Medical Master

Chapter 801: Demand for a National Consultation!

The post-bar had always been the main site for heated discussions and spreading of news.

Soon, the post about Fang Qiu curing malaria was reposted and became a hot topic among all the major posts. It was also copied and posted on Weibo.

A great many people began to pay attention to it, especially Fang Qiu's fans.

Fang Qiu's fans were all excited when they saw this post.

"Was he really cured?"

"Master Fang Qiu cured malaria. Did you see that?"

"Awesome. Such a difficult disease could be cured. Chinese Medicine is really amazing!"

"He's remarkable."

"I didn't expect that Fang Qiu would treat a malaria patient as soon as he came back from abroad. He even cured him in such a short time. He is really awesome!"

"I'd like to see who else dares to question our Master Fang Qiu now!"

"Where are those people who said that our master was arrogant? Come out and have a good look. Do you see his power? Isn't it not just malaria? He can absolutely cure it!"

“Yes, Fang Qiu is competent. Of course, he can cure it.”

While they were thrilled, the spirits of Fang Qiu’s fans rose immediately. Many fans were dissatisfied with the people who questioned Fang Qiu before. Now they immediately took advantage of the news that Fang Qiu cured the plague to attack those who doubted Fang Qiu before.

However, whenever a thing reaches its extreme, it soon reversed its course.

While Fang Qiu’s fans were in high spirits and extremely proud of him, a different voice appeared.

“So what if he’s cured? Why are you so excited? What are you looking so smug about? He just cured one patient, not an entire country. Is it necessary to be this happy?”

“Don’t gloat too early. We all know that Fang Qiu has excellent medical skills and that he can cure plenty of complicated diseases. We have never doubted Fang Qiu’s medical skills, but curing one person suffering from malaria is totally different from curing a country’s plague!”

“That’s right. So what if he cured one person? Huaxia is not a large-scale spreading area of the plague, because we have good medical conditions and complete equipment. Even if there is a malaria infection, we can immediately control it and prevent it from spreading. But it is different in Comores. It’s an island country, and it’s really poor. The medical conditions are even worse. Not to mention the treatment, they can’t even ensure a good disinfection. Otherwise, why would there be so many foreign medical teams coming to help them?”

“The conditions for the treatment in Comores are atrocious. This disease is highly infectious. This is the difference between treating one patient and a group of patients. If you cured one of the patients in the group while the others have not yet recovered, they will still be infected. What’s worse, it may also infect the person you have just cured. So it is not surprising that Fang Qiu can cure malaria. What we are doubting is whether he can cure the disease on a large scale and manage the prevention and control of the spread. Don’t forget that he only has one year to do it. In this one year, Fang Qiu still has a long way to go to cure malaria!”

With these remarks gradually coming into sight, Fang Qiu’s fans soon calmed down.

When everyone pondered about it, that was indeed the case.

Fortunately, there were very few fanatical fans of Fang Qiu. Most of them were rational fans, so everyone could calm down and look at this matter properly.

“It’s true. Don’t brag about the master anymore. If you continue to brag, it will cause someone to slander him.”

“Master Fang Qiu may not be able to do it, but I believe he will work hard and I will always support him!”

“Fang Qiu, more power!”

The fans left their comments, one after another.

They all realized now that curing a patient with malaria was totally different from solving Comores’s malaria problem in a year. At least, Fang Qiu was able to cure it, which meant there was hope.

If there was hope, Fang Qiu would definitely strive hard to work toward that goal.

As his fans, they would unconditionally believe and support Fang Qiu!

Just as Fang Qiu’s fans and people following this matter were in the midst of a heated discussion about Fang Qiu curing the plague, another voice popped up on the Internet.

“I strongly demand that Fang Qiu do consultations throughout the country!”

“Agree!”

“I agree. I hope that Master Fang Qiu won’t just stay in Jiangjing Chinese Medicine Hospital. This would mean that everyone has to go to that hospital every month. This is not fair to the patients at all. Those in

Jiangjing will definitely be the first to queue and they will definitely be registered. People in other places will always be at the back of the line. It will take a long time to get there. They still have to wait for a long while even after their arrival. When they finally get to see the doctor, they also need to spend a lot of time for their return. It's so frustrating."

"It will be awesome if Fang Qiu can see patients all over the country."

"Can Fang Qiu do it?"

"I really hope that Fang Qiu can take note and do it."

"Doctors are supposed to be responsible for the patients, right? Fang Qiu is a doctor, so he should do this!"

This topic was first brought up by a few people who failed to get to Jiangjing to queue and register. Unexpectedly, it drew the attention of many people from other provinces in a short period of time.

These people complained that they could not travel too far because they were unwell. Every time they wanted to go to Jiangjing, they found that everyone had already gone there. There were too many people in line. They could not register even if they went there, which made these patients feel rather helpless.

Some patients even intended to live in Jiangjing Chinese Medicine Hospital so that they could register as soon as Fang Qiu started to see patients.

In the midst of this heated discussion, more and more people participated in this topic.

Gradually, the trending of this topic even surpassed the topic of Fang Qiu curing malaria and became the No.1 topic of people's discussion. It even made it into the top ten of Weibo's trending topic list.

With the publicity of the trending topic, it became much more popular.

Numerous people got involved.

They all read this suggestion.

“That’s a good suggestion.”

“Yes, it should be fair.”

“It’s a pity that there is only one Fang Qiu. It would be great if there are 24 people like him. Each of them can cover one province, which solves the problem perfectly.”

“Please do a nationwide consultation!”

“I’m begging Master Fang Qiu to do a nationwide consultation.”

“I really hope Master Fang Qiu can give me a consultation. Please do have a nationwide consultation.”

More and more people were in agreement with them.

Among them, there were also a lot of Fang Qiu’s fans. Not only did they want Fang Qiu to treat them, but they also hoped to take the opportunity to meet Fang Qiu in person.

If he didn’t have a nationwide consultation, it would be laborious for them to get to meet Fang Qiu. But once Fang Qiu decided to see patients across the country, they would have a great chance to meet him.

Fueled by the ongoing discussion, all the ordinary citizens, together with Fang Qiu’s fans, joined in proposing this matter, regardless of whether they were sick or not.

However, as a great many people were involved, everyone began to take it seriously.

“From the South to the North, let our Nanjiang First Chinese Medicine Hospital be the first stop!”

“What about from the East to the West? Our Luhai city should be the first one.”

“All of you, get out of here. Let Hai City be the first!”

“Come to Luo City. You must come to Luo City!”

In the blink of an eye, the netizens from all over the country began to fight for it.

Under every name of each city, there was a large group of locals’ comments. They tried to gain popularity for their comments, wanting to push their city to the top so that Fang Qiu could see them.

The netizens seemed to think that this matter was settled even though they had no clue about whether this proposal would be approved or not.

Of course, Fang Qiu was not aware of this matter at all.

In the Chinese Medicine Hospital, Fang Qiu did not stop until he saw the patients for 24 hours.

He finished seeing all the patients who had registered.

Since the hospital had learned from the previous experience, they no longer allowed patients to do whatever they wanted. Instead, they came up with a sophisticated plan for Fang Qiu’s consultation.

The plan contained a total of five points.

First, the patients were not allowed to register in advance for Fang Qiu’s specialist consultation. They could only register in person on the day of Fang Qiu’s consultation.

Second, the registration time lasted for 10 hours, from 8 a.m. to 6 p.m. on the day of Fang Qiu's consultation. All registered numbers were valid. When it was past 6 p.m., the hospital would close, so would the registration office. Hence, people could no longer register.

Third, the patients who registered could wait in the hospital. Fang Qiu would also continue his consultation until he finished seeing all the patients that had registered.

Fourth, all patients were not allowed to register on behalf of others.

Fifth, after being confirmed by the hospital's experts, patients with serious diseases would be given preferential access to register and receive treatments.

This plan solved all the problems that Fang Qiu would face.

The moment this plan came out, the hospital also posted it on its official website.

After the patients read it, some felt it was unfair, some smiled helplessly, while the others approved of it.

However, when the vast number of netizens saw these five rules, they all applauded Jiangjing Chinese Medicine Hospital, especially Fang Qiu's fans. They had been expressing their gratitude to the Chinese Medicine Hospital on behalf of Fang Qiu.

Because in this way, Fang Qiu would not faint from exhaustion again even if he had been seeing patients for an entire day.

Fang Qiu said that he would treat patients for one day. He would definitely keep his promise. It was the most appropriate way to do so.

In the hospital, Fang Qiu breathed a long sigh of relief after seeing the last patient.

In fact, he could have stopped work at 6 p.m. yesterday. His actual working hours only lasted for 10 hours. But he didn't leave. After all, people waiting there had registered. Even if he needed to work for more than 14 hours, he was determined to see all of them!

The consulting room was empty.

Fang Qiu asked the nurse to go back to have a rest while he poured himself a cup of hot water and sat down at the consultation table to rest.

"It's over?" Suddenly, a voice sounded.

It was Xu Miaolin.

Fang Qiu was stunned and asked, "Mr. Xu? Didn't you go to sleep?"

Xu Miaolin shook his head and said, "Do I look like I have not slept? I just got up. It's eight o'clock in the morning. It's really a good time of the day."

"Yeah." Fang Qiu echoed with a smile.

"The hospital has put up your consultation plan. Did you read it?" Xu Miaolin asked.

"Where is it?" Fang Qiu was stunned.

"Check out the official website yourself." Xu Miaolin said.

Without hesitation, Fang Qiu immediately logged into the official website of Chinese Medicine Hospital with his mobile phone. Then he read the plan.

"This plan is quite suitable for me."

After reading it, Fang Qiu smiled.

Xu Miaolin nodded and then added, "Yeah. But there seems to be some conflict with another matter."

"What other matter?" Fang Qiu was curious.

"Take a look online. The netizens have already decided for you. They don't have any intention of asking for approval at all." Xu Miaolin shook his head with a smile.

Medical Master

Chapter 802: I Need Another Two Pieces of Land, and Ill Pay You This Time!

"The netizens decided for me?"

The longer Fang Qiu listened to Xu Miaolin, the more puzzled he became.

Therefore, he logged into Weibo immediately.

Needless to say, if something went viral on the Internet, it would definitely become a hot topic on Weibo in the first place. Therefore, searching on Weibo would be the best way to check the current trending topics.

As soon as Fang Qiu logged into Weibo, he immediately looked at the trending topic on Weibo.

It was indeed a topic related to him.

#Invite Fang Qiu to do a nationwide consultation#

"A nationwide consultation?"

Fang Qiu was stunned at first, but then he said with a wry smile, "It's not a star's concert. How can there be a nationwide consultation?"

"What's the big deal about stars?"

Xu Miaolin looked at Fang Qiu with a serious expression and told him off, "They are entertaining people, but we are helping and saving people. There's no comparison between the two. Which one is more important, medicine or entertainment? If people are really sick, it will be necessary to have a world consultation, not to mention the nationwide consultation!"

"Uh..." Fang Qiu was taken aback by Xu Miaolin's words.

"Am I wrong?"

Xu Miaolin snorted, "Why is it that a star is welcomed by so many people while having a concert all over the country? Why should a doctor be called a charlatan when traveling all over the country to treat people? In this world, doctors are even inferior to those who entertain people. Is that so?"

Fang Qiu knew that Xu Miaolin was getting serious.

It was undeniable that what Xu Miaolin said was the truth.

This was how the world operated now.

"In that case, Mr. Xu, do you think I should agree?"

Fang Qiu asked, "Should I stay in the same place or go to a different place every month?"

"Go and do a nationwide consultation!"

Without hesitation, Xu Miaolin said directly, "Because in this way, not only can it prove that Chinese Medicine has the support of people, but it is not inferior to those stars. It will show that Chinese Medicine is not so awful that it can't even compete with those stars. After all, you are the only one who can do this nationwide tour and also have a strong influence."

"In other words, if you do a nationwide tour, you can also extend the influence of Chinese Medicine."

Fang Qiu nodded with understanding.

This nationwide consultation tour would be different from the concerts of celebrities.

The speed of doctors' reputations across the country was far swifter than that of celebrities while doing a nationwide consultation tour, especially when it came to Fang Qiu. The development of his reputation must be unprecedented.

The more celebrated Chinese Medicine became, the greater its influence would be.

