Chapter 1401: Shaved Bald

Over a dozen swords stabbed over towards Ye Yuan at the same time. They wanted to besiege Wei to rescue Zhao[1]!

However, it was like Ye Yuan did not see it. The Evil Extermination Sword suddenly accelerated, chopping down with immense speed.

The expression of that Zuo Xiang Capital City's student changed drastically and knew that there was no more chance of a fluke, crushing the jade pendant and transporting back.

Right at this time, over a dozen long swords arrived!

"Go to hell!"

Currently, Ye Yuan's move was already ending and he was unable to save himself at all. He Ning could not help being overjoyed when he saw the situation.

But right at this moment, a layer of golden light surfaced on Ye Yuan's body. The long sword struck back at a strange angle.

Clank! Clank! Clank!

Ye Yuan's long sword swept, sweeping away all of the dozen over swords.

Quick as thought!

The entire process was also nothing more than a flash, fast until everyone did not react to it.

"Nine Transformations Golden Body, first transformation grand completion!" He Ning said in disbelief.

The surrounding students were all incomparably shocked, not daring to believe the scene before their eyes.

"What the hell! They messed up, played their own people to death!"

"Just now, that was ... Nine Transformations Golden Body? Isn't it said that the Nine Transformations Golden Body's cultivation speed is very slow. Even exceedingly talented people could only have some attainments in 1000 years?"

"This Ye Yuan's strength is uncommon, he actually still had time to go cultivate the fleshy body?"

"This Ye Yuan is so bizarre! Not only is he completely unscathed under the besieging of over a dozen people, he actually even counter-killed a person instead!"

...

The cultivation of the fleshy body was an extremely slow process. Even with the assistance of medicinal pills, it was also very hard to have some achievements within a short time.

But once they had some achievements, it was rare to have opponents in the same rank!

If one's strength was not powerful to a certain degree, one could not breach their defenses at all.

Furthermore, the Nine Transformations Golden Body could do what ordinary people could not. One's control over their bodies could reach an inconceivable degree.

Just now, Ye Yuan's Sundering Stars had an imposing momentum. If it were others, it would be tremendously difficult to pull back. But he relied on the toughness of the fleshy body and performed the inconceivable action.

Ye Yuan smiled faintly and said, "Quite interesting, continue!"

Done talking, his long sword swung. Another sword slashed over towards He Ning.

He Ning's pupils constricted, hurriedly dodging aside.

The group of people fell into a group battle once more.

This time, nobody mocked Ye Yuan anymore.

They discovered that the battle situation was completely different from what they imagined.

Even though Ye Yuan looked to be in perilous danger under over a dozen sword lights, the Zuo Xiang Capital City, these people, always seemed to be lacking a little.

On the contrary, Ye Yuan's occasionally slashed out sword was accurate and fierce, always throwing one of them into confusion.

Before long, Ye Yuan saw a chance and decisively attacked again!

That Zuo Xiang student's gaze revealed a look of despair, shattering the jade pendant.

More and more other capital cities' students gathered around. But the vast Howless Ridge became quieter and quieter.

Time slowly trickled by, Zuo Xiang Capital City's people became lesser and lesser.

No idea how long had passed either, the people discovered to their shock that Zuo Xiang Capital City was actually only left with three people at goodness knows when!

"What happened? Why do I clearly feel that Ye Yuan isn't very formidable, but he can finish off Zuo Xiang Capital City's people?" asked an outer-court disciple to the person next to him somewhat woodenly.

"His sword art seems to be average. Actually, he suppressed the power of laws to a very small range. Only by coming into contact with his sword can one sense the might of his sword arts! Although his realm isn't high, even though the power of laws of Sword Dao first-layered heaven hasn't reached grand completion yet, his utilization of the power of laws already reached the acme of perfection!" at this time, someone beside him suddenly explained.

"Then, how did you tell?"

But this time, that person no longer answered him.

He turned his head around rather curiously, his gaze suddenly turning intent.

“Jin ... Jin Yu!”

Hundred Cities’ number one person, Jin Yu!

He did not expect that Ye Yuan actually called down this great god too.

Jin Yu’s gaze never left Ye Yuan’s body for an instant.

A surge of powerful fighting intent rose from his body!

“Heh, looks like this time, Zuo Xiang Capital City has utterly stumbled! Jin Yu, you’re moved!” Another voice was heard.

The gaze of that person previously turned intent again as he cried out in shock, “Qiu Shuisheng!”

These two people were both the pinnacle-most existences among the hundred cities. It was said that their power of laws were already comprehended to the grand completion realm of second-layered heaven!

In Grotto Profound Realm, they did not have opponents at all!

Jin Yu did not turn back and just said coolly, “Didn’t you come too?”

“Heh, I really didn’t plan on coming. Originally, I thought that it was just a clown seeking popularity by saying something sensational. In the end, I still couldn’t resist my curiosity. It’s just that, didn’t expect that this visit was an eye-opener!” Qiu Shuisheng said with a light laugh.

“Are you going? Or me?” Jin Yu said coolly.

“Do you have assurance?” Qiu Shuisheng answered with a question.

Jin Yu slowly shook his head and said, “Will only know after fighting.”

Qiu Shuisheng smiled and said, “Since you came, you go then! If you can’t even beat, then I’m pretty sure I can’t win.”

Jin Yu said nonchalantly, “Alright!”

These two people chipped in a word each, already directly casting that student who asked questions previously to one side.

His heart was gasping with astonishment listening by the side. Jin Yu was known as the hundred cities’ number one person. Even he actually did not have assurance in dealing with Ye Yuan!

He finally knew where Ye Yuan’s confidence in setting up the arena lay!

Whoosh, whoosh, whoosh!

Ye Yuan released three sword moves consecutively as fast as lightning, sealing off all of He Ning’s escape routes.

He Ning's countenance was greatly shocked, carrying intense unwillingness and crushing the jade pendant!

At this point, the Zuo Xiang Capital City was completely wiped out!

Ye Yuan fought the Zuo Xiang Capital City's 15 people with his power alone and slew all of them!

If not for the jade pendants' transportation, none of these 15 people could be spared.

The previous period's top ten, the Zuo Xiang Capital City, was actually shaved bald this time. This result shocked everyone until their jaws dropped.

Ye Yuan casually beckoned. A hundred storage rings landed on his hand.

He examined these storage rings, a ray of light flashing in his eyes.

The Zuo Xiang Capital City was indeed well-deserving of being a major force ranked in the top ten. The harvest was plentiful!

Ye Yuan put these storage rings away. Surveying the surroundings, he said coolly, "Who else? You guys can also attack together!"

One sentence immediately ignited everyone's fury.

These words were too arrogant, not taking them seriously at all!

It was just that now, all of them knew that Ye Yuan had this strength and confidence!

He was arrogant because he had the capital to be arrogant!

"He's just alone! Right now, we have several hundred people here! Everybody attack! I don't believe that he can deal with it! Finish him off, everyone can divide the storage rings with individual ability!"

At this time, someone suddenly shouted loudly, immediately making everyone's heart stir.

But right at this time, Jin Yu moved!

His figure shook, already arriving opposite of Ye Yuan, saying indifferently, "I'm first! If I'm defeated, it's not late for you guys to go again!"

Ye Yuan looked at Jin Yu rather surprisedly and said with a smile, "Looks like you're very powerful. What's your name?"

[Unrivaled Medicine God](#)

Chapter 1402: Battling Hundred Cities Number One Person!

"He actually doesn't know Jin Yu!"

"Did this guy ... pop out of a rock? These hundred over cities' people, there's actually still someone who doesn't know Jin Yu!"

"If say who has the greatest hopes of reaching the Divine Lord Realm in these hundred cities, it's none other than Jin Yu. There's actually someone who doesn't know him!"

Ye Yuan's question made everyone burst into an uproar.

They were unable to imagine that there was actually still someone taking part in this Hundred Cities Smelting Trial who did not know Jin Yu.

Qiu Shuisheng was first stunned, then immediately laughed in spite of himself and said, "Perhaps this is precisely why he's powerful!"

Jin Yu was also stupefied and blurted out, "You don't know me?"

Ye Yuan also saw through from other people's reactions. This Jin Yu did not seem to be simple. He could not help chuckling and said, "Apologies, this one entered the sect for a short time and really never heard of your esteemed self's great name before."

Jin Yu's actions were worthy to be called above board and forthright, not willing to take advantage of him.

Toward such an opponent, Ye Yuan was still respectful.

Especially under this situation, storage rings affected the ownership of the final reward.

But the other party clearly regarded a good opponent more highly!

Jin Yu nodded his head, considered to have acknowledged Ye Yuan's argument, and said, "This one is Yong Dang Capital City, Jin Yu!"

Ye Yuan clasped his hands and said, "So, it's Brother Jin! Make your move then!"

Jin Yu said, "You just went through a big fight, better take a break first and recover some divine essence!"

Ye Yuan smiled and said, "No need, those few guys were too weak."

Jin Yu's heart went cold and actually could not figure out the truth and falsehood of Ye Yuan's words for a moment.

Was this guy posturing, or he really did not expend much energy?

This battle just now, if it were him, he could naturally accomplish with ease too. But he absolutely would not say this kind of words.

After all, He Ning, this level of expert, his strength was still very strong.

Moreover, there were still 14 other Zuo Xiang Capital City's experts.

It was just that Ye Yuan's words, in other people's view, were undeniably him posturing.

"I admit that this guy is very strong. But saying this kind of words in front of the hundred cities' number one person, Jin Yu, I seriously can't listen any further."

