

## Medicine God 571

### [Unrivaled Medicine God](#)

#### Chapter 571: Creating History!

This Ye Yuan was actually someone who had become stronger when encountering strong enemies!

Regarding the strength of these brothers of his, Kuai Liang was all too clear.

But even so, they were still crushed by Ye Yuan domineeringly!

Those two punches earlier, even he felt terror.

Too strong!

Could it be that this boy had no limits?

This group of people was all Fourth Level Soul Sea strength. What did this illustrate?

This showed that when they, these people, were at the Fourth Level Soul Sea, as a team still could not triumph over Ye Yuan this Fifth Level Sea Transformation!

Furthermore, when they were at the Fourth Level Soul Sea, they did not have their current concepts comprehension at all.

Ye Yuan using these two punches perfectly elucidated what was called powerful!

Kuai Liang looked at Ye Yuan and suddenly burst into laughter, *"Hahaha! How many years has it been? The Vast Heaven Pagoda finally welcomed an interesting youth! Ye Yuan, you're excellent! This Vast Heaven Pagoda Inheritance, the final three rounds are the most important. You have to put in great effort. Don't let me down!"*

As he said, Kuai Liang swung his sword in a circle, then swiped towards his own neck.

The other illusionary spirits all followed suit, all choosing to commit suicide!

Very soon, Kuai Liang and the rest all revived from the dead, appearing in front of Ye Yuan once again.

Ye Yuan cupped his fists and said, "Thank you very much, Elder Brother Kuai!"

*"Huhu, thank for what? There has never been compassion in the martial artists' world, only strength! If you don't have adequate strength, how can you be qualified to let me view you in a different light? Who knows how many martial artists came to this Vast Heaven Pagoda. But barely any had the qualifications to let me a word more. And you, have this qualification. Alright, you go to the inheritance space then,"* Kuai Liang said.

Ye Yuan nodded and said, "Farewell!"

.....

"Cleared! Really made it through! The seventh level! Seventh level!"

Outside the Vast Heaven Pagoda, everyone's emotion was boiling over!

The seventh level!

This was a result which created history!

Since Lu Linfeng made it into the seventh level, several thousand years had already passed. During this period, nobody ever made it inside.

Lu Linfeng's prowess, nobody dared to dispute it.

After a time interval of several thousand years, was another Grand Yan True Lord such existence going to appear again?

Entering the seventh level meant that Ye Yuan at least made it into the top five in this ten thousand years!

Ten thousand years. How many geniuses slowly rose up, then vanished in the long process of history again?

To be able to rank in the top five of all the geniuses in ten thousand years, this glory, just thinking about it made people feel excited.

"Quickly look! You guys, quickly look! Ye Yuan's name is changing again!"

On the light screen, the originally gilded 'Ye Yuan' two characters were gradually plated with a layer of purple halo.

The initially gold-colored name, after adding this layer of purple halo, actually became sacred.

When the surrounding martial artists saw that name, a feeling of prostrating in worship actually birthed in their hearts!

"Ye Yuan's name actually became purple-gold colored! This . . . What does this represent?" Ning Yixian said in astonishment.

Ning Yixian, Qin Hongtao, and Jing Xuan exchanged glances. Their hearts all had a conjecture which shocked them to the core!

"Ye Yuan should have perfectly cleared the round once again!" Qi Hai's voice suddenly rang out.

*"Hiss . . ."*

Although they had surmised it in their hearts, hearing Qi Hai say it out, the shock in their hearts was still beyond words.

The Grand Yan True Lord swept across the Endless World after coming out from the Vast Heaven Pagoda back then. This legend was passed down all the way until now. But Ning Yixian they all had never heard before that the Grand Yan True Lord had once perfectly cleared the rounds.

How many times greater was the difficulty of the middle three levels compared to the first three levels?

But under such circumstances, Ye Yuan still cleared the rounds perfectly?

“What in the world did Ye Yuan do inside this Vast Heaven Pagoda? If he can even perfectly clear the sixth level, what kind of realm has his present strength already reached?” Ning Yixian felt rather hard to wrap his mind around it.

“The middle three levels all configure the opponents according to the martial artist’s own boundary. Ye Yuan’s realm is only Sea Transformation Realm, but his true combat power can cross a major boundary. If it’s like this, he has a huge advantage in clearing these middle three levels,” Qin Hongtao said.

“Not so! When Ye Yuan was at the fifth level, the opponents he faced were all First Level Soul Sea! I witnessed with my own eyes that those opponents were all killed by Ye Yuan!”

Qin Hongtao had just finished talking when a voice immediately jumped out to refute.

Everyone turned around to look. It was precisely the Guo Taoqun who was already kicked out of the fifth level.

Guo Taoqun’s words stirred up an intense wave once again.

“What? You said that Ye Yuan’s opponents in the fifth level were actually all First Level Soul Sea?” Ning Yixian’s eyes became round as a ball.

Guo Taoqun nodded and said, “That’s right! Furthermore, there was the augmentation of array formation. The power of the Illusionary Spirits Killing Array is very strong! Even if I have Third Level Soul Sea strength right now, I might not be able to pass through the fifth level either! And I personally witnessed that Ye Yuan carried out a complete suppression against the Illusionary Spirits Killing Array right from the start, all the way until they were all killed!”

Silence! Deathly silent!

The news that Guo Taoqun brought was even more astounding than Ye Yuan’s name becoming purple-gold earlier.

A Sea Transformation Realm martial artist actually suppressed a group of Soul Sea Realm illusionary spirits across the board, and he even killed all of them!

How horrifying a combat power did this required?!

“*En? Oh*, right, what does this Perfect Completion that you guys talked about mean?”

Guo Taoqun had just come out from the Vast Heaven Pagoda and was still unaware of what Perfect Clear signified.

Ning Yixian briefly explained to Guo Taoqun. Guo Taoqun was not as shocked as imagined. Because he already personally witnessed Ye Yuan’s prowess in the Vast Heaven Pagoda.

Except that after hearing Ning Yixian’s explanation, Guo Taoqun could not help saying with a bitter smile, “Looks like at the fifth level, Ye Yuan did not use his full strength! I reckon that the opponents in the sixth level are at least at the Third Level Soul Sea Realm! Maybe even Fourth Level Soul Sea! He actually still killed all the opponents same as before. This shows that the fifth level was just an appetizer to him!”

Guo Taoqun never could have expected that the Vast Heaven Pagoda trip this time actually pulled apart the distance between him and Ye Yuan so greatly.

The present Ye Yuan was already on an entirely different level from them, these juniors!

Ren Xingchun's entire body was somewhat trembling right now. How many years has it been since he was so agitated?

Even when he became Wu Fang City Lord back then, he had not been so agitated before too.

The worry in the beginning to the pride and arrogance now, this sort of situation made him, this old man who had experienced the hardships of life, somewhat surging with agitation in his heart.

At present, Ren Xingchun involuntarily recalled the scene of him forcing Ye Hang and Ren Hongling husband and wife out of Wu Fang City back then. Thinking about it, he truly did something extremely foolish back then.

If one person's willpower was not staunch enough between the two of them, how could he have such a remarkable grandson now?

If his separation of the loving couple back then succeeded . . . Ren Xingchun even did not quite dare to imagine right now.

Ye Yuan's rising momentum was too strong!

With Ye Yuan around, Wu Fang City would become the entire Endless World's pinnacle existence for at least a thousand years!

Before long, Wu Fang City would completely quash the Three Sects, becoming the number one major faction in this Endless World!

Ren Xingchun was an ambitious old man. Thinking about Wu Fang City's future, he was rather agitated.

### [Unrivaled Medicine God](#)

#### **Chapter 572: True Dragon's Blood!**

In the inheritance space, Ye Yuan appeared, but his expression froze.

A black-clothed man was currently standing with his hands behind his back, and his back facing Ye Yuan.

"You're very decent! In this recent ten thousand years, you're the first young genius to perfectly clear the first six levels!"

This black-clothed person was clearly that mysterious person in the inheritance space previously.

Regarding this mysterious person making an appearance in person, Ye Yuan was rather surprised.

He even thought that this person would be like before, remotely controlling here from some hidden place.

Looks like consecutively clearing the rounds perfectly twice had already made this black-clothed person have a completely new appraisal of him.

“So, you felt that I have the qualifications to let you show up and meet in person?” Ye Yuan said with a faint smile and was not very overwhelmed by the grace.

The black-clothed person was clearly quite surprised. This boy seemed to forever be this calm and collected. Nothing could visibly move him; he was completely not unlike a Lower Realm’s youth.

This boy actually even haggled with him previously, angering him plenty.

Now that he showed up in person to meet, this boy still had a punchable look. Really makes people displeased!

The black-clothed person did not speak. He just casually waved his hand. A small bottle appeared in Ye Yuan’s hand.

“This is the reward for your second Perfect Clear!” The black-clothed person said.

Ye Yuan checked his palm and could not help sizing up this small bottle.

Inside the bottle was stark empty and only had a drop of fresh blood!

This drop of blood was clearly not quite the same as ordinary blood. It was not bright red in color but revealed a golden color in the bright red.

Seeing this scene, Ye Yuan’s expression changed!

“This . . . Could this be . . . a divine beast blood essence?” Ye Yuan evidently recognized this item and said in amazement.

The black-clothed person turned around rather surprisedly. But his profile remained hidden in the black robes. Ye Yuan could not see at all.

