Chapter 541: Instructing Secretly

Ye Yuan also did not think that Fu Yunjing was so persistent, to actually dare to lock horns with Qi Hai.

Fu Yunjing had also grabbed Qi Hai's soft spot, making it rather hard for Qi Hai to do things.

Ye Yuan's divine sense moved and transmitted his voice to Qi Hai.

Fu Yunjing saw the situation and knew that the two were transmitting voices through divine sense. His heart involuntarily pounded.

But, on second thought, as long as Wu Xuan did not dare to publicize the formula, his words would have no weakness to exploit. And if Wu Xuan dared to make the recipe known, even though he would lose reputation, Wu Xuan would have no way of monopolizing the Immortal Remembrance Jade Brew either. The losses in between this would be huge.

At this point, even if it harmed others without benefits, he had to push on as well.

Asking him to swallow this insult, he was unable to do it.

But not knowing why, the youth beside Qi Hai kept on giving him an unfathomable feel.

Hearing Ye Yuan's voice transmission, Qi Hai's eyes gradually lit up. Looking at Fu Yunjing, he said in an oppressive manner, "You said that you improved the Immortal Remembrance Jade Brew's formula. Then, do you know what you lack in your formula, resulting in the taste to be inferior to the one brewed by Wu Xuan?"

Fu Yunjing was stupefied. He immediately said with a cold smile, "Hearing Old Hai's meaning, you actually know my recipe? You're . . . confessing everything without duress here!"

Fu Yunjing's words immediately caused a stir.

Just as Fu Yunjing said, wasn't Qi Hai confessing everything without being pressed here?

Fu Yunjing's formula, only he himself knew. How did Qi Hai know what Fu Yunjing's recipe lacked?

Between Qi Hai and Wu Xuan, there had to be someone who plagiarized Fu Yunjing's formula.

And between the two of them, everyone would naturally think that it was done by Wu Xuan, and Qi Hai was just stepping forward to defend Wu Xuan on account of Ye Yuan's face.

Qi Hai was not startled nor in panic as he said coolly, "That's right. Last time, when I went to Wu Xuan's place, he invited me to drink a flask of the Immortal Remembrance Jade Brew that he got from you. I discerned that it was not right with one taste. As luck would have it, I had some research regarding this stuff. It's just that I never had the time to make it. So, I gave the formula to Wu Xuan. This formula . . . came from the Divine Realm."

Fu Yunjing already had a stance like a dead pig not being afraid of boiling water being scaling right now. He might as well act all the way shamelessly.

Hearing Qi Hai said so, he said with a cold sneer, "I know that Old Hai has all kinds of connections with the Divine Realm. But I'm afraid that you're thinking too simply by wanting to use 'Divine Realm' these two words to shut everybody's mouths, right? Hearing Old Hai's words, you just drank a mouthful and then knew my formula inside-out. Isn't this too laughable?"

"Huhu, I'll report the formula. You see if it's correct."

As he said, Qi Hai started to report the materials used to brew the wine one by one. Altogether there were actually a hundred over types.

And Fu Yunjing's expression became increasingly uglier along with Qi Hai's reporting.

The recipe that Qi Hai reported was actually the exact same as the one he obtained! Even the quantity used for these ingredients were not the slightest bit off; just like he saw the recipe with his own eyes.

With this, even Fu Yunjing himself could not help somewhat doubting as well if Qi Hai and Wu Xuan really plagiarized his recipe.

Of course, those with the same thinking as him was not in the minority. There were even some people already starting to whisper under their breaths.

"Could Old Hai have really plagiarized Fu Yunjing's recipe? You guys look at Fu Yunjing's expression. What Old Hai said is definitely not far off the mark."

"Yeah. What is Old Hai playing at here? Even if he really stole Fu Yunjing's formula, he doesn't need to go so far as to say it out so generously, right? Even though he's a senior, doing so would destroy his reputation too!"

"Isn't Old Hai bullying people with his power here? Doing this is also too overboard!"

Qi Hai's strength was indeed formidable. But if he used his power to bully people like this, it was impossible for others to be convinced either.

Other people did not dare to do anything to Qi Hai. But Wu Xuan's reputation would be rotten in the future.

After Qi Hai reported all of the ingredients, Fu Yunjing's expression was ugly to the extreme.

Qi Hai saying this was equivalent to making his recipe known to the public. In the future, he would have no way of using the Immortal Remembrance Jade Brew to keep a foothold in this Wu Fang City anymore either.

Even though he was already replaced by Wu Xuan now.

"Heh heh, really didn't expect that Old Hai's face was actually so thick! Stole my formula and actually even admitted it swaggeringly! Truly shameless to the extreme!"

Qi Hai said with a smile, "When did I admit that I stole your formula?"

Fu Yunjing was stunned. Wasn't he too shameless?

Already at such an extent and still not admitting it?

“Hearing what you said earlier, you’re admitting that the formula I said was correct? No need to deny. Other people are not fools either. They could tell long ago,” Qi Hai still said coolly.

Fu Yunjing’s expression became black, and he suddenly had a foreboding premonition.

Indeed, Qi Hai continued, “You said that you improved the Immortal Remembrance Jade Brew recipe. I wonder how did you improve it?”

Fu Yunjing’s heart plummeted. Turns out that it was waiting here!

“*Heh*, why do I have to tell you?” Fu Yunjing said, appearing tough outwardly, but timid inside.

Qi Hai said, “I can tell you that in your recipe, five kinds of ingredients are missing. As long as you can say out the names of these five kinds of ingredients, Wu Xuan would naturally have plagiarized your formula. But if you can’t say it, then scram right now for this old man! Otherwise . . . don’t blame this old man for being impolite!”

Fu Yunjing’s expression changed repeatedly. When did he really improve the formula?

This Immortal Remembrance Jade Brew, even in the Divine Realm, it was a top-grade immortal brew that not everyone could drink. If Fu Yunjing really had this capability, he would have long ascended to the Divine Realm. Why was there a need to fool around in this Wu Fang City still?

But if he did not say a thing, wouldn’t it be admitting that he was finding fault for no reason?

Heh, I’ll just casually report five kinds of ingredients. Could it be that you really dare to make the recipe known to all?

Fu Yunjing snickered coldly inwardly and casually reported five kinds of materials. They were all ingredients frequently used in brewing alcohol. Listening to it seemed well-grounded and reasonable.

Qi Hai gave a cold laugh and said, “Utter nonsense! Don’t know what you’re talking about! Truly shameless enough!”

Fu Yunjing said delightedly, “Since Old Hai say that I’m uttering nonsense, then you say out those five kinds of materials!”

“Don’t need five kinds. One is enough! In my recipe has Seven Star Grass. Seven Star Grass will become lilac color when coming into contact with Sulfur Flame Powder. Come, men! Go and retrieve some Sulfur Flame Powder over. One try, and it will be clear!” Qi Hai said coolly.

Fu Yunjing was still cheerily confident earlier. But at this time, his face was deathly pale.

Wu Fang City was the alchemy holy land. Many families present were all alchemy families. They were naturally not foreign to this Seven Star Grass.

He never would have thought that Qi Hai pressed hard at every step; finally, it was actually using this sort of method to make him reveal his true colors!

At this time, he could not resist turning his eyes towards Ye Yuan, his gaze revealing hatred.

Fu Yunjing had never heard before that Qi Hai knew alchemy. He had never heard before that Qi Hai knew how to brew alcohol, let alone believe that Qi Hai could report out all of the ingredients just by sampling a taste of his wine!

Earlier, Ye Yuan clearly said something to Qi Hai with voice transmission. Could it be that everything that Qi Hai said was this young man's scheme?

Unrivaled Medicine God

Chapter 542: Insist on Not Accepting

"Changed! Changed! It really changed!"

"The Immortal Remembrance Jade Brew really has Seven Star Grass inside!"

"Fu Yunjing is too much! To actually slander Wu Xuan like this! This fellow is really shameless!"

.....

Following placing a small amount of white colored powder into a cup of Immortal Remembrance Jade Brew, the originally clear liquor became lilac color very quickly.

With this, just who caused a disturbance first was perfectly clear.

Many people had a feeling of being duped and became indignant right away, cursing Fu Yunjing's shamelessness.

This fellow was clearly envious that Wu Xuan brewed better Immortal Remembrance Jade Brew than what he could. That was why he vilified Wu Xuan.

What improve the formula! Utter bullshit!

"What are you still standing there for? Could it be you still want this old man to invite you to leave? Get lost!" Qi Hai said coldly.

If today wasn't Ye Yuan's parents' joyous day, Qi Hai might have made a move and injured people.

This fellow actually forced him into a very awkward situation earlier. If not for Ye Yuan instructing him secretly on how to break the deadlock, he would really be stuck today.

Although Qi Hai was very easy-going, this did not mean that anyone could trample on his reputation.

Although Fu Yunjing's strength was decent, it was still lacking in front of Qi Hai, and he did not have the qualifications to pick a fight with him either.

Being forced into a dilemma by such a person, the fury in Qi Hai's heart could be imagined.

The lie was exposed. Fu Yunjing naturally had no face to stay here anymore either. In truth, he already incurred public wrath today. In the future, he would probably have no way of even staying in this Wu Fang City.

Fu Yunjing shot Ye Yuan a fierce glare and said with a cold snort, "Leave then leave! This old man admits to his bad luck today! Boy, we'll wait and see! I, Fu Yunjing, will officially break away from Wu Fang City starting from today!"

Leaving behind a few fierce words, Fu Yunjing flicked his sleeves grandly and hastened out of the entrance like fleeing.

