Chapter 621: Obliterating with a Punch!

Shangguan Yunrong was terrified. But no matter how far he ran, he could not escape out of White Light's palm either.

That terrifying speed of White Light made Shangguan Yunrong at a loss on what to do.

His attacks could not even touch White Light's skin and fur at all. But White Light kept on tangling with him, making him not have the chance to escape at all.

White Light was actually still a notch weaker than Shangguan Yunrong in terms of strength. After all, he was formerly a Third Level Divine Traversing expert, even though now his strength was at the First Level Divine Traversing Realm.

But White Light did not come into direct contact with him at all. He just adopted harassment tactics.

His goal was to delay for a hundred breaths.

Presently, Chu Shi and the others became more enthusiastic the more they killed. They initially came harboring the resolve to die. Who knew that so many demonic beasts suddenly appeared in front to help. This made them suddenly feel that happiness came too suddenly.

"Haha! Didn't I say that Mister Ye will be fine? Following Mister Ye, eating meat and drinking soup are a cinch!" Chu Shi said with a big laugh.

"Too awesome! Did you guys hear earlier or not? Mister Ye said to take his life in a hundred breaths of time. That is a high and lofty Divine Traversing Realm expert. Mister Ye just broke through to Soul Sea and is going to f*ck a Divine Traversing Realm expert!" Zhu Changzhi was excited too as he said this.

"Impressive!" Qian Si pierced through a Soul Sea Realm martial artist with a stab. He still did not forget to jab in verbally as a supporter role.

All of a sudden, Shangguan Yunrong said with a roar, "You d*mn tiger! No end to it, is it? It's you who forced me!"

Rumble!

Shangguan Yunrong's aura suddenly erupted. His body radiated an aura of red light.

"Bloodthirsty Art!"

Shangguan Yunrong's aura suddenly skyrocketed. His speed and offensive power rose tremendously!

Although his cultivation realm did not break through, his combat power increased greatly.

What was more damnable was that his speed actually soared in a blink of an eye and caught up to White Light's speed!

White Light also did not expect that this Shangguan Yunrong actually still had a card to play. For a while, he was forced to fall back repeatedly.

The two people's exchange was like sparks flying off a flint. Ordinary people's visual prowess simply could not catch up to the two people's speed.

Bang!

Shangguan Yunrong sent White Light flying out with a punch but did not continue following after to exploit the victory. Instead, he borrowed the rebound force of this blow to escape with even greater speed.

"Hahaha! Ye Yuan, we'll have a chance to meet again! In the future, when my condition recovers to the peak, I'll come and find you again!" Shangguan Yunrong's figure flew away, only leaving behind this one sentence.

White Light looked at Shangguan Yunrong's distant back view and could not help being vexed.

With this tussle, even if his speed was any faster, he could not catch up to Shangguan Yunrong either.

Shangguan Yunrong was just being pleased with himself when a voice sounded out beside his ear, seemingly transmitting from the netherworld.

"Why so anxious to leave? I transcended the dual-colored lightning tribulations and haven't had the time to greet you!"

Shangguan Yunrong felt his scalp tingle. Whose voice could it be if not Ye Yuan's?

His figure stopped abruptly, and he turned around to look. But he did not even see a soul.

"Stop searching already. I'm over here," Ye Yuan said coolly.

Shangguan Yunrong's heart thumped. Turning back once more, indeed, he saw Ye Yuan standing right in front of him.

No idea since when, Ye Yuan actually ran in front of him.

Shangguan Yunrong's heart sunk to the bottom. Since Ye Yuan could run in front of him, that meant that his movement was even faster than his!

Wanting to run, there was probably no chance already!

Except, he could not figure out no matter how he racked his brains, Ye Yuan had merely just broken through to the First Level Soul Sea . . .

En? No, wait!

Ye Yuan actually directly reached Third Level Soul Sea!

Shangguan Yunrong suddenly remembered something. His expression changed and he said solemnly, *"Origin Spirit Nine Transformations!"*

Ye Yuan said with a faint smile, *"Looks like you're still quite knowledgeable. That's right, it's precisely Origin Spirit Nine Transformations. Now, do you still have any last words? En . . . either way, I won't help you to fulfill them either."*

Shangguan Yunrong's face turned back, and he said ferociously, "Want to kill me? That will also have to shatter a mouthful of your teeth!"

Shangguan Yunrong was naturally unwilling to resign himself to fate. He instantly gathered a titanic amount of heaven and earth essence energy.

Even if his cultivation realm had been blasted down, Shangguan Yunrong was still a Divine Traversing Realm expert. This commotion was truly outrageous!

"Bloodthirsty Demonic Palm!"

A terrifying attack howled towards Ye Yuan!

Ye Yuan similarly unleashed his move unhurriedly, as if he did not care about Shangguan Yunrong's move at all.

"Flame Movement True Dragon Carnage!"

The fiery-red colossal dragon carried along a terrifying power and attacked Shangguan Yunrong.

This punch was God knows how many times stronger than when Ye Yuan was at the Sea Transformation Realm. It was even more powerful than the Coiling Dragon Heaven Devastating Palm!

Under Shangguan Yunrong's terrified gaze, the colossal dragon directly gobbled up his palm force, and then pounced towards him.

Rumble!

"Ahh! Ye Yuan, it's not so easy for you to want to escape this easily!" At death's door, Shangguan Yunrong struggled to yell out.

Flame Movement True Dragon Carnage landed on Shangguan Yunrong's body without any suspense, directly blasting him into mince!

The might of one fist was terrifying to the max!

Right at this time, a wisp of black air floated in front of Ye Yuan.

Ye Yuan's expression changed, and he waved his hand, wanting to flick it away.

Yet, that wisp of black air ignored his essence energy and directly bore into his palm, forming a black mark.

Ye Yuan's brows furrowed and he muttered to himself, "The power of a curse! This Shangguan Yunrong really leaves no peace behind even if he died!"

"Big Brother! I . . . Sorry about that." White Light already came to Ye Yuan's side at this time and said embarrassedly.

Ye Yuan smiled and said, "It's fine. Just nice one hundred breaths of time. You already did very well! Really didn't think that refining one tiger bone can actually let you directly broke through to peak Tier 4! Advancing another step and you'll be able to transcend the tribulation and take form!"

"Haha! You don't know how agitated I was when I saw that tiger bone back then! That was a peak Tier 4 Blackflame Tiger's tiger bone. To you humans, it can just refine some medicinal pills. But to me, it's a priceless natural treasure! When I saw it, I snatched it over without hesitation," White Light said.

Ye Yuan recalled the scenario of White Light snatching the tiger bone back then and could not help laughing heartily.

"Alright. Since you've already broken through to peak Tier 4, wait until I gather up the medicinal herbs for a Shapeshifting Pill. Then I'll help you refine a Shapeshifting Pill and aid you to break through to Tier 5!" Ye Yuan said.

White Light jumped up excitedly when he heard that, *"Haha! I knew that Big Brother is the best! Thanks a lot, Big Brother!"*

Ye Yuan said smilingly, "What are you still being courteous with me for? Just now, if not for you just happens to break through, I probably wouldn't have any way of standing here perfectly fine now!"

Ye Yuan and White Light, the two people, were currently chatting. When those Fierce Gale World martial artists saw their side's Divine Traversing Realm expert being killed off with a punch, how could they still have the thoughts of fighting? They immediately fled helter-skelter.

Chu Shi and the others also gathered around at this time. Ye Yuan clasped his hands when he saw them and said, "Thank you very much, everyone."

Chu Shi repeatedly said dare not, "What's Mister Ye saying here? Our lives were all saved by Mister Ye. Without you, we couldn't possibly have escaped from Crimsonlight City at all! Moreover, we didn't really help by coming either. Rather, we've let Mister Ye seen a joke."

Ye Yuan said with a smile, "Alright everyone, do away with the polite remarks. We shouldn't stay for long in this place. City Lord, Chu Shi, you guys hurry up and bring the Crimsonlight City martial artists and leave!"

Chapter 622: Forbidden Death Zone

Ye Yuan's words made Chu Shi and the others stupefied.

"Mister Ye, what do you mean? Aren't you going back together with us?" Chu Shi said puzzledly.

Ye Yuan revealed the black mark in his hand for everyone to see, shook his head, and then said, "That Shangguan Yunrong planted a divine soul curse on me before dying. The Fierce Gale World's Divine Traversing Realm experts can definitely track me based on this curse. Those Divine Traversing Realm expert are probably on their way already. If I follow you guys, you can't escape. Their target is me. As long as I'm not together with you, you all should be able to escape successfully."

When everyone saw that black mark in Ye Yuan's hand, they involuntarily drew a cold breath.

"This . . . Then you going by yourself, isn't it too dangerous?" Zhu Changzhi said worriedly.

"Yeah. Let's also quickly notify the alliance and let them send experts to rendezvous with us!" Qin Yan said.

Ye Yuan shook his head and said, "It's too late! Alright, don't be long-winded. You guys hurry up and leave. I have my own ways to avoid their pursuit."

Zhu Changzhi was still going to say something but was held back by Chu Shi who said, "We'll only be Mister Ye's burden by following him. If he goes alone, he might be safer instead. Alright, let's go."

After everyone left, Yuan Fei carried Shangguan Lingyun in front of Ye Yuan and said, "Young Master, how to deal with this fellow?"

Ye Yuan said coolly, "Kill him!"

Shangguan Lingyun's expression changed, and he said savagely, "Ye Yuan, even if you kill me, you'll die a horrible death too! Uncle Rong has already planted a divine soul curse! Even if you flee to the ends of the world, you'll be killed by Family Head too!"