Xu Miaolin added, "But, there's one more thing. You have to prepare for the highly-skilled doctor certification. There is more than half a year left. If you can't make time to complete the examination standard of the highly-skilled doctor, then you can only take a more difficult path, which is to get the approval of another 15 highly-skilled doctors. But you have to get their recognition before getting the approval. The best way to achieve that is to challenge them. Do you want to take time to complete the examination standard of the highly-skilled doctors, or to challenge the highly-skilled doctors to get the certification?"

"I will take note of the time."

Fang Qiu nodded knowingly and replied, "I'll work on it when I am available. If I don't have time, I can only choose to challenge them."

"Haha."

As if he had expected it, Xu Miaolin immediately laughed when he heard Fang Qiu's words, saying, "Then you need to make more preparations. It's good to go to one place every month. At least it's easier for you to challenge them. You can challenge one doctor every time you go to a place."

Looking at Xu Miaolin laughing joyfully, Fang Qiu could not help giving a wry smile.

It turned out to be part of Xu Miaolin's plan. No wonder he agreed so readily and directly decided that he should do a nationwide tour. In fact, he simply wanted to stimulate Fang Qiu so that he could become a highly-skilled doctor as soon as possible.

"Since that's the case, should I agree with them?" Fang Qiu asked.

"Yeah." Xu Miaolin nodded.

"What about the hospital?"

Fang Qiu looked at Xu Miaolin and asked, "But I've signed the contract with the hospital, which means I'm working for the hospital. My monthly consultation is also in the name of the hospital. If I don't do it in the hospital, it will definitely suffer losses. Will the director approve of me doing a nationwide consultation?"

"Why not?"

Xu Miaolin pursed his lips and said, "When you go on a nationwide tour, you'll bring honor to the hospital. What they will lose is just the registration fee. Do you think the leaders of our hospital are fools? As long as you propose the nationwide consultation tour, they will definitely take the initiative to contact the Chinese Medicine hospitals in different cities and work out with them to gain some profits. In this way, they will earn the money they need. Besides, it won't cause the other doctors in the hospital to have nothing to do one day every month. The hospital will still receive patients as usual. If you go out, it will be equivalent to working hard in other provinces to make money for our hospital. How can the leaders not be pleased to see that?"

"Even though that's the case..."

Fang Qiu hesitated for a moment.

“It’s settled. I’ll talk to the director about it.”

Xu Miaolin waved his hand and spoke.

“Okay.”

Fang Qiu immediately nodded and said, “Then I’ll post it on Weibo now.”

“Send it.” Xu Miaolin nodded with certainty.

Fang Qiu, who had already logged into Weibo, quickly wrote a post and sent it without delay.

“At the invitation of a large number of netizens, I have decided that from next month onwards, I will see patients in a different city every month. Please recommend a place for me to see patients next month!”

While this Weibo was posted, the netizens were thrilled.

“What the f*ck, he actually agreed.”

“Haha, I’ve been looking forward to it. I didn’t expect that Master Fang Qiu would actually agree.”

“Master Fang Qiu is so kind to us.”

“When I saw that everyone had been talking about the first place for him to see patients, I thought that it was just their wishful thinking. I didn’t expect that Master Fang Qiu would really agree. He cares so much about his fans.”

"I think Luhai is a good place to go. It's at least one of the top four cities in Huaxia. There are thousands of patients waiting for Master Fang Qiu to save them. Master, please come to Luhai!"

"It should be the capital. It has to be the capital city. You have to start from the capital while doing the national tour."

"Shut it, capital people. There are so many famous doctors and world-class equipment in the capital. If you are sick, you can go and see those doctors. Why are you fighting with us to see Master Fang Qiu? Master Fang Qiu should come to Yang Cheng!"

"Come to Yang Cheng!"

"He should come to Nanjiang. Nanjiang is the most remote area and also a place where all kinds of complicated diseases frequently occur. The ancient doctors traveled around Nanjiang. Although it is a modern society now, Nanjiang is still a remote place. The national tour should start from the outermost area. Nanjiang needs Master Fang Qiu the most."

While they were talking, someone suddenly started to deviate from the subject.

"Actually, I think the top of Mount Hua is not bad."

As soon as this comment appeared, numerous people gave their likes to it.

"You nailed it!"

"The top of Mount Hua? The patients will be exhausted before they make it to the top. Haha!"

"In fact, it's really good to see patients besides West Lake. As the song goes, West Lake's scenery is beautiful in March..."

"Lyrics? Seriously?"

“The guy who brought up the West Lake, I’m afraid you’re getting delusional. Are you thinking of meeting Fang Qiu on the broken bridge of West Lake and do something romantic like Cowherd and Weaver Girl?”

“Why not go to Tengwang Pavilion? It’s the new mansion in Hongdu, in the old county of Yu Zhang.”

Various kinds of strange places were mentioned, including national 4A-level scenic spots, ancient buildings, and mountains that were mentioned in ancient books, and oceans.

Fang Qiu was speechless when he saw these comments.

Fang Qiu murmured, “It seems that I can’t let the netizens decide. There are too many people and too many choices. There are all kinds of weirdos. I should choose it myself and then inform the hospital so that they can contact the local Chinese Medicine hospital. Otherwise, it will be embarrassing if they don’t let me see patients there.”

“Beep, beep, beep...”

At this time, the phone in Fang Qiu’s trouser pocket suddenly rang.

He unlocked it.

It was a call from Yang Ningyuan.

“Hello?” Fang Qiu answered the phone.

“Did you just get off work? How’s it going?”

Yang Ningyuan’s voice sounded.

“It’s okay,” Fang Qiu replied.

"I know you just got off work, so I called to give you some good news."

Yang Ningyuan laughed out loud and said, "Trillium Root-Securing Pill has been enjoying crazy sales. We just finished the preselling for the new batch. Just like before, it was almost sold out in an instant. I feel intimidated just by looking at the numbers."

"Isn't this a good thing?"

Fang Qiu said with a smile, "You've made a fortune. The person who takes the medicine is in good health. It's a win-win situation."

"Yes, yes, yes. It's a win-win."

Yang Ningyuan echoed happily, and then asked, "In fact, there is another thing. I wanted to let you have a good rest, but when I thought of this, I couldn't suppress the impulse in my heart."

"Just say it. What's the matter?"

"Since that's the case, should I agree with them?" Fang Qiu asked.

Yang Ningyuan asked, "Can you increase the production and supply more Desert Cistanche?"

"This..."

After pondering for a while, Fang Qiu nodded and said, "Yes, but I can't start to raise the yield immediately now because I need to expand the cultivation area to do that."

"That's not a problem. What kind of land do you want? I'll buy it for you."

Yang Ningyuan made the decision directly!

“It seems that you’ve made a fortune.”

Fang Qiu burst out laughing and said, “Since that’s the case, I won’t stand on ceremony. Just give me two pieces of land.”

“Okay.”

Yang Ningyuan laughed heartily and said, “As long as it’s not too expensive.”

Fang Qiu responded, “Okay, I’ll find the land first. I’ll inform you when I find it.”

“Okay, I’ll wait for your news. The sooner, the better.”

Yang Ningyuan answered and hung up.

After hanging up, Fang Qiu immediately called Li Ji.

Li Ji answered the phone, “Hello?”

“Help me find two pieces of land. One should be connected to my cultivation base, and the other should be near the snow-capped mountain.”

Anyway, it was Yang Ningyuan who was paying for it.

It was settled in one go. He even tried to get the cultivation land for the Tianshan Snow Lotus.

Li Ji replied, “Well, I have to check if the land you want is available. I’ll try to get it for you if I find it.”

"I'll pay you this time," Fang Qiu said directly.

"Oh, you have money now?"

Li Ji was stunned at first, and then continued, "That's great."

After he hung up, Li Ji went straight to find the land for Fang Qiu.

Not long afterward, Fang Qiu's cell phone rang again.

Medical Master

Chapter 803: The Principal Come Back to School!

It was Li Ji who was calling.

"What's wrong?" Fang Qiu picked up the phone and assumed that Li Ji had encountered some resistance while reporting to his superior.

Li Ji said, "It's approved."

"What?"

Fang Qiu was stunned at first, but then he spoke in surprise, "So fast?"

"Is it?"

Li Ji smiled and said, "In fact, the land you want is difficult to develop. Under normal circumstances, no one wants this kind of land. In addition, the desert needs to be managed and the land near the snow-capped mountain is of no use, so the higher-ups directly granted you the land."

“How much is it?” Fang Qiu asked.

After all, it was Yang Ningyuan who would be paying for it. He had to know the specific amount.

Li Ji said, “The higher-ups won’t ask for much money from you. They simply requested a small amount as a symbolic gesture. I’ve sent the signed documents directly to your cultivation base, so you can pay according to the amount on the paper.”

“Okay.” Fang Qiu nodded with satisfaction.

After he hung up, Fang Qiu called Zhao Shanlin and asked him to go through the deeds for the land as soon he received them so that he could know the price.

Then he would directly inform Yang Ningyuan that he needed to purchase these two pieces of land. He asked Zhao Shanlin to meet Yang Ningyuan on behalf of their company and sign the land purchase contract.

After he was done, Fang Qiu began to ponder.

“We do have the land now, but we don’t have enough people.”

Indeed, when he extended the place, the original number of people was obviously not enough.

However, what Fang Qiu referred to was not just an ordinary worker, but a professional in this field.

He could not let Zhao Shanlin travel all around. After all, Mr. Zhao was already old and it was not suitable for him to travel constantly.

“Professional!”

With that thought in mind, the first person that came to Fang Qiu's mind was Chen Yinsheng.

As the Vice President of the University of Jiangjing Chinese Medicine, Chen Yinsheng certainly knew plenty of professionals.

As he thought about it, Fang Qiu took out his phone and was ready to call Chen Yinsheng.

To his surprise, the moment he took out his phone, it rang.

He took a closer look.

It was Chen Yinsheng's name on the screen.

Fang Qiu couldn't help but be stunned by the name display.

"Does this mean that we have a mutual understanding?"

He shook his head and smiled.

Fang Qiu immediately answered and said, "Vice President Chen?"

"Yes."

Chen Yinsheng nodded and said, "Why did you not come back to school after returning to Huaxia?"

Fang Qiu said awkwardly, "I am at the Chinese Medicine Hospital."

"Come back to school quickly."

Chen Yinsheng said, "The principal is back. He wants to see you."

Fang Qiu was confused.

It was not until then that he realized what was happening.

The principal that Chen Yinsheng had mentioned was the actual president of the University of Jiangjing Chinese Medicine. Chen Yinsheng had always been the vice president, but because the president had never made an appearance, Fang Qiu had always regarded Chen Yinsheng as the actual president out of habit.

However, after giving it some thought, this president was quite a mystery. It was the first time that Fang Qiu had ever heard about him since he entered the university.

"Why does the principal want to see me?" Fang Qiu asked.

"Does he need a reason to see you?"

Chen Yinsheng answered grumpily and then continued, "Hurry up. Come back right now. I'll wait for you at the entrance of the office building."

"Okay." Fang Qiu nodded.

After Fang Qiu returned to the consulting room and said goodbye to Xu Miaolin, he left the hospital and hurried back to school.

Back at school, Fang Qiu went to the staff office building immediately.

As expected, he saw Chen Yinsheng standing at the entrance of the building and waiting from a distance.

"Vice President." Fang Qiu hurriedly went up to him.

“Yes.”

Chen Yinsheng nodded slightly and said, “The principal is waiting for you in the office. Come with me.”

“Vice President, the principal of our school seems to be a very mysterious person,” Fang Qiu remarked with a grin.

“Mysterious?”

Chen Yinsheng was stunned for a moment, then he shook his head and smirked, “Not at all. It’s just because the freshmen are unlucky this year. When you guys entered the school, the principal happened to go to the U.S. to participate in the exchange and study program for a year, so you did not see him at all during that time. He just got back.”

“Oh, I see.” Fang Qiu nodded with understanding.

Then, under Chen Yinsheng’s lead, Fang Qiu walked into the principal’s office.

Although the office had been vacant for a year, it was spotlessly clean when the principal came back. Hardly had Fang Qiu entered the office when he felt it was extremely bright.

The furnishings in the office were the same as those in Chen Yinsheng’s office.