Seeing this scene, Qi Hai's expression darkened slightly. He said to Ning Yixian, "Send people to keep an eye on this old punk. Today isn't suited to get into a fight. After today passes, take good care of him for me!"

"Yes, Old Hai!"

Ning Yixian was also fooled by Fu Yunjing just now and even thought that Wu Xuan really stole the recipe.

To talk about taking care of Fu Yunjing, he had no problems at all, nodding his head at once and consenting to this.

Fu Yunjing was just an itinerant Alchemy Sovereign in Wu Fang City. Even though his strength was passable, he did not have too great of a background.

In the past, he still had some status among Wu Fang City's upper echelons relying on the Immortal Remembrance Jade Brew. But his actions today truly offended many people. Everybody naturally did not have much of a favorable impression towards him anymore either.

"Alright, alright! The time is almost here. Don't dampen everybody's spirits because of a stinky bug like this. Fine wine and delicacies are ahead. Everyone best savors it to your heart's content!" Qi Hai said coolly.

With this reminder, everyone all came back to their senses as well.

There was free Immortal Remembrance Jade Brew to savor today. There wouldn't be this stall anymore after passing this village.

While the Immortal Remembrance Jade Brew which Wu Xuan brought here today was a lot, with so many people getting a share, there was actually not much left either.

Hence, the more these people drank, the more they treasured it. The more they drank, the more they would reminisce the aftertaste.

There were some people present who had drunk before Fu Yunjing's Immortal Remembrance Jade Brew. But this wine drunk today was even more fragrant than his.

Before long, Ren Yujie walked into the main hall and called out in a clear voice, "The auspicious hour has arrived! Please welcome, the City Lord, His Excellency!"

Ren Xingchun walked out in slow strides. He walked to the highest seat of honor and took his seat.

"Please welcome, the groom and the bride!"

The groom Ye Hang, all dressed in red-robcs, led Ren Hongling who was wearing phoenix coronet and ceremonial robes and walked out too.

Next, was bowing to heaven and earth.

Ye Yuan looked at his blissful looking parents from below. A warm current brimmed in his heart too.

Actually, in his mother's heart, she still worried about this unreasonable father of hers. This point, Ye Yuan was naturally clear in his heart as somebody with two lifetimes. Otherwise, he would not give Ren Xingchun a chance either.

With Ren Xingchun this backing, Ye Yuan could put his mind completely at ease when going out to make a break in the future.

The remaining thing was to deal with the Fierce Gale World's invasion.

Ye Yuan kept feeling that the Fierce Gale World's invasion had some areas which were not right. But he could never figure out what was wrong.

This feeling of losing control made him very uncomfortable.

But this kind of thing, unless Zhao Tianyin told him personally, otherwise, there was simply no way of knowing. Now, he could only just take it one step at a time too.

The most important thing now was still to increase his strength as soon as possible. Only through his way could he have the strength to protect himself facing these Fierce Gale World's experts.

Even though his current strength far surpassed martial artists at the same rank, in front of a real expert in a true battle, he still could not take a single blow.

Hence, Ye Yuan was still harboring considerable hope towards the Vast Heaven Pagoda inheritance this time.

After the ceremony ended, Ren Xingchun suddenly got up and said in a clear voice, "Thank you all for coming to support. This Ren is endlessly grateful. Taking advantage of this joyous day today, this Ren still has something to announce."

Ren Xingchun paused for a bit, glanced at Ye Yuan, and said, "This old man did a wrong thing back then. This matter, everybody is already aware. This old man won't hide it from everyone either. Today, it's all thanks to this grandson of mine that I was able to see the error of my ways and repent! Therefore, today, I want to appoint Ye Yuan as Wu Fang City's Young Lord. I wonder what are everyone's opinions?"

Although City Lord Manor had the final say in Wu Fang City, the Ren Family was not the fixed city lord.

Back then, the Cao Family dominated the city lord position for a very long time but was replaced by Ren Xingchun.

Hence, for Ren Xingchun to want to appoint a young lord, it still needed to go through everyone's approval.

Ye Yuan, regardless whether was it talent or strength, there was probably not a single person who dared to say a word of objection.

Ye Yuan being this young lord was naturally also getting what was deserved.

"Ye Yuan is a young hero. He can naturally take on this great responsibility!"

"I have no objections. City Lord, you make the call!"

"This Cao represents the Cao Family and firmly endorses Young Lord Ye Yuan!"

When Ren Xingchun's words were spoken, everyone all clamored to respond.

Seeing this scene, Ren Xingchun nodded his head slightly too and said to Ye Yuan, "Ye Yuan, from now onwards, you'll be . . ."

"Hold on!" Ye Yuan extended a hand and interrupted Ren Xingchun's words, saying, "This status of a young lord, I'm not interested!"

Ren Xingchun's face went black. Wasn't this punk too uncivil?

Wu Fang City's Young Lord was an existence on the same level as the Three Sect's head disciples. It was already the highest position among the Endless World's junior generation.

This boy actually refused!

Could it be that this boy was still harboring hatred in his heart and wanted to make him look bad in front of everyone?

How could he know that how could Ye Yuan settle on a puny little Wu Fang City Young Lord?

Among the people present, probably only Qi Hai could slightly understand Ye Yuan's thoughts.

But even he was unable to understand how great Ye Yuan's horizons were either.

"Not just me, Ren Dong that boy, I'm bringing away too!" Ye Yuan said nonchalantly.

When these words came out, the audience burst into an uproar.

It was fine if this boy did not accept the position of City Lord himself, he actually forbid Ren Xingchun's most favored grandson to be City Lord too.

This time, it was really overboard!

"Ye Yuan, this old man already issued a self-admonishing edict. You should understand what this means. Are you going to ruin my Ren Family's future in front of so many people?"

Rivers and mountains may be changed, but it's hard to alter a man's nature.

Ye Yuan slapped his face in public. The fury in his heart could be imagined.

Chapter 543: The Road Underfoot

Ye Yuan looked at Ren Xingchun, feeling very amused in his heart.

If it were in the past, this old fellow would have long sent a palm howling over. But now, he was talking reason with him. It was also aggrieving enough.

However, Ye Yuan did not have plans on changing his thinking.

The vast sky allowed a bird to fly, and the wide sea allowed a fish to leap about. It was naturally impossible for him to stay in a tiny little Wu Fang City to be some young lord.

"I have my own plans for the future. It's impossible to keep on staying in Wu Fang City. And Ren Dong already acknowledged me as his master. I naturally have to guide him well. As for this young lord position, I can recommend a person to you," Ye Yuan said coolly.

Ren Xingchun was rather curious. Apart from Ye Yuan and Ren Dong, who else had the capabilities to be qualified for this young lord position.

"Say it."

Ye Yuan's gaze landed on Ye Hang, and he said with a smile, "Far away on the horizon, and yet right before your eyes!"

Ye Hang was stupefied and pointed to himself and said, "Me? What kind of joke is this?!"

Ren Xingchun's expression darkened once more. This punk was purely making a laughing stock out of him!

How much capabilities Ye Hang had that he could still not be aware of? If Ye Hang had this capability, why would he object to Ren Hongling being together with him so determinedly back then?

Ye Yuan shook his head and said, "I'm not joking! Father, you don't need to belittle yourself either. Within ten years, you can definitely surpass Old Man Ren!"

Ye Yuan did not approve of Ren Xingchun up until now either, so he kept calling him Old Man Ren.

Of course, Old Man Ren's mind was completely not focused on this. He was currently burning with rage.

This punk was getting more preposterous as he spoke!

Ye Hang surpassing him within ten years? Wasn't this a fantasy tale?

"Ye Yuan! Messing around got to have a limit too! Even if you don't acknowledge this old man, there isn't a need to make this sort of joke in front of so many people either!" Ren Xingchun said furiously.

Ye Yuan said coolly, "I already said, I'm not joking around! Like this, how about we make a bet? If Father is unable to surpass you within ten years, I'll come back and be the Young Lord for you!"

What Ye Yuan was implying was Ye Hang being the City Lord and not Young Lord!

This sort of 'big talk,' probably only Ye Yuan dared to say it.

Actually, Ye Yuan naturally had full confidence in Ye Hang. He cultivated the Spirit Bristle Nine Yang Divine Art and Thousand Augmenting Soul Incantation, these two cultivation methods. If he still could not break through to the Alchemy Sovereign Realm within ten years, then that would be unbelievable!

Furthermore, Ye Yuan knew that Ye Hang's talent was not bad.

Back then, the reason why he was inferior to Ren Hongling was entirely that of family background and resources problem.

Now that Ye Hang's back was leaning on City Lord Manor this big tree, and he had the Divine Realm's pinnacle level cultivation methods, cultivating to the Alchemy Sovereign Realm within ten years was absolutely as easy as turning over one's hand.

It was just that these people had no way of understanding.

But Ye Yuan believed that before long, Ye Han's improvement speed would leave everyone dumbfounded.

"Fine! This old man will bet with you!" Ren Xingchun agreed without any hesitation.

Ten years time was not considered long to him. He could totally wait.

At that time, if Ye Hang did not have the qualifications, wouldn't Ye Yuan still come back obediently to take over Wu Fang City?

How could he know that how could Ye Yuan possibly stay in the Lower Realms for ten years?

.....

The next day, a high platform was built in the Exquisite Jade Pavilion's Thousand Query Wall's main hall.

A youth was currently sitting upright solemnly, with the air of a great master.

But all the people below the stage were older than him, looking rather incongruous.

This sort of thing like hosting a forum and giving a lecture, without reaching a certain level, nobody dared to do it. Especially in Wu Fang City, the alchemy holy land.