Furthermore, Ye Yuan felt that this black-clothed person before his eyes had a quite unreal sensation; he was clearly standing in front of him, but seemed to be very distant away.

This made him slightly apprehensive in his heart. The black-clothed person’s strength was most likely not an ordinary kind of strong!

“You actually know about divine beast blood essence? Looks like your background isn’t normal!” said the black-clothed person in surprise.

Ye Yuan drew a deep breath and forcefully pressed down the shock in his heart and said, “You must be kidding, Senior. Within this fresh blood, it faintly exudes a golden-color. This is the hallmark of demonic beasts starting to evolve to become divine beasts!”

This second Perfect Clear’s reward was simply too generous!

Ye Yuan could not help quivering in his heart as well when he recognized this drop of blood essence.

What was the concept of a divine beast?

Every divine beast was all genuine Deity Realm powerhouses!

The so-called divine beasts under this stretch of heaven now were actually all rubbish.

At the very most, they could only be hailed as divine beast progenies.

True divine beasts no longer existed in this world.

Hence, how precious this drop of blood essence in Ye Yuan's hands could not be imagined at all.

Ye Yuan knew that there were that few demonic beasts in the Divine Realm; their blood was this sort of color as well. However, those few demonic beasts were all the Divine Realm's peak existences.

Among the human martial artists, only existences like the Ten Great Divine Kings could be on par with them!

Wanting to obtain their blood was simply nothing more than wishful thinking.

Ye Yuan never could have imagined that he could actually obtain a drop of blood like this inside this Vast Heaven Pagoda.

*"Heh heh, you, this boy, are indeed interesting. To actually even know about this sort of thing! That's right, this is a drop of true dragon's blood. Since you know that this is a divine beast blood essence, about its usage you don't need me to say any further, right?"* the black-clothed person said smilingly.

The black-clothed person played it down, but Ye Yuan's entire body trembled. His eyes revealed a look of disbelief as he said, "What did you say? This . . . This is a true dragon's blood?"

This time, Ye Yuan was really astonished.

Although Deity Realm powerhouses were already gone like clouds dissipating, the footsteps of martial artists' pursuit of the Deity Realm had never stopped. The legend of Deity Realm powerhouses also circulated on in the Divine Realm all along.

Divine beasts were undoubtedly extremely formidable existences. But among divine beasts there were distinction of superiority and inferiority too. The Four Great Divine Beasts were clearly the pinnacle-most existences among divine beasts.

Now, Ye Yuan actually obtained a drop of true dragon's blood. Even if this drop of blood essence came from one that had yet to completely evolve to become a divine beast, it was still an extremely valuable item!

*"Heh heh, brat, are you still going to say that the things which this Seat gives you are worthless now?"* said the black-clothed person with some ridicule.

Ye Yuan was speechless. This fellow still remembered this matter until now!

This person's strength was unfathomable. To think that he was actually so narrow-minded, involuntarily making Ye Yuan feel contempt in his heart.

But he gave away so many valuable things. Ye Yuan could not very well give him a blow. He just clasped his hands and said, "Many thanks for Senior's gift!"

Ye Yuan was not some hillbilly who had not seen the world after all. After the shock, Ye Yuan adjusted his state of mind very quickly and recovered.

When the black-clothed person saw that Ye Yuan actually recovered back to normal so quickly, he was also rather surprised secretly.

Even a fellow who did not know about the goods also knew just how precious an item like true dragon's blood was, let alone Ye Yuan who recognized it at a glance.

Facing such temptation, this fellow could actually remain so composed. This involuntarily made the black-clothed person's appraisal of Ye Yuan rise up a level once again.

"No need to thank me. These are the rules that fellow set. Since you cleared perfectly the second time, this is the reward that you deserve. But I have to warn you, true dragon's blood is abnormally tyrannical. Your current boundary is still too low. I advise that you better wait until after Divine Traversing Realm before taking it. Or else, if you explode from being loaded up by the true dragon's blood, I'm not responsible!" the black-clothed person said.

True dragon's blood was extremely tyrannical and violent. Ordinary martial artists were unable to harness it at all.

Even if ordinary martial artists obtained true dragon's blood, they would not dare easily consume it either.

But Ye Yuan said with a laugh, "Although taking the true dragon's blood at the Divine Traversing Realm is safe, the benefits to me won't be that great anymore. At present, my essence energy sea has just opened up not long ago. Consuming this true dragon's blood is precisely the ideal period."

When Ye Yuan knew that this was true dragon's blood, he already made up his mind to immediately consume it!

Ye Yuan naturally knew the overbearingness of true dragon's blood. But he also knew that his condition at the moment was precisely the ideal period for consuming the true dragon's blood.

Sea Transformation Realm was a new beginning, and it was also the foundation of all the boundaries in the future.

The Four Great Divine Beasts were all the beloved of heaven and earth. True dragon's blood had the powerful effect of remolding a martial artist's bloodline. Not only could it let the martial artist increase their boundary within a short period of time, but also it could even let the martial artist's affinity with heaven and earth essence energy rise multiple levels, greatly increasing the martial artist's cultivation speed!

This, to martial artists, was simply a priceless treasure!

The black-clothed man snickered coldly when he heard that and said, "Brat, I admit that you're extraordinarily talented. But don't be arrogant and overweening too! Arrogant people never have any good endings! Even though you are aware of divine beast bloodlines, you've never experienced before how powerful divine beast bloodlines are, right? True dragon's blood is an extremely powerful existence among divine beast bloodlines too. If you swallow it with your present boundary, you'll die for sure!"

Ye Yuan said smilingly, "Senior, since this true dragon's blood is my reward, then I'm the one who makes the call, right?"

## Unrivaled Medicine God

### **Chapter 573: Slaughtering Cities**

The black-clothed person's expression involuntarily choked up as he said indignantly, "Fine! I see that you're a talent, that's why I'm giving you a piece of advice. Since you're courting death yourself, then I'm not to be blamed for it! Although your talent is decent, your disposition is terrible! Even if you don't die today, you'll die sooner or later in the future due to your wild arrogance!"

However, Ye Yuan was neither anxious nor worried as he said with a smile, "Many thanks for Senior's concern. But Ye Yuan's matters, I have a score in my heart. True dragon's blood is so powerful. If I can't bring out its full might, wouldn't it be a wanton waste of God's good gifts? Don't you agree, Senior?"

*"Humph! All the best to you!"* said the black-clothed person with a cold snort and vanished with that.

Ye Yuan looked at the true dragon's blood in his hand and could not help being out of sorts.

He also did not expect that the Vast Heaven Pagoda trip this time, the gains would actually be so bountiful!

Regardless whether was it the nameless essence energy, or the Vast Heaven Stele, or the Nine Characters True Word Formula, they were all top-notch treasures. Even when placed in the Divine Realm, it was very hard to come by as well.

And the sixth level's Perfect Completion would actually reward him with a drop of true dragon's blood. This was truly an unexpected surprise.

To say such words, it was not exaggerated at all; martial artists who got their hands on true dragon's blood and used it could be said to cast off their old self and be reborn anew!

Even if it were a pig, his cultivation speed would also be swift to the extent where it made ordinary people despair.

Cultivating essence energy had always been painstaking work. Even though Ye Yuan could pop pills, along with his boundary getting increasingly higher, the requirements towards medicinal herbs also became progressively greater.

He did not have a Medicine King Hall behind him to support his cultivation now. Even if he could bear the costs of medicinal herbs, he could not find so many high tier medicinal herbs either.

Furthermore, frankly speaking, this body's talent honestly was not much. It had tremendously huge constraints on Ye Yuan's cultivation speed as well.

Ye Yuan's boundary rising until now was basically all relying on medicinal pills and lucky encounters. Strictly following the routine cultivation time was really not much.

With this true dragon's blood, he would not need to worry about cultivation speed this problem anymore in the future.

Right away, Ye Yuan sat down with his legs crossed without any hesitation and entered Heart Like Still Water heart realm to adjust his body's condition to the prime.

True dragon's blood was powerful, but just as the black-clothed person said, a moment of carelessness and it would stuff the martial artist until they exploded.

Even though Ye Yuan had confidence in subjugating this true dragon's blood, he did not dare to slack off in the slightest either.

This was a tempo of playing with one's life!

Ye Yuan carefully opened up the small bottle. A peerlessly tyrannical aura gushed out, seemingly wanted to rip this entire stretch of space to shreds.

Instantly, Ye Yuan seemed to have seen a true dragon rush out of the small bottle, circling around in the air.

"Indeed well-deserving of being a true dragon's blood. Even if it's just one drop of blood essence, it has such power too!" Ye Yuan praised with a sigh.

Without hesitation, Ye Yuan directly swallowed the blood essence into his abdomen. Immediately, he felt like his internal body was like being immolated.

Only at this instant, did Ye Yuan know what was genuinely called viscera burning up!

*"Argh!"*

Ye Yuan could not hold back a long cry, reverberating around the entire inheritance space.

Inside the void, the black-clothed person watched this scene indifferently as he said coldly, "A brat who doesn't know the immensity of heaven and earth! Originally thought that you were somewhat different from the others. Didn't think that you're still a fool! Refining true dragon's blood, the most terrifying thing isn't the energy contained within the true dragon's blood, but the dreadful true dragon's will. Even for Divine Traversing Realm martial artists, a moment of carelessness and they would have their will obliterated by the true dragon's will as well, becoming a walking corpse! Forget it. A fool like this, if he's dead, then he's dead. Nothing to feel regret about either."

