

Medicine 520

"I, we are here to enforce the law. What does it have to do with others?"

"Law enforcement?" Staff member Wang sneered and looked at the chief of the law enforcement team. The man's eyes were free and had betrayed himself.

"Doctor Xiao, how many hospitals are there in Binjiang against your Xia family hospital?"

Xiao Chen looked at Xia yunshang. Xia yunshang thought for a moment and said, "the Jishi hall in the east of the city proposed to sell a health medicine called Fulu pill a few days ago. I think this Fulu pill is actually made of some powder of aphrodisiac medicine. Frankly, it's the medicine of tiger and wolf, so he refused him. He also advised him not to sell this medicine to deceive people."

"Fulu pill?"

When staff Wang heard this, his face turned green and said, "I've eaten this, too."

"What?! adviser Wang, do you eat much?"

Staff Wang stretched out a hand and said, "I ate five boxes. "

Xia yunshang nodded and said, "fortunately, if you eat too much, I'm afraid you won't stand here and talk to me now."

Staff member Wang breathed a sigh of strength. Fortunately, because he was poisoned by someone before, which aspects were affected, he would be ill and go to hospital. I heard that Ji Heng of Jishitang was a miracle doctor, so he went there to try.

"So that Ji Heng is a liar?"

Xia yunshang frowned slightly and said, "I don't know whether it's a liar or not, but if you take this medicine for a long time, you'll worry about your life. "

"Shit, this Ji Heng is not careless about human life. He is a doctor. He ignores the lives of others for a little petty profit. Such a person should be caught and shot immediately!"

After that, staff officer Wang stared at the official of the law enforcement team and said, "have you been instructed by Ji Heng?"

Seeing that the matter of Ji Heng was told by Xia yunshang, the man smiled with a guilty smile and said, "staff officer Wang, we are all subordinates of battalion commander Li. To save face, we just received a little benefit from him."

"So it is." staff Wang looked at the little man and several accomplices and said, "what about you? "

The little man knelt down and said with a bitter face, "I, I said."

It turned out that this man was pretending to be mute.

"Say!"

"We were all hired by Ji Heng at the expense of money, just to frame up the Xia family medical school, which was closed at that time."

Staff member Wang looked at Xiao Chen and said, "doctor Xiao, you see, this is a man of evil intentions. Ji Heng is really cruel and cruel. In this way, there is no medical school that can compete with his Jishi hall in this area."

Xiao Chen nodded.

"Come on, we've caught all these and put them in our prison. When battalion commander Li comes back, he'll be responsible for it."

Those law enforcement teams are stupid.

"I said staff Wang, you, you give your brother a way to live?"

"Shut up, you know that doctor Xiao is the life-saving benefactor of battalion commander Li's eighth aunt, and you dare to harm battalion commander Li's benefactor. I dare not bear this crime. Just wait for the battalion commander to come back. If you have anything you want to say, tell him."

With that, staff officer Wang waved his hand, and the soldiers he brought escorted these law enforcement teams into the military vehicle outside.

Seeing that staff member Wang had helped solve the trouble just now, Xiao Chen came forward to thank him, but staff member Wang waved his hand and said, "my miracle doctor Xiao, if you hadn't found it in time. Helped us clear away these black sheep. I don't know how many harmful things these guys are going to do. "

"This is what I should do."

"Doctor Xiao, but I still want to remind you. This Ji Heng has a Ji family behind him. You should be careful."

"Whoever sells tiger and wolf medicine should be brought to justice."

"I'll report it to the battalion commander. Let him decide then."

Xiao Chen nodded.

"By the way, doctor Xiao, an old colleague of my father, Su Laosun of Dongjiang City, heard that your father was cured by you a few days ago. I also hope you can go to Dongjiang to show him."

Sun Lao?

Dongjiang?

The Dongjiang River faces Binjiang across the river, but it is several times larger than Binjiang.

With a large population, it is an important town in the south of the Yangtze River.

It is said that the Garrison has two regiments.

The memory of this old sun Xiaochen also has about this person.

When Zhao Tianqi established North Korea, sun Lao had made a lot of efforts, so he had a great influence in several cities near Dongjiang.

Many people worship his name. Just to get the name of an old grandson.

Staff officer Wang's father was an old friend of sun Lao.

This time, Mr. Sun called to ask, and Mr. Wang recommended it on his own initiative. Xiao Chencai was invited by sun Lao to Dongjiang for treatment.

Staff Wang and Xiao Chen made an agreement.

Cross the river tomorrow.

Looking at staff member Wang leaving, Xia yunshang said faintly, "I didn't expect you to be so powerful?"

Xiao Chen was stunned and said, "I followed you and learned some of your fur."

"My fur. You can disturb old dongjiangsu. Your medical skill seems to be above me."

Seeing her say so, Xiao Chen just shook his head.

"Well, I don't care if you know medical skills, but I just saw you beat those scoundrels. Your skill is also good. Xiao Chen, what else do you have I don't know?"

Xia yunshang's expression was severe at this time.

Xiao Chen secretly complained in her heart that she had helped her, but now she was going to be interrogated like this.

This is the difficulty of a redundant son-in-law!

Xiao Chen is determined to pay attention anyway.

That's what Xia yunshang said. He just didn't admit it.

Seeing that he didn't speak, Xia yunshang couldn't ask again.

"OK, when you go to Dongjiang tomorrow, I'll still worry about you. Well, come in with me and I'll tell you, so as not to embarrass my Xia family medical school when you go to Dongjiang."

Xia yunshang said and went into the back hall first.

Xiao Chen was slightly moved when she saw that she was going to teach her medical skills.

They talked about medical skills in the back hall for two hours. Seeing that it was getting late, Xia yunshang got up and said, "it seems that you really know a lot about medical skills."

Xiao Chen laughed to herself. The true story of his immortal medical school can not be described.

Xia yunshang explained again.

Just at this time, Xia Ziyuan shouted outside and walked into the hospital.

"Sinner Xiao Chen, come out!"

Xia yunshang recognized that it was the voice of her big brother. She walked out first.

Xiao Chen followed.

Xia Ziyuan was standing in the middle of the hospital at this time, followed by several strong Xia family servants behind him.

Seeing Xiao Chen walking out, Xia Ziyuan pointed to him and said, "somebody bind the sinner Xiao Chen!"

The servants rushed up without any reason.

Xia Yunshang stared at several people and said, "what are you doing?"

After several servants stopped drinking, she looked at Xia Ziyuan and said, "brother, what are you doing? What happened to Xiao Chen? She became a sinner?"

Xia Ziyuan pointed to Xiao Chen and said fiercely, "I came to check the accounts in the morning. He not only didn't cooperate, but also hit me."

Xia Yunshang frowned, looked at Xiao Chen and said, "why don't you check the accounts and beat your big brother?"

Xiao Chen said coldly, "I asked him to wait until you come back. He not only didn't listen, but also tried to fight me. I was just forced to fight back. Why blame me?"
