[Unrivaled Medicine God](#)

Chapter 2321: Killing God Ye Yuan!

“Take his life while he’s down!”

“Kill this guy! He’s currently completely drained like a lamp without oil!”

“Don’t give him the chance to recover! Quickly kill him!”

... ..

The current Ye Yuan was emaciated like a stick, seemingly like a dry corpse, looking alarming to the eyes.

Releasing more than ten sword moves in a row, even if Ye Yuan swallowed quite a few medicinal pills, he was still squeezed dry.

Even the flesh and blood of his body was practically sucked dry by the Limitless God Killing Bow.

When many divine race powerhouses saw this scene, they immediately commanded abyss monsters to besiege Ye Yuan.

Clearly, this was the optimal time to kill Ye Yuan.

For a moment, countless powerhouses charged over toward Ye Yuan.

The divine race powerhouses pouring over toward Ye Yuan this side immediately alleviated the pressure on the surrounding human powerhouses.

Many human powerhouses heaved a sigh of relief one after another.

Ye Yuan’s divine essence was already exhausted. He had no way of dealing with these divine race powerhouses and abyss monsters at all currently.

But this did not stump him. It was only to see him snap his fingers repeatedly. A powerful protective array formation formed in virtually an instant.

Bang, bang, bang ...

Countless attacks landed on the array formation, emitting incomparably intense rumbles.

The array formation gave off a dazzling light, blocking the attacks from all directions.

Ye Yuan’s array formation was extremely stable. Even when facing such strong attacks, it was still incredibly stable.

But more and more divine race powerhouses poured over toward his side, making the powerful array formation start faltering too.

Inside the array formation, Ye Yuan built an array formation once more and started refining pills.

This time, his speed clearly slowed down significantly, beginning to pursue quality.

Those divine race powerhouses attacking the array formation were all very anxious.

At this time, the advantage of alchemy path powerhouses was demonstrated.

Ye Yuan, this terrifying alchemy path powerhouse, actually directly refined pills on the battlefield to recharge.

This way, his ability to fight continuously was seriously too fearsome.

Before the alchemy path declined, in the last Doomsday Battle, alchemy path powerhouses clearly unleashed tremendous capabilities, bringing huge problems to the divine race.

Therefore, that was why Oringuard did not scruple to pay a huge price to come to Cloudheart Realm and kill the alchemy path powerhouses here.

But the commotion at Ye Yuan this side was seriously too great, drawing more and more divine race powerhouses and abyss monsters.

Ye Yuan's grand array also started to be in a precarious situation.

After all, this was not a one-person battle, but a battle between populations, a super battle implicating tens of millions of people.

"Everyone, let's go and protect Second Sage! With him around, our survivability will greatly increase."

"That's right! Second Sage's combat power is extremely shocking, even above the divine race powerhouses. As long as he recovers his strength, our combat power will increase greatly."

"Everybody, attack together! Alleviate Second Sage's pressure! Let him be able to refine pills calmly."

... ..

The human powerhouses clearly realized the seriousness of the problem.

If they allow Ye Yuan to attract the others' attention at this time, after Ye Yuan was defeated, they still could not escape the fate of being killed.

Hence, many human powerhouses swarmed over spontaneously, and they faced off against the divine race powerhouses and abyss monsters, alleviating Ye Yuan's pressure.

Inside the array formation, Ye Yuan sensed something, slowly opening his eyes.

There were many human powerhouses around currently defending him tightly. Many people were even directly blown up by divine race powerhouses.

Seeing this scene, Ye Yuan's countenance also could not help to visibly change because of this.

In his impression, human powerhouses were all selfish and did not care about others.

He did not expect that today, under a life-and-death situation, they actually took the initiative to come and help him.

Sure, it was them doing it for their glimmer of hope. But at this time, them being able to let go of their sectarian views indeed broadened Ye Yuan's horizons.

Ye Yuan forcefully reined his mind and devoted his entire mind and body to the pill refinement process.

At this time, him refining the medicinal pill at the fastest speed was the greatest repayment to the others.

After several hours, a medicinal pill solidified inside the array formation.

This was a Dao pill!

While at this time, dead bodies were already lying all over the ground around Ye Yuan's array formation.

Many human powerhouses perished in order to protect him.

Ye Yuan directly swallowed the medicinal pill without the slightest hesitation.

After consuming the medicinal pill, Ye Yuan's emaciated body immediately seemed to be filled with air, recovering to its original form very quickly.

And his aura also skyrocketed, his cultivation realm directly rising by a lot.

After a hundred years of accumulation, Cloudheart Realm's powerful spiritual energy, plus the astonishing energy inside this Dao pill, Ye Yuan's realm rose once more.

His current realm was already equivalent to Second Firmament Heavenly Emperor.

Ye Yuan walked out of the formation, a thousand over flying swords danced around him, the killing intent awe-inspiring.

"You guys have worked hard. Leave the rest to this Ye. You all follow this Ye, this Ye will take you all out!"

While talking, the sword formation flew out. The places that it passed by reaped the lives of divine race powerhouses and abyss monsters without restraint.

With Ye Yuan's current realm coupled with his various powerful means, he looked down completely on middle-stage Heavenly Emperor powerhouses.

Ye Yuan took the lead, opening up the way ahead, and the rest of the human powerhouses followed closely behind.

With Ye Yuan opening up the path in front, the human powerhouses' pressure fell sharply.

After all, even if it was the divine race and abyss fiend race, the powerhouses that could reach late-stage Heavenly Emperor could be counted on one's fingers too.

This level of powerhouses, they all had their own opponents and could not divert too many people to deal with Ye Yuan and the people on his side.

Furthermore, in this large-scale battle, the vast majority of the martial artists were all people with very low strength.

The truly high-level combat power experts were just a minority after all.

Originguard launching this war, the ones he was truly targeting were still the high-end combat powers like Medicine Ancestor and Wing. After all, their threat was much, much greater than Ye Yuan.

Targeting Ye Yuan with the extravagant combat power of two squads was already thinking extremely highly of him.

But very clearly, Oringuard still underestimated Ye Yuan's combat power. He borrowed the power of a Dao artifact and forcefully killed all of these two squads.

Right now, the places where Ye Yuan passed through were akin to no man's land.

More than a thousand flying swords were like one sickle after another, reaping lives everywhere.

The current Ye Yuan had long hair fluttering while killing people, akin to a killing god descending personally.

The powerful divine race and abyss monsters were like lambs awaiting slaughter in front of Ye Yuan. They were unable to withstand the power of his one sword at all.

Ye Yuan brought the humans guarding him and plugged into the divine race army like a sharp knife. Very soon, he slaughtered his enemies until the divine race army was in chaos.

"This guy is simply a killing god! He's too strong! We can't stop him!"

"Retreat! Quickly Retreat! This person is invincible!"

"This guy is too strong! We're not a match at all! Quickly go request for the lords to come over!"

... ..

More and more humans gathered around Ye Yuan, following him to break through.

In the previous battle, the human powerhouses suffered heavy losses, casualties nearing half.

But at present, after Ye Yuan joined the battle royale, the situation instantly reversed.

Ye Yuan alone was like a fighting machine, steamrolling over all the way.

His strength was sufficiently strong and he would not be overly cautious because of the other party's strength.

For a moment, the balance of the war actually started leaning toward the humans!

[Unrivaled Medicine God](#)

Chapter 2322: Grand Xingtian Heaven Locking Art

Two armies fighting, the general could often play a decisive factor.

A brave general could kill several rounds in the enemy army, directly killing until the other side's camp was in chaos.

This point was similarly suitable in large-scale martial artist battles.

Clearly, Ye Yuan was such a person.

Originally, the divine race had too many of such people, killing in and out of the human camp, akin to a no man's land.

But now, the situation suddenly switched.

Ye Yuan rushed all the way and was similarly akin to no man's land!

The divine race was strong, but Ye Yuan was stronger!

Very soon, Ye Yuan brought the human army and directly killed his way through.

The divine race army suffered heavy casualties.

It was originally a one-sided massacre on the human race by the divine race. But now, it reversed, becoming the human race's one-sided slaughter against the divine race.

It was not that the humans' strength increased, but that the humans now had a pillar. Everyone's cohesion became different from before.

A single chopstick was easily snapped; ten pairs of chopsticks would hold strong. It was this logic.

The humans were in a state of disunity previously, each fighting for themselves. There was no way to band together like strands of rope at all.

But now, all the humans gathered around Ye Yuan, they viewed Ye Yuan as their spiritual leader.

Wherever Ye Yuan fought, they would follow suit. Everyone had a clear goal.

Therefore, their combat power rose straight up!

At this time, the entire Cloudheart Realm was already reduced to rubble. Whatever Feather Mountain, Cloudheart Mountain, Cloud Summer Mountain, all had long already turned to ashes at this time.

The entire Cloudheart Realm, the void shattered. The realm was already reduced to shambles.

One had to know, the alchemy path powerhouses who came to Cloudheart Realm this time, a large majority of them were Heavenly Emperor powerhouses.

This level of a powerhouse, the moment they made their move, it would be earth-shattering. Let alone that there was still Originguard and Medicine Ancestor, this kind of sovereign level powerhouses.

Space shattered bit by bit, the entire Cloudheart Realm gradually collapsed completely.

At this time, everyone was already fighting in the dark spatial turbulent flows.

In the void, motes of starlight looked just like one bright star after another.

These stars were connected in pairs, forming an enormous web, completely covering Cloudheart Realm.

This was the divine race's Grand Xingtian Heaven Locking Art. Several tens of thousands of divine race powerhouses already completely sealed off this region of space, everyone was unable to escape this region of starry sky.

