Medical Master

Chapter 981: Write Two More Papers!

“What, we can’t buy it?”

“Why can’t we buy such a nice thing?”

“Do I have to go to Huaxia in person to buy this thing?”

“I strongly demand they start selling the product in our country!”

“Our country needs it too!”

On Facebook, foreign netizens made a request one after another, asking the company to sell Holy Flowers Formula in their own country.

Soon, this matter was noticed by some mainstream media outlets and foreign-language media. They directly made news about it, which quickly spread in Huaxia.

Meanwhile, the international media outlets also noticed the Holy Flowers Formula. Some media workers even began to make follow-ups about the trial video of the foreign woman while others directly came to Huaxia to find some materials and report the news abroad.

Under such circumstances, the Holy Flowers Formula became more and more popular in foreign countries.

As soon as the domestic news was released, the news of the foreign media, as well as the news that those foreigners strongly demanded that the Holy Flowers Formula be sold in their countries, also came out.

While reading the news, people in Huaxia burst into laughter.

“These foreigners are well-informed, but we can’t buy them in our own country. And you, who are in different countries, want to buy them? I think you’d better wait until next life!”

“That’s right. The Holy Flowers Formula is only sold in Huaxia. There’re only 50,000 boxes in every round of preorder. We don’t get enough in Huaxia. How would we sell it to you? Dream on.”

“Foreign friends, you can only have a look. This is not something you can buy, haha.”

The netizens all beamed.

It was rare for them to feel particularly proud.

After all, the Holy Flowers Formula was purely a domestic product without any foreign ingredient. Unfortunately, there were too few of them, so they couldn’t export the product. Otherwise, they would definitely make a large sum of money from these foreigners!

“Amazing. It actually spread to foreign countries?” At the cultivation base in Beijiang, seeing the news on the internet that foreigners were fascinated by the Holy Flowers Formula, He Xue came up with an idea and immediately ran to the office.

“Follow me!” He Xue grabbed Fang Qiu who was sitting in front of the desk and dragged him into the car without saying a word. They rushed all the way to the Snow Lotus cultivation base located under the snow-capped mountain.

“What’s wrong with you?” On the way, Fang Qiu asked in bewilderment.

“What’s wrong?” He Xue retorted, “I’m getting mad!”

She suddenly braked and stopped at the Snow Lotus cultivation base. Then she dragged Fang Qiu out of the car, pointed to the open field at the foot of the mountain, and said, "Hurry up. Develop another Snow Lotus cultivation base for our company. Now not only Huaxia people, but also people from foreign countries have noticed our Holy Flowers Formula. The current production is not enough to supply the market in our country, let alone foreign countries."

"Our company has ambition and will definitely expand into the international market in the future. Do you think it's possible for us to achieve that with such a small cultivation base?"

Fang Qiu gave a wry smile.

He also saw the news early in the morning about foreigners talking about the Holy Flowers Formula, and he knew that He Xue would definitely focus on the international market.

However, he didn't expect He Xue to react so quickly.

There was no way to refuse to do so.

At He Xue's strong request, Fang Qiu could only get to it rapidly and develop three pieces of land nearby in a row. Given that the terrain that he shaped before was big enough, the newly developed three pieces of land were also covered by the terrain. Because they had been operating for a long time, they did not need any buffer time to prepare these three pieces of land. As soon as the land was reclaimed, they could transplant Snow Lotus seedlings immediately and plant them here.

As the cultivation base expanded, the giant tiger that had been kept there ran out and played happily inside the base.

As for the tiger, it would be fine even if it couldn't eat them all. As long as it could see the abundant food in front of it, it was the most thrilling thing since it was able to cultivate in a place filled with Qi of Heaven and Earth.

Soon, after people finished cultivating the three pieces of land, He Xue instructed the workers in the snow lotus base to transplant the seedlings and plant them.

Just when everyone was busy with work, He Xue dragged Fang Qiu over again.

"I think we should have a good discussion." He Xue looked at Fang Qiu with a serious face.

"About what?" Fang Qiu asked.

"Expand into the international market." He Xue replied while knitting her brows. "You should have seen the thing on Facebook, as well as the news about Holy Flowers Formula made by the media at home and abroad, right?"

"Yes, I see it." Fang Qiu nodded.

He Xue said, "This is an opportunity for our company. We can make use of this opportunity to get into the international market. This is rare in the business circle, and we can't let it slip if we get the chance."

Fang Qiu asked in confusion, "Don't you think we may rush it? The Holy Flowers Formula has just been on the market in Huaxia. Now it's still in short supply in the country. If you take a part of it to sell abroad under such circumstances, aren't you afraid that people in the country will scold you?"

"Pfft, what are you thinking about?" He Xue rolled her eyes at Fang Qiu with a disdainful look and continued, "Of course I know that. I also know that it's absolutely impossible to sell the Holy Flowers Formula abroad now. I'm not talking about putting Holy Flowers Formula in the international market, but the Trillium Root-Securing Pill and Life-prolonging Earth Pill!

"Now, because of building the cultivation base continually in the past few times, the production of Desert Cistanche can steadily supply the manufacture of these two drugs in Huaxia. In this case, we can sell all the surplus medicine abroad.

"With the of Holy Flowers Formula, these two drugs will definitely attract foreigners' attention. Once the effect is shown, we will not have to worry about publicity at all. This is the first step for us to enter the international market. Once the Holy Flowers Formula can steadily supply in the domestic market, we can sell the surplus Holy Flowers Formula abroad. At that time, we will be able to completely establish a firm foothold in the international market. Of course, we may also achieve it in advance, just by relying

on the first two products. After all, there is a huge difference between 1,000 yuan and 1,000 dollars,” As she said that, He Xue’s eyes lit up again.

It was money that they were talking about!

“Okay.” Fang Qiu immediately nodded. Their group had just been established, so he was not used to regarding the Trillium Root-Securing Pill and Life-prolonging Earth Pill as their own products. Therefore, he did not think of this in the first place. Only after He Xue mentioned it, did he have the same thought.

“Since you’re the one who brought this up, I’ll leave it to you. But I’m afraid it’s not easy to export medicine,” said Fang Qiu.

He Xue chuckled, “Haha. We’ll have to count on you then.”

Fang Qiu was stunned and asked, “Me? How does it have anything to do with me?”

He Xue smiled, “Actually, it’s not a big deal. I need you to write a paper about these two medicines and publish it in a foreign periodical!”

Hearing that, Fang Qiu immediately understood.

He Xue wanted to make use of his influence.

However, on second thought, that was indeed the case.

After all, although he became famous for what he had done at the medical conference, he hadn’t tried to do anything with the help of his reputation yet. If he didn’t use it now, it would be a waste of having such a reputation and he might even be forgotten.

“Are you sure?” Fang Qiu stared at He Xue and asked with a wry smile.

The reason why he smiled wryly was that He Xue was a genius in the business world. She already planned everything ahead and wouldn't let go of anything that she could utilize.

But he liked it.

He Xue nodded with certainty and said, "Of course I'm sure. I've already collected all the data for you."

Fang Qiu replied helplessly, "All right then. I'll go all out this time. Anyway, it will benefit the people of the world and extend the influence of Chinese Medicine on the international stage, which will be an important step to promote Huaxia Chinese Medicine to the world!"

"That's the spirit. I'll send you all the data I've collected when I get back. You just need to focus on writing your paper." He Xue nodded in satisfaction.

After returning to the Desert Cistanche cultivation base, He Xue instantly sent all the collected data to Fang Qiu.

Fang Qiu didn't hesitate.

He stayed in his office for two days and wrote two papers.

After that, he directly submitted them to the periodical, "Medicine and Humans", like the first time he had submitted his paper.

When the review editor of Medicine and Humans saw Fang Qiu's name, he was suddenly in high spirits.

"It finally came. It's been almost a year. Finally, another paper written by the Huaxia people came." Holding Fang Qiu's paper, he looked rather excited.

He still clearly remembered the sensation caused by that paper last year and the Huaxia Chinese Medicine doctor who shocked the whole world at the medical conference!

Unfortunately, after the medical conference ended, the man named Fang Qiu disappeared without a trace. He tried several times to get in touch with Fang Qiu so as to make interviews and ask for his contribution, but he failed.

Unexpectedly, after waiting for so long, he finally heard from Fang Qiu.

The editor couldn't wait to open the paper and read it.

After reading it, he was deeply shocked!

"How, how is this possible? Is there such a powerful medicine in Huaxia?" What he saw was not only the papers written by Fang Qiu but also all kinds of extremely detailed effect data in the papers.

He knew if these two papers were published, it would definitely cause another heated discussion about traditional medical skills!

He didn't hesitate and hurriedly sent Fang Qiu's two papers to the e-mails of those masters of the medical industry all over the world, who were also the paper reviewers of "Medicine and Humans".

It was still the five top-notch medical masters.

After reading Fang Qiu's papers as soon as possible, the five top-notch medical masters soon agreed to publish the papers. But they also felt that the data recorded in Fang Qiu's paper was incredible. While agreeing to publish them, they also advised the editor to be strict about the data.

After receiving the replies from the five top-notch masters, the review editor immediately took Fang Qiu's papers to the chief editor and proposed to verify the data personally in Huaxia.

After reading Fang Qiu's papers, the chief editor was also astounded.

He immediately made the decision and gave the review editor five days to verify it.

After confirming the itinerary, the chief editor immediately contacted Fang Qiu, made the request for inspection and verification, and got Fang Qiu's consent.

During the two days when the people of Medicine and Humans were on their way, Fang Qiu randomly chose a city on Weibo and saw patients as scheduled.

Medical Master

Chapter 982: You Are Really a Born Businesswoman!

Two days later, Fang Qiu and He Xue came to the capital.

In the headquarters of Hua Yuan Pharmaceutical Corporation, Yang Ningyuan was already waiting in the company.

"You came." Seeing He Xue and Fang Qiu wearing a mask, Yang Ningyuan immediately came up to them and said with a smile, "I just received a call. The editor of Medicine and Humans and a top-class medical expert just got off the plane and are on their way here."

"Mr. Yang, I'm sorry for bothering you this time," said Fang Qiu with a smile.

"We're family. It's no trouble at all."

Yang Ningyuan shook his head and laughed. Then he turned to look at He Xue and said, "Ms. He is the one who needs to sweat."

He Xue glanced at the two of them as she responded, "Don't worry. Everything's already prepared, and we just wait for them to carry out an inspection."

"That's good." Fang Qiu nodded with satisfaction.

Soon, Yang Ningyuan led them into his office. They were chatting while drinking tea.

“Beep, beep, beep...” Ten minutes later, Fang Qiu’s phone rang.

“Hello?” Fang Qiu answered the phone.

“Hello, Mr. Fang. We’re now at the gate of Hua Yuan Pharmaceutical Corporation.”

A voice that he was not quite familiar with came from the other end of the line. Of course, the man said in pure English.

“Okay, I’ll be right there.” Fang Qiu replied. After hanging up the phone, he immediately called He Xue and Yang Ningyuan to go with him. They swiftly went downstairs to greet them.

When Fang Qiu arrived at the door, he immediately saw a familiar face.

It was a middle-aged man with grey hair, but his face looked young.

He was the medical expert—Ryan!

Fang Qiu still vividly remembered that after his first paper caused a sensation all over the world, the first team to come to Huaxia for inspection was led by Ryan.

At that time, a total of five people came.

However, unlike the last time, the thing that needed to be inspected was truly mysterious. It was so mysterious that people could not believe it at all. That was why there were so many people coming to carry out an inspection.

But this time, there were only two kinds of drugs that needed to be inspected.

Therefore, Ryan, who was one of the world's top-class medical experts, was enough.

As Fang Qiu glanced around, next to Ryan stood a tall and skinny young man with curly hair and many freckles on his face.

He took a closer look.

There was an identity card hanging around the young man's neck.

