Chapter 1571 A Strange Space!

“Gurgle, gurgle...”

In the depths of the river, undercurrents surged.

Staring at the big fish, Fang Qiu quickly chased after it to the bottom of the river.

He wanted to see if there was anything hidden under the river. This big fish was the only living creature that could attack people he had seen in this relic.

Like the guardian beast of the Heaven Treasure outside, the big fish was probably protecting some treasures hidden at the bottom of the river.

Anyway, he didn't find anything up there. Since many people had been to He Gaoming's place, he might as well come down alone to explore the area.

The most important thing was...

From this river, the situation beneath the clouds could be seen.

Based on this alone, Fang Qiu could conclude that this river was not simple.

“Uh?”

Fang Qiu chased for a long time.

He could see the big fish not far away before him. Their distance had been shortened or lengthened. Fang Qiu had been diving rapidly.

“Have I dived for a hundred meters?”

Fang Qiu suddenly found something wrong.

No river could be this deep.

He immediately turned to look back.

Fang Qiu could see the deep and serene water. In these water flows, he saw a dazzling light ball like a scorching sun hanging in the sky.

Besides...

This light ball fluctuated according to the water waves.

“But there’s no sun outside. What’s going on?”

Fang Qiu wondered.

Fang Qiu looked away and turned around, ready to continue to chase the big fish.

However...

When he turned around...

Everything before him had changed.

In the end...

He reached the bottom of the river.

He saw the bottom of the river: a large stretch of dazzling light. Looking back, he saw a shining ball similar to a burning sun. It seemed to be a reflection image.

Half of the big fish's body had gone into the white light at that moment, leaving only half of its tail.

With a sudden stretch...

Fang Qiu grabbed the tail of the big fish.

Just then...

The fishtail twisted violently.

An attractive force suddenly burst out from the white light at the bottom of the river. Before Fang Qiu could react, the force sucked Fang Qiu in like a black hole.

Fang Qiu was greatly shocked.

Just as he was about to control his body and struggle out...

He found his body was out of control. Worse still, he could no longer activate his internal Qi.

Afterward...

“Buzz!”

All of a sudden, he felt like he was falling rapidly.

Fang Qiu felt like he had fallen from a hundred meters above the ground. His heart skipped a beat.

After a while...

“Boom!”

With a thud, he landed on something.

Fang Qiu no longer felt he was falling rapidly. Instead, he thought he had landed on the ground. At the same time, he could move his body and activate his internal Qi.

Everything seemed to have returned to normal.

However, everything around him had changed completely.

Fang Qiu stood up.

On high alert, he looked around.

This world was covered by a vast expanse of whiteness stretching to infinity. A hazy white mist, seemingly out of a fairyland, enveloped him.

“Whoosh, whoosh...”

A voice came from behind.

Fang Qiu abruptly turned his head and looked over.

And he saw...

The big fish was swimming happily in the white fog as if it didn't need water. It slightly swung its tail and immediately disappeared into the white fog. Before leaving, it glanced at Fang Qiu as if saying, "I'm not playing with you anymore!"

"What is this place?"

Fang Qiu frowned tightly, stepped forward with a puzzled look, and walked around in this space.

He found that...

There was no Qi of Heaven and Earth in this space.

The air was so clean and pure that he could hardly believe it.

Fortunately...

The big fish ran away.

At present, there seemed nothing in this space that would attach people. Thus, he just needed to find the exit and leave this place.

After he took a few steps...

Fang Qiu looked down.

He found a stone sculpture carved with a strange pattern under his feet. A lot of gems were inlaid on it. There were gems of various colors. But it had been a long time. These gems had dimmed. Even so, they still looked beautiful.

Walking along the patterns on the ground, Fang Qiu found nothing.

He moved on.

As Fang Qiu walked, something suddenly appeared in front of him.

It was a fist-sized, nearly transparent ball of water floating in a cloud of mist.

This water ball looked incomparably pure, just like the air in this space!

“Perhaps, is this a special space left by a talent from ancient times?”

“The white light I saw in the river is this space, and the water ball in this space is that river?”

Fang Qiu thought of the records in an ancient Taoist book.

In ancient times, Taoists believed a world had a round sky and square earth. The so-called three thousand worlds were like three thousand gears. The three thousand worlds were closely connected. Together, they surrounded the Great Heaven World, which would drive these small worlds to rotate. Whenever the Great Heaven World spun once, the other worlds would turn 365 times.

Taoism believes that one year in heaven equals a year in the human world.

“Could it be that the Laozi Relic is such a small world, and so is this space?”

Fang Qiu wondered.

Fang Qiu reached out his hand and touched the extremely pure water floating before him.

It was just a gentle touch.

“Whoosh...”

The water ball suddenly began to move.

It turned into a stream of water flowing rapidly around as if it were alive.

As it moved...

The water flow gradually became longer and larger.

In the end...

They gathered again before Fang Qiu.

He looked over.

This water stream had taken a human form.

Besides...

It was the image of Fang Qiu!

“Uh?”

Fang Qiu raised his eyebrows in surprise.

Just when he was confused...

The water man, looking the same as Fang Qiu, suddenly made a move. Without any hesitation, it waved its right hand and slapped Fang Qiu.

“Great Hand of Destruction?”

Seeing this, Fang Qiu immediately flew out to avoid this strike.

However, the water man didn't hesitate at all. It violently waved its hand and made a huge palm print condensed from water, darting toward Fang Qiu.

“Great Hand of Destruction!”

Seeing that he couldn't dodge it, Fang Qiu waved his right hand and displayed the Great Hand of Destruction.

He delivered a palm strike.

Fang Qiu could only use his internal Qi to fight because there was no Qi of Heaven and Earth in this space. The water man was consuming its water flow.

“Boom!”

The two palms collided.

They did not cause the explosion that he had imagined. Instead, they dissipated in the air.

“Gee?”

Fang Qiu was stunned.

“We look the same, uses the same move, and even has the same strength. Do I have to fight with myself like this?”

He thought to himself.

Fang Qiu got an idea and reached out to summon the divine sword with his right hand.

However...

The divine sword didn't come.

There was no reaction at all. When he summoned the divine sword, the internal Qi in him made no reaction.

“The Great Hand of Destruction could mobilize my internal Qi, but why couldn't I summon the divine sword?”

Fang Qiu looked puzzled.

Just then...

“Clap.”

The water man raised his palm again and slapped fiercely again.

“Great Hand of Formlessness?”

Fang Qiu became nervous and immediately launched his Great Hand of Formlessness. It knocked against his opponent's strike.

At the moment of collision...

The huge force released by this collision knocked both sides back.

“Next, won't it use the Great Hand of Nihility?”

Fang Qiu stared at the water man in front of him.

As soon as he finished his words...

Somehow, he felt his whole body tense up as if bound by something.

“Great Hand of Nihility!”

With a stir of his mind, Fang Qiu immediately performed the Great Hand of Nihility.

As expected...

After this move...

The tension in him suddenly disappeared.

Instead, he was quite at ease, as if swimming in his own space like a fish returning to the water. It was incomparably refreshing.

“Although I can’t gather the divine sword, I can use the sword Qi, right?”

He thought to himself.

Fang Qiu waved his right hand.

A stream of internal Qi immediately burst from his fingertips, forming a ray of sword light. It flickered on his fingertip.

“Sure enough, it worked.”

Fang Qiu smiled.

Then...

He glanced at the water man opposite him and found it did not imitate his movements to produce the sword light. Instead, it was still waving its palm, ready to perform the Palm Technique.

“It seems this water man can only use the three moves of a person.”

“Good.”

“I’m not familiar with the third move. This is a good chance for me to practice.”

“Perhaps, I can see the other transformations of the three moves.”

At this thought...

Fang Qiu withdrew his sword light.

Without waiting for the water men to act, he took the lead in rushing over.

“Great Hand of Destruction!”

He hit the water man with his palm.

However, just at this moment...

“Swoosh!”

An extremely sharp voice rang out.

And he was astonished to see...

This water man wielded the Great Hand of Destruction with one hand and the Great Hand of Formlessness with the other. The two blows were struck out at the same time. Two water streams with energy gathered before his palms. Then, an exceedingly terrifying explosive force burst out. The reaction force it generated pushed the water man back. Meanwhile, the stream of terrifying explosive force lashed Fang Qiu ferociously.

It looked like a cannonball.

As Fang Qiu saw this...

His eyes lit up.

He had tried to integrate the two moves and even developed Formless Destruction.

But that move...

It could cause an explosion within a large area around him. It worked out well but was obviously not as strong as the attack launched by the water man before him.

“That’s right.”

Seeing this move, Fang Qiu immediately figured it out.

“The Great Hand of Destruction can compress a large quantity of Qi of Heaven and Earth. Then, how about I condense a large-scale attack into a small one nearby with Formless Destruction? The power for a large-scale attack can be concentrated into this energy bomb.”

With joy...

Fang Qiu immediately waved his hand to resist the attack. By forming an energy shield before him, he tried to fend off the bomb of water flows fired by his opponent.

But the next moment...

“Boom!”

There was a huge bang.

As this bomb hit Fang Qiu, it instantly shattered his energy shield. Then, it violently crashed against Fang Qiu hard and sent him flying.

“What the fuck!”

Fang Qiu exclaimed. The moment he landed on the ground, he covered his chest and stood up.

He didn't expect it at all.

The power of this attack was incredible.

Judging from the previous battle, he knew the water man's combat capability was at the same level as his, but this move crushed him. It could be seen how powerful this move was!

Chapter 1572 Carrying the Tripod!

In shock...

Fang Qiu looked up at the water man in front of him.

Surprisingly, knocking him into the air with one move, the water man turned back into a ball of pure water. It just floated in mid-air when it returned to its original position.

The explosive power of Great Hand of Destruction and Great Hand of Formlessness was focused on one point!

The water man disappeared.

Without any worries, Fang Qiu immediately began to try.

At first...

It was indeed difficult to control the process.

After all, the power of these two moves was excessively strong.

However...

Since the water man could make it, Fang Qiu believed he could achieve the same thing. If his first try failed, he would make a second or third attempt.

He tried countless times.

Finally...

“Boom!”

A loud explosion sounded.

A highly unstable and destructive stream of energy aura was before Fang Qiu's palm. It was forcibly squeezed into a ball as if two poles of a magnet had been forcibly merged. Instantly, it shot forward like a bomb that could explode anytime.

“It is done!”

When pushed back by the tremendous recoil force, Fang Qiu was shocked by the force he burst out.

To put it in modern science...

The energy ball he had just shot out contained a massive quantity of molecules. They were extremely unstable and possessed very horrific energy.

It was like the most powerful explosive in the world. Once it exploded, the consequences would be unimaginable!

Unfortunately...

The energy ball shot out by Fang Qiu happened to hit the water ball floating in the air.

After this collision...

The water ball was instantly blown up and transformed into water droplets flying off in all directions.

But right after they splattered out...

With a swoosh, these water droplets gathered together again and condensed into a water ball. Then, it quickly surged and transformed into the previous water man.

“Come on, let me see what other tricks you have.”

Fang Qiu smiled.

He could hardly wait to fight with this water man and was eager to learn more moves from it.

The water man still started with the Great Hand of Destruction and pounced on Fang Qiu fiercely.

Fang Qiu struck back with the Great Hand of Destruction.

The two opposing forces canceled each other out.

Afterward...

There was another collision of the Great Hand of Formlessness.

After two blows canceled each other out, the water man activated Formless Destruction again.

Fang Qiu used the same trick he learned on the spot.

In the end...

The two forces collided and canceled out each other.

A new round of fight...

The water man carried out the Great Hand of Nihility again.

