Chapter 1591 Lord Virtuous Near the Two-Flower Core Formation

“Be careful, everyone.”

While speaking, Fang Qiu directly controlled the gate of the ruins to open.

Seeing this, everyone made a hold fist salute to Fang Qiu.

“Let’s go.”

Under the leadership of Master Numinous, all of them flew out of the Relic Mysterious Realm.

After they all went out, Fang Qiu closed the gate of the ruins.

Then, he ran his Divine Consciousness, which immediately began to cover the entire Relic Mysterious Realm and carefully explore the location of Lord Virtuous.

Although the Relic Mysterious Realm was vast, Lord Virtuous had never tried to suppress or hide his aura the slightest after he came in.

As soon as Fang Qiu spread out his Divine Consciousness, he immediately located Lord Virtuous.

Right now, Lord Virtuous was hiding in the distance. In the seawater where the Qi of Heaven and Earth was extremely rich, he was quickly absorbing the Qi. It seemed that his previous injuries had not yet fully recovered.

When Lord Virtuous was outside, although he had fully recovered his internal Qi, the injuries he had suffered had not completely recovered. Although they were minor injuries, they would definitely affect his state during a battle.

Therefore, as soon as Lord Virtuous entered the relic, he did not directly start a war with John Doe and the others.

It was because the people of the world alliance were still there, and the two sides would definitely fight, which would consume most of the Huaxianese forces. Hence, there was no need for him to attack the Huaxianese directly.

When the two sides fought to the death, he would show up and have greater confidence in killing John Doe completely.

With this in mind, Lord Virtuous didn't look for the treasures in the relic after entering.

Instead, he went straight to the seawater where the Qi of Heaven and Earth was extremely rich. He healed himself while hiding quietly.

He had thought that the extremely rich Qi of Heaven and Earth in the sea could completely hide his energy and aura, but he didn't expect that what Fang Qiu's Divine Consciousness could do had completely exceeded his imagination.

Swoosh!

Fang Qiu came to the sea.

He flew straight into the air and looked down at the figure sitting cross-legged in the incomparably clear and transparent sea.

It was none other than Lord Virtuous.

Whiz!

Fang Qiu clenched his right hand and condensed the divine sword. At the same time, holding the Space-splitting Sea-cracking Sword, he slashed out without hesitation.

A streak of extremely fierce energy Qi directly left the sword and cut the seawater under his feet into two halves in an instant. Then, with an extremely sharp destructive aura, it fiercely attacked Lord Virtuous.

“Hmm?”

Hearing the unusual movement, Lord Virtuous felt a chill at the back of his head. Without hesitation, he slapped his hands in the water. At the same time, he immediately broke out of the water and dodged the sword Qi that Fang Qiu burst out.

“Heh.”

Lord Virtuous, who broke out of the water, instantly retreated more than ten meters. He then looked up at Fang Qiu and suddenly laughed.

“Why are you laughing?”

Staring at Lord Virtuous, Fang Qiu was not in a hurry to make a move. Instead, he looked at Lord Virtuous calmly.

“You brought yourself to me, which gives me the chance to kill you. Shouldn’t I laugh?”

Lord Virtuous shook his head. He looked as if he didn’t take John Doe seriously at all.

“Are you so sure that I’m the one who will die, not you?” Fang Qiu asked, smiling.

“Who do you think you are to kill me?”

Lord Virtuous narrowed his eyes and said, "I know you have mastered the Flower Core Formation, but even so, you will surely be the one to die in the end. Do you think you can defeat me just because you've learned that formation?"

"Let me tell you, I've already achieved that before you. Over the years, I've improved every day. Although I haven't mastered the Two-Flower Core Formation, I've already attained the power to master it. How dare you, a boy who has just learned this set, fight with me?"

At this point, Lord Virtuous moved.

An extremely powerful Qi power burst out of his body in an instant.

"Die now!"

As the Qi power burst out, Lord Virtuous moved and rushed straight toward John Doe.

At first, the reason why he hid was that in addition to John Doe, the Huaxianese had 10 other gurus, and each of them was very powerful. Once he was besieged by this group of people, it would be difficult for him to get away.

But now, John Doe was arrogant enough to come to him alone.

In his opinion, John Doe was courting death.

During the conversation with John Doe, he carefully observed the surroundings and confirmed that there was no one around and that John Doe was the only one.

Under these circumstances, there was no need for him to stall any longer.

He would kill John Doe first.

Then, it would be much easier to kill the remaining Huaxianese people.

Opposite him.

“Come on!”

Seeing Lord Virtuous rushing toward him, Fang Qiu was instantly filled with fighting intent.

He had been looking forward to a fight with Lord Virtuous for a long time.

Previously, he was not strong enough and was beaten up by Lord Virtuous. Now he was no longer the same as he was at that time and was powerful enough to challenge Lord Virtuous.

Therefore, it was time for him to take revenge for the torture that had almost cost him his life.

Both of them knew that either of them would die in this battle.

“Three-point Shadowless.”

While Lord Virtuous was about to attack him, Fang Qiu held the sword in his right hand, quickly ran all the internal Qi in his body, and slashed fiercely at the coming opponent.

As the sword light flashed, three streaks of silvery-white sword Qi instantly condensed into one, bursting out a gust of sharp sword Qi that blasted toward Lord Virtuous.

“You’re making a fool of yourself with this lousy trick!”

Lord Virtuous snorted disdainfully and waved his right hand.

A thick layer of black mist-like energy directly gushed out of his body. With a wave of his arm, the black mist energy around his arm instantly turned into an extremely sharp demonic claw and directly grabbed at the sword Qi that Fang Qiu sent out.

It directly crushed the sword Qi that Fang Qiu burst out.

Seeing this, Fang Qiu pursed his lips and smiled.

The power of the first move of the divine sword was indeed not enough to deal with Lord Virtuous.

“However, this is just the warm-up. The show has just begun!”

On the other side.

Buzz!

After blocking the attack of John Doe, Lord Virtuous stretched out his right hand to the side. The black mist energy around his arm quickly gathered and condensed into a black lotus in his palm.

The black lotus took form.

A thick and deep aura, like the heat when a raging fire was ignited, rushed out in all directions with a bang.

It could make one feel completely suppressed at this moment.

The lotus flower appeared.

Lord Virtuous moved. The lotus floating in his palm immediately seemed to be ignited, and a layer of black flame suddenly rose. Then, with a wave of his arm, it directly turned into a huge mouth like a demonic beast and bit toward Fang Qiu.

“He’s getting real serious.”

Fang Qiu’s face turned gloomy.

He made a grabbing motion in the air with his right hand, and the surrounding rich Qi of Heaven and Earth immediately came from all directions and instantly condensed into a palm in front of him.

“Great Hand of Destruction!”

He performed a palm strike, which directly collided with Lord Virtuous’s move.

The next moment-

Boom!

Muffled thunderclaps rumbled and exploded.

The moment the two forces collided, they exploded.

The incomparably violent energy Qi caused by the explosion immediately burst out in all directions, as if it was going to destroy everything.

Both sides took a step back.

However, the moment Lord Virtuous retreated, he suddenly flashed. Ignoring the extremely sharp energy Qi in the air, he waved his palm again and slapped toward Fang Qiu.

It could be seen that in front of his palm, there was a gust of extremely pure black internal Qi, which condensed into an energy ball the size of an egg. It emitted a devastating aura and went straight to the head of Fang Qiu.

Whoosh!

Fang Qiu didn't hesitate at all. He moved his body and quickly retreated, quickly avoiding Lord Virtuous's attack. At the same time, he secretly mobilized all the internal Qi in his body and injected it into his right arm.

Simultaneously, he secretly performed the Great Hand of Destruction and quickly channeled the extremely rich Qi of Heaven and Earth behind him.

The attack missed its target.

Lord Virtuous's face immediately darkened.

He remembered that the last time he fought with John Doe, John Doe couldn't dodge his attacks at all. Whether in terms of strength or speed, John Doe was much weaker than him.

But now, things were different.

After John Doe had achieved the Flower Core Formation, not only did he have enough strength to fight against Lord Virtuous head-on, but he was also as fast as him.

This made Lord Virtuous very displeased.

He looked more gloomy especially when he felt the energy aura erupting from John Doe and the Qi of Heaven and Earth rapidly gathering behind John Doe.

“Die!”

With a roar, Lord Virtuous made up his mind not to give John Doe any chance to catch his breath. He moved his body and rushed straight toward Fang Qiu again.

“Since you prefer close combat, I’ll show you a big move!”

Fang Qiu snorted coldly.

His right hand, which had gathered countless amounts of internal Qi, suddenly clenched into a fist. Then, he threw a big punch at Lord Virtuous who was attacking him fiercely.

At this moment, it could be seen that all the muscles of Fang Qiu’s arm bulged. It was as if even his muscles were about to be torn apart by the Qi of Heaven and Earth contained within.

Swoosh!

With an ear-piercing sound of something breaking through the air, the punch instantly hit Lord Virtuous.

At the same time, Lord Virtuous suddenly raised his right hand and pushed a ball of black energy the size of an egg in front of his palm, which collided with the fist of John Doe fiercely.

Boom!

An earth-shattering boom rang out.

At the place where the two collided, the Qi of Heaven and Earth in Fang Qiu’s arm, like a volcanic eruption, burst out and hit the black egg-sized ball of energy fiercely.

Simultaneously, a gust of extremely powerful energy Qi burst out from the black energy ball.

The two kinds of energy Qi collided head-on, exploding in midair.

The terrifying energy Qi, like a sharp arrow, burst out in all directions in an instant. The seawater full of the Qi of Heaven and Earth under their feet was directly hit, causing a huge round sunken area. The sea could not be calmed down for a long time.

When the two energies were detonated, the two men couldn't help but retreat at the same time as they were in the sea.

Although neither of them was injured, their expressions became unusually grave.

Chapter 1592 Fighting against Lord Virtuous

The two looked at each other in the sky above the turbulent sea.

The monstrous energy Qi was still fluctuating wildly around them, making the sea under their feet unable to calm down.

“Hiss...”

Taking a deep breath, Fang Qiu stared at Lord Virtuous with a gloomy face opposite him.

He knew very well that while dealing with an experienced master like Lord Virtuous, he could never drag out the battle.

Although his strength had broken through to the same level as his opponent, Lord Virtuous had mastered the Flower Core Formation for more than ten years. Although he still looked very young, he was actually very experienced.

Even if Fang Qiu was a genius, he didn't dare to risk his life to deal with his current opponent, who had decades of combat experience.

As Lord Virtuous of the Nirvana Organization, his opponent had more than just brute force.

Meanwhile, Fang Qiu was also very worried.

Once the Huaxianese dealt with those foreigners, they would immediately rush over to him. By then, once Lord Virtuous went all out, there would inevitably be countless casualties.

Fang Qiu didn't want to see that happen.

Therefore, no matter what, he had to end this battle as soon as possible.

With that in mind, Fang Qiu pinched the fingers of his right hand.

Holding the divine sword that was quickly condensed in his hand, he narrowed his eyes and glanced at Lord Virtuous. Then, the energy in his body burst out again. He gently tapped the ground with the tip of his foot, and he suddenly shot down like a meteorite from the Ninth Heaven with an extremely sharp sound of breaking through the air. He suddenly waved the extremely sharp long sword in his hand, turned into a shadow, broke through the barrier of space, and rushed toward Lord Virtuous.

“Humph!”