With a bag on his shoulder and a portable digital camera in his hand, he was ready to start recording at any time.

"Mr. Ryan, long time no see." Seeing Ryan, Fang Qiu immediately took off his mask, went up to shake hands with Ryan, and then put the mask on.

"Mr. Ryan, I'm sorry. Due to some particular reasons, I have to wear a mask. Please forgive me," said Fang Qiu.

Ryan nodded with a smile and said, "It doesn't matter. I know your influence in Huaxia."

"Thank you," Fang Qiu nodded and said.

"Hello, Mr. Fang." The thin, tall, curly-haired young man, who had been standing next to him, came over, stretched out his hand to Fang Qiu, and introduced himself, "My name is Ricky William. I'm one of the review editors of Medicine and Humans. The papers you submitted to our periodical were reviewed by me. You can call me Ricky."

"Nice to meet you, Ricky." Fang Qiu shook hands with him with a smile.

"All right." After shaking hands with the two of them separately, Fang Qiu turned around, pointed at He Xue and Yang Ningyuan, and said, "Let me introduce the executives of this company to you."

“This is the chairman of Hua Yuan Pharmaceutical Corporation and one of the shareholders of Renyi Group.” Fang Qiu gently pushed Yang Ningyuan forward.

Ryan and Ricky shook hands with Yang Ningyuan and said hello to him respectively.

“And this one.” Fang Qiu then pulled He Xue forward and introduced her, “This is He Xue, a senior executive of Renyi Group. She is also the production planner of the Trillium Root-Securing Pill and Life-prolonging Earth Pill. Today’s inspection will be carried out by me and He Xue.”

“Gentlemen, please.” After He Xue shook hands with the two of them, she invited the two of them into the company.

After entering the company, Ryan and Ricky requested to walk around the company and familiarize themselves with the condition of all departments. Ricky also took a lot of photos during the process.

However, because the production factories were not located in the capital, they couldn’t get to the factories to carry out inspections and verification.

However, He Xue had already made full preparations for this inspection. As Ricky was giving the interview and Ryan asked about all kinds of details, He Xue generally showed them the relevant user data of the two drugs in Huaxia without revealing any user’s personal information.

Ricky and Ryan were stunned as they saw the data.

“So many?” Seeing the data, Ricky was completely dumbfounded. If this statistical data didn’t directly apply the unit of measurements, it would be difficult for him to count the zeros of the figures.

Ryan was also amazed.

“Judging from the user data and the drug data in Fang Qiu’s papers, the efficacy of these two drugs is indeed very powerful. If they are truly so amazing, it is very likely that they can indeed attract numerous users with the efficacy of the drugs. This time, we are here to verify the efficacy of these two drugs.”

After saying that, Ryan looked at Fang Qiu and He Xue, spread out his hands, and said, "You know, what we need to see is not the data you provide, but the real effect of these two drugs."

"Well..." He Xue raised an eyebrow.

Although she planned everything perfectly, she didn't think about how to show the efficacy of the medicine. If they needed to find patients to conduct an experiment, they certainly didn't have enough time.

It took time to verify the efficacy of the medicine. As the time was limited, it was almost impossible to verify the efficacy of the medicine in a short period of time.

Of course, that was because He Xue had never used those two drugs before.

"Ricky, Mr. Ryan." Seeing He Xue's look, Fang Qiu immediately smiled and proposed, "I have a good method to let you clearly experience the efficacy of these two drugs."

"Oh?" The two of them were delighted and asked at the same time, "What's it?"

"You can try the drugs yourself," said Fang Qiu with a smile.

The two of them froze.

They looked at each other and nodded at the same time.

Although the two of them were not sick, they could only try it in person if they wanted to verify the real effect of the medicine. After all, only by testing it in person could they fully believe in the results.

"Do we have enough time to do it?" Ricky asked.

He Xue also looked doubtful.

“Yes.” Without waiting for Fang Qiu to answer, Ryan replied before he did, “If these two drugs truly work as Mr. Fang said, then we don’t need too much time. We can see the effect even after one day.”

Ricky was surprised, so was He Xue.

Under Fang Qiu’s arrangement, the two tried Trillium Root-Securing Pill and Life-prolonging Earth Pill respectively.

After taking the medicine, Fang Qiu invited them to have a meal together and booked the best hotel for them. Fang Qiu and He Xue also stayed in the same hotel.

After the meal, everyone went back to their rooms.

“Tinkle—” Just as Fang Qiu finished taking a shower and was about to practice, the doorbell suddenly rang in the room.

“Who is it?” asked Fang Qiu.

“It’s me.” He Xue’s voice came from outside the door.

He opened the door.

He Xue walked straight into the room without hesitation. It looked like she had already taken a shower and her hair was still wet but she was in a formal suit. She did not seem relaxed at all.

“What’s the matter?” Fang Qiu closed the door and looked at He Xue in confusion.

“Nothing.” He Xue directly pulled out a chair in the room and sat down. Then she asked, “I just want to confirm with you that can the effect of the two drugs show completely before Ricky and Ryan leave Huaxia?”

“Sure.” Fang Qiu nodded with certainty.

“What I need is the exact effect that can shock them, not a simple effect.”

He Xue said seriously, “Because the effect that they see is related to how much we are going to involve in the international market. I need to show 100% of the effect, so they can know clearly that these two drugs are precious. They’ll even be willing to promote the medicine for free. If we can’t reach this result, I’ll think of another way since there’s still enough time.”

“You are really a born businesswoman.” Fang Qiu shook his head with a wry smile and said, “Don’t worry. There is absolutely no problem. If everything goes smoothly, they will see the effect tomorrow morning. If they can’t feel anything by then, it won’t be too late for us to make other plans.”

“Okay.” Seeing that Fang Qiu was full of confidence, He Xue finally let out a sigh of relief, rose to her feet, and left.

Looking at He Xue, Fang Qiu shook his head and sighed softly.

He knew the reason why He Xue was so serious and hard-working was that her potential was fully unleashed. Before she did this job, she could help a small company develop into one of the top ten companies in the internet industry, but she couldn’t help that company go public since that company had reached its limit.

But now, she couldn’t see the limit of Renyi Group at all.

Hence, she had to use all her strength to maximize the business of Renyi Group and show her family that she could still become the top-class entrepreneur in the world without the support of her family!

The next day, He Xue got up early and went morning jogging with Fang Qiu.

However, as soon as the two of them finished running and were about to return to their rooms to have a rest, Ricky and Ryan rushed out of the room at the same time and went to find Fang Qiu and He Xue with great excitement.

"It's, it's true." Ricky was exhilarated.

"I can feel it. As you said, the effect of this medicine is incredible." Ryan was also extremely excited. The moment he saw Fang Qiu, he grabbed Fang Qiu and asked, "Is there any stimulant in this medicine?" There couldn't be any stimulant.

"Gentlemen, there is absolutely no stimulant in our medicine," He Xue immediately walked forward to explain.

Fang Qiu also hurriedly showed the data that had been collected before to the two of them.

"Amazing!" After reading the information, they left the hotel. They then verified many things while led by Fang Qiu and He Xue. After confirming that there was no violation or excess of certain materials of these two drugs, Ricky immediately gave Fang Qiu and He Xue a thumbs-up and said, "It's incredible. It's no exaggeration to say that these two drugs are about to change the world's understanding of traditional medical skills!"

Medical Master

Chapter 983: Being Ignored for the First Time!

"These two drugs will bring us into a whole new era of medicine!" Ryan grabbed Fang Qiu's hand excitedly and said, "They work in the shortest time and are the most effective medicine that I've ever seen. Although they're not aiming at any difficult and complicated diseases, these two drugs can obviously reduce the possibility of getting these diseases. This is the blessing for medicine and also a blessing for people in the world!"

Next to Fang Qiu, He Xue, who had been working for the whole night to prepare countless explanations and solutions, was stunned when she saw that Ricky and Ryan were so excited.

At this moment, she finally relieved the anxiety of urgently wanting to achieve the success of this task.

She turned to look at Fang Qiu.

What came into sight was a warm and gentle smile.

“Don’t worry. Our medicine is the best in the world.” Fang Qiu reached out and gently patted He Xue on the shoulder.

Hearing his words and looking at the warm smile on Fang Qiu’s face, He Xue suddenly had a strange feeling in her heart.

She had been independent and worked hard alone for half a life. Now she seemed to have suddenly found someone to rely on. Even if there was negligence in her work or even in her life, this person could help her make up for her mistake and back her up.

This feeling was much more reassuring than those relatives in her family who only focus on profits in the business.

It felt like home.

“Mr. Ryan.” After comforting He Xue with a smile, Fang Qiu turned to look at Ryan and Ricky, who were extremely excited, and said, “If necessary, you can stay for another day. Today, you can exchange these two drugs to try them.”

“No need!” Ryan immediately shook his head and said, “Ricky’s also a medical worker. And before he took the medicine, I’ve already done all kinds of tests to examine his body in advance. This morning, I’ve already known the efficacy of the medicine he took through all the data of his body, so there’s no need to exchange the medicine to try them.”

“That’s right.” Ricky immediately nodded and echoed, “It’s really exciting to know these two drugs. I can’t wait to go back and facilitate the publication of your two papers as soon as possible.”

“I also hope to see your new paper on Medicine and Humans as soon as possible,” Ryan added.

“What do you mean?” Fang Qiu hesitated for a moment and asked, “Are you going to leave now?”

“Yes.” Ricky nodded with certainty and said, “We’ve packed up all our luggage. We’ll go back to our country now. When I get back, I’ll report all the real and effective research results to the chief editor and facilitate the publishing of the papers as soon as possible. According to the publishing time of this issue, your paper will be published in a week!”

“Okay, thank you.” Fang Qiu nodded with a beam.

Then, the two of them left. They directly packed their luggage and left together.

After they left, Fang Qiu and He Xue were also ready to check out and leave.

On the way, He Xue said with a smile, “After the papers are published, we can use some agencies to make public relations exercises so that we can develop the channels to enter the international market.”

It seemed that she was no longer as nervous as before.

“Then I’ll leave it to you,” answered Fang Qiu.

Pouting her lips, He Xue asked in disdain, “Leave it to me again? If you’re leaving everything to me, then what are you going to do?”

“Me?” Fang Qiu grinned and said, “I’m going to find Miaoyu. I haven’t seen her for a long time.”

“Pfft.” He Xue stared at Fang Qiu scornfully.

She also knew the reason why Fang Qiu handed over all the work to her was that he trusted her capacity, and she was also aware that Fang Qiu deliberately created these opportunities for her to prove herself.

Therefore, although she refused to admit it openly, she was truly grateful to Fang Qiu in her heart.

In Comores, after a year and a few months, Fang Qiu came to this country again.

This time, Fang Qiu didn't go empty-handed. Instead, he bought a lot of gifts and took them with him.

In the medical aid team's station, Fang Qiu intentionally chose to come when people were taking a break. Hence, there was almost no one in the station when he arrived. All the members of the medical aid team were enjoying a rare holiday.

In the distance, Fang Qiu saw Jiang Miaoyu sitting in front of the dormitory door, basking in the sun while reading.

"You haven't finished the book yet?" Walking into the station, Fang Qiu dragged his suitcase and walked to Jiang Miaoyu.

"Hmm?" Hearing Fang Qiu's voice, Jiang Miaoyu raised her head and glanced at Fang Qiu, stunned. Then she rose to her feet instantly, wrapped her arms around Fang Qiu's neck, and held him tightly.

"Why are you here?" Jiang Miaoyu was overjoyed.

"I miss you!" Fang Qiu reached out a hand to stroke Jiang Miaoyu's head and asked, "What was the last time that you washed your hair?"

"Huh?" Jiang Miaoyu flushed. She quickly loosened her grip, rolled her eyes at Fang Qiu, and said, "The water here is very precious. We can only take a shower once a week."

"Alright." Fang Qiu smiled and pulled Jiang Miaoyu into his arms.