Ye Yuan did not lead the human army to rashly charge toward this starry web. Instead, he brought the human powerhouses to charge to and fro several times, killing until the divine race powerhouses were in a scattered mess.

Even late-stage Eight-marks Heavenly Dao Realm powerhouses did not dare to easily clash head-on too.

Hence, more and more human powerhouses joined in, the human army was like a rolling snowball, growing larger the more it rowed.

Many late-stage Heavenly Emperor powerhouses also joined in, becoming the core power of this team.

The powerhouses around Ye Yuan got more and more, and their cultivation realms got higher and higher.

No matter how high their realms were, how strong their strength was, after joining, they would spontaneously take Ye Yuan as the center.

A batch of late-stage Heavenly Emperor super powerhouses gathered around Ye Yuan. They followed Ye Yuan and charged everywhere, mowing down all resistance.

Very soon, the divine race army was completely defeated. They fled in all directions, escaping in the direction of the starry web.

Beside Ye Yuan, Ji Mo said, "Lord Second Sage, the crux of the problem still lies on this starry web! The divine race's strength is too strong. After those supreme powerhouses recover, we're still turtles in a jar."

During the chaotic battle, Ji Mo also saw the army led by Ye Yuan. Hence, he immediately joined in.

When he saw that Ye Yuan was the leader of this army, he also got a big shock.

One had to know, Ye Yuan was besieged by two middle-stage Heavenly Emperor squads previously.

He knew that Ye Yuan's strength was very strong, but under the besieging of such scale of powerhouses, he thought that Ye Yuan was dead for sure.

But who knew that not only did Ye Yuan not die, his strength improved even further instead.

What was even more terrifying was that he actually led the human powerhouses and forcefully slaughtered out a bloody path.

However, the crisis on hand had not been resolved yet. They were merely just ant-like existences in front of Oringuard.

Once the divine race's Deva Realm powerhouses triumphed all-round, they would still be turtles in a jar.

Ye Yuan nodded slowly and said, "This Grand Xingtian Heaven Locking Art gained the essence of spatial law and is cast by several tens of thousands of Eight-marks Heavenly Dao Realm powerhouses. Its power is unimaginable. To crack this spell, one must find the weak point of this technique. Otherwise, there's no way to crack it at all."

Ji Mo was shocked and said, "Second Sage is proficient in spatial law. Even you can't crack it too?"

Ye Yuan said, "This spell already touched the source power of spatial law. More than 30 thousand powerhouses each performed their own function, forming an extremely powerful ensemble. With my current spatial law attainments, it's simply impossible to crack it."

When everyone heard this sentence, each and every one of their faces could not help turning ashen.

Among so many human powerhouses, Ye Yuan's spatial law attainments were the highest.

Even he could not do anything, then the current situation could only be waiting for death.

"This ... Could it be that we can only wait for death?" Ji Mo said absent-mindedly.

Ye Yuan said coolly, "I'll go and challenge this spell, do what you can and leave the rest to heaven ..."

Ji Mo's expression turned somber and he said, "Second Sage, go ahead! Leave here to us! Unless I die, otherwise, I absolutely won't let people come and disturb you!"

When the Heavenly Emperors heard that, they echoed one after another.

Ye Yuan nodded his head slightly, took a step out, and sprinted straight towards the starry web.

Arriving above the starry skin, a surge of powerful enchantment force pounced over head-on.

Ye Yuan felt that this region of space was akin to a steel plate, unable to penetrate at all.

Above the void, extremely powerful fluctuations even faintly exuded, akin to a sharp sword hanging high above, possibly dealing him a fatal blow at any time.

Ye Yuan was proficient in spatial law and was deeply aware of spatial law's prowess.

It could attack when advancing, it could defend when retreating.

It was extremely sharp when on offense, strong as iron when defending.

Those few Heavenly Emperor powerhouses previously were garroted by the powerful spatial force. They could not even fight back!

"Heh, another one that came to die!"

"Love to see the despairing faces of these humans the most! Under the Grand Xingtian Heaven Locking Art, there's absolutely no one who survives!"

"These humans probably don't know that the Grand Xingtian Heaven Locking Art is our true trump card!"

... ..

When the group of divine race powerhouses saw Ye Yuan come over, they could not help revealing gloating expressions.

They could not see what was happening inside at all from outside the void.

As long as someone wanted to escape out of the void, they would give a fatal blow.

Ye Yuan arrived below the starry net. Those divine race powerhouses were just about to launch an attack when Ye Yuan suddenly stopped.

The position where he stopped was just right, the place that just happened to be out of reach of those divine race powerhouses.

The divine race powerhouses were angered until they were almost stifled to the point of internal injuries.

Ye Yuan stopped there, gazed upon this starry web, and carefully sized up the distance, feeling the spatial undulation of the starry web.

Before long, he suddenly took a step out, entering the attack range of the divine race powerhouses.

Suddenly, stars sparkled. Countless streams of flowing light scattered down like a meteor shower, landing where Ye Yuan was standing.

Bang, bang, bang ...

After countless explosions, Ye Yuan's figure suddenly returned to where he was.

All of the attacks failed!

Chapter 2323: Proceeding Without Hesitation!

"How is this possible? He actually escaped!"

"Grand Xingtian Heaven Locking Art can easily annihilate even Deva Realm powerhouses, he actually escaped!"

"Who is this kid? How can he grasp such formidable spatial law?"

... ..

When the divine race powerhouses saw this scene, each and every one of them stared dumbfoundedly, disbelieving faces.

Grand Xingtian Heaven Locking Art was a spatial spell that a progenitor of the divine race created. Its power was unparalleled.

With 36 thousand people casting the spell at the same time, it could produce a catalyzing effect, pushing the spatial law power to the level of source.

One had to know, this was one of the supreme laws, spatial law.

Reaching the level of source, what kind of horrifying power was that?

But this young man in front of them actually dodged it.

And at this time, a wisp of fresh blood was left behind at the corners of Ye Yuan's mouth.

Even though he avoided all of the attacks, the powerful energy explosion still injured him.

"Well-deserving of being a source-level spell. Indeed, rather interesting!"

The corners of Ye Yuan's mouth smiled faintly, his figure moving, rushing toward the starry web once again.

"Humph! Reckless and blind thing, you want to pry into the profound mysteries of the Grand Xingtian Heaven Locking Art? Then pay with your life as the price!" Yuan Zhen looked at that figure and said with a cold smile.

He was one of the 12 hubs of the Grand Xingtian Heaven Locking Art and could mobilize the power of 3000 spaces, attacking the opponent.

Of course, he had another identity. He was one of the Profound Lineage's nine elders!

Earlier, Ye Yuan escaped alive from under his hands. This made him feel very ashamed.

He also saw through that Ye Yuan was attempting to find the weakness of the Grand Xingtian Heaven Locking Art, trying to burst out of here.

Toward this sort of ridiculous behavior, he naturally scoffed in derision.

It was only to see the spells in his hands continue moving. Terrifying Dao marks instantly ignited the space.

In an instant, several thousand stars lit up, and an even more terrifying spatial attack greeted Ye Yuan.

Bang, bang, bang ...

The thunderous explosions flickered incessantly in the void, like fireworks going off, beautiful to the extreme.

It was just that behind this beauty concealed terrifying murderous intent!

"Heh heh, Extreme Space Annihilation this move is a spatial attack with no dead angles! No matter how formidable your means, you'll die without a doubt too!" Yuan Zhen let out a cold laugh.

"Haha, well done, Lord Yuan Zhen!"

"Lord Yuan Zhen is well-deserving of being one of the nine elders, impressive!"

"Lord Yuan Zhen's Grand Xingtian Heaven Locking Art is really becoming more and more complex!"

... ..

Above the void, the praises of a group of divine race members came over.

Killing a human with meager strength was not worth mentioning, but this Extreme Space Annihilation could not be executed casually.

Under this move, even Deva Realm powerhouses would also turn to ashes!

"You guys, quickly look! That kid didn't die! He ... He retreated again!"

Suddenly, someone cried out in surprise.

Everyone looked over and discovered that Ye Yuan was actually standing in the same place perfectly fine again since no idea when. It was as if nothing had happened.

Yuan Zhen's expression changed drastically, and he exclaimed, "This is impossible! Under Extreme Space Annihilation, how can he possibly escape? No, wait! He didn't avoid it completely, he got injured!"

He did not see it wrongly. Ye Yuan was really injured. Furthermore, the injuries were not light.

Extreme Space Annihilation was too strong. Ye Yuan unleashed all of his abilities and still did not avoid it completely.

One had to know, this spell was at the level of source. Its power was unimaginable.

If not for Ye Yuan being proficient in spatial law, even if a Deva Realm powerhouse came, he would also have to die nursing a grievance!

It was already extremely impressive for Ye Yuan to be able to escape alive.

The current Ye Yuan was very wretched, coughing up blood in his mouth non-stop, already being severely injured.

But this clearly did not stump Ye Yuan. He started refining pills to heal his injuries.

Except, continuously shooting the Limitless God Killing Bow previously made him expend a large number of rank eight spirit medicines. He did not have many spirit medicines left at present.

Rank eight spirit medicines were not cabbages, each one was extremely precious.

If not for Ye Yuan ransacking the Hidden Lineage, it would have been impossible to obtain so many rank eight spirit medicines this time too.

But even so, he did not have many ranks eight spirit medicines left on him.

After Ye Yuan consumed the rank eight divine pill and recovered from his injuries, he challenged the Grand Xingtian Heaven Locking Art again!