Ye Yuan clenched his teeth till it chattered. Every inch of skin and flesh on his body was immolating.

The surface skin and flesh actually gradually cracked open, looking very awful.

Ye Yuan was still under the Heart Like Still Water heart realm right now. All of the pain all appeared especially vivid. That anguish gave people an impulse to want to commit suicide.

True dragon's blood was indeed abnormally tyrannical. It actually wanted to forcibly load Ye Yuan up to death!

Within all of Ye Yuan's meridians at the moment, violent energy was teeming everywhere. Even when Ye Yuan revolved the Spirit Bristle Nine Yang Divine Art to the limits, it was unable to digest those violent energies either.

Very soon, Ye Yuan fell into an extreme crisis!

Seeing Ye Yuan's wretched appearance, the black-clothed person could not help rebuking him again, *"Heh heh*, tasted the hardships, right? Who ask you to be arrogant! Even though this true

dragon's blood isn't a genuine divine beast's blood essence, the energy contained within is also not what a puny little Sea Transformation Realm like you can subjugate! Truly a fool!"

As the black-clothed person said this, he suddenly gave a melancholic sigh. He said, "Finally managed to found a peerlessly talented genius. Didn't think that he would actually die just like this. That fellow is seriously . . . Why did he have to freaking give some true dragon's blood? It's great now, isn't it? To wait for another genius like this, no idea how many years it will take either!"

. . . . .

Outside of the Vast Heaven Pagoda, a commotion suddenly arose.

A Soul Sea Realm martial artist barged into the Vast Heaven Mystic Realm and sprinted straight for Ning Yixian.

"Alliance Chief, things are bad!" That martial artist had a manner of utmost urgency.

Ning Yixian's heart thumped. But he still asked in a low voice, "What happened?"

This martial artist was his confidant. He stayed in Wu Fang City to assist a Heavenly Martial Sect's grand elder in dealing with alliance matters.

Looking at his appearance, something extraordinary most likely happened.

Indeed, that martial artist said with a look of righteous indignation, "Fierce Gale World's five great titans personally moved out, directly storming and capturing the Northern Domain's south-eastern strategic city, Cloud Iron City, and activated the transmission array! Now, Fierce Gale World martial artists already invaded the Northern Domain on a large scale, attacking and occupying the south-eastern side's three cities in one move! Furthermore . . ."

With this, everybody's expressions changed.

The Fierce Gale World's five great titans personally moving out. This was terrible!

The Fierce Gale World did not have any activities all along after entering the Southern Domain for so many. To think that once they moved out, it was so swift, precise, and fierce!

Ning Yixian they all originally thought that with the Endless Forest this natural protective defense, the Fierce Gale World wanting to invade en masse could not be accomplished within a short period.

Who knew that these five titans would actually be so decisive in going for the kill, directly attack over.

The Endless Forest. Those beneath Divine Traversing Realm were incapable of flying over directly. Only by entering the Divine Traversing Realm could one have sufficient capabilities to preserve themselves.

The five great titans personally moved out to seize the transmission array. This was what Ning Yixian did not expect prior to this.

"Furthermore what? Don't be like a woman! Quickly say!" Ning Yixian said anxiously.

That martial artists said with a look of grief and anger, "Furthermore, after the Fierce Gale World occupied those three cities, they actually . . . actually issued the order to slaughter the people, killing all

of the Endless World martial artists in those three cities! The count . . . The count is most likely as massive as in the millions!”

“What? What did you say?! Slaughter everyone in the three cities?”

Ning Yixian doubted his own ears a little. Could it be that those people were all madmen?

According to what Ye Yuan said and looking from the situation that they came to learn about now, the Fierce Gale World only came for the Endless World’s resources.

If they adopted conciliatory strategies, the Endless World would definitely have many people whose determination was not firm cross over to the other side.

But once this sort of tactic like slaughtering the city was implemented, it would undoubtedly arouse all the Endless World’s martial artists’ frenzied resistance!

Such a simple logic, could it be that those Fierce Gale World martial artists did not know?

### [Unrivaled Medicine God](#)

#### **Chapter 574: Slaying True Dragon Will!**

A million martial artists were just a small figure to the Endless World. But the influence of the massacring of the cities’ occupants this time towards this war was massive.

This was forcing all the Endless World’s martial artists to rise up in resistance: either you die or I perish!

The Fierce Gale World’s way of doing things left everyone very perplexed.

“We planted quite a few hidden agents in the Southern Domain. Nearby the Endless Forest has a lot of hidden sentries too. Could it be that they did not detect anything in advance?” Ning Yixian said furiously.

Although both ends of the Endless Forest basically broke off contact, as the Alliance Chief, how could Ning Yixian possibly not think of ways to plant some informants in the Southern Domain?

If one was oblivious to the situation, this war did not need to be fought either.

That martial artist shook his head and said, “No news was sent back from the southern side. The hidden agents in the Endless Forest detected it. But the five great peak Sovereigns’ speed was too fast. They simply could not transmit the information in time.

Ning Yixian felt a headache. The three cities were just a small area of land to the Ning Yixian. But once this hole opened up, the Fierce Gale World could send in reinforcements endlessly through these three cities.

This realm war was also considered to have officially started!

“Huuuu . . . Old Hai, how do you view it?” Ning Yixian was also rather ruffled at this time and could only ask Qi Hai.

Qi Hai had his brows tightly locked all this while as well. Seeing Ning Yixian inquire, he waved his hand and said, “You lead the others back first. I’ll wait here for Ye Yuan and the other two to come out. Gauge out the intention of the other party massacring the cities first before deciding again. Additionally, spread

this information around the world. Let every martial artist in the Endless World all know that they already don't have a way out! If it's not the Fierce Gale World's defeat, then it's our own death!"

Qi Hai clearly could not figure out what the other party was playing at either. Ever since the realm passageway linked together, the information that the Endless World knew about the Fierce Gale World was seriously too little. They were simply unable to have any effective response.

Ning Yixian heaved a sigh when he heard that and said, "There's only this as well! Then I have to trouble Old Hai with Ye Yuan. I'll bring them back right away!"

Qi Hai's brows were tightly locked. He nodded his head but did not speak, lifting his head to look at that purple-gold name on the light screen.

Only after Ning Yixian brought everyone away, did Qi Hai look at Ye Yuan's name and said with a long sigh, "Ye Yuan, you're the Endless World's final hope. Quickly get stronger!"

.....

Inside the inheritance space, Ye Yuan's breath became weaker and weaker.

The boundless energy contained in the true dragon's blood looked to be loading him up until he was about to explode.

Right at this time, a majestic consciousness instantly intruded inside Ye Yuan's sea of consciousness and turned into an azure dragon's appearance!

"Boy, you actually dare to refine this noble true dragon's blood! Pay the price for your ignorance!"

The azure dragon was very haughty inside Ye Yuan's sea of consciousness.

At this time, although Ye Yuan was in unbearable pain, under Heart Like Still Water heart realm, he could still preserve his own consciousness.

"In front of this Young Master, you dare to call yourself noble?!" Ye Yuan said coldly.

"*Hahaha!* You are but a Sea Transformation Realm little bastard. To also dare be arrogant in front of our noble dragon race! Wait until I thoroughly obliterate your consciousness and turn you into a walking corpse. See what you still have to be arrogant in front of this dragon!" said the azure dragon with a roaring laugh.

"With the likes of you?" Ye Yuan said with a disdainful look.

"*Humph!* Ignorant child! Still being stubborn on your deathbed! Although this dragon is just a tiny bit of remnant consciousness, to deal with a Sea Transformation Realm brat like you, isn't it still defeating you with ease? Watch closely, this dragon will completely wipe away your consciousness right now!"

Finished talking, the azure dragon gave a dragon roar, shocking until Ye Yuan's consciousness nearly collapsed and almost dissipated.

"Damn it! Why isn't there any activity from the golden characters yet? If this carries on, this lousy dragon is really going to disintegrate my consciousness!"

The will of an azure dragon was no joke. They were the proudest existence beneath this sky, and also the most overbearing existence.

Even just a tiny hint of remnant will was extremely proud and powerful too.

Ye Yuan waited without fear. What he relied on was naturally the golden characters in his sea of consciousness. But until now, they did not have any movements at all!

“Damn it! In the end, I still have to rely on myself! Thousand Augmenting Soul Incantation, break for me!”

Ye Yuan’s condensed his own consciousness to become a sword, stabbing towards that azure dragon!

“*Haha!* Paltry tricks! Want to deal with this dragon with just the likes of this?”

The azure dragon extended a dragon claw, lightly grabbing towards that sword.

Yet, right at this time, the black bead within Ye Yuan’s sea of consciousness suddenly quivered.

The next instant, that colossal azure dragon illusion seemed to be struck by lightning, actually unable to move his entire body. The dragon claw that he extended froze there too, unable to advance an inch!

*Swish!*

The soul sword that Ye Yuan condensed penetrated through the azure dragon illusion just like this!

The confrontation between consciousnesses was the most perilous. Ye Yuan’s soul sword condensed all of his attainments on the divine soul. This attack was by no means insignificant!

“*Argh!* How can this dragon be killed by a Sea Transformation Realm brat? Impossible! Imposs . . .”

