Chapter 1581 The Real Technique of Flower Core Formation

With a clatter, his foot landed heavily.

John Doe took another step forward.

It could be seen that John Doe took this step with difficulty, but he succeeded.

Even though the pressure rose again, John Doe still stood straight and didn't seem to bend down.

Seeing this, everyone was shocked.

No one had expected it.

In this case, John Doe could even take this step.

They couldn't imagine how much pressure and pain John Doe had borne after he took this step. Even the Second Venerable of the Nirvana Organization was 20 steps away from the stone tablet. However, John Doe was only nine steps away from it now.

It was unbelievable.

This was not the end.

After the step, everyone's eyes were still focused on John Doe. They saw that John Doe, who had just stopped, raised his foot again and took another step forward.

Everyone was stunned!

They were shocked.

How could John Doe move forward again?

How did he do it?

Even Master Numinous and the others couldn't hide the shock on their faces. Others didn't know, but they knew it very well.

At their level and their distance, with every step forward, they had to bear the risk of being crushed to death by this pressure!

Of course, Kung Fu practitioners were not afraid of death.

They could take a step forward forcefully, but under such pressure, they couldn't even commit suicide. Not to mention walking, it was very difficult for them to move their fingers.

How could John Doe move on?

“John Doe, how strong are you?”

Seeing John Doe from behind, Master Numinous exclaimed secretly with shock in his eyes.

Now, he truly felt John Doe's growth had exceeded their expectations. John Doe was no longer just a newbie in Wulin a year ago. They were amazed by him!

The Second Venerable was also confused.

He didn't expect John Doe could continue to move forward after surpassing him by ten steps!

This was truly horrifying.

Fang Qiu gritted his teeth, lifted his right foot, and stepped forward.

He couldn't move just now. Under the huge pressure, he couldn't even move his fingers. When he stood there, he had been frantically driving his internal Qi to run, trying to get rid of the pressure. However, he didn't succeed.

On the contrary, when he frantically activated his internal Qi, he found that the golden internal Qi in his body seemed to have dyed his blood golden.

It seemed that under that pressure, the golden internal Qi had a great effect on nurturing flesh and blood.

After being nurtured by the golden internal Qi, the flesh and blood almost squashed by the tremendous pressure gradually recovered.

As his flesh and blood recovered, Fang Qiu felt the power again.

The power that belonged to him had been firmly suppressed by this enormous pressure. Now, he no longer felt the power that he had used before but a new one. Even under enormous pressure, it could still support him!

This power supported him to continue forward.

Although every step he took, the pressure that Fang Qiu could feel would increase. He could even feel that his flesh and blood would be squashed again, but the golden internal Qi would surge and cultivate again.

He felt the pain as if someone had smashed his finger with a hammer. It hurt so much!

However, he did not give up.

He tried his best to restrain himself.

After his flesh and blood were flattened by the pressure, he waited for the golden internal Qi to nourish his body so that his flesh and blood could recover a little. When he had a little strength, he would continue to move forward.

After taking five steps, Fang Qiu couldn't move again.

The flesh and blood of his whole body were flattened by this huge pressure and nourished and healed by the golden internal Qi.

Now, his flesh and blood had been suppressed to the extent that they could no longer be squeezed.

When his fifth step landed, everyone heard the sound of Bone cracking from John Doe.

With every step he took before, John Doe, who never bent down no matter how much pressure he faced, suddenly trembled all over after taking the fifth step. His straight back could no longer support him and bent slightly.

Seeing this, everyone's mouth was wide open. All the Huaxia people were worried about John Doe for fear that John Doe couldn't hold on.

However, Second Venerable and the others stared at John Doe coldly. It seemed that they couldn't wait for John Doe to be crushed to death by this tremendous pressure.

"I won't stop. I'll go!"

At the very front, Fang Qiu roared in his heart.

He felt that he could still hold on. He felt he could move forward, but his legs were disobedient.

He closed his eyes.

“Although the power in my flesh and blood has been completely squeezed out, I still have bones!”

He let out a roar.

Fang Qiu forced himself to stand up straight with his back.

As a result, he saw his bones begin to shrink under the pressure as if they could no longer hold on and were about to shatter.

Right at this moment, the golden internal Qi surged over and nourished his bones.

It was the same as when his flesh and blood were nurtured.

The golden internal Qi helped Fang Qiu relieve a lot of pressure, quickly nurtured his bones, and drilled into the cracks caused by the pressure.

The cracks on the bones healed gradually and turned golden as if they had been glued together with golden glue.

As expected, Fang Qiu felt a new power in his body.

He took another step forward.

Fang Qiu felt a huge pressure on his bones once again.

More cracks appeared on his bones.

Meanwhile, the golden internal Qi also quickly spread out to his limbs and bones, covering every inch of his bones.

In this case, Fang Qiu saw his bones turn from white to gold gradually.

Then he took another step.

Every time a trace of power appeared in his body, Fang Qiu would take a step forward without hesitation.

He took three steps at a time.

When he was only one step away from the stone tablet, Fang Qiu stopped again.

This time, he felt no power left in his body.

His whole body was empty.

Almost all the bones in his body were cracked. The golden internal Qi constantly nurtured and healed his bones all over the body. Not only did it heal those cracks, but it also seemed to have rebuilt the bones. Fang Qiu could feel it.

The strength of his bones was rapidly increasing. When they were raised to the peak, they would completely turn golden!

Every time one of his bones turned golden, a trace of power would appear in his body.

But the power was too weak to support Fang Qiu to take the last step.

Fang Qiu was not in a hurry.

He was still waiting!

“What? Why is he still alive? How could he still be able to walk?”

Seeing that John Doe was only one step away from the stone tablet, the Second Venerable felt frightened.

The eyes of the people of Huaxia were full of expectation.

Everyone wanted to see what would happen after John Doe took the last step!

Fang Qiu closed his eyes.

He carefully sensed the state of his body and saw that his bones were turning golden, bit by bit. His power was already accumulating within his body.

When half of the bones in his body turned golden, Fang Qiu had accumulated enough power to take the last step, but he was not in a hurry.

Instead, he continued to wait under the pressure.

After a while, when all the bones in his body turned golden, Fang Qiu opened his eyes and took in a large gulp of air.

Fang Qiu controlled the new power in his body. Under everyone's gaze, he lifted his right foot and took a step forward.

It was the last step.

Buzz!

When his foot landed, Fang Qiu clearly felt that the pressure he was under instantly increased several times. The huge pressure suddenly pounced on him as if it was going to turn him over.

Luckily, Fang Qiu resisted the huge pressure after accumulating enough strength. Many people exclaimed with their eyes and mouths wide open. Then he stood steadily.

At this very moment, Fang Qiu had no time to see how shocked the others were.

The moment he stopped, Fang Qiu found that the figure formed by the words in his mind suddenly became clear.

At this time, the words on the huge stone tablet instantly turned into an image and appeared in front of Fang Qiu.

He saw it.

It was the cultivation method of the Flower Core Formation.

It was true.

The first step was to strengthen his Dantian!

Fang Qiu saw the figure composed of words using this way. However, the Dantian of this figure looked different from that of an ordinary person.

Fang Qiu saw an ordinary man's Dantian was very small, only the size of a fist.

The flower in such a Dantian was also small.

It was considered the weakest.

Cultivators with expanded meridians could have a Dantian the size of two fists. With that kind of Dantian, it could produce a middle-grade flower.

It looked much better than the first one. After all, with the expansion of the meridians, his Dantian would also grow, and he would get some benefits.

However, the Dantian almost as big as four fists combined attracted Fang Qiu the most.

With a glance, Fang Qiu knew the Dantian was the best and the top one. The flower produced by its cultivation would be top-grade.

Therefore, if he wanted to produce the most perfect flower, he had to expand his Dantian to the extent that it could no longer be expanded. Then, the shadow of the flower would grow bigger in his Dantian, and it could produce a real top-grade flower.

Seeing all this, Fang Qiu understood.

However, the scene in front of him was not over yet. In addition to the first step of cultivation of the Flower Core Formation, Fang Qiu also saw how to form two flowers, how to form three flowers, and even how to let the three flowers merge.

This was what the ancient sages mentioned — Three Flowers Gathered into One!

Chapter 1582 Strengthening the Dantian and Enlarging the Illusion

The scene in front of Fang Qiu let him see a higher and further road. The road that he had been confused about and didn't know how to take in the future became extremely clear at this moment.

However, when he saw these things, the tremendous pressure was still pressing on Fang Qiu.

He felt as if he was a weight-bearing athlete.

It was not surprising that he could lift something weighing hundreds of kilograms, but it was difficult to hold on. Even in a big competition, an athlete had to hold on for a while before the person could get an effective result, right?

Even though he had seen everything in front of him, Fang Qiu didn't step back to relieve the pressure on his body. Instead, he sat down cross-legged and closed his eyes to rest and bear the pressure.

Although Fang Qiu had found what he needed, this place was good for training his body. How could he let go of such a good opportunity?

The most important thing was that although all the bones in his body had turned golden now, Fang Qiu could still feel that the power in his body had not been fully developed yet.

Once he couldn't endure the pain, chose to retreat, and missed this opportunity, it wouldn't be easy for him to obtain such an opportunity again.

He took a deep breath and closed his eyes. Under great pressure, he began to examine his body.

Then he immediately found that his bones had changed again.

Fang Qiu could see what happened in his body clearly.

In his body, the bones that had turned golden slowly faded away at this moment. When the golden color slowly dissipated, the bones directly became almost transparent.

It shocked Fang Qiu.

He didn't expect the bones to become transparent.

Although it sounded a little scary, Fang Qiu could feel that the strength of his bones had become extremely high.

He had never seen such a powerful skeleton before. It was even much stronger than the golden skeleton he had just now.

"It's indeed a good place to improve myself."

Fang Qiu was shocked.

Even the strength of his bones could be improved to such an extent.

What about his realm and strength?

Once they were also improved, the result would be far beyond his expectations.

"If I want to form flowers in my Dantian, I need to expand my Dantian first. Why don't I do it now?"

Fang Qiu came up with the idea.

He was ready to start and strengthen his Dantian.

"How to let my Dantian grow stronger?"

Fang Qiu raised his eyebrows and began to think.

He remembered that he had strengthened his Dantian before. At that time, it seemed to be beyond his expectation. He gathered all his internal Qi into his Dantian, absorbed a lot of Qi of Heaven and Earth, and forcibly expanded his Dantian.

In this space, although they could not collide and fight with each other, he could absorb the Qi of Heaven and Earth here. The world inside the turtle shell was particularly rich in the Qi of Heaven and Earth. Otherwise, such huge pressure couldn't exist.

Without any hesitation, Fang Qiu directly used the guiding technique to absorb the Qi of Heaven and Earth quickly.

Under the huge effect of the guiding technique, it only took him one minute to absorb the Qi of Heaven and Earth and fill his body.

As the Qi of Heaven and Earth entered his body, Fang Qiu immediately began to control all the Qi of Heaven and Earth to rush into his Dantian.