In addition to a desk, there was a wooden tea table and a sofa set that was relatively modern.

When Fang Qiu entered the door, an elder who seemed to be about 55 years old and a little older than Chen Yinsheng, was seated behind the desk, reading all kinds of documents.

He took a closer look.

There was no beard on the old man's face, but his hair and eyebrows were gray. His eyebrows were also quite thick, making him look like an ancient martial arts hero.

"Principal, Fang Qiu is here," Chen Yinsheng said.

"You came."

The principal raised his head and took a look at Fang Qiu. Then, he stood up with a smile and walked toward Fang Qiu. While taking the initiative to shake hands with Fang Qiu kindly, he praised him, saying "I didn't expect that after only one year, an amazing talent would appear in our university and even become renowned in the world. I've heard a lot about Fang Qiu. Knowing that Fang Qiu is a student of our school, I was more than proud when I was in America. When those experts in America learned that Fang Qiu is a student of our university, they all treated me differently."

"You flatter me, sir," Fang Qiu replied modestly.

"Well, you're indeed amazing when I see you today."

The principal nodded in admiration and said, "Keep up the good work. The school will provide you with all the convenience."

"Thank you, principal." Fang Qiu expressed his gratitude.

The principal smiled with satisfaction, then turned to look at Chen Yinsheng, and said, "Great, when I was not in the school this year, you did a really good job, which was completely beyond my expectation. Not only did you enhance the reputation of the university, but you also boosted all the students' enthusiasm to study in the university. Continue the good work."

"Yeah, sure." Chen Yinsheng nodded hurriedly.

"Anyway, just do whatever you need to do. And you need to continue to support whatever Fang Qiu does." The principal reminded him on purpose.

“Don’t worry, sir.”

Chen Yinsheng immediately nodded and promised, “I’ll strive to build a better future for our university.”

“Yes.”

The principal smiled and nodded. Then he pointed to the sofa and said, “Come on, let’s sit down and talk.”

The three of them chatted for an entire morning in the principal’s office, talking about a variety of topics.

When they left the principal’s office, Fang Qiu glanced at Chen Yinsheng in confusion and asked, “Sir, what does the principal mean?”

“It means that you should do whatever you want.”

Chen Yinsheng said, “Just continue to do what you used to do. Even if he comes back, he won’t interfere. But he is the principal. No matter what kind of achievements we make, he will get half of the credit. He doesn’t need to say it clearly.”

“I’m amazed.”

Fang Qiu couldn’t help but pat his forehead and said, “Why not just say it? Why did he have to talk all morning and waste everyone’s time?”

Speaking of which, Fang Qiu gave a thumbs-up to Chen Yinsheng and said, “To be honest, Vice President Chen, I also look up to you very much. You are able to deduce what he actually means. It seems that you are the same caliber as the principal.”

“No, we’re different.”

Chen Yinsheng promptly shook his head and said, "The principal is the one waiting for the harvest while I am the one doing all the hard work."

Fang Qiu rolled his eyes.

Chen Yinsheng, however, remained calm and collected. Without looking at Fang Qiu, he walked straight back to his office.

"Beep, beep, beep..."

At this time, Fang Qiu's cell phone suddenly rang.

He took it out and had a look.

It was a call from Zhao Shanlin.

"Hello, Mr. Zhao?" Fang Qiu answered the phone.

Zhao Shanlin said, "Fang Qiu, I've finished everything here. The government has sent someone to deliver the map to us and let us choose the place."

"So fast?"

Fang Qiu didn't expect Li Ji to be so efficient. Yang Ningyuan also paid for it so promptly. He nodded and said, "Please entertain him for a while. I'll go back tonight, and I'll be there tomorrow morning."

Zhao Shanlin nodded and hung up.

Fang Qiu instantly booked the last flight to Beijiang for the day with his phone.

After walking around the school and chatting with Zhu Benzhen and two other classmates about the cultivation base, Fang Qiu brought the three of them to fly to Beijiang overnight.

Early the next morning, Fang Qiu returned to the cultivation base.

At this time, Li Ji was having a great time in the cultivation base.

After everyone had breakfast together, Li Ji took out the resources and maps, pointing out the land that Fang Qiu and Zhao Shanlin could choose in the desert and the land near the snow-capped mountain.

Accompanied by Zhao Shanlin, Fang Qiu went directly to the site to choose two pieces of land. One was connected to the cultivation base, and the other was at the foot of the snow-capped mountain.

After choosing the right places, Fang Qiu immediately recruited workers to reclaim the land. As for the snow-capped mountain, he would just leave it for the time being. What he needed most now was the desert.

After purchasing the land and extending the cultivation base, Fang Qiu and his roommates were soon busy working.

As Fang Qiu was helping out, he thought of the problem about manpower again.

“No.”

Thinking that there were still plenty of things that needed to be managed by himself, Fang Qiu felt that time was quite tight and he didn't have much time. Suddenly, an idea came to his mind. While thinking about it, he muttered to himself, “I should hire professional talents to manage these things. I can't waste all my time on these.”

Suddenly, Yang Ningyuan called.

“Just in time.”

Fang Qiu picked up the phone and said, "I was about to call you."

"Oh?"

Yang Ningyuan paused and asked, "What's the matter?"

"Do you know any professional management talents? I need them so much right now," Fang Qiu said.

"Haha."

Hearing this, Yang Ningyuan burst into laughter and said, "Now you know that it's not easy to do business, right?"

"It's indeed not easy," Fang Qiu echoed with a wry smile.

Yang Ningyuan said, "Well. You don't need to find a headhunting company. Our human resource department has some leads. I'll ask someone to search for you, but I don't know if they will be willing to come."

"Okay."

Fang Qiu nodded and said, "As long as we have the information, that's enough. I'll handle the rest."

Medical Master

Chapter 804: Publicize the Life-prolonging Earth Pill Now!

"By the way, I need to ask you something."

After the discussion about the management of talents, Yang Ningyuan asked, "Your land is ready, right? You have to tell me when the expansion of the production is completed."

"About half a month," Fang Qiu replied.

Yang Ningyuan asked, "Can you guarantee it?"

"Yes!" Fang Qiu nodded with certainty.

The cultivation and planting skills of Desert Cistanche were already sophisticated, so Fang Qiu did not need to spend much effort on it. As long as the land was reclaimed, they could directly start planting.

Anyway, there were adequate seedlings. The newly bought land was also within the range of the terrain. The previous terrain he formed covered a radius of ten kilometers, so he did not need to spend time on the terrain anymore.

Now everything was ready.

As for the time, he only needed to estimate the growth time of the Desert Cistanche.

Half a month was just about right.

"Okay."

Yang Ningyuan immediately nodded and said, "I'm about to change the plan."

"Hmm?"

Fang Qiu was stunned and asked, "What change of plan?"

Yang Ningyuan said, “Now I’m going to publicize the Life-prolonging Earth Pill!”

Fang Qiu was confused. “Why are you suddenly changing the plan?”

Originally, Yang Ningyuan intended to promote the Trillium Root-Securing Pill until the market became sluggish. As people bought whatever they wanted and the sales began to decline, he would promote the Life-prolonging Earth Pill so that those who did not dare to buy Trillium Root-Securing Pill due to their health problems would participate in the buying and let the Trillium Root-Securing Pill become popular again.

But now, it was obviously not the scheduled time yet.

“Why did Yang Ningyuan suddenly want to publicize the pill now?”

“The reason why we promoted the Trillium Root-Securing Pill first is because we wanted to get the maximum usage of this product. When the sales become sluggish, we’ll sell the Earth Pill to regain its popularity in the market again. However, gauging from the current situation, the sale doesn’t seem to be slackening at all. Now the supply of the pills is inadequate to meet the demand, so the scheme we planned before is useless.”

Speaking of this, Yang Ningyuan paused for a moment and added, “Now, I’m going to promote the Life-prolonging Earth Pill and sell it at the same time as the Trillium Root-Securing Pill. In this way, those who failed to buy the Trillium Root-Securing Pill will naturally try to buy the Life-prolonging Earth Pill. I don’t have to worry about the sales of these two products at all.”

“Since I have such a great opportunity to make money, why should I wait for it? Isn’t it better to make money now?”

Hearing this, Fang Qiu immediately understood.

Even if he sold the Life-prolonging Earth Pill now, there would still be people who wanted to buy. Therefore, what Yang Ningyuan was concerned about before was that the sales for the Trillium Root-Securing Pill would decline after they brought out the Life-prolonging Earth Pill. However, it seemed that he didn’t need to worry about this at all.

Moreover, the most important thing now was to dominate the market!

He wouldn't give others a chance to follow the trend and have a share of the market. After all, the Trillium Root-Securing Pill was so popular that many businessmen must have noticed the limitations of this drug. They might be preparing to produce a medicine that could solve this problem so that they could make a fortune by taking advantage of the popularity of the Trillium Root-Securing Pill.

As a business tycoon, how could Yang Ningyuan let his own interests fall into the hands of others?

As long as the Life-prolonging Earth Pill came out, these two products could dominate a large portion of the market.

The business world was really unpredictable. Therefore, once he had an idea, he had to put it into action immediately!

"You're right. It's not bad to promote it now."

After figuring out the causes, Fang Qiu nodded with understanding and asked, "Are you going to bring out the Life-prolonging Earth Pill after half a month?"

"No."

Yang Ningyuan immediately shook his head and said, "I'm going to do it now. We'll start the preselling three days later, selling the Trillium Root-Securing Pill and the Life-prolonging Earth Pill at the same time."

"It's also because of this plan that I can only divide the supply of Desert Cistanche in half a month into two portions to make these two products. In this way, I can sell both of them at the same time. Although the number of preselling has been fixed, I also need to do some marketing. That's why I asked you how long it will take and whether you can guarantee it."

"If you can't guarantee it, then I'll have to continue selling the Trillium Root-Securing Pill."

Fang Qiu nodded knowingly and said, "Don't worry. Since I've promised you, I'll definitely do it."

"That's great." Yang Ningyuan laughed with satisfaction.

"Eh?"

Fang Qiu asked as if he had suddenly realized something, "So that's why you bought the land for me?"

"Haha."

Yang Ningyuan laughed and said, "You're really smart! Since you can guarantee it, it's settled then. I'll arrange the following things first. I'll give you the information you want tomorrow morning."

"Okay." Fang Qiu replied and hung up.

As expected, the official website of Hua Yuan Pharmaceutical Corporation released an introduction of the Life-prolonging Earth Pill that night.

New product promotion: Life-prolonging Earth Pill.

The Life-prolonging Earth Pill is the same as the Trillium Root-Securing Pill. They are both Taoist secret recipes with the Desert Cistanche as the main composition.

The formula of the Life-prolonging Earth Pill came from the ancient book, Taiping Shenghui Prescription in the Song Dynasty, which was originally called the "Pill of Grass Recovery".

This pill could help cure one's weakness and colds, adjust vital qi, strengthen muscles, improve sight and hearing, increase one's appetite, promote spleen and stomach, prolong one's life and solidify one's dantian.

It would mainly cure labor injuries and dizziness. It could soothe the nerves, prolong one's life, make one's beard and hair turn black, make one feel light and healthy. It could also improve sight and hearing, eliminate cold and heat, and adjust Qi and blood circulation. Taking this drug on a regular basis could cure labor injuries, enhance the head and eyes, prolong life, turn one's beard and hair black, and improve the complexion.

When people clicked on the introduction, the first thing that came into sight were three words written in the cursive script—Life-prolonging Earth Pill!

It looked particularly attractive.

Because it was not the preselling day, not many netizens paid attention to the official website of the company.

However, with the release of the introduction of this new product, the official Weibo of Hua Yuan Pharmaceutical Corporation also released a brand new publicity post on Weibo right away.

“New product promotion: Life-prolonging Earth Pill! There will be no tryouts for this product. The presales of this drug will start in the morning the day after tomorrow with the Trillium Root-Securing Pill!”

There was also a link with the detailed introduction of the Life-prolonging Earth Pill, which was attached to the post.

Although no one paid attention to the official website of Hua Yuan Pharmaceutical Corporation because it was not the preselling time, people were still following the official Weibo of the company.

Therefore, as soon as this Weibo was posted, it aroused everyone's curiosity.

“Life-prolonging Earth Pill?”

“Are they bringing out a new health product?”