The level of the alchemists' standards here practically assembled all of Endless World's alchemy path elites.

Without Alchemy Sovereign strength, how could the average person dare to open a forum and give a lecture?

But Ye Yuan this Quasi-Alchemy King Realm youth actually did it.

Even though Ye Yuan was at the height of his popularity right now in Wu Fang City, it was not enough. The people who came to watch him make a fool of himself today was actually not the minority.

Ye Yuan was seriously too young. As the saying went: young people couldn't be trusted with important tasks.

Many people only heard rumors of the Thousand Query Wall's seventh level's questions being answered by someone. But not many people believed it.

Of course, among the people here today, there were many who were alchemists present on that day. They all witnessed Ye Yuan's spectacular performance.

Today was the first day the Ren Family took over the Thousand Query Wall. Many people were also skeptical about whether or not the Ren Family had the foundation to take over.

Ye Yuan sat at the top very composedly, without the slightest hint of stage fright.

In his previous life, he had opened forums and given lectures more than once. Regarding such spectacles, he was all too familiar. It was simply far from getting stage fright.

Compared to his previous life, the levels of these people in front of him was seriously too low.

One had to know that each time Ji Qingyun hosted a forum and gave a lecture in his previous life, there were even quite a number of Alchemy Emperor powerhouses who came upon hearing the news!

Likewise, an Alchemy Emperor, Ye Yuan's strength was much stronger compared to those people!

Now, facing this small scene, it was simply child's play to Ye Yuan.

After everybody settled down, Ye Yuan's first words made everyone's glasses fall off.

"The Alchemy Path and Martial Path are the same; they are also a kind of Great Dao! The direction of Dao is formed by accumulating it step by step! As the saying goes: without the accumulations of small steps, it's impossible to walk and finish a journey of a thousand miles; without accumulating small, trickling streams, it's unable to form a great sea. There is no lack of Quasi-Alchemy Kings, Alchemy Kings, and even Alchemy Sovereign experts among you all. But touch your heart and ask yourselves, this road underneath your foot, was it really walked properly? This first day today, what I'll be narrating to you all is the refinement of Tier 1 medicinal pills!"

"What did he say just now? At the start, hearing it was still quite interesting. But why did the style change as he spoke? With our strength, do we still need to listen to the refining methods of Tier 1 medicinal pills? Simply ludicrous!"

"Yeah! What kind of bullshit hosting a forum and giving a lecture! Simply courting people's favor by talking big to impress! City Lord Manor actually sent a small child here to host a forum and give a lecture. What a joke!"

"Let's leave, leave! We came all the way here; could it be to just listen to a child talk about refining Tier 1 medicinal pills? Isn't this wasting time?!"

.....

Ye Yuan's words immediately incurred everyone's intense backlash.

Even those who had seen before Ye Yuan's spectacular performance were also very disappointed by Ye Yuan's performance today.

Could it be that Ye Yuan came prepared that day? That was why he was so mind-boggling?

Today, in front of everyone, his true colors were revealed?

Ye Yuan finished saying the first sentence, and there were already many people starting to walk out.

Regardless of whether they were martial artists or alchemists, their eyes were forever looking up. There would never be anyone who would think much of martial artists lower rank than themselves.

Of course, Ye Yuan was an exception.

The way these people saw it, Tier 1 medicinal pills utterly did not even count as learning the rudiments. Was there still a need to pretend and host a forum to give a lecture?

But the reason why Ye Yuan could have such great accomplishments in his previous life was that his foundation was laid down too solidly!

Wait until his boundary became high; it was merely just piecing together the originally simple things.

The refining methods which looked to be extremely unfathomable in other people's eyes was very simple in Ye Yuan's view.

Ye Yuan did not bother with those people who left but continued to speak with fervor and confidence.

Some people left, but some people reined in their impatience and stayed behind.

And the expression on their faces also changed to become fervor from the initial disdain and finally became enthrallment.

Unrivaled Medicine God

Chapter 544: Master Ye

High-rise buildings were raised from the ground up!

For Ye Yuan to be able to reach Peak Alchemy Emperor Realm, it was absolutely not by chance.

The sturdiness of his basic skills in alchemy could make everyone all perspire from embarrassment, let alone that the ones with the highest strength among these alchemists in front of him were Alchemy Sovereign?

Ye Yuan's elucidation explained profound theories in simple terms, making those alchemists all have a feeling of suddenly becoming enlightened.

Only after these alchemists listened to his words did they know that their path all the way over here was like a large funnel.

Leaking as they walked.

Reaching their boundary now, they already missed God knows how many things.

Hearing Ye Yuan's sermon, they wished that they could immediately go back to study Tier 1 medicinal pills, systems, and learn once more!

With Ye Yuan's realm, narrating these basic theories was enough to make these people glean considerable gains.

In the beginning, it was still quite noisy inside the entire main hall.

But later on, the entire main hall became perfectly silent. Only Ye Yuan's voice was reverberating.

Those alchemists, including Cao Zheng who came with the mood of attending the event, all became devout believers at this time.

The faces of these people would reveal a 'so that's how it is' look every now and then.

“Alright. The sermon today will end here. Now is the time to raise questions. I can answer ten of your questions. Starting now then.”

Ye Yuan’s indifferent voice sounded out. Only now, did the audience startle awake.

Many people still had a look of recollecting the aftertaste. Evidently, they had not yet recovered from Ye Yuan’s sermon earlier.

Only at this time, did they abruptly wake up. The one giving them a sermon was merely a 17 year old youth!

How monstrous was this youth? To actually have such profound understanding of Tier 1 medicinal pills?

Compared to Ye Yuan’s lecture earlier, the Herbal Compendium was simply like a child’s play; too shallow!

They all could not understand how a 17 year old youth’s understanding of alchemy reached such a level.

“Master Ye, I have a question to ask!”

An Alchemy King was the first to react and was the first to raise his hand.

And in his words, Ye Yuan already became ‘Master Ye.’

Seeing that Alchemy King raise his hand, everyone was lamenting with regret in their hearts that they missed such a precious opportunity to clarify their doubts.

But they all secretly made up their minds to definitely be the first one to raise their hands next time!

Ren Dong was already standing on the platform at this time, helping Ye Yuan to maintain order.

He was listening to the lecture below the stage the entire time before this and also received considerable gains.

These few days, he had been researching Tier 1 medicinal pills the entire time and had long trained the Greater Phaseless Art to the Legendary Realm under Ye Yuan’s guidance.

Ren Dong felt that his understanding towards Tier 1 medicinal pills was already quite okay.

But after hearing Ye Yuan’s talk today, he discovered that he seemed to have only touched the tip of the iceberg. Although these Tier 1 medicinal pills were simple, the things that he needed to study in-depth were way too many.

Standing on the platform at this time to help Ye Yuan maintain order and hearing these people call Master Ye one after the other, he had indescribable pride in his heart.

This master of his was considered acknowledged correctly!

Even though Ye Yuan was his cousin, the disparity between the two of them was too great.

“It’s you then! Ask away!” Ren Dong said.

But when that Alchemy King heard Ren Dong’s words, he became hesitant and actually did not open his mouth for a time.

Ren Dong said unhappily, "Is there a question or not? If there isn't, switch to somebody else! Master's time is very precious! Where does he have the time to dawdle with you here?"

Only then did the Alchemy King said hesitatingly, "Master Ye, my question concerns Tier 4 medicinal pills. I wonder . . ."

Ye Yuan smiled faintly and said, "Doesn't matter. Ask away."

This person was clearly afraid that he could not answer Tier 4 medicinal pills problems. Furthermore, the question asked was not too conforming with the contents of the sermon. Hence, he would appear hesitant.

That Alchemy King was immediately overjoyed when he heard and said, "Master Ye, recently when I've been refining the Phoenix Flame Pill, I noticed a problem. When the Phoenix Cry Grass and Bamboo Filament Azure Yellow are together, they keep on being unable to fuse together perfectly. From there, it caused my pill refinement success rate and quality unable to improve. I tried countless ways but always failed to resolve this issue. Master Ye, please resolve my doubt."

When this Alchemy King expert was raising his problem, he was like a student asking a teacher questions, very devoutly.

But towards his attitude, nobody questioned it.

Ye Yuan already used his broad and profound alchemy knowledge to subdue everyone.

Among the people present, there were quite a few people who were among the group present when Ye Yuan challenged the Thousand Query Wall.

Regarding whether or not Ye Yuan could answer an Alchemy King's question, they were not worried in the slightest.

Very uncoincidentally, this Alchemy King was not present the previous time. Hence, he was still somewhat doubtful about Ye Yuan's ability.

After all, even if a person researched more thoroughly into Tier 1 medicinal pills, it did not have the slightest thing to do with Tier 4 medicinal pills either.

Ye Yuan said without any need to think, "The Phoenix Flame Grass and the Bamboo Filament Azure Yellow, their attributes clash. If you forcefully try to fuse them together, it naturally can't do so perfectly. Each time you were refining the Phoenix Flame Pill, was there a feeling of losing control of the fire, the medicinal pill about to jump out of your palm, around 15 minutes before forming the pill?"

The Alchemy King's eyes lit up, and he nodded his head like a chicken pecking for rice as he quickly said, "Yes, yes, yes! It's like that! Master Ye is really like a deity, to actually even know when my problem occurs as if you've seen it with your own eyes! May I ask Master, why is this so? Is there any way to resolve?"

Seeing this scene, everyone all revealed looks of admiration.

Ye Yuan was able to guess when this Alchemy King's problem occurred when he was refining pills just based on his simple description. Moreover, even the timing was said so accurately. This was simply godly skill!

