Chapter 2811: Xuanji Nine Leaves

“Brother Ye, you’re back!”

“Brother Ye, this battle was all thanks to you. Otherwise, I wouldn’t have been able to come back!

“It was all us who were blind previously. Be magnanimous and don’t take offense at us!”

‘When Ye Yuan appeared in the Northern View City’s army base, there was immediately a commotion.

‘When those Saint Sovereign Heaven soldiers saw Ye Yuan, they came up to say hello one after another.

comment

Among them, there were many people who were mocking Ye Yuan on that day. At this time, they were regretting it immensely.

This time, if not for Ye Yuan, most likely only a handful of them would have been able to return.

In fact, Northern View City might have directly been steamrolled by the blood race.

A rout was like a landslide. It was not to be made a joke.

Ye Yuan did not put on airs either, responding with smiles one by one.

‘When these Saint Sovereign Heavens saw this, they were even more ashamed.

Ye Yuan really had a mind as open as a valley!

“B-Brother Ye .. Zhao Chen saw Ye Yuan, the look of embarrassment on his face becoming even stronger.

Before the great battle, his words were the nastiest.

But now, his face was slapped resoundingly.

‘When he saw Ye Yuan, there was naturally indescribable embarrassment.

“Yoo, isn’t this Centurion Zhao? Our Master Ye is merely a foreigner. How can we dare call you our brother?” When Big Yellow saw Zhao Chen, his anger flared up, and he immediately jeered.

Zhao Chen’s expression immediately became black as the bottom of a pot.

With regards to this, Ye Yuan did not say anything either.

Back then, Zhao Chen’s words were indeed very nasty. His contempt for him was not only expressed in words, but also on the face.

Zhao Chen clearly looked down on Ye Yuan, this kind of foreigners, especially when Ye Yuan got involved with the Extreme Medicine Sect.

That sort of contempt was impossible to hide.

In reality, those who had this kind of notion were not in the minority.

It was also that it was currently wartime. Normally, the status of Ye Yuan, this kind of foreigner, would be very low in Heaven One Continent.

Just like in the Rainclear Continent, the native forces discriminated against ascenders.

Ye Yuan did not know to make trouble, but it did not mean that he was submissive.

suddenly, Zhao Chen directly knelt in front of Ye Yuan with a thud and said, "Master Ye, it was all my fault previously! I know that you have great abilities. You must have the means to save my men! They're inflicted with the blood corruption poison. I beg you to save them!"

In each great battle, those who got inflicted with blood corruption poison were not in the minority.

Even Song Miao, this True Sovereign Heaven, was poisoned by the blood corruption poison; let alone these Saint Sovereign Heavens.

Zhao Chen's men originally had many who were inflicted with blood corruption poison.

In this battle, the blood corruption poison erupted all-round. His men suffered heavy casualties.

Over 70% of these remaining people were inflicted with blood corruption poison.

If these people all died, he would practically become a lone general without an army.

Of course, although Zhao Chen this person was very mean to Ye Yuan and looked down on Ye Yuan's background, he treated his men as his own brothers.

For the sake of these subordinates, he would rather put aside his dignity and kneel down to Ye Yuan.

Even Song Miao, this True Sovereign Heaven powerhouse, knelt down; what was wrong with him, this measly little centurion, kneeling?

But Big Yellow did not buy it and said with a cold smile, "Yoo, Lord Zhao, don't do this! Master Ye is merely someone with half-baked knowledge. The Extreme Medicine Sect is the authority. Did you find the wrong person? You should be going to find the Extreme Medicine Sect!"

By the side, Dao Chen wished to find a hole in the ground to tunnel into.

He was sent over to learn from Ye Yuan. Along with him, there were also dozens of grade five and grade six heavenly alchemists.

Close to 100 military doctors were deployed to Heaven One army.

These military doctors were mainly from the Extreme Medicine Sect.

In fact, Dao Chen was a distinguished talent among them.

Before this, he was a highly respected Extreme Medicine Sect disciple.

But, after this battle, his status completely changed.

The current Dao Chen was like a big villain who had harmed nearly ten thousand troops.

It was them who did not listen to Ye Yuan's words, resulting in this great defeat.

If not for the Extreme Medicine Sect pledging in all solemnity, even if those soldiers who were inflicted with blood corruption poison did not take part in the fights, this war would not have been defeated so thoroughly too.

In this battle, those soldiers who were inflicted with blood corruption poison were like time bombs lying in ambush on their side, blowing up and injuring all of them at once.

'When Zhao Chen heard, he clenched his jaws tightly and suddenly kowtowed to Ye Yuan fiercely.

Dong!

Dong!

Dong!

Each sound struck everyone's heart.

"Master Ye, this Zhao acted like a stuck-up snob, but my brothers are all good men! As long as you can save them, this Zhao is willing to pay it off with death!" Zhao Chen wept tearfully as he kowtowed.

All around, many people shed silent tears.

In this battle, many of their companions died on the battlefield.

The former fellow officers were no more together.

But no one dared to step forward to speak up for Zhao Chen. It was because they were indeed too unfair to Ye Yuan previously.

Someone who made great contributions came to their army and said something that could turn the tides. But in the end, he was looked down upon by everyone.

If it were them, they would not be able to stand it too.

Goodwill being taken for granted was probably like this!

Everyone's gazes looked toward Ye Yuan.

suddenly, Ye Yuan raised his hand and patted Zhao Chen on the shoulder twice and said, "Alright, take me to go take a look at your subordinates."

Zhao Chen's entire body shook, and he kowtowed a few more times agitatedly and said, "Thank you so much, Master Ye! Thank you so much, Master Ye!"

'When Ye Yuan saw Zhao Chen's men, he could not refrain from furrowing his brows too.

Too awful!

Some people's blood corruption poison was extremely deep, their entire person being already riddled full of holes, looking extremely hideous.

A foul smell greeted the nose.

Weak groaning sounds filled the tent.

Blood corruption poison was extremely terrifying. Even the final outcome of Song Miao, this True Sovereign Heaven powerhouse, was no better than these Saint Sovereign Heaven soldiers.

Not only could this corrupt blood affect one's blood, but it could also even corrode the origin divinity, and there was virtually no cure.

The only thing that could resist it was just true spirit bloodline!

Therefore, after the Extreme Medicine Sect's suppression method was devised, it was a great boon to the Heaven One army.

As for the words of Ye Yuan, this kind of minor character, they naturally could not take it in.

It was not that Ye Yuan was even more impressive than the Extreme Medicine Sect, this Hegemon level holy land.

But that even a clever wife could not cook a meal without rice. They had fought with the blood race for thousands of years but never obtained a drop of the blood race's blood essence before.

Ye Yuan came beside the soldier who was poisoned the deepest and started diagnosing him.

Very soon, Ye Yuan's origin divinity traveled a circulatory cycle within his body, and he could not help secretly shaking his head.

"M-Master Ye, is there still hope for ... Qiao Yiping?" Zhao Chen asked worriedly.

"All the blood in his body has already been corrupted by more than 90%. In at most a few hours, he will definitely die beyond a doubt," Ye Yuan said.

Zhao Chen's expression dimmed, blaming himself heavily in his heart.

This scene was taken into Ye Yuan's sights, and his impression of Zhao Chen changed a little.

This guy looked down on him, this kind of foreigners. But his feelings for his fellow officers were not fake.

Ye Yuan ignored him but said to Dao Chen and the rest, "You all watch carefully. This needle technique that I'll be performing next is called Xuanji Nine Leaves. After you guys learn it, apply the technique on the others. But at present, this needle technique can only temporarily suppress the blood corruption poison. As for whether or not it can really purge the blood corruption poison, I still need to research more.."

Chapter 2812: Marvelous Work of Art!

Xuanji Nine Leaves originated from the Labyrinth Divine Palace. It was a powerful and profound needle technique.

The Labyrinth Divine Palace back then was not only powerful in martial strength, but their Alchemy Dao was also unparalleled!

Disregarding other things, just this Hundred Herbs Illustrated Handbook was not what ordinary Hegemon level sects could come up with.

The various acupuncture techniques inside, poison arts, and other branches of Alchemy Dao were all-encompassing and contained everything.

When Ye Yuan entered the Labyrinth Divine Palace, he did not care about other books. He only paid the most attention to the alchemy-related books.

In the last few decades on the Rainclear Continent, Ye Yuan's martial arts did not make much progress. He spent a lot of time on these classics.

The Xuanji Nine Leaves was one of them.

This acupuncture technique used Xuanji star force as the guide, triggering the resonance of all the heavens, and had the effect of bringing the dead back to life.

Its control over the flow of blood energy was especially unique.

That day, after Ye Yuan diagnosed Song Miao's pulse, he had some ideas in his mind.

This set of Xuanji Nine Leaves was extremely profound. With Ye Yuan's deep foundation, he spent close to a year's time before he thoroughly grasped this acupuncture technique too.

These heavenly alchemists around Ye Yuan, even if they were grade six heavenly alchemists, it was also impossible to grasp this acupuncture technique within a short time.

'What he was executing presently was the acupuncture technique that Ye Yuan created from simplifying off the foundation of the Xuanji Nine Leaves by cutting out the superfluous to specifically target blood corruption power.

Ye Yuan knew that the Extreme Medicine Sect's heavenly alchemists' level was still extremely high.

Under his guidance, grasping this acupuncture technique within ten days was still doable.

Ye Yuan focused his fingertips. A tiny divine essence needle condensed and forced out.

With his current skill, he no longer needed to rely on physical objects.

With the Dao sword as the foundation, the divine essence needle that he condensed had an even stronger effect than ordinary needles.

Seeing this move, Xiao Shan's pupils could not help constricting.

He was the commander of all the military doctors, Extreme Medicine Sect's peak grade six heavenly alchemist!