"What did you bring?" Seeing Fang Qiu dragging his suitcase, Jiang Miaoyu asked curiously.

"I brought some little gifts." Fang Qiu let go of Jiang Miaoyu and said, "I know the living conditions here are harsh, and I heard that you often visit the children here, so I especially bring some gifts for those children. Shall we send these to them together?"

"Okay." Without hesitation, Jiang Miaoyu closed the book in her hand and put it back in the dormitory. Then she immediately dragged Fang Qiu to run all the way out of the station.

This country was poor as a whole.

Therefore, there was no such thing as a slum.

Because Jiang Miaoyu was quite familiar with this city, she knew exactly where those children were.

Soon, led by Jiang Miaoyu, Fang Qiu came to a place that was similar to a primary school with a particularly poor environment and only one classroom.

As soon as Jiang Miaoyu arrived, the children immediately came over and surrounded her.

Fang Qiu didn't hesitate. He directly opened his suitcase and handed out gifts to the children with Jiang Miaoyu.

After receiving the gifts, the children were all delighted.

Fang Qiu also saw a very happy and satisfied smile on Jiang Miaoyu's face.

After giving out the gifts, they played with the children for a while. Then Fang Qiu and Jiang Miaoyu left the primary school and went for a walk hand in hand.

"By the way, have you found a solution to cure malaria?" Asked Jiang Miaoyu.

"I've thought of a method, but I still need to verify it." Fang Qiu nodded and answered. Then he asked, "How's malaria here?"

"For the time being, malaria has been well controlled here, but it's still difficult to completely solve it." Jiang Miaoyu frowned and was a little worried.

"Emm." Fang Qiu nodded knowingly and said, "When I'm done with the domestic affairs, I'll come here to solve it."

"Okay." Jiang Miaoyu nodded with satisfaction and then asked, "Did you forget to bring me something really important?"

"Something really important?" Fang Qiu pretended to be stunned.

"You really didn't bring it?" Jiang Miaoyu's face darkened, and she looked a little unhappy.

"Haha." Fang Qiu laughed and said, "How could I forget it? I've already brought it to you. It's in the place where I live. I'll take you to get it now."

"Really?" Jiang Miaoyu was pleasantly surprised.

"It'll be enough for you to use for a long time." Fang Qiu smiled smugly.

Soon, the two went to the hotel where Fang Qiu stayed.

Although it was called a hotel, it was just like an inn in Huaxia.

They arrived at the hotel.

Fang Qiu took out a small suitcase directly and said to Jiang Miaoyu, "It's all inside."

Jiang Miaoyu couldn't wait to open it.

What came into sight was a suitcase packed with Holy Flowers Formula. Although they were all contained in boxes, Jiang Miaoyu knew there were plenty of bottles inside. It was indeed enough for her to use for a long time.

"Thank you, honey." Seeing so many boxes of Holy Flowers Formula, Jiang Miaoyu got excited. She immediately hugged Fang Qiu and kissed his face.

Fang Qiu smiled while seeing that.

"Sure enough, caring about beauty is women's nature!" Fang Qiu thought to herself with emotion.

Fang Qiu helped Jiang Miaoyu carry the suitcase packed with Holy Flowers Formula back to her dormitory.

The next day, Fang Qiu also accompanied Jiang Miaoyu to participate in the local medical assistance, including giving emergency treatment for patients and so on.

Although Fang Qiu joined the assistance last time, the local residents already forgot about him because it had been too long since he came last time.

In this case, there were very few patients lining up in front of Fang Qiu's desk. They didn't even dare to consult him. They all thought that the newcomer must have poor medical skills.

As Jiang Miaoyu saw this, she burst into laughter at once.

Because they had been here for a long time, many local people knew Jiang Miaoyu. Hence there were also a lot of people coming to consult her. The long line formed a strong contrast with the empty scene in front of Fang Qiu's desk.

“Miracle-working Doctor Fang, why is no one looking for you to treat them?” Thinking of Fang Qiu’s great popularity in Huaxia, Jiang Miaoyu immediately seized this rare opportunity to mock Fang Qiu mercilessly.

As for this, Fang Qiu could only smile wryly.

He was ignored for the first time.

“Can you see our child?” But right at this moment, he saw a couple walking into the station with a child. When they saw the long lines in front of other doctors, they immediately ran to Fang Qiu and asked anxiously with expectation.

“Yes, what’s wrong with the kid?” Fang Qiu asked while checking the patient’s condition.

He then found that this child had caught a bad cold.

Without hesitation, Fang Qiu immediately cured the child’s bad cold after applying the Scraping Treatment by hand.

All the patients lining up were shocked.

He thought that the newcomer was a rookie. But they didn’t expect that he was actually an expert!

Not only the patients but also the students from their university in the medical aid team were shocked by Fang Qiu’s technique.

“Fang Qiu really lives up to his reputation. He’s amazing.”

“As expected, Fang Qiu is indeed capable!”

“He can apply the Scraping Treatment with his bare hands and still achieve such a great effect. It’s incredible.”

Everyone exclaimed.

In the exclamation of the crowd, the patients who were lining up in front of the other consultation desks were attracted and turned to Fang Qiu.

This time, Jiang Miaoyu and their schoolmates couldn’t help smiling wryly!

Medical Master

Chapter 984: The Papers Cause a Sensation Again!

Although they were all rather helpless, the students of the University of Jiangjing Chinese Medicine were also happy for the patients since they could see a good doctor. After all, the condition here was dreadful. There were enormous bacteria in water, air, and other things, so there were countless patients here. Some of them suffered from difficult miscellaneous diseases.

Many people from all over the world came to conduct medical assistance, but they didn’t treat those difficult miscellaneous diseases, which made the patients suffer a lot.

However, Fang Qiu was different.

Everyone in the UJCM knew that Fang Qiu’s medical skills were marvelous. There were no diseases that he couldn’t cure. Even those who didn’t know Fang Qiu had heard of his name.

On the side, Jiang Miaoyu shook her head with a wry smile.

Just now, she was mocking that Fang Qiu had no patients, but in the blink of an eye, all the patients in front of her desk ran toward Fang Qiu.

In only three minutes, there was a long line in front of Fang Qiu's consultation desk while the number of patients at other desks decreased sharply.

Under such circumstances, Fang Qiu didn't slack off and immediately started to treat the patients with all his strength.

Just like that, Fang Qiu spent a truly fulfilling day with all the people in the medical aid team.

They worked until six o'clock in the afternoon.

After seeing all the patients, everyone could finally relax.

"I see that everyone is far away from home and is very busy every day. You must be exhausted after holding on for so long. Guys, if you don't mind, can I help examine your bodies?" At the station of the medical aid team, Fang Qiu said to everyone who gathered together.

"Sure," Hearing that, everyone was pleased.

They all hurriedly got up to stand in line.

In Huaxia, Fang Qiu's Chinese Medicine skills were impeccable. If they wanted to ask Fang Qiu for a checkup, they would have to spend a fortune. They might not even be able to see him no matter how much money they spent. Sometimes it could only rely on luck.

"You don't have to line up." Seeing everyone's enthusiasm, Fang Qiu immediately said with a smile, "Please sit on your own seat. I'll examine you one by one."

"Are you going to use Qi?" Asked a schoolmate.

"Yes," Fang Qiu nodded at once and continued, "I can't just do nothing. Since I'm going to check your bodies, I naturally have to help you improve your health. I should help you since you're helping the patients."

Everyone couldn't wait to be treated after hearing that.

At that time, they stared at Fang Qiu expectantly.

He immediately got started.

Fang Qiu began to help them examine and improve their health one by one.

Everyone was particularly curious about Qi. When Fang Qiu was helping with their work, they also tried to feel it carefully. As a result, they seemed to see something novel. When Fang Qiu helped them improve their health, they particularly enjoyed it.

"It's amazing."

"Is that Qi in my body? It feels so comfortable."

"It's like water. I feel my body getting lighter as soon as it flows as if all my exhaustion has been swept away. It's miraculous."

Everyone praised it one after another.

Fang Qiu echoed with a smile.

Next to him, Jiang Miaoyu was also extremely proud. Especially when she saw the people around her constantly praising Fang Qiu, she smiled brightly.

Undoubtedly, Fang Qiu soon integrated with the rest of the medical aid team with this treatment. Everyone got along happily for a week.

A week later, just as Ricky promised to Fang Qiu, the two papers submitted by Fang Qiu to Medicine and Humans were officially published!

After all, it ranked among the top ten medical periodicals in the world.

There was a huge sales volume of every issue of Medicine and Humans. Most of them were subscribed to by regular readers. In addition to the regular readers, Fang Qiu's paper about Qi last time and his performance at the medical conference also helped Medicine and Humans attract more readers.

Some medical experts who didn't like Medicine and Humans before also subscribed to the periodical one after another.

As the latest issue of the periodical released, it would be sent to the big shots in the medical field in the first place.

A medical expert who attended the medical conference before soon received the latest issue of Medicine and Humans.

In the past, after receiving the periodical, he would skim it casually and then put it down. Normally, there were not many unexpected things published in the periodical anyway.

But this time was different.

When he received the periodical and saw that the two key papers of this issue were written by Fang Qiu, he couldn't wait to start reading.

He didn't quite know Fang Qiu.

However, through the medical conference, he specifically learned that Fang Qiu was a great traditional medicine expert. He was also particularly curious about the theories that Fang Qiu had proposed.

Now he saw Fang Qiu publish new papers. How could he miss it?

He turned to the papers.

The medical expert immediately began to read it carefully word by word.

As soon as he finished reading the first paragraph of the first paper, he was stunned.

“So powerful? So miraculous?” As he exclaimed, the medical expert continued reading.

However, the more he read, the more shocked he was. When he finished reading the first paper, he was dumbfounded.

He then started reading the second paper, which shocked him even more.

This medical expert didn’t hesitate and immediately introduced these two papers to other people in the medical field he knew. Meanwhile, he strongly praised these two papers and even said that the world would change because of these two drugs if they truly existed in Huaxia.

Under the recommendation of this medical scientist, everyone began to order the periodical and read the papers.

The same thing happened all over the world.

Although there were not many people reading the periodical in the beginning, it didn’t take long for it to cause a sensation in the whole medical circle as the news spread like wildfire.

“Do these two drugs really exist?”

“This can’t be true, can it? These two drugs can completely prevent almost all diseases!”

“Is Huaxia Chinese Medicine so powerful? These two drugs are cure-all wonder drugs!”

“I can’t believe there is such a powerful medicine in the world.”

“That’s absolutely impossible!”

“I heard that the oriental drugs are very powerful and effective, but how could any medicine reach this level? Obviously, this is another hype of Eastern medicine. Even if it truly has the effect, it will be minimal. It’s absolutely not as good as what is written in the paper.”

“I heard that Medicine and Humans invited Mr. Ryan to go to Huaxia together for verification. It turned out that the drugs recorded in these two papers were indeed strongly recommended by Mr. Ryan. I don’t think Mr. Ryan would make a joke with all the people in the world about the effect of drugs. Maybe these two magical drugs truly exist.”

“Medicine and Humans never publishes false papers or s. Since these two papers can be published on Medicine and Humans, it means that the authenticity of these two papers and the data recorded in these papers have been sufficiently verified. Only after confirming that there are no problems with them will they decide to publish them.”

“It seems to be true!”

“I still can’t believe it, but it seems to be another powerful aspect of the eastern traditional medical skills. Since Fang Qiu’s speech at the medical conference last time, medical experts from all over the world have begun to study Huaxia Chinese Medicine, but it’s really profound. They can’t completely figure it out without taking decades.”

“Yes, now everyone is still at the level of learning from traditional medical skills. I didn’t expect that the Huaxia people, which is the pioneer of traditional medical skills, have already begun to recommend drugs!”

“The East is mysterious and powerful, so is Huaxia!”

