Chapter 1321: Sharing Weal and Woe

At the Wang Family manor, Wang Lingbo's face was filled with dark clouds.

He did not expect that Fourth Elder personally making a move actually failed to kill Ye Yuan!

About Fourth Elder's strength, he was all too clear.

Even though Luo Jian was known as the Myriad Treasure Tower's number one swordsman, in front of Fourth Elder, it was completely not enough to look at.

However, Fourth Elder actually failed!

If he did not wait until those two people came, then forget it. But Fourth Elder actually turned to the family to request for help. That explained that they had definitely exchanged blows before.

The result was that those two people ran away!

This matter was definitely very troublesome. Otherwise, Fourth Elder absolutely would not turn to the family to ask for help.

It was just that Wang Lingbo could not figure it out no matter what, a Luo Jian plus a Ye Yuan, on what basis to be able to make it so difficult for Fourth Elder?

"Lingbo, what are you finding the two of us old fellows for?"

A lean elder walked into. That was the Wang Family's second elder, Wang Yutao.

Behind him even followed a person. It was precisely the Wang Family's third elder, Wang Yumin.

These two people were similarly grand completion Grotto Profound experts. Their strengths were even a notch above Wang Yutan's.

The moment Wang Lingbo saw the two people, he recounted Ye Yuan's affairs in haste.

"Uncles, if we allow this child to carry on growing, it will likely be very hard for my Wang Family to have a foothold in Jewelhill City anymore. Uncles, please take action. You must cut this boy down in the Yin Wind Den," Wang Lingbo said with a solemn expression.

Hearing the sequence of events of the matter, Wang Yutao also had a solemn expression as he said, "Even though our Jewelhill City is Heavenly Emperor FuFeng's territory, Heavenly Emperor Myriad Treasure's fame is too great. We can suppress the Myriad Treasure Tower and fight for the greatest benefits, but we can't really lose all decorum with them. But this Ye Yuan indeed can't be left alive! This time, it's the best time to kill him."

Wang Lingbo nodded and said, "I think so as well! Once he returns to Jewelhill City, or Yang Rui learns about this matter, we'd have no way of making a move anymore!"

Wang Yutao said, "Old Third, let's go through the trouble and make a trip, and eliminate this troublesome fellow for the Wang Family!"

"I'll listen to Second Brother." Wang Yumin did not say much and was concise to the point.

...

"Heh, are you dead? Sit up and let me take a look if you didn't die!"

Seeing Luo Jian open both eyes, a large rock in Ye Yuan's heart finally landed.

Experiencing life and death, Ye Yuan also lowered his guard towards Luo Jian. When talking, it also became much more casual.

He knew that Luo Jian was already not in jeopardy. That was why he would talk like that.

Currently, a month's time already passed since leaving the city.

In order to treat Luo Jian's injuries, Ye Yuan expended a huge price.

The divine-grade healing medicinal pills that he refined were also pretty much depleted.

The effects of low-grade Tier 1 healing divine pills were still a little minor on Luo Jian's wounds.

Hence, Ye Yuan could only use numbers to make up for it.

Fortunately, Ye Yuan was full of divine-grade medicinal pills on him. The medicinal effects were very strong. That was how it saved Luo Jian's life.

If it were others, being so seriously injured, they would die without a doubt.

Luo Jian gritted his teeth and forced himself to sit up, looking at Ye Yuan in amazement.

"It was you who saved me?"

Ye Yuan said smilingly, "Are there still others here?"

"But my injuries ..."

Luo Jian was very clear about his injuries. When he suffered grievous injuries with Wang Yugan back then, he already harbored the resolve to die.

He wanted to severely wound Wang Yugan with death as the price and create an opportunity for Ye Yuan to escape.

Ye Yuan waved his hand and said half-jokingly, "Between you and I shouldn't have that kind of life-and-death relationship yet, right? You just stupidly perish together with him?"

Luo Jian said, "I owe Tower Lord a life. He made me protect you at all costs. If I die, this life will be returned to him!"

Ye Yuan chuckled and said, "Is your life so worthless? Now, you've also died earlier already, and then I've helped you return your life to him!"

Luo Jian choked, faintly sensing that something was not quite right, but did not know how he should refute.

This time, he had indeed made a trip to and from the gates of hell. Ye Yuan's words had no problem, it just sounded somewhat weird.

"*Huhu*, making a joke, don't think that much. Your injuries have just healed, you still need lots of rest. But we've already delayed a very long time. We can only grudgingly get on the road," Ye Yuan patted his shoulders and said smilingly.

Ye Yuan knew that this guy was an enigma. Beating with a bamboo pole could not force anything out; very boring.

But this guy was indeed loyal enough, putting his own life on the line for a favor back then.

This kind of person was worth getting to know.

Luo Jian frowned and said, "You saved me, then what about that Wang Yugan?"

Ye Yuan thought about it and said, "He isn't injured lightly too. But to recover his strength, it's got to take more than half a month too. At this time, he might already be on the way to the Yin Wind Den to block us."

Luo Jian's gaze turned intent, keenly catching some information from Ye Yuan's words.

He knew the power of his sword. Even though powerful, it was absolutely not fatal.

Resting for a few days, and it was basically able to recover already.

But Ye Yuan said that he required over half a month's time to recuperate!

Could it be that his sword stabbed a critical point?

Or ... it was caused by Ye Yuan?

Thinking back, he was penetrated on the long spear. If Ye Yuan did not make a move, it was absolutely impossible to save him.

Luo Jian was taken aback with fright by this judgment of his!

Even if Wang Yugan was severely injured by him, he was also absolutely not what Ye Yuan could hurt.

However, what was going on?

An initial-stage Grotto Profound was able to harm grand completion Grotto Profound?

Luo Jian instantly felt that he was somewhat flustered.

"Hey, thinking about what?" Ye Yuan patted the dazed Luo Jian.

Luo Jian abruptly startled awake, but said, "Our mounts were already killed by Wang Yugan, how to go?"

Ye Yuan said smilingly, "That's easy. You wait here for me, I'll be right back!"

Ye Yuan's figure moved rapidly, vanishing in Luo Jian's vision in a blink of an eye.

Around an hour's time passed, Luo Jian was suddenly startled. Dust was kicking up in the distance. Two powerful auras were rushing over to this side.

These two auras were the auras of divine beasts!

Luo Jian had long discovered that this place was adjacent to the Myriad Beast Forest. It was all too normal to have divine beasts run out.

In his current state, it was impossible to deal with a divine beast.

Luo Jian was just about to turn tail and run, but suddenly discovered that one a demonic beast, a person was actually riding there!

Ye Yuan!

This guy used an hour and tamed two divine beasts?

Luo Jian's eyeballs stared like wide-saucers. He did not think that the method Ye Yuan said was actually this!

These were two Cloudsoul Sound Rending Leopard, their speed extremely swift, arriving in front of Luo Jian in a blink of an eye.

One of the Cloudsoul Sound Rending Leopard was precisely that one that besieged Ye Yuan the last time.

Only then, did Luo Jian suddenly recall that Ye Yuan had once said before whatever beast taming art at the Wang Family!

At that back, Ye Yuan even revealed dragon pressure.

This way, the dragon race bloodline in Ye Yuan's body must be exceptionally powerful!

Luo Jian suddenly discovered that the secrets on Ye Yuan were seriously too many!

"Heh, one each. They are much more convenient to work with than the flying dragon colts!" Ye Yuan said with a loud laugh

Chapter 1322: Overbearingly Blocking the Path

"The three of you, come here!" A guard looking martial artist was shouting to the three martial artists who were about to enter the Yin Wind Den.

Those three martial artists' expressions changed. The martial artist in the lead said unhappily, "What for?"

The guard shouted coldly, "The three of you, put your palms on it!"

"Humph! Who the hell are you all? You ask us to put, and we'll put?"

"If you don't put, then we'll help you put!"

"What a joke! The three of us brothers had entered this Yin Wind Den no less than a hundred times already, and had never seen before such a rude request! Who the hell are you guys, to actually dare be so arrogant?"

“Who we are, you all don’t need to care. Just comply, that will do!”

“Then what if ... we don’t do it?”

...

Before long, those three people obediently put their palms on that instrument.

Very soon, the instrument gave off a green light.

The guard shot the three of them a cold glance and said, “Scram, if you did it long ago, wouldn’t you have dispensed with physical pain?”

The three people did not dare to refute, leaving angrily.

At this time, over ten people were gathered outside the Yin Wind Den, like a checkpoint was set up.

All who wanted to enter the Yin Wind Den must go through that instrument’s check.

This group of guards was naturally the Wang Family’s men after changing attires.

Such overbearing actions, they naturally did not dare admit that they were members of the Wang Family.

“Second Brother, is this method reliable? What if that boy sees our line-up and gets frightened away?” Wang Yugan asked Wang Yutao.

Wang Yutao said coolly, “Relax, Yumin cut off his way back. Unless he doesn’t want the Night Twill Grass, otherwise, he definitely has to enter the Yin Wind Den. The first time that boy did when he left seclusion was to find a land of dead spirits. This shows that this place is very important to him, he’ll definitely come.”

Wang Yugan said, “I’m worried, no idea what kind of reaction Yang Rui will have if he knows about this matter.”