Ye Yuan smiled indifferently and said, "You're thinking too much. Just a tiny little divine soul curse, that's all. It's a little troublesome, but to take my life, it's still lacking!"

Very quickly, Yuan Fei disposed of Shangguan Lingyun. A Fierce Gale World's young genius of his generation fell just like that.

"Big Brother, where are you going now?" White Light asked.

"The Endless Forest!" Ye Yuan said without any hesitation.

.....

On a spirit boat several million miles away from Crimsonlight City, a black mark suddenly appeared on Ding Liang's palm.

Seeing this black mark, Ding Liang's brows could not help furrowing.

"This is Shangguan Yunrong's divine soul curse. He knew that Shangguan Wenrui sent me to hunt down Ye Yuan, so he sent the mark over to me! Looks like Shangguan Yunrong and Lan Shun have both fallen already. Could it be that Ye Yuan killed them? That isn't very likely, right? According to the news sent over previously, Ye Yuan should be transcending the tribulation to break through to the Soul Sea Realm. Even if he succeeds in breaking through, it's also not possible to be Shangguan Yunrong's match! Could it be that there are even stronger people in Crimsonlight City? But if it's really like that, why wasn't there any news sent over from there?"

Ding Liang could not figure out after racking his brains and was at a loss regarding Crimsonlight City's situation.

This curse mark was only a fuzzy response. It would not send over all of the information.

Based on this curse mark, Ding Liang could find Ye Yuan. But he did not know if this pursuit target was Ye Yuan or not.

But looking at the intel currently grasped, clearly, Ye Yuan's suspicion was the greatest.

"Screw it. As long as I catch this fellow, I'll naturally know who he is! Hopefully, this person is really Ye Yuan. That will save me a great deal of trouble! It's a pity that the set-up over there has already reached

a critical time but keeps on transferring manpower out non-stop. It's really troublesome! Ye Yuan, *oh*, Ye Yuan, I knew that you weren't something that belongs in a pond back then. But isn't your rise up a little too rapid as well?"

All of a sudden, Ding Liang's brows furrowed. He discovered that Ye Yuan was currently speeding towards the southern direction with extreme speed.

"*Heh*, thinking of running? How can it be so easy? With this curse mark, even if you run to the ends of the world, how can you escape my palm?"

Ding Liang deployed the profound artifact spirit boat with a gesture and chased after in the southern direction with tremendous speed.

.....

To humans, the Endless Forest was very perilous. But as long as one's strength was sufficiently strong, they could still rely on their own strength to fly over.

But in the Endless Forest, there was a region known as Forbidden Death Zone. Even peak Divine Traversing Realm experts did not dare to cut across either, regardless whether was it through the land or via the sky.

The total area of this region was very vast, but it had borders.

Head south ten thousand miles from the Northern Domain was the borders of this Forbidden Death Zone.

This Forbidden Death Zone extended for a hundred thousand miles. Only outside of this hundred thousand mile radius was the area that humans could move about in.

Of course, the Endless Forest's size was far from just a hundred thousand miles. So the area that humans could enter was still very huge.

Otherwise, the South and North, two regions, were really going to be isolated for life.

And Ye Yuan's current destination was precisely this Forbidden Death Zone!

Although he did not know who the Fierce Gale World would send to hunt him down, Ye Yuan dared to confirm that it should be at least a middle-stage Divine Traversing Realm expert.

Such an expert, he could not defeat the person no matter what.

If he wanted to live, he could only force himself into a hopeless situation with no way out so that he would fight back desperately.

By the time Ye Yuan came to the three thousand mile region, he already put away the spirit boat and went on foot.

Because spirit boats pursued speed, their defensive strengths were generally very weak. Once they entered the territories of high ranking demonic beasts, it was very easy to suffer the attacks of flying-type demonic beasts. If the spirit boat was damaged because of this, then the loss outweighed the gain.

But along the way, Ye Yuan's progress was rather fast.

With White Light following him and giving off the power of a divine beast, the beasts all submitted along the way.

That power intimidated the forest like a tiger's roar throughout the whole journey!

"Haha! Sweet!"

Although White Light's body became large, he still had a child's disposition.

Teasing those low ranking demonic beasts, he felt very good about himself at present.

Ye Yuan chuckled when he saw the situation and said, "Your white tiger clan is the king of all beasts! Look at you, so childish!"

"Heh heh, Big Brother, you don't know how arduous it was for my mother and me to survive in the Endless Forest. If not for running into you, I wouldn't even be able to beat that Seven Colored Flowing Cloud Python, let alone talk about being whatever king of all beasts! Now that my strength is powerful, coming back to the Endless Forest again is to let those fellows who bullied my family before to prostrate!"

Although White Light said these while grinning, in his words revealed some forlornness.

When Ye Yuan hear White Light say so, he was filled with a vicissitude of emotions too.

Recalling when he met White Light back then, White Light was young and immature like a kitten.

Now, several years had passed. White Light already grew into a true king of all beasts.

Him returning to the Endless Forest again to regain face was also something within reason.

"En. In the future, us brothers will mature together. We're going to let everyone who bullies us come and prostrate before us!" Ye Yuan also said with a grand, lofty sentiment.

"Haha! That's of course! Me, this divine beast, plus Big Brother, this freakish monster, whoever runs into us have to submit too!" White Light said with a big laugh.

"Ye Yuan, it's actually really you! You actually killed Shangguan Yunrong! Truly remarkable! However, today, you won't have that good fortune like during the previous time!"

Right at this time, Ding Liang who had been in hot pursuit finally made it!

[Unrivaled Medicine God](#)

Chapter 623: Great Pursuit and Escape

Towards Ding Liang's arrival, Ye Yuan was not too flustered.

Not that he was not worried, but he was pretending to be unconcerned.

If he was not worried, why would he barge into this freaking Forbidden Death Zone?

"Huhu, truly, enemies meet on a narrow path. Didn't expect that Shangguan Yunrong's curse mark was actually passed to you!" Ye Yuan said very nonchalantly.

When Ding Liang saw Ye Yuan's manner, he said coolly, "Are you pretending to be relaxed? You don't think that you can still escape from my hands this time, right?"

Ye Yuan said smilingly, "Even Zhao Tianyin couldn't hold me back and even needed to kowtow and admit his fault in front of me. Just the likes of you wish to make me stay?"

Ding Liang's expression changed, his face instantly becoming as black as the bottom of a pot.

The Central Capital battle, the ones who knew the outcome were only him, Ding Liang, and people of Star Abyss's lineage.

That battle was not just the Wind Emperor, His Majesty's disgrace, it was also all the Fierce Gale World martial artists' shame!

The invincible Wind Emperor actually kowtowed towards a Crystal Formation Realm brat. That was simply unprecedented humiliation!

"You shut your mouth for me! If I don't kill you today, I'm lesser than human!"

"*Heh heh*, then you'll really not be able to be human today! You were present on that day. You should know that I have a powerful helper, right?" Ye Yuan said smilingly.

Ding Liang's expression changed as he recalled that terrifying woman on that day.

Even the Wind Emperor did not have the slightest strength to resist under her hands. That woman's horror could be imagined.

But he remembered the Wind Emperor's words again; the Wind Emperor had said that woman naturally had people to deal with her. This actually caused his nerves to ease up a little.

"*Humph!* Is she really around? Why don't you call her out for me to take a look!" Ding Liang said with a cold smile.

Ye Yuan was secretly startled. Could it be that this Ding Liang knew something?

How could he have known that in an accident arising from many causes, Ding Liang was also considered to have hit the mark by a fluke?

Yue Mengli's present condition was just coming out to intimidate people a bit. He did not expect that this Ding Liang did not fall for it at all!

But Ye Yuan obviously would not give up hope so easily. He said coolly, "Li-er, somebody wants to meet you. Show yourself for an appearance then!"

Under Ding Liang's horrified gaze, Yue Mengli really appeared!

"Last time, I spared your life. Didn't think that you still don't know how what's good for you!" Yue Mengli glared angrily and said, and she was about to muster heaven and earth essence energy.

Seeing Yue Mengli, Ding Liang's scalp really exploded. How could he still care about killing Ye Yuan? He turned around and fled desperately with all his might.

Ding Liang wished that his parents had given him a pair of wings to let him be able to fly a bit faster.

Ding Liang was an Eighth Level Divine Traversing Realm expert. In a twinkle, he already flew out several hundred miles away.

All of a sudden, Ding Liang was startled with a jerk and discovered that something was not quite right!

If that striking beauty really wanted to kill him, how could he possibly escape?

Also, if that woman was really that powerful, why would Ye Yuan go deep into a dangerous place as well?

Played by this fellow!

Although he did not know what happened, that woman definitely had no way of helping Ye Yuan!

Otherwise just now, a hundred of him would be dead too!

Sensing the curse mark again, Ye Yuan had indeed sped like the wind in the opposite direction.

Ding Liang, as an upper echelon of the Fierce Gale World, was not foreign to the Endless World. He knew that the place around two thousand miles ahead was the Forbidden Death Zone.

He understood that this was Ye Yuan wanting to force himself into a desperate situation so that he could risk it all. With this tussle, both parties instantly pulled apart close to a thousand miles!

“Damn brat!”

Ding Liang gritted his teeth and raise his speed to the limits, chasing after Ye Yuan.

“Big Brother, this fellow’s movement speed is too fast!” White Light said anxiously as he ran.

Although Flowing Light White Tigers’ forte was speed, Ding Liang’s cultivation realm was much higher than theirs. His movement speed was naturally a great deal faster compared to theirs as well.

