in the test paper?"

But the teacher shook her head and whispered, "No."

"No?!"

Hearing what she said.

Han Yuxuan's face darkened.

"Who is the first one?"

Han Yuxuan asked as he frowned.

"Fang Qiu from our university."

The teacher replied in a low voice.

"Fang Qiu?"

Hearing this name, Han Yuxuan was dumbfounded.

"It's actually him?"

He did not expect that this person was faster than him in handing in the test paper.

Because the questions were very difficult.

But for him, it was nothing.

After all.

His master was Wei Qi, one of the only 50 highly-skilled doctors in the country.

Whether in writing from memory or in dealing with various uncommon questions, he could do it without any hitch.

It was also just because of this.

He always thought that he must be the first to hand in the test paper.

But he did not expect.

Fang Qiu actually handed in the test paper before him.

This made him feel a little unbelievable and unacceptable.

But the fact had already been there. He had no choice but to accept it.

As he was depressed, he carried his own bag and was going to leave.

At this time.

A figure suddenly came out of the third examination room.

Taking a closer look.

The person was obviously Tao Yiran from University of Huizhou Chinese Medicine.

He remembered very clearly that Tao Yiran was a descendant of the Chinese Medicine family—Tao's family and was in the first place of University of Huizhou Chinese Medicine by full marks in the test. Thus, he was selected to participate in the knowledge competition.

He had always been regarding Tao Yiran as the key vigilant target. "After all, an average person is not comparable to him, who has the foundation of the Chinese Medicine family."

But he did not expect.

In this first round of examination, he won his own vigilant target, but lost to another guy!

“It is actually you?”

When Tao Yiran, who came out of the examination room, saw Han Yuxuan, he was slightly surprised and then said in surprise, “You deserve to be the apprentice of Master Wei Qi because you have handed in the test paper so early. I admire you and I’m willing to be the second.”

Hearing that.

The muscles on Han Yuxuan’s face twitched and then he said indifferently, “You are the third one.”

“The third one?”

Tao Yiran was immediately dumbfounded when he heard the words.

“Could there be someone who walked out of the examination room before Han Yuxuan?”

“This is impossible!”

“Do you mean that there is someone before you?” he asked.

“Yes.”

Han Yuxuan replied.

“Who?”

Tao Yiran hurriedly asked, "Who was so capable that he was actually faster than you and me?"

"Fang Qiu."

Han Yuxuan sighed and said.

"It's him!"

Tao Yiran was shocked.

"Because Fang Qiu has no background and no strong master to back him up. Although at the beginning, he also regarded Fang Qiu as a strong competitor, after seeing Fang Qiu's talent show, he imperceptibly focused his attention on the singing ability of Fang Qiu and forgot for a time that Fang Qiu was in the first place of University of Jiangjing Chinese Medicine."

Thinking about it now.

He naturally understood.

But.

He was still a little surprised in his heart.

"Fang Qiu doesn't have any background. How can he leave Han Yuxuan, the apprentice of a highly-skilled doctor and me, the descendant of the Chinese Medicine family behind?"

Just when the two of them talked.

From the third examination room, another person came out.

Taking a close look.

This person was obviously Zhao Yancheng, who tied with Fang Qiu for the first place by the full marks at the University of Jiangjing Chinese Medicine.

“Eh?”

Just when he walked out of the examination room.

Zhao Yan looked at Han Yuxuan and Tao Yiran in surprise and said inwardly, “I thought I would be the second one, but I did not expect that I’m the third one.”

He was in the same examination room as Tao Yiran.

When Tao Yiran handed in the test paper, Zhao Yancheng only had a few dozen words to write before he finished the test paper. Although he felt pity inwardly, he still carefully answered the last big question before he left.

He originally thought that.

Tao Yiran was already fast enough. If he couldn’t be the first one, being the second one was also very good.

But he did not expect.

He was actually the third one.

“Needless to say.”

Just as Zhao Yancheng came over and was about to ask, Tao Yiran said directly, “You are not the third one.”

“Hmm?”

Zhao Yancheng was surprised.

“There are only three people here. If I’m not the third one, what place should I be?”

“Who is the third one?”

“I.”

Tao Yiran sighed slightly and said, “You should ask who is the first one.”

“The first one?”

Zhao Yancheng picked his brows and asked in disbelief, “Could there be anyone who was earlier than you?”