In a certain country, a medical expert who received Medicine and Humans was invited to participate in an interview recording of a show. When he arrived at the scene and was waiting, he read the periodical to kill time.

He didn't expect that he was deeply immersed in it as soon as he started to read it.

When the media reporter was ready to start the interview, he found that the medical expert was reading a periodical with great interest.

"Mr. Sloan." The reporter sat down curiously, looked at the book in the hand of the medical expert, and asked curiously, "What you are reading should be Medicine and Humans, right? I heard that this periodical would be popular occasionally, but most of the time, some papers published in it are not very appealing."

"That's how the medical industry works. If there can be a big breaking point and advanced medical technology in every issue, the medical world will not look like this now," the middle-aged man named Sloan said without raising his head.

He then added excitedly, "Besides, this issue is the reason why this periodical is popular occasionally!"

The reporter was stunned and asked, "Oh? Is the quality of this issue really good?"

"It's great." Sloan immediately nodded and said, "These two papers will definitely be a big hit!"

The reporter asked again, "What papers are they? Even you think highly of them."

"These are two medical papers." Sloan looked up and said as his eyes lit up, "Written by a man from Huaxia!"

"A man from Huaxia?" The reporter was stunned and said, "I don't remember what big shot in Huaxia can publish two papers on Medicine and Humans at one time? Who is this person?"

Sloan looked at the reporter and said, "Fang Qiu! Who said that there is no big shot in Huaxia? Master Fang Qiu is the big shot!"

Hearing that, the reporter suddenly recalled.

It was Fang Qiu who wrote the paper that made Medicine and Humans become popular last time. Fang Qiu's performance at the medical conference simply shocked the whole world.

"Master Fang Qiu? What papers did he write?" The reporter was shocked.

Even Sloan called Fang Qiu master. It seemed that Fang Qiu did have a high status in the medical field.

"Look." Sloan immediately turned to the first page of the paper. As he was reading, he told the reporter the core and data of the paper.

After hearing that, the reporter's eyes widened in shock, and then he instantly got thrilled.

The reason why he interviewed Sloan was that he wanted to find some news to release. However, he didn't expect that he would find such a piece of news from Sloan. He immediately discussed it with Sloan and decided not to continue the interview anymore. He was about to rush back to write his article.

Sloan also expressed that he was not available now. He needed to go back and study this periodical!

Medical Master

Chapter 985: Public Relations Involved!

Soon, when the reporter went back, he immediately bought the latest issue of "Medicine and Humans" and read the two papers written by Fang Qiu carefully.

After that, he immediately began to write an article.

This time, the way he wrote the article was completely different from his usual style.

At first, he began to introduce Fang Qiu, from his identity, his status to what he had done, including the paper he had written, what he had proved on the international stage, and his speech that shocked the world at the medical conference. He wrote everything specifically.

Then, he began to elaborate on the two papers that Fang Qiu wrote, introducing two kinds of drugs in them—Trillium Root-Securing Pill and Life-prolonging Earth Pill.

Moreover, he also referred to the data from Fang Qiu's papers to praise the two drugs entirely according to Fang Qiu's description of them.

As soon as he finished the article, he released it immediately!

Not many people saw it at the beginning.

After all, it was a piece of medical news, so the public didn't care much about it. Many people even didn't bother to read as they saw the word "Medicine".

However, unlike ordinary people, other foreign media workers quickly sensed the attraction they needed from this news as it came out.

Setting everything aside, they knew that the name "Fang Qiu" alone could attract numerous people's attention. Moreover, there were two extremely efficacious drugs. If this news got out, it would definitely cause a sensation all over the world!

The foreign media outlets that had noticed the intriguing point began to report one after another.

"The Huaxia man who shocked the World Medical Exchange Conference showed up again!"

"Two mysterious drugs from Huaxia, which are enough to change the world!"

“Two kinds of drugs of traditional medicine that are enough to influence the whole world appear in Huaixia in the mysterious East!”

All kinds of similar reports kept coming out.

Countless relevant reports spread quickly all over the world.

In Beijing, Huaxia, since Ricky and Ryan left Huaxia and returned to their own country, He Xue had been following the foreign media outlets every day, waiting for foreign news related to them to be released.

After she waited for a full week, she finally saw the response of the foreign media after Fang Qiu’s papers were published officially.

This was what she had been waiting for!

Before this, she already made all the preparations so as to enter the international market. She only needed this driving force of public opinion now.

“Finally.” In the office, after reading various reports about Fang Qiu, Trillium Root-Securing Pill, and Life-prolonging Earth Pill on Facebook via her VPN, He Xue instantly became excited.

She made a phone call without hesitation.

“Hello?” A familiar voice speaking in English came from the other end of the line.

He Xue spoke in fluent English, “Our cooperation can officially start. It’s time. I believe you are fully aware of the situation all over the world now. According to the cooperation agreement, I need you to send posts about the Trillium Root-Securing Pill and Life-prolonging Earth Pill on Facebook and Twitter as soon as possible. You know what kind of posts I need.”

“No problem.” There was laughter coming from the other end of the line.

He Xue hung up the phone with satisfaction.

As Ricky and Ryan left Huaxia and Fang Qiu also went to Comores, she immediately contacted a particularly powerful foreign PR company with her previous connections. After negotiating the deal with the company, she had been waiting for the right opportunity.

Now, it was the right time.

What she needed was to ask this PR company to gain more popularity for those foreign media.

They didn't only need to attract the attention of foreign media and the medical community around the world. More importantly, they needed to draw the attention of ordinary people from all over the world.

It was because only ordinary people were real consumers!

Only real consumers could help Renyi Group officially enter the international market.

It was indeed the best PR company in foreign countries.

After receiving He Xue's call, the PR company immediately took action. They posted all the information through all major internet traffic marketing accounts, including all the data they had collected before, the popularity of these two drugs in Huaxia, and even the real comments of these drugs of the medical experts from all over the country.

In only an hour, words such as "Mysterious Huaxia", "Two super drugs", "Drugs to Change the World", and other similar topics began trending wildly on Facebook and Twitter.

These topics even ranked among the top ten of the trending list on Twitter.

Originally, the public did not like to read or get involved in such topics.

However, seeing these topics trending among the top ten of the trending list, everyone couldn't help but be confused.

"What's going on?"

"Why are there drugs everywhere? I don't want to see any medicine at all. I just want to see the topics I'm interested in."

"What are these drugs that can change the world? Why did they suddenly flood the screen?"

"A mysterious drug from the East?"

"Is it from Huaxia?"

"Is it the country, Huaxia, which shocked the whole world at the World Medical Exchange Conference last year?"

Whether it was on Facebook or Twitter, everyone began to discuss heatedly.

It was not until this moment that everyone recalled the remarkable country at the World Medical Exchange Conference last year, Huaxia, and also the man who was admired by people all over the world. He received the recognition of the whole medical community, brought the world medicine to a new level and field, and proposed a new attempt for world medicine.

He was Fang Qiu!

Thinking of Fang Qiu, those who didn't pay attention to those topics at first began to click on the topics to watch.

As they read the topics, everyone found that the company that produced these two drugs which suddenly went viral on the Internet was actually the company that produced Holy Flowers Formula, which had become extremely popular online a few days ago.

“Are these two drugs really so good?”

“In fact, comparing to these drugs, I still like the Holy Flowers Formula. If possible, I hope they can sell Holy Flowers Formula in our country, instead of these two drugs!”

“It is indeed the company that produces the Holy Flowers Formula. This company seems remarkable.”

“I heard that the Holy Flowers Formula is a brand new product of this company, while Trillium Root-Securing Pill and Life-prolonging Earth Pill are popular drugs in Huaxia a long time ago. According to the feedback from Huaxia, the effect of these two drugs is particularly good and they are welcomed by many people.”

“The company that produces Holy Flowers Formula will definitely be able to produce better drugs, so I choose to believe in the quality of Trillium Root-Securing Pill and Life-prolonging Earth Pill.”

As they were discussing heatedly, many foreign Internet celebrities also began to contact their friends in Huaxia one after another, wanting to know the efficacy of these two drugs.

Everyone who inquired about the efficacy received great feedback from their friends in Huaxia.

These ordinary people and online celebrities in foreign countries immediately spent a lot of money to ask their friends to help them buy the drugs.

However, they were told that these two drugs were particularly popular and only sold in a limited quantity in Huaxia. However, they could help them buy the drugs, but they had to pay more.

The foreign people who were attracted by the Trillium Root-Securing Pill and Life-prolonging Earth Pill did not mind such a small matter as paying more money.

They all paid more money to ask people to help them buy the drugs.

Meanwhile, after asking the PR company to officially start taking action, He Xue immediately found two foreign people who lived in Huaxia and also took Trillium Root-Securing Pill and Life-prolonging Earth Pills before. She paid them to send posts on foreign social media, promoting the benefits of these two drugs. Every day, their work was to post Huaxia people's positive comments on these two drugs on foreign forums and social media platforms.

As for these two foreign people, they certainly wouldn't turn down such an easy job which could help them make money.

The most important thing was that the effect of these two drugs was indeed excellent. They didn't have to go against their conscience to promote them. On the contrary, they felt rather proud because they got to promote these two drugs.

After the two foreigners finished posting, He Xue instantly gave a call to the PR company.

"All the conditions you need have been prepared. Now there are similar posts on all the major social media platforms and social forums on foreign websites. You can put on a good show now," He Xue said as the phone connected.

"Wait for my good news," A confident reply came from the other end of the line.

As expected, the PR company made a move quickly after the phone was hung up.

In addition to continuing to post on Facebook and Twitter, they also began to find out those posts on the major social websites and forums to hype the drugs. They contacted the local famous media outlets and began to carry out all kinds of media hype.

Soon, under the hype of people from different platforms, the news about these two drugs went viral.

Foreign people were also interested in it.

Regardless of the color of people, they were all talking about these two drugs.

Everyone was extremely looking forward to the real effect of these two drugs. Meanwhile, someone on the Internet gradually began to ask the company to sell these two drugs in their own countries like before.

Netizens' heated discussion soon attracted the attention of foreign pharmaceutical companies.

At first, those large pharmaceutical companies found it problematic. How could such a strong rival suddenly appear out of nowhere? As soon as it appeared, it attracted everyone's attention in no time.

However, on second thought, they realized that it was Huaxia medicine.

No matter how powerful the drugs were, it was very difficult to buy them in a foreign country.

All of a sudden, a large pharmaceutical company saw a business opportunity from this, so they immediately asked someone to check it. After investigating, they found that the two drugs which gained great popularity in their country had not got the import and export license yet.

There was no other way.

This large pharmaceutical company could only wait.

Later, other pharmaceutical companies also noticed this matter one after another. Everyone decided to wait and see what would happen next.

In Huaxia, He Xue did not just sit back. The reason why she made public relations exercises abroad and spent so much money was that she wanted to obtain the import and export license for the two drugs.

Ultimately, after a series of strict examinations, He Xue received the export license after spending three days.

Although she was exhausted, He Xue was instantly relieved when she received the export license.

Meanwhile, people of the foreign representative pharmaceutical companies booked flight tickets and swarmed to Huaxia!

Medical Master

Chapter 986: Since You're Insincere, There's No Need to Talk

"The international business fair of Trillium Root-Securing Pill and Life-prolonging Earth Pill will be held in the Shenghua Hotel in the capital this afternoon. Pharmaceutical merchants from all over the world have arrived in the capital this morning. They are now gathered in the Shenghua Hotel, waiting for the fair to start."

"It is said that He Xue, the senior executive of Renyi Group, will host this business fair in person."

The news was being broadcast on TV.

He Xue already arrived in the capital.

This time, she was wearing a formal and smart suit, which made people feel that she was a no-nonsense woman.

Shenghua Hotel was a large hotel decorated in a traditional style, which was especially used for receiving foreign guests.