First, he expanded it with his internal Qi.

After a large amount of internal Qi poured in, his Dantian suddenly shrank. The internal Qi that flowed into it immediately began to rotate rapidly, condensing into a vortex very fast.

With the formation of the vortex, his Dantian, which had just shrunk, began to slowly stretch and expand.

The appearance of the vortex in his Dantian undoubtedly increased the attraction of his Dantian to the internal Qi. Then, Fang Qiu absorbed the Qi of Heaven and Earth into his body and poured it wildly into his Dantian.

Gradually, there was more and more Qi of Heaven and Earth in his Dantian.

It was like blowing Qi into a balloon.

Their Dantian began to expand.

However, this kind of expansion made Fang Qiu feel uncomfortable as if his Dantian would be torn apart and pulled forcibly. He felt very uncomfortable.

It was clear that the expansion wouldn't enlarge his Dantian directly.

“What else do I need?”

Fang Qiu thought to himself.

“Oh! I almost forgot it.”

Suddenly, he saw wisps of golden internal Qi flowing back from the bones in his body.

He remembered it.

Last time, his Dantian was strengthened because of the golden internal Qi!

Without hesitation, Fang Qiu immediately gathered all the golden internal Qi and injected it into his Dantian.

As a result, when all the golden internal Qi was injected into the Dantian, the feeling of the Dantian being torn apart gradually disappeared.

Nor did he feel the expansion of his Dantian.

Then he felt normal as if the growth of Dantian should be like this.

He looked at it. After the golden internal Qi poured in, Dantian expanded more, and it was much faster than before.

At this time, Fang Qiu could feel that his Dantian was growing.

In addition to the growth of his Dantian, Fang Qiu also saw that as his Dantian grew, the shadow of the lotus grew stronger and more solid.

It was not far from condensing and producing flowers.

But now, it seemed impossible for him to completely condense the shadow.

He had to ruthlessly force it once and mobilize all his strength. Only by completely stimulating his potential could he cross the last threshold and become an expert within the One-Flower Core Formation.

“It became the size of four fists, twice as big as before!”

After completing the cultivation, Fang Qiu was satisfied with the result of his cultivation just now.

His Dantian doubled after recultivation once. Now, during this period of cultivation, his Dantian had doubled again.

Moreover, it was different from the first time.

The expansion let his Dantian reach four times the original size of his Dantian. It had reached the strongest level recorded on the turtle shell. Once it produced a flower, it would be top-grade.

That was to say, Fang Qiu was ready for everything except for producing flowers.

With a long breath, Fang Qiu opened his eyes and stood up.

The pressure still existed, but it didn't seem to be as unbearable as before. At least, Fang Qiu didn't feel it difficult to get up.

He looked at the stone tablet again and found that everything on it had disappeared.

The words on it still existed, but all the things he could see just now had disappeared.

He was puzzled.

Then he stretched out his right hand and gently touched the stone tablet.

As soon as he touched the stone stele, everything in front of him suddenly changed.

The scene quickly receded from one direction like a seven-colored tide.

Boom!

The next moment, a muffled sound was heard.

The air in this space seemed to have encountered a strong blow. An extremely strong fluctuation of energy Qi burst out and rushed in all directions.

Before they could react, they were sent flying by the strong energy Qi!

The first one to bear the brunt was Fang Qiu closest to the stone tablet.

For a moment, the world was spinning in his eyes.

Suddenly, the space in front of everyone suddenly became stable.

Now, everyone stood still on the lawn in front of the thatched cottage. Everything they had seen just now seemed to be a dream. Even their previous movements before entering the space just now had not changed.

“Was it true just now?”

“Weren’t we sucked into that huge turtle shell?”

“Has the pressure on the stone tablet disappeared?”

“Was that an illusion just now? Did you experience the same thing as me?”

“I also went into the turtle shell. I also saw the Second Venerable of the Nirvana Organization. I saw John Doe walking to a huge stone tablet, and the others went toward it.”

“Me too. I saw it too.”

“Could it be that everything just now was real?”

Everyone began to talk about it.

After they talked about it, everyone found that it was true!

“Look!”

Suddenly, a strong man stood up and said, “There is a stone tablet over there!”

Hearing that, everyone immediately turned their heads.

They found a huge stone tablet in the distance. It looked the same as the one they had seen just now, but it was too far away and looked unrealistic.

“John Doe, have you seen anything on the stone tablet just now?” Master Numinous asked.

Everyone also focused on John Doe, waiting for his answer.

“Yes.”

Fang Qiu nodded and said, “I saw the image of cultivating on it and saw a higher and further road!”

They were all surprised.

Did the road refer to reaching the Flower Core Formation beyond the gurus?

No one asked any more questions.

John Doe had already answered. If what he saw could be said, he would not hide it.

Boom!

Right at this moment, there was a sudden burst of Qi.

Everyone immediately looked over.

They saw more than 30 people, including He Gaoming, sitting cross-legged on the ground with a breakthrough aura. At a glance, the strength of these 30 people had all improved by a stage.

When this group of people appeared, everyone was surprised.

They didn't expect that the group's strength would improve again in such a short time after entering the relic.

They had improved too fast.

The four patriarchs all shook their heads.

If they had known it earlier, he would have brought more people of his family here. At the very least, they could have improved.

The People from the eight factions and sixteen sects all sat down cross-legged and began to comprehend.

At the same time, the Second Venerable and the others also returned to the Heavenly Ladder.

"What's going on?"

When coming back to his senses, the Second Venerable's face was full of shock. He didn't know how he came back, nor did he know whether what had just happened was true or not. He carefully scanned his surroundings but found nothing special.

He had no choice but to continue repairing the Magpie Bridge.

After an unknown period of time, everyone opened their eyes one after another. Their strength had improved a lot.

Chapter 1583 Fighting Second Venerable Again!

As soon as they opened their eyes, everyone's eyes fell on John Doe.

After comprehending just now, everyone felt that the tremendous pressure they bore in the turtle shell was also very beneficial. It was a great benefit.

Many people could not improve their cultivation for the past few years.

After this baptism of immense pressure, their cultivation improved a lot.

Therefore, the turtle shell was extraordinary, and the stone tablet was even more extraordinary.

They could make such progress even though they were so far away from the stone tablet. What did John Doe get after he walked up to it?

Everyone was very curious.

Although Master Numinous had asked him before and John Doe had answered, no one knew what John Doe had gotten.

They didn't see how John Doe had improved his strength!

However, everyone had a tacit understanding, so no one asked.

Everyone knew that John Doe had already said what he could say. After entering the relic, John Doe always behaved very frankly. He never hid anything he got or found.

Since John Doe didn't want to talk about it, there must be a reason.

Moreover, that was the road above the guru. Even if John Doe told them about it, they would not understand.

“You’ve all improved a lot.”

Fang Qiu opened his eyes and looked at everyone with a smile.

Everyone nodded.

Everyone’s face lit up with joy.

“Should we take action next?” The guru of the Sword Sect asked.

“Yes.”

Fang Qiu nodded and said, “Since everyone’s strength has improved, and we have searched for all the treasures in the ruins. It’s time for the big battle. Anyone who doesn’t want to participate in the battle can stand here.”

They all shook their heads.

“We’re here to fight.”

“That’s right. Everyone has made progress. It’s time to verify our strengths.”

“There is no coward in Huaxia!” Everyone spoke up fervently.

“Okay.”

Hearing everyone’s response, Fang Qiu nodded with satisfaction and said, “Next, I will use the channel I can enter or get out of the relic at will to take you back to the gate of the relic. Then, let’s go straight to the Heavenly Ladder to annihilate the Second Venerable of the Nirvana Organization!”

Everyone's eyes were full of fighting intent.

This time, no one below the eighth class came.

In the previous battle, all the people below the guru brought by the world were killed by the guided missiles. In the face of the gurus, they couldn't take action and could only watch several gurus fight against each other. Now, they finally had an opportunity to guru.

When learning that the people of the Nirvana Organization who followed Second Venerable were all gurus, everyone was very worried.

After entering the turtle shell, they found that the so-called gurus were not more powerful than the Half-step Gurus. Some of them were even no match for the Half-step Gurus.

This gave everyone hope.

After all, the leaders of the eight factions and sixteen sects were almost all Half-step Gurus.

For them, the gurus were the best opponents to help them improve. At the same time, they could give enough experience to the eighth-class and ninth-class experts under their command.

He Gaoming and the others were already rubbing their hands.

They had already fought against the incapable gurus.

Although they knew that they couldn't win, they had many brothers.

After this improvement, the strength of He Gaoming and Li Boqing had been upgraded to the ninth class with two opened meridians. After entering the Completion, they would be a match for the Half-step Gurus.

The other brothers also broke through to the Completion of the eighth class.

Although Wu Sanqing was only in the fifth class, the puppet in his hand also had the strength of the ninth class with two opened meridians.

Even if they couldn't defeat the other party alone, they could rely on their brothers.

Anyway, John Doe was next to them.

They couldn't wait to fight against a guru.

"Everyone, let's go." Fang Qiu waved his right hand.

He connected with others with his own energy.

With a stir of his mind, he controlled the tripod in his body and disappeared with the others in an instant. When they reappeared, he was already in front of the gate of the ruins.

The scene before them flashed across their eyes.

The scenery completely changed.

Everyone exclaimed. They didn't expect John Doe to have such an ability.

"Isn't he invincible in the ruins?"

"They are still on the Heavenly Ladder!"

A person suddenly pointed to the distance while in shock.

Everyone could see that Second Venerable and the others were still sitting on the distant Heavenly Ladder, preparing to form the Magpie Bridge.

They could see the Heavenly Ladder was very different from when they were in it.

Everyone remembered the first part of the Heavenly Ladder was in the middle of a layer of sparkling Qi of Heaven and Earth. The second part of the Heavenly Ladder appeared on a space crack.

But now, it seemed the first part of the Heavenly Ladder was gone.

The second part of the Heavenly Ladder step appeared on the distant sea.

“When we were on the Heavenly Ladder, we couldn’t see the sea at all. We could only see broken celestial bodies and spatial rifts. That is to say, they can’t see the other things now.” Diwu Mingchuan stood up and said.

“Yes.”

Master Numinous nodded and said, “The patriarch of the Diwu family is right. They certainly can’t find us. But judging from their means, the Magpie Bridge that connects to the broken Heavenly Ladder is about to take shape. We must go there before the bridge takes shape and keep them here!”

“Let’s go.” Fang Qiu shouted and took the lead to fly quickly toward the Heavenly Ladder.

Everyone followed closely behind.

They rushed all the way.

In the blink of an eye, they arrived at the seaside.

If Fang Qiu wanted to, he could have gone to where Second Venerable and the others were in an instant. But if he went there, Second Venerable and the others would find something strange and would be on guard. Therefore, Fang Qiu didn't do that.

Although the tripod in his body could help Fang Qiu move freely in and out of the relic, it only functioned in Fang Qiu.

