Chapter 1641 Three Highly-skilled Doctors Challenging Fang Qiu

“Director Liu Guobin announced that Run Wild&Survive would shoot a show in the Medicine King Valley. The reason is that the six MCs were invited by Fang Qiu to the Medicine King Valley for three days. But they didn’t have enough fun.”

The next day, this piece of news shocked the social media.

Seeing this news, all the netizens immediately looked forward to it. Many of them asked when they would go to the show and wanted to wait for the show in advance.

However, Director Liu Guobin did not announce the specific shooting dates for smooth shooting.

Just as the whole society was shocked by the news, Hu Dayong, the director of Three Days and Three Nights, who had just angrily cursed and said that he would never go to the Medicine King Valley to shoot his show, was unhappy when seeing the news.

The ratings of Run Wild&Survive were as high as that of Three Days and Three Nights, and even much better.

He didn’t expect that not only did his production team fail to go, but the Run Wild&Survive would take advantage of it.

When he thought about it carefully, he remembered Fang Qiu had participated in Run Wild&Survive before.

It was obvious that he had pulled some strings.

Just as Director Hu Dayong snorted indignantly, a piece of news came, which made him even more unhappy.

“Director Li Huawen officially announced that the third season of the Young Chinese Medicine Doctor will be filmed in the Medicine King Valley!”

Young Chinese Medicine Doctor!

Young Chinese Medicine Doctor was the guardian of the national ratings.

Moreover, the whole show became popular because of Fang Qiu.

Although Fang Qiu was not in the Medicine King Valley. The Medicine King Valley was one of his properties!

Thinking of this, Director Hu Dayong patted his forehead hard. Where there was Fang Qiu, there would be high ratings. Fang Qiu had not been on TV for a long time. Hu Dayong had forgotten about him!

In an instant, he regretted it.

Unfortunately, it was too late for regrets.

A few days later, as the Medicine King Valley officially opened, the first batch of tourists arrived.

At first, this group of tourists came up with the idea of living a different life, but they didn't expect that they would meet the production team of Run Wild&Survive after they arrived.

This made all the tourists in the first batch very excited.

Next, the program group started shooting, and the tourists started playing. The stars and the ordinary people played together on the program and played games together. The tourists also followed the rules when the program group didn't need them. It gave the program group a good shooting environment.

Fang Qiu was not idle.

He had seen patients every day for half a month.

He had seen almost all the cities above the county level around Jingjiang. He had even seen all the patients who needed to be seen once a month before June next year.

Fang Qiu knew very well that he would be very busy in the future, so he could only take advantage of this time to see as many patients as he could.

What Fang Qiu did didn't cause much heat at first. After all, everyone's attention was focused on the Medicine King Valley. But after Fang Qiu saw patients for three days, everyone felt it was strange.

After Fang Qiu saw patients for a week, his fans on Weibo were already in an uproar.

When Fang Qiu had seen patients for ten days, the topic, Fang Qiu Continuously Saw Patients for Ten Days, rushed to the top of the trending topic list.

Since then, the topic kept hot.

After seeing patients for half a month, Fang Qiu stopped and saw all kinds of speculations and persuasions from his fans on Weibo. He immediately realized that things had gotten out of hand and quickly posted a text to explain on Weibo.

"Thank you for your concern. I'm fine. Please don't worry. I've been seeing patients for so many days because I promised you that I would squeeze out one day's time to see patients every month. I have to concentrate on studying next, so I tried to complete the task as much as possible in advance. I'm sorry that I caused trouble for you."

He released it on Weibo.

Only then did everyone understand.

However, the fans did not give up.

“You’ve been seeing patients for 15 days in a row. Don’t you want your health anymore?”

“Who can work for so long? It’s been 15 days. Even if you can occasionally close your eyes, you can’t hold on at all!”

“Don’t do such a thing again.”

“Although you made us worried, we all love you and believe in you.”

“I see. You should study hard for a period of time. You are still young and a student. It’s rare for you to have the heart to study!”

Everyone was very supportive of the decision of Fang Qiu, though they felt worried about him.

Although the popularity of the trending topic had declined because of Fang Qiu’s explanation, Run Wild&Survive was aired at this juncture.

Its style was the same as before.

The six MCs played games and explored the Medicine King Valley, and many tourists were also involved. The whole show was filmed very beautifully, showing the beautiful scenery of the Medicine King Valley in front of the audience.

After the audience watched the show, Medicine King Valley became a trending topic once again.

In addition, the first batch of tourists who had been to the Medicine King Valley gave it a good reputation. Everyone who watched the show felt itchy.

Many people began to consider if they should go on a trip to the Medicine King Valley.

The most important thing was that the Dragon Boat Festival was coming soon.

When the festival came, it would be natural for them to travel.

Just when many people were wondering if they should go on a trip, another piece of news came out on Weibo and made all the netizens envious.

“The statistics of the points of the first batch of tourists have been completed. The family with the highest points will get a reward for having a meal in the restaurant on a medicated diet, and the Imperial Chef will cook in person.”

This news was announced by the official Weibo account of Medicine King Valley.

As soon as the news came out, it immediately caused a sensation in social media.

“What the fuck! Will the royal chef cook in person?”

“How much is this meal worth? Tens of thousands of dollars at least, right?”

“I have a big stomach. Please take me with you. The more you eat, the more you will earn. I promise to help you make the most!”

“I haven’t even had a chance to have a meal in the restaurant on a medicated diet yet. After you guys went to have fun for a few days and picked some herbs, you get a chance to eat. Moreover, the Imperial Chef cooked for you personally. You’re so lucky, aren’t you?”

“My bratty child can dig three feet into the ground. If I had known earlier, I would have let him go.”

“Alas! If I can be selected, this first prize will be mine!”

Countless people were talking about it with envy.

The Medicine King Valley was hot.

Here...

After explaining it to everyone, Fang Qiu continued to see patients. There were still three days left before he could finish the task of next year.

At this critical moment, a fan of Fang Qiu found a Challenge Letter when searching for relevant news about Fang Qiu on Weibo.

This fan didn't pay much attention to it at first.

There were many people who wanted to challenge Fang Qiu, but no one could defeat him.

After reading all the real-time news about Fang Qiu, the fan clicked on the Challenge Letter out of boredom.

Then he immediately found something special.

He saw that the challenger in this challenge letter turned out to be a highly-skilled doctor of Chinese Medicine!

No one knew what a highly-skilled doctor was before.

However, with the promotion of Chinese Medicine by Fang Qiu and that of the Young Chinese Medicine Doctor Doctor, everyone knew how precious a highly-skilled doctor was in Chinese Medicine.

A highly-skilled doctor of Chinese Medicine wanted to challenge Fang Qiu!

Seeing this, the fan was a little shocked.

He suddenly thought of something.

Then this fan immediately clicked on the Weibo page of the challenger. When he saw it, he found that the first Weibo of this person turned out to be that three people posted three highly-skilled doctor certificates!

The second one was to challenge Fang Qiu on Weibo.

“As highly-skilled doctors, one thing we have always wanted to do is to challenge a powerful opponent. I hope this opponent can live up to my expectations of him. I also hope that he can be generous.”

This fan was completely shocked.

He was a loyal fan of Fang Qiu, so he also inquired about Chinese Medicine carefully at Fang Qiu's request, especially about the real estate companies going abroad for disaster relief. Therefore, he was clear that the doctors of Chinese Medicine were divided into three levels, namely doctor of brightness, highly-skilled doctor, and holy doctor. There were only three holy doctors in Huaxia. Although there were more highly-skilled doctors, there were only 50 of them. They were not as many as the races in Huaxia.

But to his surprise, three of the 50 stood out to challenge Fang Qiu.

In shock, this fan knew that if this matter was spread out, it would be big news.

The fan was very confident that Fang Qiu would win, so he immediately reposted it on his Weibo and mentioned the national fan club of Fang Qiu. He also reposted it to other social circles.

Soon, it attracted a lot of attention.

The news quickly spread out, and it gradually became a hot topic.

Originally, there were not many people paying attention to it. The Weibo account representing the three highly-skilled doctors gradually attracted a lot of attention. More and more people followed it.

As the national fan club of Fang Qiu reposted it, this Challenge Letter went viral on social media.

The more popular it was, the faster it would spread, and the wider its range would be!

The popularity of the Challenge Letter also began to be reported by the media across the country.

“There are people challenging John Doe! Three-on-one!”

“Internal conflict! Fang Qiu, who has brought revolutionary changes to the development of Chinese Medicine, has been challenged by his peers!”

“Three highly-skilled doctors in Chinese Medicine announce to challenge Fang Qiu!”

All kinds of titles appeared in the media.

Some people even used A Internal Strife in Chinese Medicine as a headline.

Seeing the news reports of these media, the fans of Fang Qiu burst into an uproar.

“Isn’t it just a challenge?”

“How did it get to the point of internal strife?”

“Has Fang Qiu offended you?”

“These media are too heartless, aren’t they? Their titles are so unreasonable.”

In anger and dissatisfaction, fans of Fang Qiu came to the medium one after another, wanting to reason with the other party and ask them to change the title of the news. However, they found that the media’s Weibo had turned off the comment function.

Fang Qiu’s fans were suddenly speechless!

Chapter 1642 Internal Conflict in Chinese Medicine

Everyone in Chinese Medicine was dumbfounded.

“An Internal Strife in Chinese Medicine?”

“What the hell is this? Why is there internal strife in Chinese Medicine?”

“Will Highly-skilled doctors challenge Fang Qiu? What’s going on?”

“Why do they want to challenge Fang Qiu? Where did these three highly-skilled doctors come from? Why did they challenge Fang Qiu? Aren’t they deliberately making trouble?”

Everyone was confused.

No one knew what had happened and why three highly-skilled doctors suddenly appeared to challenge Fang Qiu.

Who were these three highly-skilled doctors?

Why did they want to challenge Fang Qiu?

How did the media know? Why did they report like this?

In the field of Chinese Medicine, almost everyone, from the holy doctors to the doctors of brightness, tacitly admitted that Fang Qiu would be the heir and leader of Chinese Medicine in the future.

Logically speaking, no one would make trouble for Fang Qiu when so many people thought so highly of him.

What did these three highly-skilled doctors mean?

Where did they come from?

Why hadn't there been any news before this?

With so many doubts, all the people in the field of Chinese Medicine began to investigate who these three highly-skilled doctors were and why they suddenly stood up to do such a thing.

Soon, the identity information of the three highly-skilled doctors was found.

The first one was Zhao Lipin, a highly-skilled doctor who had been thought to be a famous acupuncture master for a long time. He had once been famous in the field of Chinese Medicine with his acupuncture skills.

The second one was a highly-skilled doctor named Liu Yiwen. Liu Yiwen was also a long-known doctor. He was best at classical prescription and had a good reputation in the field of traditional Chinese Medicine because he only charged the patient one coin every time he encountered a patient short of money.

The third one was a highly-skilled doctor named Hu Rentao. He had been famous for a long time, and his ancestor was the well-known miracle-working doctor, Hu Qingniu, in ancient times!

These three people were highly respected in the field of Chinese Medicine.

However, in recent years, there was no news from the three highly-skilled doctors, as if they had suddenly disappeared. No one paid much attention to it in the field of Chinese Medicine.

People didn't expect that the three highly-skilled doctors would appear at this time and take the initiative to challenge Fang Qiu. It was too shocking.

In Beijing, Yu Qing also heard the whole news and contacted the three highly-skilled doctors immediately. They were all highly-skilled doctors of the same generation. Therefore, he had a relationship with the three highly-skilled doctors. He knew the three of them had been living together for a long time. Since they wanted to challenge Fang Qiu, something must have happened to them.

"The development of Chinese Medicine has just begun. It hasn't gone viral yet. We can't afford to cause internal strife."

He was afraid that the development of Chinese Medicine would be affected.

Yu Qing didn't dare to hesitate and immediately rushed to persuade the three highly-skilled doctors.

He arrived at a beautiful village isolated from the world in the countryside.