Lord Virtuous snorted.

Originally, he had always had the upper hand in this battle. He didn't expect that John Doe would actually take the initiative to attack him after this collision.

As he was snorting, with a wave of his right hand, he immediately formed a claw.

The black mist energy that lingered around his arm once again agglomerated into an incomparably sharp black demonic claw. After which, it was suddenly swung.

The dark and sharp claw, like lightning, immediately grabbed at the divine sword waved by Fang Qiu.

Clap!

A crisp sound could be heard.

Lord Virtuous raised his eyebrows.

He actually felt that there was no energy in the long sword in John Doe's hand. In this case, he was shocked and was ready to loosen his claw immediately.

Just then-

“Great Hand of Destruction, Forming a Sword!”

Fang Qiu suddenly shouted in a low voice.

As his voice rang out, in the divine sword that had no energy at all, a gust of extremely sharp energy Qi suddenly burst out.

At the same time-

Whoosh!

It was like the sound of running water.

At this moment, the Qi of Heaven and Earth, which had been summoned by Fang Qiu with the Great Hand of Destruction, surged wildly into the divine sword with Fang Qiu's arm as a medium.

With the infusion of the Qi of Heaven and Earth, a layer of sword light immediately burst out from the divine sword.

After that, as Fang Qiu waved his arm, the sword light burst out from the sword and directly turned into a streak of energy sword Qi like a crescent moon, charging fiercely at Lord Virtuous.

This attack was even fiercer than before.

The sudden outbreak of power made Lord Virtuous change his expression involuntarily.

He could feel that this move of Fang Qiu was very fierce. Once it hit him, he would definitely be injured.

However-

“Is that all you can do?”

Lord Virtuous threw a cold glance at John Doe and said angrily, “You want to defeat me with such a little trick? How delusional!”

While he was speaking, a smile suddenly appeared on his ghastly face. Then, his palms suddenly bent into claws. The black mist-like energy was like a flame, lingering between his palms.

“Doomsday Extermination Hand!”

With a loud shout, Lord Virtuous stretched out his arm. The claw surrounded by black energy suddenly shot out. With invisible energy Qi, it condensed into a beam of shocking light in front of the claw. In an instant, it broke through the air and crashed into John Doe’s sword light.

The next moment-

Boom!

There was a loud noise.

The sword and the claw finally collided with each other.

The noise was not loud, but at the moment of the collision, an extremely terrifying storm of energy Qi immediately spread wildly in all directions from the place where the two collided, like a hurricane.

The terrifying energy Qi storm swept away the two of them forcefully.

However, the battle was not over.

Fang Qiu moved and charged at Lord Virtuous again.

In an instant, a fierce fight broke out.

Clang! Clang! Clang!

The sword and the claw seemed to be glued together. They collided wildly and quickly in succession, bursting out invisible energy Qi that spread in all directions.

At the same time, the two were also moving rapidly.

They fought all the way from the surface of the sea to land.

One couldn't see them clearly while they were on the sea surface.

As soon as they returned to the land, one could clearly see that wherever the two passed, the blue stones on the ground began to crack rapidly as the energy Qi swept past, forming a spider web-like crack on the ground.

In midair, the two waved their fists and the weapons in their hands madly.

In a flash, hundreds of moves were exchanged.

However, during the intense collision, a loud sound rang out all of a sudden.

Boom!

The layer of black mist-like energy Qi around the arm of Lord Virtuous suddenly exploded as if it had been stimulated by something.

In midair, Fang Qiu, who was about to continue to attack, was stopped by this sudden explosion.

“Tsk, tsk...”

Lord Virtuous laughed viciously.

It seemed that he had planned this sudden explosion for a long time.

“Sure enough, the older the wiser. You’re indeed insidious as a man who has lived for several decades!”

Fang Qiu waved his hand and wiped the trace of blood from the corner of his mouth.

The sudden explosion actually injured him. Although his injury was not serious, it still put him at a disadvantage.

However, Fang Qiu also suddenly sneered at this moment.

“Hmm?”

Lord Virtuous narrowed his eyes and stared at John Doe coldly. He didn't know why John Doe was sneering, but according to his decades of combat experience, there was absolutely something wrong with John Doe's sneer.

Puzzled, Lord Virtuous fixed his eyes on John Doe's hands.

He noticed that the long sword that had been held by John Doe's hands previously was now gone at some point.

At this time, Fang Qiu stretched out his two palms and put up a defensive posture.

However, Lord Virtuous actually felt two completely different auras of energy on John Doe's palms.

In his left hand, there was a very powerful and destructive energy aura, and in his right hand, there was a kind of very ethereal and elusive energy aura.

The two kinds of aura were completely opposite to each other, but they merged in John Doe's hands.

"How could that happen?"

At this moment, John Doe, who was grinning, suddenly shouted coldly.

"Formless Destruction!"

As the shout rang out, in an instant, the two completely opposite energies instantly merged into a transparent energy ball like a cannonball in front of Fang Qiu. Like a gust of wind, it shot out violently.

At this very moment, Lord Virtuous suddenly narrowed his eyes.

He could feel that this transparent energy ball contained a terrifying destructive power.

Originally, from the beginning of this battle to now, he had been planning to find an opportunity to plot against John Doe so that he could gain the upper hand and find an opportunity to kill John Doe completely.

But against his expectations, he was not the only one plotting.

John Doe was also plotting against him and was obviously waiting for him to bite the hook.

The speed of that transparent energy cannonball was terrifyingly fast.

Almost in an instant, it rushed to Lord Virtuous under his terrified eyes.

“Explode!”

Fang Qiu let out a roar from his throat.

The next moment, an earth-shattering explosion suddenly rang out.

Before Lord Virtuous could defend himself, the transparent energy cannonball hit him hard and exploded.

In the blink of an eye, a majestic wind directly swept up, carrying an extremely sharp energy that wildly spread in all directions.

Wherever the energy Qi storm passed, everything collapsed.

The incomparably hard ground made of blue stones directly cracked into dense cracks. Like a spider web, the cracks spread wildly in all directions, even to the seaside, causing the seawater to pour into the ground.

The place, which was originally surrounded by immortal Qi, was in a mess in an instant.

In the meantime, a figure was sent flying in the air. It took him more than ten meters to stabilize himself.

This person was not Lord Virtuous, but Fang Qiu.

Because the Qi of Heaven and Earth that was summoned and gathered was too much, the recoil caused by this move was also very strong.

One could see that Fang Qiu looked a little pale, and the edge of the human skin mask that had been stuck to his face began to bulge.

He quickly reached out and pressed a few times.

After fixing the human skin mask, Fang Qiu took a deep breath and turned to look at a place ten meters away where the energy Qi storm was raging.

Over there, the dust all over the sky blew with the wind and gradually fell.

When the energy Qi completely dispersed, the dust all over the sky finally scattered completely.

In midair, a figure was standing straight, exuding a sharp aura like a sword.

He looked majestic just like the time when he killed the gurus of the Seven Kingdoms.

Although he looked very domineering, at this moment, his clothes were completely ragged, his hair bun was also knocked off, and his long black waterfall-like hair was scattered.

Within the black hair, his bloodshot eyes were revealed. They were like those of a wild beast, a wild beast ready to eat people.

Although there were a few bloody wounds on his body, at this time, behind Lord Virtuous was completely covered by a demonic shadow, which looked like a terrifying monster attached to his back.

The demonic shadow with bared fangs appeared really terrifying.

Chapter 1593 Fang Qiu Is John Doe?

Staring at the figure of Lord Virtuous ten meters away, Fang Qiu gradually became serious.

At this moment, he realized that Lord Virtuous had changed. It was as if Lord Virtuous had completely changed into another person. His whole body was emitting a gloomy and sinister aura.

He looked like a fierce ghost.

Especially his bloodshot eyes, which seemed to be about to explode. He stared at Fang Qiu with a very strong murderous look.

Suddenly-

Whiz!

There was a loud sound. It was as if even the air was vibrating.

The black mist around Lord Virtuous quickly circled around him and directly condensed into an incomparably sharp diamond-shaped long spear in his hand.

The thick black energy, like a flame, attached to the spear and burned fiercely.

His long hair which had been scattered during the battle was fluttering in the air.

With the long spear in his hand and the surging energy Qi, his Qi power all over him looked several times fiercer than before.

“He actually withstood the Formless Destruction head-on?”

Fang Qiu was shocked.

He knew very well how powerful the Formless Destruction was. Back then, he had only been struck by the water man’s Formless Destruction, yet he had been blasted so far away.

It should be noted that the water man didn’t have any internal Qi at all. He displayed that move simply with water, and yet it had such a horrible effect.

Fang Qiu still remembered that when he struck the water man with the Formless Destruction, the water man was directly beaten into water drops all over the sky. Moreover, there was no Qi of Heaven and Earth in that space and he could only use his internal Qi.

Right now, Fang Qiu almost exerted all his strength to make this move. In addition, the Great Hand of Destruction and the Great Hand of Formlessness summoned the rich Qi of Heaven and Earth from all directions, so the power of this move was obviously magnified several times.

How could Lord Virtuous withstand it?

Thinking of this, Fang Qiu couldn’t help but take a deep breath.

Both he and Lord Virtuous were slightly injured in the fierce collision just now, and neither of them looked great.

When Fang Qiu and Lord Virtuous looked at each other right then, Fang Qiu clearly saw a kind of seriousness that had never been seen before in the eyes of Lord Virtuous.

Apparently, although the Formless Destruction did not cause much damage to Lord Virtuous, after taking this blow head-on, Lord Virtuous finally completely regarded John Doe as an enemy.

“You’re the first one to succeed in intimidating me in the past ten years.”

Holding the long spear, Lord Virtuous waved it and pointed the tip of it directly at Fang Qiu. With a gloomy face, he said viciously, “I’ll end you with my spear now!”

As he finished his words-

Boom!

An extremely violent Qi power burst out from the body of Lord Virtuous like a bomb. With a gust of huge and terrifying energy Qi, it instantly rushed in all directions and scattered.

Meanwhile, Fang Qiu clenched his right hand, and the divine sword in his hand gradually began to be covered with a layer of dazzling golden light.

Fang Qiu knew that Lord Virtuous was getting utterly serious.

The Qi power that erupted from his body was indeed very oppressive, with a destructive aura that no one dared to oppose.

Therefore, Fang Qiu could no longer hold back.

He directly injected all the golden internal Qi in his body into the divine sword.

Then, he took a deep breath, and the fighting desire in his eyes instantly soared.

The next moment-

“You’ll now expiate your sins!”

Lord Virtuous waved his right hand, and the demon shadow behind him, which was baring its fangs and brandishing its claws, expanded in the wind like burning gasoline and rose wildly. On the black long spear in his hand, beams of lightning began to tear everything apart.

Fang Qiu raised his eyebrows.

Looking at Lord Virtuous with surging Qi power on the opposite side, Fang Qiu didn’t hesitate to put his left hand in front of his chest. With his palm upward, he lifted his hand and then turned his wrist. He turned his palm downward and slapped it heavily in the air.

He displayed the Great Hand of Nihilism.

Clap!

As the palm strike fell, an energy fluctuation immediately spread out with Fang Qiu’s body as the center, covering a radius of ten kilometers and locking down all the Qi of Heaven and Earth in this area.

“Hmm?”

Lord Virtuous seemed to have sensed something. His face, which had been gloomy, suddenly stiffened the moment Fang Qiu struck out his palm.