Even Peak Alchemy Sovereign experts probably had no way of making such a judgment under the circumstance where they did not witness personally, right?

Ye Yuan said indifferently, "Is there a type of medicinal herb in the Phoenix Flame Pill called the Wood Immortal Root? Presumably, when you were refining pills, you should have overlooked its existence, right?"

The Alchemy King was stunned and said with a nod, "Master, please explain! Could it be that this Wood Immortal Root still has some special effect? I've also thought before in this direction, but after trying several times, I still can't resolve the issue. So I thought that this Wood Immortal Root completely had no use."

Ye Yuan said with a smile, "The forming of a pill formula is through repeatedly tempering. Each type of pill formula is the crystallization of the predecessors' wisdom. As long as the pill formula doesn't have mistakes, how can the medicinal herbs inside be useless? Refining the Phoenix Flame Pill, this Wood Immortal Root's effect is indeed not big. But to want to refine high quality Phoenix Flame Pill, this Wood Immortal Root's effect is indispensable . . ."

Ye Yuan spoke with fervor and assurance, saying the refining method of this Wood Immortal Root detailedly once.

That Alchemy King became more excited as he listened. Towards the end, he was simply about to jump up.

When Ye Yuan finished talking, that Alchemy King bowed almost to the ground. He exclaimed, "Thankful for Master Ye's guidance! Yan Mu will remember firmly in my heart!"

Ye Yuan nodded slightly and said, "Next one."

"Master, I have questions."

"Master Ye, I have questions too!"

"Master, there's still me."

"Me!"

Chapter 545: Alchemy God's Reincarnation

"You still have the time to drink alcohol here? Master Ye's lecture is about to start right away! If you still don't go, there won't be any seat anymore!"

"Master Ye? Who's that?"

That person looked at the other party with eyes like he was looking at an alien, with a face full of contempt.

“You don’t even know who Master Ye is? He’s City Lord Manor’s grandson, Ye Yuan, Master Ye! Master Ye’s hosting a forum and giving lectures for five consecutive days at the Thousand Query Wall to answer any doubts. Once you pass this village, there won’t be this temple anymore!”

“Ah? It’s that grandson of the City Lord, His Excellency, that just got recently acknowledged? Isn’t he just a teenager? How can he host a forum and give lectures?”

“I say, what have you been busy with these few days? Master Ye’s lectures have already swept throughout the entire Wu Fang City! You actually don’t know?! Master Ye is simply like the reincarnation of an Alchemy God! If one can get Master Ye’s guidance, it beats 10 years of bitter cultivation! Now, even Alchemy Sovereign experts have started posing questions to Master Ye too!”

“Hiss . . . A teenage youth guiding Alchemy Sovereigns? *Oh my, heaven . . .*”

“Forget it, I can’t be bothered with you. You continue to idle away here then. I’m going to the Exquisite Jade Pavilion!”

As he said, that person left like a gust of wind.

Today was already the fifth day, the last day, that Ye Yuan was hosting a forum and giving a lecture. During the previous four days, Ye Yuan’s reputation already resounded throughout the entire Wu Fang City.

Master Ye’s name was practically already a household name in Wu Fang City.

As long as one was an alchemist, regardless whether was it a little Alchemy Apprentice, Alchemy Master, or even a high and lofty Alchemy Sovereign expert, they all took pride in getting Master Ye’s guidance.

The Thousand Query Wall’s main hall was already close to bursting. Every time it reached this time, the inside would be densely packed with practically full of people.

Wu Fang City’s Alchemy Path was extremely flourishing. The number of alchemists in the city was immense.

Yet, these few days, every time it reached the time Ye Yuan was hosting a forum and giving a lecture, the streets inside the city were practically deserted.

The originally extremely bustling markets actually had nobody patronizing anymore.

After the first time, those alchemists who stayed behind to listen to the talk all became Ye Yuan’s loyal followers one by one. They all started to propagate Master Ye’s name without sparing any effort.

On the second day, the headcount in Exquisite Jade Pavilion already soared. It was actually ten times of the previous day’s.

But among these people, the majority was still harboring half-skeptical attitudes to come and take a look.

Ye Yuan carried on as before. What he talked about was all some very basic stuff.

But after the second day, none among these alchemists doubted Ye Yuan's strength anymore.

Just like this, spreading from person to person, by the time it was the third day, Ye Yuan hosting a forum and giving a lecture already swept throughout the entire Wu Fang City.

Now, even those Alchemy Sovereign experts in the city came due to its fame as well.

Among them included Wu Xuan, Cao Zheng, these people.

Only until today did Cao Zheng know how brilliant this decision of presenting the Exquisite Jade Pavilion to the City Lord Manor was.

With Ye Yuan around, the Thousand Query Wall was simply a joke!

In these few days, there were many formidable people raising all manners of questions to Ye Yuan.

Yet, regardless whether their strength was high or low, how crafty the questions asked was, Ye Yuan's answer was undeniably accurate and detailed, leaving no fault for people to pick out at all.

This prowess simply exceeded the people's imaginations.

Even Dan Chenzi and Ren Xingchun could not possibly do it to such an extent either.

Most importantly was that when Ye Yuan answered these questions, it was practically blurted out without any effort as if it did not require any thinking process at all.

In the views of these alchemists, this already reached a god-like realm.

These alchemists simply did not know what the concept of an Alchemy God was. Just like this, the title of 'Alchemy God's reincarnation' was attached to Ye Yuan.

Actually, to them, Ye Yuan was indeed a god-like existence.

At least in alchemy, the level Ye Yuan surpassed them simply could not be measured using realms.

Regarding unknown existences, people tend to be willing to throw 'god' this title on top.

Ye Yuan's present situation was like so.

"Alright. Everybody quiet down," Ye Yuan's voice spread out faintly.

This instant, it was as if the entire world's sounds was voided. The great hall that could accommodate 100 thousand people suddenly became dead silent.

Everyone held their breaths, fearful of missing out any word that Ye Yuan uttered.

"What we're going to talk about today is . . ."

Ye Yuan started today's lecture unhurriedly. In the entire main hall, only Ye Yuan's voice was echoing still.

Originally, there were only several thousand people. Being able to maintain silence was very easy.

But now, the number of people already broke through to 100 thousand people. To still be able to maintain this kind of status, it could be seen how great the attraction of Ye Yuan's lecture contents was to them!

Same as the previous few days, Ye Yuan's talk was still just some of the most basic stuff.

These contents, those alchemists themselves were already familiar until they could not be any more familiar. But Ye Yuan talked for five consecutive days, and they still listened with great gusto.

The same kind of medicinal herbs, the same kind of refining methods, Ye Yuan's narration was entirely different from their understanding.

Not only did it uttered out new meanings, it even showed them heights and depths in alchemy.

There was no lack of alchemists present who were here from day one. After they went back, they refined medicinal pills according to Ye Yuan's method too.

They discovered to their amazement that some of the very simple things Ye Yuan talked about, even when applied to refining high tier medicinal pills, was similarly applicable!

The quality of the medicinal pills they refined had a considerable raise!

This was also the reason why they held Ye Yuan in increasingly greater esteem.

The contents Ye Yuan narrated today were a lot, talking all the way from morning till dusk, before it finally ended.

"Alright. The lecture ends here. The Thousand Query Wall will be opened as usual from hereafter. If everyone has any question, you can come here to pose them," Ye Yuan said coolly.

Only now, did everyone realize that the five days of lectures had already passed. Ye Yuan would not be giving lectures to everybody anymore.

"Master Ye, can you please expound to us for another three days! No, even just one day is fine as well!"

"Yeah, Master Ye! Listening to your talks these few days, I've gotten considerable gains. It simply beats closed-seclusion for ten years! I beseech you, just lecture for one more day!"

"Master Ye, just talk some more!"

.....

Ren Dong was indignant at this time. He stepped forward and said in a clear voice, "You all stop kicking up a row! Master he has to cultivate too! How can he possibly spend the whole day on giving you all talks? You people make him add one more day today, are you still going to make him add another day tomorrow? Like this, when will it end?"

Following Ye Yuan's status rising, Ren Dong this apprentice also became an immensely popular figure in Wu Fang City.

In a daze, Ren Dong had a feeling of being apprenticed to a sage.

This feeling of lording above countless lives was what he simply had no way of experiencing when he was City Lord Manor's Young Lord in the past.

Now, thanks to his new identity, Ren Dong instead had the liberating feeling of flying in the vast skies.

Being rebuked by Ren Dong like this, there was actually not a single person in the crowd below the stage who dared to refute.

But they still looked at Ye Yuan with heated eyes, hoping that he could change his decision.

Ye Yuan gave a sigh and said, "It's not that I'm unwilling to continue giving lectures. I'll be heading to the Vast Heaven Mystic Realm tomorrow to challenge the Vast Heaven Pagoda inheritance. I seriously can't do anything about this."

Unrivaled Medicine God

Chapter 546: Monopoly

Hearing that Ye Yuan was going to challenge the Vast Heaven Pagoda, the originally clamoring shouting voices gradually ceased.

It was true. Ye Yuan's Alchemy Path strength was indeed formidable. But his boundary was too low after all.

If they delayed Master Ye's cultivation for more lectures, then that would be too sinful.

Master Ye was destined to be a sky-rocking figure in the future. How could he possibly waste time here to give talks to them constantly?

But a series of lamenting still sounded out in the crowd. They were clearly all very regretful.

At this time, a person suddenly shouted in a clear voice, "Master Ye, Yan Mu is willing to wait upon you carefully. Even if it's just to be a little medicine boy. Master Ye, please grant my wish!"