The two of them nodded at the same time.

“There is such an awesome person?”

Zhao Yancheng immediately turned to the teacher next to him and respectfully asked, “Ms, may I ask who is the first student walking out of the examination room? How much time did he spend?”

“It’s Fang Qiu. He should be 15 minutes earlier than you.”

The teacher replied truthfully.

Hearing what she said.

Not only Zhao Yancheng.

Even Han Yuxuan and Tao Yiran were both shocked.

“He is actually much earlier than us so much?”

“In other words, Fang Qiu only spent an hour to hand in the test paper?”

Han Yuxuan asked with amazement.

“Yes, it happened to be an hour when he came out.”

The teacher nodded.

Hearing that, the three of them were dumbfounded in place and didn't say anything for a long time.

Zhao Yancheng did not expect that the first one was actually Fang Qiu of his university.

He thought that he was the first one at his university. Since he couldn't be faster than the student from another university, the others of UJCM couldn't be faster naturally.

But it never occurred to him that.

“Fang Qiu!”

Zhao Yancheng repeated this name in his heart and he felt that he had encountered a vigorous opponent.

At this time.

Jiang Mengjie and Jiang Miaoyu, who were in the second examination room and the third examination room separately, came out from the examination rooms at the same time.

Just when they walked out of the examination rooms.

The two of them caught each other's eyes.

Seeing each other, the two of them were surprised at first and then they both smiled as they looked at each other.

Seeing the two girls come out, Tao Yiran immediately said mysteriously, "Do you know who is the first one?"

"You?"

Jiang Mengjie replied.

Because they were all in the third examination room, Jiang Mengjie knew the time that Tao Yiran and Zhao Yancheng had used. So, she answered it directly as what she was thinking.

But Jiang Miaoyu looked at Han Yuxuan because only he handed in the test paper earlier than her in the second examination room.

"Ha ha, guess wrongly? It is Fang Qiu."

Tao Yiran said with a smile, "I didn't expect that diamond cuts diamond. I also didn't expect that I actually lost to him."

“It’s him.”

Jiang Mengjie smiled sweetly.

“It’s him.”

Jiang Miaoyu also smiled.

Both of them were also very happy for Fang Qiu.

Medical Master

Chapter 160: Full Marks!

“Time is almost up. There are more and more students who hand in their test papers in advance.”

Zhang Guodong, who had been watching the monitor, said with a smile.

Regardless of the psycho, Fang Qiu.

As far as the current situation was concerned, his student was the third one to go out of the examination room. “This result is not bad.”

“Yes, although the test paper is very difficult, the freshmen of this session are very potential!”

Jiang Hai also smiled.

Han Yuxuan from his university was the second one to hand in the test paper and Jiang Mengxi was the fifth one. Two of the nine students were in the top five in time using. How could he not smile?

As for the other leaders.

They couldn't smile.

At this time.

Chen Yinsheng also leaned over.

Taking a close look, he found that three of the six people who had handed in the test papers were actually from his university, so he was very happy.

Although he was very happy.

Chen Yinsheng did not show it. Instead, he said calmly while drinking tea, "It seems that the students of this session are still very good."

Hearing that.

The leaders of the other universities secretly curled their lips and none of them answered Chen Yinsheng's words.

"Let your parade dissipate in the air!"

Soon afterwards.

More and more students handed in their test papers in advance.

The time limit of examination was 90 minutes. Even if there was only one minute left before the end of the examination, it was considered as handing in the test paper in advance.

Although at the beginning, University of Jiangjing Chinese Medicine performed very well.

Overall.

The students from University of Jiangjing Chinese Medicine who handed in the test papers in advance were the least.

This result made Chen Yinsheng, who was secretly happy originally, look awful. On the contrary, those leaders of the other universities who originally looked grave gradually looked better as their respective students handed in the test papers.

Time flew by quickly.

The examination time of one and a half hours ended!

Many students who had not finished the test paper could only stop writing and hand in the papers.

Soon.

Everyone walked out of the examination room.

The groups of each university were divided again.

“Aren’t these questions this time too difficult?”

“Yes, if I can get a passing score, I will be satisfied.”

“It’s totally not at the same level of the test at my university. It’s really hard.”

At the beginning, the students were all talking about the difficulty of this examination.

But a short while later.