It was very small. It couldn't even be called a village because there were only three or four houses here, and they were all one-story bungalows. The best house among them was a quadrangle.

Although it was remote, the roads here were well-built.

After several tosses and turns, Yu Qing arrived.

"Haven't these three old fellows gone out for so many years?"

While muttering, Yu Qing walked to the door of the quadrangle and gently knocked on it. After finding that the door was unlocked inside, he directly pushed the door open and entered.

“Hu Rentao! Liu Yiwen! Zhao Lipin! Come out.” As soon as he entered, Yu Qing immediately shouted.

After finishing his words, he was surprised to see that the three people who had been more than fifty years old were sitting in a row beside a cultivation platform like a flower platform in the yard. They were carefully observing the herbs.

“Old Yu? Why are you here?”

A thin man with a small round face and a height of about 1.75 meters stood up and looked at Yu Qing inexplicably.

“It’s all because of you.”

Yu Qing curled his lips and walked into the yard, saying to the three people in the yard, “You three old guys are so old. Why do you come out to make trouble?”

Hearing his words, the three highly-skilled doctors in the yard were stunned.

“What do you mean? What are we doing?” Hu Rentao asked with a puzzled face.

“We haven’t done anything special.”

Liu Yiwen raised his head in shock.

“Old Yu, it seems you’ve come to make trouble for us.”

Zhao Lipin, who was wearing a gardener's uniform and was a little short, supported his big and bright forehead with his hand and looked at Yu Qing with a faint smile.

"You three old things."

Yu Qing walked to the front of the three of them, smiled bitterly, pointed at them, and said, "You have been here for a few years. It's not easy to get some news about you, but it turned out that you want to turn the field of Chinese Medicine upside down. The whole Chinese Medicine industry is now in chaos because of you. Chinese Medicine is still developing. You three old guys are deliberately making trouble, aren't you? Don't sit here and pretend to be outsiders! Don't you think you are disgusting?"

Although it was a joke, the three of them could hear seriousness from Yu Qing.

The three of them were also stunned.

They didn't know what he meant. They all looked at Yu Qing in confusion.

"Are you still pretending not to know it?"

Yu Qing turned around and looked around. He brought over a small stool made of bamboo sheets and sat down in front of the three of them. He stared at them like their parent and said, "Don't you know what you've done?"

The three of them looked at each other in confusion.

Suddenly, Zhao Lipin seemed to have thought of something and said, "Could it be that Old Yu came to us because we issued a challenge to Fang Qiu?"

Hearing this, Hu Rentao and Liu Yiwen reacted.

"Did you come here for this thing?" Hu Rentao stared at Yu Qing and asked.

“I got it.”

Yu Qing gave a wry smile, looked at the three of them, and asked, “It turns out that you think it’s just a small matter, right?”

“Isn’t it?” Zhao Lipin asked.

“It’s just a challenge. It’s just a competition for medical skills. Don’t make a fuss.”

Liu Yiwen also shook his head disdainfully as if he didn’t understand why Yu Qing made such a big deal out of nothing.

“If you want to challenge another highly-skilled doctor, you can also come to me. Even if you don’t like me, you can go directly to the three holy doctors. Why do you challenge Fang Qiu?” Yu Qing shook his head and sighed.

“What? Do you mean Fang Qiu is better than three highly-skilled doctors?”

Hu Rentao laughed, but a hint of surprise emerged on his face.

Zhao Lipin and Liu Yiwen also looked at Yu Qing strangely.

“Hmm?”

Their reactions were strange.

Yu Qing was slightly stunned and asked, “Do you know who Fang Qiu is?”

“Of course.”

Hu Rentao said, "Isn't he just the most powerful junior in the current field of Chinese Medicine? I heard that he is very arrogant in the field of Chinese Medicine. He is not afraid of others at all. Moreover, he doesn't treat our Huaxianeses but went to Murica or Africo to treat foreigners."

"The three of us have been in closed-door training for too long. We heard his name a few days after we came out. If we had come out earlier, I would have taught him a lesson long ago!"

The two highly-skilled doctors next to him immediately nodded in agreement.

"Is that all you know?"

Yu Qing was stunned. Then he immediately burst into laughter. While laughing, he said to the three highly-skilled doctors, "You three old guys are senile, aren't you?"

The faces of the three highly-skilled doctors changed, and they all stared at Yu Qing with dissatisfaction.

"Forget it. You don't know the importance of Fang Qiu. It's not surprising that you want to challenge him."

Yu Qing shook his head with a smile and said to the three highly-skilled doctors, "I guess that you three old guys learned to surf the Internet with your mobile phones because you have been doing closed-door training here all year round and living a boring life. You want to know the development of the outside world, don't you?"

"Nonsense."

Zhao Lipin immediately retorted with a straight face, "We learned how to surf the Internet to find some folk prescriptions."

"Yes."

Liu Yiwen, who was the best at classical prescription, immediately nodded in agreement.

“No matter what the reason is, you have just learned to surf the Internet and have been deceived by those people on the Internet with ulterior motives.”

Yu Qing said with a smile, “Fang Qiu is not someone you think in your heart at all. Now everyone in the Chinese Medicine industry knows Fang Qiu, but why are you the only one wanting to challenge him? Is there no talent in our Chinese Medicine industry?”

“Let me tell you something exaggerated. Fang Qiu is the savior of our Chinese Medicine!”

The expressions of the three highly-skilled doctors changed.

“Savior?”

“What do you mean?”

“He hasn’t even saved his countrymen. How dare he call himself a savior? You don’t have to refute me. I saw the news of him treating patients in foreign countries with my own eyes. Those things did happen.” The three highly-skilled doctors said one after another.

“In that case, let me tell you about Fang Qiu first.”

Yu Qing saw that it would not be so easy to make it clear if he did not explain in detail, so he could only say, “Fang Qiu is from Linxi County, Jiangjing Province. He is only 20 years old and is still a college student.

“Three years ago, Fang Qiu appeared in public because someone slandered Chinese Medicine and said that Chinese Medicine was a pseudoscience. Feeling the pulse couldn’t judge the gender of the pregnant woman’s child by feeling her pulse.

“Fang Qiu appeared and smashed the rumor. At that time, he was only a freshman, 17 years old.

“Since then, Fang Qiu has constantly appeared in the public eye. He constantly studied and promoted the development of Chinese Medicine. Now Chinese Medicine has gone abroad and has even spread to several countries. Moreover, Chinese Medicine in our country is also prosperous.

“It’s all thanks to Fang Qiu!”

Then Yu Qing paused for a moment and said, “You’re right. Fang Qiu did go to Murica and Africo to see patients, but he wanted to promote Chinese Medicine in those places. Moreover, he spent 99% of his working time in Huaxia, and only one percent of his time abroad!”

Chapter 1643 It’s Useless to Persuade Them, and They Persist on Challenging!

Hearing the introduction of Yu Qing, the three highly-skilled doctors were all stunned.

“No.”

Hu Rentao looked at Yu Qing with a puzzled face and said, “I think Fang Qiu you’re talking about is not the person we’re talking about.”

“Of course, there is only one Fang Qiu!”

Yu Qing said seriously, “Fang Qiu has done a lot of good deeds over the years. He has done countless good things for Chinese Medicine. Not only has he promoted Chinese Medicine abroad, but he has also connected everything in the country with Chinese Medicine so that everyone can get in touch with Chinese Medicine and gradually recognize and fall in love with it.”

“You really should go out and have a look. The most popular restaurant of the medicated diet is the most popular restaurant, and the most popular tourist attraction is Yaowang Mountain established by Fang Qiu. The most popular healthcare products are pure products of traditional Chinese medicine. They have even been sold abroad. In the past, Chinese Medicine was suppressed by Western Medicine. But now, the situation is completely different.”

“It’s all because of Fang Qiu.”

When hearing, the faces of the three highly-skilled doctors changed.

They were a little suspicious. They saw another version of the story on the Internet. How could Fang Qiu become so good and make so many contributions to Chinese Medicine?

“Come on! Didn’t you learn to surf the Internet?”

Yu Qing waved to the three highly-skilled doctors and said, “I’ll find out the real information about Fang Qiu and let you have a good look.”

Then he directly grabbed the mobile phone from Hu Rentao, logged into the search engine, and searched for the account of Fang Qiu. He clicked on it and handed the phone to the three of them.

The three highly-skilled doctors immediately gathered together to have a look.

There was everything about him since he had entered the University of Jiangjing Chinese Medicine.

Every single thing that Fang Qiu had done was recorded.

After reading what Fang Qiu had done one by one, the faces of the three highly-skilled doctors changed.

“Have you finished reading?”

Seeing the faces of the three highly-skilled doctors change, Yu Qing continued, “It’s not too much to say that Fang Qiu’s contribution to Chinese Medicine is much greater than ours. He has fulfilled our dream. This dream has just begun, but you three old guys have come out to challenge him. Moreover, you have been reported by the media with the title An Internal Strife in Chinese Medicine. Don’t you think you making trouble?”

After learning about Fang Qiu, the three highly-skilled doctors looked at each other and couldn’t help smiling wryly.

They didn't know what Fang Qiu had done before. They happened to see an article that slandered Fang Qiu on the Internet. Therefore, they were angry with Fang Qiu and wanted to teach Fang Qiu a lesson.

He didn't expect to cause such big trouble that even the media began to report it.

It seemed the reputation of modern Chinese Medicine was getting bigger and bigger. In the past, no media had reported about Chinese Medicine. At that time, the media looked down on Chinese Medicine!

Just as the three of them were smiling bitterly, Yu Qing quickly reached out his hand, pointed to one of the books written by Fang Qiu in his personal data, and said, "Did you see that? This book, Chinese Medicine in Human Body, is written by Fang Qiu himself. The content of this book is absolutely unprecedented. This book is even popular with holy doctors. Now, except for you three, the other highly-skilled doctors are all bearing Fang Qiu's favor. They all want to use this book to break through to the fourth holy doctor!"

Hearing this, the three highly-skilled doctors were even more dumbfounded.

They didn't expect that Fang Qiu had written a book that even the holy doctors pursued.

If that was the case, Fang Qiu had made extraordinary contributions to Chinese Medicine!

"We're working for Chinese Medicine. Before this, you didn't know Fang Qiu. Now that you know him, you should know that challenging Fang Qiu is not appropriate. Such a talent can't be affected like this. Chinese Medicine is developing. You can't stop it like this."

Yu Qing said, "Hurry up and cancel the challenge. There's no need to do this."

The three highly-skilled doctors looked at each other.

They all frowned and thought about it.

“No.”

Zhao Lipin shook his head and said, “We didn’t know Fang Qiu well before, so we challenged him. Now we know him well. We will still challenge him!”

As soon as he said that, Yu Qing was dumbfounded.

Hu Rentao and Liu Yiwen, the two highly-skilled doctors, also nodded in agreement.

“What do you mean?” Yu Qing asked with raised eyebrows.

“Old Yu, don’t worry.”

Zhao Lipin laughed and said, “Since the challenge has been issued, it’s not too late to take it back now. But there’s no need to do so at all. The challenge is not a bad thing. It’s just been seen as a bad thing by someone with ulterior motives. As long as our goal is good, there’s no need for us to worry. Don’t you think so?”

“Yes.”

Hu Rentao nodded in agreement and said with a smile, “Since we’ve done it wrong, why don’t we do it to the end?”

Liu Yiwen laughed and said, “Old Yu, let’s put it this way. The three of us have no selfish motives. We have been in seclusion for so many years and have gotten research findings. After coming out, we decided not to be conservative anymore. We should quickly spread what we have gotten over the years. This is also one of the reasons why we took the initiative to challenge.

“Secondly, we have seen the information about Fang Qiu. Even if we fail, we can still go with the flow and help Fang Qiu become a highly-skilled doctor. According to the information he has collected, he should only need three Highly-skilled Doctor certifications to become a highly-skilled doctor. We happen to be three.

