

Medical M 1601

Chapter 1601 Yun Yangzi and Diwu Qian Ascend the Heavenly Ladder!

Above the clouds.

In the area occupied by Pear Garden.

Just like the outside, with the arrival of the people of the Pear Garden, a brand new Pear Garden was built in a short time, even pear blossoms were planted throughout it.

“Undoubtedly, it’s worthy of being a relic left by the ancient sages, which is really like a fairyland. It’s a pity that I didn’t participate in the battle to protect the relic.”

In the newly built Pear Garden, Yun Yangzi following Master Numinous, looking at the sky where the Qi of Heaven and Earth was flowing and flying, sighed with emotion.

“Nothing to regret. It is just the beginning of the war for the Combat for the guarding of the relic. In the future, Huaxia and Wulin will face greater difficulties. Although you have missed the beginning, you should cultivate more and prepare well for the future war.”

Master Numinous said indifferently, and then added, “At first, Doe was inferior to you, but his combat capability was better than yours. Now, although you have become a guru, John Doe has already achieved the Flower Core Formation Realm.”

“The Flower Core Formation Realm?”

Hearing this, Yun Yangzi, who had been following Master Numinous slowly, suddenly stopped and froze on the spot, looking at Master Numinous’s back, with a shocked expression on his face.

“Yes.”

Master Numinous turned his head back, shook his head, and said with a smile, "That's a realm that even I can't reach, but you are different. You are as talented as John Doe. As long as you can try what John Doe has done, you will definitely be able to cross this chasm."

"It's too far."

Yun Yangzi shook his head in a shock, took a deep breath, and said with a wry smile, "I didn't expect this guy to reach that level. His step is really too fast. It's so fast that nearly no people can catch up with him!"

"You lost to him?"

Master Numinous turned around and asked with a smile.

"Not yet."

Yun Yangzi shook his head and said, "I didn't lose to him because I've never really compared with him. I can do what he can do, and I can also achieve the Flower Core Formation Realm. Even if I'm a little slower than him, it can't be regarded as a loss, right?"

"Ha-ha."

Master Numinous laughed and said, "John Doe ascended the Heavenly Ladder with his own strength, leading us all to this cloud end."

"This is what John Doe left here, the method to activate the Heavenly Ladder."

Then...

Master Numinous told Yun Yangzi how to activate the Heavenly Ladder which was left by John Doe.

With the modification of Fang Qiu, the Heavenly Ladder was hidden.

Because that was the only way to get above the clouds.

That was also why...

All the major powers above the clouds possessed the method to activate the Heavenly Ladder.

Of course...

After it was activated.

The spatial crack in the middle of the Heavenly Ladder still existed. Only those who had once climbed it could ignore the spatial crack and directly arrive above the clouds.

Without someone's like that leading, the others could only rely on their own strength to attempt the Heavenly Ladder.

Fang Qiu also thought about it.

The Heavenly Ladder could be regarded as a test.

A test for everyone. As long as one passed the Heavenly Ladder, they would be able to enter the clouds.

However...

It was not so easy to climb the Heavenly Ladder .

Even a guru couldn't make the Magpie Bridge connected above the space crack, not to mention the Martial Superiors under the level of guru.

On the other side...

The Four Great Families each occupied a piece of land.

They also knew that although the older generation existed, the four prominent families could not compare with the Sword Sect, the Pear Garden, or John Doe at all.

Needless to say, the Sword Sect must have some experts in the Flower Core Formation Realm.

This was also the reason why the Pear Garden could stand firm in Wulin.

As for the Four Great Families, including the older generation, they did not even have a single expert who achieved the Flower Core Formation Realm.

In Wulin where strength was the king.

Of course, they didn't dare to put themselves in the same position as the Sword Sect, the Pear Garden, and John Doe, so the four families united to choose one place and occupied part of it respectively.

Right now...

Because the Qian and the Zhan families had big business outside and their descendants didn't like to get involved in Wulin, Qian Xiao and Zhan Lin hadn't entered the relic yet.

The young master of the Xi family, Xi Shaolin, did not enter the relic because he now only temporarily served as the head of the Xi family.

But different from these three families.

There were no business or family affairs for the Diwu Great Family to deal with outside, so Diwu Qian rushed over as soon as the relic was announced to the public. Under the leadership of Diwu Mingchuan, she went straight to the clouds.

Along the way...

Diwu Qian was also shocked by the scenery of the relic.

Diwu Mingchuan also told Diwu Qian everything that had happened in the relic.

“John Doe achieved the Flower Core Formation Realm?”

Hearing the news that John Doe had achieved the Flower Core Formation Realm, Diwu Qian was stunned.

Back then...

She was almost as powerful as John Doe.

Now, she was still a step away from becoming a guru, but John Doe had already achieved the Flower Core Formation Realm.

Such big progress.

She felt very helpless.

It was like that when everyone set off from the same starting line, ordinary people used their feet forward, she wore ice shoes, and Yun Yangzi ran forward by bicycle, while Fang Qiu drove his sports car forward directly.

The gap between them was simply too great.

In merely two years.

She had too far behind John Doe.

This idea popped up into her mind.

Diwu Qian couldn't help shaking her head and smiling wryly.

How was it possible for her to chase after him?

She couldn't catch up with him at all!

"What's up? You've given up?"

Diwu Mingchuan looked at Diwu Qian, asked tentatively with a smile, and then added, "You're a girl, there's no need for you to compare with a man. Look at Xi Fengling, didn't she catch up with you later?"

"I wish to ascend the Heavenly Ladder."

Unexpectedly, Diwu Qian suddenly said with a serious expression, "The difference between John Doe and me is that he has experienced a lot, but I haven't. I don't want to be a flower in a greenhouse."

"Okay."

Diwu Mingchuan nodded with a smile and said, "If you want to have a try, I'll accompany you."

"No."

Diwu Qian shook her head and said, "I want to go by myself. I want to rely on my own efforts to reach the top of the clouds, without taking any shortcuts."

"However, it is not that easy to climb the Heavenly Ladder."

Diwu Mingchuan said.

"I see."

Diwu Qian said with a smile, "This time, I'm going there to show the other Wulin people how difficult it is to climb the Heavenly Ladder. In this way, not only can I prove myself, but I can also help John Doe to let everyone know that only those strong enough are qualified to come to this cloud layer!"

Diwu Mingchuan laughed.

"Regardless of whether it's above or below the clouds, it is both safe."

Diwu Qian continued, "If I can't come up, I'll stay down there and cultivate until I can come up on my own."

"Okay."

"Okay." Nodding with satisfaction, Diwu Mingchuan told Diwu Qian how to activate the Heavenly Ladder left by John Doe and then said, "I'll wait for you to come back."

Diwu Qian nodded and turned to go out.

Actually...

To her, it was also an opportunity.

Perhaps...

The day she reached the top of the clouds with her own strength would be the last step for her!

Under the clouds.

Because of the vast land and abundant resources in the relic, and the rich Qi of Heaven and Earth, many people who came in to cultivate had already woken up because the cultivation would last for only a short time.

There were many people sparring with each other, as well as tourists from all over the country. Of course, there were also many people who had even started planting and producing.

The whole relic was flourishing!

However...

At the moment when many people were attracted by the place above the clouds, all looking up at the clouds in anticipation, guessing what sort of scenery was above the clouds.

All of a sudden...

A figure quickly fell from the sky.

“Yun Yangzi?”

Many people couldn’t help exclaiming when they saw this figure.

Everyone was very confused.

“Why did Yun Yangzi jump down from the above?”

Shortly after...

Yun Yangzi landed on the ground and rushed all the way to the area where the Qi of Heaven and Earth was gathered.

Just then...

“Hey, someone is also coming down.”

A loud shout was heard, everyone turned to look at it.

Sure enough, another figure floated down from the clouds.

With just one glance.

Everyone was mesmerized.

That’s a stunning face, a lady with a graceful figure

Colorful ribbons fluttered around her.

She looked like a fairy who had descended into the human world. In an instant, she attracted everyone’s attention, making them reluctant to blink.

On the side ...

Hearing the exclamations around,

Yun Yangzi also stopped and turned his head. When he saw Diwu Qian falling from the sky, he immediately smiled slightly. He understood that Diwu Qian was also preparing to ascend the Heavenly Ladder like him.

Seeing Yun Yangzi, Diwu Qian was not surprised at all.

Under everyone's gaze.

The two of them soon came together.

After greeting each other,

The two of them immediately rushed to the Heavenly Ladder.

In the surroundings, many people followed them.

Arriving at the center of the sparkling Qi of Heaven and Earth, Yun Yangzi directly activated the Heavenly Ladder by using the method left by John Doe.

As the Heavenly Ladder was activated.

Everyone suddenly saw that something similar to a vortex appeared between Yun Yangzi and Diwu Qian. Then, a golden light broke through the clouds and shone on the vortex.

Following that...

The Heavenly Ladder gradually rose from the clouds and connected to the sky.

When they saw the Heavenly Ladder.

Everyone couldn't help exclaiming.

At the same time...

Two lines of text appeared beside the Heavenly Ladder.

It was set up by Fang Qiu with the tripod, which was similar to the line of words he saw when he led everyone to the Heavenly Ladder before, with a little bit of change.

“Those who ascend the Heavenly Ladder can transform ordinary people to stand above the clouds.”

This simple sentence made the blood of all the onlookers boil.

Seeing Yun Yangzi and Diwu Qian climbing the Heavenly Ladder.

Everyone also rushed forward to try to ascend the Heavenly Ladder.

...

On the side ...

After choosing the place through Weibo, Fang Qiu officially started serving patients. He went to three places without rest and didn't leave until 24 hours later for each place.

On the morning of the fourth day.

Finally, the consultation was over.

Because he was so tired, Fang Qiu stayed in the Chinese Medicine Hospital for dinner, then he saw all kinds of economic sanctions carried out on Huaxia from other countries all over the world on the TV in the hospital canteen. Even the details and time of sanctions were reported in the TV news.

“According to the latest news, the countries led by Murica have officially implemented and carried out the matter of collecting refugees to our country...”

Chapter 1602 I'll Wait for You in the Africon Savannah!

“As the two most powerful economic major powers in the world, the economic and trade war between Murica and our country has officially begun. The impact of this economic and trade war is bearable, which will have a great economic impact on Murica and the other countries involved in this war...”

“How much impact does Hua Xia Trade War have on the whole world?”

“How should Huaxia deal with the trade war?”

Seeing the news reports on TV.

Sitting in the canteen of the Chinese Medicine Hospital, Fang Qiu couldn't help frowning under everyone's gaze.

As he knew...

The reason for this was all because of him.

On the TV, the scene changed.

“Facing the coercion of the economic and trade war headed by Murica, our country officially makes a tough statement to the outside world: Our country will not yield to any pressure or coercion. In the face

of an economic and trade war, our country is not afraid. For those who want to use our people's safety as a threat, we will use our strong means to tell them that there is no coward in Huaxia!"

On the screen, a middle-aged man in a military uniform with a serious face said in a sonorous and powerful voice, marked with the words of the military officer of the Ministry of Defense.

The whole canteen of the hospital burst into warm applause.

In this situation...

All over the country.

The words of the military officer made all Huaxianese feel proud and determined.

And among them.

Undoubtedly, the one who was most touched was Fang Qiu.

Seeing that the high-level officials showed such a tough attitude in the face of more than a dozen countries, Fang Qiu was very touched.

He worked for the country, and the country worked for him.

This was country, was home!

Touched, Fang Qiu continued to eat.

On the TV, after the news was broadcast, it immediately jumped to a financial channel.