Looking carefully, it was precisely that Alchemy King who was the first to pose a question to Ye Yuan on the first day.

This Yan Mu was a peak Alchemy King expert. Among so many alchemists here, he was an extremely daunting existence too. He actually requested to be a little medicine boy for Ye Yuan. It was truly rather ludicrous.

Yet, not a single one out of the 100 thousand alchemists present felt that it was unexpected as if it was something so natural.

But Yan Mu's actions also reminded everyone. For a time, many people followed him to do so.

"Master Ye, I'm willing to slave for you as well!"

"My skin is solid and thick and can take lugging. Master Ye, please take me in!"

"I'm willing to be a bed-warmer little maid for Master Ye! Master Ye, please take me in!" shouted a female alchemist shrilly.

This woman already reached middle-age but had some good looks.

Except that her saying this incurred a bout of loud laughter.

"Hahaha! Old Hag Ding, you're too old to even be Master Ye's grandmother. To actually still want to be his bed-warming maid!"

"Even if this old lady is any older, I'm a woman too! Moreover, I'm a woman who ages pretty well! Master Ye is full of vigor and vitality and is clearly still a virgin boy. He just needs a maid like me to warm his bed! How can those little girls wait upon him be better than me?"

This old lady Ding had no qualms and restrictions at all, daring to say anything.

Ye Yuan also sweat profusely in his heart when he heard it. Finding such a bed-warming lass, he could not endure it.

Ye Yuan waved his hand and said, "Everybody's good intentions, this Ye appreciates it. But this Ye is not used to being served by people. This matter of a medicine boy, better forget about it. Now that a formidable enemy lies ahead, it's precisely the time for everyone to render your services. This Ye hosted a forum to give sermons in order to raise everybody's strength. If everyone has the heart, you can join the City Lord Manor and offer help for the Endless Alliance. Since everybody regards this Ye highly, this Ye can promise everybody that each time this Ye returns to Wu Fang City next time, I'll host a forum and give a lecture once. As for the time gap, this Ye dare not guarantee."

Hearing Ye Yuan's words, these alchemists could not help feeling disappointed.

But many people also secretly made up their minds to definitely join the City Lord Manor tomorrow. At least this way, they could be a little closer to Master Ye. Perhaps there might be the opportunity to consult Master Ye on problems.

Ye Yuan's requirement towards accepting disciples was extremely high. Although there were some among these people whose talents were not bad, it was still too far away from Ye Yuan's requirement.

Wanting to become Ye Yuan's disciple, one at the bare minimum had to reach Xiao Ruyan's and Ren Dong's level.

With these people's talent, they were clearly not just a level inferior.

Among these people, just the Alchemy King experts were a large bunch. But the accomplishments of the vast majority among them would halt here.

Such strength, how could Ye Yuan possibly expend painstaking effort on them?

But Ye Yuan not needing them did not mean that the City Lord Manor did not require them.

His old man was now the City Lord Manor's Young Lord. He was bound to inherit Wu Fang City in the future. Ye Yuan naturally have to gather some forces for Ye Hang.

One could only imagine that the City Lord Manor's door's bottom frame would be trampled broken tomorrow.

In the past, the Cao Family could use the Thousand Query Wall to gather alchemists. Now, Ye Yuan's status actually already surpassed the status of the Thousand Query Wall.

After all, no matter how strong the Thousand Query Wall was, it had no way of letting 100 thousand people's strength increase either. But Ye Yuan accomplished this.

After these alchemists listened to five days of his lectures, their strength more or less had some improvement.

One individual's strength increase might not have much use. But 100 thousand alchemists' strength all increasing, this was a very terrifying force.

In the crowd, Cao Zheng gave a melancholic sigh. He said, "With this boy around, there is no longer the chance for my Cao Family to rise up within a thousand years! After this, Wu Fang City will be monopolized by the Ren Family! But offering the Thousand Query Wall to the Ren Family was the most correct thing that this old man did! This boy's alchemy strength is too terrifying. He definitely had some staggering fortuitous encounter!"

"Father, after today, I plan to enter closed-seclusion for a period of time. My gains these few days have been considerable. Ye Yuan's lectures opened up a brand new Alchemy Path for me. After the seclusion this time, I'll definitely have breakthroughs!" Cao Kun said.

Cao Zheng's eyes lit up, and he said, "Good, good! Kun-er, whether or not my Cao Family can persist, will be up to you! As long as you can break through to become a peak Alchemy Sovereign, you can definitely protect my Cao Family's legacy for a thousand years! Of course, the prerequisite is not to have conflicts with the City Lord Manor, understood?"

Cao Kun nodded and said, "Father, rest assured. Your child has engraved the matter in his heart. For as long as your child lives, I absolutely won't have any hint of conflict with the Ren Family! Furthermore, I have a feeling that Ye Yuan insisting on rejecting the position of Young Lord, his father Ye Hang's, future accomplishments definitely won't be beneath mine!"

"En? You have this feeling too? This boy seems to be impulsive when doing things. Actually, in the end, you'll discover that everything is within his grasp! That Ye Hang's age is still much younger than yours. His potential isn't exhausted yet. How his future accomplishments will be is really hard to say!" Cao Zheng said with a grim expression.

.

Ye Yuan stirred up a storm in the entire Wu Fang City these few days. The astonished ones were not just those alchemists. The shock in Ren Xingchun's heart was not the slightest bit lesser than the others.

He thought over and over again and still decided to come and find Ye Hang to inquire about Ye Yuan's affairs.

"Honorable Son-in-Law, did Ye Yuan he . . . have some lucky encounter before?"

After talking aimlessly for a long time, Ren Xingchun finally turned the topic to Ye Yuan.

But his form of address towards Ye Hang had already unknowingly changed into 'Honorable Son-in-Law.'

Ye Hang was a clever man too. He obviously knew that his position today was all given to him by Ye Yuan.

But there was no logic of a father being jealous of his son in this world. His son being promising, he was more than happy.

As for Ren Xingchun's change in attitude, Ye Hang was naturally happy to see it.

Wasn't the reason why he came back to Wu Fang City for the sake of this situation today? It was just that Ye Hang never expected that the one who helped him to fulfill his wish was not himself but his son.

However, Ye Hang secretly resolved his heart too, to definitely cultivate well from now on. He must break through to the Alchemy Sovereign Realm within ten years.

Otherwise, he would become Wu Fang City's biggest joke.

"Lord Father-in-Law, Ye Yuan he told me before that he once obtained a pinnacle major power's legacy in his dream before! I originally thought that he just obtained the Northern Domain's, a certain major power like Father-in-law's inheritance. I even suspected for a period of time that it was Lord Father-in-law yourself. But looking at it now, it's probably not that simple," Ye Hang said.

Ren Xingchun's eyes glimmered, and he said solemnly, "Looks like Ye Yuan's fortuitous encounter already surpassed the Endless World this small world!"

Unrivaled Medicine God

Chapter 547: Vast Heaven Pagoda

"Lord Father-in-Law's meaning is . . . the Divine Realm?"

Even though Ye Hang already had surmises it long ago, it still felt immensely heavy to say out these two words.

His own son actually obtained the inheritance of a Divine Realm major power. This lucky encounter was sufficiently heaven-defying!

However, thinking about his son rising up from the tiny little State of Qin, probably only such an explanation made sense too.

Ren Xingchun nodded his head and said with a solemn expression, "In my view, that powerhouse who taught in the dream is likely an extremely formidable existence in the Divine Realm too! Ye Yuan's alchemy level is not just as simple as surpassing Alchemy Sovereign!"

Ye Hang was slightly apprehensive in his heart. How powerful was extremely formidable, he really could not gauge.

In Ye Hang's view, Ren Xingchun was already powerful until it made people feel suffocated. How powerful did that Divine Realm major power's strength have to be?

The interactions between small worlds and the Divine Realm was too little. The Lower Realms simply had no way to obtain the Divine Realm's news.

The more this was so, the more the Lower Realm martial artists felt that the Divine Realm was incomparably mysterious.

But it was indisputable that the strength of those Divine Realm major powers was totally not what they could imagine.

“About Old Hai’s evaluation of Ye Yuan being so high, it is most likely he’s eyeing that major power behind Ye Yuan too. Otherwise, with his boundary, even if Ye Yuan was any more talented, it’s also impossible to address him as brothers.”

Ren Xingchun was no fool. After knowing Ye Yuan’s details, he was not far off from Qi Hai’s thinking as well.

Ye Hang was not concerned about these though. As long as Ye Yuan could be safe and sound, he would be satisfied.

Of course, his son becoming a Divine Realm major power’s successor, Ye Hang was naturally very proud.

His son was so outstanding. Ye Hang as a father naturally could not lose face for his son either. At the very least, he had to stand at the pinnacle of this Endless World!

And now, Ye Hang finally knew how heaven-defying the two cultivation methods Ye Yuan imparted him was.

That was absolutely the Divine Realm’s powerful cultivation methods. If he still could not reach the pinnacle with a treasure mountain, then that would be too useless.

“This matter, the lesser people know, the better. Or else, I’m afraid there will be people with ill-intent towards him. But I reckon that those few old fellows from the Three Sects more or less have some conjectures. It’s just that they don’t dare to confirm it. Tomorrow, I’ll personally bring Ye Yuan to Vast Heaven Mystic Realm. The City Lord Manor’s affairs will be passed to Yujie and you,” Ren Xingchun said.

Ye Hang nodded his head and said, “Lord Father-in-Law, rest assured. Ye Hang knows what to do.”

.....

The next day early morning, Ye Yuan bid farewell to his parents and headed for the Vast Heaven Mystic Realm with Ren Xingchun.

