Chapter 2361: Alright

All of a sudden, it became quiet inside the cage.

People suddenly discovered that the huge cage was only left with a few people.

Counting carefully, there were only 19 people left within the cage.

These 19 people were without a doubt the strongest 19 people!

Among them, many fought one-versus-many, then slew their opponents.

Inside the cage where the strong gathered, it could be seen how strong their strength was.

And just earlier, the last battle ended. Everyone tacitly stopped taking any more action.

A great battle until now, their consumption was huge too.

Making a move in this state was not secure.

They needed to compete for the throne of first place under their strongest state.

Pang Zhen's gaze swept across everyone and said in a solemn voice, "Those who remain are all old acquaintances already! Half a day of rest! After half a day, regardless of to what degree you recover, it will be the final battle! Wonder if everyone has any objections?"

Everyone nodded their heads one after another. Clearly, they agreed with this suggestion very much.

"I have an objection!" Yu Tanzhi suddenly said.

Pang Zhen's brows furrowed and he said, "What objection do you have?"

But Yu Tanzhi looked in Ye Yuan's direction and said smilingly, "Somebody rested three whole days more than us, how to calculate this?"

The moment these words came out, everyone looked in Ye Yuan's direction, each and every one revealing very wary looks.

Clearly, this person was referring to Ye Yuan.

Even Wan Zhen also had many powerhouses who went to provoke him.

But Ye Yuan did not have a single one!

Half a day's time, it was impossible to recover to their peak state.

How much they could recover would depend on their own ability.

However, Ye Yuan already had not taken action for a full three days!

The current Ye Yuan had swept away the decadence after fighting with Wan Zhen, his entire person in great form. Clearly, his state had already reached its peak.

Ye Yuan was troublesome in the first place, now, he was also in better shape than them.

How to resolve?

Pang Zhen's brows furrowed even harder. He really overlooked this problem.

"Kid, you explain it yourself. What should be done?" Pang Zhen looked at Ye Yuan and said.

Ye Yuan did not expect that he suddenly became the public target of scorn.

Hearing Pang Zhen's question, he just spread his hands out and said smilingly, "Anything goes for me. It's up to you guys."

He really did not care. Moreover, this sentence clearly already had the intention of targeting him.

After all, if they really wanted to put forward a complaint, they could have everyone all rest well, then get to fighting again.

But Yu Tanzhi very clearly pointed all of the spearheads at him.

Ye Yuan's indifferent attitude made Pang Zhen very displeased.

It was like they all, these so-called proud children of heaven, did not exist in Ye Yuan's eyes at all.

That appearance was like he was saying, do as you all see fit, either way, you all will lose in the end.

Sure enough, seeing Ye Yuan's attitude, these proud children of heaven all furrowed their brows, feeling like they were being underestimated.

"*Heh heh*, I have an idea, why don't everyone attack together first and finish him off. The rest will be easier," Yu Tanzhi said with a laugh.

An unpredictable child said with a smile, "*Oh?* This is a good idea!"

Although they all were disdainful to team up with the others, to be honest, they were really quite fearful of Ye Yuan.

A guy who defeated even Wan Zhen, how could they not dread?

Of course, they still had a small thought, that was to force Ye Yuan to withdraw.

Weren't you very cocky?

Didn't you leave it up to us?

Then, we'll take care of you!

Even though each and every one of them was currently not in their peak state, the strongest dozen over unpredictable children joining forces, what kind of horrifying line-up was that?

Here, no one dared to face so many people at the same time!

Even if they were at their peak state.

"Huhu, kid, since you said that anything goes for you, then we shall do so, what do you think?" Pang Zhen also had a mocking look as he said with a smile.

Others looked at him, all having fear and respect in their eyes.

Even these unpredictable children were fearful of his identity too.

But Ye Yuan was not!

He could not see the slightest trace of awe from Ye Yuan's eyes!

That was not just showing contempt for him. It was looking down on his ancestor, Ancestor Lightning!

Who would have thought that Ye Yuan grinned and lightly spat a word out, *"Alright."*

He knew that these people were all afraid of him, but so what!

All the heaven's chosen were stunned when they heard it. It was as if they could not quite believe their own ears.

Alright?

Was this guy stupid?

He was going to challenge the strongest 18 people by himself?

Even Yu Tanzhi was also dumbstruck with shock by Ye Yuan's answer.

Even though he had this intention, deliberately leading everyone in this direction.

But for Ye Yuan to actually fall for it so easily, he was still very surprised.

At this moment, the entire Primeval War Realm was in a stir!

"What did he say? Did I hear wrong!"

"No, you didn't hear wrongly! He said, alright!"

"Haha, awesome, domineering! It's just, does he have this strength? Those are the strongest 18 people!"

... ..

Everyone seemed to have heard a hilarious joke, all jeering at Ye Yuan for overestimating his own ability.

They thought about ten thousand possibilities of the final great battle, but only never thought of this.

One person, challenging 18 people!

Among these 18 people, there were at least no fewer than five whose strength was not inferior to Wan Zhen's, even surpassing by a thread. While the rest was also merely marginally weaker than Wan Zhen.

These 18 people joining forces was roughly equivalent to 18 people similar to Wan Zhen's power teaming up.

Too terrifying!

“Younger Brother Ye, don’t act based on emotions!” Wan Zhen also said with a frown.

Ye Yuan gave him a comforting look and said with a smile, “Relax, Brother Wan. It will be fine.”

Wan Zhen was rendered speechless.

This kid was really stubborn!

Even if he backed out, there were still 17 people.

Forget about facing 17 people, even facing the teaming up of Pang Zhen and Yu Tanzhi, he was absolutely not a match either.

But Ye Yuan was going to challenge 17 people, this was too crazy!

“*Hahaha* ... Good, very good! Ever since I first made my appearance in the world, I’ve never been underestimated so much before! Forget it. I’ll witness today how confident you are, to dare say such conceited words! Kid, hope that you don’t let me down too much!” Pang Zhen laughed from extreme fury.

Ye Yuan did not know Pang Zhen. Although he was surprised by his lightning source, he did not know that he was Ancestor Lightning’s successor.

However, even if he knew, he would not care either.

Hearing that, he just nodded his head indifferently and said, “*Mn*, shouldn’t disappoint you.”

Pang Zhen’s gaze was gloomy, having a look of fury on his face.

Ye Yuan’s attitude was a form of humiliation in his view.

The successor of a Dao Ancestor, what kind of venerated status was that?

This guy was actually so condescending!

“*Huhu*, good! Since that’s the case, everyone attacks together then!” Pang Zhen said with a cold smile.

“Wait!” Ye Yuan suddenly said.

Pang Zhen smiled coldly and said, “What? Scared? It’s too late!”

Ye Yuan smiled and said, “Don’t misunderstand me. It’s impossible for you guys to win me like this! You all recuperate first, it isn’t too late to attack again after recovering your strength.”

The moment these words came out, everyone was dumbfounded.

Was this kid stupid?

He actually took the initiative to want Pang Zhen they all to rest up!

[**Unrivaled Medicine God**](#)

Chapter 2362: The Strongest 17 People!

“Rest! He actually took the initiative to have Pang Zhen and the others rest up!”

“Did this kid knock his head silly when fighting Wan Zhen previously?”

“What time is it, is he still talking about whatever broadmindedness?”

... ..

Everyone exploded. They were completely unable to understand Ye Yuan’s way of doing things.

At this kind of moment when the smallest details had to be argued over, this guy became generous and took the initiative to let the others rest up.

Even Pang Zhen, Yu Tanzhi, and the rest were taken aback too, only coming back to their senses after a while.

They all, these people, were proud by nature, when had they been underestimated like this by someone before?

“Boy, are you sure?” Yu Tanzhi said with a smile that was not a smile.

Ye Yuan nodded and said, “To me, one person or a dozen over people, it’s all the same. Hence, you guys had better recover your strength first. Otherwise, this fight will be boring.”

Done talking, he sat down cross-legged and continued resting.

The 18 geniuses exchanged glances, all having a feeling of being looked down on.

They were actually being underestimated by someone!

“Very good, I want to take a look today, just how strong this punk is!”

Pang Zhen sneered coldly and immediately started to adjust his breathing.

Waves of loud laughter came from above the void.

“This kid is really overbearing! He’s actually challenging 18 people alone. This breadth of spirit, even this old man can’t compare to his spirit! Lightning, you said that he couldn’t even enter the God of War Golden List. How about now?” Heavenly Emperor Profound Secrets said with a big laugh.

All of the big shots including Ancestor Lightning, each and every one of their faces were very ugly.

In these past ten years in the outside world, they had been mocking Heavenly Emperor Profound Secrets all the way, saying that the person he chose could not even enter the God of War Golden List.

But who could have expected that at the final juncture, Ye Yuan actually came roaring into being, rising all the way until he charged to first place?

In the caged battle, Ye Yuan even shocked the world with two battles, scaring the group of geniuses to not dare to make a move against him.