At a glance.

On the financial channel, many economic experts were analyzing this economic trade war.

“Although with the strength of our country, we can completely withstand the impact of this economic trade war, it will inevitably have a certain impact on various industries, such as high-tech industry, machinery industry, seafood, and so on, which will have a great impact in the future. It can be seen that the prices in these similar industries will greatly increase.”

“The rise of the price will lead to a drop in sales, which will cause the declination of industry, the dismissal of the workers. It will have a certain impact on the overall economy of Huaxia.”

“At present, we still have many industries that can create more jobs, but this can only reduce the impact but can’t completely offset it.”

“In fact, the people will suffer in the end!”

He took a look carefully.

Fang Qiu saw the upheaval in the stock market of Huaxia on TV. After the analysis by economic experts, he also learned about the impact of this economic trade war on Huaxia.

“Phew...”

Letting out a light sigh of relief.

Fang Qiu paused for a minute of silence.

“Caused so much trouble. Don’t you just want to kill me?”

Thinking of this, Fang Qiu gritted his teeth and thought to himself, “Then I’ll stand out and see if you have the ability!”

That was right.

Fang Qiu decided to step forward bravely.

Although the government was protecting him, he didn't want to implicate the people in the country in this matter, nor did he want to delay the development of the country because of him.

Therefore...

He wanted to step out and see what these countries could do to him!

Fang Qiu left the hospital.

And then he took a taxi to another city.

Arriving at an unfamiliar city, on a tall building very close to the airport.

Standing on the roof of a high-rise building with more than 50 floors.

Fang Qiu took out his mobile phone and quickly logged into the forum with the account of John Doe.

This account.

It had been detected by a lot of people.

Therefore...

As soon as Fang Qiu logged in to this account, all the major underground forces, international forces, and major metahuman forces in the world noticed it as soon as possible.

Just as these countries and forces were about to track down the IP address of this account.

John Doe made a post.

“Shameless! A bunch of trash!”

The title made everyone see that John Doe was full of anger.

“Murica, Anglan, L’hexagone, Germmany, SoviETT, Nihon, Italyy, and those medium-sized and small countries that have been bewitched by Murica are simply a group of hypocritical garbage. Do you still think you are a big country? Do you have the face to call yourself a country?

“I’m waiting for you to come and fight for it. You can’t win it. Now do you have face to cheat me?

“You can’t beat John Doe, so you commanded people to use dirty means to impose sanctions?

“What’s up? Are you afraid that I won’t die and will play you to death?

“Didn’t you want to kill me?

“I’ll wait for you at the Africon Savannah in three days.

“Kill me if you can!”

The content was very violent.

In addition to all kinds of curses, there was only provocation.

After sending the post.

Fang Qiu immediately logged out of the account.

Then he booked a ticket and flew straight to Africo!

On the world underground-force forum...

It was such a short time since John Doe logged into the account that people from the major forces all over the world could not track his whereabouts.

However, this was no longer important.

The next day, the post released by John Doe directly caused a stir in the entire forum of underground forces.

Seeing this post,

Everyone couldn't help but give John Doe a thumbs-up.

"Awesome, Aargh! This is what a real man should look like."

"Haha, these countries have been scolded badly by John Doe. They've lost their faces."

"It seems that John Doe is really angry. Let's see what these countries can do this time."

"He's too strong. Only one person can have the courage to challenge more than a dozen countries alone!"

On the Wulin online forum...

Countless people exclaimed in shock.

Shortly after...

With the popularity of the post on the underground-force forum, the high-level officials of Huaxia soon learned the whole news.

“What’s going on?”

When a high-level official saw the post, he immediately asked angrily, “Did someone force John Doe to do this? Check it out immediately. If anyone dares to force John at this critical moment, I will kill him!”

After giving the order.

It didn’t take a long time for the result.

No one forced John Doe at all. It seemed that he had acted on his own!

Outside the police station.

The high-level leaders immediately ordered someone to contact John Doe and asked him what was going on. They asked John Doe to keep an eye on everything and not to be impulsive!

The order was secretly sent to Li Ji because he was the only one who could contact John Doe.

Recently.

Li Ji didn't pay attention to the underground-force forum in time because of the economic war and the investigation of those who were excluded from Laozi Relic. He didn't know such a big thing had happened until the order of his superiors arrived.

Li Ji was also shocked when he heard the news.

He didn't dare to hesitate at all.

And called Fang Qiu immediately.

"Toot, toot, toot..."

The phone rang a few times and was picked up.

"Hello?"

The voice of Fang Qiu came from the other end of the phone.

"What's wrong with you? Where are you now? What's going on with the post on the underground-force forum?"

Li Ji asked anxiously.

And meanwhile...

At the airport in the capital.

"I'm already at the capital airport."

While waiting to board the plane, Fang Qiu, who had disguised himself as John Doe, said on the phone, "It's all up to me. I've made up my mind."

"Why did you do that?"

Li Ji gave a wry smile and said, "There is a country for everything. You don't have to take this risk at all, do you know? The higher-ups are very concerned about you. As soon as they heard the news, they immediately asked me to contact you and tell you not to be impulsive. No matter what happens, the country will always be your backing."

"I see."

Fang Qiu nodded and said, "But I can't sit back and watch. I don't want to see the country suffer such a huge loss because of me, nor do I want to see the people suffer. I may not be the cause of this matter. But since they have already pointed their fingers at me and regarded me as an excuse to stir up trouble, I should stand up and accept the challenge!"

"It's not necessary. You don't have to do this, understand?"

Li Ji continued to persuade him, "The higher-ups have made a complete plan for this incident. No matter what happens in the future, the government will definitely deal with it, doing all this to protect you. How can you act so impulsively at this time?"

"I know the country is good to me."

Fang Qiu said with a smile, "Just because of this, I can't implicate the country. If I can exchange myself for everyone's life, enough!"

With that...

Fang Qiu hung up the phone and boarded the plane.

In the military base of Beijiang...

After being hung up the phone, Li Ji looked lost.

Putting his mobile phones on the table, he gradually clenched his fist.

He was furious.

It was the first time that he had seen more than a dozen countries unite just to deal with one person, who could pose a threat to them. It was really shameless!

His heart was filled with rage.

Li Ji immediately sent the feedback of John Doe to the higher-ups.

As a result...

Not long after, the higher-ups issued an order.

“Stop him immediately. John Doe can’t be given up!”

Although the order was issued.

When they investigated, they found that John Doe had already boarded the plane and left.

So...

The senior executives gave the order without hesitation and immediately sent people to support John Doe.

These extremely shameless countries did not scare them when they were fighting for the relics.

Since they wanted to fight, then so be it!

On the other side...

More than a dozen countries, led by Murica, also received the message.

Seeing John Doe's post on the underground-force forum, the leaders of all countries couldn't help laughing, especially Murica's.

They had hated John Doe for a long time and wanted to eliminate him. This time, John Doe finally came out to die!

"However..."

After seeing the post sent by John Doe, some medium-sized and small-sized countries that had been following Murica had already regretted fighting against Huaxia in the economic and trade war, but they had never found a chance to get off the stage. Now that Huaxia had come out, knowing that they couldn't resist it head-on, they all step off the step.

At this moment, many countries changed their words and withdrew from the war.

However, the major countries led by Murica still did not express any opinions. Instead, they secretly sent people to kill John Doe.

They want to regain their dignity!

Chapter 1603 Positioning! I'm Right Here. Come On!

The plane.

Landed at Kairo International Airport.

When Fang Qiu came to Africo again, his mood was completely different from before.

This time, his heart was filled with killing intent!

Leaving the airport and leaving Kairo.

When he passed by the primitive tribe and took a look, Fang Qiu found that the primitive tribe had begun to develop into modern ones, so he felt a little relieved.

“However...”

Fang Qiu didn't go in.

With just one glance, he flew straight into the Africon Savannah.

Coming to the grassland.

Fang Qiu saw many animals and beasts as before.

Arriving at a relatively open area, Fang Qiu stopped and sat down cross-legged. He took out his mobile phone and began to log into the underground-force forum to check.

As a result, he found that the news did cause an uproar on the underground-force forum!

The entire underground-force forum was talking about this matter. Many Huaxianese who had never shown before were active on the forum to support themselves.

In addition to the Huaxianese, people and forces from other countries also participated in the discussion. The comments of these people were even more terrifying. Many of them were sowing discord, as if they really wanted to see John Doe start a war with Murica.

Fang Qiu knew that...

These people and forces who hoped to start a war were all busybodies.

They couldn't wait to see the World War and then they would benefit from it.

The war between these terrifyingly powerful behemoths, especially like Huaxia and Murica, only when these two behemoths were entangled, could help them have the opportunity to develop and improve their strength during this period of time!

After reading the information on the underground-force forum, Fang Qiu didn't expect that this matter would get so serious.

With a flash of wit...

He quickly logged out and logged into the Wulin online forum to check.

After the investigation...

Fang Qiu found that the commotion on the Wulin online forum was bigger than that on the underground-force forum.

"John Doe did a good job!"

"John Doe is right. These foreigners are too shameless and insidious. We should teach them a lesson!"

“I support John Doe. If there is any problem, I’ll go to Africo first.”

“I don’t believe that these foreigners dare to accept the Combat of John Doe!”

“Kill them!”

“The problems in Wulin should be solved by Wulin. It’s shameless to put pressure on the country. Come and fight if they can!”

“I’m a Huaxia martial arts practitioner. I’m here to defend Huaxia Wulin. I won’t show any mercy to those foreigners who bullied me!”

Seeing these comments, Fang Qiu was sincerely moved.

This was the real Wulin.

This is the unity of Huaxia!

“However...”

Fang Qiu was also very clear that he didn’t want to get all the people in Wulin involved in his own affairs. If this matter got out of hand, he was afraid that it would really cause a war.

Thinking of this.

Fang Qiu immediately sent a text message to He Gaoming.

“Steady everyone and let everyone cultivate hard. In the future, we will have to face more common enemies. This time, don’t get too excited. Otherwise, it will easily make the situation too serious. Let everyone cultivate hard, and I will bear this matter alone!”

He clicked and sent it.

In Laozi Relic.

He Gaoming had been practicing on the top of the mountain, so he had no idea what was going on outside.

In his opinion...

The competition for Laozi Relic had ended, and people had died three groups. Those foreigners should not be making trouble again, so he had never paid attention to the situation on the Wulin online forum and the underground-force forum.

Now, almost all the people in Wulin gathered in the Laozi Relic. They didn't need to check the Wulin forum. Since all the Sect people were here, if anything happened, they could share with each other and soon everyone would know.

Hence.

He Gaoming didn't expect such a big thing to happen outside.

Even when he received the text messages from John, he was still puzzled and didn't know what had happened at all.

After reading the short message sent by John Doe, he quickly logged into the Wulin forum and the underground-force forum to check.

After the investigation...

He was instantly frightened.

To his surprise, John Doe actually took the initiative to challenge more than a dozen countries.

This was not a joke.

Although John Doe had surpassed the guru, broken through to the Flower Core Formation Realm, and reached the SS level, in the eyes of foreigners, he was not the only super expert at the SS level in the world.

At least...

On the underground-force forum, John Doe was only ranked eighth.

That was to say, there were still seven people who were stronger than John Doe on the surface, and no one knew how many people were behind the scenes.

When he realized it...

Wasn't it courting death for John Doe to face more than a dozen countries alone?

After the battle in the relic, these countries had already known John Doe's real strength. Now that John Doe provoked them so blatantly, these countries would definitely not be willing to admit defeat.

They would definitely take action.