In the past, this Vast Heaven Mystic Realm was monopolized by the Three Sects. Even Wu Fang City did not dare to stick their fingers in.

But this time, the Vast Heaven Mystic Realm was opened up to everybody. It let those martial artists who originally did not see hope have the chance to advance shoulder to shoulder with the geniuses.

And this time, Wu Fang City’s young talents, including Ren Dong and Cao Fang, had the qualifications to join in too.

The Vast Heaven Mystic Realm was at a place adjacent to the Three Sect’s forces. There was still a considerable distance away from Wu Fang City.

But Ren Xingchun rode on a profound artifact ranking spirit boat and only used three days to reach.

The Vast Heaven Mystic Realm had long already become an item kept in the Three Sects’ bags. Hence, there was completely no danger in here.

By the time Ye Yuan's party arrived, there were already several hundred people waiting in the mystic realm.

Each time Vast Heaven Pagoda opened, there were merely 300 slots.

Actually, each time it opened, the slots of the Three Sects were all not used up. Only this time, did the Three Sects fill the slots to the brim, which was also 300 people.

This time, the Three Sects opened up the Vast Heaven Pagoda. Many of the itinerant cultivators who fulfilled the conditions naturally did not wish to miss it either. The Three Sects underwent a round of screening and selected 50 itinerant cultivators who fit the requirements.

The various Northern Domain major factions excluding the Three Sects also picked 100 genius martial artists. Ye Yuan and the others, their names were naturally among the 100 too.

The remainder 150 slots, the Three Sects had 50 people each.

Counting it, it was actually still the Three Sects that occupied the absolute position.

But this could not be blamed on them either. Who asked the Three Sects' might to be the greatest in the entire Endless World?

To be able to enter the mystic realm was already the greatest grace to other people.

Upon entering the mystic realm, Ye Yuan saw a huge pagoda far away, towering and grandiose.

Such a great distance away and Ye Yuan could clearly sense the archaic and mysterious aura coming from the pagoda.

Ye Yuan was slightly apprehensive in his heart. This Vast Heaven Pagoda was absolutely not ordinary!

It was just uncertain what on earth was inside this inheritance, to actually be able to let Lu Linfeng that old punk reach such a boundary!

Ren Xingchun seemed to have perceived Ye Yuan's puzzlement and explained, "Nobody knows this Vast Heaven Pagoda's origins. It was if before this Endless World formed, it was already standing here. For close to ten thousand years, this Vast Heaven Pagoda has experienced several dozen factions, but it ultimately stood firm and immovable. For close to ten thousand years, the talented martial artists who entered inside were as many as several hundred thousand. But just a mere one individual could make it to the eighth level! And the vast majority of the martial artists can't even make it past the fifth level! However, just by completing the fifth level one can already obtain unimaginable benefits."

Ye Yuan became interested when he heard and asked, "*Oh?* What kind of benefits are there?"

"Cultivation methods, martial techniques, medicinal pills, weapons, so on and so forth. The more levels passed, the more generous the rewards obtained. The martial techniques obtained from Vast Heaven Pagoda, even if it's just a Tier 1 martial technique, are all very heaven-defying! After cultivating them, it's virtually sweeping across those of the same rank!" Ren Xingchun said.

These things, Ye Yuan actually paid no attention to it. His cultivation methods and martial techniques are already sufficiently heaven-defying. Without the need for the cultivation methods and martial techniques inside, he could also full well sweep across those of the same rank.

“Apart from this?” Ye Yuan asked.

Towards Ye Yuan’s reaction, Ren Xingchun was not surprised. He was aware of Ye Yuan’s strength. These things simply had no attraction to him.

“Concept comprehension!” Ren Xingchun said.

Ye Yuan’s eyes lit up. “En? How so?”

“What the specifics are like, I have no knowledge as well. But I know that any martial artist who make it past the fifth level and entered the sixth level virtually all ascended to the Divine Realm later! But in these recent thousand years, there has yet to be anyone who made it to the sixth level. There are quite a number of people who made it to the fifth level though. But they ultimately still failed on the verge of success. These recent hundred years, there’s not even a single person who made it to the fourth level!” Ren Xingchun said with a bitter smile.

The Endless World’s these hundred years was too disgraceful as well. To actually not even have a single person who made it to the fourth level. No wonder their strength was weak until like this.

But this had to do with the Three Sects monopolizing resources and all as well. If these slots had been evenly distributed to the other factions and itinerant cultivators, perhaps there might be awe-inspiring geniuses that appeared.

This method of closing their doors to the world ultimately cause talents to drop to zero.

Ye Yuan nodded slightly. Presumably, that Lu Linfeng should have comprehended the Concept of Formations Path in this Vast Heaven Pagoda. That was why he soared to the heaven in one leap.

It was just that Ye Yuan was curious about what kind of existence created this Vast Heaven Pagoda.

When Lu Linfeng was in the Lower Realms, his comprehension of concepts already far surpassed the Endless World, this small world. And he only made it to the seventh level. Then, the things in the eighth level and ninth level should be able to reach the level of the Divine Realm!

Why would such an existence show up in the Endless World and leave a legacy?

[Unrivaled Medicine God](#)

Chapter 548: Not Someone You Can Afford to Offend

Along the way, Ye Yuan continuously sized up the huge pagoda. The more he looked at it, the more extraordinary he felt it was.

Approaching the front, Ye Yuan said to Ren Xingchun, “Old man, you go and say hi to them. I’ll stroll around myself.”

Regarding Ye Yuan’s form of address, Ren Xingchun was already used to it long ago.

If he tried to gain back face with Ye Yuan, Ren Xingchun would have long exploded in anger.

Ren Xingchun also discovered that Ye Yuan was very interested in Vast Heaven Pagoda. He nodded his head and said, "Alright. You go alone then. There are a few of my old friends over there. I'll go and say hi to them. Dong-er, Cao Fang, you guys follow me to greet several seniors."

After Ren Xingchun left, Ye Yuan strolled around the Vast Heaven Pagoda by himself.

Only after staring in close vicinity did Ye Yuan discover that he actually had no way of discerning what kind of material this pagoda was forged with!

Although Ye Yuan did not dabble much in the path of refining, with his horizons, he still knew most of the materials in the Divine Realm.

Yet, he was actually unable to discern this building's material. This involuntarily made Ye Yuan even more curious about this Vast Heaven Pagoda.

"Spirit Gathering Formations are laid down around this Vast Heaven Pagoda to supply essence energy ceaselessly into the pagoda body. Countless array formations are inscribed onto the pagoda body. The usage of many array formations, even I actually can't understand any of them!"

Ye Yuan could not help drawing a cold breath. This Vast Heaven Pagoda was truly very abnormal.

One had to know that although Ye Yuan's Formations Path attainments could not compare to Lu Linfeng, he himself was a Tier 9 Array Emperor. Furthermore, he obtained Lu Linfeng's legacy at the Grand Yan True Sect too. His attainments in the Formations Path were already exceedingly high!

With his present visual prowess, he actually could not figure out the array formations inscribed on the pagoda body!

"Just what is this Vast Heaven Pagoda's origin?" Ye Yuan could not help muttering under his breath.

Ye Yuan initially thought that everything should be under his control in the Lower Realms. But only now did he discover that within this Endless World, actually there were a lot of secrets that even he could not understand.

Not just this Vast Heaven Pagoda, even that incomparably mysterious Endless Forest as well.

Yue Mengli said that she had once entered deep into the Endless Forest. But with her strength, she actually did not dare to enter into the deepest parts!

Ye Yuan suddenly discovered that this world seemed to be even more complex than he had imagined!

A tiny little Endless World had so many things that could not be figured out. Then what about the Divine Realm?

Just how many secrets were hidden in the Divine Realm? Where did those Deity Realm powerhouses all go to? Why were the current martial artists unable to affirm their Dao and become deities?

Ye Yuan discovered that he was too absorbed in alchemy in his previous life, resulting in overlooking many things.

Only through this reincarnation did he realize that his understanding of this world was too little.

"Heh, I wonder which hillbilly who doesn't know the immensity of heaven and earth? Even the Three Sects are unable to fully understand this Vast Heaven Pagoda's secrets, let alone you, a Sea Transformation Realm boy?"

Ye Yuan was currently lost in thought when a disdainful voice came from behind.

Turning around to look, it was a young man around thirty.

This person wore the Myriad Sword Sect's outfit. Clearly, he was a Myriad Sword Sect disciple.

Ye Yuan shook his head slightly. Each and every one of the Three Sects' disciples was indeed very arrogant!

Although this person had a Soul Sea Realm strength, his pair of eyes were practically growing on top of his head.

Opening up Vast Heaven Pagoda to everyone this time, the Three Sects' disciples were clearly very displeased.

In their eyes, the young disciples apart from the Three Sects were probably all good-for-nothings, right?

Ye Yuan was disinclined to dispute with him as well. He went to another place without even paying notice to him.

When that person saw Ye Yuan's attitude, he immediately had a feeling of being disregarded. Rage welled up in his heart.

"Stinking brat, I'm talking to you! Did you hear or not?!"

While talking, he reached his hand out to grab at Ye Yuan. He wanted to teach this cocky brat a bit of a lesson!

A puny little Sea Transformation Realm martial artist actually had this kind of attitude when seeing him. How arrogant!

But then in his vision, Ye Yuan became a blurry figure and then disappeared without a trace.

Looking again, Ye Yuan already arrived at several dozen feet away, currently sizing him up with unkind eyes.

That young man's expression changed, his face revealing disbelief.

He, a Soul Sea Realm, was going to grab an early-stage Sea Transformation boy, but he actually failed?