He couldn't take others with him to perform such a technique.

He could only go to a fixed point.

Fang Qiu also tried to take everyone to the Heavenly Ladder. But as soon as the idea came to his mind, he felt that all the internal Qi in his body was about to be drained.

He couldn't afford to pay that price. Therefore, he could only bring everyone to the entrance without any consumption.

They rushed across the coastline.

John Doe, Master Numinous, the four patriarchs, the four gurus of the Sword Sect, and the Sword Fanatic in the first line rushed to the forefront.

He Gaoming, his brothers, and the experts from the eight factions and sixteen sects were behind them.

The big group of people stepped on the surface of the sea and rushed toward the Heavenly Ladder.

"It's almost done. We'll succeed."

On the Heavenly Ladder, the gurus of the Nirvana Organization clenched their fists tightly and cheered for the Second Venerable. They had seen that the connection of the Heavenly Ladder had reached the last step. As long as the last part was successfully connected, everyone could go up.

Crack!

Just when everyone thought they would succeed this time, the Heavenly Ladder, 99 percent of which had been finished, suddenly vibrated and shattered again.

They could only smile wryly.

The Second Venerable's eyes were still closed. It was as though he did not know that the Heavenly Ladder had once again shattered.

Just when these people didn't know if they should inform the Second Venerable, huge suction forces suddenly came from the fragments of the shattered Heavenly Ladder.

It quickly attracted the Qi of Heaven and Earth, let it gather, and began to condense it.

Swoosh!

At this moment, whizzing sounds could be heard.

A human figure came out from some dark spatial crack. It rushed to the Second Venerable's back as suddenly as lightning.

Slap!

A palm crashed down.

The Second Venerable, who was closing his eyes, was immediately sent flying by an enormous force.

At this moment, the beam of light that he tried hard to control seemed to be frightened and suddenly withdrew.

All the members of the Nirvana Organization were dumbfounded.

The fragments of the Heavenly Ladder, which had attracted the Qi of Heaven and Earth and were about to condense, shook rapidly as if they had lost their support at this moment. Then, they fell directly into the space rift below and disappeared.

Another failure caused the Second Venerable to roar with incomparable rage.

He didn't even care about the blood flowing from the corner of his mouth.

He opened his eyes and stared at John Doe fiercely.

This was the third failure.

The first failure was not a big deal because he had not found a way yet.

The second time, he found a way. When he was about to succeed, he was attacked by John Doe again.

This time, he had succeeded.

He had succeeded!

However, it was destroyed by a sneak attack from John Doe again.

This made him extremely angry. His heart was like a volcano, and the angry magma burst out.

“John Doe, I'll kill you!” He let out a roar.

The Second Venerable waved his hands.

Two long black whips like thorns immediately appeared in his hands. Without hesitation, he lashed them fiercely at John Doe.

Fang Qiu dodged quickly.

Right at this moment, those incapable gurus quickly surrounded Fang Qiu once again, trying to surround and kill Fang Qiu.

Whoosh! Whoosh! Whoosh!

However, before they could surround him, the sounds of rushing wind followed closely behind.

All the people from Huaxia had arrived.

“I’ll leave the rest to you.” Fang Qiu said to everyone and immediately rushed toward the Second Venerable.

Master Numinous and the others glanced at the other party.

They found that there were more than thirty incapable gurus following Second Venerable.

If every sect of the eight factions, sixteen sects, He Gaoming, and his people dealt with one, they would only deal with twenty-five people in total. The Master Numinous and the others would deal with the dozen left.

Although it was boring to fight with incapable gurus, everyone was happy to kill people from the Nirvana Organization.

Everyone believed that John Doe alone was enough to deal with the Second Venerable.

The strength of the Second Venerable was no match for that of John Doe at all in the turtle shell.

The battle began in an instant.

All the sects began to train their people.

At the same time, Fang Qiu moved closer to the Second Venerable.

Chapter 1584 Flower Core Formation!

Boom!

In this dark space, Fang Qiu collided with the Second Venerable with his fist. Huge energy fluctuations spread out in all directions.

The crowd around the two of them was pushed out.

Although they couldn't fly on the Heavenly Ladder.

However, the Heavenly Ladder was wide.

When everyone from Huaxia stood on the part of the Heavenly Ladder, they felt it was large. Now, even with the members of the Nirvana Organization, the space looked large.

They also left enough space for John Doe and Second Venerable to fight.

Both of them moved fast.

Fang Qiu moved fast and kept getting close to the Second Venerable to launch close attacks, while the two whips of the Second Venerable were fast.

With two whips in his hands, he waved them dazzlingly. Not only did he block John Doe, but he also kept attacking John Doe fiercely.

Even if he couldn't fly, the Second Venerable's combat strength was completely displayed.

“Humph!”

Fang Qiu couldn't get close to the other party and directly summoned his divine sword.

“Three-point Shadowless.”

He slashed out with his sword.

Three streaks of the sword light instantly merged into one and charged at the Second Venerable in an attempt to break his whips.

However, before the sword light could reach him, the Second Venerable waved the whips in his hands and tied up the sword light directly. He pulled it hard. The sharp thorns on the whip instantly broke the sword light into countless pieces.

Seeing this scene, Fang Qiu raised his eyebrows.

“The second move of the divine sword — Thunderbolt-absorbing Technique!”

He swung his sword again.

This time, it was not just sword Qi. The sword Qi was wrapped in a layer of purple lightning with a devastating aura. It was shocking and horrible.

Facing the sword Qi, Second Supremacy's expression changed drastically.

He immediately rushed out, trying to dodge.

However, as soon as he moved, John Doe suddenly appeared in front of him and blocked his way.

In just an instant, the huge sword Qi wrapped in thunder and lightning suddenly came to Second Venerable.

Without any hesitation, the Second Venerable immediately controlled the two long whips in his hands, and something like a shield quickly condensed in front of him. He tried to block the sword Qi with thunder and lightning head-on.

Boom!

The next moment, a huge energy explosion sounded.

When the two sides collided, the Second Venerable's body seemed to have suffered an enormous impact. He was forcibly knocked back several steps.

At this moment, the two long whips in his hands were also blown into pieces.

"It's time."

Fang Qiu moved and immediately rushed forward. His right hand holding the divine sword loosened. The moment the divine sword disappeared, he suddenly threw a punch at the Second Venerable.

Second Venerable's expression changed.

He still wanted to wave the long whips in his hands to resist, but he found that the long whips had been completely broken and could never be used again.

There was no other choice.

He could only throw away the long whips in his hands, raise his fist, and threw a punch at Fang Qiu fiercely.

Clang! Clang! Clang!

The next moment, the sounds of violent collision quickly came.

In the blink of an eye, the two of them had fought hundreds of rounds.

The crowd's battle was one-sided.

With the help of the ten gurus, each force and sect surrounded an incapable guru quickly. However, no one was in a hurry to besiege the other party. Instead, they surrounded and used the other party to train their people.

These incapable gurus felt they were played with and couldn't restrain their anger.

However, no matter how angry they were, they were powerless to resist.

Some people couldn't even stand the humiliation and committed suicide directly.

Seeing that the situation had stabilized, the ten gurus turned to look at the battle between John Doe and the Second Venerable.

They found the two of them were engaged in a fierce battle.

Both of them moved very fast.

None of the ten could be so fast. Even Master Numinous was not confident that he could keep up with the two all the time.

Moreover, every time their fists collided, a powerful energy Qi would burst out.

This was an eruption of pure power but not from the internal Qi.

They even saw when the two people in the battle station moved, even the part of the Heavenly Ladder under their feet was crushed by their great force. A footprint appeared on the Heavenly Ladder.

This situation shocked everyone.

Fang Qiu attacked crazily without defending.

He had just comprehended the truth of breaking through to the Flower Core Formation in the turtle shell and found the last step of producing flowers. The step was to completely burst out all his potential and activate the internal Qi in his meridians and Dantian so that it could run fast to the extreme.

It was like a car.

Only when the rotation speed was high enough could the speed be increased to the maximum.

Under normal circumstances, it was impossible for him to force himself to reveal all of his potential.

Therefore, Fang Qiu needed a fight, a particularly fierce battle.

Now, it had come.

He had to grasp the opportunity firmly.

He no longer had to deliberately endure the suppression of the enemy like before. He no longer needed the pressure from the enemy to force his potential.

Now, he needed to force himself to do everything he could to attack crazily in this evenly-matched battle.

With such a strong fighting spirit, he was immersed in this battle.

As expected, under the crazy attacks, the internal Qi in Fang Qiu's body began to accelerate.

The whole internal Qi system was just like that of the blood and heart of ordinary people.

His Dantian was like his heart, and his internal Qi was like his blood.

When fighting, every ordinary person's blood would flow faster, and their heart would beat faster.

Fang Qiu was in such a situation.

He could clearly feel that the Dantian was beating, and the internal Qi in the Dantian was rotating wildly. With the flow of the internal Qi inside the Dantian, all the internal Qi that went into the meridians of the Dantian seemed to be stimulated and accelerated to the extreme.

Even the golden internal Qi in his body turned into a golden light and flowed wildly!

With these changes in his body, Fang Qiu became faster and stronger.

The face of the Second Venerable gradually became gloomy.

He knew he couldn't fight John Doe in close combat anymore, but John Doe was too fast. He couldn't get rid of John Doe no matter what he did.

With a roar, the Second Venerable immediately burst out an extremely dense black and purple energy Qi from his body. The energy Qi enveloped his body and isolated him from John Doe.

However, John Doe was still punching wildly.

One punch after another kept hitting this layer of energy Qi.

Crack!

Just as the Second Venerable was about to take the opportunity to retreat, Fang Qiu broke the layer of energy Qi with his fist and rushed up again.

“Get lost!”

The Second Venerable's pupils suddenly contracted, and he roared at the sky in uncontrollable anger. A huge force burst out from his body once again, enveloping the fist and about to smash Fang Qiu.

The next moment, the continuous sounds of fighting could be heard.

At this moment, John Doe made dozens of punches in a row. Each punch hit the other party's fist heavily and shattered the energy layer on the Second Venerable's fist again.

Then he took a step forward and threw his hands at Second Venerable's chest.

The Second Venerable suddenly puffed up his courage.

He knew it was too late to stop the other party.

He could only concentrate all the internal Qi in his body on his chest to resist the attack of John Doe.

The next moment, Fang Qiu kept hitting Second Venerable's body with his fists without stopping.

Each punch was faster and more powerful than the last.

In the beginning, the Second Supremacy was able to hold on.

But after resisting five punches, the Second Venerable couldn't help but retreat. After resisting ten punches, half of the internal Qi that the Second Venerable gathered in front of his chest had been forcibly destroyed by John Doe.

After 20 punches, the Second Venerable's internal Qi was dispersed.

Poof!

After the 25th punch fell, the Second Venerable spat out a mouthful of blood. At the same time, he was sent flying and fell heavily to the ground.

Fang Qiu followed him like his shadow. The moment the Second Venerable landed on the ground, he punched the other party fiercely from top to bottom.