In the final battle, he even challenged 18 of the strongest geniuses proudly on his own.

This unexpected way of doing things not only shocked the geniuses in the Primeval War Realm, it similarly shocked the progenitors who were spying.

Even Heavenly Emperor Profound Secrets was also stunned for a long time before he came back to his senses.

Ancestor Lightning had a sullen look as he said, "What are you showing off for? Fighting one-versus-18, do you think that he can win?"

Heavenly Emperor Profound Secrets smiled and said, "So what even if he loses? A genuine major power needs to be capable of doing what others can't, and what others don't dare to do! Not crushing geniuses of the same generation, how will one corroborate their Dao? In this epoch, didn't only the few of us old fellows emerge? Moreover, this kid dares to be so arrogant. How do you know that he doesn't have any reliance?"

The others were immediately rendered speechless.

What Profound Secrets said was right. They all, these ancestors who corroborated their Dao, which one did not crush geniuses in their same generation, before they had today?

But, even back then, they also did not dare to say that they would fight one-versus-18!

A progenitor said with a cold snort, "Profound Secrets, don't you get cocky too early! Even if he has something to rely on, it's also absolutely impossible to win! Be careful that your face gets slapped when the time comes!"

Profound Secrets' gaze swept across everyone's faces, shaking his head, and could not help laughing as he said, "Your eyesight are too narrow! When all races are facing danger, there will be a hero who rises to the sky! The stronger Ye Yuan is, the more hope the human race has! At this time, you all are still playing your little schemes. Why is there such a need?"

Everyone was speechless. Profound Secrets' words made sense, but people were all selfish. Who could truly be selfless?

... ..

Three days passed in a flash. What these top geniuses cultivated were all the top-notch cultivation methods. Recovery was also very fast.

At this time, the 18 people have all reached their peak states already.

With power in hand, it was as if strong self-confidence returned to them.

Pang Zhen looked at Ye Yuan and said with a cold smile on his face, "Kid, confidence is a good thing! But you'll discover very soon that yours isn't called confidence, but it is called conceit!"

Ye Yuan smiled and said, "Is that so? Then hope that you can prove it to me."

Pang Zhen's face turned black, this punk's smile was so annoying!

But Yu Tanzhi suddenly said, "Wan Zhen, which side are you prepared to stand on?"

Wan Zhen said coolly, "I choose to withdraw!"

Yu Tanzhi sneered and said, "Withdraw? *Heh*, what a nice plan you have! If we really fought until both sides sustained heavy injuries, wouldn't you reap the spoils of victory without lifting a finger?"

But Wan Zhen said, "Actually, I want to help Younger Brother Ye, but he definitely doesn't want me to intervene. Therefore, I can only withdraw. Of course, if you guys feel uneasy, you can also divert a few to come and deal with me!"

Ye Yuan smiled slightly, this Wan Zhen was a sensible person.

Yu Tanzhi's gaze also turned dark and he said, "Since that's the case, gentleman, after we kill this punk, we'll join forces again to kill Wan Zhen!"

Everyone nodded their heads. Clearly, everyone did not have objections.

Suddenly, a series of powerful to the extreme source power of law lit up inside the cage.

Before even making a move, that powerful aura already passed through the cage and engulfed the entire Primeval War Realm.

This was the power of 17 people joining forces!

Just feeling this aura made people feel asphyxiated.

With 17 people, several dozen kinds of source power could be seen.

Some had an overwhelming momentum, some had a majestic air, some were illusory!

Each person's characteristic was different, each person's forte was different.

These 17 people joining forces could be said to be without any weaknesses to exploit.

"So strong! Really so strong! If I were to stand there, probably before even waiting for them to make a move, I'd have directly been crushed into minced meat."

"Forget about you, if Wan Zhen was standing in the middle, he would likely have already collapsed as well!"

"I really don't know how Ye Yuan thinks. Can such an opponent be what one person can deal with?"

... ..

Wan Zhen felt this terrifying power, his complexion turning pale too.

It was a one-on-one battle previously. But now these auras were all aimed at a single person.

But now, everyone was targeting Ye Yuan alone at the same time, the feeling was completely different.

The superimposition of 17 powers was akin to 17 big mountains, it was truly incomparably heavy.

Above the void, Ye Yuan was surrounded tightly in the middle by 17 people.

Around him, a series of sword lights glimmered and faded indeterminately, the sword formation operating on its own, no joy nor sorrow on his face.

To him, this was similarly a huge challenge.

After all, these opponents were not some Tom, Dick, or Harry, but the Heavenspan World's top geniuses!

Especially Pang Zhen, the power of lightning on his body seemed to represent the heavenly punishment of Heavenly Dao; unbelievably terrifying.

"Kill!"

It was only to hear Pang Zhen roar angrily. His entire person already turned into a bolt of lightning, smiting toward Ye Yuan.

In an instant, a sea of lightning completely surrounded Ye Yuan.

That horrifying power of lightning virtually wanted to destroy the world!

Ancestor Lightning represented the power of heaven's punishment in the first place.

Pang Zhen obtained his true inheritance, how horrifying his strength was could be imagined!

At the same time, the other 16 people made a move at the same time.

One horrifying to the extreme energy undulation after another smashed toward that lightning sea, the place where Ye Yuan was standing at.

In virtually a blink of an eye, Ye Yuan was drowned by the brightly colored energy fluctuations.

People only saw that the place Ye Yuan stood practically already became a black hole.

The horrifying attack turned that side into a vacuum zone.

[Unrivaled Medicine God](#)

Chapter 2363: Rank Two Sword Source!

"The combined attack of 17 peak unpredictable children, it's too terrifying!"

"That kid is probably already blown into flying ashes, right?"

"To think that he still bragged, saying to challenge one-versus-17. Now, his face is slapped swollen, right?"

... ..

Feeling the horrifying undulations coming from inside the cage, the million unpredictable children were all shocked.

This kind of horrifying power, dealing with one person at the same time, even if he was a bastion of iron, he would also have to be blasted to smithereens.

Before taking action, the aura already billowed to the clouds.

Attacking at this time, that was truly startling heaven and earth and making gods and ghosts wept.

The 17 children displayed their strength to the fullest expression of its beauty and form.

They had the intention of embarrassing Ye Yuan and naturally did not show the least bit of mercy.

An unpredictable child said with a big laugh, *“Hahaha, really awesome! Who asked you to be arrogant! See if you still don’t die!”*

Even for them, this was also similarly the first time joining forces to deal with one person.

They did not imagine that 17 people joining forces could actually erupt with such terrifying power.

That torrential and grandiose scene made their blood seethe with excitement too.

At this time, they felt like they could smash the sky!

That pleasant sensation of being filled with power made them feel intoxicated.

Pang Zhen sneered and said, *“A fool who overestimated his own ability! You don’t know how terrifying our power is at all! You are merely a pitiful frog at the bottom of a well; that’s all!”*

Yu Tanzhi burst out laughing and said, *“Haha, Brother Pang is right! This kid is merely a frog at the bottom of a well!”*

After a bout of wanton bombardment, everyone also felt rather drained, only then, each pulling back their cultivation method.

But that region of space was still being blanketed by all kinds of violent energies.

As if everything was being annihilated.

That place was already a dead place. It was naturally impossible for Ye Yuan to survive.

“Alright, finished off this punk! Now, it’s your turn, Wan Zhen!” Pang Zhen said with a cold smile.

Wan Zhen was also dumbfounded with shock by the scene before his eyes. Under such an intense attack, even if he comprehended five great sources, it was also impossible to survive.

Ye Yuan was dead for sure.

At this time, inside Clouдаid City, Zhang Lian suddenly opened his mouth and said, *“If Ye Yuan died, he should be revived here! Has he come back?”*

A word woke up the dreamer!

In the city, tens of thousands of people looked around.

“Nope!”

“Didn’t see!”

“There doesn’t seem to be Ye Yuan!”

“Could it be that ... he didn’t die? How is that possible?”

... ..

Everyone was extremely shocked, discovering that Ye Yuan did not appear in Clouдаid City.

They did not dare to believe that under such a horrifying attack, Ye Yuan was actually still not dead.

“All in such a hurry for what? The fighting’s not over at my side yet!” A leisurely voice came out from the vacuum zone over there.

At the same time, the faces of the million unpredictable children changed at the same time.

“Impossible! Like this and he’s not even dead?”

“It’s too ridiculous, right? That area of space is already shattered!”

“How did this guy do it?”

... ..

Ye Yuan’s figure gradually appeared, and the faces of each and every one of the 17 children all became incomparably ugly.

At this time, the aura on Ye Yuan’s body was somewhat disorderly.

But, he did not receive a fatal blow!

Pang Zhen’s pupils constricted and he said in shock, “This is impossible! You ... You’re actually not dead yet!”

Ye Yuan smiled and said, “Nothing is impossible! I said it, there’s no difference dealing with one of you or 17 people. Since you all have already tested the waters, then now ... it’s my turn!”