“Even if the three of us win, Fang Qiu will still get what he deserves. From his experience, everything has gone too smoothly for him. Let him suffer a little setback, and he will study medicine in peace. It’s hard for doctors to not forget their original intention. It’s a good thing for us to help him get back his intention, isn’t it?”

Hearing this, Yu Qing was stunned at first. He didn’t expect that these three people would think so.

Then, he continued to persuade them.

“Hey! You don’t have to do this. Now is a good time for the development of Chinese Medicine. Don’t destroy the development of Chinese Medicine on impulse.”

However, after persuading the three for a long time, they still insisted.

Without other choices, Yu Qing could only spread the statement of the three highly-skilled doctors directly to the field of Chinese Medicine after leaving the quadrangle.

After knowing the news, everyone was silent.

“To be more specific, the three highly-skilled doctors are right.”

“Yes! Fang Qiu has had a smooth journey all the way. They should give him some setbacks to remind him to keep a pure heart.”

“No! Although what the three highly-skilled doctors said makes sense, in fact, they just want to take advantage of Fang Qiu. It’s obvious that they’re making trouble! Fang Qiu has been working hard for the promotion and development of Chinese Medicine. These three highly-skilled doctors came out and pulled him back. They are ready to pick the fruits of his labor. How could they say it’s good for him?”

“Even if they want to remind Fang Qiu, they don’t have to make it so big. Why don’t they look for Fang Qiu in private? Why do they make it so hot on Weibo? It seems to be hype!”

In the heated discussion, the people in the Chinese Medicine industry suddenly found it seemed to be a little unreasonable.

Then they all put the blame on the three highly-skilled doctors.

With all kinds of speculations and heated discussions, many seniors in the Chinese Medicine industry found the phone numbers of the three highly-skilled doctors from their friends and called them to persuade them.

No matter what, Fang Qiu was also a great hero in the development of modern Chinese Medicine. How could they drag him out and step on him?

In the quadrangle, the three highly-skilled doctors sat cross-legged at a tea table in the yard and began to drink tea leisurely after packing up the cultivation of traditional Chinese medicine.

Beep! Beep! Beep!

Their cell phones kept ringing on the tea table.

“Look! How did the field of Chinese Medicine become like this now?”

Liu Yiwen pointed to the ringing of the mobile phones on the table and said unhappily, “Chinese Medicine should include everything. These people have studied highly-skilled doctors for a lifetime, but now they all come to speak for a junior. It’s simply indecent!”

“Alas! We have been in closed-door training for ten years. Can’t we keep up with the changes in the world anymore?” Hu Rentao teased.

“Why did we go into closed-door training for ten years?”

Zhao Lipin snorted and said, "We have been in closed-door training for ten years. Isn't our purpose to do research, to help Chinese Medicine develop better, and to help Chinese Medicine go further?"

"That's right."

Liu Yiwen nodded and said, "The younger generation now is not like us in the past. After getting a little fame, they think that they are the leader of the Chinese Medicine industry. They have thought too highly of themselves. In my opinion, young people should suffer setbacks!"

"Yes."

Zhao Lipin echoed, "Although it's a challenge, it's good for him. We should take this opportunity to teach him how to respect seniors and let him know that Chinese Medicine needs enough accumulation. He can't become a highly-skilled doctor with just a few years of study!"

"How's your research going?"

Hu Rentao asked, "Since we came out of seclusion and returned to this place, we haven't had a good chat yet. How is it going? Are you confident in what you have developed in the past ten years?"

"Of course," Liu Yiwen and Zhao Lipin raised their heads proudly at the same time.

Everyone's face was filled with confidence.

In their eyes, once the things they spent so much time researching were made public, it would amaze the world with a single brilliant feat!

"Let's let these juniors have a good look and know what seniors are. Let them know what the time of accumulation is. Show them what we are doing is right!"

The three highly-skilled doctors were full of confidence, looking forward to the day of competing with Fang Qiu.

However, a piece of news suddenly came and shocked the whole field of Chinese Medicine right at this moment!

Chapter 1644 Xu Miaolin Became a Holy Doctor

“Xu Miaolin has been officially promoted to the fourth holy doctor through the recognition of the three holy doctors!”

As soon as the news came out, it immediately caused a sensation in the entire Chinese Medicine industry!

“The fourth holy doctor?”

“Xu Miaolin succeeded! He broke through and became a holy doctor.”

“I didn’t expect that after so many years, there would finally be a fourth holy doctor in Huaxia!”

“Xu Miaolin? Isn’t he the teacher of Fang Qiu?”

“I heard that Fang Qiu’s Chinese Medicine in Human Body had helped him succeed.”

“I went to the library to consult Xu Miaolin before, and I did see him reading Chinese Medicine in Human Body every day. He said it contained the key points of promotion to the holy doctor. It was a book that the three holy doctors highly pursued and praised. Now it seems to be true.”

As the news spread, everyone in the field of Chinese Medicine took out the book, Chinese Medicine in Human Body, that they had bought before and read it again from beginning to end.

When the highly-skilled doctors heard that Xu Miaolin had become a holy doctor, they all saw the hope of becoming a holy doctor. They also paid more attention to Chinese Medicine in Human Body.

“Look! Even Xu Miaolin has been promoted to the holy doctor because of Fang Qiu’s book. Then what’s going on with Hu Rentao, Liu Yiwen, and Zhao Lipin? Why do they still want to challenge Fang Qiu?”

“Could it be that these three people have been in seclusion for too long so that they are a little unaccustomed to the secular world?”

Confused by the three people’s behavior, these highly-skilled doctors called and texted again to persuade the three. They earnestly hoped that the three highly-skilled doctors would give up challenging Fang Qiu and not come out to stop the development of Chinese Medicine at this time.

In the quadrangle, the three highly-skilled doctors, who were drinking tea, could still clearly see the text messages sent by everyone because their mobile phones were right in front of them.

When they were chatting, Hu Rentao was stunned. His eyes fell on the mobile phone in front of him, and he suddenly grabbed it. He stared at the text message on the home page of the mobile phone in shock, and his face instantly became shocked.

“What’s up?”

Zhao Lipin felt it was strange. After asking, he also picked up his mobile phone curiously to look.

“What happened?” Liu Yiwen was also confused.

As a result, the three of them held their mobile phones and saw the consoling text messages sent by other highly-skilled doctors. They also saw the most crucial lines in the consoling text messages.

“Xu Miaolin has been recognized by the three holy doctors and promoted to the fourth holy doctor. It’s because of his student, Fang Qiu. He wrote the book, Chinese Medicine in Human Body!”

Seeing the news, the three highly-skilled doctors were all shocked.

They didn't look at each other or say anything.

They were all silent.

Although the atmosphere didn't seem to be very good, the three highly-skilled doctors were more determined than before.

In their eyes, Fang Qiu was like a piece of unpolished jade that would shine as long as it was completed.

But they thought Fang Qiu couldn't go far in his current state.

They still felt good jade needed to be honed and shaped even more. They thought what they did was right and wanted to help Fang Qiu.

Moreover, since Xu Miaolin could become a holy doctor, they could also do it!

After all, they had gained a lot in the past ten years.

Jingjiang Chinese Medicine Hospital was the last place where Fang Qiu had been seeing patients for a long time.

Originally, he went to places around Jingjiang to see patients. The most symbolic place was the Jingjiang Chinese Medicine Hospital.

When the last day was over, Fang Qiu rested in the consulting room of Jingjiang Chinese Medicine Hospital.

Half a month, almost 20 days, had passed.

He didn't stop for a single day.

Fortunately, he chose to go to the nearby cities and made it on time every day.

Knock! Knock!

There was a rush of footsteps at eight o'clock in the morning.

The Director of Jingjiang Chinese Medicine Hospital ran into the consulting room with a happy face.

"Congratulations!"

As soon as he entered, the Director went up to hold Fang Qiu's hand and said, "I just received news that your teacher, Xu Miaolin, has officially become the fourth holy doctor through the recognition of three holy doctors. You have become a student of the holy doctor!"

"Has Teacher Xun been promoted to a holy doctor?"

Hearing the news, Fang Qiu was surprised.

Fang Qiu had heard Xu Miaolin mention he felt that he was not far from becoming a holy doctor. Fang Qiu didn't expect that he would really become a holy doctor now. This was a great thing worth celebrating.

"There's one more thing."

Seeing the surprise on the face of Fang Qiu, the Director of Chinese Medicine Hospital paused for a moment and said, "I don't know if this is good or bad news for you, but you have to be mentally prepared."

"What?" Fang Qiu was confused.

“Some people issued a challenge to you.”

The Director of Chinese Medicine Hospital shook his head with a smile and said, “There are three people in total, and they are all highly-skilled doctors!”

Fang Qiu was stunned.

He was a little dumbfounded.

He didn’t expect three highly-skilled doctors to challenge him.

What he had done for Chinese Medicine in the past two years had already been recognized by most highly-skilled doctors. In this case, how could some highly-skilled doctors challenge him?

“I wanted to ask you to rest. But seeing that you are still so energetic, I told you the news. Go online and have a look.” The Director said.

“Okay!”

Fang Qiu nodded and quickly took out his mobile phone.

As expected, he found countless missed calls on his mobile phone.

Since he had to focus on seeing patients, Fang Qiu had muted his mobile phone 20 days ago. Anyway, the number of John Doe was open. If there was anything urgent, the number would ring.

Seeing these missed calls, Fang Qiu also knew the thing might be a little serious.

He immediately went online to check the news.

Sure enough, he saw the challenge letter issued by the three highly-skilled doctors. This matter had caused very heated discussions on the Internet. It had risen to the top three on the trending topic list on Weibo.

Most crucially, the major media platforms all released news about this matter.

The titles looked not as good as he had imagined.

Under these circumstances, it was inevitable that the matter became popular.

After reading it carefully for a while, Fang Qiu learned the truth.

“I won’t interfere in your private affairs.”

The Director of Chinese Medicine Hospital said with a smile, “You’ve been seeing patients for so many days in a row. You’d better have a good rest for a few days. Take your time to deal with these things one by one!”

“Okay! Thank you.”

Fang Qiu thanked the doctor and walked out of the consulting room.

Accompanied by the Director, he left the Jingjiang Chinese Medicine Hospital from the back door.

After leaving the Chinese Medicine Hospital, Fang Qiu saw a roadside stall selling breakfast. There were no customers at this time. He immediately took a seat and ordered a bowl of hot soup and a few steamed buns to have breakfast.

During the time when the boss was making breakfast, Fang Qiu took out his mobile phone, found the phone number of Xu Miaolin, and called him.

The phone rang.

A few seconds later, someone answered. "Hello?"

After the phone was connected, the voice of Xu Miaolin came from the other side.

"Teacher Xu."

Fang Qiu shouted with a smile, "Congratulations! I'm here to congratulate you! You've broken through and become a holy doctor. From today on, you and your girlfriend can be justified. Holy Doctor Chu won't look down on you."

Xu Miaolin laughed on the phone and said, "I've been waiting for this day for more than ten years!"

"But when I broke through, I was not as surprised as I imagined. Now that I think about it, I'm still very calm and not particularly excited. Anyway, it's all thanks to your book!"

Although he said so, the pride in his tone could not be concealed.

"No matter how good the book is, it's more important that you understand it."

Fang Qiu responded with a smile, "Many people bought my books. Why did you break through to be a holy doctor but the others not?"

"Brat, you're getting better at talking."

Xu Miaolin said with satisfaction, "What you said is right. It does need talent. If I had no talent, I wouldn't be able to break through even if I read the book for the rest of my life."

"How is your girlfriend? Is she happy and excited? I'm looking forward to your perfect wedding!" Fang Qiu continued to ask.

“Don’t talk about it.”

Xu Miaolin sighed and said, “Let’s talk about you first.”

Fang Qiu was stunned and asked, “Have you also heard of it?”

“They are making such a big deal of it. How could I not have heard of it?”

Xu Miaolin said with a wry smile, “In fact, it has nothing to do with you. I don’t know what happened to Liu Yiwen, Zhao Lipin, and Hu Rentao and why they suddenly challenged you.