Knowing John Doe's real strength, they must be confident once they took action. That was to say, it was very likely that these countries would spend a lot of money to invite some experts to fight with John Doe!

Thinking of this.

He Gaoming couldn't help but worry about John.

Although he was worried, he didn't dare to hesitate at all. He immediately went to inform the other masters in Wulin. No matter what, he had to complete the task assigned by John Doe.

As for this great battle?

He believed in John Doe!

As inside Laozi Relic.

All the Wulin people who entered it were attracted by the fairyland-like relic, who spent their time in cultivation when they had time, so they were not in the mood to care about the gossip in Wulin?

Therefore, most of the people in the relic didn't know about it. After all, it hadn't been a long time since it happened, but some of them had been habitually paying attention to the forum.

No doubt...

It wasn't long before the news spread below.

When they got clear the cause and effect, why foreigners were targeting John Doe, and why John Doe took the initiative to provoke more than a dozen countries.

Everyone couldn't help getting angry.

"Bros, John Doe saved the relic for us, and he even opened it to us so that we could have a good cultivation place. Now these foreigners dare to make trouble for John Doe and target our Huaxia. Should we support John Doe or attack them?"

Many rogue cultivators gathered together and kept waving their arms and shouting, ready to set off to support John Doe.

The same went for the cultivators from the eight factions and sixteen sects.

They were all grateful. John Doe was so good to them. How could they let him be bullied by those foreigners?

For a moment.

It was as if a meeting had been started in the relic.

Everyone shouted that they were going to Africo to support John Doe and kill all those foreigners.

Just then...

Knowing the seriousness of the matter, He Gaoming directly walked down from the clouds and the Heavenly Ladder and attracted everyone's attention.

On the way, he also met Yun Yangzi and Diwu Qian, who were building the Magpie Bridge.

However...

The two of them didn't know what had happened outside because they were on the way to climbing the Heavenly Ladder. They didn't even notice He Gaoming when he walked past them.

He Gaoming didn't disturb them either.

Instead, he came to the first section of the Heavenly Ladder.

At the moment.

There was no one on this section of the Heavenly Ladder. Those who were about to climb the Heavenly Ladder with Yun Yangzi and Diwu Qian had already given up.

Everyone gathered at the foot of the Stairway.

He Gaoming said, "Calm down, everyone. I just received a text message from my master, who was also my oldest. He asked me to tell you that he will take the responsibility alone. Please trust him. He hopes you won't interfere and can cultivate here. There will be a bigger war in the future that needs your help!"

He Gaoming opened his mouth and said again, "Here, on behalf of my oldest John Doe, thank you all."

Finished that...

He Gaoming bowed to everyone and added, "I believe in my master. He will definitely not let Huaxia be humiliated and lose face. I hope everyone can believe in him like me!"

Hearing his words,

Everyone fell silent.

Without doubt...

There was no doubt that He Gaoming was John Doe's disciple, so no one doubted He Gaoming's words at all. Hearing He Gaoming's words, everyone knew that the reason why John Doe said that was due to he didn't want to make a big deal out of it. He wanted to take responsibility for himself!

Since John Doe said so,

What else could they do?

Go to Africo to cheer for John Doe?

As everyone knew...

Even if they did that, it would be difficult for them to do anything because they could hardly stop John Doe.

Plus what He Gaoming said.

Everyone could only suppress their anger in their hearts.

Just as John had said, there would be more importance to help in future battles. Therefore, the only thing everyone could do was to turn the anger in their hearts into strength and work hard to cultivate themselves so that they could be of use one day.

Wait for the day to come when they represented Huaxia Wulin and shocked the whole world!

This side.

After sending a text message to He Gaoming.

Fang Qiu set off again and released his Divine Consciousness to search for a suitable place while running rapidly on the grassland.

Eventually...

When He Gaoming found the right location, he received a reply from He Gaoming.

The people in Wulin were appeased.

Fang Qiu breathed a sigh of relief when he received this news.

Then...

He opened the world map with his mobile phone, zoomed in on his location, finally took a screenshot of the location, logged into the forum of underground forces, and directly opened a new post.

"I'm just right here. Come on!"

Fang Qiu sent it out in the blink of an eye with only a simple title and one positioning picture.

At this moment.

The superpower holders all over the world were paying attention to this matter.

Both the countries and the forces were looking forward to the follow-up development of this matter.

No doubt...

As soon as John Doe posted his new post, it immediately attracted the attention of countless people.

"What the fuck, isn't this too domineering?"

"John Doe is awesome! Aargh!"

"This is X, whom I used to admire so much!"

“These countries must be pissed off by such provocation and contempt, right?”

“John Doe has completely risen to the SS level. It’s not so easy for these countries to kill him now!”

“The exciting part is about to begin. A great battle is about to break out!”

Heated discussion continued on the forum.

The countries led by Murica also saw the news and immediately prepared to send people there!

Chapter 1604 Here Came Six Little Guys

In the Africon Savannah.

Because of the exposure of the sun, the green lawn was covered with a layer of autumn yellow, as if the grass all over the ground was about to wither.

Under the scorching heat, all the animals on the grassland were approaching the water source.

As they approached the water source, these animals were also looking around. Not only did they like water, but those fierce animals also liked water more. Maybe there were several lions lying in ambush nearby, ready to catch them to fill their stomachs!

This was the Africon Savannah, a place full of danger everywhere!

Far away from the water source.

Under a withered yellow tree.

Fang Qiu sat cross-legged, relying on the branches of this tree to block the scorching sun and get a trace of coolness.

He was waiting.

He was waiting for those people to come.

Fang Qiu knew very well that there was only one way to solve this problem.

That was to make these people surrender. No matter how many people these countries sent, he would make them surrender and kill them all. Then they would be so scared that they would no longer dare to regard him as their target.

Just like the animals on the African Savannah, only by killing all the hunters and all the fierce beasts could those animals continue to drink water in peace!

Besides...

Fang Qiu also regarded this as a kind of challenge that he had to go through.

Although there were many great battles these days, the only effect of those battles on Fang Qiu was to help him stabilize his realm and strength of the One-Flower Core Formation.

Now...

His cultivation had been completely stabilized.

What Fang Qiu needed was a battle that could make him go all out, because only in such a battle could he find his shortcomings. Then he could make up for them and improve himself.

If he didn't start a Combat, he wouldn't know his shortcomings, and he wouldn't be able to make up for them and get improvement.

This was the reason why many talented people were unwilling to come into the world in order to improve their strength, but in the end they couldn't improve for decades. There were some things that one could see and others that they couldn't see in their whole lifetime. People had to interact with others to get the reality. Only in this way could they really recognize and perfect themselves!

On the underground-force forum.

As John Doe released the location, everyone began to talk about it.

A force that specialized in operating underground casinos was ready to take advantage of this event to gain popularity. They directly opened a stock on the underground-force forum.

"Facing with Seven Kingdoms, can X hold on?"

The betting post appeared.

There were two options below: A can hold on, B can't hold on!

The frequency was constantly changing.

However...

From the moment the stock market opened, the gap was getting wider and wider.

The odds of option A exceeded 5.

The odds of option B were only 0.3.

Even so.

The odds of option B were still declining.

As more and more participants were involved, the odds for option B also dropped to the lowest, only 0.1. Moreover, it seemed that the odds were still falling, because the second number after the decimal point had begun to show.

Without doubt...

Basically, all the people who participated in this gamble were betting B!

Everyone felt that Fang Qiu could hardly hold on.

There were many comments and analyses in the post of this game.

“Although John Doe is extremely strong, he is facing the Seven Kingdoms this time. The Seven Kingdoms have lost a lot of experts before so they should have figured out John Doe’s real strength. This is a rare opportunity for them to kill John Doe and they will definitely seize it, so I think they will send out their trump cards to kill John Doe!”

“Yes, John Doe has been too high-profile recently. Now everyone in the world knows that he is an SS-level expert, which is very rare in the world. No one can be sure whether he is in the SS level or not actually, but it is certain that his strength is higher than that of the S level. I guess the Seven Kingdoms will send experts exceeding S-level first.”

“Even an SS-level expert would have a hard time surviving the siege of so many S-plus-level experts, right?”

“There is no need to hesitate at all in this bet. John Doe can never withstand the fierce attacks of the Seven Countries. It is said that Murica has decided to send a super expert this time, who has been famous for a long time in the SS level to deal with John Doe.”

“The one of SS level who has been famous for a long time? Could it be Ballor, who had ranked fifth on the underground-force forum?”

“If it’s really Ballor, I’m afraid John Doe won’t live for more than a day.”

“What’s more, Lantis State also sent Bart.”

“What? Bart?”

“He’s ranking sixth on the individual strength list of the underground-force forum, only one place lower than Ballor!”

“Is this true? If that’s the case, John Doe will be completely doomed this time. Not to mention other countries, John Doe won’t be able to escape in combat with Ballor and Bart.

“Although other countries haven’t sent out a super expert of SS level, they have at least sent experts exceeding S-level. Each of them is extremely powerful. I’m afraid John Doe won’t be able to escape this time!”

These analyses and news appeared.

More and more people chose to bet that John Doe couldn’t hold on.

“Is there any other choice?”

Experts who ranked fifth and sixth in the individual strength list of the underground-force forum, would battle with John Doe at the same time. How could he defeat them? Even if he broke through to the SS level and killed many metahumans from the seven countries, he would only be ranked eighth. How could he defeat a super expert ranked fifth or sixth?

“Beep, beep, beep...”

The sound of text messages came.

Fang Qiu woke up from his meditation and took out his mobile phone to have a look.

He found that it was the information sent by Li Ji through the satellite encrypted signal.

Clicking on it to see what was going on.

Fang Qiu immediately got the opponent's information.

The first person he saw was Ballor.

It was a very thin man with particularly three-dimensional facial features, who looked very young but had a full beard. Of course, his beard was not long, but obvious.

This person had a pair of blue eyes, which looked particularly wired.

"Ballor, SS level, is a metahuman of Murica with unknown special abilities. With such terrifying strength, he ranks fifth among the world's known top masters, and you rank eighth."

After reading the message.

Fang Qiu raised his eyebrows and continued to read.

The second one.

It was a middle-aged man with golden-red hair and a medium build, wearing an ancient-style bullfighting suit.

“Bart, SS level, wizard of Lantis Kingdom, with unknown special abilities, has very horrible strength. It is said that he has the power to move mountains and ranks sixth among the top masters in the world at present.”

“The fifth and sixth ones are all here?”

Fang Qiu’s face turned gloomy.

Well done.

It was just as what he had expected.

These countries definitely wouldn’t show mercy so easily.

But Fang Qiu was not afraid at all. For Fang Qiu, the stronger the person who came and the more famous he was, the better. This was like killing a chicken to warn a monkey!

If these two people really came, Fang Qiu would definitely kill them no matter what.

It could be predicted that once the news of the deaths of these two people spread out, it would inevitably cause a great sensation, and it was very likely to shock the Seven Kingdoms!

He continued to check.

Fang Qiu saw the information of the other six people.

These six people were from the Soviety, L’hexagone, Nihon, Italy, Germany, and Korea. Moreover, they were all experts at the S plus-level.

“Humph!” Fang Qiu snorted coldly.

After reading the information about all the opponents, Fang Qiu snorted and said with a gloomy face, "Come on, let's see who had a stronger knot, John Doe in Huaxia or your so-called SS-level experts!"

To be honest...

Fang Qiu didn't know where the so-called boundary of the SS level was.

It seemed that anyone who could defeat an S-plus-level expert could be called an SS-level Evolver.

Previously...