As Ye Yuan said it casually, his fingers lifted lightly and he said, “Sword, come!”

As if hearing Ye Yuan’s summon, a mysterious power of law reverberated between heaven and earth.

Buzzing ...

“This ... My sword!”

“What’s going on here? My sword isn’t listening to orders anymore!”

“Where do you think you’re running! Stay with me! *Ahh!*”

... ..

Countless sword cries sounded out. Of the one million unpredictable children, as long as it was someone who used the sword, the swords on them all lost control at this moment, breaking free!

Swoosh!

Swoosh!

Swoosh!

... ..

Countless streams of flowing light tore across the horizon, flying into the cage.

The cage was an independent space, it could be said to be a realm within a realm of the Primeval War Realm.

But at this moment, it was as if the barrier of the cage did not exist, allowing those flying swords to pass through freely.

The sword was the leader of a hundred weapons, there were many swordsmen to begin with.

The swords flying over at this time numbered in the hundreds of thousands.

When the 17 children saw such a scene, each and every one of them was shocked until they stared dumbfoundedly with their mouths agape.

This turn of events was too ruthless, right?

“Rank two Sword Source! He gained enlightenment on it!” Pang Zhen’s expression became incomparably solemn.

Yu Tanzhi’s mouth opened wide and he said in shock, “Prior to this, he was clearly still rank one! Was it him who concealed his strength, or did he break through just now?”

Pang Zhen’s expression flickered incessantly and he said, “Must have broken through just now! If he concealed his strength, he didn’t have the need to forcefully resist our attacks!”

Yu Tanzhi stared wide-eyed and tongue-tied, and said, “This talent is also too terrifying, right? Gaining enlightenment on Dao at the last moment, furthermore ... it’s even the power of source!”

The so-called power of source was actually to borrow a portion of the power of rules!

Above the laws were rules!

When a certain Dao was comprehended, after reaching a certain realm, they would faintly produce a hint of understanding of the power of rules, called the power of source!

This process was divided into five levels, corresponding respectively to the Deva Five Blights!

Rules were the foundation that made up the world. They were the source of all power of laws!

But, even these unpredictable children with outstanding talents, also mostly stopped at the level of rank one in the comprehension of power of source.

Those able to reach rank two were in the minority!

Among the unpredictable children present, only Pang Zhen’s lightning law reached the level of rank two source.

This was also why he could rely on one law to forcefully resist other geniuses.

Presently, Ye Yuan also reached this level in Sword Dao!

Just now, under the frenzied bombardment of the 17 children, Ye Yuan urged the True Nirvana Sword Formation to the limit.

Two great sources coupled with laws of time and space pushed him to the limit.

Under this state, it was the easiest for Ye Yuan to break through!

And this was the fundamental reason why he challenged the 17 children.

Only by pushing himself to the limit could he make progress!

Clearly, he succeeded!

Sword Dao law was all-conquering and the sharpest. In terms of power, it was even above lightning law.

It was just that, those able to comprehend Sword Dao to this level were very few.

Sword Dao was easy to learn, but it was hard to master!

Therefore, there were many who cultivated Sword Dao law to law but comprehending Sword Dao source was extremely rare.

All along, what Ye Yuan was most proficient in, apart from Alchemy Dao, was Sword Dao.

Even spatial law was only comprehended by drawing parallels from inference after he cultivated Sword Dao to the extreme.

This time, under the powerful pressure, he broke through once again!

Comprehending rank two sword source, as long as one's comprehension of laws was not as good as his, they would not be able to control their swords.

Therefore, those unpredictable children who used the sword, their swords all flew toward Ye Yuan, for Ye Yuan's use!

From today onward, they would not be able to even draw their swords in front of Ye Yuan!

[Unrivaled Medicine God](#)

Chapter 2364: Super Large-Scale True Nirvana Sword Formation!

Inside the cage, there were sword images covering the sky.

Waves of Sword Dao source aura made the expressions of the 17 children become extremely solemn.

Just this line-up made people almost want to collapse.

Suddenly, Yu Tanzhi smiled strangely and said, "*Huhu*, summoning so many swords out, bluffing people? Rank two sword source is very scary! But ... your Sword Dao law advanced, will it break the balance of the sword formation?"

The moment these words came out, the eyes of Pang Zhen and the rest lit up!

Definitely, with so many swords, the balance of Ye Yuan's True Nirvana Sword Formation would surely be broken.

Just like Wan Zhen's Five Element Laws, once there was one kind that broke through, it would affect the balance of the entire five elements, and the power would be much lower than before instead.

With Ye Yuan summoning so many words, it looked intimidating, but actually, the power might not be stronger than before.

Without the augmentation of the sword formation, could Ye Yuan still deal with 17 people?

One had to know, it was not that there were none who reached rank two source among the 17 children. Pang Zhen reached rank two lightning source!

Just relying on a Sword Dao that did not have structure, it was impossible to win all of the 17 children.

"Hahaha, almost got hoodwinked by you, this punk! Isn't it just second firmament sword source? My lightning source won't lose to you either! Let alone that there are still so many people!" Pang Zhen said with a big laugh.

"It's still Yu Tanzhi who is impressive, seeing through this kid at a glance." The others could not help but exclaim.

They were really intimidated by Ye Yuan's formation momentum earlier, scared out of their wits.

These flying swords that covered the sky were seriously frightening.

Now, hearing Yu Tanzhi's reminder, only then did everyone suddenly realize that this guy was merely a paper tiger!

Pang Zhen's mind also shook, and he said in a clear voice, "Don't get bluffed by this kid! Everyone, bring out your true ability! This time, we must annihilate this punk!"

As he said, he reached his hand out. a lightning source aura that was not inferior to Ye Yuan's surged once more.

Electric snakes danced wildly, spreading inside the entire cage.

In terms of momentum, it was actually not the least bit inferior to Ye Yuan!

This time, the power of lightning source was even stronger than before.

Only then did everyone come to realize the truth, turns out that this guy still had a card up his sleeves.

However, who did not hold back some skills?

How could they, these people, really exert their best effort, and not leave any room for maneuver for themselves?

There was an even more horrifying great battle later!

However, Ye Yuan's heaven-defying talent made these unpredictable children finally become serious too.

"Eternal Damnation!"

"True Martial Heavenly Blade!"

"Eight Desolates True Saint Spear!"

... ..

One terrifying power of source after another superimposed together, and actually completely overshadowed Ye Yuan's limelight all at once.

This time, the 17 children were really going all out.

Inside the cage, terrifying pressure spread everywhere. They were several times more terrifying than before!

"It's over this time! It's really over! In the end, he isn't the 17 children's match either!"

"What a shame! However, even though Ye Yuan died a glorious death, he indeed has the capital to challenge 17 children!"

"Too self-damning! If not for provoking 17 children, he could have definitely entered the top ten. Now, it's good. He can't even enter the top ten now."

... ..

A wave of lamenting came from the various major cities.

Ye Yuan's heaven-defying talent indeed made everyone sigh with amazement.

It was just that sadly, he did not know life from death, choosing to deal with 17 people with his power alone.

While at this time, the Ye Yuan who had been silent all along suddenly smiled brightly and said, "Are you all misunderstanding something? When did I say that I only broke through in Sword Dao?"

One sentence made the faces of the unpredictable children who were currently casting spells change wildly.

Only to see Ye Yuan slowly raise both hands, nonchalantly saying, "Formation, arise!"

All of a sudden, the originally disorderly and unsystematic flying swords became orderly and traceable.

Formation Dao source, rank two!

With this, the million unpredictable children in the Primeval War Realm exploded once more.

"Mad! Really insane! Sword Dao and Formation Dao both breaking through, is he still a human?"

"Monster! Freak! Brute! How can there be such a person in this world? How to make us live if it is like this?"

"The power of source, the further up, the harder it is to comprehend. He actually comprehended two great source laws at the same time, I ... I might as well find a piece of tofu to commit suicide with!"

... ..

Envy, jealousy, hatred!

All kinds of emotions spread among the million unpredictable children.

Who were they?

They were all one-in-a-million peerless geniuses, prodigious martial artists that everyone admired.

But, they all, these so-called geniuses, were simply worthless in front of Ye Yuan!

Nothing at all!

You were talented, but could you be like him, comprehending the power of source like drinking and eating?

You were gifted, but could you be like him, contending against 17 children with the cultivation realm of Fifth Firmament Heavenly Emperor?

They could not!

This kind of person simply made people despair.

Above the void, the group of progenitors was shocked!

“How can this kid be so monstrous?”

“Sword Dao law and Formation Dao law are both powerful laws second only to supreme laws! Being able to comprehend a single rank two source is already extremely hard to come by. He actually broke through both at the same time!”

“Too frightening! Could it be that he’s really going to challenge 17 people by himself?”

... ..

Heavenly Emperor Profound Secrets laughed loudly without ceasing and said, “*Haha*, this boy always surprises people! Lightning, now, do you still feel that Pang Zhen can get first place?”