The reason why He Xue chose to hold the business fair in this hotel was that she had discussed it with Fang Qiu and Yang Ningyuan. This place could represent Huaxia the most and leave an extremely deep impression on all the foreign guests.

Of course, before coming here, He Xue vividly remembered what Fang Qiu had told her.

"There are not many domestic products that can enter the international market now. Whether in terms of production capacity or other aspects, the foreign companies looked down on us very much. So in this international business fair, there will definitely be some very unpleasant or even awkward topics and accidents. When you encounter these accidents, you don't have to do anything. Just leave directly!"

“They can’t criticize the products of Huaxia at will. We want them to beg us to give them the opportunity to sell our products. Only in this way, can we show the real power of Huaxia and Chinese Medicine!”

Of course, with such strong business acumen, He Xue had already thought of the problem that Fang Qiu was worried about, and her approach was exactly the same as what Fang Qiu said because she was fully aware that now Trillium Root-Securing Pill and Life-prolonging Earth Pill had caused a great sensation all over the world and attracted countless people’s attention. And the people who were attracted to them were the potential consumers of these two drugs.

It was also because of this that so many pharmaceutical merchants from all over the world would come here. Their purpose was to fight for the exclusive franchise of these two drugs in their own countries.

Although that was the case, they had to admit that the foreign companies did discriminate against Huaxia companies. This kind of discrimination also caused these foreign companies to be blinded by greed. They felt that only they could help the companies and products of Huaxia to enter the international market and only they could make the Trillium Root-Securing Pill and Life-prolonging Earth Pill popular internationally. Therefore, they would definitely ask for more benefits. For the greater benefits, they would definitely try to lower the price of the two drugs.

This was equivalent to directly trying to get a share of the Renyi Group’s profits.

Was this possible?

At one o’clock in the afternoon, He Xue arrived at Shenghua Hotel.

People from all over the world were already sitting in the conference hall of the hotel, waiting for the business fair to begin.

It was a red conference hall.

Almost all the tables and chairs were made of mahogany.

Even the conference stage was set up by mahogany. People from foreign countries were sitting in their chairs, drinking fine Longjing tea and chatting with each other.

Because they arrived very early, these pharmaceutical merchants from all over the world gathered together early.

Even if people from the same country were clearly rivals, it could not stop them from negotiating with each other about some plans.

Seeing the conference was about to begin, these merchants all showed a sly smile like that of a fox.

“Pitter-patter...” With the sound of high heels treading on the ground, He Xue walked to the conference stage. Faced with everyone present, she said in fluent English, “Ladies and gentlemen, thanks for coming all the way here. Welcome. I’m He Xue from the Renyi Group. I’m glad to be here with you.”

Under the stage, the foreign people smiled and had no intention of applauding at all.

“All right.”

He Xue wasn’t surprised. She didn’t bother to waste her breath on these foreigners and said directly. “Since everyone is here, then we’ll officially start the international business fair!”

“There’s no need to introduce. Let’s talk about the price directly.”

In the hall, a yellow-haired man in a suit looked at He Xue with a faint smile on his face and continued, “Since we are here, it means that we have recognized the value of these two drugs. What we need to know now is not the data and information of the drugs, but the price! Because we are businessmen!”

The others nodded successively as they heard that.

“Of course.”

He Xue nodded naturally and said, "Well, since you've come all the way here, I'll give this opportunity to you. You also know that the price of these two drugs is 1,000 yuan in Huaxia. If it is converted into dollars, it will be 160 dollars each. What do you think of this price?"

"It's too high."

The yellow-haired foreigner immediately shook his head.

"Yes, it's too high."

A black man immediately shook his head and said, "These drugs are exclusive to Huaxia. It's very difficult for you to enter the international market with these drugs, especially in terms of price. If you want to enter the international market with our help, your company must make some adjustments and compromise about the price. Otherwise, it will not be good for you, me, or the sales."

"Yes."

"You must lower the price. This price is too high. Ordinary people can't afford it at all."

"We came here because we see these two drugs' potential for sales, but if the price causes difficulties and bottlenecks in the sales of the two products, we will definitely lose more than we gain."

It was as He Xue had expected.

These foreigners didn't even listen to the detailed information and data of the two drugs and directly began to demand a lower price.

"I don't think this price is high. What price do you think is reasonable?"

On the conference stage, He Xue asked with a faint smile.

“100 dollars,” One of them spoke. “100 dollars is already very high. We think it’s a reasonable price.”

“100 dollars is the most appropriate price.”

Those foreigners all thought that He Xue would definitely take their suggestion on board, so they nodded their heads and requested for the price that was 160 dollars to be lowered to 100 dollars.

They reduced 60 dollars in total.

More than one third of the original price was decreased.

He Xue laughed on the stage.

Just when all the foreigners were smiling and thinking that they could make He Xue cave in, He Xue smiled. “See the guests out.”

After saying that, she directly turned around, stepped down from the stage, and walked out of the conference room.

This scene shocked all the foreign businessmen present.

They didn’t expect that at all.

This Huaxia woman was so tough. She actually left without any explanation, which caught them off guard.

The foreign businessmen were dumbfounded.

They knew the potential of these two drugs. As long as they could get the franchise, they would surely be able to make a fortune. However, they were still greedy for a bigger profit. If He Xue truly left, it would not be so easy for them to negotiate again. At that time, the other pharmaceutical companies in their country would definitely take the opportunity to get involved and seize the franchise.

In that case, they would lose more than gain.

The foreign businessmen, who looked embarrassed, looked at each other and quickly stood up to stop He Xue who was about to walk out of the conference hall.

“Miss He, please wait.”

“Wait, wait, beautiful lady.”

The foreign businessmen spoke to stop He Xue one after another.

“We were just joking. Don’t take it seriously, Miss He. Are you really in such a hurry to leave? Don’t you want to expand Renyi Group’s business to the international market?” Said the yellow-haired middle-aged man who took the lead in picking a fight.

“Do you think that you are the only one who can help our products expand the international market?” He Xue turned around and asked.

As she asked that, the yellow-haired middle-aged man immediately flushed with embarrassment, and he was dumbfounded.

“Since everyone is insincere, there is no need to talk.”

Shrugging her shoulders, He Xue said aggressively, “I believe that there’s more than one pharmaceutical manufacturer in your country. In fact, Renyi Group doesn’t necessarily need to cooperate with any top-class manufacturers because we’re a top-class manufacturer. Anyone who cooperates with us will also become noted manufacturers.”

As soon as she said that, the expression of all foreign businessmen changed.

They knew that He Xue wasn't bluffing. Renyi Group was able to reach this level with only these two drugs at present, not to mention that the Renyi Group even had the latest product—Holy Flowers Formula!

"Of course, I'm not a person who doesn't cherish the opportunity to make money."

Seeing that the foreign businessmen were embarrassed, He Xue gave some leeway for them and said, "You can discuss this matter again and set a price, and I'll be back in an hour."

After that, she directly turned around and left.

After He Xue left, all the foreign businessmen present looked at each other and smiled wryly.

"This Huaxia company is too arrogant. They don't take us seriously at all. I think we should teach them a good lesson!"

The yellow-haired middle-aged man said with a grim face.

As soon as he said that, all the people present rolled their eyes at him.

As for these merchants, money was of the utmost importance!

On such an occasion which was related to great interests, how could they offend someone who could help them make money? If they did, they would be asking for trouble themselves.

At this moment, everyone glanced at the yellow-haired middle-aged man as if they were looking at an idiot.

The franchise of these two drugs was definitely a great tool for making money. These two drugs would surely sell like hotcakes. In this case, anyone who chose to pick a fight could be regarded as an idiot!

Seeing that he didn't arouse people's anger, the middle-aged man with yellow hair could only smile and officially participate in the discussion of the price.

After an hour of discussion, they increased the price from 100 dollars to 200 dollars!

This price greatly exceeded the domestic price of Huaxia. Everyone thought that He Xue would definitely agree on this price, so they immediately asked someone to call He Xue.

He Xue soon arrived.

"Guys, you've reached a result so quickly?"

Walking up to the conference stage, He Xue still looked at everyone indifferently and said, "I hope the price you offer can satisfy me."

"We're sure that you'll be satisfied."

Everyone said with a smile.

"Oh, how much?" Asked He Xue.

"200 dollars!"

One of them stood up, looked straight at He Xue, and said, "After discussing, we think it's a bit inappropriate to use the original price in Huaxia, so we increased it to 200 dollars. I think your company should be satisfied with this price, right?"

"Satisfied?"

He Xue was stunned before she asked, "With that low price?"

After that, she shook her head, stepped down directly, and left.

All the foreign businessmen present were dumbfounded again!

Medical Master

Chapter 987: 1000 Dollars Per Box

"What does she mean?"

"200 dollars isn't enough?"

"What does she mean by low price? 200 dollars is equivalent to 1260 yuan. It's more than a quarter of the price in Huaxia. Isn't that enough?"

"Miss He of the Renyi Group seems to have a big appetite."

"To be honest, the two drugs, Trillium Root-Securing Pill and Life-prolonging Earth Pill, have caused a great sensation all over the world. Besides, the effect of these two drugs is remarkable. Once they are on the international market, they will definitely draw strong sales. It is conceivable that we can gain great profits under such an upsurge in sales. Compared with these profits, 200 dollars seems to be really low."

These foreign businessmen already did thorough research. These two drugs' supply fell short of demand in Huaxia. It took Renyi Group a lot of effort to finally stabilize their supply on the domestic market and spare some extra stocks on the international market.

Under such circumstances, the Renyi Group was not worried about their sales at all.

Since they had made so much money in Huaxia, it was not necessary for them to enter the international market right now.

It could even be said that Renyi Group merely went with the flow when it came to entering the international market now.

Although they only went with the flow, would Renyi Group have to do that if they didn't make money from this business?

Obviously, they wouldn't.

Wasn't the purpose of entering the international market to make more money?

It was no wonder that He Xue was not interested in the offer of 200 dollars.

Although they were the first group of merchants to arrive in the capital city, who knew how many merchants would come after them? And they wouldn't know how high their offers would be.

Thinking of this, these foreign businessmen could only continue to discuss.

In only three minutes, everyone raised the price by 100 dollars, which was a high price of 300 dollars.

This was almost twice the price in Huaxia.

They thought this should be enough.

After making their decision, they quickly asked one of the hotel employees to call He Xue over.

But this time, the employee went for an hour.

The foreign businessmen were dazed after waiting for so long. No matter how they tried to urge the employee, they couldn't get He Xue over.

An hour later, they finally saw He Xue again.

"Alright, guys."

Walking into the conference hall, He Xue still had a smile on her face as she looked at the foreign businessmen and asked, "Have you all come up with a suitable price this time?"

"300 dollars!"

A foreigner sitting under the conference stage immediately stood up and said, "This is almost double the price of your country. I believe that this price should satisfy your company, right?"

The others nodded in agreement.

Indeed, for businessmen like them, this price was very alluring. After all, selling one box on the international market was equivalent to selling two boxes in Huaxia. The net profit already exceeded 100%.

Even some top-notch large companies didn't dare to dream of such a big profit.

Moreover, Renyi Group was only a newly established group in Huaxia, and there was a big gap between it and the large groups on the international market. 300 dollars was enough to get them into the ranks of international groups.

Just as all the foreign businessmen were waiting for He Xue's answer with great expectations, He Xue stood up again. Just like the last time, she shook her head with a sigh and said indifferently, "I think it's necessary for you to reconsider."

After that, she directly strode down the stage.

Seeing that, all the foreign businessmen in the conference hall couldn't help being angry.

After all, this was 300 US dollars, which was almost twice the price in Huaxia!

"What the hell?"

"She couldn't be satisfied with such a big profit."

"If we calculate it according to the production cost, the profit of the price we offered has exceeded 150%. Isn't that enough?"

"Humph, she has gone too far!"

"What the hell? It's only a small Huaxia pharmaceutical group. How come they have such confidence?"

All the foreign businessmen were irritated.