Although Ye Yuan used a trick to scare Ding Liang away, this fellow’s reaction speed was still pretty fast. He actually chased after so quickly.

“You just care about running forward. Leave the rest to me!” Ye Yuan said.

“Big Brother, you have to be careful!”

The two people sped like the wind while communicating how to deal with it. In a blink, they sprinted for several hundred miles.

But how fast was Ding Liang’s speed? In just this short while, he already shrunk the distance between both parties to only a distance of two hundred miles!

Both parties’ strengths were too powerful. The places that they pass through, even Tier 4 demonic beasts had to give a wide berth!

“Ye Yuan! Wait until this old man catches up to you! I must flay your skin and pull out your tendons to be able to dispel the hatred in my heart!”

Ding Liang had long been enraged to the limits. Being fooled by Ye Yuan this brat, how could he, this old monster, not be furious?

“Old fogey, if you have the capabilities, then chase all the way into the Forbidden Death Zone!” Ye Yuan replied.

“Boy, you don’t be cocky! If you have the capabilities, run inside first before talking!”

“Old fogey, you don’t be cocky! If you have the capabilities, catch up first before talking!”

The two people’s feet did not ease up for a second, but their mouths started quarreling.

Seeing as both parties’ gap was getting smaller and smaller, Ding Liang’s aura already rose to the peak!

Even when separated by such a great distance, Ye Yuan could also feel the other party’s horrifying pressure.

Looks like this old punk was really infuriated by him!

Two hundred miles . . .

One hundred miles . . .

Fifty miles . . .

Both party’s gap was getting increasingly smaller, while Ye Yuan’s distance away from the Forbidden Death Zone was also getting lesser and lesser!

Finally, when there were still several miles away from the Forbidden Death Zone, Ding Liang caught up to Ye Yuan!

“White Light, go!”

Ye Yuan already had no time to keep White Light into the Vast Heaven Pagoda at this time. He could only let him enter the Forbidden Death Zone first.

As for what this Forbidden Death Zone had, Ye Yuan did not know either!

Perhaps this was his survival path, or maybe it was actually his death gate!

Actually, Ye Yuan had long thought it out clearly. Since he revived, he was indeed intertwined with a great destiny. Several incidences of hopeless situations, he turned the dangers all into safety.

Perhaps this so-called Forbidden Death Zone was his survival path too!

Therefore, that was why Ye Yuan was willing to take his chances!

Under Ye Yuan’s instructions, White Light leaped and vanished.

And Ye Yuan himself turned around abruptly and faced Ding Liang coldly.

“Stinking brat, prepare to die!”

Ding Liang did not have the slightest hesitation. Straight away, it was his strongest attack!

Ye Yuan did not hesitate at all as well. He directly fished out a Void Escape Thunderous Explosion Talisman and threw it over at Ding Liang.

Ding Liang originally attacked in rage and already calculated that Ye Yuan was dead for sure. Who knew that Ye Yuan suddenly pulled out such a powerful weapon!

This Void Escape Thunderous Explosion Talisman was equivalent to a peak Divine Traversing Realm's attack. The might of its power could be imagined!

But Ye Yuan also knew that this Ding Liang was an Eighth Level Divine Traversing expert after all. For this Void Escape Thunderous Explosion Talisman to want to kill him, it was still a little lacking.

So after he threw out the Void Escape Thunderous Explosion Talisman, Ye Yuan immediately turned around and ran madly.

There was not much essence energy left in his body at this time. But Ye Yuan's present physical body was extremely formidable too. Even without the support of essence energy, running for a few days and nights was not an issue either.

Rumble!

A massive impact sounded out. Ding Liang muffled groan came from behind Ye Yuan.

But Ye Yuan did not even turn his head back, running over towards the Forbidden Death Zone!

Ahead was a mass of dense fog.

Ye Yuan did not hesitate the slightest bit, plunging headlong inside . . .

[Unrivaled Medicine God](#)

Chapter 624: A Gamble!

Bang!

Ding Liang suddenly struck a palm out, shattering a large tree by the side into smithereens. It could be seen just how immense the fury in his heart was.

Calculated everything and he still could not predict that Ye Yuan actually had a Void Escape Thunderous Explosion Talisman!

This time, not only did he not catch Ye Yuan, he even let himself suffer considerable injuries instead.

To think that he was still swearing solemnly before, saying that Ye Yuan could not escape this time. In the end, he still ran away.

Facing the layers upon layers of dense fog ahead, Ding Liang was somewhat shrinking back.

He knew that behind this dense fog was human martial artists' forbidden land. Even peak Divine Traversing Realm experts would also not come out again when entering this Forbidden Death Zone.

En . . . Accurately speaking, they did come back. It was just that what came back was just a corpse.

According to the information that the Fierce Gale World collected, this Forbidden Death Zone was the Endless World's most terrifying place. Even His Majesty did not dare to step foot inside too.

Before departing, Zhao Tianyin repeated exhorted the few of them just two matters.

One of it was to not provoke the Endless Forest's demonic beasts. Most importantly, to absolutely not enter the Forbidden Death Zone!

The other matter was to be sure to kill Ye Yuan!

Now, these two matters actually miraculously overlapped together.

Then . . . could this Forbidden Death Zone kill Ye Yuan or not?

Ding Liang pondered, a place where even His Majesty did not dare to step foot into, Ye Yuan could not possibly survive, right?

Ding Liang suddenly recalled something. Reaching his hand out and taking a look at the curse mark in his hand, his expression could not help changing. He actually lost connection to Ye Yuan's curse mark!

This Forbidden Death Zone was truly abnormal. To actually be able to cut off the response between the curse marks!

This divine soul curse was extremely malicious. It was like a bone infesting maggot. As long as the person inflicted by the curse did not die, this curse would never ever be removed.

Even Ding Liang, this Eighth Level Divine Traversing expert, was unable to accomplish cutting off this response. But this Forbidden Death Zone could!

"Screw it. I'll just wait here and do nothing! This boy is bloody freaky. If he can really come out from there, then it won't be easy to handle! Either way, as long as he leaves the Forbidden Death Zone, no matter where he walks to, I'll be able to sense it!"

Ding Liang made a decision very quickly.

.

"White Light, where are you?"

In the dense fog, Ye Yuan called out White Light's name repeatedly. But did not get any response.

In front of his eyes was completely a stretch of haziness. Nothing could be seen at all.

All the way until Ye Yuan walked for an entire day's time in this dense fog did he finally confirmed two things.

One of it was that he got separated from White Light!

The other thing was that . . . he was lost!

This dense fog was seemingly expansive. No matter how he walked, he could not reach the end too.

With Ye Yuan's knowledge and experience, he did not know what the hell this dense fog was either.

But Ye Yuan could confirm one thing; this dense fog was currently devouring the essence energy within his body!

This one day and one night, Ye Yuan did not do anything at all, but the essence energy in his body was actually only left with two-thirds of the original!

At this rate, there was still three days' time, and then the essence energy in his body would be completely fully exhausted.

This bit, Ye Yuan was not very worried. Coming out this time, he brought sufficient medicinal pills on him and was totally able to sustain for a very long time.

What Ye Yuan was worried about was that he would be lost in this dense fog all the way.

That was the most terrifying thing!

This dense fog did not seem to have anything at all; it was deathly still, as if there was only Ye Yuan alone left in the entire world . . . and this dense fog.

This sort of feeling virtually made people feel despair!

No wonder the Endless World's people all called this place as the Forbidden Death Zone. Even if peak Divine Traversing Realm experts entered, facing this boundless gray fog, they would probably go crazy in the end too.

Even if you had unparalleled magical abilities, you could not find a passageway to give vent either.

Furthermore, it was very clear that the more you expend essence energy, the faster you die!

In the gray fog, regardless where you walk to, all of the scenery was the exact same; all a stretch of haziness. There was completely no way of differentiating what place you walked through just now.

Under such an environment, wanting to walk out of the dense fog was simply an impossible matter!

Two whole days, Ye Yuan just walked like this, seemingly aimlessly. As he walked, before his eyes were forever a stretch of gray haziness.

During this period, Ye Yuan consumed a medicinal pill, restoring his essence energy to the optimum state.

But at this time, his essence energy was only left with two-thirds again.

Two days later, Ye Yuan finally could not walk anymore.

He suddenly stopped, crossed his legs and sat down, and actually started visualizing the 'Lin' word formula!

"This dense fog isn't an array formation. But I feel that I'm walking around in circles continuously! It looks like I've walked for two days and nights and seemed to have walked very far, but actually, I didn't walk out very far at all! Even with my heart realm maintaining Heart Like Still Water state, it also can't see through this dense fog. Since that's the case, then I can only break through Heart Realm to be rescued from the hopeless situation!"

Although this place did not have fighting, this dense fog was Ye Yuan's greatest adversary!

Forbidden Death Zone was truly not an undeserved reputation!

With Ye Yuan's knowledge and experience, he actually could not find the slightest clue after walking for two days and nights.

But Ye Yuan had a faint supernatural feeling, and that was that he had been walking in circles all along!

This was only faintly detected by him while under the Heart Like Still Water Realm.

It could be seen that if there wasn't extremely high Heart Realm boundary, even if your cultivation was any higher, there was only waiting for death here!

Even if Ye Yuan's Heart Realm already reached an extremely high level, it also took two whole days to have that tiny hint of fuzzy awareness!

It could be seen that the fame of this perilous land was truly not a joke.

The terror of this Forbidden Death Zone absolutely surpassed all of the predicaments that Ye Yuan had encountered since he revived!

Because the predicament that he met with this time was something he had no way of resolving even with the knowledge that he carried over from reviving!