Ancestor Lightning’s expression became extremely ugly.

Ye Yuan’s talent greatly exceeded his imagination.

Seen before freaks, never seen before such a freakish one.

Facing Heavenly Emperor Profound Secrets’ mockery, he could only choose to keep quiet.

But he secretly prayed in his heart, praying that Ye Yuan’s Sword Dao and Formation Dao were incompatible.

That way, there was still a glimmer of hope for the 17 children!

Of course, if they were compatible ...

As if specifically in order to slap faces, right at this time, Ye Yuan’s super large-scale True Nirvana Sword Formation, formed!

“Come on. Let me see if the 17 of you guys are as formidable as the legends say!” Ye Yuan said in a clear voice.

He just broke through recently. His entire person's essence, energy, and spirit were all at their peak states, his confidence overflowing.

Although his opponents brought out their strongest strength this time, he was not the least bit afraid.

Pang Zhen gritted his teeth and said, "Everyone, attack together! Don't give him any chances!"

The group of unpredictable children also knew that it was impossible to hold back anymore. Each and every one of them pushed their momentum to the maximum.

Bang! Bang! Bang!

Inside the cage, heaven-shaking-like explosion sounds emitted.

That horrifying pressure was practically about to break the cage.

But, amidst the endless laws, only to see countless flying swords shuttling back and forth indeterminately.

That defense was even more secure than the cage!

The entire realm was shocked!

At this moment, they truly witnessed what was called impregnable!

With 17 children attacking in full force, how astonishing was the momentum?

But Ye Yuan just stood proudly. No matter how the storm raged violently outside, he stood unmoving!

Rank two sword source coupled with rank two Formation Dao source, plus spacetime law, this set of super large-scale sword formation was simply an impregnable fortress.

Furthermore, the over 100 thousand swords that Ye Yuan summoned were all heavenly emperor spirit treasures!

This kind of power was simply unimaginable.

[Unrivaled Medicine God](#)

Chapter 2365: Got Chapter, I Like!

Countless sword lights shuttled through the void, blocking all of the attacks one by one.

However, this was merely just the beginning!

Ye Yuan started fighting back!

Swift and fierce sword energies were teeming everywhere in the entire cage.

Sword energy roamed unobstructed!

Under the augmentation of rank two Formation Dao source, the power of each sword was unimaginably strong.

Even the 17 children did not dare to easily clash head-on too.

Ye Yuan guarded against everyone's attacks and started to slowly expand the sword formation outwards.

His expansion was neither too fast nor too slow, each step was taken extremely solidly.

"Can't get wrapped into the sword formation by him! Otherwise, we're all finished!" Pang Zhen roared wildly.

An unpredictable child said gloomily, "I know! But I can't hold on anymore!"

They fought desperately, unleashing all of their hidden trump cards.

But they were still unable to stop the footsteps of Ye Yuan's expansion.

Gradually, over 100 thousand swords completely occupied the entire cage, enveloping everything into the sword formation.

Upon entering the sword formation, the pressure on the 17 children increased sharply. They needed to defend against those illusory sword lights at any time.

A sword formation was a world!

Ye Yuan was the absolute master of this place!

From the passive defending in the beginning, to taking the initiative to attack now, Ye Yuan already gradually eroded the other side's advantage.

Now, the killing was about to begin!

Getting trapped in the True Nirvana Sword Formation, the unpredictable children were each isolated from one another and were unable to organize powerful attacks anymore.

Now, they could only defend passively!

Puchi!

Suddenly, countless sword lights pierced through an unpredictable child's body. He was directly pierced into a sieve.

The first unpredictable child fell!

With the first, there was soon a second, third, and fourth.

The 17 children were decreasing one by one.

While the sense of fear was also gradually increasing.

The oppression that Ye Yuan brought on him was too strong!

This sword formation simply had no weakness to exploit!

Very soon, Ye Yuan placed most of his efforts on Yu Tanzhi.

Yu Tanzhi's strength was very strong; almost equal to Wan Zhen.

But this guy deliberately drew aggro for him earlier, wanting to have everyone join hands to get rid of him.

This grudge, Ye Yuan would not forget it.

Since you wanted to make a move against me, then suffer the consequences of not getting into the top ten!

Suddenly, Yu Tanzhi felt the pressure increase sharply. How could he not understand what was going on?

Ye Yuan was intentionally targeting him!

Ye Yuan would rather let the others eke out a meager existence for a period of time than to give him the chance to enter the top ten!

Being targeted by Ye Yuan, Yu Tanzhi only felt a pressure that could topple mountains and overturn the seas coming at him head-on.

He urged his own power of laws to the extreme, unleashing all of his means. But his domain was still being eaten up bit by bit.

At this rate, he would undoubtedly die!

“Ye Yuan, this young noble acknowledges your strength! I don’t ask for anything else, just to be able to enter the top 11!” Yu Tanzhi said in a clear voice¹.

Him saying these words was equivalent to yielding.

One million unpredictable children all sighed, the proud to the extreme Yu Tanzhi, actually opened his mouth to beg for mercy!

If it were before, they would not dare to imagine it at all.

Of course, they were also unable to imagine that Yu Tanzhi was actually unable to even enter the top 11.

What these final 19 people were fighting for, was the number one’s supreme inheritance!

In the end, Ye Yuan did not even give him the opportunity for the ten top inheritances!

Ye Yuan just smiled coldly when he heard that and said, “Does my strength need you to acknowledge? Also, are you stupid? My goal is to prevent you from entering the top 11. Such an obvious thing, can’t you tell? Just like you inciting everybody to surround and besiege me together.”

Yu Tanzhi wanted to vomit blood when he heard that, he did not expect that this guy actually showed such little regard for his face.

Could it be that he did not know who he was?

“Ye Yuan, don’t be too ruthless and we can meet on good terms in the future! This young noble is the descendant of the Fifth Blight powerhouse, Heavenly Emperor Myriad Spirit! Give this young noble face, and I’ll remember your favor!” Yu Tanzhi said.

Maybe Ye Yuan did not know who Heavenly Emperor Myriad Spirit was, but he should know what a Deva Fifth Blight powerhouse signified.

He believed that Ye Yuan knew how to choose.

Who knew that Ye Yuan laughed mockingly and said, “No need. I don’t need this favor of yours! You can go and die already!”

Suddenly, ten thousand swords were unleashed together. Yu Tanzhi only had time to scream tragically and then he died.

In the end, he stopped at 13th place and was unfated with the ten major inheritances.

“This punk did it on purpose! This punk must have done it on purpose!”

At the outside world, Heavenly Emperor Myriad Spirit gnashed his teeth in hatred.

That look, he wished to skin Ye Yuan alive and swallow him whole.

Heavenly Emperor Myriad Spirit was a demon race’s top major power, a Deva Fifth Blight sovereign powerhouse. He naturally had the qualification to be here.

However, he never thought that after Yu Tanzhi brought out his identity, but Ye Yuan actually showed such disregard for his face!

Heavenly Emperor Profound Secrets gave Heavenly Emperor Myriad Spirit a glance, wanting to laugh, but he forcefully endured it.

Laughing at this time was too unfair.

But he also secretly admired it. Ye Yuan this boy was really too impressive, to actually not even give face to a Fifth Blight powerhouse.

Suddenly, his thoughts stirred and he looked into the cage in astonishment.

This boy wouldn’t be wanting to kill Pang Zhen, right? Heavenly Emperor Profound Secrets said in shock in his heart.

He did not expect that Ye Yuan was lawless and unbridled to this kind of extent, to even dare to kill a Dao Ancestor’s descendant.

He could not resist looking toward Ancestor Lightning and discovered that Ancestor Lightning’s expression became darker and darker. A strong killing intent already spread out.

Sure enough, inside the cage, Ye Yuan mobilized the majority of his power and swept over toward Pang Zhen.

Very clearly, he did not want to let Pang Zhen enter the top 11 too!

These two people taunted the most enthusiastically, so Ye Yuan intentionally killed them at 13th and 12th place, making them depressed to death.

In the sword formation, Pang Zhen’s expression was ashen, he could not quite hold out anymore.

His lightning source's offensive power was strong, but Ye Yuan's two great sources were stronger.

His attacks could not breach the sword formation's defenses at all.

With this, the entire Primeval War Realm was shocked!

"He wants to kill Pang Zhen! Is ... Is he crazy?"

"Pang Zhen is Ancestor Lightning's descendant! Disregarding that he's strong, even if his strength was lacking, nobody dares to not let him enter the top 11 too! Ye Yuan this guy is really too impressive!"

"*Hahaha*, got character, I like! I really want to see how Ye Yuan is going to face Ancestor Lightning after going out of the Primeval War Realm!"

... ..

At this very moment, the million unpredictable children were all seething with excitement.

This moment was even more explosive than Ye Yuan obtaining the first place.

Originally, any one of these unpredictable children getting the first place was very normal.