Boom!

The Second Venerable trembled, and his eyes went white. He had lost all signs of life.

The ten gurus on the other side were shocked.

Fang Qiu had killed the Second Venerable of the Nirvana Organization with his fists.

He looked as if he had gone mad.

How scary he was!

Just as everyone was so shocked that they didn't know what to say, after killing the Second Venerable, John Doe immediately sat down cross-legged on the spot and began to cultivate with his eyes closed.

Seeing the Second Venerable killed, the faces of the incapable gurus of Nirvana Organization, who were still waiting for help, all looked pale. They were unwilling to be enveloped by this group of people and be played with by these people. The incapable gurus immediately committed suicide one by one.

Everyone only smiled bitterly.

They wanted to keep the incapable gurus alive to gain experience and help the brothers increase their strength but hadn't expected them to all commit suicide.

All the members of the Nirvana Organization present were dead.

Everyone turned their heads and looked at John Doe.

Buzz!

Suddenly, there was a sound of airflow surging in the dark sky.

They looked up and saw a lotus appearing above the head of John Doe. The shadow slowly rotated, emitting a little seven-colored brilliance.

Everyone was shocked by this scene.

The others didn't know, but the ten gurus were very clear about it.

John Doe had produced a flower!

They didn't expect this young man, who had just entered Wulin for three years, to have produced the flower here!

Achieving this step was dozens of times more difficult than breaking through to be a guru. Countless gurus were stuck in this step. Even the older generation of their families living in seclusion had been cultivating in seclusion to break through to this level.

How could John Doe produce a flower in front of them like this?

Chapter 1585 Lord Virtuous Tricked People Again

Buzz!

An ancient bleak voice sounded in Fang Qiu's mind.

He closed his eyes and looked inside his Dantian.

In his Dantian, the internal Qi rotated so fast that it was almost invisible. He could only see a vast expanse of internal Qi, trying to devour everything like a black hole.

All the Qi of Heaven and Earth absorbed in the meridians was filled up like water flow!

In this case, the lotus shadow in Dantian of Fang Qiu gradually shrank.

The more it shrank, the more solid it became.

When it completely contracted, it finally became solid. In the Dantian of Fang Qiu, it turned into a white and flawless lotus. There was a trace of gold on the edge of the lotus.

It gave people a particularly ethereal and solemn feeling.

With the appearance of the lotus, all the internal Qi in his Dantian began to revolve around the lotus.

The circulation of the Qi of Heaven and Earth in his meridians gradually slowed down.

When everything came to a halt, a powerful strength spread out from his Dantian and gradually ran through his limbs and bones.

The strength was completely beyond the expectation of Fang Qiu.

He didn't expect to get such a huge strength after producing a flower.

It was really terrible.

No wonder he almost died in the hands of Lord Virtuous. A guru's strength could not be a match for the strength at all!

After producing a flower, Fang Qiu heaved a long sigh of relief. Then he opened his eyes and got up.

Feeling the power several times stronger in his body than before, he was surprised.

Finally, he was in the One-Flower Core Formation.

He was not far from what the old master requested him to be.

Most importantly, Fang Qiu had already got the cultivation method above the guru.

In addition to producing a flower, there were also ways to produce two flowers, three flowers, and even the Three Flowers Gathered into One.

He had memorized all the details in his mind.

With these methods, he knew what he should do next.

Then he would be able to reach it!

“Congratulations!”

Seeing that Fang Qiu woke up from his cultivation, the four gurus of the Sword Sect immediately came up and hold a fist salute to Fang Qiu, saying, “You deserve to be famous in the world. With the flower in your Dantian, you have far surpassed us.”

Fang Qiu smiled and hold a fist salute.

“Congratulations, John Doe, for stepping into the Great Tao!”

Master Numinous, the four patriarchs, the Sword Fanatic, and the people from the eight factions and sixteen sects also came forward to congratulate him.

Fang Qiu could see their envy in their eyes.

Especially the four patriarchs had seen John Doe grow up with their own eyes.

In their eyes, John Doe was just a kid. At this time, he had surpassed them, and they could not catch up with him anymore.

The Flower Core Formation was the dream of many people.

The four major families had a long history, and their elders were still alive. After all, a guru had a lifespan of 300 years, and the four patriarchs were only in their fifties. Of course, their elders were not dead.

They also knew why their predecessors were not in Jianghu or Wulin. Their elders wanted to spend the rest of their century wholeheartedly fighting for breaking through to produce a flower.

However, how many people had succeeded in the past few decades?

How many people could become super experts with flowers?

John Doe succeeded.

Moreover, he succeeded at such a young age.

His natural talent was too terrifying!

“Thank you! Thank you all.” Fang Qiu held a fist salute.

He Gaoming and the others rushed forward excitedly. All of them were extremely excited and happy.

Although they didn’t know what the Flower Core Formation was, they could tell from the conversation between the gurus that it was above the guru realm. It was even a realm that the gurus dreamed of reaching.

Therefore, everyone was very happy for John Doe.

Swoosh! Swoosh! Swoosh!

The sounds of rushing wind came from a distance outside the relic.

From a distance, a large group of people were rushing over.

The person was a member of the world alliance.

Led by the Seven Kingdoms, people from all over the world followed closely behind. At first glance, there were a large number of people.

After a while, led by the guru of Murica, these people came to the gate of the ruins.

Those who had come here before didn't have time to send the news back. Therefore, this group of people didn't know how to open the gate of the ruins and enter it.

As soon as they arrived, they immediately dispersed and searched.

A black shadow suddenly flew quickly through the forest in the distance and rushed to the surroundings.

Fang Qiu took a closer look.

It was none other than the Lord Virtuous of the Nirvana Organization!

The Lord Virtuous came.

He hid in the woods and observed carefully.

He found that this time, there were a total of thirty gurus in the teams from all over the world, and several of them were particularly strong. In addition, there were some eighth-class and ninth-class people.

“Let’s see how you will play this time.” Lord Virtuous sneered.

Then he moved and immediately rushed out.

“Stop searching!”

Hearing his words, everyone was attracted.

Seeing the Lord Virtuous, everyone was stunned.

“Are you Huaxianese?” One of them pointed at the Lord Virtuous and shouted.

Hearing these words, everyone on the scene was nervous!

“Yes.”

Lord Virtuous smiled indifferently and said in Anglanish, “But I’m here to help you. I’ll tell you the location of the gate of the ruins and how to enter it.”

After hearing that, those who understood Anglanish immediately raised their eyebrows.

“The mechanism of the gate of the ruins is at the bottom of this pool. There is a stone tablet engraved with the language of Huaxia.” Lord Virtuous said.

Everyone in the world alliance was full of doubts.

Many people didn't believe what the Lord Virtuous said.

To verify it, some people jumped down and dived to the bottom of the pool. Sure enough, they found the stone tablet. Then they gently touched it, and the gate of the ruins immediately opened.

"I don't need to lie to you."

Lord Virtuous pointed to the gate of the ruins, shrugged his shoulders indifferently, and said, "The entrance to the relic is right there, where a character is missing!"

As soon as he finished his words, a figure immediately rushed forward to have a try.

As a result, the person didn't have time to stop and directly got in.

Seeing this, the others immediately swarmed forward and rushed into the relic.

Seeing this...

Then Lord Virtuous flashed and immediately retreated far away.

After killing the Second Venerable and his men and successfully making a breakthrough, Fang Qiu waved his right hand and took his companions back to the entrance of the relic.

Just when he was about to open the gate of the ruins and let everyone out, the gate of the relic suddenly opened.

Then, a man rushed in and staggered after he landed on the ground.

Then a large group of foreigners swarmed over.

“Retreat!” Fang Qiu waved his hand.

He immediately led everyone to retreat.

Seeing the foreigners, everyone laughed.

When they came in, they were baptized by the domineering Qi of Heaven and Earth. They were all Huaxia people, so they didn’t know what would happen if foreigners came in.

Therefore, no one made a move. Instead, they listened to John Doe and quickly retreated.

Soon, all the members of the world alliance gathered together.

The gate of the ruins also disappeared.

They came to the relic.

Before the group of people could react to the change in the scenery, they looked up and saw a large group of people from Huaxia standing in front of them.

This situation startled the people of the world alliance. They thought it was an illusion.

When they came to their senses, this group of people immediately found that the Huaxia people in front of them were real.

“They have found the treasures in the ruins. We can’t let them go. Catch them!” The guru of Murica stood up and shouted, pointing at the people of Huaxia.

All the members of the world alliance woke up and were ready to attack the people of Huaxia, only to find that Huaxia had no intention of taking action at all. Instead, they stood more than ten meters away, holding their arms in front of their chests and looking at the world alliance with a smile.

The members of the world alliance were confused.

What happened?

It was strange.

However, since the people of Huaxia were here, the ruins must have been searched by them, and the treasures were on them. The world alliance couldn't let them leave.

They made up their mind.

All the members of the world alliance immediately brandished their weapons and rushed toward Huaxia.

Boom!

Right at this moment, there was a sudden explosion.

The person who rushed to the front couldn't even touch any person from Huaxia. His body suddenly exploded, and he was sent flying backward in an instant. Then he disappeared from everyone's sight.

The members of the world alliance were dumbfounded.

They didn't understand what was going on. Why was this person suddenly blown up?

Boom! Boom! Boom!

The next moment, it was like a square firecracker.

Explosions rang out one after another.

These people from all over the world were bombarded one after another.

At this moment, they finally understood why the Huaxianese didn't take action when seeing them and looked at them with smiles.

It turned out that this relic rejected foreigners!

After a while, all the members of the world alliance were expelled by the relic. The thirty gurus tried to resist this force, but they couldn't even hold on for three seconds.

Boom! Boom! Boom!

The members of the world alliance appeared out of thin air and fell heavily to the ground outside.

The Lord Virtuous suppressed his aura and hid in the crown of a big tree. Seeing this scene, he couldn't help laughing.

Last time, the people of the Seven Kingdoms someone had received such treatment.

At that time, to kill the fourteen gurus of the Seven Kingdoms, he had spent a lot of effort and was even fooled by John Doe.

This time, he would not be so stupid.

Even when he saw that all the members of the world alliance were injured after being knocked out, he still didn't move.

He was waiting.

After being expelled from the ruins, he asked his people to help him change his nationality and passport as soon as possible. He wanted to change back and become a Huaxianese again!

He swore that he would never change his nationality again!

“I’m a righteous Huaxianese!

“I’ll never change nationality again!”

Chapter 1586 John Doe Appeared

Seeing that the people of the world alliance were sent flying, although everyone was happy, they also knew that they would have to face these people next.

The other party might not have more people than them.

However, the other party had more gurus.

Everyone saw a total of thirty gurus, and these thirty gurus were different from those incapable gurus under the Second Venerable’s command.

These people were all real gurus with techniques!

It was not easy to deal with them.

The most important thing was that a few of them were very powerful. Ordinary gurus couldn’t compare with them.