This time, he did not charge from Yuan Zhen here but charged from other hubs.

Without the slightest surprise, Ye Yuan was seriously wounded again.

Feeling the terrifying undulations coming from the void, Ji Mo and the rest palpitated with anxiety and fear.

These undulations were too terrifying!

If it were them, god knows how many would have died already.

Each time Ye Yuan ventured into the starry web, they were extremely worried, fearful that something would happen to Ye Yuan.

Ye Yuan was currently the hope of all humans. If he died, it would basically sentence them to death.

Being infected by Ye Yuan, the human powerhouses all dashed ahead regardless of their safety, desperately resisting the divine race army.

"Second Sage is dancing on the edge of the blade for us! We must protect him well!"

“Kill, kill, kill! Fight it out with this bunch of monsters!”

“Second Sage said before, he’ll definitely bring us out! Even if I die, I also won’t let this bunch of monsters charge over!”

... ..

Without Ye Yuan, the divine race army staged a comeback again.

It was just that this time, it was much more taxing on the humans.

Behind them was Ye Yuan, they could not give way!

Hence, they could only toughen their scalps and fight to the death!

If someone in the front died, the back would continue replacing.

Each and every one of them was undaunted and did not fear death, frenziedly resisting the divine race’s assault, refusing to take half a step back.

The divine race powerhouses were all visibly moved, the combat power of the humans in their eyes was infinitely magnified, they were actually unable to enter.

Very soon, the spirit medicines on Ye Yuan were depleted.

But he still attacked the Grand Xingtian Heaven Locking Art again and again.

The injuries on his body got more and more severe, but he kept failing to find a breakthrough point.

“Haha ... Conceited and ignorant brat, so what even if you know spatial law? Grand Xingtian Heaven Locking Art is a source-level spell. No matter how you rack your brain, you can forget about escaping! Wait for death obediently!” Yuan Zhen laughed loudly and said.

“Reckless and blind thing, see how long you can still persist!”

“Lowly human, your fate can only be death! Fool, you’re a mantis trying to stop a chariot!”

... ..

Grand Xingtian Heaven Locking Art was a super spell that was jointly cast by more than 30 thousand people. Ye Yuan was equivalent to facing 26 people by himself, what kind of difficulty was that?

But he proceeded without hesitation!

He attacked the starry web again and again, and the injuries on his body worsened again and again.

He was covered in blood all over, his body already reaching its limit.

But he was still persevering!

Above the starry sky, waves of snickering came over, mocking him for overestimating his own ability.

But Ye Yuan did not care.

He said before, to bring these human powerhouses out, then he would definitely bring these people out!

“Kid, you come and challenge again if you have the capability! Next time, I’ll definitely make sure that you don’t make it back!”

Yuan Zhen’s wild laughter came from above the void.

Ye Yuan had already gone to and fro a hundred times, but they were not able to kill Ye Yuan all along.

This in itself was a disgrace to them!

In Ye Yuan’s current situation, if he challenged again, he would definitely die without a doubt!

Swoosh!

Yuan Zhen’s voice had yet to fade when Ye Yuan’s figure suddenly disappeared from where he stood.

He rushed the starry web once more!

[Unrivaled Medicine God](#)

Chapter 2324: Provocation!

A white phantom tore through the starry sky and went straight into the starry web.

The white phantom glimmered, like a ghost, giving people an extremely strange feeling.

“*Hahaha*, bring it on! This time, I’ll send you on your way!”

When Yuan Zhen saw Ye Yuan come over once more, he was not angry but was overjoyed instead.

Ye Yuan challenged them continuously. Although he got seriously injured, it could still be regarded as that he retreated unscathed.

Furthermore, Ye Yuan’s approach of rushing looked like he was toying with them.

No matter how your floodwaters surged, I remain steadfast and unmoved!

The shame of the divine race powerhouses was successfully stirred up by Ye Yuan.

One had to know, Ye Yuan was facing 36 thousand people alone!

“Yuan Zhi, you and I team up to cast Hell Suppressing Heavenly Star. This time, we must eradicate this punk!” Yuan Zhen said.

Another one of the hubs, Yuan Zhi, immediately responded, “Okay! This brat is too cocky. We must kill him this time!”

The large-scale spell jointly cast by two great hubs, that was the combined strike of 6000 people!

This level of power was simply terrifying to behold.

Below the starry sky, an enormous cage suddenly descended, enveloping Ye Yuan all at once.

Then, the entire cage was seen shattering into pieces, and space collapsed!

Inside the cage, space shattered, forming one fragment after another, shimmering away like crystals. It was very beautiful.

This was also the origin of the Hell Suppressing Heavenly Star.

But this scene was endless despair when it landed into the eyes of the human powerhouses!

“Second Sage!”

A feeling of sorrow spread in the human camp.

The terrifying undulation coming from above the void made the human powerhouses quake in their boots.

The power of the Hell Suppressing Heavenly Star was likely several times greater than before!

Under those attacks previously, Ye Yuan already sustained serious injuries, let alone this time!

They saw it clearly. Ye Yuan did not escape that region of space at all and that he was enveloped tightly by the Hell Suppressing Heavenly Star.

Under such circumstances, Ye Yuan had no possibility of escaping at all.

“*Hahaha* ... this time, see if you still don’t die!”

Yuan Zhen’s laughter came from above the void.

“Who asked you to show off! Who ask you to posture! This time, see how you still posture!”

“An ant-like human also dares to provoke the noble divine race?! Death isn’t regrettable!”

... ..

Ye Yuan’s actions were actually merely in order to seek a path of survival. Even so, him assaulting the Grand Xingtian Heaven Locking Art time and again looked more like posturing to the divine race.

Killing Ye Yuan now was very satisfying in their view.

But right at this time, amidst the luscious Hell Suppressing Heavenly Star, a white figure slowly walked out.

All of the divine race immediately shut up!

The faces full of mocking smiles turned into shock.

This scene was too inconceivable!

Ye Yuan was clearly already an arrow at the end of its flight previously. So how could he walk out of the Hell Suppressing Heavenly Star?

This question echoed in the minds of all the divine race powerhouses.

More importantly, this scene was too pretentious in the view of all the divine race powerhouses!

When the human powerhouses saw this scene, they were incomparably roused.

As long as Ye Yuan did not die, they had a glimmer of hope.

Swoosh!

Ye Yuan took another step out and started moving about within the boundary of the starry web once again, the intent of provocation extremely strong.

When Yuan Zhen saw this scene, his lungs were about to explode from anger.

This time, Ye Yuan's intent of provocation was too obvious.

That meaning was like saying, you come and hit me, come and hit me!

Yuan Zhen gnashed his teeth in hatred and shouted angrily, "Kill for me! Extreme Space Annihilation!"

The void exploded, terrifying energy and Heavenly Dao power shook in the void.

This time, Yuan Zhen was truly enraged!

One terrifying attack after another exploded in the void. The Grand Xingtian Heaven Locking Art's various spells were displayed, sending out astonishing undulations.

And inside the void, a white phantom was indeterminate, shuttling back and forth inside.

This time, Ye Yuan was not like before, retreating after charging once. Now he kept on swaying in front of the starry web.

He shuttled back and forth in front of the various center pivot powerhouses. But no matter how terrifying the attack was, they were unable to touch him.

The more Yuan Zhen fought, the more alarmed he got, and he said in fury, "Attack together, can't keep on letting him probe anymore!"

The other center pivot powerhouses were also extremely alarmed, immediately working in concert with Yuan Zhen.

This Grand Xingtian Heaven Locking Art, all of the center pivot powerhouses had their minds connected to know what the others were thinking.

Ye Yuan's current actions made them palpitate with anxiety and fear.

Hence, they no longer cared about other things and planned on joining hands to cast the Grand Xingtian Heaven Locking Art's strongest move!

Grand Spatial Rend Art!

The power of this move was extremely horrifying. Once cast, even Deva Fourth Blight powerhouses would need to avoid it.

Of course, such a powerful attack also had huge disadvantages.

Once this move was executed, everyone's strength would be drawn out too much.

Within a short time, the Grand Xingtian Heaven Locking Art would fall into a period of weakness.

Of course, this weakness was relative.

The power of over 30 thousand people combined together, no matter how weak, would not be that weak.

A burst of apocalyptic power oscillated endlessly in the void.

The horrifying to the extreme spatial source power rose mightily amidst the spatial turbulent flow.

This surge of horrifying power made the expressions of all the human powerhouses change wildly.

Too strong!

Suffocatingly strong!

This power was not even weaker than Medicine Ancestor and Sacred Ancestor High Priest they all!

To these Heavenly Emperor powerhouses, this burst of power was too terrifying.

“Lord Second Sage, quickly come back!” Ji Mo roared wildly at the void.

There was seemingly a pair of large hands continuously tearing at the spatial turbulent flow.

Space shattered once more, a massive spatial storm surged up in the darkness, like a spatial tsunami was stirred.

Unbelievably terrifying explosion sounds reverberated throughout the whole world!

However, Ye Yuan did not retreat. He was still dashing about amidst the spatial storm, like a surfer in a tsunami.

However, the tsunami got larger and larger, and increasingly terrifying. Ye Yuan’s figure flickered inside, shaking people to the core as they watched.

On the other side, Oringuard sensed something and looked toward the starry web in surprise and said, “This kid is really amazing enough, to actually force out the Grand Spatial Rend Art!”

Medicine Ancestor and Wing two people were currently already covered in blood all over, their injuries extremely severe.

Seeing this scene, the two of their eyes lit up, revealing hopeful looks.

