

Medicine 540

"The second thing is what I asked doctor Xiao."

"Please?"

Xiao Chen was slightly stunned.

It seems that this is the real purpose for Zhu Laoer to find himself today.

"Please."

Zhu Laoer pointed to the fire gun on the long case and said, "the way of martial arts has gradually become lonely since the fire gun was developed 700 years ago."

Xiao Chen didn't know much about these and could only nod slightly.

"Since then, martial arts have become a dispensable existence. Later, firearms prevailed and guns banned the role of martial arts, but the martial arts group still exists. Shenwu hall was established 300 years ago. In our opinion, martial arts can not be replaced by guns."

Zhu Laoer is right. But Xiao Chen knew that in front of the guns, the body of the warrior was really vulnerable.

"Three hundred years ago, in order to revitalize martial arts, martial arts practitioners met to hold a martial arts exercise every ten years. Now, martial arts practitioners in five cities near Binjiang are set in Shenwu hall."

"Oh!?"

This surprised Xiao Chen.

"So. Today, I called doctor Xiao to make an appointment with doctor Xiao. As a special doctor of the five cities of our Shenwu hall, there will always be deaths and injuries in the martial arts competition. Therefore, if I can invite a doctor like doctor Xiao to be present, I think it will reduce a lot of unnecessary deaths and injuries."

i see.

Xiao Chen thought for a while, but waved his hand and said, "it's not that I don't agree, but I Xiao Chen is just a busboy in the Xia family medical school. I'm not qualified at all."

"Handyman? Ha ha, if doctor Xiao is a handyman, I don't think there will be any doctors in Binjiang?"

Zhu Laoer waved and saw a servant come up with a wooden plate in his hand.

When he walked in, Xiao Chen saw that there were several silver dollar pass tickets on it.

"Here's 200000 silver dollars, doctor Xiao. This is just a deposit. When the martial arts show is over, I still have 300000 silver dollars to offer. I just hope you can help me with Zhu Laoer."

Zhu Laoer asked the servant to take the wooden plate and put it on the table next to Xiao Chen.

"This..."

Xiao Chen smiled bitterly.

Half a million silver dollars, which is not a small amount.

But I couldn't help myself. Is the biggest problem.

"I really have difficulties to hide. Let's put it this way. I can't promise you this myself. If you want, you might as well go to the Xia family medical school to find Xia yunshang."

"Is she all right?"

Xiao Chen said and got up and said, "I'm sorry it's difficult to agree to this."

Zhu Laoer also stood up somewhat disappointed.

"Since doctor Xiao said so, I'll send someone to invite Xia yunshang again."

Xiao Chen said goodbye and was about to go out.

Outside the door, boss Zhu came in with an old man.

"Is that you?"

Seeing that it was Xiao Chen, boss Zhu was not angry. He stared at Xiao Chen and went to the second brother of Zhu and said, "second brother, are you looking for him?"

Zhu Laoer nodded and said, "brother, it's a pity that doctor Xiao didn't promise."

"Bah! What is he, a miracle doctor and second brother? Do you really take this fool seriously?"

Zhu Laoer looked at his brother and said, "brother, don't say that. Doctor Xiao just..."

Boss Zhu couldn't listen at all. As soon as he raised his hand to stop Zhu's second son, he immediately looked at the old man brought to him. Said: "second brother, this is sun Fuchen, the miracle doctor I invited from Fulu hall. He is our miracle doctor in Binjiang. It's a lie, not to mention this fool."

"Doctor sun?"

Zhu Laoer has also heard of this Fulu hall, which has some names in Binjiang.

It's just that Fulu hall seems to be in the east of Binjiang.

There are many rich people living there. Therefore, it is only spread in some high-level circles.

"Doctor sun." Zhu Laoer pointed to the first chair at his right hand.

The sun Fuchen was also impolite. He sat directly on it, glanced coldly at Xiao Chen opposite him and said, "second master Zhu, please come here. Aren't you afraid to pollute the name of your Shenwu hall?"

"Hahaha..."

Zhu Laoer can only laugh a few times.

He looked at Xiao Chen who was leaving and said, "I'll see you off?"

Xiao Chen waved his hand.

"If hall leader Zhu has guests, he won't work hard."

Preparing to leave.

"Wait a minute!"

The sun brushed the dust but made a noise to stop it.

"What's up?"

Xiao Chen knows the enemy of her peers, but she didn't expect the other party to stop her. Looks like you're going to get yourself into trouble.

"I heard that a few days ago, you saw a doctor for staff member Zhu of the garrison. You said that Fulu pill was the medicine of tigers and wolves, but this came from your mouth?"

Fulu pill?

Xiao Chen has some impression.

But which is the prescription issued by Jishitang. Why did sun Fuchen of the blessing hall ask?

"Yes, that Fulu pill is only used as an aphrodisiac. It's really just a symptom treatment. After taking it, you can only delay the symptoms. If you take it for a long time, I'm afraid it will not only cure the disease, but also cause great damage to your body."

"Nonsense!"

Sun Fuchen's face sank, pointed to Xiao Chen and said, "what are you, a busboy in the Xia family medical school? You dare to talk about products in such a disorderly way. Do you know what medicine is?"

Xiao Chen is a little puzzled. The man's reaction is a little too extreme, isn't it?

"Dr. Sun, I don't know what you mean by asking me that?"

"What do you mean? Hum, the Fulu pill is a pill jointly developed by our Fulu hall and Jishi hall. Do you think it doesn't matter?"

Xiao Chen suddenly realized.

I'm here to settle with myself.

"I only said this after I understood the medicinal properties of this Fulu pill. In fact, it's just about medicine. It's not aimed at Fulu hall."

Xiao Chen still doesn't want to create complications.

"Nonsense, this medicine comes from our two medical schools. You say it's not aimed at us. Others may not think so!"

"Dr. Sun, do you want to...?"

"I think?"

Sun Fuchen smiled coldly and said, "lose money and make reparations."

"How to make amends?"

"Kneel down and apologize!"

Xiao Chen frowned.

"Dr. Sun, you've gone too far. First of all, I'm sure this medicine is a dose of tiger wolf medicine. If it's sold, it will only harm countless people. Don't you have any medical ethics as a doctor?"

"You!"

Sun whisked up angrily from his chair and said, "you fool, who doesn't have medical ethics?"

Xiao Chen said coldly, "it's you."

"OK, OK! You say I have no virtue? Well, I came to see you as a busboy in the medical school. I don't want to reduce my worth. Now it seems that I can't do without cleaning up scum like you for the medical profession."

Sun Fuchen said, walked to the center, pointed at Xiao Chen and said, "come on, let me talk to you."

Doctors talk about Tao.

Different from martial arts.

Fight with fists and feet.

There are doctors who compare and discuss medical theory, as well as those who fight to treat patients.

This sun Fuchen put forward his argument.

I want to talk to Xiao Chen about medical science.

Xiao Chen came out of the immortal medical school and was handy for all kinds of medical theories.

He went to sun Fuchen.

"Please ask Dr. Sun to make a question."