The azure dragon’s roars gradually became weaker, all the way until that phantom turned into nothing, and finally vanishing.

“*Huuuu . . .*”

Ye Yuan let out a long breath, looking at that black bead in his sea of consciousness with an astonished gaze.

“Just what is this black bead’s origin? To actually be able to produce such power to restrain a true dragon’s will?”

If not for the black bead remedying the situation today, it was absolutely impossible for Ye Yuan to finish off the azure dragon with such ease.

This black bead was too mysterious. Also don’t know just what was its origins.

But through today’s matters, Ye Yuan could confirm that this black bead’s origin was absolutely extraordinary!

One had to know that a true dragon had one of the strongest types of will in this world. Even Ye Yuan did not dare say he had full confidence in dealing with it either.

But that black bead just quivered slightly and that azure dragon formed from that strand of will actually become incapable of moving.

At this moment, Ye Yuan discovered to his dismay that he had many staggering secrets on him; yet, he could not control even a single one of them.

“No time to think too much. Better absorb the true dragon’s blood fast!” Ye Yuan calmed his mind very quickly and absorbed the true dragon’s blood in full force.

Without the true dragon will’s guiding, this true dragon’s blood became much more obedient; it was not as tyrannical and brutal as before.

The powerful energy in the dragon blood continuously baptized Ye Yuan’s body, strengthening his essence energy.

Ye Yuan’s aura could be seen with the naked eye to be strengthening rapidly.

After half a day, Ye Yuan successfully broke through to the Sixth Level Sea Transformation!

“En? What’s going on? That boy . . . is actually breaking through?”

When the black-clothed person saw that Ye Yuan was already severely injured and on the verge of dying, he was disinclined to pay attention to him again any longer.

At this time, suddenly detecting somebody breaking through, he hurriedly paid close attention to Ye Yuan. With this look, he could not help jumping in fright.

The flesh and skin on Ye Yuan’s body covered in cracks not only recovered as good as new at this time, it even became brass colored, faintly exuding powerful strength!

Not only did Ye Yuan not show the slightest hint of being injured, but his aura also was terrifyingly powerful!

“He . . . Did he really succeed in refining the true dragon’s blood? This . . . How is this possible? True dragon will is abnormally ruthless and tyrannical. He’s only Sea Transformation Realm. How can he possibly beat the true dragon will?” This time, the black-clothed person was really stunned.

### [Unrivaled Medicine God](#)

#### **Chapter 575: Half-Dragon Physique, Eighth Level Sea Transformation!**

Ye Yuan’s aura rose without ceasing. After breaking through to the Sixth Level Sea Transformation, the momentum still did not reduce; instead, surging towards the Seventh Level Sea Transformation.

At the same time, Ye Yuan’s skeleton was also rattling. His body was still undergoing the dragon blood’s baptism!

When the black-clothed person saw this scene, he was truly astonished until he could not speak.

Ye Yuan was breaking through boundaries while tempering his physique on the side. What kind of freak was this fellow?

One had to know that although there was no true dragon will, tempering the physique was something extremely perilous. A single mishap and one would run amok.

Breaking through boundaries was likewise something which did not tolerate any hint of mistakes and was also exceptionally easy for the person to become deranged.

These two matters doing at the same time, the risk of running amok would increase tremendously.

But Ye Yuan this psycho was actually carrying it out in a systematic order!

Ye Yuan's aura rose without stopping and arrived at the Seventh Level Sea Transformation's boundary very soon.

This was the moment which was the most exhilarating for martial artists, but it was also the most dangerous moment.

The black-clothed person watched until his heart leaped to his throat!

How could he know that Ye Yuan under Heart Like Still Water Realm doing something like dual-tasking was not something that was hard?

The process of breaking through to the Seventh Level Sea Transformation was not as perilous as the black-clothed person imagined. It was completed easily like water flowing when a channel was formed.

Ye Yuan's body at present already underwent a thorough remolding transformation. Breaking through was even less of a burden.

But the boundless energy contained within the dragon blood still did not end like this, all the way until Ye Yuan broke through to the Eighth Level Sea Transformation, did it finally stop.

When a brand new Ye Yuan appeared before the black-clothed person's eyes, his entire person was in a complete daze.

"This boy . . . he really succeeded! His original talent was already very startling. Having experienced the dragon blood's remolding at this time, it's simply going to be heaven-defying!" The black-clothed person sucked in a cold breath.

Ye Yuan was very pleased with his current body. Even if he did not use essence energy, his entire body was filled with the feeling of strength too.

He had a feeling that even if he did not make use of essence energy, he could sweep away Sea Transformation Realm martial artists too!

"The power of dragon blood is indeed heaven-defying. My physical body actually became formidable to such a degree! A large quantity of true dragon aura is held within my essence energy right now. It can at least increase the power of my martial techniques by 30%! Furthermore, the power of the dragon blood did not dissipated but actually fused into my blood, creating a sort of bloodline. One could say that I'm currently already a Half-Dragon Physique!"

Ye Yuan examined his own body and was inexplicably thrilled too.

This true dragon's blood was too terrifying. What it brought to him was simply a completely remolding transformation.

The original Ye Yuan with mediocre talent was now a genius in its true sense at present!

Ye Yuan felt like he had a sensation of teeming with power, and he could not refrain from lifting his head up and giving a long howl, unleashing a punch abruptly!

"Flame Movement Carnage!"

Once the fiery-red fist shadow appeared, the entire space seemed to be trembling. Intense trembling as well as detonation sounds emitted in the air.

"This boy!" The black-clothed person was also very alarmed when he saw this punch of Ye Yuan's.

With Ye Yuan's current strength, ordinary late-stage Soul Seas were completely not his match!

Breaking through boundaries, Ye Yuan current mood was excellent. He cupped his fists and said to the void, "Many thanks to Senior for gifting dragon blood! Ye Yuan is endlessly grateful!"

The black-clothed person could not help choking up. He previously swore that Ye Yuan was dead for sure. But now, not only was Ye Yuan standing in front of him perfectly well, his strength even soared by leaps and bounds.

At present, Ye Yuan gave thanks. Although there was no intention of mocking him, the black-clothed person's face was burning hot.

The black-clothed person was embarrassed to acknowledge this. He just casually waved his hand. The Vast Heaven Stele landed in the inheritance space with a bang.

Ye Yuan saw that the black-clothed person did not seem to have the intention of opening his mouth, so he just smiled and walked towards the Vast Heaven Stele.

When Ye Yuan's divine sense probed into the Vast Heaven Stele, he could not help being greatly taken aback.

"What I visualize is still the Scorching True Intent. Why would I come to a stretch of frozen and snow-covered land? Is there a mistake? No way, right? The Vast Heaven Stele can make mistakes too?" Ye Yuan said in surprise.

As far as the eye could see, it was entirely a vast expanse of whiteness; not a single crack to do with fire at all.

Ye Yuan's thinking was very simple. No matter how many true intents one comprehended, it was also not as practical as specializing in one true intent.

Rather than wasting time to visualize other true intents, might as well cultivate the Scorching True Intent to supreme level!

True intent to supreme true intent was a massive chasm of difference. Crossing it would be a boundless plain. Unable to cross it and one could only fade into the crowd.

In the Divine Realm, one could not tell how many martial artists could grasp true intent; but it was far from what those at the Lower Realms could compare to.

Yet, those able to grasp supreme true intent were in the minority.

Ye Yuan had never been satisfied with grasping true intent. His goal was supreme true intent!

Only by grasping supreme true intent could he have the qualifications to contend with Ji Canglan, to have the capital to avenge his hatred.

Although the Azure Dipper Floating Zero Sword intent was powerful, it was still unable to defeat Ji Canglan. As the number one expert of the Medicine King Hall, how could Ji Canglan possibly not have supreme true intent?

Ji Canglan was indeed a rarely seen genius of the Martial Path. Even if his strength were inferior to the Ten Great Divine Kings, the disparity would not be too great either.

Wanting to surpass Ji Canglan, Ye Yuan needed to become even stronger!

Ye Yuan could roam unhindered in the Lower Realms, but he himself knew that after going to the Divine Realm, his advantage would not be that big anymore.

He could even disregard the immense disparity of a major boundary to cross boundaries and challenge others in the Endless World. But reaching the Divine Realm, even if he could cross boundaries to challenge, it was also impossible to ignore the gap between levels.

There were large numbers of martial artists in the Divine Realm who could grasp true intent. Among them, there was no lack of martial artists who grasped some extremely powerful true intents.

So much so that the Divine Realm's young generation already comprehended the elementary form of supreme true intent at this current realm of his!

Compared to those people, Ye Yuan's advantage was naturally all gone as well.

Therefore, right now, Ye Yuan could only become even stronger. Only then would he have the capital to gain a foothold when arriving at the Divine Realm!

But comprehending true intents simply had no way of letting him become stronger. Only supreme true intents could let him walk further.

With Ye Yuan's talent, him casually comprehending multiple true intents in this Vast Heaven Stele was not an issue. But supreme true intent was different.

Comprehending true intent was with decades and centuries as a unit of measurement. And many Divine Kings in the Divine Realm only comprehended one supreme true intent throughout their lifetime. It could be seen how hard it was to comprehend supreme true intent.