A feeling of humiliation welled up in his heart uncontrollably.

The young man was just about to make a move again to wash away the disgrace earlier when a voice suddenly was heard. *"Senior Apprentice Brother Zhou Ye, turns out you're here."*

Zhou Ye turned around and said with an unhappy look, *"Junior Apprentice Brother Qin Yan, you hang on for a bit. Wait until I take care of this condescending stinking brat!"*

The arrival was precisely the Qin Yan who had already broken through to Soul Sea Realm.

Qin Yan followed Zhou Ye's gaze and could not help saying in surprise, "Ye Yuan!"

But he changed to another expression very quickly and circled around Zhou Ye to come before Ye Yuan. Qin Yan said with a respectful bow, "Any offense committed against Junior Apprentice Brother Ye previously, Qin Yan apologizes for it here."

When Ye Yuan saw that Qin Yan had indeed broken through to the Soul Sea Realm, he was also rather surprised.

When he captured Qin Yan to be a hostage last time, Qin Yan was still some distance away from Soul Sea Realm. To think that he grew wiser with each setback, and he actually broke through to Soul Sea Realm at the end.

Zhou Ye's eyes went wide at the side. The Myriad Sword Sect's proud son of heaven, Qin Yan, actually bowed towards this Sea Transformation Realm little rookie?

"Junior Apprentice Brother Qin Yan, are you mistaken? To actually bow towards this brat?" Zhou Ye was full of doubt.

Qin Yan said in a slightly solemn voice, "Senior Apprentice Brother Zhou Ye, although I don't know what's going on, Junior Apprentice Brother Ye isn't someone you can afford to offend. You head back quickly. Old Ancestor is finding you for something."

Zhou Ye's expression was seemingly apprehensive, and he could not help looking at Ye Yuan in surprise.

He understood Qin Yan very well. In the sect, he was extremely haughty. But such a haughty Qin Yan actually lowered his proud head in front of this teenage youth!

Who on earth was this youth?

"What are you still in a daze for? You're aware of Old Ancestor's temper. If you're late, I don't dare to say what consequences there are!" Qin Yan frowned and said.

Zhou Ye shuddered, nodded his head rigidly, and he hurriedly turned around and left.

Ye Yuan looked at Qin Yan and said with a smile, "With your present strength, you shouldn't fear me. Why do this?"

Qin Yan breaking through to Soul Sea was different from those ordinary martial artists. Although similarly First Level Soul Sea, his strength was much greater.

To Qin Yan, breaking through to Soul Sea was a qualitative leap. In this realm, it was the period for his potentially greatest burst to go forward.

Even the current Ye Yuan did not dare say to be able to beat Qin Yan as well.

Qin Yan said rather embarrassedly, "Junior Apprentice Brother Ye and I are destined to not be opponents on the same level. Don't make fun of me anymore! I'm aware that Junior Apprentice Brother Ye slew a Soul Sea Realm expert by yourself. The Vast Heaven Inheritance this time, Junior Apprentice Brother Ye can probably charge into the sixth level. At that time, you'll definitely soar to the heaven in one move!"

Ye Yuan was rather curious when he heard that and asked, “Oh? How do you know that I can charge into the sixth level?”

“The Vast Heaven Pagoda is a place that tests potential and strength. With Junior Apprentice Brother Ye’s talent, charging into the sixth level should be highly certain!” Qin Yan said.

“Then what about yourself?” Ye Yuan enquired.

Qin Yan seemed to have long had a prediction regarding this and said, “I have the confidence to charge into the fifth level. But I don’t have much confidence in passing the fifth level.”

Unrivaled Medicine God

Chapter 549: Prediction

“Oh? I heard that the Three Sects already had no one make it to the fifth level for close to a hundred years. You’re actually so confident?” Ye Yuan asked.

“Heh, although this Qin can’t match up to Junior Apprentice Brother Ye, I still have some confidence after I look at myself. If it were before breaking through to Soul Sea, I really wouldn’t dare to say this. But now . . .”

Qin Yan’s words at the back were not said finish. But it was very clear he had absolute confidence in himself passing through the fourth level.

In the case of genius martial artists, they all had full confidence in themselves. This was the essential condition to become a powerhouse.

Qin Yan was indeed an outstanding figure among the Endless World’s junior generation. Him having this confidence was nothing inappropriate either.

If he did not have such confidence in himself, it was not possible to break through to the Soul Sea Realm very quickly after receiving stimulation from the incident with Ye Yuan.

“Huhu, then I’ll have to congratulate Senior Apprentice Brother Qin in becoming the number one person in a hundred years!” Ye Yuan said with a laugh.

“Dare not, dare not. With Junior Apprentice Brother Ye around, how can I dare to call myself the number one person? Furthermore, Guo Taoqun and Yin Yanhua are definitely unwilling to be left behind as well,” Qin Yan hurriedly said.

“En?”

“Turns out that Junior Apprentice Brother Ye doesn’t know yet. The two of them already broke through to the Soul Sea Realm before coming to Vast Heaven Mystic Realm.” Qin Yan knew that he had yet to receive the news when he saw Ye Yuan’s expression.

Regarding news of this aspect, Ye Yuan had always been slow.

Ye Yuan could not help chuckling when he heard this. “The three of you are following really tightly behind. But this way is good as well. Walking alone at the front is a bit too lonely.”

Qin Yan nodded and felt that what Ye Yuan said was correct as well.

But he came to his senses very soon. Wasn't this person before his eyes the one walking alone at the front?

Even the current him did not dare say to surely beat Ye Yuan, let alone talked about going after the Vast Heaven Inheritance.

Second Level Sea Transformation and able to kill a Soul Sea Realm expert. This Ye Yuan was simply monstrous until it made people feel dread.

Actually, after being captured to be a hostage by Ye Yuan, Qin Yan was still very unresigned.

He was holding on to this grievance too; that was why he could break through to Soul Sea Realm so quickly.

But when he heard the news of Ye Yuan slaying a Soul Sea Realm expert alone, he could not invoke the thought of finding Ye Yuan to take revenge anymore.

His disparity with Ye Yuan was too great. Furthermore, this disparity would only become increasingly bigger.

Him suppressing Ye Yuan by a major realm did not seem to have the slightest hint of advantage to talk about at all.

Moreover, with Ye Yuan's potential, his cultivation speed would only be faster than him!

.....

Accompanying Ye Yuan to tour one round, Qin Yan followed Ye Yuan back to the place where those major powers gathered.

When Guo Taoqun saw Ye Yuan, he immediately came up to greet warmly. He said, *"Haha! Junior Apprentice Brother Ye, you actually came together with Qin Yan. I just asked City Lord, His Excellency, and was just about to go find you!"*

Ye Yuan's impression of this easy-going Guo Taoqun was not bad. He said with a smile, *"Having not met for several days, Senior Apprentice Brother Guo improved again. Congratulations!"*

"Sigh, isn't this still all thanks to you? If not for you stimulating Qin Yan, Fairy Ice Cloud and I wouldn't be stimulated by him either! I, Guo Taoqun, only submit to you, Ye Yuan, alone. Qin Yan this punk beating me, I'm not convinced!" Guo Taoqun said smilingly.

"Humph! No matter what, I won this time too!" Qin Yan said with a cold snort.

These two people were natural foes. Being together, they would argue within three sentences.

"So what then? Now, everybody is about the same again. If you're not convinced, let's just come and compete for one round!" Guo Taoqun said without yielding at all.

"Alright. What's the use of fighting and showing off? If you have the strength, why not spend it on the Fierce Gale World martial artists!" Yin Yanhua came over here at this time too and broke off the pair's intense confrontation.

With Yin Yanhua opening her mouth, the two people both shut their mouths sensibly and did not argue anymore.

Ye Yuan naturally perceived the delicate relationship between these three people and did not expose it either. He said with Yin Yanhua with clasped hands, "Congratulations to Fairy Ice Cloud for breaking through to the Soul Sea Realm."

This Yin Yanhua had an icy appearance. Ye Yuan could not be too polite with her either and just lightly congratulated.

Yin Yanhua greeted with folded hands at the lower right side and said icily, "I've incurred Junior Apprentice Brother Ye's ridicule."

"Hahaha! Little Brother Ye came. I was just betting with Old Ren earlier saying that you can definitely charge to the sixth level!"

Qin Hongtao came over to welcome with a loud laugh. Coming over together with him was still Ning Yixian, Jing Xuan, as well as Ren Xingchun and the rest.

These people were all the sects' old ancestor level figures. For the sake of their juniors, they all put down the important things in their hands and came to the Vast Heaven Mystic Realm.

The matter of the alliance, these old ancestors determined the general direction. The remaining stuff naturally had other people to do.

Their most important thing apart from their own cultivation was to groom junior descendants.

Behind Qin Hongtao even tagged along that Zhou Ye. When he heard Qin Hongtao's words, his face swelled to a purple color, secretly looking at Ye Yuan from time to time.

What kind of situation was this?

His own old ancestor was actually calling this boy his little brother?

Wasn't this messing up the seniority?

Zhou Ye was thrown into confusion. But there was one point which he was very clear about. Qin Yan really was not joking around with him earlier!

This Ye Yuan was really not someone he could afford to offend!

These several old ancestor level figures were on such close terms with Ye Yuan, calling him little brother one after another. The more Zhou Ye listened, the more intense the chill deep in his heart.

He was quietly praying for Ye Yuan to not rat on him to his old ancestor. Otherwise, with his old ancestor's temper, he probably would not spare him.

Zhou Ye started to listen to the few people converse on tenterhooks.

