Chapter 631: Four Symbols Phantoms!

The medicinal pill that Ye Yuan wanted to refine was named Skandha Ancient Spirit Demonic Pill, a Tier 5 low-grade demonic pill!

Without any doubt, this kind of medicinal pill that Ye Yuan wanted to refine needed to expend a considerable price.

The refining difficulty of Tier 5 medicinal pills was on completely different levels from the medicinal pills he refined in the past. Furthermore, Ye Yuan's pill formulas, which one was easy to refine?

Actually, Ye Yuan did not have any connections with Yu Xin. But Ye Yuan finally still decided to help her refine the Skandha Ancient Spirit Demonic Pill.

Just as Yu Huan said, this Jade Faced Fairy Fox Clan was indeed good-natured. If it were some other demon race, it probably would not be that easy for him to want to go through such ordeal.

Furthermore, for Ye Yuan to want to survive in this God Prohibited Demon Region, he had to attach to a faction. Otherwise, with his human race identity, he would really become a rat running across the streets that everyone cries out to kill.

It was also uncertain what kind of existence this God Prohibited Demon Region was. There were actually Tier 6 powerhouses in here!

Moreover, looking at the current circumstances, Tier 6 experts were bound to not be as simple as just one or two.

With many considerations, Ye Yuan still decided to refine the Skandha Ancient Spirit Demonic Pill.

Of course, in this still had Yu Shu, that innocent little lass's contribution.

After Ye Yuan went into closed-seclusion, he refined the Tier 4 cultivation medicinal pills, Heavenly Sea Essence Increasing Pill.

Along the way, Ye Yuan really stored up quite a bit of Tier 4 spirit medicines. Relying on the resources at hand, refining some Heavenly Sea Essence Increasing Pills were more than sufficient.

Ye Yuan planned on making use of this ten day's time to impact the Second Level Soul Sea.

Although his essence energy was much thicker compared to ordinary martial artists right now, to want to refine Tier 5 medicinal pills, it was still somewhat struggling to make ends meet. To be able to increase a bit was a bit.

After ten days, under the assistance of the Heavenly Sea Essence Increasing Pills, Ye Yuan broke through to the Second Level Soul Sea in one stroke!

Right then, the spirit medicine inventory Ye Yuan wanted had arrived too. It was delivered personally by Yu Huan.

“These are all Tier 5 spirit medicines. You can refine medicinal pills?” Yu Huan said doubtfully.

“If you don’t believe me, you can take them away. Do you think that I want to refine medicinal pills for you all?” Ye Yuan replied unreservedly.

Yu Huan could not help choking up when she heard that. As the Jade Faced Fairy Fox Clan’s old ancestor, when had anybody dared to speak this way to her before?

Yet, this brat in front of her, his temper was unusually bad. As luck would have it, she still had the need for his help and could not do anything to him.

The gloominess in Yu Huan’s heart could only be imagined.

“Alright then. I’ll have to trouble you with this matter. If you can really treat Xin-er, you’ll be our Jade Faced Fairy Fox Clan’s honored guest! Whatever request you have, just state them.” Yu Huan compromised.

Ye Yuan waved his hand and said, “I don’t have other requests. You just don’t imprison me in the dungeons for the rest of my life will do!”

Yu Huan was embarrassed again. She discovered that she forever could not gain any advantage in front of Ye Yuan, so she could only leave.

Ye Yuan kept the spirit medicines and entered closed-seclusion again.

Ye Yuan took out the Square Cauldron, got everything ready, and started to prepare to refine the Skandha Ancient Spirit Demonic Pill.

But before this, Ye Yuan let Xiao Ruyan and Ren Dong out.

Towards his disciples, Ye Yuan would never hoard. His serious attitude towards refining pills, there was a need for them to experience it. It was beneficial to their growth.

“I’m going to refine a Tier 5 medicinal pills, Skandha Ancient Spirit Demonic Pill. You guys watch closely,” Ye Yuan said nonchalantly.

Xiao Ruyan and Ren Dong exchanged a glance and were shocked to their core.

Wasn’t their master too monstrous? Just initial-stage Alchemy King Realm and he was going to refine a Tier 5 medicinal pill?

Ye Yuan did not explain too much and started to refine the pill straight away. Xiao Ruyan and Ren Dong did not dare to delay, staring at Ye Yuan without moving their gazes.

“Four Symbols Spirit Gathering Art, activate!” Ye Yuan sucked in a deep breath and cried out lightly.

Ye Yuan suddenly erupted, displaying this alchemy skill seen again after a long absence.

This Four Symbols Spirit Gathering Art was not considered a very profound alchemy skill to Ye Yuan. But to the current him, the strain was still quite big.

If not for Ye Yuan refining dragon’s blood and the blood vitality of his physical body being exuberant, he might not even be able to hang in there.

Even so, Ye Yuan did not dare to spurn it the slightest bit either.

Refining Tier 5 medicinal pills with his current cultivation realm, he must pull out all stops!

When Ye Yuan was at the Sea Transformation Realm, it was actually very awkward, because he had no way of crossing realms to refine Tier 4 medicinal pills.

Because after breaking through to the Sea Transformation Realm, soul force did not increase much. Refining Tier 4 medicinal pills were actually equivalent to crossing two major cultivation realms to refine. This was simply impossible.

But in the wake of his cultivation realm breaking through to the Soul Sea Realm and transcending the soul tribulation, his divine soul already had a qualitative leap!

Even though Ye Yuan's current soul force was only Peak initial-stage Alchemy King Realm, it was much thicker compared to normal people.

Adding in his unpredictable alchemy skills, could it be possible to transform the rotten into something magical, refining a Tier 5 medicinal pill!

Under the astonished gazes of the two disciples, the originally incohesive medicinal embryo gradually condensed and formed!

"Master, this is simply god-like alchemy skills! When I was in the Xiao Family before, I always thought that I was very incredible already. Only now do I know that I haven't even learned the rudiments!" Xiao Ruyan did not dare to interrupt Ye Yuan and transmitted her voice to Ren Dong.

Ren Dong nodded and said, "Simply a marvelous work of art! I truly have no way of imagining that alchemy skills can actually be trained to such a realm! I feel that with my natural endowments, cultivating for another thousand years and I won't reach Master's level either!"

"Actually, we don't need to belittle our capabilities either! With Master's alchemy skills, him willingly taking us in in itself already indicated many problems. Maybe we won't reach his realm in our entire lives. But compared to other alchemists, we're already much stronger," Xiao Ruyan said.

"En, that's true! This period of time following Master, my alchemy skills already advanced with astonishing progress. I even have a feeling that I absolutely won't be worse than Grandfather when refining Quasi-Tier 4 medicinal pills now!"

Ren Xingchun followed Ren Xingchun to refine pills since young and had a clear understanding of Ren Xingchun's standards.

He could already cultivate a Tier 2 alchemy skill to the Legendary Realm right now. His foundation skills were god knows how many times more solid than before.

Quantitative change to qualitative change. Ren Dong's present alchemy skills already could not be compared to in the past already.

Although he was still a high-rank Quasi-Alchemy King now, he was already on a completely different level from before.

“That . . .”

Xiao Ruyan suddenly saw something and nearly exclaimed in shock. Luckily, Ren Dong reacted fast and hurriedly used his hand to cover her mouth.

“Senior Apprentice Sister, do you want to die?! Master’s pill refinement reached the most critical time. You yelling out like this, he’ll kill you!” Ren Dong’s forehead was covered in cold sweat as he transmitted his voice.

Actually, the shock in his heart was not any bit lesser than Xiao Ruyan’s. It was just that he did not jump and freak out like Xiao Ruyan.

Only when Xiao Ruyan looked at Ren Dong and nodded her head to signal that she got it, did Ren Dong loosen his hand.

“Those were . . . Four Symbols Phantoms! Master he actually brought out Four Symbols Phantoms when he’s refining pills!” Xiao Ruyan said, not daring to believe it.

At this time, on the four bearings of the Square Cauldron, four faint phantoms were currently slowly forming!

These four phantoms were none other than precisely the Azure Dragon, White Tiger, Vermilion Bird, and Xuan Wu, the Four Divine Beasts!

And among them, the Azure Dragon phantom was the most distinct!

[Unrivaled Medicine God](#)

Chapter 632: Tier 5 Transcendent-Grade!

The Four Symbols were the spirits of heaven and earth.

Ye Yuan being able to condense the Four Symbols Phantoms when refining medicinal pills indicated that he produced some sort of resonance with heaven and earth.

Xiao Ruyan and Ren Dong were both not rookies. They were naturally aware of how profound a level condensing the Four Symbols Phantoms represented!

Although the Four Symbols Spirit Gathering Art’s nomenclature was the Four Symbols, barely any people who could coalesce the Four Symbols Phantoms could be found in the entire Divine Realm too.

Right at this time, Ye Yuan suddenly brought out the Profound Water Flag!

“Profound Spirit Nine Aperture Formation, form!”

Ye Yuan’s hands were akin to weavers at this moment. That sort of exquisiteness was brilliant to the max.

Try thinking about it, inscribing an array formation into such a small medicinal pill, how nimble a pair of hands did that require?

Xiao Ruyan and Ren Dong were long mesmerized from looking already. Ye Yuan’s pill refinement this time refreshed their understanding towards the alchemy path once more!

They both had a feeling currently: *Turns out that medicinal pills can be refined like this!*

“Four symbols condense, medicinal pill form! Condense for me!”

Ye Yuan gave a light cry. The Four Symbols Phantoms emitted a series of light cries and sunk into the Skandha Ancient Spirit Demonic Pill!

Finally, dust settled.

Same as crossing realms to refine medicinal pills in the past, Ye Yuan was already exhausted until he could not take it anymore at this time. He hurriedly consumed the medicinal pills prepared ready and started adjusting his breathing.

Xiao Ruyan and Ren Dong, the two of them, were still standing there in a daze and did not come back to their senses for a while.

The impact of the scene during Ye Yuan condensing the pill brought to them was seriously too great!