“The hell with expiating my sins!”

Fang Qiu narrowed his eyes and locked the Qi of Heaven and Earth to prevent Lord Virtuous from absorbing it. At the same time, he said coldly, "Lord Virtuous of the Nirvana Organization, YOU shall expiate your sins!"

Fang Qiu would never let go of a cult like the Nirvana Organization.

Moreover, the person now standing in front of him was a big shot in the Nirvana Organization. Since the battle had come to this point, Fang Qiu would never retreat. He would do his best to kill Lord Virtuous here.

On the other side.

Obviously, Lord Virtuous also noticed that something was wrong.

After Fang Qiu struck out with his palm, the demonic shadow behind Lord Virtuous did not grow any longer, which made him a bit nervous. Without any hesitation, he directly flew up, raised his right hand, and held the long spear burning with black energy in his hand. He raised it like a javelin and aimed it at John Doe from above.

"Soul Chasing!"

A thunderous roar exploded.

The magic spear in the hand of Lord Virtuous suddenly expanded, and the black demonic light suddenly burst out like fire.

After that, he moved his arm.

In an instant, the long spear, which was more than ten meters long and surrounded by four chains of black energy with visible thunder, tore through the air like lightning. With a burst of sonic booms, it shot straight at Fang Qiu not far away.

Seeing this, Fang Qiu waved his right hand.

Full of fighting spirit, he fiercely waved the divine sword in his hand.

“Shattering the Universe!”

As soon as the voice rang out, the sword intent of Fang Qiu surged wildly all over his body. He seemed to have turned into an incomparably sharp giant sword, and incomparably sharp sword radiance directly condensed around him.

A golden light burst out from the divine sword in his hand.

“Slash!”

He waved his arm.

The golden sword light shot out in an instant.

In the sky.

The huge black demonic spear occupied half of the sky. It came down from above with an extremely sharp Qi power and stabbed toward Fang Qiu.

The golden sword light soared below. Like the rising sun, it shot toward the enormous demonic spear.

The two waves of terrifying energy Qi burst out when they collided with each other, causing the hard ground under the two's feet to crack directly.

Even the sea in the distance caved in directly under the collision of the auras emitted by the two horrible energies. The waves in the sea were surging.

In an instant, crazy winds surged. The scene was horrifying.

The two extremely terrifying attacks instantly crashed into each other like meteorites.

However, just as the two men were waiting for the earth-shattering explosion, the moment the two energies collided in the air, there was no sound at all.

Even the sound of the wind that had just rung out had completely disappeared at this moment.

It was as if space had frozen.

In midair, a black energy and a golden energy were resisting each other.

It could be clearly seen that where the two energies were resisting each other, even space began to twist.

After a while, the balance where the two energies that constantly resisted each other was finally broken.

Suddenly, like boiling water, the energies boiled and began to swell violently.

BOOM!

After a long time, an earth-shattering explosion finally resounded in this fairyland-like relic.

The moment the explosion sounded, the two energies that had been entangling with each other directly turned into an extremely terrifying energy storm that swept in all directions.

At the moment when the energy storm swept out, both the two men were sent flying. Like a small boat in a tsunami, they were swept up by the storm that could not be resisted at all. After flying up and down for a long time, they heavily slammed to the ground.

Poof!

The moment they fell to the ground, they spat out a mouthful of blood at the same time.

It could be seen that the two of them were completely powerless.

“Tsk, tsk tsk...”

The laughter of Lord Virtuous came. Even if he was knocked to the ground, even if he was shocked by the recoil force just now and his five internal organs were almost shattered, Lord Virtuous was still laughing.

He was not only laughing wildly but also endured the pain and forcibly stood up.

However, the moment he stood up, his eyes, which were bloodshot, suddenly contracted on his extremely pale face.

“Hee...”

A sneer was heard.

Not far away, John Doe, who was standing opposite him, actually stood up before him. Although John Doe seemed to be seriously injured, he was dragging his broken body toward Lord Virtuous step by step.

One could see that more than half of John Doe’s mask was torn apart.

Fang Qiu didn't notice at all that the human skin mask, which had lost most of its function, was torn apart at this moment, but it didn't block his sight.

He walked up to Lord Virtuous.

Fang Qiu waved his right hand, and the sharp divine sword in his hand directly stabbed toward the throat of Lord Virtuous.

In the meantime-

Swoosh!

Lord Virtuous bent his palm into a claw and waved it at Fang Qiu fiercely.

As Fang Qiu stabbed the long sword into his throat, his hand also grabbed the human skin mask on Fang Qiu's face and tore it off instantly.

He wanted to see who John Doe was.

When Lord Virtuous saw the face hidden under the human skin mask, his face changed, and his pupils instantly contracted.

"John Doe!

"Who on earth is John Doe?

"The Nirvana Organization has been investigating John Doe for two years. We've been investigating him since the day he became famous.

"But now... The man I'm looking at...

“It turns out John Doe is Fang Qiu, the insignificant Chinese Medicine doctor who keeps a high profile in the entire world and was removed from the Nirvana Organization at the beginning!

“How could this be?

“How could it be Fang Qiu?!

“How could Fang Qiu be John Doe?!”

He stretched out his right hand.

Covering his throat pierced by John Doe, Lord Virtuous gave a wry smile in pain. He then stretched out the other hand to point at Fang Qiu, opened his mouth, and laughed wildly.

As he laughed, scarlet blood gushed out from his mouth.

Then, he fell backward and died.

Chapter 1594 Late Reinforcements

“Phew...”

Looking at the lifeless body of Lord Virtuous with his eyes still open, Fang Qiu couldn't help shaking his head and sighing with emotion. “It's your blessing to die in the Laozi Relic.

“What a pity. As a peerless expert of a generation, you should've done good things for the country!”

After that, the long sword in Fang Qiu's hand shattered and dissipated.

He struggled to sit down cross-legged with a pale face and closed his eyes. He immediately ran his technique to quickly summon the rich Qi of Heaven and Earth around him to replenish his internal Qi and heal his wounds at the same time.

Right now, led by Master Numinous, the Huaxianese were fighting fiercely with 12 gurus from all over the world outside the ruins. He Gaoming and more than 30 disciples of the eight factions and sixteen sects in the relic were also fighting fiercely with the eighth-class and ninth-class experts in addition to the gurus of the world alliance.

The battle between the two sides was extremely fierce.

Although the Huaxianese had a slight upper hand, they still couldn't defeat their enemies after a long time. Obviously, the people of the world allied forces were not easy to deal with. Each of them was quite powerful and was far superior to those incapable gurus of the Nirvana Organization.

Although the Huaxianese easily killed half of the people of the world alliance in the relic, they achieved it with the help of Fang Qiu in the void.

Now without the help of Fang Qiu, it would not be so easy to kill all the remaining members of the world alliance.

Moreover, when many people saw that the situation was not good, they all wanted to escape. They were fighting and running at the same time.

After sitting cross-legged to recuperate for a long time in the relic, Fang Qiu finally had his meridians and the internal Qi in his Dantian recovered.

With the recovery of the internal Qi, his physical injuries also improved a lot.

“Well.”

Opening his eyes and looking at the body of Lord Virtuous once again, Fang Qiu gently waved his hand, and a wave of energy spread out. It brushed past the eyes of Lord Virtuous with a grievance and closed them.

After doing that, Fang Qiu stood up.

As he made a grasping motion with his right hand, a stream of Qi of Heaven and Earth surged forward, wrapped around the body of Lord Virtuous like chains, and moved him to the hole caused by the great battle just now.

Then, Fang Qiu waved his hand again.

Dust and gravel flew over from all directions, filling up the pit and leveling the ground.

It was already very kind of Fang Qiu to bury Lord Virtuous with his own hands.

After all, although Lord Virtuous could be regarded as a peerless expert of his generation, he was also a high-level figure in the Nirvana Organization, which was a cult.

It was already a great honor for him to be buried by Fang Qiu personally, so Fang Qiu didn't intend to pile up the place where Lord Virtuous was buried into a grave. Instead, he filled up the pit directly.

After burying Lord Virtuous, Fang Qiu took back the mask and put it on again. Then, he directly controlled the tripod to disappear in an instant.

When he reappeared, he was already outside the ruins.

In the sky above the pool where the gate of the ruins was hidden.

Looking around, Fang Qiu found that the battle outside had also ended.

At this time, there were many foreigners' bodies on the ground around, but no one from Huaxia had died. None of the Huaxianese was seriously injured.

However, taking a closer look, Fang Qiu found that the number of corpses on the ground did not seem to match the number of people in the foreign alliance.

"The oldest."

When everyone was recovering through cultivation, He Gaoming was the first to notice John Doe. He immediately shouted and came over with his brothers.

Fang Qiu asked, "How did your battle go?"

"It was a good fight!"

He Gaoming laughed heartily and said, "The brothers have made great progress. No one is injured, but..."

"But what?" Fang Qiu asked.

"It's just that we had a few of them escape."

The Huaxianese came over one after another. Master Numinous, who was walking in the front, shook his head with a wry smile and said, "These people are really not easy to deal with. Although their means are not very powerful, they are very strange. Moreover, they fought while escaping and had no intention of fighting to the death with us at all. In the end, we only killed part of them."

"It seems that not many people have managed to escape."

Fang Qiu smiled and said, "That's enough. Since they've run away, we don't have to wait. Let them go back and publicize to their countries what happens once they mess with Huaxia!"

Everyone nodded.

Previously, the reason why John Doe took the initiative to kill these people was to warn the other countries in the world what would happen if they messed with Huaxia.

Now, although not all these people were killed, what the Huaxianese had done was enough to make people from all over the world tremble with fear.

“By the way...”

A guru of the Sword Sect came forward, looked at Fang Qiu carefully from head to toe, and asked, “Lord Virtuous of Nirvana Organization must be hiding in the ruins. That’s why you failed to find him, right?”

As he finished his words, everyone immediately focused their attention on John Doe.

“No.”

Fang Qiu shook his head and replied, “Lord Virtuous is dead!”

“What?”

The four gurus of the Sword Sect were shocked when they heard that.

“Are you saying that Lord Virtuous of the Nirvana Organization is dead?”

Master Numinous and the four patriarchs also stared at John Doe in shock.

“Yes.”

Fang Qiu nodded with certainty and said, “Although he almost attained the power to master the Two-Flower Core Formation, the gap between him and me was not big. In addition, I got that special ability in the relic, so I finally killed him when we were both exhausted!”

Everyone was shocked.

No one had expected that John Doe really killed Lord Virtuous, who was the second-in-command of the Nirvana Organization. He was a real super expert with the Flower Core Formation.

How did John Doe manage to kill Lord Virtuous right after he picked up the Flower Core Formation?

For a moment, everyone thought of the fierce battles that John Doe had made himself famous quickly when he first showed up in Wulin.

In almost every battle, he defeated his opponent as the weaker one.

None of the martial arts practitioners of the same level could be a match for John Doe at all.

Now it seemed that John Doe still had the horrifying ability to fight beyond his level.

“Impressive!”

Master Numinous immediately made a hold fist salute to Fang Qiu and exclaimed.

“You even killed Lord Virtuous of the Nirvana Organization. It’s really impressive.”

Xi Fengling also made a hold fist salute to Fang Qiu.

“I didn’t expect that the boy we’ve been so familiar with would surpass us now. He even succeeded in killing the second-in-command of the Nirvana Organization.”