"This guy wants to keep up appearance to cover up his predicament, right?! Mn, at least if he loses, he can also say that he went through a big fight earlier! Huhu!"

“He completely doesn’t know who Jin Yu is, and he also doesn’t know how powerful Jin Yu’s strength is. He Ning isn’t worth mentioning at all in front of Jin Yu! This guy is too condescending!”

...

How could they know that while that battle earlier looked fierce, Ye Yuan’s expenditure was actually really not that much.

Although Ye Yuan was unrestrained, wanting to challenge the hundred cities’ geniuses with his strength alone, he still attached great importance to tactics, and did not underestimate the hundred cities’ geniuses!

To him, the final result was secondary. What he valued the most was the interaction with these hundred cities’ geniuses.

Hence, that battle earlier, he actually fought very conservatively. Each fraction of divine essence was carefully calculated.

Coupled with that his divine essence was incomparably refined in the first place, this degree of battle was nothing to him.

Seeing Ye Yuan’s calm eyes, Jin Yu nodded and said, “Since that’s the case, make your move then!”

Ye Yuan did an inviting gesture, the Evil Extermination Sword suddenly attacking!

Sundering Stars!

Although it was Sundering Stars back and forth, this move had countless variations played by Ye Yuan.

This time, Ye Yuan did a lifting action, going from bottom to top, cleaving Jin Yu.

Attacks from this angle were very hard to defend.

Jin Yu’s expression turned solemn, instantly sensing that this sword’s intensity was no idea how much stronger compared to dealing with He Ning just now.

He did not dare to slight it. A beautiful tumble to the side, his long sword already attacked.

However, this sword of Jin Yu’s was a straight stab, pointing at the flat of Ye Yuan’s blade from the flank with a bizarre angle.

Ye Yuan’s eyes lit up, instantly knowing that he ran into an expert!

Jin Yu’s comprehension toward battle was no idea how many times stronger than He Ning.

Martial artists’ battles, even when reaching Deity Realm this level, it was not simply relative superiority or inferiority in power of laws and realm.

It was just that powerful strength often made people neglect some subtle things.

A battle constantly changed. Oftentimes, a minor detail could determine the outcome of a battle.

Ye Yuan had experienced god knows how many big and small battles, and had long already turned fighting into an instinct.

Hence, he could grasp every detail to win.

The battles that these academies' geniuses had experienced were not few either. It was just that their battles were a completely different concept from the battles that Ye Yuan experienced.

What Ye Yuan experienced were all life-and-death struggles, not allowing the slightest hint of soft-heartedness. The opponent would not give you the slightest chance as well.

But the academies' geniuses at most just sparred with each other. There were very few people who experienced those kinds of life-or-death struggles.

Only by waiting for them to promote to the inner-court and go out to carry out missions would they experience that kind of life-and-death struggle.

But even then, the battle experience of inner-court disciples also could not possibly be as rich as Ye Yuan's.

Very clearly, Jin Yu was not a guy who only knew how to cultivate. This aspect just now displayed his skill fully!

Regardless of whether it was evasion or resolving his move with a tap, it all demonstrated his precise grasp of battles, without the slightest sloppiness.

More importantly, his realm and law comprehensions were all much higher than Ye Yuan's!

This sword had not touched the flat of Ye Yuan's sword yet when a golden light surfaced on Ye Yuan's body.

In midair, Ye Yuan forcefully changed his move!

The essence of Sundering Stars, this move, lay in the word 'chop'.

Jin Yu's move was in order to break Ye Yuan's 'chop'!

Hence, Ye Yuan's move change was to pull back this 'chop' word!

Ye Yuan's move changed, chopping toward Jin Yu's sword body.

Jin Yu did not have Ye Yuan's powerful fleshy body. He was currently in midair, unable to borrow strength, and could only toughen his scalp and exchange a blow with Ye Yuan.

Clank!

Two swords intersected. The two people were seemingly struck by a tremendous force, each falling back several dozens of steps.

For the first time, someone drove Ye Yuan back!

"Fine sword!" Jin Yu praised.

Ye Yuan chuckled and said, "You're not bad as well! Again!"

"Okay, again!" Jin Yu was also valiant.

The two people's figures moved swiftly, battling together once more.

Qiu Shuisheng's gaze revealed an incomparably stunned expression. What he was shocked by was not that Ye Yuan could fight to a draw with Jin Yu.

It was that ... he knew that Jin Yu actually lost by half a move just now!

Qiu Shuisheng understood Jin Yu very well and knew that this guy was a born warrior, his comprehension towards battle very high.

In realm and laws comprehension, he was about on par with Jin Yu.

But each time they fought, Jin Yu was always able to win him!

What he relied on was his instinct towards battles.

But just now, Jin Yu relied on this powerful disparity of laws comprehension and realm before fighting to a draw with Ye Yuan.

If Ye Yuan and Jin Yu's strength were similar, no, as long as Ye Yuan broke through to grand completion Grotto Profound.

This exchange earlier, Jin Yu would definitely lose!

"Heh, I didn't expect that Jin Yu will also have a day where he overwhelms people with power! He really met his opponent today," Qiu Shuisheng muttered to himself.

"Opponent? Might not be so! Ye Yuan hasn't used all his strength yet!" At this time, there was suddenly one more person by Qiu Shuisheng's side, voicing out.

Unrivaled Medicine God

Chapter 1403: The Brave Wins When Meeting on a Narrow Path!

Qiu Shuisheng's brows furrowed, looking at the arrival.

"You're a fellow disciple of Ye Yuan?" Qiu Shuisheng asked.

Qin Shao nodded his head and said, "His vanquished foe!"

Qiu Shuisheng did not reveal a surprised look. To be able to be evenly-matched with Jin Yu, this one in front of him could not possibly be Ye Yuan's match no matter what.

"In front of Jin Yu, nobody can hold back! Furthermore ... Jin Yu didn't exert his full strength as well!" Qiu Shuisheng said indifferently.

Qin Shao gave him a glance and said, "Your experience doesn't work on Ye Yuan. He is a person born to create miracles!"

Qiu Shuisheng could not help laughing and said, "You have some jitters from imaginary fear after being defeated under Ye Yuan's hands, right? Martial artists mustn't lose their own heart of Martial Dao!"

Qin Shao said nonchalantly, "You'll know when you keep watching."

Hearing the news of Ye Yuan battling heroes alone, Qin Shao was inexplicably amazed at first too.

But very soon, he felt at ease.

He knew what Ye Yuan was thinking, no occasion was more suitable to temper oneself than this place.

It was just that Ye Yuan's method to temper himself was too capricious. Even Jin Yu did not dare to do so either.

This guy was really crazy!

Qin Shao was also considered to know Ye Yuan very well. Back then, him agreeing to a life-and-death battle seemed very reckless. Actually, he had absolute confidence in himself.

Hence, he knew that this time was no exception too!

Ye Yuan and Jin Yu, the two people, deconstructed moves upon seeing them, being tangled up in a fierce struggle, making everyone dumbfounded.

"This Ye Yuan is actually so strong, to be able to fight to a draw with Jin Yu!"

"When did such a formidable figure emerge from Wu Meng Capital City? We actually don't even know!"

"Vaulting into prominence in one battle! This battle, regardless of whether win or lose, Ye Yuan's name shall spread throughout the hundred cities!"

...

In these hundred cities' area, Jin Yu was a benchmark. It was completely impossible for anyone to beat him.

Qiu Shuisheng could not either!

But today, Ye Yuan was actually able to be locked in battle with him!

It was just that they did not know, the current Jin Yu was the same as He Ning, actually depressed to the extreme.

It looked like the two of them were about on par, either able to do anything to the other.

In reality, when he exchanged moves with Ye Yuan, it was completely relying on all-round surpassing in realm and laws that he could barely manage to fight to a draw.

The more Jin Yu fought, the more alarmed he got. He had long seen through that Ye Yuan's sword art was only that one move back and forth.

No matter how he made his move, it was all a 'chop' word.

The sword was the king of a hundred weapons, with a myriad of variations!

People who used the sword would also mostly pursue the limits of variation, using it to subdue the enemy and win.

But Ye Yuan acted in a diametrically opposite way, forcefully changing the sword into a chopper, only knew chop chop chop!

But Jin Yu had no choice but to admit that Ye Yuan already utilized a 'chop' word to a transcendent realm.

Furthermore, no idea why, Jin Yu kept feeling that the divine essence gushing out from Ye Yuan's move was grand and boundless, with a feeling of unable to overcome with force.

His divine essence was seemingly a small rowboat in the ocean in front of Ye Yuan; he might capsize at any time.

Hence, similarly one move, he had to use much more divine essence than Ye Yuan before he could barely manage to suppress Ye Yuan.

This kind of feeling, he had never encountered it before.

All in all, clearly his strength was much greater than Ye Yuan's. Yet, he could not gain the slightest bit of advantage!

This sort of feeling made him depressed until he wanted to vomit blood.

In a twinkle, the two people fought for a thousand moves. You deconstruct my move, I deconstruct your move, shaving off a large chunk of the entire hilltop.

"Can't carry on like this anymore! Ye Yuan's divine essence is endless, as if a boundless sea, unable to see the slightest hint of drying up! No wonder he said that no need to rest earlier! Carry on expending like this, the first to fall will definitely be me." Jin Yu was considering this in his mind as he fought.

If outsiders knew his thoughts, they would definitely get a huge shock.

A half-step Heaven Glimpse Realm powerhouse actually lost to a late-stage Grotto Profound in divine essence. This was simply too inconceivable.

Clank!