With Xiao Ruyan and Ren Dong, the two people’s identities, they had naturally seen before Alchemy Sovereign experts refining pills. Especially Ren Dong. He followed by Ren Xingchun’s side since young. That was a peak Alchemy Sovereign expert!

But they had never seen before any pill refinement where the commotion would be so big.

Integrating the Four Symbols Phantoms into the medicinal pills. What did that signify?

That signified that this medicinal pill obtained the recognition of Heavenly Dao! It represented a kind of resonance between Ye Yuan and heaven and earth!

What kind of grade would a medicinal pill like this reach?

“Go . . . Go and take a look?” Xiao Ruyan swallowed her saliva and asked Ren Dong.

Ren Dong had an expression of yearning and nodded his head deeply.

The two people plucked up their courage and came to the Square Cauldron’s side, opening the cauldron dexterously and retrieved the pill.

When they saw that sparkling and crystal-clear, without any impurities medicinal pill in the jade tray, they involuntarily drew a deep breath once more.

Transcendent-grade! Transcendent-grade again!

An alchemist at the Alchemy King Realm actually refined a Tier 5 transcendent-grade medicinal pills!

This was simply an accomplishment that surpassed ancient and modern times!

The two people surrounded that medicinal pill and walked around in circles like this, as if they were looking at a work of art. Tongue-clicking sounds and sighs of admirations came out of their mouths every now and then.

“The refinement this time, any inspiration?”

The two people were currently wishing to dissect the medicinal pill when Ye Yuan's voice suddenly sounded beside their ears. Ye Yuan had already finished adjusting his breathing since god knows when and was standing behind them.

Ren Dong was startled and hurriedly straightened his body. He nodded his head, thought about it, and then shook his head.

"Master, I seemed to have grasped a little something, but . . . it's like I didn't grasp anything. Like the reflection of the moon in water," Ren Dong said honestly.

Ye Yuan smiled and looked at Xiao Ruyan and said, "You too?"

Xiao Ruyan's face turned red, and she nodded her head.

This way of saying it sounded perfunctory no matter how one listened to it.

Did not understand means did not understand. Pretending for?

But Ye Yuan smiled and said, "Your understanding towards the alchemy path is still too shallow! The Alchemy Dao is a Great Dao. When cultivated to an exceedingly high realm, it can reach the gods too! It's just that the Alchemy Path is overly arduous and intricate. The time and energy expended are a few times, even dozens of times that of the Martial Path. So there are extremely few people who can walk to the pinnacle. The Alchemy Path and the Martial Path are the same; They both contain the maxim of heaven and earth within. The alchemy skills that you guys practice are all the crystallization of the forefathers' wisdom. No matter how low rank the alchemy skill, in them has some hard to describe things. This is also the reason why I made you start over from the basics! A myriad of Great Daos, all lead to the same goal. Understand?"

Ye Yuan finished talking. The two people both revealed ruminating looks.

The things that Ye Yuan talked about already came into contact with the core of the Alchemy Dao.

Ever since following Ye Yuan, the two of them had been polishing foundational alchemy skills all along and did not study any profound alchemy skills intensively.

Previously, they knew the how but not the why all along. Today, through Ye Yuan's tiny bit of pointer, they finally saw the light!

Ren Dong seemed to have understood something and said excitedly, "No wonder! No wonder I'm getting more and more proficient when I'm refining high-rank Quasi-Tier 4 medicinal pills now. Turns out that it's this reason! Master, I understand!"

Xiao Ruyan had a look of excitement too as she said, "Ah! So that's how it is! Master, I got it!"

.....

When Yu Huan received the Skandha Ancient Spirit Demonic Pill, her mouth could not close together for a while. Her jaws nearly drop the ground.

Even though she prepared these spirit medicines for Ye Yuan, she did not really count on him being able to refine it.

Ignoring other things, just Ye Yuan bringing Yu Xin back to life this regard, she would not really do anything to Ye Yuan either.

But when she saw this transcendent-grade medicinal pill in her hands, her opinion of Ye Yuan was completely subverted already!

This was a transcendent-grade Tier 5 medicinal pill!

Could those shamans in the clan refine transcendent-grade Tier 5 medicinal pills?

Furthermore, Ye Yuan was even a human!

More importantly, Ye Yuan was only Alchemy King Realm!

Crossing realms to refine a transcendent-grade Tier 5 medicinal pill. Was this what humans could accomplish?

Ye Yuan was stared at by Yu Huan until his scalp tingled a little. He could not refrain from saying, "What are you looking at? Are there flowers on my face?"

Only then did Yu Huan startle awake. She coughed dryly twice to cover up her embarrassment and said to a young girl by the side, "Yu Xin, it was Little Brother Ye who saved you. Why haven't you quickly give thanks?"

After ten over days, this Yu Xin could already get down and walk. It was just that the aura on her body was still very feeble. Most likely, even a Spirit Condensation Realm martial artist that came over could easily defeat her.

This Yu Xin's two eyes were like water; she had delicate and dainty fingers, and cream-like skin. She was truly an all-around beauty.

But Ye Yuan knew that the fox race was innately seductive. After taking form, they were all unparalleled beauties. It was just that this Yu Xin clearly stood out more among the rest.

Yu Xin got Yu Huan's pointer and gave a bow towards Ye Yuan and said, "Yu Xin thanks Mister Ye's life-saving grace very much!"

These ten days, Yu Xin's ear nearly had calluses rubbed out by 'Ye Yuan,' these two words.

She had originally given up on the hope of surviving already. But this man before her eyes forcefully pulled her back from the gates of hell!

Not just that, this man was actually even helping her to refine a medicinal pill to help her recover her strength.

All along, it had only been hearing the name but never seeing the person. Today, she finally saw his real face.

Except, hearing that Ye Yuan was just a Soul Sea Realm martial artist previously, this matter of refining medicinal pills was treated by her as a joke to listen to.

A Tier 4 martial artist refining Tier 5 medicinal pills? You've got to be kidding!

It was just that she never could have dreamed that not only did Ye Yuan refine it, but it was also even a transcendent-grade Tier 5 medicinal pill!

This sort of thing simply surpassed her understanding!

“Haha! Miss Yu Xin don’t need to be polite. If you want to thank, then go and thank Little Sister Yu Shu. I only refined a medicinal pill for you on account of her face!” Ye Yuan waved his hand and said.

[Unrivaled Medicine God](#)

Chapter 633: Azure Spirit Tree's Information

Yu Xin finished cultivating. She had never felt this great before!

Consuming the Skandha Ancient Spirit Demonic Pill that Ye Yuan refined for her, not only did Yu Xin’s body recover fully, her strength advanced a step further too, reaching Peak Tier 5 initial-stage!

Recalling the wording when Ye Yuan gave her the medicinal pill, Yu Xin could not help smiling bitterly.

This man was so senseless about other people’s feelings!

She was the young lord of the Jade Faced Fairy Fox Clan. Other people could not even wait to suck up to her.

Ye Yuan rendered such a great service and actually brushed it over with an ‘on account of Yu Shu’s face.’

“This Skandha Ancient Spirit Demonic Pill is too miraculous. I really don’t know where he got the pill formula from.”

“Just what kind of person is this Ye Yuan?”

Yu Xin discovered that she seemed to be full of interest towards this man who suddenly appeared.

“Yu Xin, have you finished refining the Skandha Ancient Spirit Demonic Pill?”

Right at this time, Yu Huan’s voice suddenly sounded out.

“Yes, Grandmother. Yu Xin has already finish refining. Please come in.”

Yu Huan pushed the door and entered. When she discovered that Yu Xin’s cultivation had actually advanced, her feet involuntarily stopped.

“Yu Xin, you . . . you actually broke through!”

Astonishment was written all over Yu Huan’s face. She never would have thought that this Skandha Ancient Spirit Demonic Pill was actually so powerful, letting Yu Xin break through directly!

Yu Xin said with a bitter smile, *“This life of Xin-er’s is considered to have been sold to Mister Ye.”*

Yu Huan’s expression changed several times, and she finally heaved a long sigh and said, *“Really didn’t expect that a foreign human who suddenly barged into my clan’s territory actually became your savior. Perhaps, this is fate.”*

.....

“You guys are saying, let me casually state the terms?” Ye Yuan looked at Yu Huan and said with a smile that was not a smile.

Yu Huan was deeply affected by Ye Yuan’s attitude. This expression was clearly looking down on the Jade Faced Fairy Fox Clan!

“That’s right. I already don’t have many years left. Xin-er is my clan’s most outstanding junior. You saving her is equivalent to saving our entire Jade Faced Fairy Fox Clan. Therefore, no matter what requests you have, I can satisfy them,” Yu Huan said.

Towards Ye Yuan’s attitude, Yu Huan was very disdainful.

She was, at any rate, a Tier 6 expert too. Could it be that she still could not satisfy a Soul Sea Realm brat’s request?

Who knew that Ye Yuan shook his head and said with a smile, “What I want, you really can’t give. I wonder if your Jade Faced Fairy Fox Clan has an Azure Spirit Tree?”

When Yu Huan heard, her brows involuntarily furrowed, “Azure Spirit Tree? Are you messing with me? Azure Spirit Tree is a spirit flora of heaven and earth; it is elusive with its whereabouts. Where will I find an Azure Spirit Tree for you?”

Ye Yuan shrugged his shoulders and said, “You see, I said that you can’t take it out, right?”

Actually, Ye Yuan entering deep into the Endless Forest, apart from avoiding Ding Liang’s pursuit, there was still an objective, which was in order to find the Azure Spirit Tree and relieve Yue Mengli’s divine soul tearing agony.

Seeing as the two year date was gradually approaching, the medicinal herbs that Ye Yuan concocted were almost unable to suppress her ailment already.

If he still did not find the Azure Spirit Tree, Yue Mengli’s life would be in danger at any time.

Yu Huan was just about to fly off the handle when Yu Xin by the side suddenly spoke up, “Grandmother, don’t get angry first. Could it be that Grandmother forgot the news that Dongming Region sent over ten years ago?”

Ye Yuan was just randomly saying and did not think that there was really something. He could not resist asking, “What news? Quickly say!”

Ye Yuan naturally knew how difficult the Azure Spirit Tree was to find. So he did not harbor any hope at all.