Pang Zhen was fine, Wan Zhen was also fine, or even Yu Tanzhi, no one would say anything.

But, Ye Yuan was actually going to exclude Pang Zhen out of the ten major inheritances!

12th place was essentially the same as 1000th place!

He gained enlightenment on Dao in the Primeval War Realm for a thousand years. In the end, not even getting the ten great inheritances, it was simply a joke!

Everyone admired Ye Yuan's courage. This scene was too shocking.

"Young Friend Ye, this ancestor is Dao Ancestor Lightning! Can you give this ancestor face and let Pang Zhen enter the top 11!?"

Right then, an explosive-like voice came from above the void, reverberating throughout the entire Primeval War Realm.

Dao Ancestor Lightning, finally could not resist speaking up!

[Unrivaled Medicine God](#)

Chapter 2366: Ancestor Lightnings Promise!

Heavenly Emperor Profound Secrets gave Ancestor Lightning a deep look but did not stop him.

A Dao Ancestor is this world's apex existence. Even the divine race powerhouses did not dare to easily take action.

He had this qualification.

Although speaking up at this time, his manner of eating was a little ugly.

But who dared to comment about him?

Heavenly Emperor Profound Secrets would still give him this bit of face, as long as he did not interfere with the spot of the supreme inheritance.

But in the Primeval War Realm, it was already completely boiling over with excitement!

“Ancestor Lightning! It’s Ancestor Lightning who spoke in person!”

“Looks like Ancestor Lightning really regards Pang Zhen highly!”

“This Ye Yuan is really impressive, to actually force Ancestor Lightning to personally speak up! He could choose not to give face to Heavenly Emperor Myriad Spirit, but a Dao Ancestor’s face, he shouldn’t dare to not give, right?”

... ..

Being able to force a Dao Ancestor to intercede for a junior, this in itself was a talent of cosmic proportions.

At least, among these million unpredictable children, no one could do this except for Ye Yuan.

After all, Pang Zhen was a powerhouse who had a chance to compete for the supreme inheritance.

But hearing this, Pang Zhen himself almost wanted to vomit blood.

Humiliating!

“Didn’t expect that I, Pang Zhen, actually fell to the extent of needing Ancestor to speak up!” Pang Zhen secretly hated it in his heart.

When Ye Yuan heard this, he was stunned too.

He was still curious why Pang Zhen’s lightning law could be so strong. He did not think that he was actually Ancestor Lightning’s descendant.

Ancestor Lightning speaking up, Ye Yuan also fell into silence.

Everyone was watching him, waiting for him to speak.

After a long time, Ye Yuan suddenly opened his mouth and said, “Letting him enter the top 11, I can do that. But I need a promise from Ancestor Lightning!”

Everyone opened their mouths wide, with looks of disbelief.

This guy was actually bargaining with a Dao Ancestor?

His guts were too plucky!

This time, it was Ancestor Lightning’s turn to be silent.

“Speak! As long as it’s not too overboard, this ancestor can agree to it!” Ancestor Lightning said after thinking about it.

Ye Yuan said, “I wish to ask Ancestor Lightning to help me retrieve a Tear of Life!”

When Ancestor Lightning heard this, he paused distinctly, and said, "A Tear of Life! Heh, brat, what high-sounding sentiments you have! Do you really know what a Tear of Life is?"

Ye Yuan nodded and said, "I naturally know! Hence, that's why I need to request Ancestor Lightning to take action!"

He was not that ignorant person from long ago anymore and naturally understood about the Tear of Life.

This thing was a product above rules; valuable until it made people's hair stand on end!

It would only appear once every 100 million years.

And this thing had never flowed out to the outside world before either.

There were only legends in the outside world.

This thing only existed in the hands of Dao Ancestors!

Ancestor Lightning's tone was somewhat cold and he said, "This can't be done. Change to another one!"

But Ye Yuan shook his head and said, "Sorry about it, this Ye has no other request, I only ask for the Tear of Life. Since Senior can't do it, then this Ye won't show mercy anymore either."

As he said, he actually urged the sword formation again, planning on killing Pang Zhen.

Everyone was stunned!

This guy was really too impressive!

That was a Dao Ancestor! He actually did not give any face at all!

"Brat, you dare!" Above the void, came Ancestor Lightning's furious voice.

Ye Yuan just said coolly, "These 17 people wanted to kill me. Pang Zhen and Yu Tanzhe were the instigators. Since the grudges are already formed, why should I let them get the inheritance? Although Senior might have a paramount status, you want this Ye to give in with all talk but no promises. Sorry, I can't do it!"

As he said, Ye Yuan pointed at the void, countless sword lights rushed over towards Pang Zhen.

The million unpredictable children watched until they stared dumbfoundedly with their mouths agape.

Nine great Dao Ancestors, those were true sovereigns, supreme masters!

They were this Heavenspan World's apex existences.

The population of the Heavenspan World was trillions upon trillions, but there were only nine people who were able to reach this realm.

Their words were the imperial decree. It represented Heavenly Dao.

Now, Ye Yuan was actually going to kill Pang Zhen in front of him!

Even Heavenly Emperor Profound Secrets also had a glassy expression on his face.

He did not expect that Ye Yuan was actually so unyielding.

The face of a Dao Ancestor, not giving face as he pleased. It was really mind-blowing.

One had to know, even he had to show Dao Ancestors some face!

Of course, while surprise was surprise, he also guarded against Ancestor Lightning.

If he dared to make a move, he would be taking action.

He started the battle of geniuses this time for the human race's matter of fundamental importance, and not for Ancestor Lightning alone.

Now, Ye Yuan had clearly already obtained the position of the supreme inheritance. He would never allow Ancestor Lightning to break the rules.

Ancestor Lightning gave him a glance, seemingly knowing what he was thinking, and suddenly spoke up, "Stop! The Tear of Life might appear again within a thousand years! This ancestor can promise you that when the time comes, I can help you to take action once! As for whether it succeeds or not, it will depend on your own good fortune! This is already my bottom-line!"

When Ye Yuan heard that, he smiled brilliantly and said, "Okay, deal! Senior, please swear a Heavenly Dao Oath! When taking action this time, you must do your best!"

Ancestor Lightning's face was black, but he still swore the Heavenly Dao Oath.

After Ye Yuan finished hearing the Heavenly Dao Oath, he also finally set his mind at ease.

In order to revive Mu Lingxue, forget about offending Ancestor Lightning, even if it was poking a hole in the sky, he would go and do it too.

Obtaining Ancestor Lightning's promise, Ye Yuan's sword formation suddenly turned its spearhead around and rushed towards the others.

However, after killing one person, he killed Pang Zhen off without the slightest hesitation.

Finally, Pang Zhen was ranked 11th, obtaining the last inheritance spot.

When Ancestor Lightning saw this scene, his expression was livid with rage.

This brat really did not know life from death!

Couldn't you let Pang Zhen lose a little more beautifully?

Getting a second place or a third place was good too!

The following battles already did not have the least bit of suspense. Ye Yuan rushed over one by one, killing off the 17 children very quickly.

Inside the huge cage, there was only Ye Yuan and Wan Zhen left.

"Huhu, I didn't expect that in the end, it's still Brother Wan and me facing off!" Ye Yuan said with a laugh.

Wan Zhen smiled bitterly and said, "I also didn't expect that you actually used this kind of method to have a showdown with me in the end. In just a few days, I'm already far from being your match anymore!"

Ye Yuan smiled and said, "Without fighting, who knows? Brother Wan is the most talented person that this Ye has ever seen!"

Wan Zhen felt touched, Ye Yuan was giving him face.

Actually, at this point, fighting or not was already not important anymore.

No one would think that he could win against Ye Yuan. Even he himself did not believe it.

But Ye Yuan was giving him face.

Ye Yuan did not even give a Dao Ancestor face, but Ye Yuan gave him face!

He suddenly discovered that Ye Yuan was someone who was extremely principled.

What he did not like, even if you pressed a blade against his neck, he would not shrink back too.

What he liked, even if you fought against the whole world, he would fight with you too!

This friend was worth making!

Suddenly, he was filled with lofty sentiments and laughed loudly as he said, "Okay, then let's decide the victor! This time, don't hold back anymore!"

Ye Yuan smiled and said, "As it should be!"

The two people's great battle lasted for a whole day and night!

Ye Yuan did not go easy, Wan Zhen was well-deserving of being the most troublesome character among the unpredictable children.

All the way until the end, he whittled away Wan Zhen's divine essence, before he slew him!

Coming this far, the curtains finally fell on the battle of geniuses!

Chapter 2367: Spacetime Vortex!

Rumble!

Suddenly, the earth quaked and mountains swayed.

In the Primeval War Realm, three towering palaces rose from ground up, and slowly flew into the air.

The three palaces varied in size. The largest one had a circumference of 100 thousand feet.

While the smallest one was only a thousand feet.

"What a powerful aura of law! These are the inheritance palaces?"

“Surprisingly, the smallest one, its law undulation is the scariest! Could it be that that’s the one and only supreme inheritance?”