Fang Qiu had always thought that the guru of Huaxia was S-class in the eyes of foreigners. Judging from what had happened to him in the past few years, it was almost the same.

However...

It would appear differently when thinking about the experts above S-level.

Fang Qiu didn't know whether it was stronger or weaker, so he could only wait for them to come and give it a try!

With the support of the Seven Kingdoms.

The next day...

The six super experts arrived at Egyptt.

They gathered in a luxurious hotel in Kairo.

“Everyone, now that the people of the six countries have arrived, all that’s left is Ballor and Bart. I’ll ask for your opinion first. Shall we wait for them and then go together?”

Asked the Frenchman.

“I don’t think it’s necessary.”

A warrior from Nihon snorted and said, “The strength of our six represents the top in the world. Although we haven’t broken through to the SS level yet, John Doe has just been there, so he won’t be too strong. Moreover, he must have the secret of advancing to the SS level!”

After these words have been heard...

The eyes of the six people lit up.

That was right.

How could an expert like them casually accept the trend of the country and fight desperately?

The reason they agreed to deal with John Doe was they saw that John Doe had just broken through to the SS level and they would definitely be able to find a way from him to help them break through.

That was why they were willing to come over.

“Yes.”

“If Ballor and Bart come, we won’t have a chance. In order to ensure their status, they will definitely kill John Doe and take his body away. At that time, we will get nothing from John Doe!”

“Everyone who breaks through to the SS level keeps their mouth shut about how they get promoted because they don’t want others to know. Even if they have to pay a high price, they won’t tell anyone else.”

“John Doe is a great opportunity for us. If we want to improve our strength, we must push John Doe to tell us what we need before Ballor and Bart arrived!”

At this point.

The six of them looked at each other and nodded.

They absolutely couldn’t miss such a great chance.

“We can’t wait any longer.”

The six colleagues decided and said, “We’ll go together and we can definitely kill John Doe.”

They just did what they said.

The six of them immediately confirmed the location of John Doe through the satellite map, then immediately left the hotel, rushed into the Africon Savannah, and headed for Fang Qiu.

Before long...

They arrived at the point.

Under the tree.

Seeing the arrival of the six from a distance, Fang Qiu immediately used the mobile phone he was playing with to quickly post a post on the underground-force forum.

“Here comes Six little guys!”

After sending this post, Fang Qiu immediately put away his mobile phone and looked at the six people who were rushing over from a distance. Slowly stood up, he put away his mobile phone, and exuded a murderous aura all over his body!

Chapter 1605 One Versus Six

“Six?”

On the underground-force forum, countless people who were paying attention to John Doe immediately went crazy when they saw this post.

“Are they six experts in S plus-Level?”

“Since John Doe calls them little guys, they must be experts of S plus-Level. I don’t think Ballor and Bart would want to join forces with them six. After all, their levels are different?”

“Right, SS level and S plus-level are not at the same level at all.”

“Although that’s the truth, it’s not easy to deal with six S-plus-level experts. Although John Doe has broken through to the SS level, he has just been there not for a long time. In the face of the siege of six S-plus-level experts, he may not be able to survive!”

“Not long ago, John Doe was also an S plus-level expert. If he fought against six people alone, he might not win.”

“It seems that this battle is about to begin. This should be the first test that John Doe is about to take. If he can’t even defeat the six, there’s no need for Ballor and Bart to take action.”

For a few minutes.

Everyone, on the underground-force forum, was looking forward to the beginning of this big show.

At the same time, on the Wulin forum, all kinds of news from the underground-force forum were moved here. Countless people were secretly cheering for John Doe.

They believed John Doe would definitely win!

On the Africon Savannah.

“He is indeed a guru.”

With a stir of his Divine Consciousness, Fang Qiu instantly enveloped the six people who were flying toward him.

Under the detection of his Divine Consciousness...

Fang Qiu could clearly feel that the strength of these six people was above that of a guru and they should have reached the level of the Venerable in the Nirvana Organization.

However...

The strength of these six individuals was also uneven, the strongest one could be comparable to a Third Venerable, and the rest similar to a Fourth Venerable or a Fifth Venerable.

For the people of the underground forces in the world, it should be very difficult for John Doe to win this combat.

But for Fang Qiu, these six Venerables posed no threat to him.

Whoosh!

The six people broke through the wind and arrived.

“X ! ”

A young man with curly golden hair and fair skin from France, stepping on the wind, stared at Fang Qiu with a sneer on his face.

“A wind-style metahuman?”

Fang Qiu raised his eyebrows.

“X, we don’t want to be your enemy either.”

The ronin warrior of Nihon stood up, with his right hand holding the hilt hanging on his waist, and said to Fang Qiu with a serious face, “As long as you tell us all the methods you know about how to advance to the SS level, we promise we won’t hurt you at all and will leave immediately. We will never be your enemy in the future!”

“Do they believe your nonsense?”

Fang Qiu asked, smiling.

As soon as he said that, the expressions of the six people on the other side immediately changed. People from other countries held back their laughter. The ronin warrior from Nihon instantly looked gloomy, as if he was ready to take action at any time.

“Cut the crap. Are you going to hand over the method or not?”

A strong man from Soviety in his prime said in a cold voice, "If you don't hand it over, we'll get it ourselves!"

"Come."

He smiled faintly.

Later on...

His face darkened, making a grabbing motion in the air with his right hand, and the divine sword instantly condensed in his hand.

On the other side.

When the six of them saw this...

"Go go go!"

The werewolf of Soviety took the lead, bending down directly, and ran toward Fang Qiu with both hands and feet on the ground.

As jumping high, he instantly transformed into a werewolf, with extremely sharp claws, and rushed straight to the head of Fang Qiu.

The others weren't slow either.

The ronin warrior of Nihon, filled with anger, suddenly pulled out the katana hanging on his waist as soon as he launched the attack, he raised it above his head with both hands, and rushed toward Fang Qiu, hacking down from above.

The remarkable talent from L'hexagone was the fastest among the six, like the wind. He rushed to Fang Qiu in an instant, summoning a gust of fierce wind, and directly condensing into a huge wind blade in the sky, attacking Fang Qiu with the sound of breaking through the air.

At the same time, the three people of Germany, Italy, and Korea also launched fierce attacks on Fang Qiu from different directions.

However.

Just then-

Bang!

An extremely violent Qi power burst out of Fang Qiu. Although it couldn't help him resist the attacks of the six people, but, at one moment, it slightly disrupted the rhythm of their attacks.

Immediately, his body flashed.

He rushed straight to the man from Korea.

Right then...

This foreigner was holding the long sword in his hand and stabbing toward Fang Qiu.

Although it was very fast, there was less sword intent on it.

“Whizz!”

A crisp sound was heard.

The divine sword in Fang Qiu's hand collided with the old man fiercely. A huge force burst out and directly cut off the long sword in the old man's hand in an instant.

Obviously, the Korean expert didn't expect this result. As soon as he saw the long sword being cut off, he was ready to retreat immediately.

Unfortunately, he was too slow.

Before he could take two steps back, Fang Qiu slashed across his throat with his long sword incredibly fast.

A sword slashed out.

Fang Qiu didn't look back. Instead, he continued to activate his internal Qi and rushed forward quickly. He narrowly avoided the attacks of the other five people and then turned his head.

On the other side.

The five of them didn't look happy.

They didn't expect that John Doe would take such a big advantage and kill one of them while the Korean expert was not paying attention to him.

It was not anyone's fault. This result was caused by the Korean expert's arrogance, not taking John Doe seriously at all.

One had died.

The remaining five people immediately became vigilant.

With their eyes fixed on Fang Qiu, the five began to move secretly, ready to surround John Doe again.

Because they knew.

The best way to kill John Doe was to surround and kill him together. They couldn't let John Doe defeat them one by one. Otherwise, they would all die.

However.

Would John Doe give them this chance?

Of course not!

“Swoosh!”

Just as the five of them were secretly surrounding him, Fang Qiu moved unceremoniously and rushed straight toward the metahuman from Germany.

Different from the time when he killed the Korean expert, this time Fang Qiu directly burst out all his strength.

He wanted to defeat his opponent head-on with strength that was more powerful than his opponent's. He wanted to use his strength to suppress his opponent!

It was extremely fast.

Fang Qiu rushed to the metahuman of Germany in an instant.

Because of the increased vigilance, the five of them immediately took action while noticing that.

The metahuman of Germany seemed to be well prepared. When John Doe attacked fiercely, he mobilized all his energy in an instant and directly condensed it into a very thick energy shield in front of him. Just like the energy shield used by the police, it was extremely solid and could block all attacks.

As soon as he condensed a shield, the metahuman immediately curled his lips and stared coldly at John Doe who was rushing in front of him, waiting to see how painful John Doe would be after the other four people's attacks were confirmed.

But just at this moment.

Whoosh.

John Doe, who rushed to him, suddenly disappeared.

Everyone was shocked!

They saw the track of John Doe, but they couldn't keep up with his speed at all. It was a speed that only SS-level experts could have. That was the gap between Fang Qiu and the Lord Virtuous when he was still a guru.

It was too fast.

At this speed, the four of them didn't even have time to change the direction of their attacks.

At this moment, Fang Qiu had already rushed to the guru of Italy who had just launched an attack and was completely at a disadvantage. His whole body was surrounded by a layer of green light. Unfortunately, this layer of light was not a defense.

“Whizz!”

Another sword stroke.

The moment the sword rang, Fang Qiu immediately turned around.

In the surroundings...

The four of them were dumbfounded.

No one had expected that John Doe rushing to the metahuman of Germmany was just a feint. His real target was the people of Italyy, and he finally succeeded!

At the moment in shock.

The remaining four quickly went back to defend themselves.

No one dared to launch a blind attack again, for fear that there would be a flaw and drew John Doe to their side.

This side.

“Whoosh.”

After dodging the four attacks that had been sent out, Fang Qiu flashed and quickly returned to the metahuman of Germmany.

He held the sword in his right hand.

On the tip of the sword, golden light burst out!

Without hesitation, he stabbed directly at the incomparably solid energy shield condensed by the metahuman of Germmany.

The metahuman of Germany sneered.

The people of other countries also breathed a sigh of relief at the same time.

For them...

They had tried to break the energy shield of the metahuman with willpower before, but it was impossible for one at the same level to break it. Even a super expert at the SS level could hardly break it.

After all, this was the strongest life-saving method for a metahuman.

However...

The scene in front of them shocked everyone.

Between them.

Under the push of John Doe's arm, the long sword in his hand, which was shining with golden light, directly pierced through the shield of the metahuman of Germany as if it was made of tofu.

Then...

Under the gaze of the metahuman, the long sword in the hand of John Doe pierced through his chest unceremoniously!

The energy shield collapsed in an instant.

The metahuman who was still flying in the air fell to the ground.

This incredible scene.

Made everyone stunned.

“How can this be possible?”

“How could he possibly break the shield?”

“Too terrifying. He’s simply not a human at all.”

The other three were dumbfounded.

Looking at each other, without any hesitation, they immediately fled in three different directions.

“Since you’re here, then stay!”

Fang Qiu snorted coldly.

He moved.

In an instant, he chased after the remarkable talent of wind of L’hexagone.

Because he was the fastest one.

But it was a pity that they were just too slow.

The difference in strength was too great.

Even if he exerted all his strength to escape, the remarkable talent from L’hexagone didn’t get far before Fang Qiu caught up with him.

“You, you...”

Seeing Fang Qiu, the face of the metahuman changed in an instant.

However.

But Fang Qiu didn't give him any chance to slow down.

Fang Qiu's sword stabbed straight into his heart.