Azure Spirit Tree was one of heaven and earth’s spiritual roots. Since birth, it would have spirituality. When it matured to a certain degree, it could even soar to the skies and tunnel underground. Its whereabouts are unpredictable and extremely hard to find.

Yu Xin said, “Mister Ye, don’t be anxious. This news is still from ten years ago; we also don’t know if it’s true or fake.”

“Forget whether it’s true or fake, quickly say what’s it about!” Ye Yuan urged.

Yu Xin nodded and said, "Ten years ago, Dongming Region's Moyun Mountain, the story goes that somebody saw an Azure Spirit Tree before. But that person tracked the Azure Spirit Tree for three days and night and still lost it in the end."

Ye Yuan mused for a moment and said, "Just this? Can you say a little more in detail?"

"It was said that that person used all kinds of methods, but not only did he not catch the Azure Spirit Tree, but he was also hurt by the Azure Spirit Tree instead."

"Who's that person?"

"Darkfiend Tiger Clan's incumbent Clan Head!"

Mentioning this Darkfiend Tiger Clan Head, Yu Xin's words carried thick awe and veneration.

Very clearly, this clan head was not someone easy to deal with.

Ye Yuan nodded when he heard that and said, "Okay, I got it. Thank you very much, Miss Yu Xin."

"Does Mister Ye wish to go to Dongming City?" Yu Xin suddenly asked.

"*En?* Why? Is there anything wrong?" Ye Yuan said curiously.

"The Darkfiend Tiger Clan is one of the overlords of the entire God Prohibited Demon Region. They are very averse to outsiders, much less humans. Mister Ye . . ."

Ye Yuan smiled and said, "Not hiding from Miss Yu Xin, I'm finding this Azure Spirit Tree for the sake of saving a friend. No matter how difficult, I must go too!"

Ye Yuan said it very nonchalantly, but Yu Xin's heart trembled.

Martial artists were mostly selfish. Those able to do their utmost for friends were not many.

Disregarding how strong the Darkfiend Tiger Clan was, just talking about this Azure Spirit Tree itself, it was extremely hard to deal with already.

"Mister Ye is very honorable!" Yu Xin praised.

"*Huhu*, I merely owe her a favor, far from being honorable or whatever. *Oh*, right, I have a question to ask you two. If it's not convenient to answer, just forget it," Ye Yuan said.

"*En*, you ask away. What I can say, I'll naturally say."

Yu Huan hearing that Ye Yuan dared to take this risk for the sake of a friend, she was slightly moved in her heart too.

She had a sharp tongue but soft at heart personality, and she had actually long regarded Ye Yuan as one of them already.

"This God Prohibited Demon Region is just a tiny region in the Endless World. But the territory inside is so vast. Could it be that this place formed a world on its own? The Endless World is only a middle-order small world and is completely unable to accommodate Tier 6 experts. Why are there actually so many Tier 6 experts here?" Ye Yuan asked his doubt.

With Ye Yuan's present cultivation realm, he could not sense the power of space at all.

But he could faintly sense that this place was probably not such a simple place.

Once the experts here were placed outside, forget about the Endless World, even the Fierce Gale World, they could sweep across too!

Even the Jade Faced Fairy Fox Clan, a small clan like this, had a Tier 6 expert, let alone the other clans.

It was just that Ye Yuan was very curious why inside the Endless World, such a small world would be adjoined.

"This . . ." Yu Huan could not help hesitating when she heard Ye Yuan's words.

"*Haha*, I was just casually asking. If it isn't convenient to speak, just leave it at that," Ye Yuan said without a care.

"Not that it isn't convenient to tell, but I'm unable to answer you at all. Because I don't know the origins of the God Prohibited Demon Region as well. Our demon race has all lived here for generations, and our Jade Faced Fairy Fox Clan is just a bottommost faction. I heard that those powerful factions even have Tier 7 experts existing," Yu Huan said.

Even though Yu Huan was a Tier 6 demon, she was just an existence at the bottom rung of the God Prohibited Demon Region; simply could not come into contact with many secrets.

When Ye Yuan heard Yu Huan's words, he was greatly startled inwardly too.

This place actually had Tier 7 experts!

[Unrivaled Medicine God](#)

Chapter 634: Thunder Essence Fruit Grove

Tier 7 powerhouses!

Just how stable did this space have to be to be able to accommodate Tier 7 powerhouse existences?!

At least, Ye Yuan knew that other than an extremely few numbers of several highly stable special worlds, it was simply impossible for Tier 7 experts to exist in the Lower Realms.

And those worlds, Ye Yuan knew all of them. It was definitely not the Endless World.

Then just what kind of existence was this God Prohibited Demon Region before his eyes?

Ye Yuan suddenly discovered that this Endless World was really a mystical place. Although the world-order was not high and the aboriginals did not have much strength either, it hid numerous secrets.

Even him, a Divine Realm's former pinnacle existence, could not figure out this small world's actual situation too.

A special space like the God Prohibited Demon Region absolutely had its own secrets!

It was just that looking at Yu Huan's appearance, she was probably unaware.

"Fine then. Looks like there is a need to make a trip to Dongming Region."

Ye Yuan was also filled with curiosity towards this God Prohibited Demon Region. At the same time he was seeking out the Azure Spirit Tree, he naturally had to explore a bit too.

He had a feeling that this God Prohibited Demon Region was probably not formed naturally but created by people.

If not for this, it was impossible for humans to not exist here and would also not kill humans when they see them.

Which was also to say that somebody deliberately passed down this ancestral teaching in order to isolate here from the outside world.

And in truth, it was also impossible for the Endless World to have humans able to pass through the Essence Devouring Confounding Fog and enter here, apart from Ye Yuan.

Then to be able to split open such a space that could accommodate the God Prohibited Demon Region, how formidable a strength did that person have to be?

But Ye Yuan knew that even existences like the Ten Great Divine Kings could not possibly achieve this either!

This way, then there was only one explanation: Deity Realm powerhouse!

Only Deity Realm powerhouses had the strength to split open such a special space!

Any and all things that touched upon Deity Realm, Ye Yuan was naturally very interested.

To want to reach the Deity Realm, one must unravel the secrets of Deity Realm vanishing.

And these secrets, so many experts in the Divine Realm searched for so many years, but no one was able to unravel its secret.

Ye Yuan attempted to understand a little in the past too. But the things that he discovered in his past life was not even as many as this life.

Regardless whether was it the Divine Script, or the mysterious black bead, or the Vast Heaven Pagoda, or even this God Prohibited Demon Region, this Endless World seemed to be linked in countless intricate ways with Deity Realm.

Him reincarnating into the Endless World, was it also an arrangement foreordained by the heaven?

Yu Huan and Yu Xin naturally did not know Ye Yuan's thoughts. Seeing Ye Yuan say that he wanted to go to Dongming Region, Yu Huan said, "It's too dangerous for you to go to Dongming Region by yourself. This elderly self still has to hold down the fort in the clan and isn't convenient to travel with you. Since you saved Yu Xin, let her follow you. At least she can also be a guide for you."

Ye Yuan nodded and said, "Since that's the case, then thank you very much, Old Ancestor!"

Ye Yuan did not refuse. This God Prohibited Demon Region, he was completely blind to the situation, and indeed he needed a guide. If he walked by himself, who knows how much unnecessarily long way he would have to walk.

The three people were currently chatting away when Yu Shu ran in in a flustered manner and said urgently, "Old Ancestor, not good, not good! Elder Sister Yu Leng and the Darkshadow Lightning Snake Clan people had a clash, and they were injured by them!"

Yu Xin's expression changed abruptly, and she said, "What? What happened? Why would Yu Leng get into a conflict with the Darkshadow Lightning Snake Clan for no reason?"

Yu Shu said, "Elder Sister Yu Leng brought us to patrol outside. The result was that we discovered an area of Thunder Essence Fruit Grove! Except, that stretch of Thunder Essence Fruit Grove is situated right at the borders of our land and the Darkshadow Lightning Snake Clan's boundary, and they also discovered that fruit grove as luck would have it. The Darkshadow Lightning Snake Clan people were very overbearing and insisted that the Thunder Essence Fruit Grove was discovered by them. Elder Sister Yu Leng argued strongly on just grounds, in the end . . . in the end . . ."

In the end, she was naturally wounded!

Ye Yuan listened carefully by the side and knew that this result was bound to happen too.

With Yu Leng's personality, there was bound to be a conflict with the Darkshadow Lightning Snake Clan.

However, when Ye Yuan heard 'Thunder Essence Fruit' three words, his eyes involuntarily radiated a light too.

This Thunder Essence Fruit was a rare thing. It inherently had the power of lightning and could help martial artists cultivate out the Concept of Thunder!

The incredible aspect of this Thunder Essence Fruit was that it did not require comprehension. One just had to directly swallow it down and refine it, and it could let their essence energy carry the Concept of Thunder; an extremely heaven-defying heaven and earth spirit fruit.

To think that upon entering the God Prohibited Demon Region, he encountered such a treasure.

Heaven and earth treasures, those fated would get them.

Since Ye Yuan heard about this thing, it was naturally impossible for him to treat it like he did not see.

Of course, even if it were not for this Thunder Essence Fruit, Ye Yuan would not possibly turn a cold shoulder to the Jade Faced Fairy Fox Clan's matters too.

"This bunch of hateful bad snakes! Only know how to bully us all day long! If they have the capabilities, go be overbearing with the Blackwind Demonic Wolves!" Yu Xin said huffily.

Actually, Yu Xin's cultivation realm was not much lower than the other races' junior generation.

But the Jade Faced Fairy Fox Clan's combat strength was seriously terrible.

In comparison, the snake race and the wolf race's combat strength were very daunting.

Yu Shu was also indignant as she said, "The Darkshadow Lightning Snake Clan only knows how to suck up to the Blackwind Demonic Wolves Clan. How can they dare to be arrogant to them?"

Ye Yuan suddenly spoke to Yu Huan, "Old Ancestor Yu Huan, they already bullied to your doorsteps, Aren't you going to take action?"