Wang Yutao laughed coldly and said, “*Heh*, if he’s already dead, what reaction can he have? Put your heart back into your stomach. We arranged many hidden sentries along the way, and that boy got two Cloudsoul Sound Rending Leopard as mounts from no idea where and is already headed over here. But ... that kid is indeed quite troublesome. Our hidden sentries had just discovered him and were already disposed of.”

Wang Yugan deeply felt that way too and said, “Yeah, I also didn’t think that not only is that kid a master of alchemy, but he’s also even a martial arts expert! If not for his realm being too low, I probably couldn’t see Second Brother anymore.”

Thinking about it now, Wang Yugan also felt lingering fear.

Luo Jian’s and Ye Yuan’s might greatly exceeded his imaginations.

At that time, he knew that he most likely could not take care of these two people by himself, that was why he would seek help from the family.

Wang Yutao came over very quickly and even brought the auxiliary-model profound divine artifact, a spectroscope.

This spectroscope was able to identify the martial artist's divine soul. As long as there was an item that the other party used before, it would do.

This thing was naturally out of fear that Ye Yuan would change his looks and slip by.

...

Behind a pile of debris, two people's heads were ducked down.

Luo Jian's expression was solemn as he said, "The Wang Family laid down an inescapable net, just waiting for us to collide onto the spear tip! Didn't expect that even the spectroscope was deployed!"

Ye Yuan smiled and said, "In order to kill me, the Wang Family actually brought out such a massive line-up, truly thinking highly of this Ye."

Luo Jian looked at Ye Yuan's indifferent expression and could not help saying gloomily, "You can still smile! The hidden sentries that we disposed of along the way were already seven or eight of them. I reckon that they should have guessed that we've already arrived here."

Speaking of this, Luo Jian was impressed by Ye Yuan to the max.

Along the way, all of the hidden sentries were all discovered by Ye Yuan. No matter how concealed those people hid, they all could not escape Ye Yuan's arcane sights.

This guy was simply a freak!

If not for the case, the Wang Family would probably wait here in hopes that a hare would kill itself by crashing into a tree trunk, but directly go over to encircle and suppress.

It was precisely because they finished off those hidden sentries that they were able to secretly lay low in the vicinity of the Yin Wind Den.

"Huhu, why can't I smile? I'm really not scared of things blowing up! Since they came to kill me, they'll have to be prepared to be counter-killed by me!" Ye Yuan said with a laugh.

"Counter-kill? Are you joking?! Last time was Wang Yugan not being prepared, that's how we succeeded. This time, he even called over Wang Yutao. That Wang Yutao's strength is even a notch above Wang Yugan's! Ye Yuan, we'd better return to Jewelhill City and seek help from Tower Lord!"

Along the way, Luo Jian himself also did not become conscious that his words with Ye Yuan became more and more.

He was still that callous Luo Jian. But facing Ye Yuan, he could not be unfeeling no matter what.

The brotherhood established after sharing life and death was so miraculous.

Hearing Luo Jian's words, Ye Yuan shook his head and said, "It's too late! Moreover, returning for help now, it will definitely be what the Wang Family hopes for! If my conjectures are right, the way back is long cut off by them already."

Being cut off was not the main point, the main point was that Ye Yuan really could not afford to delay.

Originally, there were less than three months' time left. Now, one and a half months had already been used up along the way, and only a month's time was left.

This to and fro, he could afford to wait, but Mu Lingxue could not.

Luo Jian's expression changed, and he said, "So ... what then?"

Ye Yuan said, "Your injuries are not yet fully healed. Find a place to hide and wait outside for me. I'll go in alone!"

"Absolutely not! Putting aside that you can't clear the Wang Family, that hurdle, even if you clear it, the evil spirits inside are also not what you can deal with! I know that your strength is much stronger than it looks on the surface, but the evil spirits in this Yin Wind Den are far stronger than you imagine!" Luo Jian immediately rejected this suggestion.

Ye Yuan smiled and said, "Relax, could it be that I'll send myself to death? Rather, you believe that a traitor arose in the Myriad Treasure Tower now, right?"

Luo Jian's expression was incomparably ugly. He did not expect that Ye Yuan's words really hit the mark.

Want to utilize the spectroscope, there must be an item that the person used day-to-day.

Very clearly, if there wasn't the Myriad Treasure Tower's internal staff, this spectroscope had no way to be used at all.

Being able to obtain Ye Yuan's and Luo Jian's day-to-day items, this person's position in the Myriad Treasure Tower was quite high!

Luo Jian gritted his teeth and said, "If I find out who it is, I'll definitely tear him limb from limb!"

Luo Jian was a straightforward type, facing opponents, he could throw his life.

But, if he was stabbed in the back by his own, he would really be aggrieved to the extreme.

Originally, this trip could have been calm and tranquil, who would have expected that so many unforeseen events would be added.

If not for Ye Yuan, he would already be a dead man now.

Ye Yuan patted his shoulder and said with a smile, "Relax, you'll definitely have a chance! When we return to the Myriad Treasure Tower, we'll naturally have to settle this score properly! I'm going!"

Luo Jian raised his head and looked, his pupils involuntarily shrunk.

He discovered that the flesh on Ye Yuan's face gave off a series of bizarre transformation, and he actually became another person.

At the same time, Ye Yuan's entire disposition also underwent a massive transformation, about the same as those martial artists who entered the Yin Wind Den.

Chapter 1323: Spectroscope Broke

Luo Jian smiled bitterly and said, "It's no use! Unless you can disguise the divine soul, otherwise, even if your face-altering skill is any more powerful, it can't hide from the spectroscope too!"

Ye Yuan smiled and said, "You just watch!"

Done talking, Ye Yuan swaggered over towards the Wang Family's checkpoint just like this.

"Halt!" When a house-guard saw Ye Yuan come over, he immediately stopped him.

Ye Yuan had a panic-stricken expression as he said, "You ... What do you all want to do? I ... I don't have divine essence stones on me!"

The house-guard glared and said, "Who wants your divine essence stones? Go over, put your hand on that instrument!"

"Ah? O-Oh, that's easy! That is easy!"

Ye Yuan did not hesitate in the slightest, immediately running over and placing his palm on it.

Amidst the rubble, Luo Jian stared at this scene unblinkingly, his heart leaping to his throat.

To Luo Jian, he had never encountered an incident that made him palpitate with anxiety and fear like this before.

Suddenly, his gaze turned intent, and he revealed a look of incredulity!

The spectroscope ... actually gave off a green light!

"This ... How is this possible?"

Luo Jian muttered to himself, being dumbstruck with astonishment by this scene.

He had never seen before that the spectroscope would fail!

No, wait! Not failed, but made a blunder in judgment!

The spectroscope emitting a green light indicated that the divine soul imprint on the item did not match, while a blue color represented the person himself.

Now, the spectroscope became green color, meaning that it made an error in judgment!

No wonder Ye Yuan was so confident. It turned out that he really had the ability to pass through the spectroscope's detection.

When Ye Yuan pressed toward the spectroscope, Wang Yutao and Wang Yugan, both involuntarily looked at him.

However, they did not become suspicious. Ye Yuan's performance was not much different from ordinary bottom-level martial artists.

Martial artists who came to the Yin Wind Den were mostly living at the lowest rung. Otherwise, who would be willing to take part in this kind of life-risking transaction?

Ye Yuan's appearance of viewing divine essence stones like his life directly dispelled their suspicions.

When seeing the spectroscope become green color, they no longer had the mood to pay attention to Ye Yuan.

"Heh, a bunch of ignorant fools, to actually use such junk in front of this old man! Truly overestimating its ability!"

Inside Ye Yuan's sea of consciousness, came Dustless's disdainful cold snort.

As if using this spectroscope to inspect Ye Yuan's divine soul was a very insulting thing to him.

Those in the same profession were foes; these words were not false at all.

Who was he, Dustless?

That was the ancestor of playing with divine souls!

A mere profound divine artifact was really inadequate to look at when placed before him.

In front of an empyrean spirit treasure, this spectroscope was also not much different from a child's toy.

"Haha, these guys also don't know that I still have a great divinity like you on me!"

Ye Yuan secretly showered Dustless with flattery.

Dustless snorted coldly and said, "Such a junk, if this old man wants it to become green, it will become green; make it become blue, it will have to become blue; make it become yellow, it will still have to become yellow!"

Ye Yuan's eyes suddenly lit up, and he said, "Then can Senior make it become blue in a while?"

Dustless said, "What's difficult about this? I You're thinking of ... luring them in?"

Ye Yuan said, "That's right! If didn't make the Wang Family suffer a bit of a loss, they would really think that this young master is easy to knead!"

Dustless was also very moved by this suggestion and said, "That's easy! I'll do the tampering!"

In the real world, Ye Yuan lightly lifted his hand away and asked the house-guard with a startled appearance: "This ... It's fine already, right?"

The house-guard had an impatient look and waved his hand and said, "Get lost then!"

Ye Yuan smiled fawningly and ran like flying.

Seeing Ye Yuan pass through the checkpoint smoothly, Luo Jian finally let out a sigh in relief.

But regarding Ye Yuan entering the Yin Wind Den alone, he was still rather worried.

He did not wait at the arranged place according to Ye Yuan's instructions but waited to see in the rubble pile.

Not long after Ye Yuan entered the Yin Wind Den, there was another batch of martial artists who wanted to enter the Yin Wind Den.

As usual, they were naturally stopped by the Wang Family.