Jin Yu deliberately opened up a flaw and was slashed by Ye Yuan's sword, his body flying out backward.

Jin Yu's body hung in midair, without anywhere to borrow strength. How could Ye Yuan let go of such a chance? He followed up with Sundering Stars once more!

Seeing this scene, a hint of a smile flickered across the corners of Qiu Shuisheng's mouth and he said to Qiu Shuisheng, "Ye Yuan is losing!"

Qin Shao was stupefied, not quite certain what it meant.

Qiu Shuisheng smiled and said, "Ye Yuan is indeed very strong. But this move, Roaming Qi Returning to Bowels, I'm unable to crack it no matter what. Under this sort of circumstance, it's even more impossible for Ye Yuan to resolve it."

Ye Yuan was currently in the midst of pursuit when suddenly, his expression changed. An incredibly dangerous aura hit him head-on!

Jin Yu's body drew a perfect arc in midair, his longsword sweeping off the ground, his body flying up once more.

This series of actions was done in one breath. Jin Yu's entire person seemingly transformed into a sharp sword, charging over towards Ye Yuan.

"Roaming Qi Returning to Bowels!"

Ye Yuan's expression changed, discovering that Jin Yu really achieved unison of man and sword!

This move, Roaming Qi Returning to Bowels, had an indomitable imposing momentum, not stopping without seeing blood!

Under this sword, everything was eclipsed!

This was the true strength of the hundred cities' number one person!

"It's Roaming Qi Returning to Bowels! Ye Yuan will definitely lose without a doubt!"

"This move, Roaming Qi Returning to Bowels

"To be able to force Jin Yu to use Roaming Qi Returning to Bowels, Ye Yuan can be sufficiently proud!"

...

Under the situation where everyone thought that it was impossible, Jin Yu used his ace in the hole, Roaming Qi Returning to Bowels.

Ye Yuan already did not have room to maneuver. The only path of survival was to crush the jade pendant!

But right then, everyone's faces changed once more!

"He ... What's he trying to do?"

Out of every one's expectations, under the situation where the initiative was already lost, Ye Yuan did not retreat, but he advanced instead!

Every fraction he advanced, Ye Yuan's aura would be a fraction stronger!

"Sundering Stars!"

The Evil Extermination Sword in Ye Yuan's hand was not sluggish in the slightest, still chopping down with an indomitable will!

The two swords had yet to intersect when two surges of overwhelming auras collided together, stirring up the surrounding divine essence into an upheaval.

One pressed forward with an indomitable will, one had an overwhelming imposing momentum!

It was truly a meeting on a narrow path!

Boom!

Two surges of refined to the extreme power of laws collided together violently.

The air billows stirred up shook until everyone could not open their eyes!

Two figures each flew out backward like kites with broken strings.

Slam!

Slam!

The two people each fell onto the ground, smashing a deep pit in the ground.

Everyone all held their breaths, not knowing just who won and who lost in this fight.

Qiu Shuisheng sucked in a cold breath. He did not expect that under that kind of circumstance, Ye Yuan could still release that kind of domineering counterattack!

Not only was Ye Yuan's strength overpowering, but his battle will was also unyielding and dauntless.

"Huuuu ..."

Right at this time, Ye Yuan slowly crawled out from inside the deep hole, bleeding all over his body, his aura chaotic, looking very miserable.

Qin Shao gave Qiu Shuisheng a glance and said, "I wonder if after today, you still have the courage to fight with Ye Yuan or not?"

Unrivaled Medicine God

Chapter 1404: Mindse

Qiu Shuisheng opened his mouth, wanting to say something, but he discovered that he really could not say anything.

Jin Yu was still defeated by Ye Yuan under the situation where he had the initiative.

He could not even resolve Jin Yu's Roaming Qi Returning to Bowels, let alone talk about dealing with Ye Yuan.

Qiu Shuisheng was a proud son of heaven. Apart from Jin Yu, he did not attach importance to anyone in the land of hundred cities.

But now, he really did not have the courage to fight with Ye Yuan anymore.

Meeting on a narrow path, the brave wins!

Under that kind of situation just now, anyone would probably consider how to protect themselves at the first moment.

At least, there would be that tiny hint of hesitation.

But Ye Yuan did not hesitate at all, chopping over with a sword just like that!

At this time, Qiu Shuisheng unwittingly recalled Qin Shao's words previously.

He was a person born to create miracles!

He was previously still very disdainful towards Qin Shao's words. But now, he discovered that Qin Shao did not exaggerate in the slightest.

“Take the chance while he’s ill and take his life! Kill this guy, the storage rings on him will all be ours!”

In the crowd, no idea who suddenly shouted out, startling everyone awake all at once.

Two consecutive great battles, a thousand people already gathered around in the vicinity!

With this roar, immediately, there were quite a few people who had the intention of fishing in troubled waters.

For some time, a large group of people surrounded over toward Ye Yuan.

Not just him, there were even quite a few people who rushed over toward Jin Yu.

“A bunch of shameless things! You guys are also fit to make a move against Jin Yu?”

Qiu Shuisheng gave a cold snort, his figure dashing out like lightning.

Qin Shao’s face fell as well, speeding over in Ye Yuan’s direction.

Facing the tidewater-like students rushing over, Ye Yuan just laughed coldly. His wrist shook, Evil Extermination Sword attacked once more!

Although his current state was not very good, that was also just relative to Jin Yu, this kind of expert.

The fleshy body technique that Ye Yuan cultivated was the Black Tortoise Clan’s Black Tortoise Treasure Body Divine Art.

Even though this cultivation method did not count as some peerless divine skill in the Heavenspan World, the power of its defensive strength was absolutely not what average cultivation methods could compare to.

The Black Tortoise Clan’s talent was that their defensive strength was astonishing. The cultivation method that they cultivated was naturally not too poor as well.

Although that blow just now was heavy, it was not to the extent of making Ye Yuan lose his combat power yet.

Dealing with these trash, he still had the strength to spare.

Swish!

Ye Yuan waved his hand and chopped. The powerful force made the faces of those few meeting it head-on greatly astonished.

They completely did not expect it. Ye Yuan was already injured until like this, he could actually still release such a swift and fierce attack.

Caught off-guard, that person right at the front did not even get to crush the jade pendant and was eradicated by Ye Yuan.

The few people at the back had no time to run at all and only had time to crush the jade pendant, transporting back to the altar.

“No need to be afraid, he’s already an arrow at the end of its flight, deliberately using this sword to scare people! Kill him!” In the crowd, no idea who shouted loudly again.

The flood of people who originally paused slightly because of this sword pounced toward Ye Yuan once again.

The corner of Ye Yuan’s mouth sneered coldly, not taking this seriously at all.

One comes, he would kill one.

Two come, he would kill a pair!

These people were all harboring hopes of getting lucky, thinking that Ye Yuan was already at the end of his rope.

How could they know the terror of Ye Yuan’s cultivation method? This bit of consumption was nothing to him at all.

Even if his divine essence already did not have much left, the time it lasts would still exceed all of their expectations.

Ye Yuan waved his sword continuously, reaping these outer-court disciples’ lives without restraint.

But in the crowd, a viper-like gaze was watching Ye Yuan close.

His realm strength was no different from the others. It appeared very ordinary in the crowd. Nobody would pay attention to him at all.

But at this time, he came to Ye Yuan’s back along with the crowd!

Following that, he brazenly attacked!

Qin Shao’s heart suddenly stirred, seeing a familiar figure, his gaze revealing a look of astonishment.

“Ye Yuan, be careful at the back!” Qin Shao shouted.

But right at this time, a powerful aura arrived with a howl!

“Qin Yuanlong, you dare?!”

This figure was none other than precisely the Thundercry who came from afar!

When he heard the news of Ye Yuan challenging all heroes, he knew that Qin Yuanlong definitely came here.

But he never thought that he would see the scene of Qin Yuanlong sneaking into the crowd and ambushing Ye Yuan when he just arrived!

Without a doubt, Ye Yuan was Wu Meng Academy’s student with the greatest potential. It even surpassed Qin Tian’s already.

Before departing, Wen Yiyang specially ordered to definitely keep a lookout for Qin Yuanlong and not let him deal with Ye Yuan.

He did not expect that this guy still escaped!

An Origin Deity powerhouse ambushing the Grotto Profound Realm Ye Yuan, this already did not have any suspense.

Qin Yuanlong mingled in the crowd and was too close to Ye Yuan. He did not give Ye Yuan a chance to crush the jade pendant at all!

A hint of a hideous smile flashed across the corners of Qin Yuanlong's mouth. Finally could kill Ye Yuan!

This punk who made the Qin Family utterly lose face could finally go and die.

It was just too bad that Ye Yuan had his back to him at this time. He could not see the mocking smile on Ye Yuan's face.

Boom!

Qin Yuanlong only felt a blur before his eyes. Ye Yuan's figure suddenly disappeared.

His palm directly hit thin air, landed on those students opposite of Ye Yuan.

How powerful was the palm of an Origin Deity powerhouse? Those students directly had a large swarm exterminated by Qin Yuanlong being caught unawares.

Everyone was stunned. Where did Ye Yuan go?

Qin Yuanlong's scalp exploded. He discovered that he seemed to have overlooked an extremely important thing!

Not just him, everyone overlooked it.

Ye Yuan knew sword maneuvering flight!

"Teacher Qin, are you very disappointed? You all are also too careless, to actually forget that I know sword maneuvering flight!" In midair, Ye Yuan looked at Qin Yuanlong and said with a smile that was not a smile.

Qin Yuanlong's face was livid, his gaze when looking at Ye Yuan was full of killing intent.