Yu Huan's expression changed, and she said with a bitter smile, "Our Azure Mountain Region's various clans have an unwritten rule: Tier 6 experts are not to interfere with the young generation's matters. Once I take action, it will surely stir their old ancestor. At that time, it will be even harder to resolve."

Ye Yuan nodded and said, "Let's go then. I'll accompany you all to take a look."

"You?" Yu Xin said in puzzlement.

But Yu Shu was overjoyed when she heard and said, "It's really great that Big Brother Ye Yuan is willing to help! Young Lord, Big Brother Ye Yuan is very strong! Elder Sister Yu Leng can't even last one exchange under his hands!"

What Yu Shu was talking about was still when Ye Yuan was at the First Level Soul Sea. Now that Ye Yuan broke through to the Second Level Soul Sea, he could one-shot Yu Leng without using the Origin Spirit Nine Transformations too.

Yu Xin could not help being startled inwardly when she heard that. She really did not know that Ye Yuan's Martial Path strength was actually so powerful.

These few days, she had been hearing how incredible Ye Yuan's pill refinement was all along, and how brilliant his medical skills were. But Ye Yuan's Soul Sea Realm cultivation boundary made her subconsciously feel that Ye Yuan was inadequate.

To think that Ye Yuan's combat strength was actually so powerful!

.....

Under Yu Shu's lead, Ye Yuan's party arrived at that Thunder Essence Fruit Grove very soon.

Far, far away, Ye Yuan could already sense the power of thunder and lightning emitting from inside the fruit grove.

Outside the fruit grove, two parties were currently facing each other. They were precisely the Darkshadow Lightning Snake Clan and the Jade Faced Fairy Fox Clan.

"Yu Xin was already beaten to heavy injuries by Young Lord Wolf Fang. Yu Leng, you're your clan's strongest person already. Just now, that young lass secretly slipped away. Could it be that she could still bring any powerful reinforcements? Could it be that she went to call Yu Huan that old thing out? *Heh heh,*" said a young man dressed in black with a cold smile.

"An Bing, don't be impudent! Let me tell you, Young Lord has already obtained an expert's treatment and has already recovered her strength now!" Yu Leng held her injury and said.

"*Hahaha!* Young Lord Wolf Fang taking action, it's already pretty good if Yu Xin that girl can survive! Putting aside that Yu Xin is badly wounded, even if she were perfectly fine, she would also be my vanquished opponent if she came!" An Bing said arrogantly.

"Is that so?" Yu Xin's aura changed and blocked in front of Yu Leng.

Chapter 635: Head Held High

“Young Lord!”

When Yu Leng and the rest of the fox clan saw Yu Xin, they were all thrilled.

Yu Xin turned around and gave Yu Leng a light smile and said, “It’s been hard on you, Yu Leng. Leave the rest to me.”

Yu Leng was covered in wounds currently, looking very miserable.

But she forgot about her injuries at this time and said in astonishment, “Y-Young Lord, you actually broke through!”

Yu Xin said smilingly, “It was all thanks to Mister Ye’s medicinal pill!”

Finished talking, Yu Xin turned around, and she switched to an icy-cold countenance and said, “An Bing, didn’t you say earlier that even if I came, I’m your vanquished opponent too? Now that I’m here, why don’t you try defeating me!”

An Bing was the Darkshadow Lightning Snake Clan’s second strongest person and originally around the same as Yu Xin. If they really exchanged blows, Yu Xin was most likely not his match.

It was just that he never could have thought that Yu Xin actually obtained a breakthrough and reached Peak initial-stage Tier 5!

But he already uttered his words earlier. At this time, it was not nice to retract them no matter what. He could only toughen his scalp and said, “*Humph!* A tiny little fox clan dares to be arrogant in front of our Darkshadow Lightning Snake Clan too?! Those words were said by me. What can you do to me?”

“Since you said them, then I’ll make you swallow them back!”

Yu Xin was the young lord of a clan after all and carried a very domineering side to her.

Flaring up at this time, she was a woman not inferior to any men.

As she spoke, Yu Xin slapped a palm towards An Bin. An Bing obviously would not allow himself to be captured without putting up a fight, clashing together with Yu Xin.

The disparity between the demon race cultivation realms was not that obvious. Even though Yu Xin obtained a breakthrough, to want to take down An Bin within a short time, that was not possible.

Yu Leng was sweating profusely. Just now, she was forcefully hanging in there. When Yu Xin arrived, she could not persevere anymore.

Right at this time, a medicinal pill was delivered in front of her.

Yu Leng lifted her head and looked. Who could it be but Ye Yuan?

“Eat it. Your injuries will heal very soon.” Ye Yuan said smilingly.

Yu Leng was still hesitating when Ye Yuan said again, "Quite a number of your injuries are in hidden places. Actually, you couldn't battle long ago. You were forcefully hanging in there all along just now, and your injuries have already deteriorated very severely. If you don't carry out treatment, there's a high likelihood of harming your foundation and affecting your cultivation in the future."

Hearing Ye Yuan say so, Yu Leng's expression changed, and she snatched the medicinal pill over from Ye Yuan's hand and swallowed straight away.

When the medicinal pill reached her abdomen, Yu Leng's injuries saw an immediate effect and took a turn for the better.

Yu Leng's expression changed, and she could not help looking towards Ye Yuan.

"*Huhu*, don't need doubt. This medicinal pill is the same as the one your family's young lord ate. I managed to find time these few days and refined a few more," Ye Yuan said with a chuckle.

Ye Yuan was currently living in the God Prohibited Demon Region. Those human martial artists' medicinal pills he had on him were naturally of not much use.

Hence, he found time these two days and refined a few more Skandha Ancient Spirit Demonic Pills and other medicinal pills in case of an emergency. It was just that he did not expect it would be put to use so quickly.

Yu Huan naturally satisfied all demands that Ye Yuan had currently.

Yu Leng was cold as ice on the surface, but in her heart, she was shocked to her core.

This was a transcendent-grade medicinal pill. Giving it to people so casually?

No wait, even if it was given to her, he did not even blink his eyes?

Just what kind of realm did this fellow's alchemy skills reach?

Yu Leng was aware that those Tier 5 shamans in the clan if they refined any high-grade medicinal pills, each one of them treated it like a treasure to keep.

Transcendent-grade Tier 5 medicinal pills, Yu Leng had not even seen before too. This fellow actually took it out and gave it to her just like this!

Since when was her relationship with him good to this sort of extent?

One had to know that ten over days ago, she even wanted to kill him!

Ye Yuan looked at Yu Leng and said with a cold smile, "Don't need to look at me with that kind of eyes. Actually, I only treated your injuries on account of Little Sister Yu Shu's face. I think that if you died, she'd definitely cry very broken-heartedly."

Yu Leng's expression darkened, and she was just about to fly off the handle at the scene but was held back by Yu Shu.

Yu Shu's small face was flushed red. The words earlier, she heard all of it. She said to Yu Leng blushing, "Big Brother Ye Yuan is kidding with you, can't you tell yet? Such a valuable medicinal pill, how can he possibly give it to you on account of my face?"

But Ye Yuan said with a laugh, "*Heh*, Little Sister Yu Shu don't be unduly humble. If not for the sake of your face, I'd rather have killed the three of you back then, and then roamed the world! Forget about Yu Leng, even helping your family's young lord refine medicinal pills, I was also taking into account your face. Although giving Yu Leng a medicinal pill wasn't entirely on account of your face, it occupied half the reason too. Whoever I, Ye Yuan, treat as a friend, I'll naturally help all the way. But if anyone provokes me, I'll be sure to kill and be merry too!"

Yu Shu's small face got even redder. She really did not expect that she was so important in Ye Yuan's heart.

Even when Yu Leng heard it, she was taken aback too.

What Ye Yuan said was not wrong. He did indeed have the strength to kill the three of them back then but did not do so. Turns out that it was actually on account of Yu Shu's face!

But what Yu Leng was even more curious about was Ye Yuan's other half of the reason.

"Then the other half of the reason?" Yu Leng could not resist asking.

"The other half of the reason . . . you can fight to the bitter end for your clansman, this courage is worthy of my respect. Seems like you're not as unreasonable as I imagined as well," Ye Yuan said with a smile.

When Yu Leng heard these words, her face involuntarily reddened. She did not think that Ye Yuan giving her such a precious medicinal pill was actually just for this sort of reason.

And right then, Yu Xin and An Bing's battle already reached a white-hot stage. Yu Leng and Yu Shu's attention was also attracted by the battle cries over there.

"Relax. Your family's young lord has already occupied the absolute initiative. They will be able to determine the victor very soon," Ye Yuan said coolly.

Actually, Ye Yuan already discerned the victor not long after the two engaged in fighting. Hence, that was why he chatted with the two girls calmly.

Yu Leng and Yu Shu were very excited when they heard Ye Yuan's words too.

Indeed, within Ye Yuan's expectations, after ten moves, Yu Xin's advantage was getting increasingly obvious, pressuring An Bing until he felt smothered.

Another ten moves passed. Yu Xin caught one of An Bing's carelessness and went straight for the target, smacking An Bing flying with one palm!

"An Bin, see if you still dare to act wildly in my clan's territory! Quickly bring your people and scam back for me! The vast majority of this Thunder Essence Fruit Grove are all on our Jade Faced Fairy Fox Clan's territory. Even if you guys want, you're only permitted to take your share!" Yu Xin said majestically.

Yu Xin felt a feeling of exaltation upon fulfillment at this time. She had always been just a bit weaker than An Bing in the past. This made the Jade Faced Fairy Fox Clan unable to hold their heads up high.

The strongest person in a clan could not even beat other people's second strongest person. This was too humiliating.

Of course, losing face was a small matter. Being constantly bullied by people was a major issue!

This time, she borrowed Ye Yuan's medicinal pill and took advantage of the opportunity to breakthrough, finally surpassing An Bing!

Who knew that An Bing was totally unmoved and said with a loud laugh, "Yu Xin, you don't think that by defeating me, everything will be fine, right? Let me tell you, we've notified Young Lord An Xuan long ago. He's going to reach in a minute! At that time, I'll see if you still dare to say this sort of big talk or not! This stretch of Thunder Essence Fruit Grove, our Darkshadow Lightning Snake Clan is hell-bent on it!"