Then, within the range of the Great Hand of Nihility, it displayed Formless Destruction again. The “domain” of Great Hand of Nihility raised the strength of Formless Destruction to another notch.

Fang Qiu followed suit and performed the same move to deal with it.

Eventually, he tied with the water man.

The battle ended.

The water man again transformed into a water ball and returned to its original position.

“I lost one battle and managed a draw. All in all, I’m inferior to it.”

Fang Qiu thought of something and murmured, unwilling to admit defeat, “Is there no possibility of other combinations? Can’t I even defeat the incarnation of water?”

At this thought...

Fang Qiu touched the water ball for the third time.

The water man appeared again.

But this time...

The water man seemed to be a little different.

Previously, this water man looked like a machine with no feelings. But this time, Fang Qiu actually felt anger from it.

The most obvious change was that the water man attacked as soon as it came into being this time. It looked like it could hardly wait to teach Fang Qiu a lesson.

Fortunately, Fang Qiu reacted quickly. He swiftly waved his hand and blocked the attack of the water man.

Then...

The two of them fought fiercely again.

No matter how long they fought, their strikes were limited to three moves of Ren. But during the fight, Fang Qiu found the water man handled the details perfectly.

Fang Qiu didn't fall into a disadvantageous situation at the beginning of the battle. But as the battle continued, Fang Qiu was gradually pinned down by the water man because of his inferior details.

Among the three moves of Ren, the water man only displayed the Formless Destruction. No other combination of moves appeared. Yet, each move had a lot of strange changes in the water man.

Fang Qiu could only learn them one by one.

But...

As he studied these moves, the water man completely suppressed him.

He was about to lose.

Fang Qiu was very unwilling to give up. He had almost learned all the changes and details of the moves made by the water man, but why would he still lose?

How could he take such a result lying down?

“Can’t I defeat a water ball like you?”

In a frenzy of rage, Fang Qiu refused to admit his defeat and burst out.

Right now...

He ignored the details or changes. All he wanted to do was to fight, kill, and win!

With a firm will and determination, Fang Qiu attacked like mad.

Gradually...

He could fight against the water man’s suppression.

At first, he was suppressed. Then, he managed to get a draw. In the end, he pinned it down instead.

Fang Qiu gained the upper hand in just a few dozen moves. He didn’t care about how many actions the water man could change and how perfect fighting details he could achieve. All he could think about was fighting!

For some reason...

In this case, the water man, who had a great advantage at the beginning, was forced to retreat one step after another. Soon, Fang Qiu held it down.

“Explode!”

After utterly suppressing the water man, Fang Qiu once again performed the “domain” of Great Hand of Nihilism. Then, in cooperation with the Formless Destruction, he launched another explosive and violent attack on the water man.

“Boom!”

There was a huge bang.

When the water man was hit, water splashes flew off in all directions.

The surrounding space...

It began to shake inexplicably.

The process could be seen with the naked eye: these sprays of water blown away gathered together again.

However, this time, they did not condense into a water ball or transform into a water man.

Instead, it boiled rapidly.

It turned into a tripod!

An enormous tripod...

Besides...

Its material changed from water to copper.

Nothing around him had changed. The bronze tripod appeared at the place where Fang Qiu stepped on when he just arrived. That area was inlaid with colorful gems and engraved with patterns.

“How did it become a tripod?”

“What is this about?”

In confusion...

Fang Qiu walked toward the tripod.

As he approached it...

He saw a few ancient Chinese characters condensed by water in the air next to the tripod.

“The one who passes the first test can lift it and understand.”

When Fang Qiu saw this line of words...

He was slightly stunned.

“So, the water man was the first trial?”

“Only by defeating the water man can I summon this bronze tripod?”

“I can understand after lifting it. Could this bronze tripod be a divine weapon?”

After pondering for a moment, he moved to the bronze tripod. Stretching out both his hands, he hugged the bronze tripod’s bottom and put forth his strength, trying to lift the bronze tripod.

As a result...

No matter how hard he tried, this bronze tripod would not budge.

In particular, as long as he exerted a force on the tripod with both hands, various distracting thoughts would appear in his mind. Seemingly, a voice at the bottom of his heart told him: he couldn’t make it.

For Fang Qiu, it was just a distracting thought.

Previously, when countless thoughts appeared in his mind, he could be entirely at ease, let alone this wisp of distracting thought.

Fang Qiu calmed down.

He completely threw away the distracting thought in his mind. Then he immediately moved his hands and began to exert himself.

His heart was clear, and his mind was calm...

Fang Qiu exerted his strength.

“Crack!”

The bronze tripod moved.

Supported by Fang Qiu's tremendous strength, it slowly left the ground.

Then, Fang Qiu lifted the tripod with effort. By this chance, he bent down and carried the whole tripod on his shoulder.

In the end, he stood up straight!

The moment he straightened up...

The huge copper tripod suddenly began to shrink.

It was getting smaller and smaller on Fang Qiu's shoulder.

After a while...

It became as small as a thumb.

It was a tripod, which looked particularly exquisite.

“Gee?”

Putting the bronze tripod in his palm, Fang Qiu looked at it. He found it was one of the famous nine great tripods of the Zhou dynasty.

He was surprised.

All of a sudden, a glimmer of light flashed across the tripod.

Afterward...

Fang Qiu trembled all over.

As the shaft of light on the tripod flashed, a piece of information appeared in his mind.

This tripod...

It turned out to be the key to the relic.

Actually...

It was something even more miraculous than a key.

Anyone with this tripod could get the entire relic. Fang Qiu even thought the relic was in this bronze tripod.

He clearly felt this tripod was his now. According to the line of words at the tripod edge, the tripod was in his control.

The first benefit of controlling this tripod was that Fang Qiu could enter and leave this relic at will.

It had a function similar to teleportation.

This discovery...

It astonished Fang Qiu.

This tripod might be the most valuable treasure in this relic!

In shock...

Fang Qiu remembered the two tests he had just passed.

The first test was a battle. He failed in the first round and reached a draw the second time. The third time, when he was about to lose, he launched an all-out effort to fight back and won in the end. Without a doubt, his tenacious determination worked at that time.

For Fang Qiu, that determination could strengthen the target and the thought in his heart!

The second trial...

It was not difficult.

With the determination to conquer himself, he could easily pass the test.

The solutions were strengthening his thoughts and conquering distracting thoughts!

“Will!

“Pure?”

The two words suddenly jumped into Fang Qiu’s mind.

When he thought of this...

Fang Qiu couldn't help but clench his right hand.

The divine sword that couldn't be summoned showed up in his hand at his request.

He didn't move.

But from head to toe, he seemed stern and forbidding with the intense sword intent.

The sword erupted incomparably brilliant sword light, flickering in the air with extremely sharp sword Qi.

Afterward...

“Slash!”

He waved his right hand.

A word came out of Fang Qiu's mouth.

With a wave of his arm, the divine sword was fiercely thrown forward to cut.

On the blade was a ray of sword Qi. It looked so sharp that it could even tear the space apart. In an instant, it was vehemently shot out. Even space on its way began shaking!

Chapter 1573 Yo, Everyone Is Here!

“Sword Shattering the Universe!”

As Fang Qiu swung his sword, his eyes lit up.

Now, he finally understood.

Since Sword Fanatic became a guru, his strength, combat capability, and sword intent grew stronger day by day. Why?

That was because...

Sword Fanatic only had one thought from beginning to end: the sword!

His consciousness was the purest.

It was so pure that there was only the sword.

Therefore...

The sword intent he gave out was so strong that even the people of the Sword Sect were shocked.

And what Fang Qiu had comprehended now was the realm even purer than that of the Sword Fanatic. As such, this sword strike was powerful enough to cut off heaven and earth.

This sword strike was several or even dozens of times more powerful than the Space-splitting Sea-cracking Sword!

“This sword strike attacks not only the body but also the mind. It will crumble people’s beliefs and crash their bodies. This will be a terrible blow from the body to the consciousness!”

Fang Qiu took a deep breath.

Then he closed his eyes and thought for a while.

He waved his right hand.

A stream of invisible sword Qi suddenly left the blade and shot out fast.

There was a layer of strange energy like sound waves before the sword Qi. Just like the first sword strike he released, this stream of sword Qi left speedily.

The moment it flew out, even the space it traveled through trembled. A sharp sound of something breaking through the air suddenly came.

However...

There was nothing but a vast expanse of whiteness in this space. Fang Qiu didn't see any real effect of this strike.

But he was sure the power of this sword strike would exceed his expectations. It would surprise everyone who saw it!

He let go of his hands.

The divine sword disintegrated and dissipated.

Stretching out his left palm, Fang Qiu summoned the small tripod and observed it carefully.

Was there anything hidden in it? What was its structure? Why could it expand and shrink? He began to extend his Divine Consciousness into the small tripod to get the answers.

But...

His Divine Consciousness fluttered.

Fang Qiu immediately felt the whole relic seemed to be under his control. Now he could feel through the small tripod that someone was trying to connect to the Heavenly Ladder. However, he was not sure who exactly it was.

But if he wanted to appear somewhere in the relic, he could go there merely by thinking about it.

And most crucially...

Fang Qiu could vaguely sense the treasures in the ruins.

Although this feeling was very vague, he could feel these treasures were hidden in every corner of the ruins.

But this time...

For the time being, he didn't have time to dig.

However, with this tiny tripod, he wasn't in a rush to excavate it. After all, he could enter and exit it at any time. With a single thought, he could get to the treasure.

It wouldn't be too late to start digging after everything was settled.

In the meantime...

Fang Qiu came up with an idea.

"Can I enter and exit the relic at any time? I'll go out and find it out."

The tripod in his palm turned into a beam of white light and entered his body.

Then, an idea came to Fang Qiu's mind.

All of a sudden, his figure flashed and disappeared from this space.

The next moment, Fang Qiu appeared in the air above the gate of the ruins. There was a pool under his feet.

Meanwhile...

“John Doe!”

A familiar voice suddenly rang out.

Fang Qiu turned his head to have a look.

There...

Lord Virtuous was recuperating with his eyes closed. All of a sudden, he opened his eyes and stood up. Pleasantly surprised, He ferociously stared at Fang Qiu and said, “You finally came out.

“Go to hell!”

After that...

All the internal Qi in his body suddenly burst out.

An incomparably mighty Qi power rose into the sky from his body like gusts of wind.

Lord Virtuous moved as his Qi power soared and immediately turned into a shadow. With a domineering aura, he swept toward Fang Qiu.

“I dodge!”

Seeing Lord Virtuous attack, Fang Qiu had an idea.

All of a sudden, he disappeared into thin air as if he had never appeared at all.

Lord Virtuous instantly lost his target.

He immediately stabilized himself to observe and used his energy to probe.

But...

He couldn't sense John Doe's aura, which confused him.

What on earth had happened?

Why did John Doe appear and disappear suddenly?

In the blink of an eye, not a trace of energy aura was left. What the hell was going on?

Lord Virtuous had in mind many doubts.

“Swoosh! Swoosh! Swoosh!”

Sounds of something breaking through the air were heard.

Lord Virtuous quickly turned his head to look.

There...

A dozen people flew over together from a distance.

With a closer look...

He was surprised to find that these people were foreign gurus.

Besides...

They came from many countries.

They seemed to have joined forces to rob the relic.

At this time...

Lord Virtuous felt wronged.

For one thing, when he entered the relic just now, he was driven out. Though he was a Huaxianese, he was not recognized by his ancestors. As a result, he could not check anything in the relic.

For another, he was fooled by John Doe a second ago!

He clearly saw John Doe.

And he even put forth his best efforts to slay John Doe on the spot in one blow.