But Ye Yuan's move made him ashamed of his inferiority.

Unless he had a needle-type grandmist treasure, he could not compare to Ye Yuan's ability to condense the divine essence needle.

But needle-type grandmist treasures were too hard to come by.

But the following scene made all the heavenly alchemists even more shocked!

When Ye Yuan stabbed with the needle, the stars across the heavens actually produced a resonance. The entire camp seemed to have become a miniature universe.

One of the stars was extremely bright. It was precisely the Xuanji Star!

In Qiao Yiping's meridians, a pale-yellow divine essence was swimming around.

The meridians that the divine essence traveled were thick and thin, yet extremely fine.

In reality, when applying the needles, this kind of situation would not occur. But, Ye Yuan did it in order to let these people feel it distinctly.

But it was precisely so that the shock of the scene was even stronger!

Especially those Extreme Medicine Sect disciples, although they stumbled hard this time, they were still unconvinced in their hearts to follow an outsider to learn acupuncture technique.

Many were bottling their thoughts up, wanting to see how impressive Ye Yuan was.

Now, they saw it.

The acupuncture method had two sections.

One section was on oneself.

One section was on the patient.

A person would work one's body to call down the power of Heavenly Dao, injecting it into the sick body, reversing the universe.

Regarding this step, Ye Yuan calling down such powerful stellar power already made them lost in wonder.

While in the sick body, the operation of divine essence and application of Heavenly Dao power were also complicated to the extreme.

But at this time, the meridians in Qiao Yiping's body became incomparably clear.

Even those meridians that were tiny until they were invisible to the naked eyes were manifested by Ye Yuan.

"A marvelous work of art! Marvelous work of art! I didn't expect that acupuncture techniques can actually be used to such a degree!"

"What a formidable acupuncture technique! My Extreme Medicine Sect doesn't have such a formidable acupuncture technique either!"

"This level of acupuncture technique can actually be used so transcendently by him, truly godlike!"

"Master! An absolute master! We all, heavenly alchemists' years of living, have been an utter waste!"

Very soon, cries of exclamations sounded out all around.

Ye Yuan used his acupuncture technique and completely conquered this group of proud peacocks.

Originally, Dao Chen still had quite a bit of resentment in his heart.

Although Ye Yuan hit the mark, he was unconvinced in his heart, feeling that Ye Yuan just caught it by sheer luck.

But now, he did not have any temper in his heart at all.

What remained was only admiration!

Too formidable!

Such a wondrous acupuncture technique, he was absolutely unable to execute it.

'As a top figure among the Extreme Medicine Sect's grade five heavenly alchemists, Dao Chen's alchemy path strength was not weak.

Not only was it not weak, but it could also virtually look down proudly upon his peers!

His eyesight was naturally extremely strong.

He saw through that this acupuncture technique was after it was simplified. It was not hard for him to learn it. But, wanting to reach Ye Yuan's level, it was impossible to achieve it without ten years of hard work.

And this was just the acupuncture technique post-simplification!

But, how much time had Ye Yuan been in contact with the blood race?

He could simplify the acupuncture technique and even apply it to such an exaggerated level. It showed that Ye Yuan's acupuncture technique had already reached an ingenious level of application.

It could be used freely at will!

Convinced!

Xiao Shan's gaze had been fixed on the stellar power in the house.

"Xuanji Nine Leaves! It's actually the legendary Xuanji Nine Leaves! This acupuncture technique has already been lost for hundreds of thousands of years! Now, it actually reappeared in the world! Just what origins does this boy have?" Xiao Shan said in shock.

"Xuanji Nine Leaves? Is this acupuncture technique very formidable?" Dao Chen wondered.

Xiao Shan said, "More than just formidable! Legends have it that this acupuncture technique can defy heaven and change fate, bringing the dead back to life! In fact, after grasping this set of acupuncture techniques, one will be invincible at the same rank in martial arts too! Flying needles killing people without making a sound, taking your life as easily as flipping over your hand! Do you think it's amazing or not?"

With this, everyone was no longer calm.

Acupuncture technique was acupuncture technique. It was an aid to Alchemy Dao.

Now, Xiao Shan actually said that this acupuncture technique was also invincible in the same rank in martial arts. This was too terrifying.

"I-It's actually so formidable? My Extreme Medicine Sect doesn't have such a fierce acupuncture technique either! How ... How did he obtain it?" Dao Chen muttered.

Looking at a leopard through a tube and one was to see only one spot. He knew that Xiao Shan was not exaggerating things to raise an alarm.

Although the acupuncture technique that Ye Yuan displayed was not profound, what Ye Yuan displayed was clearly just a very superficial part.

This acupuncture technique was indeed extensive and profound.

Except, the more formidable this acupuncture technique was, the more depressed Dao Chen was.

Ye Yuan was merely born in a remote continent at sea. How could that place possibly have such a formidable acupuncture technique?

In fact, even Extreme Medicine Sect, one of the top sects in the world, did not have it.

This sort of thing was seriously too fantastical.

In the wake of Ye Yuan applying one needle after another, the poisonous sores on Qiao Yiping's body were currently disappearing rapidly.

His complexion actually became rosy too.

"T... Im actually not dead yet?" Qiao Yiping opened his eyes, a little dazed.

'When Zhao Chen saw this scene, he could not help revealing a look of wild ecstasy.

Qiao Yiping's consciousness was originally already blurry. Now, he actually regained his senses!

Master Ye's means truly startled heaven and earth and made gods and ghosts weep!

[Unrivaled Medicine God](#)

Chapter 2813: Grandiose Ambitions, but Puny Ability

"You're not dead now, but you're also not far from death. After I applied the acupuncture technique, your corrupt blood power has been suppressed to 70%. But the consequence of this kind of suppression is that once it erupts again, you'll die even more horribly."

Ye Yuan was not exaggerating to scare people.

His acupuncture technique could only treat the symptoms, not the root cause.

Actually, there was no essential difference between it and the suppression method of the Extreme Medicine Sect.

The only difference was that it was more brilliant than the Extreme Medicine Sect's method.

It sounded like there were no differences.

But the heavenly alchemists present were long already inexplicably shocked.

More than 90% of the corrupted blood was suppressed to 70%!

Ever since the war with the blood race, nobody in the entire Grand Brightjade Complete Heaven had done this!

Furthermore, Qiao Yiping was inflicted with the blood corruption poison previously and later suppressed by the Extreme Medicine Sect with true spirit blood.

Now that it had erupted again, it could be said to be fiercer than a tiger.

However, he was still saved by Ye Yuan!

‘They thought that Ye Yuan’s acupuncture technique could only control the spread of the corrupted blood. Who could have thought that it could actually directly suppress it back?

At this very moment, many of the heavenly alchemists present actually felt ashamed of their unworthiness.

“Many thanks to Master Ye for helping out!” By the side, Zhao Chen said gratefully.

Ye Yuan said, “Don’t be in a hurry to thank first. Whether or not the method to deal with the blood corruption poison can be found, it is still not known. It won’t be too late to thank again after truly resolving this disaster!”

Zhao Chen shook his head and said, “This Zhao is already endlessly grateful that Master Ye is willing to take action! Qiao Yiping, why haven’t you thanked Master Ye!”

Qiao Yiping hurriedly said, “T-Thank you, Master Ye, for repaying evil with good, and saving this Qiao!”

‘That day, among the people who mocked Ye Yuan, there was also Qiao Yiping.

Hence, when he saw that it was Ye Yuan who came to the rescue, he immediately felt too ashamed to show his face.

Ye Yuan nodded his head, considered to have accepted it. Turning his head to Zhao Chen, he said, “Go and gather the soldiers who are most severely poisoned by the blood corruption poison here.”

“Yes!” At this time, Zhao Chen was long already wholeheartedly convinced by Ye Yuan, immediately receiving the order and leaving.

Xiao Shan was also exceedingly shocked by Ye Yuan’s strength in his heart. But currently, his eyes were flickered indeterminately.

He was moved by this heaven- defying acupuncture technique!

There were also Dao Chen and many members of the Extreme Medicine Sect who were similarly moved.

Very soon, Qiao Yiping was carried away. Another injured person under Zhao Chen was carried in front of Ye Yuan.

“Put away those stray thoughts. You guys only have a few days! After this storm, I’ll impart you guys the Xuanji Nine Leaves,” Ye Yuan said to Xiao Shan and the others with his back facing them while he applied the needles.

The moment these words came out, Xiao Shan somewhat doubted his own ears.

Such a heaven-defying acupuncture technique, Ye Yuan handed it over with both hands just like that?

This guy wouldn’t be deliberately buying time, right?

Just as his thoughts were running wild, Ye Yuan continued slowly, “In times of crisis, one should abandon the idea of sects in the first place. The Xuanji Nine Leaves is indeed a supreme needle technique. But, no matter how strong I alone am, the number of people I can save is limited too. It’s better to impart it. Only then can it save even more companions.”

Hearing these, Xiao Shan wished to find a hole in the ground to burrow into

Compared to Ye Yuan, they were too shallow, too narrow-minded!

Yeah, if Ye Yuan really had some other thoughts, having suffered so much grievance previously, he would not have come forward at all.

But not only did he step forward, he even overturned the tides and saved the Heaven One army.

Very soon, stellar power lit up once again.

After five days and five nights of treatment, saving dozens of patients in the most critical conditions, Ye Yuan never took a rest.

Some of the heavenly alchemists watching from the sides were already drowsy with sleep.

When even the person applying the needles did not rest, they were naturally embarrassed to rest.

Many people secretly cursed Ye Yuan for being a freak. Was he not tired?

Acupuncture was a workmanship ability that required extreme meticulousness.

In the human body, even the slightest mistake could result in very serious consequences.

