Chapter 801: Actually, I'm Just an Alchemist

"What a powerful physical body, to actually forcefully shake a profound artifact bare-handedly!"

"Is this guy human or not? Concepts comprehension is so high, even his physical body is so powerful too. Simply freakish!"

"Ye Yuan seemed to have refined the dragon race's bloodline, that's why his fleshy body is so strong! Not only is this guy's comprehension abilities abnormally high, but this fortuitous encounter also makes people envious too!"

Zhang Tianyi's sword was a profound artifact too. A profound artifact's sharpness went without saying.

Ye Yuan actually used his fist to knock away Zhang Tianyi's longsword. It could be seen how powerful his physical body was.

What Zhang Tianyi was shocked by was not that Ye Yuan's physical body was powerful. What he was shocked by was that Ye Yuan could actually counter-attack!

"So, it's a soul martial artist. No wonder," Ye Yuan said coolly.

Zhang Tianyi's expression changed, not expecting Ye Yuan to say out his identity flatly.

Even in the Divine Realm, soul martial artists were extremely rare too. After all, cultivating martial arts and cultivating the soul at the same time would expend tremendous amounts of energy, with losses outweighing the gains.

Those like Zhang Tianyi, having such cultivation at a young age, were indeed extremely rare geniuses.

"Soul martial artist! Zhang Tianyi is actually a soul martial artist! No wonder his attacks are so bizarre, making it impossible to guard against!" Someone exclaimed under the stage.

The attack methods of soul martial artists were extremely odd. Ordinary people could not guard against at all.

And Zhang Tianyi's divine soul attack measure belonged to those type of constant dripping to wear away. Once or twice could not feel it at all, making it even hard to guard against.

Therefore, those martial artists who fought with Zhang Tianyi previously all lost bafflingly.

"*Humph!* Even if you know that I'm a soul martial artist, so what? The one who loses, in the end, is still you!" Zhang Tianyi's face fell, and he pounced once more.

Ye Yuan smiled slightly and actually wielded his sword and went forward again, entangling together with Zhang Tianyi!

Zhang Tianyi was overjoyed when he saw the situation. He was afraid that Ye Yuan would play hide-and-seek with him and not clash head-on with him, then look for an opportunity to release a big move.

The martial technique when Ye Yuan and Nalan Chu were battling that day, it was still vivid in his mind. Once Ye Yuan had the chance to use that move, he would lose for sure.

Now, Ye Yuan actually continued to fight in close combat with him. What was this if not courting death?

But the moment both parties' longswords intersected, Zhang Tianyi suddenly felt his own divine soul quiver and actually had a split-second of absent-mindedness!

But Zhang Tianyi was deserving of being called a soul martial artist. He reacted to it virtually right away and hurriedly jumped aside, avoiding Ye Yuan's next attack.

"You're actually a soul martial artist too! This ... This is impossible!" Zhang Tianyi cried out in shock.

"What?! Ye Yuan is a soul martial artist too? This ... How is this possible?"

"What kind of joke is this? Having a fifth-stage supreme true intent, fleshy body comparable to a profound artifact, and is even a soul martial artist. This ... Is there really such a freak in this world?"

"Soul martial artists are extremely rare. Today, two popped out all at once. What in the world is happening?"

Zhang Tianyi's panic cry immediately caused a wave of commotion.

They all did not think that not only was Ye Yuan's comprehension abilities abnormally high, but he was also actually even a soul martial artist of the legends!

Adding on that freakish fleshy body, such a person simply had no weakness to exploit!

No wonder Ye Yuan leaped realms to battle like eating and drinking. Who could be even more freakish than him?

"Soul martial artist is it? *Uh ...* Actually, I'm just an alchemist," Ye Yuan said coolly.

"*Hahaha!* This boy is really aggravating! But you just can't do anything about it, because he's really just an alchemist," Pei Wenqiang burst into laughter beneath the stage and said.

Actually, before the competition this time, Pei Wenqiang only knew that Ye Yuan was a very formidable alchemist, and completely did not know that he was even a martial artist at all.

Who could have thought that not only was Ye Yuan's attainments in the divine soul exceedingly high, he even had such ridiculous accomplishments along the Martial Path?

These words that Ye Yuan said, Pei Wenqiang was the most profoundly affected by it.

"A-Alchemist?" Zhang Tianyi was speechless.

Since when did alchemists have such formidable combat strength?

Just that bit earlier, Zhang Tianyi already sensed that Ye Yuan's divine soul attainments were actually even above his!

This guy simply had no chinks in his armor!

Such an opponent, how to defeat?

“That’s right, I opened a medicinal shop in Ancient Opulence City. If you need medicinal pills, you can come and find me,” Ye Yuan said smilingly.

“I ... I admit defeat!” Zhang Tianyi said extremely unwillingly.

But facing a perverse fellow like Ye Yuan, what could he do if he did not concede?

Divine soul attack could not beat the other party. He could not win the other party in martial arts. Apart from admitting defeat, there was nothing else that Zhang Tianyi could do at all.

“*Hahaha*, I really didn’t expect it, didn’t expect it! A member of my Ancient Opulence City actually won the championship of the competition this time!” Pei Wenqiang was simply thrilled.

Back then, he only gave this spot to Ye Yuan in order to repay his life-saving grace. Who knew that Ye Yuan directly took back the first place for him.

When he heard Ye Yuan saying that he wanted to take first place for the first time, he even reproved Ye Yuan. Who knew that Ye Yuan finished off Nalan Chu first, and disposed of Zhang Tianyi as well, utterly locking down the position of first place.

This was unparalleled glory!

Giving a plum in return for a peach. This ‘plum’ that Ye Yuan gave him was truly a little too big.

Yang Sen had a delighted look too. Ye Yuan seizing the championship, he naturally felt a glow on his face too.

...

At night, in the holy hall, First Elder Chen Qin was currently telling Tu You about this afternoon’s competition with dancing eyebrows and a look of exultation.

While talking, Chen Qin was not stingy with praises of Ye Yuan in the slightest.

A genius like Ye Yuan was extremely popular when placed in any holy land, let alone a declined holy land like the Crimson Afterglow Holy Land?

Tu You’s face was quite calm as if he had long known about Ye Yuan’s freakishness.

After Chen Qin said finish, Tu You asked, “This Ye Yuan is really just an ascender who came from the Lower Realms?”

“Absolutely true! I’ve already investigated personally before and also made people ask the Pei Family before. This Ye Yuan is indeed just an ascender. Furthermore, his age is merely just past 20! This level of genius, even when placed in a Rank Three or Rank Four Holy Land, he would also be extremely popular. Let alone that he’s even a very incredible alchemist!” Chen Qin said agitatedly.

At the Crimson Afterglow Holy Land’s most difficult time, such a peerless genius like this appearing was absolutely something that boosted people’s morale.

Tu You’s eyes glinted. It was also unknown what he was thinking about.

Winning against Zhang Tianyi, there were many people being happy. But Ye Yuan did not care at all.

To him, this kind of victory was utterly meaningless.

If not for the sake of entering the Crimson Afterglow Valley, he would not even be bothered to take part in this sort of lame selection competition.

Late at night, Ye Yuan was the same as usual; he was still comprehending the golden characters.

Through these few day's comprehension, Ye Yuan's divine soul was still strengthening unceasingly. These dozen over days, Ye Yuan's divine soul strengthened a full 40%!

This sort of augmentation could already be classified as terrifying.

Ye Yuan did not know whether or not he could reach the Alchemy Ancestor level under the circumstances where he did not transcend the soul tribulation if he continued to comprehend like this.

All of a sudden, Ye Yuan's mind stirred, and he came out from the Vast Heaven Pagoda and showed himself.

Ye Yuan laid down an array formation at the residence. Just earlier, the array formation was triggered by someone.

Ye Yuan sensed something and immediately showed himself.

Chapter 802: Desolate Ancient Drip Essence Pool

"One who comes is a guest. Show yourself," Ye Yuan said coolly.

"*Huhu*, what an impressive boy, to actually be able to detect this Emperor's arrival!" An aged and hoary voice sounded out.

Ye Yuan was startled inwardly when he heard that. In the Crimson Afterglow Holy Land, the only one able to proclaim himself as this Emperor was the Crimson Afterglow Holy Lord!

Did not expect that the Crimson Afterglow Holy Lord actually descended here.

Ye Yuan sensed that the arrival's strength was extraordinary through the array formation previously, but did not think that it was actually the Crimson Afterglow Holy Lord.

All of a sudden, there was an undulation in the space within the house. The Crimson Afterglow Holy Lord actually directly appeared inside the house.

But regarding this sort of means, Ye Yuan did not have much surprises.

Those Dao Profound Realm experts could already sense the Heavenly Dao. This bit of means was nothing strange.

"Turns out it's the Holy Lord. Ye Yuan failed to receive you," Ye Yuan gave a slight bow and said neither obsequiously nor haughtily.

Tu You waved his hand and said, "No need to be overly courteous. This Tu came uninvited. You wouldn't mind, right?"

Ye Yuan criticized inwardly for a bit. *You already said it like this, can I say that I mind? But in truth, your esteemed self interrupted my closed-seclusion. I really mind a lot!*

But Tu You saying this sort of words was already dropping his own attitude very low. If Ye Yuan still did not give face, that was not knowing how to appreciate favors.

Ye Yuan could tell that this Holy Lord in front of him was not his real body. But his strength was sufficient to instantly kill Ye Yuan.

“I wonder what Holy Lord is finding Ye Yuan for?” Ye Yuan did not follow up on the words. It was also considered to have expressed his attitude.