Patriarch Qian shook his head in amazement and said, "It seems that it's not that we don't work hard, but that the speed of John Doe's development has far exceeded ours."

Diwu Mingchuan didn't say anything.

He looked at John Doe and secretly rejoiced.

He was glad that Diwu Qian had helped John Doe before, so the Diwu Great Family had a good relationship with John Doe.

"This kid's potential is simply too astonishing.

"It has only been a short time.

"He has actually risen from a boy who was not even a guru to a master with the Flower Core Formation. He even killed Lord Virtuous of the Nirvana Organization.

"His strength and speed of development are simply too frightening."

"Thank you for what you've done."

Unlike the four patriarchs, the four gurus of the Sword Sect, after being shocked, actually bowed to Fang Qiu in unison.

As the gurus of the Sword Sect, of course, they had a very deep understanding of the Nirvana Organization. At the same time, they also clearly knew how powerful Lord Virtuous of the Nirvana Organization was.

To their surprise, John Doe managed to kill Lord Virtuous.

This was undoubtedly a devastating blow to the Nirvana Organization and also a great joy for the Sword Sect, which had been fighting against the Nirvana Organization.

In the face of the gratitude of the four gurus of the Sword Sect, Fang Qiu responded with a smile, "Since I'm from Huaxia, it's my duty to do my best to destroy this cult."

At this moment-

Whoosh! Whoosh! Whoosh!

The sound of something breaking through the air suddenly came from a distance.

Fang Qiu immediately turned to look.

He noticed that a group of people was rushing over at a high speed.

The leaders were five gurus.

"They're from our Sword Sect."

When the four gurus of the Sword Sect saw the people coming, they immediately went up to the group.

When the newly arrived five gurus from the Sword Sect coming with their men saw that everyone was fine, they breathed a sigh of relief.

One of them asked, "Are you all right?"

"Yes."

One of the gurus from the Sword Sect, who was originally there, stepped forward and said, “More than half of the people from the world alliance have been killed by us. A few of them escaped, and the members of the Nirvana Organization are all dead!”

“I’m glad you are fine.”

The newly arrived people nodded. One of them said, “We are the closest, so we came here first. On the way here, we didn’t dare to slow down a bit and even met some people from the Nirvana Organization. Those people were all gurus, but their combat capability was very weak. I suppose they were incapable gurus cultivated by the Nirvana Organization. There were a total of 20 of them.

“We took action and killed some of them. Several of them managed to escape. In order to come here and assist you as soon as possible, we did not pursue them.”

Hearing this, everyone realized the reason why they didn’t see anyone from the Nirvana Organization coming after fighting outside the relic for a long time.

It turned out that those people were intercepted by the Huaxianese reinforcements on the way.

One of the gurus of the Sword Sect who had just arrived asked, “How did you guys do over here?”

“We did a great job here.”

A man said, “Three groups of the world alliance came over. We eliminated the first two groups, and the third group suffered heavy casualties.

“As for the members of the Nirvana Organization...

“When we were in the relic, we killed most of their powerful men and dozens of incapable gurus in the relic.

“Just now, John Doe even killed Lord Virtuous of the Nirvana Organization!”

While they were talking, one of the gurus from the Sword Sect who was originally here pointed at John Doe and said, "If it weren't for John Doe, it wouldn't have been easy for us to win this battle!"

"What? Lord Virtuous of the Nirvana Organization is dead?"

The newly arrived gurus of the Sword Sect looked at Fang Qiu in shock.

"Yes."

Fang Qiu nodded with certainty and said, "His body is now buried in the relic."

"Are you sure he is Lord Virtuous?" asked a man from Sword Sect.

Fang Qiu responded with a faint smile, "I've killed a lot of people from the Nirvana Organization. This is the second time I've fought with Lord Virtuous."

The five newly arrived gurus of the Sword Sect were all shocked at what he said.

One of them asked, "John Doe, have... have you mastered the Flower Core Formation?"

"Yes."

A guru from the Sword Sect nodded and said, "We've been honored to witness John Doe achieve that phase!"

Chapter 1595 John Doe Is at SS Level!

"Did you witness John Doe achieve that phase?"

The five gurus of the Sword Sect, who had just arrived, glanced at everyone present in shock and found that everyone was nodding.

Although they were utterly stunned, they completely believed it.

Since John Doe had already achieved the Flower Core Formation, it was not impossible for him to kill Lord Virtuous.

“By the way...”

One of the five newly arrived gurus of the Sword Sect, a middle-aged man with his hair tied, stepped forward and continued to ask, “According to the information we have received, there are a total of 30 gurus and nearly 100 people of the eighth and ninth classes in this world alliance. Did John Doe also kill these people directly with his exceptional strength?”

“No.”

Everyone shook their heads with a smile.

“If that’s not the case, how did you deal with the 30 gurus?”

The middle-aged man with his hair tied was confused.

“Here’s the thing.”

A guru of the Sword Sect stepped forward and said with a smile, “At first, we didn’t know how to deal with them. Later, John Doe took the initiative to leave the relic and killed 6 gurus of the world alliance.”

“He killed 6 of the 30 gurus?”

The five newly arrived gurus of Sword Sect were all shocked.

“Those people had 30 gurus!

“No matter how powerful John Doe is, he couldn’t have possibly left safely after killing six among the 30 gurus, right?”

A guru of the Sword Sect explained, “We were the first to enter the relic. In the relic, John Doe got a treasure, which was the way to control the whole relic.

“Originally, foreigners were not allowed to enter the relic. Apart from Huaxianese, anyone would be expelled. After John Doe got hold of the relic, he lured the 24 gurus of the foreign alliance in, and then only half of them were expelled. The other half of them were still in the relic. We were inside and killed the ones there first, and then we came out to deal with the other half. Unfortunately, some of them escaped!”

After listening to what had happened, the five newly arrived gurus of the Sword Sect suddenly became even more dumbfounded.

They were clear that what their force had achieved was all thanks to John Doe.

“It’s a blessing for our nation to have your help.”

The middle-aged man with tied hair in the lead made a hold fist salute to Fang Qiu to express his gratitude.

The others also made a hold fist salute.

“We are here for the nation to begin with.”

Fang Qiu beamed and nodded.

In fact, no matter what the reason was, Fang Qiu would definitely come here.

Although this trip was extremely dangerous for him, fortunately, he was lucky enough to make a breakthrough in the relic. He achieved the One-Flower Core Formation and the three moves of Ren. Without either of these methods, Fang Qiu would have no way to kill Lord Virtuous.

If Fang Qiu hadn't learned the three moves of Ren, he wouldn't have been able to cut off the supply of internal Qi of Lord Virtuous, and he wouldn't have been able to defeat his opponent during the final collision.

Maybe it would end with Fang Qiu falling to the ground and Lord Virtuous tearing off the mask on his face.

Fortunately, that kind of thing did not happen, and Fang Qiu had a lot of human skin masks with him. When he recovered from the battle, Fang Qiu deliberately made time to wash his face by the sea and buried the human skin mask that had been torn off by Lord Virtuous with him.

Now, Fang Qiu was wearing a brand new human skin mask, and no one could tell.

After learning that John Doe had taken control of this relic, the middle-aged man with his hair tied immediately asked, "I wonder if we can enter the relic for a visit."

As he finished his words, all the reinforcements who had just arrived looked at Fang Qiu expectantly.

"Of course."

Fang Qiu nodded with a smile. He then led everyone to the gate of the ruins. After opening it, he led them in.

"The Qi of Heaven and Earth here is so rich!"

As soon as they entered, the newly arrived reinforcements were immediately stunned by the scenery and the rich Qi of Heaven and Earth in the ruins.

They didn't expect that there was actually such strong Qi of Heaven and Earth in this relic.

While they were shocked, Fang Qiu began to show everyone around the entire relic along the path that the crowd had taken before. However, the things in the relic had been taken away, so all the scenes that they had experienced before also disappeared.

In the end, Fang Qiu took everyone to the place where Lord Virtuous was buried.

At the strong request of the gurus of the Sword Sect, Fang Qiu dug up the ground again. Everyone saw the body of Lord Virtuous.

When all of this was done, everyone returned to the entrance of the relic under the guidance of Fang Qiu.

The middle-aged guru with his hair tied from the Sword Sect said, "Although we've taken away all the things that should be taken away, the existence of this relic itself is a treasure. Now that the battle has ended, let's first discuss how to handle this relic."

Right after that, everyone's eyes were focused on John Doe.

After all, the only person who could control this relic was John Doe.

Therefore, everyone could only follow his instructions.

Fang Qiu was also aware that this relic was the legacy of an ancient sage, so he couldn't keep it for himself.

Therefore, after thinking about it carefully, Fang Qiu said, "This relic was left by Laozi the sage. This is the common property of all Huaxianese. Although I was lucky enough to get control of the relic, I am also very willing to handle the whole relic to the nation and let everyone share it."

As he finished his words, all the people present were moved.

In fact, even if John Doe wanted to keep the relic for himself, they and the government would not oppose it.

After all, the owner of the relic was chosen by the will left by Laozi the sage. No one was qualified to deprive John Doe of this right.

In such a case, John Doe was actually willing to share such a nice treasure with everyone. What kind of broad-mindedness was that?

Everyone cupped their hands at John Doe to show their respect.

The middle-aged guru with his hair tied asked with a wry smile, "Although John Doe knows is kind and generous, this place is the territory of another country after all. We can't forcibly occupy this land, can we? The relic is right here, and we can't move it away. What should we do?"

Hearing this, everyone voiced their opinions.

"Why don't we take turns to use it? Set the time and let different parties bring people in. When the time of cultivation is up, one will leave and have others go in!"

"That's not appropriate. After all, this is a foreign place. It's easy to attract the attention of other countries and be ambushed."

"In fact, we can send people to guard this place and even rent this land directly from the local country."

Although the crowd had a lot of ideas, every idea they proposed would be opposed.

It seemed that they couldn't come up with the most perfect way.

In the end, everyone fixed their eyes on John Doe once again to see if he had any solution.

Fang Qiu said, "Although I do not know if it will work, I might be able to try opening up an entrance within our country. However, I do not know if I can succeed."

"If this can work, everything will be solved perfectly."

"No matter what, you must give it a try."

"It would truly be great if a new entrance could be opened."

Everyone nodded and agreed to let Fang Qiu have a try.

After that was decided, everyone went out of the relic.

Standing by the pool, Fang Qiu asked, "Everyone, the entrance to this relic has already been made public. After we leave, there will definitely be people from other countries coming to search for and attempt to enter it. Thus, I feel that we should destroy the entrance. What do you think?"

"Although that's the case, if you can't open a new entrance in the country once this entrance is destroyed, won't we lose this relic?" said a guru from the Sword Sect.

"Don't worry."

Fang Qiu shook his head and said with a smile, "We won't lose it. I've already taken control of this relic and have a way to enter it at any time. Even if the entrance is damaged, I can still find a way to enter it after returning to Huaxia."

Hearing this, everyone was relieved.

Without hesitation, Fang Qiu slammed his palm directly into the water.

The terrifying palm force directly shattered the stone tablet engraved with the word “Tao” at the bottom of the pool.

Then, Fang Qiu returned to Huaxia with everyone.

...

On the other side.

Under the siege of the Huaxianese, the people of various countries who had finally escaped immediately contacted their governments and forces to deliver the news of what had happened as soon as they made sure that they were safe.

“Huaxia has won a great victory, and the allied forces are almost destroyed!”

