

Medicine 515

"Xiao Chen, you..." Xia Jiuzhou walked into the inner hall and saw the painful expression on Xiao Chen's face, which had been soaked with sweat.

"This is him. What's the matter with him?"

Xia Hongtao asked Zhong Linyi, who was watching Xiao Chen.

"Just now, doctor Xiao took drugs for master Xia. I think he was poisoned by poison gas. This is very dangerous. Once the poison gas enters the blood, I'm afraid his life will be in danger."

"Ah!" Xia Jiuzhou heard that it was so dangerous. He was also shocked and said, "Dr. Zhong, what can we do for Xiao Chen now?"

Zhong Linyi shook his head. "Only wait, if doctor Xiao can practice the true Qi in the medical book, this Qi is pure Yang and can dissolve any poisons and gases," he said

"True Qi?"

Xia Hongtao seemed to have heard this saying. He nodded and said, "when I was doing business in the provincial capital a few years ago, I heard that only those great doctors can cultivate this true Qi."

Zhong Linyi nodded heavily and said, "I didn't expect that uncle Xia could know that the true Qi in my medical field is, yes, only those great doctors can practice. You see, doctor Xiao seems to have practiced it now."

As Zhong Linyi pointed out, there was a slight white air rising on Xiao Chen's head.

"What is this?"

"Poison gas, doctor Xiao is slowly forcing the poison gas sucked out of master Xia's body with real gas."

Xia Jiuzhou nodded and said, "unexpectedly, the silly uncle of the Xia family can reach the level of a great doctor."

Zhong Linyi raised his head slightly and said, "I, Zhong Linyi, am now a registered disciple of doctor Xiao. Unfortunately, I haven't asked the doctor to accept me."

He shook his head somewhat disappointed.

Xia Hongtao saw that Zhong Linyi was so surprised.

Zhong Linyi's longevity hall and Xiajia medical school used to be the same. Zhong Linyi didn't know how many times he had trouble with Xiajia medical school.

Now he is willing to become an apprentice under the name of Xiao Chen.

Looking at Zhong Linyi's white hair, and then looking at Xiao Chen, he is only in his early twenties. Xia Hongtao looked at his father beside him.

"Dad, when did Xiao Chen become so skilled in medicine?"

Xia Jiuzhou narrowed his eyebrows and eyes slightly and said, "when your uncle brought him back, I thought it strange that Xiao Chen was just a fool. Why should he marry his favorite granddaughter Xia yunshang to him? Now it seems that elder brother really knows people and has a way!"

At this time, Xiao Chen's face was slowly gentle. After a while, he recovered his original appearance.

See Xiao Chen open his eyes.

"Xiao Chen, thank you for saving me"

Xiao Chen sees Xia Jiuzhou. He hurriedly got up and said, "second Grandpa, you are the elder of my Xia family. It's my duty to save you."

Xia Jiuzhou is looking at Xiao Chen differently now. Those who can be compared with those great doctors in the provincial capital are afraid that their attainments in the future will be unlimited.

"Xiao Chen, I can't see that your child has such superb medical skills. This is also the blessing of my Xia family."

Xia Hongtao is no longer a fool to call him.

Xiao Chen told Xia Jiuzhou not to drink too much water when he came home. One day later. I'm taking some poison clearing medicine soup.

Xia family is a family of medicine. Xia Hongtao knows these basic medical principles.

Thanks to Xiao Chen again.

Xiao Chen sent Xia Jiuzhou and his son away.

Staff Wang's Jeep stopped in front of the door.

"Doctor Xiao, you left early yesterday and forgot to give this to you."

Staff Wang said and waved to a luxury car coming behind him.

A soldier ran to staff member Wang from the car and handed him a delicate car key with both hands.

"Here. This is the key to this Aston Martin. This car was driven by my second brother when he was at home. I don't like this sports car very much, so it has been idle. I don't think doctor Xiao has a car to drive when he goes out, so I decided to give you this car."

Xiao Chen looked at the car key in front of him.

"This, this Aston Martin is ten million silver dollars. I, I can't ask for such a heavy gift."

Xiao Chen didn't answer. Staff Wang's face sank and said, "doctor Xiao, do you look down on me?"

"No, no, it's just too expensive."

"OK. If doctor Xiao thinks it's too expensive, I'll just lend it to you. Is that ok?"

Xiao Chen wanted to refuse.

But the king staff officer thrust the car key into his hand.

Staff Wang finished and turned to the jeep.

"Doctor Xiao, I'll invite you to the moon watching tower that day. We didn't drink the wine last time, hahaha"

Watching staff Wang's car go away, Xiao Chen really felt that staff Wang didn't want to be an officer like Li bearded.

Be reasonable and considerate.

He's a man worth dating.

"Xiao Chen, what are you doing? Why is the inner hall so dirty? Don't you come in and clean it up."

"Here we are."

Xiao Chen turned and ran into the hospital.

Zhong Linyi looked at Xiao Chen with puzzled eyes and said, "master, why are you angry with this busboy woman?"

Xiao Chen waved his hand and said, "don't worry. By the way, if it's all right, you'll go to your hospital. Don't delay the patients."

Zhong Linyi nodded. He was supposed to ask Shiniang. Seeing that Xia yunshang is not here, he can only come back in the afternoon.

Here, Zhong Linyi leaves, and Xiao Chen goes to the inner hall to clean up.

More people came to see doctors in the hospital.

Two guys at the counter are busy taking medicine.

Xiao Chen cleaned up in the back.

Then there was a brake sound outside the door.

I saw a red Maserati parked in front of the door.

The appearance of this luxury car. Let several little sisters in the patients in the hospital run outside.

"Ah!"

"So handsome!"

"Is this the third young master of the Qin family"

"Not him, who else is so handsome in Binjiang?"

People's eyes were also attracted by a tall and handsome man who got off the bus.

The man was in a light white suit, with a gold pen in his pocket on his left chest, shining brightly in the sun.

When he opened the front passenger's door, they were surprised to see that it was Xia yunshang of Xia family medical school who got off the bus.

"Doctor Xia is back."

Everyone who saw the doctor stood up.

The little sisters standing in front of the door flashed jealousy in their eyes.

"How enviable!"

"What's the matter? If I were her age, I would be more beautiful than her."

"Smelly beauty, you."

These little sisters are talking and laughing here.

Qin Ming took Xia yunshang's hand and walked into the hospital.

Xiao Chen was cleaning up in the inner hall. He heard someone calling Xia yunshang's name outside. He was still worried. He didn't know why his wife who went to buy breakfast this morning didn't come back.

He came out with a mop.

"Is this the stupid husband you're talking about?"

When Xia yunshang saw Xiao Chen, his face became gloomy and said, "well, don't worry about him. Qin Ming, you've been studying in the medical school outside these years. What have you got? Let's go inside and talk."