But surprisingly...

He had exerted every ounce of his energy, but in the end, it was wasted. In an instant, he couldn't even find his target, which made him very embarrassed and angry.

Opposite him...

“Are you Huaxianese?”

When the gurus of the Seven Kingdoms arrived, Kim, the leader, narrowed his eyes and stared at Lord Virtuous, saying, “Where are the other people from Huaxia? Did they send you to guard the relic outside?”

“Get lost!”

Lord Virtuous shouted angrily.

Though in a towering rage, he didn't want to waste his time and energy on these worthless guys. He wanted to keep all his strength and suppress his anger, waiting for John Doe to appear. Then he would severely attack John Doe and slaughter him!

“What did you say?”

Hearing Lord Virtuous's reply, all the gurus of the Seven Kingdoms were furious.

In their eyes...

The Huaxianese was overly arrogant.

He was facing the fourteen gurus alone. How dare he be so arrogant and conceited? How audacious was he to ask them to get out?

These fourteen gurus were confronting one rival. Obediently getting out of this place would be a disgrace to them.

“You’re courting death!”

Kim was furious.

Gurus from various countries were also angry. They glared at Lord Virtuous with displeasure as if they were going to eat him.

At this critical moment...

Lord Virtuous discarded his sullen look. Rolling his eyes suddenly, he put on a friendly look.

“Do you want to know the way to enter the relic?”

Lord Virtuous wore a smile and asked, eyes on the fourteen people.

They heard his question.

All were all stunned.

“What is this Huaxianese trying to do? Why does he suddenly change his attitude?”

As the saying goes...

A smiling face turning evil is nothing, but an enemy suddenly turning kind is scary.

“What do you mean?”

A Nihon wanderer stepped forward and asked.

“I’m not guarding the relics here.”

Lord Virtuous smiled faintly and said, “If you want to go in, I can tell you how to open the gate of the ruins and even how to enter it.”

The gurus of the Seven Kingdoms heard that...

They frowned in disbelief.

They didn’t know what was going on.

Was this Huaxianese telling the truth?

“Do you think I dare to lie before so many people?”

Lord Virtuous sneered and said, “You can try it.”

“The gate of the ruins is at the bottom of this pool. It is a stone tablet engraved with ancient Chinese characters in Huaxia. After a gentle touch on the stone tablet, the gate of the ruins will appear.”

Nearby...

The gurus of the Seven Kingdoms furrowed their brows more deeply.

Previously, they had wasted so many experts, but they couldn't get a way to open the gate of the ruins from Huaxia. Now as soon as they came, a Huaxianese revealed the answer.

Who could believe this?

“Get lost if you don't believe me!”

Lord Virtuous bellowed.

The gurus of the Seven Kingdoms looked at each other and discussed it. Finally, their eyes fell on the two Muricans.

“Go and look at it. We'll guarantee your safety outside.”

A Germany guru said and pointed to another Murica guru except for Kim.

At roughly the same time...

This group began to argue.

The Murica guru was unwilling to go, but gurus from the other six countries criticized him together. Helplessly, he could only jump into the pool with dissatisfaction and dive carefully to the pool bottom.

They arrived at the bottom of the pool.

Ensuring there was no danger, he began to search underwater.

In the end...

He found the stone tablet.

Then he reached out and touched it.

Sure enough, the gate of the ruins opened rapidly.

As soon as the Murica guru opened the gate of the ruins, he burst to the surface.

“He’s right.”

Seeing everyone staring at the gate of the ruins, the Murica guru confirmed what Lord Virtuous had said.

At this time...

“How do we get in?”

The Anglan guru stepped forward and asked.

“Over there!”

Without hesitation, Lord Virtuous pointed to the place on the light curtain where a character was missing and said, “You can go straight in from there.”

Here...

The gurus of the Seven Kingdoms leaned forward in confusion, stretching their hands to test it. Surprisingly, they found they could go in.

They no longer hesitated.

All of them went into the relic one by one.

Before long, he completed this process.

All fourteen people got in.

The gate of the ruins vanished.

“Tsk, tsk...”

Lord Virtuous couldn't help laughing out loud at the sight of this scene.

In the relic...

The moment these people entered the relic, Fang Qiu suddenly felt something in his heart, he sensed a group of people had entered the relic.

Yet...

Just as he sensed it...

The group suddenly vanished.

“Foreigners?”

“They are expelled?”

Fang Qiu thought of something and nodded with understanding.

That seemed to be the case.

Outside the relic...

Lord Virtuous's laughter had not yet dissipated.

The fourteen gurus appeared out of thin air and were violently knocked into the air. They fell heavily to the ground and were all injured.

“Ha-ha.”

Seeing this, Lord Virtuous couldn't help sneering and said, “A group of overconfident guys, go to hell!”

With this...

He waved his hand, and the men in black hiding on all sides immediately rushed out. They surrounded the fourteen gurus, ready to kill them all.

However, just at this moment...

“Yo, everyone is here?”

All of a sudden, John Doe reappeared in mid-air.

Seeing him, everyone on the scene was dumb-struck!

Chapter 1574 All of You Must Die

As soon as Fang Qiu appeared...

He attracted everyone's attention.

In no time...

The conflict between both sides might break out at any moment, but they stopped simultaneously. John Doe then became their focus of attention.

For Lord Virtuous...

He was determined to kill John Doe.

Because of John Doe, he had been full of anger and grievance. Besides, he caused a tremendous negative impact and losses on Nirvana Organization. Therefore, John Doe must die.

For the gurus of the Seven Kingdoms...

John Doe was the leader of the Huaxia side.

As long as they could kill John Doe on the spot, the protection for the Huaxia side couldn't be adequate. Then it was only natural that they would take Laozi Relic and get the treasures there!

It could be said that...

John Doe was the target of Lord Virtuous and gurus from Seven Kingdoms!

Now...

The appearance of John Doe certainly attracted their attention.

Back here...

Fang Qiu got out of the relic with the small tripod. Though everyone was watching him, Fang Qiu looked indifferently at the fourteen gurus of the Seven Kingdoms.

“Another batch?”

Seeing these fourteen people, Fang Qiu narrowed his eyes and said, “You foreigners just won’t give up your wicked designs!”

But since the gurus of the Seven Kingdoms couldn’t understand Huaxianese, they didn’t know what John Doe was talking about.

“John Doe.”

Lord Virtuous stared at Fang Qiu and said, “If you have faith in yourself, don’t run!”

“If you are confident enough, go ahead and stop me?”

Fang Qiu snorted disdainfully.

“You!”

Lord Virtuous trembled with anger.

In his mind, John Doe must have obtained some treasures from the relic. With it, he could come and go like a shadow. If John Doe suddenly disappeared again, he had no idea how to stop him.

After all, the change happened in an instant.

Gurus of the Seven Kingdoms heard the conversation between John Doe and Lord Virtuous.

Their faces darkened, for they thought they were plotting something before them.

“What are you talking about?”

The Anglan guru stood up and questioned in a cold voice!

“Hee, hee...”

Before Lord Virtuous could speak, Fang Qiu smiled and said to the gurus of the Seven Kingdoms in Anglanish, “He invited me to deal with you together, but I didn’t agree.”

The gurus of the Seven Kingdoms heard this.

Immediately, they glared at Lord Virtuous with a gloomy face.

“What do you think about it? Do you need any help?”

Fang Qiu turned to look at Lord Virtuous with a smile and asked.

“Humph.”

Lord Virtuous bawled at him angrily.

How could John Doe frame him like this?

But no matter what...

All the people before him, including John Doe, had to die. Thus, he didn't bother to explain it to them. Why took the trouble to do that for the dead?

“OK.”

Fang Qiu turned his head again and said to the gurus of the Seven Kingdoms, “Now, let me officially introduce him to you. The person before you invited me to kill you with him. He doesn't belong to the Huaxia group. Though he is a Huaxianese, we won't admit it.”

The gurus of the Seven Kingdoms frowned.

They didn't understand what John Doe meant.

“It is because he is Lord Virtuous, the second-in-command of the Nirvana Organization!”

Fang Qiu said.

The fourteen gurus of the Seven Kingdoms heard that...

They all looked at Lord Virtuous in surprise.

Nirvana Organization?

They had indeed heard of this organization. Seemingly, it was John Doe who told the world about it. However, they had never seen anyone from Nirvana Organization.

Therefore, they were unwilling to believe Nirvana Organization was real.

But to their astonishment...

Now...

They didn't expect to encounter Nirvana Organization members.

Moreover, he was known as the second-in-command of the Nirvana Organization. It meant he occupied a high position!

No wonder...

This man was not on the same side as John Doe.

If he were from Huaxia, he would follow John Doe's lead. Why would he be so angry with John Doe?

"So what if you tell them the truth?"

Lord Virtuous sneered and said, "None of these people can escape!"

"He said, all of you will die. No one can leave this place alive."

Again, Fang Qiu translated Lord Virtuous's words.

The gurus of the Seven Kingdoms heard that.

They all clenched their fists and looked very unconvinced. They seemed to want to fight fiercely with Lord Virtuous to vent the hatred in their hearts.

"Well, I'm done with my work."

When the two sides stood eyeball to eyeball, Fang Qiu grinned and said, "Take your time and have fun."

“These people are here to rob the relic.”

Hearing that John Doe would leave, Lord Virtuous immediately said, “This relic is from Huaxia ancestors. Aren’t you going to stop them?”

“Well, as for this...”

Fang Qiu thought for a moment. Then he smirked at Lord Virtuous and said, “Take your time.”

After that...

An idea came to his mind.

He disappeared from the spot and returned to the relic.

Outside the relic...

“Kill!”

Lord Virtuous waved his hand and ordered with a grim look.

Just now, these fourteen gurus intended to kill him. But since they learned about his identity, the situation was reversed: Lord Virtuous had decided to wipe out all of them!

For Lord Virtuous...

He must hide his identity.

Nirvana Organization had been hiding in the world for many years. It had completed many things and plans yet was still under cover. His identity and organization might be exposed because of him. Then, how could he explain it to his superiors?

Therefore, these fourteen people must die.

Lord Virtuous came down.

These incapable gurus moving around instantly rushed up from all directions. Without wasting any time, they assaulted the fourteen gurus.

“Disperse.”

The Murica guru hollered.

The fourteen gurus instantly separated. In pairs, they quickly scattered in seven directions. Then each team targeted one incapable guru, while some individuals fought against two.

The fierce battle began.

The fourteen gurus from various countries put forth their best efforts to fight.

They threw in their whole might.

These incapable gurus were no match for them.

In just a few moves, those incapable gurus were knocked into the air.

After this group repelled these incapable gurus...

Only then did these people turn around.

They were surprised to see that...

Lord Virtuous was after the two Murica gurus.

From beginning to end...

Lord Virtuous had been observing this group. He perceived that the leader of these fourteen gurus was a Murica guru named Kim.

Therefore...

At the start of the battle, he rushed straight to the two Murica gurus to slay the leaders first. When this group became completely disorganized, he could kill them one by one.

But to his surprise...

The two Murica gurus managed to block his sneak attack.

It seemed the guru named Kim could control the air to attack and defend. Lord Virtuous was a little stunned by this situation.

As a result...

The two Murica gurus were not afraid at all. They had no intention of escaping. Instead, they joined forces to attack Lord Virtuous crazily.

Lord Virtuous flared up into a fury.

He immediately burst out all his strength.

As the mighty Qi power of One-Flower Core Formation erupted, the two Murica gurus were taken aback.

Yet...

The two Murica gurus were not easy to deal with. Despite the difficulties, they still fought head-on with Lord Virtuous. Because of their special abilities, they successfully resisted the fierce attack of Lord Virtuous.