Oringuard looked at him and could not help laughing as he said, “Put away your unrealistic hopes! Once the Grand Spatial Rend Art is executed, the void will be annihilated and everything will return to silence. How can a mere brat like Ye Yuan be able to resist it?”

The spatial storm became more and more violent, and increasingly hair-raising.

Ye Yuan’s figure was gradually engulfed by the tsunami, and never surfaced again.

Yuan Zhen and the rest panted heavily, their complexions pale as they let out a long sigh in relief and said, “This guy is finally dead!”

On the humans’ side, the hope that just ignited was utterly extinguished by the Grand Spatial Rend Art.

But right at this time, a weak voice suddenly sounded out in the crowd.

“Everyone, listen to my command! After three breaths of time, everyone must use their strongest move and attack the direction that I point at!”

The one speaking was precisely Ye Yuan!

Everyone did not know when he actually returned to their side. Furthermore, appearing in the crowd.

But hearing what he said, everyone’s hearts turned somber, all getting ready.

Ye Yuan ignored others and began counting down!

Unrivaled Medicine God

Chapter 2325: Breaking the Deadlock and Pursuit!

“Three!”

“Two!”

“One!”

“Strike!”

Ye Yuan flicked his sleeves grandly, a streak of sword light broke through the spatial turbulent flow and pointed at a star in the starry web.

The human powerhouses had long already been accumulating power, waiting to release. For a moment, countless attacks cut through the sky, flying straight for that star!

Yuan Zhen and the rest had not recovered to their senses from Ye Yuan escaping the Grand Spatial Rend Art yet when they discovered countless powerful attacks tearing across the air and arriving.

And the place where Ye Yuan’s sword pointed was precisely the weakest point of the Grand Xingtian Heaven Locking Art currently!

A large-scale spell activated by several tens of thousands of people at the same time, it was impossible to be without flaws.

Except, the Grand Xingtian Heaven Locking Art had always been in continuous operation. The weak spot also drifted from place to place.

Coupled with that this spell’s power was incredible, it could infinitely weaken the weakness of this spell.

Wanting to find this spell’s weakness was virtually impossible.

But now, it was found by Ye Yuan!

Ye Yuan suffered so many attacks and narrowly escaped death. It was for the sake of this moment.

It was true that this spell was incredible, but it had one great weakness. It was that it was pieced together!

With 36 thousand people joining together, the spell’s power was incredible and unmatched.

To those who did not know spatial law, or with very weak comprehension of spatial law, this spell had no weakness.

But Ye Yuan was proficient in spatial law, his spatial law had long already reached peak rank seven.

Plus, Ye Yuan's array formation already reached the level of source. When he looked at this spell, it was completely different from the rest.

Just one look and Ye Yuan saw through that this enormous spell was constructed out of 12 center pivots.

Hence, he entered the boundary of one of the center pivots.

The place that he entered was actually very ingenious. It was a place out of the reach of other hubs.

Hence, he kept testing this spell, in order to find the weakness of the Grand Xingtian Heaven Locking Art.

During this process, Ye Yuan deeply felt this spell's power and profound mysteries. A magnificent spatial world unfolded before him.

To Ye Yuan, this array formation seemingly analyzed spatial law piece by piece, revealing to him the profound mysteries of spatial law.

Even though he got seriously injured, he glimpsed the profound mystery of spatial law.

At the final juncture, Ye Yuan's spatial law successfully broke through to rank eight.

Furthermore, he also found its weakness!

"Quick! Mobilize power to help him defend!" Yuan Zhen yelled loudly in a panic.

However, it was already too late!

Having just executed the Grand Spatial Rend Art, it already drained a tremendous amount of their strength. There was no way to recover within a short time.

Ye Yuan grasped precisely this opportunity to launch a fatal blow.

Above the void, the multicolored attacks arrived in an instant, erupting with an incomparably fierce sound.

"Puff!"

The divine race powerhouse in that position having received countless attacks all at once was directly shocked into spewing out fresh blood wildly. He kicked the bucket, dying until he could not be dead.

This star was directly destroyed!

While at this time, the human powerhouses could sense that the void which was sealed tightly finally revealed a trace of gap.

It was precisely this trace of gap that made all human powerhouses ecstatic.

"Second Sage is mighty! Second Sage is mighty! Second Sage created a miracle by himself!"

"Second Sage is a man of his word! He's really bringing us out!"

“After this battle, we’ll reverse Second Sage as supreme!”

... ..

For a moment, sentiments were at a high.

The human powerhouses were shedding tears of gratitude with regards to the miracle that Ye Yuan created.

Many people even cried bitterly.

This process from despair to hope, made many old things become melancholic and sentimental.

“Don’t be happy too early! It’s not over yet! Everyone, continue attacking with me!”

Right then, Ye Yuan called out again in a clear voice.

Swoosh!

Another streak of sword light flashed across!

This time, everyone’s attacks became more orderly. Their power also became a magnitude greater.

Countless attacks rumbled towards the starry web again, another star was extinguished!

“Again!”

Ye Yuan did not hesitate, launching fierce attacks towards the starry web over and over again. The stars that were destroyed also got more and more.

This starry web became a dreamcatcher.

The sealed space had greater and greater undulations and was already unable to seal space anymore.

The Grand Xingtian Heaven Locking Art collapsed with a loud bang!

Ye Yuan bellowed loudly, “Everyone, charge over together!”

These divine race powerhouses were still very formidable; their combat power was still extremely strong.

It was just that without the Grand Xingtian Heaven Locking Art, they were no longer able to trap the human powerhouses anymore.

They could kill a portion of the human powerhouses but were unable to make all of them stay.

Heavenly Emperor powerhouses were adept in spatial law. Wanting to kill them was too hard!

This was also the reason why Oringuard set up this Grand Xingtian Heaven Locking Art, trapping everyone in this manner.

The humans could not win, but they could run!

The Oringuard who was currently in a fierce battle, his expression suddenly changed wildly, a shocked expression on his face.

“This is impossible! The Grand Xingtian Heaven Locking Art was actually broken?”

Originguard lost focus and was also seriously injured by Medicine Ancestor two people.

Medicine Ancestor two people sensed the loosening of space, faces revealing wild ecstasy.

Not just them, those Deva Realm powerhouses similarly had the wild elation of having survived a calamity.

Even though their opponent was extremely strong, they could run away now!

Forcing Originguard back with one move, Medicine Ancestor did not say a word, and he directly shuttled into the void with a flash.

Wing let loose a torrent of abuse when he saw the situation, “You shameless old thing! You have no sense of responsibility at all! Cloudheart Realm has so many people, yet you don’t care about them?”

Originally, everyone was sealed firmly in this space and had nowhere to retreat, and they could only band up.

Now, the Grand Xingtian Heaven Locking Art was broken, which also broke the unity of these human powerhouses.

Now, they only had one thought, that was to run!

Those Deva Realms had monstrous strength. They were naturally the first batch to escape.

Even Ye Yuan this side also had many powerhouses who chose to escape straight away.

The originally united army instantly became scattered and disunited.

But those powerhouses that gathered around Ye Yuan since the beginning, all of them did not leave.

They still followed Ye Yuan, retreating in an orderly manner.

Ye Yuan’s injuries were extremely severe, forcefully hanging in there with a breath until now.

Ji Mo as well as several experts guarded by his side, and let him consume several medicinal pills. Ye Yuan’s injuries were already brought under control.

In this battle, the humans suffered great losses. The casualties of elite alchemists made up the most part.

But the divine race was no better as well. Their losses were similarly tragic.

Ye Yuan’s several rounds of charging killed large numbers of abyss monsters and divine race members.

Except, divine race powerhouses were low in numbers after all. The ones charging in front were mostly abyss monsters.

Therefore, even though this battle was tragic, the divine race’s losses were not very great.

But the fight was not over yet!

Although the Grand Xingtian Heaven Locking Art was broken, these divine race powerhouses were still pursuing them.

Because Ye Yuan cracked the Grand Xingtian Heaven Locking Art, he also received heavy focus on his side. At the same time, countless powerhouses were chasing him.

After Medicine Ancestor fled, Wing was alone and could not do much, and was no longer Oringuard's match very soon.

It was only to see Oringuard send Wing flying in no time flat.

However, he did not chase after.

Oringuard's current rage was already billowing to the sky!

The scheme that he carefully designed was actually ruined by a brat!

Swoosh!

Oringuard's figure moved, rushing over toward Ye Yuan.

[Unrivaled Medicine God](#)

Chapter 2326: Reinforcements Arrive

Ye Yuan was bringing along a wave of powerhouses and currently fighting while retreating when suddenly, a powerful to the extreme aura arrived from afar.

Ye Yuan's expression changed wildly and immediately realized that Oringuard had lost it!

There was no time to think too much. Ye Yuan directly did a greater teleportation and left the team.

"Ji Mo, bring Yun Yi they all away. I'll go and lure that old fellow away!"

Ye Yuan threw behind this sentence and left in a hurry.

Sure enough, the moment he left, the two did not say a word and chased right after.

But currently, Ye Yuan already comprehended eighth firmament spatial law, his speed of shuttling through the void was quick to the extreme. Oringuard could not catch up in a short while too.

"Kid, no matter up in the heavens or down below the earth, this ancestor will tear your corpse to pieces."

Oringuard's voice revealed a bone-piercingly cold intent, exhibiting his current anger.

Sensing the powerful aura behind him that got closer and closer, Ye Yuan could not help having the jitters.

This Oringuard was too strong!

His speed was swift to the extreme. Even if Ye Yuan comprehended eighth firmament spatial law presently, he was still far inferior to Oringuard.