But when the first martial artist put his hand on it, a strange thing happened.

“Blue! It’s him!”

That house-guard shouted loudly and was about to take action.

That martial artist had a blank look, completely unaware of what was happening.

“This elder brother, are you all mistaken? Us seven brothers are known as the ‘Yin Wind Seven Heroes,’ mucking around in the Yin Wind Den all year round. How can I possibly be the person that you’re finding?”

That martial artist had also seen before a great spectacle. He did not attack but opened his mouth to explain unhurriedly.

“Yeah, this lord, us seven brothers are also considered to have some minor fame in Jewelhill City. Quite a few people recognize us, are you all mistaken?” said another person among the seven people.

“*Heh*, how can what the spectroscope detect possibly be wrong? Surrender obediently without resistance!” the house-guard said.

The Wang Family’s people already surrounded the Yin Wind Seven Heroes at this time. As long as they dared to move, they would immediately make a move to destroy them.

Seeing the spectroscope become blue, Wang Yutao and Wang Yugan were also greatly roused in spirits.

But hearing that martial artist’s explanation, he could not help becoming somewhat suspicious.

The name Yin Wind Seven Heroes, Wang Yutao had really heard before.

These seven people’s strength, they were not weak. They were fooling around at the Yin Wind Den all year round, and even sold natural treasures to the Wang Family before.

The Yin Wind Seven Heroes’ boss, Chang Liang, said carefully, “This lord, let’s not attack first. Perhaps ... there’s really something wrong with the spectroscope?”

The house-guard was just about to speak when Wang Yutao divided the crowd and came in.

He looked at Chang Liang and said with tightly knitted brows, “You’re the Yin Wind Seven Heroes’ boss, Chang Liang?”

The moment Chang Liang heard, he was overjoyed and hurriedly said, “Precisely so! This lord, us seven brothers examined our hearts that we have not offended Your Excellency before, I wonder this ...”

Wang Yutao’s brows furrowed even tighter, and he said, “You put your hand on it again and try!”

Chang Liang knew that this one in front of him was formidable and did not dare to disobey, putting his hand on it as per his words.

Green color!

Chang Liang's expression loosened up, and he said with clasped hands, "Your Excellency, indeed a mistake, right?"

Wang Yutao ignored him and said to the other six people, "You all put your hands on it!"

The few people exchanged glances. Chang Liang glared and said in a low voice, "Still in a daze for what? Didn't hear what this lord said?"

The six people were startled and quickly put their hands on the spectroscope one by one.

Yellow color!

Purple color!

Azure color!

Blue color!

Red color!

Each one that put on it, Wang Yutao's complexion became a shade blacker.

Chang Liang's cold sweat was pouring by the side, fearing of angering this lord.

Clearly, this one had already reached the brink of eruption. He only hoped not to innocently get involved in a disaster due to others.

The last one put his hand on it. Wang Yutao's expression became even more unbelievably fascinating.

Various colors of light flickered incessantly and actually emitted a multi-colored light!

Puchi!

Suddenly, a cloud of azure smoke emanated from the spectroscope.

Destroyed!

The surroundings were dead silent, no one dared to speak.

The last member of the Yin Wind Seven Heroes was frightened until he trembled all over, completely did not understand what happened.

Chapter 1324: Ye Yuan's Provocation

"This ... What's going on?"

Wang Yutan's had a stunned look, uncertain why the perfectly fine spectroscope would have this kind of thing happen.

But Wang Yutao's expression changed, and he suddenly turned around, looking in the direction of the Yin Wind Den.

“Damn it! It must be that punk just now! We were all fooled by him!”

Wang Yutao reacted very quickly, furious until he thumped his chest and stomped his feet.

However, it was already too late!

The current Ye Yuan was long gone already.

The Yin Wind Den extended in all directions. Wanting to catch Ye Yuan was too difficult.

“Second brother, what on earth is going on?” Wang Yugan had yet to react and asked.

Wang Yutao’s face fell, and he said, “If I didn’t guess wrongly, this spectroscope was definitely spoiled by that punk who went in previously! That punk was definitely the Ye Yuan after altering his looks!”

Wang Yugan was stunned and said, “That’s impossible, right? When the spectroscope was testing, he was clearly a green color.”

Wang Yutao shot him a glance like looking at an idiot and said, “Still spectroscope? This spectroscope is merely a joke in front of that kid! No idea what method that punk used either, breaking the spectroscope. He’s provoking us here!”

Wang Yutao was livid with rage and wished to swallow Ye Yuan whole.

Not only did this guy slip away from under their eyelids, he even broke the Wang Family’s profound divine artifact.

Even though this place was the Heavenspan World, profound divine artifact, this sort of thing, was absolutely not some run-of-the-mill good.

The average Deity Realm powerhouse did not have divine artifacts at all.

An ordinary profound divine essence was worth at the very least several hundred thousand low-grade divine essence stones too!

And this spectroscope belonged to the auxiliary-type divine artifact. The price was even more ridiculous, close to a million low-grade divine essence stones!

Hearing Wang Yutao said so, Wang Yugan finally came to his senses.

Thinking about it, it was clearly that this possibility was the greatest!

“Second Brother, you’re saying that the kid deliberately broke the spectroscope to disgust us?”

“Otherwise? He could clearly go inside quietly, but broke the spectroscope! He’s clearly telling us that he has already gone in, and that if you all have the capabilities, come and catch me! What is this if it’s not taunting us?” Wang Yutao said furiously.

Anger was anger, but Wang Yutao was still extremely shocked in his heart.

The spectroscope was not what anybody could spoil!

Even if you let a Heaven Glimpse Deity Realm powerhouse come, it was also impossible for him to spoil the spectroscope under the circumstances of not making a sound.

Moreover, breaking it was breaking it, this spectroscope actually changed into all sorts of colors.

If not for seven people coming in one go, they might have made a massive blunder today.

“This ... Second Brother, then what should we do now?” Wang Yugan was also rather flustered.

He discovered that Ye Yuan’s methods emerged in endless streams; He was like a porcupine, making them unable to bite down.

The Wang Family’s initial-most judgment of Ye Yuan was that his pill refining talent was very high. But did not think that he also had such frightening talent in martial arts.

Furthermore, he even seemed to have very deep ties with the demon race.

Such an opponent really made their heads hurt to the extreme.

Wang Yutao swept a fierce glare. While staring at the Yin Wind Seven Heroes, he roared, “What are you looking at? Still not scrambling for me?”

Chang Liang and the rest behaved like they were granted amnesty, running away like a puff of smoke.

This Chang Liang was a middle-stage Grotto Profound powerhouse too, his strength uncommon.

But in front of Wang Yutao, it was not enough to look at at all. How could he dare to provoke the other party?

“Big Brother, what the hell is going on here?” along the way, a brother asked Chang Liang.

Chang Liang saw that they had walked far away, that was why he said softly, “The Wang Family is catching no idea who. But don’t know why, he smoked his way through. Not only did he slip through, he even broke their spectroscope! You say, can they not be furious?”

Everyone was tongue-tied when they heard.

“Big Brother, how did you know that was the Wang Family’s people?”

Chang Liang said, “*Heh*, I’ve met Wang Yutao once before. But we’re minor characters, he doesn’t remember me, that’s all.”

“Goodness gracious, the Wang Family put out such a grand line-up and even deployed the spectroscope, wonder who they are catching?”

A glimmer of brilliance flashed across Chang Liang’s eyes, and he said with a cold smile, “*Heh heh*, who else can they be capturing? If I didn’t guess wrongly, it’s most likely that Myriad Treasure Tower’s newly-ascended guest alchemist! To be able to make the Wang Family take up arms like so, there’s also only him. Really have no idea what background this guest alchemist has, not only is his alchemy skills unparalleled, he can actually even spoil the spectroscope unbeknownst to god and ghosts! Truly remarkable!”

Turns out, Chang Liang had been feigning ignorance all along. He had long known that the other party was the Wang Family’s people and even guessed that they were here to capture Ye Yuan.

This sort of martial artist who flopped around at the bottom was much more tactful and slippery than ordinary people.

If they exposed the Wang Family's true colors previously, they would probably have no way of leaving alive anymore.

But at this time, Chang Liang was filled with admiration towards Ye Yuan, this person whom he had never met.

To be able to toy with the entire Wang Family in the palm of his hand, there was likely only him, right?

The Myriad Treasure Tower's Yang Rui and Wang Family fought for so long and did not gain any advantage at all.

"But honestly speaking, the Divine Essence Pill that that alchemist refined, really have nothing to say about the quality! It's much better than the Wang Family's!" said another brother.

Chang Liang nodded and said, "I also bought a few by pulling strings the last time, the quality is indeed excellent! If not for the case, the Wang Family would not go through such great troubles either. If I were Wang Lingbo, I'd also want to eliminate for good!"

Only when he saw Chang Liang and the rest went away did Wang Yutao said icily, "Yugan, immediately notify Yumin, have him hurry to the Yin Wind Den! He'll guard outside, we'll ... all go in! Isn't he provoking us? Then this old man will let him see the price of provoking the Wang Family! Humph!"

...

Entering the Yin Wind Den, Ye Yuan felt a series of Yin wind blow from the depths of the cave, making him involuntarily shudder.

He hurriedly revolved his bloodline power, instantly blocking this gust of Yin wind outside.

