

Medical M 1541

Chapter 1541 The Furious Lord Virtuous

The tremendous pressure made Fang Qiu tense up.

Under the pressure...

Fang Qiu felt all his cells were mobilized. Even the inactive trace of golden internal Qi started running fast in him.

The internal Qi moved around...

His Dantian had always remained untouched, no matter how fierce the battle he joined. Unexpectedly, it began to tremble quickly at this moment.

His trembling Dantian caused a faint flow of excitement at the bottom of his heart. Fang Qiu seemed to have entered a state of accelerated motion.

He was like a machine in operation that could not stop running.

In such a situation...

Seemingly, it made Fang Qiu unable to control himself — his whole Qi power soared abruptly.

Meanwhile, the power he had deliberately suppressed exploded.

The overwhelming aura of energy surged out in all directions. Immediately, the divine sword in Fang Qiu's hand flashed with a layer of dazzling sword light.

It collided violently with the iron whips attacking constantly.

With almost every collision...

Fang Qiu sensed that his internal Qi was forced to speed up, and his Dantian vibrated faster and faster.

In this situation...

Fang Qiu distinctly felt something unusual: as his Dantian shook, the shadow was slowly gathering and solidifying.

“It is indeed useful.”

Fang Qiu was overjoyed.

He didn’t expect this method to work. In his mind, since he became a guru, his cultivation would be quite different from before.

Now it seemed he had just changed from cultivating his body and meridians to refining his Dantian.

Since Dantian and meridians were connected, there was nothing wrong with his previous ways of cultivation.

“Clap, Clap, Clap...”

Second Venerable felt the powerful energy Qi erupting from John Doe, his heart skipping a beat. Instantly, he burst out all his strength to attack John Doe savagely.

For Fang Qiu...

His rival's explosion undoubtedly did the best in boosting his experience.

The violent collisions never ceased for a second.

The higher the pressure from Second Venerable, the more stressful Fang Qiu became. Like this, he pushed himself harder. When his body and mind were keyed up, Fang Qiu continuously worked out his potential.

His meridians and Dantian entered a mechanical mode. The shadow in his Dantian began to develop and condense steadily.

Three minutes later...

Fang Qiu's Qi power rose continuously, but he didn't launch a counterattack.

This made Second Venerable suspicious, but he did not ponder on it. Instead, he continued to suppress John Doe wildly.

He knew it himself.

With his strength, he couldn't kill John Doe.

But he also knew Lord Virtuous was on his way.

He rushed over as soon as he heard Lord Virtuous's order. His purpose was not to kill John Doe but to hold him back and wait for Lord Virtuous!

Opposite him...

Fang Qiu was very curious. Why would Second Venerable be willing to accompany him in his cultivation? Second Venerable never gave heavy blows. Instead, he seemed to have concentrated all his strength on launching moves that could pin down Fang Qiu.

After a brief thought...

Fang Qiu realized that Second Venerable must have been trying to hold him back. He was waiting for more powerful reinforcements, First Venerable or Lord Virtuous.

Keenly aware of this, Fang Qiu spread his Divine Consciousness, exploring all the areas within his Divine Consciousness the whole time.

After a while...

"Sure enough, someone is coming!"

As expected, Fang Qiu felt a mighty aura of energy rushing toward him.

He sensed it carefully.

"Lord Virtuous!"

Fang Qiu would never forget that aura.

Judging from this aura and its intensity, Fang Qiu could affirm that it was Lord Virtuous!

"One step from success."

Upon examining his internal condition, Fang Qiu found he was very close to achieving One-Flower Core Formation. But if he wanted to break through in this battle, he had to fight for at least another five minutes.

Lord Virtuous would have arrived in five minutes.

“Leave.”

A thought flashed through his mind.

“Bang!”

All the internal Qi in Fang Qiu erupted.

He wielded the long sword.

“Space-splitting Sea-cracking Sword!”

Neatly and mercilessly, Fang Qiu slashed at Second Venerable with his sword.

The divine sword was violently brought down.

An incomparably huge and brilliant ray of sword light burst out with a loud bang. It quickly condensed into a sharp beam of sword Qi, shooting out of the blade. As it repelled the two iron whips, it flew fast to chop Second Venerable.

Second Venerable saw it.

His face darkened. Right away, he controlled the two iron whips and wielded them quickly. Before him, the two fast-spinning whips formed a round shield to resist the fierce sword Qi.

Just then...

Fang Qiu changed his posture. Without hesitation, he flashed aside and ran away.

He fled in the direction opposite to that taken by He Gaoming when he had left!

Behind him...

When Second Venerable blocked the incomparably sharp sword Qi, Fang Qiu had wholly disappeared from his sight — he flew more than 1,000 meters away.

Second Venerable's expression changed. Just as he was about to pursue and attack, he suddenly sensed an unparalleled aura of energy coming from another direction.

Lord Virtuous!

Second Venerable immediately flew over to greet him.

"Lord Virtuous."

After flying for three kilometers, Second Venerable finally saw Lord Virtuous and called out respectfully.

"Where is he?"

Lord Virtuous asked.

"He escaped in the southeast direction. I suppose he hasn't gone far yet. At most, he is five kilometers away."

Second Venerable replied.

"Chase after and keep an eye on him. I'll go and check the situation in the mysterious place!"

Lord Virtuous ordered.

“Yes.”

Second Venerable immediately flew out to catch up with Fang Qiu.

Here...

Lord Virtuous moved and darted to the fortress base.

With a closer look...

He found the Relic Mysterious Realm was changed beyond recognition.

Not a single piece of jade was left. Corpses were scattered all over the place. There were also many stone fragments engraved with Anglanish letters and Huaxianese characters.

What a dreadful scene...

Lord Virtuous flew into a great rage!

“John Doe, John Doe... Damned John Doe, I will come to kill you!”

He let out an angry roar.

Lord Virtuous immediately took out his cell phone and called Second Venerable.

“Where is he?”

Lord Virtuous asked.

“He’s still running southeast. I’m chasing after him.”

Second Venerable replied.

When Lord Virtuous heard that...

He got ready and immediately flew to the southeast at full speed. This time, he swore to kill John Doe!

Fang Qiu was right before him, traversing Zhongdong.

Actually...

He was not afraid.

During their last fight, Lord Virtuous was faster than him, but only slightly.

Through a period of cultivation, Fang Qiu improved a lot, and so was his speed. Especially after the last battle with Lord Virtuous, the shadow of his whole Dantian was greatly strengthened. His overall strength was hence improved a lot.

Fang Qiu was still no match for Lord Virtuous, but he could run and keep himself alive.

They flew all the way.

Fang Qiu didn’t hide his energy aura. Only in this way could he lead Lord Virtuous to him and guarantee the safety of He Gaoming and others.

But precisely because of this...

Two experts of the first-rate force in Zhongdong also captured this horrible aura on Fang Qiu's way. Without hesitation, they hurried out to check.

But when they ran out, Fang Qiu was nowhere to be seen.

In horror, they intended to go back. At this time, another equally powerful aura appeared.

They turned to look.

In the blink of an eye, a black shadow flashed past them.

Though they belonged to a first-class force, they failed to see the figure clearly when it passed by.

This situation was scary.

It deeply shocked the two experts from a first-class force.

Soon...

The two people of the first-class force shrank back. Neither of them dared to act rashly. They were secretly guessing who this terrifying expert was.

They could not ward off him if such a high-level expert targeted them!

At the very front...

Fang Qiu moved very fast.

Flying faster than Second Venerable, Fang Qiu moved more than 20 kilometers ahead of him. At the same time, he carefully explored the area behind him with his Divine Consciousness.

“Hasn’t he come?”

After a careful investigation, he found Lord Virtuous did not catch up with him in the first place.

This made Fang Qiu feel a little relieved.

The lotus shadow in his Dantian was only one step away from fully consolidating.

“Maybe, I can have another fight?”

On a whim...

Fang Qiu immediately stopped and locked on to Second Venerable with his Divine Consciousness, only to find him making a phone call.

“How could he think about calling someone in hot pursuit?”

“He must be talking to Lord Virtuous.

“Sure enough, Lord Virtuous won’t let me go so easily.”

Fang Qiu sneered.

He moved again, zooming forward.

A region densely packed with barren mountains emerged before him.

This endless area had numerous different waste hills.

Since Fang Qiu was more than 10 kilometers away from Second Venerable, he immediately hid all his internal Qi at the sight of these desolate mountains. Then he moved and plunged into this mountain area.

As he flew quickly, Fang Qiu didn't even know where he was. He decisively found a cave in an inconspicuous ravine, concealing all his aura.

Behind him...

Second Venerable, who had been chasing after John Doe closely, suddenly lost track of his aura as if it had vanished instantly. For a moment, he had no idea where to go.

Just then...

"Where is he?"

Lord Virtuous caught up with him.

"Lord Virtuous, John Doe's aura disappeared here. He should have hidden in the barren mountains ahead, so I stopped here and monitored his movements. But I haven't yet found anything unusual among these barren hills."

Second Venerable had seen the gloomy expression on Lord Virtuous's face. How could he have the guts to say he had lost sight of Fang Qiu? All he could do was explain it away with an excuse.

"Hide? I'd like to see where you can hide."

Lord Virtuous quickly positioned himself and rushed to the barren mountain area ahead. Carefully, he began to explore around, trying to find the place where John Doe was hiding. He would slaughter John Doe on the spot as soon as he hunted him down!

Chapter 1542 Returning Home Successfully!

“Whoosh, whoosh, whoosh...”

As fast as lightning, Lord Virtuous raced in this mountain area. Whenever he arrived at a new part, he would stop for a while, thoroughly sensing and searching for Fang Qiu.

At last...

After searching around, he couldn't detect a little bit of Fang Qiu's aura, let alone any trace of Fang Qiu.

He still couldn't find any clue after searching for a long time.

Lord Virtuous instantly burst into a fury.

“John Doe, you coward. Come out!”

Lord Virtuous roared angrily in a rage, trying to prod John Doe into showing up.

Somewhere else...

Hiding in a cave, Fang Qiu heard Lord Virtuous's voice but did not make a sound. Instead, he hid in the cave and remained motionless.

Listening to his heart-wrenching shout, Fang Qiu thought, “Do you think I'm a fool? I'll never fucking go out!”

Without doubt...

Fang Qiu kept a clear mind at all times.

A confused brain was more fatal than any other hazardous situation!

In this case...

How could Fang Qiu be so stupid to go out?

Outside...

“John Doe, you bastard. Get the hell out right now.”

Lord Virtuous let loose a torrent of abuse.

In the distance...

Looking at the furious Lord Virtuous, Second Venerable couldn't help shivering.

“DIE! GO TO HELL!”

Fang Qiu didn't get out because of his insulting words. Lord Virtuous waved his hands in a frenzy and burst out clouds of internal Qi, bombarding the barren mountain wildly.

“Boom! Boom! Boom!”

Loud explosions spread out continuously.

Seemingly, Lord Virtuous wanted to use this method to attack John Doe hiding in this region.

However...

This vast region looked endless.

In this case, it was almost impossible to hit John Doe, no matter how hard he tried.

Lord Virtuous carried out many attacks for a long while...

As ten percent of his internal Qi was wasted, Lord Virtuous seemed to have released all his pent-up anger. Gradually, he stopped.

“He’s not here. Let’s go!”

Turning around, Lord Virtuous shouted at Second Venerable and flew away.