“What the f*ck, how long has it been? The production of the Trillium Root-Securing Pill is not sufficient as yet. Why are they promoting the Life-prolonging Earth Pill?”

“Damn, is Hua Yuan preparing to create a mythical style? Why are they naming the products Trillium and Root-Securing and Life-prolonging Earth? It sounds so mythical.”

“It can’t be another kind of magical medicine, can it?”

“Hurry up. Let’s go to the official website and see what kind of new medicine it is.”

Amid the heated discussion that ensued, netizens clicked on the link and entered the official website of the company to have a look.

However, the netizens were shocked when they read it.

“What the f*ck, this new product is so awesome!”

“Judging from the effect, this Life-prolonging Earth Pill seems to be more powerful than the Trillium Root-Securing Pill. At least, it’s suitable for everyone.”

“It also contains Desert Cistanche like the Trillium Root-Securing Pill. That is to say, the efficacy of this drug is definitely not bad!”

“Is this another type of magical medicine being created?”

“I must buy it!”

Soon, the news spread to other pharmaceutical companies.

When they heard this news, they were all dumbfounded.

They really couldn't figure out Yang Ningyuan's plan.

No matter how they looked at it, they all felt that the Life-prolonging Earth Pill was like an upgraded version of the Trillium Root-Securing Pill. According to the current market situation, sales of the Trillium Root-Securing Pill were like wildfire. Shouldn't Hua Yuan focus on the promotion of the Trillium Root-Securing Pill and try to make a fortune before they promoted the Life-prolonging Earth Pill?

"Why did Yang Ningyuan bring out the Life-prolonging Earth Pill now? The demand for the Trillium Root-Securing Pill is apparently exceeding its supply."

Why would they do this?

Not only the major pharmaceutical companies, but the netizens all over the country were also baffled.

In their eyes, this was simply the benefit given by the Hua Yuan Pharmaceutical Corporation.

It was obvious that Hua Yuan Pharmaceutical Corporation did not need to promote the Life-prolonging Earth Pill until everyone got one pack of the Trillium Root-Securing Pill each. Once the Life-prolonging Earth Pill came out, it was apparent that some people would choose it first. Of course, there were also people who would buy both of them.

However, now they chose to release both of the popular products, but they didn't have an adequate supply.

Everyone found it confusing.

However, even if they couldn't understand it, they would still scramble to buy it. The employees of the pharmaceutical companies were also ordinary people. Just like the public, they also wanted to buy good medicine. Since the pharmaceutical companies they worked for couldn't produce such good medicine, they had to buy it from other companies because the Trillium Root-Securing Pill was indeed efficacious.

If Hua Yuan dared to start the preselling without asking for a tryout, it meant that the effect of this drug would definitely not be any less than that of the Trillium Root-Securing Pill.

Therefore, they had to buy the Life-prolonging Earth Pill!

The scalpers were also excited.

Many scalpers even quit selling tickets for the stars' concerts. Instead, they went for the sales of Trillium Root-Securing Pill. As the drug was sold in batches, they earned more than selling concert tickets.

Now, the company even released Life-prolonging Earth Pill.

Through reading the introduction, they could tell that this thing would absolutely be a hit.

For them, they would love to see more popular products like this coming out. The more products were brought out, the more money they would make.

Early the next morning, after Fang Qiu finished his morning practice, he went back to his office to have breakfast and turned on his computer to check the email, for Yang Ningyuan told him that all the information had been sent to his email.

As he checked his email, Fang Qiu saw the email sent by Yang Ningyuan.

When he clicked on it, he found that there were actually more than a dozen senior management talents from large companies.

"What a relief."

Reading through the documents, Fang Qiu murmured with a smile, "Yang Ningyuan is actually reliable. At least he didn't get the talents from the ten major advertisement agencies and the three video websites companies. If I really wanted one of the talents from their companies, I don't know if I should poach from them. It's embarrassing to think about it."

As he murmured, Fang Qiu quickly looked at the information aside and selected one of them!

Medical Master

Chapter 805: You're Cheesy When Hitting on Girls

“He Xue?”

Looking at a personal resume in the file, Fang Qiu became interested in this person.

This woman was in her thirties. She was born into a family which was in the fast-moving consumer goods industry and served as a senior executive in the company.

It seemed that she had a fall out with her family. Hence, she left her family enterprise and went to work as a president for an Internet company called Network.

This company started by running cybercafes. Later, during the downturn of the cybercafe industry, it changed its business line and started making software.

He Xue joined the company as the CEO during the initial stage of the company's transformation.

At that time, owing to the downturn of the cybercafe industry, most people thought that Network was about to collapse. This company did not excel at any other businesses, so people were not optimistic about the transformation of Network.

However, after He Xue joined this company, she immediately shut down some cybercafes in second-tier cities that were losing money. She also directly upgraded the cybercafes in the first-tier cities to exclusive ones, which raised the prices of these cybercafes by 2 to 10 times.

Such a strategy made people in the Internet industry shake their heads. They felt that He Xue was going to ruin the company's reputation.

But in the end, after such improvements, these cybercafes, which had been losing money, suddenly saw an increase in their business!

The rise in the costs of the cybercafes did not cause Network to decline. Instead, it became popular again.

He Xue then used the money saved by removing most of the cybercafes that were losing money and began to study software and embarked on software development. As a result, she managed to promote the business of Network and it ranked among the top 100 Internet companies last year. It was at the 100th position!

Her schemes and capability were truly impressive.

Fang Qiu also took a fancy to her background and resume.

After all, the medicine that his company intended to produce could also be regarded as fast-moving consumer goods. She should be familiar with this industry. Moreover, He Xue came from a family enterprise and had been cultivated by her family since she was a child. She should be adept at dealing with people. The last thing was that she was able to switch from the fast-moving consumer goods business to an Internet company to work as the CEO, which indicated that she must have a broad and predictive vision.

No matter which perspective he looked at, such a person was the top talent that Fang Qiu urgently needed.

“She’s the one!”

After reading through the information, Fang Qiu immediately made up his mind.

“But, how can I poach her?”

At the thought of poaching, Fang Qiu suddenly became distressed.

He was acutely conscious of He Xue's position in Network and what Network meant to He Xue herself.

Considering that He Xue was solely responsible for Network's rise, she would definitely not leave the company so easily. After all, this company represented all her hard work, which could prove her strength to her family.

As for the staff of Network, He Xue was a capable person and leader who guided them and enabled them to make it into the list of top 100 Internet enterprises. No matter what happened, they would not let He Xue go!

Under these circumstances, it would not be so easy to poach He Xue.

"Should I seduce her?"

Glancing at He Xue's photo, this idea popped up in Fang Qiu's mind.

An ID photo was evidence on whether a woman was beautiful or not.

But when Fang Qiu saw He Xue's ID photo, he could barely take his eyes off her. She was stunningly beautiful.

All the features on her face were perfect.

It was a perfect facial standard.

This woman's skin was extremely fair and she had a natural beauty.

Even though she was barely 30, she looked like a young girl in the prime of her life.

"No, no."

Realizing that he was missing the point, Fang Qiu quickly shook his head and murmured, "As a human being, we can't be so underhanded!"

"Maybe I can try to save the beauty as a hero."

Thinking of this, Fang Qiu immediately shook his head again.

"Since she's so gorgeous, there must be countless men who want to pursue her. The idea of a hero saving a beauty must have been pulled off by so many men. Even if that was not the case, it will be too corny to use this move."

He dropped this idea.

Fang Qiu continued to ponder.

"A chance encounter?"

"No, it will be too intentional. Besides, I'm not familiar with her. I'm going to poach her this time, not to be in a relationship."

After pondering about it for a long time, Fang Qiu constantly shook his head.

"Alas..."

With a sigh, Fang Qiu said with a wry smile, "It seems that I can only use my old profession. Since I'm a doctor, I can treat a patient. Even if she is not sick, someone in her family might be. Even if her family is fine, her friends might have an illness. If her family and friends aren't sick, maybe they will be in the future. Anyway, I can have access to many things with my medical skills!"

Without any hesitation, Fang Qiu took out his mobile phone and called He Gaoming.

“Hello?”

He Gaoming picked up the phone and said, “Yo, superstar, I heard that you’re so popular that you’re going to do a nationwide consultation. It’s not easy for you to think of me at this moment.”

“Help me investigate a person.” Fang Qiu pursed his lips.

“Who is it?” He Gaoming asked.

“A woman, her name is He Xue.”

Fang Qiu added, “I’ll send her information to your e-mail.”

After that, he hung up directly.

After hanging up, Fang Qiu copied He Xue’s information and sent it to He Gaoming.

After that, he went back to his work.

Although Yang Ningyuan gave him all the information about these senior talents, the whereabouts of these people and other information were all kept confidential. After all, Yang Ningyuan was also a legal businessman, so he did not dare to intrude on other people’s privacy. Therefore, he only had the information about these people, but he did not know where they were.

However, He Gaoming was also extraordinarily fast.

It had only been less than an hour before He Gaoming called.

“Hello?”

Fang Qiu answered the phone.

"I'll just cut to the chase. I will tell you where she is if you give me 50,000 yuan. If you give me 100,000 yuan, I will let you know her daily routine and habits."

He Gaoming continued, "This is cheap enough, isn't it?"

"100,000."

Fang Qiu made a choice directly.

Now that he intended to poach He Xue, he had to figure out her daily routine and habits first. After all, know the enemy and know yourself, and you can fight a hundred battles without any fear of defeat.

He Gaoming said, "Oh, boy, I didn't expect that you would make such an effort to chase a girl. But this girl is nice. She is so beautiful and capable. If I were you, I would chase her too."

"Then why don't you give it a try?" Fang Qiu said.

"Forget it. We're not the same type of people. That kind of woman can only be matched with stars like you. It has nothing to do with ordinary people like us."

He Gaoming chuckled and said, "Listen carefully. The information you gave me is basically correct. This woman is still the CEO of Network. A year ago, the company moved its headquarters from the capital to Luhai. It's on the 18th floor of the New World Office Building in the People Square of Luhai. There are only two elevators, A and B, which serve this floor. Other elevators can only reach the 16th floor."

"Get to the point." Fang Qiu rolled his eyes.

"The point is that He Xue is now a hands-off leader. She doesn't have to do anything. She will only intervene when there is a big event in the company. She gets up at 7:30 every morning and goes running

for half an hour. At 8 a.m., she will have breakfast at home. At 8:30, she will go to the company and continue to exercise for half an hour. At noon, she will randomly choose a restaurant on the first floor of the New World Office Building. She doesn't have a fixed time to go home at night. Sometimes she will go home after work and sometimes she will work all night without going home. At present, she is single."

"By the way, the most important thing is that she would go to a vintage cafe named Steam to drink coffee on the third floor of the New World at 1 p.m. every day. Each time, she would stay there for over half an hour."

"That's all."

He Gaoming finished his report.

"I'll transfer the money to you later."

Fang Qiu nodded, hung up and directly transferred 100,000 yuan to He Gaoming. Then he booked a plane ticket from Beijiāng to Luhai right away.

This time, Fang Qiu didn't use his identity as Lin Yu. Instead, he used his original identity. He wore a mask, went through the security check and was a little worried when he got on the plane. Although he caused a stir during the security check, it died down soon because Fang Qiu hurried through the procedure.

Fang Qiu soon arrived at Luhai.

After getting off the plane, he checked the time. It was 12:30.

Immediately, he called a taxi and headed for the New World Office Building.

When he arrived, it was exactly 1:00 p.m.

Fang Qiu eventually found Steam on the third floor.

He stepped in and saw that there were lots of cafe machines emitting steam like steam engines.

After walking around, Fang Qiu caught sight of He Xue on the table next to a floor-to-ceiling window.

With only one glance, Fang Qiu couldn't help exclaiming.

This woman was extremely stunning. Not only was her face beautiful, but her figure was also enviable. Her outfit was a uniform, which was exceptionally tempting!

He was slightly surprised.

Wearing a mask, Fang Qiu walked over to He Xue and asked, "Miss, is this seat taken? If not, can I sit here?"

He Xue glanced at Fang Qiu and said, "Boy, you're cheesy when hitting on girls."

Fang Qiu was embarrassed.

Although it was embarrassing, he had already flown over by plane. It was impossible not to sit down.