Seeing the Originguard whose momentum was overpoweringly whizzing past, the faces of Ji Mo and the rest were extremely ugly.

“Not only is Second Sage extremely talented, but his character is also incredibly righteous! He did not hesitate to use himself as bait in order to protect us.”

“*Heh*, Medicine Ancestor as the alchemy path’s number one person, when Second Sage broke the fetters of space, Medicine Ancestor was the first to run. It really makes people feel disappointed.”

“If I can escape this time, this emperor will only follow Second Sage’s lead! It’s just ... I don’t know ...”

This Heavenly Emperor powerhouse said halfway and could not continue anymore.

Originguard was too strong, strong until he made them feel asphyxiated.

Even Medicine Ancestor and Sacred Ancestor High Priest teaming up was not his match, with Ye Yuan’s bit of strength, could he return alive?

Facing the Grand Xingtian Heaven Locking Art, Ye Yuan created a miracle.

But Originguard was not the Grand Xingtian Heaven Locking Art. He could rival a Grand Xingtian Heaven Locking Art on his own.

The Grand Xingtian Heaven Locking Art had weaknesses. Ye Yuan could find its weakness, but ... Originguard had no weaknesses!

At least, at Ye Yuan’s level, even if he knew Originguard’s weakness, he did not have the ability to defeat Originguard.

The two people, one in front and one behind, shuttled through the void. Originguard’s speed was unbelievably fast.

He moved among the spatial turbulent flows like it was flat ground. Those violent spatial storms did not have any effect on him at all.

But within two to four hours, Originguard gradually caught up to Ye Yuan.

“*Heh heh*, see where you can still run to! Ruining this ancestor’s plans, prepare to die!”

Originguard gave a cold laugh, a fist punched out with a rumble.

Dao marks flickered. A horrifying to the extreme power directly split the spatial turbulent flow into two, tearing across the air and arriving.

That appearance was like a punch split the sea into two, leaving people tongue-tied.

Ye Yuan’s hair stood on end, feeling that the entire world was collapsing.

The horrifying power surged over toward him from all directions, completely sealing off his space, not giving him any room to escape at all.

Originguard’s punch was in anger and alarm.

Anger was due to Ye Yuan ruining his plans, making him fall short of success at the last second.

Alarm was due to Ye Yuan's talent being too terrifying. He already overestimated Ye Yuan's talent as much as possible.

But in the end, he discovered that he still underestimated Ye Yuan.

The existence who created the Grand Xingtian Heaven Locking Art was not inferior to him. Once this spell was used, it could forcefully contend with Deva Fourth Blight powerhouses.

Him being able to launch the ambush this time, his biggest reliance was the Grand Xingtian Heaven Locking Art.

But who knew that Ye Yuan actually cracked this invincible spell.

Such talent, if he allowed Ye Yuan to continue growing up unchecked, it would be a devastating blow to the divine race.

Hence, he had to kill Ye Yuan at all costs.

He realized that compared to this Cloudheart Realm's countless alchemy path powerhouses, Ye Yuan's threat was clearly greater.

Letting the tiger return to the mountain, there would be no end to future troubles!

This punch, Oringuard did not hold back in the slightest, directly using his strongest strike.

He planned on killing Ye Yuan with one punch, so as to end all future troubles.

With this armageddon-like punch being struck over, Ye Yuan did not have the strength to resist all.

The force had yet to arrive and Ye Yuan already spewed fresh blood wildly. His entire body was like he was hauled out of bloody waters.

This time, he was truly powerless.

Oringuard was not Nineorigin. This punch of his did not give Ye Yuan any chance at all.

Moreover, even if Ye Yuan took Oringuard into the chaos world, it was also impossible to kill him.

Just as Ye Yuan lost all hope, a figure walked out of the void.

It was only to see him draw a circle in the void with both hands, directly covering Ye Yuan and himself.

Bang, bang, bang ...

This shield emitted intense tremors, the spatial turbulent flow was directly blown apart.

But this seemingly unremarkable shield actually defended against Oringuard's fatal punch.

A middle-aged man in coarse cloth was standing in front of Ye Yuan.

Ye Yuan was certain that he had not seen this middle-aged man before. But he did not know why this person would come to save him.

Oringuard arrived with a howl. Seeing this middle-aged man, his face had a gloomy look.

His certain-kill strike was actually blocked by this middle-aged man. His irritation could be imagined.

“Who are you? To actually dare ruin this ancestor’s plans?” Oringuard looked at the middle-aged man and said in a solemn voice.

The middle-aged man said coolly, “Jian Family, Jian Yunxin.”

This middle-aged man was shockingly the son of Heavenly Emperor Profound Secrets, Jian Yunxin!

Ye Yuan’s pupils constricted, he did not expect that the one who saved him at the final juncture would actually be a member of the Jian Family.

Oringuard’s brows furrowed and he said, “Jian Family, Heavenly Emperor Profound Secrets! I’ve long heard that Heavenly Emperor Profound Secrets calculated everything happening in this world. Attacking Cloudheart Realm this time, I already request Ancestor to take action, to shield heaven’s secrets. I didn’t expect that it was still divined by him. Looks like I underestimated members of the Jian Family.”

Jian Yunxin said coolly, “Your esteemed self indeed did it without a trace. But not long ago, heaven’s secrets suddenly had a change, letting Ancestor detect a trace of abnormality.”

When he said this, Oringuard and Jian Yunxin’s eyes both landed on Ye Yuan.

Clearly, this trace of heaven’s secrets’ change landed on Ye Yuan.

Jian Yunxin did not know the inner reason, but Oringuard understood in his heart.

Originally, this plan of his was indeed flawless.

Logically speaking, it was impossible for everyone to escape the Grand Xingtian Heaven Locking Art.

But Ye Yuan broke through right then, cracking the Grand Xingtian Heaven Locking Art, shattering this trace of heaven’s secrets. That was how it let Heavenly Emperor Profound Secrets detect a trace of abnormality.

This could be said to be a trace of coincidence, and could also be said to be Oringuard’s mistake.

If Ye Yuan was not at Cloudheart Realm, no one would have been able to crack the Grand Xingtian Heaven Locking Art at all.

including Medicine Ancestor, everyone would have to die here.

But Ye Yuan happened to be here. He was the greatest variable in this big event, but no one calculated his existence.

Once heaven’s secrets moved, it made the outcome of the matter have an unexpected change.

Oringuard was livid with rage and said in a solemn voice, “Truly, considerations will have oversight. I didn’t expect that this brat is already strong until the extent that he can influence heaven’s secrets. If I’d long known that it would be like this, this ancestor would have directly planned to kill off this brat first.”

Jian Yunxin said coolly, “Saying more words is pointless. Does your esteemed self want a battle or to withdraw?”

Unrivaled Medicine God

Chapter 2327: Former Glory!

“Oh? You seem to be very confident, then this ancestor will size you up and see how much capability you have then!”

The divine race were all extremely confident in themselves. Furthermore, after this campaign, he was extremely apprehensive of Ye Yuan and naturally not willing to let him leave just like this.

Right away, the two people came to blows like lightning.

Before that, Jian Yunxian flicked his sleeves and swept Ye Yuan away.

It was only to hear a series of explosions came from amidst the spatial turbulent flow. It was as if heaven and earth were shaking.

This level of battle was even more horrifying than Medicine Ancestor three people’s battle previously.

Ye Yuan was filled with fear. Only now he was aware that Oringuard was still hiding his strength!

The divine race was really powerful until it made people despair!

Ye Yuan understood that Oringuard only suppressed his strength in order to wipe out all of the alchemy path powerhouses.

Otherwise, if he used his full strength, the Grand Xingtian Heaven Locking Art would not be able to withstand it at all.

That way, whether or not he could eradicate Medicine Ancestor and Wing was hard to say, but wanting to wipe out all of the alchemy path powerhouses, that would have been impossible.

At this time, Oringuard did not have the slightest scruples, showing his full strength. It was truly heaven-shocking.

But what shocked Ye Yuan even more was that Jian Yunxin’s strength was actually not the slightest bit inferior to Oringuard.

These two people fought until the sky was rent asunder and the earth split open amidst the spatial turbulent flows, being locked in a tangled battle.

No idea how long had passed. Jian Yunxin appeared in front of Ye Yuan again, his breathing being slightly chaotic.

Clearly, he did not occupy much advantage in this great battle.

Of course, Oringuard withdrew at this point. Clearly, he could not do anything to Jian Yunxin as well.

Oringuard withdrawing, the other divine essence powerhouses naturally no longer stayed behind, and also retreated one after another.

This astonishing assault ended here.

In this battle, even though the humans cleared the ordeal narrowly, the losses were extremely heavy.

The humans lost close to 60% of their elite alchemists!

The entire Cloudheart Realm collapsed completely, causing more than half of Medicine Ancestor's disciples to perish.

Sacred Ancestor High Priest suffered heavy injuries, and his disciples also had three people who died.

The various progenitors also sustained casualties.

The whereabouts of the alchemy path's number one person, Medicine Ancestor, were unknown.

The entire alchemy world virtually suffered a devastating blow.

It could be said that Originguard's plan succeeded by half.

After this battle, the world was shocked!

A race called the divine race rose up from the abyss, and the disaster engulfed the entire Heavenspan World.

Very soon, another explosive news broke out.

The divine race's eight lineages came out in unison, breaking the three abyss seals, and unleashed a horrifying confrontation with the demon race's Eight Sacred Clans.

The Abyss Suppressing Eight Realms returned in a miserable defeat.

The powerhouses of the Eight Sacred Clans that perished were countless, the losses extremely heavy.