“The three of them are seniors. Since they wish to challenge me, no one can stop them.”

Fang Qiu wore a bitter smile.

“That’s right.”

Xu Miaolin nodded and said, “It is said that scholars look down on each other. The people in the field of Chinese Medicine are the same. Everyone thinks that their own treatment methods and ideas are correct. They all think that what they have mastered is the truth of Chinese Medicine. They respect each other, but they are not convinced.

“These years, Chinese Medicine has declined, everyone has focused on promoting and developing Chinese Medicine, and this situation has gradually improved.

“Now, Chinese Medicine has begun to become popular again. It seems that the phenomenon of various schools competing with each other is about to happen again.”

Hearing this, Fang Qiu raised his eyebrows.

He also knew the psychology of comparison was impossible to disappear. The reason why he didn't find it before was indeed because Chinese Medicine was declining. Now that its status has improved, the psychology of comparison between each other was naturally reflected.

"These three highly-skilled doctors are also old-fashioned."

Xu Miaolin continued, "It's very likely that they just want to show their own things and hope that they can get the recognition of the public."

"Em." Fang Qiu nodded.

"What do you plan to do this time?" Xu Miaolin asked.

"I have never flinched in the field of Chinese Medicine."

Fang Qiu said, "I've decided to accept the challenge. Haven't these three highly-skilled doctors already shown their Highly-skilled Doctor Certifications? I happen to need three highly-skilled doctors!"

Fang Qiu needed the Highly-skilled Doctor Certification very much.

He wanted to grow two flowers and become a highly-skilled doctor. Then, he would attend the Chinese Medicine Conference to cure the old master!

Chapter 1645 Fang Qiu Will Challenge Them!

"Since you have your own idea, go ahead and do it."

Hearing Fang Qiu's words, Xu Miaolin smiled and said in a gratified tone, "Even if you fail, it's not shameful. Your opponents are three highly-skilled doctors who have been famous for a long time, and you are young. Compared with your smooth growth, I'm more willing to see you fail, but it seems to be difficult."

Fang Qiu smirked.

He knew that Xu Miaolin supported him very much and would continue to support him.

They chatted for a while before Fang Qiu ended the call.

The breakfast was cooked just in time.

While eating, Fang Qiu logged into Weibo with his mobile phone, controlled the keyboard with one hand, and quickly edited a long text on Weibo.

“I have known the challenge issued by the three highly-skilled doctors. I was busy seeing patients before, so I didn’t reply in time. Please forgive me.

“First of all, I’m very grateful to the three highly-skilled doctors for thinking so highly of me. Secondly, as a junior, I respect the three highly-skilled doctors very much. The purpose of my Weibo post is not to accept the challenge but to challenge them!

“As a junior, it’s not in line with etiquette for seniors to challenge a junior in the field of Chinese Medicine. I’m not qualified to let the seniors challenge me. Since the seniors have issued the challenge, how can I not accept it? To show my respect for the three highly-skilled doctor seniors, I decide to challenge them!

“I will visit you in three days!”

After finishing his words, Fang Qiu took a screenshot directly with his mobile phone.

Afterward...

Then he posted the text on Weibo in the form of a picture.

The challenge had attracted a lot of attention, and the media also reported on it in various ways before. It continued to be a hot topic. Many people focused on Fang Qiu's Weibo account.

Everyone was waiting to see how Fang Qiu would respond to the challenge of the three highly-skilled doctors!

After seeing the long text posted by Fang Qiu on Weibo, all the onlookers burst into an uproar.

"Fang Qiu responded positively!"

"It's so amazing."

"He deserves to be called Master Fang Qiu. I'll be frank. Mr. Fang means to tell the three highly-skilled doctors who challenged him that although the three old guys want to bully the weak, he doesn't fear. Now he doesn't want the seniors to challenge him. He decides to challenge them. He wants to see who will fear! I think this is Mr. Fang's intention."

"He's awesome. He has retorted head-on. Don't be afraid!"

"To be honest, Fang Qiu has done so much for Chinese Medicine. Now the whole world knows Fang Qiu. Many people in the world know about Chinese Medicine because of Fang Qiu. What have these three highly-skilled doctors who challenged Fang Qiu done for Chinese Medicine? As highly-skilled doctors, they bullied a junior. The most hateful thing is that there are three people. Is this called disrespecting the old and not caring about the young?"

In just 15 minutes, the popularity of the topic, Three highly-skilled Doctors Challenge Fang Qiu, soared again.

Undoubtedly, it rushed to the first place on the trending topic list, far more popular than the second place. The topic undoubtedly became a big event that everyone was most concerned about!

After all, everything in the world now had something to do with Fang Qiu in this era.

All kinds of popular things were related to Chinese Medicine, and Fang Qiu was the representative figure of modern Chinese Medicine. As his name appeared more and more frequently, Fang Qiu naturally integrated into the public and became the topic that people often talked about.

Of course, not everyone paid attention to this matter because they liked Fang Qiu and Chinese Medicine.

In fact, most of the people paying attention to it were passers-by. They all regarded it as news.

They were all in a neutral position and had various heated discussions about this matter.

"I haven't heard any big news for a long time. Now there is finally hot news."

"I felt that life was boring. Then there's a good show to watch. It can be regarded as adding some seasoning to this dull life."

"By the way, did someone release an album today? It can't be a headline."

"A star asked why the first topic is hot."

"Aren't these celebrities in the entertainment circle too miserable? No matter what they have done, as long as Fang Qiu appears on the news, they will not be focused on at all."

Of course...

Of course, the people in the field of Chinese Medicine reacted the most.

"What's going on? Why did Fang Qiu accept the challenge?"

"What the hell is going on with the three highly-skilled doctors? Fang Qiu has made such a great contribution. Why do they insist on challenging Fang Qiu?"

“Alas! The battle finally broke out!”

“I can only hope that Fang Qiu can accept this challenge. After all, Fang Qiu is now a great hero of the development of Chinese Medicine!”

“Not necessarily. The medical skills that Fang Qiu has shown around the world are very great. If he loses this time, the whole world will know that Fang Qiu is not the most powerful person in Huaxia Chinese Medicine. There are more powerful doctors of Chinese Medicine in Huaxia. In this way, Chinese Medicine will leave a deep impression on foreigners!”

“What’s the use of the impression? Fang Qiu is the only one who can lead the development of Chinese Medicine. From the day he entered the field of Chinese Medicine to now, he has done so many things for Chinese Medicine. What about the three highly-skilled doctors who challenged him? What have they done? They have done nothing but want to step on Fang Qiu to get to the top. They rely on their seniority and bully the weak. They are looking down on him!”

“Yes. If anyone dares to say anything bad about Fang Qiu, I’ll be the first to jump up and scold him. Fang Qiu is the only Chinese Medicine doctor I’ve ever seen who has no selfishness and is only fair. How can you slander this kind of person? Are you still humans?”

Undoubtedly, the whole field of Chinese Medicine supported Fang Qiu the most.

Therefore, everyone hoped that Fang Qiu could win!

Of course...

According to Fang Qiu’s performance, everyone also thought Fang Qiu’s strength had long reached or even exceeded that of a highly-skilled doctor. They thought the three highly-skilled doctors must not know Fang Qiu well, so they took the initiative to challenge Fang Qiu without any benefits.

Soon, the news that Fang Qiu accepted the challenge reached the three highly-skilled doctors in the countryside quadrangle.

Hu Rentao, Liu Yiwen, and Zhao Lipin all saw the reply from Fang Qiu to their challenge.

They also knew the heat of the whole thing.

Knowing everyone was paying attention to this matter, the three highly-skilled doctors smiled with satisfaction.

“His moral character is not bad.”

Hu Rentao commented with a smile and added, “But he’s too arrogant. How dare he challenge us? He’s really young.”

Liu Yiwen laughed and said, “Isn’t that good? If he had shown weakness and refused us with the seniority of the younger generation, we wouldn’t be able to say anything to him. Isn’t his active challenge what we three want?”

“That’s right.”

Zhao Lipin said, “Since this boy wants to challenge us, it can’t be regarded as us bullying the weak. Since he has treated us with courtesy, we should also treat him with courtesy. Let’s respond to him.”

The three highly-skilled doctors looked at each other and nodded with smiles. Then they gathered together and began to discuss how to reply on Weibo.

After a long time, they finished it and sent it out.

“Fang Qiu, you deserve your reputation. You are well-behaved and polite. Since you said so, it won’t make sense if we don’t accept your challenge.

“After our discussion, we decided to accept the challenge!

“Of course, as seniors, we won’t have a life-and-death competition with you this time. We want to let you know that the doctors of Chinese Medicine need more experience. The richer your experience is, the greater you’ll become.

“The three of us have been in closed-door training for the past ten years. During these ten years, we have focused on our research and made great achievements. This time, we will use what we are best at to accept the challenge and show everyone what we have studied for so many years. We will let everyone know what the real Chinese Medicine is. We hope to take this opportunity to rebuild the Tao of Chinese Medicine and trace its origin!”

After the long post was posted on Weibo, the three highly-skilled doctors were all satisfied with it.

Not only did they exclude the intention to target Fang Qiu, but they also showed their dignity as seniors and let everyone know that they had things to show the world.

However, they had forgotten that this was no longer the era ten years ago. This was the era of bickering.

The long Weibo was seen by people in the field of Chinese Medicine.

However, it caused everyone to frown.

“What did that mean?”

“They are too thick-skinned. Fang Qiu just gave them a ladder, but they immediately stepped on it. They didn’t show any mercy and even said their skills in Chinese Medicine were orthodox. I think they did it on purpose.”

“It seems that the minds of these three highly-skilled doctors are not so simple.”

“Has the fox’s tail finally been exposed?”

“Humph! If the three of you are orthodox doctors of Chinese Medicine, what about the others? What about the four holy doctors?”

“They’re so shameless. Fang Qiu has helped Chinese Medicine develop so much. Do they want to take it down so easily? Aren’t they afraid of bursting themselves!”

“The three old masters must be stupid to say such words because of seclusion. I’d like to see the level of the so-called highly-skilled doctors. I don’t believe that they can be a match for Fang Qiu!”

Soon, all the people in Chinese Medicine began to complain.

Many people also angrily said that they must see the level of these three highly-skilled doctors and why they could challenge Fang Qiu at that time!

Beep! Beep! Beep!

Just after they accepted the challenge on Weibo, Zhao Lipin’s phone suddenly rang.

He glanced at it.

After confirming that it was not a call from an acquaintance, he pressed the answer button.

“Hello?”

A polite voice came from the phone. “Excuse me, are you the three highly-skilled doctors, Zhao Lipin, Liu Yiwen, and Hu Rentao?”

“Who are you?” Zhao Lipin asked.

“Hello, I’m the publicity manager of Huitong Chinese Pharmaceutical Company. My surname is Li.”

The person quickly introduced himself and continued, “I saw the challenge between the three of you and Fang Qiu on the Internet. Our company has decided to sponsor your challenge. We’d like to manage all the hotels, venues, and all expenses for your challenge. We just want to hang up our advertising signs in the places where you challenge him. We’ll try to meet your requirements.”

“Are you in charge of everything?”

The three highly-skilled doctors looked at each other, and their eyes lit up!

Chapter 1646 Naming Right Help Them Earn a Lot!

“That’s right. My company will pay for all the things and expenses needed during the challenge. If you agree to make the deal, we can start preparing right away.” The voice of Manager Li from the Huitong Chinese Pharmaceutical Company said.

“Okay.”

The three highly-skilled doctors looked at each other and nodded. Then Zhao Lipin said, “We accept your sponsorship.”

“Please give me your address, and I’ll send some people to contact you immediately.”

The person couldn’t wait to make the deal.

The three highly-skilled doctors didn’t think much about it.

They immediately told him their address.

After receiving the address, the manager of Huitong Chinese Pharmaceutical Company immediately sent some people to prepare the contract happily. He was in a hurry to let them sign it.

Now, all the businessmen in the country thought everything about Fang Qiu was eye-catching.