“Really envy them! This is the human race’s crème de la crème of inheritances.”

... ..

Each and every one of the one million unpredictable children revealed incredibly envious expressions.

It’s just that those who were able to enter the inheritance divine temples were only a scanty thousand people.

Of course, who people were most envious of was still the Ye Yuan who could monopolize a temple.

They really wanted to know just what kind of inheritance was inside that smallest inheritance divine temple.

“The battle of geniuses is over. Those who didn’t obtain an inheritance can leave! However, the Doomsday Battle has already begun. No one can stay aloof from the affair. If the human race isn’t united, we can only become the divine race’s slaves! Everyone, conduct yourselves well!”

Above the void, came Heavenly Emperor Profound Secrets’ warning voice, making everyone’s hearts turn cold.

Very soon, the figures of one million unpredictable children directly dissipated on the spot. They were already transported out of the Primeval War Realm by Heavenly Emperor Profound Secrets.

Those who remained in the Primeval War Realm were only left with those 1000 people already.

“Right now, you all enter the palaces respectively according to your rank. Ye Yuan, you got first place, enter the smallest palace. Wan Zhen and the rest of the ten people, enter the second palace. The others enter the third palace. This old man will still give you all ten years, which is also a thousand years’ time. How much you can comprehend, will depend on yourselves!”

Finished saying, Heavenly Emperor Profound Secrets’s voice disappeared.

A thousand unpredictable children exchanged glances. There was already someone who started flying over in the direction of the inheritance palaces.

Ye Yuan assumed his responsibility and flew towards that smallest palace.

When Wan Zhen and the rest of the ten saw this scene, they all had looks of envy, jealousy, and hatred.

Originally, this spot should have been born among them. In the end, someone threw a wrench in the works, and they were actually intercepted by Ye Yuan.

Among their circle of the top-level geniuses, they had never heard of such a person before.

Where in the world did this guy pop out from?

As for the alchemy world’s affairs, they would never pay attention to it at all.

The alchemy world was not worth mentioning to them.

In the Domsday Battle, the alchemy world had a negligible effect on the human race. They naturally held it in contempt too.

“Stop looking around! Keep looking and your eyeballs will drop out! Time is pressing, better hurry up and comprehend the Dao!”

At this time, Wan Zhen suddenly smiled, flying toward the second palace with a leap.

A thousand years seemed very long, but with regards to gaining enlightenment on Dao, it was merely a snap of a finger.

Otherwise, why would the power of laws of those old monsters who had lived for a trillion years be not as good as Ye Yuan?

Even if these were all prodigies among geniuses, a thousand years’ time was really not considered long.

... ..

Stepping into the palace, a source power that was strong until it made people suffocate, hit him head-on.

It was another space inside the palace!

Accurately speaking, it was a vortex, a vortex composed of time law and spatial law.

“Hiss ... What a powerful spacetime law! Even if this power of law didn’t reach the power of rules, it’s also not far off, right?”

When Ye Yuan saw this scene, he could not help drawing a cold breath.

These two power of laws were simply too strong. It was strong to the extent that he, this proud son of heaven, was also amazed by it.

His attainments in spatial law could be said to be extremely strong already.

But compared to the spacetime vortex in front of him, it simply paled in comparison.

“Heavenly Emperor Profound Secrets said, these power of laws were all refined by the human race’s major powerhouses who died in the last epoch. Doesn’t that mean that the human race’s major powers back then could actually cultivate these two kinds of supreme laws close to the level of Dao Ancestor at the same time? This ... This is also too terrifying!”

Ye Yuan suddenly thought of something, the shock in his heart growing even more.

It seemed like in the last epoch, the human race was really glorious to the extreme!

Being able to cultivate two great supreme laws to this kind of level, their strength was likely not inferior to Dao Ancestors anymore, right?

This kind of powerful existence actually fell in the Domsday Battle too. Ye Yuan simply did not dare to imagine how strong the divine race’s progenitors were.

Most likely, what they were able to mobilize was not just the power of laws already, but the power of rules!

The more he understood the human race's glorious past, the more Ye Yuan was able to understand the might of the divine race.

Of course, he also understood Heavenly Emperor Profound Secrets' worries more.

With the human race's strength currently, there was no chance of winning at all!

Whatever Divine Son, Daymeld, whatever Profound Lineage's nine elders, whatever Daymeld, these were all not the most terrifying existences.

The most terrifying thing was still the divine race's progenitors!

Their might was simply unimaginable.

Being able to beat such a glorious human race until their legacies were close to being cut off, and not even regain their vitality for an epoch, the divine essence's terror was evident at a glance.

"Sigh, it's just that, don't know how Li-er is currently." Ye Yuan suddenly felt melancholy in his heart.

"Brat, this ancestor senses the power of spacetime law in you. Unfortunately, it's too weak! Are you the number one genius that Profound Secrets that brat picked? Too weak!"

Suddenly, a faint phantom walked out of the spacetime vortex, looking at Ye Yuan with a disappointed look.

When Ye Yuan heard that, his expression could not help being strange.

He annihilated 17 of the Heavenspan World's top geniuses with his power alone to be standing here.

But reaching this old man's mouth, he became too weak.

However, he could also understand the old man's thoughts. After all, his power of laws was indeed too weak compared to the spacetime vortex in front of him.

Ye Yuan gave a bow toward the old man and said, "Junior Ye Yuan offers greetings to Senior!"

This old man perished for the human race, he was worthy of Ye Yuan's bow.

He could tell that this old man was not some remnant soul, and also not some residual thought. He was merely just a remnant wisp of consciousness that was in the power of laws. That was all.

But just a wisp of consciousness already made Ye Yuan have a feeling of being daunted at the sight of him. It could be seen how terrifying an existence he was before his death.

The old man waved his hand and said to Ye Yuan, "You're too weak to accept this ancestor's inheritance! Leave!"

Ye Yuan could not help being taken aback when he heard that. This old man was actually not even giving him any chance?

Ye Yuan could not help laughing and said, "Senior hasn't tried it. How do you know that junior can't receive the inheritance?"

The old man said coolly, "Spacetime law is the most profound, most mysterious power of law in the world! Especially reaching the level of source, it's not what you can imagine at all! Your spatial law is pretty good, but it's just an accessory to Sword Dao! Wanting to step into the level of source is virtually impossible. As for time law, it goes even more without saying. I believe that you also have an idea in your heart, right? Therefore, don't tell me how brilliant you are; you just couldn't do it!"

Unrivaled Medicine God

Chapter 2368: Hacked to Pieces!

"You won't do!"

A mere three words showed the old man's disdain and contempt in its entirety.

But to Ye Yuan, it was still his first time hearing someone say these three words to him like this.

Regardless of whether in the Immortal Grove World or in the Heavenspan World, Ye Yuan's talent had always been frighteningly strong.

Even unparalleled talents the likes of Wan Zhen and Pang Zhen were also crushed by Ye Yuan until they could not even raise their heads.

But the old man in front of him actually turned his nose up at him.

"Even if this junior won't cut it, Senior doesn't seem to have a better choice either! Because the human race already doesn't have too much time! Senior Profound Secrets only gave us ten years, which is also 1000 years!" Ye Yuan was indifferent as he said smilingly.

A major power who could offer his life for the human race, Ye Yuan did not believe that he would watch the human race walked towards destruction.

In the Primeval War Realm, what Ye Yuan was using was not his main body. Hence, the old man was unable to determine skeletal age.

In the old man's eyes, Ye Yuan's bit of law comprehension was nothing at all.

If he knew that merely a few thousand years had gone by since Ye Yuan cultivated until now, he probably would not think like that anymore.

The old man frowned slightly and said, "The human population numbers more than a billion trillion. Could it be that even a slightly passable genius can't be found now?"

Ye Yuan smiled and shook his head and said, "I'm afraid that it's really very hard to find. Senior, why don't you make do with it for now and let me try?"

The old man heaved a sigh and said, "Profound Secrets that kid is also a disappointment! He studied spacetime law for so many years and merely comprehended 1:100 ratio. Forget it, since you're in the first place, then let you try it, also so that you'll give up on it. Go on. As long as you can survive two

hours in the spacetime vortex, it will be considered to have made some minor accomplishments! However, that's impossible."

Ye Yuan's gaze could not help looking towards the spacetime vortex.

There, two power of laws were colliding violently, turning spacetime upside down.

In that kind of environment, anything that got swept in would be torn to shreds by the two kinds of power of laws.

Ye Yuan attempted to fire a shot of divine essence into it.

In the end, it was swallowed up without even stirring up a wave.

Seeing this scene, Ye Yuan's expression was slightly austere.

Surviving for two hours in this spacetime vortex was absolutely an extremely difficult thing.

When the old man saw Ye Yuan's solemn expression, he said smugly, "Kid, you know how formidable it is now? Profound Secrets that brat can only stay inside for an hour! Touch your heart and ask yourself. Do you feel that your talent is even greater than his?"