Such an important intel was actually overlooked by them!

No, it was actually that Ye Yuan deliberately guided them to overlook it.

Ever since after the battle with Qin Shao, Ye Yuan never displayed the ability of sword maneuvering flight in front of people anymore.

In a flash, six to seven years went by, Ye Yuan had always been fighting with people on the ground and had never exhibited this ability.

Due to this, everyone all overlooked this fact!

After all, being unable to fly while being below the Divine Lord Realm was the Heavenspan World's common sense.

This kind of mindset was deeply ingrained in people's thinking; very hard to eradicate.

Seven years ago, Ye Yuan's astonishing flight had indeed stunned everyone. But later, Ye Yuan's Sundering Stars was even more eye-catching than sword maneuvering flight.

"Sword maneuvering flight! Ye Yuan actually knows sword maneuvering flight! My god, just how monstrous is this guy?"

"This fellow concealed too deeply! With this move, he's already established in an undefeatable position!"

"I didn't expect it! Really didn't expect it! The land of hundred cities' number one genius actually changed owners just like this!"

...

Ye Yuan's breathtaking fly aroused everyone's shock once more.

Forget about the land of hundred cities, even the land of thousand cities, land of ten thousand cities, might not produce a genius capable of comprehending sword maneuvering flight either!

But Ye Yuan did it!

"Qin Yuanlong, you disregarded your status and attempted to assassinate an academy's disciple! This matter, I'll definitely inform City Lord, His Excellency! You, be prepared for a reckoning!"

Thundercry's angry roar sounded at this time.

Unrivaled Medicine God

Chapter 1405: Harvesting

Qin Yuanlong's expression changed several times. He naturally knew the consequences of this matter.

But Qin Nantian had long already hated Ye Yuan to the bones. This trip, the price expended in order to kill Ye Yuan was not small.

Returning empty-handed, he had no way of giving an account to Qin Nantian.

"Humph! This Qin had long found this punk displeasing to the eye, so what if kill him? From this day forth, I, Qin Yuanlong, renounce Wu Meng Capital City and turn my back on the Qin Family! Farewell!"

Done talking, Qin Yuanlong turned right around and left.

Thundercry's expression changed, not expecting that Qin Yuanlong was actually so decisive.

"Humph! Want to leave? How can it be that easy?! Since you've turned your back on the Qin Family, ambushing my Wu Meng Academy's disciple and disrupting the Hundred Cities Smelting Trial, you deserve the death penalty!"

Thundercry gave a cold snort, his figure moving swiftly, charging over towards Qin Yuanlong.

Qin Yuanlong did not think that Thundercry was actually so unrelenting, speeding away into the distance with a scurry.

The two people, one chased, one fled, disappeared in everyone's line of sight very quickly.

This series of unforeseen changes were seriously too fast, catching everyone off-guard.

In a hidden corner, Qin Tian gnashed his teeth in hatred as he watched this scene, his expression ugly to the extreme.

Failed again!

Could it be that this guy was unkillable?

Why did the Qin Family scheme meticulously and even send out an Origin Deity Realm expert, and still unable to kill him?!

Clearly just a Grotto Profound Realm rookie, so why could he not be killed?

Not only could he not be killed, the Qin Family even lost a direct lineage disciple and an Origin Deity Realm academy teacher!

This price was too heavy!

"Big Brother Qin Tian, what ... should we do?" Qin Zheng asked.

"Let's go!" Qin Tian gnashed his teeth in hatred and said.

He knew that in the Hundred Cities Smelting Trial, they had no chances at all already.

This match was ultimately still a complete miss!

Ye Yuan maneuvered the sword and slowly landed, saying with a light smile, "You guys, each and every one of you, can forget about running."

Whoosh!

Ye Yuan was not long-winded either, directly sweeping a sword out, felling a large group.

How could those students who had designs on him previously still dare to stay? Each and every one scattered like birds and wild animals.

Ye Yuan hacked and killed, directly eradicating several dozen people. The remainder all ran.

Hence, Ye Yuan started cleaning up the battlefield, collecting the storage rings left behind.

This battle, the harvests were abundant.

The storage rings in his hands were more than 500 in total already.

What was even more liberating for him was that Qin Yuanlong this fellow withdrew from the Qin Family himself. It was also considered to have made the Qin Family lose a general.

This Qin Yuanlong thought that he hid very well. Actually, his every movement and action was all under Dustless' surveillance.

When he ambushed, Ye Yuan had long made the preparations for sword maneuvering flight.

Sword maneuvering flight's speed was very fast. Evading Qin Yuanlong's sneak attack under the circumstances where he was prepared was nothing.

While at this time, Jin Yu hobbled in front of Ye Yuan with the help of Qiu Shuisheng.

He took out his own storage ring, passed it to Ye Yuan, and said, "I lost! This is yours!"

Ye Yuan smiled and received the storage ring. This was his spoils of war, he had no reason to refuse it.

"I really didn't expect that the Wu Meng Capital City actually produced a genius like you! I was defeated utterly convincingly!" Jin Yu sighed with admiration.

Ye Yuan smiled and said, "You're very strong too! But although your laws are strong, it's still a little weak in terms of utilization. Given time, you're bound to be a region's absolute ruler!"

If it were before, Ye Yuan saying these words in front of Jin Yu would definitely be thought of as crazy by people.

But now, nobody would feel brusque, even Qiu Shuisheng did not feel so too.

Ye Yuan had the qualifications to lecture Jin Yu like this!

Ye Yuan's Sword Dao first-layered heaven had yet to reach grand completion, but he could defeat the strong with the weak. It was because his application of Sword Dao laws had reached a transcendent realm!

In this aspect, Jin Yu was not just a tiny bit worse than him.

Ye Yuan comprehending the sword in the Sword Tomb, what he comprehended was not just Sword Dao laws, he was even comprehending the stories behind the laws.

Inside the Sword Tomb, each sword had its story.

It was precisely because so that Ye Yuan could create Sundering Stars, such a powerful martial technique.

Sundering Stars was a martial technique that Ye Yuan comprehended that maximized the power of Sword Dao laws. Its degree of power could only be imagined.

Jin Yu clasped his hands and said, "Got it! Today's battle, this Jin broadened his horizons and gleaned considerable gains! Especially the last sword move, it will probably have a tremendous impact on my life!"

Ye Yuan's final sword was absolutely a sword that set the world on fire.

This sword, what it displayed was not just a martial technique, but the all-round strength manifestation of Ye Yuan's Martial Dao will, laws utilization, divine essence thickness, and so on.

Rather than saying Ye Yuan won with Sundering Stars, it was better to say that Ye Yuan won with his determination to absolutely win!

If it were others, even if their strength was identical to Ye Yuan's, they completely could not achieve that step too!

Jin Yu's words did not have any intention of flattering. Ye Yuan's final sword virtually subverted his understanding toward Martial Dao.

Ye Yuan smiled and said, "Those guys have already ran away, so I have to go hunt them down. There are quite a few storage rings in their hands. I got to go and collect them. Farewell!"

Jin Yu and Qiu Shuisheng, the two people, clasped their hands and said, "Farewell!"

Swoosh, swoosh ...

Ye Yuan casually threw out a hundred storage rings and flew straight to Qin Shao.

"Thanks, Brother!"

Qin Shao's actions landed in his sights. Even though this guy was born in the Qin Family, he was completely different from the Qin Family's people's personality of seeking revenge for the smallest grievance.

He was defeated at his hands. That kind of situation just now, he still voiced out to warn, it was truly not easy.

These storage rings, just take it as a bit of thanks then.

Ye Yuan did not give Qin Shao a chance to speak, directly maneuvering the sword and flying away.

Watching Ye Yuan's profile disappear into the horizons, Qiu Shuisheng said with a sigh, "This guy isn't to be trifled with! Once provoked, one will probably have nightmares every day."

Jin Yu nodded his head and said, "Avenging grievances when there are grievances, avenging enmity when there is enmity, repaying kindness when there is kindness, acting according to his nature, not violating his consciousness. This is the Dao of Might! This Ye Yuan, a measly Wu Meng Capital City probably can't trap him!"

Qiu Shuisheng came in front of Qin Shao and said with clasped hands, "Brother, apologies! Previously, my words have offended, please don't take offense!"

Qin Shao said coolly, "No harm! This guy's strength is too baffling. Not truly exchanging blows with him, you forever won't know how strong he is!"

Qiu Shuisheng secretly nodded, deeply acknowledging Qin Shao's words too.

...

The Hundred Cities Smelting Trial was set as a year. The remaining time, all of the outer-court disciples sunk into a nightmare.

A devil who rode the wind and rode a sword might appear beside them at any time, reaping their lives.

They all knew Ye Yuan's prowess. At the start, they all found a place and hide, not daring to come out.

But later, they discovered to their dismay that no matter how they hid, Ye Yuan could always accurately find their locations.

Hence, a massacre unfolded in the outer-court region.

Later, those people seriously could not live on in the outer-court region and could only escape to the inner-court region one after another.

However, Ye Yuan rode the sword to flow. Even when inner-court disciples saw him, they could not do anything to him at all.

Of course, there were those with good luck too, finding their senior brothers and sisters, before barely managing to preserve their lives.

In a blink, a year's time was up. The Hundred Cities Smelting Trial was already drawing near its end.

Chapter 1406: Ownership of the Four-star Divine Pill

On the altar plaza, one figure after another was being transported back,

During previous trials, the later it was, the fewer people sent back.

But this time, there were still people being transported non-stop.

"You still ran into that malefic star in the end?"