“No, you cannot kill me. You cannot kill me.”

The metahuman of L'hexagone roared in panic and then suddenly spread out his hands. A huge amount of energy suddenly burst out of his body and instantly condensed into a storm in front of him, trying to stop Fang Qiu's long sword, he quickly retreated under the support of the storm!

Chapter 1606 When Will the Main Course Be Served?

“Huh?”

Seeing that the other party suddenly retreated and fled, Fang Qiu was stunned initially because he didn't expect they would react so quickly. The speed at which they hurriedly broke out was obviously much faster than before.

They had flown back over 10 meters in the blink of an eye.

“Great Hand of Destruction!”

As soon as Fang Qiu waved his right hand.

The surrounding Qi of Heaven and Earth was instantly attracted by a large amount, which directly condensed into an ordinary palm-sized energy palm in front of him and then slapped out.

“Swoosh!”

With a gust of sharp wind, the normal-sized energy palm caught up with the expert in an instant at an extremely terrifying speed. Under the horrified gaze of the metahuman from Anglan, it directly broke the circle of storms around him and hit him hard without hesitation.

“Puff!”

The moment hit by the Great Hand of Destruction, the metahuman opened his mouth and spat out a mouthful of blood. His eyeballs bulged on his extremely fair face.

As the storm around him dissolved, he immediately fell powerlessly.

With a closer look...

A palm-sized hole appeared on his body, piercing through him.

Another expert was killed.

Fang Qiu immediately turned back.

He glanced at the fleeing werewolf from Sovieth and the wanderer warrior from Nihon and found that the werewolf was a little faster. The wanderer warrior was closer to him.

With a stir in his mind, Fang Qiu immediately chased after the wanderer warrior from Nihon.

And meanwhile...

Although the Nihonese paid great attention to the speed of their attacks, they were not good at escaping.

Therefore, their speed of escape was very slow.

Fang Qiu chased with all his strength and caught up with him in less than two minutes.

“Ha!”

When Fang Qiu caught up, the wanderer warrior suddenly stopped, turned around, and slashed at Fang Qiu with a roar.

“Clank!”

A crisp sound was heard.

In the blink of an eye, as he attacked, the divine sword was condensed in Fang Qiu’s hand, blocking his attack.

After that-

“Playing with knives and swords in front of your grandmaster? Let me show you what a knife is and what a sword is!”

Shouting coldly.

Fang Qiu directly began to perform the ancient Saber Technique.

Each slash was like a wave. Each slash was even more berserk than the last one.

The guru of Nihon changed color.

Under the continuous attacks of John Doe, he was actually forced to retreat again and again. Not to mention looking for an opportunity to fight back, he even had a hard time defending himself.

However.

Just as the guru of Nihon was finally familiar with the attack process of Fang Qiu, Fang Qiu turned his wrist.

He changed the ancient Saber Technique to ancient swordsmanship, which was extremely agile and sharp, and constantly attacked his opponent from all directions.

And meanwhile...

Just as the wanderer warrior finally managed to block the attack of Fang Qiu, when the pressure was just relieved a little, Fang Qiu suddenly turned to swordsmanship.

The warrior had never seen such a way of fighting. Now, he was caught off guard and was on the verge of collapse by John Doe in an instant.

There was no other choice.

He could only quickly activate all the energy in his body and try to fight John Doe head-on.

Yet.

He had been suppressed so much.

Even if he burst out all his strength, he was still unable to fight back due to a lack of moves and combat experience. He could only be suppressed by John Doe.

After a set of ancient swordsmanship was finished.

Fang Qiu glanced at the werewolf from Soviett and found that he had fled far away. Fang Qiu had to end the battle as soon as possible so he must hurry up.

With this in mind...

Fang Qiu no longer hesitated. The energy in his body burst out in an instant, and his golden internal Qi poured into the divine sword, which instantly pierced through the air and stabbed at the chest of the wanderer.

“Hoo!”

The wanderer warrior waved his knives to resist.

In the end...

He seemed to have forgotten the death of that from Koreea. When the sword and the saber collided, his face completely changed.

Because the golden light emitted by the divine sword in Fang Qiu’s hand directly cut a crack in the Samurai sword the moment it touched Fang Qiu’s sword.

The Samurai sword broke in an instant!

After that, the divine sword, pushed by Fang Qiu, instantly penetrated the chest of the wanderer at a speed that no one could react to.

The sword pierced through.

Fang Qiu didn't stop. Instead, he turned around and chased after the werewolf from SoviETT while pulling with his right hand.

The surrounding Qi of Heaven and Earth.

Immediately gathered in his hand and took shape, turning into a long bow.

Taking the divine sword as an arrow, Fang Qiu pulled the bowstring fully, aimed at the fleeing werewolf from SoviETT, and then fiercely shot out.

"Whoosh."

The divine sword flew out of his hand with a sharp sound of breaking through the air, which rushed toward the back of the werewolf at a speed that was hard to see.

On the other side.

The fleeing werewolf felt a chill on the back of his head.

When he immediately turned around and had a look.

He found that...

The divine sword of John Doe was chasing after him at a speed more than three times faster than his. It wouldn't take long for it to hit him.

Without hesitation, the werewolf immediately turned around and fled in another direction.

However.

As soon as he turned his direction, the divine sword also followed him, as if it had aimed at him. No matter where he went, it would definitely catch up with him.

The expression of the werewolf instantly turned extremely ugly.

He knew that he would not be able to escape.

If he wanted to live.

He had to block this sword strike first.

He continued to flee.

Just as the divine sword flew up, he suddenly turned around, waved his claws covered with cuticles, and grabbed the divine sword.

Werewolf was different from metahuman in other countries.

All their strength was concentrated in the cells.

When the power broke out, every cell in the body would completely evolve and change, changing their shape and appearance, which gave them very strong speed and strength because of that their power was all hidden in the body, flesh, and cells, making their tearing power the strongest in the world.

But they couldn't control the periphery or the energy.

In the face of all the attacks, the only thing they could do was block them with their claws.

“Whizz!”

There was a trembling sound of eardrums breaking.

When the werewolf grabbed the divine sword with his claws, the divine sword immediately cut his claws open. The thick diamond-like cuticle was about to break.

But...

Since the strength of the sword was too strong.

The divine sword, which was tightly held, was trembling rapidly. It seemed that it wanted to break free from the claws of the werewolf.

The divine sword burst out with tremendous power.

Which ruthlessly pushed the entire body of the werewolf backward.

As he was retreating.

The werewolf suddenly narrowed his eyes, because he saw the figure had caught up to him!

Although the speed was not as fast as the divine sword arrow, John Doe was twice as fast as him.

“Clap!”

As John Doe got closer.

The werewolf suddenly mobilized all his strength, held the divine sword in his hand, and pushed it aside. Throwing the divine sword away, he stared at John Doe angrily.

Taking a closer look, he found that the claws, which had been deeply cut by the divine sword, were also recovering at an extremely terrifying speed in an instant.

“Does he have the ability to heal quickly?”

Seeing this, Fang Qiu raised his eyebrows, and the divine sword thrown by the werewolf flew back into his hand.

“If the whole heart is taken away, can it be healed and reborn?”

Fang Qiu was really quite curious.

If the organs could still be cured and reborn after being taken away, it would be a piece of great news for the medical community all over the world.

On the other side.

“Phew...”

After John Doe caught up with him, the werewolf didn't want to run anymore. He opened his mouth directly, revealing a row of sharp teeth, at the same time, kicked his hind legs and immediately pounced on Fang Qiu like a rocket.

Right away, Fang Qiu flashed aside to dodge.

He could feel that the explosive power of this werewolf was really strong, and his attack speed was also very fast. The most important thing was that his whole body was full of weapons.

Luckily...

He couldn't control any energy, which was to say, if someone used energy to attack, he couldn't deal with it at all.

He distanced himself from the werewolf.

Fang Qiu controlled the divine sword in his hand with his mental power and launched a fierce long-range attack.

No matter how the werewolf pounced on him, Fang Qiu could easily dodge.

Before long...

Under the pull of Fang Qiu, the werewolf was covered in wounds.

Although they could recover, the recovery speed was not as fast as the speed of the wound, so no matter how strong his healing ability was, he could not resist John Doe.

There was no other choice, the werewolf could only turn around and flee again, but he couldn't escape at all.

In this way, the super werewolf of S plus-level was almost exhausted to death before he could touch John Doe.

Noticing the werewolf was about to die, Fang Qiu didn't waste any more time and directly rushed up to fight in close combat.

He wondered if the werewolf's regenerative ability was as abnormal as he had imagined.

Ten moves...

The werewolf was seriously injured.

Fang Qiu pierced the heart of the werewolf with only ten moves.

In the end...

The werewolf with super regenerative ability didn't revive.

His heart did not beat again, and his wound had not healed.

“It seems that the cuticle and fur that appear on the body will have the ability to regenerate and heal only after the transformation, but the organs don't have this ability.”

After careful research, Fang Qiu couldn't help shaking his head.

At this point, six S plus-level experts were completely wiped out!

Just in case, Fang Qiu directly gathered all the corpses of the six people together, turned them into flames with his internal Qi, and directly burned them into ashes.

When he had done all this...

Fang Qiu returned to the big tree where he had been waiting for someone to come.

In the distance, several lions had just killed a bison. After eating the meat, they leisurely walked over to the water source to drink some water.

Glancing at those lions that even wanted to snatch human flesh, Fang Qiu shook his head gently, took out his mobile phone, and logged into the underground-force forum.

“The appetizer is done. When will the main dish be served?”

Posted.

Chapter 1607 Do You Want to Wait for Your Helper?

“Have you finished the appetizer?”

“Does John Doe mean that he killed all the six S-plus-level experts?”

“How is that possible? How did John Doe become so powerful?”

“How long has it been? John Doe actually killed six S-plus-level experts in such a short time?”

“Really?”

On the underground-force forum, everyone on the forum was shocked when they saw the post sent by John Doe.

Not long ago.

Everyone agreed that John Doe would definitely not be able to survive the siege of the seven countries.

But unexpectedly...

In the blink of an eye, John Doe had killed six S-plus-level experts, hadn't he?

The news came so suddenly and beyond everyone's expectations.

In the meantime...

Meanwhile, the six countries also received the whole news.

When they heard the news.

The high-level officials of these countries were all dumbfounded.

No one had expected that it would be so fast!

The first time.

They sent people to contact the six people one after another, only to find that there was no news about them at all. No matter how hard they tried, there was no response. They checked the location of the six people again, only to find that their location had disappeared. They couldn't find them at all.

Without doubt...

All six of them were dead.

Shocked by the news, the six countries hurriedly held a meeting at the invitation of the higher-ups of L'hexagone.

“The location of the people sent by your country has also disappeared, right?”

In the video conference, the high-level official of L'hexagone directly raised his voice and said, “The expert sent by our country is basically sure to have been killed.”

“The same goes for us.”

“The signal has disappeared.”

“We can’t get in touch with him at all.”

The people of other countries all nodded in agreement.

As soon as he finished speaking...

Everyone fell silent.

As high-level officials of the country, they really didn’t expect that the S-plus-level expert sent by their country would be so easily killed by John Doe.

Each of them was not in S-class but was of S-plus-level. Even within one country, there were only a handful of them.

How could John Doe kill them so easily?

They went quiet for a moment.

The higher-ups of these countries were a little scared.

They had already lost some combat effectiveness in the battle for the relic. Now, each country had lost an S-plus-level expert. Their losses represented the strong power of Huaxia.