Furthermore, the Scorching True Intent was even a kind that was extremely hard to comprehend among them. Even if Ye Yuan was brimming with confidence, it was also impossible to succeed in comprehending entirely inside this Vast Heaven Stele within a short period of time.

But without any doubt, this Vast Heaven Stele could let his comprehension road shrink tremendously!

But what the hell was this right now?

What Ye Yuan wanted to comprehend was the Scorching Supreme True Intent, not the Extreme Cold Supreme True Intent. Why would the Vast Heaven Stele send him to such an environment?

“But . . . what the hell is this place? It’s really cold!”

In this space, Ye Yuan’s consciousness was seemingly about to be frozen. This also involuntarily made him release the Scorching True Intent to resist this kind of extreme cold weather.

### [Unrivaled Medicine God](#)

#### **Chapter 576: Endless Benefits**

Very soon, Ye Yuan discovered that his own essence energy expenditure speed was very rapid!

Even with Ye Yuan’s control over essence energy reaching a very subtle degree, he only persisted for half a day’s time before being completely frozen into a popsicle.

Extreme Cold Concept and Scorching Concept were two kinds of diametrically opposed concepts. Ye Yuan determined that this was not the Vast Heaven Stele’s blunder very soon, but it wanted him to temper his Scorching True Intent through this sort of method!

This degree of extreme cold, Ye Yuan was completely unable to comprehend.

Extreme Cold True Intent belonged to the ice-attribute true intent. And ice-attribute true intents belonged to an important branch of Concept of Water.

Ye Yuan had not even learned the rudiments of the Concept of Water, let alone say comprehending the Extreme Cold True Intent.

This was like a Soul Sea Realm martial artist telling an Essence Qi Realm martial artist how Soul Sea Realms cultivated; those at the Essence Qi Realm were simply unable to comprehend.

Hence, this way of tempering true intent was surely for the sake of the Scorching True Intent.

It was just that how to go and comprehend the Scorching Supreme True Intent, Ye Yuan did not have any clues at all.

However, he was not in a rush either. The Scorching Supreme True Intent was too hard to comprehend. He had never thought of accomplishing it in one stroke.

Since the Vast Heaven Stele space had a shortcut to walk, he actually saved a lot of time already.

If placed in the outside world, who knows how much time he had to spend before he could find a way to learn the basics.

Scorching True Intent to supreme true intent, the Scorching Supreme True Intent, there was a massive ridge. Even the Spirit Bristle Divine King also spent several hundred years back then before succeeding in comprehending.

If Ye Yuan could comprehend successfully within a few days, then it would really be a joke.

To be able to achieve a position among the Ten Great Divine Kings, which one of them wasn't somebody with unparalleled talent? Though Ye Yuan's comprehension abilities were high, to talk about being hundreds, thousands of times greater than the Spirit Bristle Divine King, that was too exaggerated as well.

The black-clothed person stared at Ye Yuan from inside the void and muttered to himself, "This boy is indeed a self-aware person; he knows the logic of biting off more than one can chew. Looks like his horizons are much greater compared to the other Endless World martial artists! True intent is but the start of cultivation. What's truly powerful is still supreme true intent! If this boy can comprehend the Scorching Supreme True Intent, then the next three rounds most likely won't be able to stump him."

The black-clothed person thought about it, and he could not help laughing in spite of himself and said, "I'm really muddled up by this punk. The Scorching Supreme True Intent is one of the pinnacle few kinds of supreme true intents. Even if his talent is monstrous, without a hundred, eighty years, one can also forget about having some accomplishments. Right now, inside the inheritance space, the time flow is 30 to 1. The second Perfect Clear has a reward of six days, which is also to say that he only has 180 day's time. 180 days to comprehend the Scorching Supreme True Intent isn't even enough to fill the gaps between one's teeth, right?"

A hundred, eighty years to have some accomplishments, this was already a tremendously high appraisal of Ye Yuan.

One had to know that for a Divine King powerhouse in the Divine Realm, if he could comprehend the Scorching Supreme True Intent during his lifetime, his strength would be an immensely powerful existence among Divine Kings.

Ye Yuan being able to have some accomplishments in eighty to a hundred years, such an appraisal could not be said to not be high.

180 days in comparison to a hundred, eighty years, was truly just a twinkle. Even wanting to cross the threshold was very challenging.

.....

Time flew by quickly in the inheritance space for Ye Yuan. In the outside world, only a few short days had passed.

As expected, Qin Yan and Yin Yanhua were both killed in the fifth level by the Illusionary Spirits Killing Array and kicked out of the Vast Heaven Pagoda.

When they heard that Ye Yuan cleared the first six levels perfectly, each one of them was shocked until they could not close their mouths.

Apart from the two of them, Qi Hai even let Liu Hong and Guo Taoqun stay.

These four strongest people of the junior generation were all now beside Qi Hai.

"The four of you, just cultivate in seclusion here. I'll safeguard you guys. You all should have much comprehension and benefits in the Vast Heaven Pagoda. Entering seclusion at this time is the most optimum period. The outside world's matters naturally have those Divine Traversing Realm experts to

go and worry over. Having the few of you more to join them won't have much impact," Qi Hai said to the four people.

"Yes, Old Hai." The four people acknowledged in unison.

"Old Hai, did you keep us behind for the sake of cultivation?" Guo Taoqun plucked up his courage and asked weakly.

Although they were the strongest ones among the junior generation, in front of Qi Hai, they were still out-and-out juniors.

This Old Hai before their eyes was a legendary-class expert; he was an existence even more powerful than their old ancestors.

Qi Hai said coolly, "It's naturally not just for cultivation. I kept you guys behind in order to wait for Ye Yuan to come out."

Qi Hai did not hide it either, directly saying out his true intentions.

"Wait for Ye Yuan?" Liu Hong was a bit stunned.

Guo Taoqun and the others were not surprised at all. They had clearly expected it to some extent long ago.

Actually, Liu Hong was still extremely dejected in his heart right now. Although he achieved the goal of shocking everyone with one move this Vast Heaven Pagoda trip this time, he never would have thought that an existence a hundred times, a thousand times more monstrous than him would actually emerge too.

Under Ye Yuan's halo, his sense of existence was weakened to the extreme.

This kind of psychological depression, he could not talk to others either. He could only be depressed by himself secretly.

In the end, he was held back by Qi Hai and was even chuckling to himself for a bit secretly, thinking that he was going to get Old Hai's heavy grooming.

Who knew that he would hear Qi Hai say so right now, that he only let the few of them stayed behind for the sake of Ye Yuan.

This made the little bit of hope that just sprung up for him be extinguished again mercilessly.

Qi Hai was shrewd and experienced with age. How could he not perceive Liu Hong's emotions?

But he just treated as if he did not see and said coolly, "Ye Yuan's gains in this Vast Heaven Pagoda trip this time is definitely more than what we imagine. After he comes out this time, he'll become the indisputable leader of your junior generation! I believe that in the near future, he might become the entire Endless World's young people's idol! This point, you all need to have a clear understanding yourselves. I know that the four of you are all proud individuals and arrogant at heart. But in front of Ye Yuan, you guys don't have the capital to be arrogant in the least bit! Do you understand?"

The Qin Yan trio all nodded their heads slightly when they heard that. They had long already accepted this fact.

Ye Yuan's rising speed was seriously too fast. They could not catch up even by whipping their horses.

The martial artist world had always been a world which talked using strength. Ye Yuan already used his strength to utterly conquer these so-called strongest people in the junior generation.

Especially when they saw that scene of Ye Yuan killing the illusionary spirits in the fifth level. It simply made them unable to give rise to the desire to chase after.

Yet, before entering the Vast Heaven Pagoda, Liu Hong had not heard of Ye Yuan before at all. This made him feel in his heart some difficulties to adapt to things.

Qi Hai's words were actually primarily said for him to hear.

*"En?"*

Qi Hai frowned slightly. Liu Hong involuntarily shuddered and hurriedly said, "Old Hai, Liu Hong understands!"

Qi Hai nodded his head and continued, "The purpose of me making you guys stay behind is very simple. The realm war has already started in full-scale now. From now onwards, the four of you have to keep on following by Ye Yuan's side, and listen to his instructions! You don't need to look at me with those eyes. I'm not asking you guys to break away from your own sects, but I am taking into consideration for the sake of your futures, and for the sake of the Endless World's future! Following by his side, you will receive endless benefits!"

### Unrivaled Medicine God

#### **Chapter 577: Be Proud of Today's Choice**

"Of course, I won't force you guys to stay by his side. If you yourselves aren't willing, you can leave right now."

Finished talking, Qi Hai pulled out a flask of wine calmly and went to the stone table by the side to start pouring himself a cup to drink on his own.

This was the Immortal Remembrance Jade Brew that Ye Yuan gave him. This time, he specially brought it along with him.

He knew that these four people would definitely be very conflicted and surely would not have an answer for a short while.

Forget about Liu Hong; the other three people were all the top proud children of heaven of a world, gathering millions of gazes on them.

Even if they admired Ye Yuan very much right now, it also did not represent that they were willing to be Ye Yuan's underlings, listening to Ye Yuan's assignment for every matter.

But Qi Hai had his own considerations. Ye Yuan had never belonged to the Endless World. He was destined to radiate splendor in the Divine Realm!

With Ye Yuan's current improvement speed, he believed that this day would not be too distant.

Maybe 10 years, but even so, the maximum would not exceed 20 years!