But later, a little girl's crying suddenly sounded out.

Following that lightning flashed and thunder rumbled. Floodwaters surged massively and the sky was rent asunder and the earth split open. It was as if the end had come.

In an instant, countless divine race powerhouses and abyss monsters were exterminated before it repelled the divine race's attack.

One stone stirred up a thousand ripples. The entire Heavenspan World was shocked.

One had to know, the Eight Sacred Clans' foundation was extremely deep. Their strength was an apex existence when placed across the entire Heavenspan World, not just in the demon race.

But who knew that they actually could not stand up to a single blow in front of the divine race army!

Finally, the Abyss Suppressing Eight Realms collapsed, turning into rubble.

The divine race led the abyss army and officially stepped into the Heavenspan World.

The curtains of the Doomsday Battle officially drew!

At the Heavenspan World's various places, the divine race emerged like groundhogs.

The two world's barrier already became riddled, being full of holes.

Or one should say that the divine race already utterly grasped the method to pass through the barrier. They came and went as they pleased, causing great harassment to the Heavenspan World.

At Heavenly Eagle Bodhidharma, Ye Yuan and Jian Yunxin sat facing each other.

“In this battle, Young Friend Ye’s merits are the greatest!” Jian Yunxin said.

“Why does Senior say this?” Ye Yuan said.

“In this battle, a slight tug in one area will affect the situation on the whole. The divine race has been silent for trillions of years. But this time, they prepared for everything. Young Friend Ye disrupted heaven’s secrets and disrupted the divine race’s overall plan. Therefore, I say that your merits are the greatest!” Jian Yunxin said solemnly.

Once the divine race quietly wiped out all of the alchemy path elites, the consequences would be too ghastly to contemplate.

Once they launched a surprise attack and the human race was caught by surprise, the flames of war would burn across the entire Heavenspan World very quickly.

That way, the losses would be much more terrifying than now.

Currently, Originguard’s plans were ruined, and the humans were prepared in advance. The losses had naturally been reduced significantly.

Ye Yuan did not claim credit, but he frowned instead and said, “Heavenly Emperor Profound Secrets has calculated everything in the world and grasps heaven’s secrets. Moreover, those major powers have long known about the divine race’s matters perfectly clear. So why can’t they prepare for the divine race’s chaos early?”

Jian Yunxin discerned Ye Yuan’s dissatisfaction and could not help laughing as he said, “Young Friend Ye, you take the divine race too lightly! This emperor knows that your combat strength is unparalleled, but the entire human race only produced you alone! You don’t know what kind of terrible price the human race and demon race have paid for the sake of the Heavenspan World today! In the last Doomsday Battle, even though the human race suppressed the divine race in the Abyss World, they suffered a great loss in vitality too, eight to nine out of ten top experts dying! Furthermore, in that battle, many Dao teachings went extinct, greatly limiting the human race’s development. Even up till today, the human race hasn’t fully recovered.”

“Everyone says that Heavenly Emperor Profound Secrets knows everything, but these people don’t know that heaven’s secrets are unfathomable! Especially concerning Doomsday Battle this sort of major event, how could it be calculated accurately? Father has long set about to prepare to deal with today’s change. It’s just that he also didn’t expect that the divine race came into being several thousand years earlier than he had calculated. With this, it disrupted all of his plans.”

Regarding this level of secrets, Ye Yuan really did not know much.

It was just that the divine race was not that impressive in his view.

He thought that as long as the humans dealt with it carefully, they would be able to defeat them.

It was just that looking at it now, he was too naive.

But hearing Jian Yunxin's words, Ye Yuan remembered Oringuard's words.

The human race's former Alchemy Dao was extremely glorious.

It was just that presently, all of it had declined.

Even Medicine Ancestor this strength was likely a rookie when placed in the last epoch too.

Looking at it like this, the former human race had indeed reached unprecedented glory.

Most likely, powerhouses that had touched the power of source were far from just one!

Furthermore, when Ye Yuan was in the Ancient God Battlefield, the Emyrean Vast Universe who gave him the bone sword also once said that ancient geniuses were extremely strong. Each and every one of them was incredibly talented.

Under the two-phase confirmation, the present human race was really weak to the max.

He also gradually believed Jian Yunxin's words at this time.

It was not that the human race did not want to respond, but that they were powerless to respond!

"Then ... What about those Dao Ancestor powerhouses? Aren't they invincible existences? Could it be that even if they take action, they can't suppress the divine race too?" Ye Yuan asked curiously.

Jian Yunxin laughed in spite of himself and said, "Dao Ancestors? That's right. Dao Ancestors indeed control the laws in an area. It's just a shame that ... they are the human race's Dao Ancestors!"

Ye Yuan's brows furrowed and he said, "What does this mean?"

Jian Yunxin smiled and said, "Do you know who shouldered the responsibility of Dao Ancestor in the previous epoch?"

Ye Yuan's pupils constricted and he said in shock, "Could it be ... the divine race?"

Jian Yunxin nodded and said, "That's right, it's precisely the divine race! The divine race powerhouses have unparalleled combat power. Coupled with the augmentation of laws, they were virtually invincible existences!"

[Unrivaled Medicine God](#)

Chapter 2328: Primeval War Realm!

"Since they were invincible, how did the human race defeat them?"

Ye Yuan's brows furrowed slightly, a look of incomprehension showing on his face.

Jian Yunxin smiled slightly and said, "There is no doubt that Dao Ancestors are strong, but they have a fatal weakness. And our human race grasped precisely this fatal weakness. That's how we completely defeated them."

Got to say, Ye Yuan's curiosity was completely aroused.

This was the Heavenspan World's top secret. He could not imagine it at all previously. It turned out that Dao Ancestors actually still had weaknesses.

"What weakness?" Ye Yuan asked curiously.

Jian Yunxin said, "The law blessing of Dao Ancestors is periodic, and it is not eternal. Every epoch, the law blessing of Dao Ancestors will be taken back by Heavenly Dao. And in this period, Dao Ancestors will return to their most primitive state, becoming ordinary people. And it's this period that's the weakest period of Dao Ancestors. In the last epoch, the human race had been secretly accumulating strength all along, and exploited this weakness of Dao Ancestors, dragging them down the horse."

Ye Yuan's mind shook wildly when he heard. Only then did he know that Dao Ancestors still had such a secret.

He had always thought that Dao Ancestors were eternal and invincible. He did not expect that they actually still had such a weakness.

It was just that an epoch was too long. Hence, in the eyes of people like Immortal Grove and Dustless, Dao Ancestors' invincibility was eternal.

"Since that's the case, why don't the present Dao Ancestors take action to suppress the divine race. Right now, the human race's Dao Ancestors shouldn't have been taken back by Heavenly Dao, right?" Ye Yuan asked.

Speaking of this, Jian Yunxin revealed a trace of disdain and said, "The current Dao Ancestors, *heh heh*, with the blessing of laws, they are indeed very strong. It's just that you're underestimating the divine race too much. You can imagine, if a cat is blessed by laws and a tiger is blessed by laws, can their strength be the same?"

"The divine race's eight lineage's progenitors were former Dao Ancestors. Although the power of law that was blessed on them was taken back by Heavenly Dao, they could personally comprehend the power of laws. An epoch of comprehension is no joke. Back then, the human race's top experts almost died out and failed to kill these ancestors too. They could only suppress them. Now, their strength is fully restored; each person's strength is not beneath Dao Ancestor."

"In contrast, the present human race's Dao Ancestors are merely a bunch of people who got hella lucky, obtaining the crystal of law in the Heavenspan Battle by chance. That's how they have today's glory."

Ye Yuan sucked in a cold breath when he heard. He did not expect that the strength of the divine race's forefathers was actually strong to such an extent that they did not even fear Dao Ancestors too.

Furthermore, hearing Jian Yunxin's tone, Heavenly Emperor Profound Secrets' strength was likely not too far off from Dao Ancestor even if he was not as good.

His strength might even be on par with Dao Ancestors!

Heavenly Emperor Profound Secrets was indeed the most terrifying existence among the Deva Fifth Blights!

Ye Yuan reckoned that he was likely an existence who could have a dialogue with Dao Ancestors.

But looking at it now, both race's top combat powers were both fearful of each other. Hence, they did not make a move.

The divine race was clearly waiting, waiting for that moment when Heavenly Dao took back the power of law.

At that time, the humans would no longer have powerhouses that could compete with the divine race's progenitors anymore.

Ye Yuan suddenly thought of Daymeld and wondered if he could be the ancestor of one of the divine race's lineages. Hence, he opened his mouth and asked.

Hearing Ye Yuan mention Daymeld, Jian Yunxin could not help getting a shock and said, "There's actually still such a thing? Young Friend Ye, you've rendered a huge contribution to the human race! This Daymeld is the second generation ancestor of the divine race's Heaven Lineage. Even though his strength isn't as good as a progenitor's, it's also not far away. Back then, the human race expended a tremendous price in order to suppress him. I heard that in order to suppress him, the human race lost many Deva Fourth and Fifth Blight powerhouses! Once he comes into being, he shall be a major combat power of the divine race."

Ye Yuan was also incredibly shocked after hearing it.

Back then, he felt that those words that Daymeld said were somewhat bragging.

Looking at it now, what he said was not false.

Daymeld's strength was likely much stronger than Oringuard.

"Alright, better talk about official business then. Even though Young Friend Ye's combat power is unparalleled, concerning the Heavenspan World's major matters, you still can't worry about them for now," Jian Yunxin suddenly said.

Ye Yuan raised his brows and asked curiously, "Oh, what is senior looking for me for?"