After sitting down, Fang Qiu studied He Xue's face carefully and then said to He Xue in a very serious tone, "Miss, are you sick?"

"You're the one who's sick, aren't you?"

He Xue stared at Fang Qiu in disgust and frowned.

"No."

Fang Qiu quickly waved his hand and said, "You're really sick. If you don't mind, I can check your pulse."

Fang Qiu deliberately used his internal Qi, which baffled He Xue.

After all, it would be awkward if he was rejected in public.

If the beauty in front of him left in anger, wouldn't it be even more embarrassing?

Therefore, in desperation, Fang Qiu could only activate his internal Qi to feel her pulse before she could reject his offer.

It was a Chi Pulse, which was heavy and bitter!

He took a look at the combination of her present condition.

Fang Qiu immediately thought that the Chi Pulse belonged to the kidney. The kidney contained the essence of the human body, so the pulse was heavy. If the Chi Pulse was heavy and bitter, it often proved the lack of blood essence.

Therefore, the heavy pulse was often closely related to infertility.

In the Compendium of Medical Physicians, it once said, "If men have heavy Chi Pulse, it would hurt their essence and hernia. If women have this, they would suffer from menstrual disorders and fetal abnormalities."

Fang Qiu was pleasantly surprised, but he also despised himself fiercely. "You're a doctor. How can you be surprised when you discover ailments in others?"

Medical Master

Chapter 806: Okay! Im in!

“Hmm?”

When she came to her senses, He Xue pulled her hand back from Fang Qiu. Her face darkened in anger and she was about to lose her temper.

At this moment, Fang Qiu spoke first, “You’re suffering from infertility.”

“You bastard!” He Xue flew into a rage. She picked up the half cup of coffee on the table in front of her and splashed it directly at Fang Qiu’s face.

“Whoosh.”

Fang Qiu moved and shifted to the seat next to him in an instant, dodging the coffee successfully. Then he quickly reached out and took out tissues from the box on the table to wipe off the coffee splashes on the seat.

He Xue was stunned when she saw this.

He was clearly right in front of her. When she threw the coffee, he had not moved yet. How could he change his position when the coffee splattered?

“You’re a famous entrepreneur from a big family. Can you not be so edgy when dealing with people?”

While wiping away the coffee, Fang Qiu said, “I’m really a doctor. You’re indeed suffering from infertility!”

When she heard this, He Xue’s face suddenly changed. She was about to erupt in fury, but now it seemed as if someone had poured a basin of ice water on her. She suddenly became dispirited.

Although her anger had not completely dissipated, she would not erupt for now.

Afraid that Fang Qiu's words would be heard by the people around them, He Xue gritted her teeth and growled in a low voice, "Who the hell are you? How do you know about my innermost secret?"

In fact, when Fang Qiu said it out loud, she already had her suspicions about him.

Because this was indeed something very confidential which even her closest friend knew nothing of.

This was quite unexpected. She was not a person who liked to fool around, not to mention going to nightclubs. Her infertility was detected in a routine physical examination.

When she was told that she was suffering from infertility, He Xue did not go to find a random man to give it a try. Instead, she had been in contact with the hospital all the time. She went to the hospital to have a check-up regularly, but she had not been cured.

Therefore, He Xue even suspected that Fang Qiu was the person in the hospital who treated her.

But after giving it a second thought, she realized that the people in the hospital did not know her real identity at all.

"Sit down first. Don't get too emotional."

Although Fang Qiu was wearing a mask, he said in an experienced tone, "I'm really a doctor. Your illness is actually a small problem. I can cure it."

"Huh?"

He Xue was so angry that she even burst into laughter. She glanced at Fang Qiu in disdain and asked, "Boy, don't be so reckless. Even if you are a doctor, you can't cure all kinds of diseases. Do you think you are Fang Qiu?"

She didn't believe that her disease which could not be cured in the famous hospital after such a long time could be treated by a boy suddenly coming out of nowhere.

“Haha, what a coincidence.”

Hearing He Xue’s words, Fang Qiu grinned. He took off his mask and said, “I am Fang Qiu!”

Hardly had he finished speaking, when he took off his mask completely and revealed his actual face.

He Xue fixed her eyes on him.

Her eyes instantly widened and froze.

After all, she was a talent from a noble family. He Xue rolled her eyes and immediately came back to her senses. She looked at Fang Qiu and suddenly became amused, instead of being irritated.

There must be a reason for something like this to happen!

Fang Qiu was such a big shot, but he came to seek her out on his own initiative. It was unusual. After all, they had nothing to do with each other before this.

There was a flicker of interest in her eyes.

He Xue sat down again with a smile. She leaned back and said with a shrewd smile, “Interesting. Magic Doctor Fang wouldn’t just come to flirt with me, right?”

“I don’t think that you would deliberately come here to treat me.”

Fang Qiu, who had just cleaned up the coffee stains, instantly answered, “I’m here to poach you!”

“Poach me?” He Xue was confused.

“Yeah!”

Fang Qiu nodded with certainty and said, “I set up a company and I need a professional talent to help me manage it. I received some information about talents in management from a friend. I felt that you were really suitable for this job, so I came over directly to find you.”

He Xue smiled and said, “You’re just a kid. Why do you want to set up a company? Are you short of money?”

“No.”

Fang Qiu shook his head and said, “One’s ambition shouldn’t be limited by his age!”

“Although I’m suspicious of your original intention, I’m a little curious about what you said. Come on, tell me what kind of company you run.”

He Xue said with a grin, “In addition, if you can get my information, it means that there must be someone to guide you. Since there is someone helping you, you must also be aware that basic offers will not be able to tempt me. Show me what you can offer.”

“You won’t be disappointed.”

Fang Qiu didn’t hesitate at all and said directly, “First, I’ll cure your disease.”

“This is the most basic thing.”

He Xue shook her head and said, “If it weren’t for this, I wouldn’t even bother to listen to you.”

“Are you testing me?”

Fang Qiu shook his head and grinned, "But have you ever thought that I can turn and leave now? Anyway, there are a lot of talents in senior management in the country. I can find them one by one. Even if I find someone who is not as good as you in the end, I won't suffer too much loss. My company just started, so it's not too big yet. I have plenty of time to find talents in management, but you are different... When I leave, you're the one who will suffer the biggest loss."

He Xue's face froze slightly. A trace of panic flashed across her eyes.

What Fang Qiu said really hit home.

Her disease couldn't even be cured in top-level hospitals. The only one who could cure her was Fang Qiu. Of course, she could also bet that doctors in the hospital would be able to cure her before she got married. But at present, the hospital did not give her any hope. What she saw were only endless examinations, various suggestions and some short-term medication.

There was no doubt that Fang Qiu was not short of money. No matter how much money she could fork out, she couldn't do anything about it if Fang Qiu didn't want to treat her.

Therefore, she did not want to miss this opportunity.

Fang Qiu added, "However, in order to show my sincerity, I am willing to continue to offer other things I can afford."

"What a smart guy."

He Xue glanced at Fang Qiu and couldn't help muttering.

Fang Qiu didn't beat around the bush and said directly, "Second, the annual salary is five million."

He Xue curled her lips.

Five million?

What she earned in the current position in Network was far more than five million.

“In addition, I’ll give you 5% of our company’s shares,” Fang Qiu said.

He Xue beamed and asked, “Haha. What’s your share?”

“I own 70%,” Fang Qiu answered truthfully.

He Xue laughed even louder.

“You’ve got 70%, but I only have 5%?”

He Xue’s mouth gaped as if she had heard something ridiculous. “Kid, do you think I’m only worth 5% of your company’s shares?”

“With all due respect, you have no experience at all. If you still want to own a large proportion of the shares, you’d better go back to school to continue your studies.”

Fang Qiu was a bit irritated when he heard that.

“If you know the annual profit of my company, I don’t think you will underestimate this 5% of the shares!”

Although he was angry, Fang Qiu tried his best to suppress it.

He Xue raised her eyebrows and said, “Profit? I don’t think a new company can get much profit. If you want to sell your reputation, I really don’t dare to look down on this 5%. Your company has already been set up, but there is still no news about it, which means that you don’t want to use your reputation. So I am really curious. Kid, how much your company’s annual profit is?”

Fang Qiu said, "Half a month ago, my company's annual profit was roughly about one billion a year, but now it's two billion a year!"

"What?" When she heard this, He Xue froze at first, but then she was astounded. She looked at Fang Qiu in disbelief and exclaimed, "How is that possible? How old are you?"

Fang Qiu said, "Nothing is impossible. These are the facts."

"Now, I'm even more curious."

He Xue stared at Fang Qiu. After calming down a little, she asked, "What is your company's name?"

Fang Qiu replied, "Puji."

"Puji?" He Xue was confused and said with a frown, "I've never heard of such a company. The annual income has reached one billion or even two billion. It shouldn't be so unknown, right?"

"A new company." Fang Qiu pursed his lips and said, "I just started it."

He Xue asked again, "What business do you run?"

"At present, we're cultivating and selling medicinal herbs," Fang Qiu replied.

"Hmm?"

He Xue was stunned. As she rolled her eyes, all kinds of inference and connections began to come up in her mind.

She suddenly asked in surprise as if she had thought of some connections. "The main ingredient of the Trillium Root-Securing Pill produced by Hua Yuan Pharmaceutical Corporation is supplied by you, isn't it?"

“Smart.” Fang Qiu nodded with a smile.

This time, He Xue was shocked.

She didn’t expect that the netizens were actually right about this. It was Fang Qiu who provided Hua Yuan Pharmaceutical Corporation with top Desert Cistanche!

“Think about it.”

Looking at He Xue’s shocked face, Fang Qiu added, “If you join us, not only will you be healthy, but you can also get more wealth. Meanwhile, you can also take a path that leads directly to your dream. It can prove to your family that even if you leave them, you can still reach the top of the business world!”

He Xue hesitated.

“I know. You were the one responsible for Network’s rise.”

Fang Qiu continued to persuade her, “But you should know very well that the development of Network has come to an end. Although you have made great changes in Network while working there all these years, it is very difficult to make online software in this era. This is due to the fact that there are too many Internet companies and although your company has gained some advantages by entering the market earlier, now it’s still inferior. Under the pressure from major Internet companies, the prospect will only become daunting. If there is a way to bring it back, I don’t think you will have time to come here to drink coffee every day.”

He Xue gazed at Fang Qiu in amazement.

She didn’t expect that not only did Fang Qiu investigate her, but he had also done thorough research on her company as well.

After pondering for a while, He Xue’s furrowed brows relaxed. She beamed and said, “It would be a pity if I turn down such a great offer.”

“Okay, I’m in!”

Medical Master

Chapter 807: Cocky Kid!

“Welcome on board.”

Hearing He Xue accepting his offer, Fang Qiu immediately rose to his feet, reached out his hand to her and said while shaking hands, “Today’s coffee is on me.”

He Xue said with a smile, “Well, if you failed to poach me, you won’t even be willing to buy me coffee, right?”

“Haha.” Fang Qiu laughed out loud.

He Xue stood up and said, “If you’re not busy, you can wait for me. I’ll go upstairs and hand in my resignation.”

“Okay, I’ll wait for you.”

Fang Qiu nodded and made a gesture of “please”.

He Xue rose from the table, strode forward confidently with her head held high and headed for the company.

In the beginning, she was still deeply attached to Network. As Fang Qiu had said, the company no longer had any development prospects. In the best-case scenario, it would maintain its current business, but it was almost impossible for it to progress any further.

After all, in this era, it was not easy to operate an Internet company like what she used to do.

In fact, a year ago, He Xue had already planned to resign. But she didn't want to be the butt of a joke for others. She was worried that she would not be able to find a company that would suit her after she left Network.

Compared with the current comfort, what she longed for was a better future.

After all, her family background would not allow her to stay in an Internet company and die a slow death.

Now, all the problems had been solved.

She got a suitable position in a better company with a more promising prospect. Fang Qiu could even cure her disease.

What mattered most was that she could still get 5% of the company's shares. That was to say, one-twentieth of the company belonged to her, which meant that she was no longer working for others, but for herself. No matter how great the company became, it was closely related to her.

That was the actual job she needed.

In only an hour, He Xue wrote a resignation letter and left without waiting to get her salary, while the boss and the employees of Network kept trying to persuade her to stay.