However, to talk about where the Endless World's final hope lay, that was absolutely Ye Yuan!

Zhao Tianyin this Boundless Realm existence was akin to a gigantic mountain pressing down on Qi Hai's heart.

Once the realm passageway was completely stabilized and the Wind Emperor personally descended upon the Endless World, it would probably be hard for him, a Realmlord, to survive as well.

Initially, he was constantly worrying about this matter, all the way until he saw Ye Yuan's spectacular performance in the Vast Heaven Pagoda this time!

Yes! Qi Hai was completely awe-inspired!

Perfect Completion two consecutive times and directly making it into the seventh level!

Such a result, not say that it would never be seen again, but it was absolutely unprecedented!

Moreover, in just this half a month's time, Ye Yuan already broke through multiple realms in a row, breaking through to middle-stage Sea Transformation.

Such cultivation speed, who could guarantee that he would be incapable of having the strength to contend with the Wind Emperor before he descended?

An Endless World youth being able to obtain a Divine Realm's inheritance was no doubt impressive. But Ye Yuan's extraordinariness was clearly not due to this. The most remarkable thing about Ye Yuan was not the Divine Realm inheritance, but that remarkable talent of his! It was himself!

Qi Hai dared to confirmed that even if the Divine Realm's legacies landed on these four people before his eyes, they absolutely could not reach Ye Yuan's level either!

After all, no matter how incredible the legacy, it also needed the martial artist to go and comprehend concepts bit by bit, to go and cultivate essence energy.

Essence energy cultivation was hard to say. But this sort of thing like concepts comprehension, it required talent.

The reason why Ye Yuan was powerful was that his concepts comprehension threw these few people in front of him multiple streets behind!

And to make these four people follow Ye Yuan was also hoping that they could become the Endless World's future hope; it was to let them mature even faster and become even stronger!

If they could not let go of the pride in their hearts, Qi Hai could not help them either.

"Okay! I'll stay behind to follow Ye Yuan!"

What made Qi Hai rather surprised was that the first one to speak up was actually the Qin Yan who had a grudge with Ye Yuan.

"I'm staying!"

"I'm staying too!"

Guo Taoqun and Yin Yanhua practically followed right after. But Liu Hong became rather hesitant.

This sort of situation now was far too drastically different from what he predicted before coming to the Vast Heaven Pagoda.

He did not think that he actually had to be a lackey for a youth much younger than him now.

"I . . ." Liu Hong revealed a difficult look and became hesitant to speak.

Qi Hai gave him a sidelong glance and said coolly, "No need to be conflicted. Willing means willing. Unwilling means unwilling. I won't make things difficult for you just because you choose to leave. Furthermore, I came up with this idea at the last minute as well and still haven't discussed it with Ye Yuan yet. Whether he's willing to or not is still another matter altogether!"

This matter was indeed what he conceived impromptu. The Fierce Gale World's abnormal activities made him rather uneasy.

No matter which angle one analyzed from, the move of massacring cities was the dumbest one. But were the Fierce Gale World folks really a bunch of fools?

This Liu Hong's talent was indeed decent. That was why Qi Hai had the thought of keeping him behind together with the others.

"Actually, you don't need to feel wronged. I believe you've perceived it too; Ye Yuan's talent and strength, you won't be able to catch up for the rest of your life too. When he cleared the fifth level, he already had that kind of strength. The second Perfect Clear this time, it's still uncertain what kind of heaven-defying rewards he obtained. Coming out of the Vast Heaven Pagoda this time, he's already on a completely different level of martial artist from us. Following him won't bring disgrace to you. Maybe there might come a day where you would even be proud because of today's choice!" At this time, Qin Yan suddenly voiced out to urge.

Qi Hai glugged a mouthful of Immortal Remembrance Jade Brew and said with a smile, "Not maybe. It's definitely!"

Liu Hong finally sighed slightly and said to Qi Hai, "Okay, I'll stay behind!"

"Alright. Since that's the case, you guys each enter seclusion to comprehend then."

Regarding Liu Hong's choice, Qi Hai was not very surprised.

This person was not someone stupid. Or else, he would not have his present accomplishments either. How he should choose, he was actually very clear in his heart. It was just that he could not cross this hurdle in his heart.

As long as the gains and losses were analyzed clearly, he could make a wise choice.

. . . . .

In a blink, Ye Yuan had already spent over five months in the snow-covered land of ice.

In these five months plus, Ye Yuan was frozen to death many times. Each time was death because of depleting essence energy.

In order to not freeze to death, Ye Yuan thought of countless ways. Yet, it yielded very little success.

In the beginning, Ye Yuan released the Scorching True Intent to maintain his body temperature. He discovered that this way would exhaust essence energy very quickly and die.

Later on, Ye Yuan became wiser. He only maintained the released true intent at a very low level to barely ensure that he would not be frozen to death. But that sort of extremely cold feeling made him exceptionally clear-minded.

That bone-piercing chill made him have limitless despair!

But Ye Yuan still toughed it out!

Under Heart Like Still Water heart realm, Ye Yuan gingerly maintained the feeble true intent to resist the freezing cold.

Gradually, Ye Yuan finally touched upon some know-how!

Ye Yuan discovered that he could sense the Scorching True Intent's true essence more clearly under such a condition!

Even though this sort of feeling was still extremely fuzzy, at least he had a direction to strive towards; it was not hazy like before.

These few days, Ye Yuan had been fastidiously experiencing the Scorching True Intent all along, and he gradually had some understanding in his heart.

Heat was a kind of energy release. When the temperature was not high, this sort of release would not produce too much destructive power.

But once the temperature rose to an extremely terrifying level, the destructive force of that Scorching True Intent would be very alarming!

In the end, it was still how high a degree the martial artist could raise the temperature of the Scorching True Intent to!

The higher the temperature of the martial technique released, the greater the destructive power evidently caused!

Just like the Spirit Bristle Divine King's Nine Suns Burning Heaven, its horrifying destructive power was not due to its large area-of-effect, but it was because he could raise the temperature within a certain sphere of influence to an extremely terrifying level.

A level that was able to obliterate Divine King powerhouses!

How profound a concept did that have to be?!

The present Ye Yuan was clearly still far off!

Figuring out this link, Ye Yuan no longer used the Scorching Concept to maintain his own body temperature anymore!

### Unrivaed Medicine God

#### **Chapter 578: Preliminary Peep at the Door**

“Flame Movement Carnage!”

Ye Yuan released all of his essence energy, wanting to shatter this world of ice and snow.

Yet, everything was futile. His Flame Movement Carnage was incapable of stirring up even a drop of sea spray.

But Ye Yuan did not have the intention of giving up. He swung his fists like this over and over again, repeatedly like a moth flying into the fire, all the way until he froze to death.

Then once more!

Ye Yuan already could not remember how many times he had died and how many punches he had swung.

Either way, every time he swung his fists, he had to go all out to release the Scorching True Intent to the limits!

“Still a little bit more! Just a tiny bit!”

These countless times of swinging his fists was not a wasted effort. Continuously persisting in the state of his limits, this made his utilization of the Scorching True Intent become even more practiced. The understanding became deeper too.

And now, Ye Yuan finally felt that he was gradually going to touch that threshold!

This feeling made him excited, yet dejected. He was excited that the Scorching Supreme True Intent’s gate was right in front of him; but feeling dejected that this step kept on being distant just like the end of the world for very long, unable to break through for a long time.

How could the gate to a supreme true intent be so easy to step inside?

But what Ye Yuan lacked the least was patience. In his previous life, in order to research a type of medicinal pill, he would even perform up to a million dreary experiments.

If there were not this sort of grinding process, he could not possibly have become the Divine Realm’s youngest peak Alchemy Emperor either.

This bit right now was simply just child’s play to him.

Just like this, his fists danced about over and over again, seeking that sensation of breakthrough bit by bit.

By the time it was the 170th day, Ye Yuan finally found a spark of inspiration!

*Rumble!*

Ye Yuan struck out a punch with all his might. The snowy-ice space finally underwent a trace of change!

It was this trace of change that made Ye Yuan inexplicably excited.

That punch earlier shattered that extreme cold very briefly!

Even though it was only for an extremely brief time, Ye Yuan sensed it clearly!

But this punch, likewise, exhausted all of his essence energy. Ye Yuan would be frozen to death very soon.

Reviving again, Ye Yuan did not attack randomly right away, but he meticulously visualized that sort of feeling just now.

Mustering strength, punching out, shattering space!

It was this sort of feeling!

Ye Yuan once again sensed that the instant the extreme cold was smashed, the extreme cold weather had that tiny hint of loosening up.

Although this sort of extreme cold was very stubborn and recaptured the position immediately, that kind of feeling absolutely would not be wrong!

*"Heh heh, hard work pays off! Finally got a preliminary peep at the door!"*

Even Ye Yuan himself could not help being proud of himself for a while either.

He only used a short 170 day's time to get a preliminary peep at the door of the Scorching Supreme True Intent. This was absolutely a very remarkable achievement.

Even the Spirit Bristle Divine King back then spent at least several decades time to get a preliminary peep at the door of this supreme true intent.

As it was said: the first step was the hardest for everything. The hardest thing about comprehending concepts was not the process of comprehension, but finding the way to cross the threshold.

Even if Ye Yuan already comprehended the Scorching True Intent, to go a step further and achieve supreme true intent, it was another world.