When these words came out, the expressions of the Jade Faced Fairy Fox Clan's side here all changed drastically!

[Unrivaled Medicine God](#)

Chapter 636: With Just the Likes of Me!

An Xuan, the Darkshadow Lightning Snake Clan's young lord, is also one of the strongest person among the young generation.

Yu Xin naturally knew that even if she broke through, she could not possibly be An Xuan's match too.

"Hahaha! Scared, right? Just with this bit of strength of yours, you also wish to occupy the Thunder Essence Fruit Grove too? Our Darkshadow Lightning Snake Clan cultivates the power of thunder and lightning innately. Obtaining these Thunder Essence Fruits is like adding wings to a tiger. A bunch of little foxes also have wishful thinking of getting a share of the Thunder Essence Fruits too?" An Bing said cockily.

Yu Xun's expression changed several times but did not know how she should refute.

The demon race world was even more particular about the prey being food and the strong feasting. Whoever's strength was greater, they would be the boss!

The Jade Faced Fairy Fox Clan was weak. Even if this Thunder Essence Fruit Grove were fully in their territory, the Darkshadow Lightning Snake Clan would not give them the slightest opportunity either.

Unless when the Jade Faced Fairy Fox Clan discovered this stretch of Thunder Essence Fruit Grove and the Darkshadow Lightning Snake Clan did not discover it at all.

This sort of situation currently, it was too hard for them to want to take a share of the loot!

Seeing Yu Xin's expression, An Bing got even haughtier. Crawling up with a grunt, he did not care about the injuries on his body either and ordered his companions, "The few of you, put up a warning line for me. I want to see if these little foxes really dare to provoke our Darkshadow Lightning Snake Clan or not!"

“Yes, Lord An Bing!”

“*Haha*, truly, heaven is watching! A stretch of Thunder Essence Fruit Grove actually appeared here! With this Thunder Essence Fruit Grove, Young Lord An Xuan’s strength will surely advance a step further! Before long, Young Lord An Xuan’s strength might be able to catch up to, even surpass Wolf Fang’s. At that time, it will be the opportunity for my Darkshadow Lightning Snake Clan to truly rise up!”

An Bing seemed to have already seen the day the clan rose up, the flesh on his face somewhat started quivering excitedly.

“*Heh heh*, aren’t you, these little foxes, leaving yet? When Young Lord An Xuan arrives, it probably won’t be that easy even if you all wish to leave!” An Bing said with a snicker.

The expression on Yu Xin’s face was very ugly. This Thunder Essence Fruit Grove was within the Jade Faced Fairy Fox Clan’s domain. Could it be that they could only give up?

How could she be willing?

Yu Shu’s dainty fists were tightly clenched too as she said with an indignant look, “This bunch of fellows is so unreasonable! This Thunder Essence Fruit Grove is clearly in our territory. They actually want to occupy it as their own! It’s fine if they bully us normally. But such an immense lucky chance, they are actually not giving us even a little bit!”

Ye Yuan smiled secretly in his heart. This Yu Shu little lass was really innocent.

Thunder Essence Fruit, this lucky chance, forget that it was in the demon race, even if it appeared among human martial artists, it was also impossible to talk reason with you.

Whoever’s fist was big, whoever could get a share of the loot.

Without strength, sorry, please go to one side and play!

It was also that this Thunder Essence Fruit did not have much use to Tier 6 experts. Otherwise, how could the old fellows in the two clans sit still?

But the Thunder Essence Fruit to martial artists Tier 5 and below was absolutely a heaven-defying treasure!

This thing could directly increase combat strength!

Even Ye Yuan was also palpitating with excitement towards it.

“Do these guys frequently bully you guys?” Ye Yuan asked curiously?

Yu Shu said huffily, “*Yeah!* Our fox clan and their territory are the closest, and our strength is the weakest too. They don’t dare to challenge the Blackwind Demonic Wolves Clan, so they often come to bully us.”

“Like this huh? Is that An Xuan, or whatever, very strong?”

“*En*, An Xuan is a middle-stage Tier 5 expert. Even if Young Lord’s strength improved greatly, she’s not his match either,” Yu Shu said.

The two people were currently talking when a sharp and fierce aura arrived in a twinkle. A young and cold man appeared in front of everyone.

“Young Lord, you finally arrived!” An Bing could not help being overjoyed when he saw someone arrived.

An Xuan took a look at An Bing and said with a frown, “You actually sustained injuries?”

An Bing could not help choking up and explaining, “No idea what kind of lucky chance Yu Xin that little fox acquired. Not only are her injuries healed, her strength even advanced by leaps and bounds. Young Brother . . . Younger Brother isn’t a match.”

“Oh?” An Xuan only noticed Yu Xin at this time. Indeed, her strength increased greatly.

“Didn’t expect that a scholar who has been away for three days must be looked at with new eyes. You, this little fox, actually broke through to peak initial-stage Tier 5 already.” An Xuan was rather surprised.

But he did not really pay it any heed in his words. Ignoring that Yu Xin was only peak initial-stage Tier 5, even if she was at the middle-stage Tier 5, she was not his match either.

Yu Xin frowned and said, “An Xuan, enough crap. Let’s still talk about the main topic! This Thunder Essence Fruit Grove can be given to you guys, but my clan wants one-fifth of the Thunder Essence Fruits!”

Yu Xin’s words were already making incredible concession.

This Thunder Essence Fruit Grove only had a small piece in the snake clan’s territory, but they only wanted one-fifth of the Thunder Essence Fruits. It could be said to be swallowing humiliation to shoulder a heavy load.

But when Ye Yuan heard Yu Xin’s words, he shook his head secretly.

At this time, either let the person get lost or they themselves scam.

Saying such words was undoubtedly asking for humiliation.

Indeed, after An Xuan heard Yu Xin’s words, he immediately burst into laughter. That laughter was filled with disdain and mockery.

“One-fifth? Sure, as long as you have the capabilities to take it away from my hands, so what if it’s all given to you? Or . . .” When An Xuan spoke until here, he paused for a bit.

When Yu Xin heard, she still thought that An Xuan was planning on stating terms and could not resist asking, “Or what?”

An Xuan suddenly switched his expression and laughed lewdly and said, “Or you come and be my concubine. This one-fifth of the Thunder Essence Fruits will be the betrothal gift.”

When Yu Xin heard, her lovely body could not help trembling in anger, “You! Shameless!”

Only at this time, did she know that she was fooled by An Xuan. How could she still endure it? Raising her hand, she was going to deal with An Xuan.

"Heh, overestimating your own ability!" An Xuan forced Yu Xin back with a very casual palm.

He was unforgiving when getting the upper-hand, following up with another palm and pressing on towards Yu Xin.

Yu Xin met the attack calmly and could still resist for a few rounds. Her head was still heated up for a time earlier. How could she still be An Xuan's match

"Ahh!"

In a panic, Yu Xin cried out and was already prepared to bear this palm of An Xuan's.

But right at this time, there was a blur in front of her eyes. A big and tall figure suddenly appeared in front of her.

Bang!

Ye Yuan and An Xuan each fell back several steps!

An Xuan's face fell as he said, "Human?"

He looked at Yu Xin with ill-intent and said, "The rule in the God Prohibited Demon Region is to immediately execute humans when seen. Your fox clan actually dares to take in humans. Are you really not afraid of your clan being exterminated?"

Yu Xin's expression changed, and she was just about to speak but was stopped by Ye Yuan's hand gesture.

"A bunch of grown man bullying women. You guys really have the nerve too! This Thunder Essence Fruit Grove is in their territory, and you all actually seized it openly. Truly shameless!" Ye Yuan said with a half-smile.

"Humph! When is it your turn to meddle in our God Prohibited Demon Region's affairs? The strong becomes the king. My fist is big, so what I say naturally goes!" An Xuan said with a cold smile.

"Is that so? Then if my fist is bigger than yours, does this piece of Thunder Essence Fruit Grove belong to me?" Ye Yuan said smilingly

An Xuan gave Ye Yuan a measuring glance and said with a cold smile, "With just the likes of you, a Tier 4 human?"

Ye Yuan nodded his head and said, *"En, with just the likes of me!"*

[Unrivaled Medicine God](#)

Chapter 637: Bloodline Suppression!

"Ye Yuan, you're not his match! Quickly move aside!" Yu Xin hurriedly said when she saw Ye Yuan coming forward.

Ye Yuan waved his hand dismissively and said, "Fighting is a man's affair. Women should go to the side to watch! These Thunder Essence Fruits, I'm determined to have them! At that time, I'll split one-fifth with you all."

These words were said . . . without any reservation!

It was just that in An Xuan's and the other's ears, it was simply a joke.

"Haha! You're not afraid of twisting your tongue when bragging! A puny little Tier 4 human also dares to utter such words. Who gave you the courage?" An Xuan said with a loud laugh.

Although that clash Ye Yuan had with him earlier was very fierce, that was only his momentary carelessness. Furthermore, he had not used much strength yet.

If Ye Yuan thought that he had the qualifications to challenge him just like this, then Ye Yuan really did not know how the word 'death' was written.

"Hahaha! Where did this joker come from? To actually dare challenge Young Lord! He's really complaining that he lived for too long."

"Are humans all this stupid? This kind of brain, how did he cultivate to Tier 4?"

"Human, we're so afraid! These Thunder Essence Fruits, you take them all. Make sure not to be courteous with us! Don't hit me! Don't hit me!"

"Hahaha!"

Ye Yuan's words incurred a wave of guffaws. In their view, Ye Yuan was simply here to be a joke.

How could Tier 4 martial artists possibly beat Young Lord?

Towards this sort of mocking, Ye Yuan naturally did not take it to heart. He just hooked his finger at An Xuan. That sort of disdain was laid bare thoroughly.

An Xuan's expression darkened. *"If you're courting death yourself, then I can't be blamed! Darkshadow Thunder Kill!"*

An Xuan extended his hand and beckoned. A horrifying power of lightning and thunder instantly enveloped the entire place.