“Most of the experts were killed. 26 of the 30 gurus died. Only four survived.”

“The Huaxianese are so powerful that we can’t fight against them at all!”

“The world alliance is once again eliminated. The Laozi Relic is unprecedented where the Heaven and Earth energy is extremely rich. It’s simply a paradise for metahumans. We can’t have the Huaxianese keep that place to themselves!”

Soon, all kinds of news spread among the major forces of each country.

Hearing the news, all the countries and forces were shocked.

How did Huaxia manage to defeat the world alliance?

People weren't that surprised when the world alliance failed the first two times because they didn't dispatch many people back then.

But this time, the world alliance had sent out a total of 30 S-class experts while the Huaxianese only had five gurus. How could the world alliance be destroyed?

"What on earth happened?"

As all the major forces were shocked, another piece of news reached them.

"John Doe is super powerful. He is not S-class at all. He is even stronger than S+. He has reached SS level!"

"John Doe fought against 30 people and killed six S-class metahumans alone!"

This news shocked the whole world.

"John Doe has reached SS level?"

"How can this be possible?"

It should be noted that even in the whole world, there were only a few SS-level experts. John Doe was so young. How could he directly reach the terrifying SS level directly?

If that was the case, it would be too terrifying.

Shocked, all the countries immediately began to hold secret meetings with all the other countries to discuss how to deal with Huaxia and how to get the relic from the Huaxianese.

At the same time, the world underground-force forum also released the latest news.

Reading the news about the fight between the various forces and the Huaxianese over the Laozi Relic, all the people on the underground-force forum were shocked and began to talk about it.

“Huaxia managed to guard the relic while fighting against the whole world?”

“That can’t be possible!”

“I didn’t expect that the Huaxianese would own the relic all by themselves. Has Wulin in Huaxia become so powerful now?”

Chapter 1596 Building the Passage to the Ruins

In Huaxia, as the news spread, all the sects in Wulin, as well as all the people who were paying attention to this matter and wanted to do their best but couldn’t, soon received the news.

“They did it.”

“They’ve saved the Laozi Relic!”

“Huaxia is the best!”

“It’s impossible for these foreign people to take things from Huaxia!”

“Huaxia is awesome!”

“Haha, amazing. Although I don’t know the specific situation, as long as we can keep the relic, it means that Huaxia has succeeded!”

“It doesn’t matter even if we’re against the whole world. Huaxia fears no one!”

After receiving the news, all the parties in Wulin cheered one after another.

In the Pear Garden.

“They did it!”

As soon as he came out of seclusion, Yun Yangzi, who had just received the news, clenched his fists and was very excited.

If it weren't for his closed-door training, he would've definitely gone with Master Numinous to guard the Laozi Relic.

After coming out of seclusion and hearing the news, he had been worried. He even planned to secretly help but was stopped by Meng Lingyun, the deputy minister.

Of course, he was very excited now when he heard that the Huaxianese had succeeded in guarding the relic.

He was looking forward to Master Numinous's return more and more. “When he comes back, I must ask him what happened and what kind of battle they went through!”

Almost everyone from Wulin in Jiangjing was extremely excited because of John Doe.

It was the place where John Doe joined Wulin and made himself famous all over the world. They had watched John Doe advance step by step.

They also heard about what had happened in the Laozi Relic, and they also wanted to get involved in it and protect the relics left by the ancient sages.

Unfortunately, due to their limited strength, they were unable to go over.

However, they believed in John Doe.

It was because they had seen miracles created by John Doe with their own eyes. At that time, John Doe had worked so many wonders right after he joined Wulin. Now that John Doe had become a top expert, they believed that he would definitely create more miracles.

After several days of waiting, the news of the great victory of Huaxia made all of them extremely excited.

It was especially true for Elder Yi.

In the wooden building in that manor, Elder Yi sat in the hall, looking at the scenery in the garden outside the door and the cloudless sky with a big smile on his face.

“What a brilliant brat!”

The first time he met John Doe, John Doe had openly auctioned off an Earth Treasure at the trade fair.

After that, John Doe came to the manor for the first time.

He fought on the stage and defeated a Martial Superior with the strength of a martial arts practitioner. The scenes flashed in Elder Yi’s mind one by one.

When he thought of the present, Elder Yi couldn’t help shaking his head and sighing with emotion with a smile, “I didn’t expect that John Doe, who couldn’t even enter Wulin at that time, had advanced to such an extent.”

...

The entire Huaxianese Wulin was excited about the success of protecting the Laozi Relic this time.

About 300 kilometers away from the site of the Laozi Relic, in a very remote village in Zhongdong, a few people in black with injuries and eyes full of fear were hiding in an extremely dilapidated old building.

This group of people was none other than the incapable gurus trained by the Nirvana Organization.

Originally, they had received the order from Lord Virtuous, ready to go to the place where the Laozi Relic was located and hide first. They planned to kill the Huaxianese when the latter got worn out while fighting against the world alliance.

Unexpectedly, just as they were about to arrive at the Laozi Relic, they were hit by reinforcements from Huaxia. Before they could start to hide and ambush, they were killed by five gurus of the Sword Sect from Huaxia. They had no strength to fight back and could only flee in all directions.

In the end, only five of them managed to escape, who were gathered in this old building.

“Spread the news now!”

Under the guidance of one man, in a panic, the five of them spread everything that had happened in Zhongdong to a certain secret place.

...

Fang Qiu and the others crossed the border.

Soon, led by Fang Qiu, everyone came to a desert in Beijiang.

Fang Qiu said as he led everyone forward, “Everyone, I’ve already thought of a way to open the relic passage, but we need to find a suitable geographical location, a place that won’t be discovered by people from other countries. I think it’s good to build it in the desert. If you have any suggestions, you can put them forward.”

Hearing what he said, everyone began to discuss in a low voice.

Master Numinous said, "Let's build the passage first. As long as it can be built in our country, there will be no problem."

Everyone echoed.

"Okay."

Fang Qiu nodded. While looking for a suitable place, he explained to everyone, "One of the most important reasons why I chose the desert is that the place won't be easily discovered. After the passage is built, I don't know what it will look like and whether it will be the new gate of the ruins.

"If the passage is the gate of the ruins and is built at a crowded place, it will be inevitably discovered by ordinary people, and there will be information leakage.

"But that won't be a problem if it's built in the desert.

"This is the depths of the desert. Ordinary people and adventurers can't come here but martial arts practitioners, so it's very safe to build it here."

Everyone nodded.

Following that, Fang Qiu directly released his Divine Consciousness.

He carefully explored the area within 60 kilometers.

Soon, he found a place with relatively rich Qi of Heaven and Earth.

They arrived at that place.

Everyone surrounded Fang Qiu from a distance as he began to try to build the passage.

Along the way, Fang Qiu had been carefully sensing the situation inside the small tripod in his body. As a result, he found that he could still clearly see the situation inside the relic through the tripod. It was just that because he was missing a little connection, he could not enter the relic directly.

That was to say, if Fang Qiu wanted to have the ability granted by the small tripod to enter and exit the relic at will, he had to connect the relic with this land.

There was no doubt that the relic was within that tiny tripod.

In fact, when Fang Qiu got the tripod, he had already found that the Qi power of the entire relic was the space inside the tripod. Laozi had injected a lot of Qi of Heaven and Earth, which was almost like water, into the tripod in an extremely powerful way.

It could be said that the Laozi Relic was with Fang Qiu wherever he went, but there was no passage to enter.

Fortunately, while using his Divine Consciousness to sense and explore in the tripod, Fang Qiu found a way.

It seemed that Laozi deliberately left the passage when he left the relic. It was just temporarily closed and had not been opened.

What Fang Qiu needed to do was to find a place where there was enough Qi of Heaven and Earth to open the passage.

Under everyone's gaze, Fang Qiu used the Great Hand of Destruction to quickly gather the Qi of Heaven and Earth and then condensed it into an array formation, which was exactly the same as the one in the sky above the ruins.

Then, he quickly injected the Qi of Heaven and Earth into it.

The array formation was formed.

It resonated with the tiny tripod.

After that, under the guidance of the small tripod, the horrifying Qi of Heaven and Earth that gathered from all directions began to break through the space barrier. Unfortunately, the Qi of Heaven and Earth was too little here.

When the Qi of Heaven and Earth was not enough, the tripod directly began to absorb the internal Qi of Fang Qiu. With Fang Qiu's body as the center, it burst out a huge attraction and forcibly absorbed the internal Qi from the bodies of everyone in all directions.

Fang Qiu and everyone on the scene were shocked, and their faces changed greatly.

"Don't worry, everyone. To build the passage, we need to break the space barrier. The Qi of Heaven and Earth in this place is very thin, so the construction needs our internal Qi. There is also a force helping us in the relic. Now we are halfway through it. Hold on for a little longer, and the passage will be completely opened!"

Fang Qiu scanned the tripod with his Divine Consciousness and found the process of the construction of the passage. He immediately comforted everyone.

Only then did everyone feel a bit relieved.

Three minutes later, everyone's internal Qi was completely absorbed.

Boom!

A muffled sound of thunder suddenly rang out.

The formation under Fang Qiu's feet, which was condensed by the Qi of Heaven and Earth, suddenly burst out with strong light. Then, an oval about two meters high and one meter wide was suspended above the sand layer. The space passage slowly appeared.

Below, the formation condensed by the Qi of Heaven and Earth also disappeared at the same time.

"It is done!"

Fang Qiu was pleasantly surprised.

Everyone also ran up.

"I'll go in and have a try."

Running his power a bit, Fang Qiu disappeared from where he was and reappeared in the Laozi Relic in an instant.

As he did it again, he returned to the desert.

With a closer look, everyone found that the space passage was gone.

They looked at each other and didn't know how to enter.

Fang Qiu quickly controlled the tripod and carefully analyzed the entry method of the space passage, only to find that the space passage was newly formed. It would only open after Fang Qiu set the entrance method himself.

"An entrance method?"

After thinking about it carefully, Fang Qiu immediately thought of the extremely overbearing Qi of Heaven and Earth in the relic that could repel all the foreigners. Then, he immediately led that gust of Qi of Heaven and Earth over.

“Although it can repel foreigners, there are also bad people in the country. If the people of the Nirvana Organization sneak in, it will be troublesome.

“I must think of a way to keep all the Nirvana people out.”

John Doe was lost in thought, and no one dared to disturb him.

After a while, Fang Qiu’s eyes suddenly lit up.

He immediately ran the golden internal Qi in him and injected it into the tripod. After finding that it was not rejected, he tried to merge the trace of golden internal Qi with the extremely overbearing Qi of Heaven and Earth.

The moment the integration succeeded, Fang Qiu smiled.

With the golden internal Qi that merged with the overbearing Qi of Heaven and Earth guarding the relic, anyone who cultivated the demonic methods would be repelled. In this way, there would be no chance for the members of the Nirvana Organization to sneak in at all.

“Well, everyone, come and have a try.”

After setting it, Fang Qiu called out to everyone with a smile.

Chapter 1597 Hand Over John Doe!

A guru of the Sword Sect stepped forward and asked, “Is there anything special about it?”

“As before, only Huaxinese can enter the relic, and only ordinary martial arts practitioners can enter. Any foreigners or those who practice demonic methods cannot enter.”

Fang Qiu smiled and pointed to the space passage.

While everyone was surprised after listening to what he said, they also lined up to have a try.