There was no sound outside.

Yet, Fang Qiu was still hiding in the cave motionlessly.

Since his Divine Consciousness had covered this area, he could accurately get the positions of Lord Virtuous and Second Venerable — they were on a hill two kilometers away.

Apparently...

They staged an ambush. By giving up the pursuit of Fang Qiu, they plotted to lure him out.

But it was a pity...

Fang Qiu had Divine Consciousness!

He continued hiding for half an hour in the cave.

Half an hour later...

Lord Virtuous and Second Venerable came to this area again.

“Did you see him hide in this area with your own eyes?”

Lord Virtuous asked with a gloomy face.

“Well...”

Second Venerable instantly explained with a nervous look, “He was fast. I was about six or seven kilometers behind him. But as I chased him all the way here, his aura vanished. There are barren mountains on all sides. He had no other place to go.”

“Idiot.”

Lord Virtuous cursed and said, “He may have run away in another direction!”

Lord Virtuous was supremely confident.

His perceptual ability was top-notch. Anyone weaker than him couldn’t conceal himself under his nose. Besides, he had searched all these barren mountains around.

Since he had complete confidence in his capabilities, he firmly believed John Doe was not in this area of barren mountains. Otherwise, he would never stay invisible before him.

John Doe didn't come out after they made so many attempts.

The only possibility was that John Doe had left this place long ago.

After a vile curse...

Lord Virtuous turned to leave.

Second Supremacy followed closely behind.

Elsewhere...

In the cave...

Fang Qiu still watched them closely with his Divine Consciousness.

Finally, they were more than 60 kilometers away. When they were out of the coverage area of his Divine Consciousness, Fang Qiu breathed a sigh of relief. Ensuring he was no longer in danger, Fang Qiu took out another human-skin mask he had been carrying. He put it on in the cave before leaving the barren mountain.

When he arrived at the nearest village, he found a set of local clothes and changed into them. He dressed as a native and stole a car from an armed organization nearby. Then, he drove toward He Gaoming and others.

...

Somewhere ahead...

“Stop.”

After they drove nearly 100 kilometers...

He Gaoming, who was driving the first truck, stopped.

The other brothers also parked their trucks and walked over.

“What’s up?”

Sword Fanatic asked.

“A small city is ahead. Our fleet of trucks is overly conspicuous. I think we should change all the trucks in the city and wait for the oldest for a while. If he doesn’t come in half an hour, we’ll go straight to the border.”

He Gaoming explained.

“Um, okay.”

Sword Fanatic nodded.

The other brothers all agreed.

After that...

Everyone drove into the small city ahead.

He Gaoming and the others quickly found a new truck fleet in the city. With the help of some money, they changed all the trucks.

After they replaced all the trucks...

They first found a place to eat something. Then, they waited for 30 minutes according to their original plan. Fang Qiu didn't show up. Afterward, they drove to the border.

This time...

Their speed was much slower than before. Because all their vehicles had been changed, everyone was no longer as worried and flustered as before.

They went on driving for more than three hours.

At dusk...

He Gaoming and the others arrived at the border of the neighboring country.

This neighboring country was called Tajikee.

They could take a detour and go straight to Huaxia's border. But to prevent Nirvana Organization from encircling them, He Gaoming finally chose to return to Huaxia through Tajikee.

After them...

Fang Qiu rushed over at a fast speed.

While pressing down hard on the gas pedal, he kept exploring the position of He Gaoming and the others with his Divine Consciousness. Close to the border, Fang Qiu finally sensed where they were.

Then...

He immediately sped up to catch up with them.

Thirty minutes later...

He Gaoming and the others reached a sentry station at the border, and so did Fang Qiu.

He stopped their truck fleet.

At first, everyone was quite curious.

Who was this person? Why would he stop the fleet? They even guessed that he might be a Nirvana Organization member.

Until Fang Qiu took off the human-skin mask...

Everyone breathed a sigh of relief and was ready to pass the sentry station.

However...

Before the group did that, a brother suddenly ran over.

“The oldest.”

He greeted Fang Qiu and continued, “There may be something wrong with this sentry station. When we got out of the car, these people inside it saw us. I noticed their faces changed and looked a little flustered.”

“Hmm.”

Fang Qiu was slightly startled.

“I saw it too.”

Another brother echoed.

“No.”

Fang Qiu immediately got up and said, “Forget about the people at this sentry station. Let’s drive straight through!”

After he said that...

Everyone immediately got in the trucks to barge through the sentry station.

As expected...

Seeing the fleet move, all the people in the sentry station ran out. Each carried a submachine gun, ready to shoot.

“Humph.”

Before Fang Qiu did anything, Sword Fanatic waved his hand.

Several rays of sword light shot out.

He annihilated all the people with submachine guns.

With this opportunity, Fang Qiu lunged at a person at the sentry station, grabbed him, and pushed him to the truck.

“Why did you attack us?”

Pinching his neck, Fang Qiu questioned the man.

“You, you are fugitives.”

The man looked at Fang Qiu in panic and said, “Someone put a high price on you. Any clue equals a high reward!”

Right after everyone heard this...

They understood what was going on.

The fact was plain to see: Nirvana Organization posted the reward!

“Crack!”

Fang Qiu clenched his fist, snapped his neck, and threw the dead man out of the truck. Immediately, he ordered, “Inform our brothers to find a place to dress up at once. Replace everything we have and rush to the border with all our might!”

...

“What? Did they enter Tajikee?”

Just as the anger in his heart died away, Lord Virtuous received the bad news. John Doe and his brothers had forcibly rushed into Tajikee.

He exploded with rage once again.

Lord Virtuous instantly set off and headed for the sentry station at Tajikee's border with astonishing speed.

Soon...

Lord Virtuous arrived at the sentry station.

He got the surveillance video from someone. Upon seeing John Doe and his group intrude into Tajikee, he followed their trail.

However...

He lost track of John Doe and the others halfway.

He had a hard job digging out a little information and continued tracking them. When he followed them to the border, he finally knew John Doe and the others had crossed the border and returned to their home country.

In the face of such a situation...

Lord Virtuous felt constrained.

It turned out that John Doe was making a fool of him all along.

John Doe lured him over from a distance, but everything was too late when he arrived. He couldn't catch up with John Doe. It took him a lot of effort to discover that John Doe had returned to Huaxia.

Once John Doe's team went back to their country, they would immediately be protected by the military. The troops on the border were very capable of protecting them.

Most importantly, in addition to the military, there was Sword Sect!

If he caught up with them, he would probably be ambushed.

When Lord Virtuous thought of this...

He forced himself to give up the idea of pursuing these people.

However...

The flames of anger in his heart grew larger.

"John Doe, you brought huge losses to me this time."

Lord Virtuous narrowed his eyes and said in a spooky voice, "You will have to pay me a double indemnity!"

Here...

Fang Qiu was back in Huaxia after crossing the border. In Beijiang, he changed another batch of vehicles. Then, he and his brothers transported the jade on their trucks to Jiexiang County!

After a long time...

They finally returned to Jiexiang County. Under Fang Qiu's command, they piled all the jade up in the Relic Mysterious Realm.

After these brothers finished moving all the jade...

They finally could take a break. Surrounding the huge pile of jade, they carefully observed and discussed it. What exactly was it? Why would it emit such rich Qi of Heaven and Earth?

“Brother John Doe, don’t you know what these stones are?”

Sword Fanatic also asked curiously.

“Who cares what they are? Nice pieces anyway.”

Fang Qiu said with a grin.

He had no idea about it either.

Chapter 1543 Laozi Relic?!

Meanwhile...

A space in a rugged mountain in Zhongdong began fluctuating. Soon, a light curtain sprang up in that place dozens of kilometers from Beijiang in Huaxia.

Somehow, many ancient Chinese characters in Huaxia appeared on this light curtain!

As the light curtain emerged...

An ordinary local person captured the scene. Amazed, he even ran over to take a closer look at it. After walking for two hours, he finally got there but found it had disappeared.

Full of doubts...

This ordinary person posted the video he had recorded online to show off, saying that he had seen a UFO.

However...

Many ordinary people ignored this news after seeing it. After all, they felt the person must have faked the video with Adobe Photoshop tools.

Someone even added this piece to a funny UFO video, which went viral online.

One day later...

The video spreading fast online attracted the attention of a local metahuman. After taking a closer look, he was shocked by the scene in the video.

This metahuman hurried to the place in the video.

In the meantime...

Many other metahumans also saw this video.

Since ancient Chinese characters in Huaxia were on the light screen, some natives quickly uploaded the video to the online communities in Huaxia. They expected Huaxianese to tell them the meaning of those characters on the light curtain.

As soon as the video was sent over, it immediately attracted a lot of attention.

All the martial arts practitioners were shocked when they saw it!

Without doubt...

The light curtain in the video was obviously a gate of the ruins!

In addition...

These characters on the light curtain...

Surprisingly... they came from Tao Te Ching!

When these Huaxia martial arts practitioners were in shock, this video was uploaded on the Wulin online forum and the world underground-force forum.

“Ancient ruins Emerged in Zhongdong, Seemingly the Laozi Relic of Huaxia!”

Someone released such a post on the underground-force forum with the video attached.

Many people clicked to view it.

All of a sudden, they were all stunned.

As soon as these Huaxia martial arts practitioners saw it, they confirmed that the text on the light curtain was from Tao Te Ching. More shockingly, it was not a video with special effects. It was real!

At the same time...

The metahumans in other countries were also startled after seeing this video.

Of course...

They wondered if this was just a gimmick.

After all, how could it be so easy to find Laozi Relic?

But despite this thought, these foreign metahumans and metahuman organizations checked the characters on the light curtain in the first place.

They found that those characters were indeed from the Tao Te Ching!

This discovery shocked all the countries in the world!

It was the Laozi Relic!

Notably...

In Huaxia, Laozi was a sage, the founder of Huaxia Taoism!

Many foreign metahumans and forces began to investigate Laozi.

Laozi's last name was Li and his first name was Er.

He was born by the end of the spring-autumn era of Huaxia.

The years of his birth and death were unknown.

He was a sage in ancient Huaxia!

In the legends of Huaxia Taoism, he was even respected as the first ancestor of Taoism and was called Most Exalted Lord Lao!

He was a legendary figure!

To everyone's surprise...

Laozi Relic was discovered. It was amazing! What was left in the relic of an ancient sage? And how many resources were there?

Soon...

All the countries that received the news got excited.

In Soviety...

"Laozi, Laozi Relic. And it is not in Huaxia... Haha."

Upon getting the news, the higher-ups of Soviety immediately laughed wildly and said, "This relic must be one of the best in the world. We can never miss it."

"Gather all the werewolves immediately. No matter what, we must get this relic this time. It's worth doing it, whatever the cost will be!"

...

In Anglan...

"It turns out to be Laozi Relic. These Huaxia people must be furious. The relic of their ancestor is in another country, and even they have become outsiders."

A middle-aged gentleman with a slicked-back hairstyle and a curly beard stood in a conference room filled with people. Holding the cane, he said with a smile, "This is a great opportunity. Could Anglan become the head of the five major countries? It depends on this chance."

In the room...

Everyone was so excited that they clenched their fists.

...

In L'hexagone...

A group of people were summoned to a large auditorium by high-level government officials.

It was clear that...

A familiar figure was among these people. It was Abel, the representative of L'hexagone, who had fought side by side with Fang Qiu!