Huaxia had only sent John Doe to do this, and they had been trying to reduce the scale. If it went on like this, their country would only become weaker and weaker, and it might even be destroyed by John Doe alone.

“Are you still sending people over there?”

After a long silence, the high-level official of L’hexagone asked.

There was another burst of silence.

They were too scared.

They were really afraid that if they sent people out again, they would be killed by John Doe once more.

There was only one way that might not go wrong, to send a super expert at the SS level there.

However.

To send an SS-level expert, there had to be such an expert first.

Even if there were some in some countries, there would be definitely just a few. The existence of each super expert at this level had a great deterrent effect.

Should they send one or not?

What if they were also killed by John Doe after sending out?

If not, would they have to swallow the anger?

“I think we had better wait and see for now.”

The high-level official of Germmany said, “We’ve already lost so many experts. Even six experts of S plus-level have been killed by John Doe. If we send another expert of S plus-level, the result will

definitely be the same. We even don't know whether an SS-level expert can defeat John Doe or not, so I think we should wait first. Didn't Anglan and Murica send SS-level experts?"

"If the expert they sent out can kill John Doe, there is no need for us to continue to send people out. If even the SS-level expert is killed by John Doe as well, I'm afraid the result will be the same even if we send out more people."

Hearing this.

The higher-ups of the other countries nodded in agreement.

Every one of them was bleeding in their hearts.

If they had known that John Doe was so powerful, how could they have become enemies with him and lost so much combat capability?

At present, each country had lost at least two experts of S plus-level, and a large group of experts of S-class.

How long would it take to cultivate to have such a high level of combat capability?

Judging from the strength of a metahuman.

Their losses were already enormous.

Therefore, they gradually began to feel afraid.

And meanwhile...

The Six Kingdoms held an emergency meeting.

Soon, it was detected by the Huaxia authorities.

The six countries decided to wait and see and no longer send any expert to deal with John Doe!

After receiving the news.

Hearing that, the high-level officials of Huaxia immediately breathed a sigh of relief.

“It seems that these six countries are frightened.”

“During this period of time, their losses are not small. If they continue to lose, their number of metahuman will only decrease.”

“John Doe really did a good job this time.”

“However, this is just the beginning. The forces we are going to send to support John Doe are still in the contact and assembly stage. The SS-level experts sent by Murica and Anglan should be on the way. I only hope that John Doe can hold on no matter what!”

...

At the Kairo airport in Egyptt.

An old man in a suit with a golden pocket on his left breast and neat hair, wearing a single glass in front of his right eye, got off the plane from Anglan to Kairo.

He looked to be in his sixties, well-dressed.

At first glance, he looked like a gentleman, but he was missing a small cane.

“Beep, beep, beep...”

After getting off the plane, the old man nodded to the people around him with a smile. Then he took out a mobile phone from his trouser pocket as he walked out of the airport.

He clicked on the message on his phone to have a look.

“John Doe killed six S-plus-level experts.”

Seeing this message, the old man raised his eyebrows, curled his lips, whistled indifferently, and then put away his mobile phone. Taking out the golden pocket watch on his chest to look at the time, he got in a taxi and rushed all the way out of Kairo.

In the Africon Savannah.

After killing the experts, Fang Qiu had been sitting under the big tree and waited.

In the distance...

Those lions had been lying prone in the grass, and there was no other prey around for them to hunt. They seemed to regard John Doe as their prey, but they didn't dare to approach him.

In this way, under the gaze of the lions all over the ground, Fang Qiu waited for three and a half hours.

Three and a half hours later.

“BOOM!”

A roar of the engine came from a distance, waking up Fang Qiu, who was resting with his eyes closed.

He opened his eyes, smiled and stood up.

Only see a brand new luxury car speeding toward him from the grassland.

Although it was very far away, Fang Qiu could still see that there was only one person in the car.

He took out his phone.

Fang Qiu logged into the underground-force forum again.

“Another dish. Whether it’s the main dish or the side dish?”

Fang Qiu posted.

“Indeed...”

Although Fang Qiu knew that someone was coming, he really didn’t know this person was from Murica or Anglan. He also didn’t know how powerful this person was, so he couldn’t tell any details.

But...

As soon as the post was sent out.

It attracted the attention of countless people.

Although they couldn’t see or come to the active scene, all the underground forces in the world, including all the countries, were paying attention to the challenge of John Doe this time.

Therefore...

As soon as John Doe sent the post, all the countries and all the underground forces in the world knew that the battle was about to begin.

“John Doe killed six S-plus-level experts. This time, only one person showed up. It seems that he is one of the two, Ballor or Bart.”

“Both of them are at the SS level. Can John Doe win this time?”

“Although a few hours have passed, I guess John Doe must have experienced a big battle when he killed the first six people, which consumed him a lot of energy and might make him injured. In this case, it will be difficult for John Doe to hold on!”

“Ballor and Bart are super experts No. 5 and 6 on the individual strength list. Although John Doe is ranked eighth, he has just been promoted to SS level for a short time. He is definitely no match for either of them.”

“It would be great if we could go to the scene and have a look. This is definitely a world-shaking battle!”

...

Here, on the Africon Savannah.

Just as everyone on the underground-force forum was talking about it, a brand new luxury car finally stopped more than 100 meters away from Fang Qiu. An old man from Anglan got out of the car. When he saw the muddy grassland, he took out a handkerchief and wiped his shiny leather shoes with dissatisfaction, as if he had mysophobia.

After taking a few steps...

Perhaps he had discovered that it couldn't be wiped clean.

The old man rose into the air with a helpless look and walked toward Fang Qiu.

“You are John Doe, aren't you?”

When he was ten meters away from Fang Qiu, the old man stopped and looked around as if he was looking for something. He asked, “I heard that you killed six people not long ago. Where are their bodies?”

“The ashes all over the sky are their corpses.”

Fang Qiu smiled faintly and then asked, “Do you want to wait for your helper?”

“Hee...”

The old man chuckled and said, “No need for help to kill you.”

Fang Qiu smiled.

“Let's go further. Don't scratch my new car.”

The old man waved his hand, glancing at the luxury car with great care, and said, “I just rented it. I have to return it after killing you.”

Fang Qiu smiled even more happily.

“What are you laughing at?”

The old man raised his eyebrows.

“Judging from your manner of speech and the way you’re dressed, you should be Bart from Anglan, right?”

As Fang Qiu spoke, he touched his nose and said, “You people are really gentlemen. Knowing that you are going to die, you still send me a car for free. Are you afraid that I will be tired when I go back?”

Hearing that, the old man’s face instantly darkened.

That was right. He was the sixth-ranked SS-level expert in the world’s individual strength ranking list of the underground forces, Bart!

To be honest he did not take John Doe seriously at all.

Originally, he wanted to maintain this elegant posture and kill John Doe in the most gentlemanly way, but he didn’t expect that John Doe dared to say such words to him.

This made him furious in an instant!

Chapter 1608 War on SS Level!

“You’re courting death!”

With a long face, staring at Fang Qiu, with a movement of the body, Bart suddenly rushed toward Fang Qiu fiercely.

In that direction

As he rushed over, a stream of grayish-white special energy, like ordinary dust, spread out from his body.

This energy lingered around his body and quickly condensed into a crossbow in his left hand. Then, another two-meter-long sword was condensed in his right hand.

One hand holding a crossbow and the other holding a sword!

At the moment when the weapon took shape, Bart had already rushed to Fang Qiu, raising the energy sword in his right hand and waving it violently.

With a very strange aura of energy, he slashed directly at Fang Qiu.

“Two kinds of weapons?”

Fang Qiu raised his eyebrows. It was the first time that he had seen someone use two kinds of weapons at the same time.

But...

What surprised him the most was that the weapons in Bart’s hands were all condensed from energy. The energy emitted a very unique aura, just like the fusion of spiritual force and the Qi of Heaven and Earth, similar to the Divine Consciousness of Fang Qiu.

However...

Fang Qiu mainly used his Divine Consciousness to detect, but he didn’t add the characteristics of the attack. Obviously, the energy of his opponent didn’t have any detection function, but was only used to attack.

“Is this the way for the wizard from Anglan to improve their cultivation?”

Fang Qiu shook his head in disappointment.

This sort of power was truly special, but it was too unorthodox.

In Huaxia, after thousands of years of experiments, countless seniors had come to the conclusion that the Divine Consciousness, which was most suitable for exploration, was forcibly given by a metahuman of Anglan.

He was putting the cart before the horse!

Fang Qiu had also heard that in the ancient legends of Huaxia, the Divine Consciousness of those top talents had real god-like power. As long as they moved their Divine Consciousness, they could instantly kill the enemies thousands of miles away.

But...

After all, it was a legend, a legend from ancient times.

However, it surprised Fang Qiu that these metahumans from Anglan could combine spiritual force with the Qi of Heaven and Earth to attack.

Maybe it was because they couldn't cultivate internal Qi and couldn't integrate the Qi of Heaven and Earth into their bodies that they couldn't condense Divine Consciousness. So they could only forcibly condense similar energy?

“Swoosh!”

Just as Fang Qiu was lost in thought, Bart had already rushed to him. The long sword in his hand, which was condensed from gray-white energy, slashed at Fang Qiu unceremoniously with a gust of wind-breaking sound!

“Clank!”

Waving his right hand, the moment Fang Qiu got the divine sword to take shape, he directly blocked the opponent's attack.

But right then-

“Whoosh!”

Bart, who'd taken the initiative to attack, suddenly tapped his feet on the ground and quickly retreated.

In the meantime when he quickly retreated, Bart raised his left hand, and the grayish-white energy around his body immediately surged into the crossbow in his hand. In the blink of an eye, it condensed into an arrow.

Afterward...

As he pressed his fingers.

“Swoosh!”

The arrow made of grayish-white energy immediately flew out of his hand and shot toward Fang Qiu with an extremely sharp sound.

At the same time the crossbow was shot out, he was pushed back even faster by the huge recoil produced by the crossbow.

“You're quite flexible.”

With a cold look in his eyes, Fang Qiu moved his feet and immediately bent himself to the ground. In an instant, he chased after Bart, who was retreating. Fortunately, the energy arrow flying toward him happened to pass over his head due to his lower gesture.

The moment he dodged the arrow.

Fang Qiu suddenly sped up and got close to the retreating Bart.

On the other side.

Bart let out a cold laugh and continued to retreat.

Although he was a little slower than Fang Qiu, the gap between them was not big.

Not long.

The two of them moved hundreds of meters away.

Seeing that it was about time, Bart continued to retreat and raised his left hand again.

Under the control of his strong spiritual force, the grayish-white energy around him immediately poured into the crossbow in his left hand from all directions like a tide. In the blink of an eye, it condensed into an energy arrow that had been emitting a dazzling light.

The appearance of this arrow caused the surrounding space to appear as though it was being burned by a raging flame as it began to distort.

“Whizz!”

A crisp sound was heard.

The arrow shot out explosively.

It was at least twice as fast as the previous arrow.

The arrow appeared in front of Fang Qiu almost as soon as it was pulled out.

This arrow shining with dazzling light emitted a terrifying destructive aura, giving people an extremely sharp feeling, as if it was about to pierce the embroidery needle in front of them.

Fang Qiu had no doubt.

If he was struck by this arrow, a large hole would definitely be immediately blasted through his head. Moreover, he could sense that the energy within this arrow was extremely unstable, as if it might explode at any time!

“Thunderbolt-absorbing Technique!”

Without the slightest hesitation...

Fang Qiu suddenly waved his hand and slashed.

A destructive aura like thunder and lightning suddenly burst out from the divine sword and condensed into a crescent-shaped sword Qi, surrounded by visible lightning, which instantly collided violently with the energy arrow.