"Isn't that so! No idea what method that guy used either, I clearly already hid very covertly, but was still found by him!"

"Me too! This malefic star is too vengeful. I was very far away from him at that time. There was no chance to make a move at all and he still didn't let me go."

"You don't know it. Later on, as long as everybody sees him, they directly crush the jade pendant. This malefic star kills on sight, completely unreasonable."

An outer-court disciple was just transported back, so he started chatting with his fellow disciples who were finished off by Ye Yuan previously.

Upon mentioning Ye Yuan, each and every one of their faces all revealed an extremely depressed look.

In the entire plaza, several thousand students taking part in the trial were virtually all talking about Ye Yuan.

The Hundred Cities Smelting Trial this time, Ye Yuan alone shone in the limelight.

Virtually everyone lived in his shadow.

At this time, a virtual image descended from the sky. It was precisely Xuan Ling!

Xuan Ling's gaze swept slightly and said nonchalantly, "The hour has arrived! Everyone return!"

Finished talking, he flicked his sleeves grandly. All of the altars flickered with light, summoning all of the remaining people back.

Ye Yuan just felt a blur before his eyes and returned back on the altar once again.

“How is it, Ye Yuan? You wouldn’t ... really have finished off everybody, right?” Little Fatty asked curiously.

When Ye Yuan challenged everyone, he settled Little Fatty down in a concealed place.

He knew that the Qin Family would definitely target him. If he brought Little Fatty by his side, it would definitely be very dangerous.

Now, the trial ended. Little Fatty came back together with Ye Yuan and did not know what happened in the outside world.

“Junior Apprentice Brother Xie, your relationship is the closest with Junior Apprentice Brother Ye. You actually don’t know his earth-shaking record?” A Wu Meng’s inner-court student poked fun at him.

Little Fatty looked at Ye Yuan in surprise and said, “Y-Y-You ... really did it?”

That inner-court student laughed and said, “More than just did it! Ye Yuan challenged the entire Zuo Xiang Capital City’s outer-court 15 people with his sword alone, completely annihilating the other party! Then, under the circumstances where he did not rest, he defeated the hundred cities’ number one person, Jin Yu! Following which, under the circumstances where he was seriously injured, he killed until everybody threw away their helmets and armor, running wildly all over the place!”

When he spoke, he intentionally raised his voice.

Next to them were Zuo Xiang Capital City’s students. Hearing these words, each and every one of them was depressed until they wanted to vomit blood.

When Wu Meng Capital City’s students heard this, they all guffawed with laughter.

This time, they really walked with their heads held high!

The Hundred Cities Smelting Trial took place once every 300 years. Every time, Wu Meng Capital City was targeted by Zuo Xiang Capital City, losing very tragically.

But this time, Ye Yuan alone won back some ground, directly shaving them bald. How could this not make them feel great?

But at this time, Little Fatty jumped up all at once, pointed at Ye Yuan, and said angrily, “You are really too treacherous! I said that I wanted to go together with you, but you just refused! Such a spectacular sight, Lord Fatty, I, actually missed it! Sniff, sniff ...”

Little Fatty had an aggrieved look. Clearly, he was regretting missing such a grand occasion immensely.

“If you went, you might already be a corpse!”

Lin Xiu’s voice suddenly sounded out behind Little Fatty, making him jump in fright.

“Xiu ... Senior Apprentice Sister, where ... did this come from?” Little Fatty said puzzledly.

Lin Xiu let out a sigh and briefly recounted the incident of Qin Yuanlong sneak attacking Ye Yuan.

“Pooh! The Qin Family’s people are indeed all still so shameless! To actually do such a shameless thing! Doing this sort of thing in the Hundred Cities Smelting Trial, they have utterly lost their face! Everyone

says not to wash your dirty linen in public, but they are good, directly making it known throughout a hundred capital cities!" After Little Fatty finished listening, he spat indignantly.

Ye Yuan did not turn back and he was able to feel that there were several murderous gazes at the back.

Little Fatty clearly saw it too. Eyes glaring, he said disdainfully, "What? Did this kind of thing that will leave a stink for a thousand years and still don't let people say? If you have the capability, come and bite me!"

Qin Tian's gaze sharpened and he said in a cold voice, "Damn fatty, I've remembered you!"

"Yoo, threatening Lord Fatty? Did Lord Fatty grow up being frightened?" Xie Jingyi said without showing weakness in the slightest.

By the side, Lin Xiu's brows furrowed but did not say anything.

"Qin Tian, you shut your mouth for me! This matter won't end because of Qin Yuanlong's death. Your Qin Family must give the academy an account!" by the side, Thundercry said in a solemn voice.

After that day, Thundercry pursued Qin Yuanlong for two months, finally executing him under his palm.

Although Qin Yuanlong shouldered all of the blame that day, even an idiot knew that this matter could not get away from the Qin Family.

Qin Tian's face fell and he controlled his temper and said, "Teacher Thundercry, since Qin Yuanlong has already turned his back on the Qin Family, what he did has nothing to do with my Qin Family! Isn't it rather biased for you to do so?!"

Thundercry smiled coldly and said, "Heh, how this matter will be ruled, that's City Lord, His Excellency's business! But the events here, I'll report them truthfully!"

Qin Tian could not help choking up when he heard that and could only stop speaking.

Clearly, Qin Yuanlong's actions already thoroughly infuriated this teacher.

At this time, Xuan Ling's voice sounded out once more, saying slowly: "Alright, the Hundred Cities Smelting Trial this time ends here. Now, I'll examine your storage rings and distribute the rewards for this trial."

While talking, Xuan Ling's gaze actually looked over at Ye Yuan's side; no one knew if it was consciously or unconsciously.

Not seeing him take any action either, all of the storage rings broke free of the students' body on their own, flying in front of Xuan Ling.

With just a glance, Xuan Ling finished checking all of the storage rings and called out: "Inner-court disciples' first place, Yong Dang Capital City's Bi Tianzhou, obtained a total of 621 stalks of Tier 2 spirit medicines!"

"It's indeed Bi Tianzhou! Yong Dang Capital City is too strong. The inner-court has Bi Tianzhou, outer-court has Jin Yu. These two people are simply unsurpassable existences!"

“Heh, that’s in the past! Didn’t Ye Yuan emerge this time? Jin Yu has already lost to him.”

“No idea how many Tier 1 spirit medicines Ye Yuan obtained in the end. Five stalks of Tier 1 spirit medicines can offset one stalk of Tier 2 spirit medicines. Wonder who the Four-star divine pill this time will end up with!”

“Should be Yong Dang Capital City still, right? No matter how formidable Ye Yuan is, it’s also just one person. Yong Dang Capital City has more people than just Bi Tianzhou! Even though Jin Yu was defeated, the inner-court disciples’ total amount of Tier 2 spirit medicines is also quite a lot.”

...

After Xuan Ling announced Bi Tianzhou’s results, it immediately aroused a wave of speculation.

Actually, the inner-court’s first place and outer-court’s first place did not have any suspense. The only suspense was the ownership of this Four-star divine pill!

In terms of value, five stalks of Tier 1 spirit medicines naturally could not compare to one stalk of Tier 2 spirit medicine.

But in this smelting trial, the difficulty in obtaining Tier 1 spirit medicines was not too different from Tier 2 spirit medicines.

5-to-1, this ratio was what everyone could still accept.

At this time, Xuan Ling continued, saying, “Yong Dang Capital City obtained 2126 stalks of Tier 2 spirit medicines in the end! 1000 stalks of Tier 1 spirit medicines!”

Unrivaled Medicine God

Chapter 1407: The City Lord’s Attitude

“It’s indeed still Yong Dang Capital City’s foundation that is deep! Their might is not just because of Bi Tianzhou alone, but it is their overall strength being powerful.”

“For Wu Meng Capital City to want to surpass them, the difficulty is likely quite high.”

“No idea how many people Ye Yuan killed either, and just how many spirit medicines he has in his hands.”

...

Everyone was very curious about just how many spirit medicines Ye Yuan had on hand.

According to the ratio of 5-to-1, Ye Yuan needed to reach at least 10 thousand stalks of spirit medicines and above to have a possibility of winning.

This figure was unimaginable in the past Hundred Cities Smelting Trials.

After Ye Yuan obtained the storage rings, he would transfer the other people’s spirit medicines all into his own storage ring.

Hence, nobody knew just how many spirit medicines he acquired either.

Right then, Xuan Ling slowly opened his mouth.

“Outer-court’s first place, Wu Meng Capital City’s Ye Yuan, obtained a total of ... 21,300 stalks of Tier 1 spirit medicines!”

The moment Xuan Ling’s voice faded, the entire plaza burst into an uproar all at once.

According to the ratio of 5-to-1, the spirit medicines that Ye Yuan alone obtained, surpassed Yong Dang Capital City’s by one-fold!

“Just how many people did this guy kill?!”

“Didn’t expect it! I really didn’t expect it! Wu Meng Capital City actually produced such a freak!”

“So strong at late-stage Grotto Profound already. When he breaks through to the Heaven Glimpse Realm, what would it be like?”

“Before the Hundred Cities Smelting Trial this time, probably nobody would have thought that Wu Meng Capital City could obtain first place, right?”

...

They all did not know that Ye Yuan killed a total of 2000 people in these last three months!

Even if each person only had ten stalks of spirit medicines in their hands, adding it up also had 20 thousand in number.

With Ye Yuan’s sword maneuvering flight plus the extensiveness of Dustless’s divine sense, he was simply ever-victorious under this kind of situation.

Even if you hid any more covertly, as long as you entered Dustless’s detection range, it could not escape a death word.