Therefore, rest was necessary.

But five days passed. Ye Yuan had not made a single mistake.

This sort of thing, even Xiao Shan this True Sovereign Heaven could not do it.

Finally, Ye Yuan spat out a mouthful of turbid breath and stood up.

“Learned it?” Ye Yuan looked toward Xiao Shan and asked.

Xiao Shan nodded and said confidently, “90%! As long as I familiarize for another few days, the remaining 10% will naturally be learned without extra effort!”

Ye Yuan looked towards Dao Chen and asked, ‘What about you?’

Dao Chen said, "70%!"

Ye Yuan nodded and said, "Those who feel that they can reach 70%, come forward."

After speaking, ten heavenly alchemists stepped forward in a row.

These ten people were all from the Extreme Medicine Sect.

"The formula and essentials have all already been imparted to you all. Now, you guys apply the needles! However, I'll say the unpleasant things first. Human lives are at stake. How much ability you have, just say how much you have. Don't go beyond your means! Otherwise, you'll be punished by military law!"

"Master Ye, you're also looking down on our Extreme Medicine Sect too much! The Extreme Medicine Sect's disciples, no matter how weak, they can also look down proudly on those in the same rank! The Xuanji Nine Leaves is indeed formidable, but your acupuncture technique isn't difficult. To us, it's sufficient!" Dao Chen said brimming with confidence.

The disciples of Hegemon level sects were absolute elites when looking across all the heavens too.

Across the entire 33 Heavens, Hegemon level sects could be counted too.

The pride in their hearts could be imagined.

Ye Yuan nodded and said, "Alright then. You guys step forward and apply the needles!"

'With regards to Xiao Shan, these few grade six heavenly alchemists, Ye Yuan naturally felt assured.

But, toward grade five heavenly alchemists, he was really quite worried.

A doctor's benevolence, not being able to treat was fine. But killing people through treatment would be a big problem!

Very soon, Xiao Shan and the others began to apply the needles.

Stars illuminated in the camp!

Among them, it was Xiao Shan's stellar power that was the strongest.

To them, these Extreme Medicine Sect's disciples, the days after the defeat were not easy.

Hence, they also urgently needed an opportunity to wash away the shame of the sect.

At present, it was clearly a great opportunity.

Xiao Shan did his best. His performance was the best!

'As a grade six heavenly alchemist, his eyesight and learning ability were far from what grade five heavenly alchemists could compare to.

These five days, he had already deduced countless in his mind.

In addition, there was the demonstration of Ye Yuan, this master. He was naturally even more confident.

The moment a grade six heavenly alchemist took action, that was naturally extraordinary.

Xiao Shan had the intention of showing off too, so as to restore the reputation of the sect.

For a time, the other people's sharp edge was overshadowed by him all at once.

Even the stellar power that Ye Yuan called down could not compare to him.

"Master Xiao Shan is well-deserving of being the commander of the military doctors, a grade six heavenly alchemist! In just five short days, he could cultivate this technique to such a boundary, remarkable!"

"Master Dao Chen is also amazing. He's just a grade five heavenly alchemist. His future prospects are limitless!"

"The Extreme Medicine Sect is the Extreme Medicine Sect. This deep foundation is incomparable!"

The moment the Extreme Medicine Sect's disciples made their moves, it immediately attracted a burst of exclamations.

Not just Xiao Shan, the technique of the other Extreme Medicine Sect's disciples also made people exclaim with admiration.

But, seeing Xiao Shan applying the needles, Ye Yuan's expression became odd.

90%?

Was boasting done like this?

Or did the Extreme Medicine Sect's people all have such grandiose ambitions but puny abilities?

Unrivaled Medicine God

Chapter 2814: Battle of Doctors!

In Ye Yuan's eyes, Xiao Shan's current technique was at most considered a pass.

60%

This guy actually bragged that he reached 90%?

As for the others, only Dao Chen was slightly better, barely reaching 50%.

The rest did not even reach 50%.

Ye Yuan could not help but have some doubts. Were these guys really from a Hegemon level sect?

This needle technique was indeed born out of the Xuanji Nine Leaves.

But simplicity was not simple!

Ye Yuan's Xuanji Nine Leaves had long already attained sublimity, completely under his control.

Pray tell, could the acupuncture technique that he developed really be simple?

If it was simple, it would also be impossible to forcibly suppress the berserk blood corruption poison.

Xiao Shan's momentum looked very powerful, but he did not comprehend the essence of his acupuncture technique at all, even though he had already repeatedly emphasized it.

Ye Yuan could not help sighing. It seemed like he still thought too highly of the disciples of these Hegemon level holy land.

He was actually like everyone else, blindly trusting these sects.

He had already taught by precept and example.

The rest could only depend on these people's own comprehensions.

But looking at it now, it seemed like it did not go as he wanted.

Although the current techniques of Xiao Shan and the others were still a little unfamiliar, even if they become proficient, it would be impossible to truly reach his level too.

Many of those heavenly alchemists were secretly watching Ye Yuan's expression.

Seeing Ye Yuan secretly shake his head, these people could not help feeling unhappy.

It seemed like Master Ye was a narrow-minded person too and could not stand to see other people get good.

"Urgh, urgh ... puuuuu!"

Suddenly, one of the patients started twitching and directly spewed out a mouthful of blood.

His aura was rapidly wilting.

The people present could not help jumping in fright.

It was still fine just now. What happened?

Ye Yuan's expression changed, and he arrived in front of that person like lightning.

"Scram!"

He kicked that Extreme Medicine Sect disciple flying with a foot, the divine essence needles in his hand penetrating into the patient's body swiftly.

Along with one divine essence needle after another being injected, that person's blood corruption poison was finally forcefully suppressed by Ye Yuan.

Except, the effect of the treatment was much poorer.

Ye Yuan shot that person who was kicked flying by him fiercely and shouted coldly, "Told you guys just now, how much ability you have, just say how much. Don't show off your ability! With your bit of skill, you also dare to come out and apply the needles?"

In Ye Yuan's view, as a heavenly alchemist, one could not do anything that they were not confident of.

Clearly did not have the ability but wanted to attempt it. This was harming people!

This sort of thing, Ye Yuan could not stand it!

The person who was kicked flying was called Zhang Xiu, who was also an elite disciple of the Extreme Medicine Sect.

Being berated by Ye Yuan, Zhang Xiu said indignantly, "It's my first time applying the needles after all. How can I have absolute confidence? You're clearly holding a grudge against what happened before and using your position to get even with your personal grudge!"

The Extreme Medicine Sect's disciples were extremely prideful.

If not for the blow due to the incident this time, their arrogance could poke a hole in the sky.

In his view, being able to reach this step for the first time was already very impressive.

Actually, he was just on the cusp of being able and not being able to do it.

But, for the sake of the Extreme Medicine Sect's face, he still stepped forward without hesitation.

It was just that he did not expect that he still messed it up in the end.

'When Ye Yuan heard this, he smiled coldly and said, "You mean that because it's the first time you're applying the needles, you can treat the brothers' lives as a joke? If he died, he deserves it?"

Zhang Xiu's expression changed, and he said with a cold snort, "I didn't say that. You're making slanderous charges! Surnamed Ye, let me tell you, my Extreme Medicine Sect's disciples aren't easy to bully!"

Xiao Shan had already finished applying the needles, but his brows furrowed together.

He knew that he had bragged too hard!

Just now, he pledged in all solemnity that he had already comprehended 90%.

While he had completed the treatment, the effects of his treatment were much worse than Ye Yuan's.

It probably did not even reach half.

He was a grade six heavenly alchemist. How could he not know the gap in between?

Logically speaking, if he had comprehended 80%, the effects should naturally also be 90% of Ye Yuan's.

But now, it was not even half.

He was fully focused just now and did not notice the rest.

But now, seeing Ye Yuan getting mad at Zhang Xiu, he figured out the whole story and said with a frown, "Ye Yuan, I'll apologize on behalf of Zhang Xiu for this matter. First time applying the needles, mistakes occurring is inevitable."

'When Ye Yuan heard it, he was even more enraged and said with a cold smile, "Huhu, you want to brush this over casually with a sentence? Previously, when using the true spirit blood to suppress the blood corruption poison, it was like this. Now, when I teach you guys the Xuanji Nine Leaves, it's still the same! Are human lives worthless in your eyes? Doctors are not martial artists. One would rather not take action if they don't have the confidence!"

"I clearly said before previously. Don't step forward if you don't have the confidence! But you all? You didn't care at all and had to come forward to flaunt your superiority! Disregarding this guy, the others are also all lumps of shit when applying the needles!"

Actually, it could not be said that Ye Yuan did not have anger in his heart for what happened before.

The Extreme Medicine Sect's attitude towards this sort of thing was completely different from him.

Changing perspectives, if someone questioned his proposal at that time, he would definitely go and ascertain it.

But these people did not take other people's opinions in at all!

If say that his words carried little weight at that time, then what about now?

He had already proved his strength, they saw it too, but they were still like this.

Ye Yuan's dissatisfaction with these people also reached its peak.

Therefore, his words were very nasty too.

Xiao Shan's eyes could not help turning cold, and he said in a solemn voice, "Zhang Xiu is the Extreme Medicine Sect's disciple after all. What do you want?"

These words were using the Extreme Medicine Sect to oppress people.

'The Extreme Medicine Sect had a pivotal status in the entire Grand Brightjade Complete Heaven and the Heaven One war.

A measly little Ye Yuan was insignificant like an ant in front of such a colossal giant.

Ye Yuan laughed from extreme rage and said, "I said before previously, punishment by military law! It looks like you guys treated it like water rolling off a duck's back!"

Zhang Xiu did not care about these words at all and said disdainfully, "What a joke! How many people have my Extreme Medicine Sect's saved in this war? How many great achievements have been made! Now, you actually want to punish me with military law?"