And Ye Yuan was situated in the heart of this lightning field!

"Darkshadow Thunder Kill as the opening move. Looks like Young Lord was really enraged by this fellow!"

"Heh heh, this fellow is really a joke. He doesn't know what a terrifying thing it is to infuriate Young Lord."

"Tsk tsk, nothing to see anymore. Once Darkshadow Thunder Kill is unleashed, this fellow is dead for sure."

Facing this horrifying lightning field, Ye Yuan was seemingly oblivious. His aura suddenly erupted abruptly, soaring straight to peak Fourth Level Soul Sea!

Crossing a minor stage, Ye Yuan's aura became totally different!

Those Darkshadow Lightning Snake clansmen who were still mocking Ye Yuan earlier all had their mouths gaping wide open at this time.

Ye Yuan's current aura was actually not the slightest bit inferior to An Xuan!

"Oppression of the dragon race! This . . . This is the oppression of the dragon race! Could it be that . . . this brat is a dragon race progeny?" An Bing suddenly exclaimed, sensing that oppressive power belonging to the dragon race bloodline.

At this current moment, Ye Yuan fully exhibited the dragon race bloodline in his body.

The Darkshadow Lightning Snake clansmen whose strength were slightly weaker actually could not resist and bowed down!

The hierarchy of the demon race was stringent. This sort of bloodline oppression was simply unable to resist!

Without needing An Bing to say, An Xuan naturally perceived it long ago.

The dragon pressure that Ye Yuan released actually made the demonic essence in his body had a feeling of going out of control. If not for his strength was much higher than Ye Yuan's, he would probably have followed the others at this time and bowed down.

This was absolutely the purest dragon race bloodline. Otherwise, how could it possibly make his demonic essence be on the verge of losing control?

Could this brat really be a dragon race progeny?

But . . . this brat did not have any traces of a demon from top to bottom!

Seeing this scene, Yu Shu's small face was flushed red from agitation; it was like a fully-ripe red little apple.

"Turns out that Big Brother Ye Yuan is so incredible! Back then when he fought with us, he didn't release all of the dragon pressure at all. Otherwise, we wouldn't have the chance to attack in front of him!" Yu Shu said agitatedly.

By the side, Yu Leng was taken aback from shock too. Only now did she know how great Ye Yuan's strength was!

Just this dragon pressure, a demon with her strength could not give rise to the thought of resisting at all.

"This . . . Ye Yuan, is he a human or demon?" Yu Xin also unwittingly started to question her eyes.

The dragon pressure that Ye Yuan displayed was too pure. If this dragon pressure were released towards the fox clan, they would not be able to withstand it at all.

This point, one would know just by taking a look at those Darkshadow Lightning Snakes.

Ye Yuan looked at An Xuan indifferently and said, "You said just now that whoever's fist is bigger makes the call. Then let's measure whose fist is bigger!"

"Flame Movement True Dragon Carnage!"

The moment Ye Yuan attacked, it was his strongest attack!

An Xuan's expression was indescribably nasty. Seeing Ye Yuan make a move, he attacked without hesitation as well.

"Darkshadow Thunder Kill! Suppress for me!"

An Xuan roared. Lightning flashed, and thunder rumbled within this area, facing off with the fiery-red colossal dragon Ye Yuan fired out!

Except, the lightning which looked fierce and sharp could not shake Ye Yuan's red dragon at all.

Rumble!

A huge rumbling sound was heard. An Xuan directly vomited blood from being beaten to severe injuries.

"Young Lord!"

"Young Lord, are you alright?"

The one move being exhausted, the dragon pressure on Ye Yuan's body converged following that too, before those Darkshadow Lightning Snakes could recover.

With one attack, An Xuan was already severely wounded and unable to battle anymore. The eyes he looked at Ye Yuan with was filled with hatred and fear.

This human Tier 4 martial artist actually beat him to severe injuries!

"Now, can I take over this Thunder Essence Fruit Grove?" Ye Yuan said nonchalantly.

Looking at Ye Yuan, An Xuan even had the heart to die.

This time, it was really trying to steal a chicken only to end up losing the rice. Not only could he not gain one Thunder Essence Fruit, but he was also even beaten until severely injured.

An Xuan gritted his teeth and said, "Consider yourself ruthless! Let's go!"

"No way! You guys can't leave!" Yu Xin was just about to stop them but was stopped by Ye Yuan.

Under An Bing's assistance, An Xuan and the rest ran away with their tails between their legs.

Yu Xin stomped her feet angrily and said begrudgingly, "You barely managed to beat An Xuan until he was severely injured. How can you let him go easily?"

Ye Yuan said smilingly, "Although this Thunder Essence Fruit doesn't have great use to Tier 6 experts, it's absolutely a rare treasure. You think that with An Xuan here, their old ancestor won't pay attention to this incident? Beating up An Xuan with just severe injuries is fine. But if you want to kill him, the Jade Faced Fairy Fox Clan will have to receive the wrath of the snake clan's old ancestor. Can you guys . . . receive it?"

Ye Yuan had long seen through that the strength of this Azure Mountain Region's Tier 6 old ancestors were roughly the same and were wary of each other. That was why they tacitly agreed to let the juniors go and clash.

Although Yu Huan's strength was a little weaker, she definitely had her own trump card too.

An Xuan's strength was not bad. The snake clan's old ancestor definitely regarded him very highly.

If they really killed An Xuan, the snake clan's old ancestor would definitely blow his top off.

At that time, the two clans fighting it out, Azure Mountain Region's balance would be broken. It was likely very hard for the Jade Faced Fairy Fox Clan to win and they might be in danger of being annihilated.

"This . . ."

Hearing Ye Yuan's words, Yu Xin could not help being taken aback.

The Jade Faced Fairy Fox Clan was currently on its last legs. How could they endure the wrath of the snake clan's old ancestor?

"If you want to kill An Xuan, you'll have to let your own strength become strong. With these Thunder Essence Fruits, why fret that you won't be An Xuan's match in the future? That fellow is nothing to be feared," Ye Yuan said coolly.

Only after Yu Xin heard this did her worry turn to joy as she said happily, "Mister Ye, by right, this fruit grove belongs to you now. Could it be that you're really going to give one-fifth to us?"

Chapter 638: Maturing Overnight

"That is, of course!" Ye Yuan agreed without any hesitation.

Getting an affirmative answer, even with Yu Xin's composure, she almost jumped up too.

Although she held back a little in order to uphold the identity of a young lord, the feelings of excitement was written on the face.

"That's great! Big Brother Ye Yuan is really a very nice person!"

Yu Shu could not care that much and directly grabbed Ye Yuan's arm and started swinging.

This Thunder Essence Fruit Grove was not small. Even one-fifth was also not a small number.

With these Thunder Essence Fruits, the fox clan's strength would surely have a substantial increase. Those like Yu Xin might even be able to surpass An Xuan within a short time.

Even the ice-cold Yu Leng had a grateful smile hanging on her face at this time too.

"Really great! These Thunder Essence Fruits at most still have a month to maturity. At that time, see who still dares to bully our fox clan!" Yu Xin said agitatedly.

But Ye Yuan smiled and said, "A month? Too long! Do you feel that the snake clan will let us wait a month here peacefully?"

Yu Xin's heart thumped, "You're saying . . ."

“If they can’t obtain the Thunder Essence Fruits, how can they possibly watch us wait here for the Thunder Essence Fruits to mature? Once they return to the clan, they will definitely spread this news out. At that time, the fox clan will become a target for all,” Ye Yuan said.

“Then . . . Then what to do? My fox clan is only the weakest existence among the Tier 6 demon races. We simply can’t beat the other demon races! If . . . if the Blackwind Demonic Wolves get this intel . . .”

Yu Xin did not dare to continue thinking.

According to Ye Yuan’s deductions, the fox clan was in an extremely perilous situation.

Initially thought that they picked up a treasure. Who knew that it turned into a hot potato in a blink of an eye.

Sometimes, obtaining a treasure was a huge lucky chance, and one could soar to the heavens in one bound because of it. However, if one did not have sufficient strength to protect these treasures, it would attract trouble, even a fatal calamity.

“*Heh heh*, simple. As long as you harvest these Thunder Essence Fruits before others come, that will do.”

Ye Yuan was totally unconcerned as if he was talking about something trivial and ordinary.

Except, Yu Xin was unable to understand, “Harvest now? But these Thunder Essence Fruits are not matured yet right now. The effects are not even 10% of the matured period!”

Such a weak effect, eating it and not eating it was also not much different.

Ye Yuan smiled and said, “Not ripe, we can make it ripen! Go, follow me back to the clan.”

Yu Xin carried thick doubt and followed Ye Yuan back to the clan.

Although she was brimming with curiosity, Ye Yuan not talking, she also sensibly did not ask.

.....

At the Darkshadow Lightning Snake Clan territory, An Xuan’s complexion was deathly white but with unwillingness and rage written all over.

“An Bing, spread the news of the Thunder Essence Fruit Grove out for me! Now, immediately, right away! Remember, you must let Wolf Fang know!” An Xuan said furiously.

“This . . . let Wolf Fang know, and we won’t get a single Thunder Essence Fruit,” An Bing said hesitantly.

“*Humph!* Do you think that we can get them now? I really didn’t expect that that brat actually possesses such pure dragon race bloodline. If not for so, how could I have been defeated by him?” An Xuan gritted his teeth and said.

Indeed, Ye Yuan only defeated An Xuan flawlessly by relying on the suppression of bloodline power.

Although Ye Yuan could temporarily breakthrough to Fourth Level Soul Sea by relying on Origin Spirit Nine Transformations, to want to defeat the middle-stage Tier 4 An Xuan, it was still a little lacking.

Speaking of this, An Bing felt depressed.

Even though he was a bit better than the rest, he was also not much better.

Previously, under Ye Yuan's dragon race oppression, he was practically in a half-kneeling state already.

Only his strength could barely withstand the dragon race oppression.

"Young Lord, if it really can't be done, we better invite Old Ancestor to come out," An Bing said.