“These foreigners seem to be unwilling to give up.”

Patriarch Qian narrowed his eyes.

In the face of the gurus of the Seven Kingdoms, he had already had the urge to kill. He had wanted to kill those foreigners in one go and let their countries fear, but he didn't expect these foreigners would send another group out after two batches of their people were killed in a row. They were courting death!

"We have searched all the ruins, and there is no point in staying here any longer. Moreover, we must bring back the treasures we found in the ruins as soon as possible. We will face this group of foreigners next."

The guru of the Sword Sect stood up and said, "Now, those foreigners must be outside discussing how to deal with us. Maybe they have set up a trap outside. Although they can't come in, we must go out. What should we do?"

"Kill."

Elder Zhan took a sip of wine and said, "It's just a group of foreigners. Since we have killed the last batch, we can kill them another time. I'll kill them if they dare to come!"

"Don't be reckless."

Xi Fengling shook his head, stood up, and said, "According to the situation just now, there are a total of thirty gurus, and some of them are very strong. We only have eleven gurus in total. It means that each of our gurus has to face three gurus of them. This is unfavorable to us and a little dangerous!"

Everyone nodded.

Fang Qiu nodded in agreement.

Although he had broken through to the One-Flower Core Formation, he couldn't ignore the strength of a guru. Wasn't Lord Virtuous injured before?

If it weren't for the intervention of Fang Qiu and those incapable gurus, the Lord Virtuous might not have been defeated. At least, he would have been seriously injured or even beaten away!

In the case of so many gurus, it was indeed necessary to discuss how to deal with them.

The members of the world alliance all stood up outside the ruins.

Every one of them was slightly injured.

The thirty powerful gurus felt embarrassed. After discussing with each other, they rushed to the gate of the ruins full of unwillingness, wanting to try again.

The thirty people rushed into the relic again.

They still saw the people of Huaxia.

This time, they did not rush to the other party rashly. They stepped forward carefully step by step.

However, after taking a few steps, an extremely overbearing Qi of Heaven and Earth appeared in their bodies.

They tried to resist but couldn't.

Once again, they were blown up in the eyes of all the Huaxianeses full of sarcasm and disdain.

This time, two of them, who knew a little Huaxianese, finally heard the voice coming from the sky.

“What's going on?”

After the group of people were sent flying, they all became angry.

“I know a little Huaxianese.”

A guru of SoviETT opened his mouth and said, “Before we were expelled, what we had heard means that only Huaxianeses are allowed to enter this relic. Anyone not from Huaxia will be expelled!”

“No matter how many times we go in, we’ll end up the same. Huaxia people don’t have to do anything, and we will be sent out by that mysterious force!”

Hearing this, all the people present were dumbfounded.

“What the fuck!”

“Since the foreigners are not allowed to go in, isn’t this a waste of time?”

“Isn’t this a hoax?”

“Those who are not from Huaxia can’t go in. What can we do here?”

The members of the world alliance were very helpless and depressed.

After running for such a long distance, they finally arrived.

In the end, they couldn’t even enter the place.

They felt as uncomfortable as if they had eaten shit!

The people in the ruins were also talking.

“Aren’t these foreigners afraid of death?”

“How dare they come in?”

“I’d rather they come in a few more times and be blown away a few more times. At that time, we won’t even need to do anything. They’ll be half-injured themselves!”

“What do you think we should do next, John Doe?”

Ten gurus surrounded Fang Qiu.

There was no doubt that John Doe had made the greatest contribution after coming here. Everyone was willing to be led by him. Moreover, John Doe had just broken through and surpassed the guru. It made everyone more willing to listen to him.

“We don’t know much about the situation outside. I think Patriarch Xi is right. We can’t be reckless.”

Fang Qiu continued, “Besides, in addition to these foreigners, we also have a potential enemy, the Lord Virtuous of the Nirvana Organization. He is not easy to deal with. Although I didn’t find any trace of him when I went out to investigate before, with the Nirvana Organization’s way of doing things, he couldn’t escape. Maybe he is hiding outside and waiting for us to come out and give us a fatal blow!”

Only then did the others remember the Lord Virtuous waiting outside.

Lord Virtuous was also a super expert in the One-Flower Core Formation.

The situation outside was indeed much more complicated than they had imagined.

“We can’t hide in the relic all the time, right?”

The guru of the Sword Sect stood up and said, "We don't know how this relic appeared, whether it is an independent world or just a small illusion. If we keep hiding inside and the foreigners outside can't ambush us, will it affect us if they directly use thermal weapons to bombard the area where the gate of the ruins is located?"

Everyone frowned.

This area had been blown up by guided missiles before.

What would happen if the other party aimed their guided missiles at the bottom of the pool?

Fang Qiu didn't know either.

He remembered that the relic he entered in Zangjiang was real, but the place where it existed was difficult to find.

If this relic was the same as that one, they didn't know what would happen if a missile fell.

"I have a plan."

Fang Qiu thought for a moment and said, "I can go in and out of the Relic Mysterious Realm at will. I'll go out and explore the outside world and see if I can kill a few of them!"

Everyone agreed.

To be honest.

With the ability to enter the relic at will, his safety would be guaranteed.

This was indeed the best choice.

Then Fang Qiu used a technique in his heart.

He directly disappeared on the spot.

When he reappeared, he was already above the gate of the ruins outside the relic.

The thirty gurus surrounded the gate of the ruins, obviously preparing for an ambush and waiting for the people of Huaxia to come out.

They didn't expect John Doe to appear so suddenly.

Swoosh!

Without any hesitation, Fang Qiu moved and rushed straight to the guru closest to him. Before the guru could react, Fang Qiu waved his right hand.

An extremely sharp energy Qi burst out and immediately pierced through the man's heart!

The guru lost his life before he could even make a sound.

The others around him reacted and immediately fought back. They immediately surrounded John Doe and attacked him without hesitation, trying to kill John Doe.

Just as they were about to attack John Doe, John Doe's body suddenly flashed and disappeared.

They lost their target all of a sudden.

The members of the world alliance were dumbfounded.

“Where are they?”

“What the fuck! Where did he go?”

“Where is John Doe?”

“How could he be so fast?”

No one expected John Doe to be so powerful. Not only did he suddenly appear and kill a guru in an instant, but he also inexplicably disappeared from so many people.

His strength was too terrifying!

Thinking of what happened just now, the remaining 29 gurus and the people in the world alliance felt worried and scared.

John Doe was so elusive. What if they were the next one to be killed?

Could they escape?

In the distance, the Lord Virtuous in the forest, who had been observing them, also widened his eyes when seeing this scene.

The moment John Doe appeared, he clearly felt John Doe had made a breakthrough!

He was in the Flower Core Formation!

“In that case, the Second Venerable...”

Although Lord Virtuous didn't want to think so, he had to admit that John Doe had grown too fast. It had indeed exceeded his expectations.

John Doe, whom he could easily kill before, had broken through to the same level as him.

John Doe's growth speed was too terrifying.

"John Doe, no matter what, you must die this time!" Lord Virtuous clenched his fists and gritted his teeth.

He had been worried that John Doe would grow into a formidable enemy.

John Doe really made it.

He wanted to kill John Doe relying on more experience.

Compared to John Doe, he had been in the Flower Core Formation for a long time.

John Doe had just produced a flower. Lord Virtuous still had a little advantage in this regard.

Therefore, no matter how difficult it was this time, he could not let John Doe go. Otherwise, after a period of time, he might not be a match for John Doe anymore!

After being frightened by John Doe, the people of the world alliance retreated quickly.

They retreated again and again and were very careful about the surroundings.

But it was useless.

While they were retreating, John Doe, who had disappeared inexplicably just now, suddenly appeared beside one of them again in the blink of an eye. He waved his hand as quickly as before, and an extremely pure sword Qi burst out and instantly pierced through the person next to him.

Then, with a flash, he disappeared from their sight again.

Everyone retreated in shock.

This time, he directly retreated a hundred meters away!

Chapter 1587 Too Grievous

Just as the people of the world alliance retreated quickly, John Doe suddenly appeared in another direction.

This time, Fang Qiu appeared more than sixty meters away from the gate of the ruins, while the people of the world alliance had already run a hundred meters away.

“A hundred meters?”

Fang Qiu raised his eyebrows and went straight back to the relic with a stir of his mind.

“I wonder if I can move 100 meters away at a time.”

Thinking of this, Fang Qiu was ready to give it a try.

Of course, he hoped that this special ability to enter and exit the relic had no limits. In that case, no matter where he went, he would not have to fear anyone.

However, he also knew that if there was really no limit to this ability, it would be too powerful. Moreover, this ability was bound to the relic. It was impossible for him to return to the relic no matter where he went. The space was so wide that even talents in ancient times could not do it, let alone him.

“Go.”

With a stir in his mind, Fang Qiu immediately disappeared.

When he reappeared, he came to a place exactly 100 meters away from the gate of the ruins. The people of the world alliance around were all on guard five or six meters away, not giving John Doe any chance to kill them.

After carefully looking at the position of the person closest to him, Fang Qiu disappeared again. When he returned to the relic, he immediately tried to move to the place where he remembered just now.

However, when he moved out again, he was still in the same position as last time.

Apparently, a hundred meters was his limit of movement.

Seeing that John Doe appeared in the same place twice in a row and could not move forward at all, the members of the world alliance immediately found that 100 meters was John Doe’s limit. If John Doe got neared to them, he could not suddenly disappear like before.

“Come out if you dare, John Doe.”

A guru of Murica continued to retreat while pointing at Fang Qiu and cursing, “If you dare to come out, I’ll kill you!”

“Come out.”

“Get out!”

“Don’t run away if you can. Don’t hide inside like a coward.”

Under the leadership of the guru of Murica, the people of the world alliance scolded Fang Qiu one after another.

Fang Qiu looked at the crowd.

“Okay.”

He moved his body and rushed forward after answering them. He pinched the divine sword with his right hand and instantly condensed it. Then, with an extremely sharp energy Qi, he stabbed directly at the guru of Murica closest to him.

The guru of Murica quickly dodged. The other gurus seemed to have already discussed it with each other and immediately began to attack from all directions.

Seeing this, Fang Qiu paused, turned back with a swoosh, and quickly returned to a place within 100 meters of the gate of the ruins.

The members of the world alliance were exasperated.

They were only more than ten meters away from John Doe. It only took him a second to get back.

Most importantly, even if they retreated 20 meters again, there was no need for John Doe to rush up and fight them in close combat.

Whiz!

A crisp sound of the sword rang out.

The moment Fang Qiu turned back, he waved the long sword in his hand.

“Space-splitting Sea-cracking Sword!”

With a loud shout, the moment he waved his long sword, a majestic sword Qi with energy like a terrifying tide instantly rushed toward the group of people in front of him.

The sword Qi moved.

Trees flew in all directions.

Wherever they passed, deep gullies were directly pulled out on the ground. Even the stones on the ground were turned into stone powder at the moment the sword Qi passed by.

The power of this strike was much greater than before.