What people were most terrified of was the unknown. It was no exception to Ye Yuan as well!

When all of his knowledge could not be put to use, this was naturally his most difficult time.

Even if Ye Yuan faintly had a feeling, he did not know whether his feeling was right or not either.

Even if his feeling was correct, Ye Yuan also did not know if he could break through Heart Realm before his recovery medicinal pills were consumed entirely!

Everything was not definite!

Ye Yuan did not have the choice right now. He could only go and gamble!

Gamble that his hint of inspiration was not wrong!

Of course, this was also just Ye Yuan. If it were other martial artists, even if Zhao Tianyin came personally, he might not have this chance to gamble.

No matter how high their cultivation realms were, who could reach the height of Ye Yuan's Heart Realm boundary?

According to Ye Yuan's deduction, if he wanted to see through this dense fog, Heart Like Still Water was already inadequate.

Which was also to say that he had to break through to Heart Like Monolith Realm!

This Heart Realm boundary, even in the Divine Realm, it was a realm of the legends too!

However, Ye Yuan really did not know if his current Heart Like Still Water had really reached the pinnacle or not.

If he really succeeded in breaking through but did not reach Heart Like Monolith Realm, then that would really be fun.

All in all, everything was a gamble!

[Unrivaled Medicine God](#)

Chapter 625: Heart Like Monolith, Immovable by the Eight Winds!

Ye Yuan was racing against time!

He had to successfully form the 'Lin' character's second hand seal before his medicinal pills were depleted!

The difficulty of the first form was already so great, much less than the second form.

Furthermore, different from the visualization previously, Ye Yuan had to interrupt the visualization every two to three days to stop and consume medicinal pills to restore essence energy.

Essence energy depleted for a long time would cause irreversible damage to the martial artist's essence energy sea and would cause their cultivation realm to fall. Ye Yuan did not wish to take such a risk.

The second hand seal form was a continuation of the first hand seal form. But Ye Yuan's attempt in forming the seal was not that smooth.

Two days passed and Ye Yuan could not even achieve the most minimum seal.

What Ye Yuan visualized was only a fuzzy hand seal. There was simply no way of forming the seal.

The condensation of a hand seal, even if it were just off by a fraction, the final outcome would also be a failure.

But Ye Yuan did not even cross the threshold yet right now!

Condensing hand seals like this required him to expend large amounts of essence energy too. This sped up Ye Yuan's essence energy consumption even more.

This gray fog did not have the slightest essence energy replenishment. Ye Yuan could only continuously recover his essence energy through medicinal pills.

This way, Ye Yuan's medicinal pills expenditure speed clearly hastened considerably.

When it reached the fifth day, Ye Yuan's medicinal pills was already depleted by half!

At the rate of such consumption speed, Ye Yuan could at most still last for five day's time!

Experiencing so many great storms and waves, Ye Yuan's heart realm had long become incomparable from the past.

Expending these medicinal pills, Ye Yuan did not even blink his eyes. It was as if his medicinal pills were unlimited.

And all of his energy was placed on visualizing the 'Lin' character!

On the fifth day, Ye Yuan finally had a breakthrough in condensing the hand seal!

In these five days, Ye Yuan was more focused than any time in the past.

The second hand seal of the 'Lin' character that Ye Yuan was visualizing finally became clear.

But this was only the beginning. The remainder of the time, Ye Yuan had to strive with all his might to condense this hand seal. This was the most crucial step!

Condensing the hand seal was not such an easy process. Every attempt to form it, there was seemingly a kind of invisible energy pushing his two hands apart.

Ye Yuan was not baffled by these troubles. Because he could clearly sense it now, his Heart Realm was rising.

First day, second day, third day . . .

When it reached the fourth day, Ye Yuan finally broke through the barrier and completed the second hand seal!

Rumble!

Ye Yuan's Heart Realm seemed to have opened a floodgate, suddenly becoming enlightened.

At this instant, Ye Yuan felt like his divine soul was seemingly going to leave his body.

That sort of feeling was as if he was placed high in the clouds, completely relaxed and carefree!

At this moment, Ye Yuan suddenly felt like the entire world became different.

This sort of feeling simply could not be described using words!

If one must use a term to describe it, that was 'viewing the mountain, as not a mountain.'

"So, this is Heart Like Monolith? Heart Like Monolith, immovable by the eight winds! Indifferent to benefits, decline, ruin, fame, praise, mockery, bitterness, and joy. Heart Realm will not be moved by external things!"

Ye Yuan felt that his understanding of this world transcended far too much compared to previously.

This was a brand new realm!

Ye Yuan opened both eyes. The dense fog before his eyes was still that dense fog and did not seem to be any different.

Ye Yuan smiled slightly and shut his eyes again.

Since his eyes could not see through this dense fog, then he should use his heart to look!

Ye Yuan strode forward, only following his heart to walk.

On the tenth day, when Ye Yuan opened both eyes once more, the dense fog before his eyes actually disappeared. He was actually situated in a forest again.

"En? This is . . . the Endless Forest? No, wait, could it be . . . the Endless Forest after the dense fog?"

Although the scenery almost the same as the Endless Forest, Ye Yuan discovered very soon the aspects which were different here. That was that the thickness of heaven and earth essence energy was on a completely different level from outside!

One could say that the heaven and earth essence energy at any place in the Endless World could not compare to here!

With Ye Yuan's experience and knowledge, he could still confirm one point, that was that any small world's heaven and earth essence energy could not possibly reach the level here as well!

Cultivating here, the speed would absolutely be multiple times of the outside world's!

Ye Yuan never would have thought that the Endless World actually still had such a place.

Ye Yuan slowly walked forward but was clicking his tongue in marvel inwardly.

He did not walk far, but he already saw quite a few kinds of Tier 4 spirit medicines. Furthermore, they were all extremely valuable spirit medicines. This place was simply a treasure land!

Ye Yuan naturally would not be courteous, conveniently keeping those Tier 4 spirit medicines into his bag.

Tier 4 spirit medicines, it just nice came in handy for him right now.

Tier 4 spirit medicines were also precious items in the outside world. It was naturally impossible for Ye Yuan to cast it away like some worn out shoes like before.

Moreover, as an experienced alchemist, conveniently harvesting spirit medicines was a professional behavior.

Yet, right when Ye Yuan was harvesting, alarm bells sounded!

A sharp and fierce bolt of silk cloth appeared at his back bizarrely and was actually going to ambush him!

Coming to a foreign place, it was naturally impossible for Ye Yuan to lower his guard.

In truth, he had been maintaining Heart Like Still Water Heart Realm all along. Any hint of subtle activity in the surroundings could not escape his observation.

Not that Ye Yuan did not wish to stay in Heart Like Monolith Heart Realm, but he had just broken through not long ago. Walking out of that mass of dense fog previously already exhausted too much heart force. He was simply unable to maintain Heart Like Monolith state for a long time.

Right at this time, Ye Yuan seemed to have grown eyes at his back, abruptly shifting his position and avoiding this certain kill attack.

Yet, that bolt of silk was akin to a shadow trailing close behind. It turned an odd angle in the air and came to pester Ye Yuan once more.

Ye Yuan was slightly surprised in his heart. Although he had yet to see clearly who was ambushing him, he could confirm that the strength of this person ambushing was absolutely not beneath his!

But Ye Yuan clearly did not have the intention of giving in. Borrowing the space opened up by the dodging, a sudden punch rumbled over.

Flame Movement True Dragon Carnage carried a huge air billow and directly blew away the bolt of silk.

“Yii?” From the forest, a faint puzzled voice came over. The person clearly did not expect that Ye Yuan’s strength was actually so powerful.

After this one blow, Ye Yuan’s brows knitted together too and he murmured under his breath, “Taking Form demons?”

The so-called Taking Form demons were naturally referring to the Tier 5 demonic beast who were able to transformed into human form!

Demonic beasts that transformed into human form, if they did not take the initiative to release demonic essence, it could not be seen from the outward appearance. They were no different from ordinary humans when they mix among humans and live.

But once they executed martial techniques, their true form would be revealed.

Although demonic beasts and humans both cultivated essence energy, the system of cultivation was entirely different.

Demonic beasts integrated heaven and earth essence energy into the demonic core. The essence energy extracted and refined was known as demonic essence. There was a very big difference from human martial artists’ essence energy; it was very easy to differentiate.

Ye Yuan was secretly depressed in his heart. Couldn’t be so lucky, right? Running into a Taking Form Stage demonic beast right after coming in?

“This one has erroneously entered your honorable land. It’s truly unintentional. I hope that this Dao Friend can show yourself!” Ye Yuan cupped his fists and said towards a direction.

Clearly, through that attack earlier, Ye Yuan had already determined the other party’s position.

[Translator’s Note] Tidbit for ‘immovable by the eight winds.’ It’s a Buddhist thing where if someone’s emotions are not stirred by any of the winds, they are immovable by the eight winds. The eight winds(things) are essentially being unmoved by benefits which follows success, decline that follows failure, ruin from slandering behind your back, fame from complimenting behind your back, praise from commending to your face, mockery from verbal abuse, bitterness from pain, joy from happiness.

Chapter 626: Repeated Provocation

Three gorgeous figures floated down from the huge towering tree, making Ye Yuan unable to refrain from giving a sidelong glance.

Each one of these three people was all kingdom toppling beauties. Mortals when seeing would surely be captivated by them.

Even when Ye Yuan saw them, he also did not quite dare to believe that they were actually demonic beast who achieved Taking Form.

The unparalleled beauty at the front said to Ye Yuan with glaring eyes, “Human who dares to break into my God Prohibited Demon Region, die!”