The dragon race's vitality was very powerful. For ordinary Yin wind to want to corrode Ye Yuan, it really could not be done.

In this peripheral, the human martial artists who went in and out were really quite a few.

But the further in you go, the lesser the people.

Suddenly, there was a shrill scream. An evil spirit rushed out of the corner, biting towards Ye Yuan.

The bite of an evil spirit targeted the divine soul, very hard to defend against.

When newbies enter the Yin Wind Den, if they did not have veterans leading, it was very easy to fall for it.

But when Ye Yuan saw that evil spirit, he was very spurred on. Those eyes were glossy and green, like a starving wolf.

"Heh, came right on time! This young master ... is already unable to hold back my hunger and thirst!" Ye Yuan laughed coldly and welcomed it.

Creak.

Ye Yuan's claw extended out strangely, directly grabbing that evil spirit in his hand, like pinching his vital point.

That evil spirit only had time to emit a miserable cry and was subdued by Ye Yuan.

"Senior, your turn!" Ye Yuan said with a smile.

"*Heh*, still need you, kid, to teach me?"

Inside Ye Yuan's sea of consciousness, the Soul Suppressing Pearl suddenly activated. A surge of soul vortex opened up with Ye Yuan as the center.

That evil spirit was directly gobbled up by the vortex.

Unrivaled Medicine God

Chapter 1325: Kid, New Here, Right?

"How does it feel?"

"Too weak! This evil spirit is merely initial-stage One-star, even not enough to fill the gaps between my teeth at all."

"This ... Senior, your appetite is also a bit too big, right?"

"Bullsh*t! The Soul Suppressing Pearl is an empyrean spirit treasure. Even if you catch a few Four-star, Five-star evil spirits, it's also not enough for this old man to digest!"

"Fine, what on earth should I do then?"

"Late-stage One-star evil spirits and have got to be three to five hundred no matter what!"

"Senior, this is daylight robbery. How long can three to five hundred last?"

"Barely enough for ten years! If I can devour a Two-star evil spirit, I can last a hundred years."

Ye Yuan rolled his eyes and said huffily, "Do you think that I can get you a Two-star evil spirit right now? If I really run into one, whether it is you devouring him or him swallowing me up is hard to say!"

"*Haha*, I'm just saying! But, if I can really devour a Two-star evil spirit, I'll be able to help you cultivate the divine soul, and advance the divine soul realm," Dustless said.

Ye Yuan's eyes lit up, having his heart palpitate with eagerness by Dustless's sentence.

After breaking through to the Deity Realm, Ye Yuan's divine soul cultivating means were somewhat failing to make ends meet.

The Medicine God's Soul Canon was just an incomplete article. It could help Ye Yuan cultivate to grand completion Tier 9 but somewhat lacked the strength to carry on.

Want to walk even further along the alchemy path, one must have a systematic divine soul cultivation method.

In this aspect, the Soul Suppressing Pearl was clearly an expert!

Thinking up to here, Ye Yuan could not help thinking of his main cultivation method.

After reincarnating, what Ye Yuan had always been cultivating was the Spirit Bristle Nine Yang Divine Art.

In the Immortal Grove Region, the Spirit Bristle Nine Yang Divine Art was a pinnacle-most cultivation method and could be cultivated all the way to Origin Deity Realm.

But to the current Ye Yuan, this cultivation method was clearly unable to satisfy his ambitions already.

“Looks like everything has to start from scratch!” Ye Yuan said with vicissitudes of emotion.

Dustless said, “Immortal Grove’s cultivation method is imprinted inside the World Suppressing Stele. His cultivation method was comprehended from the World Suppressing Stele and is one of the best cultivation methods in the Heavenspan World! If he didn’t fall, he might have been able to become a Transcendent Heavenly Emperor!”

“Transcendent Heavenly Emperor?” Ye Yuan asked wonderingly.

“En, Transcendent Heavenly Emperor. Actually, it’s peak Heavenly Emperor, the most powerful existence beneath Dao Ancestor! Immortal Grove’s cultivation method is sufficient for you to cultivate to becoming a Transcendent Heavenly Emperor!” Dustless explained.

Only now was Ye Yuan enlightened. According to Dustless’s way of saying things, the cultivation method that Immortal Grove comprehended could be said to be a top-rate cultivation method of the Heavenspan World already.

After all, in the Heavenspan World, it was totally impossible to cultivate to the Dao Ancestor Realm.

Achieving Transcendent Heavenly Emperor was already the greatest possibility.

However, Ye Yuan fell silent.

He mused for a moment and said, “Senior, you said ... Heavenly Empyrean Immortal Grove’s cultivation method was comprehended from the World Suppressing Stele?”

Dustless said with a cold smile, “*Heh*, your heart is also a bit too big! Reaching the Heavenspan World now, you should know the difficulties of cultivating above Deity Realm. To actually not have given up on the boundary of Dao Ancestor yet?”

Ye Yuan asking like this, Dustless naturally knew what Ye Yuan was trying to do straight away.

But these words were filled with mockery towards Ye Yuan, ridiculing that Ye Yuan overestimated his own ability.

But Ye Yuan said with a smile, “Senior, I know that reaching the Dao Ancestor Realm is as hard as ascending to heaven, but the Transcendent Heavenly Emperor Realm is utterly meaningless to me! If I want to save Lingxue, I must cultivate to the Dao Ancestor Realm. Isn’t that so?”

But Dustless said with a cold snort, “Compared to cultivating to Dao Ancestor Realm, this old man still feels that asking a Dao Ancestor for help is a little more reliable! If you’re really able to cultivate to Transcendent Heavenly Emperor Realm, you’ll have the qualifications to ask a Dao Ancestor for help.”

But Ye Yuan said stubbornly, "This doesn't clash with cultivating to Dao Ancestor Realm!"

Dustless choked up and could not help being speechless.

Only after a long time did Dustless say, "Fine then, this World Suppressing Stele was actually obtained by chance by Immortal Grove back then at the Heavenspan Mountain; incredibly marvelous! It's akin to a limitless treasure trove. When Immortal Grove just obtained it, it was just an ordinary piece of rock. Later, Immortal Grove continuously developed it, while its grade also continued to increase. When Immortal Grove cultivated to Empyrean Realm, it was already an empyrean spirit treasure."

Ye Yuan was also extremely surprised when he heard it. He did not expect that the World Suppressing Stele's background was actually so great!

The Heavenspan Mountain's might, Ye Yuan already learned of it from Dustless and Kunwu's mouth.

World Suppressing Stele, turns out it was a piece of rock on the Heavenspan Mountain!

"In this case, the World Suppressing Stele completely doesn't need to be sanctified. It only needs to be developed continuously, and it can advance into a heavenly emperor spirit treasure?" Ye Yuan said in surprise.

Dustless said, "In theory, it's like this!"

Ye Yuan nodded and said, "Alright, when Senior devours enough evil spirits, I'll enter inside the World Suppressing Stele and comprehend my own Dao!"

Dustless was speechless.

He discovered that Ye Yuan, this fellow, was simply a stubborn donkey!

Once he decided on a matter, he could not be pulled back no matter how one pulled.

It was like this back then in the turbulent spatial flow; now, it was still like this.

...

"Elder brothers, I wonder where there are more late-stage One-star evil spirits in this Yin Wind Den?"

Ye Yuan wandered inside the Yin Wind Den for a long time and discovered that most of them here were all some mortal-grade evil spirits. Occasionally, he could run into initial-stage One-star evil spirits.

These evil spirits were completely useless to Dustless.

Ye Yuan discovered that this place expanded in all directions. Wanting to find late-stage One-star evil spirits was too difficult, and he could only seek help from others.

The few people turned around. Seeing Ye Yuan's cultivation, they could not refrain from looking at him with a gaze like looking at a fool.

"Kid, new here, right? Your bit of strength, better wander around the outer-ring! This place is already close to the danger zone. Your bit of strength isn't even enough to fill the crevices between the evil spirits' teeth!" Chang Liang said.

This group of people was precisely the Yin Wind Seven Heroes who were shot while lying down at the peripheral!

After the seven people came in, they headed straight for the danger zone.

The seven of them mucked around here all year round and were incomparably familiar with the Yin Wind Den.

Whenever there were powerful evil spirits, there would be natural treasures; they had this assumption in their hearts.

As for the Wang Family, although their strengths were powerful, they were really not familiar with this place.

Chang Liang also did not expect that they would run into Ye Yuan here.

Ye Yuan said smilingly, "Elder brothers, you all should be very familiar with this place, right?"

He saw that these few people's gazes were very clear-cut, not like him, anyhow running around like a headless fly. He knew that these few people should be regulars of this place.

Chang Liang's brows furrowed and he said, "The seven of us are called the Yin Wind Seven Heroes. Do you think we're familiar with this place or not? Kid, we still have to go search for natural treasures and have no time to be long-winded with you. If you don't want to die, wander around this neighborhood and see if you have the luck to pick up something that was missed out or not."

Regarding Chang Liang's sincere advice, Ye Yuan did not take it seriously at all.

What was important was that Chang Liang they all were familiar with this place.

Ye Yuan said with a smile, "Elder Brother and the others, since you all are familiar with this place, then bring me to go find late-stage One-star evil spirits. As long as I find the place, I'll give you all 5000 low-grade divine essence stones as commission. How's that?"