"According to the latest news, the content of this video has been proven to be true. The text on the gate of the ruins is indeed from Tao Te Ching in Huaxia. From these two points, the ancient ruin should be the Laozi Relic!"

A middle-aged man who looked like a professor was standing on the platform of the auditorium. He asked someone to show the video with a projector as he spoke. He then added, "We have carefully scanned it with satellites. The exact location of this place is within Zhongdong, only dozens of kilometers from Huaxia.

"So, there is simply no need to enter Huaxia.

"That is to say, we can bypass Huaxia and go straight to this place.

“We can’t take action in Huaxia. But Huaxia has no right to forbid us from entering a place outside it!

“This time, we must get this relic!”

...

In Murica...

“An ancient ruin?”

Lester, the representative of Murica, also had fought side by side with Fang Qiu. He received the news in the first place and was asked to participate in the emergency meeting immediately.

After receiving the order from Presidential Palace, Lester did not dare to hesitate at all. Right away, he scurried to the emergency conference room.

But...

As soon as he entered...

He was dumbfounded.

There he saw a familiar face in this conference room. It was a man who looked younger than him. Even when facing those senior leaders in Presidential Palace, he remained calm and smiled gently.

“You know more about the group of these Huaxia martial arts practitioners. Now, tell us what kind of group it is.”

The man wearing a faint smile pointed to Lester, who had just entered the room.

“Yes, of course!”

Lester was stunned at first. Then, he quickly nodded and walked over nervously.

“Don’t be nervous. Tell us everything you know. This relic is not small. We can let go of anything but this relic. As long as your information is useful, we have a good chance of getting it. Do you understand?”

The man with a smile said.

Lester swallowed hard and began to introduce.

To his astonishment...

Even this person went into action.

The Presidential Palace seemed to be pretty serious about it.

...

In addition to these four major countries...

Countries such as Egyptt, Hinndu, and Southern Yue simultaneously responded to the news, claiming they must get this ancient ruin no matter what.

After all, this was Laozi Relic.

Such a top relic could help them become major powers.

How could any of them resist such temptation?

No matter what price they had to pay...

They had to fight for it!

Somewhere in the world...

In a dark jungle...

"Report."

A loud shout woke Lord Virtuous, who was sitting cross-legged in cultivation.

"Any news about John Doe?"

Lord Virtuous opened his eyes and asked in a cold voice.

"No."

The man knelt on the ground and hurriedly said, "The latest news: someone discovered an ancient ruin in Zhongdong dozens of kilometers from Huaxia. According to the information on the gate of the ruins, this ancient ruin was likely to be left by Laozi in Huaxia."

"Hmm."

Hearing this, Lord Virtuous suddenly stood up.

"Laozi? Are you sure Laozi left it?"

Lord Virtuous was excited.

He was also a Huaxianese.

Thus, he knew better than these foreigners about the value of Laozi and what might be kept in the Laozi Relic.

“Yes, it is almost certain the news is real.”

The man reported, “Because the information on the gate of the ruins came from Tao Te Ching!”

After he said that...

“Ha-ha.”

Lord Virtuous immediately burst out laughing and said, “Great. Good news. It came at the right time. I’ve been waiting for such an opportunity. Huaxia will have to fight with the forces of other countries. Let them join the fierce competition. It’s best to let them fight to the bitter end!”

...

In Huaxia...

The news of Laozi Relic spread like wildfire...

The whole Wulin online forum was in an uproar.

“What the hell. Is it the real Laozi Relic?”

“Oh my gosh. How could Laozi Relic appear in Zhongdong? Why isn’t it within our country?”

“Damn it. Zhongdong is a place where one is apt to get into trouble. Now all the countries have cast their greedy eyes on Laozi Relic. It belongs to our country. We can’t let people from other countries take it away.”

“Why would it appear in Zhongdong? What had happened? Is it possible that Zhongdong belonged to Huaxia in ancient times?”

“There is a classical allusion: Laozi changed his identity to educate foreigners. At that time, Laozi must have been to Zhongdong. Maybe he left it when cultivating foreigners.”

“This is going to be troublesome. Since it is not in Huaxia, all the major forces in the world must be eager to get Laozi Relic. Laozi is an ancient sage, so people around the world and these major super forces would inevitably fight with each other for it like crazy. We can protect it in Huaxia, but how could we do it abroad?”

“It belongs to our country. Even though protecting it is a daunting task, we must take on it. We mustn’t let those foreigners take away such an important relic from us. It would be a great shame for Huaxia!”

“That’s right. It’s time to let the world know the power of Huaxia.”

“I don’t know how the government will deal with it, but our compatriots in Wulin will never let those foreign devils do whatever they want. No one can take away what belongs to Huaxia from us!”

Chapter 1544 Never Allow Anyone to Be Disrespectful!

In Beijiāng...

Fang Qiu had sent the jade to Jiāxiāng County with He Gaoming and others. Then, he told them not to show up in the near future. Finding a chance, Fang Qiu returned to his identity as Fang Qiu and went straight back to the Beijiāng cultivation base.

He was fully aware of it.

What they had done in Zhongdong this time must have angered Lord Virtuous. The strength of the entire Nirvana Organization had been seriously damaged. As such, these Nirvana Organization members must be in a frenzy of rage now.

Fang Qiu hadn't officially broken through and achieved One-Flower Core Formation. Since he was no match for Lord Virtuous, he had to keep a low profile for some time.

He would stay away from those furious Nirvana Organization members for now.

Confronting them head-on now was not a good idea. It was better to avoid them first.

It wouldn't be too late to deal with them after his breakthrough.

With this thought in mind...

Fang Qiu returned to the cultivation base, ready to rest for a few days. In passing, he would check the progress of the amusement park of Chinese Medicine and plan its future project.

Back to Beijiang...

Fang Qiu didn't see He Xue there.

After asking around, he learned that He Xue seemed to have gone on a business trip for the amusement park of Chinese Medicine.

Fang Qiu didn't call her.

Instead, he rested for a night and started planning.

Unexpectedly...

Just as he started thinking about how to develop the amusement park project...

“Beep, beep, beep...”

In his trouser pocket, his cell phone suddenly rang.

He took it out to see who was calling.

It was a call from He Gaoming for John Doe.

“Hello?”

Fang Qiu immediately switched to John Doe’s voice and answered the phone.

“Master, something bad has happened.”

He Gaoming shouted nervously from the other end of the phone.

“What’s up?”

Fang Qiu immediately asked, cocking his eyebrows. He could tell He Gaoming was nervous and anxious.

“Laozi Relic is exposed.”

He Gaoming said.

“What?”

Fang Qiu was shocked at the news.

Laozi Relic?

When he went to Zhongdong last time, he came to a place in the mountain where Laozi cultivated foreigners. There, he also learned the Great Hand of Formlessness.

At that time, Fang Qiu had wondered if Laozi had left behind any relics.

However...

Fang Qiu just thought about it casually.

He didn't expect that there would be the Laozi Relic.

“It's real.”

He Gaoming quickly confirmed the news and added, “But the situation this time is hazardous, for Laozi Relic is not in our country.”

“Tell me in detail what's going on.”

Fang Qiu said with a frown.

“Here's the thing.”

He Gaoming said, “Laozi Reli is deep in the mountains in Zhongdong, dozens of kilometers from the border of Huaxia.

“It was a video taken by a local person. In the video, the characters on the gate of the ruins were from the Tao Te Ching. Therefore, many people believe Laozi must have left behind the relic.

“Now, all the countries have known the news, and it is widely spread on the underground-force forum.

“Many people on the Wulin online forum have expressed their determination to guard the Laozi Relic. Never will they let people from other countries occupy it!”

When He Gaoming mentioned this...

He stopped.

“It spread so fast?”

Fang Qiu was also shocked. He had just learned about it. How could the news have spread abroad?

“Master, hurry up and log into the Wulin online forum to have a look.”

He Gaoming explained.

“I got it.”

Fang Qiu nodded with understanding and said, “Tell our brothers not to act rashly in any case. You guys must keep my words in your minds. Never leave the Relic Mysterious Realm. Your most important task now is to improve your strength. Therefore, don’t participate in these meaningless fights. Besides, even if this is true, you can’t take a share of the profits!”

“Don’t worry. We can understand it.”

He Gaoming nodded knowingly and said, "We won't get involved in this complex matter. We all know it is beyond our abilities."

"That's good."

Fang Qiu felt relieved in his heart. After hanging up the phone, he immediately logged into the Wulin online forum to check the situation.

As soon as he entered...

As expected, he saw that on the Wulin online forum...

Everyone had been discussing this topic fiercely. The most popular post on the front page was the one with the video.

Without hesitation...

Fang Qiu clicked to see the post. Soon, he opened the video and began to watch it.

At the start of this video...

Fang Qiu saw a sparkling gate of ruins in it. Then, as the camera moved forward, the shining gate gradually stabilized, and ancient Chinese characters began to emerge.

With a closer look...

It was indeed the Tao Te Ching!

"Is it really a relic left behind by Laozi?"

After watching the video, Fang Qiu was also startled.

He turned to see the remarks of everyone on the forum.

There...

The posts and comments expressed their determination to protect the ancient relic.

For those Huaxia martial arts practitioners and Huaxia...

Laozi represented a kind of spirit.

It was the most precious spirit belonging to our country!

Only Huaxianese were qualified to enter the relic left by Laozi. It would be disrespectful to Laozi if people from other countries attempted to encroach on the resources. It was because they didn't understand Laozi at all!

They only wanted to make use of the relics to obtain resources.

It was disrespectful to Laozi.

After scanning all kinds of thoughts on the forum, Fang Qiu found everyone was very concerned about this matter. They were united and jointly resisted foreign aggression, not allowing foreigners to invade Laozi Relic.

Here...

The Huaxia authorities received the news in the first place. Then they immediately sent people to find out if the relic was left by Laozi.

Li Ji lost no time in calling Fang Qiu.

“Hello?”

Fang Qiu answered the call.

“Have you heard the news of Laozi Relic?”

Li Ji asked directly.

“Yes, I have just received the news.”

Fang Qiu nodded in response.

“Don’t act rashly for the time being. We haven’t yet known the truth of this relic. Some people think it might be another scheme of Nirvana Organization.”

Speaking of this, Li Ji paused for a moment and continued, “But the higher-ups have sent people to check it out. I called to tell you to wait for my news with patience.”

“Got it.”

Fang Qiu nodded in response.

To be honest...

Fang Qiu felt the news came so abruptly that it made him feel unreal.

After all, he had just returned from Zhongdong and made a fool of Lord Virtuous and Nirvana Organization. Considering this, Fang Qiu also thought there might be something wrong with the relic.

Yet...

The gate of the ruins looked so real, and it was indeed Laozi's Tao Te Ching on the gate.

But Nirvana Organization couldn't make such an authentic gate of the ruins, right?

Even so...

Fang Qiu knew he should confirm the news first.

He hung up.

Fang Qiu logged into the underground-force forum and began to learn about all kinds of news there and the movements of various countries and major forces. While browsing through the information, he waited for the news from Li Ji.

About an hour later...

"Beep, beep, beep..."

Fang Qiu heard his phone ringing again.

It was a call from Li Ji.

"Hello?"

Fang Qiu immediately answered the phone.

“It has been confirmed.”

Li Ji’s voice came from the other end of the phone. “It’s very likely to be the relic left by Laozi. According to the investigation, Laozi took that route when cultivating foreigners and even stayed there for some time.”