But Ye Yuan's brows furrowed when he heard that. Coming into here in order to avoid Ding Liang's pursuit, Ye Yuan was aware that he was in the wrong. But yelling to kill right upon encounter made Ye Yuan very displeased.

Furthermore, looking at these three people's attitudes, it clearly would not be good. Most likely, no matter how he explained, the other party would not listen either, right?

"Can the three ladies listen to a word from this one?" Ye Yuan still did not give up hope and held back his anger and said.

He had barged into other people's territory after all. If he could not attack, then it was best to not make a move.

Ye Yuan was also secretly on alert in his heart. He ran into three Taking Form demons right after entering. Was his luck good, or were the strength of the demonic beasts here all this formidable?

"No need to talk! No matter what reason you have, to dare barge into the God Prohibited Demon Region only leads to death! I'll give you a chance. End yourself!" said the woman.

When Ye Yuan heard, his brows involuntarily knitted together even tighter.

This woman was beautiful; it was just that that high and mighty appearance made Ye Yuan very displeased.

Ye Yuan did not have a good temper either. The other party already told him to end himself. Could this matter still be settled?

He was just about to fly off the handle when a slightly younger girl revealed an expression of being unable to bear it and urged, "Elder Sister Yu Leng, maybe this human really has something that he can't say. Why don't we hear him out?"

That beautiful girl called Yu Leng reproached, "What's hard to say? Yu Shu, did you forget the ancestors' teachings? As long as humans enter the God Prohibited Demon Region, summarily execute them without exception!"

"This . . ."

"*Humph!* Although we don't know how he made it through the Essence Devouring Confounding Fog, since he entered here, we must follow the ancestors' teachings and kill him!"

The woman called Yu Leng was clearly unreasonable, prating on and on about killing, which also stoked Ye Yuan's temper.

"*Heh heh*, what a fine immediate execution without exception! I want to see just how you want to kill me!" Ye Yuan said with a cold smile.

Yu Leng looked at Ye Yuan disdainfully and said with a cold smile, "Do you think that by evading my attack just now, you can escape with your life from under my hands? You're merely a little brat who just entered Soul Sea. Truly don't know the immensity of heaven and earth! Forget it, since you aren't willing to do it yourself, then I'll send you on your way!"

He did not even see Yu Leng take any action. But bolts of silk actually headed towards Ye Yuan once again bizarrely.

Except that this time, regardless whether was it the angle or speed, it rose a great deal compared to before.

Evidently, she also acknowledged Ye Yuan's strength and pulled no punches.

Ye Yuan just smiled coldly. Xuanying Sword was directly swung out!

"Myriad Rain Sword Blades!"

Ten thousand long swords instantly formed and directly chopped down on the bolt of silk!

Now that Ye Yuan broke through to the Soul Sea Realm, condensing the form of gathered essence was already effortless to him. Executing the Myriad Rain Sword Blades, this level of martial technique again, could naturally be done as he wished.

And the power of the sword blades increased tremendously too. This could be seen a little from the outer appearance of the condensed form.

Clank! Clank! Clank!

The strength of a Tier 5 demon was naturally daunting to the extreme. Although Ye Yuan's Myriad Rain Sword Blades was strong, it could not sever Yu Leng's bolt of silk, but emitted the sounds of metal clashing.

But even though it could not chop the silk into two, Ye Yuan's Myriad Rain Sword Blades beat it back repeatedly.

Seeing that the martial technique Ye Yuan casually unleashed was actually so formidable, Yu Leng's expression finally became solemn.

This human youth in front of her seemed to be somewhat extraordinary!

She originally thought that Ye Yuan was just an ordinary genius martial artists; the kind that could cross boundaries to battle.

But looking at it now, it was completely not the case.

She still did not employ full strength earlier. But that attack just now, casually exterminating a Ninth Level Soul Sea martial artist would still be with ease. Using it to deal with a First Level Soul Sea brat, shouldn't capturing him be also the same?

Who knew that this boy was only First Level Soul Sea, but he actually beat her back repeatedly!

Ye Yuan frowned and said, "You, lass, are so unreasonable. Keep forcing me, and I won't be courteous anymore!"

This Yu Leng had merely just entered Taking Form too. In fact, she was even worse than the Shangguan Yunrong whose cultivation realm had fallen. Ye Yuan dealing with her was still plenty to spare.

It was just that Ye Yuan was currently a stranger in a strange place right now, and he did not wish to stir up trouble. Moreover, although these three people were demons, they were dazzling beauties. Ye Yuan exercised forbearance time and again too. Otherwise, this Yu Leng provoking Ye Yuan repeatedly, Ye Yuan would have killed her long ago.

Except, Ye Yuan's words sounded laughable to the max to Yu Leng.

She admitted that Ye Yuan's strength was very formidable; much more formidable than she imagined.

But to talk about him crossing a major cultivation realm to defeat her, Yu Leng would not believe even if she was beaten to death either.

"Insolence! Lowly human, to actually dare utter wild ravings! Die!"

Yu Leng cried out daintily. The bolt of silk attacked once more!

"Jadesilk Flying Sword!"

This time, Yu Leng really brought out the strength of a Tier 5. That bolt of silk was flooded with extremely powerful demonic essence, stretching out perfectly straight and stabbed towards Ye Yuan.

Ye Yuan decided to give this little lass a little lesson and let her know that Young Master Ye was not to be trifled with!

Rumble!

Ye Yuan's aura erupted abruptly, directly soaring to Third Level Soul Sea!

"Coiling Dragon Heaven Devastating Palm!"

Once Ye Yuan became serious, Yu Leng's expression immediately changed drastically.

This palm was too powerful!

It was powerful until the extent where it could directly exterminate her!

She never could have thought that a First Level Soul Sea youth could actually achieve the level of killing Tier 5 demons!

What kind of concept was this?

Tier 5 Taking Form was called demon race, while Tier 4 and below were called demonic beasts. From this, it could be seen how great the disparity between the two boundaries was!

This was a mighty chasm that was difficult to cross!

Yet, this youth before her eyes directly crossed this huge chasm!

Strong!

Too strong!

The azure dragon struck the bolt of silk until it fragmented inch by inch like breaking a dead branch from a tree, then swept over directly towards Yu Leng.

“Ah! Don’t hurt Elder Sister Yu Leng!”

That girlie called Yu Shu actually blocked directly in front of Yu Leng, wanting to block this blow for her!

Ye Yuan was also taken aback by this sudden unforeseen change and hurriedly flipped the palm force. The azure dragon headed for a massive tree that ten people could circle around with their arms and smashed over.

Rumble!

That towering great tree’s trunk was directly snapped. The huge tree fell down immediately.

Seeing this scene, Yu Leng had long been frightened until her face was ashen already. How was there still any hint of the high and mighty wild arrogance?

If this palm landed on her earlier, it was not to the extent of killing her. But severe injuries, that was a must.

How could she know that this was still Ye Yuan holding back a bit? Or else, she would directly be the outcome of a beauty perishing.

It was also that that little girl called Yu Shu helped Ye Yuan say a few words previously and made Ye Yuan have a pretty good impression of her, that was why he changed the direction of the attack at the last moment.

If not, he would have to make that little lass called Yu Leng end up with a result of severe injuries no matter what.

“D-Dragon race?” Yu Leng said somewhat disbelievingly.

Chapter 627: Jade Faced Fairy Fox Clan

Yu Leng still had a lingering fear in her heart at the moment. She looked at Ye Yuan, her face filled with astonishment.

But Yu Shu had a muddled look. Her gaze when looking at Ye Yuan was filled with gratitude.

She knew that Ye Yuan shifted the palm force just now. Otherwise, she would already be a corpse now.

“Elder Sister Yu Leng, what did you say just now? Dragon race?” Yu Shu inquired curiously.

Since just now, Yu Leng had been in a state of shock all along. All the way until Yu Shu inquired, did she come back to her senses.

There was no way for her sense to be wrong. Ye Yuan’s attack just now was absolutely the strength of a true dragon!

But how could a human brat possibly unleash the strength of a true dragon?

The demon race had a strict hierarchy. The Four Great Divine Beasts were the races belonging at the top of the food chain.

In front of the dragon race, low ranking demonic beasts would not even dare to raise their heads either, even if their cultivation realm was higher than the demonic race's.

Just like White Light, no matter where he walked to in the Endless Forest, he virtually did not need to attack, and myriad beasts would submit. The reason was the divine beast bloodline in his body!

In the demon race, the compulsion of bloodline was at times even more effective than cultivation realm.

"C-Can't be wrong! I'd entered the Holy Land once before with First Elder and felt the pressure of the dragon race before. It was exactly the same as his earlier! But . . . But he's just a human race brat. How can he possibly be of the dragon race?" Yu Leng already lost her bearings at this time, muttering under her breath.

Yu Shu looked at Ye Yuan weirdly and asked, "Big Brother, you . . . you're actually of the dragon race? If you're of the dragon race, you naturally have the qualifications to enter God Prohibited Demon Region."

Ye Yuan's impressive of Yu Shu was pretty good, and she was not as cold and apathetic as Yu Leng. Or else, he would not have held back earlier.

Seeing Yu Shu asking about it, Ye Yuan said very candidly, "To say that I'm of the dragon race, that's fine. To say that I'm not, that works too. As for what it's like, up to you all to decide. But if you want to kill me, I won't show mercy!"

Among these three people, Yu Leng was the out-and-out female leader. How the matter would be decided naturally needed her to give the order.