Xiao Shan also said in a cold voice, "Nobody can touch my Extreme Medicine Sect's people!"

It became dangerously explosively inside the tent!

Each and every one of the Extreme Medicine Sect's disciples turned their noses up at Ye Yuan.

Their haughtiness would not change because of Ye Yuan's monstrous performance.

'When a conflict happened, their contempt for Ye Yuan was no less.

No matter how monstrous, he was also just an ant!

In front of the Extreme Medicine Sect, he was nothing!

Suddenly, Ye Yuan restrained his imposing aura, turned around and came to the patient's side, and began to administer needles.

This person had needles administered by one of the Extreme Medicine Sect's disciples previously.

The effects ... barely managed to suppress the blood corruption poison. Furthermore, it was very unstable.

Ye Yuan saved the life of the seemingly hopeless patient again off of his foundation.

He did not say a word, re-treating these soldiers anew, including Xiao Shan's.

'When Zhang Xiu saw this scene, he could not help but snicker.. He said disdainfully, "I was wondering how impressive Great Genius Ye was, but it turns out that it's nothing more than this!"

Unrivaled Medicine God

Chapter 2815: Winning Sincerity with Sincerity!

"He still yielded in the end!"

"There's no choice. Who made the Extreme Medicine Sect to be so powerful? In our Heaven One army, only the Extreme Medicine Sect are experts in alchemy. Even if one reaches the Hegemon Realm, they have to give them face too. Otherwise, this war can't be fought anymore!"

"However, I feel that it's still Master Ye who's sympathetic to us, these common people! A doctor's benevolence, Master Ye is really thinking about us!"

"think so too, but an arm can't twist a thigh. He can't help it as well."

Ye Yuan's rage naturally aroused the strong dislike of the Extreme Medicine Sect's disciples.

But those ordinary soldiers felt that it was very intimate.

Saint Sovereign Heaven, when placed on the Rainclear Continent, was an absolute overlord.

But, in this entire Grand Brightjade Complete Heaven, they were barely qualified to be cannon fodders.

In this war, they were even more so cannon fodder-like existences.

To those powerhouses, their lives were completely worthless.

Even in the eyes of these top major sects' disciples, their lives were worthless too.

If they died, so be it. Being able to contribute to the Heaven One army, that was their honor.

This could be felt from Zhang Xiu's words.

But Ye Yuan's way of doing things gave them dignity.

'They were grateful to Ye Yuan in their hearts, but facing a behemoth like the Extreme Medicine Sect, they were powerless to do anything too.

Very soon, Ye Yuan treated those ten people.

Xiao Shan said, "Ye Yuan, you've indeed rendered two great contributions, but compared to my Extreme Medicine Sect, you're still too insignificant! Our Extreme Medicine Sect is supporting the entire Heaven One Continent! Do you understand?"

Dao Chen also smiled coldly and said, “Ye Yuan, you have to understand your status! You’re merely a grade five heavenly alchemist! Our Extreme Medicine Sect isn’t an existence that you can afford to provoke!”

‘These words were rather impolite already.

A kind person gets bullied, a kind horse gets ridden.

Ye Yuan ‘giving in’ made Dao Chen and the rest even more proud of themselves.

‘The Heaven One army’s heavenly alchemist system and the Extreme Medicine Sect established their own systems. Other heavenly alchemists did not dare to fight at all.

Those heavenly alchemists that were from the Extreme Medicine Sect also regarded themselves as superior to others.

Actually, the Extreme Medicine Sect had committed a fatal error in this war.

But nobody dared to raise it up and punish them to teach them a lesson.

Hearing this, Ye Yuan slowly got up, looked toward Dao Chen, and said, “Oh? In this army, one needs to talk about status too? Isn’t it, military orders can’t be disobeyed?”

Dao Chen said disdainfully, “In the army, military orders naturally can’t be disobeyed! But who the hell are you? You’re merely a foreigner from a remote continent. You don’t even have status! You aren’t a member of the army at all. You’re actually giving orders here; how laughable!”

“Haha, you said punish by military law, and we’ll punish by military law? Do you think that you’re Commander-in-chief Ming Yi? A measly little grade five heavenly alchemist giving orders here, who gave you the authority?” Zhang Xiu said with a loud laugh.

What was called overestimating one’s own ability?

This is called overestimating one’s own ability!

In the view of the Extreme Medicine Sect’s people, Ye Yuan’s posturing action was really laughable.

In the heavenly alchemist system, no one dared to posture in front of the Extreme Medicine Sect yet!

Zhao Chen was very anxious by the side. With regards to Ye Yuan, he already held him in great esteem.

He could feel that Ye Yuan sincerely had the best interests at heart for his brothers.

Otherwise, he could have long let the Extreme Medicine Sect’s disciples administer the needles.

But he did not.

Ye Yuan set an example by personally taking part, taking great pains to demonstrate the Xuanji Nine Leaves. It was for the sake of letting these Extreme Medicine Sect disciples learn a little faster.

Even so, he was still worried and planned on letting these people administer the needles in batches.

Reality also proved that Ye Yuan was right.

Zhao Chen also could not deny that the Extreme Medicine Sect was a pillar of the Heaven One Continent.

But, they did not have any compassion towards ordinary soldiers at all.

In fact, many times, they were just test subjects.

Now, seeing the Extreme Medicine Sect's disciples target Ye Yuan together, he could not look on anymore and spoke up, "Master Ye saved our lives. He's our brother and naturally a part of the army!"

"Right! Master Ye saved Heaven One Continent and saved all of our lives! Now, he's helping us suppress the blood corruption poison. He's our brother!"

"What Centurion Zhao said is right. He's our brother!"

The moment Zhao Chen opened his mouth, there were immediately many people who concurred.

Sincerity was often won with sincerity in the army.

If you were good to him, he would know.

Furthermore, the feelings between fellow officers tend to be even more sincere.

'These few days, Ye Yuan administered the needles day and night without sleeping or resting.

In the hearts of these ordinary soldiers, they had long already treated Ye Yuan as a brother.

'There were probably hundreds of soldiers present.

When they spoke up simultaneously, it directly pushed the Extreme Medicine Sect's disciples to the corner of the wall.

Including Xiao Shan, each and every one of their faces was awkward to the extreme.

This face was slapped resoundingly!

"Zhao Chen! Are you rebelling?" Dao Chen shouted angrily.

Zhang Xiu also questioned, "Ye Yuan saved your lives, but didn't my Extreme Medicine Sect save your lives?"

Zhao Chen said, "The Extreme Medicine Sect has naturally saved our lives before, but you didn't! Not only didn't you guys save us before, you nearly caused the northern front army to completely collapse!"

Zhao Chen's one sentence directly cornered the Extreme Medicine Sect again.

They were unable to refute.

It was because this was a fact!

Dao Chen laughed from extreme fury and said, "Huhu, Zhao Chen, grew capable huh! Have you forgotten how you sucked up to us back then? Have you forgotten how you reproved Ye Yuan?"

Zhao Chen said neither obsequiously nor haughtily, "What you said is right! Back then, we believed in the Extreme Medicine Sect too much, resulting in today's disastrous consequences! The initially over 300 men under me are only left with 100 men now! Among these 100 men, there are even 70% who are afflicted with blood corruption poison! If not for Master Ye, it would have been impossible for the 100 of us to return! Even if we returned, at most 20 to 30 of these 100 people can remain!"

The moment these words came out, the ordinary soldiers nodded one after another.

Zhao Chen's current mood, they felt the same way too.

For some centurions, the men under them were pretty much all dead.

But the expressions of Zhao Chen and the rest became ugly to the extreme.

One should not hit the face when hitting people, but this face was really slapped resoundingly now.

No one had ever dared to slap the Extreme Medicine Sect's face like this before.

Did these guys all eat a bear's heart or leopard's gall?

Xiao Shan's face darkened, and he said, "Come, men! Zhao Chen is misleading people with rumors, slandering the Extreme Medicine Sect! Take Zhao Chen down for me and punish by military law!"

Immediately, two attendant soldiers beside him stepped out of the ranks and immediately escorted Zhao Chen.

Zhao Chen was clearly long prepared and did not resist.

He was not a fool. Xiao Shan was a True Sovereign Heaven powerhouse, a commander of the northern front army.

'When he came forward at this time and spoke up for Ye Yuan, he would definitely be retaliated against.

But, he felt that he should come forward at this time.

Just as the attendant soldier was going to drag Zhao Chen away, Ye Yuan suddenly spoke up, "Stop!"

Xiao Shan looked at Ye Yuan and said coldly, "You're not a member of the army. Could it be that you still want to interfere in our army's affairs

Ye Yuan was indifferent and flashed a plaque, saying coolly, "What did you say just now? Say it again!"

Chapter 2816: Drag Outside, Kill!

Seeing the token that Ye Yuan flashed, Xiao Shan's entire body trembled, his eyes revealing a look of disbelief.

"Great Commander Token! How ... How do you have this?" Xiao Shan said in shock.

Although Xiao Shan was questioning it, the 'Ye' word engraved on the token, as well as the unique aura emitting from the token, could not be faked.

Regarding the northern front army, not counting Emperor level powerhouses, the highest commander was Ming Yi this commander-in-chief.

And below him were the five grand completion True Sovereign Heaven great commanders

Below great commanders, True Sovereign Heaven powerhouses were all commander level.

Each person had a corresponding token.

Now, Ye Yuan actually took out a great commander token. The shock in Xiao Shan's heart could be imagined.

'There were only five of these tokens!

Furthermore, their holders were all grand completion True Sovereign Heaven powerhouses!

Where did Ye Yuan get it?