Seeing this, all of the faces of the gurus of the world alliance changed in shock, and they dodged quickly.

However, the sword Qi came too fast.

In the blink of an eye, it arrived in front of them and sent some of them flying. Although they didn't die, they were seriously injured.

“John Doe, you are shameless!” One of them cursed loudly.

“Shameless?”

Fang Qiu looked at this group of people with disdain and said, “It's obvious that you covet the relic and the treasures left by our Huaxia sages and are lying in ambush here to attack our Huaxia people. Aren't you shameless?”

“The relic is not in Huaxia. Why do you say it’s yours?” One of them questioned angrily.

“Why? Because our Huaxia sages only let us in. If you have the ability, you can go in. I won’t stop you.” Fang Qiu mocked.

Hearing his words, the members of the world alliance were all dumbfounded.

How could they try to enter it again?

They didn’t want to go die.

Every time they went in, they would be shaken out. If they went in a few more times, wouldn’t they die?

It was true that the relic only recognized Huaxia people!

“Humph!”

The people of the world alliance snorted one after another. Although they felt embarrassed, they would not give up. They came here to target Huaxia and rob the treasures. So what if their purpose was exposed?

The members of the world alliance cursed.

They spoke various languages.

Fang Qiu didn’t bother to argue with them. Anyway, he was standing a hundred meters away from the relic. He would slash anyone he didn’t like.

The people of the world alliance could only dodge and did not dare to step within a hundred meters away from the relic.

Fang Qiu didn't dare to go out alone.

Although his strength had greatly increased, there were many people on the other side.

Once he went out and was surrounded, he would inevitably be injured.

He didn't know where the Lord Virtuous of the Nirvana Organization was hiding for the time being. Once he got hurt and the Lord Virtuous suddenly appeared and attacked him, he and his companions would be in big trouble.

If he were alone, he would not be afraid at all.

However, there were still so many Huaxianeses in the relic.

Once he was hurt and trapped, the others would be in danger.

Therefore, Fang Qiu didn't dare to take risks!

Seeing the group of people frightened by the battle in the world alliance, Fang Qiu squatted down directly with a disdainful look and gave a middle finger to the guru of Murica.

With a smile, he looked down on them all!

The members of the world alliance were furious.

They immediately gathered together and began to discuss.

After a while, a total of 28 gurus stood up.

Among them, the eight strongest people walked in the front, followed by the other 20 people.

After walking forward about three to five meters, the eight leaders suddenly moved at the same time and rushed toward Fang Qiu quickly.

Fang Qiu knew the strength of these eight people had reached the level of the four patriarchs.

It seemed they planned to use the strongest experts to entangle him. Then the others would swarm forward and try to kill him!

However, Fang Qiu was not worried at all.

He threw a fierce punch at the strongest guru of Murica.

Boom!

Before the others could react, their fists collided fiercely. A huge force burst out from their fists.

Slap!

But the next moment, the guru of Murica suddenly changed his face. Like a kite with a broken string, he was sent flying backward by the punch from John Doe. He opened his mouth and spat out a mouthful of blood.

Seeing this, the other gurus in the world alliance were all shocked.

The guru of Murica was the most powerful among them. How could he spit blood after being punched by John Doe?

Was John Doe so powerful?

Although they were shocked, everyone knew this was a rare opportunity. If they wanted to seize John Doe, it depended on this time.

Without hesitation, everyone hurried to surround him.

The remaining seven strongest gurus attacked Fang Qiu together, trying to entangle Fang Qiu.

Just as their fists were about to reach Fang Qiu, Fang Qiu suddenly disappeared.

He disappeared into thin air just like that!

Everyone was shocked.

“Run!” Someone shouted.

The members of the world alliance did not hesitate to turn around and run away.

However, it was too late.

Just as they turned around and fled, John Doe suddenly appeared again. He waved his right hand beside one of them. An extremely sharp sword Qi burst out and instantly cut the man's throat!

Another guru died.

After fleeing 120 meters away, the members of the world alliance stopped in a panic. They turned to look at the man whose throat had just been slit by John Doe. Their faces instantly darkened.

Previously, they still held a glimmer of hope that as long as they entangled John Doe, they could kill him.

But now, they realized that they couldn't!

“Sure enough, he is in the Flower Core Formation!”

Far far away, the Lord Virtuous, who had suppressed his aura to be imperceptible, leaned against the trunk of a big tree like an ordinary person. He was staring coldly at the battlefield in front of him.

Although he was very far away from the battlefield, the experts who were in the Flower Core Formation could see every detail.

After beating the members of the world alliance 120 meters away, they didn't dare to come in again.

Fang Qiu sneered contemptuously.

He came up with an idea.

He went straight back to the relic and appeared in front of his companions.

“How was it going?” Seeing John Doe, Master Numinous immediately stepped forward and asked.

“I killed three of them.”

Fang Qiu said, “These foreigners are a team from all over the world. They are indeed discussing how to ambush me outside. Although I have killed three of them, they still have 27 gurus, eight of whom are the strongest. They should be as strong as the four patriarchs. Some of them may be a little stronger.”

Hearing this, everyone frowned at first.

After thinking about it carefully, they all admired John Doe and held a fist salute.

In such a bad situation, John Doe killed three people. He was worthy of everyone's admiration. After all, the combat capability of the three gurus was not weak.

Fang Qiu continued. "I have a feeling that the Lord Virtuous has not left yet. The Nirvana Organization will not give up so easily."

"We have informed the domestic leaders to rescue us."

At this time, the leader of the Unfettered Faction, one of the eight factions, stood up and said, "I believe that the people from our country will arrive soon. Now there is no need to confront them head-on. If we wait for the rescue here, everything will be much easier to deal with!"

"But..."

Patriarch Qian stood up, raised his eyebrows, and said discontentedly, "Don't you think it's too fucking depressing? How dare a group of foreigners block us here?"

Chapter 1588 There's Still a Way

"That's right. Huaxia is a big country with many Wulin heroes. How can we be blocked here by such a group of foreigners? If the news gets out, Huaxia will lose face."

"At worst, I'll fight them head-on. Even if I, a Huaxia man, lose in the end, I'll not be a coward!"

"That's right! Let's go out and fight!"

"Let's go out and fight!"

Everyone agreed with Patriarch Qian.

Everyone felt depressed.

Everyone in Huaxia had self-esteem and pride. Being blocked in the relic and unable to go out made them feel unhappy!

“We still have a way to deal with them.”

Just as everyone was so angry that they wanted to rush out and fight with the world alliance, Fang Qiu suddenly said, “I also don’t want these people to leave. Since they dare to come, we must let them know Huaxia is not a place they can provoke at will. Since they have humiliated us, we should fight back and let them fear us!”

Everyone present, including the four gurus of the Sword Sect, nodded in agreement.

This was related to the majesty of Huaxia. Staying in the relic would not have much impact on the reputation of Huaxia. However, it would let people from all over the world think they could fight Huaxia.

They were all Wulin people.

Since these people were here, they had to tell the other party that they couldn’t afford to offend Huaxia.

They wanted to take the opportunity to let the other party know that no matter how many people the other countries sent, it would be useless. They would kill every foreigner sent here. They would let the other party not dare to offend Huaxia again in the future!

“What can you do, John Doe?” Master Numinous asked.

“It seems that this relic has restricted our movements. But it can also protect us.”

Fang Qiu said with a smile, "Don't be in a hurry. We all want to leave here as soon as possible. But in fact, the relic is a natural fortress for us. As long as we are in the relic, foreigners can't pose any threat to us because they can't get in!"

After they heard his words, their eyes lit up.

That was right!

This relic was partial to them. Why did they want to escape instead of using this relic to fight?

"We can go out."

Fang Qiu said, "After we get out of here, we should leave one person to control the switch of the gate at any time. Let's directly fight with the other party. Once any of you is injured or consumes too much energy, immediately retreat to the relic. Let's try to kill as many people as possible."

"If we can't kill them all once, let's kill them twice. If we can't kill all of them twice, let's kill until all of them die!"

Everyone was shocked by his words.

They didn't expect John Doe to be so red-blooded.

"Isn't it a little too risky?"

One person from the eight factions and sixteen sects stepped forward and said, "Once the entrance is blocked by them, it will be difficult for us to return to the relic. Moreover, there are many people on the other side. Once something unexpected happens, we will soon be surrounded by them. At that time, even if we want to run away, we may not be able to."

Hearing this, everyone, who was extremely enthusiastic, was suddenly stunned.

That was true. Although this plan was good, it was risky to implement it.

What if an accident happened to them?

It was not a problem for John Doe and the other gurus because few people could stop them. But for the martial arts practitioners below the guru, including He Gaoming and the people of the eight factions and sixteen sects, once they were blocked in front of the gate of the relic, it would not be so easy for them to return.

“Why don’t we wait for a while? Anyway, this place is very close to Huaxia. It won’t be long before the domestic support arrives. It will be safer after the support arrives.” One of them said.

“In that case, I’ll go out and fight a few more bloody battles?”

Fang Qiu thought for a moment and said, “When I’ve killed most of the people outside and everyone thinks that we will have a chance to win, let’s rush out together. What do you think of it?”

“It’s dangerous.”

Master Numinous came forward, patted Fang Qiu on the shoulder, and said, “Although you are in the Flower Core Formation, there are still twenty-seven gurus outside. Once you are surrounded by them, it will be troublesome.”

“It doesn’t matter.”

Fang Qiu shook his head and said, “If I want to leave, they can’t stop me.”

“In the end, you will still have to go out and fight for us.”

Patriarch Qian stepped forward, shook his head, and sighed, saying, "I'll go out with you. Even if I'm seriously injured, I'll kill some of them!"

"Count me in."

Diwu Mingchuan stepped forward and said, "I can't watch you go out and fight without doing anything!"

"No need."

Fang Qiu hurriedly said, "Don't worry. If I leave, they may not be able to stop me. I can enter the relic at will, but you can't. If you want to kill the enemies, just wait in the relic. When the time is right, let's go out and kill them all!"

Hearing this, all the people from Huaxia clenched their fists with determination on their faces!

They also knew there was no other way.

John Doe had already done this in the beginning. However, after discussing it for a long time, they still needed John Doe to continue to do this. They couldn't come up with a more useful plan at all.

Thinking about it carefully, if it weren't for John Doe, they wouldn't have been able to live until now.

Then the way everyone looked at Fang Qiu changed, and their eyes were full of respect.

"Be careful!"

Knowing they couldn't persuade John Doe, everyone came forward and reminded him not to be reckless.

"Everyone, wait for my good news."

As speaking, Fang Qiu disappeared in an instant.

When he reappeared, he was already in the mountain forest a hundred meters away from the gate of the ruins.

At this time, the people of the world alliance had scattered in all directions and hidden in the forest, ready for an ambush.

“Divine Consciousness!”

With a stir of his mind, John Doe activated his Divine Consciousness and spread it out. Soon, it covered a radius of 60 kilometers. He could clearly sense the locations of every member of the world alliance around him.