Although the two Murica gurus could hold on for the time being, they soon fell into a disadvantageous position.

At this very moment...

Only then did they realize things were not going well.

In a hurry, they turned to ask for help, only to find gurus that from other countries had already defeated their opponents. Now people from the two sides were standing nearby and watching them being beaten.

“Why don’t you join us?”

While resisting the fierce attack of Lord Virtuous, Kim shouted angrily, “Now we are in our best situation. If he kills us, you can’t live either.”

All the gurus of other countries heard this.

They looked at each other.

They were all very clear about what Kim meant.

On the surface, Lord Virtuous was indeed very powerful. Some even wanted to leave but felt too embarrassed to escape first.

However...

Now it looked like...

Even the two Murica gurus could withstand Lord Virtuous's attack. So, if the fourteen gurus worked together, they might defeat Lord Virtuous.

Most importantly...

Lord Virtuous was in charge of many gurus. Judging from his performance, everyone knew he would catch and kill them if they ran away now.

That was to say...

Whether they escaped, Nirvana Organization would hunt down and kill them.

In that case, why not take this opportunity to eliminate the source of trouble?

At this thought...

All the gurus exchanged looks and nodded.

After that...

They moved in a flash.

The twelve gurus rushed over, launching a fierce attack against Lord Virtuous.

“Humph, you’re courting death!”

Lord Virtuous snorted angrily. A layer of black internal Qi surged out of his body, forming a very flexible semicircle shield around him. As it moved quickly, it blocked the strikes of the twelve gurus one by one.

In the meantime...

He continued to assault the two Murica gurus, forcing them to retreat repeatedly.

The Murica gurus were about to be suppressed entirely.

The twelve gurus from the other six countries did not dare to hold back anymore. They immediately spread out and formed a circle with the Murica gurus. Together, they quickly hurled themselves at the enemy.

As such...

As expected, they restrained Lord Virtuous from causing severe damage.

Fortunately, the short delay gave the two Murica gurus time to gather themselves. Quickly, they changed their positions with others. As gurus from other countries mounted a violent attack, they lost no time in recuperating.

Lord Virtuous was in the middle.

The fourteen gurus surrounded him.

His face became gloomy to the extreme.

He never took these people seriously. Each was much stronger than an ordinary guru, almost twice as strong as an incapable guru. However, they were much weaker than him.

Yet...

It was not easy for him to fight against the fourteen gurus alone.

After all, there were too many restrictions.

In fact...

Fang Qiu had already thought of this result.

When he came out of the relic, he found that the strength of the fourteen gurus from all over the world was similar to that of the four patriarchs. A few were even more potent than the four patriarchs and were at the same level as Master Numinous.

Precisely because he noticed this.

Fang Qiu said those words and provoked them to fight. He used Lord Virtuous to stop these foreigners from robbing the relic. Anyway, Lord Virtuous was a Huaxianese. His assistance would not damage Huaxia's reputation.

Meanwhile...

The fourteen mighty gurus from various countries could consume much energy from Lord Virtuous.

After walking through the relic, the Huaxia group must come out. It would be hard to handle Lord Virtuous in his heyday!

Chapter 1575 Join Hands With Lord Virtuous!

“Clap, Clap, Clap...”

The fierce battle was still going on.

Lord Virtuous was still under siege. But his situation improved after those incapable gurus returned.

Earlier...

These fourteen people charged at him together. Though Lord Virtuous could block their blows and hang on there, he couldn't seize any chance to attack. Hence, he had long been simmering with extreme anger.

Now...

After these incapable gurus returned, they distracted the fourteen people. This situation allowed Lord Virtuous to release all the anger in his heart. He burst out his most robust combat capability, aimed at the two Murica gurus, and attacked them fiercely.

This time, Lord Virtuous went all out to attack.

He waved his fist.

It directly broke the air shield of the Murica guru. Then the huge force broke out, blowing him far away.

However, just at this moment...

Other attacks came. They bypassed the semi-circle energy shield around Lord Virtuous and savagely landed on him.

Yet...

Lord Virtuous was not to be trifled with.

The strength One-Flower Core Formation represented could never be underestimated.

These attacks hitting him barely hurt him. Although he felt pain, he was only slightly injured. He continued to attack the other Murica guru without any scruples.

Everyone saw this scene.

The battle became even fiercer.

On the other side, just as those incapable gurus arrived, they distracted everyone's attention. But before long, they were again sent flying by the gurus of the Seven Kingdoms.

As such...

From the overall situation on the battlefield, Lord Virtuous was at a disadvantage.

However...

The two sides were fighting fiercely. In the enemy's encirclement, Lord Virtuous was beside himself with anger. Just then, John Doe, who had suddenly vanished, appeared again.

In mid-air not far from this group...

The moment Fang Qiu appeared, he saw these people fighting ferociously.

Of course...

The two sides engaged in a fierce battle also saw him.

“A rare scene to see, huh?”

Seeing the situation on the spot, Fang Qiu said in surprise, “Well-known Lord Virtuous, how could you be at a disadvantage?”

When Lord Virtuous heard his words...

He abruptly turned his head and glared at Fang Qiu angrily.

“Hey, hey, hey. Watch out. They are coming.”

Fang Qiu stretched out his hand, trying to remind the Lord Virtuous.

However...

Lord Virtuous, ignoring his words, stared at him ferociously as if he would kill him.

“Boom!”

There was a loud bang.

A fireball burst out from behind Lord Virtuous.

A L’hexagone remarkable talent threw it over and hit his back hard. The sudden blow on his back made him stumble!

“Bang...”

The moment Lord Virtuous steadied himself, an incomparably powerful burst of energy erupted. Suddenly, a black mist in the shape of a demonic shadow raised from his body.

He waved his right hand.

The black mist immediately turned into an arm. It stretched out to grab the neck of the L’hexagone remarkable talent.

But...

Just as he moved...

Attacks from others bombarded him.

To avoid these attacks, Lord Virtuous had no choice but to withdraw his moves furiously. Swiftly, he turned around to dodge.

He was well aware of his current situation.

In a one-on-one fight, he could brutally kill anyone present.

However...

Under siege, he could hardly find a chance to counterattack. In this case, it was challenging for him to gain an advantage over these fourteen people.

Taking one or two blows was not a big deal because it didn't hurt. But he would feel pain after three and four strikes. Five or six blows might only cause a minor injury, but he would be suppressed if hit seven or eight times.

Under these circumstances...

He figured out a coping strategy. If he couldn't find an opportunity, he should prevent himself from being hurt. Otherwise, he would be exhausted to death sooner or later if he continued to waste his power like this!

“Lord Virtuous, you seem a little weak.”

Fang Qiu teased again.

Lord Virtuous was so angry that his face twitched.

“Alright, let me help you.”

Fang Qiu grinned and charged at the two L'hexagone gurus waging the most vigorous offensive.

The two L'hexagone gurus saw John Doe rushing over.

They were greatly shocked and immediately turned to deal with John Doe.

Lord Virtuous seized this chance as the two L'hexagone remarkable talents withdrew their attacks from a distance. Instantly, he pounced on the Murica guru he had once knocked down.

He charged forward with all his might.

He had set his heart on slaughtering him, totally ignoring other people's attacks.

Something terrible was going to happen.

Because of his unique ability, Kim quickly used the air shield to block the attack for him. Seeing Lord Virtuous hotly pursue and fiercely attack Kim, the other Murica guru continued to assault Lord Virtuous brutally.

However, just at this moment...

Lord Virtuous, who seemed to have concentrated on attacking Kim only, suddenly turned around and waved his right hand.

The black fog-like energy around him instantly turned into a weapon similar to a long spear. Before the Murica guru could react, it pierced through his chest.

In an instant...

Did he kill a guru with one strike?

This was surprising.

Gurus from other countries were quite taken aback.

It also scared Kim to the core.

In the blink of an eye, his companion had died.

That was a guru! How could he kill him so effortlessly?

Back here...

Fang Qiu saw Lord Virtuous annihilate one enemy.

At once, he stepped back and stopped fighting. Then, under the close gazes of the two L'hexagone gurus, he dashed straight toward Lord Virtuous and released his Great Hand of Destruction.

Initially, Lord Virtuous wanted to take this good chance to kill a few more people, but he didn't expect John Doe to attack him.

Other people's attacks could hardly injure him.

But John Doe's strike was different — he had to fend off it.

Unlucky for him...

Seeing this, gurus from other countries immediately seized the opportunity to attack Lord Virtuous.

They were clear that...

This was an excellent opportunity.

They had lost one guru. If they didn't seize this chance to hurt Lord Virtuous, it would be more difficult for them to win their upcoming battles.

“Aargh!!!”

Lord Virtuous exploded with rage, ready to control the demonic shadows around him to resist all these attacks.

Helplessly...

These attacks came too fast.

Though he blocked John Doe's attack, his back was hit heavily by three or four people. He took the damage head-on and was slightly injured.

“Well, it's almost the time.”

Fang Qiu immediately flew backward when his palm attack missed its target.

He checked the situation on both sides.

When he found the two sides were evenly matched, he nodded satisfactorily and said, “Take your time.”

With that...

He smirked.

His figure disappeared in an instant.

Before his laughter died away, he had already disappeared.

John Doe left.

The fierce battle continued.

The two sides were locked in mortal combat again.

At this moment...

Lord Virtuous kept cursing in his heart!

He was in a towering rage.

He wanted to slay John Doe as soon as possible!

John Doe wiped out most of his subordinates in Zhongdong. If John Doe hadn't killed the few Venerables, they would have savagely slaughtered all these people with him long ago.

Everything was John Doe's fault.

John Doe destroyed his force in Zhongdong. Besides, he maliciously stirred up trouble at this time and attempted to trigger a life-or-death struggle between him and these foreign gurus.

John Doe was shameless to the extreme!

However, he couldn't find John Doe. John Doe ran so fast that he left before Lord Virtuous could even move his fingers.

Therefore, he could only vent his anger on the thirteen gurus.

One of them had died.

However, he also got some injuries because of this. Coupled with the previous situation, both sides were of about the same strength. Neither side could pin down the other.

After dozens of fierce moves...

John Doe appeared again.

He helped Lord Virtuous kill another one with the same method as last time.

Yet...

This time, Lord Virtuous failed to escape.

Initially, he wanted to resist John Doe's backhand strike, but John Doe fooled him. The moment he released the attack, he disappeared from where he was. Then, he abruptly emerged behind John Doe and slapped him on the back.

Plus these foreign gurus' attacks...

Lord Virtuous was indeed injured. Although it was a minor wound, he was hurt!

John Doe finished making trouble.

With satisfaction, John Doe disappeared again.

The two sides continued their pitched battle.

After a while...

John Doe appeared again. He planned to kill another person with the same trick and injured Lord Virtuous again. Unexpectedly, as he emerged this time, Lord Virtuous and the twelve gurus instantly united to deal with him, determined to kill him first.

The situation looked dangerous.

"I don't want to play with you guys anymore."

With a stir in his mind, Fang Qiu disappeared.

As soon as John Doe vanished...

Their fierce battle was raging between the two sides.

Occasionally, Fang Qiu would come out to see the battle situation. But he stayed far away from them, not giving them a chance to join forces.

Like this...

Lord Virtuous suffered more injuries, and more and more of his internal Qi had been consumed. His rivals, the twelve gurus, had also been injured to different degrees.

As such...

Lord Virtuous knew he couldn't delay any longer. Immediately, he ignored these people's onslaughts and summoned all his defensive power to attack. He targeted a L'hexagone guru and rushed up to punch him hard.