“Isn’t it a plot of Nirvana Organization?”

Fang Qiu asked in great surprise.

He could hardly believe Laozi Relic was real.

“I don’t think so.”

Li Ji replied, “This is a relic left by Laozi. Even the Nirvana Organization must be fully determined to take this relic, but it’s hard to say. After all, Laozi’s influence is so great that this matter has now attracted the attention of top metahuman organizations worldwide. No one knows if the Nirvana Organization will take this opportunity to play some tricks.”

“Very likely.”

Fang Qiu nodded.

According to his understanding of the Nirvana Organization, its favorite plan was to gather martial arts practitioners worldwide with various temptations and eliminate them all.

And this time...

They might not fake the relic, but Laozi Relic had incomparable influence. It was an excellent opportunity to attract and gather the top experts worldwide. How could Nirvana Organization not play any tricks?

“But...”

Fang Qiu gritted his teeth and said, “Since it’s a relic from Laozi, no one is allowed to blaspheme against it!”

“Sure enough.”

Li Ji nodded in agreement and said, “The higher-ups are discussing it. I believe a statement will be released soon. Let’s talk about it after the higher-ups make the decision.”

“Mm.”

Fang Qiu nodded and hung up the phone.

Before long...

Huaxia officially put out a statement on the underground-force forum.

“Laozi is an ancestor of all the people in Huaxia. No one is allowed to be disrespectful to Laozi Relic!”

This time...

Huaxia no longer called for a peaceful settlement. Instead, it demonstrated its powerful demeanor as a major power and warned everyone not to threaten the national dignity of Huaxia!

However...

After this statement was issued, it was quickly refuted by other forces.

“Who can prove that the relic is Laozi Relic?”

“Why make you think Laozi Relic only belongs to Huaxia?”

“The relic is not in Huaxia at all, and we don’t need to cross the border of Huaxia. Why the hell should we take orders from Huaxia?”

“Absolutely! We only know there is an ancient ruin. But it’s unknown who left it. Besides, the relic is in Zhongdong. Although it is close to Huaxia, it has nothing to do with you!”

One after another...

All the countries around the world jumped out to retort.

All the top forces also took action directly, ready to set off for the relic.

In Huaxia...

Seeing the adverse reactions of the major forces in the world, the higher-ups knew a statement was not enough to threaten and intimidate these people. They had to take action!

Soon...

John Doe, high-ranking Wulin officials, Sword Sect, the four great families, eight factions, and sixteen sects in Huaxia gathered together and had a video conference!

Chapter 1545 Gathering at the Border!

“The relic left by Laozi should belong to Huaxia.”

In the video conference, a Huaxianese said, “Although Laozi Relic is not within our country, Laozi is our ancient sage. The people of other countries must not take the treasure he left behind.”

“We should show our respect for Laozi, an ancient sage in Huaxia. In addition, we must be determined to maintain the dignity of our Huaxia people!”

“If we can’t even protect the things left behind by our ancient sage, how could we have the face to establish and develop ourselves in this world?”

After a few short sentences...

Everyone attending the video conference deeply understood the importance of this matter.

Actually...

There was no need to say that. Everyone knew how serious this matter was.

Those foreigners didn’t dare to intrude into Huaxia at will nor do anything presumptuous in Huaxia. Why? It was because these ancient sages had won many battles. They showed foreigners how powerful Huaxia was and let them know they could never afford to offend Huaxia!

Also, the cultivation techniques passed down by the ancient sages demonstrated to these foreigners how mysterious and powerful Huaxia was.

Now...

These foreigners threw themselves forward and scrambled for the things left behind by an ancient sage in Huaxia. How could these people in Huaxia bear it?

What would happen if even Laozi Relic was robbed and occupied by foreigners? The powerful image of Huaxia that existed for thousands of years would collapse instantly. Huaxia would become the object of ridicule and scorn among other countries. From then on, foreigners would no longer be afraid of Huaxia.

This was an essential matter of dignity.

No one dared to neglect the problem!

“Those foreign devils are not allowed to touch Laozi Relic!”

Diwu Mingchuan took the lead in saying, “Laozi Relic represents Huaxia’s dignity. No one is allowed to desecrate it!”

“We must kill all the offenders!”

Elder Zhan immediately echoed.

“It’s been a long time since I taught foreign devils a lesson!”

Patriarch Qian said with a slightly gloomy face, “The death of the guru didn’t seem to have daunted them.

“This time, we might have to fight against the whole world. But so what?”

Master Numinous nodded with a smile and said, “Since those foreigners have no sense of propriety, let’s repel them by force!”

“Even if we can’t guard that place, we must bring back what Laozi had left there!”

The leader of the Peace Faction echoed.

“Sword Sect hasn’t taken action for decades. Last time, we only sent a few small teams to clean up the Nirvana Organization bases. This time, we’ll make those foreigners understand that Huaxia is serious about this!”

A higher-up of Sword Sect said with piercing eyes.

Everyone nodded in agreement.

This time...

It was about national dignity. Therefore, all masters in Wulin stood on one side, filled with a common hatred. No one coveted the treasure left by Laozi in the relic. All of them said with sincere enthusiasm that they would go to protect it!

They knew they had to fight a tough and big battle alone, yet no one wanted to retreat.

“Great.”

Seeing everyone’s determination, he nodded gratefully. Then, he sent a hold-fist salute to everyone in the video and said, “Thank you, everyone!”

The others returned a salute.

“Then, it’s all settled. To keep the dignity of Huaxia Wulin, let’s gather at the border in Beijiang tomorrow and guard Laozi Relic together!”

...

The video conference was over.

Fang Qiu took a deep breath.

He knew this was a serious matter, and so did the others.

Laozi Relic was valued by people in Huaxia and the whole world. Super forces in countries from all over the world were eager to occupy Laozi Relic to get more resources and valuable items left by Laozi.

Therefore, these people would brace themselves to come. At that time, Huaxia people might have to fight against one, ten, or even hundreds of opponents.

Besides...

Many mighty experts were among the people coming for the relic.

In this case, could they guard the Laozi Relic?

With this in mind...

Fang Qiu shook his head in his heart.

“We can only act according to circumstances. If we fail to hold on to it, we must bring the things in the relic back to Huaxia in any case!”

They knew they were unlikely to keep the relic.

Nevertheless, they had to step forward bravely to protect it!

They would be doomed sooner or later if they were not courageous enough to try it.

“This time, we should bring out all the power we can mobilize, right?”

From the remarks in the video conference, it was obvious that all the major forces were ready to go all out.

Sure enough...

These forces sent out some available people and kept the rest. After all, Nirvana Organization might play dirty tricks in the dark. If all their people went out, Nirvana Organization might break through at the weak point and destroy these base camps. Then, it would be a significant loss for them all!

“I wonder how strong the four patriarchs become now. Whom will Sword Sect send over?”

Fang Qiu kept thinking about it.

He had always been curious about how powerful Sword Sect would be.

He might find some clues when seeing the people it sent out.

Fang Qiu was much more familiar with the four patriarchs.

Judging from their previous performance...

He knew only Master Numinous was evenly matched with Nirvana Organization’s Venerables.

During the battle for the Zangjiang relic, Master Numinous was obviously stronger than Nirvana Organization’s Seventh Venerable. The four patriarchs should be slightly inferior to Seventh Venerable in strength. They should be on the same level as Eighth Venerable.

Now...

It had been a long time.

The four patriarchs must have improved their strength. Previously, they were as powerful as Venerables. Even if they hadn't yet exceeded Venerables, their strength must be several levels stronger than before.

With this idea in mind...

Fang Qiu was looking forward to meeting these people tomorrow.

With expectation...

Fang Qiu called He Gaoming.

"Hello?"

He Gaoming immediately answered the phone and said, "Hey, brothers are all restless. I could no longer suppress them if you didn't call me in time. Even Sword Fanatic could no longer sit still."

"Um."

Fang Qiu nodded, knowing these brothers must have been burning with indignation.

He asked He Gaoming to prevent them from doing anything because he had to check the situation first. Now, even the higher-ups of Sword Sect had decided to give all-out support. Then, how could he let his brothers hide?

"I'll wait for you in the desert of Beijiang. Tomorrow, masters in Wulin will gather at the border of Beijiang. Then we'll go to guard Laozi Relic together!"

Fang Qiu made the arrangement.

“Let’s set off now.”

He Gaoming immediately became excited.

Actually...

He had no intention of going out to fight because he had just returned after practicing. He was ready to cultivate and break through to become a guru as soon as possible. Then, he could confront Nirvana Organization members head-on.

But recently, all kinds of patriotic speeches had been emerging in an endless stream on the Wulin online forum and the underground-force forum. Seeing this, they felt as if their blood were boiling, and their hearts were filled with deep emotions.

It was the same with Sword Fanatic.

Now, he finally got a chance to set his great passion free.

They followed He Gaoming and walked out of this Relic Mysterious Realm. Then, led by Sword Fanatic and He Gaoming, they rushed to the border of Beijiāng.

At night...

Fang Qiu changed into John Doe’s clothes and got a few different human-skin masks from Li Ji. After that, he took some necessities and arrived at the edge of the desert in Beijiāng.

Because he had been in Beijiāng, it was still midnight when he came here.

He Gaoming and the others were still on their way.

Fang Qiu casually found a sand dune and sat cross-legged on it to cultivate.

The next day...

When the sky had just turned bright...

Many sounds of wind breaking came from a distance.

Fang Qiu was sitting cross-legged in cultivation. Immediately, he opened his eyes and stood up, his eyes turning to the sounds.

Over there...

A large group of people were flying over quickly.

With a closer look...

He saw He Gaoming and the others.

Sword Fanatic, He Gaoming, and Li Boqing took the lead. The other brothers followed them.

"The oldest."

Seeing Fang Qiu from a distance, He Gaoming immediately waved his hand and called out.

They came quickly to Fang Qiu and greeted him one by one.

"Guys!"

Fang Qiu looked at everyone and said, "I didn't want you to participate in the battle at first, but the impact of this matter is beyond my expectation. I can't let you hide since almost all the people in the whole Wulin have started the action. You have just gained some experience, but this will be a real battle between life and death.

"This battle is related to the dignity of Wulin.

"No one can threaten the dignity of Wulin!"

When all the brothers heard this...

They nodded with an unwavering look.

"Let's go."

With a wave of his hand, Fang Qiu immediately took everyone to the border of Beijiang.

Right now...

Many people had already gathered at the border of Beijiang.

These people from the eight factions and sixteen sects arrived there first. Although they were all experts, they were not as capable as people dispatched by other forces. They were the first to arrive since they set off as early as the video conference ended.

Half an hour after the eight factions and sixteen sects arrived...

There came another wave of wind-breaking sounds.

Then, the four patriarchs and the chief of the Pear Garden also arrived.

People from Sword Sect followed after them.

When almost all the people got together, Fang Qiu finally hurried over with He Gaoming and others.

In the distance...

Fang Qiu saw these people gathering at the border.

The four patriarchs and the chief of the Pear Garden stood out in the crowd.

Fang Qiu examined their auras.

As he had expected, the four patriarchs' strength significantly improved. They seemed to have become as powerful as Third Venerable or even a little more potent.

Master Numinous had even reached the level of Second Venerable.

Fang Qiu couldn't help exclaiming in his heart.