As long as it had something to do with Fang Qiu, the businessmen could feel relieved to participate in the investment. They would definitely make a profit!

They would make a great profit!

Just think about how many people would watch and how much exposure there would be. This business was good!

The other companies must have been trying their best to contact Fang Qiu and wanted to get the title sponsor through Fang Qiu. However, none of them thought of contacting the three highly-skilled doctors.

Old people were easier to fool than young people.

Especially the three seniors had been in closed-door training for 10 years.

After sending people to find the proposals of the three highly-skilled doctors, Huitong Chinese Pharmaceutical Company directly sent a notice on its official account on Weibo and the official account on WeChat.

“After the discussion with Zhao Lipin, Liu Yiwen, and Hu Rentao who accepted Fang Qiu’s challenge, our company has signed a contract with the three highly-skilled doctors and won the exclusive right in the competition of Fang Qiu challenging three highly-skilled doctors.”

“The challenge competition will be held at the Sijiqing Hotel in the capital in three days. All media are welcome to attend.”

Soon, the notice was released.

Soon, it attracted a lot of media to repost it.

With the crazy reposting of the news by the media, the news also quickly went viral on Weibo. No one expected Huitong Chinese Pharmaceutical Company to be able to grab the exclusive title of this competition so quickly.

The other companies took a look and became dumbfounded.

They were all thinking about obtaining this exclusive title.

The competition had just been settled. How could the exclusive right be obtained by Huitong Chinese Pharmaceutical Company so quickly?

Not to mention these people, even the boss of Huitong Chinese Pharmaceutical Company didn't expect this exclusive copyright to be gotten so easily. It was not difficult at all.

He thought in addition to being responsible for all the tools and expenses of the whole competition, the company would have to pay a lot of signing fees. Unexpectedly, the three highly-skilled doctors didn't mention any signing fee at all. It seemed they didn't know about the signing fee at all. They didn't even mention any additional conditions.

It was simply a big bargain for his company!

Even if the cost of the venue was high in Sijiqing Hotel, one of the world's top 500 companies, they would still gain a lot.

While the other businessmen in traditional Chinese medicine were confused, the major media all over the country also took action after hearing the news. They were all busy going to the capital, ready to occupy a place in the Sijiqing Hotel.

After all...

If they got a good place to report and live stream the challenge, they would attract many people's attention. Ordinary places could be compared with good places at all.

That night, after making an agreement with the Huitong Chinese Pharmaceutical Company, the three highly-skilled doctors came to the capital under the guidance of the staff to prepare for the competition in three days.

When they arrived in the capital, it was already night.

When the car stopped in front of the Sijiqing Hotel, the three highly-skilled doctors saw a lot of media reporters in front of the hotel. In addition to the local media in the capital, there were also many media reporters from other provinces and cities.

The three highly-skilled doctors had never seen such a scene before!

The doctors of Chinese Medicine had always been the least liked and valued.

But now, a competition between doctors of Chinese Medicine had attracted so many reporters' attention and interviews. The world was indeed different from before.

"Old Yu is right. Our Chinese Medicine has flourished."

Zhao Lipin looked at the reporters with a smile and said, "It lives up to our efforts."

"That's right."

Hu Rentao nodded in agreement and said, "The whole world is so great now. It's different from the past."

"I didn't expect that after not coming out for ten years, the outside world would have so much respect for Chinese Medicine. It's rare."

Hearing this, Liu Yiwen nodded with a smile and said, "It's time for us to rise!"

After that, they got out of the car with great pride and walked into the hotel.

At the entrance of the hotel, the reporters, who had waited there for a long time, swarmed forward and wanted to interview the three highly-skilled doctors.

However, the three highly-skilled doctors also showed the majesty and attitude that they should have and refused all the media reporters who hoped to interview them.

Since the media reporters on the scene couldn't get an interview, they could only give up and book rooms in the hotel, waiting for Fang Qiu to come.

The next day in the morning, after receiving the news, Fang Qiu went straight to the capital. Under the arrangement of He Xue, he got in the car sent by the Renyi Group and rushed to the Sijiqing Hotel.

It was still early.

However, when Fang Qiu arrived at the Sijiqing Hotel, many reporters surrounded the door.

Huitong Chinese Pharmaceutical Company with the exclusive right had set up the section of the reporters on both sides of the front door of the hotel. Although there were many reporters, they hadn't blocked the front door.

Wearing a mask, Fang Qiu got out of the car and walked into the hotel.

As a result...

He just got out of the car.

"Fang Qiu!"

“It’s Fang Qiu!”

“Fang Qiu is here!”

Shouts suddenly came from the crowd.

At this moment, all the reporters in front of the hotel immediately focused on the masked man.

Even though Fang Qiu was wearing a mask, he was soon recognized by the media reporters.

Seeing Fang Qiu, the reporters immediately swarmed toward him.

Fang Qiu smiled wryly.

Before he could give a wry smile, the guests staying at the Sijiqing Hotel also quickly rushed out of the hotel and surrounded Fang Qiu with great excitement.

After all...

After all, Fang Qiu was a popular star now.

The whole hotel was blocked in less than a minute.

There was a continuous stream of passers-by at the entrance of the hotel. Seeing such a hot scene, they also stood still and asked curiously. When they learned that Fang Qiu was here, they also gathered around to see Fang Qiu.

In the blink of an eye, Fang Qiu was surrounded by people who kept coming from all over the place. He couldn’t even walk.

“Fang Qiu, in the face of the challenge of the three highly-skilled doctors this time, are you confident that you can defeat them?” A reporter rushed to Fang Qiu and asked.

“It has nothing to do with victory or defeat.”

As Fang Qiu walked forward, he answered, “I challenged them for learning. I have always regarded myself as a student of Chinese Medicine. I will try my best to learn from the seniors of the elder generation.”

When answering, Fang Qiu always wore a kind smile.

“The older generation?”

When the reporter heard the answer of Fang Qiu, he immediately grasped this point and continued to ask, “You said that the three highly-skilled doctors are from the older generation. Do you want to tell us that they have fallen behind and are out of touch with the times? Is the current Chinese Medicine yours?”

Hearing that, Fang Qiu was stunned.

He was speechless. Then he looked at the reporter in front of him and said with a wry smile, “You have thought too much.”

“The elders are respected in Chinese Medicine. Old doctors of Chinese Medicine should be respected. The longer we study Chinese Medicine, the more we know about it, and the stronger our medical skills will be. Therefore, the predecessors of the older generation are worth learning from. I want to learn from them!”

He had to answer this question clearly.

The teachers and elders were respected in Chinese Medicine. He couldn't be misunderstood by reporters.

After the explanation, Fang Qiu continued to move forward.

At this time, the security team of the hotel finally arrived.

Under the escort of the security team, Fang Qiu entered the hotel while answering the reporters' questions.

Under the arrangement of the staff from Huitong Chinese Pharmaceutical Company, Fang Qiu moved into the presidential suite that they had booked in advance, waiting for tomorrow's competition.

After Fang Qiu checked in, the three highly-skilled doctors also learned the news of the arrival of Fang Qiu through the staff of Huitong Chinese Pharmaceutical Company.

They talked in the presidential suite.

"Why don't we meet this junior in advance?"

Zhao Lipin looked at the other two highly-skilled doctors who were sitting at the tea table with him and said with a smile.

"I think it's okay."

Hu Rentao nodded and said, "How dare a junior take the initiative to challenge the three of us? This boy is a little arrogant. As a senior, we should give him some advice."

Hearing this, Liu Yiwen stood up, pouted at the door, and said, "Let's go. This boy has contributed to the development of Chinese Medicine. Although he will challenge us tomorrow, since he has arrived, let's go to see him in advance and see what ability this boy, who has been pursued by so many people, has."

While talking, the three highly-skilled doctors all stood up. After walking out of the room, they walked to the presidential suite of Fang Qiu.

Fang Qiu had just sat down to rest in the room.

Suddenly, there were knocks on the door.

“Who is it?”

Fang Qiu was very confused.

This was a hotel. Why didn’t the person ring the doorbell but knock on the door?

After a brief thought, Fang Qiu guessed it.

It must be the three highly-skilled doctors!

Only the three highly-skilled doctors who had been in closed-door training for ten years would not be used to using the doorbell.

Thinking of this, Fang Qiu didn’t ask anymore.

He went straight over and opened the door.

As soon as the door opened, he saw three elders in their sixties standing in front of the door.

“You must be Doctor Hu, Doctor Liu, and Doctor Zhao, right?” Fang Qiu asked with a smile.

“You are Fang Qiu, right?” Liu Yiwen, who was standing in the middle, asked.

“Yes.”

Fang Qiu nodded with certainty and said, "Nice to meet you, three seniors."

Fang Qiu bowed to the three of them.

The three of them raised their heads and nodded with satisfaction.

"Seniors, please come in."

Fang Qiu stood aside and invited the three highly-skilled doctors in.

Chapter 1647 He Has Almost Read All the Medical Books

At the invitation of Fang Qiu, the three of them put on the airs of elders and strode in without hesitation.

"Seniors, may I know why you've come to find me?" After closing the door, Fang Qiu looked at the three highly-skilled doctors who had sat down on the sofa in the living room and asked with a smile.

"The Chinese Medicine has been not prosperous for too long. It needs a newcomer like you."

Liu Yiwen glanced at Fang Qiu and said, "But you can't go on in the field of Chinese Medicine like this. As the saying goes, the older you are, the more you have learned. It is very suitable for Chinese Medicine. Every master of Chinese Medicine becomes famous after more than 50 years old. This is an ancient law. What do you think?"

"You are right."

Fang Qiu immediately nodded and said, "The essence of the old doctors of Chinese Medicine lies in the word old.

“The Chinese Medicine passed down from generation to generation in Huaxia was developed by the ancient sages through their lifetimes.

“Chinese Medicine is so profound. I can’t learn it all in a short time. The longer I study Chinese Medicine, the more knowledge I will know about Chinese Medicine and the stronger my medical skills will be. Only in this way can I become a better doctor of Chinese Medicine!”

Hearing that, the three highly-skilled doctors nodded with satisfaction.

“Let me ask you a few questions.”

Zhao Lipin asked directly, “How many medical books have you read since the day you started studying Chinese Medicine?”

“I’ve basically seen all of them.” Fang Qiu echoed with a smile.

Upon hearing this, the three highly-skilled doctors became stunned.

“Has he basically seen all of them?”

“That is to say, he has read all the medical books!”

“How could it be?”

“How could such a young man still in college read all the medical books?”

Shock appeared in the eyes of the three of them. Although they tried their best to suppress it, it was still seen by Fang Qiu.

Fang Qiu was not stupid.

From the moment he saw these three highly-skilled doctors, he knew the three of them had come specially to give him a lesson.

Of course, he was not afraid.

But on the surface, he should still show basic respect for them.

Of course, the three highly-skilled doctors were shocked. They really wanted to teach Fang Qiu a lesson, but they didn't expect that Fang Qiu would give such an answer to the first question. It instantly made them embarrassed.

"The most important thing for a doctor is morality. Don't talk nonsense!" Hu Rentao snorted.

"I have indeed seen almost all of them." Fang Qiu answered with a faint smile.

"Okay."

Zhao Lipin narrowed his eyes slightly and said, "Then let's test you and see if you are talking nonsense."

Then Zhao Lipin stood up.

He said to Fang Qiu, "Fever leads to chill, coldness leads to moisture, chill leads to heat, coldness leads to sputum, heat leads to heatstroke, and sputum leads to dry..."

"It's the five kinds of fate and six types of Qi in the human body, which can't be stopped for a breath."

Before Zhao Lipin could ask a question, Fang Qiu said, "Gold and white shape, sonorous voice, palatial tone, and so on. With local customs, the order of fathers and sons can't be reversed. The gift of a person includes three days, two places, and the flow of Qi. If the Qi loses its balance, it is called sickness, and if the sickness is severe, it is called a disease.

“This is from the Introduction Chapter of the Han’s Medical Ability.”

Zhao Lipin was shocked.