While bearing the ferocious blows of others, he beat the L'hexagone guru to death with unflinching courage.

Lord Virtuous punched one to death.

He changed his target and rushed to the two Italyy gurus with guns. Like mad, he utterly disregarded strikes from others and bashed the two gurus hard.

Regardless of his safety, he wildly dashed ahead to smash the two Italyy gurus, who could hardly ward off his brutal attacks. Then, he delivered a punch to each of them.

He slayed both of them on the spot.

“Ha-ha...”

He took away three people’s lives.

Even though he had suffered moderate internal and external injuries, Lord Virtuous laughed out loud domineeringly.

In a twinkle...

Only nine of the fourteen gurus of the Seven Kingdoms were left!

Gurus from other countries saw the frenzied attacks of Lord Virtuous.

They were somewhat daunted. It had only been a short time, but five had been slaughtered. They would have to bear the bitter consequences if it went on like this!

At roughly the same time...

These people all had the idea of retreating.

They planned to withdraw first and think of other ways.

“Let’s go.”

Kim, the Murica guru, was the leader. He let out a loud yell and immediately led everyone to retreat quickly.

“All of you, don’t even think about running away.”

Lord Virtuous shouted angrily in hot pursuit of them.

At this time...

Fang Qiu appeared again.

“Don’t run. Let’s beat Lord Virtuous together.”

Fang Qiu shouted at the eight escaped people in Anglanish.

The eight people looked back at John Doe, their eyes full of anger. It was obvious that they were cursing,
“Fuck you!”

Without a backward glance...

The group fled frantically.

With no other options...

Fang Qiu could only turn to look toward Lord Virtuous.

“Do it. If you don’t want them to destroy the ancestral relics again...”

Lord Virtuous spoke up.

“Okay.”

With a nod, Fang Qiu moved from another direction, forming a pincer attack with Lord Virtuous. Quickly, he rushed up to stop the eight foreign gurus.

Under the joint fierce attack, the eight foreign gurus fell dead to the ground one by one!

In the end, they were all wiped out!

Chapter 1576 The Second Venerable Vomiting Blood

The gurus of the Seven Kingdoms had all been killed.

After killing the gurus of the Seven Kingdoms, Fang Qiu and the Lord Virtuous stopped.

The two of them looked at each other.

The flames of fury in the heart of the Lord Virtuous rose again.

However, he was not in a hurry to attack John Doe. He looked at John Doe from a distance.

In the battle just now, without John Doe, it would not have been so easy for him to kill all the gurus of the Seven Kingdoms.

At the same time, the battle just now made him suffer injuries. Although he was not seriously injured, the trauma and internal injuries, coupled with the large consumption of internal Qi, caused his combat capability to decline a lot.

Moreover, judging from John Doe's moves just now, the combat capability of John Doe was much stronger than before. Although he hadn't reached the One-Flower Core Formation, the gap between them became much narrower.

The Lord Virtuous was injured and consumed too much energy. He might not be able to defeat John Doe if they began to fight.

Fang Qiu was also worried.

Although Lord Virtuous was indeed injured and his strength had declined a little, Fang Qiu's strength was still not as good as that of him. It was not a good plan to fight with Lord Virtuous alone.

The two of them were not sure if they could defeat each other. They could only confront each other.

“Hmm?”

Right at this moment, Fang Qiu's heart clattered. A trace of energy fluctuation suddenly appeared in the tripod that got into his body.

He quickly injected his Divine Consciousness into it.

Fang Qiu immediately found out it turned out that it was the Second Venerable and the others. They were about to reach the Heavenly Ladder and build a Magpie Bridge.

It made Fang Qiu feel nervous.

Second Venerable was also a major fighter in the Nirvana Organization.

If he broke through the Magpie Bridge and met the people of Huaxia, it would inevitably cause a big war and cause great losses to Huaxia.

Fang Qiu came with the heart that he would not let any of his people die.

He wanted to let the world see even in the face of the whole world, Huaxia could not only protect its own things but also leave unscathed.

Moreover, once Second Venerable escaped with his people and joined forces with Lord Virtuous, it would be hard to deal with them.

Therefore, when sensing the Second Venerable and the others were about to break through the Magpie Bridge, Fang Qiu already had a plan in mind.

He would rather take action and destroy Second Venerable and the others first.

Even if he took the opportunity to recover his injuries and internal Qi, when the eleven gurus of Huaxia came out together, no matter how strong Lord Virtuous was, he might not be able to resist them!

After thinking of this, Fang Qiu used a skill in his heart.

Just a second ago, he was confronting Lord Virtuous, but in the next second, he suddenly disappeared.

When Lord Virtuous saw this, he was stunned.

He didn't know what John Doe was going to do.

He made up his mind to attack just now.

But in the blink of an eye, the person was gone. The plan he had worked hard to come up with suddenly became useless.

“Humph!” Fang Qiu snorted coldly.

“If I hadn't been injured, where would you go?”

“Since you have run away, I'll wait here. When I recover, I'll kill you!”

“I don’t believe you will leave all the Huaxia people who came with you and escape alone!”

After uttering these words, Lord Virtuous turned around and returned to the area where the gate of the ruins was located. Then he directly sat cross-legged in front of the pool. He meditated to recover while waiting for John Doe and the others to come out of the ruins.

On the broken Heavenly Ladder in the ruins, under the leadership of the Second Venerable, everyone was holding back their Qi and forcing the beam to move forward.

In the sky above the space rift, the Heavenly Ladder had been connected almost perfectly, and it was almost complete.

Suddenly, it shattered.

When everyone thought that they had failed again just like Fang Qiu, the Second Venerable was still holding back his Qi and urging the beam of light with all his might, trying to break out and connect the Heavenly Ladder completely.

Just as the beam of light in his body was about to break through and reach his philtrum from the tip of his nose, a figure suddenly appeared out of thin air behind Second Venerable.

Just then, everyone’s eyes fell on the Second Venerable.

They saw the person who suddenly appeared.

All the people around were shocked.

They took a closer look. It turned out to be John Doe!

The man in black looked shocked.

Coincidentally, after the Heavenly Ladder was broken, the Qi of Heaven and Earth came and was about to form the Magpie Bridge. Right at this time, Fang Qiu directly slapped the Second Venerable on the back without hesitation.

The palm fell.

Clap!

A crisp sound was heard.

Second Venerable urged the beam of light in his body with all his strength and was about to break through the current predicament. Then he was directly slapped away by Fang Qiu.

The internal beam of light trembled and instantly shrank back.

The fragments of the Heavenly Ladder on the spatial crack, which had been preparing to transform into a Magpie Bridge, completely lost their attraction at this moment. Then they fell with a swoosh.

“Puff!”

In the meantime, Second Venerable slapped away by Fang Qiu opened his mouth and spat out a mouthful of blood. Then he opened his eyes furiously.

“Who was it?”

As the roar spread, he saw John Doe.

“You’re courting death!”

With a swoosh, the Second Venerable stood up. He moved and immediately rushed toward John Doe. With a wave of his hands, two rattan whips condensed by black internal Qi were thrown out. They rushed toward John Doe with fierce momentum.

At this time, all the men in black standing on the Heavenly Ladder in all directions immediately surrounded John Doe and attacked him one after another!

Fang Qiu smirked.

“Dodge!”

With a stir of his mind, Fang Qiu suddenly disappeared before the falling of the attacks of the Second Venerable and the group of incapable gurus on him.

Second Venerable and the others lost their target.

This group of people was dumbfounded.

The Second Venerable immediately began to look around, trying to find a clue about where John Doe had escaped. However, he couldn't find anything as if John Doe hadn't appeared at all.

He was very confused.

“What the hell is going on?”

In the blink of an eye, Fang Qiu appeared in the sky above the endless sea in the space of the ruins.

There was a very rich Qi of Heaven and Earth in this sea.

After grasping the tripod, Fang Qiu immediately sensed this place.

“Ha... I will slowly play with you after I recover.” He said with a sneer.

Fang Qiu moved and immediately dived into the incomparably rich sea of the Qi of Heaven and Earth. Then he began to absorb and recover quickly.

He had consumed a lot of internal Qi in the battle just now. Of course, he also needed to cultivate and recover!

However, high-level officials from all over the world were in a state of panic at this time.

“How is this possible?”

“How could it be?”

“It’s only been less than a day since they got Ahanf. How could they disappear?”

“The signal has completely disappeared. Does this mean that our people are dead?”

The high-level officials of the Seven Kingdoms had received a piece of news from their subordinates. The trackers installed in the bodies of the two gurus that they had sent to Zhongdong had disappeared.

In other words, the second batch of gurus they sent out was probably dead again.

When they received the news, everyone thought their people were dead.

Their hearts were immediately filled with resentment and called their peers to ask about it.

Then they found that the people sent by another country had also disappeared.

They asked more people and found the gurus sent out this time all disappeared.

All the high-level officials of the seven countries were shocked and angry.

“What the hell is going on?”

“How could it be so fast? How could they all disappear in such a short time? How could there be no news at all?”

“When did Huaxia become so strong?”

“Fourteen S-class experts! A total of fourteen S-class experts seem to have been suffocated to death, with not even a splash of water!”

“This sort of situation is too frightening.”

“They are fourteen S-class experts. If Huaxia did it, the news we had received before must be wrong. Otherwise, it would not have caused such a serious consequence.”

“Who promised that there are only five S-class experts in Huaxia? I don’t believe that these five S-class experts can kill fourteen S-class experts in one day!”

“Could it be that Huaxia has hidden their true strength? Maybe they have more S-class experts.”

“It’s impossible. There can’t be so many experts in Huaxia. We’ve sent people to investigate. Except for John Doe, the four Wulin major families in Huaxia are the most powerful. Each of them has an S-class expert. There are no other S-class experts!”

“Then what is going on?”

All the high-level officials began to make video calls and discuss it.

They didn't expect to suffer such heavy losses.

From the death of the first batch of experts to that of the second batch, every country suffered heavy losses, including several S-class experts.

They all felt heartbroken.

However, since the people had already dead, so what if they felt heartbroken?

They had sacrificed so many experts' lives. How could they admit defeat and give up Laozi Relic just like that?

They wouldn't, and they were even more unwilling!

"What's your decision?"

The leader of Murica said with a gloomy face, "Our country has lost seven S-class experts. So far, only Huaxia has survived with no death. Our losses are equivalent to their gains. If we let it go, Huaxia will soon be above us. Murica will never let it go so easily!"

"We agree with you."

The leader of Anglan also said angrily, "Since we are not having a good time, we will never let Huaxia have a good time. No matter what, we are going to send more people there!"

The representatives of the other countries nodded one after another.

This time, they were ready to fight against Huaxia.

Otherwise, they would only be bullied by Huaxia in the future.

“We have suffered great losses this time.”

After everyone decided to send more people out, the leader of Murica opened his mouth and said, “I have a proposal. We can unite more people from other countries to fight in front of us. Our people will finally take action. We must never let the people of Huaxia walk out of the ruins alive. Only in this way can it be fair!”

Chapter 1577 A Stronger World Alliance

“I heard that a large number of ancient secrets, treasures, and a large number of mines of gold and jade were found in the ruins of Huaxia. Is that true?”

“It’s more than that. I heard that there are countless spiritual herbs. Those spiritual herbs alone can promote a group of S-class experts.”

“That relic is left by an ancient immortal of Huaxia. I heard that there are a lot of immortal treasures in it. Once we get it, our strength will soar.”

“This time, Huaxia didn’t lose any of their people and found so many treasures. It seems it will become one of the five major countries.”

“Can Huaxia take back so many treasures?”