As expected, when they stepped into the space passage, the scene in front of them changed as they returned to the Laozi Relic. As soon as they entered, they felt a gust of extremely overbearing Qi of Heaven and Earth in their bodies again, which was mixed with traces of golden Qi.

The two kinds of Qi circled around everyone’s body and then disappeared as if they had never appeared.

Master Numinous asked, “Will this entrance remain?”

“No.”

Fang Qiu shook his head and said, “When I built the entrance to the relic, you should have seen that there was a formation on the ground. As long as a Martial Superior above the eighth class injects his internal Qi into the formation, it will be activated, and the entrance will appear. Then, everyone can enter.”

“Wonderful!”

The gurus of the Sword Sect laughed and gave John Doe a thumbs-up.

“You guys.”

Fang Qiu walked to He Gaoming and the others and said, “You’ll stay inside to cultivate with Sword Fanatic for a while.”

Hearing this, the brothers all nodded.

Although the Qi of Heaven and Earth in the Zengzi Relic was not bad, it was still much weaker than the Qi of Heaven and Earth in this relic.

In addition, the brothers had just experienced the airport battle not long ago, and they all had enlightenment. Moreover, when they built the entrance of the passage just now, almost all the internal Qi in their bodies had been absorbed. Therefore, it was undoubtedly the best choice for them to stay in the Laozi Relic to cultivate.

On the other side.

At the same time, the four clans and Master Numinous also began to inform their juniors to come here for cultivation.

It was the same with the people from the eight factions and sixteen sects.

Without much hesitation, He Gaoming and the others found a place near the mountains and rivers in the ruins, circled it, and marked it as their station.

The other clans and forces also began to find suitable positions for themselves.

Fang Qiu came to the sky with He Gaoming and the others.

They went to the mountain where the bamboo slips of the Tao Te Ching were found.

That was the place that Fang Qiu had taken a fancy to for a long time. It was not only because the Breathing Earth there could grow mysterious jade mines, but also because there was a river next to the high mountain. The Qi of Heaven and Earth in the river was very rich, even richer than the Qi of Heaven and Earth in the sea under the clouds.

Therefore, this place was undoubtedly the best place to do cultivation in the entire relic.

When John Doe and the others chose the best place, the other forces did not complain. After all, the entire relic belonged to John Doe, and it was under his control.

It was natural for John Doe to get the best position.

After getting their spots, everyone began to do cultivation one after another.

In the previous battle, He Gaoming and the others had made great progress. Now was the best opportunity for them to quiet down as they rested and advanced.

As for Fang Qiu, he came to the top of the mountain where he visited the bamboo slips before. He sat down at the stone table and glanced at the scenery at the foot of the mountain. Then, he began to rest with his eyes closed to consolidate his realm.

...

Dozens of countries all over the world, led by Murica, Soviety, Anglan, L'hexagone, Nihon, Germany, and Italy, secretly held a video conference.

In an encrypted conference room on the satellite network, the high-level officials of all countries entered together and began to discuss the Laozi Relic, the Huaxianese occupying it, and the three attacks that failed.

"Murica, I think you should explain to us why the information you got was false and why our country's people were wiped out again!"

The representative of Anglan was furious.

They failed three times.

The first time was when they fought separately. As a result, they were hit by the missiles launched by Murica in Ahanf. During the second time, they reached an agreement on all the conditions and formed the Alliance of Seven under the leadership of Murica. However, their men were all eliminated.

During the third time, they sent people out again according to the intelligence collected by the Muricans, but then again, those people died.

Not only the representative of Anglan but also the representatives of several other large countries were equally furious.

“You must give us an explanation. What happened?!”

“Didn’t you make sure that the Huaxianese only had five S-class experts? We had 30 people in total, but they were killed like this by those five experts. Anyway, I don’t believe it.”

“The representative of Murica must give us an explanation!”

As soon as the video was connected, all the major countries targeted Murica.

The representative of Murica said with a gloomy face, “Everyone, the people we sent out are also dead. Just like you, all our three groups of S-class experts have died. We don’t know why things would end up like this either.”

Smiling wryly, the Murican representative continued, “This time, several S-class experts have escaped from the Huaxianese. Now, the countries that those experts belong to should have got the exact news. Please share it with us so that we can know what has happened before we can do detailed research and target the Huaxianese!”

Hearing that, all the countries voiced their opinions, asking all the insiders to share what they knew.

Without hesitation, those insiders all shared the information they knew.

“John Doe!”

“John Doe did all of this!”

“John Doe is the culprit of our failure.”

“I didn’t expect John Doe to really break through to the SS level. This guy is too powerful. If it weren’t for him, we wouldn’t have ended up like this!”

“No matter what, we must get rid of John Doe!”

Soon, all the countries participating in the video conference put the blame on John Doe.

Not long after, a piece of news that shocked all the metahumans in the world suddenly came.

“More than a dozen countries led by Murica have jointly issued a statement asking Huaxia to hand over John Doe. Otherwise, they will all join forces to suppress Huaxia!”

As soon as the news appeared, it immediately spread to the underground-force forum.

As the news was spread, the underground-force forum was in an uproar.

“What the fuck? What’s going on?”

“What did John Doe do now? Why are there so many countries uniting to put pressure on Huaxia to deal with him?”

“This is incredible. How could he provoke more than a dozen countries to issue a united statement?”

“Isn’t it obvious that they want to kill John Doe?”

“What on earth happened? How could John Doe be targeted so much?”

For a moment, there were all kinds of discussions on the underground-force forum.

Under the heated discussion of countless people, all kinds of news came one after another.

“John Doe led the Huaxianese to destroy the world alliance three times?”

“Huaxia succeeded in defending the relic. All the teams from all over the world were wiped out!”

“According to preliminary statistics, John Doe led the Huaxianese to kill at least 50 S-class experts from all over the world. They killed countless people below S class, and Huaxia has not lost a single person!”

“According to reliable news, John Doe is not an S-class expert, but a super expert of SS level. The 30 experts sent by various countries to kill the Huaxianese are no match for him at all. He killed six of them alone with ease!”

“So what if he is an enemy of the world? John Doe led the masters of Wulin in Huaxia to fight against metahumans from all over the world. In the end, the Huaxianese succeeded three times. Not only did none of them get hurt, but they also kept the Laozi Relic to themselves!”

These pieces of news immediately stunned countless people.

“No way! SS level?”

“That sounds unbelievable. He’s really awesome!”

“They crushed the whole world. John Doe is really terrifying, and so are the Huaxianese.”

“The strength of Huaxia is incredible.”

“John Doe has only appeared in public for a few years. How did he manage to do this?”

“SS level. That’s amazing. He must be the fastest to rise in history!”

Countless people were discussing heatedly on the forum.

In the blink of an eye, John Doe directly rushed into the top ten on the forum and ranked eighth.

The update of the ranking shocked everyone while they also felt that it was reasonable.

After all, John Doe was an SS level expert.

The thing was that it had only been less than two years since John Doe became famous. His rise simply astounded everyone.

On the Wulin online forum in Huaxia.

“They want to take revenge on John Doe in this way?”

“This is hilarious. This group of foreigners really has no way to deal with John Doe. Is this why they’ve come up with such a lousy solution?”

“No. We absolutely will never give John Doe to them!”

“How dare they pressure him in the name of their countries? It seems that these countries have suffered too little. Maybe they don’t know that John Doe is a famous vengeful person. For the sake of his brothers, he has destroyed a lot of clans and sects. How dare these foreigners threaten and force him by suppressing Huaxia?”

“I’d like to see what John Doe will do this time. Anyway, he is definitely a great hero of Huaxia by succeeding in guarding the relic. Even if the government is to give him to those foreigners, we will definitely oppose it.”

“That’s right. I shall see how John Doe will retaliate against these countries as what they are doing will backfire.”

“We should let these foreigners know how powerful Huaxia is and how powerful John Doe is!”

“I look forward to John Doe taking action!”

The masters in Wulin all said that they would never give John Doe to the foreigners.

At the same time, in the military base of Beijiang.

“What?”

When Li Ji received the news, he instantly frowned, full of worry.

He didn’t expect that Murica would unite with more than a dozen countries to openly make such a statement to suppress one person.

Knowing that the battle for guarding the relic was over, Li Ji called Fang Qiu immediately.

On the highest peak above the clouds in the Laozi Relic.

Beep! Beep! Beep!

At this moment, Fang Qiu, who was resting with his eyes closed to stabilize his cultivation, was suddenly awakened by the ringing of his mobile phone in his trouser pocket.

He took the phone out and saw that it was a call from Li Ji.

"Hello?"

Fang Qiu answered the phone.

"Are you back?" Li Ji asked.

Fang Qiu said, "I've returned to Huaxia and am currently in Beijiang."

"Alright."

Li Ji heaved a sigh of relief, paused for a moment, and said, "You're in trouble!"

Chapter 1598 The Relic Is Open to Everyone!

"Hmm?"

Hearing what Li Ji said, Fang Qiu was slightly stunned.

On the other end of the line, Li Ji said in a dignified tone, "Listen. This time, you fought so perfectly in the competition for the Laozi Relic that all the countries got angry and vented their anger on you. More than a dozen countries led by Murica have just jointly issued a statement asking the higher-ups to hand you over. Otherwise, these countries will join forces to suppress Huaxia."

Fang Qiu smiled lightly and said indifferently, "Since I dare to kill people, I'm prepared to bear all the consequences. This is not a trouble for me."

“Although that’s the case, you don’t have to worry too much.”

Li Ji said, “You have Huaxia as your back!”

“Yeah.”

Fang Qiu nodded.

Li Ji asked, “By the way, did you find anything during the battle?”

“Yes.”

Fang Qiu thought for a moment and said, “There is a restriction on the Laozi Relic, that is, no one but Huaxianese can enter it. After foreigners enter it, they will be repelled. But there is a strange situation about Lord Virtuous of the Nirvana Organization!”

“Hmm?”

Li Ji immediately listened carefully.

“At first, after we entered the relic, we only found that the Second Venerable of the Nirvana Organization appeared with a group of people. These people were all Huaxianese, but Lord Virtuous was not among them.”

Speaking of this, Fang Qiu paused for a moment and said, “I’ve investigated and found that the Lord Virtuous had been guarding outside the relic. It seems that he should have been excluded. But as a Huaxianese, there is only one reason why Lord Virtuous was excluded. It may have something to do with his nationality.

“Later, it was not until almost all the members of the Nirvana Organization died that Lord Virtuous entered the relic.

“That is to say, he might have used that period to change his nationality!”

At this point, Fang Qiu added, “I think this should be a clue for the investigation of the Nirvana Organization. You can make use of this clue and investigate it carefully. Back then, who changed his nationality without being present in person? Maybe you can find other people who have contact with the Nirvana Organization through this clue.”

“Okay. How did those people change their nationality so easily?”

Li Ji suddenly became serious.

Changing one’s nationality was a very serious matter.

How did those people manage to change it so easily?

That was to say, it was likely that some powerful people were involved.

These people must not be let off.

Li Ji replied, “Don’t worry. I’ll investigate it right away.”

Then, he hung up the phone.

After hanging up the phone, Fang Qiu stood up, took a look at He Gaoming and the others who were still in cultivation, and then looked down the mountain. He found that all the areas above the clouds were occupied by the Pear Garden, the four clans, and the Sword Sect.

The people of the eight factions and sixteen sects were all looking for strongholds under the clouds.

Even so, there were still many places in the ruins that had not been exploited.