It wasn't that she was heartless. She was afraid that she would be reluctant to part with them if she continued to stay.

She went back to the coffee shop.

"Gorgeous, can you come with me now?" Fang Qiu asked with a grin.

"Let's go." He Xue smiled blandly.

Fang Qiu stood up and left with her.

In the coffee shop, suddenly a heart-wrenching cry could be heard.

Most of the people who were sitting in the cafe drinking coffee were actually here for He Xue, but they failed to impress He Xue no matter how much they tried to hit on her. Now He Xue was leaving with a boy wearing a mask. All they could do was watch hopelessly.

How could they not feel devastated?

“Where are we going?” He Xue asked as they walked out of New World.

“Beijiang!”

Fang Qiu grinned and asked, “Where is your car?”

“It was driven away by the people from the car shop. Maybe it will be sold tomorrow.”

He Xue spread out her hands.

“Damn. Could they do that?” Fang Qiu was shocked.

She was extremely fast.

“The private car will arrive in a minute.”

He Xue ignored Fang Qiu’s shock. Instead, she took out her mobile phone and said, “The route I have set is also heading for the airport.”

“That’s the person I’ve selected. Awesome!”

Fang Qiu couldn’t help giving her a thumbs-up.

Her work efficiency was remarkable.

“How did you know that we were going to the airport?”

Fang Qiu asked as they boarded the private car.

He Xue replied, “I have never heard of a place in Luhai where one can plant Chinese medicinal herbs.”

“So, you decided to go with me after we met for the first time?”

Fang Qiu continued to ask, “Have you thought it through? Once you leave, you won’t have much time to come back here. What about your real estate in Luhai?”

“There’s no need to talk about the car. As for the house, as you said, it’s real estate. I can just leave it and wait for the house value to increase, can’t I?”

He Xue replied.

“Of course, you can.” Fang Qiu was embarrassed.

“Okay.” He Xue smiled and said, “All the conditions have been settled. Let’s talk about the job now. What kind of position are you offering me?”

Fang Qiu answered directly, “COO!”

“Chief Operating Officer?”

He Xue nodded and then said thoughtfully, "This position sounds good, but the actual scope seems to be handling chores for the CEO."

"How can you say that?"

Fang Qiu quickly shook his head and said, "There is still a difference between the CEO and COO. The CEO's main duty is to appoint the management staff of the company, execute the resolutions of the board, take charge of the daily business, sign contracts and so on. The main duty of the COO is to take charge of the operations management of the company."

He Xue asked, "Who is the CEO?"

"Me." Fang Qiu gave a wry smile and said, "We're a small company. It has just been established and has not reached the level of an enterprise yet, so it's not suitable to have a board of directors. So I'll be the CEO first. When the board of directors is officially established in the future, I promise that you'll be the CEO!"

He Xue shook her head. "Frankly, I'm still here to help you with the daily work."

"No, you're doing the miscellaneous work for yourself. You're also a member of the board," Fang Qiu said hurriedly.

"That's good to hear." He Xue finally nodded with satisfaction.

A few hours later, they arrived in Beijiāng.

Fang Qiu immediately drew up a contract and asked He Xue to read it. After confirming that there were no problems, they officially signed the contract and He Xue became the COO of the Puji Production Cultivation Pharmaceutical Company!

When they signed the contract, Fang Qiu intentionally called Zhao Shanlin and his roommates over.

“This is Mr. Zhao, the CTO of our company. He is also one of our board members.” Fang Qiu introduced him.

“Nice to meet you, Mr. Zhao.”

He Xue took the initiative to shake hands with Zhao Shanlin.

Having been in the business world for so many years, she certainly knew how important the CTO was for a company, especially for a newly established company like this one.

CTO was short for Chief Technology Officer.

To put it bluntly, the whole company relied on him. Without him, these medicinal herbs would not exist.

“What about these three kids?”

After being introduced to Zhao Shanlin, He Xue turned to look at Zhu Benzhen and the other two and asked.

“The three of them...”

Fang Qiu hesitated for a moment and said, “They are also members of the board. They’re doing miscellaneous duties.”

When he finished speaking, his roommates were displeased.

“Bro, what are you talking about?”

Zhou Xiaotian was the first to stand up and said, "At least, we are also the founders of the company. How can we be handling chores only? We should at least get a title as CXO."

"Okay, tell me what kind of X do you want?" Fang Qiu said with a smile.

"Haha..." Zhou Xiaotian rubbed his hands, his eyes shining. Then he said, "CFO sounds great."

"Well, when you get your financial degree, I'll let you take charge of the money," Fang Qiu said.

"Forget it."

Zhou Xiaotian was discouraged.

"Haha, Fang Qiu is right. We are just doing miscellaneous work around here."

Zhu Benzhen saw that Zhou Xiaotian felt a bit awkward, so he immediately stood up and said, "In fact, it's a little embarrassing for us to take the shares and receive the money. There are no suitable positions for us, so it's good that we are helping out with some of the work."

"I also like to do odd jobs."

Sun Hao echoed. While speaking, he glanced at He Xue and said, "I'll stay idle then. I'll go wherever I want to go. I'll live a comfortable life. Don't you think so, Vice President He? If you're interested, let's travel together in the future."

Zhou Xiaotian immediately became anxious. "How can she go with you? If anyone should go with her, it should be me."

He Xue replied with a smile, "Kid, I've already traveled all over the world. I don't want to travel for now."

Fang Qiu shook his head with a smile and said, "Mr. Zhao, let's take Vice President He out for a walk and introduce our current business to her."

"Okay." Zhao Shanlin nodded and went out with Fang Qiu and He Xue.

"Where did Fang Qiu find such a beauty?"

After the three of them left, Zhou Xiaotian stared at He Xue's back and said while salivating, "Our campus belle has just left. And this boy is already making his move. His mind is not pure. I have to keep an eye on him!"

"Keep an eye on Fang Qiu?" Sun Hao looked at Zhou Xiaotian with disdain and said, "I think you're actually going to keep an eye on our gorgeous Vice President, aren't you?"

"Are you asking me to come here and arrange the work schedules for the people?"

"That's really underestimating my talents."

After walking around the cultivation base, He Xue found that she didn't seem to have anything to do now. All she needed to do was to divide the labor for the workers.

"Of course, there's more than that."

Fang Qiu said with a smile, "Now I just want you to familiarise yourself with the company first. Maybe there will be other issues later."

"For the sake of money, I'll wait a little longer."

He Xue pursed her lips and asked, "When will you solve my health problems?"

"Let's do it now." Fang Qiu stretched out his hand and indicated that He Xue should let him feel her pulse.

"Here?" Although He Xue had an inexplicable look on her face, she still extended her hand to Fang Qiu.

Fang Qiu secretly transferred his internal Qi into He Xue's body while he was seemingly feeling her pulse.

Since he had checked that it was a problem with Qi and blood, he only needed to nourish her Qi and blood. If her Qi and blood were adequate, her illness would be cured.

Soon, Fang Qiu activated his internal Qi to drive the Qi in He Xue's body. He withdrew his hand after the Qi in her body started to circulate.

Glancing at He Xue, Fang Qiu smiled slightly and said, "Your illness is caused by a problem with Qi and blood. I've nourished the Qi for you. Later, I'll give you some medicine to supplement your blood. As long as you take it on time, you'll recover soon."

What? He Xue was stunned. She looked at her wrist, which had been lightly pinched by Fang Qiu and then asked inexplicably, "It's done?"

"It's done." Fang Qiu nodded and asked, "Don't you know what's the nickname given to me by the people?"

"What? Billion Fang?" He Xue was confused.

"Miracle-working Doctor!" Fang Qiu's lips curved in a pout.

Only then did He Xue realize that Fang Qiu did have the title of Miracle-working Doctor. And when she first met Fang Qiu, she also called him Miracle-working Doctor. It was only because Fang Qiu donated one billion yuan that it left a deep impression on people. Therefore, when he mentioned the nickname, the first one that came into her mind was Billion Fang.

“Cocky kid.” He Xue rolled her eyes at Fang Qiu.

In only two short days, the whole cultivation base, including the newly-built section, became well organized under He Xue’s management. It was much better than it was before. The work efficiency was also much higher.

“No wonder Fang Qiu deliberately went to Luhai to poach her. She’s really a talent.”

Zhao Shanlin sighed with emotion from the bottom of his heart.

Medical Master

Chapter 808: The Cultivation Base Was Besieged!

Fang Qiu was also quite impressed when he saw He Xue’s competence.

He also silently gave himself a pat on the back for the way he managed to poach her from afar.

As shareholders of the company, Zhu Benzhen and the other two could not remain idle even though they were incredibly rich after receiving their dividends. Having such a huge fortune to squander, they would become useless if they merely sat there doing nothing.

Fang Qiu managed to satisfy the three boys’ wishes. He sent them to follow He Xue to gain experience and learn how to manage the company. They could master how to deal with various kinds of situations so as to lay a foundation for their future development.

Although He Xue was older than the three of them, she was good-looking and had a perfect figure. The three of them admired her greatly. They could barely take their eyes off her when they first met her.

In this case, after being instructed by Fang Qiu, the three of them were overjoyed and accompanied He Xue cheerfully, longing to stay with her every day.

Today, it was time for the preselling of Trillium Root-Securing Pill and Life-prolonging Earth Pill.

On this day, there were far more people than before on the official website of Hua Yuan Pharmaceutical Corporation.

That was because today was not only the preselling day of Trillium Root-Securing Pill which was all the rage, but also the first day of preselling of Hua Yuan's new product—Life-prolonging Earth Pill.

Everyone was incredibly curious about Life-prolonging Earth Pill. They were eager to see whether it had a better effect than Trillium Root-Securing Pill.

An hour before the start of the preselling, the official Weibo account of Hua Yuan Pharmaceutical Corporation announced in advance. "The preselling quantity for both Trillium Root-Securing Pill and Life-prolonging Earth Pill is 37,500 each. I hope that all of you will be able to get it."

At 12 midnight, the preselling officially began!

Everyone was on a wild buying spree!

However, before some people could even get to the purchase page of the website, the number of products had already been reduced to zero.

In only five seconds, all 37,500 sets of Trillium Root-Securing Pill and 37,500 sets of Life-prolonging Earth Pill were sold out. Not a single one was left.

The speed of purchase was amazingly fast.

Countless people waited in front of their computers for a whole day but failed to purchase even one pack. They were so annoyed that they almost smashed their computers.

"What the fu*k! I failed again!"

"What kind of damn server is this? Every time I open it, they are sold out!"

"F*ck, why can't you try your best to produce more? Release more for sale. If I fail to preorder all the time, how am I supposed to buy it?"

On the Internet, numerous people were furious because of this.

People sent all kinds of posts and on Weibo in order to vent their dissatisfaction and anger.

When Yang Ningyuan saw this outcome, he smiled delightedly.

"Just as I expected."

Seeing another large sum of money coming in, Yang Ningyuan said happily, "As expected, the Life-prolonging Earth Pill did not affect the sales of Trillium Root-Securing Pill. Instead, it made these two products even more popular."

Yang Ningyuan immediately took out his mobile phone and called Fang Qiu.

"Hello?" Fang Qiu was about to meditate. In the past few days, because of the expansion of the cultivation base, he had been busy, and he had forgotten about the first preselling of Life-prolonging Earth Pill.

"It was crazy!"

On the other side of the phone, Yang Ningyuan laughed and said, "Life-prolonging Earth Pill sold out crazily. Guess what happened to the first preselling tonight. Together with Trillium Root-Securing Pill, the two products were sold out in five seconds. Not a single pack was left."

"Really?" Fang Qiu was also shocked.

Five seconds? What kind of speed was this?

In the blink of an eye, they had sold 75,000 sets.

Yang Ningyuan asked with a smile, “How about this? I’ll buy another piece of land for you, okay?”

“Things will reverse if you go to the extremes.”

Fang Qiu was speechless and said, “Only by keeping people in suspense can you stay fresh.”

“You’re right.” Yang Ningyuan nodded and said, “Next, we just need to maintain this trend to prevent the market from being saturated. After all, the harder it is to get, the more popular it will be.”

The next day, the news that Trillium Root-Securing Pill and the Life-prolonging Earth Pill were sold out in five seconds was released. The official Weibo of Hua Yuan Pharmaceutical Corporation also reposted it.