This degree of difficulty was no less than an aboriginal ascending to the Divine Realm from the Endless World.

Apart from Ye Yuan this exception, for an aboriginal to want to ascend to the Divine Realm from the Endless World, there might not be one in several hundred years either. The level of difficulty could be imagined.

Ye Yuan could get a preliminary peep at the door in a short 170 days. This was absolutely an incredible heroic undertaking.

Of course, even if Ye Yuan got a preliminary peep at the door, the road at the back was extremely hard to walk too. But once this step was taken out, it was the most solid step.

The astonishment in the black-clothed person's heart could be imagined. "This boy, just where did this freak pop out from? This is the Scorching Supreme True Intent, not some lousy common-ware. 170 days! He only used 170 days to get a preliminary peep at the door!"

The black-clothed person's pride was already beaten completely battered and bruised by Ye Yuan under the circumstances where he knew nothing of.

Along the way, Ye Yuan completed far too many impossible to complete tasks. The black-clothed person already felt that he was numb. But he was still shocked by Ye Yuan once more without any surprise.

Even though the black-clothed person did not tell him the time he remained in the inheritance space this time, he reckoned that it was almost up as well.

Even if there were still time left, there definitely wouldn't be much left either. To want to get any progress in the Scorching Concept, the time was simply insufficient. Hence, Ye Yuan thought of the Nine Characters True Word Formula.

Ye Yuan decided to use this bit of time remaining to research this Nine Characters True Word Formula for a bit.

This Nine Characters True Word Formula was vastly different from ordinary martial techniques. There was no general outline, no cultivation method, just nine very blurry words, giving people a feeling of having no way to start.

Ye Yuan mustered up Heart Like Still Water and started to visualize the 'Lin' character formula. This already became a habit of Ye Yuan's. Under Heart Like Still Water heart realm, regardless whether was it cultivation or battle for Ye Yuan, the efficiency was very high. Yet, in the next moment, Ye Yuan's entire body suddenly trembled!

This Heart Like Still Water Realm actually produced an inexplicable resonance with the 'Lin' character!

"Could it be that these two have some connection?" Ye Yuan said in great surprise.

This Heart Like Still Water was successfully comprehended by chance when he was at the Nine Heavens Road. It was completely unrelated to this 'Lin' character.

But he clearly sensed that the heart realm which was stuck at the bottleneck all along seemed to have that tiny hint of loosening.

On the other side, the originally extremely fuzzy 'Lin' character in the sea of consciousness, under Ye Yuan's visualization, seemed to gradually become clearer.

The two, heart realm and the 'Lin' character, seemingly like dry wood meeting raging flames, instantaneously producing a resonance!

Under this resonance, luck came as Ye Yuan's mind became more agile, and he actually involuntarily formed a strange hand seal.

This hand seal was not complicated. But not knowing why, when Ye Yuan formed the seal, it was unbelievably strenuous.

The method to form the seals was clearly in Ye Yuan's head. However, even the first hand seal, he was unable to form it even by mustering all of his might!

It was as if within this seal, it contained tremendous repulsive force, separating his both hands.

Ye Yuan was a stubborn person too. This first seal, he already formed more than half of it. Just the final step and it was going to succeed.

At this time, he absolutely did not wish to give up.

Hence, he used all the essence energy in his body, wanting to complete the seal.

*Puhwark!*

Ye Yuan finally could not hold back the sweetness in his throat. A mouthful of fresh blood spewed out.

"This seal is exceedingly overbearing! It actually shocked me till internal injuries! Even the first seal is so profound. How terrifying must the seals at the back be?!" Ye Yuan wiped the fresh blood at the corners of his mouth and could not help saying with an emotional sigh.

Even though he did not succeed, Ye Yuan could confirm that this 'Lin' character and heart realm most likely had some kind of connection.

Ye Yuan already had not broken through in heart realm for very long, constantly marching on the spot. Evidently, he had reached a bottleneck.

But through the visualization this time, Ye Yuan clearly sensed Heart Like Still Water heart realm loosening up again.

As long as he continued visualizing, Ye Yuan's heart realm was bound to have some breakthrough!

However, what excited Ye Yuan even more was that if visualizing the 'Lin' character could aid heart realm breakthrough, then didn't he obtained a method to cultivate heart realm?

### [Unrivaled Medicine God](#)

#### **Chapter 579: Three Palms!**

Heart realm did not have a direct enhancement to a person when it came to combat power. But its auxiliary function was too powerful!

Along the way, this Heart Like Still Water already helped him for God knows how many times.

Essence energy realm increase was not something hard to Ye Yuan. But heart realm was different.

He knew that if there wasn't any heaven-defying fortuitous encounter, wanting to breakthrough to Heart Like Monolith Realm was too difficult.

If this Nine Characters True Word Formula could really advance heart realm, then its benefit was huge.

But this was all just Ye Yuan's deductions. He only visualized the 'Lin' character once and could not even form the first hand seal. How could wanting to break through be that easy?

However, as long as there was a direction to work towards, Ye Yuan believed that he could fumble it out someday.

Right at this time, Ye Yuan's vision suddenly blurred, and he was directly kicked out of the inheritance space. It turned out that time was already up.

His visualization this time, ten days' time actually passed in a twinkle.

When Ye Yuan recovered to his senses, he could not help feeling surprised.

This seventh level's space was not large but was totally bare. There was only a silhouette that appeared before him. It was precisely that black-clothed person!

"Is it possible that Senior you're this seventh level's guardian?" Ye Yuan figured out the connection very quickly.

The black-clothed person turned around and said indifferently, "That's right! This seventh round is very simple. You just have to receive three of my palms and still be able to stand up will do!"

Simple? Probably wasn't that simple, right?

It was only unless this Vast Heaven Pagoda owner was a fool that he would place a simple hurdle at the seventh level.

This black-clothed person was clearly an expert who was extremely powerful. With Ye Yuan's present strength, he could not fathom the other party at all.

If these three palms were so easy to receive, Lu Linfeng would also not have suffered a crushing defeat at this round.

That was a freak-like existence. Even he could not clear this round. The might of these three palms could be imagined.

"Senior's strength is unfathomable. You hitting me with three palms, how can I not die?" Ye Yuan said.

"Don't you worry. I'll suppress my boundary to the level corresponding to yours. You're Eighth Level Sea Transformation right now. I'll face you with Eighth Level Sea Transformation!" said the black-clothed person coolly, his tone revealing extreme self-confidence.

Ye Yuan's expression became apprehensive. Could it be that Lu Linfeng was the same as him?

If it was really like this, how formidable did this black-clothed person's strength have to be?

Ever since Ye Yuan reincarnated, this was still the first time hearing that somebody dared to battle him with the same realm. Furthermore, what black-clothing said was . . . three palms!

Three palms and still being able to stand!

Which was also to say that Ye Yuan just had to endure these three palms and he could enter the next level successfully!

This black-clothed person was either a moron, or he had absolute confidence in his own strength.

Ye Yuan believed that his own performance, this black-clothed person definitely took it all into consideration. He actually still dared to say so under the circumstances where he knew Ye Yuan's strength. He definitely had full confidence that Ye Yuan was not his match.

Seemingly discerning Ye Yuan's worry, the black-clothed person said with a cold smile, "What? Scared?"

Ye Yuan smiled and said, "Not so far as to be scared. The worst outcome is merely just losing the qualifications to continue challenging, that's all. I was just trying to guess Senior's strength."

The black-clothed person did not seem to be joking as he said coldly, "You're wrong! The first six levels indeed didn't have the possibility of being injured or causing death. But these three levels behind, one might lose their lives at any time! Therefore, don't you dare to have the mentality of passing by a fluke."

The black-clothed person paused for a bit and explained, "It's genuine death!"

Ye Yuan could not help being startled inwardly. This black-clothed person was clearly not joking. Could it be that the next three levels would really have injury and death accompanying?

If this was the case, then wasn't Lu Linfeng . . . beaten down by this fellow?

Ye Yuan could not imagine the sight of Lu Linfeng being beaten down to the ground by this person and being unable to get up.

The black-clothed person clearly did not know that Ye Yuan was still in the mood to scoff at Lu Linfeng at this time. He said coolly, "You still have the chance to choose to withdraw now. But once you decide, you don't have the opportunity anymore."

Ye Yuan did not have much hesitation as he said straightforwardly, "I choose to challenge!"

The black-clothed person was a little surprised. Ye Yuan's reply was too quick as if he did not go through detailed deliberation at all.

Was this boy brave because of his superb techniques? Or was he simply missing a few things in his head??

Although there were few who were able to make it to the seventh round, there was not a single exception; previously, those people all went through a very long mental struggle without exception before mustering up the courage to agree to it.

Not everyone could face the challenge of death calmly. No matter how overflowing you were with talent.

Only Ye Yuan seemed to say it without hesitation.

"You're sure that you don't need to reconsider? You should know that in this ten thousand years, there were a total of four people who entered the seventh level. But only a single person could endure my three palms! And the other three people, there was even one who was killed on the spot by me!"

The black-clothed person was not telling lies. The names on the light screen only showed that there were three people who entered the seventh level. As for their life and death, it could not illustrate.

Actually, the black-clothed person being made fun of by Ye Yuan time and again, he more or less still had some thoughts of taking revenge in his heart.

He very much wanted to see fear, this emotion, on Ye Yuan's face. But this time, he was still disappointed.