Heavenly Emperor Profound Secrets was absolutely the most talented genius since this epoch!

Regarding this point, even Dao Ancestors had no way of denying it.

He was not a Dao Ancestor, but his strength was already not inferior to Dao Ancestors.

Ye Yuan smiled when he heard that and said, "Senior, each person's talent is different. Senior Profound Secrets' talent lies in divining Heavenly Dao, and not spacetime law. So in spacetime law, it's already very impressive that he can reach this step."

The old man chuckled and said, "Then your meaning is that your talent is even above his?"

Ye Yuan also laughed and said, "I don't dare to say that. So I better try it out then."

Done talking, he leaped, jumping into the spacetime vortex.

Before his figure even entered the core of the vortex, the tearing sensation brought by the two kinds of laws already made him feel overwhelmed to the extent where he wished that he was dead.

This region of space was not a complete space, but a vortex that was completely ground up by time law and spatial law.

Any object, as long as it entered this region, would be torn into shreds.

People were no exception either.

Ye Yuan just felt as if there were thousands of blades slicing his flesh and blood piece by piece.

Forcefully being sliced into thousands of pieces!

That kind of pain simply could not use words to describe.

In virtually a blink of an eye, Ye Yuan was torn to pieces, deader than dead.

Ye Yuan felt that his grasp of spacetime law was already very deep. But he did not expect that he could not even enter.

This was embarrassing!

Very soon, Ye Yuan's physical body condensed again.

His face did not have any rosiness at all. That feeling of overwhelming pain to the extent where he wished he was dead was still seemingly happening to him, unable to disperse.

That kind of feeling simply made people despair.

The old man said to Ye Yuan with a big laugh, "*Haha*, kid, this is the talent that you're bragging about? Your understanding of spacetime law is too shallow!"

Ye Yuan's expression became unprecedentedly solemn and he said with a nod, "What senior said is true, looks like my understanding of spacetime law is indeed too superficial! Again!"

Ye Yuan did not hesitate in the slightest, leaping into the vortex again.

It was still that agony of being sliced into thousands of pieces. Each blade passed through the nerves, transmitting to every corner of the body.

Too terrifying.

Ye Yuan attempted to mobilize the power of spacetime law to resist this endless slicing.

But everything was futile.

He was still unable to enter the vortex and was directly throttled.

In the second revival, Ye Yuan's complexion turned a little paler.

That taste of being sliced into thousands of pieces was really unbearable.

The pain of the nirvanic tribulation was already very terrifying.

But compared to this, it was simply like an apprentice in the presence of a mighty sorcerer.

Ye Yuan drew a deep breath and came to the edge of the vortex again.

But this time, he did not jump in again.

The old man discovered that Ye Yuan's entire body was trembling.

That was his body instinctively feeling scared!

In these few thousand years, how many grand battles and how much pain and suffering had Ye Yuan experienced?

He had never been afraid before!

But this time, he got scared.

He did not want to be scared, but his body was very honest!

“Kid, give up! Your strength is too weak! Profound Secrets that brat relied on the powerful cultivation realm of Deva Fifth Blight to survive in the spacetime vortex. Your law comprehension can’t make it, and your cultivation realm also can’t make it. There’s no possibility of comprehending. Do you think that this ancestor is intentionally making things difficult for you?” The old man could not help laughing when he saw Ye Yuan’s appearance.

He naturally knew that Ye Yuan was a present era genius. Being able to enter this supreme inheritance, it was impossible to be a mediocre person.

But he still fell short of his standards.

He was not intentionally making things difficult for Ye Yuan, he was just stating a fact, that was all.

Ye Yuan did not speak, he extended a foot out tremblingly.

A powerful suction force made his body get swept into the vortex involuntarily.

This time, he was passive.

But, due to his body being too scared, he did not have time to even utilize the power of spacetime law this time and was directly eradicated.

When he walked to the edge of the vortex for the fourth time, the trembling of his body became even stronger.

Ye Yuan’s foot was practically shaking.

It could be seen how scared his body was.

However, he still extended a foot out tremblingly and was swept into the vortex by the powerful suction force again.

Then, he was annihilated again.

Just like that, over and over again.

Each time, he would be directly garroted by spacetime law.

But he still jumped into the vortex without hesitation.

The old man’s face gradually turned solemn from the scorn at the beginning.

Chapter 2369: Return to Zero!

The old man said with shock in his heart, “Disregarding talent, the tenacity of this boy’s heart isn’t beneath this old man’s!”

Just as Sacred Ancestor High Priest said back then, temperament was the key to becoming a supreme powerhouse.

For the old man to be able to achieve a supreme position, mastering two supreme laws at the same time, the strength of his temperament naturally went without saying.

But he never thought that Ye Yuan actually had such terrifying tenacity!

He understood that the agony of being sliced into thousands of pieces was not what ordinary people could endure at all.

Especially those so-called geniuses, their hearts were loftier than the sky. So how could they bear this kind of inhumane torture?

Furthermore, it was not even one time!

It was over and over again!

Ye Yuan was clearly already afraid to the extreme, scared until he was unable to even walk normally.

But he still forced himself to jump down again and again!

In this place, there would not be true death.

But this agony was a thousand times, ten thousand times, even scarier than death!

What was most terrifying was not death, but clearly knowing that the process of death was extremely terrifying, but had no choice but to face it.

Could Ye Yuan choose not to face it?

Of course he could!

However, he resolutely chose to face it!

Would death become numb?

No!

Each time he went down the spacetime vortex, the pain of each blade was reminding Ye Yuan that this was another samsara!

He was not able to be numb.

Not only would he not be numb, but that sense of fear would also increase along with the number of times, and grow with each passing day.

Ye Yuan's body also went from the starting slight trembling to the spasming-like shaking later on.

He did not want to tremble, but he could not control himself.

Each time he jumped, he had to exhaust all of his strength.

But once he jumped down, he would die.

Then, it was another samsara.

"Kid, what is it that supports you to do things to this extent?" Three days later, the old man finally could not resist asking Ye Yuan.

Ye Yuan stood on the edge of the vortex, turned to the old man, and said smilingly, "I have a reason that leaves me no choice but to become strong! Some people are still waiting for me to go and save! Of course, I also won't passively watch the human race go extinct!"

The old man was moved and said, "Those people must be very important to you."

Ye Yuan nodded his head and said, "The love of my life!"

The old man let out a sigh and said, "Pray ask what is love, guiding people till death do them apart! Kid, you're very determined. It's just that a thousand years' time is too short! With your talent, you probably can't comprehend the spacetime inheritance!"

Not that the time was too short, but that spacetime law was too hard.

Such a supreme inheritance, how could it be comprehended in a short thousand years?

Forget about comprehending, even standing in the vortex for an hour was harder than ascending to heaven.

Ye Yuan ignored the old man's lamentation, and he leaped once more, jumping down.

Of course, the conclusion was always surprisingly similar.

Along with the passage of time, the time that Ye Yuan stood outside the vortex also became longer and longer.

To him, taking the last step required tremendous courage.

In this blink of an eye, it was 30 years!

During these 30 years, Ye Yuan already could not remember how many times he died.

But he could never last for long inside the vortex.

Which was also to say that he did not cross the threshold.

Using 30 years' time to make a futile effort, it looked like a very foolish action in the eyes of bystanders, but Ye Yuan did not think so.

What he believed in, was that as long as time was sunk in, an iron rod could be ground into a needle.

"Kid, do you really still want to persist? At this rate, your mind won't be able to bear the breakdown! At that time, even though your physical body won't die, you can only be an idiot too! Young Man, why be so persistent?" The old man could not resist persuading again.

Ye Yuan smiled and said, "How can there be a smooth-sailing thing in this world? Want to obtain the supreme inheritance, but not be willing to take the risk, how can there be such a good thing in this world? Senior, you don't need to persuade me again!"

Finished saying this, he turned around and wanted to jump.

His foot had just stepped out but withdrew again.

The moment the old man saw, he smiled and said, "Kid, finally gave up? Not that this ancestor is looking down on you, but it's truly that you don't have this strength."

But Ye Yuan smiled radiantly and said, "I seem to have understood something! Many thanks, Senior!"

The old man's expression changed, but saw Ye Yuan leap, entering the vortex once more.

But this time, Ye Yuan did not employ spacetime law!

He jumped into the vortex without any obstruction just like that.

When Ye Yuan returned to the shore again, the old man had a blank look as he said, "What did you understand?"

He still thought that Ye Yuan comprehended, but in the end, there did not seem to be any changes.

Was this kid purposely misleading people by making things look mysterious?

Ye Yuan smiled and said, "Senior said that I'm too stubborn. It's indeed the case! I've always been thinking about using my spatial law to resist the spacetime vortex here. The two aren't powers on the same level at all, so what comprehension is there to talk about? Furthermore, Senior said before that my spatial law was born because of Sword Dao. It deviated from the power of source to begin with. I used a deviated path to go and comprehend the right path, so how can it possibly succeed? Therefore, I simply returned my spatial law to zero, to go and feel the mighty torrent power in the vortex without the least bit of obstruction, maybe ... it will have a miraculous effect."