Jian Yunxin said, "Actually, ever since Father attained Dao, he calculated that the human race will have this calamity. Hence, in this epoch, he has been preparing for this catastrophe ..."

When Ye Yuan listened to what Jian Yunxin said, he was filled with deep respect in his heart toward Heavenly Emperor Profound Secrets.

It turned out that ever since Heavenly Emperor Profound Secrets attained Dao, he had been making plans for the human race's future.

He spread the Jian Family's forces throughout the Heavenspan World. It was actually to recruit talents for the human race.

Except, even though the humans won the apocalyptic great battle, it was a pyrrhic victory too. Countless Dao teachings became extinct.

After the human race had been through billions of years of recuperation, they finally recovered some vitality.

It was just that compared to their prime, this kind of human race was still not worth mentioning.

The Ancient God Battlefield that Ye Yuan had gone to before, was actually the ruins of the Doomsday Battle.

The area that he had gone to back then, was merely the tip of the iceberg of the Ancient God Battlefield.

Although that place was a wasteland, there were countless soul treasures hidden.

Heavenly Emperor Profound Secrets expended immeasurable effort, extracting the top 100 human legacies from the Ancient God Battlefield.

Among them, there were ten legacies that were left behind by the human race's top major powers back then, their power boundless, already reaching the level of law.

Apart from this, Heavenly Emperor Profound Secrets even opened up a small world called Primeval War Realm with a great divine ability.

This small world was used to select the most outstanding geniuses of the human race, entering the land of inheritance, and accepting the human race's top legacies.

However, the divine race's suddenly coming into being disrupted all of Heavenly Emperor Profound Secrets' arrangement, making these geniuses have no time to grow up.

But to act was always better than not doing anything. It was ultimately better than allowing one to be seized without putting up a fight.

Taking advantage of the fact that Dao Ancestors still had deterrent power, Heavenly Emperor Profound Secrets had to carry out this plan in advance.

Jian Yunxin coming here was in order to invite Ye Yuan to enter the Primeval War Realm and take part in the battle of geniuses.

Ye Yuan shuddered with fear when he heard it. Heavenly Emperor Profound Secrets actually extracted a hundred inheritances from the ruins of the war. This kind of means was simply inconceivable.

However, this was a huge project. Heavenly Emperor Profound Secrets likely expended a tremendous effort on this.

"Heavenly Emperor Profound Secrets exhausted himself and racked his brains for the human race. This Ye has wronged him. Senior, please apologize to Heavenly Emperor Profound Secrets on this Ye's behalf." Ye Yuan said sincerely.

He previously thought that Heavenly Emperor Profound Secrets and many others, these major powerhouses, hurdled up like turtles, each and every one of them being self-centered. That was how the human race fall into such a dangerous situation.

Looking at it now, it was him who wronged Heavenly Emperor Profound Secrets.

Heavenly Emperor Profound Secrets was the human race's true hero, being worthy of Ye Yuan's respect.

Toward such a person, Ye Yuan had never been stingy with his admiration. A mere apology was naturally nothing.

Jian Yunxin waved his hand and said, “Young Friend Ye’s actions and behavior, this emperor has seen it. It’s true that Father’s actions are worthy of respect, but you overturning the raging tides is similarly worthy of admiration.”

Jian Yunxin said these words from the bottom of his heart too. Once Originguard’s scheme succeeded, the consequences would be too ghastly to contemplate.

[Unrivaled Medicine God](#)

Chapter 2329: New Number One Holy Land!

The battle of geniuses would begin a year later.

Ye Yuan and Jian Yunxin agreed to head to the Primeval War Realm a year later.

During this period of time, Ye Yuan had too many things to work on.

After the Cloudheart Realm battle, tens of thousands of alchemy path powerhouses gathered at Heavenly Eagle Bodhidharma.

In this battle, Ye Yuan cracked the Grand Xingtian Heaven Locking Art, saving countless alchemy path powerhouses.

What was more respectable was that Ye Yuan drew away the powerful Originguard by himself in order to protect these alchemy path powerhouses. This deed had already spread throughout the entire alchemy world.

Coupled with Ye Yuan’s powerful alchemy path strength, he already became the new alchemy path leader of the Heavenspan World.

Even Sacred Ancestor High Priest’s prestige was also not as high as Ye Yuan’s currently.

Not just some itinerant cultivators, even many major factions and major family clans came over one after another too, hoping to join Heavenly Eagle Bodhidharma.

For some time, Heavenly Eagle Bodhidharma had as many powerhouses as clouds.

Bai Tong this number one powerhouse’s strength already could not hold down the fort.

Feeling helpless, Ye Yuan simply invited Sacred Ancestor High Priest to garrison Heavenly Eagle Bodhidharma.

After Sacred Ancestor High Priest recovered from his injuries, he also learned of the severity of the present situation and agreed without hesitation.

Putting it another way, this life of his was also saved by Ye Yuan.

With his ability, he would not have been able to crack the Grand Xingtian Heaven Locking Art at all.

Furthermore, him and Medicine Ancestor teaming up was also not Originguard’s match at all.

Continuing to fight, the two of them could only go down the path of demise.

And later, Oringuard also rushed to kill Ye Yuan and ignored him because Ye Yuan cracked the Grand Xingtian Heaven Locking Art.

Otherwise, it would be hard for him to salvage the situation alone. He would likely have been killed by Oringuard in a few moves.

At this time, Sacred Ancestor High Priest could not help feeling somewhat emotional.

He provided a lot of conveniences to Ye Yuan these few years, helping him to grow.

He did not expect that the one who benefited in the end was him.

Hence, when Ye Yuan requested him to come out, he agreed without the slightest hesitation.

However, when he came to Heavenly Eagle Bodhidharma and saw the Pill Tower's magnificence, Sacred Ancestor High Priest had been immersed in unbelievable shock these few days.

It turned out that the powerful ones in Heavenly Eagle Bodhidharma were not just Ye Yuan master and apprentices three people.

The strength of each alchemist here was much stronger than same rank alchemists in the outside world.

It was also that Heavenly Eagle Bodhidharma's development time was too short.

Otherwise, this place would be the true alchemy path's number one holy land.

Cloudheart Realm was simply weak to the max compared to this place.

Dao Realm powerhouses that were hard to come across in the outside world, were like cabbages in this place.

Especially the alchemists that were the first batch to join the Pill Tower, their current strength already reached an inconceivable height.

For so many years, Sacred Ancestor High Priest only paid attention to Ye Yuan.

In his view, only Ye Yuan this person was worth him paying attention to.

As for the Pill Tower, he thought nothing of it at all. He also never paid attention to it before.

An alchemy path holy land that had risen for merely over a thousand years was simply not worthy of his attention.

Not everyone was Ye Yuan.

No matter how capable Ye Yuan was at teaching disciples, in one thousand years' time, the faction that he established also could not be very strong.

Not just Sacred Ancestor High Priest, all the alchemy path powerhouses who came to Heavenly Eagle Bodhidharma, each one was in shock.

One person being a genius was understandable, a city full of geniuses, this was simply incomprehensible.

How many geniuses could a mere imperial city gather?

Being able to produce a heaven-defying Ye Yuan, this was already a fortune that was cultivated for eight lifetimes.

But when they really came here, only then, did they discover that they were totally wrong.

Outrageously wrong!

The cultivation method of the alchemy path powerhouses here was completely different from them.

They immersed in the comprehension of Dao daily, but the alchemists here did not comprehend on Dao at all.

They repeated the simplest and most basic practice day after day, year after year.

Even the medicinal pills refined were very basic too. There were none of those seldom-seen medicinal pills.

These fundamental skills, they simply held them in contempt, and they never thought of practicing them before as well.

If not for Ye Yuan's two disciples being so heaven-defying, if someone said to cultivate like this in front of them, they would definitely have smacked the other person to death with one slap.

Wasn't this sort of cultivation method purely a waste of time?

But Ye Yuan used facts to tell them that this was the correct way to cultivate!

"Sigh, this old man always thought that you relied on talent to have today's strength. At least, talent accounted for the absolute cause and effect! But didn't expect that you walked until today with such a method. Looking at it now, I was wrong; the world was wrong! Your Dao points directly at the source," Sacred Ancestor High Priest said with vicissitudes of emotion.

Ye Yuan smiled and said, "It's not necessarily the case. The basic alchemy techniques that the Pill Tower cultivates, I've already improved them many times. Cultivating it now, it's easier to come into contact with the level of Dao."

As Ye Yuan's strength continuously grew stronger, his horizons also grew higher and higher.

Hence, he continuously improved the basic cultivation methods, making it easier to come into contact with the level of Dao.

It was also precisely this kind of improvement that made the Pill Tower's powerhouses became more and more.

Sacred Ancestor High Priest gave him a deep glance and said, "Before today, I'm afraid that if you went out and said that you attained Dao by cultivating like this, there's probably no one who would believe at all."

Ye Yuan smiled and said, "It's not that no one would believe, but that they would laugh their heads off."

Sacred Ancestor High Priest laughed and said, "Indeed so."

Suddenly, his gaze flickered, and he said, "Ye Yuan, can this cultivation method be imparted to this old man?"

Ye Yuan looked at the other party in slight surprise. He did not expect that a powerhouse like Sacred Ancestor High Priest could actually let go of his self-esteem, and take the initiative to request to cultivate these most basic techniques.

This was equivalent to starting over from the top!

He could not help laughing as he said, "Senior Sacred Ancestor worries too much. My Pill Tower doesn't have the idea of hoarding our own belongings. The alchemy path powerhouses who join my Pill Tower can all undergo this kind of cultivation. It's just that I'm afraid that not many can persevere with it."