"Emperor Dan Fei conferred the great commander token and let me lead the northern front army's heavenly alchemist division! Commander Xiao, I wonder if ... this Ye has the authority to meddle in this army's affairs?" Ye Yuan looked at Xiao Shan and said it word by word.

Everyone present was in an uproar!

Meanwhile, Xiao Shan's pupils constricted, having a look of astonishment in his eyes.

This great commander token was actually personally bestowed by Emperor Dan Fei!

Emperor Dan Fei was the supreme commander of the northern battlefield in the truest sense!

Normally, his movements and traces were elusive and secretive.

The Saint Sovereign Heaven army's battles were actually on the outer-periphery too.

'The true core regions were the great battles of these Emperor level powerhouses.

That level of fight could be said to startle heaven and shock the earth.

Logically speaking, Commander-in-chief Ming Yi himself already had the qualifications to confer great commander.

But the heavenly alchemist division did not have a great commander. It had always been Xiao Shan in charge of it.

Xiao Shan's strength was lacking, and he could not be a great commander either.

But who could have thought that Emperor Dan Fei actually personally intervened in the affairs of the army and bestowed the great commander token upon Ye Yuan!

Didn't this mean that Ye Yuan directly became his, Xiao Shan's, superior?

This sort of thing was too comical!

A measly little grade five heavenly alchemist actually became the immediate superior of him, a grade six heavenly alchemist?

But, something that Emperor Dan Fei personally concerned himself with, who could refute it?

The likes of Xiao Shan and Dao Chen had always been calling Ye Yuan's identity into question before. Now, it was good. Not only did Ye Yuan become a member of the army, but he also even became the great commander of the northern front army's heavenly alchemist division!

Could he not meddle?

He could meddle too well!

The heavenly alchemist division's great commander was just nice in charge of all the heavenly alchemists present, including Xiao Shan!

It was unbelievably appropriate!

Actually, Xiao Shan's arrest of Zhao Chen was somewhat unjustifiable.

After all, Zhao Chen was not his direct subordinate.

But the Extreme Medicine Sect's disciples were used to normally being domineering. Coupled with Xiao Shan's status as commander, he was the heavenly alchemist division's great commander in practice.

Even Zhao Chen's superiors would not intercede for him too.

But now, things were different.

If Commander Xiao has any doubts, you can go and ask Commander-in-chief Ming Yi!" Ye Yuan said coolly.

"No need! This token can't be faked!" Xiao Shan said in a solemn voice.

He had never felt so aggrieved before!

'As one of the Extreme Medicine Sect's grade six heavenly alchemists, his status in the army was extremely respected.

Even True Sovereign Heaven powerhouses had to beg him for help too.

But now, he was actually being suppressed by a grade five heavenly alchemist. How could he not be gloomy?

Ye Yuan naturally did not care about Xiao Shan's attitude. He said lightly, "Then can this great commander meddle in the army's affairs?"

"You can!" Xiao Shan said in a muffled voice.

But these words were like a clap of thunder when they landed in Zhang Xiu's ears, instantly stunning him.

'What was the meaning of this?

Not caring about him anymore?

That Ye Yuan was assuming a new official post, he would definitely be the first to bear the brunt!

Ye Yuan said coolly, "Since I can meddle, then this great commander will say a few more words here! In this army, the brothers with sects and factions are probably not in the minority! The Hegemon level sects in this Heaven One Continent are also not just your Extreme Medicine Sect alone! The Extreme Medicine Sect has indeed rendered great contributions in resisting the blood race, but which of the brothers fighting on the battlefield doesn't have credit? The other Hegemon level sects have no credit? Or is it that the Saint Sovereign Heavens that came from Hegemon level sects have a higher status than those small sects?"

"If that's the case, our side has already established factions. How will this war still be fought? After entering the army, everyone is a fellow officer brother! Heavenly alchemists are a member of the army too! Everyone has parents and were raised by them. Who's more valuable than others? You're a Saint Sovereign Heaven, but isn't he also a Saint Sovereign Heaven? If you have the ability, try breaking through to True Sovereign Heaven!"

"With the army being defeated this time, the Extreme Medicine Sect can't absolve yourselves from the blame! Nobody is investigating you guys precisely because the Extreme Medicine Sect has made great contributions! But committing mistakes is committing mistakes. We can't talk about it? Said a few words about you, and he has to get punished by military law? Xiao Shan, then how will you be dealt with for rebutting me, this great commander? Dao Chen, you're merely a grade five heavenly alchemist. How should you be dealt with for talking back to me, this great commander?"

Xiao Shan's face turned black, and he was immediately choked until he could not speak.

You're freaking sneak attacking me!

Clearly had the great commander token long ago, but you didn't take it out!

As for Dao Chen, his face even became ashen.

Actually, it was really not that Ye Yuan ambushed him.

After coming out from Dan Fei there, Ming Yi still had important military affairs to discuss, so he stayed behind and casually instructed his subordinates to bring Ye Yuan to diagnose and treat the soldiers.

Ye Yuan was not someone who showed off either. He naturally would not take out his great commander token.

If not for the Extreme Medicine Sect pressing people too far, he really would not care for taking out the great commander token.

Talready crushed you in Alchemy Dao. What did I still need some great commander token for?

"Let him go!" Ye Yuan said to the two attendant soldiers coldly.

The two attendant soldiers were at a loss on what to do and looked toward Xiao Shan.

Xiao Shan waved his hand, indicating for them to let go. Only then did they behave like they were granted amnesty.

It was so uncomfortable to be caught between Great Commander and Commander!

'When Zhao Chen was released, his two eyes were emitting light.

He also did not expect that Master Ye actually performed an unexpected reversal, slapping the Extreme Medicine Sect's disciples' faces resoundingly!

In reality, after returning from the big defeat this time, they really felt aggrieved to the extreme.

It was clearly a man-made disaster, but they could not say it out loud.

The Extreme Medicine Sect's prestige in their hearts fell to rock-bottom all at once.

Now, Ye Yuan saying it out in front of everyone, they felt much more liberated.

Suddenly, Ye Yuan shouted coldly, "Zhao Chen, take Zhang Xiu down for me!"

Zhao Chen's entire body trembled, immediately stepping forward and arresting Zhang Xiu.

Zhang Xiu yelled, "Martial Uncle Xiao Shan, save me!"

Xiao Shan had a sullen face as he said in a cold voice, "Great Commander, do you really have to do this? My Extreme Medicine Sect's face isn't easy to slap! You've just arrived and might not know it yet. Among the Emperor Vast Heaven powerhouses that came this time, there's also my Extreme Medicine Sect's ancestor!"

The Emperor Vast Heaven powerhouses were naturally not just Dan Fei alone.

It was just that he was the strongest.

However, Ye Yuan did not buy it and just said coolly, "Military orders can't be disobeyed! Today, if I don't kill people, you guys won't know the preciousness of human life! Our comrades aren't for people to use as experiments! Zhao Chen, haul him out and kill him!"

Unrivalled Medicine God

Chapter 2817: Resolving a Big Issue with Little Effort!

Zhang Xiu died!

The entire army was in shock!

Nobody expected that an Extreme Medicine Sect's top disciple was sentenced to death just like this!

Unexpectedly, but also within reason, the applause was continuous.

The big defeat was not to be blamed on the fight. The loss was too pathetic.

It was clearly the Extreme Medicine Sect who caused the defeat, but in the end, they could not do anything to them.

The Heaven One army needed a relief outlet.

And Zhang Xiu played this role very honorably.

“Extreme Medicine Sect’s disciples finally got their retribution! Feels amazin,

“I didn’t expect that Ye Yuan, a grade five heavenly alchemist, could actually become a great commander! feel that he is intentionally helping us to vent this frustration!”

“Haha, what a coincidence! I think so too! With so many of our brothers dead, what right do they have to be completely fine?”

“Extreme Medicine Sect’s disciples normally had aloof airs like they are standing high above the masses. Your Father has found them displeasing to the eye for a long time!”

It was true that the Extreme Medicine Sect was a pillar that propped up the sky.

But this also developed the domineering personalities of the Extreme Medicine Sect’s disciples.

Even if they were similarly Saint Sovereign Heavens, they were also aloof from the masses.

In their eyes, ordinary soldiers were not worthy of being mentioned in the same breath as them at all.

Therefore, the people in the army who were unhappy with them were not in the minority.

It was just that they dared to get angry but did not dare to speak.

After all, when they get injured, they still needed the Extreme Medicine Sect’s disciples to treat them.

Sentencing Zhang Xiu to death, Xiao Shan flicked his sleeves and walked away.

Everyone knew that an even higher level contest would start soon!

At the northern front battle this time, the Extreme Medicine Sect sent an ancestor over too!

Killing the Extreme Medicine Sect’s people was equivalent to slapping their faces. How could they be willing to drop the matter?

‘The wrath of an Emperor level powerhouse was not what a measly little Saint Sovereign heaven could bear.

In the eyes of Emperor level powerhouses, Ye Yuan, this great commander, had no weight at all.

‘The Extreme Medicine Sect’s disciples were even sneering in their hearts.

Do you think that by becoming a great commander, you can use a made-up directive to order people around and disregard my Extreme Medicine Sect?

Laughable!

Great Commander, just you wait to receive Ancestor’s wrath!

When he heard the news of Zhang Xiu being sentenced to death, Ming Yi was currently discussing military affairs with Emperor Dan Fei.

He suddenly stood up and said angrily, “This boy, is he crazy? It’s just been a few days, and he caused such a major problem! When Emperor Zuo Chen finds out about this news, he’ll definitely be beyond furious! Lord Emperor, please hurry up and rescind your order! Otherwise, if it causes unhappiness

between emperors, that will be a big problem!"

But Dan Fei's reaction was not as intense as Ming Yi's.

On the contrary, the corners of his mouth even revealed a hint of a smile.