"Huhu, Old Ancestor Qin views me so high. If I don't make it to the sixth level, I wouldn't have the face to come out of the pagoda," Ye Yuan responded with a laugh.

"Heh, Little Brother Ye don't need to be humble anymore. My family's stinking brat already said that he can make it to the fifth level. You charging to the sixth level is absolutely fine!" Qin Hongtao said with a guffaw.

Ye Yuan just smiled. Instead, he turned to Ren Xingchun and said, "Old Ancestor Qin guessed that I can reach the sixth level. I wonder what City Lord, Your Excellency, was saying earlier?"

Ren Xingchun smiled too and did not reply to Ye Yuan's words.

Ning Yixian interjected, saying, "This Old Man Ren is shrewd and planning something bad. Just now, we forced him to take a stance. But he just won't say. Maybe in his heart, Little Brother Ye making it to the seventh level isn't without the possibility too!"

Of course, this was just Ning Yixian's joking words.

In his heart, even though Ye Yuan was monstrous, this Vast Heaven Inheritance was even more monstrous.

To be able to make it to the sixth level was already the number one person in a thousand years for the Endless World.

How could the seventh level be barged inside that easily?

One had to know that up until today, just a mere scanty three people made it into the seventh level.

It was not that he did not believe in Ye Yuan, but this was the Vast Heaven Pagoda! It was too perverse!

Zhou ye was filled with fear listening to these few people chatting all this while, but Ye Yuan did not give him a single glance from start to finish as if he was like air.

After chatting for a period of time, Zhou Ye discovered that Ye Yuan seemed to have really forgotten about him. His tightly wound nerves finally eased up slightly.

Right at this time, an enormous rumbling sound suddenly came from the pagoda body. The dark pagoda body suddenly gave off a hundred thousand foot light, blinding until everyone could not open their eyes at all!

Creak.

Vast Heaven Pagoda's bottom-most level gigantic door slowly pulled open . . .

Chapter 550: The First Level

"The Vast Heaven Pagoda opened!"

"Haha! To think that I still have the opportunity to enter the Vast Heaven Pagoda in this life! Thinking about it really makes people agitated!"

"Success or failure hinges on this one action! I must stand out above the masses!"

The Vast Heaven Pagoda's abnormal activity aroused commotion from those sects and itinerant cultivators who were taking part for the first time.

Compared to them, the Three Sects' disciples appeared rather calm.

A light screen poured down from the top of the pagoda, akin to quicksilver spilling over the ground; it was an incredibly grand sight.

The pagoda body being swept by this light screen, it actually displayed out rows of names!

Ye Yuan focused his gaze. It was only to see a name inscribed at the most conspicuous place: Li Fantian.

Affixed on top of this name was the eighth level. He was also the one and only martial artist who made it past the seventh level and entered the eighth level in these ten thousand years.

Ye Yuan continued looking down. There were three names under the seventh level.

The first name was called Luo Yanqing. The second name was called Zhuo Fei.

And the third name was shockingly Lu Linfeng!

"This old punk was likely a legendary figure in the Endless World back then too. It's just that with the passing of time, his legend has already been gradually forgotten by the later generations." Ye Yuan sighed in his heart.

Actually, the primary reason why Lu Linfeng was forgotten by the Endless World was still that of the Grand Yan True Sect's destruction.

Otherwise, with the Grand Yan True Sect's legacy, no matter how useless, they would also be the overlord of a region in the Endless World too.

As for after the sixth level, the names were densely packed. It was also uncertain how many there were. Ye Yuan was no longer interested in looking anymore.

Ye Yuan coming to the Vast Heaven Pagoda this time, the lowest target was also the seventh level!

If he could not even match up to Lu Linfeng, then what right did he have to get involved with those turbulent waves in the Divine Realm?

But Ye Yuan was also very curious about which era those figures Luo Yanqing and Zhuo Fei were from. Ye Yuan unexpectedly had not heard of them before.

Logically speaking, they could make it to the seventh level, they should absolutely not be unrecorded nameless people.

"Looks like the mighty current of time buried countless geniuses in oblivion! Even if Lu Linfeng roams unobstructed in the Divine Realm right now, there might not be people who can remember him years later." Ye Yuan sighed quietly.

Ye Yuan suddenly discovered that beside the names, there was still a patch of blank light screen, but he did not know what use it had.

"After you all enter, the light screen will display your names and the level you are at. This Vast Heaven Mystic Realm doesn't have any danger. But once the mission fails, you'll be transported out by the

pagoda. Your names will disappear with it too. Furthermore, inside the mystic realm, all the pain is real, even if it's death!"

Ye Yuan looked sideways. Qi Hai already arrived beside him since who knew when.

"Old Hai, why did you come?" Ye Yuan said in surprise.

"*Huhu*, Little Brother Ye clearing the Vast Heaven Pagoda, how can I not come and bear witness to this historical moment? In this thousand years, you're the martial artist with the greatest hope of charging to the sixth level! But sadly, time waits for no one. If your boundary could increase some more, you might have hopes of making it to the seventh level!" Qi Hai said with a slight pity.

In the end, it was still that Ye Yuan's current boundary was too low.

His present strength was at best also just around the strength of Qin Yan and the others. If counting in potential, Qi Hai's judgment of Ye Yuan was the same; it was entering the sixth level.

If Ye Yuan could break through a few more realms, Qi Hai's judgment of Ye Yuan would naturally be much higher.

But this Vast Heaven Pagoda was clearly harder the further back. The seventh level was already the limits that everyone could understand!

Except that everybody including Qi Hai all did not know that the lowest target Ye Yuan set for himself was the seventh level!

"*Haha!* Since Old Hai thinks so highly of Ye Yuan, I have to take on this sixth level no matter what!" Ye Yuan said with a laugh.

"*Huhu*, this old man will wait and see! Alright, it's almost time. You guys should enter!" Qi Hai said.

Ning Yixian said in a loud and clear voice, "The Vast Heaven Pagoda is already open. Everybody has to put in more effort when you're inside! My Endless World's future is resting on you all! But this old man will get the unpleasant things out of the way first. Opening up the Vast Heaven Pagoda this time is for the sake of my Endless World's future and in order to resist the Fierce Gale World's invasion. After you guys come out from the Vast Heaven Pagoda, you must join the Endless Alliance and serve the alliance! In the future, when the Fierce Gale World is defeated, we'll naturally give you guys back your freedom!"

"Alliance Chief Ning, we'll definitely put our best foot forward and serve the alliance!"

To these itinerant cultivator martial artists, this was an opportunity that only came once in a lifetime.

Once someone's talent showed itself, founding a sect in the future was something easily accomplished too.

Ning Yixian said, "Alright, you all enter from the entrance by yourselves!"

Under Ning Yixian's command, the group of martial artists all flew over to the entrance scrambling over each other, especially those itinerant cultivator martial artists.

To them, this was a great opportunity for the carp to leap over the dragon gate.

Furthermore, to be able to get selected, these people's strength were all preeminent among the itinerant cultivator martial artists. There were people with exceptional talents. They were naturally unwilling to fall behind others.

Ye Yuan bid farewell to the group of old ancestors and also followed the group and flew into the pagoda.

.....

Entering the Vast Heaven Pagoda, the scenery before Ye Yuan's eyes suddenly changed. It was as if he had arrived at a different world.

Ye Yuan had yet to land on his feet, and he saw a blur in front of him. A shadow attacked towards him.

But the speed of this shadow was as slow as a snail in Ye Yuan's eyes.

Ye Yuan casually pointed a finger, and that shadow collapsed to the ground with a bang.

Looking closely, it was a Tier 2 demonic beast.

"*Huhu*, Junior Apprentice Brother Ye's luck is really booming. To actually bump into a demonic beast right after entering," said Guo Taoqun who came to Ye Yuan's side with a wide grin.

Ye Yuan smiled and said, "Just a Tier 2 demonic beast. Not worth mentioning. It's just . . . the mission of this first level isn't to hunt demonic beasts, right?"

Guo Taoqun smiled too and said, "Junior Apprentice Brother Ye is indeed astute. Actually, the missions in the first three levels are all to hunt down demonic beasts. It's just that the ranks of the demonic beasts are different. This first level only has Peak Tier 2 demonic beasts. What we need to do is to breach the blockade of the Tier 2 demonic beasts, and then we are to find the entrance leading to the second level to reach the next level!"

Ye Yuan was stunned. "So simple?"

Guo Taoqun burst into laughter and said, "Simple? *Haha!* It's Junior Apprentice Brother Ye is thinking of things too simply! Don't look at how we have 300 people who entered this Vast Heaven Mystic Realm. In this first level, close to half of the martial artists will be eliminated! We're only at the entrance area right now, so the number of demonic beasts is not many. When reaching the deep regions of the first level, the numbers of these Tier 2 demonic beasts will reach an extremely terrifying number! Even Sea Transformation Realm experts might not be able to retreat unscathed! Although I broke through to the Soul Sea Realm now, I don't dare to keep on fighting in the beast horde either. Otherwise, my essence energy will be exhausted sooner or later and be eliminated."

Only now did Ye Yuan come to understand. If it was just vanquishing Tier 2 demonic beasts, then that was truly too simple.

Although the strength of Tier 2 demonic beasts was not powerful, once the numbers reach a certain level, it would produce a qualitative change.

No matter how high your boundary was, it could not withstand the exhaustion from confronting too many demonic beasts!

High tier martial artists were hailed as invincible. In real life situation, that was the case too.

But in theory, low ranking martial artists could completely use numbers to exhaust high-tier martial artists to death!

Ye Yuan thought about it and asked, "Could it be that the demonic beasts in this first level can't all be killed completely?"