To stump Fang Qiu, he deliberately asked Fang Qiu about a book not very popular. But he didn’t expect that Fang Qiu would recite it directly before he finished speaking. Fang Qiu even said the name and chapter of the book.

He was very surprised.

Hu Rentao next to him also stood up and said, “Before the heaven and earth appeared, the chaos was unpredictable. After heaven and earth appeared, people became in the middle.”

“People are acknowledged by the heavens and the earth with Yin and Yang. Therefore, it can be said that the Gan Tao created men. Kun Tao created women.”

Fang Qiu finished reciting and added, “This is the sixth section of the Tai Su Creation and Transformation Meridians Theory of the Corrected Tai Su Meridians Secrets.”

“Warm diseases lie in organs with internal heat...”

Liu Yiwen also stood up.

But as soon as he opened his mouth, Fang Qiu immediately continued, “Warm diseases lie in organs with internal heat. A cold stroke causes no internal heat. The viscera is calm. The cold and heat are not biased, so the people won’t die. Since all the six meridians have been used up, it can be relieved by sweat.”

“This paragraph came from the Cold and Hot, Death and Life of How to Dispel Coldness.”

After that, Fang Qiu looked at the three highly-skilled doctors calmly.

The three highly-skilled doctors sitting on the sofa just now couldn't help but stand up.

They looked at each other.

A trace of horror appeared in their eyes!

These were all unorthodox medical books. Their purpose was to make things difficult for Fang Qiu. Others might not know which medical books they were talking about.

However, Fang Qiu could recite all of them.

"You have a good memory."

After the shock, Zhao Lipin immediately suppressed the shock in his heart and said, "As the saying goes, if you bite off too much in a time, you can't chew it up. Although it's a good thing to read many books, you still have to concentrate on one book."

"Since you have read so much, you should know that Chinese Medicine needs to be retro, and you should learn and improve your medical skills by strictly following the classics!"

With this belief in mind, they went into closed-door training for ten years to study the classics before finally obtaining some results.

Therefore, they believed that what they had learned was the real orthodox of Chinese Medicine!

Fang Qiu smiled, looked at the three highly-skilled doctors, and said, "Since that's the case, I also have a question to ask you, seniors."

"What is it?" Zhao Lipin asked.

“That’s a simple question.”

Fang Qiu said, “Now, people living in different climates in the north and south have completely different constitutions. Should we use the same medicines on them?”

“Of course not.” Zhao Lipin immediately replied.

“Huaxia has a history of over 5,000 years. We’ve experienced several icy periods and huge weather changes. The medical books of different eras have different ideas. According to what you said, which book should we follow to treat patients?” Fang Qiu asked.

Hearing the question, the three highly-skilled doctors laughed at the same time.

They also felt it seemed that Fang Qiu was targeting them.

However, they were highly-skilled doctors.

They had spent ten years developing orthodox Chinese Medicine. How could they be so easily defeated by Fang Qiu?

“There are too many schools of thought, so we should select them.” Zhao Lipin answered.

“That’s right.”

Hu Rentao nodded in agreement and echoed, “We can only find the most correct treatment method by selecting.”

“Of course, we have to see patients according to the actual situation.”

Liu Yiwen also said, “But the basic principles can’t be divided into branches!”

Hearing that, Fang Qiu smiled and continued to ask, "Seniors, can you feel Qi?"

The three highly-skilled doctors shook their heads at the same time.

As doctors of Chinese Medicine, they believed in the existence of Qi.

However, it was not so easy to feel it.

"Since you don't know how Qi works in the body, how can you master the basic principles?" Fang Qiu asked quickly.

"There's no need to know how Qi works in the body."

Hearing this, Liu Yiwen glanced at Fang Qiu and said, "The ancient sages have mastered the principles. What we need to do is to refine them!"

"Before Zhang Zhongjing, influenza was almost an incurable disease. Where was the principle before Zhang Zhongjing?" Fang Qiu continued to ask.

"It was right there!"

Zhao Lipin stepped forward and said to Fang Qiu, "Zhang Zhongjing mastered it. That's why he was able to write the legendary work, Treatise on Cold Pathogenic and Miscellaneous Diseases!"

"In that case, three seniors, do you think you can cure all the diseases?" Fang Qiu continued to ask.

The three shook their heads.

They didn't have that much ability.

If they could cure all the diseases, they would not be highly-skilled doctors, but holy doctors or even divine doctors!

“If none of you dare to guarantee it, who would dare to say that he has grasped principles in this world?”

Fang Qiu shook his head and said, “Only when hundreds of schools compete for attention can they make up for each other’s shortcomings. But now it seems that everyone has a clear line of thought. They attack each other and think that what they have mastered is the truth. In the long run, how will Chinese Medicine develop?”

The three people’s faces changed.

He didn’t expect Fang Qiu to ask such a question.

“Humph.”

Zhao Lipin said, “The so-called schools of thought are all about using branches and leaves as tree trunks. It’s just a partiality!”

“That’s right.” Hu Rentao and Liu Yiwen echoed.

Hearing that, Fang Qiu immediately shook his head and laughed.

Just as he was about to say something, suddenly the doorbell rang.

Fang Qiu shook his head with a smile and went to open the door.

The door opened.

The person who appeared in front of Fang Qiu surprised him.

“Teacher Xu, why are you here?”

The person was Xu Miaolin, who had just been promoted to holy doctor.

Xu Miaolin laughed and walked into the room of Fang Qiu and looked at the three highly-skilled doctors, saying, “I’m here to support my student so that he won’t be bullied.”

The three highly-skilled doctors in the room were suddenly embarrassed.

“Three highly-skilled doctors, long time no see.”

Xu Miaolin saluted the three of them.

“We should call you holy doctor.”

Then, wearing a smile, he bowed back to Xu Miaolin with the other two highly-skilled doctors.

Fang Qiu also closed the door and came over.

“Since the three of you are here, I won’t beat around the bush.”

Xu Miaolin glanced at Fang Qiu with a smile, then turned to look at the three highly-skilled doctors again and said, “My student likes to promote Chinese Medicine and make contributions to the development of Chinese Medicine. Now the popularity of Chinese Medicine is completely driven by him.

“I wonder why the three of you make things trouble with him.

“Why don’t you make trouble with me?

"I'm Fang Qiu's teacher. Defeating me is equal to defeating Fang Qiu. You can still make a name for yourselves. What do you think?"

Hearing that, the three highly-skilled doctors were suddenly stunned.

Fang Qiu didn't expect that Xu Miaolin would be so straightforward. It was equal to saying, "Who asked you to provoke my student? If you have the ability, come to me. If you don't have the ability, get out of here. Don't talk nonsense here!"

"Please don't say it like this, Holy Doctor Xu."

The three looked at each other. Liu Yiwen quickly said, "We're not here to make trouble with your student. We're just here to communicate with Fang Qiu. Besides, Fang Qiu is like a good raw jade. He needs to be polished!"

Chapter 1648 The Challenge Begins!

"Don't you think you have thought too highly of yourselves?"

Xu Miaolin was angry. Seeing the three highly-skilled doctors, he retorted, "Are you qualified to polish my student? I'm his teacher. Do you think I don't know how to teach him?"

The faces of the three highly-skilled doctors gradually darkened.

After all, they were highly-skilled doctors.

Unexpectedly, Xu Miaolin was so disrespectful to them.

However, they also knew it was not the time to have a conflict with Xu Miaolin. If they had a conflict, Xu Miaolin would challenge them with Fang Qiu openly. In that case, they would be finished.

Although Xu Miaolin was younger than them, he had been a highly-skilled doctor for a long time. He had broken through and become a holy doctor. They couldn't be a match for him at all.

"I think my student is great."

Xu Miaolin continued, "You have thought too much. If you want to fight, why don't we have a competition?"

The three highly-skilled doctors immediately shook their heads.

"The words we have uttered can't be changed. It is the same as the medicine we use."

Hearing that, Liu Yi refused at once.

"The words he uttered were like the water poured out. Your student challenges us. It has nothing to do with you." Hu Rentao said hurriedly.

Zhao Lipin also shook his head in agreement.

Actually, they didn't know how capable Xu Miaolin was. But since he had broken through to become a holy doctor and was recognized by the other three holy doctors, his medical skills must be good.

They wanted to battle with Fang Qiu and bring a little setback to Fang Qiu. It's more important to spread what they had spent so many years developing.

They didn't want to be compared with Xu Miaolin.

If they lost, they wouldn't achieve their goals.

“What if we win? It seems that I can’t win...”

Hearing their words, Xu Miaolin chuckled.

“We won’t disturb you from chatting. Goodbye.” After seizing the opportunity, Zhao Lipin said directly.

Then he left with Hu Rentao and Liu Yiwen.

After the three of them left, Xu Miaolin snorted disdainfully.

After seeing off the three highly-skilled doctors, Fang Qiu turned back and saw the disdainful look of Xu Miaolin. He laughed and said, “Teacher Xu, I wanted to go to you after the challenge here is over and listen to how you became a holy doctor. Since you are here, I don’t have to find you.”

“Brat, aren’t you nervous at all? Don’t you want to make a last-minute effort?” Xu Miaolin asked with a smile.

Hearing that, Fang Qiu was stunned.

He immediately thought of the time when he followed Xu Miaolin to learn how to distinguish the gender of pregnant women to prove Chinese Medicine.

“Why should I be nervous? It’s not the same as three years ago.”

Fang Qiu shook his head with a smile and invited Xu Miaolin to sit down on the sofa. While making tea for him, Fang Qiu urged, “Teacher, please tell me how you became a holy doctor?”

Xu Miaolin suddenly burst into laughter and said, “I want to laugh every time I think of it. After reading your book, I comprehended a lot of things. Originally, I had a chance. But one day, I suddenly became enlightened. When I was promoted to a holy doctor, the three holy doctors were all invited. They watched me complete their recognition step by step.”

“You weren’t there at that time. You don’t know how dark my father-in-law’s face was. In the past, he always said I was not a holy doctor. From that day on, he has no reason to teach me a lesson. I’m the same as him now. I’m also a holy doctor, and he personally examined me. Don’t you think he’s angry?” Fang Qiu asked.

The more he said, the more Xu Miaolin wanted to laugh.

He felt after being suppressed for a few years and finally becoming a holy doctor, the Qi that he had been holding back in his heart was gone. He became much more cheerful than before, even like a child.

Seeing the proud expression of Xu Miaolin, Fang Qiu was speechless.

“It’s so late. Do you want to have breakfast here or go to the dining hall?” After laughing for a while, Xu Miaolin asked.

“Let’s eat outside.” Fang Qiu said.

After that, the two of them walked out of the room together and went to the dining hall to chat and eat.

Xu Miaolin didn’t give Fang Qiu any pressure. He teased him in a very relaxed tone, hoping that Fang Qiu could relax before the formal challenge.

When they ate and chatted, all the people in Chinese Medicine came.

After learning that Xu Miaolin was here, everyone was very surprised.

After all, Xu Miaolin had just been promoted to a holy doctor. Shouldn’t he cultivate in seclusion for a period of time and master more skills of a holy doctor? Why did he come here directly?

After all, Fang Qiu was Xu Miaolin’s student. Fang Qiu was challenged by three highly-skilled doctors. As a teacher, Xu Miaolin should come to support him.

Yi Banxian, Li Zhengtang, Huang Zhengren, Yang Juanyong, Yu Qing, Yang Qingfu, Lu Chengze, Xu Lai, Bu Chunqiu, Zhou Shizhan, and other highly-skilled doctors had arrived here.

Knowing that Xu Miaolin and Fang Qiu were in the dining hall, everyone deliberately came over to greet them.

“Congratulations, holy doctor Xu. Congratulations!”

“Congratulations on your promotion to a holy doctor.”

“You’re the fourth holy doctor in Huaxia. You’re amazing.”

As soon as they met, everyone congratulated Xu Miaolin.

They were all envious that Xu Miaolin could be promoted to a holy doctor.

“Thank you! Thank you all.”