Running his power a bit, Fang Qiu went straight to a corner above the clouds, where the members of the Sword Sect were located.

At this time, the people of the Sword Sect were led by the middle-aged man with his hair tied.

“Brother John Doe.”

As soon as Fang Qiu arrived, the leader of the Sword Sect immediately came up and asked, “What can we do for you?”

“Well.”

Fang Qiu nodded and said with a smile, “I don’t know how to address you yet, senior.”

“My name is Wei Jian!”

The middle-aged man waved his hand and said, “I don’t deserve to be your senior. In terms of strength, I should address you as my senior.”

“Well...”

Fang Qiu said with a wry smile, “I’d better call you Brother Wei!”

“Okay.”

Wei Jian nodded with a satisfied smile.

Although seniority mattered in Wulin, strength had always been respected.

Wei Jian was really not used to being called a senior by John Doe, an expert who had mastered the One-Flower Core Formation.

Wei Jian asked, "Brother John Doe, what can I do for you?"

"I have a suggestion to discuss with you."

Fang Qiu said, "Here's the thing. I suggest that this relic should be open to everyone in Wulin!"

"Hmm?"

As soon as Wei Jian heard this, he was shocked.

"Now the relic is in our country, and this is the relic left by the ancient sages. It shouldn't be monopolized by us. Besides, the relic is so big that we can't fill it up at all. Now, most of it is still empty."

Fang Qiu said, "In addition to the major forces in Wulin, there are also a lot of rogue cultivators. Spreading the relic can also improve the overall strength of our Huaxianese Wulin."

Wei Jian frowned.

He said, "But, there are different kinds of people."

"Don't worry, Brother Wei."

Fang Qiu said with a smile, "In addition to restrictions where non-Huaxianese and cultivators who practice demonic methods can't enter it, there are also levels of restrictions in the ruins."

“The Sword Sect, the Pear Garden, the four clans, my brothers, and I are all above the clouds. All the rogue cultivators of the eight factions, sixteen sects, and Wulin are under the clouds. Since I can control the ruins, I can control the Heavenly Ladder. Even if the ruins are completely opened, no rogue cultivator can come up there except the ones from our forces. This is enough to ensure the secrecy of the Sword Sect!”

Fang Qiu was well aware that the ordinary people of Wulin didn’t know the existence of the Sword Sect.

Even if some of the higher-ups knew about it, they would inevitably regard the existence of the Sword Sect as a secret.

That was because the Sword Sect that had always been hidden was Huaxia’s trump card.

“I see.”

Hearing what Fang Qiu said, Wei Jian nodded. Thinking that the relic was really going to be open to everyone, he still couldn’t help but ask in shock, “Do you really want to make such a decision?”

“Yes.”

Fang Qiu nodded with certainty and said, “Although Lord Virtuous of the Nirvana Organization is dead, in addition to him, the organization still has many experts. They can cultivate a large number of masters to become gurus quickly. In this case, in order to fight against Nirvana, all of us must advance. What’s more, this relic is the common property of every Huaxianese.”

Wei Jian said, “You are the controller of the relic, so we can’t interfere with your decision. As long as you do what you said, I will absolutely support you, and every member of the Sword Sect will definitely support you!”

“Alright.”

Fang Qiu nodded with a smile.

...

Within half an hour after more than a dozen countries issued their united statement, Huaxia replied with a message directly.

“You can do whatever you want, but we will never give John Doe to you!”

As soon as that message was released, it caused an uproar on both the underground-force forum and the Wulin online forum in an instant.

“Haha, well said!”

“Well done. What era is it now? They’re just delusional to try to make Huaxia yield!”

“These countries are too whimsical. It’s not just a competition of economy. It’s an era of technology development and military resources.”

“Are these foreigners fools? How dare they threaten Huaxia in this way?”

“Our men have just beaten them up, but they still dare to do this. It seems that it didn’t hurt them enough.”

“The fuck with those people. Do they think they can bully Huaxianese at will?”

“That’s how it should be!”

“That’s right. John Doe killed many of their men, and we dare them to hurt us!”

“John Doe killed their men, and we’re not giving him to them. What can they possibly do about it?”

For a moment, all the Huaxianese on the underground-force forum commented one after another and roasted the countries led by Murica.

The Wulin online forum was filled with cheers.

Huaxia was no longer what the country it used to be.

In the contest of metahumans, Huaxia had now overwhelmed almost all the countries. How could those countries compete with Huaxia now?

If they really provoked John Doe, he would go to those countries and kill them from the inside.

Just when all the Huaxianese were supporting John Doe, a piece of news came from the Huaxianese Wulin, which made everyone pleasantly surprised.

“John Doe and the others took the Laozi Relic back to Huaxia. The entrance is located deep in the desert of Beijiang. The Qi of Heaven and Earth there is greatly rich, and it is an excellent place for cultivation. Now with the consent of the owner of the relic, from now on, all the people of Wulin can enter the Laozi Relic to practice as long as they haven’t practiced any demonic methods and have good intentions!”

As soon as the news came out, everyone in Wulin was shocked.

No one had expected that John Doe and the others had brought the Laozi Relic back to the country and made it open to everyone.

This was a great benefit for all the people in Wulin.

Soon, the news reached everyone’s ears in Wulin.

As soon as they heard the news, all the members of Wulin, especially the Martial Superiors below the eighth class and even martial arts practitioners, packed up and rushed to the depths of the desert in Beijiang.

Of course, the Huaxianese Wulin was not enclosed.

In addition to the members from Huaxia, there were also many spies from other countries and the foreign forces who loved Huaxia very much.

Sure enough, as the news had just spread in Huaxia, the other countries soon got the news.

They had never expected that the Laozi Relic could move and would be taken back to Huaxia.

In this way, the relic was now located within the areas of Huaxia.

That was to say, the other countries definitely had no share in this relic.

So many of their men had died, but the relic had been taken back by the Huaxianese. How could those forces hold back their anger?

It was impossible for them to rob the relic in Huaxia.

But they would certainly not let go of the culprit, John Doe. "John Doe has to die!"

And most crucially, now that Huaxia was so protective of John Doe, it gave these countries a reason to sanction Huaxia. Since Huaxia didn't hand over John Doe to them, they had a good reason to target Huaxia.

Especially Murica, which was the most active.

It was because, in recent decades, the economy of Huaxia had risen too fast. Currently, the economic rise of Huaxia was simply a bug. If the Muricans did not restrain that trend now, they would have no chance to do it in the future.

In addition, the strength of the Huaxianese metahumans was absolutely the top in the world, which was fully displayed to the world during this competition for the relic. Moreover, Huaxia had taken all the advantages.

If things went on like this, the number one of the world would be Huaxia in the future if its power was not restrained.

This was something that Murica could not accept.

Therefore, no matter how tough Huaxia behaved, Murica had to take action.

Chapter 1599 Sanction and Counter Sanction!

Before long, the discussion between more than a dozen countries was over.

At the same time, all kinds of news quickly spread around the world.

These news soon appeared in the mainstream media all over the world.

The ordinary people in Huaxia soon saw the news.

Everyone was confused.

“What is going on?”

“Why is Huaxia suddenly sanctioned for no reason?”

“Huaxia didn’t do anything.”

When all the ordinary people in Huaxia were puzzled, the masters in Wulin were furious.

“Did these foreign devils really do that?”

“Sanction? Is this sanction for Huaxia? There are hundreds of countries in the world, and more than a dozen of them are working together. Does this mean sanction? Don’t forget that Huaxia has allies.”

“These foreigners are courting death. I think the country should secretly send John Doe out and allow him to pay a nice visit to these countries one by one!”

While the masters in Wulin were talking angrily, the Huaxianese authorities were not afraid at all and directly issued a statement to the world.

“According to the news released by the Huaxianese Ministry of Commerce, in response to the economic sanctions by Murica in conjunction with more than ten countries, the Huaxianese Ministry of Commerce has decided to issue tariffs against some of the products of these ten countries.”

“The Huaxianese Customs Tariff Commission formally issued a notice deciding to impose a thirty percent tariff on more than 3,000 items of about 250 billion dollars of imported goods originating in Murica and more than a dozen other countries, to be implemented immediately, with immediate effect, with the product design of all agricultural products, automobiles, aquatic products and so on.”

“In response to the economic and trade sanctions relics of energy sanctions against more than a dozen countries, led by Murica, the Huaxianese official announcement officially announced that, with immediate effect, Huaxia will stop the export and supply of foreign energy, especially rare energy. Huaxia will completely interrupt the trade and sale with other countries.”

As these three announcements were released, the members of Wulin were immediately excited.

“That’s right. That’s how it should be!”

“Since those people dare to sanction us, we would sanction them instead!”

“Let’s see who will be sanctioned in the end. We are the largest consumer in the world. Without the consumption of Huaxia, how can those countries have an easy time?”

“That’s right. Now our country is full of foreign products made by foreign countries. Many luxury goods are from Italy. Most of the heavy industrial products are from Germany and America. Electronic technology products are from America and Japan. We also have these things in our country. Why should we buy from them?”

“They want to start an energy battle with us?”

Apparently, most of the Wulin people had studied the state. Although they didn’t know the specific situation, they could still see the pros and cons.

Huaxia was indeed a big consumer, but it was also a super big country of import and export. This economic trade war would inevitably have a great impact on the export of Huaxia.

After all, many imported goods needed to be circulated in the domestic market, which led to tariffs. Although the foreign countries did not want to fight a trade war with Huaxia, they could only raise the price of their products because of the increase of the tariffs.

However, Huaxia was the country with the fastest economic development in the world, so this kind of sanctions should not affect the country too much. However, once the energy battle began, Huaxia would definitely have the upper hand. At that time, those foreigners would regret what they had done.

Before long, the announcements of the Huaxianese authorities were spread all over the world.

Now, all the countries were dumbfounded.

At first, they thought that Huaxia would deal with the trouble with peace as before. He didn’t expect that Huaxia would be so tough for John Doe’s sake this time.

For a moment, many of the countries involved began to flinch.

They all knew that this economic and trade battle would not have a big impact on those big countries, but it would have a huge impact on them as small countries.

They would suffer greatly right before the battle began.

With the announcements of Huaxia, the confrontation between the two sides instantly fell into a deadlock.

...

In the Laozi Relic in Beijiang.

After Fang Qiu decided and announced that the Laozi Relic was open to all the Wulin people, he directly controlled the tripod and hid the Heavenly Ladder, leaving the way to get to the top of the clouds only to the major forces above the clouds. Then, he directly left the Laozi Relic, flew all the way in the desert, and quickly came to the military base of Loop-nor.

Seeing John Doe, the soldiers in the base did not stop him. They were already very familiar with him.

Soon, Li Ji received the notice that John Doe was back.

“How did you come here so fast?”

When Li Ji came out to pick up John Doe, he stared at Fang Qiu in surprise and said, “You just hung up the phone. How did you get here?”

“I’ve been in the desert of Beijiang.”

Fang Qiu nodded.

“Were you in the relic?”

Li Ji said with his eyes lit up, "I have to find an opportunity to take my soldiers to have a good tour of the relic."

Fang Qiu said with a smile, "Welcome to visit it at any time."

While they were talking, they came to the office.

Li Ji said, "Why are you here? Is there anything you couldn't say on the phone? Why do you have to come back directly and talk to me face to face?"

"Give me a pen and a piece of paper."

Fang Qiu didn't hesitate. After asking Li Ji for paper and a pen, he immediately began to write quickly.