Tu You sized up Ye Yuan, but he was even more pleased with Ye Yuan in his heart.

Such temperament was someone who did great deeds.

Not like some people cracking themselves up to be geniuses, but were short-tempered and brash, unable to take on major duties.

“Ye Yuan, do you know what is inside that Crimson Afterglow Valley?” Tu You ignored what was asked.

Ye Yuan’s eyes flickered, secretly cursing sly old fox.

One had to first give in order to take. This sort of logic, how could Ye Yuan not understand?

Tu You did not do anything the moment he came and just whetted up his appetite. Clearly, there was nothing good.

But speaking of which, he succeeded.

Tu You’s one sentence made Ye Yuan’s heart squirm itchily.

He was indeed very curious just what thing was inside this Crimson Afterglow Valley, to actually be able to give birth to a Ten Great Divine Kings class expert.

Seeing Ye Yuan’s struggling look, a hint of a smug smile flashed past the corners of Tu You’s mouth.

Ye Yuan mused for a moment, and then he opened his mouth and said, “Holy Lord best talk about your intentions for coming first. If the matter is too difficult, Ye Yuan would rather not enter the Crimson Afterglow Valley.”

Tu You’s expression froze. He did not expect that Ye Yuan would actually speak such words.

“Facing such temptation and you’re actually able to control your own desires. You, this youth, are indeed not simple! Fine then, actually, there isn’t anything hard to say out either. Actually, I came to find you, is to wish to entrust the Crimson Afterglow Holy Land to you!”

A few words, Tu You already discovered that Ye Yuan’s conduct was too slick and sly, impervious to everything. Talking with him, it was better to beat around the bush less.

Beat around the bush too much, it would incur the other party’s aversion.

It was just that Tu You’s words frightened Ye Yuan.

He was just a Divine Traversing Realm martial artist and Tu You actually wanted to entrust a holy land to him!

What did that have to do with this?!

Ye Yuan said with a bitter smile, "Holy Lord, you're joking with me, right? I ..."

Tu You stopped Ye Yuan's words with a hand gesture, but said, "This Emperor is naturally not joking with you! You don't have to be in a hurry to reject. Listen to this Emperor's terms first before giving a reply again. As long as you promise to take over the Crimson Afterglow Holy Land, all of the resources in the Crimson Afterglow Holy Land will be up to you to allocate! Furthermore, within three years after entering the Crimson Afterglow Valley this time, this Emperor will personally take action to send you into the Crimson Afterglow Valley once more!"

Ye Yuan knew that the Crimson Afterglow Valley could only open once every 300 years. If he forcefully sent him into the Crimson Afterglow Valley, Tu You would probably pay an unimaginable price.

In order to make him agree to become the next Holy Lord, this Tu You was also going plenty all out.

"Just what is inside the Crimson Afterglow Valley?" Ye Yuan still could not refrain from asking.

"Desolate Ancient Drip Essence Pool!" Tu You did not keep him in suspense this time and answered immediately.

"Desolate Ancient Drip Essence Pool ... What is that?"

Ye Yuan was also considered to be experienced and knowledgeable. But this Desolate Ancient Drip Essence Pool, he really had not heard before.

"Wait until you go in, you'll know! The liquid in this Desolate Ancient Drip Essence Pool can cleanse the marrow and let the martial artist cast off their old self and undergo a complete transformation. The longer a martial artist stay inside, the greater the harvest, and the greater the future accomplishments as well! I know that your physical body is powerful. This Desolate Ancient Drip Essence Pool can temper your physical body to be even stronger! Furthermore, inside this Desolate Ancient Drip Essence Pool contains extremely titanic amounts of essence energy. As long as you have the ability, it can let you directly breakthrough to Dao Profound Realm!" Tu You said.

"Oh? It actually has such a miraculous effect?" Ye Yuan said curiously.

He was turning it over in his mind secretly that this Desolate Ancient Drip Essence Pool's effects seemed to have some similar aspects with true dragon's blood.

Except, it sounded like this Desolate Ancient Drip Essence Pool seemed to be more impressive.

After Ye Yuan refined the dragon blood, he obtained tremendous benefits too. The present Ye Yuan could forcefully receive a profound artifact bare-handedly just with his physical body; simply a human-form lethal weapon.

Ye Yuan had reached the important juncture of breaking through to the Boundless Realm at present. This Desolate Ancient Drip Essence Pool seemed to be an excellent breakthrough site.

Tu You nodded and said, "It will only be stronger than you imagine! But this pool water is extremely tyrannical. Ordinary people can't walk far at all. Therefore, the benefits obtained are limited too. This Emperor only walked 80 feet out back then too."

"Oh? What's there to pay attention to?" Ye Yuan asked curiously.

"In this Desolate Ancient Drip Essence Pool, every 70 feet is a threshold. The deepest area is a full 490 feet far out. Since the Crimson Afterglow Holy Land was established, only the first generation Holy Lord walked to the deepest part. And his accomplishments was also the highest in history, with strength comparable to the Ten Great Divine Kings! But a genius like him, only a single one appeared in the history of the Crimson Afterglow Holy Land. Back then, the people who entered the Crimson Afterglow Valley together with this Emperor, only I walked to 80 feet out, which is also within the second threshold's scope. Therefore, I became the Holy Lord!" Tu You explained.

When Ye Yuan heard, he developed a thick interest in this Desolate Ancient Drip Essence Pool.

Seemed like this pool was indeed rather different.

Ye Yuan mused for a moment and said to Tu You, "Ye Yuan thank Holy Lord's great kindness. It's just that taking over the Crimson Afterglow Holy Land, it's completely out of the question for Ye Yuan. Ye Yuan has something hard to disclose and definitely has to leave the Crimson Afterglow in the future."

Tu You said solemnly, "No worries! I know that a measly little Crimson Afterglow definitely can't keep a genius like you. But I already don't have much time left. If I can't find someone able to take on the huge responsibility, the Crimson Afterglow Holy Land is bound to be swallowed up by the other holy lands. This sort of conclusion is what this Emperor doesn't wish to see. This Emperor finding you is to hope to preserve a hint of incense fire ¹ from extinguishing. In the future, when you find a good man, passing the position of Holy Lord to him is good too. Before this, I'll make Chen Qin they all do everything in their power to groom you and let you achieve the Dao Profound Realm as soon as possible! This Tu is already someone about to die. I don't have other requests and only hope that the Crimson Afterglow Holy Land can carry on existing. Ye Yuan, please accept a bow from me!"

As he said those words, Tu You actually gave Ye Yuan a deep bow!

Chapter 803: Camouflage

At a lake with a calm surface, in a tranquil mountain valley.

A party of seven to eight people appeared in this remote mountain valley.

"First Elder, could it be that this place is the Crimson Afterglow Valley? Looks like it doesn't seem to be any different from an ordinary mountain valley."

"*Humph!* If even you can detect the differences, the Crimson Afterglow Holy Land would have long been exterminated by people," First Elder said with a cold snort.

"*Hehe*, makes sense!"

The one who said this was called Yang Xiao; one of the seven holy sons.

This Yang Xiao had a cheeky appearance all day long; he was rather like a big kid who liked to play. But to be able to become one of the seven holy sons, his strength naturally could not be underestimated.

After Ye Yuan defeated Zhang Tianyi, the dust settled for the Quasi-Holy Son selection competition too.

Ye Yuan obtained the first place with the battle result of a flawless victory, obtaining the qualification to enter the Crimson Afterglow Valley without any qualms.

Zhang Tianyi won 59 and lost one, obtaining the qualification with the battle result of second place.

And finally, Han Feng utterly trounced Wu Jianton, catching the last bus as well.

On the seven holy sons' side, they selected three people to enter the Crimson Afterglow Valley in the end as well. They were respectively Nalan Hong, Yang Xiao, and Pei Wenqiang's elder brother, Pei Kun.

Presumably, these people's strength could stand out among the seven holy sons.

This early morning, First Elder brought the six people to this extremely out-of-the-way mountain valley.

This mountain valley was within the boundaries of the holy land, but it was exceptionally hard to find.

"First Elder, are we considered to have entered the Crimson Afterglow Valley here? Could it be that this lake in front of the legendary Desolate Ancient Drip Essence Pool?" Yang Xiao asked again.

As one of the seven holy sons, even though he had not come to the Crimson Afterglow Valley before, but what was inside this Crimson Afterglow Valley, he was perfectly aware.

First Elder shot him a glare and said crossly, "You moron! Is there any essence energy undulation in this lake? Why don't you jump down and give it a try?"

Yang Xiao scratched his head and said perplexedly, "We didn't enter the Crimson Afterglow Valley, and there isn't any path to take here as well. What on earth should we do?"

First Elder was disinclined to bother with this idiot and simply turned his head over and just threw down a word, "Wait!"

Yang Xiao was baffled. Seeing First Elder ignore him, he actually turned his head over to Ye Yuan.

"*Heh*, Little Leaf¹, I heard that you're very incredible. Can you see through the little truth or deception of the situation?" Yang Xiao scooted over to Ye Yuan's side and said.

Ye Yuan's great name already spread throughout the Crimson Afterglow Holy Land long ago. It was naturally impossible for these holy sons like Yang Xiao they all to be utterly ignorant about Ye Yuan.

Even if these holy sons' statuses in the holy land was extremely high, they were also struck with admiration regarding Ye Yuan's degree of talent.

Not everyone among them might be comfortable in their hearts. But their attitudes toward Ye Yuan was absolute submission.

Along the way, Yang Xiao struck up a conversation with Ye Yuan from time to time too. Gradually, the two people became acquainted.

Towards Yang Xiao's poser actions, Ye Yuan was naturally not averse either, Such a person was more interesting than people who keep a straight face constantly.