“The first one.”

He secretly looked to the left and moved. Instead of rushing to the left, he went straight to a big tree on the right.

He waved his right hand.

The divine sword, which had been condensed in his hand, immediately flew out of his hand. It rushed to the crown of the tree, pierced through a branch thicker than a thigh, and pierced into a person’s chest heavily. The huge force directly carried the person up into the sky and pierced through his chest.

Blood splattered everywhere. This person didn’t even have time to react before losing his life.

Although Fang Qiu moved extremely fast, at the moment when the person was killed, the other people from the world alliance lying in ambush around rushed out quickly. In an instant, they surrounded John Doe from all directions and directly blocked John Doe’s way of retreat within a hundred meters away from the relic.

Fang Qiu snorted coldly.

He came out this time to see how many gurus he could deal with with his current strength. He was here to kill these people.

Therefore, he did not run away. He deliberately stayed where he was and waited.

The seven strongest gurus led by the guru of Murica formed the first encirclement and quickly attacked John Doe. The other 19 gurus also launched their own attacks from the sky.

“Ancient swordsmanship!”

With a stir in his mind, Fang Qiu summoned the divine sword. With a turn of his wrist, numerous Sword Lotuses immediately appeared around him, blocking all the attacks from all directions.

However, these attacks were too many. The attacks from all directions including the top of his head surrounded him.

When Fang Qiu resisted the first round of fierce attacks, he immediately activated the internal Qi in his body. With a wave of his arm, he instantly burst out the third move of the divine sword, Tiangang Kills Demons. It was the strongest and the most wide-ranging move!

He shouted in his heart.

Everyone within a radius of 500 meters felt a great deal of pressure, and then the wind began to whistle.

The Qi of Heaven and Earth quickly surged over and condensed into layers of Qi in this area.

Then, under the control of Fang Qiu, the Qi began to rotate.

In an instant, it twisted into a huge Tiangang Tornado. The terrifying astral energy of the sword began to rotate rapidly, trying to destroy everything in it.

The people of the world alliance were shocked.

Those who were not as strong as a guru turned around and ran away.

The remaining 26 gurus immediately assumed a defensive posture when their first round of attacks didn't work. They were ready to resist Fang Qiu.

But just as the surrounding Qi of Heaven and Earth began to stir around fiercely, Fang Qiu moved and rushed to a guru in an instant. He waved his sword and directly pierced the guru's chest!

The next moment, he rushed to another person.

At the same time, another member of the world alliance died. The remaining 25 gurus suddenly panicked.

They immediately gathered together to resist the tornado of Qi.

But at this time, John Doe suddenly rushed over.

It seemed that he didn't need to control these fierce Gang Qi at all. Wherever he went, the Gang Qi would naturally bypass his position.

The members of the world alliance looked at each other and knew if they resisted blindly, they would inevitably be killed by John Doe one by one!

They were filled with panic.

These people no longer defended themselves. Instead, they directly gathered together and rushed toward John Doe quickly. They completely ignored the Gang Qi around them, let it madly attack them, and allowed it to cut their clothes, leaving shallow wounds on their bodies.

Seeing the wounds, the 25 gurus were shocked.

They didn't expect the fierce Gang Qi to cause such little damage to them.

At this critical moment, they all knew John Doe was bluffing!

For a moment, they didn't care about anything else. They burst out the strongest power in their bodies angrily and rushed toward Fang Qiu.

At this moment, Fang Qiu tiptoed and suddenly retreated to the center of the entire tornado of Gang Qi. He immediately controlled the whole tornado of Gang Qi and increased the intensity of his attack on the 25 gurus!

Chapter 1589 Close the Door and Beat the Dogs

Boom!

A storm blew.

Under the control of Fang Qiu, the Gang Qi, which was difficult to hurt the gurus, suddenly became extremely sharp like thousands of sharp swords. With extremely sharp energy Qi, it rushed toward the 25 gurus rushing to him.

Feeling the surge of energy Qi around them, the 25 gurus felt the sharp Gang Qi cut bloody wounds on their faces quickly.

The wounds were deep to the bones!

The faces of the 25 gurus changed dramatically.

They all took action to defend themselves.

Although the Gang Qi was much stronger than before, it was difficult to hurt these gurus when they were fully deployed to defend. It could only slow down their attacks.

To control and activate this move, Fang Qiu couldn't move and could only stand in the center of the tornado of Gang Qi.

That was to say, Fang Qiu had to spend more internal Qi to block the attacks of these 25 people.

It consumed too much energy of Fang Qiu.

From the very beginning, Fang Qiu didn't intend to use this move to kill people. He had used this move to make an opportunity to kill!

Now that he had killed two people and was not injured, the effect of this move had been fully exerted. There was no need for him to use it.

“Disperse!”

Seeing that the 25 gurus of the world alliance were fighting with all their might about 10 meters away from him and had no intention of attacking at all, Fang Qiu immediately used this move.

After dispersing this move, his internal Qi gushed out wildly.

Fang Qiu immediately turned into a shadow and rushed straight to the 25 people. With a fierce sword Qi, he rushed into the crowd.

The faces of the 25 gurus changed.

They didn't know what John Doe meant.

Would he walk right into the trap?

The 25 gurus immediately launched a fierce attack without hesitation.

Unfortunately, they reacted still a little slowly. When Fang Qiu rushed over, the sharp sword Qi left the sword and pierced the throat of an ordinary guru directly.

Then, he immediately swung his sword to attack the others.

The remaining 24 gurus didn't dare to be distracted at all. They immediately began to exert all their strength, swarmed over in an instant, and beat John Doe fiercely!

Fang Qiu waved his sword to resist and fought head-on with these 24 gurus.

It turned out that although he was strong enough to deal with ten gurus by himself, he couldn't fight against the 24 people.

Fortunately, he had a backup plan!

"I have to kill one more even if I'll be injured."

He came up with an idea. In the fierce battle, Fang Qiu glanced at the gate of the ruins and found he was within a radius of a hundred meters around the relic.

Just now, the third move of the divine sword drove this group of people from 120 meters away to within 100 meters. However, they didn't notice it at all.

Meanwhile, Fang Qiu cared about it all the time.

Otherwise, how could he have dared to charge over?

“Die!”

Aiming at an ordinary guru who had just been slightly injured, Fang Qiu moved and immediately got close to him. A layer of internal Qi burst out of his body and turned into an energy shield to resist the attacks of others. At the same time, he directly pounced on his target.

Even if the other side quickly reacted and tried to block him, the gap between the two sides was too big. The other party couldn't resist the sword Qi bursting from Fang Qiu's long sword at all.

In just an instant, the long sword in the hand of Fang Qiu pierced through his heart!

Boom!

At this time, the energy shield around Fang Qiu only lasted for a second before it was directly shattered by the fierce attacks of the other 23 gurus. Then, these attacks hit Fang Qiu in an instant.

“I won't play with you!” He shouted.

The moment Fang Qiu was injured, he disappeared into thin air.

The 23 gurus lose their target before they could launch another wave of attacks.

Their faces changed.

Knowing that they had entered the range of 100 meters, they didn't dare to hesitate and immediately flew out for fear that John Doe would appear again.

Fang Qiu directly appeared next to the Huaxia people in the relic. Without saying anything, he immediately sat cross-legged to recuperate.

John Doe began to meditate as soon as he appeared.

No one dared to disturb him. They only stood aside and wait.

It might be because of the tremendous pressure in the turtle shell that he didn't suffer too serious an injury after being attacked by 23 gurus. He only suffered some minor injuries, all of which were superficial. There were no internal injuries at all.

When he found this, Fang Qiu was surprised.

However, he also knew from the situation of the battle just now although he might not be able to defeat the ten gurus of the world alliance, it should not be a problem for him to pin down ten gurus.

After all, these were all gurus, and each of them had stable cultivation. The incapable gurus in the Nirvana Organization were no match for these gurus at all.

“At present, there are 23 gurus left on the other side. Eight of them are as strong as the four patriarchs, and the other 15 are at the level of Sword Fanatic.”

“We have only eleven gurus at present. Even if I hold off ten gurus alone, I may not be able to defeat them.”

“I'll have to go out again and kill a few more!”

Thinking of this, Fang Qiu immediately closed his eyes and began to recover carefully.

Beep! Beep! Beep!

At this time, the Lord Virtuous outside the relic, who had been hiding in the distance and had completely suppressed his aura, suddenly received a phone call.

“Hello?” He answered the call.

“Lord Virtuous, I’ve done what you asked me to do.”

A very respectful voice came from the other end of the phone, saying, “Your nationality has been successfully exchanged back to Huaxia!”

“Okay.”

Lord Virtuous laughed and immediately hung up the phone.

“Now, it’s time for me to take action!”

He put away his mobile phone and no longer hid. He moved and immediately rushed toward the gate of the ruins.

Those foreigners were afraid of John Doe and all hid in the forest 120 meters away from the gate of the ruins. They didn’t notice Lord Virtuous at first.

He quickly rushed to the pool.

Lord Virtuous grabbed a stone in the air with his right hand, quickly threw it into the water, and hit the stone tablet.

The gate of the ruins was instantly summoned.

When the people of the world alliance saw this, they immediately became nervous, thinking that the people of Huaxia were coming out.

However, it turned out to be the Lord Virtuous!

Under everyone's gaze, Lord Virtuous rushed straight into the ruins without hesitation.

Seeing this, they felt that there would be no result if it went on like this. Since the person who had been rejected before could go in, why couldn't they?

The group of people looked at each other and didn't care so much. They immediately rushed up, ready to try again.

The moment the gate of the ruins suddenly opened, Fang Qiu recovered. He opened his eyes and saw a figure flying out of the gate of the ruins.

With a closer look, he found that the person was the Lord Virtuous.

“Lord Virtuous?”

Fang Qiu changed his face and shouted, “He is the Lord Virtuous of the Nirvana Organization!”

All the people of Huaxia became nervous in an instant.

Fang Qiu channeled his internal Qi, ready to take the initiative to attack Lord Virtuous.

When the Lord Virtuous, who also saw John Doe, felt that the overbearing Qi of Heaven and Earth in his body was no longer rejecting him as before, he immediately flashed and fled quickly into the distance.

Fang Qiu was ready to chase after him.

Swoosh! Swoosh! Swoosh!

Right at this moment, the sounds of wind came one after another.

The people of the world alliance rushed in one after another.

Seeing these people, Fang Qiu glanced at the Lord Virtuous who had fled to the distance and had not been rejected. Suddenly, an idea came to his mind.

“This is an opportunity. But I wonder if I can control the tiny tripod to expel these people?”

Fang Qiu immediately tried to control the tripod in his mind.

As soon as his spiritual force went deep into the tripod, he found that there was indeed a force moving in it. Fang Qiu immediately tried to control this force and suppressed it.

It turned out that those foreigners were not excluded.

The people of Huaxia were waiting for them to be rejected, so no one was ready to take action.