Not long after, he finished it.

Fang Qiu handed over what he had written to Li Ji and said, "This is the way to become a guru quickly, which I found from the Nirvana Organization in a hidden Mysterious Realm in Zhongdong!"

"What?"

When Li Ji heard this, he looked shocked and immediately became so excited that his breathing quickened.

Because they had been tracking and investigating the Nirvana Organization, they had long known that there was a way for the Nirvana Organization to make someone quickly become a guru. It could quickly cultivate some incapable gurus.

They had spent a lot of effort trying to find this method, but they had never been able to obtain it.

Unexpectedly, John Doe actually found this method and brought it back.

“Although this method can help people quickly become a guru, it consumes one’s life force, which is equivalent to making a deal with the devil. Once this method is used, the improved person can only live to 50 years old at most. Not only will he not get longevity as a real guru, but most of his life force will also be consumed.”

Fang Qiu said, “This method is very harmful. It will be best if you can modify it. If you can’t, you’d better not tell anyone.”

“Got it.”

Li Ji nodded seriously and said, “Don’t worry. I’ll take it seriously!”

“Well, it’s time for me to go.”

Fang Qiu nodded and said, “I haven’t been back for a long time. I still have a lot of things to do.”

Li Ji said with a smile, “Well, it’s time for you to rest for a while. Leave the international affairs to the country.”

He knew that Fang Qiu was going to return to his real identity.

After leaving the base, Fang Qiu went straight back to his identity. He then returned to the downtown area of Beijiang and directly called some staff at his base to pick him up.

After returning to the base, Fang Qiu took a shower first and then confirmed that there were no problems with his work. After that, he began to look for a place to see patients on the Internet.

Almost a month had passed.

Fang Qiu posted on Weibo to find a place to see patients.

Now, he decided to go to three places in a row to see patients in advance for the next two months.

On the internet, everyone knew that Fang Qiu had been busy with all kinds of things, so it was normal that he didn't make a move. Now that Fang Qiu posted that he was going to see patients in three places in a row, everyone was both excited and worried.

They felt that Fang Qiu was so busy with his work that he had to see patients in advance.

Would he be able to hold on if he kept working like this?

For a moment, there were more heated discussions on the Internet.

After Fang Qiu left, Li Ji didn't dare to hesitate and quickly handed over the method the Nirvana Organization had used to cultivate incapable gurus that Fang Qiu had written down.

It immediately caused a great sensation in the upper class.

For Huaxia, this was absolutely a great contribution. In the past, in order to get this method, they had lost many people.

They didn't expect that John Doe would obtain it and deliver it.

The higher-ups immediately ordered that they must protect John Doe no matter what.

After all, talents were rare.

Moreover, John Doe had another identity, which was even rarer. Either one of these identities must be protected absolutely.

In addition, the high-level officials of Huaxia also knew that John Doe was just an excuse for the attack from the other countries this time. The real reason was that Murica was worried that Huaxia would really rise and wanted to eliminate it halfway.

“Murica can just dream on!”

Chapter 1600 Huaxia Takes It All!

Somewhere in a secret high-level conference room in Huaxia.

“As John Doe reported, the method of cultivating incapable gurus that he got from the Nirvana Organization is indeed a harmful method. We absolutely can’t use it.”

A senior leader said, “We can ask those seniors to study this method first to see if there is any way to improve it!”

“Alright.”

Another senior executive nodded and said, “In the past two or three years, John Doe has indeed made great contributions. He has always been working on the edge of life and death. Therefore, no matter what these foreigners want to do this time, we must keep John Doe safe!”

“Humph, we are not afraid of them.”

A leader snorted and said, “I’d like to see what they can do to us.”

The leader who was the first to speak added, “Now that the statements have been issued, it can be said that we have taken a stand. I think those countries should have other plans when they see that we are so firm. Whether they retreat or advance, we must be fully prepared.”

Meanwhile-

“I have another question.”

A middle-aged man in a military uniform stood up, glanced at everyone, and then asked vaguely, “Is John Doe really his disciple?”

“Very likely.”

“Although we’re not sure yet, it’s very likely!”

The other senior executives nodded one after another.

After Huaxia issued three announcements in a row, under the leadership of Murica, more than a dozen countries continued to press Huaxia step by step and carried out more targeted pressure and revenge.

However, Huaxia still refused to admit defeat.

...

Two days later, countless Wulin people came to the ruins in the depths of the desert in Beijiang.

Because John Doe had made the entrance of the relic public and the method of entering it had been spread out, everyone came to the location of the entrance and immediately began to summon it.

However, none of their strength had reached the eighth class, so they could only wait.

When a large group of people had gathered, an eighth-class expert finally came. Under everyone’s expectation, he injected his internal Qi into the relic and finally summoned the passage to enter it.

Led by Elder Yi, the people of Jiangjing’s Wulin arrived together.

They followed the main force to enter the relic.

The moment everyone entered the relic, they were all shocked by the scene in front of them.

They were shocked by the environment surrounded by immortal Qi, the huge energy characters that could be seen everywhere in the sky, the strong airflow formed by the Qi of Heaven and Earth, the ruins that turned into blue waves of Qi of Heaven and Earth, and the images of cranes flying in the distance surrounded by clouds and mist.

“What a fairyland. This is simply a fairyland!”

“There’s a sky ahead, and there’s a staircase in front that leads to the sky.”

“This is an immortal world, right?”

“Is this what it was like in ancient times? The Qi of Heaven and Earth is so rich. No wonder there are legends of immortals and gods in the world. It turns out that all of this really exists!”

“It’s so beautiful. The Relic Mysterious Realm that the ancient sages left for us is so beautiful!”

“The air and the sea water are all filled with the Qi of Heaven and Earth. It’s amazing. This place is absolutely a fairyland!”

All kinds of exclamations kept coming from the mouths of these Wulin people. Many of them were so excited that they waved their hands and feet and ran forward crazily as if they wanted to hold the whole relic in their arms.

The scene in front of them indeed shocked them.

However, just when everyone was deeply stunned-

Boom!

All of a sudden, there was an explosion.

Everyone was immediately awakened.

They quickly looked over.

All of a sudden, a person in the midst of the explosion couldn't help but be blown up into the air and disappear from everyone's sight.

"What's going on?"

"How did that person get blown up?"

"What happened?"

For a moment, the crowd exclaimed.

However, just at this moment-

Boom! Boom! Boom!

There was another explosion.

A few more people in the crowd were blown away.

At this moment, everyone was dumbfounded.

Their faces were all full of confusion.

No one knew what was going on. “How did those people suddenly be blown away?”

At this moment, some disciples from the eight factions and sixteen sects walked over.

“These people have all changed their nationality. They are not from Huaxia, so they will naturally be repelled by the ruins.”

One explained to everyone.

“So that’s how it is.”

“They deserve it! As Huxianese, they shouldn’t have changed their nationality. They brought it upon themselves!”

“Well done. These people shouldn’t be allowed to enter this sacred place.”

After learning the cause, everyone looked down on those who were excluded.

But just as everyone was complaining, one of the people who had been repelled before came in again.

It was a pity that this time, he didn’t even last for ten seconds before he was expelled again. Everyone inside looked down on him.

Outside the ruins, the Huaxianese authorities also came over.

However, they were not wearing military uniforms. Instead, they were dressed as ordinary people. They recorded all the people who had been expelled and took photos of them.

When the authorities went back, they would definitely investigate these people thoroughly. If they weren't expelled due to their nationality, they would be very suspicious.

Inside the relic.

Soon, the martial arts practitioners from all over the country got along well with the disciples of the eight factions and sixteen sects. Unlike the disciples of the eight sects and sixteen sects, they didn't set up their own territories in the ruins. Instead, they randomly found an uninhabited area and sat down directly.

After that, many people began to inquire about what the relic looked like at the beginning, what had happened in the relic, and so on.

They especially wanted to know how those Huaxianese people fought against the whole world, protected the relic completely, and brought it back to the country.

Some of the disciples of the eight factions and sixteen sects who had participated in this battle began to tell everyone what had happened while showing off their participation in the battle.

Under the narration of these people, all the masters in Wulin who came to the relic got to know what had happened before.

"John Doe achieved the Flower Core Formation?"

"What is the Flower Core Formation?"

"What is that about?"

When the crowd heard that John Doe had achieved the Flower Core Formation, everyone was very confused.

None of these people was a guru. The most powerful realm they had heard of was the guru level, and they thought that gurus were exclusive.

Only in recent years when some challenged John Doe did a Half-step Guru and a few known gurus appear. Everyone was completely stunned when they heard the phrase Flower Core Formation.

“To tell you the truth.”

One of the disciples of the eight factions and sixteen sects who had gone through the whole process explained to everyone, “In the beginning, I didn’t know what the Flower Core Formation was. Anyway, when John Doe broke through, I saw the color of heaven and earth change. A very huge lotus flower condensed by the Qi of Heaven and Earth appeared above his head!

“Later, I heard from the four patriarchs and the master of the Pear Garden that the Flower Core Formation is a higher realm than the guru level!

“This is why John Doe can kill the foreign gurus as easily as crushing an ant.”

As soon as this explanation spread, everyone was shocked.

“Holy shit. The guru level isn’t the greatest level? There are higher realms above that?”

“Oh my god. He kills gurus as easily as crushing an ant. The Flower Core Formation is so terrifying.”

“John Doe actually achieved the Flower Core Formation?”

“Damn, there is really no end to the cultivation. I thought reaching the guru level would mean that one had reached the top, but now there is a greater realm, the Flower Core Formation.”

Countless people were shocked.

In the crowd, the people from Jiangjing's Wulin, however, were all extremely excited. They were all happy for John Doe.

It was especially true for Elder Yi.

"You've made it. You've done better than I expected."

Elder Yi remembered that Fang Qiu once told him about the cultivation method above the guru level.

At that time, he always thought that John Doe could make it because he had felt that John Doe was definitely a guru. Now it had only been less than three years, but John Doe had really made it. This speed was really shocking.

"Comparisons are odious. John Doe is so talented. He is terrifyingly strong."

Everyone shook their heads and smiled wryly.

The people from the eight factions and sixteen sects continued.

They talked about how John Doe killed the foreign gurus and killed 6 out of the 30 gurus with ease.

All the Wulin people present were full of admiration.

"I was wondering why. It turns out that those foreign devils are targeting John Doe because John Doe killed too many of their people."

"Humph, those foreign devils deserve to die. John Doe did a good job!"

"If it were me, I would definitely kill a few of them."

“If I meet those foreign metahumans, I must kill a few to avenge John Doe!”

“I support John Doe. Whoever attacks John Doe shall be my enemy. The same goes with those foreigners.”

“That’s right. John Doe is a hero of Huaxia. Whoever dares to hurt him is an enemy of Huaxianese Wulin.”

In no time, all the Wulin people supported John Doe and shared a bitter hatred for the enemy.

After listening to the whole story, everyone found a place to do cultivation under the guidance of the disciples of the eight factions and sixteen sects

As for the people of the four clans, the Pear Garden, and the Sword Sect, after entering the relic, led by their own leaders, they climbed the Magpie Bridge and came to the clouds according to the method left by Fang Qiu.

With the masters leading the way, the newcomers from those major powers were naturally able to ascend the Heavenly Ladder.

Only then did everyone realize that there were places above the clouds.

But the crowd had no way to go up, so everyone could only look at the sky enviously.