An Xuan's expression changed, and he rebuked, "Don't mention this matter anymore! Do you want to make the Azure Mountain Region descend into a great war? Go now and spread the news about the Thunder Essence Fruits."

After An Bing left, a figure slowly walked out from the darkness.

"Apologies, Old Ancestor. Xuan-er was incompetent."

An Xuan was not surprised by the arrival. This person was the Darkshadow Lightning Snake Clan's old ancestor, An Rong.

"That boy's strength indeed somewhat exceeded expectations. He actually possesses extremely pure dragon race bloodline. I was not far away back then. This matter can't be blamed on you," An Rong said coolly.

An Xuan raised his head to take a look at An Rong wanting to speak but stopped.

"Anything you want to ask, just ask away," An Rong said.

"The fox clan harboring humans, can't we use this as an excuse to exterminate them? With Old Ancestor's strength, that Yu Huan should not be a match."

Actually, An Xuan was very puzzled too. Why was his own old ancestor present but did not take any action?

"*Huhu*, to be able to become a Tier 6 demon clan, which one would be a pushover? It's true that my strength is stronger than Yu Huan's. But the fox clan definitely has hidden cards that we don't know about. Unless it's a last resort, we won't make a move," An Rong said with a smile.

An Xuan's gaze turned intent, and he revealed an apprehensive expression.

The snake clan naturally had their own hidden cards too. But to be able to make Old Ancestor wary as well, seems like every Tier 6 demon clan was not to be underestimated!

.....

After Ye Yuan returned to the tribe, he paid a visit to several high-level shamans in the clan.

After coming out of their places, he started closed-seclusion.

That evening, Ye Yuan exited seclusion. There was already a large group of people packed at the entrance.

Seeing Ye Yuan come out, Yu Xin went forward and asked fidgety, "How is it?"

Ye Yuan threw her a large bag and said smilingly, "Of course it succeeded! This thing is called Jingyan Powder. Dissolve it with water, then sprinkle it on the roots of the Thunder Essence Fruit Trees.

Yu Xin's expression became strict, and she said to Yu Leng, "Heard Mister Ye's words? Bring people to handle it right now!"

"Yes!" Yu Leng received the order and left.

"Come, let's go to the Thunder Essence Fruit Grove. It should be roughly done tomorrow morning," Ye Yuan said.

Yu Leng was still very capable and experienced when doing things. Very soon, she finished watering all of the Thunder Essence Fruit Trees.

"Alright, everyone has toiled for a day. All take a rest yourself. Tomorrow morning, we'll see the outcome," Ye Yuan said.

The next morning, that power of thunder and lightning which was terrifying until it made people feel asphyxiated, startling everyone awake.

"My God, how is this possible? Overnight, these Thunder Essence Fruits actually all matured!"

"Too inconceivable! Mister Ye is truly god-like. To actually be able to turn something rotten into something magical!"

Yu Shu leaped up happily. "Big Brother Ye Yuan, you're really too incredible! That whatever Jingyan Powder, I couldn't discern any mystical aspect. But it actually produced such an inconceivable effect!"

Ye Yuan smiled and said, "This is just the lowest grade Jingyan powder. If the materials were sufficient, making these Thunder Essence Fruits ripen instantaneously isn't impossible either. But sadly, the conditions were limited. This Jingyan Powder's grade was still a little low. The Thunder Essence Fruits matured through acceleration, they will still lose around 10% of the effect."

As an alchemist, it was coming into contact with these spirit medicines year in year out.

Forget about the Thunder Essence Fruit, even those Tier 8, Tier 9 spirit medicines, Ye Yuan had ways to accelerate their maturing too.

But with the current conditions, to be able to achieve this step was already extremely not easy.

Chapter 639: Origin Magnetism Spirit Wood!

"I don't even dare to imagine that these Thunder Essence Fruit could actually all ripen overnight! This is simply an ability that gods and devils can't fathom! Some trifling flaws, Mister Ye don't need to take it to heart."

By the side, Yu Xin had already been dazed long ago. The scene that happened before her eyes was seriously too miraculous.

As for the 10% loss, she did not care at all.

These many Thunder Essence Fruits was enough to make up for that bit of loss.

Ye Yuan smiled and said, "Stop looking. Everybody go in and harvest the Thunder Essence Fruits. This stretch of Thunder Essence Fruit Grove isn't small. One-fifth of the Thunder Essence Fruits should be plenty for you all to use. Move a bit faster. I reckon that there are already people on the way."

Yu Xin nodded and said, "Thank you very much, Mister Ye."

The allure that these Thunder Essence Fruits had towards the Jade Faced Fairy Fox Clan was seriously too great. Their combat strength leaned to the weak side originally. These Thunder Essence Fruits was an opportunity for them to become strong!

Ye Yuan also entered the Thunder Essence Fruit Grove but did not immediately harvest the Thunder Essence Fruits.

Previously, Ye Yuan already estimated the Thunder Essence Fruits visually before. One Thunder Essence Fruit Tree had around a hundred Thunder Essence Fruits. This Thunder Essence Fruit Grove had roughly a hundred over Thunder Essence Fruit Trees. Adding them up, there was roughly ten thousand and two to three hundred Thunder Essence Fruits.

Splitting one-fifth and giving to the fox clan, Ye Yuan himself had around close to ten thousand in quantity.

Actually, Ye Yuan did not need so many Thunder Essence Fruits. When just starting to refine the Thunder Essence Fruits, one could indeed receive excellent effects and could rapidly increase the power of thunder and lightning.

But consuming too much, the effects would be greatly discounted, all the way until at the back, there would be virtually no effects.

According to Ye Yuan's estimation, him refining three thousand Thunder Essence Fruits alone was about there.

But Ye Yuan was not very concerned about these. He started strolling around the grove, looking in all directions constantly, seemingly searching for something.

The grove was not big. Ye Yuan looped once very quickly, but his brows started to furrow, "Could it be that my conjectures were wrong? This Thunder Essence Fruit Grove's appearance was just a coincidence? Impossible. These Thunder Essence Fruits' quality is pretty good. There must be a thunder-attribute treasure nearby!"

Ye Yuan did not give up, sauntering around the grove again.

But circling around several times, Ye Yuan still did not have any discovery.

Just as he was almost giving up, he suddenly glimpsed an inconspicuous Thunder Essence Fruit Tree out of the corner of his eyes.

That Thunder Essence Fruit Tree was exactly the same as the other trees and did not seem to have any difference. But Ye Yuan accidentally noticed just now that that Thunder Essence Fruit Tree grew a small flower on it.

The small flower was not big. If one did not look carefully, they would not notice at all.

It was just that this small flower on the tree branch appeared very disharmonious.

But it not being harmonious, Ye Yuan did not mind. Because with Ye Yuan's understanding towards heaven and earth spiritual forms, this little flower by itself was sufficient.

A hint of a smile flashed across the corners of Ye Yuan's mouth as he muttered to himself, "Huhu, nearly got fooled by you! Didn't expect that this stretch of Thunder Essence Fruit Grove was actually catalyzed and formed from an Origin Magnetism Spirit Wood! No wonder it has such quality! Your disguise was indeed flawless. But no matter how you disguise, this Origin Magnetism Spirit Flower can't be concealed. Because that's where the quintessence of your lifeblood lies."

Ye Yuan was astonished and pleasantly surprised at this time. He had long guessed that this stretch of Thunder Essence Fruit Grove definitely had a thunder-attribute treasure. But he never thought that this treasure was actually an Origin Magnetism Spirit Wood.

Origin Magnetism Spirit Wood was a thunder-attribute supreme treasure. After a martial artist refined it, not only could they possess the power of thunder and lightning, they could even evolve along with the Origin Magnetism Spirit Wood's evolution.

This Origin Magnetism Spirit Wood was the jinx of all corrupt and wicked things in the world!

Possessing the Origin Magnetism Spirit Wood, a hundred evils could not invade!

Such a treasure, even Ye Yuan could not resist being moved too!

This Origin Magnetism Spirit Wood was a psychic thing. When Ye Yuan slowly approached, a chunk of wood separated from that Thunder Essence Fruit Tree and was going to escape far away.

Ye Yuan was prepared long ago. How could he give him the chance to escape?

Straight away, Ye Yuan's finger moved lightly. A tuft of flames instantly surrounded the Origin Magnetism Spirit Wood. That was precisely the Cleansing Sandal Flame Lotus's original body!

Under Ye Yuan's painstaking nurturing, the Cleansing Sandal Sacred Flame already infinitely approached Tier 5. Its power was even less comparable from in the past.

What the Origin Magnetism Spirit Wood feared most was fire. Now that Ye Yuan's essence fire came out, the Origin Magnetism Spirit Wood immediately froze there, not daring to even move.

Thunder belonged to Metal. What it feared the most was fire, let alone Ye Yuan's essence fire.

Ye Yuan did not hesitate. Using the essence fire to confine the Origin Magnetism Spirit Wood, he started refining directly.

This Origin Magnetism Spirit Wood's rank was not high. It was merely just a Tier 5 object.

It was also fortunate that it was like this that those Tier 6 old monsters were not moved. If this Origin Magnetism Spirit Wood matured a little more, the Thunder Essence Fruits catalyzed would probably not be that simple anymore.

If even those Tier 6 old monsters were moved too, then it naturally had no business to do with Ye Yuan anymore.

Around two hours later, Ye Yuan finally finished refining the Origin Magnetism Spirit Wood.

During the process of refining, Ye Yuan obtained tremendous benefits too. The most straightforward reaction was breaking through a minor realm right away, reaching peak Third Level Soul Sea!

Just one more step and Ye Yuan could break through to middle-stage Soul Sea.

Ye Yuan breaking through, the commotion caused would naturally not be small.

Yu Xin did not think that Ye Yuan would actually break through here. Afraid of her clansmen disturbing Ye Yuan, she commanded that people were absolutely not permitted to go over and disturb Ye Yuan.

All the way until Ye Yuan finished refining the Origin Magnetism Spirit Wood, then only did Yu Xin go over to say hi.

"Congratulations to Mister Ye for breaking through! Mister Ye is truly a cultivation genius. Just how long has it been and you actually broke through to the Third Level Soul Sea already!"