Seeing Yang Xiao inquire, Ye Yuan said with a smile, "There should have been an extremely powerful camouflage set up here. If one did not reach the Dao Profound Realm strength, one would probably not see through the truth and deception at all. Furthermore, even for those in the Dao Profound Realm, wanting to crack this camouflage is probably beyond their power too."

First Elder did not look over here, but his ears perked up high.

Hearing Ye Yuan's words, First Elder was unbelievably shocked in his heart too. He did not know if Ye Yuan was guessing or could really see through the truth and deception.

But Yang Xiao was pretty on point this time and helped him ask, "Huh? You said that a Dao Profound Realm can't see through the truth or false; then why can you, a Divine Traversing Realm, see through it?"

Ye Yuan said smilingly, "Naturally because I'm incredible."

Yang Xiao pursed his mouth and said, "How boring! Forget it if you're not telling!"

Ye Yuan smiled without speaking and did not follow up on this too. He could not very well tell Yang Xiao that he was a Tier 9 Array Emperor, right?

This place's camouflage technique was extremely profound. With the Crimson Afterglow Holy Land's present standard, they absolutely could not set it up.

Ye Yuan reckoned that this should be set up long ago by a previous generation Holy Lord. It was even possible that it was set up by the first generation Holy Lord.

Wanting to forcefully crack this camouflage technique, most likely it could not be done at all without having Eighth or Ninth Level Dao Profound strength.

Even if Tu You knew the way to crack it, wanting to send them into the Crimson Afterglow Valley, he likely had to pay a considerable price as well.

From that day's conversation, Ye Yuan could tell that Tu You's condition was not very good.

If not for so, it was impossible for him to do this sort of entrusting thing.

Under the situation where his condition was very bad, he was even planning on cracking this camouflage technique a second time. It could be seen that his sincerity was indeed sufficient.

That day, Ye Yuan ultimately still did not promise Tu You. He only said he will consider it.

But at this time, Ye Yuan became somewhat moved.

Right then, the earth quaked, and the mountains swayed within the mountain valley. It was as if an earthquake occurred.

The corners of First Elder's mouth twitched, and his eyes actually became somewhat moist.

Holy Lord's lifespan originally did not have much left. With this, it was adding one disaster after another. Especially sending six people in this time all at once, the burden on Tu You was even greater.

When the thought reached here, Chen Qin was incredibly upset in his heart.

Rumble ...

Under everyone's astonished gazes, the lake in front of them actually parted into two, like it was forcefully cleaved into two halves by someone using a blade.

Between the two halves of the lake water, a gorgeous light emitted out.

"The few of you, go in from between this lake water! Remember, you all only have five day's time. After five days, no matter how much you gained, you have to come out. Otherwise, you all can only come out again after 300 years." Chen Qin warned.

Of course, Chen Qin knew that Tu You had the ability to forcefully crack this grand array. But that price expended was too great.

After Tu You cast the skill, he would die without a doubt!

This sort of method, Chen Qin naturally would not say out, and would not agree to Tu You casting the skill either.

"Yes, First Elder!"

The six people received the order and leaped into the brilliant light, then vanished from sight.

After Ye Yuan's group of six disappeared, a light flashed, revealing that hoary and aged silhouette of Tu You's.

The current Tu You looked even older than before at a glance.

Seeing Tu You, Chen Qin's expression changed, "Holy Lord, you ..."

Around Tu You was a strand of faintly discernible black qi circling around. Martial artists all knew that this vague black qi was precisely death qi!

Once this sort of aura appeared around a martial artist, they were not far from exhausting their lifespans.

Tu You waved a hand and said, "Opening the array formation this time, the essence energy expended was a little too great. It's fine. My body, I have a score in my heart. Hanging on for three years shouldn't be an issue. I just hope that these children can grow up faster."

Chen Qin's years ran down his old face as he said, "Holy Lord, it's all Chen Qin who is incompetent, to not even have the ability to open up the Crimson Afterglow Valley's array formation!"

Tu You smiled and said, "The Crimson Afterglow Valley has always been personally opened up by the Holy Lord. When was it your turn?"

If Tu You was still in his peak state, opening the Crimson Afterglow Valley naturally would not be too much of an issue and would not expend longevity either.

But the current Tu You could not endure such tremendous expenditure at all. Each time he used essence energy, his lifespan would be lost even faster!

Chapter 804: Entering the Pool

Ye Yuan only felt his vision blurred, and then he appeared in a canyon.

“Such powerful essence energy! I clearly haven’t seen the Desolate Ancient Drip Essence Pool yet, and I can actually sense its direction!” The moment Yang Xiao came in, he made an unnecessary fuss.

But visibly moved expressions appeared on the faces of the others. Clearly, they all felt very surprised by this surge of essence energy undulation.

Everyone was unable to contain the excitement in their hearts and walked towards the direction the essence energy came from.

Before long, a pool 1000 feet in circumference appeared before everyone’s eyes.

The pool water took on a dark red color. The essence energy undulation coming from the pool water made the hearts of these holy sons and quasi-holy sons all palpitate.

The essence energy undulation coming from the pool water was too intense, intense to the extent it made people fearful.

“*Gulp!* This is the Desolate Ancient Drip Essence Pool? I were always unconvinced by the ancestors. But only after arriving here myself do I know how hard it is to enter the second level!” Nalan Hong said solemnly.

These holy sons were all people arrogant at heart and haughty in manner and always felt that them entering the Desolate Ancient Drip Essence Pool, they definitely could walk to the third level.

But sensing the essence energy undulations of this pool water in front of him, Nalan Hong knew that he was too naive.

To be able to enter the Desolate Ancient Drip Essence Pool, which one of them was not a prodigious talent?

But the Crimson Afterglow Holy Land’s rank dropped again and again. This showed that benefits from the Desolate Ancient Drip Essence Pool was not easy to be grasped.

“Nalan Hong, don’t waste anymore time! We only have five day’s time. If you’re not entering, I’m going in!”

Yang Xiao did not have that many qualms, jumping into the pool water immediately with a leap.

However, Yang Xiao appeared casual, but he clearly did not dare to jump too far either, only jumping out a distance of around 50 feet.

The expressions of the rest on the shore all became stern, staring fixedly at Yang Xiao.

Yang Xiao originally still had a careless appearance. But the moment he touched the water, everyone distinctly sensed his body turned stiff as if his entire person was frozen.

Following which, Yang Xiao's body started trembling vigorously. The expression on his face seemed as if he was being tormented.

The expressions of the others all became apprehensive. About Yang Xiao's ability, they were all aware of it. He entered the pool 50 feet out and was actually in such agony. It could be seen that this lucky chance was not so easy to obtain.

Nalan Hong and Pei Kun exchanged a glance. The two people seemed to have reached some sort of tacit agreement and actually leaped at the same time, but arrived 60 feet out into the pool water.

"Ye Yuan, aren't you going down to test the waters?" Zhang Tianyi suddenly opened his mouth and said.

Ye Yuan smiled and said, "You guys head down first. This pool water seemed to be quite impressive. My cultivation realm is a little low. I need to do some preparations first."

Zhang Tianyi shot Ye Yuan a glance and leaped too, jumping into the pool water.

Afterward, Han Feng clasped his hands at Ye Yuan and leaped down as well.

Ye Yuan's expression was calm, but he was not calm at all in his heart.

Approaching this Desolate Ancient Drip Essence Pool, Ye Yuan actually sensed that a mysterious power was calling him in the depths of the pool water!

Ye Yuan was sensing this mysterious power, so he was not in a hurry to enter the water.

But he felt for a long time and also did not sense just what on earth this mysterious power was.

While at this time, the first one to enter the water, Yang Xiao, started to break through!

He only soaked for a short while in this pool water and actually directly broke through the bottleneck, letting him advance ranks successfully!

This pool water contained powerful energy. It could really be said to produce an immediate effect.

Another 10 minutes later, Nalan Hong and Pei Kun actually both advanced ranks!

Han Feng and Zhang Tianyi were not willing to fall behind too, likewise breaking through realms very quickly.

"*Hahaha*, really awesome! In a flip of a hand, it's actually comparable to several years of my bitter cultivation! This Desolate Ancient Drip Essence Pool is indeed well-deserving of its reputation!" Yang Xiao chortled with laughter.

The others did not speak, but their faces were all unbelievably excited.

Clearly, the prowess of this Desolate Ancient Drip Essence Pool far surpassed their imaginations.

Ye Yuan discovered that it seemed like he could not feel out this mysterious power no matter what and simply jumped into the pool water directly.

The moment he entered the water, a bone-piercing chill instantly enveloped his entire body, freezing all the nerves in his entire body until he became paralyzed and actually made him unable to move a muscle.

“I clearly couldn’t feel the water temperature by the shore. I didn’t expect that entering the water, it would actually be this bone-piercingly cold,” Ye Yuan said in surprise.

But Ye Yuan’s physical body was incomparably powerful. After experiencing the initial paralysis, he adapted very quickly.

At this time, every pore on his body was as if it opened up through soaking in the pool water, feeling indescribable comfort.

Powerful essence energy tunneled into his body from every pore, letting his cultivation realm rise rapidly.

Ye Yuan also absorbed the massive quantities of essence energy in the pool water without holding back at all and started to consolidate his cultivation realm, in order to make preparations for breaking through to Boundless Realm.

One step, two steps, three steps ...

Ye Yuan walked forward step by step. Each step forward, the essence energy in the pool water would intensify a little more.

The tempering of the pool water was not just targeting his essence energy. It actually had a substantial strengthening effect on his physical body too.