“Huaxia only sent a few people there. If its people have found so many treasures, they may not be able to take all the treasures away.”

“It seems that every country has a chance.”

“Now that the war is over, and the treasures have been found by Huaxia. All the other countries only need to join forces to rob those things. There is no need to fight against them fiercely at all. Maybe we can benefit a lot from it.”

All kinds of rumors began to spread all over the world.

Moreover, it was overstated.

The news spread spread to the underground-force forum.

After the post on the underground-force forum, the whole world knew the news, although every piece of news spread would be added with, “It’s said.”

However, this was not the focus of all the countries.

Most importantly, people from all over the world had seen the benefits that they were very likely to get. They also wanted a bright future that their national strength would be greatly improved as long as they got the treasures.

Soon, many countries took the initiative to take action and began to prepare to rush to Zhongdong to get good things.

Of course, these medium-sized and small-sized countries were more or less afraid of Huaxia. Therefore, they did not dare to show their thoughts in public. They were ready to send people to observe the situation in secret. After all, they were not strong enough. If they sent some experts there at the beginning and Huaxia killed them, the loss would outweigh the gain.

However, just as these small and medium-sized countries were ready to take action, another piece of news came.

“It’s said Huaxia is cruel and merciless. Huaxianese actually killed all the experts sent by the Murica, Rashk, Anglan, L’hexagone, Nihon, Itali, and Gewill. It made the Seven Kingdoms furious.”

“It’s more than that. They have also killed the people of the seven countries twice. They killed a lot of people of the first batch and all the people of the second one.”

“I heard that these seven major countries are gathering people to make Huaxia pay the price.”

“Four of the Seven Kingdoms are major powers, and the other three are also big countries. Once they unite, Huaxia will be in trouble.”

“I heard that the Seven Kingdoms are currently recruiting soldiers. Whether the other countries don’t like Huaxia or are interested in the relic, as long as they are willing to join the seven countries to deal with Huaxia, they will welcome the other countries and promise to divide the treasures equally after the end.”

As soon as these rumors spread, they immediately attracted the attention of all the medium-sized and small-sized countries in the world.

They immediately began to try to contact Murica.

As expected, they were accepted by Murica.

Hearing this, the other countries all thought it was a great opportunity.

Following the Seven Kingdoms ensured their own safety and gave them the right to divide the treasures equally. It was a rare opportunity for medium-sized and small-sized countries like them.

In such circumstances, all the countries contacted the seven countries one after another and joined the Alliance of the Seven Kingdoms.

A more powerful joint army quickly began to assemble.

The higher-ups of Huaxia soon received the news of such a big commotion.

The high-level officials of Huaxia also began to worry.

They had already seen through the Seven Kingdoms.

These rumors must be released by the Seven Kingdoms. Their purpose was to recruit soldiers and to be well-prepared. After all, they couldn't solve the problem of relics with thermal weapons. Each country had limited resources and metahumans. After continuous losses, the Seven Kingdoms didn't dare to send more people.

However, had the second batch of people sent by the Seven Kingdoms all been wiped out?

Just as the high-level officials of Huaxia were hesitating about whether to send another batch of people to support Fang Qiu, a troop stationed in Zhongdong suddenly sent a message.

The second batch of troops sent by the Seven Kingdoms was confirmed to have been wiped out.

When Fang Qiu heard this, the higher-ups of Huaxia were all shocked.

According to the clues, the second batch of people sent by the Seven Kingdoms should have fourteen experts at the guru level in total. Had all of them died?

Did John Doe and the others do it?

“What do you think?”

In a secret conference room somewhere in Huaxia, a high-level official asked the others.

“So far, our Huaxia hasn't lost any soldier in the battle for the relic. It can be said to be a pure profit. The Seven Kingdoms recruited troops must be that they are afraid of John Doe and the others. Otherwise, with the dignity of their countries, they would never have done such a thing.”

“So, I think we should trust John Doe and the others. Even if something has happened to them that we don’t know, we should give them enough trust. If they need any help, they will ask us for help. If we blindly send people there, they will be affected.”

“I agree with you.”

Hearing everyone’s remarks, the high-level official nodded and said, “Okay. I believe them, but we should be well-prepared. Once we receive a call or signal for help, we will immediately support them!”

Outside the ruins, some people were talking.

“Lord Virtuous!”

A black figure rushed over quickly from a distance and finally stopped in front of Lord Virtuous, who was resting with his eyes closed. The figure knelt on the ground and said, “I received the latest news that the Seven Kingdoms led by Murica, Rashk, Anglan, L’hexagone, Nihon, Itali, and Gewill are gathering, about to come here.”

“Hmm?”

Lord Virtuous opened his eyes and raised his eyebrows. “A world alliance?”

“Yes.”

The man in black nodded affirmatively and said, “All the major medium-sized and small-sized countries in the world have joined this alliance. Led by the Alliance of the Seven Kingdoms, they are ready to surround this place, kill all the people from Huaxia, and rob the treasures in the ruins.”

“Okay.”

Lord Virtuous said with a glint in his eyes, "The more, the better. Let's kill a lot of them at a time!"

As he said, Lord Virtuous suddenly stood up and said, "Send all the guards of the strongholds in Zhongdong here immediately. I want to have some fun with them this time."

At the thought of his incapable gurus, Lord Virtuous became angry.

After several rounds, two-thirds of the gurus in Zhongdong had been killed by John Doe. Now, there were only a few gurus left around him.

He could only mobilize the twenty people guarding the twenty strongholds in Zhongdong.

All twenty of them were incapable gurus.

This time, it seemed the Lord Virtuous was going to show all his trump cards.

Lord Virtuous was not stupid.

He knew if he continued to guard here, once the world alliance arrived, they would tangle with him again. At that time, his strength would be weakened again.

Therefore, he decided to let John Doe lead the people of Huaxia to fight head-on with the people allied with other countries. Then he would take advantage of the situation!

"John Doe, you tricked me last time. This time, I'll trick you to death!"

Surrounded by the incomparably rich Qi of Heaven and Earth, Fang Qiu soon recovered completely and reached his peak state within the boundless sea of ruins.

"Are they still here?"

The moment he woke up, Fang Qiu immediately sensed that Second Venerable and the others were still on the Heavenly Ladder. They were gathering the Magpie Bridge again, ready to cross the Heavenly Ladder.

However, judging from the current situation, it was still a little slow. It was impossible to do it in ten minutes.

Therefore, Fang Qiu was not in a hurry.

With a stir of his mind, he disappeared into the sea.

In the next moment, he appeared outside the gate of the ruins.

“Hmm?”

Fang Qiu went out, immediately looked around, and found that the Lord Virtuous was gone. Then he immediately released his Divine Consciousness to check, but he didn't find any aura of energy at all.

In other words, the Lord Virtuous had left or disappeared.

“Could it be that he was afraid that I would come looking for trouble again after I recovered? Did he run far away to hide and recover?”

He was confused.

With a stir of his mind, Fang Qiu went straight to the Heavenly Ladder and appeared behind the Second Venerable again. Just as the Second Venerable's Magpie Bridge was about to connect successfully again, Fang Qiu slapped him hard on the back and sent him flying again. The person spat out a mouthful of blood again.

The Second Venerable was furious.

He led everyone to surround John Doe and wanted to kill him once again.

As a result, John Doe disappeared in an instant again as if he had never been there.

This situation made the Second Venerable feel extremely depressed. He even didn't dare to close his eyes to activate the beam of light in his body again. He feared that John Doe would pierce his throat the next time he appeared.

At this time, Fang Qiu came to the sea again.

He knew that with his own strength, he couldn't kill the Second Venerable for the time being. After all, the Second Venerable's strength wasn't weak, just a little bit weaker than his. Furthermore, the Second Venerable had so many incapable gurus following him. Once they started fighting, Fang Qiu wouldn't be able to gain the upper hand.

"Then I'll dig up the treasures first. After digging up the treasures, I'll properly deal with them."

Fang Qiu suddenly came up with an idea.

He immediately returned to the clouds and appeared next to the river. Then he moved and quickly flew toward the place where everyone gathered.

Seeing John Doe, everyone breathed a sigh of relief. They had been looking for John Doe for a long time, but they didn't see him. They thought that John Doe had lost his way.

"I just heard you shout a few words. What were you shouting about? What did you find?"

Fang Qiu asked He Gaoming.

“It’s up ahead.”

He Gaoming pointed to the water source in front of them and said, “I just found this water source. I also found that we can see the situation below through this water source. We saw someone coming in from the outside. But I don’t know why we can’t see it anymore.”

“It turns out to be like this.”

Fang Qiu nodded with understanding and said, “This matter has something to do with me. The function of the water source you mentioned is that you could see the situation below. Maybe it has something to do with me!”

Chapter 1578 A Cultural Treasure

“Really?”

Everyone was stunned and looked at John Doe in confusion.

Just now, at the call of He Gaoming, everyone clearly saw the situation under the clouds in the river. Although they couldn’t see it now, nothing strange had happened during this period of time. How could the disappearance of the scene in the water have anything to do with John Doe?

Could it be that John Doe had triggered some kind of mechanism?

“Let me tell you the details.”

Fang Qiu said, “When I went to the other side of the mountain just now, I saw the river connected to the source of the water. I also saw the situation under the clouds in the river. I found that the Second Venerable of the Nirvana Organization has entered the ruins. He is now trying to climb up the Heavenly Ladder.”

“What?”

“Is that group really from the Nirvana Organization?”

“It seems that what the Sword Fanatic told you is right. Just now, we were sure that the group of people must be from the Nirvana Organization because of their clothes. We were not sure, but we didn’t expect the person to be the Second Venerable!”

The four patriarchs, Master Numinous, and the four gurus of the Sword Sect frowned at the same time.

They had all come into contact with the Nirvana Organization before.

They also understood how powerful the Venerables were in the Nirvana Organization.

In the past, the strength of Seventh Venerable alone was already a headache for them.

They didn’t expect that the Second Venerable would come this time and bring so many people!

“At that time, I heard He Gaoming shouting and was about to come over and tell everyone about the situation, but I was attacked by a big fish. While chasing after the big fish, I went to the bottom of the river and reached a strange space. After I came out, I mastered the channel to enter and exit the relic at will.”

At this point, everyone was surprised.

A way to get in and out of the relic at will?

Could he go out and in the relic at will?

Was he so powerful?

However, Fang Qiu didn't stop. Instead, he continued, "After mastering this method, I tried to go out and meet the Lord Virtuous of the Nirvana Organization at the gate."

Hearing this, everyone's expression changed drastically in an instant.

"Is the Lord Virtuous of the Nirvana Organization here?"

"We mentioned him before, but I didn't expect him to come!"

"Has Lord Virtuous of Nirvana really reached the One-Flower Core Formation?"

"If he is so powerful, none of us would be a match for him!"

Everyone asked one after another, looking a little worried and nervous.

"Yes."

While everyone was asking, Fang Qiu nodded without hesitation and said, "Lord Virtuous does have the strength in the One-Flower Core Formation. When I just went out, he attacked me and wanted to kill me. Fortunately, I mastered the method of entering and leaving the ruins at will. I returned to the ruins.

"Later, I found that in addition to the members of the Nirvana Organization, another group of people came.

"But they seemed to be sent flying as soon as they entered the ruins.

"I went out to have a look."

"I found they were from the Seven Kingdoms headed by Murica. Two gurus from each of these countries formed a team of fourteen gurus.

“They were tricked into the ruins by Lord Virtuous and sent flying by the domineering Qi of Heaven and Earth in the ruins. They all got injured and fought against Lord Virtuous.

“However, those fourteen gurus from the Seven Kingdoms are not easy to deal with. Lord Virtuous didn’t have the upper hand in the battle with them.