Although they knew that this was a great opportunity to make money, 300 dollars was already the top price they could offer.

Even if they could get the franchise when they offered a higher price, it would be hard for them to earn enough profit.

Now they started evaluating. Was it necessary for them to compete for the franchise of these two drugs if the offer was over 300 dollars?

As they were pondering, most of them shook their heads and wanted to give up.

Many people stood up, ready to leave.

“Pitter-patter...” But right at this moment, there was suddenly a sound of footsteps.

A staff member of Renyi Group walked into the conference room with a hotel employee who had two boxes in his arms.

“Distinguished guests,” the staff member of Renyi Group said to all the foreign businessmen present, “thanks for your patience to wait here. Miss He asked me to give each of you a bottle of our products. You can take it and test the effects. As for whether you need the franchise or not, we can talk about it after you feel the effects of our products tomorrow morning.”

Speaking of this, the man immediately waved his hand and motioned the hotel employee to deliver the medicine in the box to everyone.

Of course, they were small bottles.

Both Trillium Root-Securing Pill and Life-prolonging Earth Pill were in the boxes, which could be chosen by these businessmen at will.

When the foreign businessmen who were about to leave heard that, they sat down again.

These two drugs sounded miraculous from the rumors in their countries. They were also particularly curious about them and wanted to try them out.

Now that they had such a great opportunity, they would naturally not miss it.

Soon, the distribution of the drugs was completed.

The hotel employee left.

“Guys.” The staff member of Renyi Group walked to the conference stage and said to everyone present, “Before I came here, Miss He asked me to tell you something. It seems that your companies are top-

notch large companies in the world and have the ability to make cross-border and cross-continent sales.”

After saying that, the man turned around and left.

In the conference hall, all the foreign businessmen were stunned at first and were very confused about the meaning of his words.

Then, many people laughed.

They understood.

What He Xue wanted her subordinate to tell them was that among the companies at the conference hall, a company could get the franchise of more than a country or even one continent!

That was to say, these foreign businessmen were about to compete with each other!

After realizing what she meant, all the foreign businessmen on the scene exchanged glances with meaningful smiles on their faces.

After that, everyone took the drugs back to their own hotel room.

After returning to the room, the black man, the representative of a multinational corporation, opened the bottles of the two drugs and smelled them. Then he poured out one pill of each drug in his hands separately and observed them carefully for a while.

“Can the Trillium Root-Securing Pill restore energy?”

Due to the long journey and the fact that he spent the entire day sitting in the hotel, he was already exhausted. Therefore, he tried to take a Trillium Root-Securing Pill before going to bed.

He wanted to try the effect of this drug and see if it was worth fighting for.

He slept soundly that night.

When he woke up the next morning, he found that he slept exceptionally well last night. He hadn't slept so well for a long time.

What surprised him the most was that not only did he sleep well, but he also felt refreshed and energetic after waking up. The long-term exhaustion caused by his work disappeared significantly!

This effect shocked him greatly!

He instantly recalled the words that He Xue had asked her subordinate to tell them yesterday afternoon.

Such a powerful medicine was definitely worth him fighting for!

Without hesitation, the man immediately ran to He Xue's room, trying to have a private conversation with her after he washed up swiftly.

But when he arrived at He Xue's room, he discovered that everyone was already there.

Everyone looked at each other cautiously with a forced smile on their faces.

Obviously, they all wanted to talk to He Xue privately.

Unexpectedly, they all ran into each other.

Of course, as businessmen, they didn't feel embarrassed at all.

"All right."

Looking at everyone in the living room of her suite, He Xue said, "Since everyone is here, then let's get down to business. But this time, we have to change the rules of the game. This time, I'll talk to each of you one by one. The highest bidder wins!"

As soon as she said that, everyone frowned deeply at once.

No one expected that it was so difficult to deal with He Xue.

If she talked to each of them one by one, it would be a little problematic.

Walking over to the middle-aged man with yellow hair, He Xue asked, "Let's start with you. I'll not beat around the bush then. Tell me, what's the highest price that your company can offer?"

"500 dollars!" The middle-aged man with yellow hair glanced at the crowd around him and gritted his teeth.

"Is this the highest price your company can offer?"

He Xue nodded in understanding and asked.

"If there's a price higher than this, we can still negotiate."

The middle-aged man with yellow hair smiled and was not as arrogant as yesterday. Instead, he looked rather humble.

"No, for the sake of fairness, everyone only has one chance."

Shaking her head, He Xue responded, "If I were you, I would definitely seize this opportunity. If you can't get the franchise this time, then you can only get it from the person who wins it. At that time, the price won't be any lower than this offer."

“600 dollars.”

The middle-aged man with yellow hair pondered for a moment and made another offer.

He thought it was impossible for others to offer a higher price.

The second company offered 650 dollars while the third one offered 700 dollars.

It came all the way to the last one.

It was none other than that black man.

“Miss He, can I know what the highest price is now?” Asked the black man.

He Xue answered, “850 dollars.”

“900, I can offer 900 dollars,” said the black man without hesitation.

“900?”

He Xue shook her head and said, “I don’t want to do that again, so I’ll give you a chance to get the global franchise. Increase the price by 100. It’ll be 1000 dollars. And the global franchise will be yours.”

The black man raised his eyebrows.

“In the future, everyone outside will have to get the goods from you,” added He Xue.

As he heard that, the black man's eyes lit up as he extended his hand to He Xue. "I hope we can work well together!"

Medical Master

Chapter 988: Is There Any Bonus?

"I announce." After talking with the last man, He Xue immediately declared in front of all the foreign businessmen, "Aaron International Pharmaceutical Company has won the global franchise of the Trillium Root-Securing Pill and Life-prolonging Earth Pill with an offer of 1000 dollars."

The moment she said that, all the foreign businessmen present were suddenly dumbfounded.

1,000 dollars was a price they didn't even dare to think of when they were talking to He Xue alone!

Now seeing that they messed up the sure thing, they found that this price was not truly unacceptable.

They deeply regretted that they didn't choose to make this offer!

"From now on, Aaron International Pharmaceutical Company is a partner of Renyi Group. If you still want the franchise, you can talk to this company," as He Xue spoke, she pointed at the black man next to her.

The black man smiled and nodded at everyone.

When the foreign businessmen heard the news, they looked frustrated as if they had lost an important battle.

This time, what they needed to pay was not 1000 dollars. It would be much higher than that.

It was too late to regret it!

However, one box of the drug was 1,000 yuan in Huaxia. If they asked someone in Huaxia to buy the drugs for them, they could still earn the profits of the difference between the prices.

At this moment, He Xue said with a smile, "Of course, don't think about buying them from people in Huaxia. Because of the particularity of these two drugs, our country will restrict individuals from bringing them abroad. So you won't be able to ask Huaxia people to buy them for you."

He Xue thought to herself with satisfaction. "Don't think about fighting with me!"

They simply lost their last hope.

The foreign businessmen present looked devastated.

"All right." After that, He Xue turned to the black man and said, "We'll find another day to discuss the details of the cooperation."

"Okay." The black man nodded and agreed.

He then strode out of He Xue's room.

People from other companies immediately followed him. As soon as they went out, they surrounded this black man. They all wanted to get the franchise of the two drugs from him.

"Take your time, guys. Everything is negotiable." Being surrounded by everyone, the black man raised his hand courteously. He walked to his room while saying proudly to everyone.

Now it seemed that 1,000 dollars were well spent!

After everyone left, He Xue took out her phone and immediately called Fang Qiu.

“Hello?” When the phone was connected, Fang Qiu’s voice came from the other end of the line. He asked, “Have you finished the negotiation so soon?”

“Of course,” He Xue immediately replied and added proudly, “it’s just like what you said. These foreigners don’t have any good intentions. They directly lowered the price as soon as we started the negotiation. They actually offered me 100 dollars. I was so angry that I almost fainted.”

Fang Qiu asked with a smile, “And the result?”

He knew that He Xue would definitely be able to handle this matter properly, so he was hardly concerned about the process. What he cared about the most was the result. He only wanted to know the final price offered by these foreign companies.

“1000,” He Xue paused and then continued. “Dollars!”

“What?” Hearing this price, even Fang Qiu was a little shocked.

They only sold 1,000 yuan in Huaxia, but they actually sold the foreign companies at the price of 1,000 dollars.

Fang Qiu asked, “Am I mishearing you?”

“You didn’t hear it wrong. It’s 1,000 dollars.” He Xue smiled.

“So high?” Fang Qiu still couldn’t believe it.

1,000 dollars was equivalent to more than 6,300 yuan. The drug which they sold for 1,000 yuan in Huaxia was sold more than six times the domestic price in foreign countries.

This number was too terrifying.

One box was 6,300. Ten thousand boxes would be 63 million.

Among the 60 million, at least 55 million was their profit. It sounded scary!

“Of course,” He Xue smiled smugly. “Good stuff deserves a good price.”

“Have you thought about the sales? The sales are very important data if we want to enter the international market. If the sales are insufficient because of the high price, the loss will outweigh the gain,” asked Fang Qiu with a frown.

“We’re not selling fast-moving consumer goods.” He Xue immediately shook her head and replied, “We’re selling luxuries!”

“Luxuries?” Fang Qiu asked.

“That’s right.” Nodding her head, He Xue said, “If foreign rich people are vampires, then we’re the best blood sellers in the world. Moreover, we’re the only company that can do that.”

“Hiss—” Fang Qiu gasped.

He understood now.

He Xue’s plans were bold. If they could carry out this plan properly, then Renyi Group would surely shine in the international market and become a top-notch international brand in one fell swoop!

“Why are all the luxury goods foreign brands?”

He Xue spoke on the phone, “Because they have exquisite workmanship and stay ahead of global trends. It can even be said that they set a global trend, so the products they produce are the vogue. They can attract people from all over the world and sell them at a high price.”

“At present, Huaxia can’t keep up with the pace of foreign countries in terms of the industry of all kinds of luxury goods. But in terms of Chinese Medicine and Chinese drugs, Huaxia is the top in the world. This is our advantage. Since we have this advantage, we must hold on to it tightly and do the best we can. Compared with all the luxury goods in the world, drugs can still be regarded as fast-moving consumer goods, so we don’t have to worry about sales at all.”

Speaking of which, He Xue paused. Then she said with confidence and expectations, “We’re going to make the first name-brand drugs and the first luxury drugs in the world!”

“Awesome!” Hearing that, Fang Qiu immediately gave a thumbs-up and exclaimed.

“Don’t worry. Everything is under control.” With a smug smile, He Xue asked, “President Fang, I’ve clinched such a great deal for the company. Is there any bonus?”

“Sure,” Fang Qiu immediately nodded and said, “tell me what you want.”

This was such a great deal that Fang Qiu didn’t even know what kind of bonus he could give He Xue.

“All right. That’s what you said.” He Xue’s eyes lit up and she immediately said, “I want you to give me Holy Flowers Formula with better efficacy. You have to make it for me yourself!”

“No problem.” Fang Qiu nodded and agreed at once.

It was easy for him to do that.

Yang Ningyuan and Li Qihua, who had been paying attention to the progress of this international business fair, soon learned from the group employees that they managed to strike a deal with the foreign company and also knew the final price.

“1,000 dollars?” Li Qihua who was in the villa in the capital and Yang Ningyuan was instantly stunned by the terrifying price after they received the news.

“What the f*ck!” Even Li Qihua, who was normally peaceful and cultivated, was so shocked by this price that he swore.

“The price was raised by six times.” Yang Ningyuan exclaimed, “He Xue is a talent!”

Li Qihua laughed, “It’s amazing. Fang Qiu indeed found a great talent. With He Xue’s management, we can rest assured and just sit back to get our money.”

“You might not know. I’m the one who introduced He Xue to Fang Qiu,” Yang Ningyuan said with a wry smile, “why didn’t I poach her myself at that time?”