Unrivaled Medicine God

Chapter 1326: Seven Heroes Betting

"5000 divine essence stones!"

Chang Liang's gaze turned intent, and he drew a cold breath.

To them, 5000 low-grade divine essence stones were not some small figure.

Even though all of the members of the Yin Wind Seven Heroes, their strengths were uncommon, spending as long as several years in the Yin Wind Den, the divine essence stones added up for the seven people would not exceed this sum either.

But Ye Yuan's opening offer was 5000 low-grade divine essence stones!

Furthermore, it was just leading the way!

These 5000 low-grade divine essence stones were earned too easily.

Ye Yuan said smilingly, "That's right. Here are 1000 low-grade divine essence stones, take it as a deposit. As long as you all bring me to gather up 500 late-stage One-star evil spirits, the remaining 4000 low-grade divine essence stones, I'll pay up the sum in full."

Ye Yuan helped the Myriad Treasure Tower create such a large profit, the Myriad Treasure Tower naturally would not treat him shabbily.

Low-grade divine essence stones, Ye Yuan naturally took whatever he pleased.

As long as it was not too overboard, the Myriad Treasure Tower would not say anything.

"5-500!" Chang Liang was speechless.

This boy was really hell-bent on shocking people to death with words!

Over 500 late-stage One-star evil spirits, even the average grand completion Grotto Profound did not dare to easily engage head-on either.

An initial-stage Grotto Profound kid actually dared to boast so shamelessly!

Chang Liang suddenly felt several strange gazes coming from behind him.

No need to turn back and he also knew that those few brothers probably had killing intent aroused!

In this place, killing people to seize treasures was all too normal.

Ye Yuan's opening move was 5000 low-grade divine essence stones. The divine essence stones he was carrying on him were probably far more than this figure.

As long as they killed Ye Yuan, then the divine essence stones on him were all theirs.

Compared to leading the way, they were clearly more willing to clean away the divine essence stones on Ye Yuan.

Actually, it was not just his six brothers who had killing intent aroused. Even Chang Liang himself also had killing intent aroused.

But he, Chang Liang, was able to hang around in the Yin Wind Den for so long because he was cautious by nature.

He could not resist glancing at Ye Yuan and discovered that Ye Yuan seemed to be completely clueless about his brothers' killing intent like he was completely fine.

Chang Liang's heart stirred, the temptation of divine essence stones finally overwhelmed everything.

But, just as he was about to make a move, he suddenly detected an imperceptible cold smile flashing across the corners of Ye Yuan's mouth.

Chang Liang's heart thumped, the words when reaching his mouth changed at the behest of supernatural powers.

"Haha, deal! Little Brother is really generous. I, Chang Liang, will make friends with you!" Chang Liang received a thousand low-grade divine essence stones with a hearty laugh.

Chang Liang's words made the six brothers' jaws drop.

When did Boss become so easy-going?

Ye Yuan smiled and said, "Lead the way then!"

Chang Liang said with a laugh, "Sure, easily arranged!"

Following that, Chang Liang brought Ye Yuan and made many twists and turns. Indeed, before long, the evil spirits that they encountered become stronger.

Chang Liang and the rest became cautious and on the alert one by one.

The strongest among them, Chang Liang, was merely middle-stage Grotto Profound too.

Encountering late-stage One-star evil spirits, there was not even time for them to run. They did not dare to approach at all.

"Ahead is the Purple Nether Cave. That place definitely has late-stage One-star evil spirits. But, Little brother, the few of us don't dare to go in," Chang Liang said.

Ye Yuan nodded his head and said, "You all can just wait outside the cave for me!"

Finished talking, Ye Yuan entered the Purple Nether Cave without turning his head back.

"Boss, why didn't you make a move just now? I dare to bet that this kid has at the very least no less than 50 thousand divine essence stones on him!" Seeing Ye Yuan enter the cave, the Yin Wind Seven Heroes' Number Seven could not resist grumbling.

"Yeah, Boss! Normally, you aren't so timid and cowardly! Seeing such a fat lamb, you'd have long taken action!" said Number Three.

Chang Liang's gaze swept over their faces and heaved a sigh as he said, "Why wouldn't I know what you guys are thinking? I nearly made a move just now!"

"Then why did you change your tune again? Now, he entered the Purple Nether Cave, so he's probably already dead. For us to take the divine essence stones on him, we'd have to expend a lot of effort!" Number seven said.

In their view, this Ye Yuan was simply a silly young master flushed with money.

He did not know about this Yin Wind Den's terror at all and wanted to barge into the Purple Nether Cave without due consideration. What difference was there from courting death?

Chang Liang gave him a glance and said with a cold smile, "Do you all really think that there are so many idiots in this word? *Heh heh*, it's precisely because his actions looked very foolish that I felt that this kid was not to be provoked! No idea why, when I was planning on making a move earlier, I felt my heart palpitate with anxiety and fear! Just like being locked on by a hunter!"

Chang Liang's words did not change the group of brothers' views.

Number Two also interjected, "Boss, merely an initial-stage Grotto Profound brat, is there a need to be so careful? Us seven brothers, there are already three middle-stage Grotto Profound. Could it be that we still can't deal with a brat who's wet behind his ears?"

Chang Liang said coolly, "You guys just wait. I dare to wager that he can definitely come out from inside the Purple Nether Cave!"

Number Seven said, "How is this possible? He alone probably can't even deal with an initial-stage One-star evil spirit, can he still deal with late-stage evil spirits?"

Number Three also said, "Yeah, Big Brother! Either way, we also earned a thousand divine essence stones for nothing! Let's go right away! There's no way he can come out."

Chang Liang chuckled and said, "Dare to bet or not? I, Chang Liang, examine my own conscience and feel that I still have some knack in judging people. This kid is absolutely not simple!"

Number Seven said, being unconvinced, "Boss, don't you really trigger me! You say, how to bet?"

Chang Liang smiled and said, "Let's set three days as the limit. If that kid comes out, these 5000 divine essence stones, I'll take 4000! If that kid doesn't come out, these 1000 divine essence stones, I don't want a piece and will even top you guys up a thousand divine essence stones, you all take them and split!"

With Chang Liang saying this, the brothers all laughed.

"Haha, Boss, since you're so generous, then the brothers will kindly accept it! This wager, you'll lose for sure! Don't talk about three days, even if it's 30 days, he can't come out either!" Number Seven said with a loud laugh.

"Boss, when the time comes, you can't renege on your bet! This wager, you lost for sure!" Number Two also said with a laugh.

"Boss, we've mingled around in this Yin Wind Den for so many years, when have you seen before an initial-stage Grotto Profound can come out from the Purple Nether Cave, this kind of place? What's with you today, are you alright?" Number Three also laughed loudly and said.

Chang Liang just smiled and said nothing. He believed in his judgment.

He, this person, was meticulous; his vision was extremely sharp.

It was precisely because so that he could bring the brothers and slip away from under the Wang Family's hands.

If it was another person, saying one sentence wrong and they would probably have to be silenced by the Wang Family to prevent divulgence of secrets.

...

"Second Brother, this Yin Wind Den is so large, the terrain is extremely complicated. How do we find him?" Wang Yugan was also made dizzy by the terrain here.

Wang Yutao said solemnly, "Find some people and ask! That kid is a new face, he's definitely very conspicuous! I believe that for him to come here, it's impossible to find a place with nobody to hide. As long as we ask more people, there will definitely be someone who knows!"

Wang Yutan's eyes lit up, and he said, "Second Brother is brilliant!"

Wang Yutao said, "The few of you, all spread out for me. Find the local hegemony here and inquire! If somebody saw a new face, you must inquire clearly. Understand?"

Unrivaled Medicine God

Chapter 1327: Ghost King Cave

"Big Brother, us brothers all save you a bit of face. This wager, shall we call it off? Waiting here is so boring, that kid definitely can't come out," Number Seven said.

"Yeah, I say, what's going on with Big Brother today? Normally, you aren't like this!" Number Three also urged.

Facing the group of brothers' persuasion, Chang Liang smiled without expressing approval nor disapproval and just said, "It's just been half a day, and you guys can't wait anymore?"

"Heh, Big Brother, we're saving face for you here!" Number Seven said.

Chang Liang smiled and said, "Please don't save face for me! Even reckoning makes for long friends for us blood brothers. Since this wager was set, then let's continue all the way."

At this time, a voice sounded out by everyone's ears like a ghost.

"What are you guys betting on?"

Everyone turned around to look, their eyeballs immediately staring wide-open one by one.

The one who spoke was precisely Ye Yuan!

"W-W-Why ... did you come out? No, wait, how did you come out?" Number Seven's tongue instantly became unable to straighten.

The six brothers all had expressions like they had seen a ghost, sizing Ye Yuan up and down.

After that, they discovered that Ye Yuan's condition could not be any better, just like there were no evil spirits inside the Purple Nether Cave at all.

Not just the six brothers, even Chang Liang was dumbfounded too.

He sensed that Ye Yuan was rather extraordinary, but he also did not expect that Ye Yuan actually only used half a day and came out.

Him saying three days' time was already overestimating Ye Yuan.

He did not think that three days were too long for Ye Yuan!

The moment Ye Yuan heard Number Seven's words, he could not help being tickled. "What are you saying? Of course I walked out. Or could it be that those evil spirits carried me out?"

“But ... But ... there are quite a number of late-stage One-star evil spirits in the Purple Nether Cave!” Number Seven said with an amazed look.