Ye Yuan had a calm look as he said without any fear, "Dying at Senior's hands only shows that Ye Yuan's skill was lacking. If I die, then I die. No big deal!"

Ye Yuan was a person who had died once. He was clearer than anybody in this world the implication of death.

But it was precisely because so that Ye Yuan yearned even more to obtain more powerful strength!

After reincarnation, Ye Yuan's greatest obsession was revenge. Even after going through Ji Zhengyang's enlightenment, this obsession of Ye Yuan's did not change. However, he was still able to think rationally; he was still rational enough not to become an emotionless machine controlled by vengeance. He was slowly making his preparation and building up his strength.

Ye Yuan's conviction to desire strength was greater than anyone!

Ji Canglan was too strong. Without absolute strength, Ye Yuan was simply incapable of defeating him.

With this conviction, Ye Yuan had never lacked courage!

He dared to challenge everything in this world!

If he did not even dare to receive the black-clothed person's three palms, what courage would he have to go find Ji Canglan for revenge?

All along, facing people much more powerful than him, Ye Yuan had never retreated.

If gods blocked, kill gods! Buddha blocks, kill Buddha!

This was the path of a powerhouse!

Seeing the expression on Ye Yuan's face, the black-clothed person knew that he belittled him too much.

True powerhouses absolutely would not fear death!

Their only fear was . . . fear that they were not strong enough!

Two Perfect Completions in a row, Ye Yuan naturally knew that there were even greater rewards waiting for him behind this.

And the current Ye Yuan made no effort to conceal the yearning for this reward as well.

This desire of becoming strong had long surpassed life and death already!

The black-clothed person fell silent for a long time before heaving a sigh and saying, "Looks like I've underestimated you! These three palms are extraordinary. You have to be careful!"

As he said, the black-clothed person's realm dropped at a speed visible to the naked eye. But the aura on his body was rising steadily instead!

Ye Yuan and the black-clothed person faced each other from a distance, but their faces had never-before seen solemnness!

### Unrivaled Medicine God

#### **Chapter 580: Counterattack**

Seeing the black-clothed person's harrowing aura, Ye Yuan did not dare to be careless in the slightest, mobilizing all the essence energy in his body and gathering it onto his fist!

The palm wind was too fast. Ye Yuan simply could not cast Myriad Rain Sword Blades in time at all.

The aura was astonishing. But the black-clothed person's actions were not shocking.

He raised his palm slightly and just pushed out three palms in succession in a casual manner.

Three azure dragons carried a series of dragon roars as they galloped at full speed towards Ye Yuan!

The palm force had yet to arrive, and a sensation which made Ye Yuan feel suffocated was already transmitted in front of him.

At this moment, Ye Yuan felt an unprecedented pressure!

"Essence Energy Ignition! Flame Movement Carnage!"

At this moment, Ye Yuan used the most powerful Flame Movement Carnage without holding anything back, pouring the trace of concept which he comprehended in the inheritance space into it as well.

Instantaneously, Ye Yuan swung out a myriad of uncountable punches. The entire sky was all Ye Yuan's fists shadows.

Yet, those three azure dragons completely disregarded Ye Yuan's fists shadows, breaching the defense Ye Yuan laid out at the forefront. It was as if breaking a dead branch from a tree.

They broke through Ye Yuan's fist shadows savagely, instantly tearing those red-colored fist shadows to shreds.

But Ye Yuan did not seem to see it. He still brandished his fists frenziedly, striking towards the three azure dragons unceasingly.

These three azure dragons seemed to be like living things, destroying everything that obstructed them exceedingly tyrannically.

Ye Yuan in front of them was frail like a little kitty.

If such tyrannical three palms landed on Ye Yuan's body, the outcome could not be imagined!

But Ye Yuan did not seem to be aware of the approach of danger. His fist speed became faster and faster. The fist shadows became increasingly concentrated!

Initially, the black-clothed person still looked at Ye Yuan's struggle calmly. But his expression at this time involuntarily became somber!

The advancement speed of those three azure dragons actually became progressively slower!

The concentrated fist shadows landed on the azure dragons' bodies. Even if it only scratched an itch for him, Ye Yuan's fist shadows were swift to the extreme. It would cause considerable obstruction to them as well.

In this short while, Ye Yuan already struck out uncountable punches. Moreover, his speed was still becoming faster!

Through the true dragon's blood reforming, Ye Yuan's current body was already extremely powerful and could fully withstand this sort of taxing punching speed!

*Bang! Bang! Bang!*

Countless fist shadows exploding sounds reverberated in the air, looking very spectacular!

The bodies of the three azure dragons actually gradually became illusionary. This was a sign of their energy about to be depleted!

*"Hiss . . . This boy actually received three palms with such a method!"*

When seeing the azure dragons' bodies gradually becoming faint, the black-clothed person knew that Ye Yuan clearing this seventh level was already almost guaranteed!

Actually, the black-clothed person had never thought that Ye Yuan could not pass through the seventh level at all. Ye Yuan could clear the rounds perfectly twice. His concepts comprehension was far from what other martial artists could compare to.

Even that Li Fantian was much worse compared to Ye Yuan!

Furthermore, Ye Yuan had gone through the true dragon's blood's remolding. Within his essence energy now contained the qi of a true dragon.

The power of the Flame Movement Carnage that Ye Yuan fired out now was already much more powerful compared to previously.

If such a Ye Yuan could not pass the seventh level, he could directly find a piece of tofu to commit suicide.

*Bang! Bang! Bang!*

Ye Yuan punched out a fist one after another. The three azure dragons' silhouettes already became fainter and fainter. That sort of initial savageness and pride were already completely gone at this time.

Finally, with a *bang*, the three azure dragons directly exploded in the air, and they were already less than 30 feet distance away from Ye Yuan.

*"En? What's this boy doing?"*

The black-clothed person suddenly felt puzzled. After Ye Yuan utterly annihilated the three azure dragons, he was still punching non-stop!

The air gave off dense, yet dull detonating sounds, making people feel incredibly stifled.

*"Awoo!"*

Suddenly, a fiery-red colossal dragon rushed out from Ye Yuan's fist shadows, hurtling straight at the black-clothed person!

The black-clothed person's pupils constricted, and he sucked in a cold breath, "Hiss . . . This boy . . . is truly a freak!"

Talking was talking. The black-clothed person's hand movements were not slow.

It was only to see him slowly reached out with his palm and grabbed hold of the dragon's head quite leisurely, and then pinched lightly just like that. The originally violent red dragon immediately dissipated into nothing!

*"Huu . . . Huu . . . Huu . . ."*

Ye Yuan finally stopped and collapsed onto the ground straight away, panting heavily.

He was already totally drained of strength and could not even move even a finger at this time.

"How many years has it been? You're the first person who still has the strength to spare to counterattack me. Truly remarkable!" The black-clothed person finally did not stint with his praises.

Even though he had long guessed that the seventh level could not stump Ye Yuan, he never would have thought that Ye Yuan actually still had strength left over to counterattack after neutralizing his attacks!

Those three palms of his earlier were not really sent out casually. It was just that he had long already had full control over palm force. That was why it appeared to be effortless.

In his view, Ye Yuan being able to barely receive these three palms was already considered not bad.

The matter developed just as he expected in the beginning too. He estimated that Ye Yuan's limits were also just barely making it through these three palms.

But he never would have thought that Ye Yuan's limits far exceeded his expectations!

No, it should be said that Ye Yuan's limits were just that much. But when he used Flame Movement Carnage earlier, he seemed to have found some inspiration. Hence, he clenched his teeth and persisted longer than he initially could!

The first half segment was Ye Yuan's strength, while the latter half segment . . . was entirely Ye Yuan using willpower to grit his teeth and persevere on!

In this countless years, geniuses that the black-clothed person had seen were like schools of carps crossing the river; they were too many to enumerate! Yet, he had never seen before any genius with Ye Yuan's willpower!

When one's physical abilities exceeded the limits, it would be immensely agonizing. Furthermore, all kinds of discordance would appear in one's movements.

Without staggering willpower, there was just no way to control one's strength.

But just now, each of Ye Yuan's fist was controlled very perfectly, all the way until that final earth-shaking blow.

In the end, that fire dragon crumbled in a single blow in front of the black-clothed person only because he was too strong!

The power of that blow was already not beneath the Myriad Rain Sword Blades in the slightest!

“No wonder you could refine the true dragon’s blood. Just based on this willpower of yours, your future accomplishments are already limitless!” the black-clothed person praised.

Ye Yuan did not wish to speak nor did he have the strength to talk. He was already dead-exhausted.

Seeing the situation casually, the black-clothed person fired out a streak of essence energy into Ye Yuan’s body.

Ye Yuan shuddered slightly and finally recovered some strength.

He sat up and said to the black-clothed person, “This . . . Is it considered successful?”

The black-clothed person was dazed, and he could not help laughing as he said, “Of course! These three levels don’t have any Perfect Completion. If there was, you already cleared the round perfectly just now!”

Ye Yuan struck out the final punch and directly laid on the ground. According to what the black-clothed person said previously, it should be failing the challenge.

But even a moron could tell that Ye Yuan had indeed cleared the round. Furthermore, he cleared the round very beautifully!

Ye Yuan lifted his head slightly and forced a smile and said, “*Huhu*, then that’s good.”