He didn't expect the five people's strength to have increased so fast.

However...

As he observed the five people...

Fang Qiu noticed the other four people in Sword Sect's clothes. Each of them held a long sword, exuding an exceedingly fierce aura.

Judging from their auras, Fang Qiu knew the four people's strength was outstanding as that of Master Numinous!

Chapter 1546 In the Open and the Dark

"The Sword Sect?"

Seeing these four people, Fang Qiu was slightly shocked.

Judging from the strength of these four people, the overall strength of the Sword Sect was not bad. It was worthy of being the number one force of Wulin that backed the country. They could mobilize such four great experts.

This kind of manpower was no worse than that of the Nirvana Organization.

No wonder the Nirvana Organization dared to play so many tricks in Zhongdong and Africo, but they didn't dare to do anything in Huaxia. Even though they had such a good opportunity in the relic in Zangjiang, they only casually sent some people to ambush Fang Qiu and didn't dare to make a big move.

Judging from the four people sent by the Sword Sect, the Nirvana Organization really couldn't gain any advantage in Huaxia with the protection of the Sword Sect unless Lord Virtuous of Nirvana took action personally.

However, although the Nirvana Organization had Lord Virtuous, the Sword Sect also had great experts.

Moreover, there were some experienced fighters hidden in Huaxia. Those hidden experts were no worse than Lord Virtuous, such as the old master and the master of Qingshan.

"Greetings, seniors."

After taking He Gaoming and the others to the border, Fang Qiu shouted at everyone and gave a hold fist salute.

Everyone had long noticed the arrival of John Doe.

However, when John Doe came with the Sword Fanatic, He Gaoming, and the others, the people of the four clans, eight factions, sixteen sects, Pear Garden, and Sword Sect on the scene were all shocked.

They had seen these people who followed John Doe before. At that time, they were all very weak. But it had only been a short time. Such a large group of people's strengths had all been improved to the eighth class or ninth class. It was really terrifying.

Instantly, everyone stared at the group of brothers behind John Doe. They really wanted to ask how these people improved their strength rapidly. This improvement in speed was really too fast.

Although they wanted to ask, no one could bring themselves to do so.

After all, this was already a secret of John Doe.

Even if they asked, John Doe would definitely not tell them his answer.

They were shocked by the strengths of the men brought by John Doe. Although they were shocked, everyone seemed to be very calm on the surface, as if they didn't care at all.

"It's been a long while."

Diwu Mingchuan took the lead to step forward, make a hold fist salute to Fang Qiu, and said, "It seems that your strength has improved again. I can't see through you now."

The other patriarchs also came forward to greet him.

Because Fang Qiu had been suppressing his aura, no one could guess his strength from his aura.

However, even his subordinates had improved to that extent, so how could John Doe not improve?

It should be noted that the biggest point that John Doe became famous in Wulin was that his strength improved at a remarkable speed almost every once in a while. It was not just his strength and realm included but also his terrifying combat capability.

Indeed, John Doe had almost never appeared in Wulin recently. Occasionally, one would hear the news that he was in Zhongdong. Therefore, since the last time, everyone had been guessing whether John Doe's strength was that of a guru or not.

Now, even Diwu Mingchuan admitted that he couldn't see through John Doe, so people were not certain if John Doe was a guru.

"Well..."

Just as the four patriarchs and the master of the Pear Garden greeted John Doe, the four Venerables of the Sword Sect also came over and nodded at him with a smile. Then, they said directly, "Time is limited. Since everyone is here, it's time for us to set off!"

Everyone nodded in agreement.

"Wait a minute."

Fang Qiu shouted and said, "Before I arrived, I didn't expect so many experts to set off this time.

"However, based on the current situation, I think it's best to keep a low profile."

Everyone was stunned when they heard this.

A man from the eight factions asked, "What do you mean?"

"Although it's a temporary union, we must unite because we are going to face metahumans from all over the world. We don't know how powerful the enemies are, so the only thing we can do is try our best to prepare tactics.

"In a war, the greatest taboo is to reveal your background before the war and let the opponent know it!

"So, if we go there like this, we will definitely be studied by those foreigners. Before they figure out a way to deal with us, they will definitely not blindly charge at us, so I propose that we should go in separate ways, one open and one dark.

"By doing this, no matter what happens, we can help each other. If we can't deal with the trouble we may encounter openly, we can deal with it secretly. If we show all our strength and get targeted, it won't be so easy to solve the problem."

After Fang Qiu said that, everyone nodded in agreement.

"Well, this is indeed a good idea."

Master Numinous nodded and said, "We have a total of ten gurus. If we stand out together, we may be able to deter them for a while, but it is absolutely impossible to scare them away directly. Therefore, the method proposed by John Doe should be very effective and I think it is feasible."

"Yes, that's true."

"Yes. If we act in the open and in the dark, it will be much safer, and we won't be so restricted."

"Although we are going to protect the Laozi Relic, relatively speaking, our protection is not completely passive. If we do as John Doe suggested, we can still take the initiative to attack at the right time. This is indeed a good plan for us."

The four patriarchs nodded in agreement.

“Okay.”

The four people from the Sword Sect thought about what Fang Qiu said carefully and nodded in agreement.

“How should we divide the teams?” asked a guru from the Sword Sect.

“It’s very simple.”

Fang Qiu smiled and said, “The four patriarchs and I are known experts in Huaxia’s Wulin. We can’t hide it no matter how hard we try. It was also what the foreigners first learned about, so I will be in the open with the four patriarchs. Sword Fanatic and you guys don’t often show up in Wulin. It’s difficult for foreigners to find out even if they investigate, so the five of you will be in the dark.

“In this way, as long as I go with the four patriarchs, the outside world will definitely think that all the experts of Huaxia have come. In this case, they will definitely misjudge our strength, and you five can rest assured to do something that we can’t do in the dark.”

Everyone nodded to show approval of his method.

This was indeed the best dividing method.

Fang Qiu said, “Since everyone agrees, let’s go!”

The four patriarchs from the Sword Sect and Sword Fanatic looked at each other. They then moved at the same time, quickly flying in another direction, and soon disappeared into the forest.

Meanwhile, Fang Qiu and the four clans, together with the people of the eight factions and sixteen sects, directly crossed the border and went all the way to the place where the Laozi Relic was located.

Without the slightest hiding, they chose the shortest route directly.

They passed through a small town and attracted a lot of attention.

“They’re people from Huaxia.”

“It seems that John Doe is taking the lead.”

“I heard that all the elites in Huaxia’s Wulin, including the patriarchs of the four families, have come over. With John Doe, there are a total of five S-level super experts!”

“I didn’t expect Huaxia’s people to come so soon.”

“Five S-level super experts came at once. It seems that Huaxia is determined to win this time.”

“After all, it’s one of the five major countries, and Hua Xia is very mysterious and powerful. It’s not surprising that they can send five S-level experts!”

Although those people said that, those independent organizations were dumbfounded when they heard that there were five S-level experts from Huaxia.

They didn’t expect that Huaxia would send five S-level experts just for the Laozi Relic.

It should be noted that there were not many S-level super experts in the entire world.

Some countries didn’t have such experts.

For example, in Zhongdong, the strongest ones were only A-level experts. There were no S-level figures at all. Egyptt merely had two S-level experts.

Most of the other countries did not have any experts on that level, and even if they did, they had no more than three.

It was already very difficult for those independent forces present to deal with the five S-level experts sent by Huaxia at a time.

Instantly, those forces began to think about it one after another. “Won’t we be asking trouble to make enemies of five S-level super experts?”

“What should we do now?”

...

Somewhere in Zhongdong.

“They’re from Huaxia with John Doe being the leader?”

Hearing the news from his subordinate, Lord Virtuous immediately laughed and said, “Great. John Doe is finally here. This time, I’ll make them fight against each other first. In the end, none of them will be able to escape... Haha!”

On a meandering mountain range in Zhongdong about 30 kilometers away from the border of Huaxia, a large group of people were heading for the mountain peak shaped like a dragon head.

With a closer look, one could find that this group of people was led by John Doe. They were from Huaxia.

On the top of a peak ahead, there was a very strange terrain. On the top of the mountain, there was a big sunken ring. This ring was very large and deep. What was wrapped in the ring was a semicircle hill.

It looked like the eye of a dragon while one looked down from the sky.

Right now, a lot of small forces had gathered in that dragon's eye, and the Gospel Division from Zhongdong was also stationed there. They were massacring the other small forces who had come to take their places in advance.

The battle had begun from the very beginning.

Arriving nearby, He Gaoming asked, "Shall we fight?"

"No. Let them fight for a while."

Fang Qiu shook his head. The four clans, the eight factions, and the sixteen sects didn't take action. They just stood outside the dragon's eye and watched.

On the other side, the people of the Gospel Division didn't care about the people from Huaxia at all. They still eliminated those small forces one by one.

Eventually, when it was almost done, the members of the Gospel Division turned their heads and focused on John Doe and the others.

"Let's go. We should thank them for helping us guard the relic," Fang Qiu said with a faint smile and directly flew over with his men.

After crossing the deep and large round sunken area, they quickly flew to the place where the Gospel Division was going to occupy, which was the center of the relic, the small hill that looked like a dragon's eye.

Chapter 1547 Flower Core Formation?

John Doe moved.

He Gaoming and the others immediately followed him.

The people of the four clans, eight factions, and sixteen sects also followed closely behind.

The group of people marched over the sunken area about 10 meters wide and 20 meters deep, which was like a riverbed, and went straight to the round hill in the middle.

Their location had been exposed for a long time.

As soon as the video of the gate of the relic was released, the relevant departments and the major forces located it as soon as possible and then sent people to inquire and confirm the location. In just half a day, the geographical information here had spread all over the world.

Because of that, everyone knew very well that the gate of the relic was located on this hill.

Although it was a small hill, in fact, this place was quite large. Although it was not as big as a normal mountain, it covered an area of more than 100 square meters.

At this time, the people of the Gospel Division had occupied half of the hill.

Originally, the whole hill had been occupied by them, but with the arrival of the Huaxianese, they quickly retreated under great pressure and gave up half of the hill.

They thought that in this way, those people from Huaxia would obediently occupy half of the hill and not make trouble for them.

But they didn't expect that as soon as the Huaxianese arrived, they immediately pressed toward half of the hill that the Gospel Division occupied.

This made the people of the Gospel Division particularly angry.

In their opinion, it was unacceptable that the Huaxianese still wanted to take more while they had given up half of their territory.

“Thank you for helping us guard the relic left by Laozi, our Huaxianese sage.”

Walking in the front, Fang Qiu glanced at all the people of the Gospel Division and said, “However, do you want to leave by yourselves next, or do you want me to make you leave?”

When the people of the Gospel Division heard that, all their faces darkened.

“Is John Doe directly standing out to declare his sovereignty?”

“He thanked us for helping them and emphasized the name of the sage of Huaxia, Laozi. Isn’t this a declaration of sovereignty?”

“This is the territory of our Gospel Division.”

The leader of the Gospel Division directly showed up and said, “You’re not in Huaxia. This belongs to our Gospel Division!”

“You think it belongs to you, but I think it belongs to Huaxia. How are we going to solve this? By flipping a coin?”

Fang Qiu sneered.

He had come here to declare his sovereignty.

This announcement was not only for the people of the Gospel Division but also for the people of the world.

He thought that since there was such a good opportunity to make an example out of them, why not make good use of it?