Under everyone’s celebration, Xu Miaolin nodded to thank them one by one. Then he changed the subject and said, “By the way, I have to thank my good student. If it weren’t for him, I wouldn’t have been able to find the chance from my student’s book and become a holy doctor.”

“Keep up the good work, everyone!”

Hearing that, everyone was speechless.

They came to congratulate him sincerely, but he began to show off his students.

No one had expected Old Xu to turn out like this.

That afternoon, everyone gathered together to chat, from curing diseases to academic problems. They talked about everything but the challenge.

Everyone knew the challenge had been decided and it would begin tomorrow.

There was no point in mentioning it now.

All they needed to do was wait and see the result.

It was at 8 a.m. the next day.

Under the arrangement of Huitong Chinese Pharmaceutical Company, Fang Qiu and Xu Miaolin came to a very magnificent conference room together. It looked like a conference room specially built for powerful people.

The whole place was spacious.

It was supposed to be held conferences face to face. The staff of Huitong Chinese Pharmaceutical Company built a stage. Everything that needed to be done had been done.

Besides all the people in the field of Chinese Medicine, there were also a lot of reporters and those who had booked rooms in this hotel to witness the challenge.

It was crowded with people.

The place was filled with people.

The people in the field of Chinese Medicine were arranged in the first and second rows in the public area. Reporters were arranged in the third and fourth rows. The rest seats were for passers-by.

On the scene, in addition to the reporters who seized all the opportunities to take photos, there were also media doing live streaming.

The media seemed to have cooperation with Huitong Chinese Pharmaceutical Company.

After arriving, Fang Qiu and the three holy doctors were waiting in the restrooms on both sides of the stage.

“Please be quiet!”

In the noise of the audience, the host invited by Huitong Chinese Pharmaceutical Company came to the stage and suppressed all the noise in the continuous shouts.

“Welcome to the Fang Qiu’s Challenge.”

Holding the microphone, the host said to everyone, “First of all, I’m honored to introduce the sponsor of this challenge to you. Huitong Chinese Pharmaceutical Company is a traditional Chinese medicine company in Huaxia that sincerely supports the public. It is dedicated to promoting the development of traditional Chinese medicine in Huaxia and making contributions to the development of Chinese Medicine.

“Next, I will announce the following rules of the challenge.”

Everyone immediately listened carefully.

“Because it’s a challenge, John Doe has found six patients this time. Every two of them have the same disease. Several highly-skilled doctors have proved it. At the same time, we have also found a notary to notarize the challenge result!”

Speaking of this, the host paused for a moment and continued to add, “This challenge is a competition between gentlemen. Both sides will judge whether they have won or not. If there is any dispute, it will be judged by all the Chinese Medicine practitioners on the scene.”

Speaking of this, the host reached out to the masters of Chinese Medicine sitting in the first and second rows and introduced them to all the masters in the field of Chinese Medicine.

Hearing the introduction, everyone nodded in agreement.

For doctors of Chinese Medicine, it was good for them to judge themselves.

Win and loss objectively existed. Everyone could see that!

“Okay.”

After the introduction, the host immediately said, “Next, let’s welcome the three highly-skilled doctors.”

“First of all, please let me introduce the highly-skilled doctor, Hu Rentao!”

As he spoke, Hu Rentao came out and walked toward the host.

“Next, it’s the highly-skilled doctor, Liu Yiwen.”

Everyone turned to look.

Sure enough, they saw Liu Yiwen coming out of the lounge.

“The last one is the highly-skilled doctor, Zhao Lipin!” The host announced.

Everyone on the scene nodded with understanding. Although he didn’t give any extra introduction to the three highly-skilled doctors, they at least knew the names of the three highly-skilled doctors.

The host also wanted to introduce more about the three to them, but he couldn’t find out the information about the three people.

The most important thing was that even if he asked the three highly-skilled doctors about it, they themselves couldn't utter anything special.

After all, they had been in seclusion for ten years.

It seemed they really had no special contribution to Chinese Medicine. They only told him when they had treated patients and when they had dealt with difficult and complicated diseases. It was meaningless to say these things. Wasn't it natural for doctors to treat patients? Therefore, the introduction was short.

In that case, he could only introduce everyone's names.

"Next, let's welcome our challenger."

After introducing the three highly-skilled doctors, the host immediately continued, "He is the well-known divine doctor in Huaxia. He is the hero who brought Chinese Medicine abroad. He is the charity ambassador who solved the medical problems of 60,000 villages. He is Fang Qiu!"

Clang! Clang! Clang!

After the introduction, there was a burst of warm applause in the audience.

Chapter 1649 A Lost Needle Method, Mountain-burning Fire Needle Technique!

Hearing the warm applause, the faces of Hu Rentao, Liu Yiwen, and Zhao Lipin instantly darkened.

Although they were the ones who provoked Fang Qiu first, the current situation was that Fang Qiu took the initiative to challenge them. Shouldn't the host introduce the challenger first?

As soon as they appeared, the host introduced the three of them first and left Fang Qiu as the finale.

The host was obviously looking down on the three of them.

After all, Fang Qiu was famous.

This was the request of the sponsor. Since they had signed the contract, they could only accept it.

However, they couldn't stand that as seniors, when they showed up, the whole place was quiet. When Fang Qiu showed up, it was full of applause.

They couldn't stand it anymore.

After all, they were three highly-skilled doctors!

The people present were too disrespectful to them.

With dark faces, the three highly-skilled doctors also secretly made up their minds. They must show their abilities and let these people see how strong they were. They must let these people at the scene apologize for their disrespect!

The applause ended.

"Okay."

The host clenched his right hand into a fist and then said, "Now, both sides are ready. The first round of the competition starts!"

Everyone quieted down, and there was no sound at all.

The exclusive livestream also began.

Because of the warm-up several days in advance, there were many people waiting in the livestream room early in the morning, waiting for the start of the live stream.

Especially when the host introduced Fang Qiu, the number of viewers in the livestream room soared to more than a million.

In the livestream rooms, many comments cheering for Fang Qiu flooded the screen.

Of course, there were also many people cheering for Chinese Medicine.

“Next, let’s welcome the first pair of patients.”

While they were talking, two people were led out of the patient’s lounge by the staff and walked toward Fang Qiu and the three highly-skilled doctors together.

Four staff members carried four chairs over, placed one on each side of Fang Qiu, and neatly placed three on each side of the three highly-skilled doctors.

Then the two patients came to the scene and sat down on two chairs that had been prepared.

“First of all, three highly-skilled doctors, please diagnose the two patients to see if their conditions are the same.”

The host said to the three highly-skilled doctors.

Hearing this, Hu Rentao, Liu Yiwen, and Zhao Lipin came forward at the same time and used the Four Methods to Diagnose a Disease to the patients one by one. In the end, they confirmed that the two patients had the same disease, and the seriousness of the disease was also the same.

“Since the three highly-skilled doctors have confirmed the patients’ conditions, Fang Qiu, please diagnose the two patients next.” The host said to Fang Qiu.

Sitting in the chair and waiting, Fang Qiu stood up and walked toward the two patients.

Under everyone's gaze, Fang Qiu reached out his hands to feel the pulses of the two patients.

All the people in the field of Chinese Medicine laughed.

The news that Fang Qiu could feel the pulse with both hands had spread in Chinese Medicine. Everyone knew this, so they didn't think there was anything wrong with it. They just treated it as usual.

However, when the three highly-skilled doctors saw Fang Qiu show his ability to feel the pulse, their faces all twitched and gradually darkened.

Sitting in the middle of the first row of the audience and watching, Xu Miaolin wanted to laugh when he saw the faces of the three highly-skilled doctors.

He knew very well that although Fang Qiu was usually gentle and modest, he would never give in at a critical moment.

He could be gentle and modest, but he wouldn't give in!

Even if the other party was three seniors, he was the same!

Fang Qiu thought only by giving it his all could he show respect to his opponent.

"No problem."

After a minute of inspection, Fang Qiu stopped and said to the host.

"Okay."

The host replied and said, "Next is the treatment. In this part, the three highly-skilled doctors will choose one of them to treat. Fang Qiu will be blindfolded, so he can't watch the treatment of the highly-skilled doctor."

Everyone was stunned.

Couldn't he look?

This method was quite strange.

Presumably, it was to prevent copying the treatment method.

When one side was blindfolded, even if they used the same treatment method, the details would be different.

Those differences were the key to distinguishing the superior from the inferior!

The three highly-skilled doctors looked at each other.

In the end, Zhao Lipin stepped out.

They had diagnosed the patients. They naturally knew who was more suitable to treat this kind of patient, so they made the best choice.

"Please cover Fang Qiu's eyes."

As the host's voice came, a staff member walked up to Fang Qiu, took out two blindfolds, put one on Fang Qiu first, and put the other on the first one to ensure that Fang Qiu couldn't see anything.

Actually, no one could stop him if Fang Qiu wanted to see it.

Even if his eyes were blindfolded, he still had his Divine Consciousness. With the breakthrough of his strength, his Divine Consciousness became stronger and stronger. Within a certain range, it could help his eyes see everything around him. It could see even more eyes.

However, if he did that, it would be equivalent to cheating.

Fang Qiu wouldn't do such a thing. He didn't care at all. After his eyes were covered, he still sat on the chair with a calm face, waiting for the time for him to make a move.

Under everyone's gaze, the highly-skilled doctor, Zhao Lipin, came to a patient and began to treat the person.

Since Fang Qiu couldn't see it, he didn't know how Zhao Lipin treated the patient.

While Zhao Lipin was treating the patient, Fang Qiu could hear the gasps around him.

"That's amazing!"

"He deserves to be a highly-skilled doctor. His skill is so powerful."

"Is this the Nine Acupuncture Needles?"

Fang Qiu heard all kinds of low exclamations.

This was also due to the identity of Fang Qiu as a martial arts practitioner.

It sounded chaotic at the scene. The ordinary people couldn't hear what everyone was talking about in a low voice at all. But because of his strong strength, he could hear every word clearly.

This was not cheating.

Anyway, he couldn't see anything. Even if he knew what method Zhao Lipin had used, he didn't know how Zhao Lipin handled it in detail.

However, when Fang Qiu heard about the Nine Acupuncture Needles, Fang Qiu was also surprised in his heart.

He didn't expect Zhao Lipin to know how to use the nine needles.

The so-called Nine Acupuncture Needles were the nine kinds of needles recorded in the ancient medical book, Inner Canon of the Yellow Emperor. These nine kinds of needles had different shapes and sizes, and each of them had a different purpose.

Because the method had been lost, almost no one could use the skill now.

"He deserves to be a highly-skilled doctor who has been famous for a long time. Even the nine needles have reappeared. Amazing!"

Fang Qiu exclaimed in his heart, "It seems that the ten years of hard work of these three highly-skilled doctors is not a joke!"

Fang Qiu also attached great importance to Zhao Lipin.

Since Zhao Lipin could do this, he was worthy of Fang Qiu's attention!

"After identification, this patient is diagnosed with asthma."

Zhao Lipin began to talk about the patient's symptoms as he treated the person. He said, "According to the Four Methods to Diagnose a Disease, I have looked, listened, questioned, and felt the pulse. The conclusion is that the patient caught a cold in the rain at first, which let him have a chronic cough. Later,

he herded and was pulled into a small pool by cattle. He was stuck in it for a few hours and fainted after he was rescued. This time, his body got too much coldness and moisture. Since then, he got severe asthma. Generally, he needs to rest after walking less than 200 meters.

“The patient is afraid of cold all over his body. He has a headache, waist ache, and a sense of restraint on his back. He has a lot of urine at night, coughs a lot, and his phlegm is white.”

Speaking of this, Zhao Lipin paused for a moment and continued to add, “This patient is restrained by the coldness on the outside and strong coldness on the inside. There is a lot of phlegm in his lungs. His kidneys are also cold, so most of his urine shows that he is afraid of being cold. Moreover, being afraid of being cold inside his body is different from being afraid of the cold purely from the outside.

“His cold is from the outside. His lungs, meridians, and organs are suffering from a cold. The treatment can start from these aspects, and this disease can be easily solved.”