Ye Yuan nodded his head and said, “*En*, there are indeed some late-stage One-star evil spirits in here. But the numbers were still too little. I wandered around for half a day and only ran into seven or eight. There’s still a long way from the total of 500! Are there places with even more? Bring me to go take a look.”

Chang Liang was startled and hurriedly said, “Have! Of course there are! I’ll bring you!”

Ye Yuan nodded his head and followed behind Chang Liang.

The group of people headed even deeper into the Yin Wind Den.

The deeper in, the more the evil spirits they encountered. Furthermore, the more powerful.

But Ye Yuan’s performance made their jaws drop.

Evil spirits that the seven of them could only finish off after exhausting their strength, Ye Yuan seemed to be like catching a chicken, grabbing with one hand.

Then, lightly pinching, it shattered!

The Yin Wind Seven Heroes had mingled around the Yin Wind Den for many years. There had never been anyone who killed evil spirits like this.

Only at this time did the other six people believe how terrifying Ye Yuan’s strength was.

Finally, the seven people escorted Ye Yuan to a second cave before the few people found a chance to talk.

Number Seven scooted in front of Chang Liang and wiped away his cold sweat as he said, “Luckily, Big Brother is wise. Otherwise ... we’d probably already be like those evil spirits, pinched to death by him!”

Chang Liang also felt lingering fear. If they really made a move previously, they, the Yin Wind Seven Heroes, would probably have their names completely struck off the list today.

Of course, it was impossible for Ye Yuan to crush them to death like crushing the evil spirits.

For him to be able to easily deal with the evil spirits, that was all Dustless’s credit.

But Ye Yuan’s method of killing evil spirits made their hairs stand on end.

The feeling that this kind of visual impact gave them was that Ye Yuan was very strong.

Very powerful!

Chang Liang also had a bitter look as he said, “Honestly speaking, I also didn’t expect that his strength was actually so great!”

“Could it be that this guy concealed his strength? An initial-stage Grotto Profound guy, how can he possibly be so strong?” Number Two said.

Chang Liang shook his head and said, "That, I don't know! Either way, we just have to earn these 5000 low-grade divine essence stones, and it will do. The rest, better don't be busybodies! *Oh*, right, the matter of wagering, this brother won't be courteous!"

Talking to the back, Chang Liang had a bright grin.

With this, he made a killing!

4000 low-grade divine essence stones were not a small sum to them.

Deducting the normal expenditures, for Chang Liang to want to earn this sum of money, he needed at least three to five years!

Seeing the smug expression on Chang Liang's face, the other six people felt as uncomfortable as having eaten a fly.

A cooked duck flew away just like this!

5000 low-grade divine essence stones, originally, each of them could be distributed 700 plus.

But now, the six of them could only split the remainder 1000 pieces.

A big loss!

"*Heh*, don't all have this expression, one must be willing to lose if they bet! Don't say that I, boss, am not righteous, I'll take another step back and only take 3000. The remainder 2000, you guys take and split!" Chang Liang said.

With this, everyone could not help being overjoyed, all thanking Chang Liang profusely.

Chang Liang's thinking was more full of schemes compared to his other six brothers.

Giving 1000 more pieces of divine essence stone could make the six brothers submit more wholeheartedly. This transaction was too worthwhile.

...

Another half a day's time passed, and then Ye Yuan came out of this cave.

Except, he just devoured around ten evil spirits this time as well.

Ye Yuan was very dissatisfied with this number and said to Chang Liang after coming out, "Too few! Are there caves with more? Best if there's several dozen or a hundred at once, that kind!"

Chang Liang was secretly dumbfounded. He seriously could not figure out how an initial-stage Grotto Profound rookie dealt with those late-stage One-star evil spirits.

But he still said, "Have is have, it's just that the place is a little too dangerous. The few of us brothers ... don't dare to go!"

Ye Yuan said coolly, "No worries, you all just have to bring me there! At that time, I'll clean up the evil spirits around the cave. That way, you guys will be safe. As for the deposit, I'll add another 2000!"

Money could make the Devil push the millstone for you. Chang Liang and the rest braving all kinds of danger in this Yin Wind Den, wasn't it still because of divine essence stones in the end?

Ye Yuan giving such a large sum, how could they not be moved?

Moreover, Ye Yuan said that he would clean up the evil spirits in the perimeter. This way, they would have no more worries.

Chang Liang gritted his teeth and said, "Done! Around 1000 miles down, there's a Ghost King Cave. Not only are there many evil spirits there, but they are also very powerful! After Your Excellency goes in, make sure not to enter too deep, because there is a grand completion One-star evil spirits inside there! Legends have it that in the Ghost King Cave's depths, there's even a Two-star evil spirit. It's just that no one has ever seen it before!"

Ye Yuan was also secretly shocked when he heard that. If he really wanted to do this, then he would really have to be a little more careful.

Grand completion One-star evil spirit could still barely manage to deal with. But Two-star evil spirit, Dustless was still powerful to handle one currently.

Ye Yuan nodded his head and said, "Mm, many thanks for the reminder, I'll be careful!"

Seeing Ye Yuan respond with a stern countenance, Chang Liang judged that grand completion One-star might be Ye Yuan's limit.

But this result was already sufficient for him to be astonished.

They left Ye Yuan into the Ghost King Cave and waited outside themselves.

But they did not expect that at this time, over ten figures suddenly dashed in from all directions, directly surrounding the seven of them in the center!

"Huhu, searched for you all so bitterly! Didn't expect that you guys and that Ye Yuan punk are actually accomplices! The spectroscopy breaking, this score, we'll have to settle it properly!" Wang Yutao's killing intent filled words transmitted into the Yin Wind Seven Heroes' ears.

Chapter 1328: Catching Turtles in a Pot

The appearance of Wang Yutao and the rest caught the Yin Wind Seven Heroes by surprise. They were stunned too.

But Chang Liang reacted extremely quickly, understanding what was going on virtually right away.

At the same time, he could not help being secretly alarmed.

Wasn't it said that the Myriad Treasure Tower's alchemist was a cripple who could not cultivate? How could he have such formidable strength?

The current Chang Liang already ascertained that that youth who entered the Ghost King Cave was precisely the Myriad Treasure Tower's guest alchemist. It was Ye Yuan!

“This lord, this Chang doesn’t understand what you mean? If this Chang has the capability to destroy the spectroscope, then I also wouldn’t need to strive in this Yin Wind Den all year round!” Chang Liang said with cupped fists.

His mind flashed like lightning and knew that only by refusing to admit even unto death at present could he have a slim chance of survival.

In reality, he really did not expect that Ye Yuan was the person the Wang Family was looking for.

But Wang Yutao sneered coldly when he heard that and said, “You don’t need to quibble anymore. I only believe the truth I see with my eyes! We’ve already inquired clearly. After that punk entered the Yin Wind Den, it has always been you guys leading the way for him. Just based on this point, you all deserve death!”

Chang Liang groaned in secret, but his expression was in a daze as he said, “Your Excellency, this lowly one really doesn’t know what you’re talking about! There was a youth who offered 7000 pieces of divine essence stones to have us lead the way. But ... this Chang also didn’t know that that was the person Your Excellency wanted to find!”

Wang Yutao said coldly, “No matter how glib your tongue, helping that boy is also a fact! Come, men, take them down for me! If there is resistance, capture and immediately execute!”

Wang Yutao’s words thoroughly extinguished the last trace of Chang Liang’s hope for a fluke.

His expression changed, and he said gravely, “Brothers, enter the cave!”

At this time, the other three sides were all blocked off. The Ghost King Cave at the back was the only retreat path.

The figures of Chang Liang, the seven of them, were like lightning, speeding over towards the Ghost King Cave.

Seeing this, Wang Yutao snorted coldly. Raising his hand, it was a palm!

“A bunch of people who have no idea of life or death!”

Powerful divine essence instantly exploded. A terrifying air billow swept over towards the seven people.

Chang Liang revealed a horrified look and cried out, “Brothers, you all go in!”

He unleashed all of his strength in this lifetime, wanting to deal with Wang Yutao’s blow.

However, this was merely an ant trying to topple a tree!

Facing the grand completion Grotto Profound Wang Yutao, Chang Liang did not have the least bit of strength to resist.

However, Chang Liang already made the resolve to die. He wanted to protect his brothers to enter the cave!

Although the ‘Yin Wind Seven Heroes’ were not some good people, when facing such an imminent disaster, adversity tests friendship.

Boss Chang Liang blocked the spear for his brothers without the slightest hesitation!

But right at this time, two figures suddenly dashed out, covering up Chang Liang's profile.

"Big Brother, live well and take revenge for us!"

It was Number Three and Number Seven!

Chang Liang's eyes turned bloodshot, his two eyes scarlet-red.

But Wang Yutao's palm-force already arrived. Even if he wanted to do something, it was too late as well!

Boom!

An enormous force directly blasted Number Three and Number Seven, together with Chang Liang, flying.

However, the majority of the force was blocked by Number Three and Number Seven.

Chang Liang vomited a mouthful of fresh blood with a 'wah.' Number Three and Number Seven beside him had long ceased breathing already.

Chang Liang was very decisive. He knew that now was not the time to be irresolute and hesitant. Forcefully crawling up, he headed over towards the Ghost King Cave.