The members of the world alliance stood there for a long time and found they were not excluded. The group of people was overjoyed and immediately observe the magical scenery in front of them.

While being shocked by the scenery in front of them, these people got excited.

They hadn't been expelled, and they had a chance to get the treasures!

The leading guru of Murica laughed out loud and pointed directly at John Doe and the others, saying, “Take out all the treasures you've found immediately, or you'll be killed without mercy!”

Meanwhile, the four gurus immediately approached, and the others also began to surround the Huaxia people from all directions.

The people of Huaxia were shocked.

They didn't expect such a thing to happen.

"What's going on?"

"Don't worry."

Fang Qiu said, "I did it. Everyone has rested for so long. It's time to exercise. Close the door and beat the dogs!"

Fang Qiu sneered and glanced at the other party. He secretly controlled a part of the power in the tripod and sent it directly into the bodies of the large group of foreigners in front of him.

Almost half of the people were sent flying by his power.

In an instant, there were only 12 gurus left in the ruins. Half of them were at the eighth or ninth-class level.

Fang Qiu smiled, and so did everyone in Huaxia. They were all ready to fight.

The members of the world alliance were all stunned.

Both the people who stayed in the relic and those who were shaken out were stunned.

Those who were knocked out also tried to rush into the relic again when they found that half of their people had not come out yet.

However, as soon as they came in, they were directly rejected.

All the people who stayed in the relic, led by the guru of Murica, immediately gathered together and looked around. They found that there were many people left.

Even though Huaxia only had 11 gurus, they still had 12 present. Even if they fought, they were not afraid at all!

Chapter 1590 Ready to Fight the Lord Virtuous Again!

“Kill!”

In the face of the 12 gurus and a large group of eighth-class and ninth-class foreigners, Fang Qiu took the lead to rush up.

The people of Huaxia also rushed forward to fight without hesitation.

Although there were 12 gurus on the other side, everyone was very confident that these gurus were no match for the eleven gurus on their side. They all went all out to fight.

He Gaoming and the other disciples of the eight factions and sixteen sects, who had no opportunity to train themselves, rushed straight into the foreign crowd at this moment.

The strength of those eighth-class and ninth-class experts was equivalent to theirs. It was a great opportunity for everyone to improve their cultivation.

At this very moment, Fang Qiu rushed straight to the leader of the world alliance, the guru of Murica.

The guru of Murica was injured by Fang Qiu. Although he had recovered a little, his injury hadn't healed.

He knew that he was no match for John Doe.

Seeing John Doe rushing toward him, he immediately moved closer to the others beside him, ready to join forces with them to fight against John Doe.

As a result, as soon as he turned his head, he found that the eleven gurus next to him were all fighting against the gurus of Huaxia.

The extra one ran to the farthest place and joined forces with another person to deal with a guru of Huaxia.

That was to say, he had to face John Doe alone.

The guru of Murica panicked.

He knew how terrifying John Doe was from the outside. It was impossible for him to be a match for John Doe.

He suddenly thought of something.

The guru of Murica immediately thought of the Huaxia man who had rushed into the relic before them.

That person seemed to be an enemy of Huaxia. As long as he caught up with the person and joined forces with him, John Doe would be helpless!

The guru of Murica immediately flew out and chased after Lord Virtuous at a high speed.

"All of you, don't even think about running away." Fang Qiu snorted coldly.

Fang Qiu snorted coldly.

He channeled his internal Qi.

Boom!

An energy fluctuation suddenly burst out from his body and spread out in all directions, covering the area within a radius of ten kilometers in an instant.

The Qi of Heaven and Earth within ten kilometers was locked.

Great Hand of Nihility!

Yes! He used the Great Hand of Nihility.

Although it was the first time for Fang Qiu to perform it, he had performed it several times in the space under the river where he fought against the water men. Now he was good at it.

He made a grabbing motion in the air.

The Qi of Heaven and Earth within a radius of ten kilometers seemed to be caught in his palm. Not even a trace of it could be absorbed by these foreigners.

Under the deliberate control of Fang Qiu, all the people on the side of Huaxia were still able to absorb the Qi of Heaven and Earth freely.

The world alliance instantly fell into a huge disadvantage.

Not only were they unable to absorb the Qi of Heaven and Earth to recover their own energy, but their speed and attack power had also been greatly reduced after they were unable to absorb enough energy to fight.

After all, most foreigners were different from Huaxia people.

Huaxia people could store the Qi of Heaven and Earth in their bodies to attack and defend, while most foreigners could only store a small amount, such as the remarkable talent from L'hexagone. They could only use the energy stored in their bodies to drive various energy between heaven and earth to fight.

Now that the Heaven and Earth energy was locked, their combat capability would decline greatly.

But.

Similar to the gurus of the blood clan in Murica, the werewolves of Sovieth, the wizards of Anglan, and some other people would not be suppressed like this.

Swoosh!

While using the Great Hand of Nihilism, Fang Qiu moved and immediately chased after the guru of Murica.

The gap in strength between the two sides was too great.

The guru of Murica was just a guru. Although he was fast, he was still much slower than Fang Qiu, who had already been in the Flower Core Formation.

In the blink of an eye, Fang Qiu caught up with him.

Without energy to absorb, the guru of Murica couldn't escape from Fang Qiu at all.

His plan to escape was about to fail.

He immediately took action, ready to stop Fang Qiu first and then find an opportunity to continue to escape.

Could Fang Qiu give him the chance to escape?

No!

Whiz!

A crisp sound of a sword rang out.

A cold light burst out from Fang Qiu's hand. With an extremely sharp energy Qi, it rushed to the guru of Murica in an instant.

The guru of Murica roared and suddenly pushed out his hands, condensing a blood ball the size of a basketball. At the same time, there were some amazing changes in his body. The cuticle began to grow on his skin.

Whiz!

The next moment, a ray of golden light entered the tip of the sword and flashed.

Before the basketball-sized blood ball could explode, it was directly pierced through by the long sword of Fang Qiu and cut into two halves.

At the same time, the tip of the sword, shining with golden light, pierced through the throat of the guru from Murica hiding behind the blood sphere and trying to resist!

The sword flashed with cold light.

The guru of Murica didn't even see how John Doe attacked him. His vision darkened, and he fell to the ground powerlessly, dead.

After killing the person, Fang Qiu turned his head and glanced at the battlefield behind him. Then he immediately used his Divine Consciousness to search for the Lord Virtuous for fear that the Lord Virtuous would suddenly launch a sneak attack at this time.

Since he worried about it, it was not convenient for Fang Qiu to help his people.

But.

Within the Great Hand of Nihility's range, this group of foreigners was soon suppressed by the people from Huaxia. Although some of those gurus had the same level as the four patriarchs, most of them were just ordinary gurus.

Therefore, even if the other party had one more person than Huaxia's team, they were no match for Huaxia at all.

The group of people were all killed by the Huaxia side.

Everyone fought fully and delightfully.

After annihilating all the people on the other side, everyone gathered together again.

"Half of the foreigners are dead. Let's rush out and kill the other half of their people outside!" One suggested.

Everyone was full of fighting spirit and nodded in agreement.

"Wait."

Fang Qiu shook his head and said, "The biggest threat to us now is not the foreigners, but the Nirvana Organization!"

Only then did they remember that the Lord Virtuous had already run into the ruins.

After thinking of Lord Virtuous entering the relic, Patriarch Qian raised his eyebrows and looked into the distance. Then he turned around and asked, "These foreigners were rejected when they came in before. How could only half of them be rejected this time and give us such a great opportunity to wipe them out?"

Hearing this, everyone was also confused.

"Yes. Why didn't the gate reject them this time?"

"Could it be that the power of the ruins is weakening?"

"If we had known this earlier, we would have brought them in earlier, divided them into two parts, and killed them. In that way, we wouldn't have been trapped in the relic for such a long time." Someone said.

"It's me."

Fang Qiu gave a wry smile and said, "After the Lord Virtuous entered the relic, I thought I might have a chance to control the power. Then I tried and I found I could, so..."

Everyone was shocked!

It turned out to be John Doe's power.

Could John Doe control the extremely overbearing Qi of Heaven and Earth that could send people flying?

Wasn't this too terrifying?

"Although I can control it, it is only effective on foreigners. It can't work on Huaxianeses. That's why I can't let him out after the Lord Virtuous entered." Fang Qiu said.

Everyone nodded.

Although that was what he said, it was already impressive for him to be able to do this.

At least he helped them solve the siege of the foreign alliance.

"In that case, what are you going to do next?" Master Numinous asked.

"I thought about it carefully."

Fang Qiu replied, "You can go out first. There are only 12 foreign gurus and some eighth-class and ninth-class foreign people left outside. Your strength is enough to deal with them."

Everyone agreed.

The battle just now was indeed not difficult for everyone.

Even if they went out of the relic, without the help of John Doe, they were confident that they would not be defeated by the 12 gurus.

"According to my information, most of the forces of Nirvana Organization in Zhongdong have been wiped out."

Fang Qiu continued, "Among all the Venerables in the Nirvana Organization, only one hasn't shown up yet. Judging from the current situation, First Venerable shouldn't be in Zhongdong. That is to say, the Lord Virtuous can order very few people in Zhongdong. Even if there are people from the Nirvana Organization ambushing outside, they are only incapable gurus at most.

"The incapable gurus can't pose a threat to everyone. But if the incapable gurus of Nirvana Organization join hands with the foreign force, it's hard to say.

"After you leave this place, you must let at least a person guard the gate of the ruins. If you are able to kill the other party, don't hold back."

"If you can't kill the other party, immediately move the battlefield here and recuperate. Then let's think of another way."

After that, Fang Qiu glanced at everyone present.

Everyone nodded in agreement with Fang Qiu.

"How about you?" Diwu Mingchuan asked.

"I'm going to find the Lord Virtuous!"

Fang Qiu narrowed his eyes and said, "After I find him, I'll hold him back. Then I can ensure your safety. He is very powerful. Before I produced a flower, I was no match for him at all. But now, I am confident that I am able to hold him back. When you get rid of the enemies outside and recover to the overall state, let's besiege and kill him together!"

"Are you sure you can do it alone?"

Master Numinous stood up and said, "I'll go with you!"

“No need.”

Fang Qiu shook his head and said, “Lord Virtuous is too strong. I can only guarantee my safety when I fight with him. It will be troublesome if you accompany me.”

Master Numinous was a reasonable person. He didn’t think John Doe looked down on him.

After all, the strength of Lord Virtuous was really strong.

How could he be a match for the expert in the One-Flower Core Formation?

Anyway, John Doe was in the One-Flower Core Formation.

The only person qualified to fight with the Lord Virtuous was John Doe.

“You must be careful.”

Master Numinous reminded him.

“Yes. Don’t fight against him head-on. Just stall him. When we wipe out the gurus and others outside, the reinforcements from our country should have arrived. At that time, let’s besiege and kill them together!” Diwu Mingchuan said.

“Don’t worry, everyone. I know how to deal with it.” Fang Qiu nodded in response.