“Don’t push it too far!”

The faces of the members of the Gospel Division darkened.

“It’s just like how you eliminated those small forces. Now it’s my turn to eliminate you!”

Bang!

While he spoke, a gust of unparalleled Qi power suddenly burst out from Fang Qiu.

The appearance of this Qi power shocked everyone from the Gospel Division.

Bang!

Just then, a streak of strong Qi power at the guru level suddenly rose from the camp of the Gospel Division to the sky.

Between heaven and earth, there was a sudden gust of wind.

The Qi of Heaven and Earth surged wildly from all directions and poured into the camp of the Gospel Division.

“John Doe!”

With the appearance of this abnormal phenomenon, a figure rose into the sky, with an extremely violent Qi power, and directly flew into the air.

It made one’s hair and clothes rustle in the wind.

At a glance, that figure looked like a god of war who had been possessed. He gave off an extremely domineering sensation.

“Hmm?”

Everyone from Huaxia raised their heads and stared at the figure flying in the air.

Oddly, none of them looked worried at all.

Apparently, one guru meant nothing to them.

The Huaxianese had dispatched a total of five gurus.

And the most important thing was that these five gurus were all in the Venerable Realm, which was different from an ordinary guru. With their strength, it was not difficult for them to kill the person on the opposite side at all.

Therefore, the Huaxianese were not nervous in the slightest.

“Don’t think that I’m afraid of you Huaxianese. We’ve already given you half of the place. You’d better stay there obediently, otherwise, I’ll show no mercy!”

In the air, the guru of the Gospel Division shouted with a serious face.

“Really?”

Fang Qiu sneered and ran the internal Qi in him. His body suddenly rose quickly. As if gravity didn’t work on him, he flew straight to the same height as his opponent.

After that-

Whoosh!

Fang Qiu moved.

At this moment, Fang Qiu seemed to have turned into a meteor, carrying a gust of unparalleled energy Qi and rushing to the guru in an instant.

“Huh?”

The guru of the Gospel Division was stunned and immediately waved his hand to resist.

Unfortunately, he was too slow.

Bang!

There was a loud sound.

Before anyone could react, Fang Qiu had already slammed his fist on the guru’s chest. A terrifying force burst out from Fang Qiu’s fist. The terrible energy Qi directly sent the guru flying far away without giving him any chance to react or resist. He fell heavily, leaving a big pit on the ground.

This scene made everyone from the Gospel Division dumbfounded in an instant.

“That’s an S-level super. Isn’t that an expert at the same level as John Doe?”

“How could it be possible for him to be defeated by John Doe with one move?”

“How could John Doe be so powerful?”

At this moment, the members of the Gospel Division were terrified.

The reason why they came to occupy the territory unscrupulously was that they had a guru, which was also the biggest reason why they were not willing to retreat when they saw people from Huaxia coming.

They thought that a guru could help them hold ground and would not be forced to retreat by the Huaxianese.

They had never expected this guru to be defeated by John Doe with one punch.

“How is this possible?”

Not only the Gospel Division but also some other small forces that had been observing from a distance were shocked by the powerful strength that John Doe had shown at this moment.

No one had expected John Doe to be so powerful that even an expert at the guru level couldn't even withstand one move from him.

Even the four patriarchs and the head of the Pear Garden, as well as all the people from the eight factions and sixteen sects from Huaxia, were shocked by John Doe's move.

It was especially true for the four patriarchs.

From the first time they saw John Doe, they felt that he had changed and become stronger, but they couldn't figure out how strong he was at all.

Therefore, they had been waiting to see how powerful John Doe was now.

Now that they saw it, they were all dumbfounded.

“He crushed a guru in a second?”

They could clearly see that if John Doe had used his killer move just now, he could have killed his opponent easily.

However, John Doe didn't do so.

After all, he and his men needed to protect the relic in this battle. It was necessary to defeat an enemy as a warning to others first. If John Doe killed him at the beginning, the situation would quickly worsen in a short time, which was what John Doe did not want to see, as well as the other Huaxianese.

Therefore, John Doe did not kill that guru.

However, even if John Doe didn't kill that guru directly, what he showed was enough to prove his strength.

Even for the four patriarchs and Master Numinous, it was not easy to kill a guru. Although their strength had reached the Venerable Realm, it would still be a little difficult for them to kill a guru, and it was impossible to do it in one blow.

However, John Doe had achieved that.

That was to say, John Doe was stronger than them.

The way everyone looked at John Doe changed at this moment.

On the other side.

The members of the Gospel Division saw that their only S-level expert had been knocked down by a single punch. "If we continue asking for trouble, won't we be eliminated?"

They no longer dared to hesitate.

The members of the Gospel Division quickly retreated, picked up the guru who had been punched down by John Doe, and ran out of the pit.

Fortunately, in order to occupy this area, they had set up a wooden bridge in advance and retreated quickly.

After a while, they all left.

In the face of such a powerful opponent, even the Gospel Division didn't dare to act rashly.

In the distance, the people of other forces were also shocked and behaved themselves.

For the time being, it was obviously unrealistic to compete with those Huaxianese people for territory.

In addition to John Doe, the Huaxianese had four other S-level experts. If these five people attacked together, which force could resist them?

On the hill.

As the people from the Gospel Division had just left, several people approached Fang Qiu.

With a closer look, Fang Qiu found that one of the people who came up was one of the four gurus of the Sword Sect.

Fang Qiu was stunned.

"Have you mastered the Flower Core Formation?"

Before Fang Qiu could say anything, the guru of the Sword Sect took the lead in asking.

After he said that, the four patriarchs and Master Numinous, the Sword Fanatic hidden in the crowd, and the other three gurus of the Sword Sect all thought of the secret in Wulin at this moment.

Instantly, all of them stared at John Doe in shock.

“The Flower Core Formation?”

“It’s too hard to master that set of formations.”

“It’s almost impossible.”

Moreover, the strength John Doe showed was much stronger than that of a real guru, so everyone guessed that John Doe had already mastered the Flower Core Formation.

“No.”

Fang Qiu shook his head.

Everyone heaved a sigh of relief when they heard his answer.

They were glad that he hadn’t. If John Doe really had mastered that set of formations, they would be under too much pressure.

“However...”

Fang Qiu said, “I haven’t mastered the Flower Core Formation, but Lord Virtuous of the Nirvana Organization has. Now that the Laozi Relic is very important, I guess he is very likely to come here. If he does, we must all be careful!”

When the others heard this, they were all shocked on the spot.

At the same time, everyone was also very confused.

“How do you know that?”

On behalf of everyone, Diwu Mingchuan asked this question.

Fang Qiu said casually, “I fought him once.”

Hearing that, everyone was speechless.

“They had a fight?”

“He fought the man who has mastered the Flower Core Formation?”

Fang Qiu looked at Sword Fanatic and the four gurus of the Sword Sect. He asked doubtfully, “By the way, why are you here?”

“We met people from other forces. They thought we were detectives from Huaxia, so we took the opportunity to come back. If we stayed outside all the time, we would inevitably be met by people from other forces, so we decided to hide among our people!”

Chapter 1548 A Finishing Touch in Water

Fang Qiu nodded.

If they had some of their men in the open and some in the dark, they wouldn’t be discovered by other forces. However, it was indeed a good idea to hide among their own forces and organizations.

As long as they hid well, it would definitely play a surprising role in the snatching of the relic.

On the hill, with the withdrawal of the Gospel Division, the Huaxianese completely occupied the entire hill.

In the meantime, news of what had just happened quickly spread.

“The Huaxianese have occupied the area where the Laozi Relic is located and driven away the Gospel Division, one of the top forces in Zhongdong!”

“It’s amazing! John Doe of Huaxia sent an S-level expert flying with one punch. The Gospel Division doesn’t even dare to fight back.”

As the news spread, all the forces from all over the world were shocked.

“John Doe actually sent an S-level expert flying with one punch?”

“Is this true? When did John Doe become so powerful?”

“In addition to John Doe, the Huaxianese have four S-level experts. If these four people are as strong as John Doe, it means that the Huaxianese have terrifying power.”

“It would appear that we must be careful.”

“They drove away the Gospel Division, one of the two top forces in Zhongdong, as soon as they arrived. Moreover, they directly injured an S-level expert of the Gospel Division. Huaxia is determined to be enemies with the whole world this time.”

“Humph, we can’t defeat them, but some other forces may get to do it!”

“Haha, John Doe is obviously making an example of them. He defeated the Gospel Division to warn us, but we won’t be fooled.”

“It seems that we have to send more experts there. Otherwise, we may not be able to stop John Doe.”

For a moment, the major forces and organizations all over the world who wanted to compete for the Laozi Relic began to send more experts to Zhongdong. Otherwise, with the strength that John Doe had shown, they would gain nothing from the relic.

...

On the hill.

After occupying the entire area, everyone guarded their own areas. Without any hesitation, John Doe, the four patriarchs, and Master Numinous immediately began to search and check the location of the Relic Mysterious Realm, trying to find a way to open the gate of the relic.

To Fang Qiu and the others, since they had come here, all they wanted was the relic.

It would be great if they could enter the Laozi Relic and take away the things there before the forces of other countries arrived.

In this way, they could avoid a great battle.

Even if they knew that it would be difficult to take away the things in the Laozi Relic before the people from other countries and forces arrived, they had to at least try their best.

Therefore, everyone's attention was focused on the Laozi Relic.

Because they were all big shots in Wulin and most of them had searched for the ancient ruins, everyone had their own way to find the gate of the relic. From the beginning, they used their own methods to search for the exact location of the gate on the hill.

Someone even dug out the video recording the gate of the relic and tried to find the exact location of it from the video, only to find that it was so far away that they couldn't see it clearly at all.

Meanwhile.

Just like when Fang Qiu was in Jiayang County, he was observing the surroundings while spreading the stones in all directions, trying to trigger the gate of the relic in this way.

The hill was neither big nor small, but its environment was not complicated. At a glance, one could find that it was a hill covered with green vines and seaweed, which appeared very ordinary.

In this case, Fang Qiu threw stones for a long time, but he still couldn't find any clue.

He looked at the ground but only to find that there was nothing special about it.

"Could it be on the plants?"

With a flash of wit, Fang Qiu began to observe the plants on the ground carefully as he walked. Soon, he came to the center of the whole hill.

"Eh?"

Fang Qiu was originally here to observe the plants. As he walked, he suddenly missed a step. Then, he quickly took a step back, squatted down, and pulled the vines on the ground where he had missed.

Whoosh!

As Fang Qiu lifted the vines, a big net naturally woven with vines was immediately lifted, revealing a pool with a diameter of about five meters hidden below.

It was a pool that looked extremely clear but was so deep that people couldn't see the bottom at a glance.

"There are no rivers in all directions. How could there be such a fine pool on this hill?"

Fang Qiu was astonished.

On the way here, he had been observing.

There was a river a few kilometers away. However, there was practically no stream of water near this mountain range. However, the vegetation on this mountain range was much more exuberant compared to other places.

Fang Qiu had always thought that it might have something to do with the Laozi Relic, but now it seemed that it was because of this pool.

"Is this an underground water source?"

"In such a special place, there is actually a water source like a well, and it's right in the middle of this hill?"

At this point, Fang Qiu suddenly had an idea.

From a high altitude, this hill looked like an eye. The sunken area was like the whites of the eyes, and the whole hill was like the eye. But in the center of the eye, there should be another area, a small spot with a deeper color than the original color of the eye.