Ye Yuan enjoyed the tempering of the pool water to his heart’s content and also got increasingly closer to Boundless Realm.

In a blink, one day and night passed.

The expressions on the few geniuses’ faces became progressively more contorted as well.

And one day’s time passed. Han Feng and Zhang Tianyi each only walked forward a distance of 20 feet, stopping at the 70 feet mark.

The three Heaven Enlightenment Realm holy sons actually advanced shoulder to shoulder, stopping at the 90 feet mark!

One had to know that the current generation Holy Lord, Tu You, merely entered the second level.

This time, three of them actually all achieved this goal!

“ARGHHH!”

All of a sudden, Pei Kun let out a pained cry and actually leaped right out of the water, returning to the shore!

On the bank, Pei Kun's expression was very ugly.

He never would have thought that the first one to be eliminated was actually him.

Sweeping a glance over, Yang Xiao and Nalan Hong were basically at the same distance. Zhang Tianyi and Han Feng were also at the same distance.

Looking over towards Ye Yuan again, it made him rather surprised.

Ye Yuan actually still remained at the 50 feet distance at this time.

The Han Feng and Zhang Tianyi who were defeated at Ye Yuan's hand both walked out 70 feet in distance. Ye Yuan actually just walked out a distance of 50 feet?

Right then, Han Feng suddenly lifted his head and gave a long cry, and actually took another step forward!

It was this step that let him cross into the second level, breaking through to the 80 feet distance!

Pei Kun's expression change. He clearly did not expect that a Boundless Realm martial artist could actually reach the second level.

Splash!

Pei Kun was unresigned to failure and actually leaped, entering into the pool water once more.

This time, he progressed very smoothly, walking straight to the 90 feet area.

But right then, an extremely anguished expression surfaced on Pei Kun's face. He finally could not endure it and retreated back to the shore once more.

Boom!

Pei Kun slammed a fist onto the ground and said unresignedly, "Could it be that my, Pei Kun's, potential, merely ends here?!"

Chapter 805: A Canal Is Formed When Water Comes

"Ah! Hurts to death! Hurts to death! I feel like my entire body is about to explode!"

Yang Xiao gave a series of miserable screams and directly jumped out of the Desolate Ancient Drip Essence Pool, coming to the shore, standing shoulder to shoulder with Pei Kun.

Pei Kun's expression was very ugly by the side.

Yang Xiao walked out 130 feet at the end; he was much stronger than Pei Kun.

They, these holy sons, were all very clear that the further they walked indicated the greater the potential.

Which also showed that Yang Xiao's potential was much greater compared to him, Pei Kun.

To be able to walk to the second level area, no matter how useless, he could reach Dao Profound Realm strength too.

(.c om) “Sigh, I say, Pei Kun, don’t pull a long face anymore. At any rate, you reached the second level area too. Didn’t I just walk out a couple more feet than you? Speaking of which, didn’t expect that the three of us entering this time, we all entered the second level area. Truly remarkable!” Yang Xiao still had a cheeky appearance.

“Humph! Saying it lightly! Did you see or not? Even those two Boundless Realm brats walked further than me! When did I, Pei Kun, ever end up in such a sorry state?” Pei Kun was still very unhappy.

Zhang Tianyi and Han Feng had long entered the second level region already and actually walked even further than Pei Kun.

Indeed, this Desolate Ancient Drip Essence Pool could bring tremendous benefits to these geniuses. But it would also thoroughly expose their own potential.

Originally, these geniuses only competed secretly. No one yielded to any one. But with this, their potential had nowhere to hide!

Pei Kun being the first one to be eliminated, he clearly could not cross this hurdle in his heart.

“Sigh, what are you thinking so much for? Can’t you still tell that no matter how merrily we jump around, the most talented one is definitely Ye Yuan! I reckon that before long, he’ll surpass you and I. Since that’s the case, what are you still worrying so much for?”

Maybe it was due to personality, Yang Xiao was much more open-minded than Pei Kun.

“Heh, surpass us? You take a look yourself. Just where has he only walked up to now? In my view, he has exhausted his potential fully and won’t have any major developments in the future!” Pei Kun said with a cold snort.

Although Ye Yuan was brought by his younger brother, Pei Kun’s current mindset was somewhat disrupted.

He wished that these few people would be eliminated by the Desolate Ancient Drip Essence Pool one by one right away. Only in that way could he find some comfort.

Yang Xiao still had not noticed this after getting back on land. Only hearing Pei Kun say so at this time did he discover that Ye Yuan actually only walked to 70 feet distance and could not even compare to Zhang Tianyi and Han Feng.

“En? What’s happening? Shouldn’t be! This guy is so freakish; how can he possibly only walk to just 70 feet?” Yang Xiao was quite puzzled as well as he said.

“This fellow probably used some methods which over-drafted potential. Hence, that’s why he can be so freakish at a young age. But the moment he entered this Desolate Ancient Drip Essence Pool, his true form was revealed. In my view, he will just have Boundless Realm cultivation at the maximum in this lifetime,” Pei Kun said.

Yang Xiao’s eye glinted. It was also uncertain what he was thinking about.

Right then, Pei Kun's expression changed, and he said, "Nalan Hong entered the third level region!"

Yang Xiao was startled inwardly. Looking over, indeed, he saw that Nalan Hong already broke through 210 feet out!

"*Haha*, the Nalan Family are indeed all freaks! No idea up to where Nalan Chu that fellow can walk to if he came in here," Yang Xiao said with a laugh.

"*Humph!* That fool actually gave up the opportunity to enter the Desolate Ancient Drip Essence Pool. Wait until he returns to the family clan, his intestines will probably turn green with regret," Pei Kun said disdainfully.

"*Sigh*, it's indeed quite lamentable for Nalan Chu. I didn't expect that he just left, and the holy land announced an increase in slots right after. But Nalan Hong could actually enter the third level region. This is impressive!" Yang Xiao felt pity for Nalan Chu too.

But Pei Kun kept his mouth shut. He also did not expect that Nalan Hong actually had such great potential.

Two hours later, Yang Xiao's mind suddenly jolted.

"*En?* Ye Yuan entered the second level region!"

The moment he entered the second level region, Ye Yuan suddenly felt the pressure double.

That violent strength tunneled into his body brazenly without any scruples at all, tearing at his body.

But Ye Yuan's body was long incomparable to the past through the dragon blood's remolding.

(.c om) Allowing those violent energies to impact his meridians freely, he still did not move a muscle.

Those energies entering Ye Yuan's body, a portion was refined by the Spirit Bristle Nine Yang Divine Art and entered the essence energy sea. Another portion was absorbed by his body, strengthening his physical body.

Ye Yuan's physical body became increasingly stronger too, virtually reaching middle-stage Tier 6!

The reason why Ye Yuan stood still and did not advance was that he discovered that the pool water's remolding of his body had not completely stopped yet.

If he entered the second level right away, it was a bit too much of a waste.

Just now, Ye Yuan discovered that the first level's pool water was already completely ineffective to him. That was why he stepped into the second level.

Ye Yuan's essence energy sea became increasingly full. His cultivation realm already approached increasingly closer to Boundless Realm under the pool water's continuous impact.

Ye Yuan did not care about which step the others walked to either. He just walked forward step by step himself. Each step was taken very solidly.

Furthermore, he could sense that his body was far from reaching its limits. Hence, he was not in a rush.

Just like this, another day's time passed.

Splash!

Nalan Hong finally could not persist on either and retreated to the shore.

But Nalan Hong did not feel dejected. Instead, he was faintly very thrilled.

Charging to the third level region in one go, Nalan Hong obtained tremendous benefits. Moreover, him being able to walk to the third level region also surpassed quite a few generations of holy lords.

In the future, his accomplishments would surely be even higher than the holy lord!

“Quickly look! Han Feng and Zhang Tianyi both entered the third level region already! What kind of freaks were chosen from the Quasi-Holy Son selection competition this time?!” Yang Xiao exclaimed in shock.

Nalan Hong was startled and hurriedly looked over. Indeed, he saw that Zhang Tianyi and Han Feng's figures were already at the third level region.

“Holy Lord His Excellency has great foresight. Looks like ... Our Crimson Afterglow Holy Land is going to rise up anew!” Nalan Hong did not have the intention of being envious and admired Tu You's decision instead.

It was just that he did not know that the Crimson Afterglow Holy Land was currently facing its greatest crisis since establishment!

Once Tu You's lifespan ran out, the Crimson Afterglow Holy Land would probably be reduced to a second-rate power immediately, and be swallowed up by other holy lands.

Tu You dwelt in deep seclusion these few years and rarely came out. He only said that he was in a retreat to assault the Second Level Dao Profound; this was the news he spread out on purpose. At the same time, he would never show his face in front of outsiders.

Apart from a few trusted elders, no one knew that he already reached the extent of the oil running out and the lamp expiring already.

Right at this time, the winds and clouds in the sky suddenly changed. Patches of dark clouds converged over here. The horrifying pressure made people feel very stifled, unable to even catch their breath!

“En? Not good! Ye Yuan is going to transcend tribulation!” Nalan Hong's expression changed as he said.

While at this time, Zhang Tianyi and Han Feng were only a hundred over feet distance away from him. The moment Ye Yuan transcended the tribulation, they would definitely be swept into it.

Zhang Tianyi and Han Feng were startled awake by this abnormality too, carrying extremely unwilling expressions as they retreated back to the shore.

[Unrivaled Medicine God](#)

Chapter 806: Horrifying Soul Tribulation!

“This fellow’s strength is comparable to peak Boundless Realm. If we were to transcend tribulation inside, we’d definitely be smitten to death!” Zhang Tianyi said extremely unwillingly.