He reached his hand out and pressed down, gesturing to Ming Yi as he said smilingly, "Just a small matter."

Ming Yi smiled bitterly and said, "Lord Emperor, this isn't a small matter!"

But Dan Fei said with a smile that was not a smile, "Do you feel that Ye Yuan did something wrong with regards to this matter?"

Ming Yi said without the slightest hesitation, "Of course he's wrong! The Extreme Medicine Sect is a pillar that props up the sky. How can one of them be killed lightly? Moreover, there's even Ancestor Zuo Chen standing behind them! Originally, letting him be the great commander, Xiao Shan would

definitely be unconvinced. Now, doesn't it leave behind even more of a handle for gossip?"

But Dan Fei smiled meaningfully and said, "Ming Yi, you ... are not seeing it as deeply as Ye Yuan!"

Ming Yi was startled and hurriedly said, "Lord Emperor, please clarify!"

He knew that he might have overlooked some aspects.

Dan Fei smiled and said, "You're wrong. Not only will this matter not incur Zuo Chen's displeasure, he'll be grateful to Ye Yuan instead! Ye Yuan, this great commander, has also thoroughly established his position firmly through this matter! Additionally, he'll even get the whole army's love and respect!

Killing three birds with one stone! Hulu, I really didn't expect that in just a few days, this boy would give this seat a huge surprise!"

Dan Fei stroked his beard and smiled, clearly extremely satisfied with Ye Yuan.

Ming Yi was dazed after listening, not knowing what it meant at all.

When Dan Fei saw that he still did not understand, he could not resist shaking his head and sighing.

Ming Yi was startled in his heart, is Lord Emperor dissatisfied with me?

"The defeat of this great battle was entirely caused by the failure of the Extreme Medicine Sect's true spirit method of suppression! After returning, it seemed like everyone had forgotten about this. Why is that? Because no one dares to mention this! How can a colossal giant like the Extreme Medicine Sect be what a puny little Saint Sovereign Heaven army can shake?"

"But, if the soldiers don't say, does that mean that they really had no resentment in their hearts? Of course they do! The big defeat this time nearly caused extremely serious consequences, and it was entirely caused by the Extreme Medicine Sect! The crux is that before the great battle, Ye Yuan even

warned the Extreme Medicine Sect's disciples that there was a problem with this suppression method! The resentment in the soldiers' hearts is likely already rising to the sky!"

“And just nice at this time, Ye Yuan killed an Extreme Medicine Sect’s disciple. What do you think those soldiers will think?”

Dan Fei explained skillfully and patiently. Ming Yi was dumbfounded from listening.

“But ... But Emperor Zuo Chen there

“Huhu, Zuo Chen this old fellow, he understands it in his heart! Not only does he understand, but he’s also actually very anxious in his heart too! Emperor Realm powerhouses can naturally disregard the thoughts of Saint Sovereign Heavens. But the failure this time was also a tremendous blow to the

Extreme Medicine Sect. It even affected their status in the Heaven One Alliance! At this time, it’s particularly important whether or not the soldiers are submitting wholeheartedly!”

“Over at the southern front, there hasn’t been too much war recently. There’s still a chance to remedy it. But the northern front here has already suffered a big defeat. So how can the reputation of the Extreme Medicine Sect be restored? Zhang Xiu was just a minor character of little importance. His death won’t affect much, But it gave the soldiers a great relief outlet. The soldiers understand in their hearts that they can’t do anything to the Extreme Medicine Sect. But they can imagine Zhang Xiu as the Extreme Medicine Sect and blame things on him bitterly!”

“Following this incident, the Extreme Medicine Sect’s disciples will be doing their best to treat the injured in the future, and even eradicating the blood corruption poison under Ye Yuan’s lead! Not only will the Extreme Medicine Sect’s reputation not suffer damage, but it might also make their prestige like the noonday sun instead! No matter how formidable Ye Yuan is, he’s also just one person. It still needs the Extreme Medicine Sect’s disciples to really save people, isn’t that so?”

“A measly little grade five heavenly alchemist’s death can minimize the negative impact of this defeat! Do you think Zuo Chen that old fellow should be grateful to Ye Yuan or not? Not only will he not do anything to Ye Yuan, but he’ll also even recognize Ye Yuan’s status as a great commander! Ye Yuan’s position of great commander can be considered to be secured!”

‘Talking until here, Dan Fei was even more pleased with himself, as if this was his own masterpiece.

He also indeed had his breath taken away in wonder by Ye Yuan’s ingenious brushwork!

‘This move was even more amazing than him executing Xuanji Nine Leaves!

It was completely resolving a big issue with little effort!

Ming Yi, who was by the side, was long already dumbfounded from listening.

He completely did not expect that the death of a measly little grade five heavenly alchemist actually implicated such a complicated situation.

A puny little Ye Yuan could actually see the overall situation so penetratingly?

This was impossible!

“Lord Emperor, his luck is also too good, right?” Ming Yi shook his head and said with a bitter smile.

“Luck?”

Dan Fei continued and said, “This isn’t luck! This boy saw things as clearly as viewing a blazing fire, seeing the world clearly, and has exceedingly high comprehension ability! He’s definitely a world-shattering talent! This matter looks like a dispute caused by personal feelings, but in reality, it’s a situation that resulted from him advancing gradually and entrenching himself at every step! Each step seemed to be extremely coincidental, but when so many coincidences come together, it’s no longer a coincidence!”

Unrivaled Medicine God

Chapter 2818: Great Work!

“Ancestor, Ye Yuan this boy is bullying people too far! A measly little grade five heavenly alchemist actually dares to assume the majesty of the tiger and kill our Extreme Medicine Sect’s disciple! If this matter is dropped just like this, how will our Extreme Medicine Sect still have face to continue stay in the Heaven One Alliance?”

In front of Emperor Zuo Chen, Xiao Shan could not stop his anger.

How venerated was the Extreme Medicine Sect, and how noble were their disciples?

A measly little grade five heavenly alchemist actually rode on top of their heads!

If this could be endured, what else could not be?

But, no matter how enraged Xiao Shan was, Zuo Chen seemed to be very calm.

“Just this? I got it.” Zuo Chen said coolly.

Xiao Shan was stunned. What kind of reaction was this?

“Ancestor, then Ye Yuan ...”

“Restrain our disciples properly. They all have to obey Ye Yuan’s orders! This is the army. He’s the great commander of the heavenly alchemist division. No matter which sect you’re from, you have to obey his orders!” Zuo Chen still said calmly.

Xiao Shan somewhat doubted his ears. Did he hear wrongly?

Ancestor Zuo Chen was the Extreme Medicine Sect’s Emperor Vast Heaven powerhouse. He actually wanted his own sect’s people to obey the orders of a grade five heavenly alchemist?

“H-How can this be? Could it be that our Extreme Medicine Sect’s disciple died in vain just like this?” Xiao Shan said unwillingly.

Zuo Chen said, “How is it in vain? Zhang Xiu’s death was honorable. It’s a worthy death. Transmit orders to the three armies. Zhang Xiu treated others with contempt, went against his superior, and acted with utter disregard for human life. He should be punished for his crime! Ye Yuan has rendered

amazing merit, his alchemy path talent being outstanding. This seat is going to take him in as a personal disciple. The day when the northern front's war is brought to successful completion, this seat will officially take him in as a disciple!"

Xiao Shan was completely dumbfounded. His brain seemed to be unable to think anymore.

Emperor Zuo Chen's words shocked him into a daze.

Ye Yuan killed an Extreme Medicine Sect's disciple. Ancestor did not stand up for him. He even said well killed?

No, this is not the main point!

Personal disciple!

Emperor Zuo Chen is actually going to take Ye Yuan in as a personal disciple!

This ... This is too outrageous!

Emperor Zuo Chen was an Emperor Vast Heaven ancestor.

He actually personally came forward to take a puny little Saint Sovereign Heaven in as a personal disciple?

This sort of thing was simply even more shocking than the sun rising from the west!

Are all these Emperor powerhouses mad?

Ye Yuan became his martial uncle with a sway of his body?

That was too preposterous!

Abumpkin from the countryside actually became his little martial uncle!

Xiao Shan suddenly felt that this world was too crazy.

He did not know how he left. His entire head was dizzy.

Zuo Chen, this level of powerhouse, was simply disdainful to explain anything to Xiao Shan.

If he wanted to do it, he would do it.

Ming Yi's strength was up to par, with half a foot stepped into the door of Emperor Realm. That was why he would be treated differently by Dan Fei.

As for him, Xiao Shan, he was not qualified enough yet.

Everything that happened today was too fantastical and too unthinkable.

First was Emperor Dan Fei personally admitting that Ye Yuan was the great commander of the heavenly alchemist division.

Following that, the Extreme Medicine Sect's ancestor, Emperor Zuo Chen, was actually going to take Ye Yuan in as a personal disciple!

Two top emperors actually showed favor to a measly little Saint Exalt Heaven at the same time!

The position of great commander was already extremely respected to begin with.

Now, Ye Yuan became Emperor Zuo Chen's disciple. This was even more terrifying.

Disregarding other things, just based on seniority, Ye Yuan's seniority could scare people to death!

One had to know, in the Extreme Medicine Sect, even if Emperor Cloud Heaven powerhouses saw Zuo Chen, they had to call martial uncle respectfully too!

Zuo Chen's strength was also an extreme existence among all the Emperor Vast Heavens.

His status in the Extreme Medicine Sect was very high too.

God knew how many people wanted to become his disciple but could not.

Among them even included some Emperor Cloud Heaven powerhouses!

Unsurprisingly, the entire northern front army was stunned again!

Concerning Emperor Zuo Chen taking Ye Yuan in as a personal disciple, this matter was too sensational.