Now it seemed that this well-like water source should be that spot.

"A finishing touch in water?"

Fang Qiu suddenly had an idea.

He immediately jumped into the water and dived all the way to the bottom.

Now, Fang Qiu seemed to understand a little.

According to the ancient times of Huaxia, this mountain range was likely to be where the Dragon Vein was located, and this hill was the essence of the entire mountain range.

This place contained the entire mountain range.

Perhaps it was precisely because of the uniqueness of this terrain that Laozi was drawn here to leave behind a relic.

Of course, since the whole mountain range was supported by this single spot, there must be a jade mine under this spot. Without a large amount of Qi of Heaven and Earth, this mountain range would never have such spirituality.

On the other side, the others also saw John Doe jump into the water.

Because they couldn't find the relic after searching for a long time, after seeing this scene, everyone came up one after another to see what was in the pool.

However, when they came to the side, they couldn't see the situation at the bottom of the water at all, not to mention John Doe.

"What a clear pool."

"What a deep pool."

Everyone was surprised.

Although they were surprised by the existence of the pool, they did not jump directly like John Doe. Instead, they stood on the side and waited.

They would know whether there was anything unusual with the water when John Doe came up.

Under the water.

After diving into the water, Fang Qiu didn't hesitate at all. He immediately activated his internal Qi and swam quickly toward the bottom of the water. He swam for more than a minute.

After diving for about 30 meters, he finally saw the bottom.

Although the water was very dark, Fang Qiu could see everything in the water because he had night vision.

Glancing at the bottom of the pool, Fang Qiu immediately found that something really appeared at the bottom.

It was a stone tablet.

It was about half a meter tall, surrounded by a layer of moss. It looked very ancient.

He swam quickly to the stone tablet.

Fang Qiu took a closer look and found that an ancient Chinese character, Tao, was carved on the stone tablet.

"Sure enough, there's something unusual. The gate of the relic should be on this stone tablet."

Fang Qiu nodded to himself as he pondered.

He had checked all the things outside and confirmed that nothing was related to the ancient ruins except for this pool.

In this pool, the only thing that had something to do with Laozi was probably this stone tablet.

Thinking of that, Fang Qiu directly touched the stone tablet.

He touched it.

Boh!

As expected, there was a wave of energy fluctuation on the stone tablet. A layer of ripples directly spread out from the tablet and quickly spread toward the top of the pool.

The next moment-

Woo! Woo!

The sound of flowing wind and water spread, which startled the people around the pool. They looked down at the pool one after another.

Then, they saw a layer of sparkling ripples breaking out of the pool and rushing straight into the sky.

"It's the gate of the relic!"

"This is it."

"Is it really underwater?"

The four patriarchs and Master Numinous were extremely surprised.

They didn't expect that the gate of the relic was really at the bottom of the pool and that John Doe would find it.

Seeing the appearance of the gate, everyone immediately began to try to crack it without hesitation.

At the same time, Fang Qiu immediately swam up and came out of the water quickly. He also watched the gate of the relic and began to crack it.

He took a closer look.

Sure enough, the ancient characters in the Tao Te Ching appeared on the light curtain of the gate of the relic. These ancient Chinese characters kept flowing on the light curtain like water.

Thinking that there might be some connection between the Laozi Relic and the Mozi Relic, Fang Qiu immediately began to try the method he used when he entered the Mozi Relic, but it didn't work at all.

Fang Qiu immediately tried another method by cracking the gate with the method of entering the ruins in Egypt.

But it still didn't work.

Fang Qiu even used the entry method of the relic in Zangjiang to see if the characters on the gate of the relic could form a formation.

After working for a long time, Fang Qiu found that these characters had nothing to do with the formation.

He tried all the methods.

Since he couldn't find a way to enter, Fang Qiu directly took out his mobile phone and began to search for the whole Tao Te Ching.

After he got it, Fang Qiu quickly recited the whole Tao Te Ching word by word and then looked at the gate of the relic again.

While reading the words on it, he secretly arranged them according to the whole Tao Te Ching that he had just memorized in his mind.

As he did it, he found that one character was missing from the whole Tao Te Ching at the gate of the relic.

It was the character, Tao.

When Fang Qiu found this, his eyes suddenly lit up.

"Found it!"

Fang Qiu beamed happily.

Just then-

"Raaaargh!"

In the distance, an earth-shattering roar of a tiger suddenly came.

Someone was coming.

Chapter 1549 Are You John Doe?

“Raaaargh!”

A loud tiger roar came from the distant horizon, which shocked everyone.

The crowd that was cracking the gate immediately turned their heads to look.

In the meantime, Fang Qiu waved his right hand.

He grabbed a stone and shot it directly into the bottom of the pool. It hit the stone tablet very accurately, and the gate of the relic disappeared in an instant.

After Fang Qiu did all this, he turned to look back.

The ones who were coming were metahumans from some small countries in Zhongdong.

The tiger roar came from a white tiger that one of them carried with him.

“Where’s the light curtain?”

“Where is the light curtain?”

“Where are you hiding the light curtain?”

This group of people was not afraid of the Huaxianese at all. Not only did they run up directly, but they also questioned the people from Huaxia as if it was a matter of course.

“Get lost!”

Before the others could speak, Patriarch Qian narrowed his eyes and said in an extremely cold tone, "If you get any closer, I'll kill you without mercy!"

As he spoke, an incomparably powerful Qi power burst out from his body. The terrifying energy Qi directly sent the sand and stones on the ground flying.

It was like a violent gust of wind hitting the group of people, forcing them to retreat repeatedly.

After all, this group of people were just ordinary martial arts practitioners.

The strongest one was only an eighth-class cultivator with one opened meridian, which was no match for a guru at all. Therefore, the four patriarchs couldn't bother to kill them. They wanted to force this group of people away with their Qi power.

Unexpectedly, this group of people was stubborn.

They couldn't even withstand the Qi power of Patriarch Qian, but they still braced themselves to glare at the people of Huaxia. They were not afraid at all, holding back all their Qi and blood.

"Hmm?"

Fang Qiu raised his eyebrows.

He knew these people were the most troublesome to deal with.

These people were not afraid of death at all. Even if they knew that they would die, they would not step back at all. To put it nicely, they were stubborn. To put it bluntly, they were brainless and bewitched. They did not understand what death meant.

Fang Qiu rolled his eyes.

He found that there was a boulder weighing hundreds of tons buried underground beside this group of people.

Whoosh.

The moment he saw the boulder, Fang Qiu raised his right hand and grabbed it in the air.

He immediately wrapped his internal Qi around the flat boulder buried deep in the ground and pulled it out directly from the ground.

At the sight of this scene, the group of people was instantly dumbfounded.

No one knew what John Doe was going to do.

Could it be that he was planning to smash them all to death with this boulder?

Although they were panicked, this group of people still continued to hold their ground without backing down. Their eyes were bloodshot as they stared at the people from Huaxia as if they wanted to eat everyone.

Right then, Fang Qiu waved his right hand.

The boulder weighing more than a hundred tons was immediately pulled into the air, floating ten meters high above the group of people. Then, he channeled his internal Qi into the boulder.

The boulder immediately fell from the sky more than ten meters high and smashed onto the group of people.

Not only them but also the people from various forces in the distance who were observing the situation were frightened by this scene.

Although they all knew that John Doe could kill this group of people easily, no one had expected that he would kill them in this way.

If the big stone did fall, this group of people, who were metahumans, would probably be smashed into meat paste in an instant.

However, just when everyone was extremely shocked, and even the Huaxianese did not believe that John Doe would do such a thing.

Bang!

Fang Qiu waved his right hand fiercely.

When the boulder was about to hit the top of the group of people's heads, Fang Qiu directly made a move in the air, which crushed the boulder that weighed nearly a hundred tons.

The gravel all over the sky, like raindrops, fell in front of this group of people.

In a flash, their faces all changed.

They were horrified, and Fang Qiu could see the horror on their faces.

He thought that this group of people should be scared away.

Right at that moment, a voice suddenly sounded from afar.

"How flashy!"

Before the man who spoke arrived, his voice came first.

Hearing that, Fang Qiu turned his head and looked over. He saw a group of people flying quickly toward him from the distant horizon.

At a glance, he found that these people all had golden hair and wore very formal clothes. They gave off a very serious but funny feeling.

“Metahumans from Anglan?”

Fang Qiu’s eyes narrowed.

He clearly saw that this group of people was led by three people, all of whom were at the guru level. Their strength was much stronger than that of Isabel, the representative of Anglan. Moreover, there was a faint layer of pink energy aura flowing around these three people. Judging from this aura, they were all wizards.

“Heh.”

Led by the three gurus, the people of Anglan quickly approached.

One of the leaders stepped forward with a mocking smile, glanced at all the people from Huaxia, and said, “Get out of the way and hand over the relic to us!”

“Hmm?”

When the Huaxianese heard this man’s words, their expressions changed. The four patriarchs and Master Numinous narrowed their eyes, ready to take action at any time.

“Who do you think you are?”

At this time, Fang Qiu spoke.

Since the other party was provoking them, he would certainly return the favor.

Standing up and looking at the man, Fang Qiu sneered and questioned him without showing any respect. When he saw that the man's face changed, his face changed as he said seriously, "This is our Huaxianese ancestor's place, and it belongs to our country!"

Staring at the man, Fang Qiu said coldly, "No one is allowed to disturb or blaspheme this place!"

"Are we in Huaxia?"

The three gurus from Anglan sneered at the same time and said, "We're in Zhongdong, aren't we? This place has nothing to do with Huaxia. Can you Huaxianese occupy the land of Zhongdong?"

"Although we're in Zhongdong now, the relic belongs to Huaxia!"

Fang Qiu glanced at those people indifferently and said, "What we are guarding is not this land, but the Laozi Relic. Does the relic of our Huaxianese sage have anything to do with Anglan? This is not your possession."

Fang Qiu directly fought back.

Hearing what he said, the three gurus from Anglan immediately narrowed their eyes and looked displeased.

"You are John Doe, aren't you?"

One of the burly men stepped forward, stared at Fang Qiu, and said, "Listen, John Doe. You have a great reputation. I've hated you for a long time. If you have the guts, fight with me today. If you lose, take your people and get out of here at once!"

This was an open provocation.

Hearing the words of the Anglanish guru, the people from all the forces around were interested at this moment. They wanted to see how John Doe would deal with the provocation of that guru.

They also wanted to see if this guru from Anglan dared to provoke John Doe so arrogantly because he was really capable.

“Fight?”

Fang Qiu sneered, waved at the three gurus, and said, “You three can come at me together!”

With that, he moved and directly flew up.

“You are courting death!”

The faces of the three gurus from Anglan changed, and they were furious.

“Did he just ask us to attack him together?”

“John Doe is so arrogant. He doesn’t take us seriously at all.

“After all, the three of us are all S-level super experts. John Doe is at the same level, but he’s alone. How dare he be so arrogant and look down on us?”

“Die!”

The three gurus from Anglan looked at each other and immediately flew out. A thick layer of pink energy spread out from their bodies.

Buzz!

After occupying three directions, the three of them took action at the same time and directly snatched the swords and sabers from the hands of some forces in the distance. With their powerful spiritual force, they controlled the swords and sabers in the distance and attacked John Doe from all directions.

“Humph!”

Fang Qiu was disdainful.