He sensed that he had not reached the limits yet and should still be able to push forward some more.

But Ye Yuan suddenly transcending tribulation thoroughly screwed up his tempo.

“Actually, we should have long expected it. With Brother Ye’s strength, entering this Desolate Ancient Drip Essence Pool, how can he possibly not break through to Boundless Realm? It somewhat exceeded my expectations that he is only breaking through now,” Han Feng said.

If interrupted, then he was interrupted. Han Feng did not mind very much.

Entering the Desolate Ancient Drip Essence Pool this time, his harvest was extremely huge. He was almost breaking through to the Ninth Level Boundless already.

Furthermore, he could sense that the pool water’s transformation on his body was extremely great. In the future, cultivation would yield twice the results with half the effort.

Suddenly loosening up to six quotas this time was truly picking up a treasure to him.

“What’s Ye Yuan doing? Is it possible that ... this guy wants to oppose heavenly tribulation?” Nalan Hong exclaimed in shock.

A mighty dragon aura billowed to the skies. Ye Yuan slowly raised his palm. This was clearly going to exhibit a powerful martial technique.

By the side, the few geniuses were all dumbstruck with astonishment when they saw this scene.

Each and every one of them rated themselves as geniuses. Towards heavenly tribulation, they were generally not overly concerned but were not wildly arrogant to the degree of opposing heavenly tribulation yet.

Watching Ye Yuan’s stance, he did not place heavenly tribulation in his sights at all!

With Ye Yuan’s present strength, transcending the 5-in-9 heavenly tribulation was without the least bit of pressure at all, even if it was the major heavenly tribulation of breaking through a major cultivation realm.

Boom!

A Coiling Dragon Heaven Devastating Palm soared high into the air, flying straight for the tribulation clouds that had yet to form!

A massive green dragon ¹ charged straight for the skies, pressing forward with an indomitable will!

Under everyone’s dumbfounded gazes, the tribulation clouds were dissipated by the power of this palm.

“Holy sh*t! Just what kind of freak is this guy? The might of one palm is actually so horrifyingly powerful! Could it be that he had yet to use all of his strength in the competition?” Yang Xiao cried out weirdly.

This Coiling Dragon Heaven Devastating Palm was not the slightest bit inferior to that fifth-stage supreme true intent, Rending the Sky, as well!!

A martial technique like Rending the Sky, being able to comprehend one already need to express thanks to heaven and earth. He did not expect that Ye Yuan actually still had a card up his sleeve.

But this was Yang Xiao misunderstanding Ye Yuan. Actually, during the competition, the power of Rending the Sky was indeed above the Coiling Dragon Heaven Devastating Palm.

But soaking in the pool water these two days, the power of Ye Yuan's fleshy body strengthened by more than several times!

Ye Yuan discovered that the power within this pool water, the majority was used to temper the fleshy body. The increase in essence energy instead was a little slow in comparison.

The dragon race's martial techniques did not entirely look at dragon wave's degree of comprehension. It similarly looked at the strength of the physical body. This was the same logic as a martial artist's essence energy and supreme true intent.

Right now, Ye Yuan's physical body was multiple times stronger. The might of Coiling Dragon Heaven Devastating Palm naturally strengthened a great deal too.

The Coiling Dragon Heaven Devastating Palm that Yang Xiao saw was precisely the version after strengthening.

A 5-in-9 heavenly tribulation, the tribulation clouds were not so easily scattered away.

Very soon, the tribulation clouds in the air gathered once more. Very clearly, it was more than before this time.

But Ye Yuan did not seem to pay attention at all. Raising his hand, it was another Coiling Dragon Heaven Devastating Palm, directly blasting apart the firmament.

In this pool water, Ye Yuan felt like he returned to the embrace of his mother's womb, in a nascent state with limitless strength!

The third time, fourth time, fifth time ...

Ye Yuan did not care about the tribulation clouds in the sky at all, firing palm after palm over above the sky.

Five sets of tribulation clouds were actually thoroughly dissipated by Ye Yuan without condensing successfully yet!

The five people on the shore were long dumbfounded with shock.

Turns out that heavenly tribulation could still be transcended like this!

No lightning falling, this heavenly tribulation ... Could it still be called heavenly tribulation?

The current Ye Yuan stood calmly on the water surface, akin to a war god.

"This ... It's done?" Yang Xiao looked at the surroundings and asked, rather baffled.

Nalan Hong's expression was grim as he shook his head and said, "You look at Ye Yuan's appearance akin to facing a great enemy. I think ... it shouldn't be over yet, right?"

Yang Xiao was startled and discovered that Ye Yuan indeed had an appearance akin to facing a great enemy.

But for Middle Three Realms martial artists, 5-in-9 heavenly tribulation was already the limit. Could it be that there was still a more formidable heavenly tribulation?

Right then, the tribulation clouds originally dissipated by Ye Yuan actually condensed and formed once more!

“How is this possible? Ye Yuan is transcending the Boundless Realm’s heavenly tribulation here. How can a 6-in-9 heavenly tribulation possibly appear?” Yang Xiao nearly jumped up.

This situation before his eyes seriously somewhat subverted his understanding.

But Pei Kun said with a cold snort, “Idiot! Look closely! How is this a 6-in-9 heavenly tribulation? This is clearly soul tribulation!”

“Uh, soul tribulation? Uhh ... Seems like it really is! However ... the power of this soul tribulation is so powerful!” Yang Xiao still had a guileless appearance.

The others were all silent. That thick layer of tribulation clouds in the sky made their divine souls all tremble.

The might of this soul tribulation was clearly much more powerful than they imagined!

“Looks like comprehending the golden characters can obtain immense benefits, but it has side effects too. The power of this soul tribulation is way stronger compared to that time in my previous life!” Ye Yuan smiled bitterly in his heart.

Transcending soul tribulation! If one did not have adequate measures, it was very hard to transcend.

Soul tribulations arrived at the divine soul directly and did not have any obstacle at all. It was unlike lightning tribulation; martial artists could rely on essence energy and the physical body to guard the heart channels.

As long as the heart channels were not severed, the martial artist was considered to have transcended.

But soul tribulations disregarded the physical body, attacking the divine soul directly. It was equivalent to a divine soul attack, completely unavoidable.

With Ye Yuan’s measures, when he withstood the soul-lightning dual tribulations back then, he nearly perished; his Dao almost dissipated.

And what played a critical role in it was the soul tribulation!

It was just that the soul tribulation this time was much stronger compared to that time.

A purple bolt of lightning fell down with a loud crash. Lightning was partially hidden and partially visible and actually shuttled back and forth the void!

Heavenly Soul Shield!

Ye Yuan cried out lightly. Soul force suddenly erupted, forming an invisible barrier in front of him!

Boom!

Ye Yuan's body was directly sent flying out. He was spewing out a mouthful of fresh blood while in the air.

Seeing this scene, the faces of everyone on the bank suddenly changed.

Although the might of this soul tribulation was kind of expected early on, seeing Ye Yuan being directly bombarded heavy injuries, they did not expect it either.

These few people were all aware that Ye Yuan was not only a martial artist, but he was also an alchemist. His attainments in the divine soul were very high.

It could be seen from this how terrifying this soul tribulation was!

Zhang Tianyi's expression was solemn as he said, "That divine soul mystic art of Ye Yuan's earlier, with my strength, I can't shake it a single bit at all. But the soul tribulation actually blasted it to pieces! The power of this soul tribulation is too terrifying! If it were me, my soul would probably have dissipated already under that blow earlier. Really don't know what on earth Ye Yuan did, to actually provoke such a powerful soul tribulation! The magnitude of this soul tribulation is not what Boundless Realms can withstand at all!"

Everyone's expression changed again!

Even Zhang Tianyi this soul martial artist could not withstand a single hit from the soul tribulation. It could be seen how terrifying the power of this soul tribulation was.

"Ye Yuan is probably ... in danger this time!" Zhang Tianyi said with a slightly grim expression.

[Unrivaled Medicine God](#)

Chapter 807: Divine Inscription!

Another bolt of purple lightning arrived with a howl!

Ye Yuan mustered up all of his soul force to deal with the second bolt of soul tribulation.

"Puhwark ..."

Ye Yuan was sent flying once more. His divine soul was already incredibly withered.

This soul tribulation's power was too great. Even if Ye Yuan's divine soul already had substantial growth, he was completely not its match too.

If another one or two more bolts slammed down, Ye Yuan might really have his soul disperse to the wind.

When everyone on the shore saw this scene, they all could not bear to look straight at it.

Such a genius, could it be that he was going to fall under this horrifying soul tribulation?

The tribulation clouds in the sky rolled over and were currently brewing the next round of terrifying soul tribulation.

Two bolts of soul tribulation made Ye Yuan's divine soul sustain immensely severe injuries. Currently, he could not even accomplish standing up!

Crack! Crack!

Purple lightning rumbled down once more. Han Feng and the rest could distinctly sense that the power of the soul tribulation this time was even stronger than before!

The few people on the shore closed their eyes. Clearly, they did not feel that Ye Yuan could endure this bolt of soul tribulation.

Forget about them, even Ye Yuan himself did not believe that he could transcend this soul tribulation either. His sole reliance now was that black colored bead.

Right then, a voice sounded out in Ye Yuan's mind.

"You idiot, why haven't you quickly used the divine inscriptions?!"

It was Long Teng's voice!

This old man already had not made a sound for very long. This time, he actually voice-transmitted to him out of the blue.

But what was divine inscription?

Ye Yuan suddenly had a flash of inspiration. A hard to express syllable emitted out of his mouth. It was precisely that divine character he had just comprehended not long ago!