Although this palm of Wang Yutao killed Number Three and Number Seven, Chang Liang also borrowed the force of this palm and arrived at the Ghost King Cave's entrance.

His figure speed, burrowing straight into the cave.

"Second Brother, what do we do now?" Wang Yugan asked.

"What else can we do? Go in and capture the people! Right now, we're catching turtles in a pot!" Wang Yutao said without the least bit of hesitation.

At this time, a martial artist said rather fearfully, "Y-Your Excellency, this place is the Ghost King Cave!"

This martial artist was the guide that the Wang Family found.

Wang Yutao's face fell, and he said, "So what if it's the Ghost King Cave?"

The guide said, "The Ghost King Cave is the most dangerous place in the Yin Wind Den, the evil spirits inside too many to count. Furthermore, the Ghost King Cave's depths might have Two-star evil spirits existing! Once we startle the Two-star evil spirit, none of us can escape!"

Wang Yutao's expression also turned apprehensive when he heard that, but he became relieved very quickly and said with a cold snort, "What about that? I don't believe that that brat dares to enter the depths of the Ghost King Cave! Go!"

That guide was helpless and could only enter the Ghost King Cave.

...

Chang Liang five people had also never entered the Ghost King Cave before. This place was all human martial artists' forbidden area.

So after entering, Chang Liang five people ran wildly without distinguishing the direction at all.

But what made them surprised was that along the way, they actually did not even encounter a single evil spirit!

No idea how long they ran either, they suddenly saw that there was a figure ahead, currently sitting cross-legged.

“Big Brother, it ... it’s that kid!”

“If not for this boy, Number Three and Number Seven wouldn’t have died either! This score, we have to find him to settle it properly!”

“Big Brother, kill this kid! Take revenge for Number Three and Number Seven!”

These few people were almost in tears when talking. Clearly, the death of Number Three and Number Seven, they were all unable to accept it.

They knew that they were forever not Wang Yutao’s match. Therefore, they cast the anger onto Ye Yuan.

Chang Liang’s injuries were not light. Currently, he was forcefully holding onto a breath.

Seeing the appearance of his group of brothers filled with righteous indignation, Chang Liang’s expression was also ugly to the extreme.

“Brothers, every injustice had its perpetrator, every debt its debtor! Number Three and Number Seven were killed by Wang Yutao. Want to settle this score, we also have to settle it with them! Us and Master Ye only did a transaction. Putting this score on his head isn’t fair!” Chang Liang said.

Ye Yuan slowly opened his eyes and looked at Chang Liang with some surprise, and slowly opened his mouth to say, “The Wang Family being so utterly devoid of conscience exceeded my expectations. But, the one who caused the deaths of Number Three and Number Seven wasn’t me, but yourselves! If you all want to count this score on this Ye’s head, this Ye will keep you company!”

Ye Yuan’s words made the few people explode all at once.

“We caused the death of Number Three and Number Seven? Brat, you don’t make unfounded accusations!”

“Don’t think that by killing a few evil spirits, you can scare us! You’re merely a puny little initial-stage Grotto Profound, I don’t believe that you’re really us brothers’ match!”

Chang Liang’s expression was incomparably ugly. Ye Yuan’s words made him regret to the max!

But they heard Ye Yuan saying indifferently, “The seven of you, each and every one of you had killing intent aroused towards this Ye before! Putting it bluntly, you’re all just a bunch of robbers who murder and seize goods! If not because of this, perhaps this young master would have made a move to save previously, and even brought you all into the Ghost King Cave.”

Ye Yuan’s words made Chang Liang five people shocked inwardly.

Turns out that their killing intent, Ye Yuan had long perceived it keenly. It was just that he did not expose it all along!

Now, Number Three and Number Seven died. It was a retribution for them having killing intent aroused!

Not that they did not wish to kill Ye Yuan, it was just that Chang Liang detected the danger. That was why they did not make a move.

Hence, Ye Yuan had no need to be responsible for their life and death.

Between them was merely just a transaction.

"Also, if not looking on account of your brotherly affection, do you guys think that ... you can still live to see this young master?" Ye Yuan said coolly.

Chapter 1329: Fatal Encirclement!

"Your Excellency, something seems to be not quite right! This Ghost King Cave ... is too quiet!" The guide's expression was not too good as he said.

Wang Yutao's face fell, and he said, "Enough crap! You just have to care about leading the way! I don't believe that the kid can still overturn the heavens!"

No need the guide to warn, how could Wang Yutao not know that something was amiss.

They had always been on guard after entering the Ghost King Cave. But along the way, they did not even run into a single evil spirit.

Since the Ghost King Cave was one of the Yin Wind Den's most dangerous places, then there should be a lot of evil spirits.

Wang Yugan also felt all the hairs on his body stand on end as he could not resist saying, "Second Brother, it's better to withdraw! As long as we guard the entrance, will we still be afraid that the kid doesn't come out?"

Wang Yugan's suggestion made Wang Yutao palpitate with excitement as well.

"If he risks his life and just hole up inside here and not go out?" Wang Yutao asked.

The moment the guide heard that Wang Yutao was moved, he hurriedly said, "Impossible! Even grand completion Grotto Profound powerhouse can only last at most a year here. Any longer, the Yin energy here will corrode the fleshy body and cause tremendous damage to the physical body. If mild, it will damage the Martial Dao foundation. If severe, one will become a Yin corpse!"

Wang Yutao's expression changed, not expecting that this Yin Wind Den still had so many things to pay attention to.

Since it was like this, he could rest assured.

"Okay, we'll withdraw!" Wang Yutao's heart was also somewhat pounding as he said.

But just as they turned around and were about to withdraw, Yin wind suddenly stirred up.

Woo! Woo!

All around, no idea where heaps of evil spirits emerged from either, all late-stage One-star!

Looking at the numbers, there were probably no less than a thousand!

Such a scale of evil spirits, even Wang Yutao, this kind of powerhouse, felt his scalp tingle too.

Although grand completion Grotto Profound could casually crush late-stage Grotto Profound, it was not to say that grand completion Grotto Profound was invincible.

Evil spirits were more difficult to tangle with in the first place for martial artists.

With over one thousand evil spirits jumping out all at once, even if Wang Yutao and Wang Yugan joined hands, they also did not dare say to be able to retreat unscathed.

“This ... What’s going on here? Where in the world did these evil spirits emerge from?”

“Second Elder, w-what should we do?”

“So many late-stage One-star evil spirits, we’re dead for sure this time!”

...

The faces of these Wang Family second generation powerhouses all turned green.

An aura of despair was spreading among them.

One late-stage One-star evil spirit was already enough for them to suffer. A thousand appearing all at once, how could they not despair?

“All shut up for me! Shouting and wrangling, can it scare away these evil spirits? All follow this old man, kill the way out together!”

Wang Yutao still had overwhelming prestige. This shout instantly calmed the Wang Family’s people.

At the same time, he raised his long spear. A terrifying force struck toward the evil spirits ahead.

“Howl! Howl!”

Miserable cries lingered incessantly by the ears. Late-stage One-star evil spirits were still a little too tender in front of Wang Yutao.

Except, not only did Wang Yutao’s overwhelming blow not frighten away the evil spirits, it made those evil spirits even more crazed instead, pouncing over at the crowd.

“Yugan, you cover the rear, I’ll open up the path in front! The others, take precautions on your own. Don’t let those evil spirits break in!”

Wang Yutao had clearly seen a grand spectacle before. Although alarmed, he did not panic, commanding with great composure.

He and Wang Yugan, two great experts, protected the team one front and one back. The other people’s pressure lessened drastically all at once.

However, the number of evil spirits was seriously too many. Furthermore, each and every one of them was ferocious and did not fear death. They just did all they could to bite.

Very soon, there was somebody who could not hold on anymore.

“ARGH!!”

A Wang Family’s guard whose strength was slightly weaker was suddenly brought down by four or five evil spirits.

The evil spirits were seemingly sharks that smelled the scent of blood. Around 20 to 30 evil spirits instantly drowned him out entirely.

Before long, that guard ceased breathing.

His divine soul was already divided and eaten by the evil spirits.

When everyone saw this scene, each and every one of them felt a chill.

Maybe this was their outcome not long after!

Those evil spirits tasting the benefits, only tussled with Wang Yutao and Wang Yugan, while the focus of the attacks was placed on those Wang Family members in the center.

Very soon, there was another Wang Family’s member who was taken down.

“Lingqiu!”

Wang Yutao’s gaze turned bloodshot from anger. That person who died was his biological nephew.

Before coming, he never dreamed that employing the Wang Family’s power to come and hunt down an initial-stage Grotto Profound brat, he would actually pay such a terrible price.

Except, sad was sad. He was completely powerless about the reduction in numbers when battling.

A hundred evil spirits pestered him. Even if his strength was any greater, he was too busy to care as well.

A single mishap and he would even stumble himself.

Two late-stage Grotto Profound experts defending, this group of people gradually approached the cave entrance.

It was just that miserable cries echoed incessantly in Wang Yutao’s ears.

His heart was dripping blood!

“Kill!”

A terrifying charge, Wang Yutao finally forcefully carved out a bloody path, charging out of the Ghost King Cave.

The current Wang Yutao’s eyes were blood-red, already unbelievably furious.

One figure after another charged out. Finally, Wang Yugan also came out in the end.

Boom!