This kind of cultivation method was extremely dreary. At present, the powerhouses left in the Pill Tower were all leftovers from great tides washing away the sand.

Sacred Ancestor High Priest looked at Ye Yuan with a look of surprise and was speechless for a long time.

Only after a long time did he say, "Providing education for all without discrimination! This old man examines my own conscience and feels that I'm broadminded, but compared to you, I'm far inferior."

Ye Yuan smiled and said, "Why does Senior Sacred Ancestor say this? At present, the human race is in imminent danger. An additional alchemy path powerhouse is an additional hope. You also heard what Originguard said. For the human race to be able to win in the last Doomsday Battle, alchemy path powerhouses made tremendous contributions."

Sacred Ancestor High Priest nodded heavily and said, "What you said is right. If there are still any sectarian views at this time, then it's really seeking death!"

No idea starting from when, those alchemy path powerhouses who had once commanded the wind and clouds, all put aside their ego, and followed the Pill Tower's powerhouses to do their homework seriously.

When they put down the pride of an expert, they suddenly discovered that the Pill Tower's powerhouses could actually do the basic training so well, and so solidly.

And when they competed in alchemy with the Pill Tower's alchemists, they discovered to their amazement that many times, the quality of the medicinal pills that they refined was actually not as good as the Pill Tower's alchemists.

One had to know, each and every one of them, they were Seven-star Alchemy Gods. Some were even Eight-star Alchemy Gods!

While the Pill Tower's Seven-star Alchemy Gods were extremely few.

[Unrivaled Medicine God](#)

Chapter 2330: Developing Dao

“Senior Apprentice Brother Yun, my Cloudmoon Silver Ring Pill is always lacking a little. Can you come and help me take a look at what the problem is?”

“Senior Apprentice Brother Yun, you look at my Purple Smoke Immortal Condensing Art. What shortcomings are there still?”

“Senior Apprentice Sister Ning, your Zhen Sui Fire Controlling Technique has truly reached the acme of perfection!”

... ..

In the Pill Tower, a group of Eight-star Alchemy Gods surrounded Yun Yi and Ning Siyu, chatting and asking non-stop.

Originally, they were all struck with reverence and awe.

After all, these alchemy path powerhouses were all big shots who commanded a region.

Which Eight-star Alchemy God was not looked up to by millions in the Heavenspan World, an existence that had people cluster around them like a myriad of stars surrounding the moon?

But here, they were like elementary school students.

When they just arrived, they naturally wanted to get Ye Yuan’s guidance.

But Ye Yuan very naturally threw it over to Yun Yi and Ning Siyu. Very soon, they shut up collectively.

They all, these Eight-star Alchemy Gods, actually could not beat Ye Yuan’s disciples!

Only then did these big shots discover that Ye Yuan’s cultivation method was indeed astonishing!

Hence, they put away their pride and studied in-depth with Yun Yi and the rest on a daily basis.

But the more they communicated, the more horrified they got.

The depth of Yun Yi and the rest’s insights, made them perspire from embarrassment.

One had to know, Yun Yin’s current realm was still low.

After his realm came up, he could completely crush them, these big shots.

Suddenly, there was a commotion in the crowd. Several figures walked in.

Yun Yi and the Ning Siyu hurriedly got up and gave a bow to the arrivals.

“Master! Lord Sacred Ancestor!”

Ye Yuan nodded his head and said smilingly, “Do you have any gains from communicating with seniors these few days?”

The two said, “Benefited a lot!”

Ye Yuan nodded and said, “*Mn*, everyone present is a senior whose name shakes a region. You guys have to be more humble and learn more things from them.”

The two hurriedly said, "Yes!"

All the Heavenly Emperors perspired from embarrassment. Ye Yuan's words were simply face-slapping!

These few days, they had long already been brought into submission by Senior Apprentice Brother Yun Yi and willingly followed them to cultivate.

To talk about learning, it should have been them who were learning.

One of the Heavenly Emperors smiled bitterly and said, "Younger Brother Ye, aren't you slapping our faces here? Young Friend Yun's realm is just not there yet. Otherwise, what has it got to do with us, these old fellows? Second Sage, we all, these old fellows, really didn't expect that even your disciples are so strong! Heavenly Eagle Bodhidharma being the number one alchemy path holy land is true to its name!"

This Heavenly Emperor was called Heavenly Emperor Nao Hua, a late-stage Eight-star Alchemy God. His seniority was extremely high and his influence in the alchemy world was also immense.

But these few days, he was utterly convinced by the Pill Tower.

Ye Yuan smiled and said, "Brother Nao Hua misunderstood! When this Ye teaches disciples, the first priority is to guard against arrogance and rashness, and to not to be self-conceited. No matter how high their realm, how strong their strength, they also can't underestimate their opponents. Stones from other hills may serve to polish the jade of this one. Learning from other people's strong points and making up our deficiencies are the right way."

When everyone heard, they were slightly stunned in their hearts.

It turned out that Ye Yuan was not being modest, he was just expounding on a fact.

In Ye Yuan's heart, Yun Yi was stronger than them!

But even if he was strong, he had to put aside his ego too, and learn from others.

Thinking back now, these few days, Yun Yi had also indeed remained indifferent when granted favors or when subjected to humiliation, neither arrogant nor impetuous.

Only then did the group of alchemy path powerhouses discover that this Heavenly Eagle Bodhidharma was truly different from the rest in all aspects.

They all, these people, had been in high positions for too long. They were existences above the clouds, each and every one incomparably proud.

To make them learn from people weaker than them, it was simply impossible.

But now, they discovered that someone who was more outstanding than them was not only more hardworking but also more humble!

This kind of humility was not verbal humility, but the modesty of mentality.

Only when one was truly modest in mentality could one learn the shining points of others.

As for verbal modesty, Ye Yuan completely turned his nose up at it.

Him being strong, that was natural and right!

This point could also be seen from his words.

“Everyone, I’ve discussed with Senior Sacred Ancestor and decided that starting from next time, Heavenly Eagle Bodhidharma will start a Dao sermon! It will be started by this Ye. After this Ye leaves, Senior Sacred Ancestor will take over. He has also contacted several progenitor-level powerhouses. They have all agreed. Coming to find everyone today, it’s hoping that everyone spreads the news. Anybody, as long as they have interest in Alchemy Dao, can all come to Heavenly Eagle to listen to the Dao sermon!” Ye Yuan said.

The moment the Heavenly Emperors heard, each and every one of their faces changed greatly.

The so-called Dao sermon was to demonstrate and dissect their own Dao little by little and demonstrate it for the people listening to Dao.

This was equivalent to saying that the core-most part of one’s Great Dao would be displayed for the world.

People who attained Dao had all blazed a path through all manners of obstacles and experienced countless hardships before they had today’s accomplishments.

Each person had their own non-transmissible secret.

Even if teaching apprentices, they would also hold something back.

The so-called teaching disciples would make the master starve to death. It was this logic[1].

Think about it, if your disciples are outstandingly talented and learned all of your things, and climbed on top of your head, what sort of feeling was that?

Unless it was someone who was about to pass on, otherwise, who would be willing to do this sort of thing?

But Ye Yuan did it!

The group of Heavenly Emperors was dumbstruck with amazement from listening, sucking in a cold breath.

How broadminded did one have to be to be able to do such a thing!

Ye Yuan’s action was to teach all life, his merits the greatest!

In the history of the Heavenspan World, there had never been such a selfish figure who existed.

But Ye Yuan did it!

Not only did he do it, he even made Sacred Ancestor High Priest do it too.

The reason why Ye Yuan came to find these Heavenly Emperors, it was because of their influence in the alchemy world.

In reality, he hoped for more people to come and listen to Dao.

Without a doubt, the stronger the human race's alchemy path strength was, the stronger their confidence in contending with the divine race!

Some inklings of this could be seen from Oringuard's plan!

"*Huhu*, when I heard this news this old man was already stunned. But thinking about it, Ye Yuan's present alchemy path realm is already not beneath this old man's. Even he isn't stingy, so how can this old man fall behind him?" Sacred Ancestor High Priest said with a laugh.

Heavenly Emperor Nao Hua's expression turned somber and he said, "Second Sage as a human is able to make such an astonishing move! How can Nan Hua's meager cultivation base be kept hidden? If you don't look down on me, count Nan Hua in!"

"Count me in too!"

"Count me in!"

... ..

The Heavenly Emperors were infected by Ye Yuan's breadth of mind and agreed one after another.

Ye Yuan's way of doing things was indeed majestic. He was like that previously in the Cloudheart Realm battle and was also like this now.

In contrast, each and every one of them felt ashamed of their unworthiness.

Even though their Dao was nothing in front of Ye Yuan, but at this time they clearly could not fall behind others.

Ye Yuan clasped his hands and said with a smile, "If the human race wins this battle, the world will definitely be everyone's righteousness!"

Everyone repeatedly said dare not.

Now that Medicine Ancestor was missing, these two in front of them were the alchemy world's summit.

With their bit of strength, how could they dare show off in front of two great ancestors?

... ..

The news swept throughout the entire alchemy world very quickly like the wind.

Cloudheart Realm's alchemy path powerhouses were all elites among elites.

Even those like Empyrean Pilljade had to use connections before they could enter, the height of the threshold could be imagined.

And in the entire alchemy world, there were God knows how many alchemy path powerhouses.

Ye Yuan made no distinctions in teaching, as long as one was willing to come, they could come.

For some time, countless alchemy path powerhouses swarmed toward Heavenly Eagle Bodhidharma.