After being shocked for a long time, Yu Leng finally came back to her senses and said to Ye Yuan, "This . . . This Brother, your matter, Yu Leng is unable to make the decision. The incident just now, I've offended you greatly. I hope that you won't take offense. According to the rules of my God Prohibited Demon Region, humans are absolutely forbidden from taking a single step in. And you entering here, the elders in the clan are already aware. As for what course to follow, it will still have to wait for them to decide. Why not . . . Little Brother, you follow us back to the clan?"

Seeing Ye Yuan's show of strength earlier, she knew that she was far from being Ye Yuan's match. Just now, if not for Ye Yuan showing leniency, how could she still be alive at this time?

But the matter of Ye Yuan entering the God Prohibited Demon Region, the elders in the clan naturally knew already. Hence, that was why Yu Leng gave such an invitation.

Ye Yuan was also very interested in this so-called God Prohibited Demon Region. He nodded his head at once and said, "Okay, I'll follow you guys there!"

.

The atmosphere along the way was very odd. Yu Leng was apprehensive and also on guard against Ye Yuan. Her entire person was wound up tightly, akin to facing a great enemy.

Ye Yuan obviously knew her thoughts but paid no attention to it either.

Rather, Yu Shu seemed to be filled with curiosity towards the outside world stuff, constantly asking this and that along the way.

Ye Yuan did not refuse anything either, giving an account of the world outside for Yu Shu.

Yu Leng wanted to interrupt the conversation between the two people several times but was stopped by Ye Yuan's fierce look in his eyes.

Only after entering Yu Leng trio sisters' clan, did Ye Yuan know what the three people's primary form was.

Upon entering the clan, Ye Yuan was immediately surrounded by a large group of foxes.

Towards this sort of foxes, Ye Yuan was not foreign at all. Their name was Jade Faced Fairy Foxes!

"Elder Sister Yu Leng, who's this man? He's so good-looking!"

"Elder Sister Yu Leng, this man seems to be a human? According to the stipulations of our God Prohibited Demon Region, doesn't it say that when seeing humans, immediately execute them? But such a handsome man, killing is too much of a pity!"

"Elder Sister Yu Leng, this man is so handsome. Why don't you give him to me!"

These Jade Faced Fairy Foxes had yet to take human form. But they were basically all Tier 4 demonic beasts; not far from Taking Form either.

Seeing these Jade Faced Fairy Foxes, Ye Yuan was amazed in his heart too.

Wasn't the strength of this Jade Faced Fairy Fox Clan too powerful? A group of little foxes that came out willy-nilly were all late-stage Tier 4 cultivation, being just a step away from taking form.

Ye Yuan's experience and knowledge were extraordinary. He knew that these Jade Faced Fairy Foxes' age was not considered old in the demonic fox clan.

Looking at it like this, the strength of this Jade Faced Fairy Fox Clan was likely more powerful compared to the entire Endless World!

This way, Ye Yuan became somewhat curious about those so-called elders.

Just what kind of strength were those people?

"*Heh heh*, there's no problem with you all liking Big Brother. But come and find Big Brother again after taking form! You guys are too tender and can't bear it!" Ye Yuan used universal beast language and said with a broad smile.

Once these words came out, everybody, including Yu Leng and Yu Shu, was all stunned.

Turns out that these demon foxes only saw that Ye Yuan was good-looking and jested with Yu Leng. They completely did not count on Ye Yuan being able to understand.

Who knew that not only did Ye Yuan understand the words they said, he even used universal beast language to give a reply!

The chattering originally surrounding Ye Yuan were collectively petrified now.

A blush actually suffused on the faces of some foxes. Clearly, they were very embarrassed.

“You . . . You actually even know the universal beast language!” Yu Leng said in amazement.

“Just universal beast language. *Huhu*, I even know that you guys are the Jade Faced Fairy Fox Clan!” Ye Yuan said with a wide grin.

“” Yu Leng was utterly speechless.

Apart from this young man giving off the smell of a human all over his body, he seemed to be no different from demonic beasts!

The fox race had many branches. Their Jade Faced Fairy Fox was just one of the branch.

Ye Yuan could actually accurately call out the name of their clan. Clearly, he was very familiar with the demon race!

Just what kind of person was this young man?

Ye Yuan naturally would not be concerned with Yu Leng’s and their guesses. He was sizing up this village.

This was a very lively village. Foxes and ‘people’ mixed around and lived together.

What made Ye Yuan surprised was that in this village, there were actually quite a number of humans!

Which was also to say that the Jade Faced Fairy Fox Clan had many Tier 5 existences!

What the hell was going on here?

In a place like the Endless World, how could there possibly be such a terrifying force?

Once this village was placed in the Endless World, it could virtually sweep across the entire Endless World, even more neatly than the Fierce Gale World!

Even these peripheral villagers all had such considerable strength. Then what kind of strength did those so-called elders have?

Ye Yuan was becoming more and more curious about this God Prohibited Demon Region!

Under Yu Leng’s lead, Ye Yuan passed through over half of the village and came to an ancestral hall-like place.

“Here is where the elders are located at. I know that your strength is very decent. But entering this place, whether you live or die will be up to you!” before entering Yu Leng suddenly said this, warning him.

[Unrivaled Medicine God](#)

Chapter 628: Illusionary Arts? Haha!

Ye Yuan never thought about escaping, and he also knew that he could not run.

Yu Leng, these three people, clearly came prepared. Evidently, they had long known about his appearance.

Although Ye Yuan did not know how this Jade Faced Fairy Fox Clan knew, without any doubt, they just knew it.

Yu Leng trio's strength was not bad. But presumably, they were definitely not considered the most powerful.

Once those old fellows came out, Ye Yuan naturally would not get any benefits.

Even if Ye Yuan could escape back to the Endless Forest, at that time, he still had to face Ding Liang's pursuit. In comparison, Ye Yuan felt that this place was still a little safer.

Yu Leng led Ye Yuan into the inner-hall. Ye Yuan instantly felt waves of powerful aura coming from head-on!

Ye Yuan was slightly apprehensive in his heart. He never would have thought that in this God Prohibited Demon Region actually had a Tier 6 demon!

The aura exuded by that old lady at the seat of honor was unbelievably powerful. It was even stronger than Zhao Tianyin's. What could it be if not a Tier 6 demon?

But according to Ye Yuan's understanding, this God Prohibited Demon Region was just a core region in the Endless Forest and also a part of the Endless World. How could Tier 6 powerhouses possibly appear?

"Yu Leng, this is the intruder?" That old woman was the first to speak.

When Yu Leng saw this old woman, her expression was unbelievably respectful as she bowed and answered, "Yes, Old Ancestor Yu Huan!"

Ye Yuan had been sizing up that Old Ancestor Yu Huan the entire time. Only to see that her entire face was covered in wrinkles, holding a cane with a bent body, appearing very old.

But the aura faintly exuding from her body was absolutely not simple!

Yu Huan's gaze also looked towards Ye Yuan at this time, but she made a move suddenly!

She lightly tapped the crutch in her hand. A streak of incomparably powerful azure light attacked Ye Yuan.

Ye Yuan's expression darkened slightly. Lifting his hand and the Coiling Dragon Heaven Devastating Palm returned the salute.

Bang!

Ye Yuan was directly sent flying out!

The power of a Tier 6 powerhouses was not what Ye Yuan could contend with no matter what.

This attack of Yu Huan's was just probing Ye Yuan's limits. If she really attacked, Ye Yuan would not have the leeway to resist at all.

It was just that Yu Huan's face revealed a trace of imperceptible astonishment. She originally thought that this attack could also let Ye Yuan suffer a bit of injury no matter what. Who knew that Ye Yuan dusted off the dirt on his body and stood up right away.

"If Old Ancestor Yu Huan wishes to feel me out, just say frankly. Isn't such boorishness failing to treat guests with hospitality?" Ye Yuan said crossly.

Yu Huan was definitely already aware that he had the dragon race's bloodline. Otherwise, she would have killed him straight away and be done with it. That move earlier was definitely just in order to probe Ye Yuan out.

Ye Yuan was aware in heart, so his opening move was the Coiling Dragon Heaven Devastating Palm's strongest strike.

He already sensed that this God Prohibited Demon Region seemed to be very adverse towards humans. Ye Yuan displaying his own dragon race bloodline, Yu Huan was likely to not do anything to him.

If she had any malicious ideas towards him, she would have just directly killed him just now. Why was there a need to go through the trouble of probing him?

Yu Huan raised her eyelids slightly and asked, "You refined the blood essence of a true dragon?"

Ye Yuan knew that it could not be concealed from the other party and said with a smile, "Senior's discerning eyes are like burning torches!"

Getting an affirmative reply, Yu Huan's aura suddenly became fierce as she pressed Ye Yuan, "Where did your true dragon's blood essence come from?!"

"Uh . . . Senior, please forgive me. This isn't convenient to reveal to Senior."

Vast Heaven Pagoda was Ye Yuan's secret. It was naturally impossible for him to divulge it to Yu Huan.

Such an unparalleled treasure, even Tier 6 powerhouses would be moved too.

Ye Yuan was not acquainted with this Yu Huan too. It was hard to guarantee that she would not have any wicked intentions.

Facing a Tier 6 expert, Ye Yuan did not have any excess strength to resist.

But Ye Yuan's words had clearly infuriated Yu Huan. She suddenly became abnormally irritable. A powerful aura enveloped Ye Yuan.

"You don't seem to have realized your circumstances! Whether you say or not isn't up to you!" Yu Huan said coldly.

Ye Yuan was crushed until he almost could not breathe. But he still said obstinately, "*Hehe*, whether you kill or not is up to you. But to say or not lies with me! I don't wish to say. Even if you kill me, I won't say either!"