"Mou ..."

Right at this time, the soul tribulation arrived in front of Ye Yuan.

What amazed Ye Yuan was that the soul tribulation actually dissipated to nothing under this syllable!

At virtually the same time, that black colored bead actually shed some black powder. Ye Yuan's divine soul instantly recovered as good as new!

"N-No way, right? Ye Yuan ... He didn't die! *Ah, pooh, pooh, pooh*, didn't die is good! Didn't die is good!" Yang Xiao rambled.

The scene which just took place seriously made people's jaws hit the ground.

They already ascertained that Ye Yuan was unable to cross the next round of soul tribulation. Did not expect that when the soul tribulation arrived in front of Ye Yuan, it actually dissipated to nothing, as if it had never existed!

What was even more bizarre was that Ye Yuan's current divine soul state was excellent, completely not like he sustained heavy wounds.

What on earth happened in that instant just now?

"What did he do just now? To actually annihilate the soul tribulation!" Zhang Tianyi said, not quite daring to believe it.

“Just now, an odd syllable seemed to have emitted out of Ye Yuan’s mouth. Aside from this, he didn’t seem to have done anything either. Could it be that the soul tribulation being annihilated was related to that odd syllable?” Nalan Hong said with a frown.

“Impossible! What kind of syllable is able to eradicate such terrifying soul tribulation power? What was that, to let his divine soul recover back to how it was?” Pei Kun said in disbelief.

Nalan Hong shook his head. Clearly, he was rather uncertain what it meant either.

He only faintly had some surmises. But Ye Yuan’s means, he could not figure them out at all.

“Just carry on watching. If it’s really because of that weird syllable, he’ll definitely still use it again in a while!” Nalan Hong said.

Ye Yuan himself was unbelievably shocked too. He did not expect that this syllable actually had such power, directly eradicating the soul tribulation!

Long Teng, this old fellow, seemed to be constantly paying close attention to him.

Cultivating the divine soul in the Vast Heaven Pagoda probably all landed in his sights.

This old man kept saying that he was sleeping, but he was perfectly aware of the happenings in the Vast Heaven Pagoda!

When Long Teng said finish that sentence earlier, he did not make any more sound, as if he entered into a slumber again.

No matter how Ye Yuan called, he did not respond.

Forget it. Right now, it’s still more pressing to deal with the soul tribulation. Won’t be late to find him again later, Ye Yuan thought to himself.

The might of the divine inscriptions far surpassed Ye Yuan’s imaginations.

No matter how powerful the soul tribulation was, when it arrived in front of him, it was immediately annihilated by one syllable!

After an hour, the tribulation clouds finally dissipated. After experiencing life and death, Ye Yuan finally transcended the soul tribulation.

Sensing his own divine soul a little, Ye Yuan was greatly taken aback!

His divine soul was clearly just initial-stage perfection Alchemy Ancestor. But in terms of power, it was probably not inferior to late-stage Alchemy Ancestor!

These divine inscriptions were indeed abnormally marvelous!

Ye Yuan thought that his research into the divine soul was already very thorough. But the appearance of the divine inscriptions utterly subverted his understanding.

What amazed Ye Yuan even more was that Long Teng actually knew that the golden characters were called divine inscriptions!

This guy seemed to be hiding many secrets!

Ji Zhengyang researched the golden characters for many years and did not even know that they were called divine inscriptions. This Long Teng actually knew!

Ye Yuan was blasted to the shore long ago by the soul tribulation. By the time he came back to his senses from the elation of breaking through, he suddenly sensed several odd gazes sizing him up.

“En? What’s going on? All looking at me like that for what?” Ye Yuan intentionally pretended to be puzzled.

“Ye Yuan, you this fellow, your methods really emerge in endless streams! Earlier, I even thought that you were dead for sure. I didn’t think that you actually pulled through at the final juncture!” Yang Xiao said.

“Huhu, just luck.” Towards this, Ye Yuan did not wish to say too much.

The divine inscriptions and reincarnation were the same. They were both secrets he concealed in his heart. It was impossible to talk about them to other people.

But Yang Xiao clearly did not have the intention of asking too much. The few of them were all extremely talented figures and were deeply aware of the logic that everyone had their own secrets.

It was just that they had a deeper understanding of Ye Yuan’s means.

“I interrupted everyone’s cultivation. I’m seriously sorry about that. This Ye has already finished breaking through. Let’s continue?” Ye Yuan said smilingly.

Han Feng and Zhang Tianyi both nodded their heads, entering the Desolate Ancient Drip Essence Pool with a leap.

But after these two people entered, the expressions on their faces became anguished too. Very clearly, they could not persevere for a long time either. If there were no accidents, they should stop at the third level.

Ye Yuan did not say another word too, jumping in directly.

Ye Yuan entered the second level region but discovered that the pool water here was already completely ineffective to him.

Looks like breaking through to the Boundless Realm previously and stimulating the power of dragon blood once more, regardless whether was it essence energy or the fleshy body, they all had a substantial increase. Hence, this second level region is already no use to me, Ye Yuan pondered to himself.

Ye Yuan stepped into the third level immediately without any hesitation and discovered that the third level was not very useful to him either. Hence, Ye Yuan directly entered the fourth level!

Seeing this scene, the three people on the shore stared dumbfoundedly with their mouths agape again.

“Is this guy ... treating the Desolate Ancient Drip Essence Pool as a normal pool? To actually walk to the fourth level straight away!” Pei Kun said speechlessly.

He used all of his power and only walked to the second level. He did not expect that after Ye Yuan finished transcending the tribulation, he directly walked to the fourth level. This was too demoralizing.

"Haha, Ye Yuan's potential is probably far beyond this! Like I said, with his talent, how can he possibly stop at the second level?" Yang Xiao laughed loudly and looked at Pei Kun deridingly.

Pei Kun's expression was black as he darted Yang Xiao a fierce glare.

Chapter 808: Remolded Anew

On the third day, Han Feng and Zhang Tianyi could not persist any longer, withdrawing out of the Desolate Ancient Drip Essence Pool.

Right now, in the pool, there was only Ye Yuan alone left.

And the present Ye Yuan already walked to the fifth level region!

"Truly a terrifying fellow. He already walked to the fifth level, but he is completely indifferent!" Zhang Tianyi said with vicissitudes of emotion.

Regardless whether was it talent or strength, he lost completely to Ye Yuan.

Even if he was any prouder, facing Ye Yuan's terrifying talent, he had no choice but to lower his high head too.

The truth was placed right in front. It was not up to him to deny.

The five people saw that Ye Yuan still did not have the intention of withdrawing and could only consolidate the Desolate Ancient Drip Essence Pool's gains by the side and observe Ye Yuan's progress at the same time.

Actually, they could already leave the Crimson Afterglow Valley now. But not seeing which step Ye Yuan walked to, they were still not reconciled to it.

In a blink, two days passed. Ye Yuan already arrived at the sixth level region and still did not have the intention of stopping.

However, it already reached the time to exit the valley. If they still did not exit the valley, they would be sealed off in the Crimson Afterglow Valley for 300 year's time!

"Brother Ye, the hour has arrived! We've got to exit the valley!" Han Feng shouted to Ye Yuan.

"You all go out first. I'm still continuing," Ye Yuan said nonchalantly.

This Desolate Ancient Drip Essence Pool's remolding of his body was very apparent. A short five day's time, his strength already soared by a wide margin.

Making him go out now, how could Ye Yuan be willing?

"Brother Ye, First Elder said before, if we don't leave within five days, we'll be trapped to death here!" Han Feng said anxiously.

Ye Yuan had the grace of teaching to him. He could not bear to see Ye Yuan be trapped to death here. However, Ye Yuan no longer replied him.

“Time to go! He’s willing to stay here, just let him remain here! If you guys are not going, I’m leaving first!”

Pei Kun was the first one to be eliminated and had long lost interest in this place. If not for the sake of seeing where Ye Yuan could walk to, he would have left long ago.

Outside the mountain valley had a light screen. Pei Kun leaped and vanished into the light screen.

Nalan Hong looked at Ye Yuan’s back view, shook his head, and left too.

“This guy really makes people unable to see through!”

Yang Xiao muttered to himself and chose to leave as well. Zhang Tianyi followed closely behind.

“Han Feng, still not going? The passageway is going to close!” Zhang Tianyi shouted to Han Feng.

At this time, the light screen outside the mountain valley was already flickering, likely to die out at any time. If he still did not leave, he was really going to be trapped here.

Han Feng gave a disappointed sigh and finally still turned around and left.

Not long after Han Feng left, the light screen seemingly lost its final support too, vanishing from sight.

Ye Yuan paid no attention to this and still cultivating himself by following his usual way of doing things.

...

Five people’s silhouettes scurried out from the lake water. The lake water that was parted became one as well, turning into its initial-most appearance.

First Elder looked at Pei Kun and the rest full of smiles. But his expression changed drastically very quickly!

“Where’s Ye Yuan?” Chen Qin’s expression was frighteningly dark.

“Ye Yuan was unwilling to part with the Desolate Ancient Drip Essence Pool’s power and refused to come out till the end. We could only come out first,” Pei Kun said helplessly.

“What?! You’re saying that Ye Yuan is trapped in the Crimson Afterglow Valley?”

Although he had long expected it in his heart, hearing Pei Kun say it out personally, he was still akin to be struck by lightning.

Ye Yuan was the successor that Holy Lord personally designated. Now, he was actually trapped in the Crimson Afterglow Valley. This blunder was too over-the-top.

Han Feng also said helplessly, “I urged Brother Ye before too, but he still refused to come out. Perhaps ... he has some means to be able to come out himself.”