“Bang!”

A muffled thunder-like explosion suddenly spread out.

In the sky, the energy Qi fluctuation caused by the energy explosion spread in all directions fiercely. The huge recoil force shook Fang Qiu, who was closer to the explosion point, and made him retreat.

But on the other side.

Just as the explosion happened...

Bart, who had been retreating, suddenly stopped. Instead of retreating, he moved forward and rushed toward Fang Qiu again.

At the same time as he rushed forward, Bart suddenly turned around. The long energy sword in his hand spread out like a pair of wings. Rotating of his body, he quickly rose into the air, with the sword light spun like a tornado.

In an instant, he rushed to the sky above the explosion point and then pressed down fiercely with the help of the rising rotating power.

In his hand, a sharp energy Qi burst out from the long sword condensed from gray-white energy, as if it was going to tear half of the earth below. With a muffled thunder sound, it slashed down with a bang!

The sword Qi was raging.

As he rapidly fell, a layer of terrifying slash ripples appeared on the blade of the ash-colored sword, as if the air had been split apart.

The sound of the sonic booms broke the eardrums of the animals hundreds of meters away. They were so shocked that they fell to the ground in an instant and couldn't get up.

“Well done.”

Before the aftermath of the explosion dissolved, Fang Qiu felt an enormous pressure falling from the sky.

When the energy of the explosion in front of him completely had gone, the figure holding the sword with one hand chopped down and coming with a momentum that could split the sky, completely appeared in front of Fang Qiu finally.

Even though the cold wind coming from above hurt his face, Fang Qiu still didn't take a step back.

Facing the horrible sword Qi.

As soon as Fang Qiu waved his right hand.

“Whizz!”

An earth-shattering sword cry rang out.

As Fang Qiu waved his arm, the divine sword rose from the ground and slashed upward fiercely.

As the sword was shown out, the Qi of Heaven and Earth within a few miles instantly rushed in all directions and poured into Fang Qiu's body, and then, through Fang Qiu, rushed into the divine sword.

In the end, under the wave of the divine sword, it directly turned into an extremely dazzling sword Qi of energy.

“Great Hand of Formlessness · Transforming Sword!”

A thunderous shout rang out.

The sword Qi left the sword.

With a Qi power that was not inferior to that of the other party, he met it head-on.

” Disperse for me!”

At the moment when the two sides were about to collide, Fang Qiu shouted angrily!

The moment he finished speaking.

“Boom...”

A loud explosion rang out at the next moment.

The sword Qi that burst out from Fang Qiu collided fiercely with the long sword that Bart was holding tightly. When they collided with each other, it directly caused an extremely sharp and unbearable wind.

The moment this strong wind appeared, it directly tore apart all the clothes on Bart's body.

“Slash!”

Bart was enraged.

He exerted all his strength, ready to forcibly break John Doe's sword Qi and kill John Doe directly.

But once he finished speaking...

All of a sudden, he felt his hand loosen.

Half of the incomparably powerful energy carried by the long sword in his hand suddenly dispersed for no reason.

This situation caused Bart pupils to contract in an instant.

How could the remaining half of the sword Qi resist the attack of John Doe?

“Bang!”

Before Bart could figure it out.

The sword Qi that John Doe burst out rushed straight up without hesitation, leaving the energy on the energy sword in his hand to completely defeat Bart, and directly sent him flying far away.

“Now, it’s my turn!”

Fang Qiu moved his body with the divine sword in his hand dispersed, quickly attracted all the Qi of Heaven and Earth within a few kilometers to pour into his fists and immediately chased after Bart, who had been sent flying.

On the other side.

“What’s going on? What’s going on?”

Bart was dumbfounded.

He had no idea what he had just experienced.

Why did that happen? Why did the energy he burst out suddenly decrease by half for no reason? Why was he directly blown away by John Doe?

In fact...

Fang Qiu had already prepared for this move.

Fang Qiu knew that both Ballor and Bart, who hadn’t come yet, were real experts at the SS level, so he had to be fully prepared in the face of either of them.

After all, SS level was really strong. Even foreigners must be very powerful.

The Great Hand of Formlessness was the best move that Fang Qiu could use to deal with these people.

Fang Qiu knew that Lord Virtuous was getting utterly serious.

Very little Qi of Heaven and Earth was absorbed into their bodies by those foreigners, so it could be almost ignored. They were more used to relying on their special abilities to control the Qi of Heaven and Earth to attack.

In such case.

As long as Fang Qiu displayed the Great Hand of Nihilism, they would be completely maimed.

However...

Fang Qiu also knew that these SS-level expert must have other trump cards, so he couldn't reveal his trump card at the beginning.

Compared to the Great Hand of Nihilism, the blow of the Great Hand of Formlessness to these foreigners was also devastating.

Especially when they launched their killing moves!

"Impossible. He has just broken through to the SS level. How could he have done this?"

Bart's expression gradually became solemn as he thought to himself, "Could it be that the legend is true?"

Chapter 1609 Invincible in the Same Realm in Huaxia!

Staring fixedly at John Doe.

Bart's expression gradually became solemn.

He didn't expect John Doe to be so powerful. Although the moves just now were not his strongest moves, it was not difficult for him to kill an S plus-level expert in an instant using these moves, even a super expert who had just advanced to the SS level would find it difficult to resist his attack.

Unexpectedly, not only did John Doe completely resist his attack with violence, but he also sent Bart flying!

This kind of strength was not something that a person who had just advanced to the SS level could have.

Most importantly...

In John Doe's battle, Bart clearly found that he was the one who had the upper hand at first, but John Doe took the upper hand in the battle later.

Moreover, in the fierce collision, even if neither side was injured, even if John Doe could not get close to him, John Doe's combat capability was constantly growing, getting stronger and stronger!

In such a situation...

Bart couldn't help but think of a legend that had been circulating around the world for a long time.

"The martial arts practitioner from Huaxia is invincible in the world at the same level!"

Since some time ago, this legend had been spread all over the world and had been recognized by many people.

Because Huaxia had always been a particularly mysterious and powerful place, most people felt that the legend was true, except for a small number of powerful people!

Without doubt...

Bart was one of those few people.

With his own talent and hard work, it took him decades to reach the SS level and become the world's top existence, which made him very proud. He didn't take the legend seriously at all, didn't take Huaxia or John Doe seriously.

But now...

He felt that he was wrong.

The strength of the martial arts practitioner from Huaxia was far beyond his expectation.

"Boy, you've successfully aroused my desire to kill."

Seeing that John Doe was rushing toward him and was about to rush to him, Bart waved his left hand and shot another arrow with the crossbow in his hand to stop John Doe. At the same time, he retreated quickly in a flash and said, "Today, I'll show the world that the so-called invincible legend of the same-level martial arts practitioner in Huaxia is simply false. It doesn't exist at all!"

While he was speaking, Bart's eyes narrowed and immediately filled with a cold light.

With a closer look...

A dazzling light suddenly burst out from his left and right hands, which were holding the weapons tightly.

It was visible to the naked eye.

The Qi of Heaven and Earth from all directions quickly surged over and gathered in his hand.

On the crossbow in his left hand, the dazzling energy light ball directly turned into an arrow as thick as a thumb, condensing into an extremely sharp energy arrow, giving people a feeling of being pierced at a glance.

Then at his right hand.

As a large amount of energy poured in, three energy rings appeared on the grayish-white energy sword, which circled around the sword and kept beating and contracting like hearts.

Every time it jumped and contracted, a circle of energy fluctuation would spread out in all directions.

Wherever the energy fluctuation passed, everything around was smoothed out in an instant, even the trees and the lawn were directly flattened.

A faint sense of crisis rose in Fang Qiu's heart.

The three energy rings on the energy sword were like bombs that could explode at any moment that no one dared to approach it easily.

Fang Qiu suddenly slowed down and gradually stopped.

On the other side.

At this time, Bart, who had been retreating, also stopped. Holding a crossbow in one hand and a sword in the other, he stared at Fang Qiu from a distance with a disdainful sneer on his face.

“The legend of being invincible in the same realm?”

Fang Qiu stopped and felt the extremely horrible destructive energy aura bursting from the man. He immediately chuckled and said, “Then let me see if your SS level can compare with Lord Virtuous.”

While he was speaking...

Fang Qiu dispersed the divine sword in his hand.

His hands immediately spread out to both sides.

One hand was Destruction, and the other was Formless!

He activated both moves at the same time.

For a moment...

All the Qi of Heaven and Earth within a few kilometers rushed toward Fang Qiu from his left and right hands like crazy.

Then...

Under the forceful control of Fang Qiu.

Two streams of energy gathered in front of his chest.

It formed an energy cluster that couldn't be seen with the naked eye but emitted a terrifying aura.

Opposite him...

Swoosh!

With a wave of Bart's left hand, an arrow immediately shot toward Fang Qiu and instantly reached him, trying to interrupt him.

But at this moment, under the control of his spiritual force, Fang Qiu used his spiritual force to quickly gather the Qi of Heaven and Earth around him to resist Bart.

Boom!

A loud explosion sounded.

The crossbow arrow instantly dispersed.

"Shadowless Three Strikes!"

At the moment when the arrow was blocked, a deep shout was heard.

In the direction of the voice.

Bart had already reached a height of fifty meters, with a fierce wave of the long sword in his hand, the first ring of energy on the sword suddenly enlarged and instantly turned into a huge sword light, slashing down fiercely like a meteor.

With a closer look...

The sword light falling was like a meteor, and even the air was covered with a layer of fire, as if it was burning.

“Whiz!”

As soon as the first sword strike fell, Bart immediately launched a second one without hesitation.

Another meteor-like sword light rushed straight down.

And then...

“Slash!”

With a wave of his right hand, the last ring of light on the longsword in his hand abruptly expanded.

This time...

The energy halo that suddenly expanded instantly turned into a monstrous energy, enveloping the grayish-white energy sword in Bart’s hand and turning into a huge energy sword in the air.

After that...

With a wave of his left hand, the crossbow turned into energy and poured into the long sword in his right hand. He held the hilt of the long sword tightly with both hands, and chopped it down from above like chopping firewood.

A distance away from them...

Feeling the enormous pressure that descended from the sky.

Fang Qiu actually had the feeling of facing the Lord Virtuous, but the pressure was much less than that of the Lord Virtuous.

“Formless Destruction!”

When the two beams of sword light and the huge sword body formed a line and chopped down from the sky, the energy ball condensed in front of Fang Qiu’s chest, which was invisible to the naked eye, and also shot out like a cannonball at this moment.

The huge recoil force directly shook Fang Qiu to the ground, and his feet even left two big pits on the hard ground!

In an instant...

This energy ball collided fiercely with the first sword Qi that burst out from Bart.

However...

“Boom!”

With a cracking sound, the sword Qi, which looked like a meteor and fell fiercely from the sky with flames, was directly smashed into pieces by the energy shell.

The same went for the second one.

In the end, the ball of colorless energy, which was like a cannonball, collided fiercely with the huge sword made of energy in Bart’s hand.

“Boom!”

The moment they collided, the flames soared into the sky.

Flames burst from the enormous energy swords in Potter’s hands.

Taking a closer look...

The cluster of colorless energy was actually like a flood, madly charging at the giant energy sword. It seemed that this kind of impact caused the friction of energy and caused a fire.

In the sk, holding the hilt of the sword tightly with both hands, Bart was instantly surrounded by the soaring flames.

Taking a closer look, he looked ferocious.

Just like last time, he found that half of the energy he burst out had inexplicably dissipated when it collided with the attack of John Doe.