Yu Huan's expression turned cold. The imposing momentum on her body became even more powerful. The pressure on Ye Yuan's body became increasingly greater, directly crushing him until his bones made creaking sounds.

This sort of environment, Ye Yuan seemed to have a *deja vu*. It was exactly the same as when Zhao Tianyin forced him to kneel down back then. Except, Yu Huan did not have the intention of making Ye Yuan kneel. She just used essence energy to pressure him to compel him to say the origins of the dragon blood.

Ye Yuan clenched his teeth tightly. Dense beads of sweat exuded on his forehead, and his expression became very contorted. Clearly, he was in great agony.

By the side, when Yu Shu saw Ye Yuan's pained appearance, she pleaded, "Old Ancestor Yu Huan, he doesn't have any ill intentions! Better to not kill him! Earlier, if not for this big brother showing mercy, Yu Shu would already be a dead person."

Ye Yuan suddenly felt the pressure on his body ease up. The essence energy confining him instantly vanished into nothing. Evidently, it was pulled back by Yu Huan.

Ye Yuan looked at Yu Shu and said with a miserable smile, "*Haha!* Little lass, you're too kind-hearted! Helping to speak up for outsiders, aren't you afraid of your family's old granny punishing you?"

When Yu Shu saw Yu Huan pull back the essence energy, she relaxed slightly in her heart.

Seeing Ye Yuan ask, Yu Shu blushed red and said shyly, "I'm just taking the matter on its merits! Earlier, if not for Big Brother you showing leniency, Yu Shu would definitely be dead already. This shows that Big Brother you're not a bad person!"

Actually, in terms of age, Yu Shu was goodness knows how much older than Ye Yuan. But her calling big brother over and over again, Ye Yuan's bones were about to turn limp as he listened.

Ye Yuan was just about to say a few words to tease Yu Shu when he suddenly felt his divine soul quiver. He was actually sneak attacked by Yu Huan this old woman!

"Let me ask you, what's your name called. Where are you from?" Yu Huan seemed to think that she had controlled Ye Yuan and asked.

"I'm called Ye Yuan. I'm from a mortal country in the Endless World's Southern Domain." Ye Yuan's two eyes were lifeless as if he was really controlled by Yu Huan as he replied.

Heh heh, the Jade Faced Fairy Fox Clan's forte is illusionary arts. But using it on me is showing off in the presence of an expert! Little Lord, I, have comprehended Heart Like Monolith Heart Realm. Even if your illusionary arts were any greater, what can it do to me? Ye Yuan sneered coldly in his heart.

Yu Huan's brows knitted. She clearly did not expect that Ye Yuan's background was actually so ordinary and mundane.

"Why did you barge into the God Prohibited Demon Region?"

"I was being hunted down by someone in the outside world and had no choice but to escape in here."

"How did you pass through the Essence Devouring Confounding Fog?"

"I . . . I don't know either. I just walked and walked, and I came out."

"Where did the true dragon blood essence in your body come from?"

"I unintentionally broke into an abode for fairies and immortals and obtained a drop of blood essence there and directly swallowed it. Didn't expect that it was actually true dragon's blood essence," Ye Yuan blabbered nonsense.

Yu Huan's brows furrowed once more. Clearly, she was very unsatisfied with this answer.

Following that, Yu Huan asked another large bunch of questions and finally got to the bottom of Ye Yuan.

Ye Yuan answered every question like this, but there weren't much truthful words. Either way, this old lady could not tell either.

By the time Yu Huan discovered that she could not query out anything, she waved a hand. Ye Yuan's eyes immediately recovered its clarity.

"En? What happened just now? What happened?" Ye Yuan asked with a bewildered look.

Unrivaled Medicine God

Chapter 629: Young Lord

"Although you refined dragon's blood and are considered half of the dragon race, in the end, you're still a human. The God Prohibited Demon Region forbids humans from stepping foot inside. Your death sentence can be spared, but it's hard to escape punishment. For the rest of your life, you'll spend it in my clan's dungeons!" Yu Huan did not care about Ye Yuan's performance at all and was actually going to directly imprison Ye Yuan.

Ye Yuan was dejected in his heart. He already acted until like this. Why didn't this old woman have any bit of compassionate heart at all?

This old woman asking this and that, wasn't it because she wished to find the whereabouts of dragon blood?

But Ye Yuan really did not lie. The dragon blood really only had one drop!

"Hey, you, this old lady, are so unreasonable! I've already explained it! Why are you still like this?" Ye Yuan said gloomily.

"*Humph!* You should be rejoicing that you landed in the hands of our Jade Faced Fairy Fox Clan. If you showed up in the territories of the Blackwind Demonic Wolves, they'll definitely kill you straight away, then refine your bloodline!" Yu Huan said with a cold snort.

Ye Yuan was covered in goosebumps by what she said. But he also knew that what Yu Huan said was true.

The Jade Faced Fairy Fox Clan was still a little amiable in the end. But the Blackwind Demonic Wolves were different.

Although the hierarchy in the demon race was very strict, it was hard to break free from the natural instincts of demonic beasts in the end.

Even though Ye Yuan already refined the true dragon blood essence and there was no way for other people to use it anymore, as long as one refined Ye Yuan's bloodline, they could likewise obtain a high-concentration level dragon race bloodline.

Even if such a bloodline could not compare to genuine true dragon blood essence, the Blackwind Demonic Wolves would not care so much!

One had to know that the dragon race's bloodline was incomparably precious. It had tremendous usage to all of the demon races.

Yu Huan expended such great effort was in order to find the whereabouts of dragon blood.

But Ye Yuan's reply made her very disappointed.

Through Yu Huan's words, Ye Yuan even discerned a little of something.

Seems like this God Prohibited Demon Region was not some otherworldly paradise either. When Yu Huan mentioned the Blackwind Demonic Wolves Clan, in her words evidently carried thick fear and hatred.

These two clans were probably not that harmonious.

Right at this time, a little white fox hurriedly entered the main hall and said anxiously, "Old Ancestor! Old Ancestor! Things are bad! Young Lord she . . . Young Lord she's on her last legs already!"

When these words came out, Yu Leng and Yu Shu they all turned pale with fear. Yu Huan's expression changed drastically too, vanishing like a gust of wind. She actually did not even bother with Ye Yuan anymore.

Ye Yuan noticed that when they heard this news, Yu Leng's entire person became unwell, slumping onto the ground dejectedly, her entire person battered out of her senses.

She gnashed her teeth at times but was downcast at times. The expression on her face became very fascinating.

Ye Yuan could not help becoming curious and asked Yu Shu softly, "Little Sister Yu Shu, that Young Lord of yours . . . what's wrong?"

Yu Shu started crying all along since earlier. At this time, she already cried until she was covered in tears. The rims of her eyes were already red from crying.

Seeing Ye Yuan question, Yu Shu choked through sobs and said, "Young Lord she was wounded by Wolf Fang in order to protect us! It's all us failing to live up to expectations. If our strength were slightly stronger, Young Lord also wouldn't have . . ."

But Ye Yuan also figured out a general idea through Yu Shu's words.

Turns out that this region the Jade Faced Fairy Foxes were at was called Azure Mountain Region. And the strongest clan in this Azure Mountain Region was this Blackwind Demonic Wolves Clan.

In comparison, the Jade Faced Fairy Fox Clan was weaker. The Blackwind Demonic Wolves Clan frequently bullied weak races like them, making them offer resources in tribute.

Some time back, the Blackwind Demonic Wolves Clan's young lord, Wolf Fang, brought a large group of people to the Jade Faced Fairy Fox Clan. They actually wanted them to offer up a Taking Form Stage Jade Faced Fairy Fox every year to become the other party's concubine.

Furthermore, Wolf Fang wanted to bring one away on the spot!

The Jade Faced Fairy Fox Clan's young lord was naturally unwilling to agree. Hence, a clash happened between both sides.

As a result, Wolf Fang beat the Jade Faced Fairy Fox Clan's young lord to serious injuries.

Earlier when that little fox came over, it was clearly because their young lord's wounds worsened. Looks like her days were numbered.

When Ye Yuan heard the incident's whole story, he could not help sighing too.

The demon race was actually even crueler than the human race. It had always been the weak as prey and the strong feasting. Whoever's fist was larger, they would be the boss.

The Jade Faced Fairy Fox Clan was merely just a bunch of small foxes that the Blackwind Demonic Wolves Clan were rearing in pens.

"Oh, right, your family's old ancestor is a Tier 6 powerhouse. How could she have let that whatever Wolf Fang come and mess around?" Ye Yuan said curiously.

Yu Shu wept and said, "At that time, Old Ancestor just happened to be in life-and-death seclusion. So she didn't know about this incident. Wolf Fang definitely knew that Old Ancestor was in closed-seclusion. That's why he chose that opportune moment to come. Otherwise, Old Ancestor won't let anything happen to Young Lord!"

Only then, was Ye Yuan enlightened. Looks like they totally calculated this chance accurately and came.

But Ye Yuan was secretly surprised too. The Jade Faced Fairy Fox Clan had a Tier 6 old ancestor holding down the fort. Then how formidable did the Blackwind Demonic Wolves Clan have to be?

At the very least, they also had to have a Tier 6 old ancestor holding down the fort, right?

Ye Yuan patted Yu Shu's lovely shoulder and said smilingly, "Alright, alright, don't cry anymore. If you keep crying, you won't be pretty anymore! How about this, you bring me over to your young lord's place. I'll have a look whether I can save her or not, alright?"

Yu Shu's tears finally turned into a smile when she heard. Grabbing hold of Ye Yuan's arm, she asked agitatedly, "Really? Big Brother Ye Yuan, you can really save Young Lord?"