The evil spirits did not have the intention of letting these people off. Large groups rushed out of the Ghost King Cave and continued to hunt down everyone.

Wang Yutao was aggrieved to the extreme and could only lead everyone to continue fleeing.

No idea how long they chased them either, there were finally no more evil spirits behind them. Everyone was all seemingly drained of energy, plopping down onto the ground, panting heavily for air.

Wang Yutao swept a glance over the remaining people, the joints of his fingers cracking.

When they went in, counting in the guide, they brought a total of 17 people!

But now, counting in him and Wang Yutan, there were only five people left!

This in and out actually forcefully incapacitated 12 people!

Apart from the guide, those Wang Family's people were all the Wang Family's elites.

Quite a number of people were all Wang Yutao's sons and nephew generation.

Among them, the majority were all late-stage Grotto Profound powerhouses. There were even a few who were middle-stage Grotto Profound.

This trip directly cut the Wang Family's elites by half!

"Ye Yuan, if I don't avenge this grudge, I, Wang Yutao, am lesser than a human! This old man swears an oath to heaven that I must cut you down in this Yin Wind Den!"

Wang Yutao's eyes were blood-red, gnashing his teeth in hatred, already hating Ye Yuan to the max.

He naturally would not think that it was actually them pursuing Ye Yuan all along.

Either way, others killing the Wang Family's members, that was all the other person's fault.

...

Inside the Ghost King Cave, Chang Liang five brothers were long dumbstruck with amazement already.

They exchanged glances, all with an expression like they had seen a ghost.

"B-Big Brother, what did we see just now? O-Our eyesight wouldn't be failing, right?"

"How did he do it? Those ... Those were a thousand late-stage One-star evil spirits! He ... He's actually able to command late-stage One-star evil spirits!"

Chang Liang looked at the Ye Yuan currently in meditation, his gaze full of deep apprehension!

Only this time, did they witness Ye Yuan's true strength!

For Ye Yuan to want to kill them, it was truly as easy as turning his palm over!

Chapter 1330: Two-star Evil Spirit!

"Y-Your Excellency, previously, we have affronted. Your Excellency, please don't take offense!" Chang Liang cupped his fists and said respectfully.

His back was already drenched in cold sweat, feeling palpitations of lingering fear and rejoicing in his heart.

Fortunately, he did not become enemies with Ye Yuan. Otherwise, the seven of them brothers, the ones who died would not be just Number Three and Number Seven.

When a thousand late-stage One-star evil spirits besieged Wang Yutao they all, Chang Liang was watching from outside.

That spectacular scene made it hard to forget all his life.

Forget about it happening to Wang Yutao, even Chang Liang, this spectator, felt his scalp tingle.

But seeing the Wang Family's people fall one by one, Chang Liang was incomparably delighted in his heart.

The Wang Family's people were too overbearing, killing two of his brothers indiscriminately. Served them right to have this kind of end.

Ye Yuan slowly opened both eyes and said nonchalantly, "Not to the extent of taking offense, but as long as you guys don't provoke this young master, this young master naturally won't go and find trouble with you all. Originally, I wanted to let you all run your own course without external interference, but seeing the feelings between you brothers run so deep, willing to help each other at the expense of your life, that's why I made a move."

Dustless had constantly been monitoring every movement and action in the vicinity. The things that happened outside the Ghost King Cave could not hide from him at all.

Originally thought that the Yin Wind Seven Heroes, these greedy fellows, the feelings between the brothers were probably just like that.

But he did not expect that Chang Liang, as well as Number Three and Number Seven, were actually so loyal.

Ye Yuan felt a spur of the moment. That was why he let them in.

After Dustless absorbed some evil spirits, his condition improved considerably all at once.

His methods also made Ye Yuan secretly dumbfounded.

Dustless simulated the undulations of a grand completion One-star evil spirit with a secret at, commanding these late-stage One-star evil spirits to besiege the Wang Family's people.

To a late-stage One-star evil spirit, a grand completion One-star evil spirit was an absolute sovereign!

One-star evil spirits did not have any intelligence. They acted entirely based on their own instincts.

Hence, as long as Wang Yutao they all dared to enter the Ghost King Cave, that outcome would absolutely be miserable.

“Yes, yes, yes, Your Excellency. Previously, the few of us were committing stupidity! The Wang Family is too strong, the few of us brothers don’t have hopes of taking revenge at all, that’s why we would divert the hatred onto you! Hope that Your Excellency pardons it!” Chang Liang said.

Ye Yuan gave him a glance and said, “Honestly speaking, I also didn’t think that the Wang Family would be so utterly devoid of consciousness. Just because you guys were a guide for me, they vented their anger on you all. But the Wang Family, this young master will certainly purge their names from Jewelhill City! If the few of you follow me, there will come a chance to take revenge for your brothers in the future.”

Chang Liang’s eyes lit up, and he said joyfully, “For Your Excellency to be willing to take us in, it’s our honor! The few of us brothers are willing to dash our brains onto the ground and follow Your Excellency to death!”

Chang Liang signaled his brothers with a look and prostrated.

Ye Yuan nodded and said, “*En*, you guys following this young master, this young master naturally won’t dispense with your benefits. It’s just that, this young master can’t tolerate any mistakes and transgressions. If you all still want to have any filthy ideas like before, don’t blame this young master for being ruthless!”

Chang Liang was alarmed and hurriedly said, “Dare not, dare not! The death of Number Three and Number Seven taught this Chang a profound level! Currently, this Chang’s only wish is to personally kill Wang Yutao that bastard and take revenge for Number Three and Number Seven!”

Ye Yuan was just about to open his mouth and speak when suddenly, his expression turned grim.

Chang Liang’s expression changed as well, It was as if he was being stared at by a venomous snake.

Around them, a series of powerful auras emerged, surrounding the six of them in the middle.

“Grand completion One-star evil spirits! Your Excellency, this ... What to do here?” Chang Liang exclaimed.

The great battle previously finally still startled these powerful existences!

Same as human martial artists, grand completion One-star, this level of evil spirits, were not easy to deal with.

Suddenly, a strange vortex storm spread out with Ye Yuan as the center.

Those late-stage One-star evil spirits were involuntarily sucked into the vortex, finally being absorbed by Ye Yuan!

A thousand late-stage One-star evil spirits did not have the slightest bit of resistance, directly becoming Dustless’ food.

Seeing this scene, the eyes of Chang Liang and the rest stared like wide-saucers.

While controlling a thousand evil spirits was beyond comprehension, Ye Yuan actually devoured a thousand evil spirits. This was seriously too terrifying.

He ... Wasn't he afraid of stuffing himself to death?

Chang Liang and the rest had run around here for no less than several hundred years. But they had never seen before someone who dared to deal with evil spirits in this way.

Ordinary martial artists, even grand completion Grotto Profound martial artists, did not dare to devour an evil spirit either!

Chang Liang swallowed his saliva, discovering that this lord was truly too mysterious.

The Wang Family definitely went soft in the head, that was why they provoked such a terrifying foe.

Somehow, Chang Liang suddenly was somewhat sympathetic for Wang Yutao.

At present, the surroundings had roughly 20 to 30 grand completion One-star evil spirits. These ferocious-looking evil spirits were actually incomparably wary of Ye Yuan at this time.

Even though they surrounded everyone, all of them were fearful and did not go forward.

These evil spirits all did not have intelligence. But it was precisely because so that they could faintly perceive the Soul Suppressing Pearl's terror.

This kind of instinctive dread made them not dare to go forward.

Myriad things in the world reinforce and counteract each other. Evil spirits were extremely powerful existences to human martial artists.

But the Soul Suppressing Pearl was their nemesis!

Only after seeing this scene did Chang Liang finally let out a sigh of relief in his heart. At the same time, he was incredibly shocked too.

In this Yin Wind Den, human martial artists all made detours when seeing evil spirits.

But today, he actually saw evil spirits feeling fear towards humans.

Chang Liang felt that the events that happened today simply subverted his world view!

Seeing Ye Yuan slowly open both eyes, Chang Liang could not resist asking, "Your Excellency, what should we do now?"

Ye Yuan ignored Chang Liang, but his gaze turned towards the depths of the cave.

The depth was a stretch of darkness, unable to see anything.

"Since you came, why hide furtively?" Ye Yuan said coolly.

Chang Liang and the rest were stupefied, with baffled looks on their faces.

Didn't late-stage One-star evil spirits already come out? Could it be that there were still others here?

Just as they were wondering, a ghostly light emerged from the depths of the darkness.

A figure slowly walked out from the darkness.

Right away, when this person came out, Chang Liang five people all palpitated endlessly.

The powerful aura made them unable to move even a muscle!

This person was too strong!

With his strength, wanting to kill the five of them could probably be accomplished with a wave of a hand!

How could there be such a powerful existence in the Ghost King Cave?

The arrival was a man, looking elegant and suave, like a fine and handsome young master.

This figure was not much different from ordinary people. But looking closely, one could discover that his body was somewhat illusionary, appearing not so real.

“You, human, are rather special!” the man said with a smile.

Hearing the meaning in his words, he was actually not a human!

Facing this man’s powerful aura, Ye Yuan seemed to be completely fine.

Hearing that, he also smiled and said, “I also didn’t expect that inside this Ghost King Cave, there’s really a Two-star evil spirit! Also, O didn’t think that a Two-star evil spirit was actually as refined as you!”