He had fought with Isabel before, so he had a certain understanding of the abilities of the Anglanish wizard. He knew the weakness of Anglanish wizards in close combat. Although they had strong spiritual forces to control objects and even control people’s minds, it wouldn’t work on Fang Qiu.

In addition to his guru strength, the strongest part about Fang Qiu was his spiritual force.

A long time ago, Fang Qiu’s spiritual force had broken through to the guru level and had been steadily improving. Those three enemies were just ordinary gurus. It was impossible for them to use their spiritual forces to defeat Fang Qiu.

Fang Qiu activated his spiritual force.

Before the three men’s attacks hit him, Fang Qiu directly mobilized his spiritual force, controlled the Qi of Heaven and Earth, and rushed straight up to collide with the spiritual forces of the three.

With the appearance of Fang Qiu’s spiritual force, the swords and sabers that were rushing at Fang Qiu from all directions were directly blocked.

All the swords and sabers froze in the air at this moment.

“What?!”

The three gurus from Anglan were dumbfounded at once.

They clearly felt that the extremely powerful spiritual force of John Doe was even stronger than that of the three of them who specialized in spiritual force.

“How could that happen?”

The three Anglanish gurus were stunned.

Just then-

Whoosh!

Fang Qiu flashed and rushed straight to one of them. He waved his right hand unceremoniously and punched the man in the chest.

A huge force burst out from his fist and sent the man flying.

In just two moves, John Doe had defeated a guru on the opposite side.

Everyone was shocked.

Meanwhile, Fang Qiu didn't stop.

As he knocked down one of the three men, he immediately flew out and quickly attacked the second one.

The two Anglanish gurus quickly stopped their control of the swords and sabers before they quickly retreated, constantly increasing the distance between them and John Doe, in an attempt to attack and wear him down from a distance.

But it was a pity that they were just too slow.

While they were retreating, Fang Qiu immediately rushed up and caught up with one of them.

“Freeze!”

The man’s face changed. He immediately stretched out his hands and pushed forward. The pink energy around him immediately condensed into a cube in front of him. With the push of his hands, it directly trapped Fang Qiu.

Chapter 1550 Get Lost

In a flash, an enormous force came from all directions.

It could be seen with the naked eye that the pink energy, under the control of that Anglanish man, was like a pressure-bearing machine, fiercely squeezing Fang Qiu’s body from all directions at the same time, which made his figure freeze in an instant.

On the other side.

Seeing this, the third guru of Anglan was overjoyed. He immediately moved forward for a distance and then pushed with both hands. He also controlled the pink energy, quickly condensed it into a cube, and used it to trap Fang Qiu.

Fang Qiu felt the pressure surging in an instant while trapped by two cubes.

“Ha-ha.”

From a distance, John Doe seemed to be really controlled by the two Anglanish gurus. It was as if he couldn’t even move.

The two Anglanish gurus laughed wildly.

“I can kill you easily now, John Doe.”

The guru of Anglan, who was closest to Fang Qiu, waved his right hand while laughing wildly. A sharp sword immediately shot over from a distance. Like a bullet, it rushed to Fang Qiu with a gust of extremely fierce energy Qi in an instant, aimed at his heart, and stabbed at him fiercely.

Instantly, all the Huaxianese present were shocked.

They didn’t expect this at all.

In the distance, all the people from various forces were praying silently in their hearts that the gurus of Anglan could succeed in killing John Doe. In this way, the combat capability of Huaxia would be greatly reduced, and they would have a chance to rob the Laozi Relic.

However, just when almost everyone hoped that John Doe would die and the sharp sword had reached him, two fingers easily pinched the tip of the sword before it could pierce through the clothes of John Doe.

Seeing the two slender fingers, everyone was stunned.

In the blink of an eye, John Doe, whom they thought would be completely suppressed and unable to move at all, moved very freely among the energy clusters of the two Anglanish gurus as if he was not affected at all.

Moreover, he turned his head and gave the nearest Anglanish guru a short smile.

“You want to control my body?”

The moment the smile disappeared, Fang Qiu looked cold and said, “You don’t get to do that yet!”

As he spoke, he moved, and an invisible spiritual force suddenly spread out of his body and directly blew up the pink energy of the two Anglanish gurus.

Whoosh.

At the moment when the pink energy burst out, Fang Qiu rushed to one guru like a meteor.

Bang!

He didn't even give his opponent a chance to react before heavily smashing his fist onto his opponent.

The Anglanish guru was directly sent flying dozens of meters away by the power of the punch. He fell heavily into the crowd from Anglan, knocking down a large number of people who followed him.

This scene shocked all the people from Anglan.

"He used only four moves, and two of the three gurus have been knocked down?"

"How could John Doe have such a strong combat capability?"

The last remaining Anglanish guru was dumbfounded.

He didn't expect John Doe to be so powerful that they were defeated so quickly in a three-on-one battle.

The three gurus were all defeated.

Now that he was the only one left, how could he fight?

At this point, his face instantly turned livid.

“How is this possible? How could he be this powerful?”

The last Anglanish guru stared at Fang Qiu with great caution, while glancing around out of the corner of his eye at the people of other forces.

Unexpectedly, out of the corner of his eye, he found that the people of all the major, medium, and small forces seemed to be holding back their laughter.

Although it seemed that no one was laughing, he always felt that those people were laughing at him, which was unacceptable to him.

Who was he?

He was the representative of Anglan, a top expert. Even compared to other people in the whole world, he was a very famous person. How could he be laughed at by these people?

The more he thought about it, the more embarrassed he felt as a guru from Anglan.

However, he really couldn't defeat John Doe.

When he was fighting John Doe, he could only feel a sense of powerlessness, as if no matter how hard he fought, he would eventually be severely beaten by John Doe. This made him have no courage to face John Doe alone.

“Should I run away?”

“If I escape, I'll be a huge embarrassment. Not only will I but also the entire Anglan will be disgraced!”

“I can't run! I can't run away!”

The guru from Anglan stared at Fang Qiu, gritted his teeth, and then roared fiercely.

“Go to hell!”

As the roar spread, layers of pink energy rushed toward Fang Qiu like sound waves.

“Sonic Technique?”

Fang Qiu was stunned.

“Isn’t this a Huaxianese fighting method?”

“How did the Anglanish learn it?”

“However...”

He thought about it carefully.

Fang Qiu seemed to have only seen the Sonic Technique once, which was displayed by the White-dressed Man he met when he first joined Wulin.

He had never seen it later again.

“Dragon’s Claw.”

Fang Qiu waved his hand habitually.

The joints were trembling.

A golden claw made of energy suddenly flew out of his hand. With a gust of extremely fierce energy Qi, it crashed toward the opponent's sound wave.

The next moment-

Bang!

When the two energies collided, a huge energy explosion suddenly sounded.

"Go to hell! Die now!"

The Anglanish guru kept waving at Fang Qiu as if he were crazy. Clouds of energy were coming at him directly. It seemed that he was going to smash Fang Qiu to death with energy.

With a move of the Dragon's Claw, Fang Qiu immediately felt the strength of the other party. The so-called Sonic Technique was not authentic at all, and its power was not comparable to that of the Sonic Technique of Huaxia at all.

"Humph!"

Fang Qiu snorted coldly.

He didn't hesitate any longer. He moved, dodged the opponent's fierce attack, and rushed to him in an instant.

When the Anglanish guru saw that Fang Qiu suddenly rushed to him, his eyes immediately widened.

Clap!

A crisp sound was heard.

Fang Qiu slapped the guru in the chest without hesitation, and the huge force hit him like a tide.

It directly pushed the guru down like a meteor falling from the sky, creating a huge pit on the ground.

“Anglan? It’s just so-so.”

After the fight, Fang Qiu clapped his hands and said disdainfully, “You lost. Get out of here!”

After Fang Qiu said that, all the people present looked at him differently.

“Amazing!

“He is simply too powerful.

“This is incredible.”

This was the evaluation of John Doe from all the forces on the scene.

They had never seen such a powerful person. Alone, John Doe had actually defeated the three gurus of the other side in less than ten moves.

In less than three minutes, the three S-level leaders of Anglan were all defeated by John Doe alone.

“Is this real?”

Even though they saw this scene with their own eyes, many people from other forces still couldn’t help rubbing their eyes hard and looking at John Doe in disbelief.

Among the Huaxianese, everyone's faces were full of pride. They glanced at the people from Anglan with disdain, as if they didn't take these people seriously at all.

On the other side, the faces of the people from Anglan became quite gloomy.

Unlike the arrogant provocation at the beginning, they looked embarrassed at this moment, and their faces were livid.

It was especially so when they heard what John Doe said.

The three gurus who had just been helped up by their men looked gloomy and didn't know what to say. They looked at each other and didn't know what to do.

"Should we leave?

"Or should we stay?"

At this moment, the characteristics of the Anglanish people keeping up appearances were vividly displayed.

However, at the thought of the terrifying combat capability that John Doe had just shown, the three gurus from Anglan couldn't help but shudder.

In less than ten moves, the three of them were beaten to such a state.

If John Doe wanted to kill them, wouldn't they have died a long time ago?

At this point, the three of them looked at each other and saw deep fear in each other's eyes.

If they really continued to fight, John Doe probably wouldn't hold back.

Moreover, the key was that in addition to John Doe, the Huaxianese had four S-level experts present. If the Anglanish gurus really angered the Huaxianese, they would probably die on the spot.

“Let’s go.”

One of the three gurus gritted his teeth and said angrily, “Let’s retreat for the time being.”

The other two also stood up with a red face and quickly retreated with the help of others.

“Let’s not argue with them for the time being. There will be people from other countries coming later. When those people arrive, I’d like to see if the Huaxianese can still be so arrogant!”

The group of people cursed as they walked.

When the Huaxianese saw that John Doe alone had scared off all the forces from Anglan, they immediately applauded him.

This sort of strength was truly too powerful.

Originally, everyone was nervous when they came over to protect the Laozi Relic.

Now, seeing the strength that John Doe had shown, everyone was quite relieved.

“As expected of John Doe.”

“He can deal with a top force and a national force alone. His power is incredible.”

“The oldest is awesome.”

Everyone from Huaxia praised John Doe.

At the same time, Fang Qiu turned back. Praised by the four patriarchs and Master Numinous, he nodded with a smile and then walked toward the pool, ready to open the gate of the relic again to verify if he had found the right way to enter.

But as soon as he went over-

Swish! Swish!

In the distance, there was a sound of something breaking through the air.

Hearing the sound, the Huaxianese immediately turned to look.

With a closer look, they found that it was another group of foreigners.

Moreover, these foreigners were not weak at all.

Fang Qiu also saw an acquaintance among the group of people.

It was the representative of L'hexagone, Abel.

It seemed that the force that was coming now belonged to L'hexagone.

However, there seemed to be something wrong. This group did not only consist of people from L'hexagone.

Raising his eyebrows, Fang Qiu immediately turned back.

The four patriarchs also stepped forward.

The four gurus and John Doe went straight to the place where the people from L'hexagone were flying toward.

“More gurus?”

Diwu Mingchuan frowned and said, “Why are there so many gurus in the world all of a sudden?”

“Eh?”

Just as Diwu Mingchuan was wondering, Elder Zhan suddenly found that the people of Anglan, who had just retreated less than 100 meters, were leaning toward this group of people. Moreover, these Anglanish people were all complacent. It seemed that they had forgotten the blow they had suffered just now.