Li Qihua answered, “Well, only if she agrees. You can’t give her the money that Fang Qiu offered. But aren’t we also on the same team now?”

The two looked at each other and smiled.

They were well aware that the risks they took with them were exceptionally high even if they had a considerable fortune that was so large that it would be hard for ordinary people to imagine how rich they were. Maybe they would lose everything if they were not careful.

Now, with this career, they could be completely relieved. Even if their own business collapsed one day, they still had a way out.

“Ningyuan, although you’re sick before, it’s worth it.” Li Qihua looked at Yang Ningyuan and said, “Do you know that you will have a good fortune after surviving a disaster?”

“What are you talking about?” Yang Ningyuan gave a wry smile and said, “Why don’t you also try to get a terminal disease?”

“No, no, no.” Li Qihua hurriedly shook his head and waved his hand, saying, “I’ve devoted all my energy to self-cultivation and health care these years. Money is only some number to me. I don’t need any good fortune now. Being healthy is the greatest blessing!”

Both of them laughed and continued to chat, recovering from the shock that Fang Qiu and He Xue gave them.

After negotiating with other agents, He Xue then started to talk with the general agent to discuss the problems that they might encounter next, such as how many shipments they would need, how to package the products, and how to build up the image of their drugs, and so on...

Meanwhile, many media reporters in Huaxia who had been waiting in the Shenghua Hotel began to make interviews and report after learning that the business fair was over.

Not long after, the news was released.

“After negotiation of one day, Renyi Group has officially reached a deep cooperation agreement with Aaron International Pharmaceutical Company and will officially sell the Trillium Root-Securing Pill and Life-prolonging Earth Pill globally!”

As the news came out, the netizens couldn't help but be thrilled.

“The drugs will be on sale all over the world. Awesome!”

“I heard that Aaron International Pharmaceutical Company is one of the world's top-notch pharmaceutical companies. Even in the international market, it is a first-class company. I didn't expect that Renyi Group would be able to cooperate with them.”

“It's not about cooperating with which company. The important thing is that our traditional Chinese medicine is able to make a splash worldwide!”

“Renyi Group is incredible. There are not many companies that can make drugs which can be sold in the international market!”

“Amazing.”

“I’ve read Fang Qiu’s two papers published in ‘Medicine and Humans’, which are mainly about the Trillium Root-Securing Pill and Life-prolonging Earth Pill. Since Renyi Group can enter the international market this time, Fang Qiu’s two papers must have played a significant role in it.”

“Fang Qiu has published another paper?”

“Did Fang Qiu write papers about the Trillium Root-Securing Pill and Life-prolonging Earth Pill?”

“Who has the copy of the papers? Hurry up to post it and let us have a look.”

As they discussed heatedly, everyone thought about it carefully.

The reason why Trillium Root-Securing Pill and Life-prolonging Earth Pill were so popular abroad might be really related to the papers written by Fang Qiu. After all, although Fang Qiu’s influence in the world was not enormous, he was still well-known.

Netizens all used their VPN to check the comments of foreign netizens and found Fang Qiu’s papers to have a look.

After they read them, they found that the popularity of the Trillium Root-Securing Pill and Life-prolonging Earth Pill was indeed caused by Fang Qiu’s two papers.

After reading the two papers, everyone couldn’t help exclaiming.

“He deserves to be called Master Fang Qiu. He’s remarkable!”

“Haha, Master Fang Qiu casually wrote two papers and actually helped Huaxia Chinese medicine enter the international market. His influence is truly incredible.”

“Master Fang Qiu’s influence is unquestionable. What I’m most concerned about now is how to translate the two drugs, Trillium Root-Securing Pill and Life-prolonging Earth Pill, into foreign languages!”

“Haha, it’s really hard to translate them.”

“I really don’t know how to translate them. The point is that even if they are directly translated word by word, foreigners can’t understand it.”

In the heated discussion, netizens burst into laughter.

Medical Master

Chapter 989: Lin Rusheng Made a Breakthrough!

Just as everyone in the country was talking about the appearance of Holy Flowers Formula and the export of Trillium Root-Securing Pill and Life-prolonging Earth Pill, something happened in Wulin, which had been quiet for a long time.

“Hahaha...” In a forest in the mountains where no one could be seen within 10 kilometers, the door of a bamboo-built house which had been closed for a long time suddenly opened. A gust of extremely powerful energy suddenly spread from the house, accompanied by a burst of incomparably hearty laughter that pierced the whole place.

“Pitter-patter.” A figure walked out of the house.

If one took a closer look, the man was dressed in a blue Taoist robe. He was thin with gray sideburns and a long beard. He looked like a highly respected Taoist priest.

This man was none other than Lin Rusheng!

Today, Lin Rusheng finished his closed-door training in seclusion!

After the great battle with Fang Qiu, Lin Rusheng went straight back to the wild forest to cultivate in seclusion and didn’t come out until today.

“How many years has it been? I finally broke the bottleneck.”

Standing in front of the door and looking at the surroundings, Lin Rusheng laughed and looked excited.

He carefully sensed it.

His aura was obviously stronger and more ethereal than he was when he fought with Fang Qiu.

“Half-step Guru, I’m a real Half-step Guru now!” Lin Rusheng clenched his fists and couldn’t help laughing. “Although I haven’t really reached the actual Guru Realm, I’ve already overcome the most difficult stage. It’s just a matter of time now. Hahaha.”

He was repressed for ten years!

However, after being repressed for ten years, he finally reached this stage. However, the energy he suppressed during these ten years could not help him directly reach the Guru Realm.

However, his current situation was that he had attained such a state of mind, so his strength would naturally enhance slowly. However, he couldn’t rush it. He still needed to accumulate his strength over time!

Lin Rusheng immediately took out his phone after he repressed his excitement and calmed down.

He logged into the Wulin online forum and immediately sent a post on the forum.

“I couldn’t break the bottleneck after ten years of bitter cultivation. Fortunately, with the help of John Doe, I’m able to break the bottleneck, overcome the chasm, and attain the true essence of cultivation. Now I’ve reached my ascension. The day when I become a guru is just around the corner.”

As soon as this post was sent, it immediately attracted the attention of countless people.

“Damn! Lin Rusheng finished his closed-door training?”

“Lin Rusheng finally reached this stage?”

“Damn. He failed to achieve it after cultivating bitterly for ten years. But he actually made a breakthrough after having a great battle with John Doe?”

“I didn’t expect that that battle really was Lin Rusheng’s battle of ascension. I still vividly remember everything of that great battle.”

“I didn’t expect that he really broke through.”

“Will there be another guru in Wulin?”

“I heard that it’s very difficult to break through to become a guru. Even if one overcomes the chasm, it will take a certain amount of time. After a slow transition, one can become a real guru. Since Lin Rusheng has reached the stage of Half-step Guru, shouldn’t he continue to hide and cultivate and quietly wait for the day when he becomes a guru?”

“Isn’t he a little too proud?”

“Although this is great news, he actually came to send a post on the forum at such a critical moment. Isn’t he a little too negligent?”

“Well, Lin Rusheng is powerful. Once he reaches this stage, John Doe will definitely not be a match for him. How many people in the world can fight him?”

Everyone was having a heated discussion on Wulin online forum.

It also caused a sensation in Wulin.

Four Great Families also paid attention to the news in the first place.

“Lin Rusheng actually was enlightened?” In the Diwu family in Nanjiang, Diwu Mingchuan frowned and said in the hall, “This man was truly forced to reach this stage. It really is dumb luck!”

“Father.” Diwu Qian rolled her eyes at Diwu Mingchuan and gave a wry smile.

“I even suspect that he has benefited from John Doe,” Diwu Mingchuan shook his head and said, “it’s almost impossible for those who don’t have a peaceful mind and good temper to become a guru. Although there are good and bad gurus, it’s really unexpected for such a narrow-minded man to become a guru.”

“Isn’t it a good thing since there’s one more guru in Wulin? You don’t seem to want Lin Rusheng to achieve this,” said Diwu Qian.

“Will it be a good thing or a disaster of Wulin?” Diwu Mingchuan shook his head and said, “On the surface, Lin Rusheng looks like a decent man. He wears a Taoist robe all day long, but in fact, he discredits Taoism. However, he is very scheming and self-centered. It is easy for such a person to degenerate. It doesn’t matter if he doesn’t become a guru. If he still degenerates after becoming a guru, it will be big trouble.”

“Yes.” Diwu Qian frowned slightly and nodded in agreement.

“What a pity.” Seeing his daughter’s dignified look, Diwu Mingchuan rolled his eyes and instantly shook his head with a sigh.

Diwu Qian asked, “What’s a pity?”

“It’s a pity that you haven’t reached the peak of the ninth class. Otherwise, I would have considered whether to let you fight with John Doe again,” said Diwu Mingchuan.

“Uh...” Diwu Qian covered her mouth and smiled.

People of the Qian family, the Zhan family, and the Xi family all felt the same way.

The patriarchs of the Four Great Families were all sophisticated experts. When they heard that Lin Rusheng had broken through, they thought of the same thing, except that Elder Zhan who had a good impression of Lin Rusheng at the beginning didn't feel something was wrong. Patriarchs of the Xi family and the Qian family both looked a little dignified, but most of the time they simply felt that it was a pity for their young disciples.

If those disciples could also reach the peak of the ninth class, they would make every effort to send them to fight with John Doe to see if John Doe was truly so miraculous!

In addition to the Four Great Families, the one who regretted it the most was undoubtedly the Sword Fanatic.

"Lin Rusheng made a breakthrough?" Hearing the news of Lin Rusheng's breakthrough, the Sword Fanatic was dumbfounded.

Although he had also gone to watch the battle of ascension, he never seriously treated it as a battle of ascension. That was because he was extremely certain that reaching ascension was not so easy.

After all, he was also at the peak of the ninth class, only one step away from becoming a guru.

Since Lin Rusheng couldn't make it even after ten years of hard work, it meant that he didn't have the talent and that it was almost impossible for him to become a guru.

But the Sword Fanatic didn't expect that Lin Rusheng actually made it after the battle with John Doe.

"Damn it, I suffered a loss last time." Thinking of the last time when he fought with John Doe, the Sword Fanatic actually requested to compete on their sword moves without the help of internal Qi. He suddenly wanted to slap himself in the face now.

He actually missed such a good opportunity.

It was an extraordinary coincidence!

If he had exerted all his strength to fight with John Doe at that time, it might have been himself who was able to overcome the chasm, instead of Lin Rusheng.

The more he thought about it, the more he felt that it was a pity. He deeply regretted it.

Meanwhile, many people were sighing with emotion on the Wulin forum.

“It turns out that there is still a state of Half-step Guru after breaking through?”

“I haven’t heard of a guru for a long time. This time, are we finally going to witness the appearance of a guru?”

“He couldn’t make it after ten years. But he actually achieved it after having a battle with John Doe. John Doe is really Lin Rusheng’s lucky charm.”

“Lin Rusheng should thank John Doe properly, right?”

“Yes, John Doe helped him overcome the chasm. It doesn’t make sense if he doesn’t express his gratitude.”

It seemed that Lin Rusheng had been watching the Wulin forum all the time.

Just when everyone thought that Lin Rusheng should thank John Doe, Lin Rusheng sent another post on the Wulin forum.

“Mr. John Doe, can we meet?” A post was sent in the name of Lin Rusheng.

“Fortunately, with Mr. John Doe’s help, I was able to overcome the chasm. Now that I have achieved ascension, I hope that Mr. John Doe will do me the honor. Would you like to meet me ten days later, Mr. John Doe?”

As soon as this post was sent, it immediately attracted everyone’s attention and comments.

Countless people swarmed to the post.

“I’m worshiping the guru!”

“Me too!”

“This is the closest I’ve ever been to a guru.”

“Guru Lin, can you reply to me?”

“I can’t believe that I’m leaving a comment on a guru’s post.”

“I actually witnessed the appearance of a guru!”