Xuan Ling waved a hand, three streaks of light flew out.

Two of them flew toward Ye Yuan, the other flew toward Bi Tianzhou.

“These are your rewards!” Xuan Ling said coolly.

In front of Ye Yuan were two jade boxes. One of them was a little smaller, the other slightly narrower.

Clearly, the smaller one was that Four-star divine pill, while the narrower one was naturally the Weeping Spirit Fruit.

About the function of this Weeping Spirit Fruit, Ye Yuan had heard Dustless say before too, it was indeed good stuff.

This Weeping Spirit Fruit was a heaven and earth spiritual item, containing massive spiritual energy inside. It was even much stronger than ordinary medicinal pills.

Consuming a Weeping Spirit Fruit was equivalent to a hundred years of bitter cultivation!

Ten Weeping Spirit Fruits could let Ye Yuan break through to grand completion Grotto Profound no matter what.

Ye Yuan put away the two items and said to Xuan Ling with clasped hands, "Thank you, Lord Xuan Ling!"

Xuan Ling gave Ye Yuan a deeply profound glance and said with a smile, "That's what you all deserve! Ye Yuan, you're very good. When you leave the capital city in the future, you can come to Heavenly Eagle Imperial City to find me."

Xuan Ling's words made everyone's expression turn austere.

Heavenly Eagle Imperial City, that was the administrator of Wu Meng Capital City!

Its might was simply what they all could not imagine.

To these students, their lifelong wish was to enter Heavenly Eagle Imperial City.

In their mind, Heavenly Eagle Imperial City was a holyland-like existence.

These Hundred Cities Smelting Trial had been held for no idea how many times, but Lord Xuan Ling had never said such words before.

But this time, he made an exception and opened his mouth!

This showed that he really had the appreciation of a talent stirred.

At this time, all the students used extremely envious gazes to look at Ye Yuan.

Even Bi Tianzhou's gaze also had an additional trace of weird look.

"Alright, the Hundred Cities Smelting Trial this time ends here. You all go back then!"

Xuan Ling finished talking, kneading seals with both hands. The hundreds of altars activated at the same time. Everyone's figures disappeared from the mystic realm.

...

After the Hundred Cities Smelting Trial, the news of Wu Meng Capital City seizing first place spread throughout the entire Wu Meng Capital City very quickly like the wind.

Wu Meng Capital City's strength had always been unremarkable among these hundred cities.

Not considered very weak but also absolutely not considered strong.

Hundred cities' first place, this sort of thing, had never been related to Wu Meng Capital City.

But this time, Wu Meng Capital City actually overpowered Yong Dang Capital City, becoming the hundred cities' first place.

This news was too exciting.

"Ye Yuan is really too awesome! He sent Wu Meng Capital City up to the throne of first place with his power alone!"

"Still remember when he just entered the academy back then, everybody still thought that his strength was weak. Didn't expect that just ten years or so passed, he already soared to the sky with one bound."

"He even defeated Jin Yu. In Grotto Profound Deity Realm, he no longer has any opponents, right?"

...

Within the academy, there were people praising Ye Yuan everywhere.

Back then, even though Ye Yuan defeating Qin Shao was astonishing, that was just Wu Meng Academy's internal affairs.

But now, it was different. Ye Yuan obtained first place in the Hundred Cities Smelting Trial, completely with a sweeping attitude.

In the City Lord Manor, a middle-aged man with a dignified appearance sat in the hall.

In front of him was the academy head, Wen Yiyang, and Thundercry.

Thundercry bowed his body, recounting the incident of Qin Yuanlong assassinating Ye Yuan, saying indignantly, "City Lord, the Qin Family is simply too much! No matter what grievances they have with Ye Yuan, using this sort of method to deal with a Grotto Profound Realm student seriously makes people despise!"

Actually, the enmity between the Qin Family and Ye Yuan, everyone was aware of right and wrong.

The Qin Family was used to being overbearing. They could not stomach the smallest bit of offense.

Wu Meng City Lord said coolly, "Wen Yiyang, what do you think?"

Wen Yiyang clasped his hands and said, "City Lord, Ye Yuan is a genius hard to come by in 100 thousand years. His significance to our Wu Meng Capital City is self-evident! The Qin Family was indeed a little too much this time."

Wen Yiyang as the academy head, for such a genius to be able to be produced under him, he naturally cherished Ye Yuan immensely.

The Qin Family's actions had already touched his bottom line.

Wu Meng City Lord fell into a long silence. Wen Yiyang and Thundercry did not dare to say anymore. The two people exchanged a glance, both seeing the puzzlement in the other party's eyes.

This matter was too obvious, it did not seem to need additional considerations, right?

If a lesson was not taught to the Qin Family with even this incident, they would be even more reckless and unscrupulous in the future.

Only after a long time did Wu Meng City Lord slowly say, "The Qin Family's action was not appropriate, but since Qin Yuanlong has already turned his back on the Qin Family and was killed by Thundercry, this matter is already settled. The City Lord Manor has no excuse to find trouble with the Qin Family again as well. The Qin Family is Wu Meng Capital City's senior family clan and has performed outstanding contributions for Wu Meng Capital City before. We mustn't easily jump the gun. This matter ends here! This seat will warn the Qin Family and let them pay attention to it. This time, Ye Yuan performed notable merits for the capital city and even won for this seat the Four-star Awakening Divine Pill. You guys give Ye Yuan a good reward."

Wen Yiyang was shocked inwardly, not expecting that City Lord, His Excellency, brushed his matter over so casually.

City Lord's meaning was to reduce a big trouble into a small one, and a small one into nothing.

Although the Qin Family was deeply entrenched in Wu Meng Capital City, City Lord did not need to be so fearful either, right?

Handling it like this was naturally nothing to Wen Yiyang. But he was worried that Ye Yuan would have some opinions because of this!

Chapter 1408: Myriad Longevity Heavenly Soul Stone

A warm current flowed in Ye Yuan's abdomen. His divine sea was currently in the midst of slowly expanding.

This was the fifth Weeping Spirit Fruit that he swallowed. He finally found the opportunity to break through.

At this time, he was currently breaking through the bottleneck, further expanding the divine sea!

Ye Yuan's divine sea exuded an archaic aura that had experienced the many vicissitudes of life. It was as if it came from ancient times.

The Weeping Spirit Fruit's strength was being continuously refined by the Chaos Heavenspan Canon, pouring into his divine sea.

Finally, the divine sea started expanding outwards, expanding, forcefully expanding the space of Ye Yuan's dantian area by a great deal.

With this expansion, the divine sea became empty all at once.

Then, Ye Yuan started to frantically absorb the outside world's spiritual energy, pouring it into the divine sea.

No idea how long had passed either, everything quietened down.

"This Chaos Heavenspan Canon truly seizes the good fortune of heaven and earth! The divine essence inside your divine sea is getting thicker and thicker, almost becoming a starchy paste already! The thickness of this divine essence may be rated as invincible within the same realm!" Dustless said with an emotional sigh.

Other people's divine sea was akin to a vast ocean.

But the divine essence inside Ye Yuan's divine sea was extremely thick, already almost turning into a lump of paste.

This was also to say that when the realm was the same, the thickness of Ye Yuan's divine essence was what others were unable to match.

Ye Yuan said, "In a blink, already cultivated to grand completion first level. It looks like the mission for the period of time next is to create the Chaos Heavenspan Canon's second level. It's just that so many years have passed, I still don't have any leads at all."

These few years, Ye Yuan had always been trying to create the Chaos Heavenspan Canon's second level but had ended without any fruits.

Ye Yuan knew that the higher the realm, the greater the difficulty of creating this cultivation method.

In particular, the Chaos Heavenspan Canon, this cultivation method, had once triggered a heaven and earth phenomenon. The difficulty was even more conceivable.

The more profound the comprehensive, the clearer one needed to be about Heavenly Dao, and overall understanding. This absolutely took time and effort.

Ye Yuan's Grotto Profound Realm was not yet perfected. His understanding of Heavenly Dao was still stagnated at the comprehension of the Lesser Heavenspan Mountain and was naturally unable to create the second level.

Now, Ye Yuan already cultivated to Grotto Profound to the grand completion. The biggest goal of the next step was to create the Chaos Heavenspan Canon's second level[1].

"You should go out to experience and temper. Shutting yourself in the room to make a cart, this second level cultivation method probably isn't so easy to create." Dustless suggested him.

Ye Yuan nodded and said, "Indeed. After coming to the Hundred Cities Smelting Trial, too much time was on closed-seclusion cultivation. It's precisely because of that I would go and take part in the Hundred Cities Smelting Trial this time. The battle with Jin Yu, I still gained quite a lot."

Dustless nodded and said, "Mn, it's good that you have this idea. But there's something that you still have to take heed of."

Ye Yuan said curiously, "Senior, please say."

Dustless said, "The Soul Suppressing Pearl can protect Mu Lingxue, that lass's spiritual consciousness from extinguishing. But it doesn't mean that it can let her spiritual consciousness forever not extinguish! My state, you're also aware. I could only recover some power by borrowing those evil spirits' strengths. But I'm still too far away from my peak state."

Ye Yuan's expression changed and he said with a frown, "Senior, why didn't you tell me this in the past?"

Dustless smiled and said, "What can you do if I tell you? To you, the biggest task is to cultivate! Some things, I'll naturally tell you when the time comes."

Ye Yuan sucked in a deep breath and said solemnly, "Then what should I do now?"