“In the end, both sides suffered losses. The gurus of the Seven Kingdoms were ready to escape, but they were all killed by Lord Virtuous and me!”

Speaking of that, Fang Qiu finally stopped.

Everyone was also shocked.

They didn’t expect Fang Qiu to go out and kill all the foreign gurus during this period of time.

After listening to the whole story, what shocked everyone the most was that John Doe had mastered the passage to enter and exit the ruins at will.

This kind of thing was so unbelievable.

That was to say, as long as this relic existed, John Doe would be invincible.

As long as he wanted to, he could enter the relic instantly so that no one could hurt him.

“Have you joined forces with Lord Virtuous to kill the gurus of the Seven Kingdoms?”

Master Numinous asked in disbelief.

“Yes.”

Fang Qiu nodded and said, "How could I let foreigners break into the relic of Huaxia at will? Since they had come here, I couldn't let them go easily. The most important thing is that everyone was inside the relic and knew nothing about the situation outside. If I had let any of them off and attracted many guided missiles, it would be a little terrible."

Although they couldn't understand why John Doe joined forces with Lord Virtuous, everyone nodded in agreement.

However, in the face of fourteen gurus, only by joining forces with Lord Virtuous could John Doe kill all of them!

"Didn't the Lord Virtuous attack you?" Diwu Mingchuan asked.

"He wanted to."

Fang Qiu sneered and said, "However, in the fierce battle with the fourteen gurus, he was besieged and injured. He consumed a lot of internal Qi, so he didn't dare to act rashly. I also consumed a lot of internal Qi, and I was not sure if I could defeat him, so I went straight back to the relic to recover."

"The Lord Virtuous has been injured and consumed a lot of internal Qi. That is to say, he is at his weakest now!"

A guru of the Sword Sect stood up and said, "This is a great opportunity. Why don't we go out together and join forces to drive away the Lord Virtuous?"

Everyone's eyes lit up.

"I went out again just now."

However, Fang Qiu shook his head and said, "He's no longer at the entrance of the relic. I searched carefully but didn't find any trace of him. This person is extremely cunning. He must have hidden in the distance to recuperate and regulate his breath!"

"What should we do?" Patriarch Qian asked.

"There is no time to lose."

Fang Qiu said, "Let's take action first. Take out all the treasures left by our ancestors. Then we can join forces to deal with Second Venerable and the others!"

"Okay."

Everyone nodded to show approval of his method.

They all knew they came here to protect the relic and bring the treasures back to Huaxia!

Now that they were in the ruins, the most important thing was to find all the treasures.

"We don't have much time left. Let's continue searching separately." Fang Qiu suggested.

Everyone dispersed again.

There were too many people and too many forces. Therefore, Fang Qiu was too embarrassed to let his own force occupy all the directions, so he called He Gaoming and the others to search the ruins together.

With the assistance of the tiny tripod, Fang Qiu could vaguely see something, the treasures hidden in the ruins.

Soon, Fang Qiu took He Gaoming and the others to the back of the thatched cottage. On the top of the mountain, they walked all the way to the peak of the mountain.

When they arrived at the highest peak, something appeared.

There was a reading desk at the peak of the mountain.

It was made of ordinary bluestone, five square meters. There was a stone block for sitting on it, and there was a rectangular stone table in front of the stone block.

Several bamboo slips were on the stone table!

The color of these bamboo slips was ruddy. They didn't look old at all. However, when people looked at them carefully, they could clearly feel an ancient aura.

“What is this?”

Seeing the bamboo slips on the stone table, He Gaoming rushed up excitedly, but he didn't dare to act rashly.

The other brothers were also very curious.

“Could it be some kind of technique?”

“It will be great if it's a technique.”

“The oldest is so amazing. He took us to find such a treasure so quickly.”

While everyone was discussing in surprise, Fang Qiu stepped forward, sat down at the stone table, picked up the bamboo slips on the stone table, and looked at them.

“What do you think? Is it a technique?”

The Sword Fanatic came up and asked.

“No.”

Fang Qiu shook his head with a smile and said, “It’s about culture.”

When he spoke, he even opened the bamboo slips for his brothers to have a look.

They looked at these bamboo slips and found it was really a cultural classic left by some talent in ancient times.

Everyone was very disappointed.

It was not easy to find a treasure, but it turned out to be a useless cultural classic. They were very depressed.

But Fang Qiu was very happy.

In his opinion, the cultural classics were the treasures of human culture. What was recorded on the bamboo slips were all lost things. There was no such complete copy in the world.

Moreover, these bamboo slips were well preserved.

No matter what, he had to take these things out and give them to the country!

“Give me your backpack.”

Fang Qiu waved to He Gaoming and said, "Pack up all these bamboo slips and take them out."

He Gaoming didn't question or ask.

He immediately did as Fang Qiu said.

After putting away the bamboo slips, Fang Qiu used the tripod to sense and found that there seemed to be something halfway up the mountain not far from them.

"Let's move on."

Fang Qiu led everyone to continue to explore.

After crossing two mountains, they came to the middle of the mountain where he sensed something.

"There's something strange with the Qi of Heaven and Earth here."

He walked to this place and found a field. Although it was not big, it was indeed a field.

But there was nothing planted in the field.

"Let's work separately and search around. If there is anything unusual, report to me immediately!"
Fang Qiu said.

"Okay."

Everyone nodded in response and immediately dispersed to this area to look for things.

Just as everyone scattered to search, Fang Qiu secretly drove his Divine Consciousness to go deep into the ground quickly.

The tiny tripod reminded him that there was something hidden here. Since it wasn't here on the surface, it should be underground.

With a stir of his mind, he tried to control his Divine Consciousness to go deeper quickly.

He found it was Breathing Earth in the field. Then he also found the Jade Marrow in the Breathing Earth. Although it was not much, it did exist.

“Could it be that a mysterious jade full of the Qi of Heaven and Earth can grow in the Breathing Earth?”

Fang Qiu suddenly came up with the idea.

Even he himself was shocked by this idea!

If that were the case, wouldn't that mean the mysterious jade would continue to flow?

Chapter 1579 A Huge Turtle Shell!

“This is a treasure!” Fang Qiu exclaimed in his heart.

Was this the Breathing Earth to be able to nurture and grow jade?

If this guess was true, he wouldn't have to worry about the shortage of mysterious jade in the future!

His brothers also finished searching around.

“We found two spiritual herbs, the oldest.”

Several of them walked over.

Fang Qiu looked around.

Actually, they almost found nothing.

“The end of the mountain range is up head.”

Fang Qiu looked ahead and said, “Everyone, follow me down the mountain and look around.”

He finished his words and took everyone down the mountain.

After finding around, they didn’t find anything.

Although Fang Qiu could vaguely feel the treasures in some directions with the help of the tripod, there were people searching. Almost all the things on his side had been searched out, so Fang Qiu did not take his people to compete with others.

After looking around, everyone returned to the front of the thatched cottage.

“It seems that you’ve all gained a lot.” Master Numinous smiled and glanced at the others.

Of course, everyone was observing and asking each other except for Master Numinous.

“What did you find?”

“I only found some spiritual herbs, but too few.”

“I am lucky. I found a weapon.”

“We found nothing here. It’s so depressing.”

“I found an Earth Treasure. Although it’s not ranked high, it’s also an Earth Treasure. The Qi of Heaven and Earth here is much richer than that outside. The Spiritual Qi of the Earth Treasure is strong. I think it should have a good effect. Ha...”

Everyone said one after another.

Of course, it was inevitable that someone had deliberately hidden something.

After all, they had found the treasures. Everyone put these things away once they found one. No one would deliberately target the people who got the treasures if they didn’t have any. Once they argued with each other, the atmosphere would be awkward.

Therefore, even though they knew someone had hidden something, they didn’t expose it.

Anyway, these things did not fall into the hands of foreigners.

Hearing their words, Fang Qiu took a closer look and found that everyone had come back. Judging from the directions of everyone’s search, the place seemed to have been completely searched. They couldn’t find anything more.

But it was strange.

Fang Qiu had a vague feeling that there seemed to be something important that had not been discovered.

In the beginning, after Fang Qiu got the tripod, he felt something important in the relic. It should be many times more important than those treasures he could sense.

However, there were many treasures. Fang Qiu didn't pay much attention to them. After all, it was just a feeling, and he couldn't fix its position.

As the treasures were found everywhere, Fang Qiu could feel fewer and fewer treasures. Now there was nothing left except for the important thing he felt.

Without guidance, he had no idea where it was!

Thinking of this, Fang Qiu sat down cross-legged.

While everyone was discussing what treasures they had obtained, Fang Qiu focused on the tripod in his body and carefully sensed the relic.

All his Divine Consciousness completely went into the small tripod.

As his Divine Consciousness entered, with a stir of his consciousness, Fang Qiu immediately found that he seemed to be in the sky above the entire relic. He was looking at it from the perspective of God.

The remnant was very fuzzy, not very bright and clear.

With a flash of wit, Fang Qiu immediately calmed down.

Gradually, the blurry ruins in front of him began to light up.

When Fang Qiu devoted himself to it, everything in front of him was lit up!

He saw everything in the ruins.

He even saw Second Venerable and the others who were still working hard on the Heavenly Ladder. They would succeed soon.

“Where is it? Where?”

He didn't pay attention to the Second Venerable and immediately began to look for the very important thing.

But after searching once, he couldn't find any clue at all.

“It's not underground, in the water, or on the mountain. Where can it be?”

“Where can't I sense?” Fang Qiu murmured in his heart.

Thinking of this, Fang Qiu was suddenly stunned.

Was it air?

No! It was the void!

“Yes. Only the void is like this. The void looks empty and is habitually ignored. But the void is also a space. As long as it is a space, it can hide something!”

Thinking of this, Fang Qiu immediately began to explore the void.

Then he noticed something strange in the void. It was as though something was covering it. He couldn't see anything inside the tripod. He could only see something transparent.

Fang Qiu immediately opened his eyes and woke up.

Then he looked up into the void.

He suddenly waved his right hand.

A torrent of Qi of Heaven and Earth gathered from all directions. Then he controlled it to rush to the void above.

It was not an attack.

He simply controlled the surge of the Qi of Heaven and Earth.

The Qi of Heaven and Earth quickly gathered in the void and formed a huge energy vortex. Fang Qiu couldn't control this energy vortex. As it spun rapidly, it caused a strange phenomenon in the world.

Then the entire vortex quickly turned violet as if it was a propitious omen.

At this time, the other people also noticed the strange phenomenon in the void and looked up.

The purple vortex in the sky expanded rapidly. In the blink of an eye, a huge turtle shell appeared in the void!

The turtle shell looked ancient and shocked everyone.

Fang Qiu, who had been paying attention to the void from the very beginning, began to look carefully at the turtle shell.

He focused his eyes on it and saw the words, Flower Core Formation, carved on it.

The words flashed by.

The others didn't see these words at all.

Fang Qiu only saw them for a moment.

Fang Qiu was shocked!

He knew this was the real treasure.

This turtle shell was the most valuable in the relic.

“Flower Core Formation?”

“Did it mean that the turtle shell records the secret of the Flower Core Formation and its cultivation method?”

“There had never been a way to cultivate the Flower Core Formation in Wulin. Nowadays, the experts in Wulin in the Flower Core Formation were rare. They had all fumbled their way out by themselves.

“Did the words engraved on this turtle shell mean there was a cultivation technique that could let the gurus reach the Flower Core Formation?”

Thinking of this, Fang Qiu got excited.

“I must get this turtle shell!”

Swoosh!