“Nonsense! This grand array is one-directional and can only be activated outside the valley! Forget that he only has this bit of strength, even if the Holy Lord were trapped inside, he wouldn’t be able to return either!” Chen Qin lost composure and said.

“This ... What to do about this then?”

The moment Han Feng heard, he kind of panicked too. He did not wish for Ye Yuan to be trapped inside for 300 years.

Chen Qin waved his hand, appearing quite irritated. “You guys return to the holy land yourselves. I’ll calm down a bit here and think what to do!”

The five people did not dare to disobey and could only leave this mountain valley.

After the five people left, a figure slowly appeared. It was precisely Tu You.

“Holy Lord, this ... What to do about this?” First Elder’s words were actually exactly the same as Han Feng’s.

Very clearly, First Elder lost a sense of propriety too.

Tu You was not as concerned as imagined and instead, said, “Since he isn’t willing to come out, presumably, he might really have some measures. We’ll wait here for a month. After a month, if he still hasn’t come out, this Emperor will forcefully activate the grand array and let him come out!”

First Elder’s expression changed as he said, “How can this do?! If Holy Lord forcefully opens up the grand array again, the remaining lifespan ...”

Tu You said with a smile, “We are already at this present situation. This Emperor has long come to accept it already. The only thing I can’t let go of is the holy land. I promised Ye Yuan before to send him in a second time. If he can’t come out, I naturally have to keep my promise. If my death can exchange for his wholehearted dedication to the holy land, it’s worth it too.”

First Elder heaved a sigh. The self-reproaching expression on his face was laid bare in its entirety.

He suddenly recalled a matter, slapped his thigh, and said, “*Oh* my, panicked earlier and forgot to ask those few brats which level region Ye Yuan made it to!”

Tu You said with a smile, “To be able to stay a full five day’s time in the pool water, he at least entered the sixth level region too! Not asking is fine too. Maybe when he comes out, he can give us a pleasant surprise.”

...

After staying in the sixth level region fully, Ye Yuan’s cultivation realm already successfully broke through to Second Level Boundless!

At this time, if he took another step forward, he would enter the central region of the pool water, which was also the seventh level region!

“*ARGH!!*”

The moment he entered the seventh level region, Ye Yuan felt every cell in his body seethe over. He felt that his entire body was burning!

This sensation of being set on fire all over his body instantly made his entire person starts convulsing.

Ye Yuan could even feel that his skeleton was rattling!

The pool water in this seventh level region was simply freakishly powerful!

But Ye Yuan knew that as long as he endured through this agony, it would be immensely beneficial to his cultivation henceforth!

The Desolate Ancient Drip Essence Pool's remolding of the martial artist's body was an all-round process!

At this time, the meridians in Ye Yuan's entire body were already scoured many times over by the pool water!

His current cultivation speed was as much as several times than before!

Ye Yuan's fleshy body's cultivation endowments were very poor. If there wasn't his previous life's alchemy knowledge, it was impossible for him to reach this step today.

In the past, it was all through the aid of medicinal pills that Ye Yuan could break through successively.

All the way until Ye Yuan obtained true dragon's blood, that it transformed the natural endowments of his physical body.

But this time, Ye Yuan's physical body obtained an overhauling transformation again on its original foundation!

Right now, Ye Yuan's cultivation speed was also not at all inferior to some rarely-seen spirit physiques.

Even if he did not consume medicinal pills, Ye Yuan's cultivation speed would not be any bit slower compared to others either!

[Unrivaled Medicine God](#)

Chapter 809: Encountering Danger at the Bottom of the Pool

Three days elapsed in a flash!

During these three days, Ye Yuan was enduring torture every second.

This sort of anguish virtually made him faint away several times.

If it were others, they would probably have failed to endure it and retreated back to the shore long ago. But Ye Yuan gritted his teeth and endured it!

The torment of immolation finally gradually subsided on the third day. Ye Yuan floated on the water surface quietly and already did not have a trace of strength.

No idea how long passed either, before he recovered some strength.

"Argh!"

Ye Yuan came to the shore and released all of the true dragon strength in his entire body with all his might!

An inconceivable scene occurred. Below Ye Yuan's neck, dark green dragon scales actually faintly emerged on his entire body!

This physical body tempering truly makes people wish that they were dead! But enduring through this hurdle will be of extremely great help to my cultivation in the future! Right now, just this fleshy body strength of mine already reached peak Boundless Realm. Coupling with the Coiling Dragon Heaven Devastating Palm, dealing with First Level Heaven Enlightenment martial artists is absolutely no issue! Ye Yuan pondered to himself.

The disparity in strength between the Boundless Realm and the Heaven Enlightenment Realm was extremely great. The disparity between the Middle Three Realms and Upper Three Realms was extremely hard to cross.

At present, Ye Yuan's spirit rank dragon wave already comprehended to peak initial-stage spirit rank. Only by coupling with a powerful physical body could it cross this immense threshold.

But speaking of which, ever since after Ye Yuan cultivated dragon wave to spirit rank, the rate of progress slowed considerably all at once.

Spirit rank dragon wave was extremely hard to break through. Ye Yuan fumbled for a long time and also just barely managed to reach peak initial-stage spirit rank.

But what made Ye Yuan glad was that even if this spirit rank dragon wave only advanced a tiny bit, the increase in the Coiling Dragon Heaven Devastating Palm's power was rather considerable.

Presently, the power of Ye Yuan's Coiling Dragon Heaven Devastating Palm was already way stronger compared to before.

Taking a look at the dragon scales all over his body, Ye Yuan could not help smiling bitterly. "If I carry on cultivating, I won't become a real dragon, right? Then wouldn't I, a dignified human, turn into the dragon race? *En?* This sort of feeling appeared again. This feeling ... seems to be in the direction of the Desolate Ancient Drip Essence Pool. Could it be that there's something at the bottom of this pool?"

"Boy, you struck rich! There is a dragon race supreme treasure at the bottom of this pool! Hurry up and go down to bring it up!"

Right at this time, Long Teng's voice sounded out once more.

"Senior, you finally came out! Can I please invite Senior to inform just what on earth divine inscriptions are?"

Regarding the dragon race supreme treasure at the bottom of the pool, Ye Yuan was not in a hurry. Finally managed to nab Long Teng, his first reaction was to ask about the divine inscription matters first.

However, after Long Teng said one sentence, there was no sound again.

Ye Yuan gnashed his teeth hatefully in his heart. This fellow was clearly intentionally avoiding him!

But speaking of which, even though Ye Yuan was already the Vast Heaven Pagoda's owner now, he actually could not even find where Long Teng was located at!

This guy was definitely hiding many secrets on him.

But regarding Long Teng, Ye Yuan really could not do anything to him.

Ye Yuan was very clear that even when he was at his prime, he might likely not be this old guy's match either.

By observing a part, one can infer the full picture. Ye Yuan reckoned that this Long Teng's pinnacle period strength was likely not beneath the Ten Great Divine Kings!

Helpless, Ye Yuan could only go to the bottom of the pool first to investigate properly.

At this Desolate Ancient Drip Essence Pool, Ye Yuan walked to the core-most seventh level region. The pool water did not have much repulsion to him either anymore.

Ye Yuan went in with a dive, sinking down to the bottom of the pool.

Not long after sinking down, Ye Yuan felt a tremendous pressure transmit over, supporting his entire body from under towards the surface of the water. He could not sink down at all.

Ye Yuan was very familiar with this pressure. It was precisely the pressure of the dragon race!

Ye Yuan could not help being secretly alarmed. This Long Teng's perception was truly sharp!

He himself only faintly sensed that something was beckoning him at the bottom of this pool, but was entirely unable to determine what it was.

But Long Teng could actually sense that it was a dragon race supreme treasure in the Vast Heaven Pagoda!

One had to know that he had already sunk down a distance of several thousand feet now, before sensing this dragon race pressure.

This dragon race pressure was rather powerful. If Ye Yuan did not temper his physical body in this pool water, it would likely be very hard to endure it.

Right away, Ye Yuan did not dare to slight it either, immediately releasing true dragon power once more to withstand this pressure.

Indeed, after releasing true dragon power, the pressure on Ye Yuan's body eased up, and he continued sinking down towards the bottom of the pool.

"This Desolate Ancient Drip Essence Pool is actually so deep! I've already dived down several tens of thousands of feet deep and actually haven't reached the bottom yet!" Ye Yuan could not help being alarmed inwardly.

He had already dove down for close to two hours and actually had not reached the bottom yet. The depth of this pool water could be imagined.

Furthermore, the further down to the bottom of the pool, the more powerful that dragon race pressure!

If not for Ye Yuan refining true dragon blood essence, it was completely impossible to swim so deep.

Right at this time, two streaks of gloomy light came from below. Ye Yuan's heart stirred, thinking that it should be almost reaching the bottom of the pool.

Could it be that the location of this gloomy light was the whereabouts of the treasure?

Ye Yuan did not lower his guard. Generally, places that had treasures were all dangerous places.

The more precious the treasure, the greater the danger accompanying it.

Previously, Long Teng said that it was a dragon race supreme treasure. Ye Yuan did not know what kind of treasure it was either. But it looks as if it was probably not some ordinary item.

Those two streaks of shiny green gloomy light became increasingly clearer, like two beams of lantern light, shooting up from the bottom of the pool.

The bottom of the pool was pitch-black; unable to see one's fingers when stretching out one's hand. But after Ye Yuan's body went through the remolding, his visual prowess was extremely good too.

At the same time, Ye Yuan entered Heart Like Monolith Realm, grasping everything in the surroundings.