Dustless said, "Go find Myriad Longevity Heavenly Soul Stones! The impurities of evil spirits are too many, unable to support my maintaining this lass's spiritual consciousness for a long time. Myriad Longevity Heavenly Soul Stones are a good tool to nourish the divine soul and can help me restore my strength further. As long as my divine soul recovers to Two-star, I can preserve this girl's divine soul from extinguishing for ten thousand years!"

Ye Yuan's heart sunk and he said, "Only ten thousand years?"

Ye Yuan knew that the cultivation in the future will probably easily require several hundred or thousands of years. Ten thousand year's time was really not considered very long.

Dustless nodded and said, "Once a person dies, the spiritual consciousness dissipating is nature's maxim. Maintaining her spiritual consciousness from extinguishing goes against the heavens to begin with. Unless one can reach Dao Ancestor, that kind of height, otherwise, nobody can ensure that her spiritual consciousness won't dissipate at all! Your current strength can barely enter the martial arts world to experience and temper, and search for Myriad Longevity Heavenly Soul Stones in the martial arts world. Your state in the past, telling you this kind of thing won't have any use apart from interfering with your cultivation."

Ye Yuan admitted that if Dustless told him this news earlier, it would indeed have affected his cultivation.

More haste, less talk. Ye Yuan knew that Mu Lingxue's spiritual consciousness could not be imperishable and would be bound to be overly eager for success. The impact on his future would probably be very great.

Ye Yuan nodded and said, "Senior, I'll go to the academy to accept missions right now, and enter the martial arts world!"

Ye Yuan knew that the academy's inner-court students could accept missions and go out to train.

Some were like Wang Song, appointed as a region's city lord.

However, Wang Song they all did not have confidence in themselves or had no courage to enter the martial arts world.

Powerhouses who truly had strength would enter the martial arts world to train, completing the missions provided by the academy.

And the Immortal Grove World was one of the martial arts worlds!

The Heavenspan World had existed for God knows how many billions of years. The powerhouses accumulated were goodness knows how many.

One had to know that being able to cultivate to the Divine Lord Realm, one could hew open an inner-world, going a step further to derive a small world. That was the martial arts world.

Hence, the Heavenspan World had many spatial rifts that were all connected to martial arts worlds.

Those ownerless martial arts worlds were the perfect places for Heavenspan World powerhouses to explore and seek treasures.

Because each martial arts world had its own unique aspect. It might give birth to natural treasures unavailable in the Heavenspan World.

Some far back era martial arts worlds, it might be left behind by a Heavenly Emperor, even a Transcendent Heavenly Emperor. Inside might contain the cultivation methods and supreme treasures left behind by these major powers.

Once obtained by people with heaven-defying destiny, they could even leap over the dragon gate.

Apart from this, martial arts worlds still had something that everyone coveted: the Dao Fruit!

Powerhouses above Divine Lord Realm would condense a Dao Fruit belonging to them.

They would normally hide the Dao Fruit in their own small world to nurture. Once an explorer obtained the Dao Fruit, that was truly soaring to the skies in one move.

Just like Heavenly Emperor Jiu Shang, he ascended to Heavenly Emperor one step ahead of Heavenly Empyrean Immortal Grove because he obtained a Heavenly Emperor Dao Fruit.

Of course, martial arts worlds also contained enormous dangers. A single mishap and one would perish, their Dao disappearing.

Firstly, Deity Realm powerhouses also existed in martial arts worlds. Some were even very powerful.

Secondly, there were also some danger zones in martial arts worlds, such as the Immortal Grove World's Godsfall Mountain Range.

Quite a number of martial artists never came out again after venturing in.

Dustless said, "No rush. I know that you're worried about that lass, but I have a score in my heart. There's probably still some time before you breakthrough to Heaven Glimpse Deity Realm. But before going to a martial arts world, cultivate Sword Dao laws to grand completion first-layered heaven first, thoroughly completing this Sundering Stars move!"

Chapter 1409: Grudge

At Ye Yuan's residence, Thundercry's face was rather awkward.

When in the Mystic realm, he still flared up and solemnly vowed to Qin Tian, to have the Qin Family give an account.

Who knew that now, it was all talk and no action; no more follow up.

"Ye Yuan, you made great contributions to Wu Meng Academy and the capital city. These are the rewards that City Lord gave you!" Thundercry said.

The academy's rewards were not ungenerous: 150 thousand points, plus 50 Tier 2 low-grade divine pills, plus a profound divine artifact battle armor!

The 100 thousand points awarded to Ye Yuan previously were already pretty much depleted by him.

These 150 thousand points, to Ye Yuan it was as if delivering charcoal in the snow.

And a profound divine artifact battle armor could even have the effect of defending against the attack of Heaven Glimpse Deity Realm powerhouses.

Except, Ye Yuan was not so easy to fool, and said with a faint smile, "I didn't expect that the Qin Family's ability is actually so great. Doing this sort of thing and actually still made Teacher Thundercry run into a wall."

Thundercry did not expect that Ye Yuan was actually so smart, actually seeing through the whole thing so quickly.

He was originally still planning on fighting a quick battle to end things fast and slip away after giving Ye Yuan these rewards.

Looking at it now, he could not avoid it.

Since Ye Yuan exposed it, Thundercry had nothing to hide either, heaving a sigh. He said, "The Qin Family is one of Wu Meng Capital City's oldest families. A Wu Meng Capital City's city lord had even once emerged from that family before! The Qin Family's forces span every corner of the entire Wu Meng Capital City. Even if City Lord, His Excellency, wants to touch them, he would also have to weigh it over."

Ye Yuan smiled and said, "So that's how it is. Thank you, Teacher Thundercry, for making a trip!"

Thundercry froze. He originally thought that Ye Yuan would rebuke him in a fit of rage, saying that he failed to act.

He did not think that Ye Yuan just casually brushed it off.

This Ye Yuan was really different from the rest.

Thundercry let out a long sigh. If Ye Yuan kept on pressing, he would not know how to answer instead.

"Huhu, too courteous! Hope that you don't have any thoughts and just cultivate well. After all, this Wu Meng Capital City, it's still City Lord, His Excellency, who calls the shots!" Thundercry said with an embarrassed smile.

Ye Yuan nodded with a smile and said, "Ye Yuan understands! After some time, I plan on going out to train and won't disappoint Teacher Thundercry."

Thundercry's expression could not help changing when he heard that and said, "Going out to train? You just broke through to grand completion Grotto Profound not long. It's not too late to go out and train after breaking through to the Heaven Glimpse Deity Realm! Going out to train right now is too dangerous!"

Ye Yuan smiled and said, "Teacher Thundercry, rest assured. Ye Yuan has a score in his heart."

When Thundercry saw that Ye Yuan's mind was made up, and also recalling his outstanding strength, he could only nod and said, "Alright, you be careful yourself then. These are three Heavenly Thunder Swift Talismans that I refined. It's a great deal faster than your sword maneuvering flight's speed. Perhaps it will be of aid to you."

Thundercry took out three yellow talismans and passed them to Ye Yuan. A powerful lightning-attribute law aura hit him head-on.

Ye Yuan was slightly surprised, but he still accepted the Heavenly Thunder Swift Talismans and said with clasped hands, "Then I'll have to thank Teacher Thundercry!"

After Thundercry left, Ye Yuan's face turned sullen.

He felt that this matter was probably not so simple!

The Qin Family's forces in Wu Meng Capital City were deeply entrenched. This point, Ye Yuan acknowledged it.

But was this kind of deep-rootedness capable of making a Divine Lord Realm powerhouse compromise?

Ye Yuan felt that Wu Meng City Lord was probably not coming to terms with the Qin Family, but was not willing to punish them.

It looked like there was quite a bit of connection between Wu Meng City Lord and the Qin Family.

"For him to send these over, looks like he wants to pacify you, make you live together in harmony with the Qin Family! It looks like he doesn't want to offend both sides," Dustless said.

Ye Yuan said, "The Qin Family isn't to be offended, but what's not to be offended about me? I helped him obtain the Four-star divine pill, and he didn't even show his face. Looks like in his eyes, I'm just an insignificant student. Sending these seems fair, actually, he's siding with the Qin Family there."

Dustless could not help being stifled and said, "What you said is right! If this Wu Meng City Lord targets you, you'll be in danger."

Ye Yuan smiled coldly and said, "This Wu Meng City Lord really disappoints me! Now, I really love and hate this Wu Meng Capital City!"

After all, Ye Yuan's Sundering Stars was comprehended in Wu Meng Academy. It was also considered receiving Wu Meng Academy's grace.

But Wu Meng City Lord's way of doing things made Ye Yuan rather disappointed.

Ye Yuan comprehended Sundering Stars and contributed Sundering Stars to the Wu Meng Academy without holding back in the slightest, and also radiated splendor in the Hundred Cities Smelting Trial.

One could say that his repayment to the Wu Meng Academy was already far more than what should be demanded.

Just a Four-star divine pill was worth several cities!

But in the end, what it exchanged for was such an outcome.

Dustless said, "You'd best be a little more careful in the future. Don't get into a conflict with the Qin Family anymore. Otherwise, what kind of attitude Wu Meng City Lord has is hard to say!"

Ye Yuan smiled coldly and said, "It's naturally well if they don't come and provoke me. If they really provoke me, I, Ye Yuan, have never feared anyone before!"

...

Ye Yuan stayed for five years in the Sword Tomb's fifth level.

Five years later, Sundering Stars was finally completed!

Close to 20 year's time from start to finish, Ye Yuan finally completed the Chaos Heaven Opening Sword Art's first level sword move.