In the entire army camp, there were discussions everywhere.

"Crazy! It's really crazy! I even thought that Emperor Zuo Chen was going to fly into a great rage this time and even get into a tussle with Emperor Dan Fei. Who knew that not only did he not, he's actually going to take Ye Yuan in as his personal disciple!"

"What a miraculous play! Great Commander Ye Yuan killed the Extreme Medicine Sect's disciple. Not only did the Extreme Medicine Sect's ancestor not blame him, but also he's going to take him in as a disciple instead!"

"Looks like the Extreme Medicine Sect isn't all arrogant and domineering people either! The big shots above all have sharp eyes!"

"Great Commander Ye Yuan is our benefactor. We also feel honored that he can soar to the sky in one leap!"

Beyond the shock, many people were happy for Ye Yuan.

The sensational effect of this incident swept away the haze of the defeat previously.

The love for the house extended to even the crows perching on the roof. Many soldiers' dislike toward the Extreme Medicine Sect also reduced to the minimum.

When Emperor Dan Fei heard this news, he could not help being stunned, then immediately could not help laughing as he said, "Old Punk Zuo Chen is indeed as shrewd as ever! This move of pushing the boat along the current is used really brilliantly to the max!"

Ming Yi smiled bitterly and said, "Who could have thought that a measly little Saint Sovereign Heaven became the northern front army's popular figure all of a sudden! When I see this boy, I'll even have to call martial uncle! How will I still be the commander-in-chief?"

Dan Fei also laughed loudly when he heard that and said, "Interesting! Interesting! Zuo Chen this old thing has never followed a set pattern. It's what this seat admires the most! However, the move this time really surprised me! But then again, Ye Yuan is indeed a good seedling that's hard to come across!

It's just that pity that ... he's a divergent cultivator!"

The words carried endless regret.

How could he not know that Ye Yuan was a good seedling?

But the fates of divergent cultivators were not up to them!

Since time immemorial, how many divergent cultivators had there been? Those able to cultivate the Emperor Realm were like the feather of a phoenix and horn of a Qilin; very rare.

Those who could cultivate to Emperor Vast Heaven could be counted on one's fingers.

What did failing to attain it mean?

Death!

Dead under Dao tribulation!

Either succeed or die trying!

When Ye Yuan himself heard this news, he also had a struck senseless look.

He had never even seen before Emperor Zuo Chen, and the other party was actually going to take him in as a personal disciple?

But, after thinking about it, he understood Zuo Chen's thoughts.

This move held extraordinary significance!

Indeed, these big shots operated from a strategically advantageous position. None of them were simple!

He used a weaker force to deal with a greater force, and the other party took advantage of a favorable trend.

He was going to become someone else's disciple?

Nobody came to ask about his thoughts?

Maybe he would refuse?

Alright, actually, Ye Yuan himself was also quite moved.

No matter what, the Extreme Medicine Sect was the strongest alchemy path sect in Grand Brightjade Complete Heaven, not one of!

Being able to become the Extreme Medicine Sect's disciple, no one could refuse it.

Moreover, his master was even an Emperor Vast Heaven Realm grade eight heavenly alchemist!

With regards to Xiao Shan and the rest, Ye Yuan looked down on them.

Ye Yuan had high regard of himself, but he was not ignorant of the immensity of heaven and earth.

In front of a grade eight heavenly alchemist, he was merely an ant.

Furthermore, Ye Yuan also knew that the likes of Xiao Shan were not the top class in the Extreme Medicine Sect.

The true elites were all at the southern front.

The northern front's war was too sudden. The real elite disciples were unable to be transferred over for a while.

One had to know, back then, a Pill Alliance's holy son, Cang Yongning, practically forced him into a desperate situation.

And he was merely a disciple taught by the Extreme Medicine Sect's abandoned child, Li Changsheng.

Looking at a leopard through a tube to see only one spot, the Extreme Medicine Sect's strength was clear at a glance!

Therefore, becoming a grade eight heavenly alchemist's disciple, Ye Yuan was actually not resistant to it.

The urgent matter on hand was not acknowledging him as a master but to truly resolve the danger of the blood corruption!

Chapter 2819: Saint Sovereign Hundred Sons!

Sure enough, the following events went much smoother.

The Extreme Medicine Sect's disciples became incomparably respectful and submissive in front of Ye Yuan.

No one dared to contradict Ye Yuan anymore.

The word of Ye Yuan, this great commander, also truly carried the weight of nine tripods.

Under Ye Yuan's teaching, Xuanji Nine Leaves and the rest grasped the blood corruption poison very soon and officially started to take over the suppression of the blood corruption poison.

Although the effects of their treatment were far inferior to Ye Yuan's, it would barely suffice.

Ye Yuan treated the most difficult group of people. The remaining risk became much smaller too.

However, the Extreme Medicine Sect's disciples also strictly abided by the rule that Ye Yuan set. Without full confidence, they were not to administer acupuncture on the soldiers arbitrarily.

At present, there was naturally no one who dared to retort anymore.

Within the great hall, more than ten Emperor Realm powerhouses were all using strange gazes to look at Ye Yuan.

“Ye Yuan, are you sure that you want to do this? You have to know, once the blood race’s Emperor Realm powerhouses really make a move, you’ll definitely die without a doubt!” Emperor Dan Fei looked at Ye Yuan and said.

Ye Yuan smiled and said, “They won’t make a move! To the blood race, the most pressing matter on hand isn’t to slaughter the human race but to guard the spatial passageway. No matter whether it is Emperor Realm powerhouses or the army below Emperor Realm, their numbers can’t match ours. Under

this kind of circumstance, the risk of making a move against me is too great! If you all take the opportunity to go sneak attack the spatial passageway, they will lose more than they gain.”

“Of course, if they really dare to send people to deal with me, lord emperors can turn the ruse real and go sneak attack the spatial passageway! The blood race has ten Emperor Realm powerhouses at present, even if they send the weakest one to come and deal with us, your odds of winning will most likely

increase significantly too.”

Emperor Dan Fei’s gaze was gleaming as he said, “This way, you’ll face certain death!”

Ye Yuan was indifferent and said, “Putting aside that there’s an extremely low chance of such a thing happening, even if it really happened, the other brothers are willing to die for Heaven One. So why won’t I, Ye Yuan, willingly die too?”

‘These few days, Ye Yuan heard too many heartwarming stories when treating those wounded people.

Although the Absolute Heaven Barrier barely managed to stop the blood race, everyone understood that the Absolute Heaven Barrier would ultimately be breached one day.

‘The more it was at this kind of life and death juncture, the more touching stories would emerge.

Such as a chiliarch called Shen Xiang, his family of close to 100 people all died in service.

At that time, Shen Xiang was still young, only Greater Sublime Heavenly Stratum.

He watched his father’s generation and forefathers die on the battlefield with his own eyes. The feeling of powerlessness permeated everywhere.

Heaven One alliance originally planned to let Shen Xiang stay in the rear in order to present the Shen Family’s only bloodline.

But, after his strength reached Saint Sovereign Heaven, he joined the Heaven One army without hesitation and became a warrior.

This time, he was inflicted with blood corruption poison too and dying due to heavy injuries. But he did not have any regrets on his face. He proudly said that he killed ten bloodkins.

One should not look at how it was only a mere ten people. This was an amazing record.

The blood race was too difficult to kill.

Another example was the great Hegemon level holy land's Mirror Moon Sect; they had a peerless heaven's chosen, Shi Qiuyang, who once appeared before.

This heaven's chosen could be said to be invincible in the same rank!

One had to know, being known as invincible at the same level across the entire Grand Brightjade Complete Heaven, this plane, how gloriously resplendent he was!

But then he led a squad of more than 100 people and was in charge of covering a wound unit to evacuate.

Who knew that they actually walked into the ambush of the blood race!

'There were 3000 people in this division of bloodkin. Furthermore, it was an elite team of bloodkin; each of them was extremely powerful.

Furthermore, there were even True Sovereign Heaven powerhouses in the team!

In order to cover the wound to evacuate, Shi Qiuyang led this squad of a hundred men to fight to the death!

In the end, this squad of a hundred people, they were all killed

But Shi Qiuyang fought three great True Sovereign Heavens by himself, killing two of them.

This division of blood race army suffered casualties of more than half!

To the Heaven One Alliance, this was practically something impossible to accomplish.

He fought three great True Sovereign Heavens alone. Did he not have the strength to escape?

He did not!

In other words, the significance of his survival was more important than this squad of 100 people and all the wounded.

'This was a super genius reputed to have the potential of reaching the Hegemon Realm!

But he did not!

One after another, this kind of stories, they were far too many.

Even if Ye Yuan had experienced too much, he also involuntarily shed tears at times.

He was an outsider, but he was also a member of Grand Brightjade Complete Heaven, a member of the human race.

Under such desperate situations, he needed to contribute.

Ye Yuan was a peerless heaven's chosen, but he had never regarded himself as head and shoulders above others.

Other people could contribute. He could too.

In reality, he had always done so too.

At this time, an Emperor Realm powerhouse ridiculed him, "Brat, do you really think that you're invincible under the heavens? Let me tell you, the young powerhouses in the blood race are even stronger than the Heaven One Alliance! According to what I know, three among the Saint Sovereign Hundred

Sons came in their army this time, Yan Meng, Wu Shang, and Yuan Zheng! Just based on the five of you, you're going to challenge the blood race? Then can we, these Emperor Realms, sleep in peace in the future?"

This was an Emperor Cloud Heaven powerhouse called Wei Liang, but he was from the Extreme Medicine Sect.

With regards to Zuo Chen taking Ye Yuan in as a disciple, he was very unhappy about it.

The most important thing was that Zhang Xiu, who was sentenced to death by Ye Yuan, was his grand-disciple.