Hearing his words, all the Chinese Medicine doctors present nodded in agreement with Zhao Lipin.

Of course, Zhao Lipin had no intention of hiding his knowledge at all. Since Fang Qiu had such a good reputation, he didn’t believe that Fang Qiu couldn’t find these things with the Four Methods to Diagnose a Disease.

Therefore, in his opinion, these things didn’t need to be kept secret at all, and it wouldn’t have anything to do with fairness.

“Western Medicine can’t cure it at all.”

Zhao Lipin said, “It can relieve the symptoms when the disease breaks out.

“But the treatment plan for this disease in Chinese Medicine is very clear. The cause is clear, the symptoms are typical, and there is no ambiguity.”

While speaking, Zhao Lipin began to treat the patient.

Everyone listened to his narration and nodded secretly.

“In that case, what method will he use for the treatment?”

“It seems that he wants to use acupuncture. Otherwise, he wouldn’t have taken out the nine needles!”

“Will he use the lost ancient acupuncture method?” Everyone asked curiously.

“He has really used needles!” After a little while, a voice was heard.

“What? Is he using the long-lost Mountain-burning Fire Needle Technique?”

“How is this possible? How could he use this method?”

While the audience was shocked, Zhao Lipin had begun to treat the patient.

As expected, he was using the Mountain-burning Fire Needle Technique that had been lost for a long time.

Seeing the treatment used by Zhao Lipin, all the people in the field of Chinese Medicine couldn’t help exclaiming.

Even Xu Miaolin, who was sitting in the first row, frowned when seeing this scene.

“These three old guys are really well-prepared. The person even used legendary things.”

Xu Miaolin was secretly shocked.

This was a technique that had been lost for a long time.

No wonder the three highly-skilled doctors had been in closed-door training for ten years. As soon as they finished training, they came out to make trouble. It turned out that the ten years of closed-door training had given them the most confidence and some lost medical skill methods. It seemed that they were eager to show these things to the world, so they took the initiative to find Fang Qiu.

When Xu Miaolin was secretly shocked, Zhao Lipin had already taken action.

He pricked the Acupoint Feishu, the Acupoint Geshu, the Acupoint Shenshu, the Acupoint Sanyinjiao, and the Acupoint Guanyuan!

Chapter 1650 Different Acupoints and Needle Methods!

Everyone's eyes were focused on the hands of Zhao Lipin. They saw him pierce the silver needles into the patient's body one by one, but the patient didn't seem to feel any pain.

Of course, all the people in the field of Chinese Medicine at the scene could see the acupuncture technique of Zhao Lipin. They were also shocked by the long-lost Mountain-burning Fire Needle Technique of Zhao Lipin.

Notably, the inheritance of the ancient sages was indeed very mysterious.

In particular, these long-lost medical skill techniques broadened everyone's horizons. They didn't even dare to blink while watching for fear of missing any key details.

It was silent.

However, the people seeing the live broadcast through the Internet were in an uproar.

Through the sub-screens, everyone could see Fang Qiu, who was sitting motionless in the chair with his eyes covered, and the treatment method being used by Zhao Lipin.

However, no one could understand it.

“What is he doing?”

“It seems that this acupuncture method is awesome. Why don’t they speak?”

“Is there anyone who can introduce it?”

“Is the method used by this highly-skilled doctor so awesome?”

“Is there anyone who can explain it for us?”

All kinds of confused questions filled the whole screen.

Everyone was asking.

Many people watched the fun. Although there were fans of Fang Qiu, Chinese Medicine, and Chinese Medicine doctors, only a few of them could understand acupuncture.

Just as all kinds of comments flooded the screen in the live broadcast.

A VIP bullet screen, which was made by spending money, appeared.

“Everyone, you can click on the live stream of Doctor Wang, the Chinese Medicine doctor next door. He will watch the live stream while answering questions that we don’t know.”

Seeing this bullet screen, the people in the live livestream immediately opened the live stream room of Dr. Wang of Chinese Medicine.

Sure enough, there was a young Chinese Medicine doctor introducing it.

“Welcome, newcomers! But the livestream video is exclusive, I can’t rebroadcast it again. You can click on the live stream page and watch the live stream with me. I will explain to you everything about Chinese Medicine that appeared during the live stream.”

A thin and kind-looking young man repeated these words several times with a smile. When the number of people in the broadcast room was basically fixed and rising slowly, he continued, “Look at the person, everyone. This highly-skilled doctor named Zhao Lipin. He is using a long-lost acupuncture technique.

“This technique is called Mountain-burning Fire Needle Technique in acupuncture.

“The Mountain-burning Fire Needle Technique is a more common compound technique in ancient times. It is very useful. I won’t tell you its theoretical knowledge of Chinese Medicine. You just need to know there are very few people who know this technique in the current circle of Chinese Medicine. Zhao Lipin may even be the only one. That’s enough.”

Only then did everyone know that the acupuncture technique being used by this highly-skilled doctor was so awesome.

While they were shocked by the other party’s strength, all the live stream viewers worried about Fang Qiu.

“He took out all the lost technique at the beginning. Will Fang Qiu be defeated this time?”

“The other party is a highly-skilled doctor after all. Although there is only one Fang Qiu in the world, there are only 50 highly-skilled doctors in the world.”

“Fang Qiu has never failed before. In the past, he faced some third-rate challengers, but this time it’s different. This time, he faces three highly-skilled doctors.

“It seems that Fang Qiu is in great danger. I’m so worried.”

Although they all supported Fang Qiu, with the introduction of the Chinese Medicine doctor, everyone felt nervous.

They all knew the challenge was completely incomparable to the previous ones.

Compared to this challenge, those so-called challenges in the past were too easy.

As Zhao Lipin performed the acupuncture, a minute passed. The patient with a pale complexion gradually looked better. He seemed to have become a little different from before.

“How do you feel?”

Zhao Lipin looked at the old patient and asked.

“I feel very comfortable!”

The elder was surprised and said, “I feel it all over my body, and I also feel warm and comfortable in my stomach.”

As soon as he said that, all the people present applauded and exclaimed.

“Is it so effective?”

“It’s only been a minute since the acupuncture treatment began. How could it work so soon?”

“The effect came too fast. It’s even more useful than Western medicine.”

The exclamations of the crowd spread.

Zhao Lipin was still standing beside the patient.

After waiting for three minutes, Zhao Lipin said while pulling out the needles for the patient, "Don't leave the needles for too long. One time is enough."

Before long, after pulling out the needles. Zhao Lipin withdrew his needles and said, "I've finished it."

When the host, who had been waiting next to him, heard this, he immediately said, "Doctor Zhao Lipin has finished his treatment. Now we can take off Fang Qiu's blindfold and invite Fang Qiu to examine the patient."

While speaking, the staff member came forward and took off the two blindfolds on Fang Qiu.

After the blindfolds were taken off, Fang Qiu smiled and glanced at the patient. Under everyone's gaze, he stood up and walked toward the patient.

Everyone's eyes and live stream cameras moved with the movement of Fang Qiu.

He came to the patients around him.

With a smile, Fang Qiu began to examine the patient with the Four Methods to Diagnose a Disease.

"As expected of senior."

A minute later, after the examination, Fang Qiu directly hold a fist salute to Zhao Lipin and said, "I admire you very much."

As soon as he said that, all the people present occasionally immediately looked at Zhao Lipin.

Zhao Lipin also raised his head proudly.

Many people chatted on the Internet in front of the lives tream screens.

“He’s so nice.”

“He’s really graceful.”

“Losing and winning can’t be changed. Whether the other party does well or not, he will tell the truth. Fang Qiu is a person with a high bearing.”

“Will Fang Qiu admit defeat like this?”

“He has even expressed his admiration. It’s truly possible for him to admit defeat.”

“No. I hope he will fight back.”

“Fang Qiu has never admitted defeat, has he? Didn’t he defeat all the people who made trouble for him? It must be the same this time.”

Just when the netizens began to worry and suspect, Fang Qiu spoke.

“In Chinese Medicine, acupuncture is divided into many schools.”

Seeing the crowd at the scene, Fang Qiu said with a smile, “But when each school treats the same disease, the efficacy of the acupuncture points is almost the same, because there are only so many functions of the acupuncture points. It’s nothing more than different ways to stimulate the acupuncture points. In that case, the effect of taking the acupuncture points is also different.”

Hearing this, all the Chinese Medicine doctors present nodded.

Fang Qiu was right.

The acupuncture points were fixed on the human body, and the effect of each acupuncture point was also fixed. However, in the case of using different acupuncture methods, the effects of the acupuncture points would be different from what everyone could see. Although it would be different, there were traces to be found.

However, the reporters and passers-by on the scene did not know what Fang Qiu meant and what he wanted to say.

“Take the acupuncture points! Acupoint Feishu, Acupoint Geshu, Acupoint Shenshu, Acupoint Sanyinjiao, and Acupoint Guanyuan.”

Fang Qiu picked up the acupuncture needles that he had prepared in advance, and began to choose the points and use the needles as he spoke!

As soon as he moved, all the Chinese Medicine practitioners at the scene couldn't help exclaiming.

Zhao Lipin standing aside was also shocked!

He had never imagined such a scene.

Fang Qiu actually used the needle technique of Flying Meridians and Running Qi.

This was the acupuncture technique that Fang Qiu used when he was in a foreign country for disaster relief. The highly-skilled doctors who had seen it before were also excited.

They didn't expect to see it again.

Seeing that the Chinese Medicine practitioners on the spot were so excited, the people seeing it on the Internet also talked about it.

“What's up?”

“What technique did Fang Qiu use? I feel that everyone is shocked!”

“Doctor Wang, please explain to us about it quickly.”

In his live broadcast room, everyone sent bullet screen messages crazily.

The young doctor stared at the live stream screen in shock for a long time. When he came to his senses, he found the bullet screen had been filled with comments.

Only then did he hurriedly say, “This is the Flying Meridians and Running Qi. It’s also a very powerful needle technique that has been lost for a long time. There are a total of four steps, Divine Dragon Wagging Tail, White Tiger Shaking Its Head, Black Tortoise Probing Cave, and Red Phoenix Fluttering Wings. It’s a very magical acupuncture technique. Although there are still records, no one can learn it at all. I didn’t expect Fang Qiu to know it. It’s so amazing!”

However, at this moment, Fang Qiu, who was treating the patient, suddenly changed his technique.

It was changed to another acupuncture method.

It was also a lost acupuncture method.

Doctor Wang, who was watching the live broadcast, was stunned.

They didn’t expect that Fang Qiu would use another long-lost acupuncture method.

Even everyone who was watching the live stream was infected by his techniques. Their eyes fell on the person on the screen. They were full of shock and disbelief.

All the Chinese Medicine practitioners present were also shocked.

Then Fang Qiu used another needle method when pierced the next acupuncture point.

Everyone was even more shocked.

Then he changed his technique every time after he pierced an acupuncture point with a needle.

Everyone was so shocked that they were speechless.

“How many needle techniques do you know?”

At this time, Fang Qiu suddenly spoke.

“Actually, there are also many acupuncture methods on domestic and abroad islands.”

While speaking, Fang Qiu changed the acupuncture method and added, “For example, acupuncture in an ancient way.”

After saying that, Fang Qiu directly used the ancient acupuncture method.

“For example, the Dong’s Mysterious Acupoints.”

When going to the next acupuncture point, Fang Qiu immediately changed his technique again.

He almost changed a needle technique at every acupuncture point.

Seeing this, all the Chinese Medicine practitioners on the scene were dumbfounded.

“How could you know the acupuncture of Haidao?”

“Is there anything else you don’t know?”

Xu Miaolin was also confused. He had no idea where Fang Qiu learned these methods, which were either lost or kept secret.

The face of Zhao Lipin gradually darkened.

Liu Yiwen and Hu Rentao, sitting aside waiting for the next rounds, also widened their eyes. They couldn’t imagine how a young student of Chinese Medicine had learned so many acupuncture techniques!