“Beep, beep, beep...” Just as people on the Wulin forum were in a heated discussion, Fang Qiu, who was following the progress of his company cooperating with an international group, was suddenly disturbed by the ringtone of his mobile phone.

He took out his phone and had a look.

“He Gaoming?” Confused, Fang Qiu picked up the phone.

“Hello, master.” He Gaoming’s voice came from the other end of the line.

“What’s the matter?” Fang Qiu asked, using the tone of John Doe.

“Lin Rusheng is looking for you,” He Gaoming said directly, “Lin Rusheng posted on the Wulin forum that he has come out of his closed-door training in seclusion today and overcome the chasm and that he would soon become a guru.”

“Oh?” Fang Qiu was surprised.

He didn’t expect that Lin Rusheng would break that barrier and overcome the chasm.

Because he had once made a breakthrough and became a guru, he was fully aware that there would be a period of time to accumulate one’s strength after one overcame the chasm. Although it was only a matter of time, wasn’t it a little too ostentatious since Lin Rusheng sent a post on the forum as soon as he overcame the chasm?

Wasn’t he afraid that someone with ulterior motives would come out to hinder him at this critical moment?

“He invited you to meet him in ten days,” He Gaoming said, “but he didn’t say the specific location. Do you need me to reply for you, or do you want to do it yourself?”

“I’ll do it myself,” Fang Qiu answered and hung up the phone.

He immediately logged into the Wulin forum with his mobile phone.

Although there was a computer in front of him, it was quite easy to leave his IP address if he logged in with the computer. Because of the particularity of his phone, Fang Qiu didn’t have to worry about that if he logged in with his phone.

He logged into the forum and saw the post sent by Lin Rusheng and immediately replied below the post, “Okay.”

“Ten days later, I’ll meet you in Zhongnan Mountain,” Lin Rusheng replied immediately and set the meeting place.

As people saw their conversation, there was another round of heated discussion.

“It’s Zhongnan Mountain again. Why do I feel that there’s chemistry between them?”

“It seems that there will be another pair of good friends in Wulin.”

“Absolutely. John Doe helped Lin Rusheng break through, so Lin Rusheng will definitely express his gratitude to John Doe. But if these two people join forces, they will probably be the strongest pair of good friends in Wulin now.”

Fang Qiu didn’t care about the heated discussion on the Wulin forum.

After replying to Lin Rusheng, Fang Qiu expanded the area of the Desert Cistanche cultivation base again at the request of He Xue.

After all, the Trillium Root-Securing Pill and Life-prolonging Earth Pill would be sold in the international market. The quantity of the products needed was much larger than before. Hence the production of Desert Cistanche should keep up.

Medical Master

Chapter 990: Refining Internal Qi!

“How is it?” Standing in the newly expanded Desert Cistanche cultivation base and looking at the base that was bigger than before, Fang Qiu turned to look at He Xue who had been supervising the construction.

“Yeah, that’s pretty much it,” He Xue nodded with satisfaction and said, “According to the amount of Desert Cistanche every square meter produces every year in the cultivation base, the output should be enough to supply both the domestic and international markets.”

"In that case, there will be nothing I need to do here, right?" Fang Qiu asked again.

"No," He Xue asked curiously while dusting off her hands, "aren't you leaving again?"

"The world is so big that I want to go out to see it." Fang Qiu took a deep breath.

"Are you going abroad?" He Xue was stunned.

"No," Fang Qiu shook his head and said, "I'm going to hike in the desert."

"Oh?" He Xue was shocked.

In the eyes of ordinary people, the desert was an extremely mysterious place, which was always associated with death.

She didn't know why Fang Qiu suddenly wanted to have such a trip, but she could feel how difficult this journey would be. Since Fang Qiu wanted to do it, it meant that he had made up his mind.

"What?" After being amazed, He Xue suddenly chuckled and said, "Do you want to prove your courage, or do you want to suffer a little?"

"No cross, no crown," Fang Qiu answered in a flat voice.

He Xue said, "I can help you prepare a satellite phone and a GPS receiver."

"No need," Fang Qiu shook his head and said, "It will be equivalent to entertainment if I know there's a way out in my training."

He Xue nodded her head and said, "All right. I wish you all the best."

Fang Qiu left the cultivation base that afternoon.

He planned to go there on foot.

In fact, the reason why Fang Qiu had to have a ten-day hiking trip in the desert was that he wanted to stabilize his realm.

It had been a long time since he applied this method. This was the method that the old master told him a few years ago before he made a breakthrough and became a Guru.

This method was that he needed to completely rely on his body without using any internal Qi to push his limits continuously.

This was a process of continuously refining and stimulating internal Qi in the body. Since the internal Qi was stored in the human body, its enhancement was closely related to the body.

Of course, there were cultivation methods in Wulin that were specifically used to train the body but it did not have much effect on stabilizing one's realm.

Fang Qiu knew it very well.

The method that the old master taught him was not only to train his body but to perfect every aspect of himself, including sprits, physical condition, endurance, and so on!

This was not only a simple journey, but it was also an experience to toughen one's will!

After receiving the old master's reply from the Wulin forum, Fang Qiu thought of this method in the first place. But he couldn't set aside everything to train because there were too many things to do.

Now everything that required him to deal with was done.

He had exactly ten days before the appointment he made with Lin Rusheng.

Therefore, Fang Qiu decided to go to the desert.

When leaving the cultivation base, Fang Qiu carried a bag and set off alone step by step!

In the blazing sun, he wore a cloak and was dressed like a fakir as he set foot on the road of the Death Desert.

On the flat road, the sand was flying like fluffy catkins while being blown by the breeze, scattering on the road in waves.

This road led to Death Desert that no one dared to go deep into. One would be frightened even at the thought of it.

But even though the journey was fraught with danger, Fang Qiu still saw that all kinds of people were going to cross the Death Desert.

Of course, most of them came in groups.

Only Fang Qiu walked alone with his bag on his back.

Undoubtedly, in the eyes of these people, Fang Qiu was alien to them, which attracted almost everyone's attention.

As Fang Qiu was walking, he saw an inn in front of him.

"Sir, is there any water?" Fang Qiu walked into the inn.

"How many bags do you want?" Asked a middle-aged man standing in front of the counter.

"Bags?" Fang Qiu was stunned.

The inn owner took out a long and flat transparent bag from the counter. The bag was filled with pure water, and a straw was attached to the corner of the bag.

"This is a water bag. Everyone in the desert likes to bring this with them. The water in it is sufficient. Generally, a water bag can help a person hold on for about three days. If you use it carefully, it can help you last for five days. The most important thing is that this water bag is convenient. You can put it in the bag or clamp it in your clothes. When you want to drink, you just need to move your lips," said the owner.

"I want a bag," Fang Qiu nodded with understanding and bought a bag of water.

"Young man, don't you have any companions?" The owner of the inn glanced curiously at the outside of the door.

"No, I'm alone," said Fang Qiu.

"You can't go alone." The owner furrowed his brows as he added, "This desert is incredibly dangerous. You'd better not go there alone. You might never get to come back."

"Thank you," Fang Qiu nodded and took the water bag from the owner.

"Alas." Seeing this, the boss shook his head, took out a business card from the counter, handed it to Fang Qiu, and said, "Young man, this is my business card. There's my name and phone number on it. If you run into any trouble in the desert, you can call me immediately. Maybe I can help you."

"Okay, thank you," Fang Qiu nodded again and expressed his gratitude. After taking over the owner's business card, he reached out his palm and gently patted the owner's shoulder. A stream of internal Qi flowed out and instantly helped the inn owner solve his undetectable disease.

“Hmm?” The inn owner was stunned and felt a surge of heat on his shoulders, which felt rather comfortable.

However, he didn’t think too much about it, assuming that it was only an illusion.

After buying the water, Fang Qiu left the inn and went straight into the Death Desert.

Fang Qiu had been moving forward the whole day.

Just like that, he was walking step by step. Regardless of the wind blowing, the sun shining, and his dry lips, he resisted the urge to drink a mouthful of water.

It was not just during the day.

Fang Qiu didn’t stop even at night.

They walked all the way to the next morning.

After crossing a sand dune, Fang Qiu continued to walk forward on foot in the morning wind.

“Rumble, rumble...” The roar of a car engine was heard from a distance.

He turned his head to have a look.

He saw an off-road vehicle behind him.

There was a man and a woman in the car.

“Why is there a man in the front?” The woman pointed at Fang Qiu walking in front of them and asked in surprise.

“Damn!” When the man saw Fang Qiu, he immediately exclaimed. He then pursed his lips and said, “Is this man a fool? This is the Death Desert. Even driving a car here is dangerous. How dare he travel on foot?”

“He’s too bold,” the woman echoed, and her eyes fixed on Fang Qiu. When the car was close to Fang Qiu, the woman pondered for a moment and said, “How about we give him a ride?”

“Forget it.” The man shook his head and said, “He should have heard the sound of our car. If he needs it, he will take the initiative to stop our car. If he doesn’t need it, we shouldn’t disturb him. After all, everyone needs to follow their own path. Besides, we don’t know what kind of person he is at all.”

Sure enough, when the car drove past Fang Qiu, he didn’t stop it.

The car also left quickly.

Fang Qiu continued to move forward.

In the blink of an eye, it was the third day.

This time, Fang Qiu met a biker.

The biker was a young man who was tightly wrapped up in his clothes. When he saw Fang Qiu, he was extremely surprised and curious. He immediately stopped his motorcycle, jumped off it, and walked side by side with Fang Qiu while wheeling his motorcycle.

“Sir, are you alone?” Asked the young man as he looked at Fang Qiu curiously.

“Yes,” Fang Qiu nodded with a smile.

Although he wore a cloak, the young man could still feel that he was smiling.

“Awesome. You’re alone and not driving a car? How dare you enter the Death Desert?” The young man was amazed.

“Isn’t this what we need to go through if we want to train ourselves?” Fang Qiu replied with a smile and then asked, “Aren’t you the same?”

“That’s true.” The young man laughed and said, “Actually, I sneaked out of my home.”

“Huh?” Fang Qiu was stunned.

“I’m about to graduate from college and want to have a motorcycle trip. I know that my family won’t allow me to do this, so I sneaked out without telling them,” said the young man.

“It’s too dangerous.” Fang Qiu shook his head and said, “Your family will be worried when you do this.”

In Fang Qiu’s opinion, this young man was too thoughtless.

The two chatted as they walked. Fang Qiu didn’t try to reason him. They were simply asking and answering questions. After chatting for a while, the young man got on the motorcycle and left.

Before he left, he and Fang Qiu wished each other good luck.

Fang Qiu continued to move forward.

It was the fifth day.

Because he had been walking day and night, Fang Qiu felt that he had walked about two-thirds of the journey. In the past few days, he didn’t rest for a second. He had been breaking through the limit in terms of his body, soul, endurance, and spiritual force.

Soon, it was early in the morning on the sixth day.

As soon as he climbed over a particularly high sand dune and felt that the flow of sand under his feet was unusual, Fang Qiu stopped.

“With this speed, there should be quicksand below,” Fang Qiu looked down at the sand dune and saw several familiar figures.

Under this extremely high sand dune, there was indeed the quicksand that was similar to a river. At this moment, there were two people in the middle of the quicksand.

It was a man and a woman. It turned out to be the young couple driving the off-road vehicle.

The car should have sunk. The two of them were obviously standing on the roof of the car, and the quicksand already reached their waists.

At the edge of the quicksand, there was a figure two meters away from them.

It turned out to be the college student.

His motorcycle was stopped on the sand dune not far away. It seemed that he wanted to save the young couple, but he was swept in by quicksand.

At a glance, the three of them were in a miserable state in the quicksand. It seemed that they had been tortured badly along the way. Obviously, they were about to reach their breaking point.

Especially the college student biking alone, he actually wanted to save them.

It seemed that he was also a good person.