Originally, he was prepared to deal with Ye Yuan. Who knew that Zuo Chen actually interfered flagrantly. Helpless, he could only cease all activities.

Now, he was even more annoyed by Ye Yuan's arrogant behavior.

"Saint Sovereign Hundred Sons?" Ye Yuan asked curiously.

Ming Yi explained, "In the blood race, each realm will have a ranking. Saint Sovereign Hundred Sons is the strongest 100 people in the blood race's Saint Sovereign Heavens! Each of them is a peerless heaven's chosen! Their bloodline power is extremely strong and they are virtually invincible at the same rank. Compared to our alliance's top geniuses, they are a level stronger!"

Of course, this kind of might was established on the foundation that they were able to revive.

This was also the blood race's greatest advantage.

In the same rank, even if the human had equal strength to a bloodkin.

But one party was not afraid to die. He could even revive after you killed him. How to fight then?

Of course, this also showed how strong the Saint Sovereign Hundred Sons' strength was.

Ye Yuan became clear. Smiling at Wei Liang, he said, "Firstly, I'm not called brat. According to seniority, you should call me as your junior apprentice brother! Secondly, whatever Saint Sovereign Hundred Sons, merely clay chickens and pottery dogs! I've really never been afraid of anyone in Saint

Sovereign Heaven!"

Wei Liang's face turned black, Ye Yuan's words rebutted him until he choked.

A Saint Sovereign Heaven was actually calling him brother.

Yet, he could not do anything about it!

“Huhu, ignorant of the immensity of heaven and earth! Since that’s the case, don’t blame this seat for not warning you when you die!” Wei Liang said with a cold laugh.

Several days later, above the sea, five figures descended from the sky in front of the blood race army.

Yang Qing brandished a long spear in his hand, riding on Xiao Qing and was incredibly domineering!

“Hoi! Blood race’s trash, your Grandpa Yang is here. Why haven’t you come out to die?! Your Father, Yang Qing, is unmatched among Saint Sovereign Heavens! Who has the balls to dare come out and have a fight with your Grandpa Yang?!”

Yang Qing shouted loudly, that feeling of invincibility was back!

Chapter 2820: Crazy Provocation!

The blood race army was silent as death.

It was not due to fright. It was because they had never seen before such an impressive person!

To dare come to the blood race army and call them out, no one in the Heaven One Alliance had this courage.

Most importantly, there were only five people!

‘Were these few guys crazy?

“Isn’t your blood race the so-called strongest across the heavens? Why are each and every one of you like scaredy cats? Come out if you guys have the capability and fight one-on-one with your Grandpa Yang! Grandpa Yang will take on ten of you by myself! No, 50!”

“A bunch of weaklings! Your grandaunt is already in front of your door, and you all don’t even have one who dares to answer the challenge? Your blood race keeps calling yourselves powerful every day. In the end, an army of 5000 and two True Sovereign Heavens were actually killed by the five of us until

we passed through! Weak! Tsk tsk, really too weak to even stand up to a gust of wind!”

Jingfei was also someone who desired to see the world plunged into chaos. This kind of provocative activity was all too appropriate for her.

She was not tall, but she nodded her head and planted her hands on her waist, behaving like a senior when talking. Coupled with that disdainful expression, she completely had an appearance that aggravated people to death.

The battle in the fog was the disgrace of the blood race.

Many in the blood race army had experienced that battle.

Being teased by Jingfei at this time, each and every one was unbelievably enraged.

Coupled with Yang Qing’s appearance that was asking for a beating, each and every one in the blood race army was filled with righteous indignation, taking the initiative to request to fight one after another.

But, without any order from their superiors, they did not dare to fight arbitrarily too.

In the blood race camp, indignation was long already overflowing!

“Great Commander, let me go and fight. I’ll go kill that boy and avenge the hatred!”

‘The one talking was Han Guang. Back then, he had his foundation severed by Ye Yuan with one sword. Until now, he had not fully recovered yet and only had the strength of lower Saint Sovereign Heaven.

Jingfei’s words were like one slap after another, slapping him in the face.

Because that fight, it was the army that he was leading.

This battle was also his most disgraceful battle.

Luo Chuan’s expression was very ugly too, but he still shook his head and said, “They are just five people but dare to come outside of our barracks and call for battle. There must be a ruse! Moreover ... you’re not his match!”

Han Guang wished to find a hole in the ground to burrow into. In his current state, he was really not an opponent who could withstand a single sword from Ye Yuan.

The moment Ye Yuan’s Dao sword was unleashed, he could most likely forget about surviving this time.

But, having people block the front door like this, it was really aggrieving!

Looking at his appearance, Luo Chuan said, “Just wait. Commander-in-chief definitely has a decision regarding this matter.”

The blood race army’s commander-in-chief was similarly a half-step True Sovereign Heaven called Bloodspirit.

But he was currently reporting the situation here to the blood race’s highest commander, Li He.

The blood race’s Emperor Realm powerhouses were all guarding in the vicinity of the spatial passageway and did not dare to leave in the slightest.

‘The army was stationed in the outer-periphery.

“This is the Heaven One army’s strategy to lure the tiger away from the mountain. We can’t fall for it! Send a few True Sovereign Heavens over and directly kill them! Remember, they can kill them, but take care not to be lured deep in by the enemy!” Li He shook his head and said.

To them, guarding the passageway was the most crucial thing.

In order to open up this spatial passageway, the blood race paid a huge price.

Once the passageway was lost, nobody could bear this consequence.

The unusual behavior of Ye Yuan and the rest made Li He even more vigilant instead.

Several powerful auras emerged from the blood race camp.

Ye Yuan and the others turned around and ran!

'The few of them grasped the distance just nicely. It was naturally impossible to deliver themselves to the hands of True Sovereign Heavens.

"Oh my, you bunch of cowards, to actually use True Sovereign Heavens to bully Grandpa Yang! After Grandpa Yang breaks through to True Sovereign Heaven, I'll come and kill you all until you piss your pants!" Yang Qing scolded with vulgarities as he ran.

"Come back!"

Worried that the few great True Sovereign Heavens would fall into a trap, Bloodspirit called them back in time.

'The few True Sovereign Heavens could only return to the camp reluctantly.

But they had just returned and Ye Yuan five people came back again.

"Blood race's grandsons, do you all only use cultivation realm to bully people? Your Father is invincible in Saint Sovereign Heaven. You guys can't even find a Saint Sovereign Heaven? A bunch of trash, don't talk about whatever the blood race is number one, the blood race is invincible in front of you

Grandpa Yang in the future! Your Father will beat the shit out of you!"

Yang Qing shouted at the top of his voice, yelling non-stop. Whatever unpleasant words there were, he would throw them out, being despicable to the extreme.

Then, once the blood race's True Sovereign Heavens came, they would immediately run away.

The moment you left, they came back again.

Inside the blood race army, it immediately exploded.

Especially the Saint Sovereign Heaven powerhouses, each and every one of them was filled with righteous indignation, requesting to fight one after another.

"Great Commander, we seriously can't take it anymore! These few guys are bullying my blood race for having no one!"

"Commander-in-chief, let me go out and fight! Your Father will definitely beat the shit out of him. See if he still dares to say anything about being invincible in the same rank!"

"Yeah, Commander-in-chief! Even if we aren't their match, it's also impossible for the Saint Sovereign Hundred Sons to lose to them, right? Let us fight!"

"Let us fight!"

In the blood race camp, those who had some strength were practically about to go berserk.

Even if their strength was lacking, they also proposed to fight.

The Blood race had always held a crushing stance towards the Heaven One Alliance.

Even in this northern front battle, they had also just experienced a big victory previously.

Such a suffocating thing, they were really not used to it.

After a few times, even Bloodspirit, this commander-in-chief, could not quite suppress it anymore.

“Ba Hao, Jin Cheng, the few of you chiliarchs go and challenge them! But be careful. Although these guys have foul mouths, their strength is indeed very strong. It’s rare for them to find a match in the same rank!” Finally, Bloodspirit still relented.

In reality, he also reached the limit of his patience.

As the blood race’s commander-in-chief, there was only him oppressing people and beating them up. When was it other people’s turn to challenge at his doorstep?

Especially Yang Qing this loudmouth, he really made people have an impulse to tear him to pieces.

This guy was different from Jingfei. This guy’s cockiness was simply innate.

Even if he did not talk, he also made people want to beat him up.

Moreover, this guy’s mouth was simply too wretched.

Seeing Bloodspirit relent, Ba Hao and the rest of the chiliarchs all revealed looks of wild elation.

“Commander-in-chief, rest assured. Which of us aren’t invincible in the same rank? Unless we run into the Saint Sovereign Hundred Sons, otherwise, we’re not afraid of anyone! These few punks are seeking death!” Ba Hao said with great joy.

The few chiliarchs immediately rose into the air and faced Yang Qing five people from a distance.

The moment Yang Qing saw the few people, he immediately got excited.

He was loathsome, but he was also a mad man.

Hearing that the blood race had experts, he was excited to the extreme.

“Tsk tsk, the blood race finally has a few who have courage! Which of you are Saint Sovereign Hundred Sons? The rest scram further away, Your Father will really beat the shit out of you guys!” Yang Qing said cockily.

The moment Ba Hao and the rest heard those words, they immediately wanted to tear Yang Qing to pieces.

He snorted coldly and said, “You wench, you’re not worthy of having the Saint Sovereign Hundred Sons take action! The few of us is enough to deal with you!”

Yang Qing had a disdainful look as he said, “With just the likes of the few of you? Don’t think that you guys are impressive because you can revive. Your Grandpa Yang is invincible in the same rank. I’ll beat you until you can’t revive!”

After he was done talking, Yang Qing’s long spear shook, and he charged straight toward Ba Hao!