Their attention had shifted from the questions to the participants.

“Tao Yiran, since you answered questions so fast, you should be the first one in time using?”

A student from University of Huizhou Chinese Medicine asked Tao Yiran.

“Alas. I have failed to live up to your expectations because I am not the first.”

Tao Yiran smiled bitterly.

“Who is that?”

Someone asked again.

“Fang Qiu.”

A student from University of Huizhou Chinese Medicine, who was in the same examination room with Fang Qiu, said, “He is too abnormal! I am very close to him. From the minute when the exam started, I have not seen his hand stop. He kept writing and writing. After writing for an hour, he finally stopped. But I didn’t expect that he directly handed in the test paper.”

At the sound of this.

The other students of University of Huizhou Chinese Medicine were all shocked.

“So awesome?!”

On the other side.

Other universities were also talking about him like crazy.

Because there were three students of each university in the same examination room with Fang Qiu, the abnormal speed of Fang Qiu was quickly spread to the ears of every participant who took the exam, which made the participants of each university very shocked.

It also caused their vigilance and fighting spirit.

But Fang Qiu, the focus of everyone's attention, had found a secluded place to read books.

He totally didn't know his fast speed would cause such a heated discussion.

In principle.

During the one hour after the end of the examination, it was the time for the teachers to correct the test papers.

At this time, the onlookers of University of Jiangjing Chinese Medicine gradually dispersed.

The participants from all the universities also agreed to go to the big meeting room to take a break.

Soon.

After an hour.

The correction of the test papers had been completed.

The results statistics came out.

It was sent to the meeting room where the leaders of the universities were at once.

“Leaders, the results have come out!”

Nine teachers from different universities walked into the meeting room with corrected test papers and one of the teachers took the transcript.

“Who is in the first place?”

Jiang Hai immediately asked.

“Who is in the first place?”

Zhang Guodong also asked.

Other leaders, at the same time, all rushed to ask.

Although University of Jiangjing Chinese Medicine had taken a big advantage in the examination time, in the absence of the same points, the time was not the key to the examination. The most important thing was the score.

“What is the point of fast?”

“Scores are the most important.”

“The faster he did, the easier it is to be wrong.”

All the leaders were expecting their students to be No.1.

As for Fang Qiu, they didn’t think that he could get the first place since he answered so fast.

Chen Yinsheng was also very worried, but the only student he could think of was Fang Qiu.

The teacher holding the transcript spoke at this moment.

“No.1 is Fang Qiu!”

“Who??”

The leaders of the universities didn’t believe it at all.

They felt that they had heard it wrongly.

“Fang Qiu, the student of University of Jiangjing Chinese Medicine. Fang Qiu!”

The teacher replied again.

Hearing that.

Chen Yinsheng picked his eyelids, glanced in smug satisfaction at the leaders who were stunned, and laughed happily.

But the leaders of the other universities were all stunned.

“He was the first one to hand in the test paper and still could get the first place of the examination?”

“What should we do?”

“Is he still a human?”

At this time, Jiang Hai thought of something and hurriedly asked, "What is the score of Fang Qiu?"

In his opinion.

"Han Yuxuan spent 15 minutes more than Fang Qiu, so in terms of answering the questions, his answers must be more accurate than Fang Qiu's. By rights, Han Yuxuan should take the first place."

"Could Han Yuxuan play below par and answer several questions incorrectly?"

"One hundred points. Full marks."

Hearing Jiang Hai's question, the teacher who was holding the transcript replied immediately.

At the sound of this.

The leaders of the universities present, including Chen Yinsheng, were even more shocked.

"Full marks???"

"What's going on here?"

"How could it be?"

"This set of questions are more difficult than the ones of the previous year. How can any student get full marks?"

"Yes. And it only took him 60 minutes to hand in the test paper."

“Did you correct wrongly?”

“It’s just incredible!”

A variety of shocked questions were spread.

“We have brought the test papers and transcript. You can see them in person.”

As they said.

The nine teachers who corrected the test papers put the test papers and transcript on the meeting table.

The leaders of the universities immediately went to see the transcript.

Everyone didn’t care about the test papers.

Because the test papers were corrected by the teachers of the nine universities. It was absolutely impossible to have correction mistakes since one piece of test paper was corrected by all the nine teachers.

On the transcript, the ranking was clear at a glance.