Suddenly, a purple light flashed from the turtle shell. The crowd felt a flash before their eyes and was sucked into the turtle shell in the void.

Not only everyone on John Doe’s side but also Second Venerable and the others who were working hard on the Heavenly Ladder were sucked in at the same time.

Everyone appeared in a space covered by a faint layer of purple fog. The space was dark, but everyone could see each other clearly.

“Nirvana Organization?”

Just as everyone turned their heads to observe the space, a cry of surprise suddenly came.

Fang Qiu immediately rushed up.

Master Numinous and the others also rushed over in an instant.

They saw Second Venerable and dozens of incapable gurus behind him!

“Let’s see how you will escape!”

Seeing John Doe, the Second Venerable immediately threw a punch at him.

Fang Qiu waved his right hand.

He threw a punch to resist.

The others also took action one after another, ready to fight against the members of the Nirvana Organization.

However, seeing the battle between John Doe and Second Venerable, everyone stopped.

John Doe’s fist collided with that of the Second Venerable. It didn’t make any sound or burst out any energy Qi.

The two fists penetrated each other as if they were transparent.

Everyone was stunned.

Fang Qiu stopped.

Everyone began to try.

It turned out that everyone seemed to be a shadow or a spirit in this space. They could only see each other but could not attack each other.

In other words, they couldn't fight even if they wanted to.

Buzz!

Just when everyone was speechless, a gust of wind blew past.

The violet mist in the air dispersed, and the entire space became slightly brighter.

At the same time, a huge shadow was reflected on everyone.

Everyone turned to look and found a giant stele at the center of the space in front of them.

This stone stele was extremely enormous.

They took a closer look and saw the word, Tao, carved on its front.

Everyone was puzzled and hurried over.

Then they found the word, Qi, engraved on the back of the stele.

After seeing these two words, everyone felt it was extremely mysterious.

Fang Qiu immediately understood the purpose of the stone stele was to let people understand the words on it!

“No matter what, I have to get the turtle shell!” Fang Qiu gritted his teeth and made up his mind.

At this time, Second Venerable and the others were still here. No matter what, he definitely couldn't let them obtain it.

Perhaps the key lies in the three moves of Ren.

Fang Qiu remembered that when he first entered the relic, he sensed the great void through the void. That was to say, this turtle shell must have something to do with three moves of Ren.

And the inscription on the stone stele in front of him was the real treasure!

Everyone sat down cross-legged and began to meditate.

After they sat down, they immediately felt a huge force pressing down on their heads like a big mountain, making them unable to get up at all.

A voice suddenly appeared in everyone's mind.

“Come! Come forward.”

Hearing this voice, everyone wanted to stand up and walk forward, but they felt it was very difficult.

Second Supremacy was the first to stand up.

He glanced at the crowd and walked forward step by step.

But after only ten steps, he couldn't help but kneel on the ground under the pressure of the inexplicable huge power.

The others also stood up.

However, all the people below the level of guru could no longer move after taking one step.

The expert in the guru could take a few more steps.

When they really couldn't go up, they habitually turned their heads and looked at John Doe, only to find that John Doe was still sitting there, motionless!

Chapter 1580 There Is Such a Huge Gap Between John Doe and Them!

He sat cross-legged on the ground.

Fang Qiu looked at the words on the stele.

Of course, he knew that Tao and Qi were ancient.

Although the two words could not be seen on one side at the same time, Fang Qiu, who was sitting cross-legged on the ground, could clearly see the whole stele seemed to have become transparent.

It seemed the two words had overlapped.

Something was surging like the clouds and the wind.

Therefore, Fang Qiu didn't care about other people's gazes and focused all his attention on the stele.

As he looked at it, something flashed in front of Fang Qiu. He saw countless words.

They didn't appear in front of him but in his mind.

These words were constantly rolling as if being swept by a force. They vaguely formed a figure practicing something.

It was very blurry just like when he was observing the entire ruins within the tiny tripod. It was so blurry that he couldn't see it clearly at all.

Fang Qiu calmed down and concentrated, trying to see it clearly as before.

However, after looking at it for a long time, he still couldn't see it clearly.

"Come here! Be quick to come here."

He heard the voice.

It was as if the person formed by those words was talking to him and waving at him.

"Could it be that I can only see it clearly when I get close?"

Fang Qiu came up with an idea.

He stood up.

He also felt a kind of heaviness pressing down on him like the others, but he could bear this kind of heaviness easily. It couldn't stop him at all.

At this time, everyone turned their heads and looked at John Doe.

“He got up.”

“Is John Doe also going to move forward?”

“How many steps can he take?”

“Master Numinous has only taken ten steps. The four patriarchs only took eight steps before they stopped. The Second Venerable of the Nirvana Organization has also taken ten steps, and the four gurus of the Sword Sect have taken nine steps. Can John Doe surpass them?”

“John Doe has always been strong. It seems that the steps we can take have a lot to do with our own strengths. That is to say, John Doe can at least take 8 steps, but I don't know if he can surpass the Second Venerable of the Nirvana Organization!”

Everyone began to discuss in a low voice.

However, Fang Qiu didn't hear these people's words at all. He still looked at the vague figure composed of words in his mind and walked forward step by step.

With each step, Fang Qiu would surpass some people.

At this moment, both the people by his side and the members of the Nirvana Organization were all focused on him.

Clatter! Clatter! Clatter!

With the sound of footsteps, Fang Qiu took the tenth step!

Now, he was on the same level as Master Numinous and Second Venerable.

Everyone was stunned.

Everyone from Huaxia was very happy.

They all knew it meant John Doe was no weaker than Second Venerable and their side did not lose to the Nirvana Organization in this matter!

At this time, everyone from the Nirvana Organization was also stunned.

They didn't expect that John Doe would be able to take so many steps.

Everyone was shocked that John Doe hadn't stopped yet!

Under the gazes of disbelief, he took the eleventh step, the twelfth step, the thirteenth step...

He kept walking as if he couldn't feel the tremendous pressure. He didn't stop.

It shocked everyone present.

Now, they could personally feel that kind of feeling. They felt that they were about to collapse under the pressure even if they stood still, not to mention walking such a long distance like John Doe.

Seeing that John Doe was still walking step by step, some people who had not reached their limit also began to try to take a step forward.

However, as soon as they took a step forward, the pressure they felt suddenly multiplied for no reason!

The immense pressure pressed down on them so hard that they couldn't even walk properly. They bent down and couldn't bear the terrifying pressure at all.

This kind of situation shocked everyone.

The pressure doubled with every step they went forward.

In this case, how could John Doe go so far?

Everyone was shocked and looked up at John Doe again.

John Doe was still walking and had not stopped yet.

The square was very large.

It was about a hundred steps long.

At this time, John Doe had already taken more than 50 steps to the center of the square, only 50 steps away from the stele.

It was strange that John Doe hadn't slowed down after walking for such a long time.

Although it could be seen that John Doe was indeed under great pressure, the pressure was not enough to make him fall down. On the contrary, it encouraged him to move forward.

Of course, Fang Qiu could also feel tremendous pressure just like everyone else.

He could hold on!

Unlike other gurus, he was a guru who had recultivated, and he almost stepped into the Flower Core Formation of Dantian. Therefore, although the pressure was very great, it was not unbearable!

With every step he took, Fang Qiu was fighting against the tremendous pressure.

Under everyone's shocked and indescribable gaze, he continued to take another 40 steps and came to the place only 10 steps away from the stele.

Fang Qiu wanted to go on.

However, when he reached this place, his footsteps began to become unsteady. When his feet landed, his body swayed.

The pressure on him was so great that even he could not bear it.

Now, he was only ten steps away from the stone stele.

Fang Qiu gritted his teeth, ready to take a few more steps forward.

But the pressure was too great. No matter how hard he tried, his body couldn't move at all!

It was as if his entire body had frozen.

He couldn't even lift his feet.

Seeing that John Doe could walk so far, the Second Venerable couldn't help laughing out loud.

He had fought with John Doe before, so he knew that John Doe's strength was about the same as his. Since John Doe could reach that place, he must be able to do it too!

Clatter!

The Second Venerable stepped forward and sped up, attempting to force his way in.

The Second Venerable moved very fast, about to catch up with John Doe.

Seeing this, the four patriarchs, Master Numinous, the four gurus of the Sword Sect, and the Sword Fanatic set off one after another. They gritted their teeth and continued to move forward.

He Gaoming and the others were the same.

They knew that this situation was beneficial to them.

Not a single one of more than thirty brothers gave up. Even though the veins on their bodies were bulging and their faces were red, they continued to lift their feet with all their might, attempting to take half a step forward.

In a situation where Fang Qiu couldn't move forward, he secretly breathed a sigh of relief and then quietly closed his eyes to rest.

But as soon as he closed his eyes, he found that his muscles and bones seemed to have mutated.

Traces of golden light could be seen in his muscles and bones.

It turned out that the golden internal Qi was separated from the meridians and Dantian and began to penetrate his muscles and bones.

“What happened?”

Fang Qiu was shocked.

He didn't expect such a thing to happen.

“Could it be that the pressure here is used to strengthen our bodies and our bones?”

Fang Qiu pondered while feeling the conditions of his body.

He found his skin, his flesh, blood, tendons, veins, and cells were ruthlessly squeezed under tremendous pressure.

At the same time, the golden internal Qi didn't resist the pressure at all. On the contrary, it had been strengthening his flesh, blood, bones, and meridians.

Clatter! Clatter! Clatter!

Second Venerable caught up with Fang Qiu all the way. When he was ten steps away from Fang Qiu and twenty steps away from the stele, he stopped unwillingly.

He really wanted to continue forward and catch up. However, his body seemed to be locked, let alone lift his feet.

It was even difficult to move his toes.

He was unwilling to give up.

He didn't think he was inferior to John Doe.

He felt he must be stronger than John Doe. If they fought head-on, he would be able to defeat John Doe.

But he couldn't go up anymore.

Not to mention ten steps, he couldn't even take half a step.

He was very shocked in his heart.

He didn't understand how John Doe resisted such huge pressure. He was an expert at the same level as John Doe, and they were both super experts only one step away from the One-Flower Core Formation.

Why?

Why did John Doe take ten more steps forward than him?

The pressure they had to bear with every step they took was doubled. That was to say, the pressure John Doe bore was ten times stronger than that of him.

It was even more than 10 times!

“How can this be possible?”

“The pressure here is already so great. How could John Doe bear so much pressure that he didn't even bend down?”

The Second Venerable was shocked.

Seeing this, all the people of Huaxia breathed a sigh of relief when seeing this scene.

Fortunately, Second Venerable did not surpass John Doe.

Now, Master Numinous had already walked behind the Second Venerable. He was only three steps away from the Second Venerable, but he was still moving forward.

In the end, he stopped a step away from the Second Venerable and could no longer lift his feet.

The four patriarchs, the Sword Fanatic, and the gurus of the Sword Sect followed closely behind. Some of them were only three to five steps away from Master Numinous, while some were ten steps away from him.

The people following were He Gaoming and his people. They were followed by the people from the eight factions and sixteen sects.

The incapable gurus of Second Venerable had been left far behind.

Although that group of people were gurus, they were incapable gurus. Their physical conditions and willpower were too fragile. They couldn't even compare with He Gaoming and the others. They were even ridiculed by the people from the eight factions and sixteen sects.

If it weren't for the fact that they couldn't fight here and bump into each other, they would have started fighting a long time ago.

Not long after, everyone stopped.

They found that they couldn't move anymore.

Right at this time, John Doe, who was at the forefront, lifted his foot again.

All the people present were dumbfounded.

Could John Doe continue to move forward?

How could it be?

How could he do that?