Yu Shu's little hand was very soft. Ye Yuan felt a fragrance hit his nose, enjoying it very much.

"About that . . . I don't dare to guarantee either. But it should be doable!" Ye Yuan said with a smile.

Who knew that at this time, Yu Leng stood up with a jump and pressed Ye Yuan, "You're really able to save Young Lord?"

Ye Yuan was taken aback by Yu Leng's actions. He did not expect that her reaction would be so big. But he still nodded and said, "As long as she hasn't died, there's always the chance to save her. Uh . . . But you still have to let me see her first before it can be done!"

Yu Leng's eyes glared, and she said, "If you dare to deceive you, I'll definitely kill you personally!"

Ye Yuan's expression changed when he heard that and was just about to fly off the handle, but he was stopped by Yu Shu.

"Big Brother Ye Yuan, you don't get angry. Elder Sister Yu Leng is only like this because she's agitated for a moment! The last time Wolf Fang came here, the person he chose was precisely Elder Sister Yu Leng. So she blames herself more than any one of us! Actually, Elder Sister Yu Leng wasn't like this last time. Ever since Young Lord met with the mishap, her entire personality changed. She cultivates day and night because she wants to increase her strength." Yu Shu explained.

Yu Leng shot a glare at Yu Shu and reprimanded, "What are you telling him that for?"

Yu Shu stuck out her tongue and lowered her head, not daring to rebut.

Ye Yuan originally disliked Yu Leng a lot. But hearing Yu Shu's words, he forgave Yu Leng.

Anyone who encountered such a thing, their temperament would change greatly too.

Hearing them say so much, Ye Yuan unwittingly somewhat took pity on the Jade Faced Fairy Fox Clan.

Ye Yuan nodded his head at Yu Leng and said, "Fine then. I promise you all to definitely save your young lord! *Heh*, I don't believe that in this world, there are still people that I, Ye Yuan, can't bring back to life. . . *Uh*, no, it should be demon!"

Unrivaled Medicine God

Chapter 630: Bringing Back from the Dead

Ye Yuan entered a shabby thatched house. Mournful weeping sounds came from inside.

"Make way, quickly make way! That little fox hasn't died yet. What are each one of you wailing like it's a funeral for?" Ye Yuan raised a hue upon entering the house.

Ye Yuan parted the crowd and saw a snow-white little fox lying on the bed. It was just that the fox's fur was stained with a fair bit of blackish-red colors. Clearly, it suffered very heavy injuries.

That little fox was severely wounded and on the verge of death at this time. Clearly, it was already unable to maintain human form and transformed back to its original body's appearance.

Yu Huan was currently sitting by the bedside. Seeing Ye Yuan shouting and wrangling, her brows involuntarily furrowed, "Xin-er is already on her deathbed. You shouting and wrangling like this, are you tired of living?"

If not that she was holding Yu Xin in her hands and was inconvenient to get angry, she would probably have killed Ye Yuan directly already at this time.

Ye Yuan shot a glance at Yu Huan and said unhappily, "Old lady, if you don't wish to let her die, then move aside obediently for me! I'll give you three breath's time to consider. If you don't move aside, then I'll wash my hands off this and leave!"

When Yu Huan saw Ye Yuan's appearance, she could not help being stunned too. She did not think that Ye Yuan was so domineering and did not give her the chance to speak at all!

Her facial expression flickered irregularly, but Ye Yuan already started to countdown.

“Three breaths!”

“Two breaths!”

When Yu Shu saw that Yu Huan was still hesitating, she could not refrain from saying anxiously, “Old Ancestor Yu Huan, let Big Brother Ye Yuan give it a try?”

“One breath!”

“Wait!” Yu Huan finally spoke.

She put down that little fox gently and came in front of Ye Yuan, saying fiercely, “If I find out that you’re fooling me, I’ll make you wish you were dead!”

Ye Yuan was disinclined to bother with her. He directly circled around Yu Huan and came in front of the bed to inspect that little fox’s wounds.

He suddenly turned his head around and said, “What are you looking at? Why haven’t you brought them to scram outside? Don’t stand here and hinder me! *Uh* . . . Let Yu Shu stay behind. The rest all get lost!”

“You!” Yu Huan wanted to flare up, but she forcefully held it in and said to everyone, “All go outside for me!”

Although she went out as well, Yu Huan was very displeased with Ye Yuan.

This brat actually dared to tell her to get lost. Truly tired of living!

If he could really save Xin-er, it could naturally be settled. If he could not save, then he would have to suffer her thunderous rage.

“Old Ancestor, wasn’t that person just now human? He can treat Young Lord’s injuries?”

“Yeah. Old Ancestor, how can a human martial artist possibly treat our demon race’s injuries? Furthermore, Young Lord’s injuries, even you yourself personally taking action are helpless too.”

“Old Ancestor, in my view, that human definitely doesn’t have good intentions! He knows that he can’t live already, so he’s deliberately here to cause trouble!”

.

Everyone’s tongues were wagging. All in all, they all did not believe that Ye Yuan could treat Yu Xin’s injuries.

The demon race’s alchemy skills and human race’s alchemy skills were two entirely different systems.

Extremely few human alchemists knew the treatment of the demon race.

This human race youth was at most just in his teenage years. How could he possibly know the demon race’s treatment ways?

Moreover, after Yu Xin suffered injuries, Old Ancestor Yu Huan used many methods before she could sustain her life until now. The shamans in the clan already used all of their power and were all unable to preserve Yu Xin’s life.

Just based on this human who came from God knows where, was it possible?

Actually, how could Yu Huan not know this logic?

It was just that Yu Xin was her only granddaughter. Looking helplessly as she was going to breathe her last, the agony in Yu Huan's heart was simply hard to describe.

Hence, though Ye Yuan's words earlier were unbridled, it gave her the last strand of straw to clutch at.

"All shut up for me!" Yu Huan's mind was also in a whirl right now and could not refrain from blowing her top.

"Ah! Young Lord!" Yu Shu suddenly exclaimed with a cry.

The moment Yu Huan heard this voice, her expression involuntarily changed drastically!

"Boy, I'll kill you!"

Yu Huan rushed straight into the thatched house, bringing a pressure that made people feel asphyxiated. Yet, once she entered, her entire person was paralyzed there. A jade-like beauty was lying on the bed. That frail little fox was already gone.

Who could that beauty be if not Yu Xin?

To be able to take human form indicated that Yu Xin already recovered some vitality.

"Who do you want to kill?" Ye Yuan rolled his eyes and said unhappily.

Yu Huan could not help choking up. That outrageously imposing momentum on her body instantly dissipated away into nothing. What replaced it was incomparable awkwardness on her face.

She did not even figure out the situation and was going to kill people. It would be weird if Ye Yuan would be happy.

Actually, in her subconscious, Yu Huan did not think that Ye Yuan had the capabilities to treat Yu Xin either. So when Yu Shu cried out just now, she instinctively thought that something happened.

Who knew that Yu Shu's exclamation earlier was because she felt that it was too unimaginable.

"You this old granny. Don't yell about killing at every turn, alright? If you have the capabilities, you go and find that whatever Blackwind Demonic Wolves' old ancestor to throw your weight around. Is it interesting to play this with a junior like me?" Ye Yuan put away the gold needle in his hands and said huffily.

This set of golden needles was swiped from Ren Xingchun there. Although it did not quite meet the requirement, it was also barely passable to use.

What he employed to treat Yu Xin was precisely his self-created 72 Cycle Path Needling Technique.

Now, Ye Yuan's strength could no longer be compared to the past. Executing this set of needle technique again, it truly had abilities that even gods and devils could not predict.

Being scolded by Ye Yuan like this, Yu Huan actually had nothing to say in response.

Ye Yuan's words were coarse, but the logic was not. How could she dare to find the Blackwind Demonic Wolves' old ancestor to go and throw her weight around? What difference was there from courting death?

"You . . . You treated Xin-er?" Yu Huan was still worried about Yu Xin's safety, so she could only toughen her scalp and asked.

"Treated? How can it be that easy? Not that I'm lecturing you, but what kind of messed-up fellows are the shamans in your clan? Your young lord was already injured until like this and they actually still used Nishang Fruit to extend her life. Isn't this quenching a thirst with poison? Do you understand the logic of frailness can't withstand nourishment or not? Although this thing is very nourishing, it's no different from poison to this young lord of yours! Really messing around!" Ye Yuan fired a volley of scolding to her face.

He diagnosed for Yu Xin earlier and discovered that this bunch of people, in order to extend her life, they used every kind of crap.

Originally, her injuries could still drag for a while. But Nishang Fruit this kind of great tonic nearly took Yu Xin's life directly.

Yu Huan was very concerned about Yu Xin's injuries at this time but did not dare to raise her voice at Ye Yuan. She could only keep her cool and ask, "Xin-er she . . ."

Ye Yuan glanced at Yu Huan and said coolly, "The person is fine for the time being. But to want to recover to her peak condition, it still needs to work with medicinal pills! This is an inventory list of materials. Collect fully within ten days for me. Additionally, arrange for me a quiet place. I need to enter closed-seclusion! Ten days later, I'll come and refine the medicinal pills."

Although the 72 Cycle Path Needling Technique was incomparably profound, it could not fully replace medicinal pills.

For ordinary injuries and ailments, Ye Yuan could completely treat using the needle technique. But if the injuries were too severe, it was impossible to recover without the assistance of medicinal pills.

This Yu Xin already had one foot into the gates of hell previously already. Ye Yuan using the needle technique naturally had no way of letting her recover. It could only let her slightly recover some vitality.

To want to recover fully, medicinal pills must be used!