As he said, Ye Yuan walked toward the vortex once more.

Although this time, he was still trembling.

While the old man had a look of astonishment, he also had a feeling that Ye Yuan seemed to have found the right path!

Even he did not expect that Ye Yuan kept on failing to comprehend spacetime was actually because of this reason.

But his unintentional words gave Ye Yuan great inspiration.

However, the shock in the old man's heart grew even stronger.

One had to know, Ye Yuan's spatial law was already comprehended to the boundary of rank eight.

People all had thinking derived from experience, reaching rank eight, it was naturally going a step further to go and comprehend source.

But Ye Yuan could let go of the obsession in his heart, and think of returning to zero, this method. It was absolutely rare in this world!

"Could it be that this kid is really an extraordinary talent?" The old man exclaimed.

Hence, Ye Yuan set off anew and fell into the endless cycle of samsara again.

Finally, around 100 plus years, Ye Yuan stepped into the spacetime vortex for the first time!

However, the power of law in the outer-peripherals was already so terrifying, let alone inside the vortex?

Ye Yuan just entered the vortex and was ground to dust by the terrifying spacetime turbulent flow.

The old man opened his mouth wide as if he had seen something beyond comprehension.

The old man said in shock, "He actually really entered it! This ... This has just been only over 100 years!"

Reviving back at the shore, Ye Yuan had an excited expression.

In one hundred years of samsara, he had to die countless times every day!

This sort of thing, even thinking about it felt terrifying.

But he pulled through!

This endless pain, this endless effort, was worth it!

"Hahaha ... finally entered! Senior, I really have to thank you! If not for you, I would have probably never been able to enter the spacetime vortex in this lifetime!" Ye Yuan said to the old man excitedly.

But the old man's expression was somewhat ugly.

What did I do?

I did nothing at all!

This kid wouldn't be intentionally making a dig at me, right?

Unrivaled Medicine God

Chapter 2370: Spacetime Grand Ancestor!

After opening this gap, everything became a matter of course.

Although the comprehension of spacetime law slowed down, Ye Yuan still advanced forward steadily.

Only at this time, did Ye Yuan understand that this spacetime vortex was simply fragments of law, formed under the traction of some kind of great power.

The time law that he comprehending in the primeval war realm was likely a tiny fragment inside this spacetime vortex.

It could be seen from this how terrifying the power of this spacetime vortex was!

If he could comprehend all of the power of law in this spacetime vortex, Ye Yuan would be able to immediately become the Heavenspan World's number one major power!

Even the Heavenly Emperor Profound Secrets would probably have to respectfully call him as Senior Ye Yuan.

However, wanting to reach this step, even if it was Ye Yuan, it was also impossible to easily accomplish it.

The road that he had to walk was still long.

Just as the old man said, being able to stabilize in the vortex for an hour was considered to have made minor accomplishments already.

Along with the passage of time, Ye Yuan also gradually understood that the spatial law he comprehended previously was indeed biased.

His spatial law was comprehended through Sword Dao.

The things that he comprehended were also used to serve Sword Dao.

Therefore, Ye Yuan's spatial law was mostly used to increase the power of Sword Dao.

But actually, spatial law itself was superior to Sword Dao!

Without space, all power of laws were rootless weeds, and it naturally became empty talk.

No law could exist without space.

And this was also the reason why spatial law was called a supreme law.

Time law was the same.

This was also to say that Ye Yuan's comprehension of spatial law was merely just the application of a certain aspect of spatial law, that was all.

It seemed high, but actually, it was flashy without substance.

Ye Yuan's comprehensions did not touch the foundation of spatial law at all. Therefore, it was virtually impossible to want to comprehend the power of source.

Of course, to the geniuses today, this bit of comprehension was enough.

Along with the passage of time, Ye Yuan's comprehension of space and time, two great laws, became increasingly deeper.

It was equivalent to Ye Yuan comprehending spatial law from the beginning again.

His foundation was strong to begin with, coupled with his powerful comprehension ability, at the 800th year, he finally comprehended to rank eight anew.

And Ye Yuan also made considerable progress in time law, he already went from 1:5 to 1:30.

This change was shocking from beginning to end in the eyes of the old man.

"How can this kid's talent be so terrifying? Even for the geniuses in my era, it's also impossible to comprehend spacetime law to this level in a short 800 years!"

Only at this time did the old man discover that he seemed to have misjudged Ye Yuan.

He previously thought that Ye Yuan was merely a mediocre talent. But having personally witnessed his improvement now, only then did he know how laughable his thoughts were.

But he was very perplexed. Why was his law comprehension so lousy?

He suddenly thought of a problem. After Ye Yuan revived, he could not resist asking, "Kid, how old are you?"

Actually, to Heavenly Emperor Realm powerhouse, the issue of age was already not an issue.

Perhaps, even they themselves did not remember clearly how old they were.

They took 100 thousand years as spring, and 100 thousand years as summer. This kind of time frame, who would really remember their age every day?

But Ye Yuan naturally remembered.

Ye Yuan said, "This junior is roughly over 3000 years old."

He knew what the old man thought of, but did not have the intention of showing off. He just said it honestly.

But these words shocked the old man.

The old man opened his eyes wide and said with a look of disbelief, "Over 3 ... 3000 years old? You're bluffing this ancestor, right! Do you think that this ancestor is a three-year-old kid? Would I believe your lousy lie?"

Ye Yuan smiled harmlessly and did not explain anything, walking toward the vortex once again.

This sort of thing, if they believed, they believed. Not believing, it would be pointless even if he explained it too.

Unless his main body arrived here, the old man would be able to see through his skeletal age at a glance.

Otherwise, it was useless to say anything.

However the implication of posturing was quite thick when it landed in the old man's eyes,

"This kid actually ignored this ancestor!" The old man billowed his beard and glared in anger.

But very soon, he exclaimed again, "If this kid is really only 3000 years old, then he's even more monstrous than ancient geniuses! With his potential, even reaching this ancestor's peak back then is also not unknown! Hope that this kid wouldn't lie to me!:"

When Ye Yuan returned from the dead again, the old man stopped Ye Yuan and said solemnly, "Kid, let's sit down and talk!"

Ye Yuan was taken aback and immediately nodded his head.

This old man finally acknowledged him.

One had to know, over 800 years had already passed since he came in. He did not even know the old man's name.

Clearly, in the old man's eyes, he was disdainful to have Ye Yuan know his name.

"This old man, Shang Hang, is the leader of the human race's titled grand ancestors: Grand Ancestor Spacetime!" Talking up to here, Shang Hang's face revealed a proud look.

Clearly, he was very proud of this identity.

“The so-called grand ancestors, you can understand it as, the strongest people of the all races alliance! The alliance had a total of 18 grand ancestors. The Doomsday Battle back then, all 18 of us died in battle! This spacetime vortex that you see was left behind by this ancestor and the divine race’s Heaven Lineage’s progenitor, Tian Qing’s, ultimate battle. This move is called Spacetime Reversal Chaos. This ancestor fought Tian Qing alone and eventually severely injured him, finally exiling him into the spacetime turbulent flow.”

“The two of us released the ultimate profound intent, and fought until the entire Heavenspan World was reduced to fragments! Of course, the Spacetime Reversal Chaos that you see is less than one-ten-thousandth of its power back then. Otherwise, you wouldn’t be able to enter inside at all.”

Shang Hang spoke easily and assuredly, a heroic look on his face.

Although he died, he had no regrets.

Ye Yuan was filled with a deep veneration when he listened. In a few words, he revealed the horrors of the battle situation back then!

Among the alliance’s strongest 18 grand ancestors, none actually survived!

One had to know, these 18 grand ancestors were not what these current progenitors could compare to.

Disregarding other things, just Shang Hang alone cultivating space and time, two paths, to such a terrifying boundary, one would know how stronger the 18 grand ancestors back then were.

Most likely, his strength was not the slightest bit weaker than the present Dao Ancestors!

These people, each one was a supreme powerhouse at the level of rules, the strength they possessed was unimaginable.

But even so, the alliance still only had a pyrrhic victory.

One could say that the Heavenspan World’s tens of billions of years of stability was exchanged for using these 18 people, as well as the lives of countless powerhouses.

No wonder even Heavenly Emperor Profound Secrets also had no hope for the human race at all.

If the divine race’s progenitors all had such strength, then when Heavenly Dao took back the power of Dao Ancestors, the collective races would not have the strength to fight back at all!

“Senior, may Junior be so bold as to ask, back then, couldn’t the divine race and collective races coexist? Why must they fight to the extent of extinction?” Ye Yuan asked.

This was also something that he had always been puzzled about in his heart.

Shang Hang chuckled coldly and said, “If we could coexist, why would the collective races need to do such a thing?”