At the same time she was congratulating, Yu Xin was overwhelmed with a vicissitude of emotion too.

Don't look at how Yu Xin's age did not seem old. Actually, she was already over a hundred years old.

It was just that her age was not considered old in the demon race.

But Ye Yuan was a true-blue teenager. Such improvement speed truly made people perspire from shame.

Ye Yuan said smilingly, "Huhu, just a minor boundary. Doesn't count as much. Are the Thunder Essence Fruits all harvested finish?"

Yu Xin nodded and said, "Earlier, I saw that Mister Ye was breaking through over here, so I didn't let them come here to collect. The other places' Thunder Essence Fruits are already harvested finish."

As she was talking, Yu Xin passed Ye Yuan a storage ring. "Mister Ye, these are your Thunder Essence Fruits. There are a total of ten thousand. Please check."

Ye Yuan was not courteous either, directly receiving the storage ring and saying, "Alright. I'm going to refine the Thunder Essence Fruits on the spot. You help to guard me."

Yu Xin gave Ye Yuan a somewhat surprised glance, but nodded her head and did not say anything.

A thunder-attribute treasure like this, whoever saw it would not be able to resist refining directly as well. Ye Yuan's conduct was within reason too.

Actually, after Ye Yuan refined the Origin Magnetism Spirit Wood, the enhancement that these Thunder Essence Fruits had to the power of thunder and lightning within his body was already very limited.

The reason why he chose to refine in front of Yu Xin was only just in order to pull the wool over people's eyes.

If he did not refine the Thunder Essence Fruits, using the power of thunder and lightning at that time would appear too unexpected.

One could not be without vigilance against others. The Origin Magnetism Spirit Wood this kind of treasure, even Tier 6 experts would be moved when they saw too.

One had to know that this thing could evolve. As long as one slowly nurtured with their essence energy, evolving to Tier 6 was also just a matter of time.

God knows if Yu Huan would have any malicious intent aroused if she saw this Origin Magnetism Spirit Wood. Just a tidbit. The five elements are Metal, Wood, Water, Fire, Earth. Some may ask, what about wind, or lightning. They actually belong to one of the five elements. Through my intense googling, wind belongs to wood. Certain novels like RMIJ, I believe wind/lightning spiritual roots are mutated from two elements combining or something. The author is god and pulls whatever he wants.

Chapter 640: Wolf Fang!

At present, rays of brilliance appeared on Ye Yuan's body, his imposing momentum looking very appalling.

This was not a false impression that Ye Yuan constructed. Different from the Origin Magnetism Spirit Wood's internal effect, the effects of the Thunder Essence Fruit manifested outwards.

Ye Yuan swallowed over a thousand Thunder Essence Fruits in one go. It was also no wonder he would have such a powerful aura.

Yu Xin was long stunned by the side. There were actually people who refine Thunder Essence Fruits like this. If it were her, she would have long been directly stuffed to death by the powerful thunder and lightning force.

It was just that Ye Yuan had the Origin Magnetism Spirit Wood as the base and his physical body was exceedingly formidable too. So these Thunder Essence Fruits were nothing much to him.

"Not good! Young Lord, we're surrounded by the Crimsonwater Nether Scorpion Clan and the Flux Gold Rat Clan! They said to let us hand over the Thunder Essence Fruits!"

Ye Yuan was currently refining the Thunder Essence Fruits when a fox clan's member came in front of Yu Xin in a fluster.

Yu Xin's expression changed, and she said, "Came so quickly!"

"Go, head outside and sweep away these cannon fodders first, and the main guy will most likely have to come out."

Yu Xin turned her head around and discovered that Ye Yuan already finished the refinement and walked behind her.

Ye Yuan brought Yu Xin along and exited the Thunder Essence Fruit Grove together, and discovered that a large group of people already arrived outside at present, encircling the fox clan tightly.

“Gu Xie, Goldsun, you guys actually came to my fox clan’s territory to act wildly. Do you really take us to be easy to bully?” Yu Xin said furiously to the two at the front.

Ye Yuan gave that Gu Xie and Goldsun a measuring gaze and discovered that their strength was actually not weaker than An Xuan.

But very clearly, these two people were only here to spearhead the attack. The true opponent had yet to appear.

Ye Yuan was rather curious how powerful that Wolf Fang’s strength was, to actually be able to order this Crimsonwater Nether Scorpion Clan and the Flux Gold Rat Clan.

That Gu Xie took a glance at Yu Xin and said with a cold smile, “Thunder Essence Fruit this sort of heaven-defying treasure, could it be that your fox clan wishes to pocket without sharing? Our Crimsonwater Nether Scorpion Clan doesn’t want much either. Just three thousand will do!”

Goldsun was shifty-eyed, but said with a sinister look, “Those who see has a share! Our Flux Gold Rat Clan only want three thousand Thunder Essence Fruits as well!”

Yu Xin was just about to fly off the handle when Ye Yuan stepped forward and said coolly, “Those who see has a share? Did you guys saw it?”

Goldsun could not help stopping. Taking a look at the Thunder Essence Fruit Grove behind Ye Yuan, how was there still any hint of the Thunder Essence Fruits?

Very clearly, those Thunder Essence Fruits were long harvested clean by the fox clan.

“*Heh*, you’re the human brat that the fox clan took in? Yu Xin, your fox clan truly has such incredible nerve, to actually dare to risk universal condemnation and take in a human!”

Regarding Ye Yuan’s identity, Yu Xin was not worried long ago. She said indifferently, “Mister Ye possesses extremely strong dragon race bloodline and is one family with our demon race. What’s the meaning of your words?”

“Enough nonsense! The essence energy that this brat cultivates is exceptionally pure. If he isn’t human, can he be of the demon race?” Gu Xie said disdainfully.

“*Humph!* It’s true that the essence energy Mister Ye cultivates is extremely pure. But the dragon blood in his body is even purer! Didn’t An Xuan tell you guys that he nearly kneeled down under Mister Ye’s dragon pressure?” Yu Xin said without yielding in the slightest.

Gu Xie and Goldsun were both taken aback inwardly when they heard. They only knew that the fox clan took in a human boy and truly did not know that Ye Yuan’s dragon race bloodline was actually so powerful.

An Xuan’s strength was not weaker when compared to any one of them, and he actually could not endure Ye Yuan’s dragon pressure. How pure did the bloodline on this brat’s body have to be?

“*Humph!* Boasting, you got to prepare a draft too! How can a puny little human possibly possess such pure dragon race bloodline? Yu Xin, you’re too naive! You don’t think that you can scare us away with just a few words, right?” Goldsun said with a cold sneer.

Evidently, Goldsun did not believe that Ye Yuan could possess such pure dragon race bloodline at all.

How was this possible?

Forget about Ye Yuan, even in the entire God Prohibited Demon Region, there was no one with such pure dragon race bloodline!

Ye Yuan looked at Goldsun and Gu Xie. Giving a light snort, he said disdainfully, "Two morons!"

Gu Xie and Goldsun's faces both changed. Their eyes became sharp, and they said in chorus, "Boy, are you courting death?"

"The ones courting death are you guys!"

As he said this, Ye Yuan's dragon might was released fully. The imposing momentum on his body rose to the peak!

Gu Xie's and Goldsun's expressions changed drastically. Only at this time did they know that Yu Xin's words earlier was not exaggerated in any aspect at all.

This Ye Yuan's dragon race bloodline was too daunting!

The current Ye Yuan in their eyes was like a lofty celestial deity, while they themselves were two ants.

Similar with An Xuan, the demonic essence in Gu Xie and Goldsun's body became restless and unsettled. That sort of desire to submit sprouted out uncontrollably.

While the clansmen behind them all kneeled down one by one as if paying respects to a sovereign.

"Two morons. Being exploited as cannon fodders by people and are still gleeful like children! The Thunder Essence Fruits are right here. If you have the capabilities, come and take them yourselves!" Ye Yuan said coldly.

Each time Ye Yuan broke through a minor boundary, the dragon blood within his body would be stimulated even further. The dragon race's pressure on his body would be even more as well!

The dragon pressure that he released now was even stronger than what An Xuan felt back then!

Gu Xie and Goldsun did their utmost best to resist Ye Yuan's dragon pressure. Complicated expressions appeared on their faces.

They discovered that what Ye Yuan said was not wrong at all. They did not know anything and came running to the fox clan to raise a hue.

They originally thought that the fox clan was just a soft persimmon, and under their two clans' partnering up, the fox clan would surely suffer a great deal.

In the end, only after they arrived here did they discover that this human brat was actually this powerful!

An Xuan that punk definitely suffered a huge loss at Ye Yuan's hands. Otherwise, why would he be so nice to reveal the news about the Thunder Essence Fruits?

Gu Xie's and Goldsun's bowels turned green from regret!

"Still not scrambling off for me?!" Ye Yuan glared and said fiercely.

"*Heh*, what an arrogant tone! Even if you possess dragon race bloodline, you're merely just a Tier 4 trash, that's all! A hero isn't so easy to be!"

Right then, a voice suddenly was heard.

Right on the heels, a figure charged towards Ye Yuan with incredible speed!

"*Ah!* Mister Ye, be careful!"

Yu Xin had just finished shouting to warn him, but that figure arrived in front of Ye Yuan long ago.

Bang! Bang! Bang!

In a blink of an eye, that figure already exchanged several dozen moves with Ye Yuan like lightning!

By the time everyone came to their senses, Ye Yuan and that figure already separated.

Such an exchange simply made people feel out of breath!

All the way until now did everyone finally see clearly who the arrival was. When the fox clan saw the arrival, their faces all changed drastically, especially Yu Xin.

This person was the Wolf Fang who nearly killed her!

This man was the strongest person in the entire Azure Mountain Region's junior generation. Standing there, an overwhelming aura emitted out.

Under everyone's astonished eyes, his aura could actually contend with Ye Yuan's dragon pressure as equals!

Indeed, Wolf Fang was still powerful, same as before.

"Can't even take me, this trash, down. Looks like you, this dumb wolf, are nothing more than just a trash as well," Ye Yuan looked at the Wolf Fang opposite and said coolly.