“The first place: Fang Qiu, 100 points.”

“The second place: Han Yuxuan, 93 points.”

“The third place: Su Zimo, 92 points.”

“Another third place: Tao Yiran, 92 points.”

“The fifth place: Wang Zhixing, 89 points.”

“Another fifth place: Zhao Yancheng, 89 points.”

“The seventh place: Jiang Miaoyu, 88 points.”

“Another seventh place: Jiang Mengjie, 88 points.”

“The ninth place: Ruan Sijing, 87 points.”

...

Seeing the transcript.

Chen Yinsheng, Jiang Hai, Song Wenhua, and Zhang Guodong all smiled.

The students from their four universities actually occupied the top 10 and two of them were tied for first place.

In addition to UJCM, the most satisfied person was Jiang Hai because his students Han Yuxuan and Jiang Mengjie, respectively got the second and fifth places, which were already very good.

Zhang Guodong and Song Wenhua were also very satisfied.

At least, from the transcript, their students have gained the upper hand.

The leaders of the other universities all looked grave.

“As the saying goes, several people are happy while several are depressed.”

“There are always high scores and low scores in an examination.”

After a while.

“All right.”

After the leaders of the universities see all the rankings, Chen Yinsheng said, “Post the transcript up and let the participants go and see it themselves so that we don’t need to announce it in public.”

The leaders of the universities nodded in agreement.

The transcript was quickly pasted up on the notice board of the university.

All the participants came to see the results.

“The first place: Fang Qiu..... 100 points.”

The participants from all the universities around the notice board, were all surprised when they saw No.1.

“My god! This guy is so awesome! It only took him 60 minutes, but he also can get full marks. I admire him.”

Tao Yiran was very surprised, but he was not envious as he said that. Instead, he smiled and officially placed Fang Qiu in the position of his first vigorous opponent.

“Full marks???”

Han Yuxuan looked at Fang Qiu's score and picked his brows slightly.

Although he was in second place, he was very unhappy.

They actually had a difference of 7 points.

"What caused the seven-point gap?"

"Is it the last dictation question?"

As he thought, Han Yuxuan turned around and left without expression.

"So awesome. Fang Qiu has unexpectedly got full marks of such a difficult test paper."

Ruan Sijing, a gentle and quiet girl, looked at the transcript on the notice board, staring at the name of Fang Qiu with excitement and muttering to herself, "If this person is at the same university with me, I can learn from him and increase my scores."

"It's not easy. It has taken me so much time and energy, but I just took a third place."

Su Zimo faintly smiled as he shook his head. From his look and words, it seemed that he didn't care about it so much.

"Mr. Fang. Sure enough, you had always been giving ground to me."

When Jiang Mengjie saw the transcript, she did not check her score at all. Instead, she smiled as she set her gaze on Fang Qiu, who had taken the first place.

"Fang Qiu."

Wang Zhixing frowned and looked at the transcript with a grave look.

“Why?”

“Han Yuxuan is an apprentice of an highly-skilled doctor. Su Zimo and Tao Yiran are both the descendants of the family of Chinese Medicine. I’m convinced if I lose to them.”

“But who are you?”

“He has no background. Why should I lose to him?”

“I have been reading medical books since I was a child. Why is he more excellent than me since he switched to the profession of Chinese Medicine?”

He became more and more excited, more and more indignant as he thought of it.

Wang Zhixing directly turned around and left after snorting coldly with a grave face.

At this time.

The other students of University of Jiangjing Chinese Medicine also come to see the transcript curiously.

When they saw Fang Qiu was in the first place.

These students immediately couldn’t help being excited and happy.

Some of them even took a photo of the transcript directly and posted it on the campus BBC.

.

As the posting was sent out.

What's more, the news was spread by word of mouth among the students in the university.

Soon.

It caused a great sensation at the university.

"The first place."

"Full marks!"

"Fang Qiu is too awesome. He has won credit for our university!"

"Haha, the first place. No.1 is from our UJCM!"

"What did I see? I suspected that Fang Qiu handed in the test paper sixty minutes after the examination started because the test paper was so difficult that he gave up it. But now what am I seeing?"

"So awesome. UJCM is invincible. Fang Qiu is invincible!"

"Please calm down. Although Fang Qiu has taken first place, the overall results of our university are still backward. They still need to continue to work hard."