On Weibo, there was the same piece of news everywhere.

There was no doubt that everyone was astounded when they saw this news.

75,000 sets of health products were sold out in five seconds. In this way, it only took Yang Ningyuan five seconds to gain 100 million.

Life-prolonging Earth Pill was more expensive than Trillium Root-Securing Pill. That was to say, Yang Ningyuan had earned more than 100 million yuan in five seconds!

“What the f*ck! This is simply daylight robbery!”

“Oh my God, based on this rate, if Yang Ningyuan earns 100 million each day, he will be able to become the richest man in Huaxia in six or seven years!”

“What the f*ck. If I had known earlier, I wouldn’t have sold the shares of Taikang and Siqi. If I had kept them until now, I would have become a millionaire.”

“Siqi and Taikang have merged. When will Hua Yuan’s stock be listed? I’m waiting to buy it!”

For a moment, the investors were anxious.

In this situation, there was no need to analyze the stock at all. As long as Hua Yuan opened for trading, there would definitely be several upward trends limits. So long as the stock was open for purchasing, they would buy it instantly.

Moreover, with Hua Yuan Pharmaceutical Corporation’s news, the stock of other pharmaceutical companies that cooperated with them also rose. Especially those companies that specialized in the production of auxiliary medicinal materials, their stock prices soared all the way.

Those pharmaceutical companies which did not cooperate with Hua Yuan were both envious and speechless!

“Should we sell medicinal materials only instead of producing drugs?”

In the office of the cultivation base of Beijiāng, looking at the news that Trillium Root-Securing Pill and Life-prolonging Earth Pill were all the rage, on her mobile phone, He Xue felt a little reluctant and said, “What we have is the core competitiveness. Why don’t we do it instead of letting them make the money?”

Fang Qiu said with a faint smile, “Actually, I gave him those two medicine formulas.”

“What?” He Xue was shocked and hurriedly asked, “How much did you sell them for?”

“For free,” Fang Qiu replied.

Staring at Fang Qiu as if she was looking at either a monster or a fool, He Xue was silent for a long while. Then she opened her mouth, "I've met a lot of prodigals, but I've never met such a prodigal like you!"

"Relax." Fang Qiu smiled blandly and said, "Only when the predecessors plant a tree can the later generations take advantage of the shade."

He Xue's eyes lit up when she heard that and she immediately asked, "Do you mean that you have a better formula than Trillium Root-Securing Pill and Life-prolonging Earth Pill?"

"More than that."

Fang Qiu nodded and said, "There is another type of medicine."

"Wow." He Xue stared at Fang Qiu with her beautiful eyes and said, "I didn't expect you to be so sophisticated at such a young age. Since that's the case, I can rest assured. It seems that I'm really going to make a fortune with my 5% of shares."

Fang Qiu grinned.

"Beep, beep, beep..."

However, hardly had he laughed out loud when his phone rang.

He took out his phone and saw that it was from Zhu Benzhen.

Fang Qiu answered the phone.

"Fang Qiu, we're in trouble. The cultivation area has been besieged."

Zhu Benzhen's anxious voice came from the other end of the phone.

"I'll be right there!" Fang Qiu answered and hastily hung up. He stood up and walked out of the room.

"What happened?" He Xue asked.

"There's a problem at the cultivation area." Fang Qiu replied, "Someone seems to be making trouble."

As they were talking, Fang Qiu rushed out of the office and headed for the cultivation base.

He Xue followed closely behind.

Soon, they went out of the office, bypassed the cultivation warehouse and saw the situation at the cultivation area.

Fang Qiu took a closer look.

At this time, there were already a lot of people gathering outside the cultivation area.

Judging from their clothes, they were all locals.

"What's going on?" He Xue frowned.

"Let's take a look." Fang Qiu took out the mask from his trouser pocket and walked toward the crowd, while putting on the mask.

Beside him, He Xue nodded.

She knew that the reason why Fang Qiu wore the mask was that he didn't want to make a big deal out of it. Since these people dared to come here to make trouble, they must be fearless. Once they saw that the boss here was Fang Qiu, they would definitely try their best to make a scene. They would probably

claim that Fang Qiu bullied people and things like that. In that case, it would create a scandal. Therefore, it was indeed a good decision for Fang Qiu to conceal his identity.

“What’s going on?” Coming to the crowd, Fang Qiu, who was wearing a mask, went straight to Zhao Shanlin who was in the front.

“These people are the local riffraff!”

Mr. Zhao was so irritated that he pointed at the group of people and said, “They are simply making trouble for no reason.”

Zhu Benzhen added, “These people said that this is the land of their hometown and they claim that our cultivation base encroached on their land and they are here to make trouble.”

Before Zhu Benzhen could finish his explanation about the situation, the leader of those people immediately stood up and shouted, “This is our land. Get out of our territory. We won’t allow you to take up our land, not a single spot!”

“Get out, get out...”

A large group of people behind him immediately raised their arms and shouted loudly. All of them were holding sticks and hammers in their hands as if they were going to fight.

“Do you think this is your land?” Fang Qiu understood that these people were here to blackmail them, so he said directly, “If it’s your land, please take out your land deeds. Then I’ll move out immediately. If you can’t show me the deeds, get out of here!”

“What land deed? We don’t know anything about that.” The leader glared at Fang Qiu with a fierce look and said, “We grew up here. We all know that this land belongs to us. Don’t use any talk about deeds to intimidate me. I have endless ways to stop you from working here. Now you have two choices. You can either return our land or pay us rent!”

“Blackmailing me?” Fang Qiu sneered.

“So what if I am?”

The leader sneered and said, “If you want to work here, just do as I say. Otherwise, I will not let you continue working here!”

“You’re so bold. Have you called the police?” Fang Qiu took out his phone from his pocket, ready to call the police directly.

Unexpectedly, this group of people had no intention of stopping him. On the contrary, they sneered and waited, seemingly not afraid at all.

Soon, the police arrived. There were only two or three of them. After all, this was a remote desert area. There were only five or six people in the whole police station. It was already good that two or three of them could turn up.

But there were at least 30 ruffians here, all of whom were armed with deadly weapons. It was obvious at a glance that they could not be suppressed by the police.

Medical Master

Chapter 809: Maybe They Were Just Passing By

The policemen were stunned.

Looking at the group of over 30 people, they did not dare to suppress them at all. They could only try to persuade them in a nice manner.

One of the police said, “It’s legal for them to set up a cultivation base here. They have the right to use this land and they have all the required certificates. Don’t make trouble here, okay?”

“We don’t care. We grew up here, so this is our land. Since he has taken our land, we need to seek justice!”

The leader completely ignored the police's persuasion and simply demanded, "If you want to use our land, you must pay us rent!"

"Yes, pay us rent."

"You must pay us rent."

"If you don't give me the rent, then leave."

The group of people shouted, one after another.

All of them looked ferocious, which intimidated the people.

The police continued to try and convince them.

But these people did not listen at all.

Under these circumstances, the police did not dare to use any force.

There were only a few of them. Three policemen were up against over 30 people. What could they do if they actually had a conflict? Should they take out their guns? These thugs would not even give them a chance to pull out their guns.

Seeing that the police could not stop the thugs, the people working in the cultivation base were all anxious.

"I..." He Xue stepped forward as if she wanted to stand up and argue with these thugs.

To her surprise, just as she was about to say something, Fang Qiu reached out and stopped her.

He Xue was stunned.

In her opinion, Fang Qiu was still young, so he would not have enough experience to deal with this kind of issue, nor did he have the ability to handle it. Therefore, she wanted to stand up. But Fang Qiu baffled her when he prevented her from doing it.

“I’ll give you one last chance. Leave.”

Fang Qiu stopped He Xue and said in a cold tone.

“Leave?” The leader sneered disdainfully and said, “This land belongs to us. Why should we let you occupy it? If you want us to leave, fine. We’ll go after we get the money.”

“Okay, that’s your choice.” Fang Qiu nodded and dialed another number.

“Boom, boom...” Not long afterward, the roar of engines could be heard.

Everyone turned to look in the direction where the sounds were coming from.

They saw several large military trucks driving quickly toward them, which were full of soldiers.

Those thugs were scared out of their wits.

They were not afraid of the police, but soldiers were different. No one dared to provoke the soldiers!

As the military vehicles arrived, those thugs exchanged glances and quickly put down the weapons in their hands and hid them beside their feet.

But at this moment, all the military vehicles suddenly stopped.

Then, all the armed soldiers jumped down from the vehicles.

He Xue, Zhao Shanlin, Fang Qiu's three roommates and the other employees in the cultivation base were dumbfounded.

All of them stared at Fang Qiu in shock.

"What the f*ck, you can call an army over?"

Everyone was stunned by this scene.

But no one made a sound. They merely watched what was happening in front of them.

After the soldiers got out of the trucks, they all stood upright and surrounded the group of over 30 local thugs.

These soldiers did not know why they were here. Anyway, the order they received was to leave after solving this problem without too much talk. The only thing they were aware of was the need to protect this place.

A captain of the army shouted, "This is a military restricted area. Why are you causing trouble here?"

As soon as he said that, all the thugs trembled in fright and were about to run away.

"Run?"

"I'll shoot if you don't stop!"

"Bang!"

Even as he spoke, the captain shot directly at the sky.

Gunshots rang out.

All the thugs who were running were so scared that all of them immediately squatted on the ground. All of them held their heads and did not even dare to stand up straight.

“Take them away,” The captain shouted.

The soldiers immediately took action. They escorted all the thugs into the trucks and then drove away.

Since they came and left, none of these soldiers greeted Fang Qiu during the whole process. On the one hand, it was because Fang Qiu was wearing a mask. On the other hand, it was because Fang Qiu was not in John Doe’s guise, so they did not recognize him at all.

After they left, everyone’s eyes were fixed on Fang Qiu.

“Damn, Fang! You’re so awesome. Did you ask those soldiers to come here?”

Zhou Xiaotian grabbed Fang Qiu’s arm in shock and asked, “Be honest, are you the second generation of the army? Is your father the chief?”

“If my father worked for the army, will I need to run all the way from Jiangjing to this waste place to cultivate?”

Fang Qiu pursed his lips and said, “You know that there is a troop stationed nearby. Maybe they were merely passing by and wanted to help...”

All the people were speechless.

It was obvious that it was Fang Qiu who made a call and after that these soldiers came. How could it be that they were just passing by at this moment?

Sun Hao said disdainfully, "Fang, to be honest, I'll be a fool if I believe you!"

"It's possible." Fang Qiu gave a wry smile and said, "Haven't you heard of a song?"

"Let's shout when we see injustice. When it's time to help people, we should help them. Soldiers and civilians are the same. When they see someone making trouble here and that civilians are being bullied, they will definitely help us. Isn't it reasonable?" Fang Qiu added.

When he finished speaking, everyone rolled their eyes, ignored him and turned to leave.

Standing beside them after seeing such a big commotion, the policemen were also astonished. The way they looked at Fang Qiu was entirely different. They quickly turned around and left.

They had clearly heard what the military officer said earlier.

This place was a military restricted area!

They could not interfere in the business here anymore.

No sooner had the police left, then He Xue turned her head and her gaze swept across the scattered crowd. Then, she looked at Fang Qiu thoughtfully and said, "I didn't expect you to have such a strong background."

After that, she turned around and left.

"Hey, I've told you guys. They don't even know me. Didn't you see that? Those soldiers just ignored me."

Fang Qiu continued to argue, but unfortunately, everyone had gone off and no one listened to him at all.

“Beep, beep, beep...”

In the afternoon, while Fang Qiu was reading the news in his office, his cell phone rang.

It was a call from Li Ji.

“Hello?” Fang Qiu answered the phone.

“We’ve given those who tried to make trouble at your place a long lecture and then let them go.”

Li Ji’s voice was heard. “However, from now on, you need to have a new identity. You heard in the morning that this area has been classified as a military restricted area, but of course, it is still your land. But there might be some problems when your land is in the military restricted area, so you must have an appropriate identity.”

“Have you decided?” Fang Qiu asked.

“Yes.” Li Ji nodded and said, “As Fang Qiu, your identity will be the person who works with the army to develop medicine.”

“Okay.” Fang Qiu nodded.

This identity was great. It could be a perfect cover up for everything.