He could have completely resisted the power that was equal to that of John Doe, but as half inexplicably dissipated, he instantly fell into a disadvantageous position.

Moreover...

The energy released by John Doe seemed to be unable to burst out, yet the impact was getting stronger and stronger!

Finally...

“Clap!”

Bart couldn't hold on any longer.

Under the impact of the terrifying energy flow on his chest, the energy sword in his hand instantly dissipated.

Under the huge impact force, he was instantly sent into the air a hundred meters high.

“Poof!”

A mouthful of blood was spat out.

Bart’s face changed dramatically, and his whole body fell down at a rapid pace.

Just as he was about to slam into the ground...

“Swoosh!”

With a sudden movement of his body and the last of his strength, Bart forcefully stabilized his body and abruptly fled into the distance.

At this very moment...

The arrogance that originally belonged to him was completely shattered.

His face was no longer full of contempt and contempt for John Doe. Instead, panic and seriousness.

He didn’t expect it to be like this at all.

How could John Doe be so powerful? How could he be so powerful?

Just no, he used up all his strength and his strongest move.

In the whole world, the number of experts who had died because of this move could not be counted on one hand.

But how could he have thought of that?

Not only did John Doe defeat him, but John also smashed his power and sent him flying from the front with the most direct move.

This time, Bart was utterly defeated!

It was also because of this that he deeply felt how powerful John Doe was and knew that he was not matched for John Doe at all.

Martial arts practitioner from Huaxia was invincible in the same realm!

This legend had been personally verified by him.

They were both at the SS level, but John Doe, who had newly advanced, had actually defeated him, a metahuman who had already advanced to the SS level a long time ago, so easily and didn't even suffer any injuries.

That sort of strength was truly too terrifying.

And now...

Bart only wanted to get away.

He was only in his sixties. With his current strength, he could live to be 300 years old at least. He felt that there was no need for him to risk his life here.

He still had endless money and his gentlemanly demeanor to show. He didn't want to die yet!

“Whoosh.”

With the last of his strength, Bart frantically ran for his life, not even daring to hesitate for a second.

A distance away from them...

“Martial arts practitioner from Huaxia is invincible in the same realm!”

Fang Qiu moved and immediately chased after Bart when he saw how frantically Bart was fleeing.

Since this man came here with the intention of killing him, Fang Qiu would never let him go!

Chapter 1610 John Doe Win Again!

“Swish! Swish!”

Two figures quickly flew over the Africon Savannah and covered a distance of several kilometers in the blink of an eye.

Ahead.

Bart turned around and looked back with a gloomy face.

Seeing John Doe catch up with him, his face became more and more gloomy, looking more and more panicked.

He had been seriously injured in the fierce collision just now.

After all, as a foreigner, he knew nothing about body refining at all, and even when he saw people who specialized in body training, he would look down on them for no reason. Therefore, although his strength had reached SS level, his body strength was very weak.

In such case...

After being hit by the Formless Destruction, his body couldn't bear it at all. If it weren't for the two beams of sword Qi and a huge energy sword that consumed part of the power of the Formless Destruction first, he would have been directly bombarded to death!

As he fled.

Blood continuously flowed out from the corner of Bart's mouth.

The pain in his chest became more and more intense.

It was unbearable for him.

However, John Doe was pressing him step by step, which made him unable to take care of his injury. He could only grit his teeth and run away crazily!

Yet...

In terms of speed, he was not as fast as John Doe. Now that he was seriously injured, he was even slower.

Although he tried his best to escape, he couldn't get far.

In less than three minutes.

John Doe caught up with them.

“WHOOSH! WHOOSH!!”

With the sound of the airflow surging, Fang Qiu quietly passed by Bart and rushed to the front of him, blocking his way.

Bart turned in another direction and continued fleeing.

Fang Qiu flashed and stood in front of him again.

“Phew, phew...”

Bart stopped and began to gasp for breath. He gritted his teeth and glared at Fang Qiu with panic in his eyes.

“Since you’re already here, stay.”

Looking at Bart, Fang Qiu said indifferently.

When heard his words...

Bart’s face instantly turned ashen.

He looked completely different from when he first arrived at the Africon Savannah.

“If you want to kill me, you have to pay the price!”

Bart was angry.

“I don’t care about the price.”

Fang Qiu shrugged indifferently and said, “Do you know why I didn’t kill you immediately?”

“Because I want to give you a chance to personally tell the top management of your country that you are going to die.”

Speaking of this, Fang Qiu smiled.

He was not a pervert.

And he didn’t have the habit of playing with his enemies.

It was because the situation this time was different. He had to make these countries who were targeting him feel fear. Only by making them feel fear would they not dare to make trouble for him so openly.

The best way to make them afraid was to kill a top-notch expert in the world, an expert with great influence in a country, so that these countries could do nothing but watch their people die!

This was the only way.

That they could get fear. Thus, they didn’t dare to make trouble for him!

“Humph!”

Bart let out a cold snort.

He didn’t answer Fang Qiu at all.

Instead, his body shifted, and he actually managed to escape again.

Noticing this.

Fang Qiu frowned and shook his head.

He thought that when Bart was at his wit's end, Bart would definitely ask his country for help. In this way, Anglan would know about Bart's situation and be intimidated.

But...

What Fang Qiu didn't expect was that it was very difficult for an expert like Bart to be driven by the country. If he hadn't gained enough benefits, he would never have come.

For this reason, there was little connection between Bart and the high-level officials of Anglan.

Moreover...

As an SS level expert, how could Bart have the face to ask the higher-ups of the country for help when he knew that it would be too late?

“It seems that I have to advertise it myself.”

An idea came to his mind.

Fang Qiu didn't hesitate anymore. At the same time he moved and rushed out in an instant, chasing after Bart, he grabbed something in the air with his right hand, and the divine sword immediately condensed in his hand.

Afterward...

His internal Qi surged.

With a wave of his right hand, a beam of sword light, like a bolt of lightning, rushed straight toward Bart at an extremely fast speed.

Bart was greatly shocked.

He quickly dodged.

However, just as he was about to dodge...

“Whiz!”

A cold sword light flashed in front of his eyes, and then he only felt a chill in his throat, and a sense of powerlessness suddenly came.

His whole body fell from the sky like a fallen leaf.

Heavily to the ground and rolled a few times before stopping.

As Fang Qiu landed, he dispersed the divine sword.

Then, with a wave of his right hand, the Qi of Heaven and Earth turned into flames and directly burned Bart’s body into ashes all over the sky!

When he had done all this...

Fang Qiu then flew toward the big tree where he had been sitting cross-legged before.

Back there, sitting down cross-legged, when he was about to rest, he turned his head and glanced around, only to find that all the animals around him had disappeared. However, the lions, which had been lying in the grass in the distance and treating him as prey, were now gathering together, standing at the spot, licking the blood on the ground that Bart had spat out earlier.

From time to time, they turned around and glanced at Fang Qiu.

He smiled faintly.

Then he took out his mobile phone and quickly logged into the underground-force forum.

“This main course tastes good. I’ve finished it.”

After setting the title, Fang Qiu suddenly had a thought. He took a picture of the lions licking blood in the distance and put it in the post.

Then, he clicked to send it!

Right now...

On the underground-force forum, countless people were waiting for news.

When John Doe faced the six S plus-level expert for the first time, many people began to pay attention to him. After he killed all six of them, he attracted more attention.

Before the battle between Bart and Fang Qiu, the post made by Fang Qiu had attracted countless people.

After all...

Everyone was looking forward to the big battle between SS-level experts.

Sure enough...

As soon as the post was sent out.

Countless people rushed in to check the result right away.

In fact, just from the title of the post, people could get that John Doe had won.

Otherwise, how could John Doe post on the Internet?

Even so, everyone couldn't help but click on the post out of curiosity.

As a result, everyone was dumbfounded when they saw the photo of lions licking blood.

“John Doe won again?”

“Oh my god, John Doe is so powerful. His opponent is a super expert at the SS level. How could he win?”

“It's terrible. Although it's a one-on-one fight this time, his opponent is at the SS level. Although I don't know which super expert he is on the individual strength list, any one of them is the world's top existence.”

“Is it Ballor or Bart? Who died in the hands of John Doe?”

“Did John Doe hold on?”

“How can he survive?”

“That is to say, there is only one person left sent by these major countries now?”

For a moment...

All the people on the underground-force forum began to talk about which expert had been killed by John Doe.

At the same time...

The six countries of Soviety, L'hexagone, Nihon, Germany, Italy, and Korea also received the news quite soon.

The hearts of the senior executives of the six kingdoms trembled.

No one had expected it.

Even a super expert at the SS level had been killed by John Doe!

For a time, while they were shocked, the higher-ups of the six countries also secretly rejoiced that they did not continue to send people there. If they did send out a super expert at the SS level and were killed by John Doe in the end, it would be a heavy loss.

In the meantime-

The six countries immediately began to investigate the super expert that had fought with John Doe and been killed was Ballor from Murica or Bart from Anglan.

It was not just the six countries.

When Murica and Anglan received the news, they quickly contacted the people they had sent out.

As a result, they couldn't get in touch with them.

There was no other choice.

But only to hurry up and get the satellite signal.

Before long...

Murica got the signal and found that Ballor's signal was moving. Judging from the location of the signal, he should be on the plane.

There was no signal for Anglan at all.

So, it was obvious, that Bart was the one who was fighting with John Doe.

It seemed that Bart had really been killed by John Doe!

In no time...

The news spread out quickly.

"The person who fought with John Doe and was killed by John Doe ranked sixth on the individual strength list, SS level expert from Anglan, was Bart!"

As soon as the news got around.

The whole world was in an uproar.

Before that...

It was just a rumor that John Doe had been promoted to the SS level and no one could be sure if John Doe was at the SS level. But now, John Doe had shown his strength and really killed Bart.

Now, no one dared to doubt his real strength.

In the meantime, the individual ranking list of the underground forces was also officially updated. The ranking of John Doe directly rose from the eighth to the sixth, while Bart disappeared thoroughly from the list.

In Anglan, after confirming that Bart was dead, all the high-level officials of Anglan were shocked. There were only three super experts at the SS level in Anglan. How could one of them die this time?

They couldn't accept it at all.

Originally they had thought that if they sent a super expert at the SS level there, even if John could be defeated, the super expert wouldn't die. After all, it wouldn't be a problem for a super expert of the SS level to leave.

But against all their expectations...

Bart had actually died!

He died just like that?

Next, it would be particularly difficult to ask for help from the remaining two.

Moreover...

Bart's death had completely scared them so much that now they didn't dare to send anyone else. John Doe had already killed an SS-level expert. If they sent another one out and would be killed again, there would be only one SS-level expert left.

The higher-ups of Anglan were extremely conflicted. They wanted to kill John Doe to vent their hatred, but they were afraid that the expert would be killed by John Doe again, so they didn't know what to do at all.

In the end, they could only depend on Murica, hoping that the SS-level expert sent by Murica could kill John Doe!

In Murica...

After confirming that John Doe had killed Bart,

The high-level officials of Murica did not dare to neglect it. They immediately sent a message to Ballor, who was on the way to the airport, hoping that he could take care.

At the border airport of Murica.

As soon as he got off the plane, Ballor received the message and couldn't help laughing out loud.

"Killed Bart?"

"This is more interesting. This is the true opponent!"

"John Doe, the more powerful you are, the better. In this way, the more passionate I am when I kill you. Anyway, countless experts were killed and injured by me. You are not the last one!"

Then, Ballor boarded the last flight and flew straight to Kairo of Egyptt!
