"Have you heard? Just 97 people in Shenwu hall were killed."

"What?!"

"Really, one of my friends in the patrol room told me about it."

"Who killed it? Well done!"

"It is said that boss Zhu was wiped on his neck, and that second brother Zhu was even worse. It is said that his eyes were dug out."

"Hum, these two guys deserve to die!"

At a tea stall on the street, several riverside people are talking about Shenwu hall.

Several patrolmen passed in front of the stall.

"Don't talk nonsense here."

The people shut their mouths.

"Open your head, who do you think is so bold that he killed a Shenwu hall in broad daylight?"

One of the scouts asked the middle-aged man ahead.

The middle-aged man, known as Zhang tou, frowned and said, "whoever it is, this man has done a great good thing for Binjiang."

"It's true. The two brothers of the old Zhu family have done a lot of harm to the people in Binjiang on weekdays. However, they seem to be very angry with their death. It is said that this has alerted the general Hall of patrol shops."

"Well, let's check. Let's check, but whether we can find out is another matter. In short, our brothers are paid, and we can't afford to provoke such people. Life matters."

The other Constable looked at his eyes and opened his head.

"Well, handle the case."

He opened his head and looked at the people around him.

"Are you not a few disciples who run out of the temple? Is it in front of Town God's Temple? Is this news accurate?"

"Open your head, this informant has been with me for many years, and it took me 50 silver dollars to get the news. He dare not lie to me. If he lies to me, I must interrupt his dog leg."

"That's good. You go back and hurry up. Tell captain Liu that he'd better bring a gun."

"I see."

One of the scouts turned and ran towards the patrol room.

Zhang Tou went straight to Town God's Temple with people here.

When they just left.

Xiao Chen walked out of the alley.

He frowned.

This matter is still alive.

"Little Lord."

In the alley.

Bai Ling fell from the high wall.

She arched her hands and said, "my subordinates have sent someone to clean up."

"OK."

Xiao Chen looked at Bai Ling.

"The situation in Binjiang will be tense these days. By the way, pay attention to the trends of several other sects."

"Yes."

Xiao Chen said and went straight to the hospital.

When he gets to the hospital.

Xia yunshang was sitting at the table with a worried face in the outer hall.

"How did you come back?"

"What's the matter?"

"I just heard that something happened to Shenwu hall, I....."

She wanted to say that she was worried about Xiao Chen.

But the words came to my mouth. Or take it back.

"I'm fine."

Xiao Chen said and walked to Xia yunshang.

"By the way, after I left. Did Qin Ming tell you anything?"

"He?"

Xia yunshang shook his head.

"What's the matter?"

"That's good..."

Xiao Chen thought and said, "I have something to tell you."

"What's up?"

Xiao Chen looked around.

"Follow me to the back."

He turned and went into the inner hall.

Xia yunshang also followed in.

After entering the inner hall, Xia yunshang rested in the room.

Xiao Chen looked at her and said, "it's related to the Xia family. Qin Ming just came and mentioned the hemostatic pill to me."

"This again?"

Xia yunshang frowned slightly.

"What's the use of this prescription? So many people want it?"

Xiao Chen also shook his head.

"In fact, just now I went to the Shenwu hall, Zhu Laoer also proposed to me. I want to buy this prescription."

"That's right."

Xia yunshang frowned tighter.

"What's so special about this recipe that so many people want it?"

"I don't know, so I want to see this prescription."

"No. grandma has the prescription. She has always had an opinion on you. I'm afraid..."

Xiao Chen nodded.

"So I want you to help me."

"What do you want this recipe for?"

"I always feel that what happened in Binjiang is related to this prescription."

"Then don't mind your own business."

Xia yunshang looked at Xiao Chen with some worry.

Xiao Chen smiled.

"You care about me."

"No, I'm too lazy to care about you. It's just... It's not good for my family if you have an accident."

Xiao Chen saw that she was still hard spoken, but she smiled secretly in her heart.

"But you are not afraid. Does this prescription bring any danger to the Xia family?"

"You mean?"

"Shenwu hall has been destroyed now. I always think it has something to do with the prescription."

Xiao Chen used this to scare Xia yunshang.

Sure enough.

Xia yunshang's face suddenly looked ugly.

"So this prescription is likely to lead to death for the Xia family, isn't it?"

Xiao Chen nodded.

"OK, I'll go to grandma now."

They left the hospital and went straight to the old house of Xia family.

When they get to the old house.

I saw a number of black cars parked in front of the door.

When they entered the main hall.

Qin Shi was talking to two people dressed like officials.

Xia yunshang took Xiao Chen into the hall.

"Cloud clothes, why are you here?"

Qin Shi looked at Xiao Chen who followed her.

There was a look of disgust in his eyes.

"What are you taking this man for?"

Xia yunshang looked at the two officials with some embarrassment.

After all, there are outsiders.

Grandma is too shameful.

Xia yunshang whispered, "grandma, I have something urgent to tell you."

"Don't you see I have guests here?"

The Qin family has some raw airway.

"This matter concerns my Xia family."

Her words made the two officials look at each other.

The Qin family looked dignified when they saw Xia yunshang.

He smiled and looked at which two people.

"Director Zhao, please wait here for a moment. I'll come right away."

The two men smiled and nodded.

Qin stood up and said to Xia yunshang, "come with me."

She said and went into the inner room.

Xia yunshang followed him in.

Xiao Chen sat opposite the two officials.

The man called director Zhao by the Qin family.

His eyes looked at Xiao Chen.

"Are you the silly uncle of the Xia family?"

The man made rude remarks.

Xiao Chen gave him a cold look.

"The shelf is not small. What did our director ask you? Didn't you hear it, fool?"

The man beside director Zhao asked with disdain on his face.

"I can hear people talking. If it's not human, I just think it's a dog barking."

"You!"

The man glared at Xiao Chen angrily.

"Hum! That's how Xia Guowei taught you?"

Director Zhao's face suddenly became gloomy.

"Are you my father-in-law's colleagues?"

"This is director Zhao of the education department. Xia Guowei salutes when he sees the director. What are you, and dare to talk to Director Zhao like that?"

Xiao Chen said faintly, "this is not your education department. Naturally, there is no director."

"It's clever. How can Xia Guowei have a son-in-law like you? He's not sensible!"

Director Zhao glanced at the corners of his mouth.

No speculation at all.

He simply looked away.

"Fool, don't be too arrogant. Your Xia family has a big deal this time. Director Zhao came to help you. He offended our director and didn't eat any fruit!"

Xiao Chen frowned slightly.

Big deal?

Are they also here to stop bleeding?