Presently, when Ye Yuan deployed Sundering Stars, this move, with the Chaos Heavenspan Canon at full power, he had the confidence to have a showdown with newly-advanced Heaven Glimpse powerhouses!

Although there was a tremendous gulf between Heaven Glimpse powerhouses and Grotto Profound martial artists, when Ye Yuan was at late-stage Grotto Profound, his strength already swept across those in the same rank.

Now, his realm and martial technique both had an all-round improvement. It was sufficient to make up for this enormous chasm.

At least, he had the power to fight.

Coming out of the Sword Tomb, Ye Yuan went straight to the Merit Hall. This was the place where Wu Meng Academy students received missions.

It was also Ye Yuan's first time coming over. That inner-court disciple in charge of missions clearly knew Ye Yuan and said with a laugh, "Yo, what wind blew our hundred cities' number one person here? Junior Apprentice Brother Ye hasn't entered the inner-court yet. Could it be that you're already planning on receiving missions?"

Ye Yuan smiled and said, "Senior Apprentice Brother, I plan on going out to train for a bit. Is there a list of missions for me to take a look first?"

That student's expression changed and he said solemnly, "Junior Apprentice Brother Ye plans on going out to train? The danger of that kind of mission is very high. Even if inner-court students go, the rate of death is also extremely high! I know that junior apprentice brother's strength is quite strong, but ... shouldn't you go out to train after being promoted to the inner-court first?"

Ye Yuan saw that the other party's concern did not seem to be false, and he could not help feeling touched.

Ye Yuan's prestige in the inner-court was also extremely high, not just in the outer-court.

After all, he helped Wu Meng Capital City seize the championship with his power alone, and even shaved their mortal foe, Zuo Xiang Capital City, bald, making everyone hold their heads up high.

Before long, Ye Yuan would even release splendor in the inner-court.

Such a promising junior apprentice brother, everyone was naturally willing to get closer.

Ye Yuan smiled when he heard that and said, "Thanks for Senior Apprentice Brother's concern. But cultivating for a long time in the academy, I feel like I've already reached a bottleneck period. When training, I'll be more careful."

Chapter 1410: Sky Foothill World

“Alright then. There are five jade pillars over there, representing the difficulty of the missions from low to high. You can go and check it out yourself. After examining them, come to me to register will do.”

That inner-court student saw that Ye Yuan’s attitude was firm and could only agree.

Ye Yuan smiled and said, “Many thanks, Senior Apprentice Brother.”

On one side of the Merit Hall’s great hall, five jade pillars were placed from low to high.

Ye Yuan arrived in front of the jade pillars and poured divine essence into the first jade pillar.

The jade pillar immediately erupted with rays of brilliant light. A whole bunch of information entered Ye Yuan’s mind.

Breath Rain World, Divine Lord Rank Small World.

Highest level powerhouse: Grotto Profound Deity Realm.

Dangerous places: Western Fame Valley, Heavenly Melody Mountain.

Basic missions: Black Yun Metal, Splendid Flora Fruit. Difficulty – one star. Completing a mission one could obtain 800 points.

Advanced missions: Divine lord profound treasure left behind by Breath Rain Divine Lord. Difficulty – two stars. Completing a mission one could obtain 1500 points.

...

On it was a detailed description of the Breath Rain World, including the local customs, topography, and so on; very detailed.

Information after information filtered through in Ye Yuan’s mind very quickly. Ye Yuan discovered that the information on the one-star jade pillar was actually not that hard.

With his current strength, he could at least protect himself.

The strongest powerhouses in these worlds were mostly just Grotto Profound Realm. Ye Yuan’s strength could virtually sweep across.

Of course, only he, this Grotto Profound martial artists, dared to say sweep across, this kind of words.

The Myriad Longevity Heavenly Soul Stone was a very rarely-seen natural treasure. It would not appear in every small world.

But if someone discovered Myriad Longevity Heavenly Soul Stones in a small world, it would definitely be listed as one of the missions.

It was just too bad that the one-star jade pillar did not have news about Myriad Longevity Heavenly Soul Stones.

Hence, Ye Yuan came to the two-star jade pillar to check.

The worlds recorded on the two-star jade pillar was clearly much more dangerous than on the one-star jade pillar. Quite a number of worlds' highest level powerhouses were all Heaven Glimpse Deity Realm.

Of course, the danger level was not just according to the highest level powerhouse. Each small world's situation was different, the situation very complicated.

Some people training succumbed inside without even figuring out the situation.

Ye Yuan skimmed over the two-star jade pillar and still did not find news about the Myriad Longevity Heavenly Soul Stone. His heart could not help sinking.

He was not afraid of danger. What he feared was not being able to find the Myriad Longevity Heavenly Soul Stone.

As long as there was news about Myriad Longevity Heavenly Soul Stones, even if it was a dragon's lair or tiger's den, he would also brave it.

Ye Yuan sucked in a deep breath and started investigating the information on the three-star jade pillar.

He secretly praised, on this three-star jade pillar, there must be information about the Myriad Longevity Heavenly Soul Stone!

Suddenly, his eyes lit up. Information entered his eyes.

Sky Foothill World: Celestial Deity Rank Small World.

Highest level powerhouse: Origin Deity Realm.

Dangerous places: Unclear.

Basic missions: Myriad Longevity Heavenly Soul Stone, Nine Melody Psychic Immortal Fruit, Purple Sand Gold, difficulty – three stars. Completing a mission one could obtain 100 thousand points!

Advanced missions: Celestial Deity Dao Fruit, difficulty – four stars. Completing a mission one could obtain 300 thousand points!

...

That was it!

Without the slightest hesitation, Ye Yuan found that inner-court student.

"Senior Apprentice Brother, I want to choose the number eight mission on the three-star jade pillar!" Ye Yuan said.

That student was stupefied, somewhat doubting if his ears heard wrongly or not.

"Junior Apprentice Brother Ye, this is a three-star mission. Are you mistaken?"

This three-star mission, as long one of the missions was completed, one could get 100 thousand points. The difficulty and level of danger could be seen.

It was on a completely different level than the one-star and two-star missions previously.

Ye Yuan was merely a Grotto Profound Realm martial artist. Wanting to challenge such a high difficulty mission as soon as he came up, his astonishment could be imagined.

Ye Yuan shook his head and said, "That's right, this is it. I'll have to trouble Senior Apprentice Brother to give me the coordinates of the Sky Foothill World."

"Junior Apprentice Brother Ye, it's your first time taking part in a training mission, you might not know the difficulty of three-star missions! This number eight mission, over 5000 students have done it in the past. The majority of them were all middle-stage, Heaven Glimpse, late-stage, even grand completion powerhouses. But the ones who came back in the end were less than 10%! Among the 10%, those able to complete the mission were even fewer!"

That student was warmhearted too, worried that Ye Yuan did not know the danger and urged earnestly with good intentions.

Ye Yuan smiled and said, "Many thanks, Senior Apprentice Brother, for cautioning. I'll be careful."

That student opened his mouth but did not say anything.

This Junior Apprentice Brother Ye never seemed to do things according to the convention.

Missions that other people avoided like the plague, he was eager to go.

More importantly, Ye Yuan was too weak currently!

Even if Ye Yuan's strength was superior, far surpassing same-rank martial artists, his realm was too low after all.

He did not even enter the inner-court and want to challenge a three-star mission. Wasn't this somewhat overestimating his own ability?

"Alright, since Junior Apprentice Brother Ye insists on going, then you'll have to be more careful. Entering a small world to train, the most important thing is to protect yourself. Missions and whatnot are second." That student reminded him again.

Ye Yuan nodded and said, "That is, of course. I don't wish to court death too."

That student nodded and said, "The number eight mission's information is already stored in your academy token. You can go back and study it well. But you have to swear a Heavenly Dao Oath right now, to absolutely not reveal the mission's information for others to know."

Ye Yuan nodded his head slightly, swearing a Heavenly Dao Oath on the spot.

Each small world was a treasure trove and also a precious resource of Wu Meng Capital City. They naturally did not allow it to be leaked out.

Watching Ye Yuan leave, that student's face revealed a puzzled look and muttered, "This Junior Apprentice Brother Ye really exceeds all expectations. It's just that this three-star mission is a little too dangerous. He's my Wu Meng Academy's future, hope that he'll be fine."

Right at this time, another figure walked in.

That student's expression changed and he hurriedly saluted and said, "I pay respects to Elder Qin!"

He was secretly alarmed. Elder Qin Tianning was one of the few existences whose status was second only to the academy head. Normally, he was in closed-seclusion and rarely appeared.

Why did he suddenly show up today, and even came to the Merit Hall?

He suddenly thought of the Ye Yuan who just left and could not help becoming fearful in his heart.

Elder Qin wouldn't be here aiming for Ye Yuan, right?

Qin Tianning snorted lightly, considered to have acknowledged it, and said coolly, "What mission did Ye Yuan draw just now?"

That student's expression changed and he said awkwardly, "Elder Qin, this ... The missions that students draw are strictly confidential. This ... isn't complying with the rules!"

Qin Tianning's brows furrowed and he said with a cold snort, "This old man is an Elder Association's member. Is it confidential even from me? If you don't wish to stay in the academy, just say it straight. This old man will send you out tomorrow!"

That student's expression changed and he said fearfully, "Elder Qin is mis-mistaken! The mission that Ye Yuan drew was ... was the number eight mission on the three-star jade pillar, the coordinates are ..."

Qin Tianning nodded slightly and said, "Mn, that's more like it! You don't think too much. This matter ... was personally ordered by City Lord, His Excellency. If you let a third person know, the consequences ... you know it!"