“By the way.” When Li Ji was about to hang up, he suddenly paused and said, “In fact, those people are pathetic. They are all patients who suffer from arsenic poisoning. In addition, they have no money and no hope of survival, so they go everywhere to make trouble.”

“Arsenic poisoning?” Fang Qiu raised his eyebrows.

He knew what it was like to have arsenic poisoning because he had read relevant articles on that before.

Arsenic was one of the metalloids that existed widely in nature in various forms. Among them, arsenic trioxide was known as Pishuang which was one of the oldest poisons. It was a colorless and odorless powder with a white frost-like appearance.

“Yeah.” Li Ji nodded.

“Well...” Fang Qiu pondered for a moment and said, “Give me an address. I’ll go and visit them tomorrow and see if I can cure it. But it might be really difficult in this case.”

Li Ji asked with a smile, “Render good for evil?”

..

“It’s a doctor’s duty,” Fang Qiu replied.

“Okay, I’ll send the address to your phone.” Li Ji answered, hung up and sent the address to Fang Qiu.

Fang Qiu took a look.

Then he put his phone into his pocket, ready to pay them a visit tomorrow.

“Beep, beep, beep...”

However, the next morning, Li Ji called again.

Fang Qiu answered the phone.

"The people you met yesterday are all dead." Li Ji's solemn and repressed voice sounded on the phone. He said, "Not only them, but all the people in their village are dead as well. It was a complete massacre!"

"What!!!" Fang Qiu was nonplussed.

Li Ji said, "There are very few people who have the ability to kill all of them secretly. Even if there are people who are capable of doing this, they should have no grievances with people in that village."

"Are you suspecting me?" When he heard this, Fang Qiu was stunned.

He had the ability and all the people resented him greatly.

"To be honest, you're the most likely suspect." Li Ji gave a wry smile and said, "But we believe that you are not one who would do such an evil thing."

"Then what are you going to do?"

"Have you decided?" Fang Qiu asked.

"The current situation is that it's not appropriate for the army to intervene in this matter, so I hope you can investigate it. After learning about it, we went to the scene and barricaded the place well. Now that we have withdrawn, you can go in and check it out. After all, you have learned how to do scouting work from the army."

"Okay, I'm on it." Fang Qiu nodded and said, "But I didn't kill them!"

After that, Fang Qiu hung up. Without using any disguise, he drove the car directly to the address sent by Li Ji yesterday.

The village was called the Rock Sand Village.

It was a small sand city, which was only about ten kilometers away from the cultivation base.

Soon, Fang Qiu reached Rock Sand Village.

From afar, he could see that the village was surrounded by one-meter-high wind-blocking walls made of rocks. There were many houses built with large stones.

From a distance, Fang Qiu saw that there were corpses lying everywhere in the village.

The yellow sand on the ground occasionally glowed blood red and looked quite bloody.

Coming closer, Fang Qiu took a careful look and found that these corpses were indeed the ones of the people he met yesterday. Judging from the wounds on these people's bodies, they had been killed in one move. The dead did not suffer any pain and they even died before they could react.

Obviously, it was an expert who did this!

As he walked into the village, Fang Qiu's face suddenly turned pale.

He saw the bodies of several children. The person who did it did not even spare the children. He did not exclude any living creature in the village, including horses, camels and dogs!

Medical Master

Chapter 810: The Murderer Showed Up!

The yellow sand was stained with blood. There was blood everywhere.

In the small village at Sand City, Fang Qiu came across the corpses of old people and children, dried bloodstains on the ground and blood streaks on the stone walls.

A burst of unrepressed rage rose in him!

“Who is it? Who on earth did this?” He was so shocked and furious that he shouted to himself.

Fang Qiu was astounded by the cruelty of the person who murdered them. He did not even spare the elderly and children. He was so furious at such a monstrous act!

Taking a deep breath, Fang Qiu hastily squatted down to examine the bodies of the children to see if there was any possibility of saving them.

However, the corpses were already cold.

There was nothing he could do!

Fang Qiu stood up, clenched his fists, closed his eyes and made every effort to calm himself down.

“Whoosh.” At the next moment, Fang Qiu seemed to have noticed something. He suddenly opened his eyes and looked at a high slope in front of him.

A young man was standing on the high slope.

He observed the man carefully.

It was a young man in his thirties with fine features. He was wearing dark gray clothes, which made people feel that he was in his prime at first glance.

However, this person was standing on a high slope. Facing the bloody village, he showed no pity at all. On the contrary, he was smiling as if he had encountered something delightful.

When Fang Qiu stared at him, the young man standing on the high slope also noticed Fang Qiu.

“Hmm?”

The moment he saw Fang Qiu, the young man was slightly stunned, and then he suddenly beamed and said, “I didn’t expect to meet the miracle-working doctor here.”

Fang Qiu’s face grew a little solemn while he was watching him.

He could feel that the strength of this young man was very powerful. Whether it was from his momentum or the aura from his whole body, he seemed like a super master who was equivalent to an immortal.

At this time, he appeared in this place and had such a smile on his face.

Fang Qiu thought, “This man might be the murderer!”

He was eager to get to the bottom of it, but he restrained himself because his current identity was Fang Qiu, not John Doe!

Fang Qiu was calm. “Am I going to expose myself?”

If his identity was exposed in this matter, he would not feel that it was a loss.

However, judging from the young man’s expression, he did not seem to be aware of his real identity.

Fang Qiu had already concealed all his powers as soon as he saw the man.

“Who, who are you?” Fang Qiu looked at the young man from a distance and asked, “Have you seen the murderer?”

"The murderer?" The young man grinned and said playfully, "I am the murderer!"

Fang Qiu was so startled by his confession that he staggered back a few steps. While turning around and running away in horror, he took out his phone and called the police.

"Swish." But right at this moment, the young man moved and directly flashed like a beam of light. He caught up with him in an instant. With a turn of his wrist, a short knife, which was only 20 centimeters long, suddenly appeared and gleamed with a cold light. As he moved, the knife was pointed at Fang Qiu's neck.

"What, what do you want to do?" Fang Qiu stopped in horror. He leaned back and his eyes fell. He looked at the sharp knife on his neck and panicked.

The young man said with a smile, "If you don't call the police, we can have a talk."

"Okay." Fang Qiu immediately deleted the number on his phone, put it into his trouser pocket and raised his hands.

"Great." The young man smiled with satisfaction and said, "Sit down. Let's have a talk."

After that, the two of them sat down together as if they were squatting in a pit. They squatted in the middle of the village full of corpses and looked at each other.

After squatting down, Fang Qiu took a deep breath, glanced at the bodies of the elderly and children around him and asked angrily, "Why did you kill them? They were all living human beings. Doesn't a person's life mean anything to you?"

"Calm down." The young man shook his head with a smile and said, "No matter how mad you are, they won't be able to come back to life. And for them, death is a relief."

"I have a question for you." The young man stared at Fang Qiu and asked, "Are you willing to let them live a painful life, or will you let them suffer the pain of a quick death?"

"This is a paradox!" Fang Qiu immediately retorted and said, "Why are you so sure that they will be in pain for a lifetime if they were alive? How do you know that their illness can't be cured? I came here to treat them!"

"Are you sure you can cure them?" The young man shook his head and asked Fang Qiu. He didn't wait for Fang Qiu's answer and said directly, "You're not sure, are you?"

"I'm not sure, but it doesn't mean there is no hope."

Fang Qiu argued reasonably, "Besides, there are so many old people and children. As long as we are willing to help, we will always have ways to help them, instead of killing people like you!"

"Help?" The young man said disdainfully, "They are patients who have been suffering from arsenic poisoning since they were children. Can you imagine how miserable their lives will be?"

"Instead of letting them live such a miserable life, it's better to stop their pain directly and send them away from this pain filled world!"

Fang Qiu became furious again.

Staring at the young man, he scolded angrily, "You are a lunatic. Everyone is equal in this world. No one has the right to deprive another person of living!"

"I can." Before Fang Qiu could finish, the young man interrupted directly, "In this world, no one wants to die, but the real pain is to live. In this case, why do they have to live like this? They just can't make up their minds. Since they can't, then I'll help them make this decision."

"Besides, don't you think we are the same?" Speaking of this, the young man suddenly laughed and said, "You are a doctor, a doctor who saves people from illness, and I am also a doctor, a doctor meeting patients when they die. While you are treating the patients, I am helping to ease their pain. We are the same kind, wanting the best for people. We are all good people."

"Bah!" Fang Qiu spat at him without saying a word.

The man dodged in a flash.

“Haha.” After avoiding Fang Qiu’s saliva attack, the young man said with a smile, “You are still young. You don’t know that in this world, living is more painful than death.”

“I only know that those were lives. I came here to help them, but you killed them!” Fang Qiu accused furiously, “You murderer!”

“Clang!” The cold blade appeared again.

The young man’s face darkened. He waved, put the knife against Fang Qiu’s neck again and said, “If you say one more word, you will die!”

“Then let me die!” Fang Qiu glared at him righteously and said, “If I am alive, I must call the police to arrest you!”

The young man laughed and said, “They are welcome to catch me.”

After that, he put away the short knife in his hand.

While releasing Fang Qiu, he said, “I won’t kill you, because you and I are both relievers of the pain for people in the world. We are the same type. Since we are of the same kind, why should I kill you?”

“Let me ask you another question.”

“If your parents are sick and they are feeling worse than death and they can’t be saved. Will you choose to let them be euthanized, or do you want to see them die slowly of a malingering illness?”

“Don’t tell me that the laws of the country don’t allow it. Just assume that you are allowed to do it because all rules are set by people. If one day, you are allowed to do it, will you choose this?”

After asking this question, the young man stared at Fang Qiu and waited for his answer.

“No assumption.” Fang Qiu immediately replied, “This is a trick question. I won’t let my parents be in that kind of situation!”

“You’re smart.” The young man smiled and said, “But, there are few people in the world who are as smart as you. People in the world will not give up until they hit rock bottom. That’s why they need us to help them.”

“We?” Fang Qiu got angry and asked, “You have an accomplice!”

The young man did not answer Fang Qiu’s question. Instead, he said indifferently, “Another question. During the war, your comrades-in-arms were shot on the battlefield. It’s better to die than to be treated. Will you kill him and relieve his pain?”

“I can cure him!” Fang Qiu replied immediately.

“Uh...” The young man was obviously stunned and felt that he had asked the wrong person. He shook his head and said, “Oh, you are a doctor.”

“So, what do you think a normal person would choose if he is not a doctor?”

“Hmph!” Fang Qiu snorted and said, “There are fundamental problems with the two questions you asked. Even if I choose to help them to die, am I a bad guy? This is a choice made when there are no other solutions. It’s totally different from you, the murderer who took the initiative to kill people. Even if I choose to let them die, we’re not the same!”

“What’s more, I’m a doctor! I’m a doctor who saves people and heals the wounded, but you’re a heartless killer!”

When the young man heard this, he could not help laughing out loud and said, “People laugh at me because I’m too crazy. I laugh at them because they will never understand me!”

“You are the one who can relieve people’s pain, so I won’t kill you. Get lost!”

Fang Qiu glared at him and said, “I’ll call the police to arrest you when I get back!”

“Whatever.” With a calm face, the young man answered and then strode away directly.

But he suddenly stopped halfway and said, “In the future, the physical pain of your body is nothing. The pain in your heart is the greatest torment. If you are willing to join us, you are welcome to come to me.”

He strode away.

“Who the hell are your people?” Fang Qiu shouted at the man.

“Nirvana.” These two words came out of his mouth.

Fang Qiu was shocked when he heard that.

He was indeed a member of the Nirvana Organization!

A cold light flashed in his eyes.

But Fang Qiu didn’t catch up with him. Instead, he continued to maintain his disguise and turned to leave.

After walking to a corner out of Fang Qiu’s sight, the young man immediately turned back and observed Fang Qiu secretly.

He murmured to himself, “He is indeed an ordinary man. It seems that Fang Qiu and John Doe are not that great in the University of Jiangjing Chinese Medicine. It seems the reason why Fang Qiu is close to

the army is that the military really takes a fancy to his medical skills. However, John Doe... All the signs show that you are the one who killed the 27 guardians in the desert. Just wait. I will definitely find you and guide you or convert you!"