Seeing as he was about to sink to the bottom of the pool, Ye Yuan finally saw clearly what those two beams of gloomy light were!

All the pores on his entire body opened up. A sense of immense danger welled up in his heart.

How was this some lantern light? It was a black flood dragon entrenched at the bottom of the pool!

Ye Yuan saw distinctly that this black flood dragon's head actually already gave birth to dragon horns. This was clearly the omen of about to turn into a dragon!

This black flood dragon was going to transform into becoming a genuine true dragon very soon!

This black flood dragon seemed to have long known that somebody was going to come down and actually restrained its aura. Ye Yuan only discovered it with the power of his naked eye by moving close in front too.

At this time, Ye Yuan was merely around a thousand feet or so away from this black flood dragon.

Although Ye Yuan was unable to perceive this black flood dragon's cultivation, to be able to transform from a flood dragon into a dragon, it was at the minimum Phaseless Realm strength too!

Phaseless Realm martial artists were not what the present Ye Yuan could resist.

Without the slightest hesitation, Ye Yuan turned around and fled!

"Ignorant human, to actually dare pry into this dragon's treasure! Where are you running to?!"

This black flood dragon actually spoke human language. His body shot out from the bottom of the pool like a cannonball, heading straight for Ye Yuan!

This underwater was the black flood dragon's domain in the end. The advantage of Ye Yuan's speed could not be brought out at all. In a blink of an eye, the black flood dragon was going to catch up to Ye Yuan.

"Coiling Dragon Heaven Devastating Palm!"

Ye Yuan was currently escaping when he suddenly turned around and gave a palm. This palm was already the limits of his strength.

Boom!

The black flood dragon was struck until his figure stopped. But he was completely unscathed.

Chapter 810: A Little Snake

With this, Ye Yuan finally probed out this black flood dragon's strength.

It was indeed the Phaseless Realm!

Furthermore, looking at it, it was actually at the high-level Phaseless Realm!

This level of strength, Ye Yuan was not even enough to fill the crevices between his teeth!

If it was the Heaven Enlightenment Realm, Ye Yuan could still think of ways to deal with it. But the Phaseless Realm, Ye Yuan was at a complete loss on what to do.

Earlier, if not for Ye Yuan reacting fast to the situation, the black flood dragon could annihilate him with a wave of a hand.

Even so, it was also a certain death situation right now!

"No wonder you want to covet this dragon's treasure. I didn't expect that a puny little human actually possesses such unadulterated dragon pressure! But it makes this dragon jealous! Brat, after this dragon eats you and refines all of your flesh and blood, it should be able to help me break through the fetters!"

Being struck by Ye Yuan, the black flood dragon was not the least bit angry. From his words, one could instead faintly detect a hint of agitation.

Even though the black flood dragon did not take human form, with his Phaseless Realm strength, his intellect was not the slightest bit inferior to humans. He was even smarter than most martial artists.

Ye Yuan's Coiling Dragon Heaven Devastating Palm move earlier, the dragon pressure was pure to the extreme. It was countless times purer than the dragon race bloodline in his body!

Then, Ye Yuan very likely refined true dragon bloodline. That was how he came to possess such a pure bloodline.

As long as he devoured Ye Yuan's fleshy body and blood, he naturally had ways to refine out blood essence!

At that time, his impure true dragon bloodline would evolve by a large margin. Breaking through the fetters to transform from a flood dragon into a dragon would be close at hand!

An intense sense of danger hit Ye Yuan's heart. He urged his essence energy to the max, wanting to escape the black flood dragon's pursuit.

But it was all futile.

The black flood dragon in the water was originally like fish in the water. His speed was much faster compared to Ye Yuan's.

In just a blink of an eye, the black flood dragon caught up to Ye Yuan.

"Boy, become a meal in this dragon's belly!"

The black flood dragon gave a cold laugh and actually opened up his oversized jaws, wanting to grind Ye Yuan up in one bite!

Ye Yuan clenched his jaws tightly and was currently awaiting mutual destruction, but he felt an even more terrifying dragon pressure envelope the entire bottom of the pool in an instant.

A black silhouette suddenly blocked in front of Ye Yuan. The black flood dragon's figure stopped abruptly and actually did not advance in fear!

"Senior Long Teng!" Ye Yuan said with joy.

Long Teng did not turn his head and just said faintly, "A little snake dares to proclaim as a dragon in vain too. Truly audacious gall! Don't you know how severe the crime of pretending to be my dragon race is?"

What made Ye Yuan astonished was that the black flood dragon actually trembled facing Long Teng.

Long Teng was clearly a clone right now. His strength might not even be a match for this black flood dragon. But this black dragon was actually in fear. Truly inconceivable.

"L-Lord Throne! This lowly subject knows his mistake! I beg Your Excellency to spare this lowly subject!"

The black flood dragon's unbearable arrogance from before actually vanished into thin air at this time. Facing Long Teng, the black flood dragon was actually like a rat that saw a cat.

Ye Yuan could not help clicking his tongue in wonder when he saw. His dragon pressure was extremely pure as well. Why was this black flood dragon not afraid of him but was scared of Long Teng?

Long Teng's pinnacle period strength was indeed very terrifying. But right now, this sort of strength, seems like there was nothing for people to be afraid of, right?

If the two people really fought, who would emerge victorious was still an unknown.

Long Teng said coolly, "Capital punishment can be spared, but it's hard to escape punishment! From today onwards, you'll serve Ye Yuan as your master, all the way until Ye Yuan takes the initiative to set you free. Are you willing?"

Nothing could be perceived from the black flood dragon's face. But Ye Yuan clearly sensed his difficult emotions.

Indeed, the black flood dragon opened his mouth and said, "This ... Lord Throne, how can our dragon race serve a human and for him to be our master?"

Long Teng said disdainfully when he heard that, "Dragon race? A little snake dares to proclaim to be of the dragon race in vain too? Disregarding that you haven't transformed from a flood dragon to a dragon yet, even if you really successfully transformed into a dragon, it's also the lowest level dragon race bloodline. You dare to proclaim to be of the dragon race?"

Long Teng's words were utterly discourteous. Ye Yuan was stricken with terror hearing it at the side, fearful of him enraging this black flood dragon.

But the black flood dragon was unexpectedly obedient facing Long Teng.

It was just that this matter of serving him as master, he seemed to keep on hesitating.

Long Teng felt rather annoyed and waved his hand and said, "Within five breaths, if you still don't make a decision, I'll make a move to destroy your several thousand years of cultivation! Five, four, three ..."

Right as Long Teng counted to three, the black flood dragon finally could not endure it and opened his mouth and said, "Lord Throne, this lowly subject ... this lowly subject agrees to it!"

The more Ye Yuan listened, the more bewildered he got. A clone of Long Teng's could actually intimidate a late-stage Phaseless Realm black flood dragon?

Could it be that this black flood dragon was a simpleton?

"En, consider yourself sensible! The two of you enter a contract then. If you dare to play tricks, you should know the outcome!" Long Teng said coolly.

The black flood dragon hurriedly said, "This lowly subject dare not!"

Ye Yuan had a baffled look when he saw the situation.

Just now, it was still life and death hanging by a thread. Did not think that in a twinkle, he took in a Phaseless Realm black flood dragon as a servant.

With this black flood dragon, as long as he did not run into Dao Profound Realm powerhouses, with how vast this Divine Realm was, wouldn't he be able to travel plenty of areas?

Under Long Teng's supervision, Ye Yuan and the black flood dragon entered a soul bond. This black flood dragon's life and death were governed in Ye Yuan's hands.

"Blackwind pays respect to master!"

The black flood dragon finally lowered his high head in front of Ye Yuan.

Blackwind was this black flood dragon's name.

Ye Yuan nodded his head and said, "En. You don't need to feel wronged either. Following me, there will naturally be benefits for you in the future."

Taking in the black flood dragon, Ye Yuan was finally aware of his strength too. Blackwind was at the great circle of the Phaseless Realm!

But no matter how formidable Blackwind was, he was merely at the Phaseless Realm. As long as Ye Yuan recovered to his peak, even letting Blackwind reach Divine King Realm was not impossible either.

To Ye Yuan, as long as there were sufficient heaven and earth spirit medicines, he could even train a group of Divine King powerhouse!

Of course, creating divine kings was completely different from other cultivation realms.

Refining Tier 9 and above medicinal pills, each heaven and earth spirit medicine required was all too rare. They were all things which could come by with luck, but not by searching for it.

Even the former Medicine King Hall and Alchemist Association, these level of super major factions, could not put together a few sets either.

Blackwind was Ye Yuan's servant now. Towards Ye Yuan's words, he naturally did not dare to disagree. But regarding the authenticity of Ye Yuan's words, he clearly still harbored doubts.

But Ye Yuan could not be inclined to explain anything either. In the future, he would naturally know Ye Yuan's strength.

After saying all these, Ye Yuan finally found time to find Long Teng to clear the doubts in his heart.

Long Teng seemed to know what Ye Yuan wanted to ask and said smilingly, "This black flood dragon was originally just a little snake. The dragon race bloodline it contained was extremely scarce. But this fellow's luck is extremely heaven-defying, to actually find a primeval dragon bone at the bottom of this pool. That's how he got today's achievements."

Ye Yuan could not help being amazed when he heard that. His gaze when looking at Blackwind became somewhat astounded.

Ye Yuan knew a little about the characteristics of the demon race's bloodlines. To be able to cultivate and become a flood dragon from a little snake with a faint bloodline, then almost cultivate to become a true dragon from a flood dragon, Blackwind's fortunes indeed deserved to be called heaven-defying.

The chances of this sort of thing happening were way too small.
